STAY WARM™ ENGINE SAVER

'STAY- WARM'™ Engine Saver will keep your oil in the sump at a constant temperature of 80° to 100°F., allowing for immediate circulation on start up. There is no installation required since all you do is take out your engine dipstick and insert the 'STAY-WARM'™ Engine Saver in its place and simply plug into a 110V outlet. (220V adapter available) Prior to flight simply remove and re-insert the engine dipstick. It only uses 90 watts, or the equivalent of a light bulb, so there is no fear of burning the oil and inexpensive to keep in your oil sump plugged in at all times, which is recommended for best results. The one size fits all 24" stainless steel tubing is semi flexible to fit most Continental and Lycoming 4 and 6 cylinder engines (does not matter if it is too long, as the heating element is at the bottom).

P/N 12-02830 .....**$36.50**

TANIS PREHEAT SYSTEM FOR ROTAX 912/914 SERIES ENGINES

Preheat system for Rotax 912/914 series engines. Kit contains heating elements for each cylinder, crankcase, and oil sump.

P/N 08-07395.....**$642.00**

TANIS PREHEAT SYSTEM FOR JABIRU 3300 ENGINES

Preheat system for Jabiru 3300 engine. Includes heating elements for each cylinder and oil sump, complete wiring harness and installation hardware.

P/N 08-07088.....**$574.95**

TANIS FLOOR MAT CABIN PREHEATER

Heated floor mats come in matched sets of two with a total heat output of 500 watts. They are interconnected with a harness and contain a thermostat in the power cord for temperature control. Each mat is 12" X 18" in size.

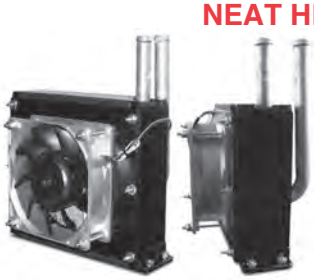
P/N 08-07396.....**$634.00**

RANS AIRCRAFT CABIN HEATER

The RANS aircraft heater is the answer to the winter flying "chills". It is very lightweight, inexpensive and installs easily in just two hours. This heater utilizes ram air & the heat off the engine muffler. Operation is simple. Slipstream air is forced through the heater inlet, passing over the muffler, picking up the heat and delivering it to the cabin or pod via an Aeroduct hose. Contains no moving parts. Fits Rotax mufflers and adaptable to other engines.

P/N 05-17400 .....**$209.95**

NEAT HEATER



A neat and compact, powerful heater system for your Light Sport Aircraft! Never fly cold again. Installs quickly and easily in any aircraft with a liquid cooled power plant. Specifically Designed For the Rotax 912 and 582.

Features:
- Powerful 300 CFM Fan
- Draws Only 3.4 amps
- Simple on/off controls
- Completely Shut Coolant Off In Summer
- Tested, Proven Design to 250 Deg at 25 psi.
- Infinite Mounting Possibilities
- Safe and Reliable
- Easy to Install/Service
- One Year Parts Replacement Warranty

Specifications:
- Dimensions: 7.5" x 6.75" x 3.75"
- Weighs only 6 lbs pounds

Neat Heater.....P/N 08-07376 .....**$393.95**
Neat Heater Install Kit .....P/N 08-07377 .....**$197.95**

FM ENGINE MOUNTED OIL FILTER ADAPTER

FM engine mounted oil filter adapters eliminate the need for oil screens and provide increased filtering capabilities for longer engine life. Being engine mounted with no external lines, they reduce mess during oil changes and increase the time between oil changes. Includes adapter, filter, gaskets and STC. (CO-300 Pictured). Note: Tempest filters are included with FM adaptors. Price listed is for one adapter each.

AIRWOLF REMOTE MOUNTED OIL FILTER KITS

The remote mount oil filter kit by Airwolf Filter Corp. replaces the Lycoming oil screen and housing allowing every aircraft to have an oil filter and to locate it on the firewall where its easy to get to. The adapter takes up no more space on the engine than the original part, so even the tightest installations can benefit from it. Your Vernatherm and oil temp bulb are reused and transferred directly to our adapter, everything else is included. Universal STC’d kit fits any Lycoming powered Single/Multi engine airplane less than 450hp. All other STC’d for specific aircraft. Hoses not included unless where indicated. ***Perfect for Tight Installations in:*** * Avion * Aeronca * Bellanca *Beech *Cessna *Cozy MK-IV * Glasair * Grumman * Lancair *Long EZ *Maule *Mooney * Piper * Pitts * RV *Skybolt *T-18 *Vari-EZ * Velocity ***Fits Lycoming Series Engines: 0-235, 290, 320, 340, 360, & 540***

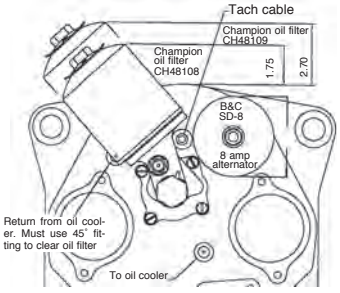
OIL FILTERS ADAPTERS — OIL DRAIN VALVES

K&N OIL FILTERS

K&N powersports oil filters are 'TUV' product endorsed and 'TUV' factory production monitored. This means every K&N oil filter is equal to or will exceed all OEM specifications. Our filters contain a modern synthetic filter media, designed for ultimate flow with less pressure drop, yet engineered for outstanding filtration to meet or exceed all OEM specifications. All K&N powersports 'spin-on' oil filters feature a heavy-duty metal can with a 17mm nut affixed onto the end that allows for easy installation and removal. The 17mm nut is crossed-drilled so racers can safety wire the filter to their bike.

K&N OIL FILTER KN-141 ..... P/N 08-06231 ..... **$9.75**
K&N OIL FILTER KN-142 ..... P/N 08-00691 ..... **$9.75**

B&C MODEL BC700 LYCOMING OIL FILTER ADAPTER



This 90˚, spin on oil filter adapter is FAA approved for replacement of existing oil pressure oil screens or spin-on filter adapters on Lycoming 0-235; O, IO, LIO, AIO, AEIO-320; O, IO, LIO, HO, HIO, TIO, AEIO-360; O, IO, HIO, TIO, LTI, AEIO-540 & IO-720 series engines. It is CNC milled from solid aluminum billet and fits perfectly without interference with the magnetos, vacuum pump, or the mechanical tach drive. Adapter kit comes complete with new gasket, new aluminum washer for the vernatherm, new copper gasket for the oil temperature sensor, sealant for the gaskets, & new Lycoming bolts for mounting the adapter. Wt: 4lbs. Uses CH48108 or CH48109 filters.

All Lycoming spin on oil filter adapter kits above include adapter, oil filter assembly, adapter plate, gaskets, & attaching hardware. LW-14969 kit also contains oil cooler bypass valve assembly, 2 elbows, & 2 oil seals for oil cooler installations.

CASPER LABS LYCOMING 90° OIL FILTER HOUSING

Designed to provide sport plane builders and owners several improvements over the standard Lycoming oil screen or filter hardware. This device locates the filter in the vertical plane for two unique advantages. 1) The filter is now in "free" space, permitting installation with tight engine to firewall clearance (that would otherwise be limited to an oil screen). 2) The filter is easily accessible without contortions or broken knuckles. 3) When it is time for filter changes . . . a prick punch in the top of the filter allows oil to drain back to the sump such that none is spilled during removal. No accessory case, lower cowl, or nose gear cleanup is required after filter removal.

Kits Include: * Housing * Filter * O-Ring and Washer

AEROQUIP E-Z OIL DRAIN SUMP VALVES

Makes aircraft oil changes easy. The hand actuated valve when attached to the oil drain port permits engine oil changes from the ground without removing the engine cowling. The spring loaded E-Z Drain valve cannot be accidentally opened. Actuation of the valve requires a combination push/twist motion. It also contains a dual seal arrangement which combines both an O-ring & metal-to-metal seal to prevent accidental leakage of oil through the valve. FAA Approved for use on the engines listed. Incorporates fine Aeroquip quality hose. Installation eligibility listing furnished with each unit.

LOW PROFILE OIL DRAIN VALVE FOR LANCAIR

This is exactly what Lancair IV owners have needed for their continental engine! Forget the huge mess when changing oil! Engineered to fit and will not interfere with the retracted nose strut! Finally, makes oil changing simple and easy in your Lancair IV! Fits any 5/8"-18 thread drain plug. Brass and steel construction; yellow zinc plated dust cover provides protection between changes. Drains via hose directly into container. P/N 08-01298 ..... **$97.50**

SAF-AIR OIL DRAIN VALVES

Changing hot engine oil has never been easier! With the SAF-AIR oil drain valve, no wrench is needed to remove the drain plug. A simple push and turn of the SAF-AIR valve locks it in the open position. The valve is made completely from anodized aluminum and stainless steel components. These materials are used throughout the aircraft industry due to their strength and durability. FAA & PMA APPROVED.

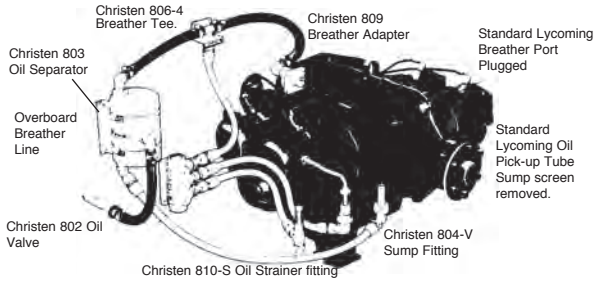
OIL SYSTEMS

CHRISTEN 801 INVERTED OIL SYSTEM



This accessory kit for Lycoming engines provides normal engine lubrication with minimal oil loss during aerobatic flight. It functions as a self-contained extension of the normal engine oil and breather systems. Can be installed in a few hours without engine disassembly.

Part No.	Description	Price
801-4	For four-cylinder engines. Includes 802 Oil Valve (with plug wrench and plugs for unused ports), 803 Oil Separator, 806-4 Breather Tee, and product manual which provides detailed instructions for application. Weight: 4.75 lb. installed.	**$988.00**
801-6	For six-cylinder engines. Same as 801-4 Kit, but is supplied with 806-6 Breather Tee. Weight: 4.75 lb. installed.	**$1,025.00**
811-V	For vertical-screen sump engines. Includes 810-S Oil Strainer Fitting, 810-R Oil Return Fitting, 804-V Sump Fitting (vertical type) with crush gasket and MS20822-10D elbow. Weight: 0.50 lb. installed.	**$359.50**
811-A	For horizontal-screen sump engines. Includes 810-S Oil Strainer Fitting, 810-R Oil Return Fitting, 805 Sump Plug with insertion tool, 804-A Sump Fitting (angular 360° swivel-type) with crush gasket and wrench for swivel clamping screw. Weight: 0.36 lb. installed.	**$527.00**
811-S	For horizontal-screen sump engines. Includes 810-S Oil Strainer Fitting, 810-R Oil Return Fitting, 805 Sump Plug with insertion tool, 804-S Sump Fitting (straight-type) with crush gasket. Weight: 0.33 lb. installed.	**$446.95**
809-K	For engines with forward breather ports such as the O-235 and O-290 models. Includes 809 Breather Adapter with gasket. AN842-12D hose elbow, and MS20913-6D plug for forward breather port. Weight: 0.53 lb. installed.	**$267.95**
812-2	For addition of oil ports to engine sumps. Includes two 812 Weld Bosses and quantity of 5% silicon-aluminum welding rod (type 4043) Weight: 0.12 lb. installed.	**$159.50**
812-1	Same as 812-2 Kit, except with only one 812 Weld Boss for addition of single sump port. Weight: 0.06 lb. installed.	**$88.25**
813-4	Stainless steel spring wire. Installed inside breather hose to permit relatively sharp bends without collapsing or kinking. 10 x 47/64". Weight: 0.12 lb. installed.	**$95.50**
813-6	Stainless steel spring wire. Installed inside breather hose to permit relatively sharp bends without collapsing or kinking. 10 x 63/64". Weight: 0.12 lb. installed.	**$16.25**
807-4	All hoses and fittings required for deluxe show-plane quality installation on four-cylinder engines. Includes Aeroquip braided stainless steel hose for oil lines, MIL-H-6000 rubber-fabric hose for breather lines, thin abrasive cut-off wheel for professional-quality hose cuts, AN and MS fittings (blue anodized), Aeroquip hose end fittings (blue and red anodized), and miniature stainless steel hose clamps. All materials are factory new; no surplus. Weight Excluding Hose: 1.53 lb. installed.	**$1,433.00**
807-4 Economy Hose & Fitting Kit	These kits include same items as Aviat Factory Kits but are packaged by Aircraft Spruce.	**$607.00**
807-6 Economy Hose & Fitting Kit		**$627.00**

10-page detailed manual - describes system operation & procedure for selecting proper components for each engine model.
P/N 05-20600..... **$17.50 ea.**

CHRISTEN OIL VALVE

Multiple port gravity operated ball valve. It is cast aluminum with textured white epoxy enamel finish and all internal steel parts are cadmium plated. Normally installed on firewall or on engine mount. Designed for fittings to be installed either at side or front or both. Requires 3 AN816-10D nipples for hose connection. Wt. 1.75 lbs. installed. P/N 08-06745 ..... **$349.00**

CHRISTEN OIL SEPARATOR

Features welded aluminum construction with a textured white epoxy enamel finish. All internal parts are cadmium plated, and unit includes stainless steel positioning clamps. Normally installed on fire wall or on engine mount. Requires 2 AN842-12D or -16D hose elbows and one AN823-10D hose fitting. Wt. 2.8 lbs. installed. Applicable to all Lycoming engine applications. Used to replace a worn out or broken oil separator on Christen 801-4 systems only. P/N 08-06740 ..... **$446.00**

AERO CONVERSIONS OIL SEPARATOR

A high-quality welded and powder-coated aluminum assembly designed to save oil vs. direct overboard crankcase breathers in normal flight operations. Features an extra-high-volume design offering enhanced inverted flight performance in entry-level aerobatic aircraft, allowing oil to be retained and returned to the engine during short-duration inverted and limited negative G maneuvers. The angled design makes it a perfect fit for Sonex Aircraft angled firewalls, while retaining compatibility with traditional vertical firewall installations in other aircraft. Comes with comprehensive installation instructions suitable for a wide-range of engine installations. P/N 08-07107 ..... **$106.95**

RAVEN WELD BOSS KITS

These kits for sump mods come with fittings and welding rod. Aluminum Sumps (most 4 cyl)
One boss... P/N 08-00789.... **$35.00**
Two boss... P/N 08-00790.... **$65.00**
Magnesium Sumps (most 6 cyl.) One boss... P/N 08-00791.... **$60.00**
Two boss... P/N 08-00792.... **$95.00**

RAVEN BASIC INVERTED OIL SYSTEM

Raven systems consist of the valve with three pipe plugs, tank, mount, and clamps. The tank is constructed from aluminum and is tig welded using stainless steel internal parts prevent corrosion. Valve is machined from solid aluminum, and all parts are power coated black or white. Valve is 5-1/2"h x 1-1/2" x 1-1/2" & weighs 1.85 lbs, 5" tank is for 4 or 6 cylinder applications, & 4" tank is for 4 cyl. applications only.
5" tank-black .....P/N 08-00796 ..... **$724.00**
5" tank-white .....P/N 08-00800 ..... **$735.00**
4" tank-black .....P/N 08-00797 ..... **$784.00**
4" tank-white .....P/N 08-00801 ..... **$724.00**

RAVEN INVERTED SYSTEM VAC ADAPTERS

These vac adapters are machined from solid aluminum with anodized finish. Furnished with a seal installed, and complete with AN fitting and gaskets.

Vac-4 for 4 cyl Lycomings.....P/N 08-00785.....**$198.95**
Non-Acc'y Vac Pad Oil P/U.....P/N 08-00786.....**$74.80**

RAVEN SUMP FITTING KITS

These sump fitting kits come with specialized fittings, washers , O rings needed to install the kit.
Sump kit for Horizontal screen 4 or 6 cyl. Lyc. P/N 08-00787 .... **$427.00**
Sump kit for Vertical screen 4 or 6 cyl. Lyc. P/N 08-00788 .... **$279.00**

SLIME FIGHTER

For engines that have horizontal oil filters, this system will eliminate the problem of oil dripping down into the engine and on the firewall while the filter is being removed. A tray is supplied that catches the oil coming from the engine flange and filter while it is being unscrewed. The oil in the tray pours down a hose connected to the bottom of the tray. The filter can now be removed and thrown away. Includes the welded aluminum tray, oil filter wrench and hose. Full set of instructions included.....P/N 08-00974 ..... **$59.75**

EP

OIL FILTER SYSTEMS

AIRWOLF AIR/OIL SEPARATOR

The Airwolf Air/Oil Separator will improve the efficiency of your aircraft dramatically whether it is a single engine fun craft of a twin powered corporate plane. Designed to separate air and oil in the crankcase breather & wet vacuum pump systems on conventional aircraft engines, Airwolf recovers oil from the crankcase, thus eliminating the oily overboard discharge and the ever present "oily belly" syndrome. Oil loss is greatly reduced - tests have indicated a recovery of up to 80% of crankcase oil previously wasted, depending on the type and condition of the engine. The Airwolf oil recovery system is only slightly larger than an oil filter cartridge (4" dia. x 7.5") and it is available for all conventional engines regardless of displacement. It can be easily removed and disassembled for inspection and cleaning. With no moving parts, the Airwolf is designed to last the life of your engine. Available for planes with either wet or dry vacuum pump. Now STC'd for most aircraft. Available in black epoxy finish only. Specify aircraft model no., serial no., and engine model. Now manufactured by Airwolf.

See www.aircraftspruce.com for unlisted models.

AIRWOLF MINI AIR/OIL SEPARATOR

Reduce oil consumption and remove harmful water vapor with Airwolf's Walker Air/Oil Separator. The AirSep distills and recirculates crankcase oil vapor generated by normal operation, extending engine life.

The Airwolf Walker AirSeps uses a tiny amount of vacuum pump discharge air, to help condense the oil inside the AirSep, and to overcome crankcase pressure to return collected oil to the engine while the engine is running. The competitive systems are only gravity flow so no oil returns into the engine until the engine is completely shut off. Thus, one system is large enough to clean both the engine breather oil and wet vacuum pumps discharge. It comes with a lifetime warranty on workmanship and material of all new AirSeps produced. STC'd

ADVANCED AERO AIR/OIL SEPARATOR

Small

Med./Lg.

These air oil separators are proven and tested to help keep your kit plane or experimental A/C free & clean from oil splatter. Totally serviceable and easy to maintain by removing the lid , rinse inspect and reinstall. The design allows for easy installation in the breather line by the use of hose clamps. Oil from the separator is returned thru tubing to a port in your engine's housing or by returning at the base of the engine crank case. Made from durable 6061T6 Aluminum, tig welded and anodized in a flat gold an for high quality finish & corrosion protection. Suitable for most engines such as Lycoming, Continental,Jabiru, MP radials & most engines & Radials up to 1200HP for the (SP0900).

CHALLENGER FAA/PMA LIFETIME OIL FILTER SYSTEM

The filter element is made from medical grade, type 304 stainless steel micronic filter cloth providing unmatched protection against oil contamination and resultant engine damage.

A rare earth magnet is installed in the top of the element for magnetic pre-filtering of the oil. The unique twist lock design allows for easy disassembly, inspection and cleaning. The quad-ring gasket doubles the seal between the filter and the engine . The filter housing is carved out of a solid piece of 6061 T6 billet aluminum with cooling fins, which not only looks good but aids in dissipating heat.

Features: • Cleanable and Reusable • High Flow Rate • Unique Twist Lock Design • Exteriors Fins • Unaffected by Water, Heat, or Pressure • Safety Wire Attachments 360 degrees • Environmentally Friendly.

AIR OIL SEPARATORS

SLIME FIGHTER AIR-OIL SEPARATOR

Universal air-oil separator ideal for virtually any experimental aircraft. They are machined from aluminum stock and welded by a certified welder. Oil separation is provided by baffles attached on the inside. This is a one pipe system with no extra drain lines or hoses required. Oil drains back immediately to the engine and warm air without oil goes out. No back pressure. The unit is the size of a salt shaker and weighs only ounces. Installation instructions and fittings included. Easy to install. Currently in use on over 100 RV aircraft.

P/N 08-00661 ..... **$163.95**

SUPER SLIME FIGHTER®

Following in the success of the Slime Fighter® series of air separators, Aircraft Spruce now offers the Super Slime Fighter with the same ease of installation for large Lycoming engines found in aircraft such as the RV-10, Glassair III and the F1 Rocket. Installs in 20 minutes with no additional drain line required. Includes instructions. Clamps and hoses are only included in the RV-10 kit. RV-10 kit includes custom hose shape. Not FAA approved.

Standard Experimental ..... P/N 08-06151 ..... **$215.95**
RV-10 Experimental ..... P/N 08-06152 ..... **$239.95**

HOMEBUILDER'S OIL BREATHER/SEPARATOR

These 4 inch diameter reservoirs have beaded outlets for 5/8" I.D. hoses and a mounting flange for easy firewall attachment. These units are of a new, improved design and the reservoir body is now a spun aluminum bowl for optimum performance. The oil separators minimize oil loss and allow free breathing of the engine. They are recommended for experimental aircraft use only and are not STC'd for any certificated aircraft. Size: 4"dia.x 3-3/8"h. P/N 10570 ..... **$49.50**

RMJ-AERO OIL SEPARATOR

Designed to remove oil from the engine crankcase breather line providing the builder with a cleaner plane, less oil consumption, and prolonged engine life from maximum cooking, cleaning, & lubrication. Fashioned after Tony Bingelis's proven design, these separators incorporate several enhancements, including O-ring seals for the lid. Fabricated from aircraft quality materials, TIG welded, and alodyned for corrosion control. They can be firewall or cooling baffle mounted with the cushion clamp provided. The design allows for easy installation in the breather line by the use of hose clamps. Oil from the separator is returned thru tubing to a port in your engine's housing. Should your engine not have an available oil return port, RMJ-Aero can provide a Self Sealing Clamp-On Adapter utilizing your engine's oil filler neck. Installation of this adapter is easy for both flying and aircraft under construction. When clamped in place around the filler neck, the adapter provides a return port for separated oil and an integral seal, which prevents leakage. Installation & maintenance guidelines are included.

Description	Part No.	Price
Oil Separator for Lycoming (3/4" inlet/outlet)	08-00571	**$249.00**
Oil Separator for Cont. (5/8" inlet/outlet)	08-00572	**$254.95**
Adapter for Lycomings	08-00577	**$31.25**
Adapter for Continentals	08-00578	**$28.50**

HOMEBUILDER'S ENGINE CRANK CASE OIL BREATHER

This is a 3-1/4" dia. can reservoir with a 3/4" or 5/8" od hose barb outlet, 1/8npt curtis drain valve on bottom of can, and a fire wall mounting bracket. Item also available with a 5/8 od hose barb outlet, please call or email for price & availability. It keeps oil in can and off belly of airplane then can be drained later with petcock. Helps to keep crank case condensation to a minimum. Recommended for experimental aircraft use only not STC'd for certified aircraft.

3/4" od hose barb outlet ..... P/N 08-00765 ..... **$98.75**
5/8" od hose barb outlet ..... P/N 08-07219 ..... **$98.75**

AEROMAG

AeroMag is a powerful high-tech magnet assembly that fits around your oil filter to trap and hold steel particles against the inner wall of the filter canister. These are the particles that are missed by the standard aircraft filter. This results in fewer damaging wear particles recirculating in your oil, and prolonged engine life. Install is simple, and there are no moving parts. AeroMag fits all Lycoming & Continental engine filters. For experimental aircraft only (FAA approval pending). P/N 08-01088 ..... **$82.25**
AeroMag for 3" Dia. Filters (Rotax) ..... P/N 08-01235 ..... **$59.75**

M-20 AIR-OIL SEPARATOR

Model 300

Model 400

The M-20 Air/Oil Separators for crankcase breathers have set the performance standards for aviation. A simple performance test for any separator is to fill the engine oil to the full mark and take a 2 hour flight. Only with the M-20 will the oil still read full with none blown out on the belly. This difference makes them preferred over all others. Only the M-20 Separators carry FAA approval for all 1600 makes and modelos of certified piston aircraft from 45 hp to 950 hp. They are also applicable to all homebuilts and foreign made aircraft with similar power.

No vacuum pump connection is used, since the addition of as little as 1/16 PSI will make a new engine perform like it is run-out. M-20's vent the crankcase pressure and use only gravity for returning the oil.

The -A and -B suffix varies only in the direction of the oil return tube. On the -A models the direction is away from the inlet, on the -B towards the inlet. The -A's generally favor Lycoming, Franklin and radials, the -B's favor Continentals. Either may be mounted in-line; the -B may also be firewall mounted since it has a blank side.

Typical Airplane Models	***Part No.***	***Price***
Model 300-A, 45 to 315 hp	08-00182	**$396.00**
Model 300-B, 45 to 315 hp	08-00409	**$396.00**

Model 400XL-B, 315 to 950 hp	08-00861	**$462.00**
Helicopter Models	***Part No.***	***Price***
Model 300H-A, 45 to 315 hp	08-00411	**$436.00**

MODEL 605Y "Y" FITTING

The oil returns of both the M-20 Breather separator and the Wet Pump Separator may be combined using the Model 605Y. This "Y" fitting has a venturi for scavenging the drop-by-drop return oil from the breather separator by the stream of oil from the wet pump separator.

P/N 08-00862 ..... **$31.65**

RAVEN AIR/OIL SEPARATOR

This oil/air separator, used in non aerobatic applications uses female threaded inserts so you can use any size of straight or angled fittings to custom fit your application. P/N 08-00798 ..... **$275.95**

ANDAIR OIL/AIR SEPARATOR

Manufactured from aircraft grade materials and anodised for corrosion protection, this unit is extremely light weight and rugged. The OS8850 has been designed to remove the oil from the crankcase breather on Lycoming and Continental Engines. This gives reduced oil consumption, cleaner aircraft, and environment. The CS850 has some unique features that make it the best on the market.

* Upper outlet can rotate through 360° allowing easy installation. * The unit can be dismantled for inspection/cleaning. * Vortex swirl separation. O-Ring seals. * Light weight: 6.4 oz. * 4 off 10-32 mounting lugs on the base of the separator for easy fire wall mounting.

P/N 08-01034 ..... **$293.00**

ANDAIR CONDENSATION TRAP

This new device is a small and very light weight condensation trap. It is used to extract the water from the oil when used in conjunction with the Andair Oil / Air Separator. Water can build up in the engine due to water in the air condensing during a cold night. Overnight this water sinks to the bottom of the sump settling at the lowest point. This is generally where the oil pump pick up is. Therefore there is a real potential that if one of these devices is not used water can build up in the engine. Flight test have shown that the worst possible condition for water in the oil is on humid days, cold nights and where short flights are undertaken.

P/N 08-01035 ..... **$108.50**

OIL COOLERS

MEGGITT TROY OIL COOLERS

MEGGITT TROY 8406R

MEGGITT TROY South Wind 8406R (formerly Harrison P/N 8526250). Applicable to all Lycoming installations from 4-cylinder 0-235 through 6-cylinder IO-540 engines. Inlet & outlet ports accept 3/8" pipe fittings. Fits Beech B-19 Sport (0-320-E2C), C-23 Sundowner (0-360-A4G), Muskateer (0-360-A2G), Cessna 172 Skyhawk (0-320-E2D), 177 Cardinal (I0-360-AF6D), 177 Cardinal (0-0-360-A1FG), 177 Cardinal RG (0-360-AFGD), Mooney Ranger (0-360-A2D). Size: 7.75"l x 3.5"d x 4.75"h. Wt.: 4 lbs.

Model 8406R..... P/N 8406R.... **$615.00**

Model 8432R–Fits BeechA24R Sierra (IO-360-A2B), Mooney Chaparral (IO-360-A1A), Mooney Mark 22 (TIO-541-A1A). Weight 4 lbs. size: 5-3/4"Hx8"Wx3-5/8"L ..... P/N 8432R.... **$697.00**

Model 10611R - Fits Piper Single Engines..... P/N 10611R.. **$682.00**

Model 10599R - Fits Cessna and Stoddard..... P/N 10599R.. **$645.00**

Model 10578R - Fits Gulfstream AA-1 ..... P/N 10578R.. **$820.00**

Model 10610R - Fits Cessnas ..... P/N 10610R.. **$650.00**

Model 10614R - Fits Piper, Cessna, Mooney .. P/N 10614R **$1,182.00**

Model 10568R - Fits Gulfstream AA5B, GA-7.. P/N 10568R.. **$623.00**

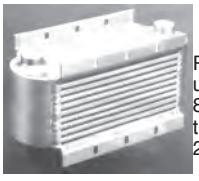
Note: The oil coolers manufactured by MEGGITT TROY formerly Stewart Warner will fit the aircraft listed but in most cases are not furnished with the FAA/PMA certification for those aircraft. The exceptions are P/N 8406R and P/N 8432R are furnished with FAA/PMA approval for certain Mooney aircraft. For all other applications, Form 337 field approvals are required for installation on certificated aircraft. Call for further information.

EP

LIGHTWEIGHT OIL COOLER FOR HOMEBUILTS

Lightweight, compact oil cooler improves cooling in closely cowled homebuilts. Mounts in any position. Furnished with 4 ft. of 5/16" I.D. hose and 4 clamps. Size 7-1/2H x 12-3/4L x 3/4D.

P/N 403 ..... **$56.50**



POSITECH OIL COOLERS

PosiTech factory new oil coolers are designed for use on experimental aircraft such as RV-4, 6, & 8, Glastar, Lancair, & Europa. Offered at exceptional savings compared to equivalent coolers. 2-yr/2000-hour warranty.

AERO CLASSICS REMOTE MOUNT OIL COOLERS

8000357
Bar & Plate

Aero Classics now offers the General Aviation community the largest number of FAA-PMA (Federal Aviation Administration - Parts Manufacturing Authority) approved oil coolers in the world.

Remote-mount oil coolers for piston and turbine engines, mount to the airframe or engine baffle instead of directly to the engine. Hoses are used to connect the oil cooler to the engine. This type of oil cooler is used with most non-Continental engines including all Lycoming engines. All FAA-PMA approved with supporting FAA 8130-3 documentation unless otherwise noted. All Aero-Classic coolers come with a full two year warranty.

Features: Corrosion Protection per MIL-C-5541, Class 1A. Pressure tested to 400 psig. Optimized internal oil flow design. Light-weight. Low cost. Two year warranty

Note: Models 8000081, 8000706 & 8000942 are for experimental aircraft only. Not FAA-PMA Approved.

AERO CLASSICS ''HE SERIES'' AVIATION OIL COOLERS

Aero's new HE Series (High Efficiency) FAA-PMA oil coolers are designed to be direct replacements for Stewart Warner (today known as Meggitt) oil coolers – most of which do not have FAA-PMA. Aero-Classics new HE Series oil coolers are intended to be a competitively priced option for those whose aircraft came with a Stewart Warner oil cooler. The HE Series come with full FAA-PMA documentation, an industry leading 2YR/2,000HR warranty, and heat rejection capabilities that match or exceed the competition.

Aero's new HE Series oil coolers are approved for use on many Beech, Cessna, Grumman, Mooney, Robinson Helicopter, and other popular aircraft makes. Listed below is the SW part number and the corresponding Aero-Classics HE Series replacement part number.

OIL COOLERS

8000545 10" Non-Congealing Universal 7th Stud

AERO CLASSIC CONTINENTAL OIL COOLERS

Aero-Classic's engine mounted oil coolers for Continental powered aircraft offer high quality features such as a CNC machined base for reliable, leak-proof mounting. Aero's line of Continental front mounted oil coolers feature a hassle free design that accommodates both 7th stud and non-7th stud engine cases - eliminating the chance of getting the "wrong" oil cooler. The oil coolers on Continental engines often mount directly to the engine and do not require hoses. All FAA-PMA approved with supporting FAA 8130-3 documentation, and full two year warranty.

NDM OIL COOLERS

NDM is one of the world's largest volume manufacturers of FAA approved oil coolers. An approved supplier to both Lycoming and Continental, as well as many airframe manufacturers, NDM holds FAA/PMA's for most of these oil coolers. NDM oil coolers are manufactured utilizing the vacuum oven brazing process rather than the less costly Controlled Atmosphere Brazing (CAB) method used by others to save costs. Utilizing the vacuum oven process guarantees a high quality product and lower warranty returns. If you are not sure which NDM oil cooler is FAA Approved for your aircraft, please provide the aircraft model & serial number and we will determine the correct oil cooler for your application.

X-SERIES OIL COOLERS BY AIRFLOW SYSTEM

The first new aircraft oil cooler design in 50 years. Computer modeling and flight testing have been used to develop coolers that deliver significantly lower oil temps with no increase in oil cooler size or oil pressure drop. Designed as a direct replacement for popular oil coolers used in experimental aircraft, the X- SERIES oil coolers are built to Airflow Systems specifications and certified aircraft oil cooler standards.Flight testing on the popular RV series of aircraft has shown oil temperature drops of 10 -15 degrees F for coolers of the same size in the same location. Not FAA approved.

Model	Horsepower	PN	Price
2002X	Up to 150 hp	08-06153	**$324.95**
2006X	160 hp to 280 hp	08-06154	**$438.95**
2008X	280 hp to 390 hp	08-06155	**$548.00**

OIL COOLER DUCT SYSTEM

This economical duct system provides the aircraft builder with a simple way to route cooling air to Stewart Warner style oil coolers. Manufactured from .040 aluminum, this kit was designed for use on RV series aircraft but is ideal for virtually any homebuilt using a firewall mounted oil cooler. Kit includes baffle duct, oil cooler duct, hardware, & installation instructions. P/N 08-05000 ..... **$42.85 ea**

TUNDRA IN-FLIGHT ADJUSTABLE OIL COOLER COVER

The Tundra Cover is designed to fit your Rotax radiators either from the front or rear. It is in-flight adjustable so you have complete control of your engines' temperature at all times. In-Flight adjustable to give you complete control of your engines' temperature at all times. Control the Tundra Covers from the cockpit with precision and ease. Can adjust full open (giving approx. 80% airflow) to full closed or anywhere in between. Installs easily with all hardware supplied using only simple tools. PN 13-05601..... **$295.00**

TUNDRA GROUND ADJUSTABLE OIL COOLER COVER

A new ground adjustable Oil Cooler Cover is now available for your Rotax 912 or HKS engine. Comes complete and ready to install. There's a better way to get your engine's oil temps back in the green, so get rid of that Duct Tape and cardboard!

PN 13-05602..... **$73.60**

AIRWOLF OIL CHILLER

The new Airwolf Oil Chiller is 20 aircraft quality aluminum fins that are precisely bent to mold around the outside of any standard oil filter. These fins total a whopping 600 sq/in of cooling area to suck the heat from your oil filter, thereby cooling your engine oil. The fins are gold anodized and quickly secured to the oil filter with two hose clamps. Easy on..easy off. Everything you need is in the kit. Lower your oil temperatures today with our "Poor Mans" oil cooler. P/N 08-07394 ..... **$149.95**

XCOM OIL THERMOSTAT SYSTEM

Designed to regulate the oil temperature on engines like the Rotax and Jabiru. If you are flying time and time again and the engine temperature is only getting to say 85°C the water will remain in your oil as a contaminant and can go on to destroy your engine with corrosion problems. Additionally, warmup is achieved very quickly on even the coldest of days because the thermostat diverts the oil flow from the oil cooler. Made in the USA these special oil thermostat units are designed to quickly allow your engine to reach and maintain its optimum operating temperature even on the coldest of days. CNC machined from 6061-T6 the unit is anodised with the type 2 surface finish to protect the thermostat long-term against corrosion. All of the hardware is aircraft grade and the oil thermostat unit is finished to the highest possible standards and is supplied with hose nipples to fit the most common oil tubing diameter used by Rotax and Jabiru. There are a number of benefits in using an oil thermostat in your aircraft which include fuel savings resulting from quick warmup times and engine operation at optimum oil temperature which also increases engine life because the engine is being operated at the correct oil temperature.

P/N 08-07212 ..... **$146.95**

ROTAX 912 13MM OIL COOLER HOSE

912 Oil Cooler Hose 13mm high heat hose for 912-914 oil coolers. Sold by the yard.

P/N 15-06907 ..... **$7.50**

ALUMINUM SIDE LOUVERS

These side louvers let hot air out of your engine compartment - or, if they are installed with the louvered openings facing forward, to bring cool air into the engine compartment, enhancing performance and service life of the engine and under-hood components. Helicopter owners often mount these over their oil cooler to let cool air in and help reduce operating temperatures. Complete with do-it-yourself instructions and hardware. Rest a set on your plane, hood or fender- see just how good they look! P/N 05-04969 ..... **$99.00**

OIL DIPSTICKS

New manufacture oil tank dipsticks stamped with proper calibration markings.

Dipstick Long Neck 13-3/4" ..... P/N 08-00037 ..... **$42.50**
Dipstick Short Neck 9-1/2" ..... P/N 08-04612 ..... **$33.75**
Dipstick 6 Qt. Short Neck 11-3/4" for O-200, C-90
P/N 08-04613 ..... **$46.00**
Dipstick 4 Qt. Ercoupe long Neck 18-3/4"
P/N 08-04614 ..... **$49.50**

VERNI-THERM VALVE - Lycoming thermostatic oil cooler bypass valve wt. 4 oz. P/N 53E19600 ..... **$319.95**

EP

OIL ANALYSIS KITS - ENGINE TREATMENT

METAL CHECK AIRCRAFT ENGINE OIL FILTER ANALYSIS KIT

Includes oil and oil filter analysis. Oil filter debris analysis should be part of all preventative maintenance programs. Piston engines generate fine wear and larger particles as the wear becomes more critical. Filter analysis is critical for turbine engines because they generate predominately larger wear particles that are trapped by small micron filtration. The oil filter is rinsed and the exact alloys presents in the debris are determined by SEM/EDXRF. The AMS number, amount, type, form, and condition of the particles are reported. Features: • Largest Oil Analysis Results Database •The Most Accurate Interpretive Results Guidelines • The Most Experienced staff. • Recommended, Approved, or Authorized by Engine Manufacturers. • 24 Hour a Day Service Available 7 Days a Week. Large Oil Analysis Kit. P/N 08-06270..... **$64.75**

AVIATION OIL ANALYSIS (AOA) KIT

A cost-effective service to enhance your aviation maintenance practices.
Aviation Oil Analysis by ALS Laboratory Group's Tribology Division (formerly Staveley Services Fluids Analysis) brings you a state-of-the-art oil analysis program designed specifically for aircraft owners. Oil analysis is an early warning system that reduces downtime, lowers maintenance costs, and helps you spot troubling issues before they become serious problems. Aviation Oil Analysis has updated their packaging to reduce transit times and keep you up to date with your results. A small vial, mailing bag, and information form are furnished with order. Upon receipt at the laboratory in Phoenix, AZ, the oil sample is analyzed and a full report is forwarded within 24 hours. Note: insufficient postage will cause a delay in receipt of your sample, please consult your local post office or contact the laboratory (1-800-445-7930) regarding current postage rates.

EP

LAB ONE AVIATION (LOA) OIL ANALYSIS KIT

This kit includes a sample bottle, shipping container and the paperwork. Upon receipt, your sample will be processed within 24 hours with the results emailed or mailed from Lab One in Phoenix, AZ. Can be used on any reciprocating or turbine engine and helicopter transmissions and tail rotors. P/N 08-01222 ..... **$12.95**

CHAMPION CH48200 OIL FILTER ANALYSIS KIT

Helps you detect abnormal engine wear and even predict impending engine trouble. It provides a comprehensive analysis of both the larger wear particles in the oil filter and the finer wear particles in the engines oil. You will get a detailed report on the filter element and the oil that is based on the state of the art analytical techniques and lab results interpretation. The report will be generated with in 24 hrs of the receipt of the sample.
Each Kit Contains the following items: •Customer Information Form (CIF) •Plastic Oil Filter Bottle •Oil Sample Bottle •Oil Sample Hose •User label for Oil Filter Bottle •User label for Oil Sample Bottle •Shipping label address to Aviation Laboratories *The laboratory analysis of the oil filter debris and oil sample included in the price of the kit (if sent with the oil filter). The filer can be returned; however, the cost of this is not included in the price. P/N 08-01051..... **$112.95**

POLY-FIBER ESO ENGINE STORAGE OIL

A fine lubricating and preservative oil used to prevent corrosion in internal combustion engines during extended storage. MIL-1-21260. Quart.....P/N 09-42450 ..... **$24.00**
Gallon .....P/N 09-42455 ..... **$89.00**

GOLDEN SPECTRO 2-CYCLE ENGINE OIL

A modern synthetic blend that surpasses the lubrication and protection ability of petroleum oils. Formulated with clean-burning synthetics, it will not foul spark plugs. High film strength components ensure complete protection against piston seizure and scuffing due to inadequate lubrication.Special additives protect against rust and corrosion. Leaves your engine free of harmful deposits and offers essentially smoke-free operation when used at the recommended ratios. P/N GS001.....**$8.75**

VPCI-326™ CORROSION INHIBITOR OIL ADDITIVE

An approved Lycoming engine oil additive for prevention of oxidation of all metals. Designed for use in engine oil at 1:10 concentration, VpCI™ (Vapor Phase Corrosion Inhibitors) will protect your engine from corrosion (in solution and in all void spaces) for up to 3 years during storage. For hydraulic oil and gearbox assemblies. Performs effectively under the adverse conditions of 100% relative humidity, and in the presence of such corrosive species as chlorides, sulfur compounds or hydrogen sulfide. There are no hazardous chromates, nitrites or phosphate inhibitors, and it utilizes the finest paraffinic petroleum distillates as carriers. Possesses an exceedingly high flash point, enhancing in-plant safety when compared to common oil protectants. It comes in concentrate form, which is easily diluted with lubricating, hydraulic or preservative oils, saving shipping and inventory expense. Not only effective on ferrous metals, but also effective on zinc, aluminum, galvanized steel, copper, cadmium, silver, brass and many other alloys. Can be upgrade most lubricants in their anti-corrosion ability. Passes through 1 micron filter. Conforms to MIL-PRF-46002C. Conforms to MIL-I-85062 (Additives to oils). Conforms to MIL PRF-16173E. • NATO 6850-66-132-6100. • NSN 6850-01-470-3358 P/N 09-02002 ..... **$19.75**

CAMGUARD OIL ADDITIVE

Designed to dramatically improve the performance of all mineral based , semi-synthetic and fully synthetic motor oils in the areas of corrosion protection, wear reduction, and seal protection. Designed to make regular engine oil what it needs to protect and lubricate any engine. A synergistic blend of advanced oil additives from all over the world, designed to reduce wear, curb deposit formation and more importantly protect engines against rust and corrosion. It contains multiple corrosion inhibitors for both ferrous and non-ferrous metals. A combination of ashless anti-wear compounds, anti-oxidants designed to reduce carbon deposits and special seal conditioners to prevent oil weeping. Camguard is FAA accepted and approved for use in piston engine aircraft oils meeting SAE-1899 standards. Compatible with piston aircraft oils, passenger car motor oils, most marine oils, and heavy-duty diesel oils.

Camguard aircraft oil additive 1 pint..... P/N 08-07096.....**$24.95**
Camguard aircraft oil additive Case of 4 pints... P/N 08-07097.....**$92.50**

Leaves your engine free of harmful deposits and offers essentially smoke-free operation when used at the recommended ratios. P/N GS001.....**$8.75**

MOBIL AGL SYNTHETIC AVIATION GEAR LUBRICANT

Mobil AGL Synthetic Aviaion Gear Lubricant offers measurably better wear protection for transmissions operating at high temperatures than Type I (MIL-L-7808) and Type II (MIL-L-23699) turbine oils, as well as wear resistance that is especially beneficial to military and other helicopters operating under unusual stresses. Mobil AGL is formulated with synthesized hydrocarbon-based fluids. The combination of a naturally high viscosity index and a unique proprietary additive system help enable the gear lubricant to provide outstanding performance in extreme service applications at high temperatures, well beyond the capabilities of mineral oils. Note: Exxon-Mibil recommends Mobil AGL for use in helicopter transmissions only. Before using Mobil AGL, operators should confirm the OEM's approved transmission lubricants. Size: 5 Gallon.
P/N 08-07406.....**$307.95**

MICROLON AIRCRAFT ENGINE TREATMENT

One-time metal treatment that virtually eliminates friction in all internal combustion engines which improves performance (horsepower), reduces wear, and extends engine life. Also decreases fuel consumption, reduces oil consumption, and lowers operating temperatures. Impregnates the engines bearing surfaces, forming a dry film lubricant that lasts no matter how many times the oil is changed. Continental A-65, C-85, and C-90 engines take the Half Kit. Most Lycoming and Continental engines used in light aircraft take the Single Kit. Turbocharged and Radial engines take from 2 to 6 Single Kits. Call for details if you have any questions on the quantity of Microlon needed for your application.

Microlon CL-100 Aircraft Kit (Single).....P/N 09-35805 .....**$119.95**
Microlon CL-100 Aircraft Kit (Half) .....P/N 09-35810 .....**$68.25**

AVIATION OIL - GREASE

AEROSHELL AVIATION OILS

Aeroshell W100 is an ashless, SAE 50 dispersant oil that provides excellent service in all four cycle aircraft piston engines. Aeroshell W Multigrade 15W-50 is an antiwear, ashless, dispersant, semi-synthetic oil. It is fully approved in all Lycoming, Continental, and Pratt & Whitney aircraft piston engines. Reduces engine wear, fuel consumption, and oil consumption. Helps engines start faster and eliminates the need for seasonal oil changes. Aeroshell W100 Plus contains additive LW16702 which reduces engine wear and corrosion. Ideal for operations in mild to warm temperatures. Aeroshell W100 & SAE 50 oils meet MIL-L-22851C specification. Aeroshell Turbine Oil 500 provides superior high temperature corrosion protection & excellent anti-wear protection. Shell Oil W80 Plus introduces the anti-wear and anti-corrosion additives of AeroShell W100 Plus engine oil into a lighter, single-grade oil for use in colder climates. The anti-wear additive reduces wear on start-up by forming a microscopic layer on the engine's moving parts to prevent metal-to-metal contract when there is little oil present. Combined with a corrosion inhibitor, it is designed for pilots who fly either in cooler weather or less frequently.
AeroShell W65 oil was produced to meet fully the SAE specification J-1899 (Grades SAE 30, 40, 50, and, 60 respectively). Promotes engine cleanness. the non-ash forming, polymeric additive was eveloped to help eliminate the harmful combustion chamber deposits that occur during normal operation.

AEROSHELL OIL SPORT PLUS 4

AeroShell Oil Sport Plus 4 is ideal; as it is extremely resistant to the immense sheer forces that occur in areas of high-pressure contact such as high-speed gearboxes, valve trains, bearings, pistons and liners. This is where the blend of base oil and additives is most crucial. AeroShell Oil Sport Plus 4 is made up of a blend incorporating synthetic technology and high performance additives to provide long lasting protection. In addition, detergents in the oil keep important areas, such as the pistons and cylinders, clear of carbon based particles that tend to adhere to these surfaces. So when you change your oil to new AeroShell Oil Sport Plus 4, you are not only removing dirt from your engine, you are also replenishing the additives used to protect your engine during normal operation. ***DO NOT use AeroShell Oil Sport Plus 4 in engines that are designed to use Ashless Dispersant aviation piston engine oils such as AeroShell W Oils. This includes air cooled Teledyne Continental Motors, Textron Lycoming and Jabiru engines.***

PHILLIPS 25W-60 ENGINE OIL GALLON

X/C 25W-60 is the first and only multiviscosity aviation oil designed and approved for radial engines originally designed to run on 120 grade. Pilots and mechanics will notice immediate benefits with X/C 25W-60 over single grade oils. Benefits such as improved oil flow at startup, quicker warm-up time, cooler operating temperatures and a cleaner operating engine. X/C 25W-60 also has proven corrosion protection in extreme conditions. X/C 25W-60 can be used year-round, during break-in and on to TBO. P/N 08-00885 ..... **$23.75**

EXXON ELITE AVIATION OIL

Exxon Elite™ 20W-50 is a multigrade oil with the flexibility to lubricate effectively over a wider range of temperatures than monograde oils. Compared to a monograde oil, a multigrade oil provides better cold-start protection and a stronger lubricant film at typical operating temperatures. Other benefits include lower oil consumption and better fuel economy as a multigrade oil, Exxon Elite™ 20W-50 has all these intrinsic advantages. • Meets SAE J1899 • Meets MIL-L-22851D (obsolete) •U.S. military approved • Contains anti-wear/anti-scuffing additive required by some Lycoming engines • FAA approved fluid for Alternative Method of compliance w/AD-80-04-03-R2, paragraph b.1

AEROSHELL AVIATION OIL W120 SAE 60

An ashless dispersant oil specifically developed for aviation piston engines. It combines non-metallic additives with selected high viscosity index base oils to give exceptional stability, dispersancy and anti-foaming performance. Based on the average ambient outside temperature at engine start-up the most common grades are SAE 40, SAE 50 and SAE 60, which equates to AeroShell Oil W80, W100 and W120 respectively. Traditionally, the choice is associated with climatic zones - AeroShell W80 for cold climate regions (-17 - 21°C), AeroShell Oil W100 for temperate regions (15 - 30°C) and AeroShell Oil W120 for warmer climates (above 26°C).

FUNNELS—OIL DRAIN SYSTEMS

CLEAN FUNNEL™

Clean Funnel™ is the funnel that keeps itself clean. Replacing the caps on each end after each use prevents left over fluid from dripping out, and keeps your work area or baggage compartment clean. No need to wipe your funnel out with a rag before reusing. Clean Funnel™ is ideal for use with fuel or oil as well as windshield washer fluid, detergents, antifreeze, hydraulic fluid, and more. Great for aircraft, automobiles, motorcycles, tractors, boats, ATV's snowmobiles, and more.

- Model 112 (turquoise) has a 1 pint fluid capacity and a 12" vinyl tube attached to its spout, making it very handy to reach into small or tight spaces.
- Model 415 (red) has a 1-1/2 quart capacity, 17" long with flexible spout, and spout I.D. is 9/16".
- Model 428 (black) has 1-1/2 quart & 13-1/4" long with a flexible spout and 1-1/8" O.D. spout.

DISPOSABLE FOLDING OIL FUNNELS

These disposable funnels are very popular among aircraft owners and pilots for adding engine oil. They store flat, clean and dry in a recloseable bag, and eliminate the messy cleaning when using a regular funnel. Also ideal for brake fluid, resins, and paints. Furnished in pack of 10 funnels.

Pack of 10.... P/N 08-00040.....**$3.10**

OIL DRIP PAN

The drip pan is 54-1/2" x 32-1/2" x 2" and is manufactured out of an extremely durable and chemical resistant plastic (high density polyethylene). White in color, our drip pan is neat and clean in appearance and allows for easy visual inspection and monitoring of any engine leaks. The size and design of the drip pan will collect virtually any leaking fluids and eliminate the need for five quart pails and other messy collection containers. It is also a convenient place to pour fuel samples. Specifically designed for general aviation.

P/N 08-06700.....**$148.50**

DRIP PANS

These newly developed oil Drip Pans are designed to protect floors from those irritating drips of oil, fuel and hydraulic fluid. They are overlapping to prevent drips from getting between the pans. Their interlocking feature allows various pan sizes to be joined, protecting floors from all shapes and sizes of aircraft. Their lightweight and durable plastic design makes for easy set-up and clean-up. The interlocking feature allows various pans to be joined, protecting floors from all shapes and sizes of aircraft, cars, buses, trucks and more! "

24" X 30".....P/N 08-07378 ..... **$29.95**

DRIP TRAP - OIL ABSORBENT

Drip Trap is a mat made of corn stalks which captures oil, coolant, and other aviation fluids that can drip from the aircraft. Drip Trap measures 20" x 20" and can absorb up to 6 quarts of oil. It won't blow away, can be driven on, won't tip over like a drip pan, and can be walked on without tracking the fluids on the hangar floor. Excellent for use with aircraft, cars, SUV's, trucks, motorcycles and in shops. When Drip Trap is fully saturated just dispose of it and replace. Drip Trap is the environmentally friendly and economical way to capture and contain drips and spills.

P/N 13-04950 ..... **$22.95**

DRAIN MATE

The patented Drain Mate is a handy new pilot tool that works like a second pair of hands. Great for complete draining of motor oil bottles and other fluid containers, Drain Mate saves time, money, and frustration. Simple to use. The spring clamp attaches to the funnel, bucket or bowl. Bend or flex it to near vertical drain position, then insert bottle for final draining (after conventional bulk removal). Depress finger tabs to clamp/unclamp bottle. The Drain Mate can also be used for other draining chores around the hangar, home, garage, marina, and shop.

P/N 08-00570 ..... **$9.95**

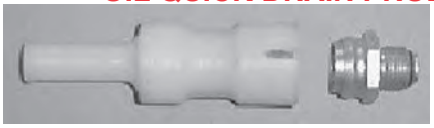
OIL SAVER FUNNEL

The OIL-SAVER is simple in appearance, but a great deal of research has gone into its design. It consists of a basic rectangular funnel that's molded to hold six inverted oil bottles, the contents of which gradually drain out and into the depository of choice -- usually another oil bottle, leaving the plastic bottles clean enough for recycling.

And with thousands of funnels already in use, they have proven to be versatile, practical tools that allow you to save money and recycle.

Features: Innovative, Customer Friendly, Multi-purpose Containment Residual Liquid Reclamation, Pro-active, Money-making Design, Exceeds Recycling Standards, Convenient Storage, Global Application, No Assembly Required, Green / Enables Consumer to Take Pre-emptive Steps to Protect the Environment. P/N 08-07391 ..... **$12.95**

OIL QUICK DRAIN PROBE KITS



STC SA4024NM - Drain oil in wind or shop with little clean up. - Save money on clean up, solvent, labor and parts. - Oil goes into bucket with out splashing or spilling.

Approved for Cessna Aircraft Models: 210J through 210 R, T210J through T210R, P210H through P210R, 337 through 337H, T337B through T337H, and P337H 310 through 310R, T310P through T310R 320 through 320F, 340, and 340 A401 through 401B, 402 through 402C, 404, 411, 411A, 414, 414A, and 421 through 421C

OIL ACCESSORIES – GREASE

EXXON OIL BOTTLE ADAPTER

This adapter allows easier pouring from the large mouth Elite oil bottles in certain aircraft and includes a built-in valve to allow the flow of oil to be regulated.

P/N 08-01042 ..... **$3.95**

OIL VALVE - THE SPILL STOPPER

Oil Valve The Spill Stopper

• Takes the mess out of adding oil • On/Off control • No more spills • Re-usable .....P/N 13-02833 **$1.95**

OIL BUDDY (NO SPILL)

For do it yourself oil changes or refilling small tanks in lawn mowers, snowblowers and chainsaws, Oil Buddy is your best tool. Eliminating the messy cleanup and spillage problems, Oil Buddy gets the job done fast and easy without getting your clothes dirty. For small fill ups, the Oil Buddy screws onto the head of the oil container and can be left there for further use if the bottle is still partially full. When the valve is closed, oil can't get out and dirt can't get in. Even if the oil container gets knocked over, no spillage will occur. Fits most 1-Quart /1-Litre bottles.

P/N 13-03144 ..... **$2.75**

OIL AND OIL FILTER RECYCLING CONTAINERS

Distinctive Features: • Attractive, user-friendly design •Wide-mouth drain pan / lid make oil changing easy and neat. Snug-fitting top prevents spillage. • Large capacity. • Holds oil and filters for at least two average oil and oil filter changes. • Size: 4-1/2 gallons. Color: Yellow •Unique filter tray. •Filters drain on tray allowing for clean handling and removal. • Environmentally friendly. • Container's lid and tray are made of post-consumer recycled plastic.

P/N 08-04975.....**$13.85**

EVANS NPG + COOLANT FOR ROTAX ENGINES

NPG+ is new coolant providing dramatic improvements in heat transfer and viscosity that make the new fluid a "pour-in," not requiring changes to cooling system components. NPG+ waterless coolant virtually eliminates boil over in gasoline or diesels - the waterless coolant allows engines to tolerate running hotter, without boiling over, and allows the cooling system to run at very low or no pressure. Because there is no water in the system engines operating with NPG+ will be free from corrosion and electrolysis, and the engines will run well no matter how hard they are driven or how hot or cold the environment is. Specified coolant for Rotax Aircraft Engines, Type 912 and 914 (series). P/N 08-04535 ..... **$38.50**

EVANS PREP FLUID

Evans Waterless Flush is used when systems cannot be drained properly of all the conventional water and antifreeze. Suggested to be used with experimental aircraft conversion and all motorcycle, ATV and import cars. Not intended to be used as a coolant.

P/N 08-04534 ..... **$23.75**

ZX1 SUPERGREASE

ZX1 Supergrease is the only Lithium Complex based grease reinforced with ZX1 Micro-Oil! During operation, the non-particulate ZX1 migrates from the grease to the components forming an extremely durable substrate film, which becomes the wearing surface. It is designed to work at extreme loads and temperatures when conventional lubricants have proved inadequate.

For use in all environments, high speed, and high-pressure applications including oil fields, marine, industrial, agricultural, aeronautical, and automotive. For use on all bearings; slides and screws; swivel packings; rack and pinions; operating at extreme pressures and temperatures in hostile environments such as mud, water, steam, salt water, acids and alkalis. ZX1 Supergrease has a shear strength to cater peak loads well beyond the scope of other greases. ZX1 Supergrease is available in a 400 g cartridge and 500 g tub.

Cartridge 400G.....P/N 08-07273 ..... **$24.25**
Tub 500G.....P/N 08-07274 ..... **$29.95**

PROLUBER ENGINE PRE-OILER

ProLuber is a device that is added on to your oil system to give you pre-start oil pressure. You just turn on the ProLuber for a couple of seconds, watch your oil pressure gauge rise, and then start the engine when the pressure reaches the desired level. It is able to generate 40-60 lbs. of oil pressure in your engine before you hit the ignition switch. Simple to install and requires no drilling through your oil pan or the block. Complete kit for installation. P/N 08-00197 ..... **$465.00**

NEXT AIRCRAFT SERVICE DUE - STICKERS

Service reminder decal "NEXT AIRCRAFT SERVICE DUE" decal is black text on white semigloss background with "FILL IN" blanks. Removable decal is designed to adhere to any surface and not leave residue behind, perfect for aircraft rentals, owners, CFI's, trainers, service/repair stations, POH, log books, instrument panels, windows. Decal measures 3" x 3". Blank fields include: • Tail Number • Oil and Filter Change (Last and next hour and date)• Annual Inspection Due Date (Month and Year) • ELT Battery Due Date (Month and Year) • Transponder Test / Inspection Due Date (Month and Year) • Altimeter & Static System Test Due Date (Month and Year) • 100 Hour Inspection (Last and Next)

P/N 09-02137 ..... **$0.45**

AV-2 AVIATION 2-CYCLE OIL

AV-2 Aviation 2-Cycle Oil is a low-smoke formula specially formulated for Rotax Aircraft Engines.

For over 12 years, AV-2 has proven its formula to be superior, not by exaggerated claims or hyped advertising, but by literally millions of trouble free flight hours.

The custom blend of 50% high quality mineral base and 50% synthetic oils is designed to lubricate vital engine parts without leaving carbon deposits.

AV-2 also protects your engine against rust & corrosion even during prolonged storage, a protection not found in straight synthetic oils.

AV-2 is specially formulated for use in "Dykes" ring equipped Rotax Aircraft Engines. P/N 15-04992 ..... **$29.95**

AV-9 FOUR STROKE OIL 32 OZ. 10W40

Rotax 4 stroke, 4 cylinder engines require special protection from high temperatures and gear wear. The semi-synthetic blend of our AV-9 is specially formulated to handle the unique operating conditions found in Rotax 4 cylinder engines with built-in gearboxes. Gearbox components are protected from premature failure with blended additives found in AV-9. The semi-synthetic blend will also suspend lead from aviation fuels. Specially formulated and blended, AV-9 is the ideal choice for Rotax 4 cylinder 4 stroke engines.

PIG® OIL ABSORBENT PRODUCTS

PIG® LIGHT WEIGHT OIL ONLY ABSORBENTS

Hangs anywhere, goes anywhere! Grab one Pad or the whole tablet to clean up an oil-based spill or splatter in any corner of the shop. Durable PIG® Oil-Only Mat quickly soaks up gas and oil but won't waste absorbency on water like rags or floor sweep! • Safely absorbs and retains oils and oil-based liquids—including lubricants and fuels—while actually repelling water. • Floats to clean up oil-based liquids on water. • Use outdoors or indoors during inclement weather to avoid wasting capacity on rain and melted snow. • Self-extinguishing material helps eliminate fire hazards; melts instead of burning if contacted by direct flame.

*15 each 14"x14.25" Pads ..... P/N 08-07319 ..... **$10.90**
100 each 15"x20" Pads ..... P/N 08-07317 ..... **$45.90**
15"x50 ft. Roll ..... P/N 08-07320 ..... **$19.99**

PIG® MEDIUM WEIGHT OIL ONLY ABSORBENTS

Clean up oil-based spills without wasting absorbency on water. Unlike rags or floor sweep, PIG® Water-Repellent Oil-Absorbent Mat quickly soaks up gas and oil but repels water from rain, slush, washdowns, ponds and sumps and more! • Safely absorbs and retains oils and oil-based liquids—including lubricants and fuels—while actually repelling water. • Eight layers of 100% polypropylene are thermally bonded to make PIG® Mat the strongest mat on the market; won't rip, fray or fall apart, even when saturated • Exclusive dimple pattern speeds wicking of liquid toward dry spots on pad, so messes disappear fast, cleanup is simple and you use each pad to full capacity.

*3 each 15"x20" Pads ..... P/N 08-07354 ..... **$4.85**

30"x150 ft. Roll ..... P/N 08-07321 ..... **$89.95**

PIG® UNIVERSAL LIGHTWEIGHT ABSORBENTS

This Tablet goes anywhere to clean up drips, spills or splatters throughout the shop. Easier to use than floor sweep, so it reduces cleanup time. And with no damaging dust and grit to track around, the shop stays cleaner! • Eight layers of 100% polypropylene are thermally bonded to make PIG® Mat the strongest mat on the market; won't rip, fray or fall apart, even when saturated •Exclusive dimple pattern speeds wicking of liquid toward dry spots on Pad, so messes disappear fast, cleanup is simple and you use each Pad to full capacity • Convenient pop-up tabs let you hang the Tablet anywhere you need it

*15 each 14"x14.25" Pads ..... P/N 08-07314 ..... **$11.95**
100 each 15"x20" Pads ..... P/N 08-07312 ..... **$62.75**
15"x50 ft. Roll ..... P/N 08-07315 ..... **$19.99**

PIG® MEDIUM WEIGHT UNIVERSAL ABSORBENTS

Genuine PIG® Mat is the better way to soak up drips, spills and splatters, and spend more time repairing vehicles. Easier to use than floor sweep so it reduces cleanup time. And with no damaging dust and grit to track around, the shop stays cleaner! • Safely absorbs and retains oil, coolants, water, grease, gasoline, solvents, auto fluids, paint overspray, battery acid and most other liquids • Eight layers of 100% polypropylene are thermally bonded to make PIG® Mat the strongest mat on the market; won't rip, fray or fall apart, even when saturated • Use Medium-weight Pads for persistent leaks and mid-sized spills; strong enough to last all day at workstations, in service bays or under equipment.

*3 each 15"x20"Pads ..... P/N 08-07353 ..... **$4.50**
100 each 15"x20" Pads ..... P/N 08-07313 ..... **$74.75**
30"x150 ft. Roll ..... P/N 08-07316 ..... **$118.95**

PIG® UNIVERSAL ABSORBENT SOCKS

Wrap flexible, self-contained PIG® Socks around tanks, drum areas and puddles to halt the spread of liquid while the Socks' thirsty absorbent filler absorbs it. Easier to use and clean up than messy floor sweep! • Moldable Socks surround equipment, drums or tanks and contain spills to keep them from spreading into walkways; also great for catching liquid that seeps under overhead doors • Contained absorbent makes cleanup quick and easy • Thirsty 100% PIG® Mat filler; polypropylene is highly absorbent and chemical resistant • Polypropylene skin is chemical and tear resistant; reduces dust and holds in liquid, even when fully saturated • Safely absorbs and retains oil, coolants, water, grease, gasoline, solvents, auto fluids, paint overspray, battery acid and most other liquids.

*2 Universal Socks ..... P/N 08-07324 ..... **$8.75**
12 Universal Socks ..... P/N 08-07327 ..... **$39.85**
12 Water Eepelling Socks (oil only) P/N 08-07325 ..... **$59.50**

*** Designates item pictured.**

PIG® FORM-A-FUNNEL® DRAINING TOOLS

This handy tool guides oil around skid plates and cross members right into your oil drain for guaranteed no-mess oil changes! It quickly bends, molds and holds any shape, so you can customize the perfect channel to drain liquids without making a mess. • Thick, pliable nitrile rubber coating is highly compatible with common automotive fluids and works in temperatures from -30°F to 450°F . • Edges can be molded around filters or drains to create a leakproof seal; Tool stays in place for hands-free draining and channeling • Cleans easily with cleaners and degreasers; stores flat or rolls up to take along in your tool box or glove compartment • Great for draining oil and other fluids from any type of vehicle or equipment, including cars, trucks, motorcycles, aircraft, boats, forklifts, generators, snow blowers, mowers and more.

*14.5"x6.5" Funnel ..... P/N 12-03147 ..... **$19.95**
29"x5" Funnel ..... P/N 12-02599 ..... **$29.95**

PIG® UNIVERSAL LIGHT WEIGHT ABSORBENT DRUM-TOP PADS

Eliminate messy drum storage areas without touching a mop or rag! Precut to fit on 55-gallon drums, PIG® Drum-Top Pads quickly absorb drips or overfills to help keep your shop clean and safe, so you can focus on repairing vehicles. • Precut with holes for 3/4" and 2" bungs to provide a perfect fit on steel 55-gallon drum tops • Eight layers of 100% polypropylene are thermally bonded to make PIG® Mat the strongest mat on the market; won't rip, fray or fall apart, even when saturated • Highly absorbent material traps liquids, so it won't drip or leave behind fibers when you pick it up; spend less time collecting used absorbent between jobs.

5 Pads ..... P/N 08-07328 ..... **$11.50**
20 Pads ..... P/N 08-07329 ..... **$37.50**

PIG® MAGNETIC ROLL HOLDER

Keep your PIG® Mat within an arm's reach for easy access and hassle-free dispensing. The PIG® Magnetic Roll Holder attaches to any metal surface to keep Mat off the floor and close at hand. • Holds one 15"W x 50'L PIG® Mat Roll (P/N 08-07320 or P/N 08-07315) for easy one-hand dispensing• Durable, powder-coated steel resists chips, rust and corrosion • Powerful magnets keep Roll Holder firmly in place during dispensing; can be removed and relocated in seconds.14.5" Magnetic Roll Holder..... P/N 08-07331 ..... **$28.00**

PIG® VERTICAL ROLL HOLDER

Dispense PIG® Mat the convenient way with this handy roll holder! Its free-standing, locking metal frame adjusts to accept a wide variety of rolls and is collapsible for compact storage. • Adjust center bar to change width; choose 16" to save space and keep small rolls from sliding or 33" to maximize PIG® Mat supply • Folds for storage in tight spaces; locks open for hassle-free moving • Tilted design positions Mat roll above rear support for enhanced stability when dispensing • Durable painted steel resists rust and corrosion for long life.

Mat Roll Dispenser ..... P/N 08-07332 ..... **$69.85**

PIG® UNIVERSAL SPILL KIT

Respond to spills fast so you can get back to work. Our hi-viz Kit has the supplies you need for quick cleanups, and it's so affordable you can stock every spill-prone spot in your shop or stash one in each fleet vehicle for better liability protection! • Moldable Socks surround equipment, drums or tanks and contain spills to keep them from spreading into walkways; also great for catching liquid that seeps under overhead doors • Mat Pads and Socks safely soak up and retain oil, coolants, water, grease, gasoline, solvents, auto fluids, paint overspray, battery acid and most other liquids • Bright nylon Bag stands out, so you can find it when you need it; makes a great "insurance policy" and simplifies reg compliance.

Universal Spill Kit..... P/N 08-07326 ..... **$43.75**

PIG® TRAFFIC MAT® RUG

Help keep extreme-traffic walkways dry and safe with this highly durable, absorbent Rug. Heat-fused TRAFFIC MAT® Rug won't rip or fray, even under wheeled traffic, so it's perfect for ensuring heavy-use, splash-prone areas stay clean and injury free. • 100% polypropylene material is heat fused and needle punched for incredible durability; won't ball or fray, even under wheeled traffic • Roll out to add traction and absorbency near parts washers, paint areas, work benches, doorways, service bays and other high-wear areas • Safely absorbs and retains oil, coolants, water, grease, gasoline, solvents, auto fluids, paint overspray, battery acid and most other liquids • Self-extinguishing material helps eliminate fire hazards; melts instead of burning if contacted by direct flame.

*36"x150 Ft. Standard Mat ..... P/N 08-07322 ..... **$132.95**
36"x100 Ft. Polybacked Mat..... P/N 08-07323 ..... **$179.50**

ULTRALIGHT ENGINE ACCESSORIES

SPARK PLUG CADDY

Handy case holds (2) 14mm spark plugs. Small enough to fit into your pocket.
P/N 13-03869 ..... **$2.95**

SPARK PLUG WRENCH

Loosen or tighten your spark plugs with this handy tool.
P/N 13-03921 ..... **$3.35**

PLASTIC STARTER HANDLE

Black flexible plastic heavy duty handle.Tested to –40°F
P/N 13-03865 ..... **$4.95**

SPARK PLUG JACK

Rivets or screws to any flat surface and holds two spare 14mm plugs. Tough polycarbonate plastic with spring-loaded plug anchors keeps plugs dry and protects gaps. P/N 13-03870 ..... **$3.95**

NYLON STARTER ROPE

The perfect replacement rope for worn-out manual starters. P/N 13-03922 ..... **$0.45 per ft.**

SPARK PLUG CAPS

Original NGK. Black. 5000 ohm resistance. P/N 08-00737 is used on threaded type plugs. P/N 08-04960 is used on solid top plugs.
P/N 08-00737 ..... **$2.60**
P/N 08-04960 ..... **$2.60**

SPARK PLUG WIRE

High-quality multi-strand copper core unshielded wire. 7mm diameter. For all Rotax® and most other engines. Replaces Rotax® Part No. 965-158.
P/N 11-04105 ..... **$1.11 per ft.**

FLEXDRIVE

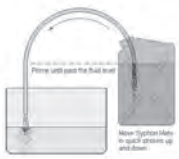
PosiFlex coupler for Quicksilver®

For 377/477 w/o high-thrust mod ..... P/N 05-01985 ..... **$249.95**
For all high-thrust mods ..... P/N 05-01986 ..... **$239.95**

RATIO-RITE CUP

Getting the right oil-to-gas ratio is no problem with this tough polypropylene cup. Just fill the cup with oil to the ratio level desired, and mix with gasoline. Ratios from 16:1 to 50:1. Graduated in ounces and CCs for filling chain cases, etc. 18 oz. capacity.
Cup..... P/N 08-01091 ..... **$3.95**
Lid..... P/N 08-03677 ..... **$1.70**

SYPHON MATE



Here's a safe and easy method of fuel transfer. A simple jiggle of the Syphon Mate establishes the flow, and then air pressure maintains it. Never wears out, and it's guaranteed for three years. The outlet end is 1/2" standard pipe thread for easy attachment to a garden hose, if needed.
P/N 05-01018 ..... **$7.95**

AIR-TECH ROTAX GEAR BOX CLUTCH RK400

The primary purpose of the clutch is to disengage the prop from the engine allowing it to start and operate at idle without vibration. When the engine is idling (below 2350 RPM) the prop is not turning. Installation of the clutch replaces the gear box flywheel and the hardy disk. Added weight is approx. 3 Lbs. P/N 10-04811 ..... **$519.00**

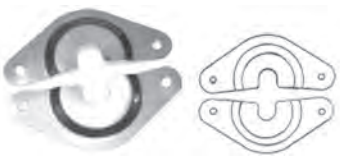
STAINLESS STEEL FIREWALL SHIELDS

Two piece shields for use over cables or wires with large end-fittings or existing installations. Single piece for use where the cable or wire may pass through the hole. Flat shields designed for use on wooden or composite firewalls using a fire resistant sealant to prevent leaks. Both types of shield available in flat or with dimple to accommodate rubber grommets up to outside diameter.
Actual hole size in 2 piece shields is slightly larger than indicated to prevent chafing cable. Ream pilot hole in single piece shields oversize for the size grommet used. Use grommets that fit tightly around the cable or wire to insure a good seal.
Shields may be installed with screws, bolts and plate nuts or rivnuts. Install cable and grommet in firewall. Locate the shield to insure that it is centered on the cable - then drill attach holes in firewall. Shields pre-drilled with 5/32" mounting holes. If more than one cable passes through grommet fire resistant sealant must be applied to grommet.
Caution: Any holes drilled in the firewall are potential source of carbon monoxide in the cockpit. Extreme caution must be exercised when installing firewall shields in your aircraft. They do not provide the necessary seal around cables or wires to prevent carbon monoxide, smoke or fire from entering the cockpit. The shields are designed only to protect the sealing material (grommets/gaskets) from excessive heat.

Single Piece 3/16" Hole with Rubber Backing P/N 61-175..... **$9.50**

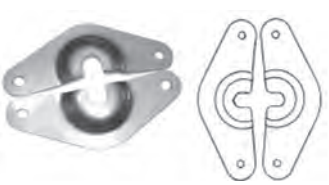
Single Piece 5/16" Hole 3/4" Dimple For Grommet
P/N 61-225..... **$9.50**

Two Piece 3/8" Hole 1" Dimple For Grommet
P/N 61-375..... **$11.50**



Two Piece 3/8" Hole 1-1/4" Dimple For Grommet
P/N 61-475..... **$11.50**

Two Piece 1/2" Hole 3/4" Dimple For Grommet
P/N 61-300..... **$11.50**



Two Piece 1/4" Hole 3/4" Dimple For Grommet
P/N 61-250..... **$11.50**

Two Piece 3/8" Hole 3/4" Dimple For Grommet
P/N 61-275..... **$11.50**

LORD ENGINE MOUNTS

LORD ELASTOMERIC ENGINE MOUNTS

These compression type couplings consist of bonded rubber joints pressed into the sockets of metal hubs. These dynafocal engine suspensions provide proper flexible support to isolate engine vibrations and reduce noise transmission to airframe structure in all aircraft applications. Careful design assures maximum strength to hold the engine under ultimate load and emergency conditions. Suspensions also distribute loads in most desirable patterns, control engine motions, accommodate thermal expansion and manufacturers' tolerances.

PROMPT SHIPPING GUARANTEED! IF YOU REQUIRE UNLISTED LORD MOUNTS, PLEASE CALL US FOR YOUR BEST PRICE. WE BEAT ALL COMPETITOR'S PRICES! LET US KNOW OF ANY LOWER PRICE AND WE WILL BEAT IT!

08-00774	J9613-49	94110-20	**$88.75**

SANDWICH MOUNTS FOR HOMEBUILT AIRCRAFT

Sandwich assemblies of natural rubber and specially blended synthetic compounds bonded to 2 metal plates. Normal installation requires 4 assemblies, each consisting of 2 sandwich mountings and 1 spacer. Satisfactory performance requires that the spacer be designed to the correct length to precompress each mounting to guarantee proper positioning of the mountings. Set consists of eight bonded sandwich mountings equivalent to Lord Mount No. J-7402-5 (2" Dia.) and four 4130 steel spacers with mounted rubber shoulder. Use with dynafocal engine mount rings using 2-3/4" I.D. retainer cups. Used on many homebuilts including the Defiant and Long-EZ .....P/N 08-03500 .....**$449.00**

SPECIAL HEAVY DUTY MOUNT SETS

Designed for use on aerobatic aircraft such as Christen Eagle and Acro. Same style as homebuilt type but inner core has been "beefed up" and elastomers added to encapsulate the spacer. 2-inch diameter. Includes a set of 8 Mounts and 4 spacers to make one complete engine set of 4.

Note: Mounting hole is 7/16" and requires AN7 bolts for installation.

50401-300 w/4 Spacers .....P/N 08-03600 .....**$247.00**

DISCOUNT: LESS 10% ON 6 SETS, 15% ON 10 SETS, 20% ON 20 SETS

LORD MOUNTS FOR COZY ENGINE MOUNT

These Lord J-7402-24 mounts fit the engine mount for Lyc. 0-360 manufactured by CG Parts.

P/N 07-01115 .....**$112.95**

SKYBOLT PLATEMOUNTS

The SK2003A Series Mounts were specifically designed around the latest generation Cessna/Lord J7444-42 Series Mount. The SK2003-14A, -24A, and -42A all have the same flex feature as the J7444-42. They look and install exactly the same as the Cessna/Lord part it replaces using the same fastener length. The SK2003-14A, -24A, and -42A are fixed depth, Non-Adjustable Platemounts. The -14ADJ, -24ADJ, and -42ADJ are adjustable and can be adjusted without removing the cowling for an exact fit.

Model	Application	Part No.	Price
SK2003-14A	Cessna PN J7444-14. Used On - 67-On C150 (10ea), 67-86 C172 (11ea), C172XP (13ea) 68-78 C177 (14ea)	08-07222	**$14.65**

SMALL URETHANE EAR STYLE ENGINE MOUNT BUSHINGS

These engine mount bushings are made of a special urethane formula which outlasts most other mounts. They have been in use on O-540, IO-540 and TI-540 series engines for years, and are now available to the experimental aircraft market. Includes two bushings, one spacer and two washers. Specifications: These small ear type bushings are applicable to the following engine models: O-540-A1A, -A1A5, -A1B5, -A1C5, -A1D, -A1D5, -A2B, -A3D5, -B1A5, -B1B5, -B2B5, -B2C5, -B4B5, -C1B5, -E4A5, -E4B5, -E4C5, -G1A5, G2A5, -F1A5, -F1B5

IO-540-A1A5, -B1A, -B1A5, B1C5, -C1B5, C4C5, -D4A5, -E1A, -E1A5, -E1B5, -E4A5, -G1A5, -G1B5, -G1C5, -G1D5, -G1E5, -G1F5, -D4A5, -K1A5, -K1A5D, -K1B5, -K1C5, -K1d5, -K1E5, -K1F5, -K1G5, -K1G5D, -K1J5D, -T4A5D, -T4B5D, -N1A5, -R1A5, -S1A5, -C4D5D

TIO-540-A2C, -S1AD P/N 08-07393 .....**$29.95**

912/914 ROTAX RING MOUNT

This ring mount for Rotax 912/914 engines is 4130 chrome-moly construction, powder coated, and fits all 912 and 914 engines. Not FAA approved, but built using the same processes and quality control required for certified parts. Standard color is white. Options include additional clearance for a 12-volt high-amp starter cable connection and powder coating in other colors. The mount is furnished with installation instructions and the required shim washers recommended by Rotax. Mounting hardware is not included.

Rotax 912/914 (WHITE)
P/N 08-07113 ..... **$656.00**
Rotax 912/914 Special Color
P/N 08-07152 ..... **$923.00**

BARRY MOUNT FOR VANS AEROBATIC AIRCRAFT

Barry Controls is a manufacturer of many aircraft engine mounts of both experimental and certified types. They also manufacture engine mounts for experimental and kit airplanes of various makes and models. Please call or visit our website for application information.

P/N 94016-08.....**$437.95**

HOMEBUILDERS CONICAL LYCOMING ENGINE MOUNT BUSHINGS

These new bushings offer superior damping qualities and do not harden over time as original mounts can do. They are molded from hi-tech silicone rubber which offering a much lower compression set which reduces engine sagging over time. Silicone also withstands a very wide temperature range and is compatible with grease and oil. These mounts are not PMA'd or FAA approved and are for use on experimental aircraft only. Not an approved replacement for Lycoming 71032 bushings. Sold in set of 8 bushings.

P/N 08-00662 ..... **$39.50 /Set**

LORD ENGINE MOUNTS FOR ULTRALIGHTS

All altitude mounts for vibration isolation and shock prevention in all directions. Available in soft, medium, or hard rubber.

200 Steel Holder 45 lb..... P/N 15-05499..... **$73.95**

URETHANE CONE STYLE ENGINE MOUNT BUSHINGS

These engine mount bushings are made of a special urethane formula which outlasts most other mounts. They have been in use on smaller 4 cylinder Lycoming engines from the 0-235 series to the GO-480 series for years, and are now available to the experimental aircraft market.

Specifications: These cone type mounts are applicable to the following engine models: O-235-C1, -C1B, -C2A, -C2C, -F, -F1B, -G2A, O-290-D, -D2, -D2B, -D2C, O-340-A, O-340-B, O-320-A2A, -A2B, -A2C, -A3A, -A3B, -A3C, -B2A, -B3A, -B3B, -B3C, -E1A, -E2A, IO-320-E2A, O-435-A, -A2

GO-480-B, -B1A6, -B1B, -B1C, -B1D, -C1B6, -D1A, -F6, -F1A6, -F2A6, -F4A6, -G1A6, -G1D6, -G2D6, -G2F6, -G1H6, -G1J6.

P/N 08-07392 .....**$5.95**

STAINLESS STEEL FIREWALL PENETRATION KIT 3/4

During the testing phase of our all stainless steel heater bypass box, we were astounded at the affects of a simulated engine fire on aluminum firewall components. Watching how fast the aluminum melted away (only 16 seconds) took us by surprise. It became very apparent that fireproofing the firewall was more important than most people realize.
After many months of trial and error, a fireproof pass through was designed. The firewall Penetration Kits offer a fireproof method of getting wires and cables trough the firewall in a clean, professional looking manner that allows easy removal for replacement if necessary.
Testing was initiated on most common methods of wire and cable penetrations available on the market. Simulated engine fire was directed at the stainless shields with rubber grommets, high temperature silicone, eyeball fittings, plain rubber grommets and several untried methods. All failed the fire test with the exception of the steel eyeball, and it only accepts one cable.
The kit comes complete with stainless steel fabricated fitting, fire sleeve tubing, two ALL stainless steel hose clamps and a tube of fire block sealant to seal the ends from moisture and gasses. Includes installation instructions.
• Fireproof seal of the firewall for penetration of wires and cables.
• Seals out moisture and gasses.
• Easy replacement of wires and cables if necessary.
• Very clean looking installation.
• Available in three sizes.
To determine the size you need, plan where you want to run your wire and cable bundles. Use a tie strap or twist tie to bundle the wires and cables. Measure what size holes the bundle will fit through and choose the NEXT LARGER size (see installation instructions.) You need enough clearance between the bundle and stainless fitting to push the second fire sleeve into the fitting creating the fireproof, chafe proof seal.
Typical installation. Wires can be run straight out or turned back to attach on firewall reducing vibration.
There are so effective that they received an STC under Advisory Circular AC 20-135 Power plant Installation and Propulsion Systems Component Fire Protection Test Methods, Standards and Criteria.
Firewall Penetration Kit 3/4" .....P/N 09-00978 ..... **$44.50**
Firewall Penetration Kit 1/2" .....P/N 09-02601 ..... **$36.95**
Firewall Penetration Kit 1" .....P/N 09-00979 ..... **$47.65**

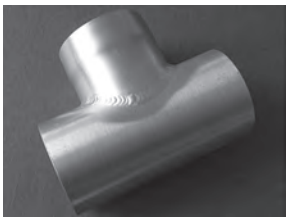
HEATER BYPASS VALVES

Three models of the all stainless steel heater bypass boxes are offered. The engine side control lever comes with a backing plate that attaches to the cabin side of the firewall and has a 2 inch scat tube outlet so a tube can be attached in the cabin that directs air where wanted.
All stainless steel construction offers a fireproof closure in case of an engine fire.
New flapper design offers better seal to keep out hot air when closed.

HEATER BYPASS VALVE FOR RV-10
P/N 08-06230 .....**$188.00**

HEATER BYPASS VALVE WITH CABIN SIDE CONTROL LEVER FOR RV-7, RV-8 AND RV-9
P/N 08-01311 .....**$96.00**

HEATER BYPASS VALVE WITH ENGINE SIDE CONTROL LEVEL
P/N 08-01311-1 .....**$94.50**



T TUBE CONNECTOR

Expanded on short leg to slip over a 2" O.D. tube to divert air in two directions. Especially handy for close to the firewall applications. Also available with non-expanded short leg. Weight is 1.7 ounces.
P/N 08-07304 .....**$31.75**

2-1/2 INCH Y TUBE CONNECTOR

With 2" offshoot. If you are running 2.5" tubing in one area and 2" to another, this is your part. Weight is 1.8 ounces.
P/N 08-07303 .....**$38.90**

2 INCH DIAMETER Y TUBE WITH SHUT-OFF VALVE

This is a DL-010 "Y" Tube, modified with a shut-off valve in the straight run tube. The shut-off valve enables the builder to divert the flow of air from the straight tube and direct all or part of the air flow to the angled tube. Furnished with one stainless steel hose clamp. Weight is 2.9 ounces.
P/N 08-07296 .....**$59.85**

MODIFIED VA175 TUBE CONNECTOR

This is a direct replacement for the VA175 (Van's part number). The VA175 directs warm air in the RV-10 tunnel to both sides equally.
With the Modified VA175, air can be directed all to one side, partially to one side, or both sides, through the controllable (cable actuated) flapper on the inside of the unit.
P/N 08-07306 .....**$59.95**

SHUT OFF VALVE TUBE CONNECTOR

Expanded on one end to 2" I.D. to slip over a 2" O.D. tube to regulate or shut off air. Also available non-expanded for in-line applications. Weight is 2 ounces. P/N 08-07305 .....**$67.50**

EXHAUST SHIELDS

Over the years we have seen failure of the rivets that hold the exhaust heat shield to the mounting bracket. The solution was to spot weld the stainless steel mounting bracket to the stainless steel heat shield thus eliminating the possibility of rivet failure. Adding additional spot welds insures reliability. They are offered in two sizes, 2 inch and 4 inch to cover most applications.
Exhaust Shield 2"
P/N 08-07351 .....**$11.50**
Exhaust Shield 4"
P/N 08-07352 .....**$12.95**

EP

EXHAUST COMPONENTS

ALL STAINLESS STEEL TRI-BOX

These boxes were developed for builders who want a simple, light, all stainless box that will fit in tight places, as it does not extend forward of the firewall as far as a standard box. Shown in the photo is a left unit. The box is available in both left and right units. The hole spacing is correct for the pre-punched holes in the RV-10 firewall, but they can be mounted on any firewall. For ease in cable routing, the arm on the box is adjustable using the provided lock nuts. Everything in the unit is stainless steel, including bushings and rivets. It is furnished with a closed-cell silicone gasket. Weight is 9.8 ounces. Please note that these boxes are a direct replacement for the aluminum box available from Vans. The RV-10 uses both a left and a right unit, and they also can be ordered separately. If you are not sure which one(s) you need, refer to your firewall plans drawings.

Right.....P/N 08-04958 .....**$139.50**

Left unit is a special order part. Please contact us to order.

2 1/2" INLET AND 2" OUTLET HOMEBUILDERS CABIN HEAT BOX

This box is identical to the deluxe stainless steel cabin heat box, except that the inlet is 2 ½" OD so that it can be used on larger heat muff applications where the builder is using 2 ½" scat tubing. This box is currently being used on the MICCO certified aircraft. Weight is 7.2 ounces.

P/N 08-04013 ..... **$119.95**

CABIN HEAT BOX

P/N DL-008 - 2.5" inlet and 2.5" outlet. The inlet is positioned 90 degrees to the outlet, versus straight through in all of our other boxes. The mounting plate, shaft, flapper and bushings are all stainless steel. The rest of the box is anodized aluminum. This box is certified and is the box currently being used on all Cirrus aircraft. Furnished with silicone gasket. Weight is 6.3 ounces. Certs are available from us.

P/N 08-04959.....**$258.95**

SIDE INTAKE HOMEBUILDERS CABIN HEAT BOX

P/N DL-015 - This box is identical to the standard cabin heat box, P/N DL-001, except that the air intake is parallel to the firewall rather than coming straight in from the heat muff. This gives the builder the option of running scat tube parallel to the firewall. Total weight is 5.2 ounces. Furnished with a flange gasket and four mounting rivets. Can also be bolted to firewall. P/N 08-04957 .....**$109.50**

CESSNA RISER HALF CLAMP 0750161-25

Cessna Riser Half Clamp 0750161-25, for Cessna 172R and 172S.

P/N 05-04890 .....**$54.75**

AERONCA HEAT MUFF

Aluminum muffs for models 7AC and 11AC exhaust stacks. Fit either left or right side. P/N 05-08715.....**$209.95**

2" DIAMETER 90° TUBE

This unit is designed to slide over the end of the 2" O.D. tube protruding from a cabin heat box that extends through the firewall. The short end of this unit is expanded to 2" I.D. Two stainless steel clamps are furnished with the unit. If you use scat tube, the 90° angle allows you to run the scat tube parallel to the firewall and away from undesirable areas (brake pedals, etc.) Constructed of seamless 6061T4 .028 wall tube. Weight: 1.4 oz.

P/N 08-00863 ..... **$26.50**

2" DIAMETER "Y" TUBE

"Y" tube is designed to be used with the Homebuilders cabin heat box to make warm air available to 2 or more locations in the aircraft. Constructed of seamless 2024T6 tube, it weighs only 2 oz. These tubes are expanded to 2" I.D. on the inlet end to slip over and clamp to the 2" O.D. tube of the cabin heat box. Due to the very light weight, "Y" tubes can be installed in scat tubing as well as attaching directly to cabin heat boxes. One stainless steel clamp is included with "Y" tube. Due to the light weight of only 1.7 oz., the non-expanded Y-tube can be placed anywhere in a run of tubing to give more options for heating additional areas of the aircraft. Furnished w/2 stainless steel hose clamps

Standard "Y" tube.....P/N 08-04100 ..... **$31.85**

Non-expanded "Y" tube.....P/N 08-04130 ..... **$29.85**

IN-LINE HEATER/ DEFROSTER VALVE

This in-line valve connects to 2" SCAT ducting. It comes complete with cable end and can be hooked up in any combination to direct air to either heater outlets or defrost outlets. Actuating lever is adjustable to any position. Very popular on RV's & other homebuilt aircraft.

P/N 08-00053 ..... **$107.95**

HOMEBUILDER'S HEAT MUFFS

P/N 08-03900

P/N 08-00473

These superior quality heat muffs are made entirely of 6061 and 5052 aircraft grade aluminum, offset from the center to clear the close cowling of most homebuilts. The muff can be installed anywhere on the exhaust system where there is 12" of straight pipe, baffle, or even on an aft vertical baffle. The reason for using forced air through the muffs rather than just taking warm air from the low pressure plenum is that in order to have cabin heat you have to have forced air. The muff is constructed so that it can be used for either cabin heat or carb heat, or both, as there is 1 outlet & 1 inlet. The muff is split and piano-hinged to "clam-shell" over the exhaust pipe. This is necessary if you have downturns on your exhaust pipes and do not want to cut off the downturns should you later want to remove the muff. Stainless steel clamps are furnished with the muff. Inlet and outlets are 2" dia. and will fit 1.75" dia. pipes. The standard 9" body has 1 inlet & 1 outlet and generally used for cabin heat (wt:10.4 oz.). The shorter 6.5" body 1 inlet & 1 outlet and generally used on the front crossover section of the exhaust to duct heat to the carburetor box (wt: 8.9oz.).

Standard 9" body ..... P/N 08-03900.....**$126.95**

Standard 6.5" body ..... P/N 08-00473.....**$126.95**

CESSNA TYPE HEAT MUFF

Heli-arc welded aluminum muff with rustproof stainless steel fins for clamping to stack. Similar in design to the new Cessna type. Furnished with attaching clamps.

Muff w/2" Outlet ..... P/N 08-02400 ....**$82.00**

Muff w/ 2.5" Outlet ..... P/N 08-02500 ....**$81.75**

HEAT BOXES – EXHAUST COMPONENTS

WARM/COOL AIR SELECTOR/MIXER

P/N DL-016HCV - This unit has not only the capability of providing warm air to the cockpit but also cool air, or a mix of both. There are two parts to the unit. The "T" section (engine side of firewall) has a flapper to direct cool air from one side and/or warm from the other side. This section is designed to be riveted or bolted to the firewall. The short expanded section slips over the protruding tube and is clamped with a stainless steel hose clamp. The flap in this section closes off all air from the unit. The hose clamp, a gasket and four stainless steel blind rivets are furnished. The shafts, arms, and flapper valves are all stainless steel. The bushings are brass and the tubing is 2" OD 6061-T4. The weight is 5.2 ounces. P/N 08-00629.....**$136.95 ea.**

DELUXE HOMEBUILDER'S CABIN HEAT BOX

P/N DL-002 - This cabin box is our first modification to our standard heat box. The only difference between this and the standard is that the deluxe cabin heat box has one inlet and two outlets; the second outlet must be used to dump and route, via 2" scat tube, the warm air away from the low plenum area when heat is not being used in the cabin. (It is very important not to run the dump tube to another box on the other side of the firewall, because a constant flow of air is necessary to ensure that the heat muff does not overheat.) The weight on this unit is 5.5 ounces. P/N 08-04005.....**$120.95**

DELUXE HOMEBUILDERS CABIN HEAT BOX STAINLESS STEEL

P/N DL-003 - This box is identical to the Deluxe Homebuilders Cabin Heat Box except the tubing that goes through the firewall and the mounting flange are also stainless steel for extra protection from fire. Weight is 7.1 ounces. ..... P/N 08-04010.....**$117.85**

2 ½" OD INLET AND 2 ½" OD OUTLET HOMEBUILDERS CABIN HEAT BOX

P/N DL-005 - This box is identical to the deluxe stainless steel cabin heat box, except that the inlet and outlet are 2 ½" OD so that this box can be used when the builder wants to use 2 ½" scat tubing throughout the project. (This box was used on the Cirrus SR20 certified aircraft. The SR20 now uses the DL-008 box listed below.) Weight is 6.3 ounces. P/N 08-04015.....**$129.50**

DELUXE HOMEBUILDERS CABIN HEAT BOX, ALL STAINLESS STEEL

P/N DL-006 - This box was recently developed in response to customer requests. With the exception of brass shaft bushings, this box is constructed entirely of stainless steel, including all SS blind rivets. Like the deluxe boxes, this unit has a 2" inlet and 2" outlets. For the added durability of all stainless steel, the box still only weighs 10 ounces. P/N 08-04025.....**$139.50 ea.**

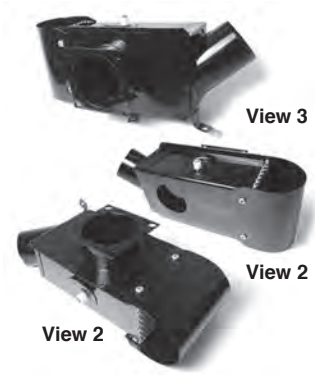
CARBURETOR HEAT BOX FOR ELLISON TBI

The carburetor heat box and air grid are designed specifically for the Ellison TBI to eliminate carburetor icing problems. There must always be a constant flow of air through a heat muff. The carburetor heat box has an automatic dump of hot air when carb heat is not being used, thereby eliminating the chance of heat muff burnout. The box has a 2.5" inlet for ram air and a 2" inlet for carb heat. The box is made of 5052 aluminum, stainless steel and 6061-T4 tube. The mounting surfaces, shaft, flapper, arm and rivets are stainless. In addition, the box is strengthened in the mounting hole area to eliminate the possibility of metal fatigue. A 4" inspection/ mounting hole with a cover plate secured by nut plates and screws is locate on the bottom of the box (not visible in the photo.) The purpose of the air grid is to eliminate air flow turbulence. The 1/2" stainless steel vanes straighten the air before it reaches the throat of the carburetor and achieves better air/fuel distribution. This is a proven performance enhancement technique.

Carburetor Heat Box	P/N 08-00813	**$214.50**
Air Grid	P/N 08-00814	**$94.75**
Extra Gaskets	P/N 08-00815	**$8.75**

STANDARD HOMEBUILDERS CABIN HEAT BOX

P/N DL-001 - This cabin heat box has been engineered to be the smoothest, most efficient and lightest heat box built. Fabricated from aircraft-grade aluminum with stainless steel shaft, arm and flapper. Originally designed for use on the popular RV-4 homebuilt, but is applicable to most other designs. Total weight is only 5.2 ounces. Furnished with a gasket flange for the forward side of the firewall for leak-free ducting of warm air to anywhere the builder wants it. Inlet and outlet are 2 inch OD 6061-T4 seamless alum. The body of the box is constructed of 5052-032 alum. The outlet tube extends through the firewall so that scat tubing can be attached to route the warm air. Superior craftsmanship and quality. Over 4,000 sold to date. P/N 08-04000.....**$106.95 ea.**



VAGABOND CARB HEAT BOX

This air grid carburetor heat box designed to fit the Piper PA-15 Vagabond. Dimension: 11" x 3-1/2" x 4"

P/N 08-06290.....**$175.95**

TUBING CONNECTORS

2" ALUMINUM FLANGE - Accepts 2" scat tube. Flange allows riveting to firewall, baffles, etc. Wt: 0.2 oz. P/N 08-04135..... **$9.90**

CARB HEAT CONNECTOR - Mounts on FAB airbox or similar airbox. Flange accepts 2" scat tube from muff. Standoff design allows hot air to escape when carb heat is not selected. Weight: 0.9 oz. P/N 08-04145..... **$17.95**

FLANGED DUCT - Accepts 2" ducting on both ends. Helps route ducting through bulkheads, firewalls, etc. Especially useful for getting heat to the back seat of the aircraft. 3" square plate with 2" tubing projecting 1" from each side. Wt:0.7 oz. P/N 08-04140..... **$14.85**

CABIN HEAT BOX

Custom built aluminum box mounts to firewall. Lever on butterfly may be attached to push-pull control for close adjustment of cabin air flow. Two 2" intake ports, one 2" outlet. Wt. 1 lb. 7-1/2" long. Fine quality construction. P/N 08-01500..... **$113.95**

HOMEBUILDERS CABIN HEAT SHUTTLE KIT

Easily assembled and designed so that it can be modified for custom applications. Kit includes construction plans and directions along with installation hints for the popular Vans RV series of homebuilt aircraft. Controlled by ratchet type control cable such as ACS model A740 (P/N 05-12500). Order control cable separately. P/N 08-04460 .....**$52.85**

AEROSPACE WELDING MINNEAPOLIS, INC.

EXHAUST SYSTEMS BY AEROSPACE WELDING MINNEAPOLIS, INC.

Aerospace Welding, Inc. has earned a reputation for its uncompromising commitment to quality exhaust systems and components. Aircraft Spruce is an authorized distributor of AWI products, and as such can assure our customers of minimal down time and fast shipment through the Priority Service Proram at AWI. All exhaust systems are built in fixtures for precise fit and are FAA approved for the listed aircraft. Available in factory new (N) and overhauled (OH) condition as noted.

NOTE: *= 0550157-7 has been consolidated under PMA part number A0450338-14

Note: (N) or (OH) after description indicates New (N) or Overhauled (OH) condition. All overhauled parts carry a care charge. Please Order according to "Our Part No."

HEAT SHIELDS – HEAT BOXES

VHT FLAMEPROOF COATINGS

Originally designed for NASA's reentry spacecraft. Designed to withstand temps. up to 1500°F (816°C) VHT FlameProof coatings are capable of withstanding extreme environments of spacecraft, satellites, military aircraft, and motor sports. It survives where other paints can't, shields & protects, maintains the finish, prevents rust & corrosion, and resists oils & solvents. For aircraft applications the typical use is on high temperature steel components such as exhaust & turbocharging systems.Excellent for use as a heat resistant and anti-corrosion coating on exhaust manifolds and turbine casings. Both the Flat Aluminum and Flat Black are non-facing colors.

Flat Aluminum 16 oz. aerosol spray..... P/N 08-00713.....**$11.95**
Flat Black 16 oz. aerosol spray..... P/N 08-00714.....**$11.95**

THERMO-TEC HEAVY-DUTY SPRAY ADHESIVE

Thermo-Tec's new Heavy-Duty Spray Adhesive is a fast-drying, quick-bonding, high temperature contact adhesive. Use it wherever you need a secure, long-lasting, easy-to-apply bond. It is available in a generous 16.75 oz. can.

P/N 08-01026.....**$13.50**

HI-HEAT COATING

Finish off a clean and well-protected Exhaust Insulating Wrap application. Will protect the wrap from abrasion and harmful liquid spills. Extra resins and binders toughen the surface, extend the life of wrap by protecting it from friction, and seal the pores to minimize the penetration of harmful liquids. The 11 oz. coating comes in black and aluminum colors. Black .....P/N 08-06725 .....**$9.85**
Aluminum .....P/N 08-06730 .....**$9.95**

BLACK SATIN COATING

The easiest to apply, Black Satin also requires bead or sand-blasting of all parts. It does not, however, require oven curing or burnishing. One 4oz bottle will cover one average exhaust system and will provide a long-lasting flat black finish. 4 oz. .....P/N 13-01024 ..... **$17.80**

EXHAUST HEAT SHIELD

This heat shield is placed on exhaust where fuel lines, cable, etc. are close to exhaust and where heat may be a problem. Mounts with stainless radiator type clamp (not included). Fits exhaust pipes up to 2.5" diameter. Very popular on RV's and other homebuilt aircraft.

Single Unit.....P/N 08-00050 ..... **$14.75**
Double Unit .....P/N 08-00051 ..... **$21.75**

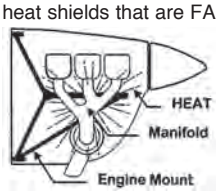
VARIEZE / LONG EZ CARBURETOR HEAT BOX

This box is an improved redesign of the original heat box. It eliminates the possibility of engine stoppage caused by worn parts plugging the carburetor intake.

Without Filter ..... P/N 08-01600.....**$194.50**
VE/LE Heat Box Repair Kit ... P/N 08-01610.....**$17.75**
VE/LE Filter Only..... P/N 08-01615.....**$29.90**
VE/LE Filter Cleaner Kit (cleaner & oil)
P/N 08-01620.....**$11.75**

ENGINE MOUNT HEAT SHIELDS

Heat damaged O-470 & O-520 engine mounts are a definite problem area. You can easily protect these engine mounts from further damage with these heat shields The aircraft manufacturers overlook providing heat protection in these areas when they designed and produced the aircraft. INSPECT ENGINE MOUNTS. Flaking paint, deterioration or pitting leads to cracking, and breakage – in other words, an UNSAFE CONDITION. If you want long-lasting protection from corrosion damage, the solution is install custom engine mount heat shields that are FAA & STC/PMA approved.



Avoid downtime and save money on airplane maintenance with this practical new device. The heat shields are built from an extremely durable 6061-T6 aluminum alloy and install in minutes. The complete kit includes installation hardware, instructions & copy of the Supplemental Type Certificate.

For Cessnas: Heat shield kit for 180, 180A-H, 180J, 180K, 182, 182A-R
P/N 08-01660.....**$169.85**
Heat shield kit 185A-E,A185F. Fits Standard and 3 bladed mounts.
.....P/N 08-00767.....**$206.95**
Replace. Intake Shields (heavy duty) PMA'd..P/N 08-00769.....**$29.25**

CARBURETOR INTAKE ASSEMBLIES (HEAT BOXES)

50256

P/N A40522 for Continental A-65 through C-125. Also fits Lyc. 0-235, 0-290, 0-320 engines with MA3SPA, MA4SPA carburetors.
Complete assembly includes heat box, filter, gaskets. studs and pins.
Not for Certified Aircraft, Homebuilts Only.

Component	Part No.	Price
Heat Box	50256	**$175.95**
Filter	A40599	**$73.50**
Gasket	35923	**$8.50**
Studs (4 required)	24306	**$41.25**
Pins (4required)	24308	**$20.50**
Bottom Carb. Gasket	21323	**$1.88**
A40522 Assembly	08-01300	**$498.00**

CONT. 0-200 HEAT BOX CESSNA 150 STYLE HEAT BOX

For Cont. 0-200 engine as used on Cessna 150. Also fits Cessna 120, 140, and PA-22 Tripacer. Order filter, gaskets, studs & pins separately. Not FAA/PMA Approved.
P/N 641534 .....**$173.95**
Cable 'B' Nut .....P/N 05-16245 .....**$7.95**
Heat Box for Cessna 170 - Similar to P/N 641534 above, but larger
P/N 08-01625 .....**$227.95**
Similar to Cessna 170 box. Fits Lyc. 0-360, 0-470, etc. Uses brackett BA-5110 filter.....P/N 08-01630 .....**$268.95**

LYCOMING AND CONTINENTAL CARBURETOR HEAT BOXES

Lycoming O-320 and Continental A65-100 Carb Heat Boxes. The 100-320 is 2-1/2" diameter height is 1" smaller flange.

Lycoming O-320 Carb Heat Box w/Tube..... P/N 05-01388 ....**$224.95**
Lycoming O-320 Carb Heat Box w/o Tube..... P/N 05-06841 ....**$219.95**
Lycoming A65-100 Carb Heat Box w/Tube ..... P/N 05-01387 ....**$246.95**
Lycoming A65-100 Carb Heat Box w/o Tube.. P/N 05-06840 ....**$224.00**

CARB HEAT BOXES FOR PUSHER AIRCRAFT

Designed for airplanes and rotorwing aircraft with engines in pusher configuration using MA3/MA4 carburetors (not MA4-5). Uses same baskets as J-3 & C-150 boxes.....P/N 08-00855..... **$208.50**

USHER CARBURETOR HEAT BOXES

These high quality carburetor heat boxes are available for most common Lycoming & Continental engines. Not FAA approved. (Shown here with tube)

K1F Heat Box w/o tube .....P/N 08-01601 .....**$156.95**
K1M Heat Box with tube.....P/N 08-01602 .....**$166.95**
KO320 Heat Box with tube.....P/N 08-01603 .....**$168.95**
KO360 Heat Box with tube.....P/N 08-01604 .....**$156.95**

CARBURETOR INTAKE BOX BRACKET FOR CESSNAS

This carburetor intake box bracket mounts on top of the heat box and attaches to the engine to provide support for the heat box. Fits Cessna 150. P/N 08-01305 .....**$43.85**

CARBURETOR HEAT BOX REPAIR KITS

Prevent carburetor heat box cracking - a common problem on Cessna 150 aircraft and Cont. O-200 engine. Kit consists of actuating shaft, 2 bearing assemblies and arm. Kit no. FG100 fits Cont. 0-200-A, B, C Engines. Kit No. FG105 fits Cont. 0-300-A, B, C, D, E engines.

Model FG100..... Kit No. 08-01309 ..... **$64.75**
ModelFG105..... Kit No. 08-01310 ..... **$62.25**

ECONOMY CARB HEAT BOX REPAIR KITS

These kits include new shaft & bearings.
Kit for Cont. C-85, C-90, 0-200 Engine
P/N 07-00110..... **$42.75**
Kit for Cont. C-145, 0-300 Engine
P/N 07-00120..... **$43.50**

Requires FAA form 337 for installation on certified aircraft

CARB HEAT BOX ARM HOLE REPAIR KIT

Use this kit to repair an elongated hole in the carburetor heat box actuating arm. Kit comes complete with new bolt and attaching hardware made of stainless steel. P/N 07-00130.....**$13.75**

CARBURETOR INDUCTION MANIFOLD (INTAKE SPIDER)

For O-200 engine..... P/N 35145A-1 ..... **$385.95**
For A-65,C-75,C-85 & C-90 engines.
P/N 35145..... **$298.50**

EP

EXHAUST GASKETS – HEAT SHIELDS

EXHAUST MANIFOLD NUTS

Part No.	Thread Size	Type	Engine Application	Price Each
21247	1/4-28	Brass	Cont., O-470	**$4.70**
22022	5/16-24	Brass	Cont. A-65, C-75 thru C-90, O-200, O-300	**$1.23**
STD1410	5/16-18	Steel	Lycoming	**$2.30**

EXHAUST STUDS FOR CONTINENTAL ENGINES

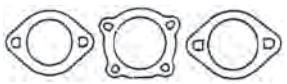
This high quality exhast/engine studs produced from corrosion resistant 321 stainless steel in 5/16" X 18"-5/16" X 24" standard thread size are a direct replacement for the TCM Continental part number 402-151 stud. FAA/PMA approved for the Continental engines C-75, C-85, C-90, O-200 series engines, and o-300 (early) series engines.

P/N 08-07282..... **$9.85**

STAINLESS STEEL EXHAUST STUDS FOR LYCOMING ENGINES

Produced from corrosion resistant 321 in 5/16 x 18 standard thread size and are a direct replacement for the Lycoming part number 31C12 stud. Stop stud corrosion and rust out problems, stop expensive cylinder repair costs cause by broken studs, allow easy removal of exhaust systems for gasket replacement or inspection, but does not feature a safety wire hole (refer to p/n 08-06780 for safety wire hole feature). FAA approved for all Lycoming engines from 0-235 through 0-540.... P/N 08-06279..... **$3.95**
With safety wire hole feature ..... P/N 08-06780.... **$11.50**
Stud for Continental Engines O-470, IO-470 (1/4"x20-1/4"x28)
P/N 08-07281..... **$9.50**

BLO-PROOF EXHAUST GASKETS



These gaskets are manufactured in a 1-piece design in 7/64" thick steel. They have a split metal inner ring which provides an absolute seal and they are guaranteed not to blow off. Engine manufacturer's parts.
Continental P/N 627429 for all A, C and E Series.....**$10.75 Ea**
Continental ..... P/N 628260 for 0-470-R ...**$9.90 Ea**
Lycoming P/N 77611 for 4 & 6 Cylinder Engines..... **$7.70 Ea**

COPPER EXHAUST GASKETS

Continental P/N 21493 (now P/N 632837 stainless steel)
Cont.#21493 for A-65 to 0-300 (4).....P/N 08-05237 ..... **$1.25 Ea**
Cont. #632837 Stainless Steel..... **$2.40 Ea**
Lycoming 0-320 except h series .....P/N 77611 .....**$7.70 Ea**

AIRBORNE SOLID COPPER BLO-PROOF GASKETS

2 gaskets used per cylinder, with raised beads interlocked facing the exhaust stack flange. Eight required for 4 cyl. engine, 12 for 6 cyl. engine.

Engine Model Number	Airborne P/N (Use 2/Cyl.)	Price Each
All Lycoming Engines except IO-540-B,-E,-M,-WD,IGO-540-B,IGSO-540-B,TIO-540 series,TIO-541 series TIGO-541 series, IO-540-B,-E,-M,-WD,IGO-540-B,IGSO-540-B	160	**$14.25**
TIO-540 Series, TIO-541 Series, TIGO-541 Series	161	**$13.30**
A-65 Series, C-85 Series, C-90 Series,)-200 Series,O-300 Series, GO-300 Series, E-185 Series,E-225 Series, O-470-A, -E, -J, IO-470-J, -K	157	**$8.75**

ROTAX EXHAUST SPRING 938-795

Genuine Rotax replacement spring for use with Rotax exhaust systems 277/377/447/503,618,912 UL,912 ULS. 66mm (2.60") hook distance. Part #938-795 Spring 2-1/4" with a 5/8" diameter. P/N 08-06101 .....**$3.28**

STEEL EXHAUST STACK FLANGES

MILD STEEL

Cont. A&C Series,0-200,0-300.....P/N 33011 ..... **$9.85 Ea**
Lycoming 0-235 to 0-540 .....P/N 33021 ..... **$9.90 Ea**

STAINLESS STEEL

Continental A & C Series .....P/N 33101 .... **$12.75 Ea**
Continental IO-470 thru IO-520.....P/N 33103 .... **$13.75 Ea**
Lycoming 0-235 thru IO-360 .....P/N 33102 .... **$12.95 Ea**
Lycoming IO-540 .....P/N 33104 .... **$12.75 Ea**

EXHAUST INSULATING WRAP

The original Exhaust Insulating Wrap was developed over 14 years ago by Thermo-Tec. Exhaust Insulating Wrap is an innovative way to create more horsepower and reduce under-hood temperatures.Wrapping headers maintains hotter exhaust gases that exit the system faster through decreased density. Increased exhaust scavenging is produced, along with lower intake temperatures. Exhaust Insulating Wrap withstands continuous heat up to 2000°F, and contains no asbestos. Thermo-Tec exhaust wrap will not over-insulate a system when properly installed due to a proprietary coating developed by Thermo-Tec -- Thermal Conduction Technology (TCT) -- that conducts heat across the wrap's surface. This coating controls heat build-up and dissipation. The Header Wrap is sold in 2" wide, 50'rolls with a low profile 1/6" thickness. P/N 09-41600 ..... **$47.75**

EXHAUST WRAP KITS

Now you can get everything you need for a complete, professional installation of our Exhaust Insulating Wrap, all in one package.Kits include Exhaust Insulating Wrap, Hi-Heat Coating and Snap Strap; available in Black and Original.

2" Original, 1 Roll.....P/N 08-07204 ..... **$56.75**
2" Original, 2 Rolls.....P/N 08-07205 ..... **$114.95**
2" Black, 1 Roll .....P/N 08-07206 ..... **$61.75**
2" Black, 2 Rolls.....P/N 08-07207 ..... **$129.95**

CLAMP ON HEAT SHIELDS

Flexible clamp on pipe heat shield blocks over 95% of the damaging radiant heat of the exhaust.Provides the ultimate in protection. The kits come complete with all clamps and new stainless stand offs. Installs in minutes. Incorporate Thermo-Tec's proprietary coating technology developed by Thermo-Tec, Thermal Conduction Technology.

6"X 1' .....P/N 08-07073 ..... **$23.50**
6" X 2' .....P/N 08-07074 ..... **$34.90**

SNAP STRAPS

The multi-purpose stainless steel Snap Straps are used to secure the Exhaust Insulating Wrap -- and more. The high-temperature stainless steel straps have a narrow profile to fit tight spots, and can be cut to the exact length needed. Snap Straps secure with easy-to-use slide-through fasteners. .

9" 12 pack .....P/N 08-13150 ..... **$25.75**
18" 6 pack .....P/N 08-13160 ..... **$17.75**

ALUMINIZED HEAT BARRIER STOPS UNWANTED HEAT TRANSFER

Keep heat where you want it with this hi-tech aluminized heat blanket. Thickness, 0.060". Furnished in 36"x40". Sheets (10 Sq. Ft.) P/N 08-06735.....**$78.85 ea.**

KEVLAR HEAT SHIELD

* Can be used for various uses* Can be used as a header blanket* Improve driver comfort* Protect engines components* Continuous heat up to 1100 degrees F* Reflects 90% of radiant heat up to 3000 degrees F. * Size: 26" x 40" Sheet P/N 08-07162 .....**$103.95**

KEVLAR MUFFLER COVER

Handles continuous temperatures up to 1100deg F. Reduces radiant heat inside vehicle. Dampens muffler noise and vibration. Includes stainless steel straps for installation. Neat attractive appearance and is abrasion resistant. P/N 08-07201.....**$124.50**

EXPRESS SLEEVES

Express Sleeves are just the thing that our customers have been looking for. An new easy to use sleeving which is a combination of a high temperature insulation material to a highly reflective mylar foil with a Velcro closure. The sleeving is designed to provide maximum protection for wires, hoses, and cables from the very damaging effect of radiant heat with an easy application. Simply pull apart the material, wrap around the wire, and re-close the sleeving. Express Sleeves reflect over 90% of radiant heat, is fireproof and fire resistant, and just looks good. Express Sleeves come in 1 1/2" diameter in 3', & 12' lengths.

Size	Part No.	Price	Size	Part No.	Price
1-1/2" X 3"	09-02060	**$26.85**	1/2" x 3	08-07202	**$24.50**
1-1/2" X 12"	09-02061	**$103.95**	1/2" x 12	08-07203	**$93.50**

THERMO-GUARD FR

Thermo-Guard FR offers the best in head and sound insulation. This lightweight, durable shield does everything: reduces sound, absorbs vibration, protects from radiant heat and provides an extra layer of insulating padding. The product features 100% synthetic fiber felt that provides sound and comfort control and high-tech foil heat barrier that blocks more than 90% of radiant heat. 48"x72" 1-Sided .....P/N 08-01028 .....**$41.50**
48"x72" 2-Sided .....P/N 08-01029 .....**$59.75**

EXHAUST INSULATING PRODUCTS

ZIRCOFLEX™ FLEXIBLE CERAMIC HEATSHIELD

A flexible ceramic heat shield material that offers superb thermal barrier performance at minimal weight and minimal thickness. A thin aluminum backed foil, it is lightweight at only 460g/m(2) and only 0.25mm thick. It is however, robust and easy to handle. It can be cut and installed by hand or machine, and is easily fixed in place using mechanical fasteners or high temperature adhesives. Each piece is 35.4" X 21.5" (900mm x 550mm.)

Ceramic Heatshield ..... P/N 08-07214...**$166.50**
Double sided adhesive tape attachment kit..... P/N 08-07215.....**$9.95**
Stainless Steel Strapping kit..... P/N 08-07216.....**$9.95**

HIGH VELOCITY EXHAUST JACKET

An innovative way to insulate and block radiant heat. Cover the tubes vertically allowing for a consistent fit. The fit allows the exhaust system to expand as it comes up to operating temperatures without restrictions and provides air space for added insulation. Uses Thermal Conduction Technology (TCT), developed by Thermo-Tec, and can be applied with the headers in the vehicle.

4–6 cyl. kit ..... P/N 08-00597.... **$72.95**
8 cyl. kit ..... P/N 08-00598.... **$95.50**

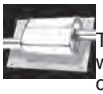
SPARK PLUG WIRE HEAT SHIELD

The ultimate protection for spark plug wires and boots from conductive and radiant heat. The dual-purpose sleeve has a surface that reflects over 90% of radiant heat, while the inside silica-based fabric prevents conductive heat from penetrating. P/N 08-00612 ..**$17.50**

TURBO KIT

Designed to protect, improve performance, and eliminate turbo lag of a turbo charger. Fits a wide variety of turbines. The custom cut-to-fit kit comes with an excessive amount of material to cover turbos from the smallest automotive application to heavy-duty truck applications. 4 cyl. kit ..... P/N 08-00613 ....**$96.75**
6–8 cyl. kit ..... P/N 08-00614 ..**$118.95**

MUFFLER/CAT HEAT SHIELD KIT



The 40"x 24" mylar Heat Shield is made up of woven silica with a flexible mylar finish. Can be installed between the catalytic converter, muffler, or any other component to reflect radiant heat away from the undercarriage of the car. The kit includes all necessary fasteners. P/N 08-00616 .....**$58.80**

HEAT TERMINATOR ULTRA-LITE

Made of the highest-quality insulating materials available today. The material is made of a highly-textured aluminum composite surface on one side, with a high-temperature silica felt center and a durable mylar composite facing. Uses Thermal Conduction Technology (TCT), developed by Thermo-Tec.

8"x 12" .....P/N 08-00617 ....**$58.75** 10"x 18"....P/N 08-00618 ... **$84.50**

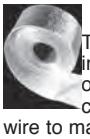
24"x 24" ....P/N 08-00621 ..**$115.95** 24"x 36"....P/N 08-00622 . **$122.95**

STARTER HEAT SHIELD

Starters take in a lot of damaging heat that destroys the windings of the starter & solenoid. The Starter Heat Shield will reflect over 90% of radiant heat, adding life to the starter and assuring reliable starts. The Starter Heat Shield is a universal kit that fits all starters. P/N 08-00611..... **$27.75**

THERMO SHIELD



Thermo-Shield protects hoses & wires from radiant heat. Used in applications where it is difficult or not practical to disconnect one end of the hose or wire. The adhesive-backed composite construction tape can easily be wrapped around the hose or wire to make a clean, professional appearance. 15"x 1.5" roll.

P/N 08-00602..... **$16.95**

THERMO–FLEX

Thermo-Flex Aluminum is a composite heat shield material with unlimited uses. The material is manufactured with a combination of materials to provide abrasion-resistance, thermal insulation, and physical containment of hoses and wiring. The combination of aluminum, silica, and stainless steel is combined to produce a sleeving that is flexible, lightweight, and strong. The aluminum-silica combination can be slit for applications such as wire looms or hose covering without disconnecting the ends of the wire or hoses. Thermo-Flex Aluminum can withstand extreme temperatures of up to 750°F. Packaged in 10 ft. lengths.

5/8" .....P/N 08-00623 .....**$44.75** 1.25"..... P/N 08-00626 .....**$64.75**

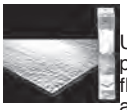
FIREPROOF SHIFTER BOOT

The Fireproof Shifter Boot is made up of woven silica with a flexible Mylar finish. The shifter boot was developed as a fire barrier for high speed engine fires, which can burn away rubber boots in seconds.

P/N 08-00615 .....**$28.75**

COOL-IT MAT



Use the Cool-It Mat to battle excessive heat and noise that penetrate the driver compartment through the firewalls and floorboards. It is also perfect in doors, under hoods, and above transmission housings. Cool-It Mat is composed of resin-bonded silica blanketing insulation sandwiched between a mylar facing on one side and a foil facing on the other. The highly-reflective mylar reflects heat away from surfaces, while the foil side is orientated away from the heat source to conduct any penetrating heat across its surface thus providing the ultimate in heat protection. The silica blanketing is a duel-density composite and is the main sound insulator. It is easy to trim and can be applied with the push-in fasteners provided or any weather strip adhesive. P/N 08-00610 ..... **$35.25**

THERMO–SLEEVE

Lamination of a high-temperature fabric to a highly-reflective foil is the makeup of Thermo-Sleeve, which provides protection from radiant heat for hoses and wires. Thermo-Sleeve's ultra light-weight construction provides more insulating than traditional bulky rubber-coated fiberglass. The aluminized sleeving reflects over 90% of radiant heat, and is fireproof & oil resistant. Comes packaged in 12-ft lengths, and sold in 5 different inside diameter sizes.

12' 1/2" ID.....P/N 08-00605 ..**$48.75** 12' 1" ID...P/N 08-00606 .**$66.75**

HEAT BARRIER - ADHESIVE BACKED

Aluminized Heat Barrier is made up of woven silica with a flexible aluminized finish. The highly reflective surface of the material is capable of withstanding radiant temperatures in excess of 2000°F. The adhesive backed composite construction material can easily be applied to any surface or wrapped around a hose or wire to make a clean professional appearance. Note: Clean surface before applying. Adhesive is rated up to 300° F. Don't apply to any parts of exhaust system. This product is designed to block radiant heat only!

12" x 12" ...P/N 08-00630 ... **$11.50** 12" x 24" ....P/N 08-00600 .. **$19.75**

HEADER MANIFOLD BLANKET

The Header Manifold Blanket provides excellent heat-retention for exhaust headers and manifolds. This flexible heat shield simply clips into place on the upper portion of the header. The fabric side of the material should be facing the heat source, and the aluminized side facing away, offering protection from abrasion and harmful liquid spills. Available in two sizes: (2) 20" by 24" blankets for V6 & V8 applications, and (1) 36" x 40" blanket for straight 6 & 4 cylinder engines.

20"x24" ....P/N 08-00603 ..... **$85.75** 36"x40" .... P/N 08-00604 .. **$84.75**

COOL-IT PLUG WIRE SLEEVES

This unique spark plug & ignition wire protector comes in five sporty colors; red, orange, blue, black & natural.These dual-purpose sleeves enhance performance, reduce misfires, extend plug wire life and will not react with petroleum products. The double-wall construction keeps the wire and boot cooler in a high-temperature engine. Its universal size fits most boots, is easy to install & non-flammable.

4-Pack .....P/N 08-01027 .....**$26.75** 6-Pack..... P/N 08-01030 . **$39.95**

GRAPHITE BLACK WRAP

Graphite Black Wrap offers the same unrivaled performance and insulating properties as our original exhaust wrap and more. Traditionally, high-heat coating spray had to be applied to the exhaust wrap to color it black. Now new Graphite Black Wrap eliminates the process of coating the wrap with its patented Thermal Conduction Technology (TCT) high-heat color pigment. Graphite Black Wrap is available in 2" widths, in 50-ft rolls.

P/N 08-00596 ..... **$49.75**

GENERATION II COPPER HEADER WRAP

Generation II Copper Header Wrap improves heat resistance up to 30% more than current technology, by utilizing a new proprietary coating developed by Thermo-Tec; improved Thermal-Conduction-Technology (T-C-T). Creates more horsepower & reduces underhood temps, increases exhaust scavenging, withstands continuous heat up to 2000ºF, contains no asbestos. Sold in 1" or 2" wide, 50 ft rolls with low profile 1/16" thickness. 1"X50.....P/N 08-11031 ..... **$28.85**
2"X50.....P/N 08-11032 ..... **$50.00**

MICRO LOUVER AIR SHIELD

Lightweight yet durable, the aluminum Micro Louver Air Shield features micro air louvers, which allow air to flow through the metal shield. The movement of the vehicle creates dynamic air flow, cooling by natural convection. The textured surface created by the micro air louvers creates more area for heat dissipation. The Micro Louver Air Shield is flexible yet durable; it bends and flexes easily by hand, making a custom fit trouble-free.

12"X24".....P/N 08-11710 ..... **$31.25**
24"X24".....P/N 08-11720 ..... **$51.00**
48"X24".....P/N 08-11740 ..... **$88.50**

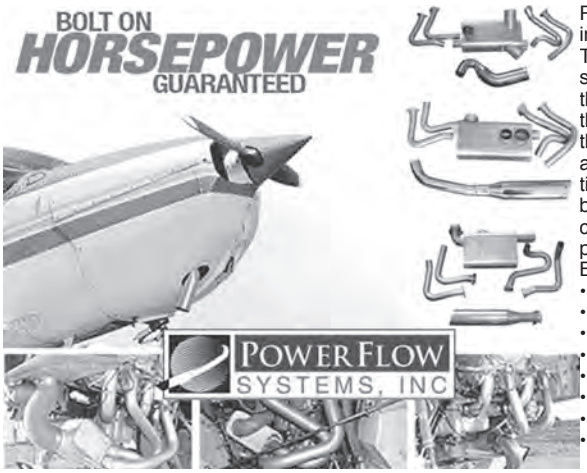
POWER FLOW SYSTEMS INC. EXHAUST SYSTEMS



Power Flow Systems, Inc., the world leader in designing, manufacturing, and retailing of FAA Certified High Performance aircraft tuned exhaust systems.
Their Tuned Exhaust System is totally different. When you break down their exhaust system, you have two "sets" of pipes; the primary (header/collector combination) and the secondary (pipe after the collector). The primary contains four independent tubes that all join at the "4-1 Collector". As each "exhaust puff" of spent fuel travels through the primaries, it leaves a vacuum behind. In their tuned exhaust system, they have adjusted the length of each tube so that the vacuum reaches the collector just in time to "suck out" the exhaust from the next cylinder. The exhaust gases are not only being pushed out by the cylinder, but "extracted" by the vacuum, so a bigger, fresher charge will enter the cylinder during the next cycle. A tuned exhaust system really promotes a smoother, cooler, and finally more powerful running engine.

Benefits with Power Flow Systems:
- Shorter Take Off Roll
- Greatly Improves Rates of Climb
- More Usable Power
- Fuel Savings at Current Speeds
- Smoother Running Engine
- Runs cooler at Current Speeds
- Go up to 8 knots faster
- Mandrel Bent Tubes to maintain consistant interior dimension

Kit Contents:
- Kit includes everything to "bolt on" a Complete Replacement Exhaust System
- New Headers, Heater, & Muffler
- No blow gaskets, Nuts, Lock washers, Flat washers, Cotter pins etc.
- Stainless Steel Construction
- Up to 40% thicker than stock
- New Improved Heating System

EXHAUST SYSTEMS

All exhaust stacks are heli-arc welded using Type 321 stainless steel tubing for light weight and long service life. Stainless steel stacks weight 50% less than a set in mild steel. All stacks are custom made and the workmanship is consistently of exceptional quality.

WHEN ORDERING, SPECIFY COMPLETE MODEL NUMBER AND HP OF ENGINE AND AIRCRAFT TYPE.

STRAIGHT STAINLESS STEEL EXHAUST STACKS

Basic exhaust pipes for Pitts Special, Smith Miniplane, Acro Sport, Starduster and many other homebuilts with Lycoming engines O-235 through O-360. This exhaust system fits under the intake tubes, starting at the rear cylinders, around the front intake tube, then points aft. Two mufflers (P/N 33205) or two tail pipes (P/N 33204) can be used with this system. With stainless swivel joints for vibration dampening and for positioning of tail pipes through 25° range. Wt. 7-1/4 lbs.

SYSTEM FOR LYCOMING ENGINES THRU 180 HP
Set of two basic stacks only, consisting of:
Right Hand, P/N 33202 & Left Hand, P/N 33203
Set of Two..... P/N 33202/33203 ..... **$779.00**
(Tail Pipes not included.)

System for Lyc. O-320B (Fuel-Injected) Tightest system for this engine.
P/N 33270-1 ..... **$845.00**
(Tail Pipes not included.)

ADD OPTIONS:

STRAIGHT TAILPIPES

P/N 33204 (14") ....**$165.00 Pr.** P/N 33204-24 (24") ...**$211.95 Pr.**
P/N 33204-18 (18") ....**$213.95 Pr.** P/N 33204-28 (28") ...**$239.95 Pr.**
P/N 33204-20 (20") ....**$205.75 Pr.** P/N 33204-36 (36") ...**$230.00 Pr.**

MUFFLER WITH 8" TAILPIPE (NO HEAT EXCHANGER)

P/N 33205 ..... **$243.95 Ea.**

MUFFLER WITH 8" TAILPIPE & HEAT EXCHANGER

2" Dia. Inlet & Outlet ..... P/N 33206-1 ..... **$365.00 Ea.**
2-1/2" Dia. Inlet & Outlet ..... P/N 33206-2 ..... **$382.95 Ea.**
When ordering muffler with heat exchanger, advise if inlet & outlet pipe diameter other than 2" or 2-1/2" is preferred.
When ordering muffler with heat exchanger, advise diameter of inlet and outlet pipe preferred (2", 2-1/2" or other).

HOMEBUILDERS SPECIAL STACKS

Designed to fit Lycoming engines 0-235 to 0-360. Mild steel. These stacks do not fit Pitts Special. Applicable to many home builts. Wt. 7.25 lbs.
P/N 08-01900..... **$629.00**

STAINLESS STEEL CROSSOVER EXHAUST SYSTEMS

A exhaust system allows your engine to breathe properly by reducing back pressure and by picking up the correct firing order of the cylinders. This results in increased HP compared to an untuned exhaust. The added HP will be evident as higher takeoff RPM, higher cruise speed and lower fuel consumption.
This crossover system fits all Lycoming engines from O-235 to IO-360 (180 HP) with bottom or aft mounted carburetors or fuel injection controllers. It is designed for tight cowling and in most cases no cowling modification will be necessary. If fit is the problem, custome tighter crossover systems are available by special order (Additional charges may apply). The system has slip joints between cylinders and ball joints where tail pipes or mufflers connect to collector tubes to prevent cracking due to expansion and vibration and to allow for positioning of the tail pipes. The exhaust system can be ordered in the following combinations:

1. With straight tail pipes
2. With two mufflers (no heat exchangers)
3. With two mufflers (one heat exchanger)
4. With two mufflers, both with heat exchangers.

All mufflers include removable 8" tail pipes. Heat shrouds have one inlet and one outlet for 2" or 2-1/2" flex tubing
Compression Springs - used on Exhaust System Ball Joints. 6 required per system. P/N 33703..... **$5.75**

STANDARD CROSSOVER SYSTEM
Basic system with all Collector Tubes (Without Tail Pipes)
P/N 33251 ..... **$927.00**
ADD OPTIONS:
Straight Tailpipes (14"). ..... P/N 33204 ..... **$165.00 Pr.**
Muffler w/8" Tailpipe (no heat exchanger) .... P/N 33205 ..... **$243.95 ea**
Muffler w/8" Tailpipe & Heat Exchanger. ..... P/N 33206-1 ... **$365.00 ea**

COMPLETE STANDARD CROSSOVER SYSTEM PRICES
Basic System with Two Straight 14" Tailpipes.
Ass'y # 33270..... **$1,005.00**
Basic System for 0-320B w/o Tailpipes. ....Ass'y # 33270-1 ..... **$845.00**
System with 2 Mufflers, Removable 8" Tailpipes & No Heat Srouds.
Ass'y # 33272..... **$1,105.00**
System w/2 Mufflers, 1 Heat Shroud for either Cabin heat or Carb. heat.....Ass'y # 33274..... **$1,360.00**
System w/2 Mufflers, Both w/ Heat Shrouds for Cabin heat &C arb. heat.....Ass'y # 33276..... **$1,676.00**
Stainless Crossover Systems for IO-360 (200HP)
Please specify front (35), bottom (40), or rear injector (45)
P/N 08-057--..... **$998.00**
(Does not include tailpipes or heat muffs)

SPECIAL CROSSOVER SYSTEM FOR VERY TIGHTLY COWLED AIRCRAFT
Designed for the Thorpe T-18, RV-6, 7 7 8, Mustang II, and others using Lyc 0-320 to 0-360 engines

Basic System with all Collector Tubes — Please furnish exact engine designation to insure proper fit. P/N 33250.....**$798.00**

Special Mufflers for the T-18 with Heat Shrouds for Cabin Heat and Carb. Heat. P/N 33250-1..... **$395.95 Ea.**

Special Tailpipes for the T-18 (to be used when mufflers are not used). Comes with same ball joint as the mufflers and an attaching bracket.
P/N 33250-2.....**$214.95 Pr.**

NOTE: PRODUCTS ON THIS PAGE ARE FOR EXPERIMENTAL AIRCRAFT AND ARE NOT FAA APPROVED. ALL EXHAUST SYSTEMS ARE SPECIAL ORDER AND ARE NON RETURNABLE

EXHAUST SYSTEMS

EXHAUST SYSTEM FOR OSPREY AIRCRAFT

This stainless steel exhaust system is specifically designed for the Osprey Aircraft. Ideal for amphibians as the tailpipe exits vertically upward. Fits aircraft using the following engines: O-235 thru O-360.
RH & LH Stacks Only
P/N 33420.....**$625.00**

ADD OPTIONS:
Muffler Only ..... P/N 33422.....**$195.00**
Muffler with Heat Exchanger ..... P/N 33424 ... **$345.00**

EXHAUST SYSTEM FOR CONTINENTAL 0-200

This universal stainless steel exhaust system is designed for experimental aircraft using Continental A65 thru O-200 engines. Consists of 2 manifolds, left hand manifold has heat shroud with 2-1/2" connection for carb heat. Muffler outlet are 3" long. Tailpipe extensions may be required, sold separately
Mufflers.....P/N 33401 ..... **$898.00**
8" Tailpipe Extensions. Furnished with slip joint and pin clamp.
P/N 33402 ..... **$115.00**

THIS SYSTEM IS PATTERNED AFTER A CESSNA 150 SYSTEM, BUT WILL NOT FIT A CESSNA 150 OR 152.

EXPRESS AIRCRAFT EXHAUST MANIFOLDS Y-STYLE

Fits Lycoming IO-540 (Angle Valve Engine) (Includes Custom 2-1/4" Tailpipes With Cabin heat shroud) (Optional studding to increase cabin heat available)
P/N 08-02105 ..... **$1,496.00**

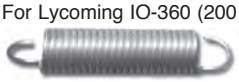
WHEN ORDERING EXHAUST SYSTEMS, PLEASE SPECIFY COMPLETE MODEL NUMBER & HP OF ENGINE AND AIRCRAFT TYPE

STAINLESS STEEL STACKS FOR PUSHER TYPE AIRCRAFT

Designed specifically for tightly cowled engines. Exhaust fits inside of intake tubes.
Applicable to:
For Continental C-85 thru O-200
P/N 33601 ..... **$695.00**
For Lycoming O-235 thru O-360 ..... P/N 33602.....**$695.00**

COZY MARK IV PUSHER EXHAUST SYSTEM

This custom stainless exhaust system was designed specifically for the Cozy Mark IV aircraft.
For Lycoming O-235 to O-360 (180 HP or less)
P/N 33702.....**$875.00**
For Lycoming IO-360 (200 HP) Angle Valve Engine
P/N 33702-1.....**$895.00**



Replacement Cozy Extension Spring
P/N 33704.....**$7.75 ea**
Cozy Inside Cowl Exhaust ..... P/N 08-07342.....**$995.00**

NOTE: PRODUCTS ON THIS PAGE ARE FOR EXPERIMENTAL AIRCRAFT AND ARE NOT FAA APPROVED. ALL EXHAUST SYSTEMS ARE SPECIAL ORDER AND ARE NON RETURNABLE

EXHAUST SYSTEM COMPONENTS

Fabricate your own exhaust system with these precision-formed type 321 stainless steel components.

STAINLESS STEEL 45° & 90° BENDS

Tubing Size	P/N	Radius	Angle	Price
1-1/2" X .035	33241	2-1/2"	90°	**$41.75**
1-1/2" X .035	33241-4	4-12"	90°	**$46.50**
1-1/2" X .035	33242	2-1/2"	45°	**$39.75**
1-3/4" X .049	33236	1-3/4"	90°	**$49.75**
1-3/4" X .035	33243	2-7/8"	90°	**$41.75**

EXHAUST SYSTEMS

LONG-EZ EXHAUST SYSTEM

Long-EZ exhaust system fits all Lycoming 4 cylinder engines.
P/N 08-00832 ..... **$775.00**

LONG-EZ EXHAUST SYSTEM INSIDE THE COWL

With this configuration the exhaust tips are located where the cooling air exits. This design eliminates cutting the cowling for exhaust exit and improves propeller efficiency by moving the exhaust pulses inboard, closer to the center of the prop hub. Fits Lycoming O-320 & O-360 parallel valve engines. P/N 08-00833 ..... **$938.00**

BERKUT 4 PIPE EXHAUST SYSTEM

Fits all Lycoming 4 cylinder engines.
P/N 08-00834 .....**$775.00**

BERKUT 6 PIPE EXHAUST SYSTEM

Fits 6 cylinder Berkut only. P/N 08-00835..... **$1,095.00**

VELOCITY EXHAUST SYSTEM

Velocity exhaust system fits 6 cylinder Lycoming parallel valve and angle valve engines.
Parallel.....P/N 08-00836 ..... **$773.00**
Angled.....P/N 08-00837 ..... **$773.00**

MUSTANG II CROSSOVER EXHAUST SYSTEM

Mustang II Crossover Exhaust System Lycoming O-235 through O-360 (Comes with Custom Tailpipes) (Vertical Induction Intake)
P/N 08-07337 .....**$1,192.00**

CONTINENTAL IO-240 CROSSOVER SYSTEM

Crossover exhaust system Continental IO-240 (Tailpipe Not included)
P/N 08-07338 .....**$825.00**

STAINLESS STEEL EXHAUST STACKS

Manufactured from aircraft quality 321 stainless steel tubing. Set of two stacks or purchase each side individually. Patterned after Aeronca style exhaust. Fits Continental C90 Thru 0-200. Not FAA approved. Wt. 3-1/4 lbs.
Set of two
P/N 08-02001 .....**$636.00**
Right side
P/N 08-02101 .....**$318.95**
Left side
P/N 08-02201 .....**$318.95**

LANCAIR LEGACY EXHAUST SYSTEM

Lancair legacy exhaust system, left & right hand maniflolds with tailpipes and cabin heat shroud. Fits IO-550 Continental.
Exh. Sys. 33805-1 ..P/N 08-00838 ..... **$1,675.00**
Exh. Sys. 470-550 ..P/N 08-02103 ..... **$1,675.00**
Legacy Exhaust ... P/N 08-02104 .. **$1,795.00**

6 Cylinder Continental O-470 to IO-520 Stacks - Exhaust Manifolds Y-Style L/H & R/H Continental 0-470 through IO-550 .....P/N 08-07344 ..... **$950.00**

GLASAIR I & II CROSSOVER EXHAUST SYSTEMS

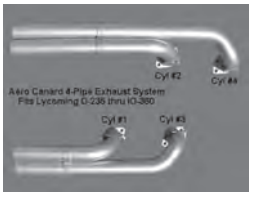
Fits Lyc. O-320 to O-360 with vertical induction.
P/N 08-00839 ..... **$1,624.00**
Fits Lyc. engines w/ horizontal induction up to 180HP P/N 08-00840 ..... **$1,495.00**

GLASTAR CROSSOVER EXHAUST SYSTEM

Includes exhaust system with (1) heater muffler, (1) non-heater muffler and tailpipes. Fits Lycoming O-235 and O-360 with vertical induction. P/N 08-00842..... **$1,345.00**

EXPERIMENTAL SUPER CUB CROSSOVER EXHAUST SYSTEM

PN 08-02100-Fits Lycoming O-320 (Vertical Induction Intake) (Must use "short" miniature light weight Sky Tec starter for clearance) (Optional studding to increase cabin heat available)
PN 08-02102-Fits Lycoming O-360 (Vertical Induction Intake) (Must use "short" miniature light weight Sky Tec starter for clearance) (Optional studding to increase cabin heat available)
P/N 08-02100 .....**$1,675.00**
P/N 08-02102 .....**$1,675.00**



4 CYLINDER AERO CAD 4 PIPE STACKS

Aero-Cad 4-Pipe Exhaust Manifolds Lycoming 0-235 through IO-360 200 HP
P/N 08-07343 .....**$852.00**

4 CYL LYCOMING CROSSOVER EXHAUST 200HP

Crossover Exhaust System Lycoming IO-360 200 HP & IO-390 210 HP Angle valve engine.
NOTE: Photo shows optional tailpipes,P/N 33204-18 (08-00827) tailpipes are not included, but can be purchased seperately.
4 Cyl. Lyc. Croosover Exhaust 200HP.....P/N 08-07341 ..... **$975.00**
18" Tailpipes 33204-18.....P/N 08-00827 ..... **$213.95**

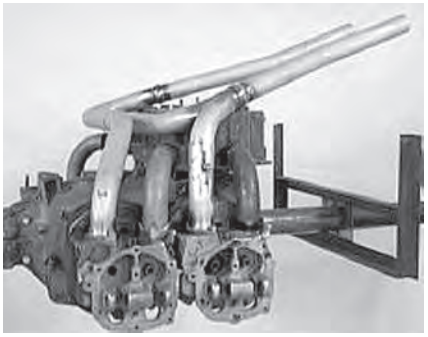
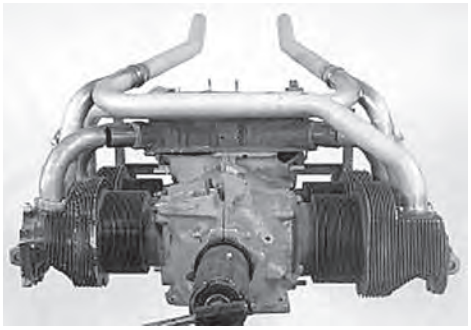
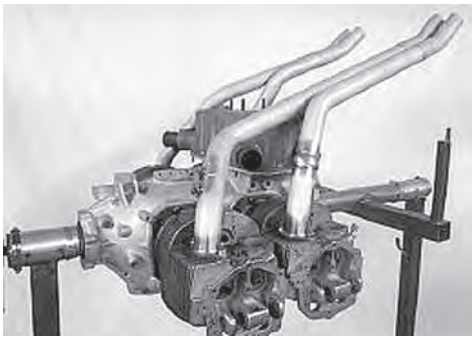
EXHAUST SYSTEMS

VETTERMAN RV EXHAUST SYSTEM







EP

Vetterman Exhaust has been manufacturing exhaust systems for the Van's Aircraft RV series since 1990. Exhaust systems for all RV models & Van's approved engine models are available. All systems are manufactured from MIL Spec 321 stainless steel, which is mandrel bent, trimmed to length and tack welded on a Lycoming engine. This method assures the best fit possible. All systems incorporate ample slip & ball joints which greatly reduces breaking potential. All systems include blow proof gaskets, stainless exhaust nuts & washers for installation. Also include tail pipe mounting kits or pipe support brackets. Some systems also include a cabin heat muff.

RV 8A	*Includes tail pipe mounting kit	08-00595	**$966.00**

NOTE: EACH OF THESE SYSTEMS WILL NOT INTERCHANGE BETWEEN AIRCRAFT AND ENGINE MODELS. THESE SYSTEMS ARE DESIGNED AND INTENDED FOR USE ON RV AIRCRAFT ONLY. PRICES DO NOT INCLUDE SHIPPING CHARGES.

NICROCRAFT EXHAUST PARTS

NICROCRAFT EXHAUST PARTS BUILT TO TAKE THE HEAT

Aircraft Spruce & Specialty Co. offers fully overhauled and factory new exhaust components for use in most general aviation aircraft. Manufactured by Wall Colmonoy Corp. Nicrocraft exhaust parts are built to the latest original equipment specifications. Heat-resistant 321 stainless steel is used in the construction of all new p arts. Bellows are made of Inconel alloy for superior heat resistance. Individual exhaust components and complete systems are available for virtually all single and twin engine Cessna, Piper, Beech, Bellanca, Grumman, Mooney, and Rockwell aircraft. (Please provide your complete aircraft and engine model and serial numbers, year of aircraft, and exact components required.) Most components are available for immediate shipment.

PIPER EXHAUST CLAMP

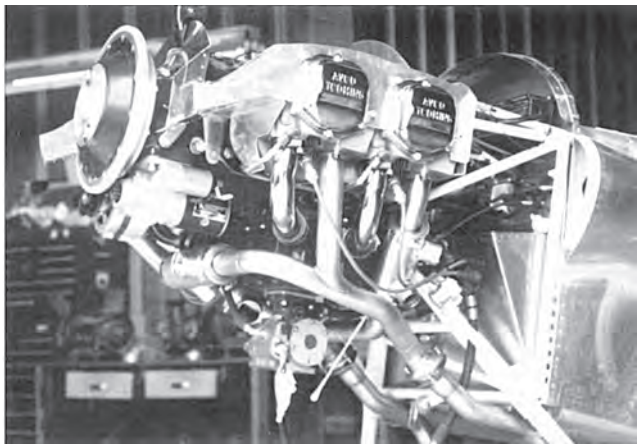
This clamp is used on the exhaust system. The spot weld on the V Band is failing. The failure could result in the release of high-temperature gasses inside the engine compartment and possibly cause an in flight fire according to the published AD.

P/N 05-04866.....**$583.50**

EP

EXHAUST SYSTEMS

SNOWLINE RV-4 CROSSOVER EXHAUST SYSTEM

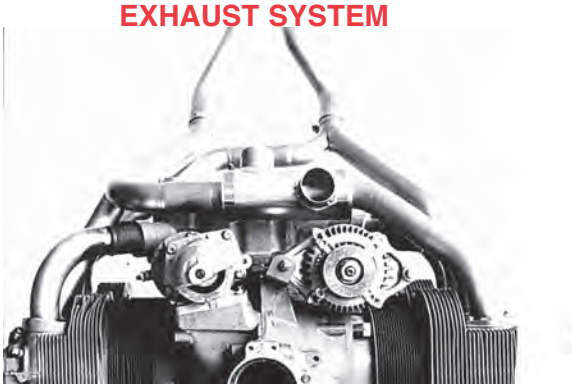


The material used on this System is 1-3/4" O.D. x .035 wall 321 stainless steel. This system is designed for use with Lycoming engines up to 180 H.P. Bending is performed using an inside mandrel which the tube is drawn over during bending to maintain the inside diameter. Flanges are made from 1/4" Stainless Steel. This heavy material greatly reduces warping and cracking. Tail pipes are fitted with a stainless steel spring-type swivel ball joint. This flexible joint not only allows for easy alignment of the tail pipes through the opening in the bottom cowling; but most important, this joint allows the engine and tail pipes to move independently, and greatly reduces the chance of cracking. One heat muff has been provided on the front cross-tube. This muff is intended for carburetor heat. If an injection system is being used, this muff can be used for cabin heat. An optional cabin heat muff can be ordered when carburetor heat requires the use of the standard heat muff. All hardware is provided to install the system. Stainless steel nuts, bolts, washers, blow-proof exhaust gaskets, two stainless clamps for attaching tail pipes to the firewall or engine mount. Building brackets and positioning mixture and throttle cables is always a hassle. A bracket which simply bolts to the engine case and positions the cables in front of the mixture and throttle arms for easy attachment is available as an option. A U-type clamp attaches cable housing securely in place

RV-4 Crossover Exhaust System P/N 08-05785 ..... **$825.00**

NOTE: THIS SYSTEM WILL NOT FIT LYCOMING, 0-320-H2AD OR H3AD ENGINES

SNOWLINE RV-6 & RV-6A CROSSOVER EXHAUST SYSTEM



The material used on these systems is 1-3/4" O.D. x .035 wall 321 stainless steel tubing. 2 models are available; one for Lycoming engines up to 180 H.P. and the other for the Lycoming IO-360 (200 H.P. engine). Bending is performed using an inside mandrel which the tube is drawn over during bending to maintain the inside diameter. Flanges are made from 1/4" stainless steel. This heavy materialgreatly reduces warping & cracking. Tail pipes are attached to the header with a slip joint. Simply slide the tail pipes onto the header, position the end of the pipe as desired in the bottom opening, and attach with the stainless steel retaining clamp. One heat muff has been provided on the front cross-tube. This muff is intended for carburetor heat. If an injection system is being used, this muff can be used for cabin heat. An optional cabin heat muff can be ordered when carburetor heat requires the use of the standard heat muff. All hardware is provided to install the system. Stainless Steel nuts, bolts, washers, blow-proof gaskets, 2 stainless clamps for attaching tail pipes to the firewall or engine mount. U-type clamp attaches the cable housing securely in place.

RV-6/RV-6A Crossover Exhaust Sys. (To 180 H.P.)
P/N 08-05790..... **$803.00**

RV-6/RV-6A Crossover Exhaust Sys.* (To 200 H.P.)
P/N 08-05795..... **$867.00**

Optinoal Cabin Heat Muff..... P/N 08-00679..... **$92.50**
Will not work with front mounted injectors

The RV-6/RV-6A exhaust systems are recommended for these aircraft only.

For other expermentals, the RV-4 system may fit better under cowls as it is built tighter to the engine.

REAL PREMIUM SILICONE VALVE COVER GASKETS

REAL are twice as thick as typical gaskets and have been hot oil and dry heat tested at 300°F. Only REAL gaskets seal uneven surfaces, eliminate corrosion, and reduce maintenance costs. They may be reused, are installed dry, and maintain screw torque. Indefinite shelf life. Highly recommended by Rutan Aircraft Factory.

EP

GASKETS

"O" SERIES LYCOMING VALVE COVER GASKETS

These homebuilder's Lycoming valve cover gaskets replace the original cork gaskets which come standard on Lycoming 0-235, 0-320 and 0-360 engines. These new gaskets are molded from high temperature silicone rubber and do not harden over time so they can be re-used again and again. This hi-tech silicone rubber offers a much lower compression set, so it is superior at maintaining an oil-tight seal for the life of the engine. NOT FAA approved. For experimental aircraft only.

P/N 08-01187 ..... **$3.95**

ANGLED VALVE "IO" SERIES LYCOMING VALVE COVER GASKETS

These gaskets are for the fuel injected "IO" series, sometimes referred to as the Angle Valve cylinder Lycoming, as well. these gaskets are molded from the same high-temperature silicone rubber as the "O" series gaskets above, and do not harden over time, so they can be reused again and again.This hi-tech silicone rubber offers a much lower compression set, so it is superior at maintaining an oil-tight seal for the life of the engine. They are not FAA approved and are not manufactured under a PMA. These are similar to Lycoming part number 67193 used on Angled valve Lycoming engines IO-360, IO-540, IO-720. P/N 08-05882 ..... **$5.85**

2577256 PRECISION AIRMOTIVE GASKET PEX-1

Gasket part number 365533 is no longer available from Precision Airmotive. The new gasket, part number 2577258 is available and should be used in place of 365533. P/N 07-01312..... **$0.81**

LYCOMING PROP GOVERNOR GASKET

Propeller governor gasket for Lycoming 0-320 A & E Series engines. P/N 72053 ..... **$1.69**

POLY-FIBER AIRCRAFT COATINGS

AIRCRAFT SPRUCE - WORLD'S LARGEST DISTRIBUTOR OF POLY-FIBER PRODUCTS

This FAA approved process utilizing Poly-Fiber Dacron polyester and the unique "Poly" line of finishes assures a beautiful, durable, weather-resistant cover job every time. Documented time tested results by the professionals. The Poly-Fiber Covering Process was issued Supplemental Type Certificate No. SA-1008-WE in 1965 and this number will apply to all aircraft.

Note: Formerly known as Stits covering process. Only Poly-Fiber materials may be used through the topcoat paint to comply with STC requirements. Poly-Fiber finishes are required for approval. Poly-Fiber is approved for use on most certified aircraft. To be sure, check the Master Eligibility List in the latest revision of Poly-Fiber Procedure Manual No. 1.

POLY-FIBER FABRIC

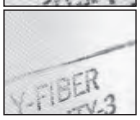
UNCERTIFIED LIGHT

1.87 oz lightweight fabric recommended for covering ultralight aircraft. This fabric will be unstamped. It is not approved for certified aircraft except on plywood surface. 72" Width P/N 09-02001 ..... **$8.40 /Lineal Yd.**

MEDIUM WEIGHT

3.16 oz standard fabric recommended for normal service on all types of aircaft regardless of speed, wing loading or horsepower. 72" Width

P/N 09-01600 ..... **$11.95 /Lineal Yd.**



HEAVY DUTY

3.5 oz Recommended for severe operating conditions and very high wing loading aircraft where a very tough, durable, low elongation, high tension fabric is required and weight is not critical. Great for agricultural, aerobatic and bush planes. 72" Width P/N 09-01700 ..... **$13.30 /Lineal Yd.**

POLYESTER PADDING

Non -woven, 45" wide, 3 oz. per yard. Used under fabric on wing leading edge and turtle deck to smooth rough surfaces.

P/N 09-01750 ..... **$7.20**

Non-adhesive polyester twill tape for inter-rib bracing. Twice as strong as cotton tape. 36 yd. rolls.`1/2" Wide P/N 09-40912 ..... **$16.70**

AIRCRAFT FABRIC COVERING

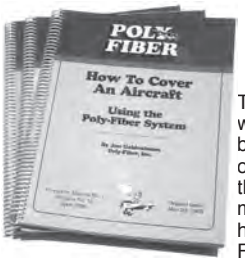
Aircraft Fabric Covering is a must for anyone who wants to cover their own airplane. This 2-hour comprehensive DVD presents every aspect of the Poly-Fiber™ fabric covering process in detail, and in easy-to-understand language. From preparing the airplane for covering to spraying on the colors, you are guided step by step through the entire process by a professional EAA SportAir fabric instructor. When used in conjunction with the Poly-Fiber manual, Aircraft Fabric Covering removes the mystery surrounding this important process in the construction or restoration of your airplane. Information covered includes: • Preparing surfaces • Attaching the fabric •Tightening the fabric • Applying the first coat of Poly-Brush •Tying rib-lacing knots • Applying finishing tapes • Spraying UV-blocking chemical • Poly-Spray •Applying the color coats.

DVD ..... P/N 13-40428 ..... **$35.50**

THE POLY-FIBER PRACTICE KIT

If you're thinking of building a fabric-covered airplane but are wondering what the covering process is like, this is the perfect answer. You get a practice frame, fabric, tapes, needles, rib lacing cord, thermometer, instructions, and all the coatings you need to work through the Poly-Spray stage. There's enough of everything to do the entire process twice. You'll see how easy and enjoyable fabric covering really is.

P/N 09-06220 ..... **$62.50**



'HOW TO COVER AN AIRCRAFT USING THE POLYFIBER SYSTEM'

The Official Poly-Fiber how-to manual. It's a whole covering course in a book. A spiral-bound classroom, as the ads say. 151 pages of clear, non-jargon, step-by-step instruction, the entire Poly-Fiber system, from basic materials to blue ribbon. In plain language & has a sense of humor all its own. Entire Poly-Fiber catalog of products is included.

P/N 09-06000 ..... **$9.95**

Poly-Fiber Color Card #50 P/N 09-00234 ..... **FREE**

POLY-FIBER SOLVENTS & CLEANERS

METL-SOL C-2200 METAL SURFACE CLEANER

A strong solvent blend formulated to remove oil, silicone, wax and other contaminants from all metal surfaces before priming. Not for painted surfaces.

Qt. ..... P/N 09-40710 ..... **$18.90**
Gal. ..... P/N 09-40720 ..... **$60.70**

C-2210 PAINT SURFACE CLEANER

A mild solvent blend formulated to remove oil, silicone, wax and other contaminants from all painted or primed surfaces. Also removes tape gum from painted surfaces and acrylic windshield materials.

Qt. ..... P/N 09-40810 ..... **$11.95**
Gal. ..... P/N 09-40820 ..... **$44.95**

310 ALKALINE DETERGENT CLEANER

Highly recommended as an alkaline metal cleaner for removing greases and oils. Also a very good cleaner for interior cabins and vinyl upholstery, as well as a wide variety of household applications to remove waxes, dirt, and stains. Furnished as a concentrate for 32:1 dilution with water. Lemon scented and not harmful to your hands.

Qt. ..... P/N 310-QT **$11.95**
Gal. ..... P/N 310-1G **$27.90**

POLY-FIBER MEK

Solvent used to remove coatings for repairs, for clean up, and to release cemented seams. NOT used to thin or reduce any products.

Qt. ..... P/N 09-40835 ..... **$14.30**
Gallon ..... P/N 09-40845 ..... **$41.25**

CS

POLY-FIBER AIRCRAFT COATINGS

POLY-BRUSH

FLAMMABLE A pink translucent, 1 part air drying resin used for the first 2 or 3 coats to penetrate and seal the fabric weave and assure good adhesion. Also used to attach the finishing tapes and reinforcing patches. Brush on initial coat thinned 3:1 with reducer. Subsequent coats are thinned 3:1 with reducer and applied with a spray gun to avoid brush marks & cut application time.

	Tinted		*Untinted*	
Quart	P/N 09-04100	**$25.55**	P/N 09-04110	**$25.55**

Gallon	P/N 09-05100	**$99.80**

POLY-TONE® FINISH

A durable semi-gloss, 1-part, air drying flexible paint available in over 50 popular aircraft colors. Recommended as the standard finish for the Poly-Fiber cover process. Also may be used over suitably primed metal components of fabric covered aircraft. Fabric damage is more easily repaired when Poly-Tone finish is used. All pigments are non-bleeding or fading. Will not oxidize with age. Poly-Tone is always thinned to 4 to 1with Poly Fiber Reducer (65-75 or 8500).

FLAMMABLE

POLY-FIBER AIRCRAFT COATINGS

POLY FIBER AEROTHANE

A tough, flexible, high-gloss two part polyurethane especially formulated for fabric covered aircraft and marine surfaces subject to flexing loads. Recommended as a premium quality fabric finish over Stits Poly-Fiber covered aircraft. Wet look, high gloss. Aerothane requires catalyst, which is sold separately, and will be offered to you t the time of purchase. If you currently have an adequate supply please notify a sales rep or note it on you online order. Aerothane additives are also sold separatley, but must be requested as needed.

AERO-THANE (All Paint 3/4 filled cans)

AERO-THANE ADDITIVES			
Description	**Size**	**Part No.**	**Price**
Urethane Catalyst U-865	1/2 Pint	09-05400	**$19.95**
Urethane Catalyst U-865	Quart	09-05500	**$53.65**
Urethane Reducer UE-820	Quart	09-05600	**$17.05**
Urethane Reducer UE-820	Gallon	09-05700	**$55.10**
Urethane Retarder UR-826	Quart	09-05800	**$18.55**
Urethane Retarder UR-826	Gallon	09-05900	**$60.35**

TO ORDER AEROTHANE:
Create the part number for the Aerothane you require: Color-A-Q(quart) or G (gallon). Add -K (kit) if catalyst is required. Example: 100-A-Q-K is 1 quart of color #100 with catalyst included.

POLY-TONE/AEROTHANE ENAMEL FLATTENER

Used to make Aerothane and Enamel match the semi gloss finish of Polytone, or to make either Aerothane, Polytone and Enamel Full Military Flat.
Use 1 Pint, to flatten 1 Quart .....P/N 09-02052 .....**$22.55**
Use 1 Qt. & 1 Pint, to flatten 1 Gallon.....P/N 09-02051 .....**$43.15**

CALIBRATION THERMOMETER

Thermometer is accurate from 100°F to 400°F / 50°C to 200°C. Easy-to-read dial. Adjustable pan clip. Durable stainless steel.
P/N 09-37475 .....**$14.40**

BLACK BARON FABRIC IRON

The Black Baron Iron was designed specifically for use on small aircraft. The exclusive "roll bars" fit into fillets and undercambers. The flat sole is for sheeted and open structures, and its beveled edges provide constant heat without marks. The toe is rounded and flat best performance. The coating is 100% blackstone making the iron slide like butter, even on tacky surfaces with almost no adhesive buildup. An advanced hi-tech thermostat reduces temperature drift to only 5° – Ordinary irons can vary up to 40°, causing surface bubbles. Get the best – get Black Baron.
110V.....P/N 09-37411 ..... **$23.85**

CUSTOM SEALING FABRIC IRON

This Teflon coated sealing works on a variety of coverings and has adjustable heat setting. It's an AC unit which operates at 170 watts. The temperature range is approximately 100-350°F. Has a 1-year warranty.
110V.....P/N 09-37400 .....**$27.75**
220V.....P/N 09-37401 .....**$48.85**

BLACK & DECKER THE CLASSIC IRON

With a classic design and a wide range of convenient features, The Classic™ iron brings simplicity and style back to ironing. A SmarTemp™ indicator light ensures you're ironing at the right temperature, while the 3-way auto shutoff provides added security and peace of mind. Wrinkle-Fighting Power. Aluminum Soleplate. Steam On/Off Button. Ironing Made Easy. 3-Way Auto Shutoff. Anti Drip. Fabric Guide. Button Groove. Pivoting Cord
P/N 09-00980 .....**$34.50**

IRON KIT

Includes large iron and standard small iron, a glass thermometer and silicone heat sink compound.
P/N 09-37420 ..... **$95.00**

SILICONE HEAT SINK COMPOUND

For more accurate thermal transfer during iron calibration. 1 oz. Syringe
P/N 09-37450 ..... **$15.80**

ENAMELS – REPAIR KITS

POLY-FIBER MARK II FOR METAL

(NOT FOR USE ON FABRIC) - Use Mark II for Metal is available in the same 50 colors as Poly-Fiber Poly-Tone and Randolph Colored Butyrate Dope. Mark II is used over primed metal or composite parts and is too brittle to be used over fabric. Mark II is a tough, long-lasting top-coat paint. Although Mark II is a two-part catalyzed paint, it is not catalyzed with an isocyanate, thus normal safety equipment (a charcoal filtered spray mask) is sufficient. You do not have to use a supplied air respirator when spraying Mark II. Packaging: Mark II comes in two-part kits: one part is a can of the colored paint; part two is a separate can with an equal volume of Mixing Liquid. Mixing Liquid contains the catalyst and thinner.

POLY-FIBER MARK II MIXING LIQUID

Mixing liquid is a combination of catalyst and thinner to be used only with Mark II for Metal paint. Included in Mark II kits above, but also available separately. See directions for mixing, thinning, and application above. Shelf life is two years in unopened package.

Quart P/N 09-03695 **$45.15**
Gallon P/N 09-03696 **$149.50**

POLY-FIBER MARK II THINNER

Used to thin Mark II for Metal paint after it has been combined with Mark II Mixing liquid. Included in Mark II kits above, but also available separately. thinning is generally unnecessary when Mark II is sprayed. However, if orange peel results, you may use Mark II Thinner with 5 parts mixed Mark II paint. Shelf life is four years in unopened storage.

Pint P/N 09-03697 **$9.00**
Quart P/N 09-03698 **$14.00**

FABRIC COVERING TOOL KIT

This kit includes the items most commonly needed to complete your Poly-Fiber covering project.

Kit Includes: 4 - 1" Disposable Brushes, 3 - 2" Disposable Brushes, 4 - 2" opening 6" long Spring Clamps, 1 - CB-9 Pinking Shears, 10 - 1/2" Glue/Acid Brushes, 1 - Black & Decker Classic Iron, 1 Hobbico Fabric iron 110V, 1 - Silicone heat sink compound, 1 - Thermometer, 1 - 12" Straight Needle, 1 - 12" Curved Tip Needle, 1 - 6" Curved Needle, 2 - Gallon Paint Saver Lids, 1 - V-plore 330 series mask only, 1 - X-plore P100 Combo cart pkg. P/N 09-06230 ..... **$170.95**

CYCLONE PAINT SHAKER

Only the Cyclone has "Varishake", adjustable haking power that automatically compensate for can size. A Cyclone will give you superior mixing power to quickly and completely separate and disperse individual metallic and pigment particles so you can match intensity and pitch exactly. Then, at a touch, your Cyclone will give your batch an extra gentle agitation while you are painting, to hold the batch in the fully mixed condition. Cyclone helps eliminate problems with panel to panel uniformity. Features: • Clamps cans quickly, easily, positively. • Thoroughly mixes most products in 60 to 90 seconds. • Breaks up and resuspends well settled solids. • Accepts pint through four-liter cans, including U.S. gallon, Imperial gallons, square gallons, and aerosol cans. (Some 5.1 cans, also 1/4 and 1/2 pts. stacked or with spacers.). • Quiet. • Mounts solidly. • Rugged construction. Engineered and manufactured in the U.S.A.

Cyclone Shaker ..... P/N 09-00902 ..... **$662.00**
Cyclone Pedestal ..... P/N 09-00903 ..... **$134.95**

POLY FIBER COVERING KIT

The Poly Fiber Covering Kit from Aircraft Spruce includes all of the materials generally required to re-cover a wide variety of small aircraft (see list below) except the fabric. When you order this Covering Kit from Aircraft Spruce, you can also order the presewn fabric envelope or fabric yardage you will need to cover the aircraft. Aircraft Spruce is the best choice for your covering materials requirements. Count on Poly Fiber's largest distributor ...Aircraft Spruce!

This kit recommended for these aircraft:

- AERONCA CHAMPION
- AERONCA CHIEF
- CALLAIR
- CITABRIA
- FUNK
- INTERSTATE CADET
- PIPER J3, J4, J5, PA-11, PA-12, PA-14, PA-18, PA-25
- PORTERFIELD
- REARWIN
- TAYLORCRAFT

Note: This kit is for aircraft requiring about 45 yards of fabric. Quantity required vary by aircraft. Verify quantity shown are correct for your aircraft before ordering kit.

P/N 09-02046 ..... **$2,528.00**

CS

PRE-SEWN POLY-FIBER AND CECONITE ENVELOPES

Presewn envelopes are much easier to install than fabric yard goods. The envelopes are sewn to fit each individual surface depending upon the type of airplane. They can be placed on the surface like a sock. The envelopes are sewn using a special thread and special stitches. Fabric tapes must be placed over all seams. The seams can be sewn chordwise or spanwise for the wings. Individual Pieces Priced Per Each. On presewn envelopes, individual pricing is done by each piece. (i.e. If your airplane is a Stearman, you will have 4 wings. Price shown is per wing - $86.44. Your cost for all 4 would be: 86.44 x 4 =$345.76

PLEASE ORDER BY PART NUMBER - Basic part numbers (09-XXX) are shown in the chart. Complete the part number with 10 for wing, 20 for fuselage, 30 for aileron, 40 for stabilizer, 50 for elevator, 60 for flap, 70 for rudder, or 80 for complete set. ***After the P/N***, add -1 for Heavy Duty 3.4 oz Polyfiber Fabric, -3 for Medium Weight 2.6 oz. Polyfiber Fabric, -5 for Ceconite 101 fabric, or -6 for Ceconite 102 Fabric. ***Prices of envelopes vary based on Fabric selected.*** Example: Complete part number for a Stinson 108-1 complete set in Ceconite 102 fabric would be 09-67380-6. Note: All pre-sewn envelopes are non-cancelable, non-returnable special orders items.

PRICES SHOWN ARE FOR CECONITE 102 ONLY

ULTRALIGHT SAILS

Our sails are made in the United States by a top flight sail loft. These sails are made from the highest quality 3.9 oz. Dacron, many of them from the original OEM sail patterns. These sails are guaranteed to fit properly. All sail sets come complete with tail feathers and fuselage covers, except where noted. All sail orders are on custom-fabricated basis. Therefore, please allow an average of three weeks for delivery. There are no refunds on sail sets unless they are defective. Non-refundable 100% deposit or credit card purchase required. A wide selection of sail colors are available. Contact Aircraft Spruce for details on colors, patterns, and custom work. Prices subject to change without notice.

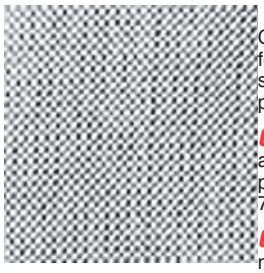
CS

CECONITE – STAR GLOSS



CECONITE FABRIC

Ceconite, 100% polyester fabric is approved for use on most certified aircraft. To be sure to check the master eligibility list in the procedure manual.

CECONITE 101 (3.4 oz.) - Much stronger and far more durable than cotton. It has a probable lifetime durability.
70" Width .. P/N 09-00700 ..**$13.30 /lin. yd**

CECONITE 102 (2.6 oz.) - A fine weave medium weight fabric to be used as a replacement for intermediate weight cotton fabric as described in TSO-C15. 70" Width ..... P/N 09-00900 .....**$11.95 /lin. yd**

UNCERTIFIED LIGHT - 1.7 oz., lightweight fabric recommended for covering ultralight aircraft. This fabric will be unstamped. It is not approved for certified aircraft except over plywood surfaces.
66" Width ..... P/N 09-00921 .....**$8.40 /lin. yd**

SUPER SEAM FABRIC CEMENT

New Super Seam Fabric Cement. Not compatible with original nitrate-based Super Seam. Used to attach Ceconite Fabric to structures. High solids nitrate based cement approved in the Ceconite STC.

FLAMMABLE

1 Qt. ..... P/N 09-18100 ..... **$27.25**
1Gal..... P/N 09-18200 ..... **$99.80**

POLYESTER THREAD & CORD
(FAA APPROVED)

CECONITE - D693 waxed, 600 yds.
P/N 09-41300-1 ..... **$45.25**

CECONITE - Flat Braided, 500 yds.
P/N 09-00822 ..... **$45.25**

HAND SEWING THREADS - 250 yds
P/N 09-41400 ..... **$11.75**

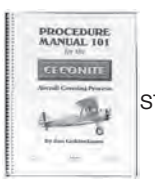
MACHINE SEWING THREAD - 5600 yds..... P/N 09-41500.. **$15.25**

INTERIB BRACING TAPE - 36 yd roll, 1/2"w .... P/N 09-41560.. **$16.70**

CECONITE REINFORCING TAPES
(FAA APPROVED)

Polyester twill with adhesive back. Applied under riblacer, server, or pop rivet to prevent fabric from ripping. 60 yd. length.

1/4" width ..... P/N 09-41230 ..... **$55.00**
3/8" width ..... P/N 09-41238 ..... **$56.60**
1/2" width ..... P/N 09-41212 ..... **$57.95**



CECONITE PROCEDURE MANUAL

STC manual for applying ceconite materials.
P/N 09-01000 ..... **$10.00**

STAR-TAK FABRIC CEMENT

Star-Tak is a vinyl-based cement that is used to cement aircraft fabric to steel, aluminum, wood, or composite surfaces. It is also used to join fabric together in overlapped cemented seams. It dries to the touch in 15 to 20 minutes in normal temperatures. In two hours, it develops a bond strong enough to allow heat shrinking the fabric.

Quart ..... P/N 09-02583..... **$27.25**
Gallon..... P/N 09-02584..... **$99.80**

STAR GLOSS GRAY SEALERS

Gray Sealer is used to seal Ceconite fabric prior to spraying Silver Urethane Fabric Primer. This coat prevents pinholes in the Silver Urethane Fabric Primer. Gray Sealer is also used to apply Ceconite finishing tapes. It is tinted translucent gray to help see it when applied.

Quart ..... P/N 09-02577..... **$25.55**
Gallon..... P/N 09-02578..... **$85.00**
5 Gallon..... P/N 09-02579..... **$420.00**

STAR GLOSS SEALER REDUCER

Thinner for Gray Sealer. Mix three parts Gray Sealer to one part Sealer Reducer. Shelf Life: Four years, unopened in protective storage. Not affected by freezing.

Quart ..... P/N 09-02580..... **$15.40**
Gallon..... P/N 09-02581..... **$48.25**
5 Gallon..... P/N 09-02582..... **$230.90**

CECONITE TAPES

This FAA approved process utilizing Ceconite polyester fabrics and the Randolph line of finishes assures a beautiful, durable, weather-resistant cover job every time. The Ceconite cover process was issued Supplemental Type Certificate No. SA4503NM in 1997, and this number will apply to all aircraft. Note: Only Randolph materials may be used through the topcoat paint to comply with STC requirements. Randolph finishes are required for approval. Ceconite is approved for use on most certified aircraft. To be sure, check the Approved Model List in the latest revision of Procedure Manual 101 for the Ceconite Aircraft Covering Process.

LINEAR STRAIGHT TAPES (CECONITE 102)

Width	*Roll*	*Part No.*	*Price*
1"	50 yds	09-41010	**$21.35**
1.5"	50 yds	09-41015	**$28.65**

4"	25 yds.	09-41254	**$32.40**
6"	25 yds.	09-41256	**$45.00**

BIAS PINKED TAPES

For use on curved edges.

2"	25 yds.	09-41165	**$32.45**
3"	25 yds.	09-41170	**$46.15**
4"	25 yds.	09-41175	**$57.35**

STAR GLOSS SILVER URETHANE FABRIC PRIMER

Silver Urethane Fabric Primer is a polyurethane product that serves two purposes: to build the coating over the fabric to prepare for paint, and to protect the fabric from UV radiation. Silver Primer uses a metallic-like flake additive. This proven system results in a positive metallic light block and reflection to both visible and invisible UV without relying on chemical UV light blockers.

Quart ..... P/N 09-02585..... **$28.75**
Gallon..... P/N 09-02586..... **$101.20**

STAR GLOSS SILVER URETHANE FABRIC PRIMER CATALYST

Silver Urethane Fabric Primer Catalyst is the only catalyst that can be used with Silver Urethane Fabric Primer. Note that unlike other catalysts it is mixed at a four to one ratio of primer to catalyst.

1/2 Pint..... P/N 09-02587..... **$34.50**
Quart..... P/N 09-02588..... **$78.20**

STAR GLOSS SILVER URETHANE FABRIC PRIMER REDUCER

A special blend of solvents specifically formulated for use with Ranthane and Star Gloss Silver Urethane Fabric Primer.

Gallon..... P/N 09-02590..... **$31.00**

STAR GLOSS AIRCRAFT COVERING PROCESS PROCEDURE MANUAL

114 pages of step-by-step instruction on how to cover your airplane with the Ceconite/Star Gloss system, helpful photos, great nostalgic cartoons, extra words of wisdom, and a delightful sense of humor. Includes catalog of products, everything from fabrics to top coat paint. P/N 09-02576..... **$10.00**

FABRIC – TAPES

DACRON TAPE / PEEL PLY

A layer of 2.7 oz. Dacron fabric strips or tape laminated into a layup as if it were an extra ply of glass. The peel coat wets out with epoxy like glass cloth and cures along with the rest of the layup. However, the Dacron does not adhere structurally to the glass and when peeled away it leaves a surface ready for glass-to-glass bonding without sanding.
Requirements for Small Aircraft: For Expermental Aircraft.
• 3 Rolls of 1" x 50 Yds. Tape • 2 Rolls of 2" x 50 Yds. Tape • 1 Roll of 3" x 50 Yds. Tape • 1 Roll of 4" x 50 Yds. Tape

Width	Smooth Edge		Pinked	
50 Yd Roll	P/N 09-	Price/ Roll	P/N 09-	Price/ Roll
1"	15000	**$6.50**	15450	**$6.90**
2"	15100	**$14.25**	15500	**$13.75**
3"	15200	**$21.75**	15600	**$21.75**
4"	15300	**$28.75**	15700	**$29.00**
6"	15400	**$44.25**	15800	**$44.25**

Discount Schedule for Dacron Tapes: Less 10% for 12 Rolls (assorted) • Less 15% for 25 Rolls (assorted). Request quote on larger quantities.

DACRON FABRIC / FULL WIDTH PEEL PLY

Poly/Dacron blend is excellent as peel ply for composite lay-ups, and for covering expermental aircraft.
2.7oz. 64-66" #604 ....P/N 09-00300 ....**$4.75/yd.**
1.8 oz. X 64" #611 .....P/N 09-00100 ....**$3.90/yd.**
2.97 oz. X 62" #605 ...P/N 09-00500 ....**$3.95/yd.**

DACRON BIAS TAPE
FOR HOMEBUILT AIRCRAFT

Bias-cut tapes (weave 45° to edge) are especially useful for trimming compound curves on components such as wing tips and tail surfaces. Bias tape will stretch to conform to the contour without wrinkles, without heat-shrinking edges or cutting and notching to remove excess fabric. Stretching reduces the width about 35% so 3" tape should be used to finish areas normally covered with 2" tape. 2" Bias tape will pull to about 1-3/8" width.
2" x 50 Yd . Roll .....P/N 09-16300 ..... **$46.75**
3" x 50 Yd. Roll .....P/N 09-16400 ..... **$59.95**
NOT FOR USE ON CERTIFIED AIRCRAFT

COTTON REINFORCING TAPES

Tape	Size	Part No.	Price/Roll
DDD-T-86F	1/2" x 36 Yds.	09-17000	**$19.70**

THREADS & CORDS

Only synthetic threads and rib lacing cords should be used with Dacron covering to insure uniform strength. Waxed linen rib cord Conforms to PMA# TQ0075NM and STC# SA1008WE.

Material	Quantity	Part No.	Price
Dacron Machine Sewing Thread	500 Yds.	09-03900	**$15.25**
Dacron Hand Sewing Thread	250 Yds.	09-04000	**$11.75**

FAB-TAC FABRIC CEMENT

A superior quality cement for strong splice joints. Use to cement tapes, rings and grommets to fabric cover.
1 Pint ..... P/N 09-17800 ..... **$12.90**
1 Qt..... P/N 09-17900 ..... **$17.75**
1 Gal. ..... P/N 09-18000 ..... **$56.75**

CLOTH MASKING TAPE

Has many uses in aircraft maintenance work. Strip over sharp corners under fabric. Strips on parts under doped fabric will prevent fabric from sticking to parts. Pressure-sensitive adhesive backing. Easily applied, easily removed. Leaves no residue. Should not be applied below 32°F.
1" x 60 yds. ..... P/N 09-17100..... **$9.75**

DIAMOND BACK TAPE

Advantages: • Save TIME with easy installation • Save OPERATING COSTS with improved energy efficiency • Save REPAIR COSTS with long lasting quality at high temp • Save ON PRICE with quantity discounts

CHARACTERISTICS	
Fibers	Ceramic
Application	Insulation with bolt holes
Weave Style	Drop Warp
Thickness	.125 in
Bolt Diameter	Up to .75 in
Continuous Service	1,800°F
Maximum Use	2,300°F
Durability	High Strength
Coating	Plain or Vermiculite Avail.

Type	Width	Thickness	Roll Length	Part No.	Price
1/8" Thickness - Plain	2"	.125"	100ft.	05-03510	**$106.75**
1/8" Thickness - Vermiculite Coated	2"	.125"	100ft.	05-03511	**$133.90**

SOLDERING IRON

Use to melt drain holes and inspection rings in polyester fabric. 35 Watt, 900°F tip. Tip is replaceable & long life coated.
P/N 09-37430 ..... **$77.25**

HEAVY-DUTY HEAT GUN

This soft air velocity of this heat gun increases the surface temperature to the required working temperature much faster than conventional heat guns and maintains a higher temperature for faster completion of the application. Features double insulation, two temperature selections of 570°F and 1000°F, and a unique impact resistant heating element. Operates on 120V AC at 11.6 amps. Air volume 14.8 cu. ft. per minute. Wt. 1-1/2 lbs. ..... P/N 09-00354 ..... **$99.75**

DELUXE HEAT GUN

This handy tool gives you a fast, drum-tight, mirror smooth finish. It's ideal for heat-shrinkable covering films. Get a professional finish with less time and effort. 1-year warranty.
Features: • Includes removeable wide nozzle • 1000-watt heating power • Heavy-duty fan motor • Textured, composite hand-grip • 3-position, hot/cool/off switch • Adjustable air intake baffle • Weight: 15 oz • 5.5' AC power cord with 2 prong plug
P/N 12-00527 ..... **$27.50**

POCKET THERMOMETER

This Pocket thermometer can eliminate 80% of your iron-on covering problems. These problems are caused by your iron's temperature varying as much as 60° while in use, which causes bubbles and sags. If you are using an iron other than Black Baron, this thermometer is a must in monitoring iron temperatures.
P/N 09-37500..... **$7.50**

MAULE FABRIC TESTER

A fine quality tool to test fabric covered aircraft for minimum FAA requirements without removing or punching holes in fabric. Also used to test struts for inside rusting as required by FAA on all Piper aircraft with struts.
P/N 09-14900 ..... **$294.00**

CS

PTI SPECIALTY PAINTS

PTI Specialty Paint & Coatings, exclusively from Aircraft Spruce & Specialty Co., are featured in space, aerospace and aviation applications throughout the world -- the Space Shuttle and Space Station projects, the Patriot and Stinger missile projects and in refurbishing of landing gear for commercial aircraft. Now, Aircraft Spruce brings PTI products to General and Sport Aviation.

See all PTI Paint Products at www.aircraftspruce.com

PTI COMPLETE SPECIALITY PAINT SYSTEM

1.Paint Strippers
2.Primers: Acid Etch and Epoxy
3.Topcoats: A chemical resistant Polyurethane with UV protectors
4.PTI Polykick™ to accelerate drytime
5.Cleaners

Note: Strong professional recommendation – These products have been specifically formulated to work together. Maximum adhesion, durability and performance is achieved when these products are applied as a system. To Purchase Your Specialty Paint System Simply tell us the make and model of your aircraft, and the Federal 595 Color – see chart on our website at: www.aircraftspruce.com Need a custom color that is not on the chart? – Ask us, we can help you with that too.

SOLVENTS, REMOVERS, & REDUCERS

PTI-MEK is virgin (not recycled) MEK that may be used to clean and prepare the substrate for painting. PTI-MEK may also be used to clean brushes, paint guns and other painting tools. PTI-Acetone is virgin (not recycled) Acetone that may be used to remove lacquer finishes, for cleanup after painting, and to soften lacquers or acrylics that set up in spray guns or hoses. Acetone is not effective on urethanes and should not be used. Use MEK for cleanup on urethane products. Use only virgin acetone. Recycled acetone can damage virtually anything to which it is applied. H. PTI-Toluene is virgin (not recycled) toluene that may be used as a reducer for enamels and other coatings in the alkyd family. Do not use with PTI chromate and chromate free primers. Instead, use PT-1022X66 reducer. PT-1045 is a reducer specially formulated to compliment the PTI Air Dry Wash Primer. PT-1022X66 is a reducer specially formulated to compliment the PTI chromate and chromate free primers. PT-1003 Type II is a reducer specially formulated to compliment the PTI Epoxy primer.

EPOXY PRIMER

PTI's Epoxy Primer is a low VOC (volatile organic compounds) epoxy polyamide solvent primer which conforms to the military specification MIL-P-23377 Rev. E. This coating is highly recommended for use on aluminum and all plated or unplated metallic surfaces to insure maximum protection against corrosion. This primer may be used as an interior or exterior primer that insures maximum adhesion of any paint or lacquer finish coats.

NOTE: Before applying, refer to the technical data sheet for this product.
****Must be shaken for 15 min. on a paint shaker.***

ACID ETCH PRIMER

PTI's Air Dry Wash Primer requires no sanding and is a polyvinyl butyral zinc chromate formulation that may be used to prime all plain or plated metallic surfaces. Priming surfaces with this primer will ensure maximum adhesion of all bake or air-dry finish coats (including lacquer finish coats). The finely ground emulsions of zinc chromate pigment, resins and phosphoric acid hardeners are virtually non-settling. For the best results follow the instructions on the technical data sheet. This primer exceeds the performance standards specified in Department of Defense specification (DOD) 15328 and Military Specification MIL-8514.

ZINC OXIDE PRIMER - CHROMATE FREE

PTI's Zinc Oxide Primer is formulated to exceed the performance standards in the Federal Specification TT-P-1757. Promotes maximum adhesion to bare aluminum and steel. Formulated to provide a high performance primer that is considered a safer, more environmentally friendly, alternative to the zinc chromate primer.

Description	Part No.	Price
Zinc Oxide Yellow Spray 13 oz.	09-01617	**$9.95**
Zinc Oxide Primer Yellow QT	09-00961	**$42.25**

PTI SANDABLE PRIMER

PT-573 is a two component epoxy based primer. PT-573 is capable of filling small holes and imperfections before topcoating. PT-573 provides a smooth, sandable base coat that improves the adhesion and appearance of the topcoat. Because of PT-573's unique formula, this primer also provides excellent rust and corrosion protection. This sandable primer is compatible with PTI's epoxy and Polyurethane topcoats.

Description	Part No.	Price
PTI 573 Sandable Primer 2 gallon	09-02311	**$137.95**
PTI 573 Sandable Primer 1 gallon	09-02312	**$79.95**
PTI 573 Sandable Primer Quart	09-02313	**$58.25**

ALL mixed paints are special order and are non-returnable.

PTI SPECIALTY PAINTS

PTI EPOXY TOPCOAT INTERIOR APPLICATION

Ttwo component catalyst cure epoxy polyamide which meets, and exceeds, MIL-PRF-22750E&F; Type 1. This system cures to an extremely hard, impervious film which resists yellowing and chalking. The Epoxy Topcoat provides the ultimate protection and gives a high quality finished appearance to metal, wood, and most other materials capable of being coated. Intended specifically for interior application to improve longevity and provide durability. This product is available in every color from the 595C Federal Color standard. Custom color matching available upon request.

To Order use "Base Part No." followed by the dash number of desired finish and size listed below.

PTI WATERBORNE EPOXY PRIMER - LOW VOC

Chemical and solvent resistant. It is a TUF/FILM epoxy primer that conforms to MIL-PRF -85582D. It is especially recommended to inhibit corrosion of aluminum and other plated or unplated metallic surfaces. That being said this primer is also able to be used on composite surfaces. The Water Reducible Epoxy Primer has one of the lowest VOC levels of any primer of its kind on the Navy's QPL. This primer should be used with PTI topcoats to provide maximum adhesion and corrosion protection. May be used with any other manufacturer's paint or lacquer finish coats.

Light Green Primer Quart ..... P/N 09-02679 ..... **$108.95**
Light Green Gallon Primer kit with Catalyst ..... P/N 09-03436 ..... **$172.50**

Dark Green Primer Gallon ..... P/N 09-02682 ..... **$95.00**
Catalyst Pint ..... P/N 09-02683 ..... **$33.50**

PTI ANTI-SEIZE COMPOUND

PTI's Anti-seize Compound is a silicone base grease with a high pigmentation of micro fine molybdenum disulfide. It is heat stable and will not decompose or form a gum deposit. It is effective under light or medium bearing loads on steel to bronze, metal babbit, zinc, nylon, Teflon or hard-anodized aluminum surfaces. Normally it is suitable for operating temperatures of -65 F to + 1000 F.

Pint ..... P/N 09-02901 ..... **$80.75**
Quart ..... P/N 09-02902 ..... **$125.95**

PTI MOLY SPRAY LUBRICANT

Moly spray is unequaled as a lubricant for machine tools, plastic molding machines, paper and textile making equipment, oven mechanisms, and sheet metal and tube bending operations. Provides lubrication on surfaces for which a "wet" or "liquid" lubricant is undesirable.

P/N 09-02903 ..... **$13.50**

PTI NO PEEL™ EPOXY AND POLYURETHANE TOPCOAT ADDITIVE

Formulated to help epoxy and polyurethane topcoats flow to their maximum ability. Keeps the coating "open" to allow bubbles to escape and the surface to flow in high temperature conditions. Refer to the manufactures technical data before using this product.

4 oz..... P/N 09-02672 ..... **$11.75**
8 oz..... P/N 09-02673 ..... **$16.75**
16 oz..... P/N 09-02674 ..... **$11.75**

PTI NO POP™ RETARDER

Used as an additive to slow down the dry time of fast drying paints and primes. During hot and dry temperatures, coatings have a tendency to "solvent pop" and/or "dry spray". This retarder keeps the material wet allowing it to flow, dry, and cure as it should.

4 oz..... P/N 09-02675 ..... **$8.50**
8 oz..... P/N 09-02676 ..... **$16.75**
16 oz..... P/N 09-02677 ..... **$30.00**

PTI SPECIALTY PAINTS

SPECIALITY PAINTS POLYURETHANE - ENAMELS - WATERBORNE

POLYURETHANE/CATALYST CURE: Low VOC - Two component topcoat system with built-in U.V. protection. The system has both corrosion and chemical resistance properties with a gloss range > 95%. Comes in all Federal 595C colors. Custom colors available upon request.

ENAMEL: PTI's Enamel is formulated to meet the performance specifications of Federal specification TT-E-489G. This product is a high quality alkyd enamel which performs best when used with PTI's zinc chromate or chromate free primer. It may be applied over wood or metal and is suitable for both interior and exterior applications.

WATERBORNE: Waterborne Polyurethane: ZERO V.O.C. general purpose, exterior protective coating for metal surfaces. This product also works great for interior applications. The Waterborne Polyurethane should be applied over top of the PTI Waterborne Epoxy Primer. Available in all Federal 595C colors; custom colors available upon request.

HOW TO ORDER:

Add the following dash numbers after the "Base Part No. listed in the chart for the size and type desired.

For PTI Polyurethane:: Qt. Size add -13
Gal. Size add -14

For PTI Enamel:: Qt. Size add -23
Gal. Size add -24

For PTI Waterborne Qt. Size add -33
Gal. Size add -34

DOPES – THINNERS – SOLVENTS

CERTIFIED COATINGS PRODUCTS, located in Los Angeles, has been manufacturing aircraft dopes, thinners and special products for the aircraft industry for 50 years. It is a small company making good quality, high-solids dopes, very competitively priced. Since their products are made locally, we enjoy a tremendous saving in delivery costs which is reflected in the pricing as well. We have handled their line for many years with complete customer satisfaction.

FAA/PMA
In January 2005, Certified Coatings Products received FAA-PMA (Federal Aviation Administration Parts Manufacturing Approval) for use on Ceconite fabric. The products have always been approved for use on any other fabric. (PMA#PQ2435NM)

Toluene	---	---	---	---	09-14300	**$104.95**	---	---

Add 5% to 10%, as needed, of this blend of fast-cutting, high-boiling solvents to prevent dope blushing under conditions of high humidity. Also improves flow by slowing drying time.

Certified Coatings offers only a limited number of colors in butyrate dope which have been selected as standards. The colors will match as closely as possible the corresponding color on the Randolph selection card reproduced in this catalog.

PAINT REMOVERS – SANDING PRODUCTS

AIRCRAFT SPRUCE ACETONE

Use to remove lacquer finishes, for cleanup after painting, and to soften lacquers or acrylics that have set up in spray guns or hoses. It has little effect on polyurethane which has cured in the lines.Use only virgin acetone as recovered acetone can damage virtually anything on which it is used.

Pint ..... P/N 01-01077 ..... **$6.25**
Quart ..... P/N 01-01078 ..... **$9.25**
Gallon ..... P/N 01-01079 ..... **$17.50**

TOP PAINT STRIPPERS

TOP PAINT STRIPPER (PRO)® - 5000-B (Brush/Spray type) TOP Paint Stripper (Pro) 5000-B has been specially formulated for aircraft and marine applications. Removes epoxy and polyurethane from metal surfaces. Also removes varnish, baked varnish, lacquer, baked enamel and baked urea alkyd coatings, phosphate & chromate coatings. Concentration: Use full strength, as received. Note: 55 Gallon drums are shipped direct for customer from factory in Canada.

Size	Part No.	Price

SUNMIGHT P.S.A. FILM DISC - SANDING PAPER

Sunmight Film is a premium product with strong and even surface film backing that allows better surface finish and longer life. It is also great for corner and edge sanding without problems with tearing. Features: Open coat stearated, Excellent Cutting Performance, Longer lasting life with durability, Perfect sanding surface, Especially, excellent for contour snading without folding. Specifications: Grain: Premium Aluminum Oxide, Backing: Polyester Film, Bond: Phenolic Resin, Coating: Open Coat, Grit Range: 80-320, Box: 100.

RANDOLPH AIRCRAFT COATINGS

Randolph coatings are the FAA-approved coatings for the Ceconite STC covering process.

210 NITRATE DOPE, TAUTENING, CLEAR, HI-SOLIDS

Used only on Grade A cotton or Irish Linen. A premium high solids nitrate dope that tightens natural fabric as it dries. Not for use on Ceconite or heat-shrunk synthetic fabrics. Thin 1:1 w/286 Nitrate Thinner.

FLAMMABLE

Quart.....P/N 210-QT **$14.65**
Gallon .....P/N 210-1G **$44.10**
5 Gallons .....P/N 210-5G **$212.35**

W-7868 NITRATE DOPE, TINTED, NON-TAUTENING (BLUE)

Initial coating for Ceconite or heat shrunk polyester fabric. Additional plasticizers slow shrinking after application. Thin 1:1 with 286 Nitrate Thinner.

FLAMMABLE

Quart.....P/N W-7868-QT..... **$16.05**
Gallon.....P/N W-7868-1G..... **$47.85**
5 Gallons.....P/N W-7868-5G..... **$231.50**

E-4964 NITRATE DOPE, CLEAR,NON-TAUTENING

Initial coating for Ceconite or heat shrunk polyester fabric. For use on open cockpit aircraft where tinted dope is not desired. Thin 1:1 w/286 Nitrate Thinner.

FLAMMABLE

Quart..... P/N E-4964-QT..... **$15.95**
Gallon..... P/N E-4964-1G..... **$47.60**
5 Gallons..... P/N E-4964-5G..... **$230.60**

G-6302 RAND-O-PROOF NITRATE DOPE (GREEN)

Special formulation of nitrate dope and additives for the initial coat on Ceconite fabric and for applying tapes. This is the recommended first coat in the Ceconite/ Randolph system. Thin 1:1 with 286 Nitrate Thinner.

FLAMMABLE

Quart .....P/N G-6302-QT **$16.20**
Gallon.....P/N G-6302-1G **$49.90**
5 Gallons.....P/N 09-01017 ..... **$233.40**

286 NITRATE THINNER

Used 1:1 to thin nitrate dopes & Rand-OProof.

FLAMMABLE

Quart.....P/N 286-QT..... **$11.00**
Gallon.....P/N 286-1G..... **$43.85**
5 Gallons.....P/N 286-5G..... **$219.95**

9701 BUTYRATE DOPE, TAUTENING, CLEAR

Used only on Grade A Cotton or Irish Linen to tighten the fabric as it dries. Not for use on Ceconite or heat-shrunk synthetic fabrics. Thin 1:1 with 9703 Butyrate Thinner.

FLAMMABLE

Quart ..... P/N 9701-QT..... **$15.60**
Gallon ..... P/N 9701-1G..... **$46.60**
5 Gallons ..... P/N 9701-5G..... **$224.40**

W-8350 BUTYRATE DOPE TINTED, NON-TAUTENING (TAN)

This non-taughtening butyrate dope features an increased level of plasticizer and will not tauten excessively. Takes longer to dry than standard butyrates. Tinted. Used to apply finishing tapes. Additional plasticizers slow shrinking. ***TINTED LIGHT TAN BUT DRIES CLEAR.*** Recommended initial build butyrate coating to follow Rand-O-Proof in the Ceconite/Randolph system. Thin 1:1 with 9703 Butyrate Thinner.

FLAMMABLE

Gallon .....P/N 09-00788 .....**$50.15**
5 Gallons .....P/N 09-00789 .....**$242.50**

55 Gallon Drums - For 55 gallon drum of Randolph product, use basic P/N D55 - Example: 210-D55

J3000 BUTYSOLV REJUVENATOR

Used to soften older dope coatings which exhibit cracking or ring-worming. Restores plasticizers in aged finishes to add flexibility. Only works on aircraft painted with butyrate dope; will not work on polyurethane topcoat finishes.

FLAMMABLE

Quart.....P/N 09-14505 .....**$27.20**
Gallon.....P/N 09-14510 .....**$81.65**
5 Gallons.....P/N 09-14515 .....**$400.15**

G-6303 RAND-O-FILL BUTYRATE (SILVER)

Rand-O-FillG-6303 is a non-tautening butyrate material designed as the aluminum spray coat over Rand-OProof G-6302, over Nitrate Clear Dope or Butyrate clear Dope. Allow to dry. Wet sand to desired smoothness. Wash and allow surface to completely dry before applying following coat. Thin as needed with Butyrate Thinner.

FLAMMABLE

Quart .....P/N G-6303-QT **$18.45**
Gallon.....P/N 09-01018 ..... **$55.55**
5 Gallons.....P/N 09-01019 ..... **$269.25**

701 ALUMINUM PASTE

FLAMMABLE

A fine mesh paste which is easier to use than powder. Mix 4 oz. by weight of paste to one gallon of clear butyrate dope before thinning.

1 Lb. .....P/N 09-14500 ..... **$21.10**

9703 BUTYRATE THINNER

Used 1:1 to thin butyrate dopes & pigmented butyrate colors.

FLAMMABLE

Quart ..... P/N 9703-QT **$11.30**
Gallon..... P/N 9703-1G **$42.75**
5 Gallons..... P/N 9703-5G **$210.00**

Y-9910 UNIVERSAL RETARDER

Prevents blush in nitrate and butyrate products. Also used to slow nitrate and butyrate drying in high temperatures.

FLAMMABLE

Quart ..... P/N Y-9910-QT **$14.80**
Gallon..... P/N 09-01048.....**$46.75**
5 Gallons..... P/N 09-01049.....**$213.65**

A-1690 BUTYRATE DOPE, NON-TAUTENING (CLEAR)

For use as a build coat after E-4964 Non-Tautening Nitrate (Clear) on open cockpit aircraft where tinted dope is not desired. Thin 1:1 with 9703 Butyrate Thinner.

FLAMMABLE

Quart ..... P/N 09-00817..... **$16.70**
Gallon..... P/N 09-00818..... **$49.90**
5 Gallons..... P/N 09-00819..... **.$241.45**

MATERIAL REQUIREMENTS FOR AVERAGE SIZE AIRPLANE
USING RANDOLPH FINISHES AND CECONITE FABRIC

- 45 yds. 70" Ceconite 102
- 5 gals. Rand-O-Proof
- 10 gals. NT Butyrate
- 3 gal. Universal Finishing Retarder
- 13 rls. Pinked Ceconite Tape
- 2 rls. 1/2" Reinforcing Tape
- 30 Inspection Rings
- 5 gal. Nitrate Thinner
- 10 gal. Rand-O-Fill
- 30 gal. Butyrate Thinner
- 10 gal. (White) Butyrate Dope
- 1 rl. Ceconite Rib Lacing Cord
- 100 Plastic Drain Grommets
- 1 gal. Rand-O-Bond

TOTAL (Estimate).....$ 3,500

RANDOLPH FLOAT LACQUER

This specialty product is used as a spray on the bottom of aluminum floats on amphibious aircraft to protect them from marine growth. Reduce with Randolph 286 Nitrate Thinner.

FLAMMABLE

RANDOLPH ACID-PROOF BATTERY BOX BLACK PAINT #345

Battery Box Black Paint is an asphaltic coating used to provide protection from battery acid in battery boxes and compartments. It is generally applied with a brush or roller to any metal area that may be exposed to leaking battery acid. Shelf life: Guaranteed 2 years from date on manufacture in sealed container in protected storage. Coverage: 225 square feet per gallon with one coat. Mixing: Stir well before use.Thinning: Use out of the can. If thinning is necessary, thin five parts paint to one part 286 Nitrate Thinner. Application: Apply with a brush. Three coats will provide the best possible protection to epoxy primed metal surfaces.Qt. ..... P/N 344-QT **$16.85**

FLAMMABLE

ALL mixed paints are special order and are non-returnable.

CS

RANDOLPH FINISHES

RANDOLPH COLOR PRODUCTS

RANDOLPH COLORED NON-TAUTENING BUTYRATE DOPE - The final color coat applied over fabric in the Ceconite/Randolph system. Available in 50 standard colors. Thin one to one with 9703 Butyrate Thinner. One thinned gallon covers approximately 200 sq ft with one coat.

RANTHANE POLYURETHANE FINISH

Ranthane is a low viscosity, very high solids polyurethane material resulting in low film weight providing a lasting high gloss. Will withstand most chemicals, engine oils, and hydraulic fluids. Has superb adhesion and abrasion resistance as well as high temperature resistance. For fabric and primed metal.

Whites: Qt..From **$43.95** Gal. From **$134.05**

All Other Colors: Qt..From **$60.70** Gal. From **$182.25**

RANTHANE HIGH SOLIDS CATALYST -

Pint ..... P/N 09-00328 ..... **$33.50**

RANTHANE REDUCER - Qt..... P/N G-4200-QT **$14.00**

Gal..... P/N G-4200-1G..... **$49.00**

The FAA has approved the use of Ranthane over Poly-Fiber. To order Ranthane colors, please specify Randolph color from chart on right and specify quart or gallon.

NOTE: Randolph paints are now manufactured by Consolidated Coatings and will not exact match old Randolph colors. If you are ordering to match old Randolph colors, please provide a paint sample that can be matched by the factory.

MARK II FOR METAL

(NOT FOR USE ON FABRIC)

A tough, long-lasting, two-part topcoat paint catalyzed with a non-isocyanate catalyst. Supplied air respirator not required when spraying. Available in same 50 colors as Colored Butyrate Dope and Ranthane for use over primed metal or composite parts. Mix 1:1 with Mark II Mixing Liquid.

MARK II MIXING LIQUID - Combination of catalyst and thinner to be used with Mark II for Metal paint.

Qt ..... P/N 09-02193 ..... **$45.15**

Gal ..... P/N 09-02194 ..... **$149.50**

MARK II THINNER - Used as needed to thin Mark II for Metal after combining with Mark II Mixing Liquid to increase flow out.

Qt ..... P/N 09-02196 ..... **$14.00**

Gal ..... P/N 09-02197 ..... **$53.00**

FAST-DRY ENGINE ENAMELS

Formulated to be heat resistance and maintain good gloss and color retention. For use in the painting of engine crank cases and cylinders, after major overhaul or for general maintenance. Can also be used on engine mounts and supports. Service temperature is 300-350 degrees F. Reduction: Thin to correct spray viscosity with #257 Enamel Thinner(approximately 20% reduction). Application: Spray two coats. Allow to dry to the touch between coats.

Gal. ..... P/N 257-1G **$46.00**

PAINT VISCOSITY CUPS

A precision tool to accurately measure paint viscosity when spraying automotive and aircraft finishes. Consists of a nylon cup with a precisely sized small hole in the bottom. As paint flows through the hole, time the rate of flow. Adjust viscosity by adding thinner as required to produce recommended flow for product being used.

SEM INTERIOR REPAIR PRODUCTS

AEROSPACE SEM SOAP

First step cleaner gravitates into the substrate and floats contaminants to the surface. AEROSPACE SEM SOAP can be used on all substrates. Use AEROSPACE SEM SOAP to clean vinyl and leather seat covers prior to restoring with AEROSPACE SURE-COAT™ or AEROSPACE COLOR COAT

P/N 09-03588 .....**$13.85**

SEM AEROSPACE PLASTIC & LEATHER PREP

Leaves plastic substrates clean for coating, will not soften or distort plastic; removes contaminants such as mold, release agents, fingerprints and grease. Aerospace Plastic & Leather Prep can be used on all plastics and leather. 16 oz. Aerosol.

P/N 09-03587 .....**$13.95**

SEM LOW VOC RUBBERIZED UNDERCOATING

40523 SEM Low Voc Rubberized Undercoating is a paintable, fast-drying, asphalt free coating for rust proofing, sound deadening, chip resistance and corrosion protection. Less than 40% VOC. 24 oz Aersol. P/N 09-03581 .....**$11.75**

SEM TRIM BLACK

SEM Trim Black 39143 is the industry standard for restoring faded and peeling exterior trim parts. This paint coating offers maximum adhesion on stainless steel and chrome. 20 oz. Aersol. P/N 09-03579 .....**$11.50**

SEM COLOR COAT

SEM COLOR COAT is formulated to match, restore or change color on most vinyl surfaces, flexible and rigid plastics, carpet and velour. Fade resistant and flexible, COLOR COAT is not a dye, but a permanent paint coating. 16 oz. aerosol.

SEM LEATHER & VINYL REPAIR COMPOUND

SEM Leather & Vinyl Repair Compound 38422 is a unique compound that successfully repairs cuts and abrasions on leather or vinyl. This product has exceptional strength, flexibility and can also be used to fill minor imperfections.

Works effectively on leather and vinyl substrates to create a durable and long lasting repair. This product is packaged in an easy-to-use tube, which helps to prevent waste and is a great value for any shop! P/N 09-03578 .....**$21.85**

SEM SOLVE

38373 SEM SOLVE removes adhesives, wax, road tar, grease and paint overspray. 20 oz. Aersol.

P/N 09-03577 .....**$9.95**

SEM SAND FREE

38363 SEM SAND FREE softens the substrate promoting adhesion on difficult to sand areas. 16 oz. Aersol.

P/N 09-03576 .....**$13.85**

SEM VINYL PREP

SEM Vinyl Prep 38343 cleans soil, wax and grease from vinyl substrates while it softens and prepares the surface for adhesion of topcoat. Great for use with SEM flexible coatings. 16 oz. Aersol. P/N 09-03575 .....**$13.85**

SEM SCUFF & CLEAN

38338 SEM SCUFF & CLEAN prepares bumpers or panels when refinishing or blending. It's abrasive action improves adhesion of repair and refinishing materials. Pint.

P/N 09-03574 .....**$18.95**

SEM AEROSPACE SURE-COAT FLATTENER

The SEM AEROSPACE SURE-COAT™ process restores aircraft interior leathers, vinyl and plastics at a fraction of the cost of replacement.

The SEM AEROSPACE SURE-COAT process (SCLA-101), cleans, repairs, and restores interiors to a like new condition without changing the aircraft's burn certification. All products have passed vertical burn testing requirements under Federal Aviation Regulations and have been shown not to add flammability to the aircraft interior surfaces.

AEROSPACE SURE-COAT is a waterborne coating system that offers excellent flexibility and outstanding adhesion for a variety of aerospace applications. Sure coat dries quickly and may be brushed or sprayed to change or enhance current color while maintaining the texture and look of leather, vinyl and plastic. P/N 09-03586 .....**$54.82**

SEM AEROSPACE SURE-COAT PINT MIXING SYSTEM

SEM SURE-COAT is a waterborne coating system offering excellent flexibility and outstanding adhesion for a variety of interior and exterior automotive, marine, aerospace and commercial applications.

SURE-COAT allows the user to change or enhance the current color while maintaining the texture and look of leather, vinyl and plastic. It will not get brittle with age nor soften or crack within normal temperature ranges.

SURE-COAT Mixing system contains 9 toners and 3 clears that can be mixed to match almost any color and dries quickly when brushed or sprayed.

Contains one each: • 16004 SURE-COAT Cross Linker • 70400 SURE-COAT Dauber Bottle • A16018 Black • A16088 Silver • A16508 Red Oxide • A16518 Indo Yellow • A16528 Quindo Red • A16538 Thalo Blue • A16548 White • A16568 Thalo Green • A16598 Yellow Oxide • A16705 High Gloss Clear • A16715 Satin Gloss Clear • A16725 Low Luster Clear. Also includes: Pint labels and A70034 Fleet Color Selector

3M™ ABRASIVES

3M™ STIKIT™ DISC PAD 05575

For use with 5 diameter Stikit™ Discs. Has medium density foam and a 45° tapered edge for flexibility. These lightweight, shock-resistant pads have a vinyl face (blue) that provides excellent disc adhesion yet allows quick, easy removal.

Color	Size	Part No.	Price
Blue	5" x 3/4"	09-01535	**$35.50**

3M™ STIKIT™ DISC HAND PAD 11063

Use with 5 diameter Stikit™ Discs. Made with soft density foam for conformability. Has 1 inch wide strap for holding the pad to the operators hand.

Size	Part No.	Price
5" x 1"	09-01448	**$12.50**

3M™ STIKIT™ PAPER DISC ROLL 236U

Constructed of durable aluminum oxide; works well for most wood species. The open coat feature provides a more aggressive cut than a comparable closed coat abrasive of the same grade and a special loading resistant coating makes this disc a good choice when loading is a problem. The C weight, paper backing is more durable for extended disc life and harsher sanding applications.

3M™ SCOTCH-BRITE™ DEBURRING WHEEL

Two Styles Available: Cut & Polish/Unitized Wheel-7A Medium grade (harder) Use to radius and deburr edges of aluminum parts. These wheels give a uniform brushed satin finish to parts and deburr quicker and easier than hand finishing. These wheels are discs of Scotch-Brite web compressed and bonded to form a rugged, dense wheel. Wheel size: 6" dia. x 1" wide x 1/2" thru hole. .....P/N 12-00875 .....**$71.50**

Light Deburring Wheel-7S Fine Grade (Softer)
Light deburring 7S Fin 6 x 1 x 1. This wheel has a 1" thru hole. To fit 1/2" order P/N 12-01585.....P/N 12-00948 .....**$63.25**
3M Flange Adapter 3 45035 1/2".....P/N 12-01585 .....**$4.25**

3M™ REPOSITIONABLE 75 SPRAY ADHESIVE

This adhesive provides tape-like bonds on many lightweight materials. It adheres in seconds, yet has an extra-long tack range that allows you to lift and reposition materials. 16 oz. Can.

P/N 09-01377 .....**$19.25**

3M™ SCOTCH-WELD™ URETHANE ADHESIVE DP601/ DP601NS

3M™ Scotch-Weld™ ***DP601*** is a self-leveling, gray, rapid setting, two-component polyurethane adhesive. It is packaged as 1:1 ratio liquids in duo-pak cartridges. With the squeeze of the trigger, the components are automatically mixed and easily dispensed as a bubble-free liquid. ***DP601NS*** is the same as the DP601 except it is a non-sag, gray, rapid setting, two-component polyurethane adhesive.

Description	Size	Color	Part No.	Price
DP601 (Self-leveling)	12 oz	Gray	09-01413	**$27.25**
DP601NS (Non-Sag)	50 ml	Gray	09-01412	**$9.95**

3M™ HI-STRENGTH 90 SPRAY ADHESIVE

High strength, fast contact-type adhesive. Fast contact strength buildup for many decorative laminates. Only needs 1 minute of drying time.

Size	Part No.	Price
24 oz	09-01376	**$23.85**

3M™ SCOTCH-WELD™ EPOXY ADHESIVE DP125 DUO-PAK

Two-part epoxy adhesive with a 1:1 mix ratio, 25 minute work life and exhibits very high peel strength. Moderately flexible and the gray version has exceptional shear adhesion. Use to bond rubber, metal, wood, plastics, and masonry products.

Size	Color	Part No.	Price
1.7 oz	Gray	09-01403	**$22.75**
1.7 oz	Translucent	09-01402	**$18.50**

3M™ SCOTCH-WELD™ EPOXY ADHESIVE DP100 PLUS

Exhibits much higher shear and peel strengths compared to DP100 Adhesive. It has a 1:1 mix ratio, a 4 minute work life, and is slightly flexible when cured. Clear in color. 1.7 oz. package. P/N 09-01401 .....**$19.75**

3M™ SCOTCH-WELD™ EPOXY ADHESIVE DP190 DUO-PAK

A flexible, two-part adhesive that cures at room temperature and provides high strength bonds with good performance in shear and peel. Can be used to bond rubber, metal, wood, most plastics, and masonry products.

Size	Color	Part No.	Price
1.7 oz	Gray	09-01375	**$19.90**

3M™ SCOTCH-WELD™ EPX™ APPLICATORS AND ACCESSORIES

Mixing nozzle will perform to your requirements. With consistent air pressure for easy uniform application, the Duo-Pak cartridge will give you the flow rate needed. Fast, convenient way to simultaneously meter, mix and apply two-part adhesives and potting compounds. System features handy 3M™ Scotch-Weld™ EPX™ Cartridges that snap quickly into the durable, lightweight Scotch-Weld™EPX™ applicator. A slight squeeze on the trigger advances the plunger into the cartridge. Accurate measurement and the mixing nozzle provides thorough mixing and precise placement of material. Ideal system for assembly, maintenance and in-field service.

Size	Color	Part No.	Price
50 mL	EPX Metal Applicator w/Plunger	09-01371	**$62.25**
50 mL	EPX Mixing Nozzle 9742	09-01372	**$2.25**

3M™ SCOTCH-WELD™ EPX™ PLUS II APPLICATOR

This Plunger is for the Scotch-Weld™ EPX™ Plus II Applicator. The Scotch-Weld™ EPX™ Plus II Applicator is used to Dispense 3M™ Scotch-Weld™ Adhesives in Duo-Pak Cartridges. The applicator is a low-cost portable, self contained metering, mixing and dispensing machine that simultaneously meters and mixes two-part adhesives as the material is applied. P/N 09-01380 .....**$68.50**
50 mL Mixing Nozzle 9742 ..... P/N 09-01372 .....**$2.25**

3M™ SCOTCH-WELD™ EPX™ APPLICATOR NOZZLE

Applicator nozzle designed for both the 200 mL and 400 mL applicators.

P/N 09-01408 .....**$2.95**

3M™ ADHESIVES

3M™ SCOTCH-WELD™ EPOXY ADHESIVE 2216 B/A

A flexible, two part, room temperature curing epoxy with high peel and shear strength. Scotch-Weld epoxy adhesive 2216 B/A is identical to 3M™ Scotch-Weld™ Epoxy Adhesive EC-2216 B/A in chemical composition. Scotch-Weld epoxy adhesive EC-2216 B/A has been labeled, packaged, tested, and certified for aircraft and aerospace applications. Scotch-Weld epoxy adhesive 2216 B/A may be used for aircraft and aerospace applications if proper Certificates of Test have been issued and material meets all aircraft manufacturer's specification requirements. 24 month shelf life.

SIZE	COLOR	DESCRIPTION	PART NO.	PRICE

Quart	Gray	Adhesive 2216 B/A	02-00114	**$186.95**

3M™ SCOTCH-WELD™ INSTANT ADHESIVE CA40H

One-part, high strength, very fast setting adhesive cures at room temperature. Adheres to difficult to bond substrates such as EPDM rubber, aluminum, and flexible vinyl. Comes in a 1 oz. Bottle. Clear.

P/N 09-01368 ..... **$27.25**

3M™ SCOTCH-WELD™ INSTANT ADHESIVE CA8

This instant adhesive has a fast set time of 5 to 40 seconds. Excellent adhesion on metal, plastic and rubber. Bonds resist shock and impacts. A cyanoacrylate adhesive. Comes in a 1 oz. bottle.

P/N 09-01366 ..... **$27.75**

3M™ SCOTCH-WELD™ INSTANT ADHESIVE SURFACE ACTIVATOR

It is ideal for use with all 3M Cyanoacrylate Adhesives for a broad range of industrial and electronic applications. It is also ideal for use with CA-5, CA-9, or CA-50 Gel for many wire tacking and coil terminating applications.

P/N 09-01407 ..... **$10.75**

3M SCOTCH-GRIP HP CONTACT ADHESIVE 1357

A high performance contact adhesive that provides a long bonding range and excellent initial strength.

1357 Grey/OLIV..... P/N 09-01362..... **$93.75**
1357 Neutral 1G ..... P/N 09-01373..... **$85.95**

3M™ SCOTCH-GRIP™ PLASTIC ADHESIVE 2262

A clear, non-staining high strength adhesive with exceptional resistance to plasticizer migration. Develops tack very rapidly. Can be used to bond many flexible, rigid and extruded vinyls to metal and many other surfaces. Comes in a 1 qt. can. P/N 09-01365 ..... **$51.25**

3M™ SCOTCH GRIP RUBBER ADHESIVE 1300

Lower viscosity, sprayable version of Scotch-Weld Neoprene High Performance Rubber and Gasket Adhesive 1300. Has excellent adhesion to metal, baked enamel, wood, most plastics, and neoprene, reclaim, SBR, and butyl rubber. not for EPDM rubber.

3M™ SCOTCH-GRIP™ CONTACT ADHESIVE

A brushable, neutral-colored contact adhesive for bonding many decorative laminates, aluminum, steel, plywood, panels, wood and wood veneer, masonry, rubber, canvas and other porous and non-porous materials to each other or to themselves.

P/N 09-01364 ..... **$26.85**

3M™ SCOTCH-GRIP™ RUBBER AND GASKET ADHESIVE 847

This fast drying adhesive develops strength very quickly. It has excellent heat resistance; temperature performance is from -5 to 300F. Meets specification requirements of MIL-A-1154C. Bonds neoprene, reclaim, SB-R, and butyl rubber to metal, wood, most plastics, and many other products. 5oz. Tube. reddish Brown in Color.

P/N 09-01361 ..... **$15.75**

SUPER DOOR SEAL ADHESIVE

Super adhesive for door seals and other applications. Many customers have had difficulty finding EC1300L adhesive (or equivalent). Search no more! This super adhesive has exceptional bonding strength, is fast drying, and firmly bonds the seals making your installation easier! They recommend you order the adhesive when you order your new seals. One tube is enough for installing all the seals on your aircraft when applied in accordance with the seal installation instructions. A free acid brush is included with each order. P/N 09-27200 ..... **$6.75**

3M™ FINESSE-IT™ FINISHING MATERIAL 81235

Specially designed compounds and polishes to be used on OEM and baked refinish paints to remove sand scratches or to remove swirl marks from previously compounded areas. 1qt. bottles.

P/N 09-01451 ..... **$24.50**

3M™ FINESSE-IT™ NATURAL BUFFING PAD

The 3 inch buffing pad is designed to get you into tight areas not accessible with a conventional polisher. Pads are hook-and-loop backed. Pads are sold each.

P/N 09-01452..... **$4.10**

3M™ HEADLIGHT LENS RESTORATION SYSTEM

With the 3M™ Headlight Lens Restoration System, you will use a 1200-1600 rpm drill equipped with a backup pad and sanding discs to remove the yellowed layer from the headlight lens surface. A higher rpm drill could generate excessive heat and can cause damage to the headlight lens that is difficult to remove. A lower rpm drill does not work efficiently for this process. Two sanding steps will follow to refine or reduce the sand scratches that are made when removing the yellowed layer. Finally, 3M™ Headlight Lens Polish and a foam pad will remove the fine scratches and put the final clarity on the headlight lens. Kit Includes: 1 - Disc Pad Holder 1 - 3M™ Soft Interface Pad 6 - 3M™ Sanding Discs 4 - 3M™ Finishing Discs 1 - 3M™ Trizact™ Disc 1 - 3M™ Headlight Lens Polish, 1oz 1 - Buffing Pad 1 - Step by Step Directions PN 09-02109.....**$17.25**

3M BODY FILLERS

3M premium fillers with adhesion promoters, offer the very best in all-around performance. Our premium fillers adhere to virtually any surface including wood, metal, aluminum, galvanized steel, fiberglass and concrete. They are also non-staining, non-shrinking, creamy and are great for building plugs, patterns, molds, prototypes and general repair to composite parts. 3M premium fillers are easy to sand and are manufactured with only the highest quality ingredients.

Description	Size	Part No.	Price
Marson™ Platinum™ Body Filler	Quart	01-01090	**$15.85**
Marson™ Platinum™ Body Filler	Gallon	01-01091	**$36.75**

STANDARD BODY FILLERS

3M standard fillers are the economical choice for gap filling, fairing, smoothing and general repair. They are also great for plug, pattern and tooling departments for creating and building shapes, curves and intricate elements to molds and patterns. They are easy to mix, apply, and sand, and have a quick cure time. Great for quick repairs to fiberglass, wood, metal concrete and aluminum.

Description	Size	Part No.	Price

3M™ PTFE GLASS CLOTH TAPE BROWN

This brown, 5.3 mil (0.134 mm) glass cloth tape (5451) impregnated with PTFE and silicone adhesive. It is a heat seal tape. Provides a high temperature release surface for protection and insulation such as the bar underneath where the hot wire seals plastic film. The reinforcement provided by the woven glass cloth adds tensile strength and tear resistance. Low Coefficient of Friction: Self-lubricating nature of PTFE film tape can help improve the processability of many web materials. Excellent Heat Resistance: High temperature PTFE glass cloth tape provides long lasting performance on many heat sealing machines. Anti-Stick/Release: Release nature of PTFE film tape facilitates clean up of hot plastic extrusion coating by not allowing plastic build-up on rollers. Chemical Resistance: PTFE film tape provides chemical barrier for harsh design environments. Conformability: PTFE film tapes hug rollers for easy application and effective service..... P/N 09-03011 ..... **$121.95**

3M PTFE FILM TAPE GRAY

3M™ PTFE Extruded Film Tape 5491 is PTFE extruded film with silicone adhesive, provides an exceptionally slick surface when applied and resists curling during unwind. Chemical resistant surface for sealing and masking. Extruded, calendered film tapes that resist curling during unwind and provide an exceptionally smooth surface when applied. Extruded PTFE film tapes lie flatter than typical skived PTFE film tapes. Thicker backing helps extend the service life, compared to thinner versions, when subjected to abrasion or wear. Provides excellent chemical resistance except to organic solvents. Note: The silicone adhesive will be attacked by commercial organic solvents and is not recommended for applications requiring organic resistance. ..... P/N 09-03012 ..... **$149.95**

3M PAINT BUSTER HAND CLEANER

3M Paint Buster Hand Cleaner is a non-toxic and non-caustic cream-type hand cleaner that removes enamel and urethane paints, varnish, lacquer, putties, and adhesives. Superior performance without the use of skin damaging solvents. Almost no odor, non runny, easy-to-squeeze tube. 9.75 oz Tube..... P/N 09-03018 ..... **$19.50**

3M™ TARTAN TAPE DISPENSER GUN

3M Tartan™ Box Sealing Hand Dispenser is an economical, easy to use box sealing tape dispenser. It applies 3 inch (72 mm) box sealing tape.

P/N 09-03019 ..... **$25.50**

3M™ ELECTRIC VARIABLE SPEED POLISHER

Yes, you can have it all. Improve buffing and polishing productivity – and finish faster with more consistent results – when you add the 3M™ Electric Variable Speed Polisher to complete your finishing system. It's designed to deliver an excellent finish on the painted surfaces of cars, boats and planes – and it works great on acrylic and gelcoat too.

Features: More Productivity Finishing faster with consistent results saves time and money. More Performance Get a great-looking finish time after time, while reducing potential rework. More Power The 11 Amp motor delivers 37.5% more power (Compared to polishers with an 8 Amp motor). More Control Maintain speed and power under load with 1,000 - 3,000 rpm variable speed control. More Comfort 3M gripping material and vibration-absorbing handle improve comfort. More Durability Solid, lightweight construction with an extra-long and extra strong power cord. More Options Now all your finishing system elements are available from one source..... P/N 09-03013 ..... **$0.00**

MEGUIAR'S DUAL ACTION POLISHER

Whether you're a seasoned professional or a weekend warrior who wants show quality, swirl-free results, this is the tool for you. Meguiar's® Dual Action Polisher greatly reduces the amount of time it takes to apply paint cleaners, polishes and protection products and produces results far superior to applying these products by hand. And because of its dual action - rotation and orbit, you never have to worry about burning the paint. *G110 includes (polisher, "D" handle, custom hard case, W67DA backing plate, wrench, manual) P/N 09-02358 ..... **$206.95**

MEGUIAR'S MIRROR GLAZE

PLASTIC POLISH (NO. 10) **-** Safely restores and maintains optic clarity to all clear plastics. This complete one-step product keeps new and like-new transparent plastics in perfect condition with a static-free coating that repels dust. Meets Military Spec MIL-C-5547 and MIL-C-18767A(ASG). 8 Oz. P/N 09-23300 ..... **$7.75**

PLASTIC CLEANER (NO. 17) **-** Safely removes fine "hairline" scratches and grime from clear plastic windows and windshields, acrylic and polycarbonate surfaces. Follow with an application of Plastic Polish (No. 10) to restore perfect clarity. 8 Oz ..... P/N 09-23500..... **$7.75**

CLEAR PLASTIC CLEANER/POLISH (NO. 18) **-** Mirror Glaze #18 restores optical clarity and romoves surface residue. Its anti-static formula repels dusts and its one-step action saves maintenance time. Just spray on and wipe dry to safely remove surface contaminants and restore optic clarity. .....8 oz. P/N 09-23800 ..... **$9.25**

FINAL INSPECTION (NO. 34) **-** Mists on and wipes off to remove fresh contaminants and maintain a showroom shine... anywhere, anytime. High lubricity formula removes dust, fingerprints, contaminants and fine scratches. Contains optical brighteners for a high gloss shine. It is "paintable", safe for use in a paint shop environment and safe on all paint finishes, including clear coats.

SMOOTH SURFACE® CLAY KIT - Removing above surface bonded contaminants and restoring a smooth surface to your paint finish is easily accomplished by using this Clay Kit. The non-abrasive clay bar safely, easily and instantly removes bonded contaminants as you rub it across the surface of your car using a mist & wipe product, like Meguiar's Quik Detailer® as a lubricant. Meguiar's Smooth Surface Clay Kit contains everything you need to create a smooth surface! Clay Kit includes: two 50 gram clay bars, individually wrapped & in a moisture-seal case, Quik Detailer for use as a clay lubricant, Cleaner Wax sample & Meguiar's Supreme Shine® Microfiber Towel.

Clay Kit ..... P/N 09-02338 ..... **$20.00**
Replacement Clay ..... P/N 09-03425 ..... **$18.75**

QUIK WAX® - Hi-performance, spray on carnauba protection offers dramatically deeper, darker reflections with increased gloss and shine. Just mist on and wipe off to wax your entire car (wet or dry) in minutes. For superior results during application and removal, we recommend using our Supreme Shine® Microfiber or Ultra Plush Super Terry. P/N 09-02321 ..... **$6.95**

QUIK DETAILER® - Keeps a waxed car looking "just waxed". Clear coat safe, Meguiar's Quik Detailer removes harmful contaminants before they damage your finish. Use Quik Detailer right after your car is sprayed by a water sprinkler, hit by a bird dropping, or exposed to any other condition that ruins your "just waxed" appearance. Details a full sized car in less than 15 minutes!

16oz. ..... P/N 09-02322 ..... **$7.45**
32oz. ..... P/N 09-02323 ..... **$8.75**

QUIK INTERIOR DETAILER - The fastest way to clean all interior surfaces. Use every time you wash or Quik Detail your paint to give your interior that "just detailed" look. In just 5 additional minutes, your entire interior will look sharp and smell fresh. Quickly and easily maintains the look and feel of interior plastics, vinyl, leather, rubber, metal and even audio/video equipment. The safe, high lubricity formula lifts off dust, ashes, dirt, grime, spills and fingerprints without build-up. And, unlike traditional protectants that leave an artificial greasy feeling, Quik Interior Detailer leaves your interior surfaces looking natural and revitalized.

Spray ..... P/N 09-02339 ..... **$5.75**
Wipes ..... P/N 09-02340 ..... **$5.95**

QUIK OUT® CARPET & UPHOLSTERY CLEANER - The fast and easy solution to keeping carpet and upholstery looking like-new. Active, penetrating foam attacks stains from the bottom up for deep cleaning. The powerful, professional-strength foam easily tackles the toughest stains, such as motor oil, grease, lipstick and coffee. The unique formula dries quickly without leaving behind a sticky or stiff residue so carpets and upholstery are left looking and smelling fresh and feeling like-new. P/N 09-02341 ..... **$4.50**

SUPREME SHINE PROTECTANT - With the addition of Supreme Shine Protectant to the Meguiar's® line-up, Meguiar's now has a protectant family that offers users the ability to choose from two different levels of shine. For those who love shine, Supreme Shine Protectant is the fastest and easiest way to create a hi-shine surface on vinyl, rubber, and plastic surfaces.

450ml ..... P/N 09-02349 ..... **$4.65**

NATURAL SHINE PROTECTANT - Maintain that "like new" look on dashboards, trim, tires and more. Natural Shine's complex formula includes mild cleaning agents that help remove daily dirt and grime and restore the original, natural finish. Includes UV blockers to help reduce the effects caused by the sun.

COLOR-BOND LEATHER, VINYL & HARD PLASTIC REFINISHER

Color-Bond restores or changes the color of leather, vinyl, ABS plastic, PVC, polycarbonate, acrylic, fiberglass, lexan and thermal plastic urethane permanently. It is dry to the touch in 45 seconds and fully bonded in 10 minutes. It will not crack, flake or peel & gives complete grain simulation. You can change color over and over and never obscure the grain or affect the hand. It is now OEM approved by the Ford Motor Company. After 3-1/2 years of testing, the specification that Color-Bond passed is the first of its kind and is approved for worldwide use. Color-Bond will be distributed to the 5,200 Ford Quality Service Parts dealers of North America. It will also be used for repair of instrument panels, door panels and seats in all of the assemble plants. Color-Bond is excellent for restoration of aircraft seats, side panels, glare shields, and other items. Aircraft Spruce & Specialty Co. has been appointed as the aviation distributor for Color-Bond.

PAINT N' POUR PAINT CAN LID WITH POUR SPOUT

Paint can lid with pour spout, yellow, material: Polypropylene. For Use With 1 gallon paint cans.
P/N 09-03592 ..... **$6.25**

POUR-IT REUSABLE PAINT LID

The only reusable paint can lid that seals to the inside of all one gallon cans. This keeps the paint out of the lid channel for a perfect re-seal. It keeps all contaminates out of your paint. As it was designed for accurate pouring, it also has a quality screw cap on the pour spout for easier access to trim paints, primers & sealers that are used often, in smaller quantities. Pourit eliminates hazardous paint spill, saves clean-up time and reduces material waste. It is washable and reusable. This product should be used anytime you open a round one gallon can. P/N 09-01756 ..... **$2.65**

POURING PAL

Just Snap It On! One size fits pint, quart, gallon and 4 liter paint cans. Snaps onto inner rim of paint can to keep paint out of the gutter and ensure a goo seal after use. P/N 09-22210 ..... **$0.66**

PAINT STIRRING PADDLE

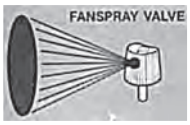
Vented dusk mask	09-01497	**$1.91**

TEMPO FINISHES – SUPERFLITE



AIRCRAFT SPRAY COATINGS

All Tempo spray products feature the exclusive adjustable Fanspray valve which offers a professional spray pattern so anyone can "paint like a pro". The extra-width pattern evenly coats about 3 times the area with each pass compared with an ordinary spray valve. Packaged in 11 oz. to 16 oz. cans, depending on product.

Discount: 10% on 6 cans, 15% on 12 cans, 25% on 24 cans. (May be assorted.)

ULTRA-HIGH TEMPERATURE PAINTS

Exceptional durability up to 1200°F. Will not burn off, chip or peel when properly applied. No primer required. Ideal for exhaust stacks. Ultra-High Temperature paints air-dry in minutes but require curing at temperatures over 650°F.

- White #13-1
- Black #13-2
- Racing Silver #13-8 ..... **$7.95**

TEMPO MAINTENANCE & SPECIALTY PRODUCTS

Fluorescent Paint (Red/Orange) — Up to 4 times brighter than other colors. Ideal for aircraft, boat - wherever visibility is vital. For best results, use over light colored base.
#18-1301 ..... **$7.85/ea.**

Chrome Paint — restores new chrome appearance to chromed surfaces. #20-199 ..... **$7.75/ea.**

Scratch Filler Primer — Ideal for filling nicks, scratches, and minor surface imperfections. They dry fast, are sandable, and provide a smooth uniform surface for top coats.
#7-3500 - Red Oxide ..... **$5.20/ea.**
#7-4500 - Platinum Gray ..... **$7.50/ea.**

PREMIUM SELF-ETCHING PRIMER

Etches and primes in one easy step. Can be used under all today's automotive finishes. Perfect for spot repairs. Creates superior adhesion on most plastics, fiberglass, bare steel, aluminum and stainless steel. Color: Green. 12oz. Spray Can P/N 09-02099 ..... **$9.75**

CAN-GUN

Can-Gun is an aerosol spray can trigger handle which makes painting, cleaning, and lubricating jobs safer and easier. The user-friendly form-fit handle and trigger eliminates finger fatigue and provides the user with accurate control over the amount, speed, and direction of spray. The built-in safety shield insures no more messy hands or fingers. Sprays virtually all spray paints, lacquers, polishes, cleaners, lubricants, sealers, and adhesives and Can-Gun fits most spray cans. P/N 09-14760 ..... **$1.85 ea.**

EPOXY PROPELLER COATING

Extends blade life. Tempo's Epoxy Propeller Coating is formulated with the extra adhesion and abrasion resistance needed to protect propellers from corrosion and wear. Compared to standard enamel and lacquer paints, our epoxy formula stays on the blade more flying hours; hence, with regular use, this formula can extend blade life.

Flat Black	P/N 09-00982	**$6.95**
Med. Gray (Matches Hartzell OE Gray)	P/N 09-00983	**$6.95**
White	P/N 09-00992	**$6.95**

KRYLON AEROSOL HIGH HEAT PAINT

Krylon High Heat & Radiator Paint is ideal for mufflers, radiators, and engine blocks. Withstands temperatures to 1200F. Guards against rust. Available in three colors. 12 oz. aerosol cans. 12 oz. Aersol.

Aluminum	P/N 15-05467	**$12.25**
White	P/N 15-08254	**$12.50**
Black	P/N 15-08255	**$12.25**

AIRCRAFT ENAMEL

Excellent adhesion to aluminum and steel

Tempo's Aircraft Enamel has been especially formulated to adhere to aluminum and steel; providing excellent corrosion resistance. Recommended applications are all interior and exterior aluminum and steel surfaces, including wheels, landing gear and inside door hatches. For propeller blades, we recommend Epoxy Propeller Coating.
Neutral Gray Enamel Primer #750 ..... **$6.95/ea.**

09-00985	Black	**$6.95**
09-00989	Gloss White	**$6.95**

09-02070	Flat Black	**$6.95**
09-00988	Flat White	**$6.95**

TEMPO ENGINE ENAMEL

Resists heat to 500°F . Tempo's Aircraft Engine enamel withstands the high heat demands of aircraft engines. This modified chain-stop alkyd enamel formula has excellent corrosion and fuel resistance.

All Tempo spray products feature the exclusive adjustable Fanspray valve which offers a professional spray pattern so anyone can "paint like a pro". The extra-width pattern evenly coats about 3 times the area with each pass compared with an ordinary spray valve. Packaged in 11 oz. to 16 oz. cans, depending on product.

WARNING: POSSIBLE LINK BETWEEN CHROMATE PIGMENTS AND LUNG CANCER

Several independent technical studies have suggested that excessive inhalation of zinc chromate dust may cause lung cancer. If conditions are such that this limit may be exceeded, additional protective equipment is required. A respirator that has a NIOSH/MESA approval TC-23C. See catalog for respirators that meet this requirement.

Lyc. Gray	P/N 219	**$6.75**

Gloss Black	P/N 09-00995	**$6.95**
Chevy Orange Engine	P/N 09-02405	**$6.85**

AIRCRAFT LACQUER

Dries in under 15 minutes

Tempo's Aircraft Lacquer is ideal when a very fast dry is required. This blended nitrocellulose lacquer formula can be applied to all interior and exterior aluminum and steel surfaces, including wheels, landing gear and inside door hatches. When additional corrosion protection is required, we recommend Tempo Aircraft Enamel.

Clear	P/N 809	**$7.50**
Blk Acrylic	P/N 09-01032	**$5.95**

ZINC PHOSPHATE AND ZINC OXIDE PRIMERS

Maximum adhesion to bare aluminum and steel

Tempo's Zinc Phosphate and Zinc Oxide Primers are recommended for priming bare metal. These primers provide maximum bonding to bare aluminum and steel. Tempo's Primers have been the workhorse in the aviation industry for many years. Zinc Oxide has been recently introduced to provide a "safer, healthier" alternative to Zinc Chromate with equal performance. The A-701 Yellow and A-702 Green Zinc Phosphate Primers meet the performance standards outlined in Federal Specification T-P-1757A. They also exceed the 800 hours of salt spray fog test (ASTM #B117). A-701 will replace A-901 Yellow and A-702 will replace A-902 Green.

Yellow (12oz.) A-701	P/N 09-02128	**$7.95**
Green (12oz.) A-702	P/N 09-02127	**$8.25**

SUPERFLITE AIRCRAFT ENGINE ENAMELS

Superflite engine enamels are fast-drying enamels developed specifically for air-cooled aircraft engines used in light duty aviation industries. The Superflite enamels feature superior adhesion, heat resistance, and a gloss finish. Cure Schedule: Dry to touch: 15 minutes, Dry to handle: 60 minutes Dry through: 24 hours To recoat: Before 60 minutes , or after 72 hours Benefits: Topcoat - Air dry or low temperature cure, For use on bare metal or painted surfaces Specifications: Shelf Life: 12 months at recommended storage temperatures, Heat Resistance: Up to 400 degree F.

PREKOTE SURFACE PRETREATMENT

PreKote® Surface Pretreatment from Pantheon Chemical, is a non-chromated surface pretreatment utilizing a safe, hazard-free technology that is flying on over 1,500 United States Air Force aircraft. PreKote® offers superior adhesion, improved paint flexibility, and advanced corrosion protection on painted surfaces, relative to traditional chromate and conversion pretreatments (such as alodine). PreKote® has passed stringent testing by the U.S. Department of Defense, the Boeing Company and other coating industry leaders. By eliminating the need for chromated conversion coatings (such as alodine), acid etches, solvent washes and other toxic processes, PreKote® can reduce paint preparation time and costs by up to 40%. PreKote® can be used on a wide range of surfaces including aluminum, steel, magnesium, titanium, CRES, galvanized surfaces, composite and plastic surfaces. Consistent, high performance results are achieved with a variety of paints and primers. PreKote® is non-toxic, non-corrosive, non-flammable, CFC free, ODS free, odor free, and readily biodegradable upon disposal. FEATURES: • Easy & safe process • Quantified superior results • Immediate cost reductions • Reduces hazardous waste • Decreases material, labor, and hazardous handling costs • Results in a high-performing surface finishes • No short and long term health risks.

ALUMINUM PREPAINT PRODUCTS

ALUMIPREP USED FIRST MAKES THE PAINT FINISH LAST!

Use on unpainted aluminum aircraft, truck trailers, house trailers, boats, garage doors, outdoor furniture, etc.

ALUMIPREP NO. 33 – Use to clean, brighten and transform badly corroded aluminum to its natural appearance. Covers 400 sq.ft. per quart. **HAZARDOUS**

Qt. ..... P/N 09-01621 .... **$17.75**
Gal. ..... P/N 09-01620 .... **$34.75**

ALODINE NO. 1001 – An invisible coat to provide in-depth corrosion proofing to the brightened aluminum surface and act as a firm barrier against the elements and continued corrosion. Covers 250 sq.ft. per quart.

Qt ..... P/N 09-01628 .... **$31.95**
Gal. ..... P/N 09-01629 .... **$49.75**

METAL PREP NO. 79 – A non-flammable multi-purpose phosphoric acid based cleaner and prepaint conditioner for most metals. Leaves the surface chemically clean and corrosion free. Can be used to deep clean and etch a metal surface prior to paint or to prepare a surface for a subsequent chemical coating like that produced by GALVAPREP® SG on zinc and steel or ALODINE® 1201 on aluminum surfaces. **HAZARDOUS**.

Qt.....P/N 09-01625.....**$24.50**
Gal. .....P/N 09-01624.....**$33.85**

ALODINE NO. 1201 – After precleaning with Alumiprep 33 or Metal Prep 79, rinse with water. Apply Alodine without dilution by brushing or swabbing with sponge. Rinse with water and surface is ready for paint. This is a visible coating which leaves the surface with a golden coloration. The alodized surface provides protection against weather and firmly bonds paint. One quart treats about 200 sq. ft. **HAZARDOUS**.

Qt. ..... P/N 09-01619..... **$17.95**
Gal. ..... P/N 09-01618..... **$39.85**

AQUAPREP AVIATION METAL CLEANER

Aquaprep is a safe, superior cleaner for use on any metal or hard surface and is designed to replace solvent cleaners. It may be used on painted, primed, or bare metal surfaces. It is non-staining, provides improved cleaning and improved corrosion resistance, and is compatible with MetalPrep and Alodine. Designed to remove sealers, wax, grease, silicone, and crayons. Try some new Aquaprep on your next metal cleaning project. Covers 400 sq.ft. per quart.

1 Gal. ..... P/N 09-42100 ..... **$51.85**

ALODINE TOUCH-N-PREP 1132

Touch-N-Prep Alodine 1132 no-rinse conversion coating effectively phosphates most metals including aluminum, ferrous and galvanized substrates. Doesn't require rinsing, and can be air dried or force dried with hot air or an infra-red lamp. High density acrylic tip of the Touch-N-Prep applicator can be modified with a single edge razor blade to form any shape. The application method controls the amount of coating applied to the surface. Covers 20 sq.ft. P/N 09-01630.....**$76.85**

AKZO FAST DRYING INTERIOR EPOXY PRIMER

AKZO interior epoxy primer #463.12-8 is a chemically cured 2-component epoxy primer designed to provide maximum protection from various chemicals, hydraulic fluids, aviation fuels, hydraulic fluids, and corrosive causing media. Drying time to touch is 15 minutes and to recoat is 1-24 hrs. Shelf life: 2yrs, Color: Green. Used extensively in military and aerospace applications and popular with aircraft builders. Uses 1 gallon of primer and 1 gallon of catalyst.

2 gal. kit ..... P/N 09-24735 ..... **$182.95**
TR-19 Thinner..... P/N 09-00439 ..... **$94.25**

RANDOLPH W-2248 EP-420W EPIBOND EPOXY PRIMER (WHITE)

STEWART SYSTEMS EVERSHIELD CERAMIC SURFACE TREATMENT

An Easy-To-Apply Glass-Like Finish With Many Incredible Protective Properties For Almost Any Aircraft Surface. In tests it resists blow-torch heat (yes, blow-torch flame) above 2000°F It is impervious to virtually any chemical. It is excellent for hardness, flexibility, impact and scratch resistance, adhesion, and corrosion protection. On any aircraft, EverShield has applications from nose cone to tail cone. Wiped on a prop, this incredible film sheds bugs, pebbles, salt spray, whatever. On an exhaust, it seals the metal from corrosion and by refraction reduces heat transmissions to cowling and elsewhere. On leading edges bugs slide off. Over the entire plane, the slick surface fortifies the boundary layer, reduces drag. It is non-hazardous (like all SS products). Cleans up with water (or solvents). Grips most any surface, from stainless steel, to plexiglass, to paint. EverShield is a true breakthrough miracle coating. There's nothing comparable available. Once you use it you'll continue to find a myriad of applications. Better give it a try soon. STEWART SYSTEMS EVERSHIELD is a two-component, ceramic clearcoat/chemical treatment system designed for Original Equipment Manufacturers (OEM) to protect the substrate over which it is applied from corrosion and oxidation. Will not yellow, chip, crack, or peel. If gouged or damaged, the finish will not experience creepage and is repairable. A low VOC and EPA compliant coating. Considered non-hazardous by EPA definitions and does not contain lead or chromates. Please follow local and state regulations in the proper use and disposal of this product.

Size	Part No.	Price

4 oz.	09-00466	**$65.50**
8 oz.	09-00467	**$75.50**

STEWART SYSTEMS WATERBASE STEEL CONVERSION COATING

A water-based product that eliminates rust. First, rust is converted to ferric iron, a black organic compound. Second, a coating of clear acrylic is formed over the coated area. The surface that remains after the transformation can be either left black or coated with Stewart Systems wide range of products for the desired outcome. Product tests have shown that it has extended the life of equipment or products for several more years after probable replacement. Can be used on all rusted surfaces. P/N 09-00482.....**$45.75**

STEWART SYSTEMS ALUMINUM ETCH / CLEANER

EkoEtch Aluminum Etch is a concentrated combination acid based detergent and degreaser. Removes scale, corrosion, light oil, processing fluids and brightens aluminum. A non-hazardous, water reducible and non-flammable. Use it to prepare both old and new aluminum surfaces before applying Stewart Systems Primer/ Sealers. P/N 09-00473.....**$24.85**

STEWART SYSTEMS EKOBOND

Stewart Systems EkoBond EkoBond is a revolutionary water based cement for the application of fabric. EkoBond has extreme bond strength for fabric to fabric and fabric to non-fabric surfaces in both peel and shear tests. EkoBond is very user friendly since it has very little odor and can be used in a closed shop with no health or fire hazards. EkoBond dries quickly and will not attack primers or enamel paints. EkoBond is non-flammable and environmentally friendly.

EKOBOND LINEN - For the look of old linen with the convenience of Dacron. EkoBond linen will make the fabric look just like old cotton, while giving you not only the antique look, but also the strength and durability of EkoBond. Quart.....P/N 09-03064.....**$53.75**
Gallon.....P/N 09-03065.....**$171.95**

STEWART SYSTEMS EKOFILL

Part of the Stewart Aircraft Covering System, Stewart Systems EkoFill seals the fabric, provides UV protection, fills the weave and acts as a primer for application of EkoPoly. On fabric airplanes, all covering, rib stitching and tapes are complete and the fabric has been cleaned with EkoClean before applying EkoFill. EkoFill is used on Dacron/polyester fabric, glass cloth, gel coat and composite materials. It has excellent adhesion, superior high build properties and is an outstanding UV barrier on fabric and composite surfaces. EkoFill dry sands very easily with open coat sand paper. EkoFill is non-flammable, has little odor and is water cleanup.

STEWART SYSTEMS EKOPOXY

Stewart Systems EkoPoxy Primer/Sealer is a high quality water based Epoxy primer for use on many substrates. Stewart Systems EkoPoxy can be used on interior and exterior surfaces where there is more chance of corrosion from the environment. Excellent adhesion to bare metals, resists flash rusting which can occur with latex based primers. Stewart Systems EkoPoxy has superior chemical resistance, is fast drying and mar resistant. Stewart Systems EkoPoxy is low in VOCs and compatible with a wide range of top coats including EkoPoly Top coat. Nonhazardous, nonflammable and water cleanup, Stewart Systems EkoPoxy is your best choice for Primer.

STEWART SYSTEMS EKOPRIME PRIMER/SEALER

Stewart Systems Primer Sealer is a high quality, water-based single component primer, not requiring any catalyzing agent. Performance obtained is equal or superior to that of two-component, catalyzed epoxy systems. Primer Sealer offers good coverage, excellent durability, and ease of application, as well as being a low VOC and EPA compliant coating. It is a low VOC (Volatile Organic Compound). high performance production coating. It is considered non-hazardous by EPA definitions and does not contain lead or chromates. The solid and semi-solid sludge produced in spraying and clean up can be flocculated; dried and sent to a "Class B" landfill. Check with your local and state regulations for proper handling.

STEWART SYSTEMS EKOCLEAN

EkoClean Heavy Duty Cleaner/Degreaser concentrate is used with the Stewart Covering System to clean fabric before application of EkoFill. For cleaning fabric, EkoClean is diluted 30-1 with water, and lightly applied with a spray bottle, and rinsed with clear water. EkoClean is a non-butyl, water soluble, concentrated degreaser and general purpose cleaner. In stronger concentrations EkoClean attacks grime, exhaust stains and grease spots from painted surfaces. EkoClean does not contain phosphates and is USDA approved. Quart.....P/N 09-03089.....**$13.75**
Gallon.....P/N 09-03090.....**$48.85**

STEWART SYSTEMS EKOSEAL E1800/E1850

E1800 - EkoSeal is a water dispersible top coat, offering outstanding coverage, durability and ease of application. EkoSeal is a low VOC, EPA compliant coating. Use on wood spars and plywood before installation of fabric. Wood sealer is resistant to UV yellowing in exterior applications and is also available in a satin finish. Size: 1 quart.

CS

NUVITE POLISH - PROTECTANT SYSTEMS

NUGLAZE SUPER PAINT GLOSSER

Nuvite introduces NuGlaze to create a super high gloss "show quality" finish for paint in new or excellent condition, and it adds a U/V and sealant protection . It will put that final "wet-look" finish on good paint, and can be used as a final step for maximum gloss after using a drywash cleaner/polish such as Nuvite NuPower II. With regular NuGlaze use, a continuing surface barrier against most of the effects of airborne chemicals and ultraviolet radiation is created. Paint can be maintained in "new" condition longer and maintain the color balance intended by the manufacturer with regular use.

Bugs and normal soil remove easily from a NuGlaze surface, and the added gloss keeps the "new paint" look longer. NuGlaze is simple to use and avoids complicated setups and special application or buffing equipment. Proven techniques and continuing technology advancement from Nuvite have come together to produce NuGlaze - the best thing you can do to maintain and protect your near-new or "new-looking" paint.

NUVITE CITRI-CUT CLEANER

NuVite CitriCut is a citrus based airframe wetwash and wipe-down cleaner. Pleasant citrus smelling wet wash or wipe down cleaner that is especially friendly to the environment. Works great for standard wet washing with mops or scrub pads. When used as a wet wash, water sheets off, minimizing water spotting. CitriCut is also handy for hand debugging or hand wipe down without need for rinse -so there is no need for water or floor cleanup. Spray CitriCut at 1:8 from hand trigger sprayer for hand debugging or wipedown and wipe with terry towel until clean. Use a clean towel to buff up surface shine. No need to rinse surface. Supplied as concentrate—use 1:8 for hand wipe down or 1:16 in wet wash water.

P/ N 09-00584..... **$12.95**

NUVITE ONE-TIMER KITS

Clean & Polish in One Step!

Two quarts of Famous Nuvite NuPower II cleaner/polish. Will clean tough dirt & oil and give your paint a slick, shiny "New Paint" look and leave a protective coating against the sun's U/V damage. Includes three terry application towels and two special finishing gloss microfiber cloths. For Nuvite NuPower II details see Part No. 09-00581 & 09-00580.

P/N 09-02026 ..... **$59.50**

Restore Your Paint to Look Great Again!

Two quarts of super Nuvite NuPol heavy-duty cleaner and paint restorer—will clean up a really "grimy one", removing paint surface oxidation to reveal the bright color paint you once had, and leave an amazing super shine with UV protection! Includes two special spun fiber application pads and three terry polishing cloths.

For Nuvite NuPol details see Part No. 09-00583 & 09-00582.

P/N 09-02027 ..... **$58.25**

NUVITE C-49 SUPERCLEANER

Nuvite C-49 SuperCleaner is the most versatile and effective cleaner you can buy when you want to clean fabrics, leather, carpet, plastics, laminates and even metals! In other words, for cleaning all types of surfaces generally found in commercial & private aviation, building or institutional interiors, RV, truck and marine interiors, or even home interiors!

P/N 09-02089 ..... **$6.95**

NUVITE SS9-3 CLEANER

Nuvite SS-9-3 is the championship-caliber answer to the need for an effective and safe all-purpose liquid alkaline cleaner. It will clean the toughest of underbelly grease, oils and fluid leakage at full strength, or can be diluted to 1:12 to make an easy-to-use debugger and whole-airframe wipedown fluid that leaves a beautiful squeaky-clean and shiny surface that does not need to be rinsed. It works great for in-place cleaning during other airframe or engine maintenance.

P/N 09-02084 ..... **$5.50**

NUVITE LEATHER GUARD

Nuvite Leather Guard helps you keep that brand-new, supple, fine finished leather look and feel for luxury aircraft, RV or automotive seating, fine furniture or institutional use. Leather Guard is the finest enrichening formula available for leather nutrition .

P/N 09-02091 ..... **$11.95**

NUVITE POLISH/PROTECTANT SYSTEMS

Nuvite's surface finish enhancement and protection echnology offers the highest-performance surface maintenance and protection systems available. These products are designed to be used on your aircraft, boat, recreational vehicle, truck, auto or other vehicle anywhere, anytime. Nuvite has the answer for your operations in an EPA-sensitive environment.

NUPOL POLISH / RESTORER / UV PROTECTANT

Same easy wipe on, let dry, wipe off surface cleaner with enhanced cleaning and oxidation removal capabilities. Ideal for tough cleaning due to long intervals between cleanings. Leaves a beautiful shine and an effective UV protective barrier.

NUSHINE II POLISH/ SYSTEM

Nuvite engineers have formulated a system of polishes to meet the needs for almost any metal and paint polishing project. New metal to antique, the formulations in the NuShine II Polishing System will give superior definition, highlights, imagery, clarity, and will retain the finish longer than normal polishes. Nuvite's NuShine II graded polishes use high technology materials with programmed abrasive characteristics and are blended with superior carriers to offer the ability to produce cutting action when needed, yet offer micron-level finishing in the finer grades that produces highest reflectance and image excellence.

Grade S (for final finishes) – The finishing grade that gives the really deep, clear image when used as a final finish over a properly prepared, oxidation-free surface. 0.5 Lb. jar .....P/N 09-00578 ..... **$35.95**

Grade G6 (SS & titanium or heavily oxidized aluminum) – When a heavy cut of the surface is needed, G6 may be a good answer. G6 has a high-tech abrasive system that is designed to do a quick, aggressive cut, and immediately break down to a finer cut, similar to Grade C. Use when there is heavy oxidation on the surface of aluminum, or even when very light corrosion is evident. Can also be used to blend surface scratches in aluminum. Can also be used for polishing stainless steel. 0.5 Lb. jar.....P/N 09-00586 ..... **$35.95**

Grade C (for unpolished aluminum and repolishing degraded brightwork) - C is a cutting grade polish that we recommend to prep for using Grade S. Use Grade C to begin polishing on clad aluminum that has never been polished. Will also remove the cloudy/hazy white background found in many otherwise good polish finishes.

0.5 Lb. jar .....P/N 09-00587 ..... **$35.95**

NUSHINE II POLISH SYSTEMS

Polishes for both metal and paint finishing that will provide the finest surface finish available. Has been shown to outperform all other aviation, automotive and marine polishes in side-by-side testing by users throughout the world. Affords the operator the choice to select the grade of polish to match the needs of the surface to be polished, be it brand new, oxidized in use, or with atmospheric corrosion. NuShine II not only polishes paints and metals to an incredibly deep, clear and image-reflecting surface, but also imparts a protective chemical barrier to inhibit corrosive oxidation to the metal.

POLISHES – CLEANERS

AERO GLOSS

Aero Gloss polish is used by 80% of the worlds major airlines. It is now available to the general aviation and experimental aircraft market. Removes turbine soot and exhaust stains from paints. It is an excellent plexiglass polish and can be applied with a power buffer. It takes 1-2 pints and 3-4 hours to polish an average Cessna 182 with Aero Gloss.

Pint .....P/N 09-38100 .....**$19.95**
Gallon .....P/N 09-38101 .....**$79.90**
5 Gallon.....P/N 09-02180 .....**$289.95**

STAR BRITE AIRCRAFT POLISH

This exceptional new polish cleans off dirt, stains and oxidation and restores the original bright color of the aircraft leaving a dazzling shine. StarBrite also cuts fuel consumption and boosts speed by reducing drag an amazing 5.5%. Contains no wax, oils or acids. 16 fl.oz. ..... P/N 09-23900 ..... **$22.75**

TOP GUN ULTRA FINISH

Top Gun Ultra Finish is the ideal one-step product for all aircraft finishes. The product removes surface contaminates and oxidation though a unique chemical process, rather than using harsh abrasives. The coating left behind is not a wax, but an extremely hard and durable sealant. This affords superior long term protection (up to 12 months or longer), and easier cleaning of your finish. Once applied, bugs and corrosive elements remove more easily. Use Top Gun Ultra Finish to add brilliance to your aluminum and magnesium alloys. It is also very effective in restoring clarity to plexiglass windshields, side windows, and lenses. 16 fl. oz. Made in the U.S.A. 16 oz. .....P/N 09-00192 .....**$16.75**

AUTO GLOSS POLYMER WETCOAT

Polymer Wetcoat removes mild oxidation leaving your auto's finish protected for one full year. No other product can make that claim. A combination of polymeric resins and 100% premium carnauba creates the most durable finish on the market. 16 FL. OZ. P/N 09-00157 .....**$19.95**

SEAL-A-PLANE

Seal-A-Plane provide an unbelievable shine that seals and protects the finish; we have also found that the exhaust and bugs don't like to stick to the surface and can be removed with just a damp cloth. Unlike products that were designed for the automobile industry, Seal-A-Plane is for aircraft and protects the aircraft surfaces from harmful UV rays and corrosion. Common waxes breakdown in the sun. Seal-A-Plane actually gets harder in the sun and is stable up to 500 degrees F. Seal-A-Plane contains no silicones and is non corrosive. It normally only requires application once a year (depending on the planes operating environment) and can be used on any surface including fiberglass and Plexiglas. Never before has there been a product on the market like Seal-A-Plane. Turbine owners especially will appreciate a product that is available that will remove the ugly exhaust stains. One 16 ounce bottle will be enough for most single engine planes and two will do most light twins. P/N 09-01650 .....**$24.95**

MASTER FORMULA - SEALER GLOSS

Master Formula Sealer Gloss Protective Sealer waterproofs, protects and seals any hard surface. It leaves a durable, glossy protective coating that's easily maintained and lasts up to one full year. Master Formula Sealer Gloss is excellent for use on any metal or painted surface. These surfaces include all car finishes including clear coasts, gel coasts, plastics fiber glass. They also include all metal surfaces such as aluminum, chrome, brass, stainless steel, gold, silver and more. 16oz.

12OZ. ..... P/N 09-02077..**$22.75**

MET-ALL

An aluminum polish which removes and prevents pitting. Makes aluminum shine with mirror-like brilliance. Non-toxic, non-abrasive and non-flammable. A non-silicone product which resists further corrosion. Meets military specifications. 1 Lb. Can.....P/N 09-24200 .....**$10.90**
2 Lb. Can.....P/N 09-24300 ..... **$17.75**

BUG BLASTER SPRAY

Dissolves and removes bugs without scrubbing - no elbow grease is required! This is a quick, time saving product. Just spray, wait and wipe. Finally a product that solves messy problems without being messy!! Unlike other formulations, when sprayed, Bug Blaster instantly attacks bug proteins and acids. You will not have the dripping, messy run-off you have with conventional bug removers. Perfect for use in paint shop environments where run-offs need to be avoided.

32 OZ ..... P/N 09-02080..... **$18.75**
1 GALLON..... P/N 09-02081..... **$38.25**

MET-ALL DETAIL POLISHING KIT

Met-All's Detail Polishing Kit will produce a show room finish on bare metal, painted surfaces and fiberglass using Met-All polishes and premium bonnets. Each bonnet features a recessed loop back so the edge and face can be effectively used with less concern for marring the finish. Change pads quickly and easily. Ideal for polishing aircraft, cars, motorcycles, boats etc.

P/N 09-00448 ..... **$34.50**

BLUE MAGIC METAL POLISH

Blue Magic produces a deep mirror shine. The oxide residue left after polishing is easily wiped off with a rag. A small amount will polish a large area. Airshow aerobatic pilot Chuck Lischer, Jr., whose high performance Swift is shown here, recommends Blue Magic as the best polish available for polished aluminum aircraft.

REJEX SOIL BARRIER & STAIN PROTECTOR

RejeX™ is an advanced polymer system that seals painted surfaces to guard against corrosive exhaust gas, oil, and bug stains. It forms a slick, long-lasting, glass-like barrier that allows easy removal of turbine and piston-engine exhaust stains with mild detergents. Bugs can be removed quickly and easily with just a stream of plain water. On paint in good condition, RejeX eliminates the need for waxes and polishes, and one application will last a minimum of 4 months. Surfaces to be protected should be clean, dry, and cool to the touch and the product should not be applied in direct sunlight. Damaging contaminants, such as bug acids and exhaust stains will no longer be a problem. High Gloss Finish

SCRATCH OFF WINDSHIELD REPAIR KIT

Developed by an A&P and manufactured since 1993, Scratch Off has become the leading Plexiglas and Lexan restoration system worldwide and is guaranteed, when used as directed, to permanently improve the clarity of aircraft windows and windshields. Scratch-Off is being used worldwide and highly recommended by airframers, aircraft window/windshield manufactures and enthusiasts to restore optical clarity back to aircraft windshields and windows. The 8 panel instruction booklet walks you through a step by step process on how to determine where to start the process as all four steps are not always needed.

Standard Kit .....P/N 09-42600 ..... **$36.75**
Deluxe Kit .....P/N 09-00252 ..... **$65.75**

Please see our website for a complete list of all kit details.

POLY-SAND SCRATCH REMOVER

This is the original Poly-Sand process. Consists of a series of cloth-backed cushioned abrasives which when used in proper sequence will restore the finish of plastics. Also used for fine finishing of wood and precious metals. Recommended by Rohm & Haas Co., manufacturers of Plexiglas. Kit includes series of Poly-Sand cushioned abrasive cloth tapes, all required accessories and instructions.

PCA Kit #40 .....P/N 09-24800 ..... **$26.75**

UNIGRIT™ SANDING PRODUCTS

Unigrit™ Finishing Papers & Sanding Blocks use precise, uniform grit particles to eliminate deep sanding scratches and the need for compounds. More economical to use because they work faster, last longer and won't load up as quickly as conventional sanding products.

PLEXUS AIRCRAFT PLASTIC CLEANER, PROTECTANT & POLISH

Plexus™ was developed for use in aviation, specifically for cleaning and protecting aircraft windshields and painted surfaces. It's quite simply the most effective product you can buy for cleaning, polishing and protecting all clear and colored plastics and painted surfaces. Plexus is easier to use, and leaves a noticeably cleaner, more lustrous finish than conventional polishes. It protects by actually sealing the pores in plastic making it more resistant to debris, oil, bugs or scratches. Because it's anti-static, it repels dust and lint. It's perfect for windshields and the leading edges of the wings, as well as for removing exhaust stains and cleaning wheel wells. Also, Plexus polishes without harmful abrasives. It leaves an invisible, micro-thin layer of wax without smears or smudges. It dries to a crystal clear luster, leaving no oily, sticky or tacky residue. It's the ultimate detailer for your aircraft. So, if you're looking for a better way to save time, money and help protect your valuable investment, it's clearly brilliant. Plexus. Clearly the best. Plexus contains no CFC's, so it's safe for the environment. And because it's an aerosol, there is virtually no waste.

GRIME OFF CLEANING PRODUCTS

GLI GRIME OFF™ AIRCRAFT EXTERIOR WASH

Grime Off™ Exterior Airplane Wash may be diluted in a bucket and applied with a brush or mitt, or applied via the detergent tanks on the 2-in-1 Hydro Washer. This product does not foam up like car wash detergents, so please don't expect that. It will coat the plane and, with some gentle washing, rid it of exhaust stains and grease. Used by commercial airlines by the drum, you should use if for the same reason they do. It will clean your plane but not harm your paint, seals, plexiglass, or fragile components in and around landing gear.

P/N 09-03512 .....**$32.99**

GLI GRIME OFF™ AIRCRAFT CLEANER & DEGREASER

Mean, green, and made to clean. When you think of Grime Off™, think stained bellies, hard to reach landing struts, engines, and deceased bugs. Available in a 12 oz. foaming aerosol spray, 16 oz. spray, or wipes-24ct.

12 oz. Spray Foam.....P/N 09-03507 .....**$9.29**

POLISHES & CLEANERS

ALL KLEER

Black Labs Corporation is proud to introduce, All Kleer, the ultimate plastic windshield cleaner and polish. All Kleer was invented by a pilot over 25 years ago for cleaning and maintaining plastic aircraft windshields that require absolute clarity.

All Kleer is different than most windshield products on the market as it not only cleans dirt, bugs and grease but leaves a very fine, slick finish. This finish helps to repel water, dust, bugs, and water spotting - making it easier to see and to clean the next time. All Kleer contains no wax, ammonia, or abrasives and does not require the use of any water. A non-pressurized leak proof 8oz bottle is designed to be carried on board if desired.

Simply apply All Kleer with a clean towel to a dry windshield cleaning off any bugs and dirt and allow 30-60 seconds for a haze to form. After it has completely dried, wipe off with a clean towel and feel the All Kleer finish. P/N 09-01602 ..... **$6.95**

PRIST® ACRYLIC, PLASTIC AND GLASS CLEANER: FOR ALL TYPE OF WINDOWS

The convenient 13-ounce can is ideal for use on acrylic, stretched acrylic, poly carbonate, glass, and coated glass. It may also be used for cleaning many other sources including aircraft interiors, goggles, helmets, lenses, and plastic and metal surfaces. Prist® cleaner contains no abrasive cleaning agents and cleans without scratching glass or plastic surfaces. This prevents scratches in acrylic windshields that necessitate costly replacement. Unlike other cleaners, Prist® cleaner dispenses as foam and leaves no residue. The cleaning agent soaks into the dirt, grease and insects to remove them with minimum effort. Suitable for interior and exterior cleaning, Prist® cleaner prevents static charge build-up with regular use.

PLEXIGLASS RESTORATION - LEATHER CARE

MICRO-MESH WINDSHIELD SCRATCH REMOVAL KIT

Micro-Mesh is a cloth backed cushioned abrasive with a resilient layer of material between the back and the abrasive. When pressure is applied, the abrasive crystals recede into the resilient layer and find an even plane for cutting. The result is a smooth shaving action with an ultra fine scratch pattern which restores scratched, discolored, or damaged fiberglass or acrylics to like-new condition. Kit includes everything needed to repair approximately 30 sq. ft.

Standard Kit (restores up to 30 sq. ft.)..... P/N 09-24700.....**$24.75**
Large Kit (restores up to 60 sq. ft.) ..... P/N 09-24701.....**$45.50**
Professional Kit (restores up to 100 sq. ft.)..... P/N 09-24716.....**$71.75**

MICRO-GLOSS POLISH

Safe for use on bare acrylic, bare polycarbonate, and coated polycarbonate. Tests using Micro-Gloss were completed according to ASTM F791 standards and to USAF specification 16ZK002F (Addendum2) at stress levels of 2000 and 3000 PSI in both dry and humid conditions. Approved for use on the inside and outside surfaces of F-16 aircraft. * Removes fine scratches . * Removes swirls created by improper cleaning methods. * Removes haze and milkiness from interior/exterior windows. * Provides a final polish, leaving you wiht an ultra-clear finish. * Can be applied by hand or machine * Approved for use by Boeing, Spec D6-52021 * Approved for military use, NSN #5350-01-334-89978 oz.....P/N 09-24710..... **$10.85**

MICRO-SURFACE WINDSHIELD RESTORATION KITS

Micro-Surface Finishing Products, Inc. FAA Repair station #KY2R969K, has been a leader in acrylic restoral for the past 30 years. The following kits were developed for use with standard power tools. DEND ULTRA CONCENTRATE CLEANER

Dend is a technologically advanced cleaner that has been developed for the discriminating owner and professional. This specially formulated cleaner, with a wax component can be used as a wet-wash or a dry-wash application. And because of the built-in rinsing agent in Dend, if the product dries on the surface, simply re-apply and buff to a shine.

This aviation-approved product is safe for the environment and offers a great value because it is shipped in a concentrate. This means you add the water and lower the per gallon price. Dilute 50 to 1 or 40 to 1. Dend is biodegradable, non-toxic, non-flammable and contains no phosphates, silicone or Teflon®

PERMASHINE BUMPER AND CLADDING COAT TEXTURED PLASTIC RESTORER

PermaShine is designed to protect new textured plastics from fading and to restore the appearance of faded textured plastics. PermaShine will provide permanent protection and gloss enhancement for textured TPO plastics, and it sticks so well that a pressure washer cannot blow it off. PermaShine can be applied by spray gun or roller for added convenience.

Features: • There is nothing else on the market that works like PermaShine - it is totally unique. • Permanently restores the appearance of faded textured plastics; not the quick-fading shine that silicone dressing provide. • PermaShine's adhesion to textured plastic is so good that it cannot be blasted off with a pressure washer.

Cessna remains committed to it's legendary customer service by authorizing and approving this safe, reliable, and high quality cleaning product that is among the best in the industry. P/N 09-02658..... **$15.50**

MICROFIBER DETAILING CLOTHS AND TERRYCLOTH APPLICATORS

Microfiber Detailing Cloths make cleaning your aircraft easy, inside and out. These scratch and lint free cloths work well on aircraft instrumentation, windows, gauges, screens, painted and unpainted surfaces. Can also be used for applying and removing Cessna Detailing Products on aircraft surfaces.
The multi-dimensionally knit fabric will not unweave or wear out, but due to the quantity of dirt lifted and trapped, the cloths should be frequently machine washed. The cloths will withstand several hundred washings with standard laundry detergents. Terry cloth applicators are used for applying wax and cleaning leather seats.
This Cessna detailing product has been approved by Cessna Aircraft Company. It has been developed and tested by industry professionals specifically to protect and safely care for your aircraft's exterior and interior. Cessna remains committed to it's legendary customer service by authorizing and approving this safe, reliable, and high quality cleaning product that is among the best in the industry.
P/N 09-02660..... **$15.25**

CLEANING KIT BAG

METAL ARMOR METAL POLISH

Formulated to give incredible results on the following metals: Aluminum, brass, bronze, chrome, copper, gold, magnesium, nickel, pewter, platinum, silver, stainless steel, and sterling silver. Not recommended for use on plated surfaces with the exception of chrome. Can be safely and effectively used on paint, clear coat and power-coated surfaces. Can be applied by hand or by buffer. 8oz bottle.
P/N 09-02569..... **$16.95**

REKRETE WATERLESS CONCRETE CLEANER

Clean Your Oil Stains with No Water, No Pressure Washer, In Less Time and For Less Cost with ReKRETE Waterless Concrete Cleaner! Power washing sends detergents and oils directly into the storm water systems. ReKRETE 's bio-enzymes consume stains reducing contaminated water run off. ReKRETE works with its own specific gravity by penetrating deep into the pores of the concrete where petroleum-based stains are trapped. ReKRETE then breaks down the hydrocarbon chain of the petroleum-based stains. Once the chain is broken ReKRETE decomposes and dissolves the hydrocarbons with bio-organic compounds that actually consume the stains.

10-lb..... P/N 09-03498..... **$30.00**

METAL ARMOR PAINT & HARD SURFACE POLISH

Specially formulated to address polishing of clear coat paints, enamels, lacquers, acrylics, powder-coated surfaces, polycarbonates, ABS plastics, glass, fiberglass, Corian™, and cultured marble. Can also be used as a second step on all metal surfaces. Creates an unmatched finish and treats the surface with a protective barrier when applied as directed. 8oz bottle.
P/N 09-02570..... **$18.95**

METAL ARMOR FINAL POLISH & SEALANT

Cutting edge technology lead to the creation of this "next level" formula. We recommend this product for all surfaces as a "Final Step." It is a PDF (Petroleum Distillate Free) blend that offers the highest degree of reflective qualities while adding a barrier that protects against oxidation, UV rays and "acid" rain. The product can be applied by hand or by buffer. Leaves crystal clear results and "No Swirls" when applied as directed. A must on reds and blacks. 8oz bottle.
P/N 09-02571..... **$18.95**

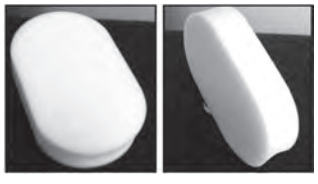
METAL ARMOR DETAIL MICRO-FIBER DETAILING CLOTH

Optical quality (short weave) used in the camera, optical & telescope industris. Very high quality does not collect debris and lasts forever. They have washed these 100's of times and they still work perfectly.
P/N 09-02572..... **$4.75**

METAL ARMOR BY HAND TOOL KIT

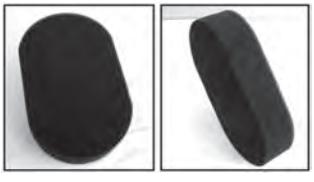
This kit is specially designed to be used as an application and removal system of our products when using by hand. The materials have been developed using specially developed foams and optical quality micro-fiber cloths. The foams do not create static and produce an absolute scratch free result. Can be washed and resused many times.
P/N 09-02575..... **$14.95**

METAL ARMOR MATERIAL APPLICATION PAD (WHITE)



This Pad is made from material that is compatible with Metal Armor Products. It is designed as a by hand applicator for their products. It produces no static and produces scratch free results. Can be washed and re-used many times. Can also be used as applicator for other products. P/N 09-02573..... **$3.49**

METAL ARMOR DETAILING PAD (BLACK)



This pad was designed to act as a removal device of (spent) material after it has been used. The pad is very absorbent and collects the residue before using the polishing cloth. The pad can be washed and re-used many times. It is static free and produces no scratches.
P/N 09-02574..... **$3.49**

RPM TECHNOLOGY CLEANING PRODUCTS

POLYGONE 300-AG GEL

PolyGone™ stripping agents are unique formulations that remove polysulfide (PRC) and silicone RTV sealants from metal, ceramic, and some plastic substrates. The top polysulfide producers include PRC DeSoto (now PPG), AC Tech, and Flamemaster. The top silicone producers are GE, Dow, and Wacker. Both polysulfide (polysulphide) and silicone RTV are difficult to remove completely since they actually bond into surface/substrate. PolyGone reacts with the polymers chemically and breaks them down so they can be rinsed away without damage to the surface/substrate. This offers significant advantages over other removal methods. PolyGone emulsifiers are specialty blended chemistries that wet and penetrate the polymer and relatively quickly emulsify it. This emulsification prevents redeposition of the reaction by-products and allow for water rinsing (except PolyGone 535 which requires an alcohol rinse). The polysulfide (polysulphide) sealant remover is also available as a gel for use in vertical, inverted and non-immersion applications. PolyGone is effective at removing silicone RTV and polysulfide (polysulphide) sealants at room temperature, are fast acting and environmentally friendly as opposed to regularly used solvents. PolyGone is currently being used by several MRO organizations as a sealant remover.

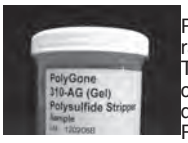
POLYGONE 310-AG



PolyGone™ stripping agents are unique formulations that remove polysulfide (PRC) and silicone RTV sealants from metal, ceramic, and some plastic substrates. The top polysulfide producers include PRC DeSoto (now PPG), AC Tech, and Flamemaster. The top silicone producers are GE, Dow, and Wacker. Both polysulfide (polysulphide) and silicone RTV are difficult to remove completely since they actually bond into surface/substrate. The typically, sealant removal method requires scraping that results in damaging the substrate. There are also products that try to "disslove" the sealants but due to their inertness, this does not work. PolyGone however, reacts with the polymers chemically and breaks them down so they can be rinsed away without damage to the surface/substrate. This offers significant advantages over other removal methods. PolyGone emulsifiers are specialty blended chemistries that wet and penetrate the polymer and relatively quickly emulsify it. This emulsification prevents redeposition of the reaction by-products and allow for water rinsing (except PolyGone 535 which requires an alcohol rinse). The polysulfide (polysulphide) sealant remover is also available as a gel for use in vertical, inverted and non-immersion applications. PolyGone is effective at removing silicone RTV and polysulfide (polysulphide) sealants at room temperature, are fast acting and environmentally friendly as opposed to regularly used solvents. PolyGone is currently being used by several MRO organizations as a sealant remover.

POLYWIPES

RPM Technology is proud to introduce a revolutionary product for anyone using sealants, mastics, adhesives, silicones, paints, drilling oils, or greases. PolyWipes contain no solvents or abrasives; no fuss, and no mess! Why clean your hands with a product that has a NFPA heath rating of 1 and is flammable? PolyWipes have a health rating of 0 and are NOT flammable! They safely remove uncured or partly-cured adhesives and sealants by breaking the surface tension between the material and the substrate. The material then transfers to the wipe for disposal. Can be used anywhere adhesives or sealants are applied. To clean up after applying sealant to fuel tanks, access doors, windshields, and any other location where sealants are used. Biodegradable – a "green" product, Non-Toxic – eliminates the need to dispose of hazardous solvents, Not flammable, unlike other wipes, Mild – employees may not need hand protection to use this product, NFPA rating is 0,0,0, Inexpensive – less expensive than cloth towels and solvents .

EOX AIRCRAFT HYDRAULIC FLUID REMOVER

eOx Aircraft Hydraulic Fluid Remover (AHFR) is a proprietary cleaner designed to easily remove all hydraulic fluids, baked on carbon, and corrosion protecting compounds. An excellent replacement for chlorinated products and solvent based cleaners. Meets AMS–1526B. Application: specially developed to remove sticky hydraulic oil deposits from the aircraft fuselage, wheel wells, landing gear, wings, and any area or part where hydraulic fluid accumulates. eOx AHFR also removes numerous oils, greases and stubborn carbon deposits; especially from around engine exhaust areas. Ready to use and intended as a spot cleaner on the aircraft. Non-toxic, Non-flammable, Non-hazardous - Not subject to dangerous goods regulations. No phosphates, acids or silicones, High biodegradability (tested by the University of Ghent, Belgium) Neutral pH of 6-8, Very economical to use. Contains no phosphates, acids, silicones and is non-butyl. Fast, intense cleaning action surpasses other cleaners' performance. Can be effective used as a spray-on & wipe-off process. Safe for use in high-pressure washers, immersion systems and ultrasonic machines. Fresh smell – NOT citrus

SPRAY NINE CLEANERS & DEGREASERS

AV-8 MILITARY AIRCRAFT SOAP
FROM SPRAY NINE

Type IV Heavy Duty, Water Dilutable Cleaning Compound. AV-8 is a biodegradable, highly concentrate, microemulsion blend of surfactants and builders that provide a broad range of cleaning on painted and unpainted aircraft exteriors, aerospace ground equipment (AGE) and AGE engines with the assistance of a proprietary blend of corrosion inhibitors. AV-8 effectively and efficiently removes grease, oils, carbon exhaust, hydraulic fluid, gun gas, graphite, dirt and other soils. Rinses easily without having streaks or residue. AV-8 is low emulsifying and will not negatively impact oil water separator systems and other pollution abatement systems. ***Features:*** • Qualifies to MIL-PRF-87937. • Listed on AF Qualified Products List QPL#AFTT-05-002 . • AMCOM approved for use on Army helicopters. • Conforms to Boeing D6-17487 Rev. P Spec. • Conforms to Douglas CSD-1 Spec. • Conforms to AMS-1526B Spec. • Meets EPA 793.3100 Aerobic Aquatic Biodegradation ****AV8 55 Gallon inbound freight fee of $30.00 applies to the 55 gallon drum.***

EARTH SOAP CONCENTRATED CLEANER/DEGREASER
FROM SPRAY NINE

Premium Environmentally Preferable Cleaner Cutting-edge biodegradeable technology combines powerful surfactants with low emulsifying action to create Earth Soap, a potent, yet environmentally thoughtful product. Earth Soap's innovative formula dissolves dirt, grease, grime and other hard-to-remove soils from most hard, washable surfaces. This versatile, concentrated cleaner may be "custom-formulated" by diluting in any proportion with water - from 1:1 for heavy soil loads to 50:1 for routine light-duty cleaning. Additionally, Earth Soap contains NO solvents, butyl, phosphates, or other harsh chemicals. Earh Soap is low-emulsifying and will not negatively impact oil/water separators and other pollution abatement systems. ***Corrosion Inhibiting -*** Corrosion-inhibiting formula cleans metal parts without damaging parts or parts washers (metal and plastic, traditional and heated up to 180 degrees F) Ideal uses: Dip Tanks • Engines • Concrete/Hangar Floors • Vehicles (Inside & Out) • Wash Racks • Tools & Equipmen • CTK Took Kits • Plastic & Vinyl • Floors & Walls • Parts Washer (both traditional and heated up to 180°F)

COMPOSICLEAN AIRCRAFT CLEANING PRODUCTS

COMPOSICLEAN BUCKET-WASH

Bucket-Wash™ concentrate is neutral pH and safe and effective on all aircraft. Bucket-Wash™ will not attack composite components or assist corrosion. With several cleaning agents, real Carnauba Wax & U.V. protection additives this IS the right stuff. 64 ounce with pump top.

P /N 13-05254.....**$22.75**

COMPOSICLEAN SUPER SPRAY-WAX

Super Spray-Wax™ is neutral pH and SAFE on all aircraft. Will not attack composite components or assist corrosions. With real Carnauba wax and other cleaning and conditioning additives, this product is sure to satisfy. Provides a great shine and superior protection. Try it with one of our MicroFiber cloths. 1 Quart with commercial quality trigger sprayer.

P/N 13-05255 ..... **$19.65**

COMPOSICLEAN MULTI-PURPOSE CLEANER

This multi-purpose ALKALINE cleaner is very effective at breaking down grease, oils, carbon & other stains. Use with brush or rag to agitate for tougher Stains & soils. 1 quart with commercial quality trigger sprayer. This is not a neutral pH product.

P/N 13-05256 ..... **$10.95**

COMPOSICLEAN HAZE GLAZE

A neutral pH mild abrasive cleaner & polish in one. Removes oxidation haze, surface-stains, swirl marks and paint overspray. Haze Glaze also removes minor acid rain contamination, light scratches & increases gloss on base coat & clear coat finishes. A great one-step or fist step product in the detailing process. Use Composiclean Haze Glaze by hand or with orbital/random style buffers. Use Composiclean Haze Glaze on clean dry surface. Apply Haze Glaze to buffing cloth/pad or directly to surface. Rub or buff in circular motion then flip cloth or change to dry pad for finish buff. 1 quart with flip-top.

P/N 09-02065 ..... **$34.95**

COMPOSICLEAN VIEW POLISH

Composiclean™ View Polish™ will probably be the best glass cleaner you will ever use, try it around the house too. Use View-Polish™ on windscreens, side windows, plastics, Lexan, acrylic and glass. You will see No streaking! View-Polish™ is guaranteed to leave no film. Non-caustic-non-flammable, Non-ammonia formula dries fast and contain no CFC's that deplete the ozone layer. View-Polish™ is also a great bug remover for the leaning edges, wheel pants, car grills etc. Spray product onto area to be cleaned (the thick foam helps it hang there), wait 2 to 3 minutes then wipe clean. Give View-Polish™ a try with our MicroFiber cloths, you'll love it! Offered in big 19oz aerosol can.

P/N 13-05257 ..... **$8.95**

COMPOSICLEAN LEATHER CLEANER & CONDITIONER

A rich conditioning cream that cleans leather as it brings back softness. Leaves leather looking natural with no greasy residue. 1 quart with flip top. 32oz.

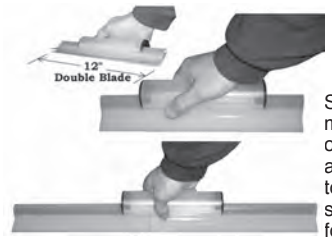
P/N 13-05258 ..... **$24.95**

COMPOSICLEAN MICRO- FIBER CLOTH

MicroFiber is a man-made product that consists of two fibers, Polyester and Polymide. The Polyester is the scrubbing and cleaning fiber, while the Polymide is the absorbing and quick drying fiber. Each square inch in a MicroFiber towel contains approximately 90,000 MicroFibers. MicroFiber is a lint free, non-abrasive, and hypoallergenic products. Unlike ordinary cotton towels that move, or push, the dirt and dust from one point to another, MicroFiber actually gets underneath the dirt and lifts it from the surface. It then stores the dirt particles in the towel until it is washed. MicroFiber is very absorbent and can hold up to seven times its weight in moisture providing "streak-free" cleaning. MicroFiber cloths are safe on all surfaces.

Keep MicroFiber cloths clean and separate from cotton towels. To ensure the effectiveness of your MicroFiber Towels only wash with other MicroFiber Towels. If MicroFiber is washed with cotton is will grab onto the cotton fibers and hold on to them. Washing by hand with mild hand soap is the best way to maintain this high quality cloth. MicroFiber cloths along with Composiclean™ Super Spray-Wax™ will provide a great streak free deep shine even in direct sun. When buffing off Super Spray-Wax™, it is best to NOT let cloth get to saturated, dryer is better. Try a MicroFiber cloth with Composiclean™ View Polish™ for streak-free window cleaning.

P/N 13-05259 ..... **$16.85**



COMPOSICLEAN SUPER SQUEEGEE

Super Squeegee is perhaps the most versatile squeegee you'll ever own. It works great and is extendable from 12" to 22". It is designed to be used in a back n' forth motion saving time and effort. It's perfect for use on the irregular and curved surfaces of an airplane.

QUICSHINE 99 DRY WASH

QuicShine99 is the only patented aerosol one-step revolutionary waterless formula for your vehicle, RV, airplane, etc. Just spray on and wipe off. With worldwide water shortages and environmental concerns at an all time high QuicShine99 is waterless car care product that provides the consumer with a solution to these growing concerns. With its special ingredients and high performance wax, you wash, wax and protect without using a single drop of water. One of the outstanding features of QuicShine99 is the fact that it can be applied to the finish of a dirty vehicle without scratching the surface! When sprayed on a dirty surface, the formulation emulsifies and lifts the dirt and road film without scratching. Think of the time, effort and water you will save by not having to wash and dry before waxing.
QuicShine99 quickly removes grease, tar, bugs, oil residue and road film. QuicShine99 is recommended for cleaning glass, Plexiglas and Lexan windows. In fact, it will strip through layers of dull waxes and oxidation as though it never existed. QuicShine99 is available in a 12-ounce aerosol can. P/N 09-02532 ..... **$14.95**

TIRE CLEANER

Dissolves grease, oil and road grime. Unique optical brighteners whiten white walls and leave tires with even, natural, black luster. No harmful bleaching agent. 18 oz.
P/N 1060618..... **$7.65**

WAX AS-U-DRY

After washing your aircraft leave it wet, then spray Wax-As-U-DRY on the surface. After the water sheets away, you dry the surface with a chamois towel. The result is high gloss shine without spending the afternoon buffing. A one step spray wax is a blend of water reactive polymers and waxes that are safe for all painted surfaces, windows, trim & wheels. P/N 09-00370 ..... **$11.75**

STRIKE HOLD II CLEANER/PENETRANT/LUBRICANT

One of the most significant long term enemies to aviation is corrosion. Strike Hold is a potent anti-corrosive and has a dielectric strength of 38,000+ volts so it can also be used on electrical contacts and connections. It "finds" the small spaces which allow filiform corrosion to form. Its capillary action will quickly encapsulate metals by flowing against gravity and under overlapping sheets of metal.
It is a highly penetrating and mobile liquid with CFC's and is non-flammable by flame projection test as opposed to other liuids containing butane or propane propellants. The lubricant in Strike Hold doesn't harden or become brittle.
It completely seals out water with a shield film. The carrier agent evaporates (unlike ACF 50) and does not leave a dust collecting film to recontaminate a surface. The flash point is in excess of 450°F and the freezing point is -85°F. This product is heavier than water and does not damage polymers, rubber or plastics. Strike Hold can be used on virtually any surface that is susceptible to corrosion and that needs lubrication.

ALUMINUM DEOXIDIZER

Want a product that really takes the elbow grease out of polishing? This is a very Hi-Tech chemical designed to clean and deoxidize all metal surfaces without streaking, hazing, burning or damaging the surfaces. Removes scale, road film, most acid stains and even rust on Chrome! It is the easiest and safest way to prep the metal before polishing. It really works great!

Can be used with most cream type polishes. If your aluminum has a milky look to it even after being polished, try this Aluminum Deoxidizer before polishing, you will achieve a Crystal Clear Shine.

P/N 09-02859 ..... **$13.85**

WATER SPRITE SYNTHETIC CHAMOIS

Water Sprite is an exclusive PVA material that gently cleans and dries fine finished surfaces. It actually lifts off residual dirt and grime away from the surface, leaving it clean and dry. It is not affected by mildew, bacteria or common household chemicals.

It is used in place of a sponge or towel and when wet, can be used immediately upon removal from its package. It is individually packaged in a reusable plastic tube for convenient storage, moist or dry, in glove compartment or trunk. Size 3.0 square feet. P/N 09-03062 ..... **$12.95**

AVL LUBRICANTS & RUST INHIBITORS

AVL LIGHT - The premium light lubricant and rust inhibitor that penetrates and displaces moisture fast, leaving a delicate coating for excellent lubrication and rust protection. A fine, light film that resists the accumulation of dust and dirt. Ideal for drying and protecting electrical connectors and delicate machinery. Can sprays upright or inverted. P/N 09-02106 ..... **$4.75**

AVL MEDIUM - The premium medium lubricant and corrosion preventor is specifically designed to penetrate and displace moisture fast. It leaves a medium weight oily coating for long term lubrication and rust prevention. Can sprays upright or inverted. P/N 13-02963 ..... **$4.85**

AVL THICK - The premium thick lubricant and corrosion preventor penetrates and displaces moisture. It stops corrosion on contact leaving a thick coating for long term lubrication and corrosion prevention. Can sprays upright or inverted. P/N 13-02964 ..... **$4.45**

AVL NO CHLOR CLEANER/DEGREASER

The powerful flushing action and a high solvency formulation makes cleaning metal parts faster and easier. Penetrates quickly into hard to reach areas, cleaning thoroughly. AVL NO CHLOR Cleaner/Degreaser does not contain any 1,1,1 Trichloroethane or any solvents or CFCs known to deplete the stratospheric ozone layer. Evaporates quickly leaving no residue. Removes oil and grease on contact. This is the best non-chlorinated degreaser we have ever produced. 14 oz. P/N 13-02961 ..... **$5.80**

AVL ELECTRO CONTACT CLEANER

The premium aviation cleaner that penetrates fast, cleans and degreases, removes dust and dust buildup without leaving a noticeable film or oil residue. Both penetrate and dry quickly. Ideal for air and ground, electrical and avionics, and sensitive mechanisms. Non-flammable. P/N 13-02958 ..... **$12.65**

AVL FAST ACTING CLEANER/ DEGREASER II

AVL Fast Acting Cleaner/Degreaser II is a highly concentrated solvent designed to remove dirt, grease, oil and grime from metallic and non-metallic surfaces. Cleaning is quick and simple without the danger of injury to working parts. Ideally suited for use on electronic motors even while running, electronic equipment, ignition systems, geneerators, power tools, etc. It is non-flammable and non-conductive so it can be used while motors and equipment are operating. Cleans & degreases very fast and dries quickly leaving little residue. P/N 13-02960 ..... **$7.50**

MACH #1 DEGREASER/CLEANER

A citrus scented degreaser and cleaner designed for the aircraft industry. This surface degreaser is non-irritating but will remove heavy encrustations. Mach #1 (formally known as Big Orange Plus)combines solvent power with an emulsifier system that removes hydraulic fluids, fuel stains, and exhaust soot. P/N 13-00031 ..... **$19.85**

AVL AIRCRAFT GLASS CLEANER

AVL glass cleaner is safe on all plastics and glass. It contains no ammonia. This foaming glass cleaner cleans and leaves a shiny finish with no residue. It easily removes bugs and grime from windshields and all surfaces. 15 oz. P/N 13-02959 ..... **$4.90**

CRAZY CLEAN ALL PURPOSE CLEANER

Crazy Clean is an all purpose cleaner which is excellent for removing fuel stains, exhaust stains, an dgrease and grime from your aircraft. Ideal fro removing bugs from leading edges. Crazy Clean produces a cinging foam which cleans and deodorizes and leaves a clean, not waxy surface. Keep a can in the airplane to use when travelling. Recommended by Aviation Consumer. 15 oz. aerosol can. P/N 09-00563 ..... **$6.95**

EXTREME SIMPLE GREEN AIRCRAFT CLEANER

Unique cleaning & anti-corrosion chemistry delivers superior performance and materials-safety all in one. Cuts through tough, built up grease, oil, dirt, pollution, insect residue & impact soils. Gets its superior cleaning from a unique "triple play" cleaning formula. 2 high performance surfactants and new generation grease lifter/cutter combine to get the soil away from the aircraft surface quickly and keep it away so it can be cleanly rinsed away. Also able to go into oil/water separators and have oil break from solution. Extreme Simple Green's safety upon aircraft materials and precision cleaning surfaces comes from a combination of proven anti-corrosion agents. Time tested coupling agent allows these to work together to battle corrosion & hydrogen embrittlement. This makes it safe to put through pressure washing equipment, rack wash systems, dip tanks & parts washers, without any equipment damage.

PPC AIRCRAFT CLEANERS

PERFECT DETAIL™ SURFACE ENHANCER

Perfect DetailTM is the nation's leading choice for producing "wet look" shine! A light mist instantly produces maximum depth of gloss and flawless glassy brilliance on clear coat, black, and all other paint finishes. It works especially well on all other non-porous surfaces (such as chrome, glass, etc.) while lightly cleaning and accenting soft surfaces such as vinyl, rubber, and leather. For engine detailing Perfect DetailTM can't be beat! Perfect DetailTM is anti-static and slippery, enabling it to resist dust, dirt, and abrasion better than any product.

18 oz. .....P/N 09-00165 .....**$10.75**
1 Gallon .....P/N 09-00166 .....**$46.50**

BELLY WASH™ DEGREASER

Water-based BellyWashTM is highly concentrated for versatility and cost-effectiveness in any aircraft surface maintenance situation. It can be applied in any manner – spray, brush, wipe, power washer, etc. – and can be diluted with water by as much as 80:1 for routine cleaning in commercial application. Stubborn stains are dissolved almost on contact using full strength Belly WashTM, making it perfect for keeping troublesome aircraft bellies and wheel well areas in like-new condition. When used to remove concealing grime and petroleum-based residues form the aircraft engine area, Belly WashTM makes it possible to perform a more thorough inspection when checking for potential maintenance problems.

18 oz. .....P/N 09-00168 .....**$12.95**
1 Gallon .....P/N 09-00169 .....**$48.75**

WING CLEAN™ LEADING EDGE CLEANER

One major performance factor the aircraft owner/operator can improve upon is complete removal of all parasitic drag resulting from impacted air debris on the leading edges. Wing CleanTM is specifically formulated to both safely and effectively dissolve the problem. Wing Clean'sTM water-based non-solvent "spray-soak-rinse" application dramatically improves an aircraft's flight-ready condition. Routine use of Wing CleanTM, in series with PPC's Perfect DetailTM and/or Prestige Protective Polish, produces a microcellular separation barrier on leading edge surfaces, making future bug removal a progressively easier task.

18 oz. .....P/N 09-00170 .....**$9.65**
1 Gallon .....P/N 09-00171 .....**$39.75**

CRUD REMOVER™

Crud Remover – made with water – is an environmentally safe replacement for heavy-duty petroleum cleaning solvents. It's extremely powerful degreasing and defatting abilities enable it to dissolve diesel fuel, soot, and oily deposits on contact, grease and heavy grime in seconds, and virtually any stain from any surface – including cloth – in a matter of seconds! It also loosens bolts. It can be applied in any manner – spray, brush, wipe, or soak – and simply rinses off with water.

18 oz. .....P/N 09-00172 .....**$9.85**
1 Gallon .....P/N 09-00173 .....**$43.75**

AERO GLAZE DRY WASH & POLISH

KLEEN JET CLEANER & DEGREASER

Kleen Jet is a biodegradable aircraft industry cleaner and degreaser. It is a water-soluble, non-flammable, non-toxic concentrate that leaves no oily film or residual gumminess. Removes carbon, oil, grease, insects and inhibits corrosion and rust. 1 Gallon .....P/N 13-00029 ..... **$27.50**

BIG ORANGE PLUS

A citrus scented degreaser and cleaner designed for the aircraft industry. This surface degreaser is non-irritating but will remove heavy encrustations. Big Orange Plus combines solvent power with an emulsifier system that removes SKYDROL, hydraulic fluids, fuel stains. exhaust soot.

1 Gallon.....P/N 13-00031 .....**$19.85**

FLEET WASH

Fleet Wash aircraft wash and wax is an effective cleaner that leaves a wax-like surface on the washed aircraft. Contains a high percentage of W-300. Fleet Wash leaves a high luster, water-repellent surface which helps to repel dust.

1 Gallon.....P/N 13-00032 .....**$18.95**

FORMULA 2™ CLEANER/ PROTECTANT

Formula 2TM Cleaner/Protectant is a chemically unique multipurpose liquid which thoroughly cleans, beautifies, and protects all leather, rubber, vinyl, and finished wood products in one easy sstep with no greasy film! Due to its unique chemistry, Formula 2TM can also be used on painted and plastic surfaces. When applied sparingly to such surfaces it dries to a slick smooth, invisible coating resistant to mud, fingerprints, food splatters, soap scum, water spotting, etc. On leather, rubber, and vinyl Formula 2TM first dissolves away imbedded grime, then penetrates and softens the material to give it new life and flexibility, at the same time providing a lustrous, weather-resistant finish to prevent future deterioration.

20 oz. .....P/N 09-00174 .....**$10.50**

EASY™ ALUMINUM POLISH

EasyTM Aluminum Polish is a unique liquid formula that produces a "mirror-like" shine in seconds on smooth aluminum, magnesium, stainless, brass, nickel, etc. Its ability to melt oxidation and simultaneously bring up the metal's true brilliance can't be matched by any other polish. The application of EasyTM allows its exclusive acrylic polymer barrier to "lock" onto the metal's polished surface to resist staining, tarnish, and weathering effects indefinitely. The fine "mirror" finish can easily be maintained with a quick "touch up" application of product as desired.

8 oz. ..... P/N 09-00177 ..... **$10.75**

REAL™ WHEEL CLEANER

RealTM Wheel cleaner is the first detergent-based single product able to clean brake dust and corrosion from any type wheel in seconds! It works on contact to remove corrosion from older unfinished or neglected metals (aluminum, copper, brass, bronze, zinc) and is great for antique restoration. RealTM Wheel Cleaner's exclusive detergent action saves both time and money when detatiling any vehicle.

18 oz. ..... P/N 09-00178..... **$7.95**

NATURALLY NEW™ TIRE DRESSING

Naturally NewTM Tire Dressing utilizes PPC's advanced water-based polymer technology to produce an effective, cost-efficient dressing that actually protects rather than destroys the integrity of the sidewall. Naturally NewTM exactly describes the lustrous sheen imparted on contact with this instant action formula. The dry, semi-permanent barrier is both water repellent and resistant to dust, dirt etc. Naturally NewTM Tire Dressing adds maximum beauty while conditioning to keep that "new tire" look during the treadlife of the tires

18 oz. .....P/N 09-00179 ..... **$9.95**

SUNBLOCK FOR LEATHER KIT

SunBlock's newest product features cleaning and protection for leather that prevents stains and cracking. The SunBlock Cleaning System for leather interiors keeps your leather soft and supple by maintaining the moisture in the leather and preventing the destructive effects of everyday use while preserving the leather topcoat. Regular use of SunBlock Leather Cleaner and SunBlock Protection Cream will maintain the original look and feel of the leather without affecting the leathers breath-ability. This kit is safe for all leather except Suede or Nubuck.

FLITZ POLISHING AND BUFFING BALL

The Flitz 8" Polishing & Buffing Ball is made of a viscos materialwhich is a cooling material vs. lambs wool or cotton which is a heating material. This way it doesn't burn the paint and can be used to buff leading edges without having to tape them. This ball works wonders with Flitz Products and makes polishing much easier, faster and more effective in less than half the time. It fits all drills and air tools and will buff out scuffs, oxidation tarnish, pitting, corrosion on all metals, paints, fiberglass, plastics, and wood. Re-usable & washable.

P/N 09-00554 ..... **$35.70**

FLITZ MICROFIBER CLOTH

The Flitz microfiber cloths are 30 times finer than cotton and are great for buffing out waxes and polishes by hand. They will wash windows without chemicals (just use water) and will not streak or leave lint. Size: 16"x16".

P/N 09-00556 ..... **$6.50**

KOZAK SUPER DRY WASH

Use on metal, painted, or buffed aircraft surfaces to clean and maintain a beautiful shine. Good on spinners and prop blades too! Made from specially woven cotton fibers with a unique cleaning formula that lifts loose dirt and dust up and away from the surface. Use every time you fly to maintain a shine all year round! Reusable more than 50 times. P/N 09-00345 ..... **$12.85**

SUPER SHINE SPRAY CLEANER & PROTECTOR

Super Shine is a no-run, all purpose spray cleaner and protector. Just spray on Super Shine and let its foaming action lift off dirt and grease from all washable surfaces. Surfaces stay cleaner longer, while fogging and static build-up is eliminated. Ideal for use on plastic windows. Plexiglas, windshields, vinyl, leather, glass, tires and trim, chrome, fiberglass, acrylics, veneers, and painted surfaces. Non-toxic and meets California Clean Air Act. Widely used in aviation, racing/automotive, motorcycle, & marine industries. 15 oz. Spray Can .....P/N 09-42580 ..... **$5.40 ea**

CYCLO POLISHING PRODUCTS

CYCLO ORBITAL POLISHERS FOR AIRCRAFT

Genuine Cyclo Polishers: a fifty-year heritage of quality.

Precision machined and hand assembled for a lifetime of trouble-free operation, the Cyclo Polisher's dual heads orbit in a random, overlapping motion that mimics fine hand polishing. Leaves a dazzling, swirl-free shine every time. The Cyclo Dual Head Orbital Polisher is the most effective means of polishing available today. Even in the hands of a novice, it is safe to operate and provides professional results every time. The difference lies in the tool's overall balance and its patented dual heads. The dual heads operate in a synchronized motion, providing the most effective results without fear of heat buildup; damage to trim pieces, moldings and gaskets; swirl marks, holograms and more. The low-vibration and balanced design allow for a more even application and better control when operating.
Electric Polishers

CYCLO ELECTRIC POLISHER

* Power Supply: 115 Volts, 60 Hertz, 220 Watts * Motor: alternating current, semi-enclosed 24-bar commutator, * Speed: 3000 orbits/minute, * Output: 1/3 H.P. (.25 Kw) * Weight: 6.5 lb. (2.9 kg) * Head Rotation/ Diameter: clockwise /4" * Electric Cord: 10' length, 16 ga/3SJTOW * Housing: heavy-duty cast aluminum * Polisher Only.

P/N 09-35715 **$329.95**

CYCLO PNEUMATIC POLISHER

This pneumatic machine is designated for use in professional and industrial settings. The polisher heads orbit to produce a world-class shine without burning paint or leaving behind any swirl marks. Vibration Elimination System (VES™) is available exclusively on this polisher and is composed of a completely redesigned counterweight and precision matched, weighted inserts. Prior to this innovation, the polisher imparted only about one-tenth the vibration of traditional rotary and dual action polishers. Now the amount of vibration is reduced even further and nearly eliminated. **Specifications:** Air Pressure: Optimum operation at 90 p.s.i., 22 scfm. Motor: Pneumatic motor, Speed: 3000 orbits/ minute. Weight: 6.5 lb. (2.9 kg). Head Rotation/Diameter: clockwise/4". Recommend Hoses: 3/8" with 3/8" to 1/4" NPT Adapter. Extended NPT adapter line available. Housing: heavy-duty cast aluminum. Requires in-line air filter, dryer and lubricator P/N 09-03020 ..... **$496.85**

BF GOODRICH AGE MASTER RUBBER NO. 1 PROTECTIVE AGENT

Age Master #1 rubber protectant helps extend the life of your de-icers so you can cut maintenance costs, slow deterioration and aging, extend service life and save money. Age Master #1 protectant isn't just a surface coat. It penetrates neoprene rubber to help retard damage from ozone, weathering and pollutants to help your de-icers stay strong and flexible. And now it's economical, long lasting and easy to apply. Just follow the simple BF Goodrich guidelines. Wipe or brush on Age Master #1 protectant every 150 flight hours or at least semi-annually, for continuing protection. Age Master #1, the only rubber protectant recommended by BF Goodrich. Meets military specification MIL-P-11520E. Age Master #1 protectant is a staining material. Avoid contact with painted surfaces. Apply sparingly and let dry thoroughly before flying in rain to prevent run-back.

Quart ..... P/N 09-42545 .... **$189.95**

BF GOODRICH ICEX II FOR DE-ICERS

Icex coating boosts your de-icer performance so you fly with greater confidence by helping your de-icers shed ice at peak efficiency. Icex coating chemically bonds with rubber de-icer surfaces and forms a slick film that makes your de-icers slippery. It will lower the adhesive bond between ice and de-icer surfaces so your de-icers break the frigid grip of ice better and faster! Icex coating is easy to apply and economical, too. A single application provides 50 flight hours of added ice fighting protection on leading edge de-icers and 15 flight hours of protection on prop de-icers. Get Icex coating in quart cans for an attractive uniform satin finish on your de-icers. One is enough to treat a complete single or twin-engine aircraft.

ICE AWAY - PROP ICE GRIP INHIBITOR

Sooner or later, most pilots get into icing conditions and an ice-free propeller may be the ticket to safety. Years of testing have shown Ice-Away to stay on for several hours in icing cconditions. Ice-Away facilitates propeller ice shedding and enhances safety. Simply spray Ice-Away on the propeller leading edges and reapply as necessary P/N 09-00264 ..... **$19.85**

RAIN B GON

Rain B Gon will dramatically improve your wet weather flying, riding or driving visibility. A hydrophobic coating technology that forms a chemical bond and causes the raindrops to bead up and blow away from the windshield. Rain B Gon's innovative technology is designed especially for plastic Acrylic and Lexan windshields, and has no alcohol which can harm plastic. It is safe to use on glass windshields also. Can be applied on painted surfaces, and aids in easy removal of salt, ice, frost, insects and mud. 8 oz. spray bottle P/N 09-03487 ..... **$9.95**

RAIN-X RAIN REPELLENT

Aircraft with bleed air rain removal systems, such as Cessna Citation and Learjet, need to have their windshields treated to help disipate the rain. Repcom rain repellant was the recommended product, but it is no longer available. Rain-X is manufactured by the same company and it is the same formulation. While not FAA approved, it works well in dispersing water on the windshield. ****Not Recomended for plexiglass or acrylic products, such as, windshields or windows on small general aviation aircraft.*** **Benefits:** • Improves driving visibility • Repels rain • Helps reduce sleet and snow from sticking • Rain-X transparent polymer coating causes rain to "bead up" and roll off glass surfaces

P/N 09-42500 ..... **$4.95**

RAIN AWAY

A protective treatment which leaves a clear, smooth, non-stick surface. Visibility is improved by repelling rain, bugs, frost and road film. Raindrops bead up and are blown away while flying.

P/N 09-01279 ..... **$5.95**

RAINCOAT ADVANCED WATER REPELLENT COATING

Easy to apply and long lasting, Raincoat® has a special wax blend that is suspended in a mixture of alcohol and water which is safe for all plastics. These waxes are hydrophobic, that is, they 'hate' water. They repel water by beading up the drops. Because those beads of water have less contact with your plastic optics, the larger ones run off with gravity or the wind. The remaining water will appear as smaller and more rounded droplets rather than a smear that distorts your vision. By repelling the water, the trapped dirt and salts stay off your lenses or shields. So you will not need to clean them as often. Aso, it has been reported that ice and snow find it difficult to stick to plastic surfaces coated with Raincoat® Advanced Water Repellent Coating..

P/N 09-03427 ..... **$14.85**

ALL-SPRAY DETAILERS

The All-Spray Detailer packages All- Spray cleaner and a disposable Microfiber Towel into a portable Wet/ Dry combo pack. This on-the-go Detailer is designed for a quick, single-time aircraft window cleaning application. Stow these window detailers in the back of the aircraft or in the glove box. The Detailer measure 3.25" x 4.5" when folded in half. A package of 10 makes a great gift.

P/N 09-02375 .....**$3.95**

ALL-SPRAY CLEANING AND DETAILING GA AIRCRAFT WINDOWS

Detailer's All-Spray is an aviation grade, anti-static detailing spray that will quickly restore a brilliant luster to acrylic surfaces. All-spray is ideal for cleaning aircraft windows, instrument panels, landing light and navigational lenses. It is also great for cleaning clear plastic boat windows, convertible windows, helmet shields, motorcycle windscreens, CD's, aquariums, skylights, displays, and other Plexiglas, Lexan, Acrylite and Lucite plastic surfaces.

ALL-SPRAY AIRCRAFT WINDOW CLEANING AND DETAILING KIT

This kit packages All-Spray Window Cleaner, Disposable Microfiber Towels, on-the-go All-Spray Detailers and a small polishing cloth all in one. All-Spray is a premium, aviation grade, cleaning spray that will give windows a residue-free, smooth polished appearance. After using this anti-static product, there will be no micro particles of dirt and dust left on the window to reflect the light, thus making the window easier to see through; the window will feel smooth and waxed to the touch. All-Spray is ammonia-free.

The small kit includes: 1 - All-Spray (Qty: 8 fl. oz.), 10 - Microfiber Towels (16" x 17"), 3 - All-Spray Detailers, 1 - Small Polishing Cloth
P/N 09-02378.....**$28.95**

The large kit includes: 1 - All-Spray (Qty: 32 fl. oz.), 50 - Microfiber Towels (16" x 17", 15 - All-Spray Detailers, 1 - Large Polishing Cloth
P/N 09-02382.....**$123.95**

EZCLEAR INSTRUMENT PANEL CLEAN KIT

This product meets Garmin G1000 Pilot Guide specs for cleaning and is safe to use on glass panels. EZCLEAR Instrument Cleaning provides a safe, effective way to remove fingerprints and dust from glass panels, instruments and more. The kit contains three EZCLEAR Cleaning Packs and one Polishing Cloth; these items have been specifically paired together to ensure safe and effective screen cleaning. Per the instructions, the user wipes the surface with the Cleaning Pack and then dries the area with the Polishing Cloth. The Cleaning Packs are ammonia free, aviation-grade and will not remove or damage any anti-reflective coating. The Polishing Cloth is washable. This kit will last between 3-4 months depending upon frequency of use.

P/N 09-02394.....**$14.85**

DISPOSABLE MICROFIBER TOWELS

These disposable Microfiber Towels are a generous 16 x 17 inch size and are made of the highest quality, aviation-grade Microfiber. Use these scratch-free/lint-free towels with All-Spray (PN: 09-02379) to leave your aircraft windows clean, smooth and brilliant.

P/N 09-02376.....**$28.50**

AIRCRAFT MICROFIBER POLISHING CLOTH

This Polishing Cloth is an aviation grade, re-usable microfiber cloth designed to remove any residue, dust or fingerprints from aircraft windows. Can also be used to go over painted surfaces and helps restore a brilliant shine. The smaller cloth can be used on avionics and helps remove dust and fingerprints.

Large Cloth: 22" x 25"
Small Cloth: 7.5" x 7.5"

Large Polishing Colth (22 X 25 inches) ..... P/N 09-02380.....**$8.95**
Small Polishing Cloth (7.5 X 7.5 inches) ..... P/N 09-02377.....**$6.75**

RID ODOR SPORT

Rid Odor Sport is a product that nearly every owner of a Single Engine/Multi Engine both pressurized and non-pressurized need! Why? Because there are two things that nearly ever aircraft owner fights, whether they hanger their aircraft or tied down. Moisture and Bacteria are the two major reasons why cabin spaces have terrific problems with "Odors".

Rid Odor Sport is chemically engineered and designed to be attracted to ALL Malodor molecules and the reasons for them being there. Everything that is organic is surrounded by atoms. All atoms have one thing singularly in common and that is that they are oriented with a positive (+) charged molecules. Rid Odor Sport is designed so that the each molecule inside our formula is constructed with a negative (-) charged molecule. When Rid Odor Sport is pump sprayed into the vicinity of all of the" Malodor Molecules (+) ", the Rid Odor Sport Molecules (-) are attracted and drawn in by Malodor molecules. Once they collide, the Sports molecule bonds to the malodor and destroys the malodor molecule. Unlike other products that just mask over the odor, Rid Odor destroys the malodor and leaves the inside of the cabin smelling like new !

2 oz. Pump Spray.....P/N 09-02609 .....**$7.95**
8 oz. Trigger Spray.....P/N 09-02610 .....**$12.75**

AEROKROIL PENETRATING OIL

Corrosion, compression, chemical reactions, thermal variations, and electrical interrelationships are the primary factors which contribute in varying degrees to frozen metal parts. For example, in some instances, loosening a frozen metal part requires that the molecular bond of oxidation be broken at the first molecular level. This requires that a chemical bond be broken in an often-inaccessible location that literally exists in infinitely small spaces.

Based on a unique proprietary formula and manufacturing process, Kano created a molecule which had an inherent means of expedient self propulsion which would penetrate into spaces which are immeasurably small.

In the lab, it was nicknamed Creeping Oil, Kreeping Oil, and finally Kroil. To these penetrating properties were added the ability to disrupt the existing corrosive bond while remaining chemically neutral to the base metal. Since not all frozen parts are caused by corrosion, additional research has provided for the inclusion of other molecular properties assuring that the final molecular architecture would also be capable of loosening frozen metal parts when other factors such as compression were more responsible for the problem. The result is Kroil, the world's largest selling penetrating oil.

Guaranteed to penetrate, lubricate, and loosen frozen metal parts or it costs you nothing!

1 gal. (3.78 l) ..... P/N 09-26200..... **$48.50**

LPS 3® PREMIER RUST INHIBITOR

* Forms a transparent, soft, waxy film for protection & lubrication * Inhibits rust & corrosion, protects steel parts indoors for up to two years * Penetrates to displace moisture * Does not contain chlorinated solvents or silicone * Nonconductive * Safe on most surfaces * Stops rust and corrosion * Provides non-sling lubrication * Provides anti-seize coating * Safe to use on rubber, fabric, plastics and paints * Inverta Spray Valve allows user to spray in an upright or inverted position * NSF® H2 registered #129027: (aerosol); #059849 (bulk)

11oz. (312g) – aerosol ..... P/N 09-26300..... **$14.95**

20fl. oz. (591ml) – trigger ..... P/N 09-01223..... **$22.75**

1 gal. (3.78 l) ..... P/N 09-26400..... **$72.85**

LPS® QB PRECISION DUSTER *

Patented formula – Patented US #6,342,471. Electrical contact cleaner. Cleans electrical parts without harming plastics. * Non-flammable * Plastic safe * Non-conductive * No residue * Replaces HCFC 141b contact cleaners * Fast evaporating * Conforms to CARB VOC requirements. 10 oz. spray can.

P/N 09-26210 ..... **$26.50**

LPS® PRESOLVE® ORANGE DEGREASER *

* High performance industrial cleaner that cleans on contact * Ideal for removing grease, tar, oil & adhesives * Fast acting, deep penetration * Natural based * Does not contain chlorinated solvents * Flash point above 100°F (38°C) * Non-conductive * Low residue * Safe on all metals and most plastics * Inverta Spray Valve allows user to spray in an upright or inverted position * NSF® C1 registered #129025: (aerosol); #059830: (bulk)

15oz. (425g) – aerosol.....P/N 09-00311 .....**$15.75**

1gal. (3.78l) .....P/N 09-00312 .....**$91.75**

5gal. (18.93l) .....P/N 09-00313 .....**$388.00**

LPS® ZEROTRI® HEAVY-DUTY DEGREASER *

* Penetrating action instantly removes oil, grease, wax, dirt, moisture, tar and other contaminants * Removes conformal coatings * No ozone depleting chemicals * Fast evaporating * Safe to use on most surfaces * Does not contain chlorinated solvents * No rinsing, no residue * Inverta Spray Valve allows user to spray in an upright or inverted position * NSF® C1 registered #059845: (aerosol); #059846: (bulk) * Canadian Food Inspection Agency (CFIA) approved

15 oz. spray.....P/N 09-26470 .....**$21.75**

LPS® LVC CONTACT CLEANER

Reduced VOCs (Volatile Organic Compounds). Conforms to CARB (California Air Resources Board) requirements for. VOC emissions. Fast evaporating. Ideal for electronic and fine parts. Cleans and degreases delicate precision mechanisms. Safe on plastics. Penetrating action removes oil, grease, dirt, flux and other contaminants. Does not contain chlorinated solvents. No residue

P/N 09-02045..... **$18.75**

LPS® U-10 BRAKE CLEANER

* Low VOC (Volatile Organic * Compounds) content * Complies with CARB/OTC (California Air Resources * Board/Ozone Transport Commission) Rules * Instantly removes brake fluid, dust, grease and oil * Improves brake performance * Helps stop disc brake squeal * Powerful jet spray and high solvency * Can be applied without disassembling the brake unit * No ozone depleting chemicals * Fast evaporating * Does not contain toluene * Does not contain chlorinated solvents * No rinsing or no residue * 14oz. (397g) – aerosol P/N 09-02119..... **$11.75**

CS

LPS PRODUCTS

LPS STRONG STEEL STICKS

Easy-to-use, hand-kneadable stick for immediate repairs to steel equipment and surfaces. Ideal for stopping leaks, even works on underwater applications. Permanently fills gaps and holes in metal, concrete, wood, fiberglass, and ceramics. Has a working time of 4 minutes, and will fully cure in 30 minutes to form a durable mass which can be machined, drilled, and painted. Can be used for many types of repairs, such as plumbing, electrical, ceramic, vehicle, equipment, and machinery. It is ideal for patching holes and cracks in pipes, drums, and tanks.4 oz. stick ..... P/N 09-26444 ..... **$12.75**

LPS ELECTRO 140 CONTACT CLEANER

LPS Electro 140 Contact Cleaner is the high flash point, fast penetrating, non-residue cleaner alternative to CFCs for fine parts. The Electro 140 Contact Cleaner flash point is above 140°, making it safer to use in areas where flammability may be a concern. It is free of any known stratospheric ozone depleting substances - like CFCs, HCFCs, and 1,1,1 trichloroethane. Electro 140 has a low odor & is effective for flux removal and immersion cleaning.

11 oz.. Spray Can..... P/N 09-26465..... **$15.75**

Warning: Due to VOC Regulations CA, OR, WA, CO states laws prohibit use, sell, or purchase of this product as of 01/2008.

LPS NO FLASH ELECTRO CONTACT CLEANER

LPS NoFlash is a vaporous solvent cleaner alternative to CFC's that's safe to use on most surfaces. It's nonconductive and nonflammable, so it can be used while equipment is in operation to avoid costly downtime. NoFlash Electro Contact Cleaner penetrates and evaporates quickly, dislodging oil, grease, dirt and other materials from precision mechanical and delicate electrical/ electronic parts leaving no residue. P/N 09-26412 ..... **$32.75**

LPS MICRO-X CONTACT CLEANER

Quick penetration. Does not contain any chlorinated solvents. No residue. No rinsing. Fast drying. Safe on metal and plastics. Inverta Spray Valve lets you spray in upright or inverted position. Value Performance.

P/N 09-00151 ..... **$14.75**

Warning: Due to VOC Regulations CA, OR, WA, CO states laws prohibit use, sell, or purchase of this product as of 01/2008. Replacement P/N for these states is # 09-02045*

On previous page.

LPS ELECTRA-X CONTACT CLEANER

A non-flammable contact cleaner that removes oil, grease, dirt and other foreign materials from precision mechanical and delicate electrical/electonic parts. Fast evaporating. No flash point. No rinsing.

15 oz.. Aerosol..... P/N 09-00153 ..... **$21.75**

LPS SA-X X-TREME DEGREASER

LPS SA-X X-treme Degreaser is ideal for removing grease, oil, tar, and dirt. LPS SA-X is water based and has a super powerful formula for cleaning machinery, equipment, parts, floors, and many other surface. SA-X can be diluted with water and it requires less product than traditional water-based cleaners in many applications.

LPS SA-X X-treme Degreaser is available in a ready-to-use 28 fl.oz. trigger sprayer and bulk concentrate in a 1 gallon container, 5 gallon pail, and a 55 gallon drum.

Features: Water-based, High Alkalinity - pH: 12.0 - 13.0, Super aggressive formula Non-flammable, Removes greases, oil, tar, and dirt, Economical: can be diluted with water Efficient: requires less product than traditional water-based cleaners to get the job done Rinses clean with no residue Safe on most metals, Trigger spray bottle is ready-to-use, Value Performance

Specifications: Appearance: Red, Odor: Cherry Specific Gravity: 1.00-1.03 pH: 12.0-13.0 Boiling Point: >200 F Volatiles: >80%

12 oz..... P/N 09-02605 ..... **$7.75**
Gallon ..... P/N 09-02606 ..... **$18.85**
5 Gallon ..... P/N 09-02607 ..... **$79.50**
55 Gallon ..... P/N 09-02608 ..... **$584.00**

LPS MICRO-X NU FAST EVAPORATING CONTACT CLEANER

Reduced VOCs (Volatile Organic Compounds)

Conforms to the VOC regulations of CARB (California Air Resources Board), OTC (Ozone Transport Commission) and LADCO (Lake Michigan Air Directors Consortium) Quick penetration. Safe on plastics. No residue. Ideal for electronic and fine parts. Does not contain any chlorinated solvents. Removes dirt, dust, flux and other contaminants. NSF Nonfood Compounds Program Listed Category Code: K2 Registration # 142149. Inverta Spray Valve lets you spray in an upright or inverted position.

Applications: Circuit Breakers , Connectors , Contacts Controls Fluid Systems Generators , Instrumentation , Keyboards , Magnetic Tape Heads , Motors Office Equipment, Printed Circuits , Relays ,Semiconductor Assemblies Sensors , Switch Gears , Switches , Telecommunication Equipment , Telephone Equipment, Terminals , TV Tuners

Specifications: Size: 11oz, Surface Tension: 17.3 dynes/cm @77 F KB Value: 24, Specific Gravity: 0.64 - 0.66 @ 77 F Flash Point: 0 degree F, VOC Content: 74%, 48l g/L, 4.0l lb (aerosol) Propellant: HFC 134a Nonvoltiles: 50 ppm maximum P/N 09-02563 ..... **$14.95**

LPS G-49 ORANGE DEGREASER LOW VOC'S

Reduced VOCs. Instant cleaning action, no residue. Excellent for removing grease, grime, oil, and adhesives. High solvent strength. Moderate evaporation. Excellent alternative to Methyl Ethyl Ketone (MEK). Ideal for cleaning equipment. Not a Hazardous Air Pollutant (HAP). No ozone depleting chemicals (ODC). NSF® registered category code C1, registration #142147. Inverta Spray Valve

P/N 09-02372 ..... **$16.75**

LPS PROCYON CORROSION INHIBITOR

Hard film rust & corrosion protectant. Multi-year protection of metal surfaces. Resists dirt buildup, dripping & puddling during application. Penetrating, water-displacing formula. Excellent to use in high risk area. Inspectable, removable film. Resists water, acids, alkalis, salt spray, corrosive, elements.1 Gal

P/N 09-00150 ..... **$136.95**

CS

CRC AVIATION MAINTENANCE PRODUCTS

CRC 3-36® MULTI PURPOSE LUBRICANT

FLAMMABLE

A corrosion inhibitor which helps prevent electrical and electronic malfunctions caused by water penetration, humidity, condensation, or corrosion. Displaces moisture and inhibits corrosion. •Appearance-Amber Liquid • Odor-Petroleum Distillate • Base Type-Petroleum • Flashpoint-144°F • Flammability-Flammable

11 oz. .....P/N 09-39600 ..... **$8.95**

CRC ULTRA-LITE LUBE

Ultra-thin, non-staining lubricant that resists oil, dirt and dust build-up. Seals out moisture and prevents corrosion with protective film. Excellent for drying out electrical/electronic components. • Appearance-Amber Liquid • Odor-Petroleum • Base Type-Petroleum Solvent • Flashpoint-172°F • Flammability-Flammable • Specific Gravity-0.8034 • Plastic Safe-No • Film Type-Ultra Thin and Dry • Film Thickness-0.05 Mils • Working Temp-40 to 300°F 11 oz.....P/N 09-39602 ..... **$8.95**

CRC POWER LUBE®

POWER LUBE is a high performance, multi-purpose lubricant that utilizes PTFE and extreme pressure additives to provide unparalled lubricating performance. It has twice the load carrying capacity of most general purpose lubricants. • Appearance-Light Amber Liquid w/white pecipitate • Odor-Wintergreen • Base Type-Petroleum Solvent • Flashpoint-<20°F • Flammability-Extremely Flammable

11 oz.....P/N 09-39605 ..... **$10.50**

CRC HV SWITCHGEAR CLEANER & LUBRICANT

CRC HV Switchgear Cleaner & Lubricant is a one-step cleaner, lubricant and corrosion inhibitor for metering. It penetrates to coat contacts and provides corrosion protection on switchgear mechanisms. The Power Jet spray nozzle allows application from greater distance overhead with a Hot Line tool adapter. HV Switchgear Cleaner and Lubricant is recommended for use on metering, distribution and substation class switchgear contacts, including URD and OVH applications.

P/N 09-02611 ..... **$22.85**

CRC QUICK DRY CONTACT CLEANER

An alcohol-based precision cleaner that is 100% free of CFCs. Ideal for applications where lower flashpoint solvents may be used. It evaporates rapidly and completely and is harmless to most plastics. Applications include: •Switchgears • Circuit breakers • Telecommunication equipment • Fusible connecting devices • Motors • Generators •Relays • Terminals • Rheostats • Instrumentation •Communications equipment. Not for use on energized equipment. 16 oz.....P/N 09-39620 ..... **$16.50**

CRC PAINT & DECAL REMOVER

A solvent-based, high strength cleaner that effectively loosens and helps remove paint., adhesives and sealants. It helps protect equipment surfaces by eliminating damage caused by excessive scraping. Applications include: •Dissolves and aids removal of paints, lacquers, adhesives and varnish • Removes graffiti from metal and stone •Removes conventional and formed-in-place gaskets on motors, pumps & flanges. Not for use on energized equipment.16 oz.....P/N 09-39622 ... **$10.95**

CRC SPRAY ADHESIVE

A general purpose quick tack adhesive especially formulated to bond to many foils, plastics, papers, foams, metals, cardboards and cloths. P/N 09-02431 ..... **$15.65**

CRC GREEN FORCE MULTI-PURPOSE CLEANER

Formulated to meet strict environmental requirements without sacrificing performance. It is a safe and versatile product for all of your cleaning needs. .....P/N 09-02419 ..... **$33.85**

CRC GREEN FORCE HEAVY DUTY CLEANER

An environmentally preferable alternative to conventional water based solvent cleaners and degreasers. It quickly removes petroleum based soils such as grease, grime, and oil found in manufacturing environments. P/N 09-02420 ..... **$43.50**

CRC GREEN FORCE GLASS & SURFACE CLEANER

Ideally suited to clean soiled glass and other hard surfaces. It effectively cuts greasy films and soils, leaving surfaces sparkling clean. 32 oz.....P/N 09-02421 ..... **$10.50**

Gallon .....P/N 09-02422 ..... **$32.50**

CRC AVIATION WINDOW CLEANER

A modern blend of detergents and corrosion inhibitors designed to safely clean aircraft glass, plexiglass and other surfaces (pH 10.6±0.5). Applications include: • Windows • Interior surfaces • Galley areas • Overhead compartments. Not for use on energized equipment. 16 oz .....P/N 09-39630 ..... **$4.25**

AVIATION DEGREASER

A halogenated solvent-based cleaner/degreaser that is chemically stable and extremely effective in heavy duty cleaning applications. Fast-acting, non-flammable, and evaporates quickly leaving no residue. Extremely effective solvent for cleaning and removing corrosion inhibiting compounds. Contains no HAPs. Removes carbon buildup. High dielectric strength of 26,800 volts. Allows for east visual inspection. Prepares metal surfaces for painting on adhesive bonding. Evaporates fast leaving no residue.

20 oz. aerosol.....P/N 09-39690 ..... **$21.75**

Attention:Volatile Organic Compounds (VOCs) Government Regulations: Product cannot be purchased, sold or used in the states listed: CA

CRC SUPER DEGREASER

A revolutionary alternative to 1,1,1 Trichloroethane and other chlorinated solvents. Cleaner and degreaser that effectively removes grease, oil, dirt and other contaminants from motors, parts and equipment. •Exhaust trails • Hinges • Antenna mounts • Static tubes •Wheel wells • Struts & tubes • Galleys • Seat tracks • Cargo doors • Cargo tracks. Not for use on energized equipment.

20 oz P/N 09-39642 ..... **$19.00**

CRC CORROSION SHIELD

A long-term corrosion inhibitor that provides extended protection for all metal parts and assemblies, both in storage and during shipment. Easily removed with solvent cleaners. • Seat and cargo tracks •Landing gear, wheel wells & keel beam • Fuselage structure • Wing to body fairing • Pins • Hinges • Wing front & rear spar • Lower fuselage interior • Wing interior structure • Horizontal stabilizer • Ground support equipment • Chains and cables • Air conditioning ducts • Lap joints • Skin panel edges • Emergency escape hatches • Bulkheads • Entry and cargo doors. Not for use on energized equipment. 20 oz. P/N 09-39655 ..... **$12.50**

CRC CORROSION SHELL

A long-term indoor and outdoor corrosion inhibitor for machined surfaces and assemblies subjected to long periods of storage or adverse conditions during shipment. Its firm, waxy film is highly resistant to humidity and salt spray and never becomes brittle. Petroleum solvents may be used to dilute the product to vary the film thickness or to remove it after application. Applications include: • Completed assemblies • Seat tracks • Chains and cables • Landing gear •Wheel wells • Faying surfaces• Air conditioning ducts • Lap joints • Skin panel edges • Fuselage • Landing gear and bilges • Emergency escape hatches • Bulkheads • Entry & cargo doors. Not for use on energized equipment.16 oz.

P/N 09-39657 ..... **$14.75**

ISOPROPYL ALCOHOL - ULTRA PURE CLEANING SOLVENT

A quick drying light-duty degreaser for use in industrial, electrical, electronic and aviation applications. Its 99% pure formula aggressively dissolves grease, dust, dirt, lint, oils and flux from most non-plastic surfaces. 12oz.....P/N 09-02423 ..... **$9.50**

CRC BATTERY CLEANER

Water-soluble formula removes corrosion quickly and economically. Neutralizes acid spills. Restores battery output and reduces voltage leakage due to contaminants. Assures maximum battery current flow and promotes longer battery life. 11 oz.

P/N 09-02424 ..... **$8.25**

CRC KNOCK'ER LOOSE PLUS PENETRATING SOLVENT

A unique penetrant that immediately drops the temperature of the area in contact with the spray. The freeze shock action cracks rusted surfaces allowing it to reach deeper & work more effectively than other penetrants. 11.5 oz.....P/N 09-02426 ..... **$8.95**

DRY GRAPHITE LUBE

Ideal where a dry lubricant is required or where petroleum products must be avoided. Resists dirt, dust and oil build-up. Wide effective temperature range up to 850°F constant. 10 oz.

P/N 09-02427 ..... **$9.95**

CRC WHITE LITHIUM GREASE

Superior lubrication and durability in any weather or temperature. Perfect for use as a break-in lubricant for bearings or as a general purpose lubricant and corrosion inhibitor for tools, machinery and equipment. 10 oz. P/N 09-02428 ..... **$10.75**

CS

LUBRICANTS

LOCTITE THREADLOCKER

Loctite Threadlocker used on a standard fastener can eliminate expensive locking devices while you increase the reliability and quality of your assembly. One drop prevents loosening. 2 removable strengths for large & small applications and permanent strength for locking parts you never want to take apart.

#222 Threadlocker (permanent, for small screws)

10 ml..... P/N 09-42605..... **$14.50** 50 ml..... P/N 09-42610 .. **$39.65**

#242 Threadlocker (removable, for large screws)

10 ml..... P/N 09-42615..... **$16.75** 50 ml..... P/N 09-42620 .. **$39.90**

#262 Threadlocker (permanent, for large screws)

10 ml..... P/N 09-42625..... **$16.75** 50 ml..... P/N 09-42630 .. **$43.25**

PARKER-O-LUBE

Excellent for use on exposed valve plungers, cylinder rods, and other o-rings. It lubricates without causing deterioration of rubber and is water resistant. Good for low pressure vacuum and pneumatic systems.

4 oz. tube..... P/N 05-00773 ..... **$8.95**

SEALUBE

Anti-seize sealer for threaded aluminum alloy parts exposed to gasoline, oil, water, air or vacuum. Good lubricating qualities. Will not harden or set. Will not freeze joints at low temperatures. Non-corrosive, insoluble in gasoline, oil or water.

1 Lb. Can ..... P/N 09-25200 ..... **$44.50**

LUBRIPLATE NO. 630AA

Multi-purpose lubricant. Forms a wearing film on working surfaces. Excellent protection against rust and corrosion. Recommended for controllable pitch props, wheel and magneto bearings, general greasing.

14 oz. Can ..... P/N 09-25400 ..... **$14.00**

6 Lb.. Can ..... P/N 09-25500 ..... **$64.75**

WD-40 PENETRANT/LUBRICANT

Displaces moisture on any metal surface, preventing rust, corrosion or oxidation of the surface. Used on switches pulleys, wheel housings, seam areas. Non-gumming, non-conductive—safe for all electrical systems. 12 oz. Spray P/N 09-00347..... **$8.50**

FAST DRYING GRAPHITE SPRAY 50605

Lubricates and protects - MCKAY Graphite Spray lubricates and leaves a fast drying graphite film on all automotive, marine and industrial parts before and after assembly. Keeps gears, valves, heads, shafts, rocker arms, engines, transmissions and all metal parts operating quietly and efficiently by reducing heat and friction. Keeps valves and valve seats carbon-free. Leaves a dark metal-like finish that adds a high quality look to all repair work. prevents rust, corrosion and shelf deterioration. Non-abrasive, non-flammable, non-corrosive, non-toxic. Harmless to Anti-freeze and coolants. 12 Oz. Spray P/N 09-25600..... **$4.15**

EZ TURN LUBRICANT (FUELUBE)

EZ Turn is a specialty lubricant/sealant used for fuel and oil line valves and is resistant to high temperatures. It is expecially effective where high octane fuels and aromatics are present. EZ Turn is also extremely efficient as a gasket paste and anti-seize agent. EZ Turn will not gum, crack or dry out. Each shipment is independently tested. Excellent for tapered plug valves, aircraft engine manufacturing, and marine applications. EZ Turn is the functional equivalent of fuel lube.

5 oz. tube..... P/N 09-00306..... **$11.85**

1 Lb. can..... P/N 09-00180..... **$22.75**

PERMATEX ANTI-SEIZE LUBRICANT

Prevents galling, seizing and corrosion of metal parts from 65°F to 2000°F. Acts as a low speed lubricant and maintains a corrosion-resistant coating at high temperatures. Makes aluminum and stainless steel joints disassemble quickly, easily. Excellent lubricant for press fit assembly. Works on industrial engine parts, boilers, outdoor motors, cables and internal combustion engines. Conforms to MIL-A-907D. Improves reliability at high temperatures. Saves time, labor. 1 oz. tube ..... P/N 09-28410..... **$4.20**

MICROLON PRECISION OILER

This oiler has the famous Microlon resin suspended in a lightweight oil to lubricate, penetrate and prevent rust. It is excellent for lubricating bearings, threaded parts, hinges, pocket knives, chains, rollers, fishing gear, chain saws, guns, garage doors..... just about anywhere that friction causes noise and resistance. Furnished in a handy pen size oiler with a pocket clip. .25 Fluid Ounces. P/N 09-00756.....**$7.95**

TRI-FLO TEFLON LUBRICANT

Penetrating lubricant with Teflon, corrosion inhibitors, moisture displacers and solvents to soften and remove dirt and corrosion. Will not cause corrosion. Use on aircraft cabin door hinges, landing gear hinges and struts. Loosens rusted bolts and other fasteners. 12oz. aerosol can P/N 09-42540..... **$15.50**

FOAMING SUPERIOR LUBRICANT

Tri-Flow is revolutionizing the way you clean, protect and lubricate all of your moving parts with the introduction of Foaming Superior Lubricant and Foaming Citrus Cleaner Degreaser. Tri-Flow's powerful foaming action clings to both horizontal and vertical surfaces to allow for deep penetration and accurate application. Tri-Flow Foaming products are ideal for use on bicycles, firearms, sporting equipment, manufacturing equipment, and more! P/N 09-02082..... **$10.85**

LIQUID WRENCH

A powerful blend of quick acting solvents to free parts frozen by rust, corrosion or paint. Harmless to metals. 11 oz. Aerosol

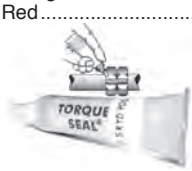
Spray..... P/N 09-25800..... **$3.65**

F-900 "TORQUE SEAL"

Inspection Lacquer is used in production on compression fittings, studs, nuts, parts, and assemblies after they are in proper torque or position. Widely used as "Anti-Sabotage Lacquer". Inspectors can visually detect any movement or tampering; Torque Seal becomes brittle and will crack. Excellent adhesion to all metals and to most other surfaces. Dries fast. Torque Seal is packaged in convenient 1/2 oz. poly squeeze tubes. Available in 6 high visibility colors.

Yellow..... P/N 09-25807 ..... **$1.95**
White ..... P/N 09-02411 ..... **$2.65**
Blue ..... P/N 09-25809 ..... **$1.95**
Green..... P/N 09-25808 ..... **$1.95**
Orange..... P/N 09-25810 ..... **$1.95**
Red..... P/N 09-02033 ..... **$1.95**

F-925 RESISTANT SEAL



F-925 "Skydrol" RESISTANT SEAL An inspection lacquer used in areas where aircraft hydraulic fluid (Skydrol) might come in contact with the seal. A fast drying material that has excellent adhesion to most substrates. It becomes hard and brittle so that visually any movement can be detected. Available in 1/2 oz. squeeze tubes. Color YELLOW and PINK

Yellow..... P/N 09-25811 ..... **$3.25**
Pink..... P/N 09-03486 ..... **$3.10**

F-1000 SENTRY SEAL

Used on compression fittings, studs, nuts, parts and assemblies after they have been set to proper tension or position. Service personnel or inspectors can quickly spot any changes or tampering with equipment. Sentry Seal has excellent adhesion to metals, including aluminum, magnesium, titanium, stainless and copper, and is non-corrosive to these metals. It is packaged in handy metal tubes. Squeeze the tube to extrude the Sentry Seal through the small hole to form a bead (narrow stripe) across the parts. The surface dries in about one minute, then it will start to polymerize and become brittle as it dries completely. Available in blue. P/N 09-28512.....**$4.80**

LOCTITE BLACK HIGH PERFORMANCE RTV SILICONE GASKET MAKER

Loctite® 598™ Black High Performance RTV Silicone Gasket Maker retains high flexibility and oil resistance for longer gasket life. Temperature range is -75°F to 625°F (-59°C to 329°C) intermittent. Low odor, non-corrosive. Resistant to most chemicals and solvents. Fills gaps to 0.25". P/N 09-03532 ..... **$26.50**

LOCTITE QUICKSTIX C5-A COPPER ANTI-SEIZE

Loctite® QuickStix™ C5-A® Copper Grade Anti-Seize Stick provides a shield against high temperature seizing and galling. All mated parts, studs, bolts, flanges and gaskets, remove more easily and in cleaner and better condition. This product can be used on copper, brass, cast iron, steel, all alloys including stainless steel, all plastics and all non-metallic gasketing materials. Protects metal parts to 1800°F. Prevents rust, corrosion, seizing; eases disassembly. Fine or coarse threads. P/N 09-03533..... **$14.25**

CS

BOELUBE LUBRICANTS

A Space Age Lubricant developed by The Boeing Company that fights friction at the interface of the cutting edge and theworkpiece. The reduction of friction at these surfaces minimizes heat generation and concurrent chip weld. Tools retain their cutting edge longer, leading to closer tolerances and prime chip yield. Manufactured frompersonal care ingredients, Boelube is non-toxic, non-irritating and biodegradable. Boelube is non-corrosive, non-flammable, chemically stable and free of halogens, heavy metals, sulfur, phosphorus, silicone, petroleum or paraffin wax.

BOELUBE BL70200-13 SOLIDS LUBRICANT

Drilling - Tapping - Reaming - Abrasive Belts - Files - Deburring Tools - Grinding Wheels - Chisels - Band, Circular and Hand Saw Blades.
Boelube Solids improve tool life by reducing heat build-up in belt, disc or wheel grinding operations. Apply the push-up tube to the tool before start up. Individual Boelube Blocks are ideal for grinding operations.

1.6oz Push Tube ..... 09-01731 ..... **$3.55**

BOELUBE 90 HIGH EFFICIENCY MACHINING LUBRICANT

BOELUBE® 90 is non-toxic, non-irritating, environmentally safe synthetic lubricant that is effective for machining many types of materials. BOELUBE® 90 will provide superior lubricity leading to better finish and longer tool life. BOELUBE® 90 is compatible with Aluminum, Titanium, Graphite, Composites, Honeycomb, Inconel, Kevlar, Wood, Ferrous and Non-ferrous Metals. BOELUBE® 90 is recommended for Drilling, Deburring, Broaching, Forming, Grinding, Milling, Gun Drilling, Routing, Reaming, Oil Hole Tools, Sawing, Punching and Tapping. BOELUBE® 90 is best utilized in One-Shot or Mist Applications, and is ideal for applications where Cold-Cut® or Positive-Lube units are utilized.

4oz Bottle ..... 09-01734 ..... **$7.75**
Gallon ..... 09-01733 ..... **$118.75**

BOELUBE 70104 LUBRICANT

BOELUBE® 70104 is non-toxic, non-irritating, environmentally safe synthetic lubricant manufactured from personal care ingredients that is effective for machining many types of materials. BOELUBE® 70104 will provide superior lubricity leading to better finish and longer tool life. BOELUBE® 70104 is non-corrosive, non-flammable, chemically stable, and free of Halogens, Silicone, Petroleum, Paraffin Wax, Sulfur, Phosphorus and Heavy Metals whether added or present in any of its ingredients. BOELUBE® 70104 is compatible with Aluminum, Titanium, Graphite, Composites, Honeycomb, Inconel, Kevlar, Wood, Ferrous and Nonferrous Metals. BOELUBE® 70104 is recommended for Drilling, Deburring, Broaching, Forming, Grinding, Milling, Routing, Reaming, Gun Drilling, Oil Hole Tools, Sawing, Punching and Tapping.

Handheld lubricant .....09-01732 .....**$8.50**

BOELUBE BL70307L PASTE

Boelube® Pastes provide excellent lubricity and are extremely cost effective in single point work such as Tapping, Drilling and Reaming. A small amount of Paste applied to the tool is all that is required to obtain a high quality finish and extended tool life with little or no clean-up required. Brush it on or dip tool in paste. Boelube pastes are also ideal for Forming and Bending as well as in Drop Hammer, Verson Press and Spin Forming applications. Boelube Pastes provide closer tolerance parts and extended diaphragm and die life. We furnish 70307 meduim (blue) paste. 4oz Jar ..... 09-01735.....**$6.95**

JAD HANGAR / FLIGHT LINE CLEANER

JAD Hangar Deck & Flight Line Cleaner (MA-117) is a concentrated liquid compound especially formulated for use in cleaning aircraft carrier flight deck, flight line areas, and hangar floors. Formulated to be used manually or dispensed through automatic scrubbing machines. Creates less of a hazardous - slippery surface as with most hangar floor cleaners. The low foam characteristic makes it a desirable flight deck and flight line cleaning compound.

Normally diluted 1 part cleaner to 1 part water for the first heavy duty scrubbing on heavily soiled surfaces. Dilutes 1 part cleaner to 19 parts water for normal flight deck and flight line cleaning. Specifications: Non-Flammable, Non ODS, Biodegradable, Non-Photochemically Reactive.

5 Gallon ..... P/N 09-03465 ..... **$150.95**
55 Gallon ..... P/N 09-03472 ..... **$772.00**

JAD EQUIPMENT CLEANER & DEGREASER

JAD Equipment Cleaner & Degreaser (MA-404) is a biodegradable, true water-based cleaner, approved for total equipment wash. It comes ready to use and is extremely effective in removing greases, oils, hydraulic fluids and soils from flaps, wheels, wheel wells, and hard to degrease areas. Also excellent for cleaning racks and related components to remove carbon, grease and oil. Special ingredients are designed to clean the new Non-Specular paint system or the Semi-Gloss system. Non-Flammable, Low pH, Non-Carcinogenic, and Ozone Safe.

24 oz. Spray ..... P/N 09-03464 ..... **$16.75**
5 Gallon ..... P/N 09-03463 ..... **$209.95**
55 Gallon ..... P/N 09-03471 ..... **$1,788.00**

JAD ALL PURPOSE CLEANER

JAD All Purpose Cleaner (MA-102) has the ability to remove heavy soils, grease oil, and carbon on Aircraft related surface and will not leave residue. It has been shown to remove fungus growth in hard to reach areas by Spray on Wipe-Off eliminating alcohol (ex. interior walls on aircraft) and rinses easily. Special ingredients are designed to clean the new non specular paint system or the semi-gloss system. Concentrate: Must add water.

Specifications: Biodegradable: Yes, Poly X Wiring: Safe, PH: Below 10.0, Stability: Stable in hard or soft, hot or cold water, Odor: Low-Pleasant, lemon scent, Phosphates: None, Rinsibility: Superior-Streak Free, Cleaning Ability: Excellent.

24 oz. Spray ..... P/N 09-03457 ..... **$14.95**
5 Gallon ..... P/N 09-03456 ..... **$120.95**
55 Gallon ..... P/N 09-03466 ..... **$698.00**

JAD ALL PURPOSE PERFORMANCE CLEANER

JAD All Purpose Performance Cleaner (MA-102PRF) has the ability to remove heavy soils, grease oil, and carbon on Aircraft related surface and will not leave residue. It has been shown to remove fungus growth in hard to reach areas by Spray on Wipe-Off eliminating alcohol (ex. interior walls on aircraft) and rinses easily. Special ingredients are designed to clean the new non specular paint system or the semi-gloss system. Ready-to-use. Specifications: Biodegradable: Yes, Poly X Wiring: Safe

PH: Below 10.0, Stability: Stable in hard or soft, hot or cold water, Odor: Low-Pleasant, lemon scent, Phosphates: None, Rinsibility: Superior-Streak Free, Cleaning Ability: Excellent.

24 oz. Spray ..... P/N 09-03459 ..... **$19.75**
5 Gallon ..... P/N 09-03458 ..... **$209.95**
55 Gallon ..... P/N 09-03467 ..... **$1,772.00**

LOGO DECALS

AUTHENTIC AIRCRAFT LOGO DECALS

Our full line of authentic aircraft logos are produced on state-of-the-art long lasting UV coated pressure sensitive adhesive vinyl. They are precision cut by a specially programmed computer and have no clear background. Other brands of decals can be produced cheaply but the clear background tends to yellow, rendering unsightly over time. With our custom cut decals, only the letters themselves go on the aircraft giving the lettering a truly professional look which will last as long as the aircraft paint. Please order by part number shown. Many other logos and styles are available, as well as other colors. Call for quotation or send $2.00 for our complete logo and decal catalog. For quote on custom logo decals, send sketch and details.

FOR OTHER LOGOS AVAILABLE. Send $$2.90 FOR COMPLETE LOGO AND DECAL CATALOG P/N 09-43736

STARS & BARS

STYLE 1

1943
Between 29 June and 14 August, the official national insignia incorporated white sidebars and an overall red surrounding.

P/N 09-432– –

STYLE 2

1943-1947
The red surround of the official insignia was quickly changed to a *blue surround* During its 4 years use this insignia appeared on more aircraft than all its predecessors combined.

P/N 09-433– –

STYLE 3

1947-Present
With the reorganization of the Defense Department and the creation of the USAF, red bars were added to the official national insignia. A variation of this insignia appears officially without the blue surround on F-15 aircraft.

P/N 09-434– –

STYLE 4A

1917, 1921-1941
Introduced prior to the American entry into World War I and officially adopted after the war.

P/N 09-436--

STYLE 6A

1942-1943
Some aircraft in the European and Mediterranean theaters unofficially incorporated a yellow surround in British style.

P/N 09-439--

All the placards & decals on this page are produced on long lasting UV coated pressure sensitive adhesive vinyl. They are computer cut using no clear background so they won't yellow. These are all top quality decals which will enhance your aircrafts looks for years to come. Do not settle for "cheap" imitations.

12-INCH STENCIL NUMBER STRIP

Highly recommended as the easiest and most effective way to apply painted 12" stenciled "N" numbers on any aircraft. These come pre-spaced and aligned horizontally or vertically and assure a professional looking job. Shipped factory-direct to you within 48 hours. Provide exact "N" number when ordering. Special order - Non-returnable. Please specify horizontal or vertical. 6 Characters on each strip or less. Made of Vinyl.

12" Strip (straight) (right/left).....P/N 09-00287 .... **$56.95 set**
12" Strip (slanted) (right/left).....P/N 09-00288 .... **$56.95 set**

3-INCH STENCIL STRIP

Vertical or horizontal lettering individually spaced and aligned. Advise number. Stencils will be made-to-order and shipped in about two weeks.

Straight Set of 2 (Right/Left).....P/N 09-00289 .... **$13.50 set**
Slanted Set of 2 (Right/Left).....P/N 09-00290 .... **$13.50 set**

INDIVIDUAL FIGURE STENCILS

N4804K N2510T N6979N
N425WT N100MD N51ER

Precut sticky paper masks for spraying registration numbers. Used by Piper and other aircraft manufacturers. Order two of each character for vertical stencils. Slanted stencils are furnished in pairs (R/L), so order one pair of each character. Order by part number. For last digit, put in number or letter needed.

3 Inch Vertical Figures.....P/N 09-3280x ..... **$1.25 Ea**
12 Inch Vertical Figures.....P/N 09-3290x ..... **$6.25 Ea**
12 Inch Slanted Figures.....P/N 09-3300x ..... **$13.50 Pr**

Painting Options: These stencils offer you two methods of spraying lettering incorporated in a single stencil.

You can: (1) Letter after the body color has been applied or
(2) Letter before the body color has been painted. This second method provides recessed, protected lettering and eliminates masking.

LETTERING & NUMBERS

For any use. Available in over 40 type styles. Most colors available.

Cap Size(In.)	In Stock Colors	Slanted or Reversed	Reflective & Metallic

SIGMA-TEK ATTITUDE GYROS (VACUUM)

An air operated instrument which indicates aircraft attitude through 360° in roll & 360° in pitch. The pictorial airplane remains fixed during gyro operation but may be adjusted by the pilot for changing conditions. The upper half of the horizon bar and the mask are light blue color. Sky is blue and ground is brown. Zero pointer and airplane wings" are yellow. Numerals and markings are white on dull black background. Vacuum port and air inlet ports 1/4" NPT. Gauge port 1/8" NPT. Size: 3-3/8"x 3-3/8"x 6-3/8". Wt:1.9lbs. Standard equipment in production Cessna & Piper aircraft. If instrument panel is tilted, special order gyro is required. ***Lighting tray must be purchased to attach to the bezel for lighting.***

RC ALLEN VACUUM HORIZON GYRO

The RCA22 Series of vacuum artificial horizon are controlled by air driven precision gyros to present the pilot with pitch and roll information. The attractive color scheme of blue sky and brown ground presents a realistic spherical display of flight. Unless otherwise indicated all instruments have a dark blue/brown display, fixed pointer and are unlighted. This is the "standard" display. Instruments equipped with a warning flag will let you know when vacuum has dropped below 3.8 inch Hg. Flag retracts from view at 4.3 inch. Hg. Instrument fits in a standard 3 1/8" panel cutout. ***Meets of exceeds all requirements of FAA TSO C4c and Aeronautical Standard AS396B.***

RCA 2600 SERIES DIGITAL ATTITUDE GYROS

RCA 2600-3

RCA 2600-2

Fully adjustable LCD screen is bright and highly visible. There are two models to choose from; The RC 2600-2, which is a 2 inch instrument and the RCA 2600-3, which is a 3 inch instrument. Same size as traditional horizons and can be easily installed in a standard panel cutout. FAA TSO-C4c certified and is designed to be a direct replacement for any Electric Attitude indicator. Totally electronic and contains no mechanical gyro. These light weight instruments are ideal for light sport and home built applications. The precision and stability qualities of these instruments also make them suitable for larger aviation applications such as business aircraft and rotorcraft. The RCA 2600 is capable of aerobatic type maneuvers with a full 360 degrees of pitch and roll without the typical "tumbling" of mechanical gyros and without any harm to the instrument. Similar to our RCA 26EK Series horizon gyro and RCA 15EK Series Directional gyro, the RCA 2600 Series instrument is multi-volt and can be installed in either a 14 volt or 28 volt aircraft. The unit is self-contained and installs just like a standard horizon.

RCA2600-2 (2 Inch Gyro) ..... P/N 11-07324 .... **$2,596.00**
RCA2600-2 with 8° tilt ..... P/N 11-09199 .... **$2,573.00**
RCA2600-3 (3 Inch Gyro) ..... P/N 11-07325 .... **$2,595.00**
RCA2600-3 with 8° tilt ..... P/N 11-08142 .... **$2,635.00**
2600 Inclinometer Option ..... P/N 10-03862 ..... **$147.50**

RC ALLEN ESP BATTERY BACKUP

A battery-based emergency power unit designed to give you at least an hour of auxiliary power when you need it the most. Paired with the new RCA 2600 Digital Horizon, the ESP can provide up to 6 hours of backup power. The ESP can be easily mounted behind the instrument panel and can power your new R.C. Allen instrument, or retrofit your existing Attitude gyro in an emergency. Comes complete with a wire harness and panel-mounted status light. Recharges itself during flight and does not drain the aircraft battery when aircraft power is off.FAA TSO-C179

14V ..... P/N 10-04171 ..... **$625.00**
28V ..... P/N 10-04525 ..... **$625.00**

SIGMA-TEK DIRECTIONAL GYRO VERTICAL CARD (VACUUM)

Sigma Tek's Attitude Gyros are selected as standard equipment by aircraft and autopilot manufacturers worldwide. They are the recognized industry leaders, offering features and options that improve safety and enhance pilot convenience. The unique warning flag and cageable options are significant features extremely useful upgrades for owners of light general aviation aircraft. The warning flag model instantly alerts the pilot to a loss of pneumatic power, especially important during busy operations when panel scanning is focused on the attitude gyro. The unique cageable attitude provides for quick erection and display alignment; a high priority for aerobatic aircraft owners and for aircraft operations that require short stops. Sigma Tek's highly reliable and proven attitude gyros are available with electrical pitch and roll outputs for autopilot and other stabilization applications. ARINC style bezel, display graphics, colors, inclinometer, internal lighting, and various panel tilts are all available options. Sigma Tek Gyros can be customized for compatibility with any instrument panel.

An air operated instrument which indicates compass headings through 360 degrees. The gyro is functional during dives, climbs or banks up to 55 degrees displacement from level flight. Dial has matte white numerals and markings on a dull black background. Vacuum port and air inlet ports 1/4" NPT. Gauge port 1/8" NPT. Size: 3-1/4" x 3-1/4" x 6-1/2. Wt. 2.6 lbs. Standard equipment in production Cessna and Piper aircraft. New manufacture.

* All lighted units must purchase light tray separately.

INSIGHT GYRO 4000

Replace Troublesome Learjet DN-101 or DN-104 Gyros with Dependable 10,000 Hour Sperry/Honeywell Gyros The Insight Gyro 4000 is based on the best heading system in the industry, the Sperry/Honeywell C-14A. The C-14A rotors are equipped with long life ceramic bearings rated for 10,000 hours. Combining the C-14A with special interface circuitry in a compatible package, the Gyro 4000 is a plug-in replacement for the old JET DN-101 or DN-104. STC'd for Learjet: 23, 24, 25, 28, 29, 31, 35 and 55 DN-101,104 equipped Learjets as a direct replacement.

P/N 11-05199 .....**$8,893.00**

RC ALLEN DIRECTIONAL GYROS VERTICAL CARD (VACUUM)

RCA11A-8

RCA11A-15

The RCA-11A series of vacuum directional gyros utilize and air driven precision gyro that controls a vertical rotating azimuth gimbal. The R.C. Allen Model RCA11A has been designed to provide a long life of accurate operation even when subjected to severe operating requirements. This instrument is engineered with a minimum of machined parts, providing lower initial cost and lower maintenance cost through its lifetime.

The RCA11A is non-tumbling within ±85° limits in pitch and roll and can be easily installed in any 3 1/8" panel cut out. Full freedom design allows accurate indication, even after extreme maneuvers. Stainless steel is used at wear points, with aluminum investment and die casting.

A knob is provided to reset the gyro, when compared to the magnetic compass. the RCA11A-8 features the "standard" display.

Meets of exceeds all requirements of FAA TSO C5c and Aeronautical Standard AS397.

Dimensions: Length: 6.7" Height: 3.4" Width: 3.4" Weight: 2.3 Pounds

RC ALLEN DIRECTIONAL GYROS (ELECTRIC)

Pictured is RCA15AK-1

The RCA15 Series electric directional gyro employs and electrically driven gyro motor and is a direct reading, azimuth indicator. Rotor run up time is 3 min. They have a built in inverter which converts aircraft DC power to the required AC voltage and frequency. May be used in both fixed wing and rotor wing aircraft and is easily installed in standard 3 1/8" panel cut out. Power failure flag drops into view when supply voltage is lost or has dropped below a level for proper operation of the gyro. Azimuth indication range 360°. Altitude operation -1,000 to 40,000 feet. Internal 3 phase inverter prodeces high starting torque and increases gyro roto speed. Internal lighting provides even light distribution at any intensity level. calibrated to an accuracy of 3° maximum drift error after 10 minutes of ±1.5° scorsby motion.

Electrical Requirements:
Starting Current @ 14 VDC: 2.4A Max
Running Current @ 14 VDC: 1.2A
Starting Current @ 28 VDC:; 1.4A Max
Running Current @28 VDC .6A
Reccomended Circuit Breaker 3A
Dimensions:Length: 6.7" Width; 3.4" Height: 3.4" Weight; 2.3 pounds
Meets of exceeds all requirements of FAA TSO C5c and Aeronautical Standard AS397.

GYROS

MID-CONTINENT INSTRUMENTS ELECTRIC ATTITUDE INDICATOR

Engineered as a primary or standby artificial horizon in fixed-wing aircraft and helicopters, this indicator's single connection makes installation a snap. This indicator is standard equipment on many OEM aircraft including the Beech Baron and Bonanza. Featuring 10-32 volt DC operation, antireflective glass, long-life lighting and 7,500 hours MTBF, this is a cost-effective and safe alternative to unreliable vacuum systems.

4300-311 - 10/32V, lighted, 0-20° Without btty

Mating Connector MS3116F8-4S.....P/N 10-00791 .....**$24.95**

MID-CONTINENT INSTRUMENTS "LIFESAVER" ELECTRIC ATTITUDE INDICATOR

Fly with confidence and peace of mind with the Lifesaver® gyro. Even if every other system in your aircraft's avionics panel goes dark, the Lifesaver powers on. The only attitude indicator with a self-contained battery backup, it delivers one full hour of emergency attitude reference. 1 hr of precious time to pull you through when trouble strikes and all other power fails. Optional sli p indicator can be installed anytime. No removal of gyro necessary.

Benefits: Field replaceable lighting, Anti-reflective glass enhances visibility and reduces fatigue, Battery life 3 years in average aircraft environment, 10-32 VDC replacement for use in either 14 or 28V aircraft, May be installed in place of an existing turn coordinator or turn, and slip indicator per FAA advisory circular AC91-75.

14V Gyro With Battery.....P/N 10-00750 .....**$4,075.00**
Slip Indicator.....P/N 10-00764 .....**$223.95**
Remote Battery Mounting Kit .....P/N 10-00763 .....**$241.95**

1/2" Front Mount Adapter .....P/N 10-00766 .....**$151.00**

FALCON ATTITUDE GYRO (VACUUM)

This Gyro Horizon is controlled by an air driven precision gyroscope to present the pilot with pitch and roll information, through the full 360° "pictorial" presentation leads to faster interpretation of airplane attitude. A zero pitch adjustment knob is provided. Dims: 3-1/8 x 3-1/8 x 8 max. Similar to Air Italia Gyros. Non-TSO'd for Experimental Aircraft Only.....P/N 10-22955 .....**$577.00**
Gyro with 8° tilt.....P/N 10-02242 .....**$671.00**

FALCON ATTITUDE GYRO (ELECTRIC)

This factory new electric attitude gyro fits the standard gyro instrument cut-out. Features push-to-cage knob, low power/power failure flag, longer life & reliability due to lower operating temp.; Black case, black adjustment knob, & bright yellow/green airplane marker with sky blue/brown ground dial. Roll & loop without worry. Size: 6.4", Wt: 2.4 lbs., Power: 14VDC req. MS3116E8 connector (included). Non-TSO'd for Experimental Aircraft Only.

Size	Model No.	Description	Part No.	Price
3-1/8"	GH02E-3	Artificial horizon, 14V	10-04671	**$1,525.00**

3-1/8"	GH02E-3B	Artificial horizon, 28V	10-00102	**$1,598.00**
3-1/8"	GH02E-3BL	Artificial horizon, 28V, lighted	10-00103	**$1,733.00**
4 Pin	MS3116E8-4S	Connector for electrial gyro	10-00791	**$24.95**

FALCON DIRECTIONAL GYRO (VACUUM)

The vertical rotating azimuth card is controlled by a precision gyroscope air-driven. The directional gyro will give correct heading information through ±60° of aircraft attitude in roll and pitch, 360° in yaw. A caging knob is provided to reset the gyro to the magnetic compass. Similar to Air Italia Gyros. Non-TSO'd for Experimental Aircraft Only.
P/N 10-22950 ..... **$576.00**

FALCON DIRECTIONAL GYRO (ELECTRIC)

The Directional Gyro is a gyroscopic navigation instrument designed to provide the pilot with a constant directional reference that is not subject to characteristics of a magnetic compass that cause errors. The vacuum type is operated by the air flow generated by the aircraft's vacuum system while the electrical type is operated by the aircraft's power supply. Non-TSO'd for Experimental Aircraft Only.

Size	Model No.	Description	Part No.	Price
3-1/8"	DG02E-3H	14V with heading indicator	10-01798	**$1,519.00**
3-1/8"	DG02E-3HL	14V, lighted, with heading indicator	10-01796	**$1,549.00**
3-1/8"	DG02E-3BH	28V with heading indicator	10-01799	**$1,578.00**
3-1/8"	DG02E-3BHL	28V, lighted, with heading indicator	10-01822	**$1,526.00**

Falcon gyros can tolerated some aerobatic flight, but aerobatics can reduce the life of the gyro. It is recommended that the gyros be rem oved when the aircraft will be performing extensive aerobatic maneuvers. The Falcon electric gyros have caging knobs, but the vacuum gyros do not.

CASTLEBERRY ELECTRIC ATTITUDE INDICATOR

The high quality electric attitude indicator replaces the turn and bank and may be installed in the same panel location, freeing up crowded panel space. Installation of these units is straight-forward. It has an inclinometer for use in standard rate turns and a failure warning flag to indicate loss of gyro RPM. When used together with the Castleberry Emergency Power Unit, Model EPU 28-24RMT, this instrument provides the pilot with a welcome margin of insurance in case of aircraft electrical power failure. ***Features:*** • Inclinometer • Power failure flag • Pull to cage knob • Backlit • Standard 3 1/8 in. diameter

GYROS – STANDBY VACUUM SYSTEMS

MID-CONTINENT INSTRUMENTS MINI 2-INCH ATTITUDE INDICATORS

The Mini Gyro offers big features in a compact package. At half the cost of the competition, the Mini Gyro not only saves panel space, but also time and money. An ideal standby instrument, this TSO-approved indicator has 10-32 volt DC operation and is an attractive alternative to vacuum systems. It features unique LED lighting selectable to 5, 14 or 28 volts. Remote emergency power supply available for this indicator (P/N 11-05540).

Standard airplane dislplay ..... P/N 10-01721 ..... **$3,395.00**
Delta airplane display ..... P/N 10-01722 ..... **$3,395.00**
Slip indicator (inclinometer) ..... P/N 10-04775 ..... **$218.95**
Emergency Power Supply ..... P/N 11-05540 ..... **$2,075.00**

VOLT & VAC ALERT

A gyro instrument can start giving false information in less than one minute, and it is important that the pilot become instantly aware of a vacuum loss. The Volt & Vac Alert monitors instrument vacuum and electrical voltage. Should either fall below set values, the system will provide an instantly recognizable voice warning directly in the pilots headset, and then flash a light positioned within the normal gyro scan area, providing him with instant recognition of a problem. The Volt & Vac Alert is STC - PMA approved P/N 10-00393 ..... **$479.95**

RAPCO STANDBY PNEUMATIC CLUTCH REPLACEMENTS

400 Series replacement clutches for Rapco standby pneumatic systems are available in 12 volt or 24 volt. They can be purchased either new or as an overhauled exchange. A core charge will be added to the purchase price of exchange units and refunded with the return of a repairable 400 series core.

Description	Description	Price
400 NEW clutch, 12V	10-02656	**$766.00**
400 EXC Clutch, 12V Remanufactured exchange	10-23949	**$428.95**

VACUUM PRESSURE WARNING LIGHT KIT

The instrument Source Warning indicator for Pressure systems is designed to alert pilots of the loss of pressure prior to the gyros tumbling. This early warning can be critical in giving the pilot enough time to react to the situation properly and avoid spatial disorientation.
The kit connects to the pressure gauge via a tee fitting and will only work on aircraft equipped with PRESSURE systems. This generally is confined to various Beech Bonanza models. Please double check your system type before ordering this kit. This kit is not STC'd but is usually installed as a minor modification. P/N 11-08458 ..... **$79.95**

VACUUM WARNING INDICATOR

The Precise Flight Vacuum Warning Indicator will provide the pilot with immediate warning of failure of the vacuum system, providing valuable time prior to gyro failure. An inexpensive system that can alert the IFR pilot immediately in the event of vacuum failure.

P/N 11-02205 ..... **$79.95**

VENTURI

2" VENTURI - This small aluminum venturi provides 2" Hg vacuum for operating turn/bank indicator. Has 1/8" NPT port. Use 1/4" tubing for hookup. Wt. 3.5 oz.

P/N 15045 ..... **$47.50**

4" VENTURI - This venturi develops 4" Hg suction from double-throat venturi and 10" long horn. Used to operate a directional gyro or gyro horizon. When operating a directional gyro there is sufficient capacity to also operate a turn/bank. All aluminum construction. May require a suction regulator.

Wt. 0.9 lb. ..... P/N 15050 ..... **$66.85**

9" VENTURI - This "super venturi" is similar in appearance to the 4" venturi but with redesigned air passages and a recontoured, long (11-1/4") horn. It pulls enough vacuum to operate a gyro horizon, directional gyro and a turn/bank. Must be used with a suction regulator.

P/N15052 ..... **$69.75**

SIGMA TEK CAGEABLE ATTITUDE GYROS

Short stops (engine off less than twelve minutes) and some aerobatic maneuvers may cause your attitude gyro to tumble or precess from its vertical reference. When the rotor is spinning, the gyros normal erection system is slow and can take several minutes to correct a large erection error. This non-locking caging feature allows the pilot to quickly align the gyro display and rotor to gyro case reference. The attitude gyro should only be caged for quick alignment during straight and level VFR flight using well defined earth horizon for reference or prior to take off. ***All lighted gyros must order tray separately.***

P/N	DESCRIPTION	PRICE

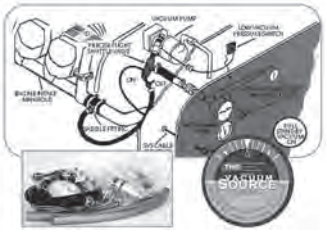
VAC-2 VACUUM PUMP ADAPTER

The revolutionary VAC-2 adapter provides a direct replacement for the Lycoming vacuum pump pad adapter casting. The VAC-2 design provides a standard vacuum pump pad with provision for inverted oil pick-ups. Normally there is a T fitting mounted on the firewall that supplies the inverted oil. For many engines when this T fitting is used, the oil pressure will drop down into the yellow on the oil pressure gauge for three to five seconds when inverted. On some aircraft this drop in oil pressure will cause the prop to cycle because of lack of oil pressure. With the VAC-2 adapter installed you do not have this drop in oil pressure. By using the VAC-2 adapter you have (1) the best inverted oil pickup, (2) a stock vacuum pump pad adapter. Used in place of Christen "T" fitting.

The VAC-2 comes complete with oil seal installed, gaskets. and MS 20822-10D fitting. Just slip vacuum pump gear assembly and washer into VAC-2 and install on engine. The standard Lycoming vacuum pump gear assembly and washer will fit into the B & C adapter. (Gear and washer shown are not included.)

VAC-2-4 for 4 Cylinder Engines ..... P/N 07-06790 ..... **$185.00**
VAC-2-6 for 6 Cylinder Engines ..... P/N 07-06795 ..... **$185.00**

STANDBY VACUUM SYSTEM SVS V



Manufactured by Precise Flight, Inc., this Standby Vacuum System, SVS V, is a new solution to the old problem of in-flight vacuum pump failures. It operates on a differential between manifold pressure and ambient pressure which is directed through a shuttle valve system to drive the flight instruments. When the vacuum pump fails, the pilot simply turns on the SVS system and adjusts engine power settings while observing the instrument suction gauge to obtain adequate differential to operate the instruments. Kit includes low vacuum light and installs in 2-4 hours. STCd for most aircraft. This kit can provide peace of mind on all flights and, if that pump ever fails, can be a real life saver. P/N 10-00400 ..... **$485.00**

AERO SAFE GUARDIAN I STANDBY VACUUM/PRESSURE SYSTEMS

The Aero Safe Guardian I Standby/ Pressure system is designed to provide the pilot with the most reliable standby source of instrument air available for single engine aircraft. STC'd for most Bellanca, Beech, Cessna, and Piper single engine aircraft. Specify aircraft make, model, year, and serial number when ordering.

Vacuum system ..... P/N 10-00267 ..... **$2,033.00**
Pressure system ..... P/N 10-00268 ..... **$2,159.00**

IN

TURN COORDINATORS – TURN & BANKS

RCA TURN COORDINATOR 3 INCH. INDICATORS

Used in many production aircraft. Incorporates an electrical Gyro Turn Indicator with an inclinometer. The inclinometer, by movement of a ball in relation to the lubber lines, indicates the slip angle of aircraft while in a turn. The airplane on the dial rotates with reference to the indices. A power failure flag drops into view whenever the supply voltage is lost or when voltage has dropped below a level acceptable for proper operation of the gyro. Operates on 14 to 28V DC. New manufacture. First installation requires electrical connector and clamp. ***DIMENSIONS:*** Length: 6 1/5 in. Max, Width: 3 3/8 in Max, Height:3 3/8 in Max, Weight: 1.9 lbs. Meets or exceeds requirements of FAA TSO C3b

MID-CONTINENT INSTRUMENTS TURN COORDINATOR (ELECTRIC)

Engineered for a long service life, the new "B" model turn coordinator features a proven AC rotor powered by a solid-state inverter. This creates less heat behind the panel. By utilizing a brushless rotor design, this instrument has one of the top ratings in the industry – 4800 hours MTBF. A direct replacement for most 3-pin turn coordinators, it is perfect for use in high-performance aircraft and cold-climate applications. The well-known "Z" models are an industry standard. Value priced and reliable they are in more aircraft than any other brand. All 3-inch turn coordinators operate from 10 to 32 volts DC for convenience and reliability.

MS3057-4A Cable Clamp..... P/N 10-00959 ..... **$4.60**
Note: 3A & 8A models have brushless rotors to reduce air noise

MID-CONTINENT INSTRUMENTS TURN COORDINATORS (ELECTRIC) - B MODELS

Certified to FAA TSO C3b. OEM standard - proven reliablity. Includes power warning indicator. Features: •4500 hours MTBF, more than double the original "Z" design• Brushless AC rotor operates on 14 or 28 VDC. •Proven reliability through HALT (Highly Accelerated Life Testing) requirements and OEM usage since 1999.• Improved "Off" warning flag pulls out of view when rotor is up to speed. • Is a direct replacement for the popular 1394T100-7Z and most standard 3-pin turn coordinators.

WINTER SLIP INDICATORS

The basic flight instrument for co-ordinated turns. Available in two styles: Rectangular model fits easily in cramped panel space. Square model matches a 2-1/4" instrument hole, fits on either side of the panel. Both feature finely crafted metal cases and precision ball and tube assemblies.

Square ..... P/N 10-03812 ..... **$89.95**
Rectangle ..... P/N 10-03857 ..... **$89.50**

BANK INDICATORS (BALL TYPE)

In turning, instantly register slightest departure from the correct banking angle. Bank scale has white markings on black background. New manufacture. Available in 2 models:

10°-10° Scale, 2.25" between mounting holes.P/N 10-00600 ... **$103.95**
20° - 20° Scale, 5" between mounting holes... P/N 10-00700 ..... **$62.75**

MID-CONTINENT INSTRUMENTS TURN & SLIP (ELECTRIC)

Built-in voltage regulator allows it to be used in either 14V or 28V systems. Small, compact unit and weighs only 1.2 lbs. Incorporates a small "power out" warning window which is black when normal current is being supplied but turns red in the case of electrical power failure. This turn and bank is now being used in many production aircraft. New installation requires electrical connector and cable clamp. New manufacture by Electrical Gyro Corp. Size: 3-3/8" x 3-3/8" x 3-3/4" long.

Unlighted ..... P/N 1234T100 ..... **$979.00**
14V Bezel-Lit..... P/N 10-22614 ..... **$1,183.00**
28V Bezel-Lit..... P/N 10-22628 ..... **$1,183.00**
MS3106A-10SL-3S Electrical Plug Connector..... **$13.95**
MS3057-4A Cable Clamp **$4.60**

FALCON TURN & BANK(ELECTRIC)

The unit is an electrically-driven gyroscope. The inclinometer, by movement of a ball in relation to the lubber lines, indicates the slip angle of the aircraft while in a turn. A power flag drops into view whenever the voltage drops below a level which is required for proper operation of the gyro. It incorporates a built-in voltage regulator so it can be used with either 14VDC or 28VDC power supply system. It has a DC-AC-DC converter. Power Supply: 10-30VDC, Electrical Consumption: Max. 1.0A at 11-26VDC Max. 0.35A at 26 to 30VDC, Operating Range: 2 min. Turn, Weight: 18 oz./0.5 kg, Length: approx. 5 inchesUnlit..... P/N 10-22515 ..... **$1,059.00**

RCA TURN & BANK (ELECTRIC)

instrument is powered by an electrically driven DC precision gyro with an inclinometer. It gives the pilot turn and bank information. The RCA56 series is an all volt instrument, with a power warning flag, a black or white ball inclinometer and either lighted or non-lighted. DIMENSIONS: Length: 6 1/4 in. Max Width: 3 3/8 in. Max Height: 3 3/8 in. Max Weight: 1.9 lbs.

Meets or exceeds requirements of FAA TSO C3bNew manufacture by A.I.D. RC Allen. New installation requires plug connector & cable clamp.

RCA56-3B, UNLIT..... P/N 10-01684 ..... **$899.00**
RCA56-3BL, LIT..... P/N 10-02138 ..... **$876.00**

Plug Connector..... P/N MS3106A-10SL-3S$..... **$13.95**
Cable Clamp..... P/N MS3057-4A..... **$4.60**

AN5820-1 TURN & BANK (VACUUM)

AN5820-1 Turn & Bank indicator completely overhauled and certified to FAA requirements. Fresh matte-white dial markings with "doghouses". Power: 1.8" to 2.2" Hg vacuum produced by a 2" venturi or vacuum pump. Size: 3.25"x 3.25"x 4.75" long. Weight: 1.5 lbs. 1 year warranty.P/N AN5820-1 ..... **$526.00**

TURN & BANK KIT

Consists of an overhauled and certified Turn & Bank indicator, 2" venturi, hoses, fittings and instrument screws.

P/N 10-00300 ..... **$593.00**

MID-CONTINENT INSTRUMENTS TURN & SLIP INDICATOR, 2-INCH

Widely used in the turbo-prop market as standard equipment, this dependable instrument fits into the tightest panel space. The AC brushless rotor offers great reliability. Internal lighting options of 5, 14 and 28 volt offer greater flexibility. These were factory installed on the DeHavilland Dash 8 and Boeing Chinook CH47

14V Turn & Slip ..... P/N 10-00305..... **$1,858.00**
28V Turn & Slip ..... P/N 10-00310..... **$1,858.00**

TEMPEST DRY AIR PUMPS

TEMPEST TORNADO 3000 DRY AIR PUMPS

New revolutionary LRT oil drain, patent pending feature is designed to drain oil, caused by a leaking Garlock Seal, before it reaches the drive coupler. Provides a tell tale leak path. Closed front ends, designed to eliminate oil and oil residues from entering into the pump. Helps prevent pump failures caused by oil entering into the drive mechanism or rotor and vanes. 3 year 1300 hour warranty

TEMPEST VACUUM PUMP COOLING SHROUDS

Cooling shrouds have been proven to reduce pump operating temperature and therefore extend service life. Testing has proven reduction in operating temperature by as much as 15%. Saves money - extends service life of dry air pumps. AA20T fits all 200/240 series pumps. AA40T fits all 400 series pumps. Sigma - Tek® pumps are not eligible.

AA207.....P/N 10-02796 ..... **$57.50**
AA40T .....P/N 10-02797 ..... **$59.90**

TEMPEST HOMEBUILT VACUUM SYSTEM KITS

Kit includeds •Vacuum Pump •Vacuum Regulator •Vacuum Gauge •Gyro Filter Asssembly •6-5/8 Hose & Clamps •6-3/8 Hose & Clamps •4-1/4 Hose & Clamps •Pump Inlet & Outlet Fittings •Gyro Inlet Fittings •Gyro Outlet Fittings •Gyro to Vacuum Gauge Fitting •Installation Instructions

VACUUM PUMP APPLICATION

See www.aircraftspruce.com for complete listing of vacuum pump applications for most general aviation aircraft.

TEMPEST WEAR INDICATOR TOOL KIT

Tempest Wear Indicator Tool Kit. Kit includes: 3 Star Lockwashers (82-50122-2A2), 3 Hole Plugs (82-50122-2A1), 1 WIP Tool (82-501222A6T) P/N 10-04814.....**$38.75**

TEMPEST ELECTRIC AUX. DRY AIR PUMPS

Electric auxiliary dry air pumps are recommended for single engine aircraft flown in IFR conditions as a back-up in the event the primary vacuum pump fails. These pumps are FAA-PMA approved as direct replacements for Airborne pumps previously installed under STC eligibility and STC approval for these pumps for many additional aircraft is pending.

28VEC..... Electric Auxiliary Dry Air Pump Model AA4A2-1 ..... P/N 10-00585.....**$1,438.00**
14VEC..... Electric Auxiliary Dry Air Pump Model AA4A3-1 ..... P/N 10-00584.....**$1,644.00**

TEMPEST DRY AIR PUMPS

Tempest dry air pumps, from Aero Accessories, are 100% new production and use all new components. They are FAA-PMA approved replacements for like and similar models on many installations. These pumps are available in the 200, 240, and 400 series.

The AA215CC series come with a 1-year, unlimited hour warranty and the AA241CC, AA242CW, and the AA441CC and AA442CW series come with a 1-year, 500 hour warranty. Warranties expire 2-years from date of manufacture. **$100.00 Core Charge applied to Overhauled Pumps**

Core Rebate available for new pumps.

VACUUM PUMP FITTINGS – VACUUM PUMPS

RAPCO FAA APPROVED FITTINGS

RA1K1-6-10 - This 90° fitting with 5/8" hose and 3/8" NPT is used in most inlet threaded ports of 200 series vacuum pumps and is a FAA PMA direct replacement for the Airborne Model 1K1-6-10. This 90° fitting has superior flow and low pressure loss.
P/N 10-00395 ..... **$30.75**

RA1K8-6-10 - This 152° fitting with 5/8" hose and 3/8" NPT is used in most outlet threaded ports of 200 series vacuum pumps and is a FAA PMA direct replacement for the Airborne. P/N 10-00396 ..... **$38.75**

RA1K31-4-6-4 - This 3/8" and 1/4" hose, 1/4" NPT, "T" fitting is used in most threaded ports of the flight instruments and is a FAA PMA direct replacement for the Airborne Model 1K31-4-6-4. P/N 10-00397 ..... **$24.75**

RA1K10-4-6 - This 3/8" hose, and 1/4" NPT fitting is used in most inlet threaded ports of the flight instruments and is a direct replacement for the Airborne Model 1K10-4-6. .....
P/N 10-00398 ..... **$14.75**

RA1K10-6-10 - This fitting with 5/8" hose and 3/8" NPT is used in most inlet and outlet threaded ports of the 200 series vacuum pump. The fitting is 5/8" hose with 3/8" NPT threads. The Rapco, Inc. fitting is a FAA PMA direct replacement for the Airborne Model 1K10-6-10.. P/N 10-01849 ..... **$27.75**

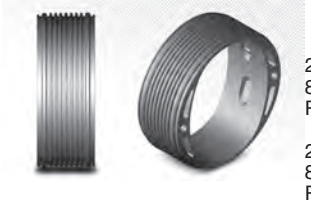
RA1K1-4-6 - This 90° fitting with 3/8 hose, 1/4" NPT is used in most threaded ports of the flight instruments and is a FAA PMA direct replacement for the airborne. P/N 10-01130 ..... **$30.75**

RAPCO RA-1H5-1 MANIFOLD CHECK VALVE

This valve is used in many Multi-Engine General Aviation applications. The Rapco, Inc. FAA PMA Multi-Engine manifold check valve is a direct replacement for the Airborne Model 1H5-1.
P/N 10-01131 ..... **$737.00**

AIRBORNE VACUUM PUMP REPAIR KITS

Basic Kits – These FAA/PMA kits include rotor, vanes,gasket, and drive coupling.
For Airborne 211/212 Pumps
P/N 10-00901 ..... **$98.50**
For Airborne 200 cc/cw Pumps
P/N 10-00902 ..... **$99.85**
For Airborne 241/242 Pumps ..... P/N 10-00903 ..... **$85.95**
For Airborne 441/442 Pumps ..... P/N 10-01001 ..... **$147.95**
Deluxe Kits – These FAA/PMA kits include rotor, coupler, external spline, bushing, blades, nut, cushion washer and band gaskets. Washer and gaskets not included on 200CC kits. Installation instructions included.For Airborne 211/212 pumps ..... P/N 10-01901 ..... **$143.95**
For Airborne 241/242 pumps ..... P/N 10-01903 ..... **$187.95**
For Airborne 441/442 pumps ..... P/N 10-01904 ..... **$187.95**



PUMP STATOR HOUSINGS

215/216 Pump Stator Housing
82-50122A
P/N 10-00919 ..... **$80.75**
$15.00 Core Charge
241/242 Pump Stator Housing

P/N 10-00920 ..... **$108.95**
$35.00 Core Charge
441/442 Pump Stator Housing 82-50122-2
P/N 10-00921 ..... **$256.95**
$15.00 Core Charge

RAPCO VACUUM SYSTEM KIT

This Vacuum System Kit is ideal for use on experimental aircraft, allowing the kit builder to obtain all of the necessary components of their vacuum system in one convenient kit. The price of this kit reflects a substantial discount over the individual prices of the components if purchased separately.
This Kit Includes:

- 1 RA215CC Vacuum Pump w/Gasket
- 1 RA2H3-12 Vac. Regulator w/Garter Filter
- 1 RA-IJ7-1 FilterAssembly
- 1 RA1K1-6-10 90° 5/8" Fitting
- 1 RA1K8-6-10 152° 5/8" Fitting
- 2 RA1K31-4-6-4 3/8" and 1/4" T-Fitting
- 2 RA1K10-4-6 3/8" Fitting
- 1 - 5/8" x 3' Hose
- 1 - 3/8" x 5' Hose
- 1 - 1/4" x 6' Hose
- 10 - #8 Hose Clamps
- 4 - #4 Hose Clamps
- 1 Installation Diagram
- 1 Suction Gauge

Kit with RAP215CC Pump - For engines with ***COUNTER CLOCKWISE*** turning accessory drives. ..... P/N 11-00099 ..... **$698.00**

Kit with RAP216CW Pump - For engines with ***CLOCKWISE*** turning accessory drives..... P/N 06-00635 ..... **$698.00**

Kit Without Pump..... P/N 10-02010 ..... **$527.00**

AIRWOLF VACUUM REGULATOR & FIREWALL ADAPTER

Fully adjustable, cleanable, and rebuildable. (2) 1/2" NPT ports make it fully adaptable to all aircraft.
Vacuum Regulator/Firewall Adapter..... P/N 10-00769 ..... **$385.00**
Adapter, 5/8" x 1/2" hose..... P/N 10-00770 ..... **$95.00**
Adapter, 5/8" x (2) 1/2" hoses ..... P/N 10-00771 ..... **$95.00**
Adapter, 5/8" x (2) 3/8" hoses ..... P/N 10-00772 ..... **$95.00**

GARWIN / PESCO REMANUFACTURED WET PUMPS

Our supplier remanufactures run-out Pesco and Garwin wet pumps to factory specifications. FAA Approved.

Note: Pump Drive is included.

Pesco 194 pump ..... P/N 10-00028 ..... **$474.00**
Pesco 207 pump ..... P/N 10-00029 ..... **$579.00**
Garwin G455 pump ..... P/N 10-00027 ..... **$479.00**
Garwin G450 pump ..... P/N 10-00026 ..... **$479.00**
Add $125.00 core charge to purchase price. Like cores in repairable condition may be returned to Aircraft Spruce West for full core credit. Return cores via UPS and reference invoice number.

AIRWOLF 3P194-AFC WET VACUUM PUMP

The Airwolf 3P194-F pump incorporates new manufacturing techniques, employs superior bearings to those found in dry pumps, an dis machine to extremely tight tolerances. Replaces all 211/212, 215/216, 242/244 Series Airborne / Champion / Rapco / Tempest / Dry Vacuum Pumps, Pesco 3P194-F Garwin G-455 Wet Vacuum Pumps & Sigma Tek 1U128-006 Dry Vacuum Pumps, regardless of direction of pump rotation. This pump works on ALL aircraft that do not have deice boots. Comes with a 2,000 hr, 10 year warranty Airwolf Factory Warranty. **$100.00** Core charge applies. P/N 10-00707 ..... **$1,599.00**

IN

VACUUM PUMPS

RAPCO DRY AIR PUMPS - VACUUM / PRESSURE

RAPCO FAA approved quality dry air pumps are available in brand new replacement models or overhauled. All are backed by warranty.

BRAND NEW RAPCO DRY AIR PUMPS are FAA-PMA approved and come with an inspection port to help determine replacement time. An exclusive internal shaft seal helps to keep out destructive oil and solvents. Mounting gasket included. Warranty period for 200 series is three year 1300 hours, 240 and 400 series is 1 year 500 hours, whichever comes first. No core charge on new pumps. Core rebate available.

Add Core Charge to purchase price of Overhauled models. 200 Series **$100.00**, 400 Series **$200.00** To receive core credit return repairable Rapco or Airborne aluminum cores to Aircraft Spruce West via UPS and reference invoice number.

RAPCO VACUUM PUMP REMOVAL & INSTALLATION TOOL

The RA716 Pump Wrench provides superior access to the vacuum pump flange nuts. This new tool is made from quality hardened steel with corrosion resistant nickel plating. The shank is shaped to provide easy access to tight areas between the pump and accessories. The open end head is laser cut providing a close tolerance fit on the nut. Plastic coating on the handle provides a firm grip. P/N 10-13911 **$22.75**

SIGMA-TEK DRY AIR PUMP

The Sigma-Tek 1U128-006 is a pump which carries a warranty for 2-years or 1000 hours. It uses an aluminum rotor and rotor housing, making the pump very resistant to damage from ingestion of foreign objects, excessive loads or engine oil. It provides clean, dry air for operation of air driven instruments in aircraft operating at medium altitudes. Pump rotates clockwise or counterclockwise in vacuum or pressure mode. May be mounted in either a vertical or horizontal position. FAA approved as a direct replacement for all instrument pumps but is not intended for supplying air to deicing boots. Mounting gasket furnished. Install suction regulator in line to instruments. Delivers 6 In. Hg vacuum (2.9-8.5 minimum CEM) or 6 In. Hg pressure (3.7-8.5 minimum CEM) from 1500 to 4000 RPM. No core charge. P/N 10-02778 ..... **$539.00**

SIGMA-TEK AEON DRY PISTON AIR PUMP

The Sigma Tek 1U478-003 piston air pump's unique design features give virtually maintenance free operation with unprecedented long life and is backed by a full 5 year/2,000 hours warranty. Will replace 200 series and 1U128 series instrument vacuum pumps. Contains no brittle carbon rotor and vanes to shatter, making this pump highly resistant to damage from foreign objects or excessive loading. This pump operates either clockwise or counterclockwise engine pad rotation in the vacuum or pressure mode. Each port is clearly marked. May be mounted in any orientation. Mounting gasket furnished. Sigma Tek recommends using our high flow fittings, always use P/N 58B423-003 (90 degree long) and 58B423-004 (90 degree short) fittings where applicable. FAA-PMA approved.

PN 10-01133 ..... **$725.00**

AAA REMANUFACTURED DRY AIR PUMP

Arizona Aircraft Accessories is an FAA Approved overhaul facility which remanufactures run-out Airborne vacuum pumps to factory specifications. Warranty on 211/212 series pumps is 1-year/1000 hours and on 240/440 series pumps warranty is 1-year/400 hours. Weight: 211/212/240 series= 3 lbs.; 441/442 series = 4 lbs.

215cc pump ..... P/N 10-00068 ..... **$197.95**
216cw pump ..... P/N 10-00069 ..... **$197.95**
241cc pump ..... P/N 10-00070 ..... **$292.95**

TEMPEST VACUUM PUMP WRENCH

Case hardened steel, with nickel-chrome plating for corrosion resistance. Slip resistant vinyl grip. Rare earth magnet allows efficient and easy installation of hard-to-get-to install nuts. Eligibility: Fits all 200, 240, 400 and 3200 series vacuum pumps. ..... P/N 10-02654 ..... **$24.95**

IN

SUCTION REGULATORS – PNEUMATIC FILTERS

PARKER SUCTION REGULATOR

Constructed of lightweight aluminum. Large air passages minimize the pressure drop through the valve. Valve chatter is virtually eliminated by pneumatically balancing the regulating diaphragm. The simple but effective polyurethane garter filter protects the air pump and may be easily replaced. Beaded hose fittings simplify installation and eliminate expensive AN fittings which unnecessarily restrict air flow.

Has 5/8" & 5/8" Ports (Straight)..... P/N 10-02105 ... **$495.00**

VACUUM RESTRICTOR VALVE

AN5829-2 manually adjustable needle valve complete with locking collar and mounting flange. For reducing vacuum to 2" Hg for operation of turn/bank. Manufactured by ACS Products Co.....P/N AN5829-2..... **$23.65**

RAPCO PNEUMATIC REGULATORS

RAPCO RA2H3-2 FAA-PMA APPROVED VACUUM REGULATOR - This FAA Approved Rapco vacuum regulator is designed to maintain a constant setting at various pressure altitudes. Adjustable setting. Vacuum regulators come with the RAB3-5-1 garter filter. 5/8" Hose Fitting (Pump), 1/2" Hose Fitting (instruments). Replaces - Airborne PN. 2H3-2, 133A3, Aero Accessories PN. 2H3-2
P/N 10-03895 ..... **$194.00**

RAPCO RA2H3-5 FAA-PMA APPROVED VACUUM REGULATOR - This FAA Approved Rapco vacuum regulator is designed to maintain a constant setting at various pressure altitudes. Adjustable setting. Vacuum regulators come with the RAB3-5-1 garter filter. 5/8" Hose Fitting (Pump), 5/8" Hose Fitting (instruments). Replaces - Airborne PN. 2H3-5, 133C1, Areo Accessories PN. 2H3-5
P/N 10-03894 ..... **$192.50**

RAPCO RA2H3-6 VACUUM REGULATOR - This FAA Approved Rapco vacuum regulator is designed to maintain a constant setting at various pressure altitudes. Adjustable setting. Vacuum regulators come with the RAB3-5-1 garter filter. 5/8" Hose Fitting (Pump), 5/8" Hose Fitting (instruments). Replaces - Airborne PN. 2H3-6, 133B3, Aero Accessories PN. 2H3-6, Piper PN. 584-324
P/N 10-03918 ..... **$194.95**

RAPCO RA2H3-11 VACUUM REGULATOR - This FAA Approved Rapco vacuum regulator is designed to maintain a constant setting at various pressure altitudes. Adjustable setting. Vacuum regulators come with the RAB3-5-1 garter filter. Two AN-8 Threaded Fittings (Thread OD 7/8"). Replaces - Airborne PN. 2H3-11, 133A13 P/N 10-03919 ..... **$594.00**

RAPCO RA2H3-12 VACUUM REGULATOR - This FAA Approved Rapco vacuum regulator is designed to maintain a constant setting at various pressure altitudes. Adjustable setting. Vacuum regulators come with the RAB3-5-1 garter filter. 5/8" Hose Fitting (Pump), Two 3/8" Hose Fitting (instruments). Replaces - Airborne PN. 2H3-12, 2H3-16, 133A16, Cessna PN. C482001-0401
P/N 10-00289 ... **$189.95**

RAPCO RA2H3-15 VACUUM REGULATOR - This FAA Approved Rapco vacuum regulator is designed to maintain a constant setting at various pressure altitudes. Adjustable setting. Vacuum regulators come with the RAB3-5-1 garter filter. One AN-8 Threaded Fitting (Thread OD 7/8"). Replaces - Airborne PN. 2H3-15
P/N 10-04842 ..... **$594.00**

RAPCO RA2H3-19 VACUUM REGULATOR - This FAA Approved Rapco vacuum regulator is designed to maintain a constant setting at various pressure altitudes. Adjustable setting. Vacuum regulators come with the RAB3-5-1 garter filter. 5/8" Hose Fitting (Pump),Two 3/8" Hose Fittings (Instrument)Replaces – Airborne PN.2H3-19, Piper PN. 492-240
P/N 10-04780 ..... **$399.50**

RAPCO RA2H3-23 VACUUM REGULATOR - This FAA Approved Rapco vacuum regulator is designed to maintain a constant setting at various pressure altitudes. Adjustable setting. Vacuum regulators come with the RAB3-5-1 garter filter. 5/8" Hose Fitting (Pump), Two 3/8" Hose Fitting (instruments). Replaces - Airborne PN. 2H3-23, 133A4, Piper PN. 492-272
P/N 10-03009 ..... **$194.00**

RAPCO RA2H3-48 VACUUM REGULATOR - This FAA Approved Rapco vacuum regulator is designed to maintain a constant setting at various pressure altitudes. Adjustable setting. Vacuum regulators come with the RAB3-5-1 garter filter. AN-8 Threaded Fitting, Thread OD 7/8" (Pump), 5/8 Hose Fitting (instrument) Replaces - Airborne PN. 2H3-48, Aero Accessories PN. AA2H3-48
P/N 10-03921 ..... **$249.00**

RAPCO RA2H30-6 PRESSURE REGULATOR - This FAA Approved Rapco pressure regulator is designed to maintain a constant setting at various pressure altitudes. Adjustable setting. 3/4" Hose Fitting (Pump), 5/8" Hose Fitting (instruments). Replaces - Airborne PN. 1H30-6, 2H30-6, Piper PN. 492-243
PN 10-04234 ..... **$249.85**

RAPCO RA2H30-9 PRESSURE REGULATOR - This FAA Approved Rapco pressure regulator is designed to maintain a constant setting at various pressure altitudes. Adjustable setting. 5/8" Hose Fitting (Pump), 5/8" Hose Fitting (instruments). Replaces - Airborne PN. 1H30-9, 2H30-9 P/N 10-03147 ..... **$249.95**

RAPCO REPLACEMENT PNEUMATIC FILTERS

Aircraft Spruce offers RAPCO FAA-PMA approved filter replacements for Airborne assemblies. Destructive contamination abounds within an aircraft environment. Without proper filtration, system dirt and dust from the cabin as well as cigarette smoke will take its toll. This results in the replacement of expensive gyro instruments and other components. Your operating costs can be significantly reduced when filters are changed on a scheduled basis. RAPCO in-line and central filters are constructed to the highest industry standards. They utilize a 0.3 micron filtration media which provides superior filtration without undue air flow restriction. As a RAPCO distributor, Aircraft Spruce offers these replacement filters at exceptionally low prices.

Description	Recomended Replacement	OEM Number	RAPCO Number	Part No.	Price

PNEUMATIC FILTERS – UMA GAUGES

AIRBORNE CENTRAL AIR FILTERS

Increase gyro life with Airborne gyro air filter. Incorporates a 0.3 micron filter element that protects gyro instruments by filtering out tobacco smoke and cabin dust. Small, lightweight, easily installed. Fits most planes. Dual 3/8" beaded tubes simplify 2-gyro installations.

Part No.	Description	Price
1J7-1	Vacuum Instrument Central Gyro Air Filter: 0.3 micron	**$65.00**
	pleated paper element with two 3/8" installation tubes.	
B3-5-1	Vacuum relief & pump inlet foam garter filter: Foam	**$2.95**
	Garter filter. Fits Airborne 133 & 2H3 Regulating Valves.	
D9-14-5	Replacement element used in Airborne 1J2 Series	**$42.00**
	Inlet filter (except 1J2-2)	
D9-14-3	Replacement element used in Airborne 1J2-2.	**$15.25**
D9-18-1	Replacement Filter for Airborne1J7-1 Gyro filter Assy.	**$14.95**
1J10-1	Line mounted Filter 3/8"x3/8" non-beaded tube.5-3/4"long.	**$55.75**

CLEAR VIEW INLINE AIR FILTER

Constructed of high temperature, high impact material, the CV1J4 transparent housing allows the aircraft mechanic, pilot or owner to visually monitor filter contamination when referenced with an internal "Change Indicator" decal. This revolutionary new design will aid in identifying malfunctioning or inoperative system components that cause premature air pump wear and avoid replacement of clean filters usually replaced annually or based on aircraft operating hours. When installed in a "Vacuum" gyro system between the air pump and gyro instruments, the CV1J4 "Clear View" air filter will prevent contamination of gyro instruments from carbon dust created by air pump failure. The CV1J4 filter is a direct replacement for Airborne 1J4-6 and 1J4-7 filters. FAA/PMA approved for Beechcraft Singles & Twins, Piper PA31, 31P, -300, -310, -325, -350, PA-31P-350, PA31T2, PA-34-200T, Grumman GA-7, Rockwell 700, standard equipment on all Mooney aircraft. P/N 10-00450 ..... **$67.50**

INLINE AIR FILTER KIT FOR CESSNAS

This FAA-PMA approved kit includes a CV1J4 clear view filter, necessary hardware, a copy of the STC and detailed instructions for smooth installations. An adhesive backed label is provided for recording kit installation data in aircraft log books. P/N 10-00451 ..... **$99.75**

INLINE AIR FILTER KIT FOR PIPERS

Similar to kit for Cessnas above. FAA approved for most PA-28 and all PA-38. P/N 10-00452 ..... **$99.75**

UNITED AIRSPEED INDICATORS (TSO'D)

These 8000 series United airspeeds are TSO'd for instalation on certificated aircraft. Factory new. Available in dual scale MPH/knots, or in MPH or knots only. Fits standard 3-1/2" panel hole. Wt: 0.7 lb. Not Lighted.

Range	Part No.	Price
40-200mph/40-170kts	10-00190	**$603.00**
0-250mph/40-200 kts	10-00191	**$598.00**
40-300mph/40-260 kts	10-00192	**$602.00**
0-260 knots	10-00201	**$610.00**
0-170 knots	10-00198	**$603.00**

Available with custom range marks .....P/N 10-02614 ..... **$145.00**

LIGHTED UNITED AIRSPEEDS

Add -1 to P/N's above for internally lighted airspeed indicators.
For an additional $128.00

UNITED TRUE AIRSPEED INDICATORS

The true airspeed indicator corrects the indicated airspeed for changes in temperature and pressure encountered as aircraft changes altitude. By aligning outside temperature and pressure altitude with setting knob, movable airspeed scale is rotated proper amount so pointer registers true airspeed. Factory new 8100 series by United. TSO'D for certificated aircraft. Dual scale. Not Lighted. ***Add $145.00 for custom range marks & specify exact range marks needed.***

Series	Range	Part No.	Price
8100	0-200mph/170kt	10-00203	**$655.00**

8140	60-350 Knots	10-00219	**$699.00**

LIGHTED UNITED AIRSPEEDS

Add -1 to P/N's above for internally lighted airspeed indicators.

Dual Scale (MPH/Knots) with multicolor markings

UMA 2-1/4 TSO'D AIRSPEED INDICATORS

UMA indicators are FAA TSO'd to C2d specifications. Installable in a fixed wing aircraft with a reciprocating or Turboprop Engine. Must be installed in a temperature controlled environment from -55 to +85 °C, to a max altitude of 25,000 ft. UMA offers indicators with full scale ranges available, from 160 to 300 in MPH or Knots.

AIRSPEED INDICATORS

FALCON 3 1/8" SINGLE RANGE AIRSPEEDS

Falcon Gauge Airspeed Indicators have been one of the most chose flight instruments by kit plane builders and pilots. There are many great advantages to using these gauges: excellent slow speed characteristics; very progressive increments; a variety of ranges, light weight; short length, and affordable price. All Falcon Gauge Airspeed Indicators are housed in an aluminum case and consist of all metal parts. Available ranges: mph, knots, km/hr; single range reading or dual range readings. Non-Tso'd.

Model No.	Length	Range	Part No.	Price
ASI200M-3	3.5"/97.3mm	30-200 MPH	10-02918	**$167.95**

FALCON 3 1/8" DUAL RANGE AIRSPEEDS

Falcon Gauge Airspeed Indicators have been one of the most chose flight instruments by kit plane builders and pilots. There are many great advantages to using these gauges: excellent slow speed characteristics; very progressive increments; a variety of ranges, light weight; short length, and affordable price. All Falcon Gauge Airspeed Indicators are housed in an aluminum case and consist of all metal parts.

Falcon Gauge Dual Dial Airspeed Indicators provide dual readings and are suitable for higher performance type aircraft flying at moderate to high speeds. Matte-white dial markings, housed in a sturdy protective aluminum case.

Weight: approx. 10.5 oz./301g Length:2.2" or 56.5mm

THE KIT COLE CLARIFIER

The Kit Cole Clarifier Removable

The Kit Cole Clarifier is a non FAA approved coated, high quality glass lens provided in a kit that allows you to temporarily attach it to your altimeter face for all of your VFR & LSA flying needs. The kit comes complete with a non-permanent, clear bonding gel and instructions for installation. This product is sold as a removable visual aid and is not intended for IFR use on TSO'd altimeters. The Kit Cole Clarifier is not sold to be permanently bonded to your altimeter face by any non FAA approved techniques.

The FAA Approved Kit Cole Clarifier

The Kit Cole Clarifier (US Patent No 7,313,962, 7,404,322) is a FAA approved coated, high quality glass lens provided in a kit that is attached to your altimeter face for all of your VFR & LSA flying needs. This product is sold as a visual aid and is intended for IFR use on TSO'd altimeters. Special order only must send in altimeter to have bonded.

Kit Cole Clarifier Removeable .....P/N 10-02838 ..... **$64.75**
Kit Cole Clarifier - FAA Approved.....P/N 11-07785 ..... **$189.95**

FALCON 3 1/8' TRUE AIRSPEEDS

Falcon Gauge True Airspeed Indicators have a sub-dial and window. The pilot can set the dial to coincide the outside temperature with the flight altitude for immediate and accurate true airspeed reference. It is a high precision airspeed indicator which makes for a nice feature and impression in an experimental aircraft cockpit. It also features all parts made with metal, aluminum case housing, short length and light weight. Non-Tso'd

FALCON 2 1/4" MINIATURE AIRSPEEDS

Falcon Gauge Miniature Airspeed Indicators are designed for ultralights. They offer ultralight pilots an affordable alternative to other higher priced indicators found in the market today without compromising the pilot's needs for a quality gauge that provides accuracy, light weight, compactness and safety. Their excellent slow speed performance provides an extra measure of safety by assuring accurate speed readings when flying low or critical stall speeds. Weight: approx. 2.8 oz. or 80g Length: 2-9/16" or 41mm

MID-CONTINENT INSTRUMENTS AIRSPEED INDICATORS

Customizable range markings can be added to match aircraft operating handbook. Affordable, certified 2-inch instrument which can be used as standby or primary indicator. Combine with a Mid-Continent MD15 Altimeter and 4200 Attitude Indicator for a complete standby package designed for tight panel applications. Approved to FAA TSO-C2d. Integral long life 5, 14 or 28 volt LED lighting. Anti-reflective glass enhances visibility and reduces pilot fatigue. Rear-mounted in standard 2 1/4" cutouts horizontally, vertically or individually. Designed and built in the USA. One year limited warranty.

WESTACH AIRSPEED KIT K2M6RH

Air speed 60 MPH kit, 2" round, with 303GW sender with 510A-1 propeller & 323B mount & 205-SS-SS 5' cable and 692B-323 bullet case with 323B mount, 2GM60R

P/N 10-01295 .....**$177.95**

OPERATING RANGE DECALS

Yellow, red, green and white, pressure sensitive. Just pull off backing and place on instrument lens.

P/N 10-03905 ..... **$2.95/set**

VECTOR WRIST-TOP COMPUTER

The Vector combines an altimeter, vertical speed indicator, barometer, compass and a precision timepiece in one compact wristwatch-sized case. The instrument allows altitude measurement in feet or meters, up to a max. 27,000 ft., accurate to plus or minus 10 ft. It also provides instantaneous vertical ascent & descent rates in either feet/second or meters/second. The backlit display is easy to see in all lighting conditions. The barometer displays current barometric pressure and trends for accuracy, and deviation adjustment to correct for differences between true and magnetic north. Reliable & accurate, this new instrument provides time, day and date, as well as three daily alarms, a stopwatch and countdown timer. The unit is also waterproof to 100 ft.P/N 10-19325 ..... **$199.00**

WINTER MINIATURE ALTIMETERS

The mini altimeter is a remarkable instrument. Through the use of an accurate single pointer design, the 0-5,000 and 0-10,000 altimeters are able to squeeze precision and reliability into a 2-1/4" instrument which is less than 2" deep. All altimeters are designed with Kollsman windows, glass faces, precision jewelled movements and a rugged combination metal and plastic case. Static porting is standard.

0-5000 ft. Altimeter, Inches..... P/N 10-24100 ..... **$373.95**
0-5000 ft. Altimeter, Millibar..... P/N 10-24105 ..... **$449.50**

WINTER ALTIMETER 3-1/8 INCH

Through the use of an accurate single pointer design, the 0-10,000 altimeter is able to squeeze precision and reliability into a 3-1/8" instrument which is less than 2,2" deep. Designed with a Kollsman window, glass face, precision jewelled movements and a rugged combination metal and plastic case. Static porting is standard. Weight: 230g

P/N 10-03831 ..... **$259.00**

TASKEM 2000 DIGITAL ALTIMETER

The Series 2000 Digital Altimeter is a precision instrument providing altitude readings from -100 to +30700 feet in 10' steps. A standard 3-1/8 instrument powered from 11–35V DC & uses a highly visible backlighted liquid crystal display. Displayed data includes Altitude, Baro Ref & Vertical Speed. A programmable altitude alert function combines both audio and visual (LED) outputs. An oxygen alert cautions when over 12500 feet. All data is output in computer compatible RS-232 format. Model 2000 devices display pressure in Hg while Model 2001 units are in mBar. 2 options can be added to the basic (-1) model; OAT (-2) includes temperature sender and also computes and displays Density Altitude, Mode C (-4) is a standard TSO-C88a compatible encoder. Both options are included in the (-3) versions. Wt., 8 oz. Depth behind back of instrument panel, 3-7/8". 2-yr factory warranty.

TASKEM 5000 DIGITAL ALTIMETER

Unlike mechanical altimeters, the Taskem 5000 is insensitive to the high vibration of 2-stroke engines frequently used on ultralight aircraft. This has literally shaken many mechanical altimeters. The 5000 is all solid state and can withstand severe shock and vibration without damage. It has a full 4.5 digit liquid crystal (LCD) display with large, 1/2" high characters. Because the LCD uses direct drive, it is easily readable from most viewing angles and does not disappear when viewed from an angle or does not washout in bright sunlight. Includes a backlight for night or dusk viewing. The altitude range extends from below sea level to well above the need for supplementary oxygen. The limits are -1000 to 19,990 ft. (-305 to 6,093 meters). Increments are in 10 ft./1m steps. The instrument is powered from DC in the range of 7–30V and is protected for accidental polarity reversal. A 9V battery is a common power source and a battery holder for this is provided on the back, external to the case. An alkaline battery will provide over 40 hours of operation, without the backlight illuminated. The backlight is not powered in the ON power switch position to conserve battery life.

ALTILERT ALTITUDE ALERT

Designed for general aviation use, the Altilert is a portable device to help the pilot maintain an assigned or desired altitude. It's use is simple. Fly to your desired altitude and turn the unit on. The Altilert learns your current altitude (by sampling barometric pressure, just like your altimeter) and stores this information. As your altitude drifts, an error signal is generated. At approximately +/- 100 ft. (or 50 ft. in Precision Mode), the red indicator flashes quickly and is accompanied by a piezo horn. The horn can be silenced by pressing the push button switch. Alarms will clear upon return to your original altitude. A new desired altitude can be set by turning the unit off and back on at any time. SPECIFICATIONS: • Size: 1.5"h x 4"L • Wt: 5 oz. (including battery) • Battery: 9V (not included) • Battery Life: 24 hrs+ • Dual Sensitivity Levels •Audible Alarm.

IN

ALTIMETERS

UNITED SENSITIVE ALTIMETERS

Designed to help the pilot determine altitudeby measuring existing atmospheric pressure, this altimeter translates this measurement into "height-above-sea-level." This is indicated on the dial of the instrument in feet, which requires setting the barometric pressure in the Kollsman window. Standard 3-1/8" size.

UNITED ALTIMETER WITH CORRECTED BAROMETRIC OUTPUT

True airspeed all the time! No need to correct the barometer, the altimeter does it automatically for the pilot. • Compatible with most Air Data Systems • 35,000 ft., dual barometric scale • Internally lighted – light tray included • TSO C10d certified • Standard D.C. voltage barometric output • Mounts in standard 3 1/8" panel cutout • Requires just 5" depth behind the panel • 1/8" NPT static port • Connector included • Manufactured by United Instruments. P/N 10-02718..... **$2,495.00**

MID-CONTINENT INSTRUMENTS ALTIMETER, 2-INCH

Reliable for primary or standby use, these altimeters provide flight critical data with a three-pointer or counter drum pointer display. The compact, 2-inch size is ideal for complex panel installations. Lighting is included. These altimeters are used in many popular OEM and STC packages. Call for application assistance.

FALCON 3 1/8" AND 2-1/4" SENSITIVE ALTIMETERS

1. Three Pointer Altimeter with Barometric Window and Low Altitude Warning Stripes is a modern type. The easy to read striped sector will show while flying below 16,000 ft. 2. Three Pointer Altimeter with a Barometric Window enables the pilot to adjust the altimeter to the barometric conditions existing at the point of landing. 3. Two Pointer Altimeter without Barometric Window. This type of altimeter is designed to meet the demands of some pilots who either live or fly the area's barometric pressure beyond 28.1 to 31 inches of mercury, or 950 to 1050 millibars, or some pilots prefer to set the altimeter to"0" altitude before taking off without regard to the barometric pressure. By installing this altimeter, the pilot can fly anywhere in the world without having to care about the barometric pressure changes. Non-TSO'd.

FALCON 3 1/8" NON-SENSITIVE ALTIMETERS

Falcon Gauge light weight altimeters feature a non-sensitive altimeter on a 3-1/8", single pointer, and a barometric window. A setting knob allows the pilot to set the barometric reading to the correct field elevation or barometric pressure setting. They are weight conservative, economical, yet very precision and accurate instruments that provide excellent altitude measuring capabilities; designed for ultra-light airplanes. 3-1/8" is non-sensitive. Standard Types are either feet reading with barometric window inches of mercury or millibars reading; or meters reading with barometric window millibars reading. Length: 2 3/8" Weight: 10.7 oz.

MICROTIM™ BAROMETRIC ALTIMETER

Features: * Extreme sensitivity. Registers changes in altitude of 2 feet or less. * Calibrated from -2000 feet MSL (2000 feet BELOW sealevel) to +20000 feet MSL (20000 feet ABOVE sealevel). * Low Power. Single AAA battery lasts for months. Battery monitor gives several DAYS of low-battery notice. * One foot resolution, barometric-pressure and field-elevation adustable. * AGL(relative), MSL(sealevel) or BOTH alternately every 2 seconds. * Selectable units: feet/inHg or meter/kPa or feet/mbar(hPa). * Excellent ultralight altimeter or backup unit. Small (3"x1.5"x3/4") with large easy-to-read numbers (3/8" high numbers). Very durable (resin encapsulated internals), resists shock, vibration, and moisture. * EASY TO USE right out of the box. The 3 primary key functions allow you to o 1) Raise the barometric pressure setting o 2) Lower the barometric pressure setting o 3) Zero the ground-level altitude (AGL) * Then three additional functions are accessed by holding down one key for 5 seconds which allows you to o 4) Change units o 5) Change the display mode (AGL, MSL, or BOTH) o 6) Reset MicroTim to factory defaults (AGL only, feet, 29.92 inHg). ...and that's all there is to it! P/N 10-01726 ..... **$198.95**

ALTIMETER BUG

Altimeter Bug: Attaches to the face of your altimeter. Set the green bars to DH, MDA, CRUISE, or FIELD ELEVATION. Blue dot marks 800', 600', and 400' above the pre set altitude. Made from a hard clear plastic with mini single suction cup attached. Outer Circle: 2 3/4" Inner Circle: 1 1/2"
P/N 17-00218 ..... **$8.50**

INSTRUMENT BUGS

"Bugs" are perfect for pilots who rent aircraft, and for owners. The transparent suction cup works on all instruments. A thumb screw friction lock lets the yellow pointer tip rotate 360°. Fly with it day & night. Includes: 2 "Bugs" in a plastic reusable storage box with instructions and 4 disposable alcohol swabs, which are used to clean the instrument face and bugs so that they stick well. P/N 10-00114 ..... **$9.85**

AIRCRAFT INSTRUMENT COVER

The instrument cover is a plastic disk approximately 2 3/4" in diameter and 1/16" thick. By use of the attached suction cup, the cover will mask the face of most general aviation flight instruments. It is useful in many training situations one of which is partial panel work. As a safety aid, the cover can be used to mask an instrument when it is non-functional, as is required by Regulations. Each package has two covers.
P/N 13-04968..... **$5.95**

INSTRUMENT COVERS

The suction cup on the back of this soft rubber disc enables the pilot or instructor to cover up one or more flight instruments for partial panel instruction or to cover a failed instrument during flight. Measures 3-1/8" in diameter. Flight instructors and IFR pilots should have several of these handy covers in their flight bags. P/N 13-00088..... **$2.65 ea**

PARTIAL PANEL INSTRUMENT COVER

Partial Panel Instrument Cover: Hard plastic instrument cover with single mini suction cup attached. Easy to remove and easy to use. 2 3/4".
P/N 17-00222..... **$2.95**

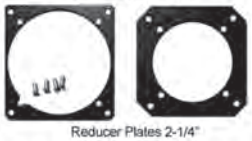
INOPERATIVE INSTRUMENT AID

Designed with static cling polyester, the IIA will stick to your glass instrument face without licking and will stay there until you want to remove it. Practicing instrument failures during flight is a requirement by the Federal Aviation Administration for your practical test. One package includes four Inoperative Instrument Aids. Developed by a Certified Instrument Flight Instructor with the intent to improve instrument instruction. measures 3" in diameter. P/N 13-04173 ..... **$8.95**

3ATI REDUCER PLATES

Reducer Plates 3-1/8"

3ATI Reducers to 3 1/8" - Use a 3ATI hole cut out to mount 3 1/8" diameter instrument. Plate can be shimed to instrument panel thickness . Simple installation. Heat-treated aluminum .080 thick with black anodize finish.
P/N 07-01331 ..... **$16.75**



Reducer Plates 2-1/4"

3ATI Reducers to 2 1/4" - Use a 3ATI hole cut out to mount 2 1/4' diameter instruments. Plate can be shimed to instrument panel thickness, comes with 4 rivets. Simple installation. Heat-treated aluminum .080 thick with black anodize finish.BACK PLATE 3.8 X 3.8
P/N 07-01330 ..... **$16.75**

REDUCING MASKS

Precision die-cut black anodized aluminum masks simplify installation of small instruments in large instrument panel cut-outs. 3 types available.
#1: Large AN-type artificial horizon cut-out to 3-1/8" size
P/N 10-05900 ..... **$11.40**
#2: Large AN-type directional gyro cut-out to 3-1/8" size.
P/N 10-06000 ..... **$13.75**
#3: 3-1/8" size cut-out to 2-1/4" size ..... P/N 10-06100 ..... **$10.95**

DRILL JIG AND FILING TEMPLATE FOR THE 3 ATI INSTRUMENT CUT

A handy much needed tool to have for those difficult to make 3 ATI cut outs that everyone complains about. A rugged tool made of alloy steel with a 58–60 RC hardness for long life. Simply drill mounting holes and cut opening file to template. P/N 10-00153 ..... **$32.50**

MOUNTING PLATE FOR THE 3 ATI INSTRUMENT

Quick fix for a hard to cut out opening. Plate is .500 wider than instrument. For easy mounting, material is .080 aluminum P/N 10-00154 ..... **$10.50**

REDUCING PLATE FROM 2-1/4" DIA.

Reduce from 2.25" to 2" diameter instrument. For oil pressure, ammeter gauge etc. P/N 10-00155 ..... **$8.50**

INSTRUMENT COVERS FOR PARTIAL PANEL PRACTICE

Sold in 4 packs of 25 (for a total of 100 sticky notes). These round pads are white with a light blue ASA logo, and fit any aviation instrument. Perfect for partial panel practice or jotting down quick notes. P/N 13-21776 ..... **$6.25**

ANGLED INSTRUMENT MOUNTS

This angled instrument mount allows replacement of a 3-1/8" gauge with a 2-1/4" gauge. It places the gauge at a 20° angle toward the pilot for easier reading and reduced glare. Made from 20% glass fiber filled Lexan. P/N 10-06800 ..... **$19.95 ea**

INSTRUMENT PANEL COVER-UPS

These white stick on instrument size covers are ideal for partial panel practice or to cover an actual failed instrument. These covers are reusable and are furnished in a package of 5 covers P/N 10-00066 ..... **$3.50**

INSTRUMENT PANEL COVER-UPS FOR PFD / MFD

Cover ups for PFD and MFD screens for glass cockpit training. For partial panel practice & actual instrument failures. * Reusable, 3 per pack * "Cling" type plastic covers, with lift tab * Zip lock plastic bag for convenient storage. P/N 13-06116 ..... **$6.95**

INSTRUMENT HOLE COVER PLATES

Use these plates to attractively cover unused panel cut-outs. Aluminum and plastic plates have raised center, which brings the plug face about even with the front surface of the panel.

Plastic plate for 2-1/4" Cut-Out	P/N 10-06900	**$3.95**
Plastic plate for 3-1/8" Cut-Out	P/N 10-07000	**$6.95**

VSI - ACCELEROMETERS

FALCON ACCELEROMETER (G-METER)

Accelerometers register to "g" forces acting on the airframe during turbulence or aerobatic maneuvers. One pointer gives a continuous reading, the other two indicate maximum positive and negative loads. Easy to reset by pushing the "push to reset" knob.
All models are mechanical and offer precision, accuracy, reliability and durability. They are very easy to operate with no wiring necessary.
Whether flying acrobatic or not, this G-Meter provides the pilot valuable information for a winged airplane and helicopter without having to spend astonishing figures.

Size	Part No.	Range	Price
3-1/8"	10-00936	-5g to +10g	**$389.95**
3-1/8"	10-00935	-2g to +5g	**$419.00**
2-1/4"	10-09800	-5g to +10g - white pointers	**$396.00**
2-1/4"	10-04072	-5g to +10g - orange pointers	**$458.95**
2-1/4"	10-04073	-5g to +10g, Lighting 24V	**$727.00**
2-1/4"	10-02049	-5g to +10g, Lighting 12V	**$595.00**
2-1/4"	10-04074	-5g to +10g, Lighting 5V	**$718.00**
2-1/4"	10-00840	-2g to +5g	**$399.00**

FALCON ACCELEROMETER SMALL G METER

This instrument, mounted in the aircraft panel with its face in the vertical plane, register to "g" forces acting on the airframe during turbulence, or aerobatic maneuvers. One pointer gives a continuous reading, the other two indicate maximum positive and negative loads. A reset knob is provided. The mechanism is locked for shipping. Interchangeable with MS282025-1. Specifications: Dim: 2-1/4" X 2-1/4" X 4" Weight: Approx. 7lbs Range: -5g to +10g.

P/N 10-09800 ..... **$396.00**

CENTURY INSTRUMENTS RECONDITIONED ACCELEROMETER (G-METER)

This reconditioned instrument, mounted in the aircraft panel with its face in the vertical plane, register to "g" forces acting on the airframe during turbulence, or aerobatic maneuvers. One pointer gives a continuous reading, the other two indicate maximum positive and negative loads. A reset knob is provided. The mechanism is locked for shipping. Interchangeable with AN5745. Specifications: Dim: 3-1/8" X 3-1/8" X 3" Weight: Approx. 8lbs Range: -5g to +12g.

P/N 10-09710 ..... **$359.95**

FLIGHT DATA G-METER GT50 12/28

The GT-50 is a Six Function: Accelerometer - Clock - Voltmeter - Temperature for Experimental Aircraft.
G-Meter:
* Continuous Instantaneous Display to +12/-10 G's
* Records and Saves Max and Min G's
* 30 Degree (Sonex) Tilted Panel Compatible
Flight Timer: Automatically Records Flight Time
Clock: 12 or 24 Hour Format
Timer/Stopwatch Voltmeter

Features:
* Best G-Meter Value Available
* Extreme Operating Temperature Display
* Soft Orange Backlight
* 2-1/4" Panel Mounted
* Weighs 2.5oz
* Includes Pre-Wired Connector
* 12-28 Volt Compatible ..... P/N 10-03691..... **$159.00**

Flight Data OAT Probe GT50..... P/N 10-03694..... **$29.00**

WINTER VARIOMETERS

These extremely sensitive Winter instruments provide instantaneous indication of changes in vertical speed. Mechanical operation, with vario flask included. 2 1/4" and 3 1/8" sizes, 1000 fpm, and 1500 fpm ranges

Description	Part No.	Price
2-1/4" 1000 FPM	10-03813	**$559.00**
2-1/4" 1500 FPM	10-03819	**$685.00**

3-1/8" 1500FPM	10-03839	**$583.00**

UNITED VERTICAL SPEED INDICATORS

The vertical speed indicator is a precision instrument which provides an accurate indication of rate of change of altitude. This instrument is temperature compensated and is provided with a zero adjustment screw on the face of the case in the seven o'clock position. Power: Static system.

Manufactured by United Instruments. Used in most production aircraft. Size: 3-1/8" x 3-1/8" x 4", Wt. 0.7 lb. TSO-C8b.

FALCON VERTICAL SPEED INDICATORS

Falcon Gauge Vertical Speed Indicators (Rate of Climb), have been installed in thousands of planes. Available in climb ranges from 2,000 feet per minute to 3,000 feet per minute, and 10 meters per second. This precision aircraft instrument provides immediate climb and descent information with an easy to read dial and is extremely reliable and durable. Over several decades, they have been servicing and satisfying pilots and kit plane builders worldwide.
The 2-1/4" altimeter is perfect for the ultra-light models and where space and weight are a factor of consideration.

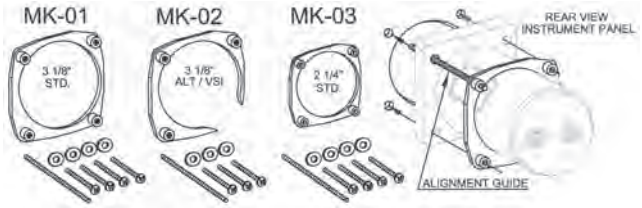
INSTRUMENT MOUNTING & ADAPTER KITS

INSTRUMENT MOUNTING KITS



Kits come with "special" self-locking black pan head screws nylon washers, and alignment guide pin.

Precision machined "Nut Ring" instrument mounting kit. Designed to slide on from the back side of the instrument using the alignment guide pin inserted through a screw hole. Pulling on the alignment pin from the front side of the panel allows you to hold the instrument in correct alignment in the panel. Specially designed self-locking pan head black brass mounting screws and nylon washers are then easily installed from the front. Countersunk self-locking black brass screws are also available. Extra screws & washers are sold in packs of 12. The nylon washer keeps from chipping the instrument panel. All self-locking screws are extra long to accommodate the extra thickness of light wedges and internally lighted instruments. Nut Rings can be installed without removing hoses, tubing, or electrical connections. Designed to replace "grasshopper nuts". PMA'd. Alignment guide pin sold separately.(P/N 10-03696)

Model	Description	Part No.	Price

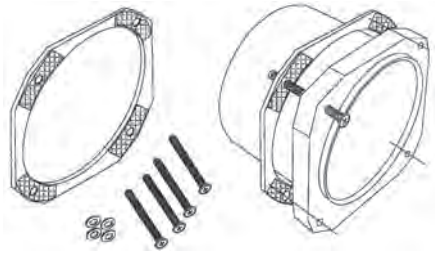
"EZ NUTS" INSTRUMENT MOUNTING SYSTEM BY SPT



Take the frustration out of mounting instruments with the use of Superior Panel Technology's EZ Nuts. Adhesive tape securely holds nut ring in place. No realignment if instrument is later removed. Aluminum bezel is treated to prevent corrosion. The pressed in stainless steel inserts eliminate the problem of striped threads. Simply cut off one corner if only three screws are needed. Save labor time when compared to "grasshopper nuts".
Includes four 1-1/2" non-magnetic black oxide stainless steel, pan-head screws. Stronger than brass. Includes four black nylon washers to prevent marring of the panel.
*100 degree countersunk screws available and are sold in packs of eight.

3-1/8" Bezel.....P/N 11-01830 ..... **$8.95**

PITOT TUBE COVERS

PITOT TUBE BOOTY – Durable leather-like cover provides optimum protection. Velcro strap attaches booty to 5/8" or 11/16" dia. L-shaped pitot tube. Bright red "Remove Before Flight" streamer. Made of flame-proof & weather-resistant National Aerospace material.
P/N 15210 ..... **$5.95**

SLIP-ON PITOT TUBE COVER – Not shown. Same as above except is slip fit over 1/4" or 1/2" dia. pitot tube. Red "Remove Before Flight" streamer is attached to cover. Made of flame-proof and weather-resistant National Aerospace material.
P/N 15220 ..... **$6.95**

DEGROFF'S PITOT SHIELDS

PITOT SHIELDS are a "fail-safe" pitot tube cover that will protect the pitot tube from contamination by insects, debris and ice while the airplane is on the ground. It is friction-fit to the pitot tube and has a calibrated "flat-plate-forward" design that, upon reaching a specific velocity, will release from the pitot tube and fall harmlessly away, allowing for normal airspeed indications. The cover utilizes EVA foam that is UV resistant and stable at temperatures reached by heated pitot tubes. It is a highly visible color with the words "REMOVE BEFORE FLIGHT" printed and visible from all directions. This pitot tube cover is soft, but tough. It will not damage aircraft surfaces when it comes off during ground roll, nor will it be a potentially hazardous foreign-object on the runway.

For 5/8" pitot tube.....P/N 10-00491 ..... **$19.95**
For 3/4" pitot tube.....P/N 10-00492 ..... **$18.95**
For Piper pitot tube .....P/N 10-00493 ..... **$18.95**

PITOT TUBES

UNHEATED PITOT TUBES

STRAIGHT TYPE – Flange-mounted through leading edge of spar. Aluminum tube 24" long, 1/4" dia. May be cut to shorten.
P/N 15133 .....**$19.85**

L-SHAPED TYPE – Flange mounted L-shaped model for under-the-wing mounting. 1/4" dia. aluminum tube.
P/N 15135 .....**$28.75**

L-SHAPED PITOT-STATIC TUBE – Same design with static tube added. For pitot tube cover order #15220 or 10-02100 (flip up). P/N 15144 .....**$34.85**

STRAIGHT TYPE PITOT-STATIC TUBE – Clamp-mounted for leading edge of wing. 14-1/2" long. May be shortened, formed or shaped to best angle of attack. 1/4' dia. aluminum tubes. All installation hardware furnished.
P/N 10-01800 .....**$26.75**

STRUT TYPE PITOT-STATIC TUBE – Simple L-shaped design for clamping to strut. 1/4" dia. aluminum tubes.
P/N 10-01900 .....**$32.50**

MAST-MOUNT PITOT TUBE - Designed for mounting in 3/4" O.D. x .049" wall aluminum tubing (not furnished). Machined from solid aluminum. Polyethylene fitting for 1/4" I.D. hose included. P/N 15170 .....**$35.85**

RAVEN PITOT STATIC TUBE

Pitot system combines pitot and static functions in one tube. Used for years on many different aircraft. Comes complete with mounting block to install it.
P/N 10-00476.....**$198.00**

PITOT STATIC SUMP BOTTLE

This pitot-static sump bottle collects moisture in the aircraft's static system which prevents water damage to panel mounted instruments. Used in many Cessna aircraft. Measures 1.625" dia. x 4.75" long.
Cessna.....P/N 10-00630 .....**$13.50**

STATIC PORTS

Aluminum static port for mounting through 9/16" dia. hole in side of fuselage. Base has 1/8" NPT female port for connecting to static line (polyethylene fitting included). Install with 3/32" dia. flush rivets.
P/N 15160 .....**$16.85**

Aluminum static port mounts from outside of fuselage through 9/16" dia. hole. Secure to skin with 9/16" Pal nut & lock washer on inside. Includes (1) 0700-153 polyethylene fitting.
P/N 15165..... **$19.50**

Aluminum static port mounts from outside of fuselage through .560 dia hole. Secure with four countersunk 100o 3/32" rivets. Includes one 0700-153 polyethylene fitting.
P/N 15175..... **$18.90**

Aluminum single engine cessna type static port. External mounted through a 19/64" hole. Can be used on fabric, composite or aluminum. No need for rivets. 1-3/8" dia.x1" depth. Ideal for homebuilts of all types.
P/N 10-00250.....**$17.75**

BOND-IN STATIC PORT SET

This aluminum static port is designed for high performance composite aircraft. Simply bond through the fuselage from the outside. Base has a 1/8" NPT for connecting to the static line. Furnished with installation instructions. Sold in set of 2.
P/N 10-00229 ..... **$39.95**

AEROGIZMOS PITOT TUBE

Incorporates the mount and the tube in one convenient unit, making it no longer necessary to have a separate mount. This unit further enhances the building experience as there is no protruding mast from the wing if it is to be stored during the building process. Made from a single piece of 6061 aluminum making it strong and long lasting. The unit has been lightened in the interest of weight savings. Not for IFR use. P/N 10-03633 .....**$199.00**

WINTER PITOT TUBE

The pitot tube is the sensor for aircraft instruments. It consists of a cylindrical tube open at the front to sense total pressure (measuring pressure for airspeed indicators) and slotted along the sides to sense static pressure. These pressures must then be carried to the instruments by hoses. .....P/N 10-03854 ... **$29.25**

HEATED PITOT TUBES

AN5812 PITOT TUBE - This heated pitot tube mounts under the wing. Used on Mooney, Beech, Piper, Maule, American Aviation aircraft, Glasair & Glastar. Threaded outlet fits 1/4" size AN tube fittings. Use 2.023x.857x.049 4130 Streamline Tubing to fabricate mount. AN5812-12 (12V) (10 amp.) **$879.95**
AN5812-1 (24V) (15 amp.) **$837.00**
Phenolic connector receptacle P/N 10-00032..... **$69.50**

AN5814 PITOT-STATIC TUBE - Same design as AN5812 pitot tube but with heated static tube added. Used on Glasair & Glastar (Piper No. 305-12).
AN5814-12 (12V) (20 amp.) **$2,024.00**
AN5814-2 (24V) (15 amp.) **$1,876.00**

AN5813-1 PITOT TUBE - The AN5813-1(PH500) is the standard replacement heated pitot tube for twin Cessnas with 24V systems. Draws 3-4 amps and measures 93/4" long. Mounts in 1.18 diameter tube. Dull finish.

P/N 10-00064 ..... **$954.50**

FALCON HEATED PITOT TUBES

The AN5812 heated pitot tube has been used on a wide variety of aircraft over the years and is now available for experimental aircraft. Made from brass and weighing 1.5 lbs, these imported pitot tubes meet the AN specifications.

Model No.	Description	Part No.	Price
12-AN5812	12V, standard	10-00984	**$589.00**

GRETZ GA-1000 HEATED PITOT TUBE

The Gretz Aero GA-1000 is molded from a very high-tech polymer material that has nearly the same thermal conductivity as that of metal. This design has electronics embedded in the Pitot tube. Comes with a small electronic control module to control the heat of the Pitot as well as to provide information to the pilot regarding thermal and heater performance of the Pitot tube. A 3/16" diameter multi-conductor cable that has a LED board already attached that will mount conveniently on the panel. Will fit the Gretz mounting bracket kits that were designed for other popular Pitot tubes. Come with the electronic control module, the LED board and cable, Pitot mounting screws, electronic control module mounting hardware, and complete instructions for installation and use. P/N 10-01715 .....**$425.00**

GRETZ GA-500 UNHEATED PITOT TUBE

The Gretz GA-500 is the same shape and color as the heated GA-1000 Pitot tube, but does not include the heater, electronic instructions, etc. It will mount into the same Gretz mounting bracket kits.
P/N 10-01716 .....**$125.00**

WELDED PITOT TUBE ASSEMBLY

This non-heated non-IFR welded pitot tube assembly. It is intended for the experimental VFR aircraft market. The tube and mast are from 4130 tube welded in a fixture to assure alignment. The orifice is produced from aircraft grade aluminum. The pressure tube is polyethylene for easy connection to the aircraft pitot system. Dimension: 6" x 5" x 2-1/2"
P/N 10-03637 .....**$148.95**

FALCON GAUGE PITOT TUBE MOUNTING BRACKET

This Falcon Gauge Mounting Bracket for Pitot Tubes works with heated and non-heated tubes.Material: Aluminum Alloy
Standard Mounting Bracket.....P/N 10-01063 ... **$37.50**
Mounting Bracket for RV's .....P/N 10-02276 ... **$99.00**

SPACEAGE HEATED PITOT-STATIC PROBES

Avionics engineers needing AN5812-mount pitot tube and AN5814-mount pitot-static tube compatibility but requiring the latest in low-power, low-mass, and small-size technology can now specify SpaceAge Control 4380-tpe air data probes. Meet FAA TSO C16a deicing requirements. Weighs in just 1/4 pound, and have a power consumption of just 45 watts continuous.

Description	Drain Hole	Part No.	Price
4450-03 Pitot-Static 28V	Top	10-03640	**$1,069.00**
4450-04 Pitot-Static 28V	Bottom	10-03641	**$1,069.00**

IN

ANGLE OF ATTACK INDICATORS

SPACEAGE PITOT

Offer the lowest power consumption and lowest weight available to the general aviation market. A small tip diameter of .31 inches allows the sensing tip to remain free of ice under severe in-flight icing conditions at only 50 watts of power. Constructed of highquality corrosion resistant materials – a stainless steel outer shell on the nose section, aluminum body, stainless steel pressure lines, and aircraft grade lead wires.

THE REDDISH STALL WARNER

Developed in the UK by Nigel Reddish, these stall warners have been installed in many RV series aircraft. the vane is ground adjustable and installation is simple. Includes a micro switch and vane. For experimental aircraft only.***Note:*** The Mark 2 Version is practically the same as the Mark 1, the only difference is the vane on the Mark 2 is longer. The installation is the same as the Mark 1.only.

Mark I ..... P/N 10-00189..... **$89.95**
Mark II ..... P/N 10-02686..... **$89.95**

RITE ANGLE BASIC SYSTEM AOA

The RiteAngle Basic, is a high quality AOA system for aircraft without flaps. This is the most accurate low cost AOA system available to customers today. **Note: The Basic system is for aircraft without flaps only.** The RiteAngle™ Basic uses electronics not available during earlier designs of RiteAngle™ systems. Although operationally similar to prior RiteAngle products, the RiteAngle Basic is a totally new, more efficient, economical design. It is a modern up to date system, that accurately determines your aircraft's angle of attack. This series uses our proven, easy-to-understand, five LED display. Green indicates Safe, Amber indicates Caution, and Red indicates Danger. The "On Speed" AOA, 1.3 Vso will be correct, regardless of bank angle, density altitude, or any of the other variables where the airspeed might be inaccurate

P/N 11-10388 .....**$315.00**

RIGHT ANGLE BUDDY AOA

The RiteAngle™ Buddy also uses electronics not available during design of the initial RiteAngle™ systems. Although it is similar to the prior RiteAngle systems, for aircraft with no flaps, The RiteAngle Buddy operationally, is a totally new design using an enhanced display.

Note: The Buddy is for aircraft without flaps only. The RiteAngle™ Buddy is a modern, up to date system that accurately determines your aircraft's angle of attack. This series uses an improved easy-to-understand LED display. This instrument is designed to FAA standards. Green indicates safe, amber indicates caution, and red indicates danger. P/N 11-06626 .....**$410.95**

Ema AOA Basic And Buddy Sensor..... P/N 11-10392.....**$50.00**

RITE ANGLE ELITE SYSTEM AOA

With the RiteAngle Elite system you have the advantage of having a system which was designed to the FAA guidelines for use on certified aircraft, without all the expense of tracking of parts and having it assembled by a PMA facility, and of course not having to pay for the time, effort, and work involved in getting the STC!

The RiteAngle™ Elite is a modern, up dated system that accurately determines your aircraft's angle of attack. Easy to understand - Green Safe, Amber Caution, Red Danger. There are no computed values, the vane actually measures the relative wind.

Ema Elite Angle Of Attack ..... P/N 11-10389.....**$750.00**
Ema AOA Small Vane Option..... P/N 11-10390.....**$49.95**
Ema Elite Enhanced Display Opt ..... P/N 11-10391.....**$175.00**

AOA PROFESSIONAL MODEL

This angle of attack instrument is designed for experimental aircraft pilots. The AOA Professional includes a four color liquid crystal display and a aural voice system which warns of critically high AOA, gear position errors and installation/hardware errors. There are no ugly probes, vanes or protrusions to slow you down or accumulate ice.

For Composite Construction
P/N 10-00016..... **$1,479.00**
For Metal Construction
P/N 10-00736..... **$1,479.00**

AOA SPORT MODEL

Designed for those tight panels, requiring simplified features but still uses revolutionary patent pending sensing techniques. This angle of attack instrument is only 1/2" wide by 1-3/4" by 1-1/4" deep overall and will fit on or under your glare shield or between instruments as a panel mount in either the vertical or horizontal position. The display is a three color LED ladder and includes the same aural voice warnings as the AOA Professional. It can be powered with a 9V battery or by standard 14 or 28 aircraft bus systems. Excellent for RV's, Glasairs, Lancairs, and other homebuilts.

For Composite Construction
P/N 10-04792..... **$874.00**
For Metal Construction
P/N 10-04793..... **$874.00**

SAFE FLIGHT PRE-STALL WARNER

Warns by light and horn of any danger of an approaching stall regardless of the flight maneuver. Never signals unless a stall is imminent. Consists of an instrument panel unit (fits standard 2.25" hole) containing a warning horn & signal light, and a small vane wing unit which operates a relay. Operation of the instrument doesn't depend upon air speed but rather on the air flow conditions of the wing. Complete with installation kit & instructions. Installation time: 2-6 hours.

Description	Model	Part No.	Price
Complete Lit	164R (12V)	164R	**$2,978.00**
	164S (24V)	164S	**$2,958.00**
Lift Detector	164	164	**$1,898.00**
Horn & Light	R (12V)	10-22712	**$1,459.00**
	S (24V)	10-22724	**$1,089.00**

ACI STALL WARNER

Few pilots need reminding of the catastrophic consequences of an unintentional stall at low level. A frequent sequence of events is distraction of pilot attention, leading to lack of speed control, with the stall rapidly followed by rotational entry into a spin. Steep ground impact follows all too quickly. We all know about this, but why do stall accidents continue to kill pilots and their passengers year after year? Factors include the rapidity with which our low inertia aircraft lose airspeed, their sensitivity to gusts, the higher frequency of engine failure - and so on. However, very few Experimental and PFA aircraft are fitted with audible stall warners, and yet we are flying aircraft that need them. Virtually every certified production light aircraft has a stall warning system as standard. The ACI Stall Warner is for experimental aircraft only. P/N 10-00235..... **$311.00**

MPL 503 AIR PRESSURE SWITCH

MPL 500 Series switches offer pressure, vacuum, and differential sensors, sensitive to as low as 0.05 in/H 2 O. Their accuracy and reliability offer the designer an excellent general purpose low pressure to electric interface for monitoring and control applications. Miniature size and low cost make the 500 Series ideal for OEM applications. MPL 503 is a Range B switch, which is 0.50 to 3.00 in/H2O

ALPHA SYSTEMS AOA KITS

AOA-5060K MECHANICAL KIT (3-1/8" MOUNT)

The Alpha System AOA mechanical kit includes everything needed to install an angle of attack gauge in any aircraft. This kit includes probe, probe mounting plate, all fittings, 21 feet of hoses and the AOA gauge with a 3-1/8" standard panel instrument opening mount. PN 11-05601 .....**$695.00**

AOA-5070K MECHANICAL KIT (DASH MOUNT)

The Alpha Systems AOA Mechanical Kit includes everything needed to install an angle of attack gauge in any aircraft. This kit includes probes, probe mounting plate, all fittings, 21ft. of hoses, the AOA gauge, and custom dash mount with mounting plate.
PN 11-06446 .....**$745.00**

AOA-5050K MECHANICAL KIT (2-1/4" MOUNT)

The Alpha Systems AOA mechanical kit includes everything needed to install an angle of attack gauge in any aircraft. This kit includes probe, probe mounting plate, all fittings, 21 feet of hoses and the AOA gauge with a 2-1/4" standard panel instrument opening mount. PN 11-05599 .....**$695.00**

AOA-2000K ELECTRONIC KIT (2-1/4"ROUND DISPLAY)

The Alpha Systems AOA electronic kit includes everything needed to install an angle of attack display in any aircraft. This kit includes probe, probe mounting plate, all fittings, 21 feet of hoses, the AOA digital control module with audio beeper, power cord and round LED display with a 2-1/4" standard panel instrument opening mount.
PN 11-05596 .....**$895.00**

AOA-3000VK ELECTRONIC KIT (VERTICAL DISPLAY)

The Alpha Systems AOA electronic kit includes everything needed to install an angle of attack display in any aircraft. This kit includes probe, probe mounting plate, all fittings, 21 feet of hoses, AOA digital control module with audio beeper, power cord and 4" bar graph LED vertical display.
PN 11-05597 .....**$895.00**

AOA-3000HK ELECTRONIC KIT (HORIZONTAL DISPLAY)

The Alpha System AOA electronic kit includes everything needed to install an angle of attack display in any aircraft. This kit includes probe, probe mounting plate, all fittings, 21 feet of hoses, AOA digital control module with audio beeper, power cord and 4" bar graph LED horizontal display. PN 11-05598 .....**$895.00**

Visit our website to see how it works and to download product brochures.

AOA HEATED PROBES

Heated Probe has a built in heater of 12V DC that minimizes the potential for ice build up on the leading edge of the probe. Probe comes complete with high temperature fittings and tubing. It is a drop in replacment and can be used or upgraded in the existing Alpha Systems AOA mounting plate.
12V Heated Probe.....P/N 11-09983 .....**$157.95**
24V Heated Probe.....P/N 11-09984 .....**$157.95**

ENHANCED CLASSIC 2 1/4" ROUND PANEL MOUNT KIT

The AOA 2000 REK Enhanced Classic 2 1/4" Display Kit incorporates the same great performance of the Standard Classic Kit plus it has an inline display disconnect connector, a direct stereo connection of a built-in audio interface system for multiple selectable tones or voice warnings. 16 (5mm) ultra birght, colored LED readout of available lift when calibrated to the aircraft.
The kit comes complete with all parts including the AOA probe, mounting hardware, 9"x9" mounting plate, fittings, 25 ft of blue and white hoses, AOA interface module, display, prewired interconnect cables, installation and calibration manuals. P/N 11-10455 .....**$1,050.00**

ENHANCED CLASSIC 4" VERTICAL LED ELECTRONIC KIT

The AOA 3000VEK Enhanced Classic 4" Vertical Display kit incorporates the same great performance of the Standard Classic kit plus it has an inline display disconnect connector, a direct stereo connection of a built-in audio interface system for multiple selectable tones or voice warnings. 16 (5mm) ultra birght, colored LED readout of available lift when calibrated to the aircraft.
The kit comes complete with all parts including the AOA probe, mounting hardware, 9"x9" mounting plate, fittings, 25 ft of blue and white hoses, AOA interface module, display, prewired interconnect cables, installation and calibration manuals. P/N 11-10456 .....**$1,050.00**

ENHANCED CLASSIC 4" HORIZONTAL LED ELECTRONIC KIT

The AOA 3000HEK Enhanced Classic 4" Horizontal Display kit incorporates the same great performance of the Standard Classic kit plus it has an inline display disconnect connector, a direct stereo connection of a built-in audio interface system for multiple selectable tones or voice warnings. 16 (5mm) ultra birght, colored LED readout of available lift when calibrated to the aircraft.
The kit comes complete with all parts including the AOA probe, mounting hardware, 9"x9" mounting plate, fittings, 25 ft of blue and white hoses, AOA interface module, display, prewired interconnect cables, installation and calibration manuals. P/N 11-10457 .....**$1,050.00**

ENHANCED ULTRA 2 1/2" VERTICAL LED ELECTRONIC KIT

The Enhanced Ultra 2 1/2" Vertical AOA Display kit features include an inline display disconnect connector, a direct stereo connection of a built-in audio interface system for multiple selectable tones or voice warnings and a 16 (5mm) ultra birght, colored LED readout of available lift when calibrated to the aircraft.
The kit comes complete with all parts including the AOA probe, mounting hardware, 9"x9" mounting plate, fittings, 25 ft of blue and white hoses, AOA interface module, display, prewired interconnect cables, installation and calibration manuals. P/N 11-10458 .....**$1,300.00**

ENHANCED ULTRA 2 1/2" HORIZONTAL LED ELECTRONIC KIT

The Enhanced Ultra 2 1/2" Horizontal AOA Display kit features include an inline display disconnect connector, a direct stereo connection of a built-in audio interface system for multiple selectable tones or voice warnings and a 16 (5mm) ultra birght, colored LED readout of available lift when calibrated to the aircraft. The kit comes complete with all parts including the AOA probe, mounting hardware, 9"x9" mounting plate, fittings, 25 ft of blue and white hoses, AOA interface module, display, prewired interconnect cables, installation and calibration manuals. P/N 11-10459 .....**$1,300.00**

ENHANCED LEGACY VERTICAL AOA DISPLAY KIT

The "Enhanced Legacy" line of AOA display kits utilize ultra bright LED driven colored segments to give the pilot AOA readout when calibrated to the aircraft. Kit features a direct stereo connection of a built-in audio interface system for multiple selectable tones or voice warnings with display connector quick disconnect, electronic pushbutton calibration. The "Enhanced Legacy" display is housed in a billet aluminum case and comes standard with panel mount brackets. Additional glare shield mounting options allow for the display to be mounted above the glare shield in the pilot's peripheral vision.
Kit includes probe, probe mounting plate, all fittings, 25 ft of hoses, instruction manual, AOA digital control module, power cord, aux cable and 2 1/2" chevron style, LED driven dsplay.
P/N 11-10460 .....**$1,600.00**

FALCON COMPASS SOUTHERN HEMISPHERE WITH MOUNTING BRACKET - MCVC-2SL-AM

It is easy to read presentation and see the complete 360 degree dial in proper relation to your aircraft heading. 12V DC, lighting. 2-1/4" P/N 10-04490 .....**$246.95**

PRECISION VERTICAL CARD COMPASS

The Precision Vertical Card Compass is a totally new concept for today's aircraft. It is a dry compass, designed to replace the float/liquid type compass; no more leaking fluid or backward azimuth readings. It uses eddy current damping and as such has no overshoot. It consists of a 2"vertical rotating dial which is compared with a fixed miniature airplane (lubber line) to present the magnetic heading of the aircraft at all times. Heading information is more natural because the heading is read at the 12 o'clock position and off the nose of the miniature aircraft. The compass card rotates and presents all quadrants in their true relation to line of flight. Requires no power (except for lighting) to operate. Fully TSO'd. Installed in many current production aircraft and helicopters. Size: 2-7/8"H x 2-3/8"W x 2-1/8"D. Wt. 0.6 lb. After installation, compass must be compensated using standard compensation procedures. Also used in sailplanes. ***Bracket / mount is required for installation and is not included with unit.***
14V..... P/N 10-00421..... **$288.95**
28V..... P/N 10-00423..... **$288.95**

For Southern Hemisphere Add "-S0" to Part Number.

COMPASS COMPENSATOR

Very sensitive to stray magnetic fields within the aircraft. If the compensators of the compass will not bring the compass within tolerances, it will be necessary to install the HBB47S compensator ("balanced balls"). These balls contain magnets which permit the compass to be properly compensated. Instructions furnished. P/N 10-07900 ..... **$43.85**

MAGNETIC COMPASS SHIELD

Use this .005" x 5" x 12" metal strip to shield the precision PAI-700 compass from magnetic interference in the instrument panel. P/N 11-00973 ..... **$19.75**

NON-MAGNETIC SCREWDRIVER FOR COMPASSES

This small non-magnetic screwdriver blade is ideal for adjusting magnetic compasses. This blade is durable, corrosion resistant, & can be put on a key chain until needed. .....P/N 10-07930..... **$4.35**

IN

SIRS "PEGASUS" (TSO'D)

Utilizes the most advanced technology and manufacturing methods to produce the most accurate compass in the industry. It utilizes high quality components throughout, including Silicone rubber seals, metal expansion bellows, and Tungsten Carbide pivots. Has a high-visibility spherical display, and can be viewed over a 140° arc instead of the standard 90°. Fits standard 2-1/4" panel hole (by 2-1/4" deep) and weighs only 30% of a typical liquid compass. The "Pegasus" comes in blue/white lighted or unlighted versions, and has a 3-yr. warranty.

SIRS NAVIGATOR NV2-2400X

Designed to be installed on the glareshield using the same location holes required for other compass installations. The compass rose suspended in a silicone-based fluid and features silicone seals to eliminate the problem of leaks and fluid evaporation. Metal expansion bellows allow for flexing in high-altitude, unpressurized flight. The display shows 140° of heading, as opposed to the 90° view offered by standard compasses. TSO'd Navigator comes in 6, 12, & 28V configurations, with a 3 year warranty.

SIRS MASTER COMPASS

Designed to indicate very accurate magnetic headings. The compass card is graduated in 1/2 degree intervals and the compass is supplied with a calibration chart indicating any deviations in minutes of arc. Ideal for use with larger aircraft. A specical reverse-read version (954-2399REV) is available to indicate the same headings as those read from the aircraft instruments during the compass swing operation, when viewing from the front of the aircraft. Magnetic headings are viewed through a magnified prism and a special mounting Tripod is available (non-magnetic tripod) to ensure steady readings PN 10-04231 Warranty: 3 years Accuracy: Better than 30 Minutes Tilt: 7 Degrees

Standard Compass.....P/N 10-04230 .....**$2,474.00**
Reverse Read Compass.. P/N 10-04817.....**$2,474.00**
Tripod..... P/N 10-04231 .....**$865.00**

SIRS HAND HELD PRISMATIC MASTER COMPASS

Designed to meet demanding requirements of the Aviation and Military environments where accurate bearings are required. Supplied with a calibration certificate and can be configured with reversed readings to assist with aircraft wings. Ideal for use with small to medium aircraft. The liquid damped card is divided in 2 degree increments.Warranty: 3 years. Dial Markings: DegreesTilt: 15 Degrees.

Standard Compass.....P/N 10-04232 .....**$1,294.00**
Reverse Read CompassP/N 10-04816 .....**$1,334.00**

MID-CONTINENT INSTRUMENTS CARBURETOR TEMPERATURE INDICATORS

The MD-11 carburetor temperature gauge & B-5 temp. probe are designed to help eliminate carburetor icing by early detection, reduce spark plug fouling, extend engine life, increase range & power, and maximize fuel economy. Designed for use with most Marvel-Schebler & Bendix float type carburetors. FAA approved. Mounts in 2-1/4" instrument hole.

14V carb air temp indicator only .....P/N MD-11-3 ..... **$510.00**
28V carb air temp indicator only .....P/N MD-11-4 ..... **$510.00**
B-5 probe only.....P/N B-5..... **$320.95**
Mating Connector.....P/N 10-01563 ..... **$11.90**
14V Carburetor Air Temperature Kit .....P/N 10-02759 ..... **$777.00**
28V Carburetor Air Temperature Kit .....P/N 10-02760 ..... **$747.00**

ICEMAN CARBURETOR ICE DETECTION SYSTEM

Fits into a 2-1/4" or 3-1/8" instrument cut-out (or optional bracket) on the panel. The system works on normal 12 or 24V aircraft electrical systems. No temp gauge, no worries about humidity, no graph. Enables an interface with the audio panel, effectively "piping" the ice alert warning sound right into the headset. The ICEMAN is a sealed, solid state unit weighing only 5oz and is currently approved by the FAA in the United States, certified by the CAA, by Transport Canada, and validated in Australia. Probe is included with the system. The Iceman is approved for most general aviation aircraft. Approval list available on request

Iceman System (2-1/4")..... P/N 10-00057 .....**$369.00**
Replacement Probe..... P/N 10-00059 .....**$58.75**
Remote Mounting Brckt (for 2-1/4" only).....P/N 10-00060 .....**$12.50**
Patch Cord kit..... P/N 10-00057-1 .....**$20.75**
3" Front Plate..... P/N 10-02163 .....**$13.00**

ARP CARBURETOR ICE DETECTION SYSTEM

Made in USA. Available in three (3) different mounting configurations (Panel Mount, Remote Mount and Universal Mount) thus providing flexibility for any aircraft installation. GIVES UP TO 5 MINUTES WARNING TIME by illuminating a RED visual ice warning light. LIGHT WEIGHT less than 13 ounces. SIMPLIFIED INSTALLATION keeps installation cost down – approx. 1 to 3 man-hours. WARRANTY 3-Years on Electronics Box and 1-Year on Probe. FAA-STC SA489EA APPROVED for normal, utility and acrobatic airplanes and helicopters equipped with Continental, Franklin and Lycoming type engines and Precision Air-Motive (Facet or Marvel-Schebler) MA-2, MA-3, MA-3A, MA-3SPA, MA-4, MA-4-5, MA-4SPA, MA-5, MA-6, MA-6AA and HA-6 series carburetors. Installation on other aircraft not specified on the STC may be performed via FAA Form 337. FAA-PMA APPROVED for installation on Type Certificated aircraft.

FC-10 With Out Sender.....P/N 10-03152 ....**$235.95**

FLIGHT DATA SYSTEMS AFP-30 FUEL COMPUTER

Designed for the experimental aircraft owner who wants instantaneous flight information previously reserved only for transports and private jets. Features complete Winds Aloft information, Airspeed information including: True Airspeed and Mach number, Altitude information such as Density Altitude and Vertical speed, and both Total and Saturated Air Temperature. Complete with GPS communication enabling it to display fuel computer data. The Performance Computer function calculates, instantaneously, Percent Horsepower based on the engine manufacturer's power chart. Backup Tachometer and Manifold Pressure indications. Compatible with most handheld and panel mount GPS units. .....P/N 10-03154 ..... **$699.00**

IN

ENGINE GAUGES

2-1/4" UMA MANIFOLD PRESSURE GAUGES

Manifold pressure is one factor used to obtain correct power setting of the engine. The indicators are temperature and altitude compensated. Matte-white dials. Units are new. Manufactured by UMA.

2-1/4" Gauge, 10-50 Hg. ..... P/N 10-11200 . **$131.95**

Adapter Nuts Only: 44-0024 5/8-18UNF x 5/8-18UNF **$9.95**

SCOTT OIL TEMPERATURE GAUGE

FAA Approved for Aeronca 7ECA, 7GCAA, 7KAB, 7GCBC, 8KCAB, 8GCBC. Model 13340-00 Kit is designed for panel holes of 2 1/16" diameter to 2 1/8" diameter, equipped with an adapter to fit a 5/8"- 18 female thread. For panel holes exceeding 2 1/8" diameter and up to 2 3/4" diameter, accessory washers are available for easy installation. Capillary tubes for AVOX Systems Oil Temperature Gauges are a standard 5' long. Range: 100°F to 250°F.

P/N 10-04647 ..... **$199.75**

MECHANICAL OIL TEMPERATURE GAUGE

A quality gauge which is complete with all installation fittings. Range is 100-250° F. 5/16-18 female capillary adapter fitting. 60" lead length Not FAA approved. P/N 10-00954 ..... **$113.95**

OIL TEMPERATURE BULB ADAPTER

Brass fitting used to shorten long capillary bulbs for use in light aircraft engines. Internal 5/8-18 threads mate with fitting on bulb. External 5/8-18 threads fit into engine.

P/N 95527 ..... **$6.90**

MILITARY OIL PRESSURE GAUGE

AN5771-2 Military style gauge with sq. case. Mounts in 2-1/4" dia. hole. New surplus. Matte-White Dial (0-150 PSI)

P/N 10-00955 ..... **$249.95**

MECHANICAL OIL PRESSURE GAUGE

Scott's quality Oil Pressure Gauge features 0-120 PSI range and 1/8 NPT thread on flared tube fitting. Not FAA Approved P/N 10-00956 ..... **$228.95**

OIL PRESSURE INSTALLATION KIT

This kit contains 4 Weatherhead brass fittings with 1/8" pipe thread & 6 ft. of 1/8" Nylo-Seal tubing. Compatible with most mechanical oil pressure gauge installations.

P/N 10-12000 ..... **$5.50**

MS28034-3 ENGINE TEMPERATURE SENSOR

Presently in use in government and general aviation industry under liquid and gaseous conditions, this sensing device exceeds stringent U.S. Military Specifications for response time, burst pressure, and AC high potential tests.

P/N 10-01668 ..... **$158.50**

3-IN-1 GAUGES (ELECTRIC OIL TEMP)

Oil temperature range is -50° to 150°C, oil pressure 200 psi, fuel pressure 0-25 psi. The pressure gauges operate by direct connection to the appropriate system and the oil temperature by an electrical resistance bulb probe. New installation requires Cannon plugs & cable clamps for instrument and resistance bulb.

Certified Overhauled Unit - Gauge ..... P/N 10-12800 ..... **$595.00**

KELLY MANUFACTURING TORQUE INDICATORS

P/N 10-03441

Our Torque Indicators are a wet line, direct reading bourdon tube type instru-ment, housed in a 2" diameter case. Unit can be calibrated over a wide rage of PSI input to direct read torque. Units can be furnished to your specifications. Indicate needed pressure input and pressure-to-torque conversion. This unit cannot be damaged by oil back up in vent line. DIMENSIONS: 2" diameter x 2.125" length, Weight: 0.4 lbs, Power: Wet line direct reading pressure gage

Model No. / Part No.	Description	Price
27-3007-1 P/N 10-03441	0 to 1800 FT/LB, Green Arc 0 - 1628, Red Line at 1628	$469.95

UMA OPTIONAL INTERNAL LIGHTING

Optional internal lighting for all UMA 2-1/4", 3-1/8" instruments (except altimeter). This is just a lighted option. Order the instrument in addition to the internal lighting. ..... P/N 11-07239 ..... **$49.95**

UMA 3 IN 1 ELECTRONIC INSTRUMENT

While rumors have been circulating regarding a new way to maximize on space, saving instruments, UMA has now developed a product line that can combine any three electronic instruments into a 3-1/8" case. Standard product is with black and white dials, but UMA's reputation is to provide custom range markings and to meet customer demand for specific design. THe 3-in-1 can now satisfy space saving, custom markings, and combine any selection of 3 instruments into a 3-1/8" opening to fit your needs ...Customization is Great!!

UMA ELECTRONIC 2-1/4" WATER TEMPERATURE 270° GAUGE

2-1/4 inch UMA Electronic (UMA P/N T12212U300F000) Water Temperature Gauge Range: 100-300 deg. F TSO2-1/4", 100-300 °F TSO'd
P/N 10-02428..... **$188.95**

UMA ELECTRONIC 2-1/4" CARBURETOR AIR TEMPERATURE 270° GAUGE

These gauges use either thermistor or electronic sensors. Standard markings are black and white.

2-1/4", -60-120 °F TSO'd..... P/N 10-04670..... **$188.95**
2-1/4", -20-120 °F..... P/N 10-02391 ..... **$131.95**

UMA TSO'D 2-1/4 CARBURATOR AIR TEMPERATURE GAUGE

TSO'd Carburetor Temperature 2 1/4" gauge. Range from -60 - 120°F.

NOTE: This is the standard black and white gauge. For color range markings as shown you must add the color range markings part no. to your order.

P/N 10-03465 ..... **$188.95**
UMA Color Range Markings..... P/N 10-02792 ..... **$125.00**

UMA 2-1/4" ELECTRONIC MANIFOLD PRESSURE 270° GAUGE

Electronic Manifold Pressure gauges connect to a pressure transducer which connects to the aircraft's engine and indicates the absolute pressure in the intake manifold of the aircraft. These units are very precise and avoid plumbing issues. Standard markings are black and white.

2-1/4", 5-35 IN. HG..... P/N 10-02389 .. **$131.95**
2-1/4", 5-50 IN/ HG..... P/N 10-02390 .. **$132.95**

SENDER NOT INCLUDED

UMA 2-1/4" ELECTRONIC OUTSIDE AIR TEMPERATURE

The digital Outside Air Temperature (O.A.T.) is available in either Fahrenheit or Celsius. Standard models use a Red LED display.

2-1/4", -40-60 °C, 270° ..... P/N 10-02387 ... **$185.95**
2-1/4", -40-140 °F, 270° ..... P/N 10-02388 ... **$185.95**
2-1/4", 0-100 °C..... P/N 10-00205 ... **$218.95**
2-1/4", -40-165 °F..... P/N 10-00206 ... **$218.95**

SENDER INCLUDED

UMA DUAL AMP/VOLTMETERS

These 2-1/4" dual amp voltmeters are ideal for any aircraft where panel space is limited. Amperage is displayed at all times, and simply push a button to display voltage. Complete with gauge and shunt. Voltage range 0-30 volts.

Range: 30 amp..... P/N 10-14680 ..... **$261.95**
60 amp..... P/N 10-14685 ..... **$261.95**
80 amp..... P/N 10-14690 ..... **$261.95**
100 amp..... P/N 10-14695 ..... **$261.95**
0-150 amp ..... P/N 10-00082 ..... **$261.95**
UMA Optional internal lighting..... P/N 11-07239 ..... **$49.95**

AMMETERS

These new manufactured ammeters offer accuracy, rugged construction, and contemporary styling. Made in U. S. A. Furnished with shunt. Size: 2-1/4".

Range: 0-30 (0 center)..... P/N 10-14650 ..... **$178.95**
0-60 (0 center) ..... P/N 10-14655 ..... **$177.95**

2-1/4" 0-20 GPH .... P/N 10-03706 .. **$164.95**

Turbine FlowTransducer

UMA 2-1/4" FUEL AIR BOX 270° PRESSURE

Electronic, Fuel/Air-box Differential Pressure gauges and senders are designed for the Rotax 914 engine but have other applications where differential pressures need to be measured. It eliminates having to calculate the fuel/air-box differential pressure by looking at two separate gauges and having two separate senders.

2-1/4" 0-7 diff. PSI (U)
P/N 10-00979 ..... **$177.95**
SENDER NOT INCLUDED

2-1/4 inch UMA Fuel Airbox Pressure Case: Valox 420 Plastic Weight: 4.8 oz.

UMA OPTIONAL INTERNAL LIGHTING

Optional internal lighting for all UMA 2-1/4", 3-1/8" instruments (except altimeter). This is just a lighted option. Order the instrument in addition to the internal lighting. ..... P/N 11-07239..... **$49.95**

UMA 1-1/4” ENGINE INSTRUMENTS

Monitor your engine’s vitals with a full line of space saving 1-1/4” engine instruments with 240 degree analog sweep. These instruments allow you the opportunity to utilize panel space without compromising readability. No longer do you have to decipher cluster gauges or push buttons for readings or try to concentrate on flashing numbers. These premiere UMA instrument are electronic and can be powered from 14 or 28 volts. Signals are acquired from remote mounted sensors, processed and displayed on analog dials with easy to read markings. Each gauge uses rugged aircore meter movement for vibration resistance and repeatability. Each gauge can be placed in a 1-1/4” diameter hole and mounted behind the panel with (4) 6-32 screws. They can be cluster mounted as close as 11/2” centers. ***Senders are sold separately.***

UMA Technical Support: 800-842-5578.

Senders sold separately, optional internal lighting available, Range Markings available at additional cost.

KELLY MANUFACTURING CO. INSTRUMENTS

KELLY MANUFACTURING CO. AMMETERS

12-1100 Ammeters - This ammeter is similar to 12-1200 series except that zero amps are positioned at the left of the scale. To be used with 50 MV shunt. Dimensions: 2-3/8 x 2-3/8 x 2. Weight: .4 lbs approx. Voltage: 14 or 28 VDC

12-1200 Ammeters - Moving coil type, designed for aircraft use. Requires 50 MV shunt (12-902 series). Dimensions: 2-3/8 x 2-3/8 x 2 Weight: .4 lbs approx. Voltage: 14 or 28 VDC

Model No.	Range (Amps)	Part No.	Price
12-1100-1	0 to 30 amps	10-02555	**$375.95**
12-1100-2	0 to 60 amps	10-02556	**$563.00**
12-1100-3	0 to 80 amps	10-02557	**$375.95**
12-1100-4	0 to 120 amps	10-02558	**$782.00**
12-1100-5	0 to 150 amps	10-02559	**$375.95**

Shunt - 150 amps	12-902-10	10-02583	**$112.95**

KELLY MANUFACTURING CO. LOW VOLTAGE WARNING SYSTEMS

An amber light will come on at the moment of low voltage condition which will inform the pilot of attention needed to the alternator, generator, or voltage regulator. Any of these conditions allowed to continue will result in a weak or completely discharged battery condition and loss of radio and electrical equipment. Indicator light features a built in dimmer and press to test with amber lens. Lights will trigger at 13 volts for 14V systems and 25 volts for 28V system. Accuracy, plus or minus 0.2 volts. Size: 1/2" Dia. 3" Depth required behind panel. Weight: .2 lbs., Power: less than 1/10 amp. Fuse supplied with kit.

Model No.	Description	Part No.	Price
33-2013A	14 Volt, Red Lens Low Voltage Warning System	10-02572	**$154.50**
33-2013	14 Volt, Amber Lens with Dimmer Low Voltage Warning System	33-2013	**$156.95**
33-2025A	28 Volt, Red Lens Low Voltage Warning System	10-02573	**$154.50**

RCA40A-6 - 2" Prop Tachometer, Green Arc from 0 RPM to Red Line at 1700 RPM

RCA40AB-07

RCA40AB-07 - 2" Prop Tachometer, Lighted, Green Arc from 1400 RPM to Red Line at 1700 RPM.

RCA41A-07

RCA41A-07 - 2" Percent Tachometer, Type MU-1 (MIL 25623A)

Many years of experience were drawn upon in the design and development of these tachometers. Only the best time tested and field proven features were used. These instruments use a three phase alternating current synchronous motor powered by a remote tach generator. The simplicity of design results in a twofold gain: increased reliability and ease of overhaul. Dimensions: 2" diameter x 5". Weight: .7 lbs. Power: Tach Generator, MIL-G-9398. Connector: MS3106A-14S-5S

HOUR METERS – ENGINE GAUGES

HOBBS HOUR METERS

P/N 15000

P/N 15001

P/N 15006

P/N 15007

The Quartz + series of hour meters provide performance and reliability. Features include a highly reliable drive mechanism and odometer gear train combined with the accuracy of quartz crystal timing. Accurate to +/- 0.02% from -40° to 185°F. Total digital quartz readout is 9999.9 hours. Easy-to-read white numerals on black face dials. Sealed against dirt and moisture. Meets requirements of spec. MIL-L-3971B. Power: 10 – 32 V DC. Models 85094, 85001 and 85011 read "Total Hours". Model 85012 reads "Flight Hours".

TINY TACH TACHOMETER/HOUR METERS

RPM reading adjustable from 1 spark per 2 revolutions to 8 sparks per revolution. One TINY-TACH™ now works for most gas engines. RPM display from 1 to 19,000. RPM update time 1/2 second. Hour meter records total actual running time on your engine. Job timer can be reset to record run time for record keeping. Coax cable transmits signal without EMF interference. 1 Antenna cable winds around your spark plug wire to give you the RPM reading – clean and simple to attach. Signal strength can be controlled by the antenna wire. Standard cable length is 6 feet. This unit is potted to prevent damage from moisture and vibration. Lithium battery life 5+ years, not replaceable. One year warranty.

ENM VIBRATION ACTIVATED HOUR METERS

Features 6-digits with an hour glass as a running indicator - operates only when engine is vibrating. Install anywhere with no wired connection or power source to operate. Internal battery supplies all the necessary power for the gauge to operate for years of service. Total operating hours are always shown on the LCD display. Compact tamper-proof meter is sealed against the environment to provide years of service.

ENM Hourmeter DC Power ..... P/N ENMDC.....**$37.50**
ENM Hourmeter AC Power ..... P/N ENMAC.....**$69.75**

UNIVERSAL DIGITAL TACH/HOURMETER

Now both a digital tachometer and an hourmeter in the same low cost and small size package! No power required yet there is a large 7 segment LCD display. Solid state electronics with quartz crystal technology make this instrument highly reliable. Easy to install - just wrap the attached wire around your spark plug cable. The case is completely sealed, it operates in a wide temperature range and the service interval is programmable.
P/N TLPT14 .....**$46.85**

CURTIS HOURMETER

All solid state. Mount from front or back of panel in 1 3/8" by 7/8" hole. Requires 12 VDC.
P/N CUR701 .....**$35.00**

VOLTMETERS

These new manufacture voltmeters offer accuracy, rugged construction, and contemporary styling. Made in USA. 2 1/4" Range:

9-16V.....P/N 10-14620 .....**$131.95**
20-32V.....P/N 10-02064 .....**$131.95**

KOBRA TACH/HOUR METER

This tiny and portable RPM meter and hour meter unit is chip controlled, fully programmable, and is suitable for both two and four stroke engines: one product fits all engines. It keeps in memory the max RPM and the time the engine has been running: both values are resettable. Its two small batteries last for years before needing to be replaced. A strong velcro for fixing is included. Features: * Velcro set for attaching the RPM-H * 2m cable * Batteries Included * One product fits all engines in the market thanks to programmable chip * Battery can be replaced, virtually is a life long product * it registers max RPM of the life of the engine, which are resettable.
P/N 10-03573.....**$98.95**

DIGITAL FLAP INDICATOR

The Visual Instruments Flap Indicator system provides a means for owners of older aircraft to upgrade their troublesome indicators to a modern, more reliable design. The system includes a new transmitter, a modern digital display, and all parts necessary to perform the upgrade. The new display incorporates a color LED bar graph. The appearance is similar to flap indications shown on modern glass cockpits. Positions of more than 10° flap are indicated in a different color. This allows for easy identification during an emergency procedure such as a balked landing (go-around). The LEDs are very viewable from a wide angle. This is particularly useful since the indicator on many Cessna models is located on the right side of the panel. The display automatically adjusts to the ambient light for IFR or night operation. The Flap Indicator system includes all necessary parts and typically takes a mechanic approximately 2 hours to install. 5 year factory warranty. STCd for installation on early model Cessna 172s, 182s, 205s, 206s, & 210s. P/N 10-00240 .....**$495.00**

INSTRUMENT MOUNTING PODS

An economical, high-quality, easy-to-install solution to your instrument mounting problems. Made of vacuum-molded white and black ABS plastic with attractive black matte ABS faces. The white pod may be easily spray-painted with acrylic enamel to match your aircraft. Two-piece mounting brackets fit snugly around 1" tubing, secured with screws provided. Available for 2, 3, 4 or 5 instruments with the face precut and mounting holes drilled for either 2-1/4" or 2" instruments. Blank face plates also available. May be used horizontal or vertically. When you order, specify either 2-1/4"or 2" instruments holes or blank face plate. Instruments not included.

SHOCK MOUNTS

For vibration and shock proofing on instruments and radios.

10-02183 - 1" Square Plate Type Lord Mounts, 6 lb. rating. Monel mounting plate. Base holes .141" dia. for 6-32 screws. Center hole .166" dia. for 8-32 screw. New surplus item - like new mfg.
P/N 10-02183 ..... **$6.85**

200P-35 - 2" Square Plate Type Lord Mounts, 35 lb. rating. Steel mounting plate. Base holes .196" dia. for 10-32 screw. Center hole .391" dia. for AN6 bolt. P/N 10-00034 ..... **$16.75**

ROUND MOUNT – As used in Cessna aircraft. Overall length 1.25". Rubber molded on 8-32 threaded projections. New manufacture. Similar to Cessna P/N J6984-8. P/N 10-14700 ..... **$6.45**

LORD J-14290-4 INSTRUMENT SHOCK MOUNT -
5 lb rating • Metal mounting plate • .144 dia. base hole (screw size: #6) • .195 dia. center hole (screw size #10) • Aircraft: Cessna 182, 182A-182N
P/N 08-00381 ..... **$27.85**

RTC-2 AVIATION REAL TIME CLOCK & OAT DISPLAY

The RTC-2 is a 2.25" aviation Real Time Clock featuring a two time zone system, stopwatch, countdown timer, alarm and OAT (Outside Air Temperature) display. It is primarily intended to show UTC time (also known as Greenwich Mean Time, GMT or Zulu time) together with a local time to facilitate ordinary ATC time reporting.
P/N 11-06443 ..... **$225.00**

SCOTT TYPE FREE AIR THERMOMETER

Mounts through 3/8" dia. hole in windshield or cowling. Convenient scale reads in both Centigrade and Fahrenheit. Stem length is 4". Face diameter 2-1/8". Sunproof crystal. P/N 10-15500 ..... **$82.65**

KELLY MANUFACTURING CO. OUTSIDE AIR TEMPERATURE GAUGE

This quality manufacture outside air temperature gauge features a moving coil meter movement housed in a 2" diameter case. Operated by MS28034-2 type resistance bulb. Size: 2-3/8" x 2-3/8" x 2-1/4". Wt. 1 lb. Power: 14 or 28 VDC. Range -45°C/-50 to 120°C.
P/N 29-3003-14 ..... **$498.95**

KELLY MANUFACTURING 3 INCH ENGINE GAUGES 18-1000 & 18-1002 SERIES

P/N 10-03435

Consists of three independent gages contained within a standard 3" diameter case. Oil temperature and cylinder head temperature gages are moving coil meter movement operated by MS28034-1 and AN5546-1 resistance bulbs respectively. Connection for the temperature gage is by cannon type connector: P/N MS3106A-14S-2S. FAA TSO Approved C47.

Model No. / Part No.	Description	Price
18-1000-1 P/N 10-03435	28 VDC Oil Temp. 50°-250°F, Oil Press. 0-200 PSI, Cylinder head temperature 100 to 500°F	**$649.00**
18-1000-2 P/N 10-03436	28 VDC Oil Temp. 20° to 120°F, Oil Press. 0 to 200 PSI, Cylinder head temp. 50 to 250°F	**$649.95**
18-1000-3 P/N 10-03437	14 VDC Oil Temp 50°-250°F, Oil Press. 0-200 PSI, Cylinder head temp. 100-500°F.	**$649.95**
18-1000-4 P/N 10-03438	14VDC Oil Temp 20° to 120°F, Oil Press 0 - 200 PSI, Cylinder head temp. 50 to 250°F	**$649.95**

P/N 10-03439

18-1002 SERIES - This gage consists of three moving coil meter movements within a 3" diame-ter case. Oil temperature is sensed by an MS28034-1 resistance bulb and cyl-inder head temperature is sensed by an AN5546-1 resistance bulb. Oil pres-sure is sensed by a VDO Transducer. Connection is made by a single cannon type connector: Part Number MS3106A-14S-6S.

Note: Use MS3106A-14S-2S Cannon Plug for instruments and MS3106A-12S-3S for Resistance Bulb MS28034-1.

DIGITAL OUTSIDE AIR TEMPERATURE GAUGE

This high quality digital outside air temp. gauge gives constant and precise readings on a bright, easy-to-read digital presentation. Comes complete with probe and ready to install. Made in USA
Celsius.....P/N 10-00205 ..... **$218.95**
Fahrenheit .....P/N 10-00206 ..... **$218.95**

HYDRAULIC PRESSURE GAUGE

AN5771-4A Military style gauge with steel case. Mounts in 2-1/4" dia. panel opening. Range: 0-2000 PSI. Overhauled and Certified. With fresh Matte-white dial. P/N AN5771-4A **$215.95**

IN

CLOCKS – TIMERS

ASTROTECH QUARTZ CHRONOMETERS

A fine quality instrument to satisfy all cockpit clock/timer needs. 12 or 24 hour clock, 24 hour elapsed timer with time-out or hold feature, month and date. Will operate on internal battery for 2 years or can be connected to electrical system. 12 or 28V DC operation. **Does not include internal battery.**

Part no.	Model	Description	Price
10-15508	LC-2	Panel Mount Aircraft Powered 14/28V	**$334.95**
10-15512	LC-2A-5	King Air, 28 volts	**$995.00**
10-15513	LC-2A-6	Beechcraft 28V Clock	**$825.00**

NOTE: For Aircraft Application Information on Astrotech Chronometers visit www.aircraftspruce.com

LC-6 LIQUID CRYSTAL CHRONOMETER

The LC-6 is a 5-function, liquid crystal display, aircraft quartz chronometer. All functions contained in a single Large Scale Integrated Circuit (LSI) bonded directly to a printed circuit board. Features 6-digit local time or GMT stopwatch, 100-hour remote-activation timer, presettable down-counter. Unit mounts into standard 2.25" panel cutout, back-lit, may be wired into aircraft instrument panel lighting system (14 or 28V).

P/N 10-15503 ..... **$619.95**

FLIGHT DATA SYSTEM ELECTRIC TACHOMETER

Tachometer: Monitors both left and right ignition systems. Works with magnetos and electronic ignition. Warns when an ignition system has failed. Engine Hour Meter: Saves engine hours in "tach time" or actual time. Flight Timer: Automatically records flight Time. Features: Large and easy to read digits. Extreme operating temperature display. Soft orange backlight with automatic brightness. 2-1/4" panel mounted. Weighs 2.6oz. Includes pre-wired connector. 12-28 volt compatible

P/N 10-03898 ..... **$159.95**

AEROSPACE LOGIC DT1-F CLOCK/OAT

Includes a feature-rich aircraft chronograph with constant viewable Outside Air Temperature - all in one 2 1/4" mount instrument. For experimental aircraft. Programmable Features - CT1 allows you to configure the instrument just the way you need it. All clock functions are available in both 12 and 24 hour format with instant indication of the current operating format. Local time is calculated as an offset from UTC. Just set your offset. Programmable to 23 hrs/30 min. either side of the date line.

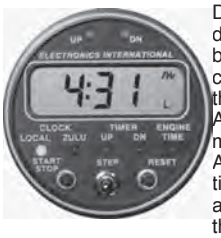
Other features: • MultiFunction Flight Timer • Down Timer • Outside Air Temperature • Hi-Tech Temperature Sensor • TSO & STC Certificate pending (Oct 2005) • Dimensions: 2.45" X 2.45" X 1.6"
• Weight: 8oz. • Power: 6V-40VDC P/N 10-01719 ..... **$424.95**

FALCON MULTI-FUNCTION DIGITAL CLOCK

Three clocks packed into one convenient, easy to use clock, providing the pilot with standard time, flight time and elapsed time. The bright red LCD display is easy to read day or night by adjusting brightness control. Regular time recorded in hours, minutes, and seconds. Four switches provide control and mode selection. Fits standard 2-1/4" instrument cutting hole.

Includes Connector. ..... P/N 10-00370..... **$239.95**
Replacement Connector..... P/N 11-04970..... **$17.25**

SUPERCLOCK FROM ELECTRONICS INTERNATIONAL



Displays local and Zulu time. May be set to display in a 12 or 24-hr format. A 10-year lithium battery keeps the clock running even if the aircraft battery is removed. Displays an Up Timer, that will start running when the engine is started. Acts as an automatic Flight Timer. The Up Timer may be started, stopped or reset. A Recurring Alarm may be set to alert you at appropriate time intervals. Displays a Down Timer. Displays an Engine Timer. Acts as a Hobbs Meter. When the engine starts, the Engine Timer will run. Specifications: 2-1/4" mount. 3.65" Depth. 10 Oz. Unit. Viewable in direct sunlight. Backlit for night operation. Operates from 7.5 to 35 volts at .3 amps.

P/N 10-01612..... **$289.00**

SUPERCLOCK/ALTITUDE ALERT FROM ELECTRONICS INT'L.

Reads your Altitude Encoder and displays your current altitude as seen by ATC. Display indicates when your current altitude is above or below your Programmed Target Altitude. A "Level off Alarm" occurs as you approach your Programmed Target Altitude. Displays Density Altitude based on your current OAT reading. Degrees F and degrees C. A Timer may be set as an "UP" or "Down" counting Timer. A Recurring Alarm may be set to alert you at appropriate time intervals. Displays Local and Zulu Time. The Local Clock may be set to display in a 12 or 24-hr format. Meets FAA requirements for a clock. Specifications: 2-1/4" mount. 3.65" Depth. 10 Oz. Unit. Viewable in direct sunlight. Backlit for night operation. Operates from 7.5 to 35 volts at .3 amps.

P/N ASC-5..... **$483.00**

PRECISION QUARTZ AIRCRAFT CLOCKS

Designed for accuracy, this precision clock is manufactured to meet rugged aircraft environmental standards. High-quality, solid state quartz movement. Comes with a factory one year limited warranty.

Features: FAA/PMA approved. Precision quartz movement. Transient and reverse polarity protected. One year limited warranty. Continuously powered by aircraft battery. Low power consumption (3mA). Fits standard 2-1/4" panel hole

Specifications: Dimensions: 2.5 x 2.5 x 3.2 inches max. Weight: 0.5 lbs.. Altitude: -1,000 to +55,000 feet. Mounting: Front or rear panel.

Standard Quartz Electric Clock (unlit)..... P/N 10-00459..... **$227.95**
Lighted Quartz Electric Clock (14V)..... P/N 10-00460..... **$259.95**
Lighted Quartz Electric Clock (24V)..... P/N 10-04615..... **$268.95**

QUARTZ ELECTRIC AIRCRAFT CLOCKS

These clocks are constructed for easy installation in a wide variety of aircraft. The rugged quartz movement is accurate within 2 seconds in 24 hours under normal operations and runs accurately in temperatures from -30°–180°F. The clock kit includes a power harness, mounting screws and installation instructions. The clock features adjustable red elapsed time hands.

P/N 10-22812 (12V) **$117.50**
P/N 10-22824 (24V) **$117.50**

MID-CONTINENT INSTRUMENTS QUARTZ ANALOG ELECTRIC CLOCK

FAA PMA approved. Precision quartz movement. Compact 2 1/4-inch size – fits standard panel cutout. Transient and reverse polarity protected. Original equipment for many major aircraft manufacturers Low power consumption (3 mA). Continuously powered by aircraft battery One year limited warranty.

MD-90-1 8-32VDC ..... P/N 10-04771.... **$241.95**
MD-90-L 14V Lighted.... P/N 10-00460.... **$259.95**

MD-90-L 28V Lighted.... P/N 10-04615.... **$268.95**

CLOCKS – TIMERS

YOKE MOUNT FLIGHT CLOCK

Battery-operated quartz aircraft clock reads out 12 or 24 hour formats in bright digital display, and has stopwatch & alarm features. Includes yoke attachment for mounting directly in front of the pilot, and the yoke clip holds charts, approach plates, etc. Uses one watch battery (included). 1yr warranty. A great clock & approach timer.

Flight Clock (for Piper) .....P/N 13-31200 ..... **$19.75**

Flight Clock (for Cessna & all others)
P/N 13-31210 ..... **$18.95**

AVIATOR'S 5-IN-1 FLIGHT TIMER

5 timers in one package! A combination of 12/24 hour digital chronometer, plus stopwatch, plus 3 countdown timers is about as close to timed maneuver perfection as a pilot can get. Large LCD digital readouts and large push-buttons make reading and operating easy. Memory stores each waypoint, tank change or approach count-down preset. When time is up, timer element flashes and counts up. The Flight Timer Amplifier is very compact and includes a speaker volume control & external output jack for audio annunciation.

5-in-1 w/ piezo alarm (No LED).....P/N 13-01833 ..... **$24.85**
5-in-1 w/ red LED .....P/N 13-00095 ..... **$47.75**
5-in-1 w/ red LED & audio alarm.....P/N 13-00391 ..... **$69.85**
Flight Timer Amplifier .....P/N 13-01941 ..... **$86.25**

ELECTRONIC STOPWATCH/TIMER

This easy-to-use stopwatch counts up to 60 minutes, then recycles automatically. As a timer, it counts down from 100 minutes in minutes and seconds. Features loud tone when timing period is complete, a large LCD digital display, and soft-touch buttons which are easy to set. Stands or hangs for convenience. 1.5V battery included. By Westbend.

P/N 13-31380.....**$19.95**

ASA FLIGHT TIMER

Ergonomically designed and engineered for reliability, ease and convenience, the ASA Flight Timer should be considered essential equipment for all aviatiors. Features: Large LCD backlit display, multi-function clock and three simultaneous timer options. Exclusive digital notepad for squawk codes or frequencies, stores up to 12 approach times, audible and visual alarms.

P/N 13-02357 **$39.75**

NELSON FLIGHT CLOCK

• Stopwatch / Alarm • Quartz clock • Digital • Replaceable battery • Yoke clip holds Sectionals, Approach plates, etc. • 2 yoke sizes, Piper & Cessna • 12 or 24 hour time

Cessna .....P/N 13-31210 ..... **$18.95**
Piper .....P/N 13-31200 ..... **$19.75**

MODEL 100 STOPWATCH

The Bodytronics Model 100 stopwatch strikes a great balance between price and performance. You will not find a better quality stopwatch at this price! .....P/N 13-02954 ..... **$9.90**

NAVITEC CHRONOGRAPH T1

Essential onboard aircraft, the Navitec chronograph is designed to make readings easier for pilots on both time and timing: Large 30 minutes chronometer eye zone. Red marks for standards STR 1 & 2 (sustained Turn Rates). Indexes and graduated rotating bezel in super-luminova.

Constructed in 316L stainless steel, T1 is equipped with Swiss movement ETA G10.211.

Silver.....P/N 10-04819 ..... **$318.95**

WESTBEND ELECTRONIC TIMER

The jumbo LCD display on this electronic timer displays time in hours, minutes and seconds. Includes clock feature, electronic alarm, clip, stand, magnet and hanging hole for versatile use. AAA Battery included.

P/N 17-00240 ..... **$12.50**

DUAL CHANNEL TIMER

The Dual Channel Timer times 2 activities at once. One channel times hours, minutes, and seconds. Second channel times minutes and seconds. Dual LCD readout shows both times. Memory recalls previous time settings Includes clip, stand, magnet and hanging hole for ease of use 4½"L x 1½"W x 2.4"H. AAA battery included.

P/N 17-00241 ..... **$14.25**

WESTBEND ELECTRONIC TRIPLE TIMER/CLOCK

Features of this electronic timer include a continuous running clock that displays hours, minutes, seconds, and AM/PM mode, three timing channels that count to and from 100 hours, and three distinctive alarms.

Additional Features: Memory recalls previous time setting. Times three activities at once. Alarm beeps for one minute and counts up to show elapsed time. Easy-to-read large LCD display. Clip, stand, magnet and hanging hole for versatile use.

Specifications: One AAA battery included. 2.5" x 3" x 1".

P/N 17-00239 ..... **$18.00**

DENSITY & PRESSURE ALTITUDE MODEL 655

FRONT MOUNT

REAR MOUNT

- OAT (F) & OAT (C)
- Pressure & Density Altitude With Pressure ALT. Alarm
- Aircraft Voltage with Flashing Alarm
- Bright Sunlight Readable Displays
- Input Voltage 11 TO 28 Volts.
- Complete with 12 FT. Digital Probe.

Description	Part No.	Price
O.A.T. F&C/Vol/ Pres & Den ALT (Front Mount)	10-24515-1	**$274.95**
O.A.T. F&C/Vol/ Pres & Den ALT (Rear Mount)	10-24515-2	**$278.95**

DIGITAL VOLTMETER OUTSIDE AIR TEMPERATURE MODEL 303

FRONT MOUNT

REAR MOUNT

- OAT (F) & OAT (C)
- Aircraft Voltage with Flashing Alarm
- Bright Sunlight Readable Displays
- Input Voltage 11 TO 28 Volts.
- Complete with 12 FT. Digital Probe.

Description	Part No.	Price
O.A.T. F & C / Voltage (Front Mount)	10-24565-14-1	**$224.95**
O.A.T. F & C / Voltage (Rear Mount)	10-24565-14-2	**$224.95**

DIGITAL VOLTMETER AMMETER MODEL 475VA/475VAA

M475VA

- Low current drain .001 amp
- Plus 100.0 volt D.C. range
- 1.3" case depth
- Sunlight readable
- One tenth volt resolution

M475VAA

- Plus or minus 100.0 amp range
- 2¼ Standard mount
- 5, 14, or 28 volt back lighting
- One tenth amp resolution

The M475VAA has dual shunts and can read voltage and two current flows (M475VA has a single shunt). The 475VA and the 475VAA were designed for low current drain and are also used in standby and emergency battery packs. One example of safety is if the alternator fails, you can monitor the load current out of the battery.

Description	Part No.	Price
Volt/Amm Meter 14V Lighting (Single Shunt)	10-03319	**$262.95**
Volt/Amm Meter 28V Lighting (Single Shunt)	10-03320	**$262.95**

TACHOMETERS – TACH CABLES

MITCHELL MECHANICAL TACHOMETERS

3-1/8" Tach

In 1985 AC discontinued production of the popular "RT" series of mechanical tachometers. We now offer Mitchell tachometers to fill this void. These tachs feature exceptional accuracy and reliability. Mitchell tachs come with a 2-year factory warranty. Range on all models is 500 - 3500 RPM. Determine the correct part number for your application from the chart below, and order by our part no. from the charts shown here. All Mitchell tachs are FAA approved for certificated aircraft. $30.00 for custom range marks (specify ranges). $12.50 to set hours (specify hours)

The specific tachometer listed is best suited if the installation has this approximate cruise rpm.
Direction of rotation must be compatible with the previous tachometer that was used.

IN

SLI AIRCRAFT TACHOMETERS

For three decades, Superior Labs, Inc. (SLI) has supplied the aircraft OEM's with the finest quality and most reliable mechanical tachometers in the industry for new production aircraft and can be customized for a variety of aircraft applications. These are now available to the public as aftermarket tachometers. ***Specifications***: • Accuracy to within ± 25 RPM • Range 0-3500 RPM • Diameter 3-1/8" • Length 3-1/2" • Weight: 13 Oz. • Two Years Warranty Most Models **$326.95**

SEE WWW.AIRCRAFTSPRUCE.COM FOR APPLICATION CHART, PART NUMBERS, AND PRICES.

Accessories	Part No.	Price
SLI Custom Range Markings	10-03685	**$61.50**
Sli Tach Lighting	10-03672	**$101.95**
SLI Tach Hours Set	10-03673	**$56.75**

TACHOMETER RIGHT ANGLE DRIVE

Attach this 90° adapter to male thread on the recording tachometer & female end of the tach cable. Makes installation possible in "impossible" places. May also be used as a reversing drive by removing plug and replacing it with threaded fitting opposite it. Screw plug in opening left by fitting removed. 1:1 Ratio. P/N 10-00815..... **$68.80**

ENGINE RIGHT ANGLE DRIVE

Female end attaches to engine tach drive outlet. Male output end accepts standard tach cable female nut (7/8-18 thread). Eliminates bending of tach cable at the engine in cramped installations. Designed for heavy-duty service. Gears and shafts are of heat-treated alloy steel. Oil impregnated sintered bronze shaft bearings. Cast iron case and fittings. With lubricator fitting for greasing. 1:1 ratio. P/N 10-00814..... **$62.70**

TACHOMETER CAP

This Tach Cap can be used to close off the tachometer drive of a Lycoming engine when an electronic tach drive is being used off the magneto or electronic ignition. 7/8" thread and Viton (R) O-ring to seal. P/N 10-06754..... **$19.70ea**

TACHOMETER CABLES

Custom made cables to exact specifications. Over-length cables can cause problems - order one that fits the installation. Select the proper length from the listing below, but measure old tach cable to verify length in chart is correct for your aircraft, as tach cables can vary from aircraft to aircraft. Measure original cable from end of Ferrule to end of Ferrule when fully extended. **Left lay is standard on all stock tach cables.** Tach Cables have male ends only. 7/8-18 on one end and 5/8-18 on the other. No female ends. When ordering special length tach cables specify aircraft, engine make, model & dash number. **Note**: General rule for installation: Tach cable should be installed as straight as possible - the inner cable length will decrease 11/16" per 360 degrees of bends.

Tach Cable Ass'y – Lengths to 4ft (Add $2.50/Ft. for Longer Lengths)
4 foot length **$48.95**

Inner Cable Only – Length is 4ft (Add $0.90/Ft. for Longer Lengths)
P/N **$26.00**

TACHOMETERS

UMA 2-1/4" ELECTRONIC TACHOMETERS

These tachs have high resolution and easy to read displays. The analog model has a 250° sweep which provides great resolution in both the 3500 & 7000 ranges. The digital model has a bright LED display. Separate power source required. All tachs require power from a 14 or 28V system. Installations are simple with instructions included.

3500 ANALOG TACH - Lyc./Continental (to replace mechanical tachs) Current: 37 milliamps Size: 2.25"rnd. X 2.75"deep. Magnetic pickup (6 ft. cable length) included with P/N's 10-02141 and 10-02140 (T1A9). 6 ft. harness, sending unit, and .156 diameter tang adapter included with P/N 10-00083 (1A3-4).

UMA ELECTRONIC TACHOMETERS

These electronic tachometers use a 250° sweep meter movement to withstand high levels of vibration and register flight time accurately. The hour meter counts flight hours at RPM settings of 1800 & higher. Power: 12-28VDC. 2-year warranty.

Range	Description	Part no.	Price
0-7000 RPM	3-1/8" For Rotax 912 Engine B & W Markings, built-in hourmeter	10-00119	$233.95
	3-1/8" For Rotax 912 Engine Color Markings	10-04223	$256.95
	2-1/4" For Rotax 912 Engine Color Markings	10-01852	$161.95
0-3500 RPM	3-1/8" *To replace Mechanical Tachometer (readsCW or CCW; B&W Dial Only) Furnished w/mechanical sender	10-00120	$328.95
0-3500 RPM	3-1/8" *To replace Mechanical Tachometer (Green Arc 500-2700 - Red 2700) Furnished w/ mechanical sender	10-00121	$349.95

**** P/N 10-00120, 10-00121, 10-24870, & 10-24885 tachs eliminate the problems associated with mechanical tach cables, and the sending unit is a direct replacement for the tach cable. All models are analog style tachs with hour meters and can read RPM for either clockwise or counter-clockwise revolutions. Sender included. **Slick Mags Only***

WESTACH TACHOMETERS

CLamps to ultralite tubing or motorcycle handle bar. Swivels 360° at any angle. Furnished with chrome plated installation hardware. SINGLE TACH (Tachometer requires no sender.)

ELECTRONIC TACHOMETER 0-3500 RPM FOR 6 CYLINDER

UMA has one of the most extensive line of tachometers available on today's market. They manufacture tachometers for a wide variety of engines and ignition systems used in ultralights, kit planes, and most general aviation aircraft.3-1/8" ..... P/N 10-02116 .....**$300.95**

FOR 4 CYLINDER -

3-1/8" 0-3500 RPM (2 Pulse) ..... P/N 10-00120 .....**$328.95**

UMA ELECTRONIC TSO'D TACHS

Owners of Lycoming &d Continental powered airplanes now have an electronic, analog alternative to the old cable driven tachometer. The new UMA tach is certified to FAA TSO C49b standards for fixed wing aircraft. The system uses a tach sender mounted on the engine in place of the mechanical cable and is connected to the indicator with a single, 3-conductor cable. The 3 1/8" indicator utilizes a high torque pivot and jewel movement. The hour meter can be factory set to start at any desired RPM point. This unit gives the pilot the analog display that is easiest to scan and provides electronic accuracy and ease of installation. Custom dial markings in color & internal Electro-Luminescent lighting are available at extra cost. UMA manufactures a complete line of TSO'd & non-TSO'd gauges & instruments in the USA.

UMA ELECTRONIC TACHOMETER WITH HOURMETER

3 1/8" Analog Tachometer with hourmeter. 4 Cylinder. 0-3500 RPM. Records engine time above a set RPM point. Standard set point is 1800 RPM. Engine Type: Continental/ Lycoming. TSO'd Magnetic pickup for Slick or Bendix Magnetos (6 ft. cable length), alternative to p-lead connections.

For Bendix Mags ..... P/N 10-04867..... **$301.95**
For Slick Mags..... P/N 10-04868..... **$299.00**

P-1000 DIGITAL TACH BY HORIZON INSTRUMENTS

Provides diagnostic and performance information about the aircraft engine and ignition system not normally available with current mechanical or electrical/electronic tachometers. Eliminates problems resulting from inaccurate tachometers. STC approved for primary installation, not just secondary. Also incorporated into the P-1000 is a highly accurate engine hours clock, and an RPM Trap memory that recalls the highest RPM achieved by the engine. Both features are enabled with a touch of a button. The P-1000 is housed in a rugged, light-weight aluminum standard 3-1/8 inch "MS" style case. Installation is simple. Only four wires are connected, all of which are located under the panel! The P-1000 is the ideal aircraft tachometer, for upgrades or new designs, providing the conscientious pilot with high reliability, accurate RPM reading, and valuable diagnostic information.

P/N 10-01592..... **$609.00**

TRU-TACH II DIGITAL TACHOMETER

Mechanical tachometers are notoriously inaccurate. The TruTach II Optical Digital Tachometer measures the true speed of your propeller from inside or outside the aircraft. Just point it at the propeller or rotor blades and TruTach II will directly display the rotational speed with a resolution of 1 RPM. No connection to aircraft systems is required and measurements may be made at any speed setting from 240 to 70000 RPM. Direct display is available for 2, 3, 4, and 5 blade propellers. Digital Signall Processing assures rock-solid display in single and multi-engine aircraft as well as helicopters. The compact 4-inch instrument weighs just 4 ounces and may be used with fast turning ultra-lights and kit plane propellers. Automatic shut-off turns the unit off if you forget. Includes an Impact resistant case and standard 9 volt battery providing 150 hours of operation.

P/N 10-01021 ..... **$194.95**

MICROFLIGHT DUAL TACH/EGT

2" Round Gauge Tachometer - Universal for single or dual ignition. EGT range: 700-1700°F EGT probe (clamp type) Sender not included P/N 10-01628 ..... **$85.50**

MITCHELL D1-112-5240 ROTAX 912 TACHOMETER

Mitchell 2-1/4 Inch Mechanical Recording. FAA-TSO Approved. D1-112-5240 Special-Rotax 912

P/N 10-02744 ..... **$239.95**

UMA SENDING UNITS FOR TACHOMETERS

1A3-4

Unit 1A3-4 Includes: Sending Unit, and .156 dia. tang adapter. P/N 10-01706 ..... **$110.95**

T1A9 Magnetic pickup for Slick or Bendix Magnetos (6 ft. cable lengths)

Slick .....P/N 10-02432 .....**$86.25**
Bendix.....P/N 10-02433 .....**$86.25**

Instruments: Provide a quick and easy way to troubleshoot and determine an engine's efficiency. Alcor's instruments are known for their quick response time, easy-to-read design and long life. All Alcor instruments are FAA/PMA approved for anything piston-powered that flies! Available in 2 ¼" and 3 1/8" diameters, these instruments can be purchased in single or dual configurations with or without internal lighting. Special order options are also available. All Alcor instruments carry a 3 Year Warranty!

Sensors: Recommended by the most popular manufacturers of digital engine monitoring systems because Alcor sensors are: • Made from the highest-quality materials • FAA approved • Provide fast response time • Built to last • Covered by a 5 Year warranty for grounded probes • Manufactured in the USA!

Basic Systems: Kit includes the 2 ¼" or 3 1/8" instrument, one lead and one sensor for single cylinder EGT or CHT monitoring.

Multi-Cylinder Systems: Kit Includes 2 ¼" or 3 1/8" instrument, all leads, switches and sensors for EGT and CHT monitoring of every cylinder. Alcor's 2 ¼" instrument uses Alcor's Universal Cylinder Selector (UCS) (p/n 80825 or 80827) switch to convert the basic system into an affordable Alcor analyzer!

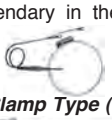
BASIC EGT & CHT SYSTEMS

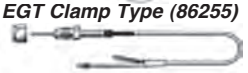
Alcor's probe (thermocouples) reliability is legendary in the aviation community, designed to give years of dependable and accurate service.

GROUNDED THERMOCOUPLES

ALCOR	DESCRIPTION
86255	EGT Clamp Type Probe min/ max dia.-1.5"to 3.25") (Yellow/Red, Chrome/ Alumel)
86240	EGT Screw-In Probe, fitting dims: 7/16" x 20 threads (Yellow/Red) less boss
86245	EGT Screw-In Probe, fitting dims- 7/16" x 20 threads (Yellow/Red, reverse stagger leads) less boss
28113	Weld Boss
86251	CHT Bayonet Probe (Black/ Yellow,
28202	Iron/Constantan) AN5541-1 CHT Bayonet Probe Adapter
86202	CHT Gasket Style Thermocouple. Type: J - Black and Yellow. Grounded Style: Gasket. Size: 18 mm. Resistance: .13 + .16 Ω - .05 Ω. Weight: 0.12 lbs.

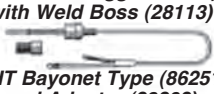


EGT Clamp Type (86255)



EGT Screw-In Type (86240) with Weld Boss (28113)

EGT Screw-In Type (86245) (Reverse Stagger Leads) with Weld Boss (28113)



CHT Bayonet Type (86251) and Adapter (28202)

CHT Gasket Type (86202)

EGT/CHT Leads

IMPORTANT! EGT systems & components with red/brown color codes are not compatible with systems & components using red/yellow codes.

Alcor Systems are FAA Approved and the grounded probes have a 5Yr factory warranty, the ungrounded probes have a 1yr factory warranty, and the instruments have a 3yr factory warranty.

WESTACH INSTRUMENTS

2-1/4" ENGINE INSTRUMENTS

Guaranteed accurate within 2% with a 1-yr. warranty. Weight - an unbelievable 4oz. These instruments are self powered by the thermocouple, except for the lighting.

CYLINDER HEAD TEMPERATURE

100-700°F ..... P/N 2A1 ..... **$68.75**
25°–375°C ..... P/N 2A1-2 ..... **$69.75**
SENDERS: CHT Senders have 4 ft. leads.
14mm gasket type (VW, Rotax)
P/N 712-4W **$28.50**
18mm gasket type (Cont,Lyc.)
P/N 712-5W **$28.75**
Bayonet type 3/8" x 24 thread
P/N 712-7D **$58.75**
Bayonet type 1/8" NPT thread ..... P/N 712-7DJ **$56.50**
(All Rotax) ..... P/N 712-912K **$58.75**

EXHAUST GAS TEMPERATURE

700-1700°F/350-950°C ..... P/N 2A2 ..... **$65.85**
100-1900°F/100-1000C ..... P/N 2A2-1 ..... **$64.75**
400-900°C ..... P/N 2A2-2 ..... **$66.50**
4000-1600°F/200-850°C ..... P/N 2A2-7 ..... **$66.50**
SENDERS - Clamp type senders with 3/16" diameter probe. EGT Senders have 4 ft leads.
1" long tip ..... P/N 712-2DWK ... **$42.75**
1/2" long tip ..... P/N 712-20DWK . **$42.75**
Long tip 1/4" threads ..... P/N 712-4D **$52.75**
3/8-24 for Lycomings ..... P/N 712-4D1 ..... **$52.75**
Long tip for VW (1/12" OD tailpipe) ..... P/N 712-24DWK . **$43.25**
(All Rotax) ..... P/N 712-32DWK . **$43.25**
Bayonet K type, EGT probe for Rotax ..... P/N 712-4D6K **$59.50**
Exposed Tip, model 712-20DWKE - Hose clamp style 1/2" probe.
P/N 10-01300 ..... **$52.50**

Note: Westberg 712 Series Thermocouples are for Non-TSO'd CHT & EGT Gauges only. They have two small pins which are the same size.

OIL TEMPERATURE

100° - 260°F ..... P/N 2A9-2* **$64.75**
Sending Unit ..... P/N 399S7 ..... **$29.85**
*Use Sender #399S9-7/8 for Cont & Lyc Engines. (5/8-18 Thread) ..... P/N 399S9 ..... **$45.75**

OIL PRESSURE

Guaranteed accurate within 2% with a 1-year warranty. Weight an unbelievable 4oz.
K2A8MM . 0-80 PSI (w/sender)
P/N 10-01292 ..... **$318.95**
Sending Unit (Available Separately)
P/N 387-12S **$29.85**

FUEL PRESSURE

This specially constructed instrument offers accuracy and durability in a lightweight (3.5oz) package. Perfect for home-built and custom applications.
K2A8-8MM. 0-15 PS w/Sender(SET)
P/N 10-01553 ..... **$295.75**

MANIFOLD PRESSURE GAUGE

2-1/4" Size 0-30 PSI & 0-50 PSI.
2A4-14 - 0-50 IN HG (square) not altitude compensated..... P/N 10-04178 ..... **$59.00**
2A6-6 - 0-30 IN HG ..... P/N 10-04797 ..... **$63.50**

WESTACH VOLTMETER

2" round.

Westach Ammeter, amp -60-0-+60 adc, 2 1/4"square, 50 mv f/s.
With Shunt..... P/N 10-01277..... **$104.95**
Without Shunt.... P/N 10-04114..... **$61.25**

WESTACH AMMETER 2C6-22 (ROUND)

Westach Ammeter, amp -30-0-30 adc, 2" round, 50 mv f/s. Note: Gauge does not include shunt. Range: -60-0-30 adc. Size: 2" round. Shunt: Model 237-30
Ammeter 2C6-22 .....P/N 10-04108 ..... **$55.65**
Shunt #237-30.....P/N 10-01306 ..... **$42.50**

WESTACH AMMETER 2C6-15 (ROUND)

Westach Ammeter, amp -60-0-60 adc, 2"round, 50 mv f/s. Note: Gauge does not include shunt. Range: -60-0-60 adc. Size: 2" Round. Shunt (Not Included): Model 237-60
Ammeter 2C6-15 .....P/N 10-04104 ..... **$54.50**
Shunt #237-60.....P/N 10-01298 ..... **$41.50**

WESTACH AMMETER 2C6-11

Westach Ammeter, amp 0-60 adc, 2"round, 50 mv f/s. Note: Gauge does not include shunt. Range: 0-60 adc. Size: 2" Round. Shunt (Not Included): Model 237-60
Ammeter 2C6-11 .....P/N 10-04102 ..... **$54.75**
Shunt #237-60.....P/N 10-01298 ..... **$41.50**

HOURMETER

Power Range, 5V-40V, Record running time of engine.
P/N 2A10-2 ..... **$109.95**
No sender required.

VOLTMETERS

Check generator & alternator charging
6-16 VDC..... P/N 2A5..... **$65.75**
0-35 VDC..... P/N 2A5-2 ..... **$63.85**
No sender required.

WESTACH 2C4-7 GAUGE

Boost 0-30 psi, 2-Inch round, with 220-9, 203-17, 203-21
P/N 10-04155 ..... **$48.25**

SELECTOR SWITCHES

These switches are used with the Westach CHT, EGT, or CHT/EGT gauges to allow multiple cylinder engine analyzing. Switches included with Engine Analyzer kits & Add-On kits on following pages, or can order separately below. Non-TSO'd. These switches have two small connectors of same size.
2-Position .....P/N 254-2F..... **$33.25**
4-Position .....P/N 254-4F..... **$39.85**
4-Position (Dual) .....P/N 254-4DF*..... **$64.75**
6-Position .....P/N 254-6F..... **$46.25**
6-Position (Dual) .....P/N 254-6DF*..... **$71.75**
****To convert dual EGT/CHT to Engine Analyzer.***

FAA APPROVED SWITCHES
4-Position .....P/N 254-20EP **$46.50**
6-Position .....P/N 254-21EP **$55.60**
6-Position (Dual) .....P/N 254-21EDPP **$86.00**

These switches are furnished with 96" leads.

WESTACH ROTOR TACH

For the rotorcraft pilot, the rotor tachometer is a valuable aid to safe flight. Utilize a stateof- the-art Hall-effect sensor to accurately gauge rotor RPM based on the rotational positions of a series of magnets which are easily mounted on the rotor shaft or hub. Sensor and magnets are supplied with the gauge along with complete assembly instructions. 12 volt DC power required. Square style, 2 1/4 inch.
0-500 Tooth ...10-03808 .. **$266.95** 0-500 Mag. Pulse.... 10-03809 ... **$258.95**
0-800 Tooth ...10-03810 .. **$168.95** 0-800 Mag. Pulse.... 10-03811 ... **$235.95**

WESTACH LOW POWER ADAPTER

For those instruments requiring 12V DC, this low output regulator/rectifier provides sufficient power to operate up to 2 WESTACH instruments. Converts lighting coil AC to 12V DC. Includes instructions, wiring harness. P/N 329-LPA **$31.50**

WESTACH SENDER 720-14RB

Proximity sensor, Hall effect sender for Bendix mag. 9/16 - 24 thd. 5-12 VDC. Weight: 7 ounces
P/N 10-00863 ..... **$59.95**

WESTACH EXTENSION LEADS

Complete extension leads, with connector terminals, for extending CHT or EGT leads up to Complete extension leads, with connector terminals, for extending CHT or EGT leads up to 10 ft. without affecting accuracy. Longer lengths give low reading, requiring recalibration of instrument.
18" Lead ..P/N 10-17900 .. **$10.50** 4 Ft. Lead .... P/N 10-18000 . **$11.85**

WESTACH INSTRUMENTS

FAA-APPROVED WESTACH INSTRUMENTS FOR CERTIFICATED AIRCRAFT

K33X

K29PCX

K30X

K31X

Westach Instruments now has FAA approval on all the instruments listed below. These gauges are fully approved for installation in factory aircraft, so the weight and cost savings of Westach gauges can now be enjoyed by owners of production aircraft as well as home builders. All systems are complete with instrument (internally lighted), senders and leads. The multi-position CHT and EGT systems also include sender selector switch with wiring. The EGT and CHT systems are furnished with #713-2DWK and #713-5W senders. If threaded senders are preferred, #7l3-4D and #713-7D senders can be furnished for an additional $35.00 each. The EGT gauges have an adjustable pointer. All of these gauges fit 2-1/4" panel hole.

Description	Model	Part No.	Price
EGT Gauge 700-1700°F (1 Position)	K28PX	10-01237	**$139.50**

IN

ISS 2-1/4” ENGINE GAUGES

This quality line of engine gauges will provide an affordable engine monitoring package for experimental aircraft. Hundreds of these gauges are flying today in various homebuilts worldwide. Used extensively in Vans RV line of aircraft. NOTE: Our gauges do not include our company name or logo on the face.

FEATURES

- 270° Sweep Electric Gauges.
- High Quality Movements in Injection Molded Cases.
- Standard Aircraft 2-1/4” hole & mounting pattern.
- Internally Lit (12V only)
- Clear & sharp lettering with appropriate operating arcs & redlines screened directly on the face.
- Electric design uses tranducers & senders. No pressurized fuel & oil in the cabin
- Wires attach with nuts (Included) to 6-32 studs on instrument. No spade fittings.
- Cases have Brass Inserts for the #6 Mounting Screws. No Need for Instrument “Grasshopper” nuts.
- Works with Standard Stewart Warner match transducers.

MITCHELL INSTRUMENTS

MITCHELL AIRCRAFT INSTRUMENTS

2-1/4" ELECTRIC GAUGES

Mitchell Aircraft Instruments is a high quality, economical line of gauges which is ideal for the homebuilt aircraft market. These electric instruments are lighted, allow easy installation, and feature a 2 year factory warranty. Order gauges and senders separately as shown. 12V operation unless other wise noted. Gauges fit 2-1/4 panel hole. For 24 volt operation, order P/N PE-111-4074 Resistors ($3.50 each) for each instrument.

OIL TEMPERATURE

100-250° F Gauge..... P/N 10-25000 ..**$53.50**
100-250° F Sender (Rotax).. P/N 10-25005 ..**$19.95**

P/N 10-25105 (8-16V) **$46.75**
P/N 10-02747 (12-31V) **$53.50**
No Sender required.

TURBO

Mechanical Turbocharger Gauge. Gauge is mechanical. No sender required. P/N 10-25140 .... **$53.50**

OUTSIDE AIR TEMPERATURE

2-1/4" -10°F to +120°F
P/N 10-02715 ..... **$122.95**

CYLINDER HEAD TEMP GAUGE

For Rotax 120-300°
P/N 10-02717 ..... **$59.75**
Sender: Probe Supplied w/ Rotax Engine.

OUTSIDE AIR TEMPERATURE

2-1/4" Electric -10°F to +120°F
P/N 10-03137 ..... **$122.95**
Sender ..... P/N 10-02170 . **$18.75**

LIGHTED QUARTZ ELECTRIC CLOCK

Features black dial with matte white numbers and hands. Length: Mounts in standard 2-1/4" instrument hole. Power: 12v Note: Requires adapter #PE-211-2000 to function in 24 volts. FAA approved.
P/N 10-01214 ..... **$89.95**
28V Adapter Kit
P/N 10-02827 ..... **$12.75**

WIRING KIT GAUGE CONNECTOR

Fits all 2-1/4" Mitchell Gauges

P/N 10-02724 **$6.00**

IN

MITCHELL MODULAR INSTRUMENTS

MITCHELL MINIATURE MODULAR GAUGES

This line of miniature engine gauges from Mitchell is ideal for a wide variety of general aviation applications. They measure nearly 1.5" square and are stackable. The modular design allows them to be plugged from the front of the panel. The units are internally lighted. Complete standard panels are also available as shown in the steps below.

Step 1 - Select your gauge(s) from the list below

Choose 14 volt or 24 volt

Note range marking for gauge(s) (free if information given at time of instrument cluster order)

Step 2 - Select your sendor(s) for gauge(s) from the list below

Any sendor with a * can also use a Rotax Engine Sender

FALCON ENGINE GAUGES

FALCON GAUGE TACHOMETERS

Falcon Gauge Tachometers feature both clockwise and standard pointer type configurations. Falcon Gauge Universal Tachometers can be used for both point and Ducati ignitions.

Size"	Description	Model	Range	Part No.	Price
3-1/8	Clockwise Tach.	TH-007CC	"0-3500 RPM, 500-2750 RPM Color Markings"	10-02273	**$122.95**
2	Standard Pointer Type Tach.	TR-001D	0-8000 RPM CDI	10-00831	**$67.50**
2	Standard Pointer Type Tach."	TR-003	"0-8000 RPM Universal Point and CDI"	10-01615	**$73.50**
2-1/4	Standard Pointer Type Tach.	T2-001U	0-8000 RPM Universal Point and CDI	10-00816*	**$79.50**
2-1/4	Standard Pointer Type Tach.	T2-004	"0-8000 RPM For MZ 202 Engine"	10-04039	**$72.85**
3-1/8	Standard Pointer Type Tach.	T3-001U	"0-8000 RPM Universal Point and CDI"	10-00817*	**$81.50**

*Works with Rotax-point & CDI Ignition, but not 912/914 engines.

FALCON GAUGE CHT GAUGES

Falcon Gauge Cylinder Temperature Gauges work with most 2 cycle 2 cylinder engines.

Size"	Description	Model	Range	Part No.	Price

BELITE INSTRUMENTS

BELITE AIR SPEED INDICATORS

2.25" Bezel

Air Speed Indicator is calibrated for slow flight and designed to provide much more precise measurement of "low and slow" airspeeds than nonprecision steam gauges.Provides airspeed information with a visual LED display. Uses a solid state pitot pressure sensor device, which converts into a visual representation of speed.

28-82 MPH With 1.75" Square Bezel P/N 10-04376 ....**$129.95**
28-82 MPH With 2.25" Round Bezel ..... P/N 10-04378 ....**$129.95**
35-135 KIAS With 2.25" Round Bezel ..... P/N 10-04622 ....**$128.95**
Straight Pitot Tube, black powdercoat..... P/N 10-04382 .....**$9.95**
Bent Pitot Tube, black powdercoat..... P/N 10-04383 .....**$14.95**

BELITE ABOVE GROUND LEVEL ALTIMETERS

1.75" Bezel

Above Ground Altimeter measures from field elevation of the airport (rather than mean sea level). Its calibrated in 100-foot increments from 0 to 1200 feet. The new air computer allows it to automatically zero for reset.

With 1.75" Square Bezel .....P/N 10-04360.....**$99.95**
With 2.25" Round Bezel .....P/N 10-04361.....**$99.95**
3"x2"x1" with 9V battery and power switch - Portable P/N 10-04363...**$119.95**

BELITE VERTICAL SPEED INDICATORS

3"x2"x1" portable

Vertical Speed Indicator displays rates of up to 600 FPM, depending on model. No buttons to push, yet provides vertical speed information using a dimmable LED display that can be adjusted for viewing in bright daylight or reduced lighting conditions. Available in dual function instrument with Air Speed Indicator and Above Ground Altimeter.

With 1.75" Square Bezel..... P/N 10-04350 ...**$129.95**
With 2.25" Round Bezel..... P/N 10-04351 ...**$129.95**
3"x2"x1" with 9V battery and power switch - Portable P/N 10-04352 ...**$140.95**

BELITE DUAL AIR SPEED INDICATOR / VERTICAL SPEED INDICATOR

2.25" Bezel

Air Speed Indicator is calibrated for slow flight and designed to provide much more precise measurement of "low and slow" airspeeds than nonprecision steam gauges. Vertical Speed Indicator displays rates of up to 600 FPM. No buttons to push, yet provides vertical speed information using a dimmable LED display that can be adjusted for viewing in bright daylight or reduced lighting conditions.

28-82 mph ASI/VSI With 1.75" Square Bezel.... P/N 10-04681...**$199.95**
28-82 mph ASI/VSI With 2.25" Round Bezel..... P/N 10-04682...**$199.95**
35-135 KIAS ASI/VSI With 2.25" Round Bezel.. P/N 10-04683...**$199.95**

BELITE DUAL ASI / AGL

1.75" Bezel

Air Speed Indicator is calibrated for slow flight and designed to provide much more precise measurement of "low and slow" airspeeds than nonprecision steam gauges. Available in 28-82MPH in 1.75" square and 2.25" round. Above Ground Altimeter measures from field elevation of the airport (rather than mean sea level). Calibrated in 100-foot increments from 0 to 1200 feet. The new air computer allows it to automatically zero for reset.

With 1.75" Square Bezel.....P/N 10-04749...**$188.50**
With 2.25" Round Bezel.....P/N 10-04750...**$188.50**

BELITE DUAL VSI / AGL

2.25" Bezel

Vertical Speed Indicator displays rates of up to 600 FPM, depending on model. No buttons to push, yet provides vertical speed information using a dimmable LED display that can be adjusted for viewing in bright daylight or reduced lighting conditions. Above Ground Altimeter measures from field elevation of the airport (rather than mean sea level). Its calibrated in 100-foot increments from 0 to 1200 feet. The new air computer allows it to automatically zero for reset.

With 1.75" Square Bezel.....P/N 10-04751...**$188.50**
With 2.25" Round Bezel.....P/N 10-04752...**$188.50**

BELITE FUEL LINE WATER DETECTOR

The Fuel Line Water Detector capable of detecting water in the fuel tank or fuel line. A discrimination between water and fuel is detected and provides an alarm signal to the aircraft operator when water is detected (even in minute quantities). The technology also provides an all clear indication when the water has passed through the detector. Water detection probes may be placed, for example, at low points in fuel tanks, or inline (between the fuel tank and the fuel selector in the engine compartment). Prevents accidents and improves flight safety. Provides a warning signal which may be used in simple applications to trigger an alarm on the instrument panel.....P/N 10-04794.....**$140.95**

BELITE INCLINOMETERS

3"x2"x1" portable

Provides immediate slip and skid information, simulating and improving upon the classic ball inclinometer. In enclosure with 9V battery and power switch.

With 1.75" Square Bezel..... P/N 10-04366....**$64.95**
With 2.25" Round Bezel..... P/N 10-04368....**$64.95**
3"x2"x1" with 9V battery and power switch - portable P/N 10-04369....**$84.95**

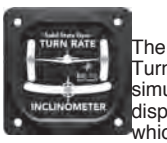
BELITE TURN RATE INDICATORS

3"x2"x1" portable

State-of-the-art, low cost, true solid state gyro based turn indicator. Calibrated to exactly match existing turn rate coordinators, (at 3 degrees per second for a 2-minute turn), it is cleverly configured so that the LEDs show when this rate is not being met by the pilot. More precise than traditional mechanical gyro instrument.

With 1.75" Square Bezel..... P/N 10-04385 ....**$119.95**
With 2.25" Round Bezel..... P/N 10-04386 ....**$112.95**
3"x2"x1" with 9V battery and power switch - portable P/N 10-04388 ....**$139.95**

BELITE TURN COORDINATOR



The Belite Turn Coordinator shows a digital gyro based Turn Rate Indication and solid state Bubble Inclinometer simultaneously, producing a standard turn coordinator display. The turn rate indicator includes new technology which automatically calibrates itself every time it is turned on, so it does not have to be re-centered. In addition, power consumption has been reduced. 2.25" Bezel. P/N 10-04795 ....**$187.95**

BELITE POSITIVE / NEGATIVE G METER

1.75" Bezel

This G Meter shows how strong the bumps are! It depicts G forces up to +/-6Gs. The precision, solid state accelerometer inside exceeds the capabilities of older mechanical units.

With 1.75" Square Bezel ..... P/N 10-04735 .....**$94.50**
With 2.25" Round Bezel ..... P/N 10-04736 .....**$94.50**
3"x2"x1" with 9V battery and power switch - portable. P/N 10-04737 ....**$112.95**

BELITE FUEL GAUGES

1.75" Bezel

Pilots dream of having a fuel gauge that actually works. Here's one that does! Uses LEDs to provide a range of 0% to 100% in calibrated steps.

Single With 1.75" Square Bezel P/N 10-04390 .....**$69.95**
Single With 2.25" Round Bezel.. P/N 10-04392 .....**$74.95**
Dual With 1.75" Square Bezel ..... P/N 10-04738 .....**$94.50**
Dual With 2.25" Round Bezel ... P/N 10-04739 .....**$94.50**

BELITE EGT / CHT GAUGE

2.25" Bezel

This is a high precision device that provide a quick visual indication of engine temperatures with an LED column for each parameter. LEDs use color to alert pilot when things start getting hot; the display LEDs switch from bright yellow to ultra bright amber at high temperatures.

EGT / CHT With 1.75" Square Bezel..... P/N 10-04740 ....**$168.95**
EGT / CHT With 2.25" Round Bezel..... P/N 10-04741 ....**$168.95**
Dual CHT With 1.75" Square Bezel..... P/N 10-04742 ....**$168.95**
Dual CHT With 2.25" Round Bezel..... P/N 10-04743 ....**$168.95**
Dual EGT With 1.75" Square Bezel..... P/N 10-04744 ....**$168.95**
Dual EGT With 2.25" Round Bezel..... P/N 10-04745 ....**$168.95**

BELITE VOLT METERS

Large

Small Volt Meter - Dimensions are 0.8" x 1.3". 8-19.99 volts. No backlight. Power source is from the system 7-19.99 volts. 300 micro amps nominal. Recommended for continuous power monitoring.

Large Volt Meter - 3-3/4" display with backlight. Monitors 8-39.99 colts.

Small ..... P/N 10-04395....**$69.95**
Large ..... P/N 10-04746....**$65.75**

BELITE INSTRUMENT PANELS

(9 INSTRUMENTS)

Full Panel: Includes: Battery Condition Voltmeter, CHT/EGT Gauge, Fuel Gauge, Above Ground Altimeter, Turn Rrate Indicator, Inclinometer, G Meter and Air Speed Indicator.

Half Panel: Includes four instruments plus the Volt MiniMeter. This is a metal panel with hardware and wiring, but the builder must make the harness and assemble.

Empty Panel: Choose and install your own instruments. Holds nine instruments. Full metal panel.

Empty Full Panel for 1.75" square gauges ..... P/N 10-04666 .....**$99.95**
Empty Full Panel for 2.25" round gauges ..... P/N 10-04747 .....**$94.50**
Empty Half Panel for 1.75" square gauges..... P/N 10-04748 .....**$94.50**

FLOAT-TYPE FUEL PROBES

6-23" Probe. Adjustable, 6-23"; 240-33 ohms standard: 5-hole ASME pattern. Requires mounting kit.

FGP031 ..... P/N 10-01489 ..... **$26.65**

UNIVERSAL PROBE MOUNT

Works well with plastic and other tank. Includes threaded attachment ring, gasket, and hardware. Standard 5-hole SAE pattern.

FMK01 ..... P/N 10-01501 ..... **$8.75**

COLOR TINT LAMPS

Color tint lamp boots. Set of Boots. Changes your instrument backlighting to red for night flying.

LB001 ..... P/N 10-01556 ..... **$0.95**

APPLICATION NOTE: Most current production Rotax® engines require 1/8NPT temperature and pressure senders.

THERMOCOUPLES

BAYONET TYPE

Threaded Fitting with 1/8" ..... P/N AN4076 ..... **$24.50**

Pipe thread to mate with bayonet type thermocouple.

UNIVERSAL REPLACEMENT PROBES

CHT Probe, Type J, Style AN 5541-1
P/N AN5541-1 ..... **$62.70**

EGT Probe, Type K MM-111 ..... P/N 11-01022 ..... **$59.50**
CHT Probe, Type K ..... P/N 11-01023 ..... **$61.50**

Cessna CHT Probe S2334-3 - Must be used with the new Rochester Gauges. Cannot be used with the old Stewart Warner Gauges
P/N 06-00703 ..... **$271.95**

Note: These probes will only work with a grounded system.

THERMOCOUPLE LEADS

HEAVY-WEIGHT AN SPEC. WIRE LEADS

8 Ohm Resistance, Iron-Constantan, 90 In.
P/N 42535 ..... **$35.50**
8 Ohm Resistance, Iron-Constantan, 144 In. ..... P/N 42536 ..... **$45.75**
8 Ohm Resistance, Iron-Constantan, 20 Ft. ..... P/N 42537 ..... **$58.75**
EGT E.W. Rings P/N 11-05672 . **$62.75**

LIGHT-WEIGHT 20 GA. WIRE LEADS

2 Ohm Resistance,Copper-Constantan,10 Ft. .. P/N 10-10900 .... **$34.85**
2 Ohm Iron-Constantan, 5 Ft. 7 In. ..... P/N 10-11000 .... **$34.85**
8 Ohm Resistance, Iron-Constantan, 10 Ft. ..... P/N 10-11110 .... **$34.85**

Terminals on instrument end of lead are plain eye type (one for No. 8 screw and one for No. 10 screw).

MICROFLIGHT GAUGES

MICRO-1000 PYROMETERS & PROBES

CP131 EP131 EP130

Superior to any other type of pyrometer available. Unlike competing brands, these units are temperature compensated. That is, when the ambient temperature changes, MICRO-1000 pyrometers still read the same. And we guarantee that, when properly installed, these pyrometers will be accurate within 2%. Like other MICRO-1000 gauges, these units come with our standard 2-year warranty. Order gauges, probes, and extension leads separately. NOTE: MICRO-1000 pyrometers are not compatible with other thermocouple probes. Order Micro-1000 Probes. ***• 2% Accuracy • Easy-to-Read Dial • Backlighting • Standard • Temperature Compensated • Shock & Vibration Resistant • Designed & Built for Aircraft***

MICRO-1000 EGT PROBES

Weld-on Boss Type EP131 ..... P/N 10-01477 ..... **$26.25**
Clamp-on Type EP130 ..... P/N 10-01471 ..... **$55.25**
Adjustable 8mm EP130R ..... P/N 10-01475 ..... **$44.50**
(for all Rotax w/factory Boss)
Adjustable 1/8NPT EP132 ..... P/N 10-01478 ..... **$41.50**
Adjustable 1/4NPT EP133 ..... P/N 10-01479 ..... **$41.50**

MICRO-1000 CHT PROBES

14mm CP130 ..... P/N 10-00823 ..... **$23.65**
18mm CP131 ..... P/N 10-01440 ..... **$23.50**
10mm CP132 ..... P/N 10-01441 ..... **$22.65**

MICRO-1000 LEADS

7-ft. CHT - Leads required ..... P/N 10-01442 ..... **$21.60**
15-ft. CHT - Leads required ..... P/N 10-01443 ..... **$46.75**
7-ft. EGT - Leads required ..... P/N 10-01480 ..... **$17.75**
15-ft. EGT - Leads required ..... P/N 10-01481 ..... **$33.75**

NOTE: For a complete CHT or EGT set, order Gauge, Probe, and leads

The CHT probe (above left) is a high quality Chrome/Constantan "E" type. A more expensive material than that of the more commonly found "J" type, the "E" type probe produces much greater accuracy at lower temperatures (less than 600°F). Extension wire is of the same material as the thermocouple to preserve the accuracy and temperature compensation qualities. NOTE: The 15' extension leads may be shortened up to seven feet. The EGT probes are high-quality Chrome/Alumel "K" types. Choose the weld-on boss type (above) for new engine installations. Choose the clamp-on type (above) to replace the existing probe. Order gauges, Micro-1000 probes and extensions separately. ***Note: These are "K" type grounded probes, not for use on digital gauges. For use with Micro-1000 gauges.***

CHT

Scaled 0-600°F
2-1/4" CH131 ..... P/N 10-01426 ..... **$68.75**

MICROFLIGHT GAUGES

STANDARD MICROFLIGHT ENGINE GAUGES

Standard gauges are a low cost solution for monitoring engine performance. The gauges on this and part of the next page are light-weight, inexpensive alternatives. These gauges are not temperature compensated; changes in ambient temperature will affect their readings. Unlike our MICRO-1000 gauges, they do require shock mounting. All gauges come with a 1-year warranty which covers any malfunction. Prices include probes with 4-ft. leads. Gauges leads may be extended with 18-gauge wire. "C" at end of P/N indicates temperature scale in degrees celsius.

CYLINDER HEAD TEMP.

2-1/4", 0-700°F .. P/N CH004 .... **$73.75**
2-1/4", 0-350°C .. P/N CH004C . **$75.25**
Includes probe

EXHAUST GAS TEMP.

2-1/4",
600-1700°F .... P/N EG004 .... **$82.50**
2-1/4",
400-900°C ..... P/N EG004C .. **$82.50**
Includes probe

DUAL CHT

2-1/4" ... P/N CH005 ... **$133.95**
2-1/4" ... P/N CH005C **$133.95**
Includes probe

DUAL EGT

2-1/4" .... P/N EG005 ... **$147.95**
Includes probe

0-8000 RPM TACHOMETER

3-1/8" for 2-cycle engines for single Ignition
Ducatti Ignition... P/N TA023 ... **$81.50**
For lighting coil operation
No power required.

0-8000 RPM TACHOMETER

2-1/4" for 2-Stroke Engines
Single Ignition (all) .. P/N TA006 .. **$79.50**
Ducatti Ignition..... P/N TA021 .. **$69.85**
For lighting coil operation
No power required.

CHT/EGT COMBINATION

2-1/4" ..... P/N CE003 .... **$150.95**
2-1/4" ..... P/N CE003C . **$128.95**
Includes probe

CHT PROBE

"J" type sending unit with 4-ft. lead.
14 mm .... P/N CP001 .... **$25.75**
10 mm .... P/N CP002 .... **$16.90**

CYLINDER HEAD TEMP.

2", 0-700°F .... P/N CH001 ..... **$69.75**
2", 0-350°C .... P/N CH001C **$70.00**
Includes probe

EXHAUST GAS TEMP.

2", 600-1700°F . P/N EG001 ... **$74.25**
2", 400-900°C ... P/N EG001C . **$81.25**
700-1700°F
Includes probe

CHT/EGT COMBINATION

2" ..... P/N CE001 ..... **$129.00**
2" ..... P/N CE001C **$131.95**
Includes probes

EGT PROBE

"K" type sending unit with 4-ft. lead.
P/N EP001 ..... **$31.00**
8 mm threaded EGT Probe (for new 2-stroke Rotax)
P/N EP002 ..... **$34.75**

DUAL CHT

2" ..... P/N CH002 ..... **$126.95**
2" ..... P/N CH002C **$126.95**
Includes probes

DUAL EGT

2" ..... P/N EG002 ..... **$139.00**
2" ..... P/N EG002C **$139.00**
Includes probes

DUAL TACH/EGT

2" round gauge
Tachometer – Universal for single or dual ignition.
EGT range: 700-1700°F
EGT probe (clamp type).
P/N ET002R **$85.50**

0-8000 RPM TACHOMETER

2" for 2-Stroke Engines
Single Ignition (all)
P/N TA001 .. **$73.50**
Ducatti Ignition.... P/N TA020 .. **$67.50**
For lighting coil operation

ADI RH60-A TACHOMETER/HOUR METER GAUGE

The RH60-A RPM/Engine hours/Elaped time gauge is a four digit digital display of engine RPM, total engine hours and elapsed time. The RH60-A works with any engine and can be driven from a wide range of tacho signal frequencies and amplitudes. Front panel calibration is provided for spot-on accuracy to +/- 1RPM. A separate engine hours countdown alarm can be set to remind you of upcoming oil change or 100 hr maintenance due. A high RPM alarm can be set, and the RH60-A keeps track of the maximum RPM seen. When activated, the RH60-A built-in 85dB alarm will sound and the display will flash. Five levels of backlighting can be selected from, and thirteen levels of display dampening. All calibrations, alarm values and max RPM are saved to a nonvolatile memory. Terminal C can be programmed as an External Alarm output if so desired. Signal Generator RH6-SG is req. for install (PN 10-04197)

RH60-A ..... P/N 10-02879 ..... **$224.95**
RH60-SG ..... P/N 10-04197 ..... **$69.25**

ADI MAP60-A MANIFOLD PRESSURE GAUGE

The MAP60-A, Manifold Absolute Pressure Gauge provides an accurate digital display of your engine's intake manifold absolute pressure. Commonly found and used in high performance aircraft with constant speed propellers, and/or with boost devices such as super and turbochargers. The MAP60-A is set up to use the UMA 5-60 InHg absolute pressure transducer. The display will show manifold pressure in tenth of an inch increments, from 5.0 to 60.0 InHg. The LOW and HIGH user settable alarms can be set over the entire range. The HIGH alarm in this case might be set to alert the pilot to a "OVERBOOST" condition. When activated the built-in 85dB alarm will sound and the display will flash. The External Alarm output would most likely be used to activate an annunciator/warning "OVERBOOST" condition light. Five levels of backlighting can be selected and then all setup, and alarm values will be saved to a nonvolatile memory. Senders not included.

MAP60-A ..... P/N 10-02872 ..... **$154.95**
N1EU50A Pressure Sender ..... P/N 10-01062 ..... **$118.95**

ADI DIGITAL PRESSURE GAUGES

The P60-A DIGITAL PRESSURE GAUGE, can be used to display ENGINE OIL(AO), DRIVE OIL(ADO), WATER(AW), or FUEL(AF)pressures in PSI or Bars. It has built-in calibration curves for most popular senders manufactured by VDO, Teleflex, and Stewart-Warner (sender not included). The sender type is easily selected with the front panel keys. LOW and HIGH pressure alarms can be set over the entire range of the instrument/sender. When activated the P60-A built-in 85dB alarm will sound and the display will flash. Five different levels of internal backlighting can be selected, and then all setup, calibrations, constants, alarm values, sender type, and lighting level are all saved to a nonvolatile memory. Terminal "C" comes Factory preset to use as an External Alarm signal. This 5V,10mA signal voltage could be used in conjunction with the optional ER-1A electronic relay to control a backup/secondary piece of equipment (electric water pump / fuel pump) or simply used to illuminate a panel warning light. NOTE: Alarm functions must be activated or enabled to utilize them.

P60-A Engine Oil Pressure Gauge ..... P/N 10-02874 ..... **$158.95**
P60-AD PSRU Oil Pressure Gauge ..... P/N 10-02875 ..... **$154.95**
Water/Coolant Pressure Gauge ..... P/N 10-02876 ..... **$154.95**
P60-AF Fuel Pressure Gauge ..... P/N 10-02877 ..... **$154.95**
Hydralic Pressire Gauge (with sender) ..... P/N 10-02878 ..... **$198.95**

ADI DIGITAL TEMPERATURE GAUGES

The T60-AE ***DIGITAL TEMPERATURE GAUGE*** provides an accurate digital display for Engine Oil(AO), Drive Oil(ADO), or Engine Water(AW) TEMPERATURES in either degrees F or C. It has built-in calibration curves for most popular senders manufactured by VDO, Teleflex, Stewart-Warner, and others(senders not included). Sender type is easily selected using the front panel keys. LOW and HIGH temperature alarm limits can be set over the entire range of the instrument/sender. When activated, the built-in 85dB alarm will sound and the display will flash. The alarm can be enabled or disabled with a single key press. Five different levels of internal backlighting can be selected. Then all setup, calibrations, constants, alarm values, sender type, and lighting level selected are all saved to a nonvolatile memory. Terminal "C" can be programmed as an External Alarm output.....

T60-AE Engine Oil Temperature Gauge ..... P/N 10-02881 ..... **$154.95**
T60-AD PSRU Oil Temperature Gauge ..... P/N 10-02882 ..... **$154.95**
T60-AW Water Temperature Gauge ..... P/N 10-02883 ..... **$154.95**

The PY60-AE ***DIGITAL EGT/CHT GAUGE*** works with both J and K type thermocouples to provide accurate monitoring of your engine's cylinder head or exhaust gas temperatures, from -4-2012F (-20-1100C). LOW and HIGH temperature alarm limits can be set from 32-2012F (0-1100C). When activated, the built-in 85dB alarm will sound and the display will flash. The highest temperature seen is automatically saved to a nonvolatile memory, and can be displayed or reset at any time. Five different levels of internal backlighting can be selected, then all setup, calibrations, and constants are also saved to nonvolatile memory.

PY60-AE Exhaust EGT Gauge ..... P/N 10-02884 ..... **$233.95**
PY60-AC Exhaust EGT Gauge ..... P/N 10-02885 ..... **$224.95**

ADI DIGITAL FUEL GAUGES

The F60-A DIGITAL FUEL GAUGE provides an accurate digital display of fuel remaining, trip fuel and total fuel used. Fuel remaining can be displayed up to 6550 liters or gallons, or as a percentage (0-100%) with user selectable display dampening to help prevent unwanted fluctuations in rough air. The F60-A is programmed for use with all known resistive American and European level senders made by VDO, Teleflex, Mercury, GM, Stewart-Warner, Centroid, Faria and others. LOW and HIGH fuel alarms can be set over the entire range. When activated, the built-in 85dB alarm will sound and the display will flash. Five different levels of internal backlighting can be selected, then all setup, alarm values, sender type and maximum tank capacity are saved to a nonvolatile memory. The External Alarm output on Terminal "C" can be programmed to activate an annunciator warning light, such as "LOW FUEL" or to control one of our ER-1A remote relays for the possible transferring of fuel from another tank. When the transfer mode is selected (tFEr), the pump will turn ON at the selected LOW alarm value, and OFF, when the fuel reaches the HIGH alarm setting. The gauge display will flash during the pump's operation. P/N 10-04908 is the correct sender for this unit. Will work up to 150 PSI. **For experimental use only, not for use on certified aircraft.** Specifications: Power Supply; 9.5-33.0 VDC (.018 amp nominal). Operating Temp: 32-122F(0-50C). Size/ Weight: 2.475" square, low profile...easily stackable bezel, with standard aviation 2.250" raised round ring. Standard 2.625" diameter mounting hole layout at 45 degrees. Proprietary unique bezel design allows user the option of either front or rear mounting our gauges in their panel. Gauge depth behind panel: surface mounted approx. 2.60", rear mounted, approx. 2.90". Weight approx 2.3oz.. Accuracy: Limited only by sender accuracy.. Sender: Works with 0-30, 0-70, 0-90, 10-73, 10-180, 33-240, 40-250 ohm (and/or their inverse) level senders by VDO, Teleflex, GM, Stewart-Warner, Mercury, Faria,and others (both American and European) Also available in capacitance (0-5V), and 4-20mA sender versions.. Alarms: 85dB internal LOW and HIGH level alarms, settable from 000.0 to 6553. External alarm output (5V,10mA(max). Display: 4 digits, Liters, Gallons, or %. 000.0 to 6553 gallons or liters Five levels of backlighting.. Output: Terminal C can be used as an External Alarm signal,(5V, 10mA) for a LED warning light... or as a control signal for an ER-1A relay and a possible fuel transfer pump.

F60-A Fuel Gauge (pictured) ..... P/N 10-02868 ..... **$139.00**
Fuel Flow Gauge FU-60-A ..... P/N 10-02869 ..... **$232.95**

AIRCRAFT DIGITAL INSTRUMENTS

ADI T60-ACR CHT GAUGE FOR ROTAX

The T60-ACR Cylinder Head Temperature Gauge is compatible with Rotax 912S/914 series engine, supplied with the 1000-75 OHM (68F-320F) Temperature Sensor. Low and High temp alarms can be set over the entire range of the instrument/sender. When activated, the built-in 85 dB alarm will sound and the display will flash. The alarm can be enabled or disabled with a single key press. Five levels of backlighting can be selected. Then all setup, calibration constants, alarm values, sender type and lighting levels selected are saved to nonvolatile memory. Terminal C can be programmed as an External Alarm output. This could be used in conjunction with ER-1A electronic relay to control optional equipment such as an electric radiator cooling fan, or to simply activate a warning/annunciator light on your panel.

T60-ACR CHT Gauge for Rotax.....P/N 10-04878 ..... **$149.95**

T60-A OIL TEMPERATURE GAUGE FOR ROTAX

The T60-A Temperature Gauge displays water or engine oil temperature in either degrees F or C. It has built-in calibration curves for most popular senders manufactured by VDO, Teleflex, Stewart-Warner, and others. (senders available separately) Sender type is selected with the front panel keys. LOW and HIGH temperature alarms can be set over the entire range of the instrument/sender. When activated, the built-in 85dB alarm will sound and the display will flash. The alarm can be enabled or disabled with a single key press. Five levels of backlighting can be selected. Then all setup, calibration constants, alarm values, sender type and lighting level selected are saved to nonvolatile memory. Terminal C can be programmed as an External Alarm output. This could be used in conjunction with an ER-1A electronic relay to control optional equipment such as an electric radiator cooling fan, or to simply activate a warning/annunciator light on your panel. NOTE: The T60-AE (Engine Oil Temperature Gauge) is compatible with the Rotax 912S / 914 Series supplied with 1000-75 OHM (68F-320F) Oil Temperature Sensor.

T60-A Oil Temperature Gauge for Rotax .....P/N 10-04877 ..... **$149.95**

ADI F60-OPR OIL PRESSURE GAUGE FOR ROTAX

The F60-OPR Oil Pressure Gauge provides an accurate digital display of Engine Oil Pressure.
The F60-OPR is programmed for use with the ROTAX Factory installed Honeywell Oil Pressure Transducer. Low and High alarms can be set over the entire range. When activated, the built-in 85dB alarm will sound and the display will flash. Five different levels of internal backlighting can be selected, then all setup and alarm values are saved to a nonvolatile memory. The External Alarm output on Terminal "C" can be programmed to activate an annunciator warning light, such as "Low or High Pres" or to control one of our ER-1A remote relays.

F60-OPR Oil Pressure Gauge.....P/N 10-04873 ..... **$149.95**

ADI F60-FPR FUEL PRESSURE GAUGE FOR ROTAX

The F60-FPR Fuel Pressure Gauge provides an accurate digital display of the fuel system's pressure.
The F60-FPR can be specifically used with the ROTAX 912S/ 914 series engine with the Mechanical Fuel Pump, in conjunction with a F60-FPT (0-15PSI Fuel Pressure Transducer) LOW and HIGH pressure alarms can be set over the entire range. When activated, the built-in 85dB alarm will sound and the display will flash. Five different levels of internal backlighting can be selected, then all setup and alarm values are saved to a nonvolatile memory. The External Alarm output on Terminal "C" can be programmed to activate an annunciator warning light, such as "Low or High Pressure" or to control one of our ER-1A remote relays.

F60-FPR Fuel Pressure Gauge for Rotax .....P/N 10-04875 ..... **$139.95**

IN

ADI V60-A VOLTMETER

The V55-A Battery/System Voltage Monitor gauge provides an accurate low cost digital instrument for battery/ system voltages between 9.5-33.0 VDC. You can set independent LOW and HIGH voltage alarms. The V55-A built-in 85dB alarm will sound and the display will flash. Five levels of backlighting can be selected and then all setup, calibration constants and alarm values are saved to nonvolatile memory. Terminal C can be selected and used as an External Alarm output signal. (5V, 10mA max).

V60-A Voltmeter..... P/N 10-02886..... **$156.95**

ADI AM60-A DIGITAL AMMETER

The AM60-A Digital Ammeter provides an accurate low cost digital instrument for monitoring your aircraft's electrical load (amps), and is programmable to use a 5.0 to 900 amp shunt. (available separately). Up to 90.0 amps the AM60-A can display your load current in tenths of an amp. Above 90 amps current is displayed in full amps. The AM60-A can be powered by any voltage between 9.5 and 33.0 Volts. Five levels of backlighting can be selected using the front panel keys and backlighting can be turned ON/OFF remotely. All setup, calibrations, and constants are saved to nonvolatile memory

AM60-A Digital Ammeter..... P/N 10-02864..... **$136.95**
Ammeter With 150A Shunt..... P/N 10-02932..... **$149.95**

ADI 450AMP 50MV DC Shunt..... P/N 10-04880..... **$59.75**

ADI CT60-A CLOCK / TIMER

The CT60-A Clock/Timer is an accurate 12/24 hour format clock with a resettable down-counting timer with eight time-of-day settable alarms. The clock is Factory calibrated, but can be adjusted with the front panel switches and calibrations saved to nonvolatile memory. The clock is accurate to within five seconds per day, and is Factory calibrate to within one second per day. The CT60-A has a large LCD display, yet draws only 0.018 amps. Five levels of backlighting can be selected and all setup, calibration constants and alarm values are saved in nonvolatile memory.

CT-60A Clock/Timer ..... P/N 10-02865.....**$138.75**

TL ELEKTRONICS INSTRUMENTS

COMBINED ENGINE INSTRUMENT

• High performance, small dimensions & weight - an ideal instrument suitable for all types of engines • Set value limits at 2 levels (Warning & Alarm) for all measured values. In case these values are exceeded the instrument will warn you in time of any possible engine damage • Configure display to show temperature, pressure, rotations, battery voltage, engine hours, OAT, fuel consumption as you wish using the configuration program delivered with the instrument. Size: 3-1/8"

Thermocouple probe for EGT (type K) M8x1 screw type - for all engines ..... P/N 10-00894 ..... **$75.50**
Thermocouple probe for CHT (type J) 12mm hole - for all engines ..... P/N 10-00895 ..... **$42.65**
Thermocouple probe for CHT (type J) 14mm hole - for all engines ..... P/N 10-00896 ..... **$59.95**
Thermocouple probe for CHT (type J) 18mm hole - for all engines ..... P/N 10-00897 ..... **$59.95**
Oil or water temp. sender (0 to 110°C/230°F) for Rotax 2-stroke ..... P/N 10-00898 ..... **$59.95**
Oil or water temp. sender (0 to 150°C/300°F) for Rotax 4-stroke ..... P/N 10-00899 ..... **$59.95**
Passive oil pressure sender (0 to 145 PSI, 1/8"-NPT) for all engines ..... P/N 10-00904 ..... **$75.75**
Active oil pressure sender (0 to 145 PSI, 1/8"-NPT) for all engines ..... P/N 10-00905 ..... **$350.95**
Metal hi-quality flow sensor (0-30 gph)-all engines ..... P/N 10-00906 ..... **$324.00**
Passive speed sensor-all eng. (inductive sensor) ..... P/N 10-00907 ..... **$39.95**
Active speed sensor-all engines (hall effect 3-wire sensor) 5-30V power supply req. ..... P/N 10-00909 ..... **$148.95**
Active speed sensor-all engines (hall effect 3-wire sensor) 5V. ..... P/N 10-00910 ..... **$148.95**

FUEL COMPUTER

• Measure immediate fuel flow of your engine in liters/hour or liters/100 km and average fuel consumption • Set limit values at 2 levels (Warning & Alarm), for all measured values. In case these values are exceeded, the instrument will warn you prior possible failure or damage of the engine • Display at any time the fuel levels in the left, right or both fuel tanks. Size: 2-1/4"

Fuel computer without fuel-flow sensor..... P/N 10-00870 ..**$444.95**
Metal high-quality flow sensor for all engines ... P/N 10-00871 ..**$325.00**
Fuel Qty Sender Float (240-30 OHM)..... P/N 10-00056 ....**$37.75**
Active cap. fuel level sender (all aircraft) ..... P/N 10-00798 ..**$131.95**
Active fuel pressure sender (all aircraft) ..... P/N 10-00873 ..**$255.95**

INTERCOM

• Intelligently managed voice activators (VOX) •Listen to your favorite music e.g. from CD/cassette directly to your headphones or attach your intercom to your mobile telephone • Control your intercom digitally using keys & displays • Record and play pre-takeoff or landing checklist directly to your headphones (checklist can easily be created on your PC and recorded into the intercom) • In case of accident simply switch on emergency broadcast, which will be re-played at short intervals and transmitted using a RDST w/pre-recorded message. Size: 2-1/4"

Intercom w/voice alarm, checklist & digital voice rec.
P/N 10-00867 .**$459.00**
Connection cable for mobile phone..... P/N 10-00868 ...**$26.40**
Connection cable to VHF airband-transceiver ... P/N 10-00869 ...**$52.75**

ALTIMETER WITH ENCODER

• 2 instruments for the price of one – altimeter & mode C encoder for all types of transponder • Set value limits at 2 levels (Warning & Alarm) for multiples • Display QNH or QFE levels with the option of setting zero • The instrument will provide a warning if an insufficient oxygen altitude is reached • The instrument will signal low altitude, e.g. after opening of undercarriage, MDA, approach. Size: 2-1/4"

P/N 10-00891 ....**$522.00**

VOLT-AMPERE METER

• First volt-ampere meter with 3-phase measurement of voltage, current & frequency • Connect up to 3 circuits for measuring current and voltage, for example instrument panel circuit, light circuit and flash and other circuit • Check the activity of the three-phase voltage converter for an artificial horizon using your voltmeter with the option of checking 400 Hz frequency • Set value limits at two levels (Warning and Alarm) for minimum & maximum voltage and current. Set the form of display either by gradual switching of voltage and current on the display at intervals chosen by you (SCAN function) or by displaying lowest or highest current-voltage. Size: 2-1/4"

Digital volt-ampere meter & frequency meter P/N 10-00883.....**$379.00**
Current shunt sensor for measuring to 50amps (for all aircraft)
P/N 10-00884.....**$59.95**

RPM & ENGINE HOURS

• Measure rotations & engine hours with the option to trigger the counting from a certain engine rotation rate (by your choice) so that you can divide taxing from flight time • Set value limits at 2 levels (Warning & Alarm) for all measured values. In case these values are exceeded the instrument will warn you in time of any possible engine damage • Several separate users with pilot/student option – suitable for several owners or in flight schools, where the instructor selects the student and the time will be measured only against his/her name. Size: 2-1/4"

Digital RPM w/ engine-clock & stop-watch ..... P/N 10-00886....**$309.00**
Digital RPM w/ engine-clock, stop-watch & internal speed sensor
P/N 10-00887....**$556.00**

THERMOMETER

• Use the thermometer to measure up to 4 temperatures and oil pressure • Use the automatic choke function using the modeler's servo regulated by thermometer according to any of the measured temperatures e.g. CHT • Set value limits at 2 levels (Warning and Alarm) for all measured values. In case these values are exceeded the instrument will warn you at time of any possible engine damage • Set the form of display either by gradual switching of measured temperatures on the display at intervals selected by you (SCAN function) or displaying the closest temperatures to the limit values that you have set. Size: 2-1/4"

Therm. for 4 temp. & press. w/choke control P/N 10-00874.... **$369.95**
Thermocouple probe for CHT (type J) 12mm hole - for all engines
P/N 10-00876..... **$59.95**
Thermocouple probe for CHT (type J) 14mm hole - for all engines
P/N 10-00877..... **$59.95**
Oil or water temp. sender (0 to 150°C/300°F) for Rotax 4-stroke.
P/N 10-00879..... **$28.75**

G ACCELEROMETER

• Using the accelerometer measure the operational values of your aircraft on the vertical axis • Set value limits at 2 levels (Warning and Alarm) for all measured values. In case these values are exceeded the instrument will warn you in time of any possible damage to the aircraft • Always be informed of values approaching the limits, which could result in damage to the aircraft • Always be aware of exceeded values from the previous flight after switching on the instrument • Start of logging is carried out by a switch on the undercarriage or by an internal / external pressure sensor on attaining your selected speed. Size: 2-1/4".

Digital accelerometer.....P/N 10-00889 .....**$431.95**
Digital accelerometer w/ internal airspeed sens.
P/N 10-00890 .....**$579.00**

TL-3424-RAS ACCELEROMETER

The TL-3424 is complete weight acceleration management. The instrument incorporates a high-precision sensor for measuring acceleration in the vertical axis. The SAS version also incorporates a sensor for measuring the indicated airspeed, which enables the activation of memory recording. Both versions enable to utilize an undercarriage scanner that can also activate memory recording.

P/N 10-02312 ..... **$564.00**

TL INSTRUMENTS ARE FOR EXPERIMENTAL AIRCRAFT ONLY.

IN

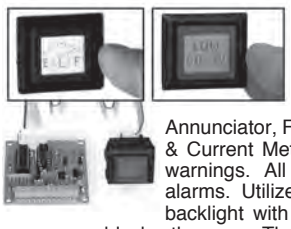
AE FUEL GUARDIAN

AE FUEL GUARDIAN LOW FUEL ANNUNCIATION SYSTEM

This system gets your attention before you have to switch tanks. When the annunciator light flashes, you will know your precise fuel quantity and also the time to engine shut-down for that tank. HOW DOES IT WORK? - The optical fuel sensor is a non-contact sensor mounted in a single hole in the fuel tank. It operates by bouncing a beam of light into the sensors lens. If it is reflected back into the sensor, there is no liquid present. If it is not reflected back, it is dissipated into the liquid media. The sensor output is pulled down, or activated.The electronics constantly monitors the sensor outputs of both tanks. When a low fuel level is detected, the appropriate light starts to blink, getting the pilot's attention immediately. After the pilot sees the alarm, he can press the acknowledge button. This action turns the light on solid (continuous) denoting a low fuel quantity. This function of the annunciator eliminates the distracting flashing action of the lights for the pilot, yet he can still see that he has a low fuel indication. The AE Fuel Guardian also has an audio output that can be wired into the aircraft intercom or audio system if desired. The audio beep is only present when the annunciator lights are flashing. The AE Fuel Guardian annunciator lights can also be wired into the aircraft dimmer bus if desired for night flight. This system is 100% solid state and is compatible with 12VDC or 24VDC electrical systems. The installer sets the sensors to provide low fuel warning at whatever level is desired. System includes (2) annunciator panel lights, (2) optical sensors, (1) push button, Sensor drive and annunciator electronics enclosure, wiring, and lettering decals. For Experimental aircraft only.

Kit With One Sensor .....P/N 10-01811 .....**$149.00**
Kit With Two Sensor .....P/N 10-00399 .....**$210.00**

AE AG6 ANNUNCIATOR GAUGE METER



One Button, Multi-function,Aircraft Annunciator - Fuel Gauge, Several styles available (with low fuel warning and caution zones) Volt Meter & Current Meter (with low & high warnings and caution zones) A full service Aircraft Annunciator, Fuel Gauge, Oil Level Gauge, Volt Meter & Current Meter. Will display many different aircraft warnings. All devices feature user programmable alarms. Utilizes a push-button LCD display that is backlight with a 3 color LED. All functions are fully programmable by the user. The push-button/display can be used for programming, acknowledging the alarms, and paging thru up to 16 different screens or "annunciator points". Can automatically scan thru each screen or it can be done manually using the push-button. The pilot has the ability to mask or unmask annoyance alarms. ***NOTE***: Input devices not included. It is up to the user to provide input devices such as fuel senders, shunts, oil level sensors and input switches to drive the AG6 DISPLAY & PUSH BUTTON P/N 10-04180.....**$169.95**

AE LOW OIL LEVEL SENSOR

Originally designed for small Lycoming engines, but can be utilized on several other engine types as well. Utilizes a 1/2" NPT fitting so that it can be inserted directly into the oil pan of most small Lycoming Engines. The 5/8" x 5/8" square bolt head of this sensor has been drilled (0.08" dia.) to accept a safety wire. Material: Stainless Steel construction Switch: Normally open when normal oil level, 30V @ 0.35Adc max. Temperature: -20°F to +280°F

You can utilize the "flashing panel light", a relay, or utilize your own panel indicator. The maximum current draw for any light or relay is 0.2Adc. The light can be mounted in the instrument panel using a 0.249" to 0.254" diameter mounting hole. The light supplied will operate from a +12Vdc system. To make this system +24V compatible, you will need to add a 12V zener diode in series with our flashing panel light. AE Low Oil Level Sensor (sensor ONLY) .....P/N 10-01812 ..... **$99.00**
AE Low Oil Level Sensor with blinking red LED (LED blinks when oil level is low).....P/N 10-03891 ..... **$109.95**

AUXILIARY FUEL PUMP RELAY

The AFPR is a "Smart" Auxiliary Fuel Pump Relay. This device allows the pilot to flip oneswitch and quickly drain the contents of the auxiliary fuel tank without over stressing the auxiliary fuel pump. The AFPR will pump down the auxiliary fuel tank, and then automatically shut the fuel pump off when no fuel is detected. The AFPR includes a very reliable optical fuel sensor that can be easily installed in the auxiliary fuel tank or in the fuel line. The AFPR can be operated in and one of four modes of operation. The AFPR also has an output that can be used for a light to indicate when the fuel pump-down has been completed. Input Power: 12Vdc or 24Vdc, 0.1A max. Enclosure: 3.5" x 2.25 x 1.25" (89mm x 57 x 32mm) Fuel Sensor Mounting Hole: 0.475" (12mm) P/N 10-04343.....**$129.95**

AE AIRSPEED SWITCH & RELAY BOARD

RELAY BOARD USE: Control your Flap & Elevator Trim motors. This board allows you to use any inexpensive switch [Single Pole, Double Throw, (ON)-OFF-(ON), Spring Loaded, 3 Position] to control your flap and elevator trim motors. You can series as many switches as you desire control your flap & elevator trim motors. Free connection diagrams for relay boards and airspeed switch for several typical systems. ***AIRSPEED RELAY USE:*** Flap Deployment Protection at High Airspeeds When our relay board is used with our airspeed switch, you can protect you flaps from being actuated in the downward direction when your airspeed is too high (above the white arc). We provide the end user with easy connection diagrams for several different systems. Automatic Speed Adjust for Elevator Trim Motors Many have complained about the fast adjustment speed of elevator trim motors at high airspeeds. When our relay board is used with our airspeed switch, it eliminates this problem. You will have two speeds, fast for slower airspeeds, and slower for high airspeeds. The slower speed is adjusted by supplying this relay board a lower motor drive voltage. ***RELAY BOARD SPECIFICATIONS*** Each board includes two independent, Single Pole, Double Throw Relays. Relay contacts are protected against inductive sparking generated from switching inductive loads such as motors. For use on 12Vdc systems. Switch currents up to 10 Amps. Boards are stackable to 3 levels high for saving panel space. Mounting hardware included

AE Relay Board One.....P/N 10-01814.....**$45.25**
AE Relay Board Two Staked.....P/N 10-01815.....**$63.75**
AE Relay Board Three Staked.....P/N 10-01816.....**$79.00**
AE Airspeed Switch & Board.....P/N 10-01817.....**$93.00**

SAFETY-FLY 700

Safety-fly 700 is a useful universal control device for ultralight aircrafts that monitors in real-time, by means of warning lights and an acoustic buzzer, all the engine pre-alarm parameters listed below using the standard sensor signals installed on the Rotax engine, thus avoiding engine problems.
Safety-fly 700 displays and checks:

- pre-alarm cylinder heads
- pre-alarm engine oil temperature
- pre-alarm minimum and maximum engine oil pressure
- green light for regular oil temperature
- fuel light for open taps
- the position of flaps on 3 levels
- timer set to 2 minutes

The calibration is done directly by the pilot, by means of the existing instruments installed on the dashboard.
Safety-fly 700 is supplied with wiring harness, connectors and operating manual. 3 year warranty. Made in Italy.

P/N 10-04934.....**$265.95**

AEROSPACE LOGIC CHT/EGT INDICATORS

Available in 4 or 6 cylinder configurations • Supports most type K thermocoupleprobes • Displays information in °C & °F with automatic conversion of all setup parameters • Accuracy to within 1°F • Displays temps from 0°F – 1900°C / 0°C—1040°C (EGT); 0°F – 700°C / 0°C—371°C(CHT) • High speed scan and acquisition rates. While others update information every 5 seconds and more, our instrument provides precise information every 1 second! • Analog bar type and digital display Select between any of these powerful display pages:
1) Any specific cylinder. Choose the cylinder you wish to monitor and change to the next whenever you wish.
2) Sequential step through each cylinder with 5 second delay.
3) Auto select. Selects the hottest cylinder, updated every 1 second.
4) Switch between any selectable function and the auto function and return to the last monitored setting without any data loss!
• User programmable high and low limits • Internal and external brightness control (user programmable) • 9V-33V operating range • Only 2.2" deep • Fits std 2.25" mounting holes • Full 1 year warranty.

Part No.	Model No.	Description	Cylinders	Price
10-00447	CHT-100-4	Cylinder Head Temperature Instrument	4	$445.95
10-02154	CHT-100-4V	Cylinder Head Temperature Instrument with Built in Voltmeter	4	$499.95
10-00449	CHT-100-4RP	Cylinder Head Temperature Instrument with 18mm Ring Probes	4	$544.00

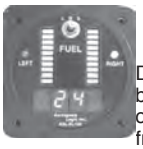
AEROSPACE LOGIC FUEL PRESSURE/AMMETER/VOLTMETER

Fuel Pressure and Ammeter kit. Includes instrument with integrated voltmeter, solid state fuel pressure sender and 30A current shunt.

Part no.	Model No.	Description	Price
10-01773	FP-100-K30	Fuel Pressure, Ammeter, and Voltmeter Instrument w/ External 30A Shunt	$666.00
10-01774	FP-100-K60	Fuel Pressure, Ammeter, and Voltmeter Instrument w/ External 60A Shunt	$624.00
10-01775	FP-100-K100	Fuel Pressure, Ammeter, and Voltmeter Instrument w/ External 100A Shunt	$624.00

AEROSPACE LOGIC INTELLIGENT TACHOMETER

Intelligent Tachometer Kit. Works with all magneto based ignition systems. Complete with instrument, data download cables, all sensors and installation hardware. For experimental aircraft, TSO and STC in progress.
P/N 10-01776 ..... **$490.95**



AEROSPACE LOGIC FL-100 DUAL FUEL LEVEL INDICATORS

Displays fuel level of two separate tanks on color coded bar graph indicators and a digital readout of fuel quantity on a 4-digit display. Fully user programmable from the front panel. For use with 0-5V sensors/ transducers. Fits standard 2-1/4" mounting hole. Voltage: 9-33 VDC. Displays fuel in US gallons.

Part No.	Model No.	Description	Price
10-00304	FL-100-R	Dual Fuel level Indicator for Senders with a Maximum Resistance of 300 Ohms	$622.00
10-01767	FL-100-R (44)	Dual Fuel level Indicator for Senders with a Maximum Resistance of 44 Ohms	$549.00
10-01768	FL-100-R (67)	Dual Fuel level Indicator for Senders with a Maximum Resistance of 67 Ohms	$545.00
10-01769	FL-100-R (108)	Dual Fuel level Indicator for Senders with a Maximum Resistance of 108 Ohms	$545.00
10-01770	FL-100-R (711M)	Dual Fuel level Indicator for Use with Cessna Pennycap Capacitive Fuel Senders	$622.00
10-00303	FL-100-6	Dual Fuel Level Indicator for Senders with a DC Voltage Output of 0v-5v	$580.00

AEROSPACE LOGIC OIL PRESSURE & TEMPERATURE

Your OL-100 Oil Pressure and Temperature Indicator will provide you with years of reliable service and generally outlast the life of your aircraft.Every reading you will see displayed on your instrument has been validated at least 256 times before you see it. This all happens in less than a second. When you see the result you know the instrument is functioning correctly as it is monitored by an independent microprocessor just to ensure that it is functioning correctly. In turn the main processor validates the independent monitoring processor.

Part No.	Model No.	Description	Price
10-01779	OL-100-TK	Oil Pressure and Temperature Instrument with Pressure and Temperature Senders	$735.00
10-01780	OL-100-TKV	Oil Pressure and Temperature Instrument with Pressure and Temperature Senders and Built in Voltmeter	$697.00

AEROSPACE LOGIC VOLMETER / AMMETER

Voltmeter and Ammeter kit. Includes instrument and current shunt.

Part No.	Model No.	Description	Price
10-01782	VA-100-K30	Voltmeter and Ammeter Instrument with 30A External Shunt	$433.95
10-01783	VA-100-K60	Voltmeter and Ammeter Instrument with 60A External Shunt	$433.95
10-01784	VA-100-K100	Voltmeter and Ammeter Instrument with 100A External Shunt	$373.95

AEROSPACE LOGIC CLOCK & OUTSIDE AIR TEMPERATURE

Clock and Outside Air Temperature kit choose °F or °C. Includes instrument and digital temperature sensor. For experimental aircraft, TSO and STC in progress.
P/N 10-01761 ..... **$322.95**

AEROSPACE LOGIC CLOCK & OUTSIDE AIR TEMPERATURE

Manifold and fuel pressure combination instrument. Instrument contains an integrated manifold pressure sensor and requires 0.5v-4.5v fuel pressure input (0-100 PSI at full scale) Features: • Manifold Pressure 0.2-50 in.Hg • Fuel Pressure 0-60 PSI • Use as either manifold, fuel or both pressure instrument • Programmable display formats • Integrated MP sensor • Remote mount FP sender • External alarm output • All limits and functions are user programmable P/N 10-01766..... **$562.00**

AEROSPACE LOGIC SENSORS AND PROBES

Description	Part No.	Price
A200-TEC5 EGT Probe Kit	10-04813	$184.95
A200-TEC20 EGT Probe Kit	10-04812	$149.95

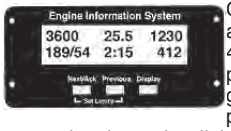
SUPER ENGINE INFORMATION SYSTEM (EIS)



Complete engine instrumentation packages available in various models for nearly all 2 & 4-stroke engines.The EIS includes 6 display pages. Combination pages provide convenient grouping of 6 or 7 engine parameters. Labeled pages are used by the alarm system with its external red warning light to make unsafe engine conditions immediately apparent. 2-stroke models provide tach, dual EGT, dual CHT, fluid temperature, auxiliary input, hourmeter, flight timer, voltmeter and outside air temperature. Four-stroke models include all of this, plus oil pressure, a second auxiliary input and a 10 rpm resolution tachometer. All models also available with the fuel flow option (including totalizer and time to empty). The 2-stroke model is available w/altimeter/rate-of-climb. The instrument has been proven in thousands of installations worldwide. Excellent quality and robust design makes this instrument highly reliable. Systems include probes and pre-wired cables, or may be purchased individually. Requires (5) 15/16"w x 2-3/4"h x 2-1/2"d panel space.Specify engine and aircraft makes and models, standard systems furnished with gasket type CHT senders and hose clamp type EGT senders. Threaded senders available at additional cost.

Lifetime warranty for manufacturer defects

PRINCETON CAPACITIVE FUEL PROBES

• Easy Push Button Calibration - Simple push buttons make calibration easy and accurate. No sensitive screw adjustments to make. Place the probe in tank, connect power and press EMPTY. Fill tank and press FULL. Calibration is complete. ***• Steady Readings -*** Digital filtering minimizes the effects of fuel slosh providing greater accuracy.***• Proven Design -*** Designed specifically for the aircraft that are subject to harsh environments, such as vibration, temperature, and electrical noise. Probes designed for industrial applications can fail under these conditions. Proven reliability with over 10 years of history. ***• SAE 5 Hole Bolt Pattern -*** Industry standard flange mount compatible. ***• Unique Press fit installation option -*** Simply drill a 1/2" hole and use a rubber bushing to seal and hold the probe in place. ***• No Moving Parts -*** Nothing to wear out. ***• Output*** - 0 to 5 Volts ***• Compatible Fuel Quantity Gauges -*** UMA P/N: 18-110-1C1 (P/N 10-01717), 18-210-1C1 (P/N 10-01717);Westach P/N: 20A4V (P/N 10-01255) & 2A7V (P/N 10-01246) and other 0-5V gauges.

Mounting Options: ***• Unique Pressfit Installation -*** Can be mounted in plastic tank by drilling a 1/2" hole. A rubber grommet is used to hold the probe in place. ***• Standard SAE 5-Hole Bolt Pattern -*** A backing plate and seal are used to secure the probe to the tank. Standard Lengths of 12, 18, & 24 inches. Flange mount with standard SAE 5-hole pattern, or rubber grommet press fit. Probes may be shortened up to 1/2 of their measurable length. 0, 3, or 5 inch bendable section. 2 or 5 set points.

Ordering: (LL-BB-SS-MM)

LL - Length (12, 18, 24 inches or 25 to 48 inches custom)
BB - Bendable Section (NB= non-bendable, 3B= 3 inch, 5B= 5 inch)
SS - Set points (1S= Empty, 2S= Empty/Full or 5S= Empty,1/4,1/2,3/4,Full)
MM - Mounting method (PF= Press Fit Bushing, FM= Flange Mount Gasket)

Example: A 12", non-bendable, 2 set point probe using a press fit mounting part number would be 12-NB-2S-PF.

Description	Part No.	Price
Standard, 1 Or 2 Set Point, Pf Or Fm Mounting	10-00257	**$89.00**
Standard, 5 Set Point, Pf Or Fm Mounting	10-00258	**$139.95**
Standard Sae 5-hole Flange Mounting Kit	10-00259	**$20.80**
Advanced Npt Model, 1,2,or 5 Set Point, Npt Mount.	10-00256	**$189.95**

Wire For Capacitance Fuel Probe	11-03996	**$1.10**
Fuel Tank Bushing	05-01039	**$0.88**
ISS Fuel Sender Gasket	10-01097	**$1.65**

IN

SKYSPORTS CAPACITIVE FUEL SYSTEMS

The Skysports fuel monitoring system is a capacitance system which has no float and no moving parts except the needle on the gauge. Used in hundreds of various ultralight, homebuilt, and military aircraft, these fuel systems have been very popular due to their accuracy and durability. The Skysports fuel probe electronically measures the level of fuel in the tank, and sends the signal through the wire harness to the gauge. Available for single or dual tank use and for 12 or 24 volt operation. The system includes the gauge, probe, 8 ft. wire harness, mounting hardware, & instructions.

The SkySports 240-33ohm fuel systems are no longer available. They have been replaced with a new 0-5V system. These new systems, (listed below) can be used on both 12 or 24 volt aircraft. The older 240-33ohm gauge and probes are not interchangeable with the new 0-5V gauge or probes. However the installation of the systems are the same.

Note:The Skysports 240-33ohm older style probes are only available as special order upon request.

ROUND GAUGE SYSTEMS

Description	Part No	Price
2" Round 6" Straight Probe	10-04509	**$157.46**
2" Round 12" Straight Probe	10-04495	**$160.36**
2" Round 24" Straight Probe	10-04496	**$162.11**
2" Round 12" with 3" Bendable Probe	10-04497	**$160.36**
2" Round 24" with 3" Bendable Probe	10-04498	**$164.36**
2" Round 12" with 5" Bendable Probe	10-04499	**$160.36**
2" Round 24" with 5" Bendable Probe	10-04501	**$164.36**

US-8A, STCd / PMAd, ULTIMATE ENGINE ANALYZER

US-8A ULTIMATE ENGINE ANALYZER (DUAL DISPLAY)

Simultaneously displays EGT and CHT for Singles. (For Twins, call for model designation. May require two US-8As, depending on your requirements). Automatic Diagnostic Assist helps diagnose engine problems such as fouled plugs, burned valves, intake leaks, low compression, etc. Impressive Features Include: Auto Scan up to 16 temperature channels, Reprogrammable Temp Limits From the Front Panel (unavailable on competition's gauges in this category), Auto Detection of hottest EGT and hottest CHT + pilot-programmed Over-Temp and Under-Temp limits!, Programmable Scan Rate for each channel displayed (rather than competition making that decision for you). One Degree, STEADY Resolution! Only 6lbs., Standard 2-1/4" hole (or use an EI adaptor plate for 3-1/8" holes) Choose up to 16 probes (w/ cables): EGT, CHT, OAT, Carb Temp, Oil Temp

SINGLE-ENGINE US-8A PKG PRICES			
Model	**Description**	**Part No.**	**Price**
US-8A-4	4-cylinder engines without a Primary CHT gauge already installed. Includes 4 EGT probes, 4 CHT probes and 8 ea 6-ft harnesses	10-00595	**$1,108.00**
US-8A-4G	4-cylinder pkg for a/c w/ Primary CHT gauge already installed. Includes 4 EGT probes, 3 CHT probes, 1 P-102 Piggy Back CHT probe and 8 ea 6 ft harnesses	10-03283	**$1,108.00**
US-8A-6	6-cylinder pkg for a/c without a Primary CHT gauge already installed. Includes 6 EGT probes, 6 CHT probes & 12 ea 6-ft harnesses	10-00596	**$1,350.00**
US-8A-6G	6-cylinder pkg for a/c with a Primary CHT gauge already installed. Includes 6 EGT probes, 5 CHT probes, 1 P-102 Piggy Back CHT probe and 12 ea 6-ft harnesses	10-03284	**$1,350.00**
NOTE: The UBG-16 can accommodate to 16 probes (w/ cables): EGT, CHT, OAT, Carb Temp, and / or Oil Temp			
TWIN-ENGINE US-8A PKG PRICES:			
US-8A-4T	4-cylinder Twin pkg for a/c without Primary CHT gauges already installed. 4 EGTs L&R and 4 CHTs L&R. Includes 8 EGT probes, 8 CHT probes and 16 ea 20-ft harnesses.	10-00597	**$2,025.00**
US-8A-4G-T	4-cylinder Twin pkg for a/c with Primary CHT gauges already installed. 4 EGTs L&R and 4 CHTs L&R. Includes 8 EGT probes, 6 CHT probes, 2 P-102 Piggy Back CHT probes and 16 ea 20-ft harnesses.	10-00602	**$2,025.00**
US-8A-6-T	6-cyl Twin pkg (scans all EGTs L&R + 2 CHTs L&R). Includes 12 EGT probes (for 6 channels of EGT on both engines), 4 gasket CHT probes (for 2 channels of CHT on each engine), plus 16 ea 20-ft harnesses. (For more than 12 EGTs and 2 CHTs L&R, + add'l temps, order 2 US-8As)	10-00598	**$2,025.00**

SR-8A ENGINE ANALYZER

SR-8A (SINGLE DISPLAY)

STCd, PMAd - EGT's, CHT's TIT, Oil Temp, OAT, Carb. Temp + others, up to 8 channels. Manual and Auto Diagnostics (Scan) Modes. Auto Detects the hottest EGT or CHT. Factory-set EGT Over-Temp Limit (1650'F). Factory-set EGT Under-Temp Limit (1100'F). Factory-set CHT Over-Temp Limit (500'F). Differential Limit set from back panel (95'F or 195'F). Selectable Scan Rate + Number of Channels to be Scanned. 2 1/4" Mount. 5.35" Depth. 16 Oz. Instrument. 1' F Resolution. Accuracy; 1/2%. Superior Sunlight Viewability. Backlit. Operates from 7.5 to 35 volts @at .3 amps.

Model	**Description**	**Part No.**	**Price**
SR-8A	SR-8A Instrument only (no probes or cables)	10-25220	**$425.99**
SR-8A-4	4 Cyl. SR-8A Package w/ 4 p-110 EGT probes, 4 P-100 CHT probes, 8 ea 6' Cables (uses all 8 inputs)	10-00599	**$916.00**
SR-8A-6	6 Cyl. SR-8A Package w/ 6 P-110 EGT probes, 2 P-100 CHT probes, 8 ea 6' Cables (uses all 8 inputs)	10-00603	**$915.00**

UBG-16 ULTIMATE BAR GRAPH ENGINE ANALYZER

UBG-16 features include: Sixteen input channel capability. Any channel may be set to display EGTs and CHTs, TIT, and Oil Temp in either digital or bar graph display, O.A.T, Carb. Temp, Cowl Temp, Other Temp, Oil Pressure, Fuel Pressure, Manifold Pressure, Gyro Pressure, R.P.M.,Fuel flow, Bus Voltage or Amps. Engine Analysis is performed automatically with sixteen pilot programmable Over-Temp limits and sixteen Under-Temp limits, a differential limit and a shock-cooling limit.
Note: Unit is STC'd/PMA'd. Can only be used as a secondary engine monitor. For primary see the MVP-50.

Model	**Description**	**Part No.**	**Price**
UBG-16-4M	4-Cylinder Package. Includes 4 EGT probes, 4 CHT probes, 8 ea 6' harnesses and Data Recorder (MUX-8A)	10-00593	**$1,638.00**
UBG-16-6M	6-Cylinder Package. Includes 6 EGT probes, 6 CHT probes, 12 ea 6' harnesses, and Data Recorder (MUX-8A)	10-00594	**$1,635.00**
EGView	Software for analyzing downloaded software	10-01219	**$125.00**
Remote	UBG-16 Remote Head option.. Must be purchased at the same time as the UBG-16	10-02763	**$105.95**
UBG-16-4G-MEM	Electronics International Ubg-16 Engine Analyzer 4 Cylinder	10-01048	**$1,648.00**
UBG-16-6G-MEM	Electronics International Ubg-16 Engine Analyzer 6 Cylinder	10-01049	**$2,098.00**

E.I. DIGITAL/GRAPHIC INSTRUMENTS

These Digital/Graphic Instruments are solid state and hold their accuracy over time and a range of environmental conditions. The colorful Graphic Analog display emits green, yellow, or red lights enabling the pilot to spot problems immediately without interpreting a needle. Gauges mount in 2-1/4" instrument holes.

TACHOMETER - R-1, TACHOMETER: STCd, PMA'd and TSO'd as PRIMARY REPLACEMENT. Features a 210 degree graphic analog display with green, yellow, and red LEDs. Accurate 10 RPM resolution digital display. Flight Timer. Tach Timer. Peak RPM Recorder. Automatic Mag Drop Calculation. Connects to both "P" leads through isolators (no magnetic pick-ups required). 2 1/4" Mount. 3.65" Depth. 10 Oz. Unit. Superior sunlight viewability. Backlit. Operates from 7.5 to 30 volts @ .3 amps. Note: This instrument may come with labels on the faceplate rather than silkscreening, depending on you're a/c's required markings..

P/N 10-25200 ..... **$440.95**

OIL PRESSURE/TEMPERATURE - OPT-1, OIL TEMP/PRESSURE: STC'd, PMAd and TSO'd as PRIMARY REPLACEMENT. OPT-1 features dual 90 degree graphic analog displays w/ green, yellow, and red LEDs. Accurate to 1 PSI and 1°F Resolution. External Oil Press and Temp Transducers (no oil in the cockpit). 2 1/4" Mount. 3.65" Depth. 22 Oz. Kit. Superior sunlight viewability. Backlit. Operates from 7.5 - 35 volts @ .3 amps. Note: This instrument may come with labels on the faceplate rather than silkscreening, depending on you're a/c's required markings.

P/N 10-25205 ..... **$499.00**

MANIFOLD PRESSURE - M-1, MANIFOLD PRESSURE. STC'd, PMA'd & TSO'd as PRIMARY REPLACEMENT. 210 degree graphic analog display w/ green, yellow, and red LEDs. Accurate 1" Mercury Resolution digital display. Connects to std pressure line through 1/4" male flare union. 2 1/4" Mount. 3.65" Depth. 13 Oz. Unit. Viewable in direct sunlight. Backlit.. Operates from 7.5 to 30 volts @ .3 amps. Note: This instrument may come with labels on the faceplate rather than silkscreening, depending on you're a/c's required markings.

P/N 10-25210 ..... **$479.95**

VOLTS/AMPS - ***VA-1A, VOLTS/AMP.*** STCd, PMAd as PRIMARY REPLACEMENT. Internal Shunt. Discharge @ High Voltage Warning Lights. 100 amp capability. .1 volt & .1 amp 1% Resolution. Accuracy: 2 1/4" Mount. 2.5" Depth. 9 Oz. Unit. Viewable in direct sunlight. Backlit. Operates from 7.0 to 40 volts @ .1 amp.

P/N 10-00809 .....VA-1A (internal shunt) **$339.00**

VA-1A-XX, VOLTS/AMP - STCd, PMAd as PRIMARY REPLACEMENT. (For use with External Shunt. Discharge and High Voltage Warning Lights. 100 amp capability (or order VA-1A-300 for 300-amp capability). .1 volt and .1 amp Resolution. Accuracy: 1%. 2 1/4" Mount. 2.5" Depth. 9 Oz. Unit. Superior sunlight viewability. Backlit. Operates from 7.0 to 40 volts @ .1 amp.

P/N 10-01378 .....VA-1A-50 (S-50 external shunt) **$369.95**
P/N 10-01394 .....VA-1A-300 (S-300 external shunt) **$378.95**
P/N 10-03207 .....RSVA-3 Remote Switch **$89.75**

The UBG-16 input channels. Any of the following options can be added at any time. Each option uses 1 input channel unless otherwise noted.

Model	**Description**	**Part No.**	**Price**
FM-FLOW-60	Flow Transducer Use w/ engine-driven fuel pumps up to 350 HP. 1/4" female NPT, .6-70+ GPH, .6 PSI drop @ 30 GPH, 2.3 PSI drop @ 60 GPH	10-25343	**$329.95**
FM-FLOW-90	TRANSDUCER For 350 to 550 HP engines or gravity-feed engines, 1/4" NPT, 2 to 125+ GPH, .05 PSI drop @ 20 GPH, .2 PSI drop @ 40 GPH.	10-02208	**$329.95**
FM-FP	Secondary Fuel Pressure Includes PT-30GA Pressure Transducer. (Can be used with The UBG-16 and also with the FP-5L (Fuel Flow/Pressure w/ GPS Interface instrument)	10-25337	**$249.00**
FM-OP	Secondary Oil Pressure Includes PT-100GA Pressure Transducer. (For use with UBG-16 or FP-5(L).	10-25336	**$224.95**
FM-RPM	Secondary RPM Connects directly to the Mag Switch. (For use with UBG-16 or FP-5(L)	10-04818	**$175.00**
FM-VA	Secondary Volts/Amps w/S-50 Shunt Volts uses 1 input channel and Amps uses 1 input channel (i.e., monitoring volts and amps require the use of two of the UBG-16's input channels.	10-25342	**$214.95**
FM-GYRO	Gyro Vacuum Includes Pressure Transducer.	10-25339	**$175.00**
FM-MP	Secondary Manifold Pressure Includes Pressure Transducer.	10-25338	**$217.95**

IN

FP-5 FUEL FLOW + HORSEPOWER

PMAd and STCd - Same amazing Fuel Flow/Horsepower Instrument as our FP-5L, but without GPS interface. Features: • HORSEPOWER to 1% hp • FLOW Displayed in Gallons, Pounds, Liters or British Gallons. • AUTOMATIC K-Factor Calibration for UNSURPASSED • ACCURACY. • FUEL USED Displays "Used for Flight" and "Used Since Fill Up" • FUEL REMAINING Displays fuel remaining to 1/10 gallon. • SCAN MODES Manual and Automatic. • RECURRING FUEL USED ALARM Pilot Programmable! • AUXILIARY Channel To monitor one of the following options: EGT, OAT, Carb Temp, Oil Temp, Manifold Pressure, Gyro Vacuum, RPM, Volts or Amps • Pilot Two LOW FUEL ALARMS Pilot Programmable! • TIME TO EMPTY automatically calculated and displayed. Specs: 2-1/4" mount, 3.65" deep, 28 oz. pkg, Backlit, Superior Viewing in Sunlight, External Warning Line. Operates from 7.5 to 30 volts @ .3 amps.

Model	Description	Part No.	Price
FP-5	Instrument Only FUEL FLOW w/ HP (instrument only, no transducers)	10-25300	**$658.00**
FP-5-60	FUEL FLOW w/ HP w/ FT-60 flow xdr, up to 350HP, engine-driven fuel pump	10-25304	**$568.00**
FP-5-90	FUEL FLOW w/ HP, w/ FT-90 Flow Transducer, for aircraft w/ 350-550 HP or without an engine-driven fuel pump	10-00260	**$748.00**
FP-5-180	FUEL FLOW w/ HP, includes HIGH FLOW Transducer (for aircraft w/ more than 550HP)	10-03208	**$838.00**

FP-5L FUEL FLOW, PRESSURE, HORSEPOWER AND GPS PMAd & STCd PRIMARY REPLACEMENT INSTRUMENT

Positively the best Fuel Flow/Horsepower Instrument there is! Nothing else even comes close. The FP-5L's High-Powered Features Include: • HORSEPOWER, to 1 percent hp. No other fuel gauge provides this! • FLOW, displayed in Gallons, Pounds, Liters or British Gallons. • AUTOMATIC K-Factor Calibration for UNSURPASSED ACCURACY. • FUEL DISPLAYS: "Used for Flight", "Used Since Fill Up", "MPG", "Fuel Required to. • Destination", "Fuel Remaining", "Time to Empty." • SCAN MODES: Manual and Automatic. • RECURRING FUEL USED ALARM Pilot Programmable. • 2 LOW FUEL ALARMS Pilot Programmable w/ Red Warning LED. • FUEL REMAINING displayed to 1/10 Gal. • AUTOMATICALLY CALCULATES AND DISPLAYS "Time to Empty", "Fuel Req to Dest," and "Fuel Reserve.". Displays Nautical and Statute Miles per Gallon. Multiple Data Outputs & Inputs, Handhelds & Panel Mounts. One-of-a-kind AUXILIARY Channel can be used to monitor an additional function (choose one):EGT, TIT, CHT, OAT, Carb Temp, Oil Temp, Cowl Temp, Fuel Pressure, Gyro Vacuum, Manifold Pressure, Volts or Amps. Specs: 2-1/4" mount, 3.65" deep, 28 oz. pkg, Backlit for Night Operation, Superior Sunlight Viewability, External Warning Line. Operates from 7.5 to 30 volts @ .3 amps.

Models	Description	Part No.	Price
FP-5L	Fuel Flow w/ Horsepower & GPS input/output (instrument only; no transducers)	10-01217	**$575.00**
FP-5L w/ FT-60 & Pressure	Includes FT-60 Flow Transducer (for engines up to 350 HP) & PSI Transducer	10-25310	**$917.00**
FP-5L-60	Fuel Flow w/ Horsepower & GPS input/output, includes FT-60 Flow Transducer	10-01045	**$598.00**
FP-5L-90	Fuel Flow w/ Horsepower & GPS input/output, includes FT-90 Flow Transducer	10-01050	**$563.00**

FP-5 & FP-5L AUXILLARY OPTIONS

	The FP-5 & FP-5L feature an Auxiliary Channel. Any one of the following choices can be added to at any time.		
FFDM-1 w/ FT-60	FUEL FLOW Differential Module, for aircraft with a Pressure Carburetor. Includes FT-60 or FT-90 Flow Transducer	10-25325	**$337.95**
FFDM-1 w/ FT-90	to measure the returned fuel. Please specify FT-60 or FT-90. DOES NOT use up the FP-5's Auxiliary channel.	10-03190	**$329.95**
FM-Temp-P-110	EGT hose clamp probe and 6' cable. Compensates HP reading when leaning.	10-02188	**$215.95**
FM-Temp-P-128	OAT or CARB Temp probe (1/4"-28 thread) and 6' cable	10-02769	**$249.00**
FM-Temp-P-120	Secondary OIL Temp probe (5/8"-18 thread) and 6' cable	10-02770	**$249.00**
FM-Temp-P-111	Secondary TIT or OIL Temp probe (1/8: NPT adjustable depth) and 6' cable	10-02765	**$249.00**
FM-Temp-P-112	Secondary TIT or OIL Temp probe (7/16-20 thread adjust. depth) and 6' cable	10-02766	**$249.00**
FM-Temp-P-114	Secondary TIT or OIL Temp probe (1/4" NPT adjust. depth) and 6' cable	10-02767	**$249.00**
FM-OP	Secondary OIL PRESSURE. Includes PT-100GA Pressure Transducer	10-25336	**$224.95**
FM-FP	Secondary Fuel Pressure. Includes PT-30GA Pressure Transducer	10-25337	**$249.00**
FM-MP	Secondary Manifold Pressure. Includes Pressure Transducer	10-25338	**$217.95**
FM-RPM 6C	Secondary RPM. Connects directly to the Mag Switch	10-01786	**$221.95**
FM-Gyro	Gyro Vacuum. Includes Pressure Transducer	10-25339	**$175.00**
FM-VA	Secondary Volts or Amps (one or the other) w/ S-50 amp shunt.	10-25342	**$214.95**
AV-17	Voice Annunciator. Connects through the Audio Panel or Intercom. The 1"x1" control panel mounts on your instrument panel. The 4.1"x 2.6"x 1.7" control box mounts under the instrument panel. See all Annunciator Panels on our "Accessories" page.	10-00181	**$249.95**

E.I. INSTRUMENTS

The entire line of Electronics International digital instruments offers precise readings at exceptional prices. All gauges are accurate to 1%. They are FAA-approved under STC No. 1626NM. Furnished complete with all probes & leads.

EE-1P	Dual Display EGT (1 L & 1 R), Over-Temp Lights, 3-1/8" mount	10-01447	**$599.00**
CC-1P	Dual Display CHT (1 L & 1 R), OverTemp Lights, 3-1/8" mount	10-02735	**$598.00**
TT-1P	Dual Display TIT (1 L & 1 R), OverTemp Lights, 3-1/8" mount	10-02733	**$600.00**
EC-1PT	Dual Display 1 EGT & 1 CHT w/ OverTemp Lights, 3-1/8" mount	10-02731	**$599.00**
TC-1PT	Dual Display 1 TIT & 1 CHT w/ OverTemp Lights, 3-1/8" mount	10-02732	**$585.00**
FOR TWINS - Not Primary Replacement Instruments, but STCd, PMAd, TSOd. Same order requirements and specifications as above:			
E-2	(one display, switchable from left to right	10-00098	**$498.00**
C-2	engine, either EGT or CHT)	10-01661	**$589.00**
EC-2	(one display, switchable from EGT, L/R and CHT L/R).	10-01359	**$641.00**

MVP-50P GLASS PANEL ENGINE & SYSTEM MONITOR

MVP-50P is Certified Primary Replacement. 5.55" x 5.15" x 2.4" Deep Engine and System Monitoring: The MVP-50P replaces over 15 Engine Instruments and 50 Functions in a single, full color, enhanced TFT glass display instrument. It features excellent viewability, even in direct sunlight. The MVP-50 is an unrivaled Engine and Aircraft System Monitor with an easy-to-read and easy-to-use format. There are Pilot-Programmable colors, ranges and limits and a voice alarm for each instrument displayed. Its "System Page" displays trims, flaps, wheel status lights, many system parameters and annunciators. This is the most powerful engine and system analyzer on the market, featuring the following displays: Bar Graph (with Scan and Hottest Cylinder modes), Rich-of-Peak, Lean-of-Peak, Full Digital, Normalized and Differential. The MVP-50P's instant red and yellow visual warnings, as well as voice annunciators for all Programmed Limits, eliminate the need to constantly scan an entire panel for possible problems. In-Flight Data: The MVP-50P provides many "Flight Data Screens" to reduce cockpit clutter and pilot workload. Some of these screens are: Fuel Management, Timers, Clocks and Date, Weight and Balance, Data Recording, Custom Checklists (Start, Taxi, Run-up w/ Mag Drop, Take Off, Landing, Emergency and more!), Custom Flight Plans, General Information (Aircraft Performance, Engine Diagnostics, VSI Lights, Airspeed, VFR Minimums, Altitude Table, Light Gun Signals, Transponder Codes, Frequencies, Real-Time Out (providing telemetry for UAV racers, etc.), plus additional Screens, including: Flight Log, Max Data Log, Min Data Log and others. And it's easy to create your own Custom Screens and download them to the MVP-50P through its USB port. Compatible with OP Technologies and Chelton. EGView Charting Software is also available for use with the MVP-50P. Other Functions Included: Help Screen; EGT & CHT Differentials; Shockcooling; Horsepower; Weight & Balance Data and Graph; GPS Interface and Data; Fuel Efficiency; Fuel Used for Trip; Fuel Used Since Fill Up; Time to Empty; Distance to Empty; Fuel; Time and Distance to Way Point; Fuel Reserve; Time Reserve; Distance Reserve; Up and Down Timers; Flight and Tach Timers; Engine Hours; Date; Local and Zulu Time; Voice Warnings; Data Recording: selectable .33 – 6 min., 665 hours @ 6 seconds!

Experimental	Description	Part No.	Price
MVP-50P-4	4-Cylinder Pkg	10-01192	**$4,163.00**
MVP-50P-6	6-Cylinder Pkg	10-01191	**$4,571.00**
MVP-50P-7	7-Cylinder Pkg	10-03174	**$4,675.00**
MVP-50P-8	8-Cylinder Pkg	10-03175	**$5,443.00**
MVP-50P-8W	8-Cylinder Water-Cooled Pkg	10-03178	**$4,605.00**

Experimental	Description	Part No.	Price
MVP-50P-9	9-Cyl. Radial Pkg	10-03176	**$5,442.00**
MVP-50P-12W	12-Cylinder Water-Cooled Pkg	10-03177	**$4,715.00**
MVP-50P-4-FADEC	4-Cyl. Aerosance Pkg	10-03173	**$4,163.00**

Certified	Description	Part No.	Price
MVP-50P-4-C	4 Cylinder Certified	10-03867	**$4,997.00**
MVP-50P-6-C	6 Cylinder Certified	10-03868	**$5,398.00**
MVP-50P-8-C	8 Cylinder Certified	10-03869	**$6,268.00**

OPTIONAL OUTPUT INTERFACES AVAILABLE FOR MVP PKGS LISTED ABOVE

Models	Description	Part No.	Price
-OPT	Allows the MVP to provide engine data to an OP Technologies unit.	10-03169	**$667.00**
-RTDO	Real-Time Data Out. Can be used to provide telemetry for UAV's, racers and other applications.	10-03168	**$879.00**

ACCESSORIES FOR MVP PKGS

EGView	EGView Charting Software. Use for analyzing and downloading data to the MVP-50P.	10-01219	**$125.00**
USB-64	USB Memory Stick, 64 MB or larger. Used to upload and download data to the MVP-50P.	10-03186	**$32.95**
CP-1-MVP	LED Intensity Control Pot. External pot used to control the display intensity.	10-03211	**$35.00**
EDC-33P-4/6	4/6 Cylinder Engine Data Converter. Adding a second EDC to the MVP allows. Additional pressures, annunciators and other functions to be monitored on the MVP (uses the Input Port 3 on the MVP).	10-03184	**$879.00**
MVP-50P Head Only	Display unit only! May be used to display parameters in a second location Display Only	10-01193	**$2,996.00**

TEMPERATURE PROBES FOR MVP-50P & MVP-50T

Models	Description	Part No.	Price
P-100-MVP	CHT probe, screw-in, 3/8"-24	10-03212	**$86.75**
P-101MVP	CHT probe, Military Bayonet.	10-03213	**$86.75**
A-101MVP	CHT Adaptor for P-101 Probe, 3/8"-24	10-03216	**$86.75**
P-102-18-MVP	CHT probe, 18mm gasket.	10-03214	**$89.95**
P-102-14-MVP	CHT probe, 14mm gasket	10-03217	**$86.75**
P-102-12-MVP	CHT probe, 12mm gasket	10-03218	**$86.75**
P-102-3/8-MVP	CHT probe, 3/8" gasket, piggy-backs on a primary CHT probe	10-03219	**$86.75**
P-110-MVP	Std EGT/TIT probe, Hose Clamp Type, .187"D	10-03220	**$86.75**
P-110-F-MVP	Fast-Response EGT/TIT probe, Hose Clamp Type, .125"D	10-03221	**$89.95**

Models	Description	Part No.	Price
P-111-MVP	Std TIT probe, 1/8" NPT, .187" D	10-03222	**$86.75**
P-111-F-MVP	Fast Response TIT probe, 1/8" NPT, .187" D	10-03223	**$86.75**
P-112-MVP	Std TIT probe, 7/16"-20, .187" D	10-03224	**$86.75**
P-114-MVP	Std TIT probe, ¼" NPT, .187" D	10-03225	**$86.75**
P-114-F-MVP	Fast Response TIT probe, ¼" NPT, .125" D	10-03226	**$86.75**
P-120-MVP	OIL Temp probe, 5/8"-18	10-03227	**$86.75**
P-128-MVP	OAT/Carb Temp probe , ¼"-28	10-03228	**$86.75**
P-104-MVP	Universal Temp probe, #6 hole	10-03229	**$86.75**
XDS-6'	One 6 ft TC harness w/ crimped D-Sub pins. Use to interface any temperature Probe to the MVP system. Specify length at time of order.	10-03192	**$34.50**

PRESSURE TRANSDUCERS AND MODULES

(Each includes a Cbl-4D-6' harness when ordered w/ the MVP-50 & MVP-50T)

PT-30GA-MVP	Pressure Transducer, 0 to 40 PSI (see Accessories page for details)	10-03232	**$169.95**
PT-100GA-MVP	Pressure Transducer, 0 to 120 PSI (see Accessories page for details)	10-03233	**$177.95**
PT-300GA-MVP	Pressure Transducer, 0 to 300 PSI (see Accessories page for details)	10-03235	**$149.99**
PT-3000S-MVP	Pressure Transducer, 0 to 3000 PSI (see Accessories page for details)	10-03236	**$227.95**
PT-30ABS-MVP	Absolute Pressure Transducer, 0 to 36 In Hg (Manifold Press or Cabin Altitude)	10-03238	**$149.99**
PT-30ALT-MVP	Altitude Transducer	10-03239	**$360.95**
PT-60ABS-MVP	Absolute Pressure Transducer, 0 to 70 In Hg (Manifold Pressure)	10-03240	**$149.95**
PT-05Diff-MVP	Differential Pressure Transducer, 0 to 60 In Hg (Vac Pressure or Cabin Diff Pressure)	10-03241	**$136.95**
PT-04H20-MVP	Differential Pressure Transducer, 0 to 5 In H20	10-03242	**$227.95**
FM-PR-MVP	Allows an EDC temperature channel to measure a pressure (operates w/ any EI MVP Pressure Transducer). Pressure transducer sold separately.	10-03204	**$132.95**
DPIM-1-30-MVP	Differential Pressure Interface Module for aircraft that require fuel pressure to be Measured in reference to the upper deck. Includes a PT-30GA pressure transducer to measure the upper deck pressure.	10-03205	**$348.95**
Cbl-4D-6'	One 6' 4-wire cable with crimped D-Sub pins. Used to interface any pressure transducer, fuel flow transducer or fuel level probe to the MVP system. Add $.95 per foot to the price for anything over the standard 6' length.	10-03183	**$16.95**

FUEL FLOW TRANSDUCERS AND MODULES

FT-60	Fuel Flow Transducer (Red Cube), .6 to 70+ GPH	10-01196	**$148.00**
FT-90	Fuel Flow Transducer (Gold Cube), 3 to 125+ GPH	10-01224	**$249.00**
FT-180	Fuel Flow Transducer (Black Cube), 5 to 250+ GPH	10-01197	**$417.00**
FFDM-1-MVP-FT60	Fuel Flow Differential Module for aircraft w/ a pressure carburetor. Includes FT-60 or FT-90 transducer to measure the returned fuel. Please specify FT-60 or FT-90 at time of your order.	10-03244	**$348.95**
FFDM-1-MVP-FT90		10-03245	**$346.95**
FM-Flow-P	Measures Fuel Flow from a pulsed injector signal.	10-03206	**$348.95**

FUEL LEVEL PROBES AND MODULES

RFLM-4-12	Resistive Fuel Level Module. Must be used w/ EI's "EDC" to measure up to 4 Resistive Fuel Level Sensors.	10-02772	**$89.95**
RFLM-4--24		10-03231	**$56.00**
P-300C	3/4" Capacitive Fuel Level Probe w/ Accessories. (see our Accessories Page for details.) Specify Probe length at time of order.	10-00382	**$222.95**
P-300C-Mini-1/8"	3/16" Capacitive Fuel Level Probe (see our Accessories Page for details)	10-03193	**$173.95**
P-300C-Mini- 1/4"		10-03194	**$172.95**

VOLTS AND AMPS MODULES AND SHUNTS

FM-VA-MVP-50	Volts/Amps Module. Allows any temperature or pressure channel on EI's EDC to measure Voltage and Current on a separate bus. Comes w/ an S-50 or S-300 shunt.	10-03247	**$172.95**
FM-VA-MVP-300		10-03248	**$172.95**

MVP SCREEN ANNUNCIATOR INTERFACE UNITS

VI-221	Voltage Interface Unit. Allows any temperature or fuel level channel on our EDC to measure the output voltage of any device. This voltage measurement can then be used to drive an annunciator (Canopy Latch, Gear Lights, Baggage Door, etc.) that will be displayed on the MVP screen.	10-03187	**$7.50**

IN

ELECTRONICS INTERNATIONAL PANEL PACKAGES

DELUXE PACKAGE - Includes: 1. US-8: All EGT's, all CHT's, OAT, carb. Temp, 16 programmable upper limits, 16 programmable lower limits, 2 programmable differential limits and a programmable shock-cooling limit. 2. FP-5: Fuel flow, Rem, used time to empty, fuel pressure, 2 programmable low fuel limits, 1 programmable time to empty limit, programmable high and low pressure limits, programmable K factor, programmable fuel weight and programmable display for gallons or pounds. 3. R-1: RPM w/high warning, tach time and flight time. 4. M-1: Manifold pressure to .1" Hg. w/high warning. 5. OPT-1: Oil pressure and oil temperature w/high and low warnings. 6. VA-1A: Volts and amps with discharge and high voltage warnings. • Total pkg will fit in a 5" x 7.5" space with no external boxes. • Includes all probes, 6' cables, transducers, accessories and a free LED front panel intensity control pot. ***CALL FOR SPECIAL PRICES***

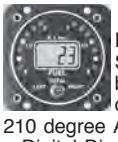
STANDARD PACKAGE - Includes: 1. EAC-1: One channel of EGT, CHT and OAT. The EGT and CHT may be upgraded to an analyzer with the addition of a remote switch. 2. FP-5: Fuel flow, Rem, used, time to empty, fuel pressure, 2 programmable low fuel limits, 1 programmable time to empty limit, programmable high and low pressure limits, programmable K factor, programmable fuel weight and programmable display for gallons or pounds. 3. R-1: RPM w/high warning, tach time and flight time. 4. M-1: Manifold pressure to .1" Hg. w/high warning. 5. OPT-1: Oil pressure and oil temperature w/high and low warnings. 6. VA-1A: Volts and amps with discharge and high voltage warnings. • Total pkg will fit in a 5" x 7.5" space with no external boxes. • Includes all probes, 6' cables, transducers, accessories & a free LED front panel intensity control pot. ***CALL FOR SPECIAL PRICES***

SUPER CLOCK INSTRUMENTS

ASC-5A - Displays Local & Zulu Time in 12 or 24 hr format, Up & Down Timers w/ alarms, Altitude (as seen by ATC), and OAT. Several programmable alarms, including Assigned Altitude, Level Off, Deviation Alarm and an Approach Alarm + a recurring alarm to alert you at a programmable interval, for checking fuel. P/N 10-02914 ..... **$483.00**

SC-5 - Displays Local (12 or 24-hour format) & Zulu Time. 10-year Lithium battery keeps the clock running even if the a/c battery is removed. Displays an Up Timer, which starts running when the engine is started, acting as an automatic Flight Timer. The Up Timer may be started, stopped or reset. Recurring Alarm may be set to alert you at appropriate time intervals, e.g., if set for 30 minutes, there will be an alarm at 30 minutes, 60 minutes, 90 minutes, etc. Alarm can be used as a reminder to check fuel level or switch tanks at set time intervals.

P/N 10-01612 ..... **$289.00**



FUEL LEVEL INSTRUMENTS

For TC holders, STC holders or Experimental Aircraft No STCs. FL-1CA Fuel Level Instrument . The FL-1CA is to be used w/ EI's P-300C Capacitive Fuel Probe (custom order probe length from 6" to 20'). The FL-1CA features a 210 degree Arc of LEDs for an excellent "field of vision" reference and a Digital Display. Can display in gallons (one or one-half gallon increments), pounds or liters. Specifications: 2 1/4" Mount, 3.65" Depth, 10 Oz. Unit, Viewable in direct sunlight and Backlit for night operations.

Model	Description	Part No.	Price
FL-1CA	The FL-1CA is to be used w/ EI's P-300C capacitive fuel probe (order from 6" to 20' long). 210 degree LED arc + a digital display. Can display in gallons (one or one-half gallon increments), pounds or liters. Specifications: 2 1/4" Mount, 3.65" Depth, 10 Oz. Unit, Viewable in direct sunlight and Backlit for night operations.	10-00386	**$399.95**
FL-1RA-12/24	The FL-2RA-12 designed to be used on a 12-volt system w/ resistive fuel probes. Features a 210 degree LED arc + a digital display. Max resistance between 90-270 ohms. Can display in gallons (one or one-half gallon increments), pounds or liters. Specifications: 2 1/4" Mount, 3.65" Depth, 10 Oz. Unit, Viewable in direct sunlight and Backlit.	12V 10-03209 24V 10-00388	 **$399.95** **$415.95**
FL-2CA	The FL-2 is a fuel level instrument featuring dual 90 degree LED arcs + a digital display. The FL-2 can display in gallons (one or one-half gallon increments), pounds or liters. Specifications: 2 1/4" Mount, 3.65" Depth, 10 Oz. Unit, Viewable in direct sunlight, Backlit, Operates from 7.5 to 35 volts at .3 amps.	11-03788	**$394.00**
FL-2RA-12/24	The FL-2 is a fuel level instrument featuring dual 90 degree LED analog displays and a digital display. The FL-2 can display in gallons (one or one-half gallon increments), pounds or liters. FL-2 Specifications: 2 1/4" Mount, 3.65" Depth, 10 Oz. Unit, Viewable in direct sunlight, Backlit, Operates from 7.5 to 35 volts at .3 amps. Please specify 12/24 volt at the time of order.	11-03789	**$398.00**
FL-2RA-24		11-07104	**$389.95**

MVP-50T GLASS PANEL MULTI-FUNCTION DISPLAY

Replaces 15 engine gauges and 50 functions. Remarkable full-color, enhanced TFT Glass Display (excellent viewability, even in direct sunlight) Pilot-Programmable Colors, Range Markings, Limits and Voice Alarms (for each parameter monitored) "System Page" to display Trims, Flaps, Wheel Status Lights, and many other system parameters and annunciators. 27 Pilot-Customized Annunciators at the top of the "Main Page". Fuel Management, Timers, Clocks, Date, Weight & Balance. Data Recording (.33 – 6 min, 665 hours @ 6 seconds). Pilot-Customized Checklists and Flight Plans. General Info, Flight Log, Start Log, Max & Min Data. Pilot easily can generate Custom Screens and download them to the MVP-50P through the USB port. Help Screen, GPS Interface and Data, Fuel Efficiency, Fuel Used for the Trip, Fuel Used Since Fill Up, Time to Empty, Distance to Empty, Fuel to Way Point, Time to Way Point, Distance to Way Point, Fuel Reserve, Time Reserve, Distance Reserve, Up Timer, Down Timer, Flight Timer, Engine Hours, Cycles, Date, Local and Zulu Time. Other functions, such as Fuel Level, Gyro Vac, Hydraulic Pressure, etc., may be added by purchasing an appropriate probe & harness, or transducer, etc. See our Accessories, "Probes and Transducers" section on previous page. Using your current Resistive Fuel probes require our FFLM-4-XX to interface with the MVP-50T System. Torque, Oil Pressure & Temperature, Fuel Flow & Pressure, OAT, Amps, Volts, Multiple Fuel Screens, Pre-wired Harness, N1 and N2 hookups. Includes EDC (Engine Data Converter), cables and harnesses, transducers, shunt (for amps), USB Download/Upload Memory Stick, and our AV-17CP (Voice Warning Control Panel). Only 5.55"x 5.15"x 2.4" deep

Models	Description	Part No.	Price
MVP-50T-PT6	Pratt & Whitney PT-6 Turboprop Pkg	10-03160	**$6,175.00**
MVP-50T-W	Walters Engine Turboprop Pkg	10-03161	**$6,175.00**
MVP-50T-G	Garrett Turboprop Pkg	10-03162	**$6,175.00**
MVP-50T-L	Lycoming Turboprop Pkg	10-03163	**$6,175.00**
MVP-50T-A	Allison Turboprop Pkg	10-03164	**$6,175.00**
MVP-50T-J85	General Electric J85 Jet Engine Pkg	10-03165	**$6,175.00**
MVP-50T-L39	L39 Aircraft Pkg	10-03166	**$7,725.00**
MVP-50T-WJ33	WJ33 Aircraft Pkg	10-03201	**$6,175.00**
OPTIONAL INTERFACES AVAILABLE FOR PKGS LISTED ABOVE			
-OPT	Allows the MVP to provide Engine Data to an OP Technologies unit.	10-03169	**$667.00**
-RTDO	Real-Time Data Out. Can be used to provide Telemetry Data for UAV's, racers and other applications.	10-03168	**$879.00**
ACCESSORIES			
USB-64	USB Memory Stick, 64 MB or larger. Used to upload & download data to the MVP.	10-03186	**$32.95**
CP-1-MVP	LED Intensity Control Pot. External pot used to control the display intensity.	10-03211	**$35.00**
EDC-33T	Turboprop/Jet Engine Data Converter. Adding this second EDC to the MVP allows monitoring of additional temperatures, pressures, annunciators and other functions.	10-03185	**$879.00**
MVP-50T Display Head	May be used to display parameters in a second location. (display only)	10-03202	**$3,550.00**

INSTRUMENTS FOR TURBOPROP AIRCRAFT

10-03249 10-03264 10-03265 10-03267 10-03268

Model	Description	Part No.	Price
R-1-N1	RPM INSTRUMENT, TSOd, PMAd (no STCs). Digital 1% Resolution Display + 210 degree LED arc display with green, yellow and red LEDs. 2 1/4" Mount, 3.65" Depth, 10 Oz. Viewable in direct sunlight, Backlit. Operates from 7.5 to 30 volts @ .3 amps.	10-03249	**$790.00**
R-1-N2	RPM Instrument displayed in RPM. TSOd, PMAd (no STCs). Digital 10 RPM Resolution Display + 210 degree LED arc display with green, yellow and red LEDs. 2-1/4" Mount, 3.65" Depth.	10-03264	**$790.00**
M-1T	PRESSURE OR TORQUE INSTRUMENT, TSOd, PMAd (no STCs). 1 PSI or 1% Resolution + 210 degree LED arc display with green, yellow and red LEDs. 2 1/4" Mount, 3.65" Depth, 10 Oz. Instrument. Backlit.	10-03265	**$790.00**
M-1-ITT	INERT-Turbine Temperature Instrument IN Celsius. TSOd/PMAd (no STCs). Digital display (1 degree C resolution) + 210 degree LED arc with green, yellow and red LEDs. 2 1/4" Mount, 3.65" Depth, 10 Oz.	10-03266	**$790.00**
M-1-TOT	Turbine Outlet Temperature INC. TSOd/PMAd (no STCs).	10-03267	**$790.00**
OPT-1-FV-60	AC BUS VOLTAGE & FREQUENCY, TSOd/PMAd (no STCs). The "-60" instrument is for a 60 Hz. bus and the "-400" instrument is for a 400 Hz. bus. Accurate Digital Display can be switched between Voltage and Frequency, displays in Volts and Hz. 2 1/4" Mount, 3.65" Depth, 10 Oz. Instrument.	10-03268	**$790.00**
OPT-1-FV-400		10-03269	**$790.00**

IN

AP-7H OR AP-7V LED ANNUNCIATOR PANEL

(H = Horizontal Mount; V = Vertical Mount) When mounted in front of the pilot, the AV-7 Annunciator Panel's bright red LEDs give a quick warning of any out-of-limit condition. Can be connected to these E.I. instruments: US-8A or SR-8A, FP-5(L) and/or FL-2, R-1, M-1, and OPT-1. A control switch will dim or turn off the warning LEDs. Simple to install (requires only 8 ea. 1/2" holes to mount). Connect to a small 3" x 2" x 1" Control Box tie wrapped to a wire bundle under the instrument panel. Size: 5.3" x .9", 10 Oz. Kit, Operates on a 12 or 24-volt system. Includes: Annunciator Panel, Control Box and all wires and connectors.

Vertical ..... P/N 10-03288 ..... **$165.00**
Horizontal (Pictured) ... P/N 10-03289 ..... **$167.95**

AL-1 RED CHROME ANNUNCIATOR LIGHT

The AL-1 makes an excellent indicator light for displaying boost pump on, gear status, power on, flags, etc. Also, it can be used as a remote warning light for any E.I. instrument featuring an external warning line. The AL-1 is more attractive, operates on less power and is smaller than the old fashioned indicator lights.

The AL-1 has a service life of over 1000 times that of incandescent bulbs. Mounts in a 5/16" hole. Size: .4" diameter x 1" depth. Operates on a 12 or 24-volt system. Comes with 32" leads.

Red ..... P/N 10-04164 ..... **$17.95**
Yellow ..... P/N 10-04165 ..... **$17.95**
Blue ..... P/N 10-04166 ..... **$17.95**
Orange ..... P/N 10-04167 ..... **$17.95**
Green ..... P/N 10-04168 ..... **$17.95**

AV-17 VOICE ANNUNCIATOR

The AV-17 can provide up to 17 verbal warnings through your headset, ending the need to constantly scan the instrument panel. Eliminate concern about missing an alarm at a critical moment. The instant a monitored alarm occurs, the Voice Annunciator will chime in the headset and a pleasant female voice will announce a phrase, such as: "Check Oil Pressure," or "Check Altitude," etc. The AV-I7's voice alarm in the headset provides an instant and clear understanding of what's going on in the cockpit without the hassle of having to scan instruments, decipher functions, interpret readings or translate numerous bells, buzzes or beeps. The AV-17 connects to the headset through the Audio Panel or Intercom or may be connected directly to the headset. The AV-17 receives most of its warning signals from any one or more of Electronics International's instruments which feature a warning light. However, other alarm inputs can be received from any warning device that drives a horn or light. It is not necessary to activate all 17 of the AV-17's warnings. A "Check Bus Voltage" warning is built into each AV-17. Further voice alarms can be activated as EI instruments are added to the panel. The AV-17 is compact. A 4.1" x 2.6 x 1.7" Control Box tie wraps under the instrument panel. A 1" x 1" Control Panel mounts on the aircraft instrument panel. The Control Panel allows you to turn the VoiceAnnunciator on or off, and allows you to acknowledge, and thereby deactivate, any active alarm for either 1 minute or 10 minutes. The AV-17 voice alarms are activated by pulling the appropriate control line to ground (0 volts).

AVI-1 MODULE - This Module allows a positive voltage to activate one AV-17 control line. Use with the AV-17 when utilizing inputs from gauges other than Electronics International's.

AV-17 ..... P/N 10-00181 ..... **$249.95**
AVI-1 ..... P/N 10-03292 ..... **$17.95**

RC-1 TACH DRIVE CAP

The RC-1 is a Tach Drive cap. The thread pattern is 7/8 x 18 and fits most Tach Drive Lines.

P/N 10-04836 ..... **$4.95**

FIELD TEST DEVICES

Models	Description	Part No.	Price
FCD-FF	Outputs a variable fuel flow signal.	10-03295	**$58.95**
FCD-FP	Outputs a variable fuel pressure signal (0 to 50+ PSI).	10-03296	**$58.95**
FCD-OP	Outputs a variable oil pressure signal (0 to 100+ PSI).	10-03297	**$58.95**
FCD-RPM	Outputs a variable RPM signal (800 to 2800 RPM).	10-03298	**$58.95**
FCD-AMP	Outputs a 50mV signal. Used to test the VA-1A-XX Volt/Amp Instrument.	10-03301	**$58.95**
FCD-CFL	Outputs a variable capacitive fuel level signal.	10-03302	**$58.95**
FCD-RFL	Outputs a variable resistive (0-250 ohms) fuel level signal.	10-03303	**$58.95**

REMOTE SWITCHES

A remote switch may be used to upgrade many single-channel E.I. instruments to multi-channel EGT and/or CHT engine analyzers. This is an excellent way to insure your engine is operating properly. Specifications for all switches: Body - 1"x 1"x 1.5" depth, front panel - 2"x 1.15", STC'd / PMA'd

RS-4-1S - Upgrades any unit to read four channels of EGT or CHT, Package includes: Unit, (3) 6' cables, (3) probes. Specify probe type with order.
P/N 11-01688 ..... **$290.95**

RS-4-2S - Upgrades any two channel unit to read four channels of EGT and CHT, Package includes: Unit, (6) 6' cables, (3) EGT probes, (3) CHT probes P/N 11-01689 ..... **$419.95**

RS-6-1S - Upgrades any unit to read six channels of EGT or CHT, Package includes: Unit, (5) 6' cables, (5) probes. Specify probe type with order. P/N 11-01690 ..... **$394.50**

RS-6-2S - Upgrades any 2 channel unit to read six channels of EGT and CHT, Package includes: Unit, (10) 6' cables, (5) EGT probes, (5) CHT probes P/N 11-01691 ..... **$617.00**

RS-8-1S - Upgrades any unit to read eight channels of EGT or CHT, Package includes: Unit, (7) 6' cables, (7) probes. Specify probe type with order.
P/N 11-01692 ..... **$468.95**

RS-12-1S - Upgrades any unit to read 12 channels of EGT or CHT, Package includes: Unit, (11) 6' cables, (11) probes. Specify probe type with order. P/N 11-01693 ..... **$666.00**

PRIMARY REMOTE SWITCHES

REMOTE SWITCHES for use w/ EI 1 or 2 channel EGT/CHT instruments. STCd, PMAd Electronics International gauges are available to replace your Primary Engine Instruments. Available for single and twin engine applications.

RS-5-1PS - Upgrades any primary TIT/CHT unit to read 4 channels of EGT or CHT, Package includes: Unit, (4) 6' cables, (4) probes. 15 oz. kit Specify probe type with order..... P/N 11-01694 ..... **$365.95**

RS-5-2PS - Upgrades any primary TIT/CHT unit to read 4 channels of EGT and CHT, Package includes: Unit, (8) 6' cables, (4) EGT probes, (4) CHT probes. 2.2 lb. kit..... P/N 11-01695 ..... **$490.95**

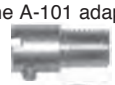
RS-7-1PS - Upgrades any primary TIT/CHT unit to read 6 channels of EGT or CHT, Package includes: Unit, (6) 6' cables, (6) probes. 27 oz. kit. Specify probe type with order..... P/N 11-01696 ..... **$457.95**

RS-7-2PS - Upgrades any primary TIT/CHT unit to read 6 channels of EGT and CHT, Package includes: Unit, (12) 6' cables, (6) EGT probes, (6) CHT probes. 3.2 lb. kit..... P/N 11-01697 ..... **$666.00**

PROBES

P-100 CHT Probe; screw-in type, Standard with most kits. Can be used in a pressure environment. 700°F max. P/N 10-00808 ..... **$89.95**

P101 - CHT Probe; Military Bayonet type, 1/4 turn locking for quick removal. To be used with the A-101 adaptor. 700°F max. P/N 10-00438 ..... **$89.95**



A101 - CHT Adaptor; 3/8" - 24, to be used with the P-101 CHT probe.
P/N 10-00374 ..... **$11.95**

P-102 - CHT Probe; Gasket type, 18mm, 700°F maximum.
P/N 10-01368 ..... **$86.75**

P-110 - EGT/TIT Probe; Hose clamp type, used with 13/64" hole. Standard with most kits. Weight: 1.6 oz.
P/N 10-01591 ..... **$87.75**

FAST RESPONSE P-110 - EGT/TIT Probe; Hose clamp type, used with .130" hole. Optional with most kits. Weight: 1.6 oz.
Probe only ..... P/N 10-00376 ..... **$95.50**
Probe w/6'cable ..... P/N 10-00377 ..... **$134.95**

P-111 - TIT Probe; 1/8" NPT with adjustable depth. (with cable) P/N 10-25235 ..... **$89.95**

P-112 - TIT Probe; 7/16"-20, with adjustable depth. (without cable)
P/N 10-00378 ..... **$89.95**

P-114 - TIT Probe; 1/4" NPT with adjustable depth. (without cable)
P/N 10-00379 ..... **$89.95**

P-120 - Oil Temp. Probe; Can be used in a pressure environment, 700°F max.
P/N 10-25245 ..... **$89.95**

P-128 - OAT/Carb Temp. Probe; uses a precision connector, can be used in a pressure environment, 700°F max. P/N 10-00301 ..... **$91.50**

P-104 - Universal Probe; Used to measure surface temperatures, 700°F max.
P/N 10-00380 ..... **$89.95**

IN

INSIGHT ENGINE MONITORS

GRAPHIC ENGINE MONITOR (SINGLE ENGINE)

Graphic Engine Monitor - STC'd Single Engine - Normally Aspirated 4 or 6 Cylinder. The GEM 602 is designed for use with all 4 or 6 cylinder piston engine aircraft. The instrument graphically displays up to 12 critical engine temperatures in a single instrument in an easy-to-read bar- graph format on a brilliant plasma display. ***Features:*** Displays up to 12 EGT, CHT temperatures. Lean Mode: is used during cruise to identify the leanest cylinder. Lean Mode can be entered at any time. The GEM's microprocessor analyzes EGT temperatures and indicates the leanest cylinder by blinking the appropriate column. Monitor Mode: each time that Monitor Mode is entered, the GEM microprocessor stores the EGT values into memory. Should any cylinder's EGT subsequently rise 50°F or more, the corresponding column will begin blinking to signal change in fuel flow or ignition.· Test Mode: is designed into the GEM system should trouble be suspected. Entering the test Mode causes each bar column to stack up, a bar at a time, until fully illuminated, then blank. Each successive column until all six have be done. Automatic selection of the correct number of cylinders. Automatic intensity control for all lighting conditions. Whether you fly a home-built, war bird, or latest model aircraft, the GEM 602 provides a complete picture of EGT and CHT at a glance.

P/N	Model	Description	Price
10-18805	GEM603	Single Engine, 4 cyl., turbocharged	$2,031.00

GEM PROBES

GEM 602 Wire Harness ..... P/N 10-03576 ..... **$199.00**
#2870 EGT Probe ..... P/N 2870 ..... **$69.85 /ea.**
#2852 CHT Spring Probe ..... P/N 2852 ..... **$69.85 /ea.**
#2853CHT Gasket Probe ..... P/N 10-00827 ..... **$69.50 /ea.**
#2855 CHT Adapter Probe* ..... P/N 2855 ..... **$178.50 /ea.**
#2856 CHT Probe** ..... P/N 2856 ..... **$189.00/ea.**

***Use with factory spring probe **Use with 3/8 x 24 threaded factory probe**

E3 UNIVERSAL ENGINE MONITOR

The E3 universal engine monitor combines in one compact 2.25" format instrument all that is needed to monitor most smaller aircraft engines from two-stroke ultralight engines to medium sized four strokes such as from Rotax, Continental and Lycoming. Also most automotive engine conversions can benefit from the use of the E3 engine monitor. P/N 11-06442 ..... **$280.00**

INSIGHT G3 GRAPHIC ENGINE MONITOR

The original GEM was a solitary player. The G3 instrument has two control knobs that operate combination rotary and push button switches. The top knob in general controls screen selection while the bottom knob controls items within the given screen. Each screen assigns its own functional needs to the controls that may change depending on context. A screen may also label the controls with guidance information like "Push to exit". The G3 is also designed to expand and grow with the times. Less than half of its true potential has been released at this time. The instrument can be updated to acquire new features by loading the SD card via the internet. Another great feature is why not have the G3 instrument diagnose itself? Then you don't have to disassemble the airplane or even touch the wiring. The probe diagnosis page indications are in green for normal readings and red for readings that fail the criteria set at the bottom of the screen. System Monitors: EGT, CHT, Fuel Flow, RPM, Manifold Pressure O, il Temp/Pressure, OAT, TIT, Carb Temp, HP%, Prop Balance, Clock/Calendar

GEM G3 4 Cylinder 2.25" ..... P/N 10-03195 ..... **$2,985.00**

Upgrade from GEM 602, 603, 610 to 63

4 Cylinder Upgrade ..... P/N 10-03198 ..... **$2,295.00**
6 Cylinder Upgrade ..... P/N 10-03197 ..... **$2,491.00**

INSIGHT TRUE FLOW 500

A new concept in fuel flow computers, True Flow 500 is designed to give pilots a simple and efficient way of reading fuel information directly on the GPS fuel pages. Eliminates tedious installation and set-up proce and set-up proceure-dures that are required for other fuel flow computers. Install True Flow 500 on top of the engine and connect fuel lines, GPS power, ground and RS232 RX input. Works on fuel infected or carburated engines, but not on carburated engines with a fuel return line. Many other STC's for installation on certificated aircraft. Unit is TSO'd for Beechcraft Aircraft Only. P/N 11-01913 ..... **$743.00**

INSIGHT G1 SINGLE ENGINE COLOR MONITOR - COMPLETE SYSTEM

Single Engine - 2.25 Bezel
Protect Your Engine By: • Saving Fuel On Every Flight By Leaning Accurately And Safely • Revolutionary New Leaning Process • See Lean Peak In Order And Temperature Spread • Seeing Simultaneous EGT, CHT, TIT Bars And Temperatures • Save Time Trouble-Shooting • Continuous Probe Diagnosis That Confirms System Integrity • Extensive List Of Primary Approved Aircraft Models • SD Card Software Updates • FAA & TC Primary STC • EGT, CHT, & TIT

Also available with Carburetor Temperature and/or for G1 Field Update Kit, see Accessories.

Description	Part No.	Price
4 Cylinder Standard	10-04916	$1,235.00
6 Cylinder Standard	10-04917	$1,365.00

Head Only	10-04921	$1,034.00

INSIGHT G2 SERIES SINGLE ENGINE COLOR MONITOR - COMPLETE SYSTEM

G2 Series Single Engine Color Monitor - Complete System - 2.25 Bezel
Save Fuel, Save Money, Save Your Engine! Affordable Engine Monitoring you can't afford to be without. Top reasons to install a G2: • Best lean of peak process in the industry • The only nozzle balance analysis, the key to lean of peak • The only probe diagnostic scree • Comprehensive data log - windows files SD card • Over the web software updates - constant improvement • GEM plug compatible - easy install • Best technical support

GEMINI 1200 SYSTEM (TWIN ENGINE)

Graphic Engine Monitor -
Twin Engine - Normally Aspirated or Turbo-Charged with Data logging for 2, 4, 6, 7, 8 and 9 Cylinder.
Designed for twins, the GEMINI 1200 has all of the same advanced features as the GEM 610.
ALL NEW 1200 UNITS ARE FACTORY CALIBRATED.

Features:

- Display up to 30 temperatures.
- IAT Temperature.
- Side-by-side display of Left/Right or Front/Rear Engines.
- 4 digit readout of any EGT, CHT, TIT, OAT and IAT.
- Primary Instrument Replacement STC

Part No.	Model	Description	Price
10-18815	GEMINI	Twin Engine, 4 cyl., normal asp.	$3,330.00
10-18820	GEMINI	Twin engine, 6 cyl., normal asp.	$3,606.00
10-18825	GEMINI	Twin Engine, 4 cyl., turbo (1T)	$3,983.00
10-18830	GEMINI	Twin Engine, 4 cyl., turbo (2T)	$4,189.00
10-18835	GEMINI	Twin Engine, 6 cyl., turbo (1T)	$4,353.00
10-18840	GEMINI	Twin Engine, 6 cyl, turbo (2T)	$4,539.00
10-02142	1200-021	Insight OAT Probe	$139.85

GEM-610 SYSTEMS

Graphic Engine Monitor -
Single Engine - Normally Aspirated or Turbo-Charged with Data logging for 4 or 6 Cylinder.
ALL NEW GEM 610 UNITS ARE FACTORY CALIBRATED.

Features:

- Selectable Fahrenheit/Celsius Temperatures.
- Normalization Mode: allows easy observation of any change in EGT . during cruise flight.
- Lean Mode: is used during cruise to identify the leanest cylinder.
- See www.aircraftspruce.com for a complete list of features.
- **Specifications:**
- Size: 2-1/4" panel mount.
- Weight installed is 3 lbs.
- Power: 10-30VDC.

Single Engine 4-cyl. GEM-610 ..... P/N 10-18845 ..... **$1,894.50**
Single Engine 6-cyl. GEM-610 ..... P/N 10-18846 ..... **$2,123.00**
Single Engine 4-cyl. turbo GEM-610 ..... P/N 10-18805 ..... **$2,031.00**

JPI ENGINE SCANNERS

J.P. INSTRUMENTS EDM-700 DIGITAL AND ANALOG EGT/CHT SCANNERS

All pilots know that to run their engines at peak performance means maximum efficiency! Maximum efficiency translates to substantial savings in fuel burned and engine maintenance. JPI's EDM-700 assures pilots of ***Peak Precision Engine Performance Simply and Economically.*** The EDM-700 includes: Computer assisted diagnostics for troubleshooting the entire system, 2-1/4" panel mount, Normalize mode, Graphics resolution, Automatically finds the first EGT to peak, display of OIL, OAT, IAT, CDT, voltage, shock cooling of two TIT's, one degree temperature resolution, selectable °C or °F, all functions have Hi/Lo pilot programmable limits, supplied with JPI's well known, grounded, fast response probes, TSO quality, FAA TSO/STC approved, 3 year warranty. All probes, harness, and hardware included. ***Data Recording -*** All EDM-700 and EDM-760 systems come with data recording and provide long term trend monitoring for maintaining ultimate engine health. Data Recording capability records and stores all displayed parameters and, at a later time, transfer the info to a palmtop or laptop PC. Retrieve all the data stored in the EDM-700 and 760 or only the new data recorded since your last retrieval. In either case, no data is erased in the EDM unit. PC program supplied with the unit will graph the data for display and use by other programs, such as MS Excel or Lotus 123. EDM-700 or 760 Data Recording contains a date and time clock. You may also program an aircraft ID, such as your aircraft registration no. or your name that will appear in the output data file.

Systems include EGT & CHT probes, harness, memory module, leads, and hardware

VDO Pressere Sender (V) 0-160 PSI	10-04183	**$143.95**
EDM PC Interface Cable	10-27112	**$36.75**
EDM HP Interface Cable	10-27111	**$36.75**

All Systems which include Fuel Flow come with Transducers. 201 Transducer is for Aircraft with Fuel Pumps. 231 Transducer is for Gravity Fed Aircraft.

BASIC EDM-760 TWIN ENGINE SYSTEMS

The value of Digital engine temperatures for precision engine monitoring is well documented. JPI has merged the Analog and digital information into one gauge. The EDM-760 monitors 29 channels of information with 14 columns of analog information. All EDM's have a built in voltmeter monitoring high and low system voltage. All the enhancements found on the single engine EDM-700 are available in the Twin engine EDM-760, including: Digital display of OAT, TIT, OIL, CARB, IAT, CDT, and EGT/CHT, Shock Cooling displayed in degrees per minute with alarms, Normalize Mode levels the bar graph display for instant identification of engine trends during cruise, Automatically finds first cylinder to peak on each engine. EDM-760 is shipped complete including everything necessary for installation. The package contains Quick response EGT probes, Bayonet CHT probes w/wiring harness, memory module, insulating sleeves, terminals w/mounting screws. Options like Oat, Oil & CDT/IAT are available and can be added later. 3 year warranty on electronics. Size: 3-1/8" display with 14 columns, installed weight = 6 lbs. RS-232 Output port and 1 TIT function are included in the system.

Description	Part No.	Price
EDM-760-6C 3-1/8" (No Fuel Flow)	10-28080	**$3,820.75**
EDM-760-6C with Fuel Flow 201 3-1/8" (Fuel Pump)	10-00640	**$5,010.75**
EDM-760-6C with Fuel Flow 231 3-1/8" (Gravity Fed)	10-02851	**$5,010.75**
EDM-760-4C 3-1/8" (No Fuel Flow)	10-28085	**$3,944.00**

Description	Part No.	Price
EDM PC Interface Cable +	10-27112	**$36.75**
EZ Trends (Free with new instrument)	10-27113	**$69.00**
Fuel Flow Without Transducer	11-09232	**$343.95**
Fuel Flow With Transducer	11-09233	**$545.00**

JPI EDM-740 INSTRUMENTATION SYSTEM

Functions included on EDM-740: All in One Engine Instrumentation that works. Start saving fuel today with JPI's exclusive Over lean (LOP) feature. All functions also show up in large digital display. Same as the EDM-830 plus now with Fuel Level and Fuel Pressure. User selectable landscape or portrait mode. For experimental aircraft only.

RPM Propeller, MAP Manifold Pressure, % HP Percent of Horse Power, EGT Exhaust Gas Temp., CHT Cylinder Head Temp, O-T Oil Temperature, O-P Oil Pressure, OAT Outside Air Temp., VDC Voltage, GPH Gallons per Hour, REQ Required to destination, USD Fuel used, H:M Endurance, MPG Miles per Gal, CLD Shock Cooling on all cylinders, DIFF Gami spread, USB Memory stick Data Recording, EZTrends Graphing program

Optional functions:TIT Turbine Inlets Temp., F-P Fuel Pressure, CDT Compressor Discharge., AMP Current amps, CRB Carburetor Temp , L-Tank Fuel Quantity, level, R-Tank Fuel Quantity, level

EDM 740 4C Experimental ..... P/N 11-08058 ..... **$2,699.00**
EDM 740 6C Experimental ..... P/N 11-08059 ..... **$2,925.00**

JPI ENGINE SCANNERS

JPI EDM-730/830

The EDM-730/830 revolutionizes engine monitoring by the integration of brilliant full color graphical LCD display with the extremely popular EDM 700/800 series functionally and yet reduces the package size to the smallest on the market! The EDM-730 packs more features, functionality, and information onto its large full color screen than any other monitor available and features larger characters for easier reading. Oil pressure has also been added to the entire EDM series line. Mounting is a breeze due to its standard 3-1/8" format, and because it can be mounted in either portrait or landscape orientation, thus accommodating virtually any panel configuration. Depth behind the panel is an amazing 2-1/2". The unit is "Plug and Play" compatible with existing EDM-700/800 units. Full Color LCD Display: * More Graphics * Large digits for easy reading. * Full color parameter range markings. * FAA STC/TSO approved. Package Form Factor: * Standard 3-1/8" Mounting from the front. * Face is offset from center to better fit in spaces where other equipment is currently located. * Can be mounted in four different face orientations to satisfy tough mounting scenarios. * Depth is nearly the same as the height of a business card, 2.5". * Plug and play compatible with the JPI EDM-700/800 harnesses for easy upgrade. * Front mounted USB jack for easy software upgrades and data downloads.

Model	Part No.	Price

EDM 930 & 930T PRIMARY

True TFT Transflective Custom Display - Display brightness increases with ambient brightness, always sunlight readable. All gages have a Variable Scale and alarm limit to fit your engine. New form factor, panel size: 6"w X 4"h X 2.9"d. Records all engine parameters at 2 to 255 second intervals. Plot the data with EZplot. All probes and transducers supplied. High Flow transducer (120 GPH) included in EDM930T Compatible with and transmits RS-232 data to most MFD's, also sold less the display.

PISTON FUNCTIONS: • Tachometer/Hobbs • Manifold Air Press • 6 EGT/CHT • Oil Temp. • Oil Press • Fuel Quantity • Fuel Press • OAT • Carb. • Temp • TIT, TIT-2 • CDT • GMT • Votls/Amps 1-2 • Differential EGT • Shock cooling • GPH • Fuel remaining • Fuel Endurance • Fuel required to GPS waypoint • Fuel used • Percent of horse power • Receives data from any GPS and transmits data to any GPS.

JPI EDM 800 DIGITAL/ANALOG SCANNERS WITH AUTOMATIC HORSEPOWER COMPUTING

The EDM-800 instrument has all the advanced functions of the EDM-700, but incorporates some new features that can only be found on JPI products. No longer do pilots have to waste time looking up and guesstimating the present percentage of horsepower (HP). There are new easily readable digits located at the top of the EDM display which continually show the percentage of horsepower being used, and can also display RPM. What is truly unique about this new feature is that it can also display HP over lean. HP can be displayed for either carbureted or injected engines, even if they are turbocharged. Now you can be sure that you are within the horsepower limits of your engine, and in IFR conditions, this can be quite a task. At the present time HP is only available on single engine 4 and 6 cylinder engines. The EDM-800 calculates percent of horsepower in an Over lean condition. Lycoming & Continental horsepower charts stop at peak EGT on the first cylinder to peak. Gami has developed a method of going over lean on all cylinders. When you are over lean, every ounce of fuel is burned and used to create horsepower and heat. Cooling is accomplished by excess air in the combustion chamber. JPI has developed an algorithm to calculate horsepower based on fuel consumption and other factors. To obtain HP in this over lean condition you must have an EDM-800 engine analyzer which includes fuel flow, RPM, MAP, OAT, Memory and Gami tuned injectors. In addition to JPI's HP function, the EDM-800 also has a Memory Module that can store up to 25 hours of engine data, which can be downloaded to a laptop or palmtop PC. When using the memory function, all functions of the EDM will be recorded, including Fuel Flow and HP.

J.P. INSTRUMENTS EDM-960

The EDM-960 is the latest graphic engine analyzer for Piston Engine Twins from JP Instruments. The EDM-960, STC'd as Primary engine instrument, takes the best from their EDM-760 and adds total engine display monitoring including Tach, % Horsepower, Hobbs, Manifold Pressure, EGT, CHT, Oil Pressure, Oil Temp, Fuel Flow, Outside Air Temp, Volts, and Amps plus optional Fuel Pressure, Fuel Quantity, and Turbine Inlet Temp. Each individual engine display has a scale and alarm limit to fit your particular airplane. As with the popular EDM-760, the EDM-960 has internal memory that records all engine parameters that can be recalled and displayed on your computer to keep track of the health of your engine. Plus: warnings for shock cooling and excess temperatures, leaning assist for both "lean of peak, and "rich of peak".

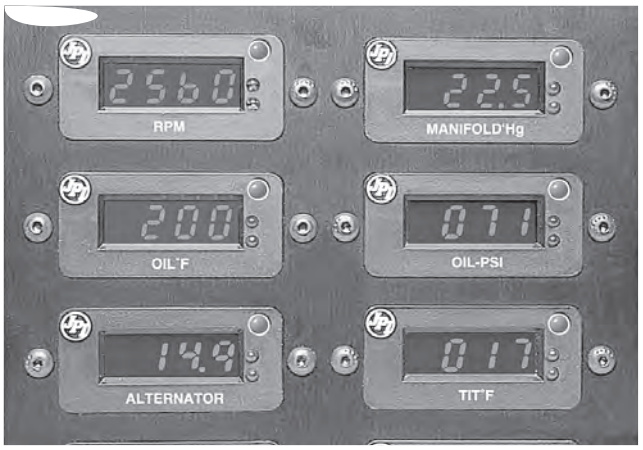
JPI FUEL COMPUTERS

J.P. INSTRUMENTS SLIM LINE DIGITAL ENGINE INSTRUMENTS



These compact engine instruments from have a bright red display and feature central remote and individual alarms on all gauges. The gauges are easily stackable in a homebuilt aircraft panel, and come complete with sensors. Specify voltage. NOT FAA APPROVED.

Tachometer **-** Features quartz crystal and accuracy of 1 RPM. Resolution is 10RPM and includes red line alarm. Specify engine and magneto models, number of cylinders, voltage, and red line.
P/N 10-24900 ..... **$420.75**

Manifold Pressure **-** Features resolution of 0.1 inches mercury, accuracy of 0.1" Hg, solid state sensor, and over boost alarm. Range: 0-50".
P/N 10-24910 ..... **$297.50**

Outside Air Temperature (O.A.T.) **-** Features resolution of 1° and has range of -40 to 195°F. P/N 10-24940 ..... **$250.75**

Oil Temperature **-** Features resolution of 1° and over temperature alarm of 235 F. P/N 10-24960 ..... **$250.75**

Volt/Ammeter - Features resolution of 0.1 volts/amps and discharge alarm.
Volt/100 amp-14V ..... P/N 10-24920 ..... **$250.75**
Ammeter Shunt - (100 Amp) ..... P/N 10-24925 ..... **$63.75**
Volt/100 amp-28V ..... P/N 10-24921 ..... **$250.75**

Oil Pressure **-** gives readout in PSI and features resolution of 1 PSI and an under pressure alarm. P/N 10-24930 ..... **$250.75**

Turbine Inlet Temperature (T.I.T) **-** Features resolution of 1° or 10° and a Hi-temperature alarm at 1650° F.
P/N 10-24950 ..... **$250.75**

Fuel Pressure **-** Features Resolution of 1 PSI and under pressure alarm.
Slimline Injected 10-32 PSI ..... P/N 10-24970-30A **$250.75**
Slimline Carb 1-8 PSI ..... P/N 10-24970-30B **$335.75**

J.P. INSTRUMENTS FUEL SCAN –450

- Continuous display of fuel burned,in upper display in Gallons per Hour. Liters and Lbs per hr also available.
- An amazingly low price includes Instrument harness and a Flow Scan 201 or 231 transducer.
- Upgrade your old Hoskins, or Shadin System. Will function with any K factors; connector is pin to pin compatible.
- Automatically calculates the K factor.
- All programming done from the front panel.
- Size 2.25" diameter (small hole)
- Light Weight 5 oz with Super Thin 1.5" depth
- Three year warranty. (yes, the only three year warranty around!)
- Serial port sends and receives data from all GPS units, even handhelds.
- Calculates fuel to next waypoint.

FS 450 Scanner Fuel Pump ..... P/N 10-00135 ..... **$658.75**
Fuel Scan 450 Gravity Fed+ ..... P/N 10-00134 ..... **$658.75**
FS-450R Fuel Scan Rotax (2 Transducers for aircraft with return fuel line) ..... P/N 10-00266 ..... **$924.00**
FS-450M-3 3-1/8" Twin Engine ..... P/N 10-03692 ..... **$1,463.00**
CALL FOR SPECIAL PRICE!

JPI EDM-900 SINGLE ENGINE PRIMARY

The EDM-900 includes an ALL IN ONE Bright VGA Display with over 40 functions including fuel level. It is FAA STC approved to replace all engine instruments in over 1000 aircraft and all probes, sensors, and transducers are included. The EDM-900 has a built in EDM-800, plus many other gauges in combination together. Fits in a standard 3" hole no panel rework. Made in California. **EDM-900 System Includes:** EDM-900 ALL IN ONE Bright VGA Display, Pre-Wired Harness for all functions, All EGT/CHT probes, Oil Pressure Transducer, Oil Temperature Sensor, Fuel Pressure Transducer, Oat Sensor, RPM Sensor, One required, Manifold Pressure Transducer, 100 amp Shunt (2) (for Amps), Volts pick-up V-1 and V-2, 2 GB memory Download/upload stick, FloScan Fuel Flow Transducer w/firesleeve, Demo DVD, and 3 year warranty.

FUEL TOTALIZERS - FUEL GAUGES

SHADIN MINIFLO TOTALIZERS

MINIFLO SYSTEMS - Miniflo is the miniature fuel flow meter which constantly displays fuel flow in the lower windows. The fuel used and fuel remaining functions are continuously computed and can be displayed in the upper window by pressing the appropriate button. Endurance (time remaining) can be displayed in the upper window by using the rotary switch. STC's for most aircraft. Power: 12-28V DC Furnished in gallons readout (pounds also available). Weight: 31 oz. (meter& transducer). Size: 3.25"x 1.25"x 7.5". Miniflo now provides all features of standard Miniflo system plus a Loran interface as described in Digiflo above. This gives the pilot NM/Gal, Gallons to Destination and Gallons of Reserve. Specify aircraft and engine model on all Miniflo orders.Prices vary according to aircraft model.

Single Engine GPS Miniflo ..... P/N 10-24735.... **CALL FOR PRICE**

SHADIN DIGIFLOW TOTALIZERS

Digiflo-L is a Digital Fuel Management System designed to provide complete fuel management information under real flight conditions without any manual entry of data (after eztry of the initial fuel on board information).Digiflo-L is connected to the engine fuel flow transducer for fuel flow information and to the Loran-C or GPS receiver serial port for navigation data (ground speed, distance and estimated time en route).This system is also capable of transmitting the fuel information to the Bendix/King KLN-88, KLN-90, and Garmin GPS navigation receivers, for additional calculations and display of fuel management data.

Single Engine GPS Digiflo ..... P/N 10-02212 ..... **Please Call**
Twin Engine GPS Digiflo ..... P/N 10-02213 ..... **Please Call**

SHADIN F/ADC-200 FUEL/AIR DATA COMPUTER

The affordable Shadin F/ADC-200 Fuel/Air data computer maximizes aircraft range and fuel economy by providing automatic updating to your GPS for true air speed, winds aloft, wind components, density altitude, OAT, pressure altitude, fuel flow rate, fuel used, fuel required to destination, fuel endurance, and more. Interfaces with most popular GPS units including Bendix King KLN series, Garmin 150, 155, 165, Trimble 2000/3000 series, and Arnav. Please specify aircraft make/model, engine make/model, serial number of aircraft, and GPS make/model at time of order. P/N 10-24768 ..... **Please Call**

IMPORTANT: For all Shadin orders, please specify engine make and model number; aircraft make and model number; specify gallons, pounds or liters on readout and if Loran or GPS will interface. Specify make and model.

SHADIN SYSTEMS PRICING

Prices for Shadin Microflo, Digiflo, & Miniflo systems vary according to aircraft/engine models. Call Aircraft Spruce for your best pricing on any Shadin system. Aircraft Spruce guarantees to meet or beat any competitor's current advertised prices.

FUEL LEVEL SYSTEM BY DATCON

This Datcon fuel gauge and senders are designed for use with 12 volt electrical systems in automotive, marine and homebuilt aircraft applications. The gauges have a round 2" diameter case with chrome bezel. Mounting brackets and instructions are furnished. 240-33 Ohms.

Gauge No. 100177 with steel case
P/N 100177 **$34.85**
Lighting Kit (12V) ..... P/N 06215-00 ..... **$4.65**

UNIVERSAL SENDER FOR DATCON GAUGES

This Fuel Level Sender has removable mounting plate which can rotate 180° to mount on either right hand or left hand position. For tanks 6"-15" deep.
P/N 05-16710 ..... **$31.50**

STEARMAN FLOAT-TYPE FUEL SIGHT GAUGE

Float type fuel sight gauge used in Stearman dusters. Plastic tube with fuel level marking and 3/4" male pipe thread fitting. 16" long overall, 8" tank depth. 5-1/2" travel. Use AN867-6 Aluminum Welding Flange to mate with above gauge. P/N 10435..... **$69.25**
Aluminum Welding Flange to mate with above gauge.
P/N AN867-6..... **$11.50**

SPIRAL ACTION FUEL GAUGE

05-16900

A precision magnetic gauge for narrow vertical tanks. Rubber float travels on spiral rod to record fuel level on hermetically sealed side-reading dial marked E, 1/4, 1/2, 3/4, F. All aluminum construction. Housing has 1-1/2" NPT male threads for connection to threaded bushing (see below). Available in two lengths:
Length 'L' 15", Float Travel 12-3/4"..... P/N 05-16900..... **$69.85**
Length 'L' 19", Float Travel 16-3/4"..... P/N 05-17000 **$78.50**

Welding Bushings - 6061 aluminum, 2-1/4" O.D., 1/4" wall. Available in 1" & 2" length. Use with welding ring to provide base for attaching to fuel tank with bolts or rivets. Ring may be welded at any point along bushing to permit depth adjustment. Specify bushing length. For use with Spiral Action Gauge.

1"Bushing ..... P/N 10362-1 ..... **$14.25**
2"Bushing ..... P/N 10362-2 ..... **$15.75**

Welding Ring - 6061 aluminum, 4-3/8" O.D., 2-1/4" I.D. to fit above welding bushings. For use with Spiral Action Gauge..... P/N 10363 ..... **$4.40**

ROCHESTER 8341-R7090 SENDER

These fuel senders are designed for top mounting in unpressurized aluminum, stainless steel, or plastic fuel tanks in all types of marine vessels. They include special features and protection from corrosion problems (internal and external to the fuel tanks) which make them the quality standard for the industry. Standard configuration, with the lead hole at 12:00, has the float arm swinging at 3:00. The float arm on this sender is 24" [609mm] long measured from the pivot point allowing it to be cut to an appropriate length to gauge any tank depth from 6" [152mm] to 25" [635mm]. The float and the washers are furnished unassembled to the float arm. The cutting and crimping process is to be done prior to the float assembly. The fuel sender is equipped with a thick film resistance card with a range of 0 to 90Ù. The recommended gasket for use under the head is made of nitrile rubber and must be ordered separately.
P/N 10-02045 ..... **$21.65**

MECHANICAL FUEL GAUGE

Lever-action gauge measures fuel level from full to empty on fractional dial. Matte-white markings on 2" black dial with red "No Take-off" sector below the 1/4 full mark. Cork float has 4" travel. Wire arm 12" long may be cut off to required length, wire bent to 90° angle to secure cork float. 1-13/16" between mounting hole centers. Hermetically sealed dial assembly has magnetically driven, silicone-damped or position pointer to prevent flutter..... P/N 05-16700..... **$77.85**

Accessories

Replacement Fuel Float ..... P/N 05-03395..... **$2.20**
Weld Adapt FLANGE 10361 ..... P/N 10361 ..... **$10.45**
Gasket for 05-16700..... P/N 15-4..... **$3.25**

LUSCOMBE/AERONCA TYPE FUEL GAUGE

This direct reading fuel quantity gauge is usable in tank depths up to 9" such as Luscombe & Aeronca. Not FAA approved. Excellent for homebuilt aircraft. Displays fuel level from full to empty. Size: 1-1/2" diameter face.

Fuel Gauge ..... P/N 05-00029 ..... **$43.00**
Rebuild kit for Fuel Gauge..... P/N 05-00031 ..... **$9.25**

GAS GAUGE TOOL SETS

Use the Gas Gauge Tool Set to remove or install gauges. It helps prevent damage to chrome inner & outer nuts. Available in standard (economical version) and deluxe (heavy-duty version). The tool used on the standard (outer nut) has been specifically designed to work on the original or new style nut. The tool used on the deluxe (inner nut) has a tight fitting handle, which you will need to hammer in. This offers you better leverage & sure grip. Heavy-duty version.

Standard..... P/N 05-06813..... **$9.85**
Deluxe ..... P/N 05-06814 ..... **$21.75**

GAS GAUGE FLOATS

Gas Gauge Float comes in two versions (Epoxy-Coated Cork and Modern Neoprene Cork). Epoxy-Coated Cork Float: - When replacing the float on the wire, follow it with a washer and a drop of solder to secure the float in place. Modern Neoprene Float: - This float is alcohol and gas resistent, and will not sink. It is not affected by modern ethanol based fuels. Highly recommended. USA made.

Epoxy-Coated Cork Float:..... P/N 05-06818..... **$1.75**
Modern Neoprene Float: ..... P/N 05-06815..... **$6.95**

GAS GAUGE NUT

Gas Gauge Nut available in two versions:
Inner - Chrome Plated - Small..... P/N 05-06816..... **$7.85**
Inner - Chrome Plated - Large..... P/N 05-06817..... **$8.35**

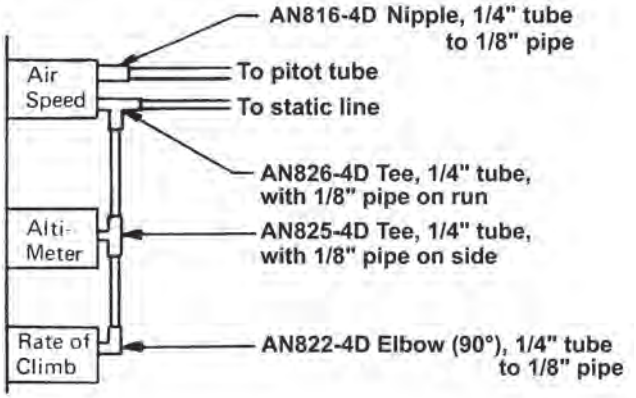
IN

INSTRUMENT HOOK-UPS

SELECTING FITTINGS FOR INSTRUMENT HOOKUPS

1. Make sketch of instrument layout.
2. Draw lines showing routing of tubing from instruments to the fire wall or other locations.
3. Determine diameters of instrument lines. 1/4" diameter tubing is used for most instruments. The artificial horizon and directional gyro should have at least 3/8" diameter lines.
4. Select the required AN or Nylo-Seal fittings.

EXAMPLE NO. 1: HOOKUP OF AIRSPEED, ALTIMETER, & RATE OF CLIMB



The aluminum lines (1/4-in. diameter) will be flared and attached to the fittings with AN818-4D nuts and AN819-4D sleeves.

EXAMPLES OF EQUIVALENT AN-TYPE AND NYLO-SEAL FITTINGS

AN Fitting	Thread Size	Nylo-Seal Fitting
AN816-4D Nipple	1/4 tube x 1/8 pipe	268-N 1/4
AN816-6D Nipple	3/8 tube x 1/4 pipe	268-N 3/8
AN818-4D Nut	1/4 tube	Nuts and Sleeves
AN818-6D Nut	3/8 tube	are included with
AN819-4D Sleeve	1/4 tube	all Nylo-Seal
AN819-6D Sleeve	3/8 tube	fittings.
AN822-4D Elbow	1/4 tube x 1/8 pipe	269-N 1/4 x1/8
AN825-4D Tee	1/4 tube, 1/8 pipe on run	272-N 1/4 x1/8
AN826-4D Tee	1/4 tube, 1/8 pipe on side	271-N 1/4 x 1/8
AN912-1D Bushing	1/4 pipe x 1/8 pipe	No Equivalent

*Use AN816 Nipple and Nyloseal 266-N Female Connector to transition from AN-type fittings to Nyloseal fittings.

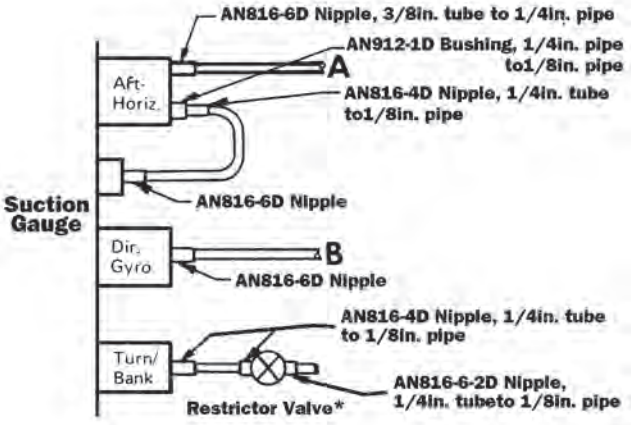
Each connection between the aluminum lines and the fittings requires either all AN818-4D nut and AN819-4D sleeve (1/4-in. line) or an AN818-6D nut and an AN819-6D sleeve for 3/8-in. line.

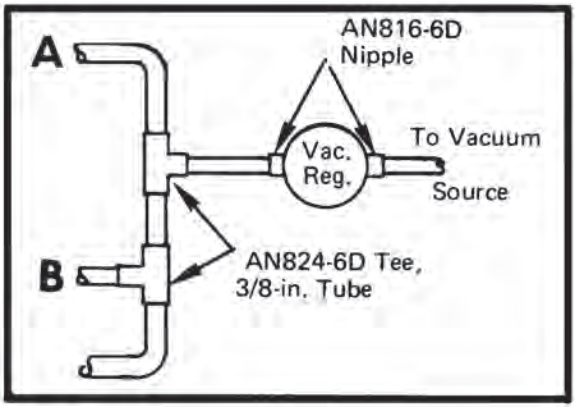
*Turn/Back vacuum set at 2 In. Hg.

HELPFUL HINTS

It is good practice to put some form of water trap in both the pitot and static lines. It should be placed at the lowest practical point in the system between the pressure source and the instrument. The trap can be a simple T-fitting with a cap:

EXAMPLE NO. 2: HOOKUP OF GYRO INSTRUMENTS





OVERHAULED INSTRUMENTS

These instruments are overhauled and certified at our affiliated instrument repair facility and are available on an outright purchase basis (stock permitting). For outright purchase, you will be billed the purchase price plus core charge. Core charge is credited upon return of acceptable core. We can also overhaul your instrument at the price shown, and no core charge will be billed. Allow 2-3 weeks for overhaul of your instrument. If in stock, outright purchases can ship within 2 days. Warranty details are included with the instrument.

To send in your instrument for overhaul or to return a core, please contact Aircraft Spruce Customer Service in advance for an RMA number and then ship instrument to Aircraft Spruce East in Georgia.

Model	Description	Core Charge	PN	Price
Overhauled 5000 Series Standard	Attitude Gyro	**$125.00**	10-03111	**$645.00**

GILL BATTERIES

Founded in 1920 in Redlands, CA, Gill has become the OEM original equipment battery for Raytheon, Cessna, Learjet, Mooney, Piper, Ayres, Airtractor, Maule, and many other manufacturers. Gill's 600 series batteries have proven to be the high performance, high discharge lead-acid batteries need by jet and turbo-prop aircraft. Gill's line of sealed recombinant batteries are now available in most popular sizes and are FAA approved. Gill also provides batteries for battery powered carts which are available by special order. ***NOTE: Part Numbers with an asterisk (*) ship with acid.***

CONCORDE BATTERIES

Since their introduction in 1986, several styles of RG® Batteries, likewise known as VRSLAB, SLAB, or AGM batteries, have been developed by Concorde Battery Corporation. Concorde Battery has a dedicated Research and Development Department that is continuously improving and refining its recombinant gas product line. Formed in 1977 Concorde's factory was dedicated to manufacturing dry charged (vented or flooded electrolyte) aircraft batteries. In 1985 Concorde developed it's first recombinant gas battery with absorbed glass mat separators. Now, with the proven reliability of Concorde's recombinant gas (RG®) aircraft batteries and great acceptance in both military and commercial appllications, over 90% of its manufacturing has been changed over from dry charged to RG® production.

***NOTE* - The STC for some aircraft is available at an additional cost please call 877-4-SPRUCE (777823) if applicable to your aircraft.**

CONCORDE SEALED LEAD ACID BATTERIES

RG-25 RG-25XC RG-35A RG-35AXC RG-24-11 RG-24-11M RG380E/44

Concorde's line of sealed lead acid batteries is designed with larger positive and negative plates for more capacity and greater starting power even at sub-zero temperatures. They feature real aircraft quality terminals, patented copper alloy internally threaded terminals brass terminal bolts with conical silicon bronze lock washers, recommended 70" pound terminal torque, more than 20% higher capacity than earlier models, and a molded carrying or lifting handle. These valve regulated sealed lead acid batteries feature fully aerobatic sealed construction; no spillable electrolyte or flammable gas emissions. "XC" or "AXC" in the model number indicates extra cranking power, and "M" in the model number indicates manifold venting.

CONCORDE PLATINUM SERIES LEAD ACID BATTERIES

CB25 CB25XC CB35AXC CB35A CB24-11 CB24-11MXC

The Platinum Series® battery line from Concorde features more cold cranking amperes for one minute at 0°F, and more 30 minute emergency capacity than any other brand. Platinum Series® batteries provide more one hour capacity than any other brand as well as more high rate performance. These batteries utilize real aircraft quality copper alloy terminals with silicone bronze bolts and conical washers. The batteries listed in the chart below which are not described as "Platinum" are the original series of Concorde lead acid batteries.

BATTERY WARRANTY

(Applicable to Gill and Concorde)

The manufacturer will replace with a new battery without charge (except for transportation) any battery which fails in service within 90 days. Addition of any chemical other than water or battery grade sulfuric acid voids this warranty. After expiration of Service Guarantee, adjustment will be made on pro-rata basis based on unused months of service. Batteries that are broken, discharged or fail due to freezing or abuse are not covered.

BATTERY CHARGERS AND TESTERS

GILL 12/24 VOLT CHARGER

Perfectly packaged, this compact charger is big on performance. Offering adjustable amperage for 12 & 24V batteries, digital 24-hour timer, LED display, constant voltage and constant current for the most efficient way to charge. Wt: 9 lbs. This unit is switchable from 100 Volt to 220 Volt.

P/N 11-01540 ..... **$867.00**

GILL GC-012 12VDC CHARGER

Light weight / High strength aluminum case, Fully automatic: 3 stage charger can be left on the battery for long periods, Charge Status LED's: Power on, charging and full charging.

Features: Light weight / High strength aluminum case. Fully automatic: 3 stage charger can be left on the battery for long periods. Charge Status LED's: Power on, charging and full charging. Circuit protection: reverse polarity and short circuit protected (fused). UL and CE approved. Power cord length 6 feet and 4 foot Charger cord with ring terminals included Charge control: Modified constant current charge to a constant finishing voltage, then to a float standby. Supported with a 2 year warranty

Specifications: Input: 100-240VAC 50/60Hz 3 Amps. Output: 12 VDC 5A. Dimensions: 6.5"W x 3.5"H x 1.8"D. Weight: 1.8 pounds.

P/N 11-09985 ..... **$99.95**

GILL 24 VDC CHARGER

Small, lightweight. 'Smart' state-of-the-art software. Charger starts when battery requires charge •Adjusts to all Gill 24V batteries. LED progress indicators: indicates battery charge level. 'Smart' Circuit will not overcharge battery. Circuit Protection - reverse & short protection •Sleep mode when battery is charged. Specifications: Input: 110-120VAC @ 60 HZ 3.4 amps, Output: 27 VDC Nominal 7.7 Amps, Oper. Temp.: 23-104ºF, Wt: 3.3 lbs.....P/N 11-01541 ..... **$319.95**

Gill 24 60187 - 220V international.....P/N 11-07862 ..... **$319.95**

CONCORDE AIRCRAFT BATTERY PARASITIC LOAD TESTER

This Parasitic Load Tester Adaptor (PLTA) measures the parasitic load / drain on aircraft batteries when the master switch is off and the aircraft is inactive. The adaptor is designed to mate with a MS3509 style quick disconnect receptacle. Measuring parasitic load is easy to do by connecting the PLTA between the battery receptacle and the aircraft mating plug. The PLTA is a molded polypropylene body equipped with separate test leads for connection to a digital multimeter (DMM). It is rated for loads up to 10 amperes and is equipped with a 10 amp fuse. P/N 11-09841 ..... **$59.75**

BC-5000 BATTERY CAPACITY TESTER

A portable, light weight unit designed to provide the operator with an economical, easy, and accurate means for capacity testing aircraft batteries. Fully automatic testing for 12 Volt AND 24 Volt Lead Acid or Nickel Cadmium Aircraft Batteries. Powered by the battery being tested - No AC power required. Constant current load adjustable in one ampere increments from 10 to 50 ADC. 50 mv resolution. 10 LBS / 4.5 KG Kg. Length 12" (30 cm). Width 9" (23 cm). Height 10" (25 cm). LCD display. Over temperature protection. Audio alert when capacity test is complete P/N 11-07388 ..... **$1,372.00**

BC-6000 BATTERY CAPACITY TESTER

The BC-6000 Battery Capacity Tester from Concorde. The BC-6000 is designed to accurately test and report on batteries ranging in capacity from 10AH - 50AH. Plugged into a a USB port, the BC-6000 will create test reports directly from your computer. Tests both 12V and 24V lead acid batteries with capacity ratings from 10 AH to 50 AH. Constant current load in 1 Amp steps. Battery powered operation. No AC power required. LCD display. 50 MV voltage resolution. Overtemperature protection. Automatic audio warning upon completion of capacity test.

P/N 11-10482 ..... **$1,475.00**

BC-7000 BATTERY CAPACITY TESTER

The BC-7000 Battery Capacity Tester from Concorde. Create accurate reports straight from the computer. USB Port access required. Fully automatic testing for 12 Volt AND 24 Volt Lead Acid or Nickel Cadmium Aircraft Batteries. Tests both 12V and 24V lead acid batteries with capacity ratings from 0.5 AH to 50 AH. Adjustable End Point Voltage (EPV). Battery discharge mode to 1V EPV. Adjustable Constant Current loads in 0.1 Ampere increments from 0.5 Ampere to 15 Ampere plus or minus 1.5%. Adjustable Constant Current loads in 1.0 Ampere increments from 15 Ampere to 50 Ampere plus or minus 1.0%. Universal AC power input 85~264vac (47 to 63Hz). 10mv voltage resolution. Overtemperature protection. Audio warnings for completion of capacity test or a malfunction of the process.

P/N 11-10483 ..... **$2,164.00**

BC-8000 BATTERY CHARGER & CAPACITY TESTER

The BC-8000 has been designed to provide the operator with a cost effective battery charger and capacity tester in one unit. The step by step digital display is easy to program in order to set it and forget it. For use on Nickel Cadmium or Lead Acid Batteries.

Capacity Tester Features:

- Adjustable constant current load in 0.1 Ampere increments from 0.5 Ampere to 15 Ampere (+/- 1.5%)
- Adjustable constant current load in 1.0 Ampere increments from 15 Ampere to 55 Ampere (+/- 1.0%)
- USB 2.0 port for PC connection
- BC Report Utility software for hard copy printout of test results

Charger Features:

- Adjustable output from 3.0 to 36.0 Vdc
- Adjustable output amperes from 0.05 to 25 Adc
- Constant voltage (CV) or constant current (CC) charge
- Adjustable charge time from 1-999 min
- Single or two step charge routine

Common Features:

- Universal AC power input 90~264vac (47 to 64Hz)
- 10mv voltage resolution 4 line LCD display
- Over temperature protection
- Audio warning when capacity test is complete or if the unit malfunctions
- Real time internal clock with battery backup

P/N 11-10484 ..... **$4,182.00**

BATTERIES - CHARGERS

POWERSONIC BATTERIES

P/N 11-03153

Power Sonic sealed maintenance-free batteries allow safe, trouble-free operation in any position. You never need to add electrolyte; gases generated during over charge are recombined in a unique "oxygen cycle". Under normal operating conditions, 4 or 5 years of dependable service can be expected in standby applications, or between 200 and 1000 charge/discharge cycles, depending on depth of discharge. Temp. range: -76° to +140°F.

3-AMP BATTERY - Model: Powersonic PS-1230, PPS SKU: 35L116S1 Shipping Weight: 3 lbs, Dimensions: 5.23"L x 2.64"W x 2.36"H, Voltage: 12 Volts, Capacity: 3 Amp Hour(s), Chemistry: Lead.

P/N 11-03154 ..... **$61.50**

26-AMP BATTERY - Model: Powersonic PS-12260NB, PPS SKU: 35L107S1, Shipping Weight: 18 lbs, Dimensions: 6.56"L x 6.97"W x 4.92"H, Voltage: 12 Volts, Capacity: 26 Amp Hour(s), Chemistry: Lead
P/N 11-03155 ..... **$84.50**

ATP HIGH POWER BATTERIES

ATP's UltraStart-Red & UltraBat-13 batteries are the ultimate in high power density non-spillable SLA batteries. Ideal for starting light aircraft engines for ultralight and experimental aircraft and other internal combustion engines. Typical applications include all Rotax 2 stroke engines and HKS 4-stroke engines. For engines 100HP and up

UltraStart-Red - Voltage: 12.6 VDC, Energy: 5AH cap., Peak current: 250A instantaneous, Weight: 4.4 lbs., Size: 2.7"l x 3.5"w x 5.0"h

UltraBat-13 – Voltage: 12.6 VDC, Energy: 13AH cap., Peak current: 650A instantaneous, Weight: 10.8 lbs., Size: 3-3/8"l x 7"w x 5"h

UltraStart-Red ..... P/N 11-00375 ..... **$89.95**

FULL SPECTRUM POWER LITHIUM BATTERIES

Full Spectrum Power makes no compromise in the design and construction of their lightweight batteries. These batteries deliver the highest current, at consistent voltage, powering the world's fastest motorcycles. Full Spectrum Power is the only battery company in the powersports market that uses real, certified cells from A123 Systems. These are the finest cells on the planet. Every Full Spectrum Power battery is designed and manufactured in the USA, using engineering and assembly methods derived from years of working with factory race teams in AMA Superbike, Supercross, Motocross, Drag Racing, Land Speed Racing, and Flat Track. Technology which was only available to the factory teams is now available to everyone! Full Spectrum batteries are now available to the Ultralight & LSA market. Not FAA Approved for Aircraft use.

PULSE SERIES

PULSE P1 BATTERY - • Save an average of 7 lbs. on a 600cc bike • 130 cranking amps / 2.5 amp hour capacity • Integrated Protection Circuit (IPC) • Heat, impact, and water resistant case • 100% Made in the USA. • Dimensions: 4.5 in (L) x 2.5 in (W) x 3.75 in (H) • Weight: 15.1 oz • Common Applications include: 600cc sportbikes (race trim); Dirt bikes less than 450cc..... P/N 11-10701 ..... **$129.00**

PULSE P2 BATTERY - • Save 7 lbs. on a 1000cc bike • 200 cranking amps / 5 amp hour capacity • Integrated Protection Circuit (IPC) • Heat, impact, and water resistant case • 100% Made in the USA • Dimensions: 4.5 in (L) x 2.5 in (W) x 3.75 in (H) • Weight: 1.6 lbs. • Common Applications include: 1000cc inline 4-cylinder sportbikes; V-Twin sportbikes up to 1098cc..... P/N 11-10702 ..... **$209.00**

PULSE P3 BATTERY - • Save 7 lbs. on a 1200cc bike• 390 cranking amps / 7.5 amp hour capacity• Integrated Protection Circuit (IPC)• Heat, impact, and water resistant case• 100% Made in the USA • Dimensions: 4.5 in (L) x 3.5 in (W) x 3.75 in (H) • Weight: 2.2 lbs. • Common Applications include: 1300cc inline 4-cylinder sportbikes; 1200cc twins; Drag racers using total-loss ignition systems..... P/N 11-10703 ..... **$269.00**

PULSE P4 BATTERY - • Save 10 lbs. over a stock battery with twice the power • 500 cranking amps / 10 amp hour capacity • Integrated Protection Circuit (IPC) • Heat, impact, and water resistant case • 100% Made in the USA • Dimensions: 4.5 in (L) x 3.5 in (W) x 3.75 in (H) • Weight: 3.3 lbs. • Common Applications include: 1300cc inline 4-cylinder sportbikes; 1200cc twins; Drag racers using total-loss ignition systems.

ODYSSEY DRYCELL BATTERIES

11-01651

11-02233

11-01945

Odyssey batteries, with an eight year design life saves you time and money because you do not have to replace your battery as often. It is also the ONLY battery that is capable of delivering a large number of deep cycles – up to 400 when fully discharged or up to 500 when discharged to 80%. Plus, the battery is specially designed for high vibration applications. Unlike conventional batteries that need to be recharged every six to twelve weeks, the Odyssey battery will maintain up to 50% state of charge after 2 years if stored at room temperature (77°F). At temperatures lower than 77°F, storage times will be even longer. The cranking power of Odyssey batteries is double to triple that of equally sized conventional batteries, even when the temperature is as low as -40°F. Odyssey batteries may be shipped worry free by UPS/ Federal Express or air. 2 Year Warranty.

Part No.	Dimensions	Weight	Cranking Amps	Price

HOLD DOWN BRACKET FOR ODYSSEY 680AMP BATTERY

This hold down bracket for the Odyssey PC 680 battery can be easily mounted in any orientation. Color: Black.
P/N 11-01853 ..... **$38.75**

YUASA BATTERY Y50-N18L-A-CX

Yumicron CX technology is OEM's choice for longer battery life, lower maintenance and more cranking power.

- The YuMicron CX was the first small engine starting battery to use "lead calcium" technology. This special technology means the YuMicron CX generates more power, requires less maintenance, and lasts longer than any other conventional battery.

Specifications: Battery Family: YuMicron CX, Battery Type: Y50-N18L-A-CX, Voltage: 12 Capacity: 20 Dimensions: 8.125" x 3.5625" x 6.4375" Weight: 11.2 lbs. Metric Dimensions: 205mm x 90mm x 162mm Metric Weight: 5.1 kg, Acid Volume: 47.3 oz., Amps: 2 Electrolyte needed: 47.3 oz. P/N 11-09496..... **$96.50**

BATTERY TERMINAL TOOL

This unique tool is designed to provide positive tightening of battery terminals on all popular brands of lead/ acid aircraft batteries without over-torquing and without the danger of an electrical short. The tool is made from steel for rugged service and is fully insulated with a rubber hand grip for protection against electrical shorts. P/N 12-16200 ..... **$10.85**

BATTERY CORROSION GUARD

Battery Corrosion Guard forms a thin protective coating that will neutralize battery acid on all treated areas. It is an excellent way to clean the battery, hold down straps, and all metal parts you want to protect including cables, clamps, box, and posts. Excellent for aluminum battery boxes. Widely used in the aircraft, truck, and boat industries.

3 oz. can ..... P/N 11-00310..... **$16.65**

PULSETECH POWERPULSE

PowerPulse is not a charger. It's a performance device designed to help batteries charge faster and provide maximum performance and power. This patented unit uses a revolutionary ReNew-IT Pulse Technology™ to safely prevent the main cause of battery problems and failure. Used extensively by the consumers and the U.S. Military worldwide for almost ten years. PowerPulse can be powered in two different ways. The PowerPulse system can also be used together with an existing charging system. In fact, it will work even faster and stronger. This means batteries can be both charged and desulfated at the same time.

BATTERY BOXES - BATTERIES

ALUMINUM BATTERY RACKS & BOXES

RACK

BOX

These top quality battery racks and battery boxes are constructed from 5052 aluminum and are heli-arc welded. A corrosion resistant epoxy powder coating is applied using a electrostatic process and oven baked for a long lasting finish. Complete hold down hardware kits are provided with all racks and boxes, and mount flange are pre-drilled for mounting ease using 3/16" diameter bolts. Use battery racks when mounting in a ventilated area. Use battery boxes when mounting battery in a confined area. where enclosed battery protection is required. Battery boxes include a 1/4" tube for venting and drainage. Specify make and model of battery and horizontal or vertical mount when ordering.

FIBERGLASS BATTERY BOXES

Available as standard fiberglass battery box or as gel coated version. Gel coated battery box is same dimensions but with white gel coating and with the mount integrated into the box.

Fiberglass Battery Box ..... P/N 11-11007 ..... **$107.30**
Met-Co-Aire Battery Box White ..... P/N 11-05614 ..... **$128.75**

GELL CELL BATTERIES

• Maintenance-free operation • Excellent shelf life • Long cycle life • Can be mounted on its side • Delivered fully charged and ready for use • No corrosive gas generation • 300 Starting AMPS • Warranty 1 year or 100 hours. • Quality construction provides superior resistance to shock and vibration • DOT AND IATA approved for shipment by air as dry cells **Note: FOR EXPERIMENTAL AIRCRAFT ONLY.** P/N 11-03156 ..... **$143.95**

YUMICROM BATTERIES

These manifold vented batteries work well in home builts with low amperage requirements, putting out a lot of power for their size and weight. Made by Yuasa General in Reading, Pa. 27.1oz. electrolyte required to fill (not furnished). ***YB14LA2 , 12V, 14AH -*** This model being used in the VariEze & Long-EZ. Easily handles the load of starting a Lyc. 0-235 engine. Size: 5-9/32"l x 3-1/2"w x 6-11/16"h. Wt. 10 lbs.
P/N 11-01847 ..... **$52.75**

YB16-B, 12V, 18AH - Used in the Solitaire sailplane, VariEze, Long-EZ & other homebuilts without starter. Size: 7"lx4"wx6.25"h. Wt: 12.7 lbs
P/N 11-01848 ..... **$50.00**

BATTERY BOX BUMPER SEAL

Battery Box Bumper Seal. 1103M foam with sticky back. Mil Spec: AMS3195E
Bumper Seal 1"
P/N 11-05613 ..... **$4.95**
Bumper Seal 1-1/2"
P/N 11-05612 ..... **$4.95**

AIRCRAFT BATTERY HYDROMETER

Special Tester designed for testing aircraft batteries. Requires only small amount of fluid & ideal for close quarters. Float calibrated from 1.100-1.300 Sp. Gr. in 5° intervals..... P/N 11-01674..... **$24.50**

AIRCRAFT BATTERY LOCK

This simple locking device is designed to disable the battery from the electrial system which cuts off all power to the aircraft unattended many pilots disconnect the battery and locck the panel door. However, many panel locks are easy to pick and pry open. If a thief is able to unlock the panel door, it is simple to reconnect the battery. Then all on would have to do is go inside the plane through the emergency door, which is often left unlocked with a key, the engine can easily be started and the plane can be flown away. The batter lock is constructed using a tough space age plastic polymer and a seven pin round ball bearing lock that is impossible to pick which in turn prevents aircaft theft and increases security. ..... P/N 11-02753 ..... **$319.95**

BATTERY MAT

The Battery Mat is the world's only acid neutralizing and absorbing mat designed for use beneath any lead-acid battery. Each mat is simple, efficient, and cost-effective. It's ideal for use with all aircraft, as well as standard and heavy duty equipment. The acid-neutralizing and absorbing fabric is patented and manufactured with recycle material in the U.S. Battery Mat absorbs and neutralizes battery acid that may leak or result from a "boil over", prevents corrosion, cushions vibration shock, is simple to use and install, and is safe to handle. Width: 12". Sold by linear ft. P/N 11-00170..... **$4.95 Ft**

BOGERT BATTERY BOX NYLON FLANGES

Improve Starting Performance. Easier Removal & Installation of Battery. May prolong life of battery and starter. Less expensive to modify existing box than to replace. Compatible with our famous "Low Loss" Cable Kits! Eliminate extra connection on outside of the battery box. Do away with the troublesome braided negative strap.
Nylon Flanges replacement or experimental..... P/N 11-02892.... **$37.50**
Nylon Flanges STC'd / PMA'd..... P/N 11-02893.... **$51.90**

BOGERT CONCORDE BATTERY POST ADAPTERS

Aircraft using Concord CB-35A and RG-35A batteries must install two PN 1-1-6 adapter plates to the battery posts before completing the Battery Box Modification. These adapter plates raise the battery post height to equal the post height of standard G-35 series batteries. P/N 11-02891..... **$39.50**

EL

BATTERY CHARGERS

BATTERY CHARGERS BY SCHAUER

Over 70 years of manufacturing experience assures, the user of the finest line of battery chargers—solid state circuitry, non-aging silicon rectifiers at low prices. All chargers furnished with complete operating instructions. One year warranty

P/N 11-00885 Shown

JAC1212, JAC0524, & JAC0724 - Fully Automatic - World-Wide Universal Input, Electronic ChargerIntelligent chargers follow battery impedance to end of charge cycle for all battery types. Fully automatic. Red LED indicates AC power on, yellow LED indicates battery is charging, green LED indicates float mode. Aluminum case.

(1) DC cordsets 3' long: with ring terminals or XLR connector.
(2) With stripped leads

MODEL JAC2024H - Intelligent chargers follow battery impedance to end of charge cycle for all battery types. Fully automatic. Green LED indicates AC power on, yellow LED indicates battery is charging, yellow LED off indicates float mode. Charge control: constant current charge to a constant voltage, then to a float standby. Current limiting. Fully automatic 3 stage charger can be left on the battery in maintaining/float mode. Can be set for any type lead acid battery, including conventional, maintenance free, deep cycle, gelled-type, valve regulated batteries. Cyclic voltage: FLOODED 2.5 volts/cell; GEL & AGM 2.4 volts/cell. 2.6 volts/cell for 36 & 48 volt batteries. May be preset to customer's specification for battery type. Not intended for use as a DC power supply. Continuous - 100% duty cycle. Low voltage start: will start charging a deeply discharged battery with terminal voltage less than 4 volts. Reverse polarity and short circuit proof. Aluminum case. AC Input 115/230 volts, 50 or 60Hz Input voltage autosensed. 20 AMPS / 24 Volts. 10"W x 7.5"H x 3"D. 6.5 lbs P/N 11-00891 ..... **$268.95**

MANUAL CHARGERS

Manual chargers must be disconnected when battery is charged to prevent overcharging and damage to the battery. Normal indcation that battery is charged is when ammeter stabilizes for one hour.

SCHAUER 1A AUTOMATIC BATTERY CHARGER

This fully automatic charger can be left on the battery indefinitely. Features include indicator lights, overload protection, reverse polarity protection, and small size (4" x 3" x 2"). Charges, maintains, and conditions 12V batteries in stored vehicles, such as aircraft, cars, motorcycles, mowers, etc. Ten foot long cordset includes quick change battery clips and ring terminals. Wt: 2 lbs. P/N 11-04407 ..... **$31.80**

BATTERY AND ALTERNATOR CONDITION TESTER

Instant and accurate battery condition status: indicates if battery is "healthy" or in need of charging Instant status of your alternator/charging system: determines whether battery or alternator is at fault. Non-Aviation / Not for Aircraft.

P/N 11-04302 ..... **$16.75**

ZEUS POWER BANK BATTERY CHARGER

The ZEUS Power Bank is a portable battery charger that can charge many electronic devices via USB port, such as MP3 players, mobile phones, cameras, portable gaming devices, and other USB compatible devices. The ZEUS Power Bank comes with everything you see in the photo , a user guide and travel bag. It's easy, portable and perfect for anyone on the go! Ideal for long flights, outdoor activities where anytime anywhere remote charging is needed. NOTE: Recharge the power bank through any computer via USB port or with a 5V wall adaptor. Not all USB Wall chargers will work with the power bank and it may be damaged if not charged with a compatible USB power source. P/N 11-09964 ..... **$59.95**

THE BATTERY MAINTAINER SOLAR BATTERY CHARGER

The Battery Maintainer is the best device available to ensure that your battery will always be "topped off" and fully charged. It has the capacity to keep any 12 volt battery charged with as little as one full hour of sunlight per day. The life of your battery will be dramatically extended by using the Battery Maintainer. It features a diode to prevent the battery from discharging on cloudy days or at night. It is constructed with a glass face and black molded base. Size: 5-1/4" x 11" x 3/8" thick. Output: 100 ma 16 VDC full sunlight. Connects to battery via 12V "hot" cigarette lighter plug in aircraft. For 24 volt use two units. LED Light not included.

SOLARGIZER AVIATION BATTERY LIFE EXTENDER

Solargizer is the only one of its kind in the world. It is not a battery charger, but a proven, patented electronic device designed to eliminate the #1 cause of battery problems and failures – sulfation. Whether you deal with aircraft, ground equipment, or virtually any other type of vehicle, Solargizer will dramatically extend the like of your battery, increase performance efficiency, reduce recharge time, extend battery capacity so your battery runs longer between charges, and even maintain a charge indefinitely no matter how long your aircraft or vehicle sits unused. Solargizer is small, weatherproof, and easy to install. Because it keeps batteries in optimum working condition, the Solargizer system helps reduce downtime, battery maintenance and replacement costs. And it even protects our environment by reducing the number of batteries needlessly discarded every year.

24 Volt w/ Battery Clamps.....P/N 11-11692 ..... **$267.95**

EMERGENCY CHARGE SYSTEM EBPA299

Keep cellphones and all personal devices charged. When electricity is unavailable simple attach 12volt (car style) adapter to the handheld power pack, plug in and go stay connected 300 hours of talk/standby time (Results may vary)• 9 AA Batteries included.

P/N 11-04739 ..... **$39.95**

XTREME CHARGE X2 DUAL BATTERY CHARGER

The Xtreme Charge X2 is a dual-station, 12-volt maintenance charger. The Xtreme Charge X2, works with all types and sizes of 12-volt lead-acid batteries.

P/N 11-06866 ..... **$169.95**

KELLY BC3000 BATTERY ANALYZER

"Your Battery M.D." Portable and cordless the BC-3000 is a lightweight fully automated battery analyzer assessing the health of all lead-acid aircraft batteries with an ampere hour range of 1-59. Connect the battery using the included quick battery connection adapters, the unit automatically senses and selects 12 or 24 volts, set the battery rating and press start, that's it. One hour later your test is complete and the health of your battery is displayed P/N 08-07161 ..... **$1,343.00**

HOME & AUTO CHARGER

PERFECT COMPANION FOR MRX! A home and auto charger perfect for charging on the go. Charges 2 or 4 AA and AAA batteries in 2-3 hours at home or away. Comes with 4 AA batteries and both car power adaptor & home charge adaptor. Charge indicators show when batteries are ready. "Trickle charge" capability keeps batteries at full charge.

P/N 11-04524 ..... **$20.75**

EL

BATTERYMINDER® BATTERY CHARGERS

AVIATION SPECIFIC CHARGER / MAINTAINER / DESULFATORS

These ensure 100% charge to sealed and wet-cell lead-acid aviation batteries made by Concorde, Gill, Hawker, Odyssey, etc. Temperature compensation prevents overcharging. Designed to be left connected when plane is hangered. Easy attachment to battery with supplied connectors. Patented high frequency pulse desulfation is designed to reverse and eliminate battery sulfation, the #1 cause of early battery failure.

Note: Aviation batteries require different charging voltages than automotive, marine or other battery types. Standard chargers can, over time, severely shorten battery life and performance. Specifically designed aviation chargers are multi-stage (five stages), microprocessor controlled and temperature sensing (at the battery). They are "very smart", yet simple to operate. These are the only type recommended / approved by major battery manufacturers.

Aviation Specific Models	
Model	**Battery Types**
S2	Standard Aviation (Concorde, Gill, etc.)
S3	AMG "Pure Lead" Aviation Batteries (Gill 7000 Series, Odyssey, Hawker, etc.)

BATTERYMINDER® INTERNATIONAL "E" SERIES 12V AND 24V BATTERY CHARGERS

Plug 'n Run - No buttons to push! 220-240 Volt versions of the 12-V and 24-V are available. Specific to sealed or wet aircraft batteries only. CE Approved, with easily replaceable cord set to match country of use. Designed in concert with Concorde, Gill and Odyssey. One-year 100% money back guarantee, five-year "no hassle" warranty.

BATTERYMINDER® NON-AVIATION MODELS

For your car, truck, boat, motorcycle, motorhome golf car, farm equipment, ATV, an more!

5- STAGE CONSTANT CURRENT-VOLTAGE CHARGER / MAINTAINER / DESULFATOR - Microprocessor controlled. For all sealed, AGM, Gell and flooded (wet cell) lead-acid batteries including Optima, Odyssey and Interstate AGMs. Actively monitors your battery's voltage, amperage acceptance and temperature at all times, these chargers work through a series of charging and diagnostics stages. When used as a maintainer, it is guaranteed to maximize your battery's life and storage capacity. The temperature compensated long-term float (maintenance) stage can add years of service, and patented full-time high frequency sweep pulse desulfation is designed to reverse and eliminate battery sulfation, the #1 cause of early battery failure. Not for Aviation. One-year 100% money back guarantee, five-year "no hassle" warranty. **Qualifies for FREE DMM - See details on this page.**

BatteryMINDer 24041 (24V)..... P/N 11-02007 ..... **$145.95**

POWER SUPPLY / CHARGER / MAINTAINER / DESULFATOR - For all 24V sealed, AGM, Gell and flooded (wet cell) lead-acid batteries including Optima, Odyssey and Interstate AGMs. Also for two 12 Volt seriesconnected. Actively monitors your battery's voltage, amperage acceptance and temperature at all times. When used as a maintainer, it is guaranteed to maximize your battery's life and storage capacity. The temperature compensated long-term float (maintenance) stage can add years of service, and patented high frequency sweep pulse desulfation is designed to reverse and eliminate battery sulfation, the #1 cause of early battery failure. Supplies up to 25 amps of power from 100-240 VAC. Dedicated desulfation, optional equalization and the long-term float (maintenance) mode help recover lost capacity. LCD panel shows battery voltage, amperage, temperature, time and amphour acceptance. Not for Aviation. One-year 100% money back guarantee, five-year "no hassle" warranty. **Qualifies for FREE DMM - See details on this page.**

BatteryMINDer 28252..... P/N 11-09897 ..... **$879.00**

12 VOLT 1.33 AMP CHARGER-MAINTAINER-CONDITIONER (DESULFATOR) - A 3-mode maintenance charger -desulfator that extends performance and life of all types and sizes of 12 Volt lead acid batteries. It automatically dissolves harmful power-robbing sulfation using safe, low voltage, patented, high-frequency pulse technology3. Included Accessories: Battery Clip Cord Set with Qwik Connect, Ring Terminal Cord Set with Qwik Connect

BatteryMINDer 12117..... P/N 11-11671 ..... **$49.50**

BATTERY AND ALTERNATOR CONDITION TESTER - Instant and accurate battery condition status: indicates if battery is "healthy" or in need of charging or replacement. Determines whether battery or alternator is at fault. Non-Aviation / Not for Aircraft..... P/N 11-04302 ..... **$16.75**

BATTERYMINDER® U.S. SERIES 12V AND 24V BATTERY CHARGERS

Plug 'n Run - No buttons to push! Precision-set for Standard Aviation Batteries and using an array of microprocessor controlled sensors. Actively monitor your battery's voltage, amperage acceptance and temperature at all times. When used as a maintainer, it is guaranteed to maximize your battery's life and storage capacity. The temperature compensated long-term float (maintenance) stage can add years of service, and patented full-time high frequency sweep pulse desulfation is designed to reverse and eliminate battery sulfation, the #1 cause of early battery failure. One-year 100% money back guarantee, five-year "no hassle" warranty. **Qualifies for FREE DMM - See details on this page.**

BATTERYMINDER® POWER SUPPLY / CHARGER / MAINTAINER / DESULFATOR

Supplies up to 25 amps of ground power from 100-240 VAC, as far as 300 feet (91.44 meters) from the source. Approved by the major aircraft battery manufacturers in the U.S., it safely charges all 24 Volt sealed, AGM, Gell and flooded (wet cell) lead-acid batteries including Optima, Odyssey and Interstate AGMs. Also for two 12 Volt series-connected. Dedicated desulfation, optional equalization and long-term float (maintenance) mode help recover lost capacity enabling many marginal batteries to pass FAA airworthiness test. Power supply mode enables use of glass panel displays and other avionic electronics without draining your battery. LCD panel shows battery voltage, amperage, temperature, time and amp-hour acceptance. One-year 100% money back guarantee, fiveyear "no hassle" warranty. **Qualifies for FREE DMM - See details on this page.**

AVTEK PRODUCTS — BATTERY CHARGERS

AVTEK STANDBY ELECTRICAL SYSTEM

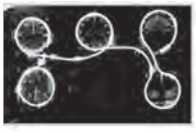
AvTek uses rechargeable, dependable, deep discharge batteries as the power source in its Standby Electrical System. They are sealed and maintenance free. These are deep-discharge batteries, not like your 'WET-Acid' cold-cranking car battery, and unlike Nicads, there will never be a memory problem with lead acid. All the potential stored energy will be available to your dead panel. Power is delivered through the cigarette lighter. No power wil be discharged through the cigarette lighter greater than what it takes to heat up the lighter element in the first place. AvTek's design is much more than a battery in a black box. AvTek uses a circuit board to control the power to the buss. This Smart board monitors the amperage demand at an efficient, reliable rate to insure a safe IFR descent. PCB gives you protection while delivering reliable, dependable source of power for 60 mins. or longer to your IFR panel.

28V system ..... P/N 11-01262.....**$695.00**

AVTEK 1ST ALERT ELECTRICAL FAILURE SYSTEM

An early warning detection system that is simple, flawless, & reliable. Detects alternator failure, broken/slipping belts, leaky diodes, regulator failure or if you forgot to turn OFF the master switch after tie down. Uses a reliable MicroCircuit and will never need repair. Has a pulsing red panel mounted LED that is larger and 15 times brighter than normal LEDs and will alert you at the first sign of trouble. Weighs only 1.5 oz. and installs quickly. The LED begins to pulse every time you first turn on the master switch and hit the starter key/button and will go out as the Alternator/Generator comes on so you know everything is alright before you depart. First Alert is now armed & ready to detect any in-flight electrical problems. Size: 3.25" length x 2" width x 1.25" height. Indicate your aircraft voltage when ordering. P/N 11-01259 .....**$159.00**

AVTEK TEKLITEZ



Flexible thin clear Fiber, that is energized by the inverter designed by AvTek. The fiber needs 66Vac at a specific frequency which when energized develops this Cool-Blue-Neon, that is embedded in the substrate. The gas is NOT free flowing. Use your imagination and Light YOUR panel the way you want. Unlike other panel lighting that comes ONLY in round screw-on "White Light Filaments". Each five foot TekLitez Fiber is "Snap" connected at the inverter…you can purchase one or more or add more in the future. 9 v Battery or you can connect to your buss, and use your own dimmer. TekLitez allows you to illuminate Square instruments. Use under the panel for better chart reading. Snap to install. The small thin E.L.F. is Super-Glued into place. The inverters is 2" cube, which goes anywhere behind the panel. Sold in 5 foot lengths per kit which will illuminate approx 5 or 6 large round instruments (includes inverter). Life expectancy is over 80,000 hours.

TekLitez Sold ONLY at Aircraft Spruce. Has No FAA-PMA intended for Experimental Aircraft. Consult your I/A or FSDO before installing. 9 Volt Battery, No alteration. Owner Install. Can be wired into panel dimmer switch. P/N 11-07169..... **$115.95**

AVTEK BONDING AND GROUND KIT

Do your Panel Instruments Bounce and become erratic? Does your Starter turn your Engine SLOWLY and you have a new fully charged battery? Do you see an ugly corroded Battery Post soon after you clean the Post? These are symptoms of BAD Ground/Bonds. When the Resistive Corrosion is developed at the Starter the result is slow turning during starts. Mechanics miss-diagnosing the problem and a NEW Starter is purchased needlessly. Kit includes: * FAA-APPROVAL * Three (3) Jumper One for the panel, starter and your battery...and Aluminum Fasteners * DVD step by step how to Power-Point Presentation * Sealant . P/N 11-07359 .....**$125.50**

LONESTAR POWER ADAPTOR AND USB KIT

This is a kit that comes with a FAA-TSO Approved Cigarette lighter power adapter and plug-in USB 5V converter. Just Plug in your USB socket into your Cigarette Lighter Power Adapter and get 5 volt USB power out. Lone Star Aviation's FAA-TSO approved "Power Adapter" is an exciting new product that will aid pilots, crew and passengers with a new power option to operate or charge many consumer devices. Examples include: Charging Cell-SAT Phones, iPad, iPhone, iPods, MP3 Players, Bose, Zulu Headsets.

P/N 11-09492 .....**$129.50**

PORTABLE STARTING SYSTEMS

KWIKSTART MODEL 6255 - Exclusive Heavy-Duty Sealed Lead Acid/AGM Battery. Built-in Charger recharges unit with AC cord (included). Instantly Jump-Starts WITHOUT the need for another vehicle. 12 Volt DC Accessory Outlet to Power and/or recharge DC Electronics. 1700 Peak Amps. LED Battery Status Indicator. 32" Heavy-Duty Cables for True Portability and Technician Ease of Use. Unit includes DC to DC cigarette lighter cord Patented. Weight: 22 LBS

P/N 11-08698 .....**$179.00**

MODEL 6275 KWIKSTART - Two 12 Volt 22 AH Heavy-Duty Sealed Lead Acid/AGM Battery provides "Best in Class" Performance. "Smart" 1000 mA Internal Charger with Built-In Overcharge Protection - Prolongs battery life. Up to 100 Hours of Portable 12 Volt DC. Two Position "ON/OFF" Switch with Easy-to-Read LED Battery Status Indicator. 12 Volt DC Accessory Outlet to Power and/or Recharge DC Electronics. Heavy Duty Clamps with 2AWG 66" Long Cables. Use Any Standard Extension Cord to Charge. Unit includes DC to DC cigarette lighter cord. P/N 11-08699 .....**$343.95**

MODEL 6295 KWIKSTART - Two 12 Volt 22 AH Heavy-Duty Sealed Lead Acid/AGM Battery provides "Best in Class" Performance. Jump start 24 volt systems with over 700 CCA of power. "Smart" 1000 mA Internal Charger with Built-In Overcharge Protection - Prolongs battery life. Up to 100 Hours of Portable 12 Volt DC. Three Position "24V/OFF/12V" Switch with Easy-to-Read LED Battery Status Indicator. 12 Volt DC Accessory Outlet to Power and/or Recharge DC Electronics. Heavy Duty Clamps with 2AWG 66" Long Cables. Use Any Standard Extension Cord to Charge. Unit includes DC to DC cigarette lighter cord

BATTERY TENDER CHARGER

BATTERY TENDER PLUS - 6V @ 1.25A 12V @ 1.25A. The Battery Tender Plus is a 1.25 amp battery charger designed to fully charge a battery and maintain it at proper storage voltage without the damaging effects caused by trickle chargers. Included is a quick connect harness for hard to reach areas. ****DO NOT USE P/N 11-03015 WITH GILL OR CONCORDE AVIATION BATTERIES.***

Voltage	Amps	Description	Part No.	Price
6Volt	1.25A	Battery Tender Charger	11-04085	**$42.85**
12Volt	1.25A	Battery Tender Charger	11-03157	**$43.75**

POWER TENDER PLUS - 12V @ 5A 24V @ 2.5A WATERPROOF, Shock & Vibration Resistant, Lightweight (LESS THAN 4 POUNDS), compact charger designed for either portable operation or permanent mounting. Charges and maintains both flooded and sealed, maintenance free, AGM, lead acid batteries. Float / Maintenance function maintains batteries at proper storage voltage without the damaging effects caused by trickled chargers. The Power Tender PLUS is easy to use, it's rugged, its compact, it's packed with power, and it's backed by the reputation of the undisputed battery charger industry leader, DELTRAN. Note: Part does not come the Alligator clips. PN 11-06403. Note: Not for use with Gill or Concorde Aviation Batteries.

CHARGERS - APU'S

OPTIMATE DIAGNOSTIC DESULFATING CHARGERS AND TESTERS

OptiMate 5

OPTIMATE 5 can SAVE a neglected / sulfated* leadacid battery unable to accept charge from the engine charging system (even after jump starting). The multi step charging system is suitable for any type of 12V lead-acid battery. During the 24/7 auto storage control the battery is tested every hour and recharged as necessary. The universal input system accepts AC power between 100 to 240VAC (incl. generator / inverter). Hook it up anywhere in the world, walk away, OptiMate5 does the rest, automatically, safely. Recommended for all lead-acid batteries from 7.5Ah – 120Ah. P/N 11-07220..... **$69.85**

OptiMate 6 ampmatic

OPTIMATE 6 can SAVE a neglected / sulfated* leadacid battery unable to accept charge from the engine charging system (even after jump starting). The micro processor controlled multi step charging system with cell equalizing is suitable for deep cycle and starter (SLI) batteries and the ampmatic auto current control takes the guesswork out of charge current selection. During the continuous maintenance and testing cycle the battery is tested daily and recharged as necessary. Hook it up, walk away, OptiMate6 does the rest, automatically, safely. Recommended for all lead-acid batteries from 15Ah – 240Ah.
P/N 11-07221..... **$107.90**

OptiMate PRO S

OPTIMATE PRO-S has a charging system able to save a neglected *sulfated battery that cannot accept charge from a standard charger or the engine charging system. Battery power is optimized during bulk, absorption & cell balancing charge modes, and then tested to verify charge retention. Battery life is extended if left connected to OptiMate PRO-S when vehicle/craft/equipment is not in use. Initializes, desulfates & charges 1 x 12V battery at a time – from small to large.
P/N 11-07222..... **$166.50**

OptiMate PRO-2

OPTIMATE PRO-2 OptiMate PRO-2 initializes, desulfates & charges 2 x 12V batteries at a time or a 24V system, made up of 2 x 12V batteries. The OptiMate Pro-2 has two independent charging systems able to save a neglected *sulfated battery that cannot accept charge from a standard charger or the engine charging system. Battery power is optimized during bulk, absorption & cell balancing charge modes, and then tested to verify charge retention. Battery life is extended if left connected to OptiMate PRO2 when vehicle/craft/equipment is not in use. Note: This charger cannot be used on a 24V battery. A battery discharged over time that has built up chemical resistance to charging, but otherwise undamaged and measuring at least 2V. PN 11-07223..... **$236.95**

****A battery discharged over time that has built up chemical resistance to charging, but otherwise undamaged and measuring at least 2V.***

AUXILIARY POWER UNIT (APU) & BATTERY CHARGER

Designed to supply filtered DC bus power through standard APU receptacle in private and commercial aircraft. Up to 25 or 50 amp is available for operating avionics and flight control systems when the master switch is activated. It can also charge the battery through the plug at a 10 amp rate. Output is current limited, and will withstand starting loads. Voltage is limited to prevent battery overcharging. DC Current and voltage are displayed on panel meters, voltage accurate to 00.00 ***NOTE: Available with piper plug too.***

Model	P/N	DC Amps	DC Volts	AC Power	Dimensions H.W.D.	Wt.	Price
Piper Plug APU14v/25A	11-07068	25	14	117 volts 60hz. 3 amps	8.5x10x12	22	**$645.00**
Piper Plug APU28v/25A	11-07067	25	28	117 volts 60hz. 6 amps	8.5x10x12	33	**$696.00**
Cessna Plug APU28V/25A	11-08146	25	28	117 volts 60hz. 6 amps	8.5x10x12	33	**$696.00**

AIRCRAFT APU & CHARGER

25 amps of auxiliary power to prevent battery drain while checking aircraft controls and avionics. Battery status is monitored by a digital volt meter accurate to 00.00, and a Tri-color LED. If left connected, will charge and fully maintain battery. Available with plug as shown, or Piper plug. Plugs into standard 117v 60 Hz. receptacle. Max current draw, 6 amps on 24 volt model (APU24v/25A), 3 amps on 12 volt model, (APU12v/25A). Warranty: (3) years.

SOLAR PULSE

Specifications	SolarPuse 2W	SolarPuse 5W
Pulse Frequency:	22-28 kHz	22-28 kHz
Max Charging DC Voltage:	16.5 V, 250 mA	16.5 V, 350 mA
Reverse Polarity Protected:	Yes	Yes
Circuit Box Dimensions:	3.25" x 2.25" x 1.5"	3.25" x 2.25" x 1.5"
Solar Panel Dimensions:	4.75" x 8.56" x .125"	8.875" x 8.75" x 0.125"
Box to Lugs Wire Length:	3 feet	3 feet
Box to Panel Wire Length:	17 feet	17 feet
Termination:	.375" Lugs	0.375" Lugs
Weight:	1.35 lb.	1.65 lb.

* Unique solar charger provides clean, quiet energy
* Cleans battery plates of large, damaging lead-sulfates so batteries can accept, store and release MAXIMUM power when you need it
* Helps offset energy-robbing key-off parasitic loads (see chart below)
* Works with all lead-acid batteries (flooded cell, AGM and gel)
* Ideal for virtually any kind of vehicle and equipment in areas with out access to electrical power
* Low-profile industrial-strength solar panel mounts flat (no frame required) so it's virtually indestructible
* Prevents the normal loss of battery power on vehicles stored out side no matter how long they sit unused — even months at a time
* Helps extend battery life up to 3X longer
* Choose from three models: 2-Watt, 5-Watt and 6-Watt
* The 5-Watt solar panel is almost HALF THE SIZE of other 5-watt panels yet offers full 5-watt power
* The smaller 5-watt panel provides more installation options
* The 6-watt model is ideal for emergency rescue and law enforcement vehicles because it has a unique rectangular solar panel designed to easily mount on any light bar
* 2- and 5-Watt models include 17-feet of wire between circuit box and solar panel, and the 6-Watt includes 14 feet of wire
* Five-year limited warranty

2WATT .....P/N 11-07120 ..... **$89.95**
5WATT.....P/N 11-07121 ..... **$159.95**

REDIPULSE PRO-12 CHARGE/MAINTENANCE SYSTEM

The PulseTech Pro-12 Charge/Maintenance System. It is designed to keep new batteries "factory-fresh" while they rest on the shelf waiting to be installed or sold. Batteries that sit idle suffer from damaging sulfation buildup (lead sulfate deposits on the battery plates). This buildup is the main cause of battery problems and failure. The Pro-12 uses our scientifically-proven ReNew-IT Pulse Technology to keep these deposits off the plates. By removing these energy-dampening deposits, your batteries are stronger than ever. This means your "shelf-life" warranty issues and other battery-related expenses are reduced dramatically. P/N 11-07122.....**$174.95**

EL

RED BOX START POWER RB25A POWER UNITS

The Red Box hand portable packs are some of the most powerful Hand Portable Packs available worldwide. Red Box uses the latest in military aerospace technology to achieve a very high power to weight ratio. These power packs are designed for starting of piston, turboprop or turbine aircraft and helicopters in the field or in remote locations and Red Box units may be carried safely on board all aircraft. The power packs are "all weather" units and being modular, can be used in single or dual format. They can be used or stored in any orientation, even inverted. Cells used are cleared as non-hazardous cargo for carriage in the aircraft. They are able to operate in extremes of temperature and have excellent standby characteristics. They are maintenance free and do not require cycling. They can be re-celled "on condition" at any Red Box service center in the world and are designed to give years of repeated service. In addition to aviation, these highly portable units can be used with Armored Fighting vehicles and Military equipment. They can be recharged from the automatic charging system, which is supplied in the package, or from any vehicle using a suitable interface.

Model	Description	Part No.	Price

RED BOX CONTINUOUS POWER UNITS

Compact, lightweight and highly portable power units. Red Box systems may be carried safely on board all aircraft.

They are designed to give continuous high quality DC power for crew training, aircraft servicing in the workshop, on the ramp or in the field. This continuous power supply is ideal for diagnostic work, pre-flight checks or for continuous powering of equipment during operations, without draining the onboard aircraft batteries. There is a range of built in safety features and the units are simple to use. This switchable unit will produce a steady 14.4 or 28.8 Volts up to the fully rated output current with power factor correction. The power supplies are multi-fan cooled with built-in thermal management for operation up to 50°C ambient environments. The safety features include over current and short circuit protection. The power modules conform to EMC standards for noise emissions and immunity.

LOW BATTERY ALARMS

These are a micro processor-controlled low battery alarm. The purpose of this product is to alert you of low battery voltage. This will allow you to prevent damage to the battery. Featuring a wide range of settings, the Low Battery Alarm can be preset to meet voltage specifications. The device comes with an LED indicator for visual reading along with a buzzer to warn of low voltage. Multi-color LED configurations indicates the battery status.

Applications: Battery Backup Systems, RV house batteries, Trolling motor battery, Marine batteries, Auxiliary Power Units (APU), Travel trailers, Power gate backup battery, Generator battery, Battery backup safety equipment, Bass Boat Central Approved Manufacturer, Bass Boat Supplies and Accessories.

Low Battery Alarm XXL (6V to 36V) ..... P/N 11-10011 ..... **$57.85**

AEROVOLTZ LITHIUM BATERIES

Aerovoltz Lithium Iron Phosphate batteries are designed to replace the lead acid batteries that currently power most of the two and four cycle engines in Aviation.

Features: Up to 80% smaller than the stock battery. Up to 10 lbs. lighter than the stock battery. Designed, developed, and assembled in the USA. Completely "dry" technology so batteries can be mounted in any direction. Non-toxic and recyclable. Impact and water resistent. No special charger required

Description	Part No.	Price
Aerovoltz Lithium Battery (EVO2-4 CELL)	11-10028	**$99.00**
Aerovoltz Lithium Battery (EVO2-8 CELL)	11-10029	**$156.50**
Aerovoltz Lithium Battery (EVO2-12 CELL)	11-10030	**$179.95**
Aerovoltz Lithium Battery (EVO2-16 CELL)	11-10031	**$269.00**
Aerovoltz Battert Management System Balance Charger (120 volt)	11-10032	**$78.85**

AEROVOLTZ BATTERY CHARGER

The Aerovoltz battery charger system is the only charger on the market designed specifically to work with the Aerovoltz EVO2 battery. The balance mode balances the voltage of each cell or cell pack while charging. The primary advantage of the balance charger is the balance charging funciton.

Features: Plugs directly into the batteries BMS port. Able to balance charge all the cells individually for max power and durability. Can double the expected life of the EVO2 battery. Has Charge, Fast Charge, Balance Charge, and Storage Charge Functions. Specifications: 14.5-16V Balance Charger Kit-120 V. P/N 11-10032 ..... **$78.85**

ZAMP KICKER SOLAR BATTERY MAINTAINERS

The Zamp Kicker Battery Maintainer is designed to fully charge and maintain a battery at proper voltages without the damaging effects caused by unattended bench top and trickle chargers. The Zamp Kicker correctly charges any type of lead-acid, gel and AGM battery. Zamp Kicker Battery Maintainer available in 10 watt or 20 watt.

Includes: Solar panel mounts, hardware, connectors, wire, and charge controller and 6 amp waterproof controller.

Watts	Amps	Dimensions	Part No.	Price
10	6	11"w x 13"l x 1"h	11-10027	**$169.00**
20	6	16.4:w x 17.5"w x 1"h	11-10026	**$243.00**
40	6	Dim. closed: 16"w x 17"L x 3"h Dim. open: 32"w x 17"L x 1.5"h	11-10025	**$338.00**

SUNLINQ SOLAR PANELS

The ***6.5-watt*** portable solar pack module offers a unique solution for reliable and portable solar power for cell phones, PDA's, and other small personal electronics. The SUNLINQ™ 6.5-watt weighs less than half of a pound and when folded is compact, lightweight and easily stored and transported. The low maintenance design provides an optimal electrical path and rugged durability. Built-in grommets allow for hanging, mounting or laying in any position.

The ***12-watt*** portable solar pack module offers a unique solution for reliable and portable solar power for Sat phones, GPS, battery charging, etc. The SUNLINQ™ 12 watt weighs less than one pound and when folded is compact, lightweight and easily stored and transported. The low maintenance design provides an optimal electrical path and rugged durability. Built-in grommets allow for hanging, mounting or laying in any position.

The ***25-watt*** portable solar pack module offers a unique solution for reliable and portable solar power for vehicle battery charging, including boats and RVs and laptop computers. The SUNLINQ™ 25 watt weighs less than two pounds and when folded is compact, lightweight and easily stored and transported. The 25-watt SUNLINQ™ is made from a special urethane material giving it the utmost in durability and water resistance. The low maintenance design provides an optimal electrical path and rugged durability. Built-in grommets allow for hanging, mounting or laying in any position.

Cables included with SUNLINQ™ are one each, CLA receptacle, CLA vehicle power outlet, battery clamps, 4 in. barrel connector, and 8 ft. extension cable.

Description	Part No.	Price
SUNLINQ 6.5 WATT Module	11-06192	**$93.50**
SUNLINQ 12 WATT Module	11-06193	**$189.95**
SUNLINQ 25 WATT Module	11-06194	**$386.95**

EL

START PAC® STARTERS - POWER SUPPLIES

START PAC® PORTABLE STARTING UNITS

The new patent pending Start Pac QC models have separate removable batteries that can be changed in 15 seconds. This feature allows the user to change the batteries in the field without needing to send the Start Pac back to the shop or manufacturer. Batteries have no memory effect and can be recharged at anytime. Made in the USA. Certain aircraft will allow the ship's generator to back charge a GPU. In this manner, Start Pacs can be recharged in the field without an AC source indefinitely.
NOTE: When storing the Start Pac for more than 30 days, remove the battery pack from the charging unit and store separately.

MODEL 1324-1 QC - * 13 AMP hours @ 10 Amp Hour Rate * 1300 AMPS Peak Current complete with built in charger, power plug and cables. * 15.5"x4"x11.75" * 35 LBS. Complete * Units are 24 VDC output with a universal charger that will accept 90-240 VAC 50/60 hertz. Will start turbine or piston engines up to 500 horse power. Has a 4.5 amp charger and will provide a charge time of approx. 4 hours. Will give two to three starts between charges. This portable unit is mainly designed for emergency starting in remote locations. This unit is not designed for repeated daily starts or maintenance functions.

1324-1 QC .....P/N 11-04538 .....**$1,065.00**
1324-1 QC-RBS (Battery Set) .....P/N 11-07231 .....**$524.00**

MODEL 2300 QC - Built in chargers, power plug and cables. 24/26 VDC output, with universal chargers that will accept 90-240 VAC 50/60 hertz. * 26 AMP hours @ 10 Hour Rate * 2300 AMPS Peak Current * Trolley avail. * 19.2"x7.5"x11.5" * 69 LBS. Complete. For starting engines up to 1500 horse power and give four to six starts between charges. This unit has a dual redundant 4 amp chargers.. When plugged into an AC source, 8 amps at 28VDC, is available for maintenance functions without depleting the batteries. Recharge time is approx. 3-1/2 hours.

2300 QC .....P/N 11-06780 .....**$2,080.00**
2300QC-B (Batteries) .....P/N 11-06781 .....**$825.00**

MODEL 6028 QC - Built in chargers, power plug and cables. Units are 28.5 VDC output, with universal chargers that will accept 90-240VAC 50/60 hertz. * 26 AMP hours @ 10 Hour Rate * 2300 AMPS Peak Current * Trolley avail. * 19.2"x7.5"x11.5" * 77 LBS. Complete. Will start the largest electrically started turbine or piston engines including the Garrett TPE331. Will provide a faster and cooler start than most ship's aircraft batteries, thus increasing turbine life. Various maintenance duties can be performed with this pack that requires more than 24 volts for checkout. This unit has dual redundant chargers with a total of 7 amps output with a recharge time of approximately 4 hours.

6028 QC .....P/N 11-06783 .....**$2,685.00**
6028 QC-B (Batteries) .....P/N 11-07189 .....**$1,008.00**

MODEL LI2800 QC - A full 28VDC battery pack and will provide superior starts on all electrically-started turbine engines. It has dual, redundant chargers with a total of 7 amps output and a recharge time of approximately 4 hours. * 28 AMP hours @ 10 Hour Rate * 2400 AMPS Peak Current * L 19.2" x W 7.5" x H 9.75" * 46 LBS. Complete. Utilizes the latest technology in Lithium batteries. (can be left in a completely discharged state without causing damage)

Li2800 QC.....P/N 11-06782 .....**$3,596.00**

QUICK CHANGE TROLLEY - The Start Pac® QC trolley is a light weight accessory for either the Start Pac® Models 1324-2QC, 1628QC, 2300QC or the 6028QC

P/N 11-06775 .....**$288.95**

START PAC® POWER SUPPLIES

The entire aircraft electrical system can be powered up for GPS programming and electrical maintenance. Thus the on board aircraft battery can be saved for starting. Do not use for starting as starter motors require far more amperage than is available from the StartPac® Portable Power Supply. Not for battery charging. Made in the USA.

MODEL 53025/12VC - Do not cover or enclose this Start Pac® when using, as this will inhibit airflow needed for cooling purposes. Use a minimum of 12# wire size for the AC extension cord. 12 Volt output unit. * AC INPUT: 90 to 240 VAC, 7 amps * DC OUTPUT: 25 amps @ 14.2 Volts * 9 Lbs./4.08 kilos complete * 14" long, 5.25" wide, 5.5" high * Continuous duty fan cooled * Over current protection * Over voltage protection * Over temperature protection. Designed to power up 12 Volt aircraft systems. The voltage output is set to 14.2 Volts. Maximum amperage output is 50 amps which is adequate for most light aircraft. If overloaded, the 53025/12 will trip off and reset itself after a short period of time. This unit is ideal for powering up new and old aircraft with glass cockpits.

Standard Plug 53025 - 12V .....P/N 11-04536 .....**$518.00**
Standard Plug 53025-24V .....P/N 11-04537 .....**$518.00**
Piper Plug 53025-12V .....P/N 11-10088 .....**$518.00**

MODEL 53050 - Specifications: * No duty cycle, output voltage 28.5 VDC * AC input is universal 90-240 Volts. * Over current protection * Over voltage protection * Over temperature protection * Forced air-cooling * DIMENSIONS: Wt. 10 lbs./4.54 kilos 14" X 5.25" X 5.50". A 28.5 Volt continuous DC power supply when plugged into 110/220 Volt single phase AC power. Will deliver full 50 amp DC output continuously, but will not provide enough current for aircraft engine starting or mining equipment starting.

53050.....P/N 11-06833 .....**$979.00**

MODEL 53105 - Specifications: * Maximum continuous 105 amps +5%. No duty cycle. * AC input 190-240 Volts. * Over current protection. * Over voltage protection. * Over temperature protection. * Forced air cooling. * 8 foot power cable. * Weights 26 lbs./11.80 kilos complete with power cable. * 14.5"x7"x13.75". A 28.5 Volt continuous DC power supply when plugged into 220Volt single-phase AC power. Will deliver full 105 amp DC output, but will not provide enough current for engine starting.

53105.....P/N 11-06834 .....**$1,790.00**

START PAC® GROUND POWER UNITS

The following dimensions apply to each of the 3300s: 38"x21"x20" Handle Height 48". Avoid discharging the batteries completely as damage can result.

MODEL 3324 - Combination power supply and battery pack. Batteries: * 78 Amp Hours at 10 hour rate * 24 Volt DC - 25.5 Volts at rest Sealed cells non- hazardous Valve regulated high amperage output lead acid * 3200 Peak Amps Power supply / charger: * Multi- unit 58 Amp DC continuous output * 28 - 28.5 Volt output from 0 - 58 amp load * Battery recharge time from fully discharged - 2 hours * AC Input - 110 Volt or 220 Volts (only 1) Limitations : 200 amps maximum DC load NOTE- When using more than 58 continuous amps, the batteries will make up the difference until they become depleted. On most aircraft, a low voltage relay will drop the GPU offline when the voltage drops below a preset level. Once the GPU is dropped off, it's voltage will rise and will be accepted again by the aircraft, then will immediately drop off again. This oscillation can cause damage to aircraft components. NOTE-- PLEASE USE #12 or Larger AC EXTENSION CORD

3324.....P/N 11-07225 .....**$4,395.00**
3324-RBS (Battery Set) .P/N 11-07234 .....**$1,250.00**

START PAC® STARTERS - BYCAN POWER SYSTEMS

START PAC LI2600QC STARTER 26VDC

The all new Patent Pending Start Pac model Li2600QC utilizes the latest technology in Lithium batteries. These batteries provide the same power as the lead-acid type but are 42% lighter and 32% smaller. In addition, lithium batteries have two other major advantages: twice the battery life of lead-acid batteries and no sulphation problems (can be left in a discharged state without causing damage to the battery plates).

This compact portable Lithium Ion starting unit is a full 26VDC battery pack and will provide superior starts on small to medium size turbine engines. It has a built in charger with a total of 4.0 amps output and a recharge time of approximately 6 hours.

This unit is especially designed for aircraft that will not accept a full 28 volt battery pack (actually reads 30-31 volts). Aircraft such as the Phenom 100 and Eclipse 500 will accept this 26 volt unit (actually reads 28.5 volts).

Specifications: 23 amp hours at 10 Hour rate, 2400 AMPS Peak Current, 30 lbs. complete Dimensions: L 16" x W 3.75" x H 12" Patent pending, Not to be used as an aircraft battery charger Lithium ion batteries can be damaged by deep discharges. Do not run the batteries down below 20 volts, a spike during a start is okay. Voltages below 20 begin the damage to the batteries. At 18 volts, the batteries will be damaged beyond repair.....P/N 11-09515 .....**$2,475.00**

START PAC LI2000QC STARTER 28.5VDC

The all new Patent Pending Start Pac model Li2000QC utilizes the latest technology in Lithium batteries. These batteries provide the same power as the lead-acid type but are 42% lighter and 32% smaller. In addition, lithium batteries have two other major advantages: twice the battery life of lead-acid batteries, no sulphation problems (can be left in a discharged state without causing damage to the battery plates).

This compact portable Lithium Ion starting unit is a full 28VDC battery pack and will provide superior starts on small to medium size turbine engines. It has a built in charger with a total of 3.5 amps output and a recharge time of approximately 6 hours.

Specifications: 20 amp hours at 10 Hour rate, 2400 AMPS Peak Current, 30 lbs. complete, Dimensions: L 16" x W 3.75" x H 12", Patent pending, Not to be used as an aircraft battery charger, Lithium ion batteries can be damaged by deep discharges. Do not run the batteries down below 23 volts, a spike during a start is okay. Voltages below 23 begin the damage to the batteries. At 18 volts, the batteries will be damaged beyond repair.....P/N 11-09516 .....**$2,625.00**

START PAC LI2800QC TWIN PAC STARTER, 28.5VDC

The all new Start Pac Model Li2800 QC Twin Pac utilizes the latest technology in Lithium Batteries. These batteries provide the same power as the lead-acid type but are 42% lighter and 32% smaller. The multi-purpose Li2800QC Twin Pac can be easily broken down into 2 separate units for easy transport and shipping. In addition, lithium batteries have two other major advantages: twice the battery life of lead-acid batteries, no sulfation problems (can be left in a discharged state without causing damage).

This powerfully versatile Lithium Ion Twin Pac starting unit is a full 28VDC battery pack and will provide superior starts on all electrically-started turbine engines. It has dual, redundant chargers with a total of 7 amps output and a recharge time of approximately 4 hours.

Specifications: 56 AMP hours at 10 hour Rate, 4800 AMPS Peak Current L 19.2" x W 7.5" x H 9.75" each unit, Twin Pac trolley L 19" x W 23" x H 12" not including removable handles 109 lbs. Complete with Twin Pac Trolley, 46 lbs. complete for each unit when separated. Not to be used as an aircraft battery charger Lithium ion batteries can be damaged by deep discharges. Do not run the batteries down below 23 volts, a spike during a start is okay. Voltages below 23 begin the damage to the batteries. At 18 volts, the batteries will be damaged beyond repair.

P/N 11-09517 .....**$7,421.00**

BYCAN POWER SYSTEM PS-1450

The Bycan PS-1450 Aircraft Ramp Power Supply and Battery Charger is a dual-purpose aircraft flight line service and maintenance tool. The unit has a filtered 14 volt DC power supply with up to 50 amperes capability for tests of aircraft electrical systems and a secondary mode for recharging run-down batteries. The PS-1450 plugs directly into the aircraft APU connector and is tied to the electrical system when the master switch is activated.

The battery charging mode is selectable by a front panel switch. The charging process is fully automatic. When the charge is in progress a red LED is illuminated. This is replaced by a green LED when the aircraft battery is fully charged. The on/off switch on the unit also resets the unit. The 28 volt version, PS-2850 provides 50 amperes of filtered DC at 28 volts. Dimensions: 9" x 12" 8". Weight: 38lb.

Bycan Power Supply/Charger 14V.....P/N 11-09195 .....**$584.00**
Bycan Power Supply 14V 50Amps.....P/N 11-09196 .....**$569.00**
Bycan Power Supply 14V 50HZ.....P/N 11-09197 .....**$598.00**
Bycan Power Supply 14V Piper.....P/N 11-09198 .....**$629.00**

BYCAN POWER SYSTEM PS-2850

The PS-2850 plugs directly into the aircraft APU connector and is tied to the electrical system when the master switch is activated.

The battery charging mode is selectable by a front panel switch. The charging process is fully automatic. When the charge is in progress a red LED is illuminated. A green LED replaces this when the aircraft battery is fully charged. The on/off switch on the unit also resets the unit. The 14-volt version, PS-1450 provides 50 amperes of filtered DC at 14 volts.

P/N 11-07870 .....**$768.00**

BYCAN POWER SYSTEM PS-28100

The PS-28100 will furnish up to 100 amps at 28 VDC. It plugs into the APU connector on the engine cowling and automatically disconnects the battery so that it will not be drained by the servicing processes. A valuable ramp accessory.

100 amperes filtered 28 volt supply. Aircraft APU connectors furnished. Operates from 120/208/220/240 VAC, 60 Hz . 8 foot DC cable furnished. Ferro-resonant regulated supply . DC current limited Front panel meter, controls.

Portable, weighs only 62 lb. One year warranty

Extensive testing by FBO's. Dimensions:10" x 13" x 9". Weight: 62lb.

28V, 100AMP - Standard Plug ..... P/N 11-07822.....**$998.00**

EL

GROUND STARTING COMPONENTS

AIRCRAFT JUMPER CABLES

Cable is heavy duty, 4 ga. copper, 15 ft. long, twin extruded to help prevent tangling, and room temperature flexible at 40 degrees below zero. Fully insulated clamps wont arc or spark and are rated 500 amps, have a solid copper jaw, and have a flexispring strain relief to prevent cable breakage. Polarity light warns if clamps are connected incorrectly, preventing electrical system damage and personal injury. Available in two styles (above).

6141 - Jumper Cable with standard 3-pin Lexan female plug (equivalent to AN2551) on one end and alligator clamps on other end.
P/N 6141 ..... **$188.95**

6142 - Jumper Cable with special Piper single-pin plug on one end and alligatorclamps on other end.
P/N 6142 ..... **$219.00**

REPLACEMENT PAIR OF 500 AMP CLAMPS

Used on #6141 and #6142 jumper cables. (above)
P/N 11-06202 ..... **$37.75**

PIPER TYPE PLUG

Mates with 11041 socket. Electrical conductors and connections are designed for maximum efficiency and long life. With ground return terminal. Single pole. Brass female contact with spring-grip tension provides solid engagement with the socket. Cable clamp holds wires firmly in place. Diecast housing. Accepts up to 0AWG cable.
P/N 11-03159 ..... **$22.75**

PIPER TYPE SOCKET

Self-grounding socket. Single pole. Diecast housing, spring-loaded door. Solid brass contact, 3/8" (9.5mm) diameter, with insulated tip to prevent short circuits. Rubber boot protects terminals and connections. Accepts up to 0AWG cable. Fits 2" (50.8mm) diameter hole. Flange holes 21/64" (8.6mm) diameter, 2 15/16" (74.6mm) on centers. Mates with 11042 plug.
P/N 11-00500 ..... **$24.85**

EXTERNAL POWER RECEPTACLE

This external power receptacle is designed to mount in a hole in the skin of aircraft. Hole is then covered with hinged access door (not included). Mates with AN2551 type plugs. Model 4621B.
P/N AN2552-3A..... **$69.95**

PLUG & JUMP

The Plug & Jump is a very portable unit which can be carried in the aircraft at all times because it is so lightweight. It can be used to start the aircraft from an ordinary car using standard jumper cables. It comes in two models; The Universal Model is used for Cessna, Beechcraft, etc. (3 pin plug) and the Piper Model is a single pin. The Plug and Jump is a simple conduit of power from any external power source to the aircraft. It is not a battery in and of itself. The Plug n Jump can be used for either 28V or 14V systems.

Universal Model.....11-00971 ..... **$74.50**
Piper Model .....11-00972 ..... **$79.50**

MASTER RELAY

(Battery Solenoid) - Applicable to all homebuilts. Continuous duty. 12V and 24V. **Not for certified aircraft.** Features: * High current capacity control * Isolated or grounded coils * Enclosed in dust-resistant case * Longer steel encasement permits lower heat rise and more sensitive operation on Type 71

111-226 (12V).....P/N 11-03161 ..... **$24.75**
111-226 (24V).....P/N 11-05799 ..... **$28.75**

STARTER RELAY

(Starter Solenoid) - For 12V intermittent duty. Adequate current capacity for most engines.
P/N 11-03162 ..... **$9.85**

PORTABLE POWER SUPPLY

These portable power supplies are an excellent way to power your avionics on the ground while you train or practice in the cockpit. Especially helpful in learning how to operate glass cockpit avionics and panel mount GPS units. To use the Portable Power Supply plug the cord into an AC wall outlet, and then connect the 3-pin plug into the external power receptacle on your aircraft. Furnished with Cessna style 3-pin plug. Manufactured in U.S.A.

Features: •Charge control: constant current charge to a constant voltage then to a float standby. •Current Limiting. •Fully automatic 3 stage charger can be left on the battery in maintaining/float mode. •Can be set for any type lead acid battery, including conventional, maintenance free, deep cycle, gelled-type, valve regulated batteries. •Continuous - 100% duty cycle. •Low voltage start: will start charging a deeply discharged battery with terminal voltage less than 4 volts. •Reverse polarity and short circuit proof. •Aluminum caset. • Includes Battery Clip Adapter.

12V Port Power Supply 3 Pin Plug.....P/N 11-05084 ..... **$214.95**
12V Port Power Supply Piper.....P/N 11-05085 ..... **$194.95**
24V Port Power Supply 3 Pin Plug.....P/N 11-05086 ..... **$308.00**
24V Port Power Supply Piper.....P/N 11-05087 ..... **$238.95**

RED BARON AUXILLIARY POWER UNIT (APU)

The Bycan RB-14/28-25 Red Baron APU is designed to operate avionics equipment in private and commercial aircraft. It will output 14 or 28 volts DC at up to 25 amperes. The voltage is filtered to eliminate hum and is regulated against input AC line voltage changes. The output DC voltage and current are displayed on front panel meters. The DC is also protected by a circuit breaker. The RB-14/28-25 plugs directly into the APU receptacle on the aircraft. It comes equipped with either the standard three-prong connector or the Piper coaxial connector. Both connectors can be supplied, optionally at a slight extra cost. DC cable length is 8'.The AC line cord is normally 8' in length, but special lengths up to 50' are available. The housing is steel, powder coated in red, for optimum flight line safety. Rubber feet and handle are included.

Features: • AC Line Voltage: 115v, 60 Hz • AC Current Drain: 7 amperes Max • DC Output: 14 or 28 volts, up to 25 amperes. • Weight: 35 lbs (16 Kg) maximum • Size: 10" x 8" x 8" (25 x 20 x 20 cm) • Warranty: Two years from date of purchase • Regulation: 13.75V ± 1.5v, 27.5V ± 2.5v.

Standard Connector .....P/N 11-02142 ..... **$675.00**
Piper Connector .....P/N 11-02143 ..... **$718.00**

THE BLUE ANGEL AIRCRAFT POWER SUPPLY

The Bycan BA-14/2850 Aircraft Ramp Power Supply and Battery Charger is a multi- purpose aircraft flight line service and maintenance tool. The unit has a filtered 14 & 28 volt DC power supply with up to 50 amperes capability for tests of aircraft electrical systems and a secondary mode for recharging run-down batteries. This ramp or hangar accessory is an absolute must for avionics service, gear and flap actuator exercising and other electrical system service. The BA-14/2850 plugs directly into the aircraft APU connector and is tied to the electrical system when the master switch is activated. Selection of output voltage is by a front panel switch which is protected by a switch guard. Closing the guard forces the switch to the 14 volt position. The battery charging mode is selectable by a front panel switch. The charging process is fully automatic. When the charge is in progress a red LED is illuminated. This is replaced by a green LED when the aircraft battery is fully charged. The on/off switch on the unit also resets the unit.

Piper & Cessna Plugs 110V (2 Adapters) ..... P/N 11-06390 . **$1,495.00**
Cessna Plug 220V (1 Adapter) * For Europe .. P/N 11-06391 . **$1,595.00**
Cessna Plug 220V (1 Adapter)..... P/N 11-06392 . **$1,495.00**

AVIATION GROUND POWER UNIT 2860A

The 2860A GPU represents a dramatic departure in ground power design for aircraft owners, maintenance facilities, and aircraft manufacturers. Its lightweight, easily portable design utilizes the latest high-efficiency switching-mode power technology to provide massive amounts of stable, noise-free DC power from a standard 120-volt AC receptacle.

Features: • Output: 28 VDC, 60-amps continuous. • Stable, noise-free DC power, safe for today's advanced cockpit systems. • Digital output meters for both voltage and amperes, with overload warning. • Includes detachable output cable with AN2551 compatible connector. • Compact, lightweight design utilizes 6 highly efficient digital switching-mode power modules for greater reliability. • Built-in cable management with cord winder bumpers. Specifications: • Designed for horizontal or vertical operation • Input: 105-125 Volts AC, 50-60 Hz, up to 20 amperes •Output: 28 +/- 0.5 Volts DC, 60 amperes continuous •Weight: 23.8 lbs (10.8 kg) including output cable • Dimensions: 7.25"H x 14.6" W x 13.75"D (18.1 cm x 27.6 cm x 34.9 cm) • One Year Limited Warranty

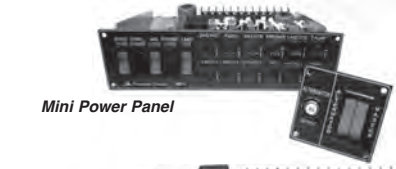
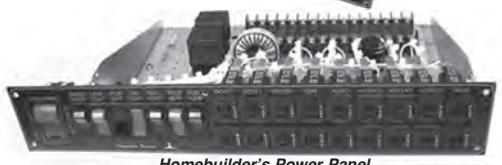
POWER PANELS

POWER PANELS FOR HOMEBUILTS



Mini Power Panel



Homebuilder's Power Panel

Based on a heavy duty printed circuit board that eliminates the bus bars an provides a user serviceable and logical arrangement of all power system components. Only DC rated switches and quality resettable thermal circuit breakers are utilized. Connections to the panels are via screw type terminal blocks. The avionics 'sub' bus is filtered. All metal parts are stamped aluminum. Lexan overlay on the faceplate. Complete documentation and suggested wiring diagrams are included. ***Standard Power Panel: 8 Switches:*** Fuel Pump, Landing Light, Strobe Lights, Navigation Lights, Panel Power, Pitot Heat, Radio Master, and a Cessna type split master switch for master solenoid and alternator field control. ***18 Circuit Breakers:*** Fuel Pump, Landing Light, Strobes, Nav Lights, Panel Power, Pitot, Alternator Field, Gyros, Gauges, Trim, and Spare, (on Radio Bus) Radio1, Radio 2, GPS, Transponder, Audio, Avionics. ***Dims & Wt:*** 2.25"H x 13.00"W x 7.50"D, approximately 3.0 lbs. ***Mini Power Panel: 6 Switches:*** (main panel) Fuel Pump, Landing Light, Strobe Lights, Navigation Lights, Panel Power, (side panel) has a Cessna type split master switch for master solenoid and alternator field control. ***13 Circuit Breakers:*** Fuel Pump, Landing Light, Strobes, Nav Lights, Panel Power, Engine Instruments, & Spare, (on Radio Bus) Radio1, Radio 2, GPS, Transponder, Avionics, (side panel) 30 amp alternator output breaker. ***Dims & Wt:*** (main panel) 2.375"H x 8.375"W x 6.50"D, (side panel) 2.375"h x 2.5"w x 2.0"d, approximately 2.5 lbs.

LIGHT SPORT POWER PANEL

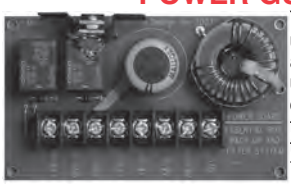
The Light Sport Power Panel was designed for LSA and light aircraft applications. It offers a new degree of flexibility in modern "Glass Panel" equipped aircraft. The electrical power bus is split into three segments including the Main Bus, Radio Bus and the Essential bus. The Radio Bus is switched and filtered. The Essential Bus can wire direct to the Main Bus or easily connected to a back up system such as the Composite Design Power Guard to allow dependable, constant power to critical flight and engine instruments. As with all Composite Design power systems, this panel is rugged, serviceable and dependable.

Specifications:

- 6 Switches: Fuel Pump, Landing Lite, Nav Lite, Strobes, Radio Bus Master, and Cessna type split master for Master Solenoid and Alternator Field.
- 14 Circuit Breakers: Main Bus - Fuel Pump, Landing Lite, Nav Lite, Strobes, Panel Power, Accessories
- Radio Bus (Filtered) Radio 1, Radio 2, Transponder, GPS, Audio Panel
- Essential Bus EFIS#1, EFIS#2, Flight Instruments, Engine Data
- Dimensions & Weight: 2.375"H x 10.5"W x 6.5"D, approx 2.25 pounds.

28V ..... P/N 11-09207 ..... **$598.00**
14V ..... P/N 11-09206 ..... **$589.00**

POWER GUARD MODULE



The Power Guard Module manages up to 10 Amps of secondary power for aircraft accessories that require back-up power. Typical accessories include electronic ignition, electronic engine/flight instrumentation and EFIS systems. The module works with a small 7-10 A secondary battery. The on board circuitry includes a secondary battery master relay, primary power controls, filter and charging circuit. Dims: 4.75"L x 2.75"W x 1.2"H..... P/N 11-02044 ..... **$135.95**

VERTICAL POWER VP-X

The VP-X integrates with many popular EFIS products enabling you to monitor and control your entire electrical system on the EFIS display. In addition using the EFIS for attitude, navigation, and engine information, you now can use the EFIS display to monitor the health of your electrical system, view and control the status of individual circuits, and respond to circuit faults.

Vertical Power offers these capabilities through the use of a patented electronic circuit breaker (ECB) technology that is at the core of all of our products. Of course, ECBs provide circuit protection like old-fashion thermal circuit breakers, but ECBs do a lot more than just detect circuit faults. ECBs are intelligent, configurable, and offer capabilities not otherwise available with old-style breakers. For example, ECBs can detect a burned-out landing light or disable the starter circuit while the engine is running.

The VP-X supports a single bus electrical architecture with a single or dual alternator configuration. It additionally supports the ability to measure the voltage on an aux battery. There are enough circuits to wire a typical RV (including the RV-10), Glastar, Lancair Legacy, Velocity, Cozy, or other 2 to 4 place aircraft.

Specifications:

- Power: 4-32 volts DC, 60A max continuous
- Weight: 1.9 lbs
- Mounting: Includes mounting bracket which attaches on side of VP-X. User can fabricate own mounting bracket as well.
- Connectors: Three power connectors, Ethernet for configuration, and two 25-pin d-sub connectors
- Operating Temperature: -25 to +85 deg C

Certification: The VP-X is for use only with experimental and light sport aircraft.

Note: Either a wiring harness kit or connector-only kit is required with the VP-X system.

RADIO STACK POWER PANEL

The Radio Stack Power Panel is designed to fit neatly in the 6.25" radio stack format. It is well suited for LSA and light aircraft applications, offering a new degree of flexibility in modern "Glass Panel" equipped aircraft. The power bus is split into three segments including the Main Bus, Radio Bus and the Essential Bus. The Radio Bus is switched and filtered. The Essential Bus can be wired directly to the Main Bus or easily connected to a back up system such as the Composite Design Power Guard. This allows dependable, constant power to critical flight and engine instruments. As with all Composite Design power systems, this panel is rugged, serviceable, and dependable. P/N 11-10081 ..... **$650.00**

SOLID STATE AVIONICS ELECTRONIC SWITCH

This Avionics Switch is a solid-state SMT device designed to replace the conventional mechanical relays earlier used. The switch incorporates MOSFET (Metal Oxide Silicon Field Effect Transistor) transistors for switching the high current with no moving parts and no any electrical arc to prevent fuel fumes ignition. The Avionics Switch requires only one toggle switch of any quality and any type to control the power for up to 7A each, different electronic / avionic equipment The Avionics Switch is enclosed in an aluminum enclosure for EMI/RFI protection and for easy installation onto the aircraft.

POWER SUPPLIES – VOLTAGE CONVERTERS

RC ALLEN ESP

Abattery-based emergency power unit designed to give you at least an hour of auxiliary power when you need it the most. Paired with the new RCA 2600 Digital Horizon, the ESP can provide up to 6 hours of backup power. Can be easily mounted behind the instrument panel and can power your new R.C. Allen instrument, or retrofit your existing Attitude gyro in an emergency. Comes complete with a wire harness and panel-mounted status light. Recharges itself during flight and does not drain the aircraft battery when aircraft power is off. The ESP utilizes a long lasting lithium polymer battery.

TRUE BLUE POWER® MD835 EMERGENCY POWER SUPPLY

In the event of aircraft power failure, the MD835 automatically supplies 24.5 VDC power for critical or standby equipment. 4.5 Amp-hour battery with friendly Lithium Nanophosphate™ cell chemistry Lightweight 4.8 lbs. – 8 lbs. less than legacy lead acid designs. Input Voltage: 24–32 VDC. 5V module connector available. Direct replacement for PS-835/PS-855 or forward-fit installations. Minimal scheduled maintenance required: 2-year capacity check, 10-year replacement life. Dimensions (approx.): 3.1"H x 12.6"L x 2.3"W Mounts in standard ¼ ATR Rack. Maintains full charge by recharging during normal flight operations. Remote mounted self-test switch required. FAA TSO C179 certified. Part 23 AML STC pending. Qualified to RTCA/DO-160F and RTCA/DO-311. Designed and built in the USA. One year limited warranty.

TRUE BLUE POWER® MD50 STATIC INVERTER

DC-to-AC static inverter produces 115 volts at 60 Hz for 500 watts of "wall outlet" power from an aircraft's 28 VDC input. Smaller and lighter than traditional inverters, the MD50 has the same connector and footprint of legacy designs, plus overload and short-circuit protection up to 150 percent of the rated load. Supplies power for various cabin accessories, such as laptops, cell phones and iPods, Compact design. Remote On/Off feature, 500VA rated output power, 85-90% efficiency, Input voltage: 20-36 VDC, Input current: 20A at 28 VDC input, Output voltage: 115 VAC, Frequency: 60 Hz ± 1%, Single phase, true sine wave output, Overload and short-circuit protection up to 150% of rated load, Rated from -65 F°to +160°F (-55°C to +71°C), FAA TSO-C73 certified and RTCA DO-160F qualified, Designed and built in the USA., USA, Two year limited warranty

P/N 11-09613 ..... **$2,773.00**

TRUE BLUE POWER® DC/AC INVERTER

This classic DC to AC solid- state "peanut" inverter provides a reliable source of 26 volt, 400 Hz, AC power. Versatile, compact and lightweight, it is ideal for use with Stormscope bootstrap and multifunction display installations. Specifications: * Input: 28VDC @ 0.75 amp. (MD26-28) * 14VDC @ .150 amp. (MD26-14). * Output: 26 VAC,400 Hz, Single Phase, 10 volt-amperes

MD26-28V Inverter ..... P/N11-07062 ..... **$458.00**

MID-CONTINENT INSTRUMENTS MD420-1 EMERGENCY POWER SUPPLY

Simultaneously provides one primary power output and three lighting power outputs. Pitot/Static ports or optional electrical input provides ability to work in automatic mode without pilot intervention. Arms at beginning of flight. Activates instantly upon power loss. Recharges during flight. Turns off after flight. Utilizes sealed lead-acid cells for reliability and cold weather performance. Lighting outputs can power LED or incandescent lighting at 5, 14 or 28 VDC. Remote, mini-annunciation switch (with automatic dimming) controls test and manual operations. Quality Mil-Spec connectors included. Field replaceable battery module(s). Amp-hours of power at 18V: 2.5 Ah. Total system weight: 5.0 lbs. Designed and built in the USA. One year limited warranty. P/N 10-04770 ..... **$2,298.00**

SS-6 CHARGE CONTROLLER

Morningstar's superior series switching provides many advantages compared to shunt controllers. Series regulation reduces FET heating and lowers voltage stress on the power FET's. A series configuration also improves protection against lightning surges and reduces switching noise. The series design improves charging accuracy. In PWM, series switching becomes self-correcting for temperature and system voltage drops.

P/N 11-04618 ..... **$70.50**

LONESTAR FILTER 70 AMP

Lone Star Aviation's 70 amp filter attenuates EMI-RFI noise generated from alternator, generator systems, gear motors, blowers for a/c systems and other higher current noise sources. The 70 amp filter also can be used to filter the aircraft's avionics buss to filter RF, NAV, GPS, as well as other navigational equipment. The filter is FAA- PMA for certificated aircraft as well as for experimental aircraft. P/N 11-04849 ..... **$219.75**

LONESTAR FILTER 100 AMP

Lone Star Aviation's 100 amp filter (FEED THRU) (Fail Safe Design) attenuates both low and high frequency, (10hz to 30 mhz) of EMI-RFI noise generated from the aircraft's alternator systems to the aircraft's dc buss. This filter, (100 amp Fail Safe design) is used by OEM aircraft manufacturers to attenuate 100% of the on board noise before it penetrates the aircraft's dc buss. The filter is FAA- PMA pending for certificated aircraft but can be used on experimental aircraft. P/N 11-04850 ..... **$349.95**

LONESTAR THE ELIMINATOR

The Eliminator is a low pass double (LC) PI type filter designed to suppress both low and high frequency line noise. The filter may be connected at the source of the noise or on the input of the effected component.

P/N 11-08055 ..... **$148.95**

LONESTAR USB POWER CONVERTOR PLUG

The Lone Star Aviation USB 2 Amp Power Converter Plug (LS03-05021) is the updated model of the LS03-05020. It's the same small size but with even more power for onboard charging of iPads, iPhone, iPods, cell phones and most things that use USB power to charge. This model is recommended for iPad owners as it has enough power to charge during heavy use.

P/N 11-10454 ..... **$49.95**

LONESTAR 2 AMP POWER ADAPTER & USB KIT FOR IPAD

Power Adapter USB Socket. Just plug the USB socket into your Cigarette Lighter Power Adapter and get 5 volt USB power out. Perfect for charging cell phones, iPads, iPods, GPS, PDA, Laptop and many consumer electronic devices. This is a kit that comes with a FAA-TSO Approved Cigarette lighter power adapter and plug-in USB 5V converter.

12V AIRCRAFT: If your aircraft runs on 12V you will not need any extra equipment to operate 12V equipment with your Power Adpater, and it comes with a rubber cap marked as DC12V.

28V AIRCRAFT: Please note, the USB Plug is able to convert 28V input into 5V USB output without additional equipment. However, In order to power most 12 volt consumer electronic devices you will need a Converter to get 12V output. P/N 11-10394 ..... **$149.95**

LONESTAR GROUND LOOP FILTER

Designed to ELIMINATE onboard ground loop noise problems in an easy to use module. Plugs in between your portable device and your aircrafts audio system. Was designed with a low frequency isolation audio transformers that isolates normal audio from unbalanced AC noise interference. Incorporates RCA, 2.5mm and 3.5mm connectors that ensures compatibility with numerous consumer devices currently used in modern aircraft. Easy Plug and Play Installation, Approval Types: Form 337, Portable Device 1 year Limited Warranty Ultra small footprint Custom configurations Portable device

P/N 11-09493 ..... **$89.95**

LONE STAR VOLTAGE CONVERTERS

Lone Star Aviation's new 12V STEP-UP Converter is the smallest (3" x5" x 2"), most efficient (93-95%) and the most versatile STEP-UP aircraft converter in our industry today. RTCA/DO 160D tested to operate 28V NAC/COM radio equipment such as KX 155, KX 165, KY 196A, KY 196B, and Motorola VHF transceivers on 12V aircraft. Additional 28V electronic devices are HSI, cameras, audio panels, battery backup systems, etc. FAA Approved Under TSO-C71 Now Approved LS03-05002B-MS Features: * Ultra-Small size 2.5" x 4.5" x 2.0" * 93-95% Efficiency rating * Light Weight 275 grams / 0.606 lbs * Optional Connector: MS 3102 Receptacle * Potentiometer for output adjustments * Universal Mounting * LED Status Indicators * Operating Temp: -55C to +70C * Circuit Protection: OV, UV, SC, SP, RP, OC * Regulation Load: +/- .5% * Ripple Input/Output: 20-25mVp-p * Transient response time .5 ms * Easy Installation * FAA TSO-C71 Approved (Pending)

VOLTAGE CONVERTERS - POWER PANELS

AMERI-KING AK550 POWER BOOSTER

The Ameri-King AK-550 is a FAA TSO'd approved Regulated DC to DC Power Booster Converter. It transforms an unregulated input from a 12 Vdc to a regulated +28 Vdc output to a bootstrap mode. It may be installed in a pressurized area, controlled or non-controlled temperature at altitudes up to 55,000 feet. It's locations include Electrical/ Avionic equipment rack, behind or beneath aircraft panel, or cabin pressure bulkhead. Installation is extremely simple. All necessary Accessories are provided, including mating MS connector plug and MS cable clamp.

DELUXE COCKPIT VOLTAGE CONVERTER

11-04330

DC-DC Converter, Device to reduce voltage from 28V to 12V. Allowing the user to operate 12V items in a 28/24V airplane. The device is fully electronic, no passive elements generating heat. It is fully protected and fused. A green LED indicates normal and abnormal conditions (overload). The unit is enclosed in a small precision machined aluminum box with integrated heatsink. Input is via a fused lighter plug and output is via a female light receptacle. Size: 1.3"x 1.3"x 2.3"; Weight: approx. 5.0 oz. .....3 AMP.28-12V DC-DC Converter ..... P/N 11-04330 ..... **$41.50**

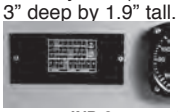
INVERTER – A device to produce Alternating Current out of a Direct Current Source. This device will generate 110V AC from a 28/24V DC Source (load limit is 150W continuous, 200W peak). Plug it in to your airplane lighter receptacle and have a household 110V AC outlet. This device is fuse and electronically protected against overload, over temperature, over and under voltage. Dims: 1.77"x 2.87"x 6.06"; Wt: 12.77 oz. 110I 28-110V Inverter ..... P/N 11-00402 ..... **$86.75**

EXP BUS PRODUCTS

EXP TRAY EX-110- he EXP BUS mounting tray is the ultimate in quick build time savings. The tray comes Pre-punched, and pre-assembled with rocker switches prewired to the PC board. All the builder needs to do is to cut a single rectangular hole in the panel, connect the battery, alternator, and all of the load wires to the proper terminals on the EXP BUS2 PC board mounted in the chassis. 14V DC systems (not recommended for 28V aircraft). Replaces all but one circuit breaker in most homebuilt aircraft, and includes the master switch, master relay, and the avionics master switch. The avionics output bus provides six protected circuits, and automatically shuts off when the starter is engaged. Three master bus outputs operate items such as panel lights, gyros and engine instruments. Switched outputs include the alternator field, Beacon/ Strobe output, nav light output, aux fuel pump output, two landing light outputs, and two spares. All outputs are overload protected, eliminating the need for fuses or circuit breakers, and saving the labor of installing and wiring them up. P/N 11-00430 ..... **$418.00**

EXP-2V
P/N 11-00431

EXP 2V - he Expbus II is a lifesaver when wiring up your homebuilt project. The EXPBUS II is a complete electrical system on a special high current, printed circuit board. 14V DC systems (not recommended for 28V aircraft) For a small additional charge, we can configure your board with any size (1 to 11 amps) breakers in any position. Size: 7.8" long by 3" deep by 1.9" tall. Weight 0.8 lbs. P/N 11-00431 ..... **$299.00**



IND-2
P/N 11-00432

IND 2 - Annunciators for each solid state breaker on the EXP BUS * Over and undervoltage warning lights * Ammeter display * Instrument light dimmer circuit * Single ribbon cable installation to EXP Bus The Indicator module is an accessory for the EXP BUS DC LOAD CENTER. This optional accessory provides several enhancements to the basic load center, all mounted in a small panel mount module, 4.6 inches long, and 2 inches wide. The module extends 2 inches in depth, behind the panel. The module provides an annunciator output for each fused output on the LOAD CENTER, which illuminates if the circuit is tripped. It also provides OVER and UNDER VOLTAGE annunciators, an AMP-METER indicator, and a light dimmer circuit for the instrument lights.
P/N 11-00432 ..... **$134.95**

BRKT 2 - Mounting brackets to simplify mounting the PC board in the aircraft. Put things where you want them to be. Free Shipping on this item.
P/N 11-00433 ..... **$21.95**

EXP 110 Tray unlit x/ Battery Back up . P/N 11-08430 ..... **$469.95**

HIGH/LOW VOLTAGE WARNING INDICATOR

An instrument panel mounted warning light which provides an indication of abnormal buss voltage. A flashing light indicates a buss voltage greater than 15.5VDC. A steady light indicates a buss voltage below 12.5 volts DC. The weight of the device is 4.5 oz. and operating voltage is 9 to 20 volts DC. Operating current exclusive of lamp load is 0.1 amps. Lamp load: .02 amps maximum.
P/N 07-06830..... **$89.75**

KEY WEST REGULATOR

Advanced regulator/rectifier circuit provides steady 13.8 volt output regardless of load. Maximum output 220 watts, 16 amps. 10v signal pulse output for digital or MaxPac® tachs. Accepts AC input from 15 to 100 volts. Can be used with AC strobe. **Features**: * Extremely clean filtered DC output * Electronics designed to deliver 16 amps producing 220 watts * Efficiency: No "consumer" or "dummy" load required for proper operation * A beautiful and rugged lightweight package weighs just 16 ounces and is 3.5 x 2.5 x 1 inch * Protection from the environment: complete epoxy encapsulation to insure all-season operation * Ease of installation: crimp type ring terminals and wiring schematics provided with every unit
P/N 11-03168 ..... **$57.75**

SMOOTHIE BRICKWALL NOISE FILTER

• Powers radios, intercoms, music players, and all digital gear • Eliminates all the electrical noise from your system • Provides fully-regulated power at your choice of voltage (adjustable) • Protects gear from all forms of power spikes, noise and over-voltage • Prevents in-flight problems including flaky operation and failures • Replaces most outboard power adaptors from other manufacturers • May be used in multi-unit installations

Specs:• Voltage out - 9.6-15.3V (adjustable, regulated within 1%) • Voltage in - 12-16V • Current out - 1.0A continuous, 3.0A intermittent • Size - 3.6 x 2.6 x 1.1 inches • Weight - 4.4 oz

****Note: Smoothie is a sophisticated noise filter and secondary voltage regulator - it does not replace the primary regulator used to power mechanical systems and charge the aircraft battery.***
P/N 11-05792 ..... **$148.50**

POWER BUSS 2075

The Power Buss 2075 is an electronic device designed to control and monitor the electrical circuits in an aircraft. The device employs solid state PTC current limiting fuse devices that automatically remove power from a circuit if it becomes overloaded. Just like conventional circuit breakers, a tripped circuit can be reset by turning off the device for a few seconds, then turning it back on. If a circuit trips due to overload, the pilot will instantly hear a distinctive voice message in his headset, and through the built in speaker. The voice warning will continue until the pilot pushes the panel mounted switch, with built in light, stopping the voice and turning on the built in red light. This provides a visual indication of the tripped circuit. The red light remains illuminated as long as the fault exists. The pilot can check the system at any time by pushing the switch. This performs a self test of the system. If any circuits have tripped, the pilot will hear the voice messages indicating what circuit has tripped. If no circuits are tripped, the pilot will hear the voice message "TEST OK". Connections to the power buss are made by using quick connect terminals. The power buss can be mounted anywhere behind the panel. the combination switch/light should be mounted in the panel, within the pilots normal scan. A separate buss is provided for the avionics. The avionics buss can be turned off whenever the engine starter is engaged. A separate master switch mounted close to the battery is required, as well as circuit breakers for the generator and devices drawing more than 11 amps. Not all circuits need to be used. The Power Buss is designed for 12volt systems only. Maximum current on the board is 30 amps. Maximum current on any one circuit is 11 amps. The audio output is designed to connect to an unswitched input in an audio panel or a radio. Note: This system is not FAA approved. It is intended for installation in Experimental category aircraft only.

The Power Buss is available in three versions:

2075-1A: Designed specifically for use on amphibian aircrafts.
P/N 10-03716.....**$450.95**

2075-1L: Designed specifically for use in both fixed and retractable gear land aircrafts that are powered by Rotax engines. It incorporates PTC fuses and voice messages for the most common circuits used in these aircrafts. P/N 11-10503.....**$515.00**

2075-1C: Designed specifically for use in both fixed and retractable gear land aircrafts that are powered by either Lycoming or Continental aircraft engines. It incorporates PTC fuses and voice messages for the most common circuits used in these aircrafts.
P/N 11-10504.....**$515.00**

ELECTRONIC FLAP ACTUATOR / INDICATOR

The Electronic Flap Actuator (2071/2072) is an electronic module designed to automatically control an electrical flap actuator and provide visual readout of 3 or 4 flap positions. The device can be used with any electrical actuator providing the operating current is less than 8 amps at 12 volts. A 5K or 10K resistive sensor is required to provide a voltage readout of the actuator position. The control unit incorporates pushbutton switches with built in LED lights. The system can be easily calibrated to your flap system. Once calibrated, pushing any of the switches will activate the actuator and drive the flaps to the correct pre-defined position. When the flaps are at the correct position, the actuator will stop, and the LED in the correct switch will illuminate indicating that the flaps are in the correct position. Note: This system is not FAA approved. It is intended for installation in Experimental category aircraft only. The Electronic Flap Actuator is available with 3 flap position switches (full up, takeoff position, and full down) or 4 flap position switches (full up, 20 degrees, 40 degrees, and full down).

ROTAX ELECTRICAL LOW VOLTAGE CUTOUT

LVC 2088 should be used with every Rotax Model 914 aircraft engine to help insure that electrical power is available to power the engine fuel pump under all conditions. Isolates the internal engine alternator from the aircraft electrical system if a low voltage condition develops in the electrical system. This helps insure that the fuel pump continues to operate. The Rotax Model 914 aircraft engine requires an electrically powered fuel pump for operation. The 2088 LVC satisfies the 2 independent power source requirements for the fuel pumps shown in the Rotax Model 914 installation manual. If a low voltage condition develops in the electrical system for any reason, the LVC instantly and automatically disconnects the output of the internal alternator from the electrical buss to assure power is available for the fuel pump. If the low voltage condition is corrected, the LVC will automatically reconnect the alternator. 2088 LVC is enclosed in a water resistant metal box. It should be mounted close to the engine using the tabs on the box.. The unit provides a convenient location for attaching the required 22000uf capacitor, the wiring to the regulator "C" terminal and one of the electrical fuel pumps. The fuel pump wiring is internally fused, so no external fuse is required. An output for an optional warning light is provided. P/N 11-10501 .....**$194.95**

RELAY DECK

Two axis relay deck to be used for both elevator and aileron servos. P/N 11-10512 .....**$79.00**

VOLT™ 12V USB CHARGER/ ADAPTOR

The Volt™ USB adaptor conveniently charges USB electronics through your car's 12-volt outlet ("cigarette lighter"). Features include a red LED charge indicator on charger top and spring loaded tip. Spring loaded tip fits most outlets.

Note: Colors are assorted. Color possibilities include Orange, Black, Fuscia, Green, Red, Blue, Red, or White.

Specifications: Power conversion: 12V Automobile Charger to USB. 5.0v output. Size: 2.2" x 1". Weight: .6 oz. CE certified
P/N 11-10518 .....**$8.95**

JOLT™/ VOLT™ USB COMBO PACK

The Jolt™ / Volt™ USB Combo pack includes the Jolt™ Rechargeable USB Mini Light and the Volt™ 12V USB Charger/Adaptor.

Jolt™ USB Mini Light: Recharges in any USB output device such as PCs or USB Car adaptors. Glows red when charging. Glows green when fully charged. Rubberized, soft grip case. Steady on and flashing modes. Color: Black

Volt™ 12V USB Charger/Adaptor: 5.0v output. Red LED charge indicator on charger top Conveniently charges USB electronics through your car's 12-volt outlet (cigarette lighter). Spring loaded tip fits most outlets. Size HxD: 2.2"x 1". Weighs just .6 oz.. CE certified. Color: Black.
P/N 11-10517 .....**$17.95**

TOSTEN STICK GRIPS

Wired with 22 gauge wiring. 7/16 stainless steel shaft with custom machine bushings to fit any diameter shaft. Comfortable grip. Made with lightweight glass-filled Wellman nylon. Rotates easily to any position. Made in the USA. For use in Experimental Aircraft Only.

Model	Functions	Part No..	Price

STICK GRIPS

INFINITY MILITARY STICK GRIPS

P/N 11-00031

Infinity Aerospace designed these grips with safety, comfort, functionality, durability and aesthetics in mind. The ergonomic design is contoured to the shape of your fingers and includes a fatigue reducing hand rest at the base. The non-glare matte black finish is abrasion and impact resistant for long life, yet easily removable, maintainable & repairable. Matching customized right & left hand models available. All the major cockpit functions can be at your finger tips. Thousands have already been installed in over 50 models of aircraft. Features: • 6" long • fits stick OD's from 5/8" to 1-1/4" • Includes 3 ft of shielded cable w/17 conductors. Color coded pre-wiring & installation schematic • Made from lightweight high impact, durable high temp. tolerant flame retardant & flash resistant injected ABS material • Wt: 12 oz. • Easy removal for maintenance, customizing or repair.

TEAK WOOD CUSTOM PISTOL GRIPS

Teak wood is beautiful and absorbs sweat, preventing any sticky slime build-up. The grips come in standard, master and ultra styles in left & right hand. The standard grip comes with a push button on top with special dust-proof cover. Normally used for a push-to-talk button, open switch and good for 250,000 cycles min. The master grip has a larger head to accommodate a 4-way trim switch & push-to-talk button. The trim switch is the same one used with the M.A.C. systems. The ultra grip has a larger surface to accommodate the 4-way trim and autopilot and/or air brake with the push-to-talk located near the tip of the index finger. The ultra can handle a total of four switches, when using the air brake, in its head. Configurations can also be custom designed. All grips come with buttons and 3/4" or 1" standard bore. Larger bores available.

RUBBER STICK GRIPS

Rubberized urethane with granular like non-slip surface.

G101 *G205* *G207* *G301*

RAC STICK GRIPS

Ray Allen Company G1 and G2 series stick grips use modern, flush fitting push-button switches to control one or two axis electric trim. When one grip is used, these switches can be wired directly to RAC trim servos. This eliminates the need to wire relays in your trim system. However, if two grips are used, you will need either relays or a switch to transfer the control of trims from one grip to the other. The grip itself is made of semi-soft UV and oil resistant foam. The upper switch housing is made of nylon with a lightly textured finish.

The ***G101*** grip (4.75" height) features a momentary contact switch on top that can be used as a PTT button. (Old MAC Model G1)
P/N 11-09930 ..... **$36.95**

The ***G205*** grip (5.25" height) has 5 functions which include a PTT and a 4 SPDT,momentary contact switches. These switches are rated at 5 amps and can be used for other purposes. (Old MAC Model G5)
P/N 11-09920 ..... **$109.85**

The ***G207*** grip (5.4"height) has to additional momentary contact push-button switches mounted on top that can be used for controlling functions on avionics, auto-pilot, etc. (Old MAC Model G7)
P/N 11-09925 ..... **$148.95**

The **G301** stick grip feature four individual SPDT momentary contact switches to control one or two axis electric trim. The switches are triggered via a traditonal 4-way "hat" type activator. 6.5" (165 mm) tall.
P/N 11-08644 ..... **$64.50**

The ***G303*** stick grip has two trim switches, a faceplate slotted vertically for 1-axis trim and a PTT switch. P/N 11-02538 ..... **$114.50**

The **G305** stick grip has 4 trim switches, a faceplate slotted vertically and horizontall for 2-axis trim and PTT switch. P/N 11-02539 ..... **$139.75**

The ***G307*** stick grip has 4 trim switches, a faceplate slotted vertically and horizontall for 2-axis trim and PTT switch. P/N 11-02540 ..... **$157.75**

Ray Allen stick grips are designed to fit any stick size up to 1" in diameter with the use of spacers. Two nylon spacer are included with each grip enabling easy installation on 3/4", 7/8" and 1" sticks. All Ray Allen grips come as a complete kit and include pre-cut and stripped, Teflon insulated wire. A die-cut label sheet is also supplied in the ***G205*** and ***G207*** grips

#2 *#4*

FLIGHT GRIPS

The control stick grips from Flight Grip are modular in design to allow maximum flexibility when specifying switches to control the various electrical items on your aircraft and for ease of installation and assembly. Two "off-the-shelf" configurations are listed below. The Model #2 grip provides for control of two functions using the rocker trigger switch. The trigger switch features momentary contact either side of center, with spring return to center OFF action. The Model #4 grip is the same as the Model #2, but adds two push-button switches for thumb activation in the top cap of the grip. The switch mounted closest to the thumb rest is a latching type (push on – push off), and the remaining switch is a momentary type. Left hand grips are available with all the same switch options. Grips are designed to fit 1-1/8" OD control sticks and adapter bushings are available to adapt to 1", 7/8" and ¾" OD control sticks.

#2 (Right Hand-2 Functions) ..... P/N 11-02000 ..... **$126.95**

RAC TRIM SYSTEMS

RAC ELECTRIC TRIM SERVOS

Ray Allen trim systems were designed specifically for experimental aircraft. Ray Allen servos are small enough to fit in individual control surfaces or can be used with lighweight springs acting directly on the control system. Ray Allen trim systems also come with RS2 rocker switches and RP3 LED indicators. All Ray Allen indicators operate off of feedback sensors located inside the servo. These feedback sensors are purposefully isolated from the power supply to the servo motor to guard against possible electronic failure. Ray Allen trim systems also come with a RC8-7 clevis/pushrod kit. Ray Allen has three different T2 and T3 servos available: • T2-7A Trim System has .7" (17mm) travel • T2-10A Trim System has 1.0" (26mm) travel • T3-12A Trim System has 1.2" (31 mm) travel

In addition, we also have available the T4-5 Trim System which has .5 inch (13mm) travel. This servo does not have a compatible indicator.

RAC SWITCHES

RS2 ROCKER SWITCH - Very positive snap action in 2 directions and returns to a center off position. It was designed specifically for Ray Allen trim systems. It is wired to connect both power leads to ground when the rocker is released. This eliminates motor coasting & allows very precise trimming. The RS2 switch is rated at 1amp. The faceplate measures 1.75" (44mm) x 1.0" (25mm) x 1.47" (37mm) deep. Included with trim systems or can be purchase separately. P/N 11-02035 ..... **$27.95**

ROS-4 FOUR-WAY SWITCH - This compact multi-action switch can be installed inside your control stick grip to activate both elevator and aileron trims. ROS-4 has a SPST action so it must be used in conjunction with a relay deck to operate Ray Allen servos. Rated at 1 amp. P/N 11-02075 ..... **$79.50**

RANS ELEVATOR TRIM SYSTEM

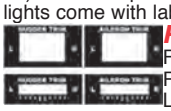
Rans Elevator Trim System features a trim tab actuated by a push-pull wire. By turning the trim wheel, the wire moves the trim tab. The system has the look and feel of a standard aircraft trim wheel. The trim tab is constructed of sheet aluminum and can be adapted to the trailing edge of many homebuilts and ultralights. The trim tab is sized for both low & high speed aircraft and since it is mechanical, requires no battery or power source other than the pilot's hands.

Trim Sys. less Tab (no panel or flap lever mount) .. P/N 11-09955 ... **$249.95**
Trim Sys. with Lower Panel ..... P/N 11-09960 ... **$293.95**
Trim Sys. Flap Mount ..... P/N 11-09965 ... **$282.95**
Trim Sys. without Wheel ..... P/N 11-09970 ... **$102.95**

RAC INDICATORS/SENSORS/ACCESSORIES

RP3 LED POSITION INDICATOR – This LED meter is designed to be installed in the cockpit and give an indication of the servo output shaft position. The ten LEDs are the brightest available for superior visibility in sunlight, but can be dimmed for night flight. It can be installed horizontally or vertically. 3 wires as small as 28 gage connect the indicator directly to a Ray Allen servo (or a position sensor). The face plate measures 1.75" x 0.75"x 1.1"deep. The RP3 is the standard position indicator included in R.A. trim systems. Labels are not included. See labels below. P/N 11-02020 ..... **$96.75**

GWL-1 GEAR WARNING LIGHTS – This 6 light indicator is designed to be installed in the cockpit and give an indication of the landing gear position. The lights are high intensity LEDs and are inset to probide maximum visibility in bright sunny conditions. The top lights are yellow and the bottom are green. Six 26-gage wires connect the lights directly to the gear safe/unsafe switches (not included). The faceplate measures 1.35"x 1.75" x 1.5"deep. Gear warning lights come with labels pre-installed. P/N 11-01575 ..... **$105.95**



POSITION INDICATOR/ROCKER SWITCH LABELS - Finish off your panel with these high quality labels. Rocker switches and needle indicators require a LARGE label, LED indicators use a SMALL label. Elev 1 shows trim down at top of label.

Rudder - Large	P/N 11-01819	**$0.55**
Rudder - Small	P/N 11-01820	**$0.55**
Aileron - Large	P/N 11-01816	**$0.55**
Aileron - Small	P/N 11-01815	**$0.65**
Elev 1 - Large	P/N 11-01822	**$0.55**
Elev 1 - Small	P/N 11-01821	**$0.55**
Wing Flap - Large	P/N 11-01818	**$0.55**
Wing Flap - Small	P/N 11-01817	**$0.55**
Cowl Flap - Large	P/N 11-01576	**$0.55**
Cowl Flap - Small	P/N 11-01814	**$0.55**

POS-12 POSITION SENSOR – When combined with a Ray Allen indicator, this sensor can be used to measure the position of wing flaps, cowl flaps, or many other mechanisms.Small enough to be installed anywhere, size: 2.7"l x 0.8"w x 0.5"h. (note: T2 & T3 servos have their own built-in sensors) 1.2" travel. P/N 11-01321 ..... **$36.50**

POS-5 POSITION SENSOR - Same as POS-12 Sensor. Measuring only 2.7"(69 mm) x .5"(13 mm) x .8"(20 mm) , it's small enough to be installed almost anywhere. 5"(13 mm) travel. P/N 11-08092 ..... **$37.90**

REL-2 SERVO RELAY DECK – This device converts the momentary contact action of the ROS-4 4-way switch, or any SPST pushbutton switch, into a DPDT action that is necessary to operate Ray Allen servos. You will need one of these relay decks for each servo in your installation. Measures 1.6" (40 mm) x 1.8" (49 mm) x 1.1" (28 mm).
P/N 11-05312 ..... **$47.60**

SPD-1 SERVO SPEED CONTROL – Enables you to slow the speed of your trim servo to suit your individual installation. Size: 2"x 0.5"x 0.8". P/N 11-02078 ..... **$48.85**

REG-1 12V REGULATOR – Enable you to operate servos and indicators in aircraft having 28V electrical systems. Converts all input voltages up to 35V to 12V. Capable of supplying 1 amp of current allowing you to operate 2 trim systems simultaneously. Size: 2"x 0.5"x 0.8". P/N 11-02036 ..... **$48.25**

RAY ALLEN BEZEL ONLY WITH HARDWARE- -They make an excellent addition to any instrument panel. The bezel was designed to integrate a professional appearing label near the switch.The bezel measures 1.25" (32 mm) x 1.35" (34 mm).
P/N 11-08642 ..... **$11.95**

RC8-7 CLEVIS/PUSHROD KIT – RC8-7 Clevis/Pushrod Kit - 11-02040. Contains two 8/32 threaded clevis forks, one 7" stainless steel pushrod and clevis pin hardware. NOTE: This clevis and pushrod kit is not compatible with Ray Allen POS series position sensors.

RC8-7 Kit	P/N 11-02040	**$27.95**
T4 Pushrod Kit	P/N 11-02042	**$15.35**

10/32 THREADS CLEVIS WITH HARDWARE - Contains 10/32 threaded clevis forks, stainless steel pushrod and clevis pin hardware. Included with Ray Allen trim systems, or can be purchased separately. Note: This clevis and pushrod kit is not compatible with Ray Allen POS series position sensors. P/N 11-08643 ..... **$12.90**

WC2 5-WIRE TEFLON® INSTALLATION CABLE – This durable, flexible wire cable is highly recommended for Ray Allen installations. 5 separate color coded, 26-gage, 19-strand, silver-plated, FEP Teflon® insulated wires inside a tough, all Teflon® sheathing.

20 ft. roll	P/N 11-01577	**$27.75**
25 ft. roll	P/N 11-01578	**$34.50**
50 ft. roll	P/N 11-01579	**$68.35**

EL

RAC BEZEL SWITCHES

RAC - RBS SERIES BEZEL SWITCHES

An excellent addition to any instrument panel. The bezel measures 1.25"w x 1.35"h. A die-cut label sheet is purchased separately. The switches are SPST. They have screw terminals and are rated at 15 amps. Specify Toggle (RBS-T11) or Pushbutton (RBS-P11) when ordering. The Ray Allen Gear Bezel Switch (RBS-GS) is the same custom bezel as above combined with SPDT retract gear toggle switch. The switch is rated at 15 amps and has a pull to unlock feature preventing accidental engagement. The Gear Bezel Switch comes with the labels pre-installed.

RAC Part No.	Description	Part No.	Price
RBS-T11	Bezel Switch - Toggle	11-01364	**$19.90**
RBS-P11	Bezel Switch - Push Button	11-01365	**$19.90**
RBS-GS	Bezel Gear Switch	11-01366	**$73.50**
RBS-L1	Bezel Switch label sheet	11-01367	**$4.95**

SINGLE AXIS TRIM RELAY BOARD

These Trim Relay Boards allow control of an aircraft's trim motors from the typical switches found in most stick grips. As the switches in the grips are too small to handle the motor loads and usually do not have the required number of poles, the 'TRB' offers a simple, elegant solution that is easy to wire and understand. The boards have a per axis rating of 10A at 12 volts, (24V units are also available). 4.00"L x 2.50"W x 1.00"H. P/N 11-09849 ..... **$49.95**

3 AXIS TRIM RELAY BOARD

3 Axis trim relay and buffer board has been designed to allow easy control of trim motors from small grip mounted or remote switches. Three Axis control is possible with each of the circuits being configured in a double throw format. "Off" circuit conditions apply ground to both motor wires providing an effective braking actions. Board will work with single or winding DC motors. Other remote controls are possible such as auto pilot disconnect or recognition lights and more. Relays are continuous DC rated at 10 Amps. Dimensions are 5.6"L x 4"W x 1.0"H

P/N 11-02043 ..... **$134.95**

BENDIX STARTING VIBRATORS

Part Number	Description	Used with Ignition System	Price

EL

TRIM SWITCHES

TRIM SWITCH CA3112 - The CA3112 is identical to the S-Tec 3112 switch but precision machined from aircraft aluminum and will not crack or break like the OEM version.

P/N 11-07354..... **$279.50**

TRIM SWITCH CA100-1 - The CA100-1 switch is used on a certified aircraft. It uses MIL-SPEC switches (SPST) and precision machined from aircraft aluminum and will not crack or break like cheap plastic switches. It has a nice tactile click action. P/N 11-07355..... **$359.00**

GEAR WARNING LIGHTS

This 6 light indicator is designed to be installed in the cockpit and give an indication of the landing gear position. The lights are high intensity LED's and are inset to provide maximum visibility in bright sunny conditions.

The three top lights are YELLOW and the three bottom lights are GREEN. Six wires as small as 26 gage connect the lights directly to the gear safe/unsafe switches (not included).

The faceplate measures 1.35"(34 mm) X 1.75"(45 mm) and it is 1.5"(38 mm) in depth. Ray Allen gear warning lights come with label pre-installed. GWL-1 PN 11-01575

This indicator is also available with BLUE top lights for SEAPLANE useage. GWL-1B PN 11-07963

Gear Warning Lights GWL-1	11-01575	**$105.95**
Gear Warning Lights GWL-1B	11-07963	**$165.00**

TWO PLACE TRIM MIXER

The Two Place Trim Mixer is solid-state equipment designed to replace the traditional mechanical relays earlier used for two pilots to operate the aircraft's trim system while adding the advantages of logic functions found in electronic equipment.

The mixer incorporates MOSFET (Metal Oxide Silicon Field Effect Transistor) transistors for switching the high current with no moving parts and no electrical arc to prevent fuel fumes ignition.

The trim system is formed of the following elements:

A mixer unit and the following which should be provided by the user: -Two "Chinese Hat" switches on both front and rear sticks (or left and right sticks). -Two DC trim motors (such as the MAC Servo with or without connections to position indicator) -Harnesses -An SPST switch (option). P/N 11-02876 ..... **$193.00**

SMARTSTART MODULE

An electronic control module that controls the operation of the engine starter system. Improves the safety and security of push-button or key-switch starting systems by providing an interlocked and time limited operation of the engine starter. SmartStart controls standard aviation starter contactors and provides simple integration of control stick switch or panel mounted start switches. SmartStart includes inputs for interlock and arming switches and provides a 1 minute timer for activating the starter contactor and includes an armed LED that indicates when the engine may be started. Helps avoid unintentional activation of the engine starting system. Available with an optional airspeed switch that ensures in flight restarting of the engine may be accomplished at anytime without the need to press the arming button. Hidden arming switch provides improved anti-theft protection. Door/canopy interlock provides improved safety. Compatible with standard keyed mag/starter switch.

Description	Part No.	Price
Smartstart Module	11-08499	$67.50
SmartStart Module Kit - Includes: module, wiring harness, and airspeed switch	11-08502	$148.50

Smartstart Wiring Harness	11-08501	$40.50
Airspeed Switch 40 Knot for 2 speed function	11-08665	$44.10

INTELLIGENT POWER STABILIZER

Provides aircraft bus voltage surge and sag protection for the connected electrical equipment. The IPS system allows electronic equipment such as engine monitors, EFIS and GPS's to be operational before and during engine starting. Used with aircraft engine monitors it ensures the pilot can monitor critical engine operating parameters such as oil pressure during the engine starting process. Ensures the connected electronic equipment is provided with a stabilized source of power even when the aircraft battery voltage drops significantly. Additionally provides surge protection by actively clamping the regulated output voltage. Features a panel mounted low voltage warning light which may be used to provide a pilot warning when the aircraft bus voltage falls below 12 volts.

4 amp ..... P/N 11-08495 ..... **$265.50**
8 amp ..... P/N 11-08496 ..... **$328.50**

INTELLIGENT POWER STABILIZER 24 VOLTS, 5 AMP

The Intelligent Power Stabilizer, IPS, is an electronic power converter for critical electrical equipment found in general aviation aircraft. The IPS system provides aircraft bus voltage surge and sag protection for the connected electrical equipment. The IPS system will operate over an input voltage range from 10 volts to 30 volts and provides a regulated output voltage of 24 volts. The IPS system allows electronic equipment such as engine monitors, EFIS and GPS's and radios to be operational before and during engine starting. This important feature allows the pilot to load flight plan data into the aircraft GPS prior to starting the engine, thereby saving fuel and operating expense. When used with aircraft engine monitors it ensures the pilot can monitor critical engine operating parameters such as oil pressure during the engine starting process. P/N 11-09712 ..... **$292.50**

INTELLIGENT LIGHTING CONTROLLER

Designed specifically to operate the lighting circuits used in homebuilt aircraft. Provides control of up to 4 lighting circuits plus dimmable control of up to 3 channels of instrument and cabin lights. The 4 lighting circuits may be used to control landing lights, taxi lights, strobe lights and navigation lights. Each channel is independently powered and controlled. Provides a wig-wag function between two of the lighting circuits. Each dimmable channel may include incandescent or LED lighting up to 1 amp. **Specifications**: • Input Voltage: 10-30 volts DC • Output Voltage: 4- Switched circuit rated at 10 amps each, 3 - Dimmed circuits rated 1 amp each • Dimmers: True DC:DC converter with full power filtering and regulated 2-12 volt outputs • Inputs: All switch inputs are low current closures to +voltage • Wig-Wag: 150 cycles/minute between channel 1&2; 1 minute warm-up time • Wiring: Standard 15-pin D-sub connector (male on controller) for connection to switching panel. • Enclosure: Overall dimensions 4.7" x 3.7" x 1.2"; Cast aluminum • Weight: 1.0 lb P/N 11-08497 ..... **$346.50**

UNIVERSAL SWITCH-SPDT AIRSPEED KIT

Universal switch airspeed kit (USW-1) includes an ASW-1 airspeed switch and a Universal Switch-SPDT controller. This combination of components allows for the switching of electrical loads up to 10 amps and up to 30 volts based on aircraft speed. The airspeed set point is factory calibrated to 100 knots, however, it may be field adjusted to switch at any speed between 55 and140 knots. Provides both a normally open and a normally closed contact for controlling any electrical load up to 10 amps. The system works with aircraft power systems from 10-30 volts. P/N 11-08498 ..... **$85.50**

INTEGRATED BACK-UP BATTERY SYSTEM

Combines a Ni-mh battery pack, a charger and switching logic in one convenient package. An engineered solution to enable an endurance bus for critical loads found in aircraft. It simplifies the wiring and installation of a source of back-up power by integrating all of the key elements into a single enclosure. Provides back-up power to electronic loads such as EFIS, GPS, Autopilots, and engine monitor systems. Nickel metal-hydride battery pack and a matched charging system to ensure the battery is properly charged and maintained. Includes switching circuitry to provide a stable source of output power during normal and emergency operations. Provides signals to other equipment such as EFIS systems to communicate the operating state of the back-up bus as well as the state of the battery. Connects to the standard aircraft power bus and provides an output to critical equipment that requires back-up power. Additionally, the IBBS system provides surge and sag protection for connected equipment, allowing operation of critical equipment during engine starting. **Specifications**: • Input Voltage: 10-15 volts DC • Input Current: 9.75 amps max continuous • Output Voltage: 10-12 volts DC during back-up operation • Output Current: 6 amps continuous, 9 amp peak for radio transmissions • Battery:Internal sealed Ni-mh • Charger: Integral high performance fast charger • Surge Protection: 16 volt active clamp, 1500w 10/1000uS waveform • Wiring: CPC connector with Mil-spec machined connections • Enclosure: Cast aluminum,4.74" x 3.13" x 2.17" • Weight: 2.5 lbs • Temperature range: Operating -10 C° to 60 C°, charging 0 C° to 40 C°

TCW IBBS Wiring Harness with CPC Connector	11-08504	$76.50
TCW IBBS mating CPC connector for field wiring.	11-08505	$15.30
TCW IBBS Charger	11-09444	$94.50

TCW SAFETY-TRIM SERVO CONTROLLER

An electronic speed control system for standard electric trim servos found on many homebuilt aircraft. It replaces other speed controllers and relay modules with an electronic solution that resolves issues such as run-away trim and failure to operate conditions. **Features**: • Electronic servo controller with speed control run-away protection • Time limited operation prevents trim servo run-away conditions • Servo travel limited to 3 seconds per trim switch actuation • Reverse function switch allows pilot to recover from a stuck or failed trim switch • Eliminates many other components, no extra relay decks or speed controllers needed • Very simple wiring, no extra parts needed for pilot and co-pilot trim switches • Designed for standard electric trim servos, such as the Ray Allen T2 & T3 series • Short circuit proof, reverse polarity protected • 1 axis, 2 axis models available • For Experimental aircraft only NOT TSO'd • Made in USA -- patented **Specifications**: • Input voltage: 10-30 volts DC • Output voltage: User adjustable 6-12 volts DC 1 amp maximum • Inputs: Trim switch inputs, closure to ground pilot/co-pilot switches wired in parallel 2 speed switch, closure to ground • output: Time limited, controlled DC voltage to servo Time limit factory set to 3 seconds • Wiring: Standard 15-pin D-sub connector (male on controller) pre-made wiring harness with ON/OFF/Reverse switch available • Enclosure: Overall dimensions 5.7" x 2.5" x 1.5" • Weight: 6oz.

Description	Part No.	Price
Safety-Trim Single Axis Servo Controller	11-08506	$166.50
Safety-Trim Single Axis, 2 Speed Servo Controller	11-08529	$220.50
Safety-Trim Dual Axis Servo Controller	11-08530	$256.50
Safety-Trim Dual Axis, 2 Speed Servo Controller	11-08531	$310.50

Airspeed Switch 100 Knot for triggering 2 speed function	11-08534	$44.10

INTELLIGENT FLAP CONTROLLER

Designed specifically to operate DC motor actuators, particularly the Van's Aircraft series of Flap Actuators used in RV type homebuilt aircraft. Connects to the standard up-off-(down) switches commonly used to control flap operation and directly drives a Van's flap actuator. Vfe protection by sensing airspeed and preventing flap deployment above a set airspeed. Allows for Pilot and Co-pilot flap switches and resolves the possible conflicts if the switches are operated in opposite directions. Requires NO sensor and is fully compatible with Safety-Trim servo controllers. **Specifications**: • Input voltage: 10-30 volts DC, reverse polarity protected • Output voltage: Overload protected, 2 amp continuous, 5 amp peak • Inputs: Flap switch inputs are closures to ground Pilot and Co-pilot switches separately wire to IFC controller Air speed switch is a closure to ground • Output: Time limited flap up voltage limited to 15 seconds • Wiring: Standar 15-pin D-sub connector (male on controller) pre-made wiring harness available • Enclosure: Overall dimenions: 5.7" x 2.5 x 1.5" • Weight: 4oz

Description	Part No.	Price
Flap Control	11-08493	$202.50
Flap Control Harness	11-08494	$58.50
Airspeed Switch 100 Knot for triggering 2 speed function	11-08534	$44.10

IGNITION SWITCHES – E.I. COMMANDER

ACS KEYED IGNITION SWITCHES

11-03169

11-03170

MFG BY ACS PRODUCTS CO.

These fine quality switches are being used in many production aircraft such as Cessna, Schweizer, Ayers and Air Tractor. They provide "on" and "off" electrical control of both magnetos on single engine aircraft. The key-operated switches mount from rear of panel in 7/8" dia. hole. Available with or without starter position. Made in the U.S.A.

A-510-5 Without Starter Position., Supplied with switch plate and two keys. (diode not required) ..... P/N 11-03169..... **$104.95**
A-510-2 With Starter Position., Supplied with switch plate two keys. (diode included)..... P/N 11-03170..... **$124.50**

ACS IGNITION SWITCH AND LOCK SETS

MODEL NO. A-510-5K, Includes ignition switch without starter position, two aircraft locks (one door and one baggage lock)* and two keys mated to ignition switch and locks. (Diode not required)..... P/N 11-03171..... **$128.95**

MODEL NO. A-510-2K, Includes ignition switch with starter position, two aircraft locks (one door and one baggage lock)* two keys mated to ignition switch and locks . (diode included)..... P/N 11-03172..... **$148.85**
* Baggage lock may be modified to second door lock if preferred.

Part No. 11-03668

Part No. 11-03667

ACS IGNITION SWITCH PLATES

Plate without start - A-2255-A1 ..... P/N 11-03668..... **$1.75**

ACS DOOR AND BAGGAGE LOCK SETS

The door and baggage locks furnished with the ignition switches above are also available separately. Set of two locks (one door and one baggage lock) furnished with one key mated to both locks. The baggage lock may be used as second door lock if preferred. ..... P/N 11-01600 ..... **$39.50**
Universal Blank Key (uncut) for ACS door and Baggage Lock ..... P/N 11-03175 ..... **$3.95**
ACS Double Sided Blank Key uncut with black cap ..... P/N 05-03666 ..... **$5.50**

ACS LEVER TYPE IGNITION SWITCH

A-510-1 Lever Type - Twist-Knob Without Starter Position. (diode not required) .....P/N 11-03176 ..... **$127.95**

BENDIX IGNITION SWITCHES

MODEL NO. 10-357290-1, Without Starter Position. Includes two keys. Furnished with Switch Plate **$278.95**
MODEL NO. 10-357200-1, With Starter Position. Includes two keys. Furnished with Switch Plate **$333.95**
MODEL NO. 10-357210-1, With push to start feature. Includes two keys. Furnished with Switch Plate..... **$399.75**

ACS IGNITION SWITCH DEALER DISCOUNTS: 6-10 LESS 5%, 11-19 LESS 10%, 20-99 LESS 15%, 100+ LESS 20% (ASSORTED)

ACS STARTER SOLENOID DIODE ASSEMBLY

This is required for all new A-510-2 and A-510-2K ignition switches for compliance with ACS Service Bulletin SB92-01.
Diode Assembly for Starter Solenoid with one or Two Coil Contacts
P/N 16050-2 ..... **$7.80**

ACS IGNITION SWITCH SERVICE KIT

Consists of replacement internal switch contacts, lubricant, diode assembly, and terminal board as required for compliance with ACS Ignition Switch Service Bulletin SB92-01. Kit A-3650-2 contains diode assembly for starter solenoids with one or two coil contacts.
Kit No. A-3650-2..... **$16.85**

BENDIX SWITCH PLATES -

Without Starter Position..... Switch Plate No. 10-51127 ..... **$3.85**
With Starter Position..... Switch Plate No .10-126676 ..... **$4.60**

ELECTRONIC IGNITION COMMANDER

The Electronic Ignition Commander provides information and control solutions for experimental aircraft powered by Lycoming and Continental aircraft engines WHICH UTILIZE THE P-MAG ELECTRONIC IGNITION. Two different displays offered (2 1/4" Standard Instrument Display or Rectangular EFIS Display).

Features:

- Continuous verification of timing mark synchronization and a Preflight screen that reports the timing synchronization and condition of the ignition harnesses and spark plugs.
- Monitor E/P-mag operation.
- Three user definable timing map shifts in addition to the default A & B curves.
- Useful for running at high altitudes, auto fuel, or when it is desirable to use a different than standard timing curve.
- Dimmable screen for night flight.
- Sunlight readable Organic LED display with no viewing angle restrictions.
- Configurable tachometer with Hobbs meter function.
- Pilot adjustable RED line with multiple YELLOW RPM Ranges.
- Configurable LED warning light when running in YELLOW restricted ranges.
- Standard tachometer display with optional Manifold Pressure.
- Remote update capability allows you to update you EICommander from any computer.

2-1/4" Standard Instrument .....P/N 11-10041 ..... **$600.00**
Rectangular EFIS.....P/N 11-10042 ..... **$700.00**

EL

CIRCUIT BREAKERS

KLIXON 7270-5 CIRCUIT BREAKERS

Klixon 7270 series circuit breakers were designed to utilize less space behind the panel while protecting wire and cable in aircraft and ground support equipment on 120 VAC, 400 Hz or 30 VDC systems. Inherently resistant to shock and vibration, the Klixon disc element is capable of calibration within close tolerances throughout the service life of the breaker. **Features**: Trip–free operation, Snap–acting thermal element, Small size, Light weight, MIL-C-5809 qualified, High interrupting capacity, Typical use: Aircraft and ground support equipment. **Specifications**: Vibration: 10G minimum, 50–500 Hz (other vibration levels available). Mechanical Shock: 30G. Acceleration: 10G. Weight: 39 grams maximum (7270-1 and 7271-8). Interrupt Current: 4,000 amps at 30 VDC;3,500 amps at 120 VAC, 400 Hz. Endurance: 5,000 cycles: 120 VAC. 400 Hz, inductive;5,000 cycles: 120 VAC 400 Hz, resistive;5,000 cycles: 30 VDC, inductive;2,500 cycles: 30 VDC, resistive;5,000 cycles: Mechanical, no load.

Description	Current Rating	Part No.	Price

KLIXON 7274-2 CIRCUIT BREAKERS

Klixon 7274 series are small, lightweight, low amperage devices that are specifically designed to protect aircraft/aerospace cable and components in airborne vehicles and equipment. The commercial grade version is the Klixon 7277 series. The 7274 features a trip–free, indicating reset button and is available in standard ratings from ½ to 20 amps. A "wiping action" contact design assures low voltage drop, faster trip time and high reliability in low voltage applications. They are available in standard ratings from ½ to 20 amps. A water resistant panel seal designed to fit over the push button actuator is available for applications that require this type of protection. **Features:** Uses minimum space, Light weight, Trip–free, MIL-C-5809 qualified, Low amp, High vibration resistance, Typical use: Military airborne vehicle and equipment protection. **Specifications:** MS#: MS26574-1.5. Vibration: 10G minimum, 50–500 Hz (other vibration levels available). Mechanical Shock: 35G. Acceleration: 10G. Weight: 7274-2 (MS 26574): 28 grams maximum; 7274-4 (MS 26574 A): 28 grams maximum; 7274-11 (MS 22073): 33 grams maximum; 7274-69 (MS 22073V): 33 grams; 7274-70 (MS 26474L): 33 grams. Interrupt Current: 0.50–5 amps: unlimited at 28 VDC; 7.50–15 amps: 2,000 amps at 28 VDC; 0.50–1.50 amps: unlimited at 120 VAC, 400 Hz; 2–5 amps: 800 amps at 120 VAC, 400 Hz; 7.50–20 amps: 500 amps at 120 VAC, 400 Hz. Endurance: 2,500 cycles: 120 VAC, 400 Hz inductive; 5,000 cycles: 120 VAC, 400 Hz resistive; 2,500 cycles: 30 VDC inductive; 5,000 cycles: 30 VDC resistive; 10,000 cycles: Mechanical, no load

3TC7-35	35 amps	11-08381	**$46.85**

KLIXON 2TC2 CIRCUIT BREAKER

Their light weight and small size make them especially well suited for aircraft, avionics and electronic systems. The Klixon trademark has set the standard for aerospace circuit breakers and the TC series offers the endurance and reliability required by exacting military specifications. The 2TC series breaker ratings are coordinated so any rating will trip before another rating twice its capacity in the event of a fault. of up to 6,000 amps let–thru current. This results in improved overall equipment performance since only the smallest faulted circuit is interrupted, while larger circuits remain operational. Ambient compensated circuit breakers let designers specify smaller gauge wire where the circuit breaker and wiring are exposed to different ambient temperatures. They are especially suited for application where ambient temperature exceeds the 160°F (71°C) maximum of non–ambient compensated thermal circuit breakers. The TC series may be applied where operating temperatures are as high as 250°F (121°C) with no derating of the circuit breaker. This eliminates the need for cooling air and allows substantial weight, space, and cost savings. The complete line of TC series circuit breakers is trip–free. The circuit breaker cannot be maintained closed during an overload even with the actuator button held closed. For its miniature size, the 2TC series offers unusually high current interrupting capacity. Overloads can be safely interrupted without affecting calibration or operating performance in the standard 2TC series for: • Overloads up to 6,000 amps at 28 VDC • Overloads of 2,000–3,500 amps at 120 VAC, 400 Hz. **Features**: Miniature size, Light weight, Trip–free design, High vibration resistance, High interrupting capacity, Coordinated ratings, AS58091 qualified (Also: Military Approvals, FAA PMA), Typical end use: Aircraft power distribution systems **Specifications**: Vibration 10G minimum, 50–500 Hz (other vibration levels available). Mechanical Shock 50G. Acceleration 10G

Description	Current Rating	Part No.	Price

KLIXON 6752100-100 CIRCUIT BREAKERS

Klixon 6752-100 series thermal–magnetic circuit breakers are designed and manufactured to meet stringent military standards with the reliability of the 6752 design. The 6752-100 is similar to the 6752-12 in size, and includes current ratings ranging from 50 to 100 amps.

The higher interrupting capacity, vibration resistance and longer cycling life of the 6752-100 series exceed previous military standards. In addition, the 6752-100 series provide ambient compensation, fault coordination of all ratings an option for auxiliary circuits.

The 6752-100 series circuit breakers maintain their performance capabilities by means of a thermal compensator in the temperature range of -40°C to 70°C.

A deionizing grid and magnetic assist enable the 6752-100 series to successfully interrupt four fault currents of 6,000 amperes — two at sea level and two at 60,000 feet — on either a 120 VAC, 400 Hz system or a 30 VDC system.

Features: Proven reliability and performance of the 6752 series circuit breaker, Trip–free design, Circuit protection unaffected by temperature fluctuations MIL-C-5809 qualified, Ambient compensated, High vibration resistance, High interrupting capacity: 6,000 amps, Typical use: Military, **Specifications:** Vibration: 10G, 50–2,000 Hz (other vibration levels available). Mechanical Shock: 30G. Acceleration: 10G. Weight: 113.6 gram (0.25 pound) maximum. Interrupt Current: 120VAC, 400 Hz: 3,500 amps; 28 VDC: 6,000 amps. Endurance: 5,000 cycles: 120 VAC, 400 Hz inductive;5,000 cycles: 120 VAC, 400 Hz resistive; 2,500 cycles: 28 VDC, 400 Hz inductive; 5,000 cycles: 28 VDC, 400 Hz resistive; 5,000 cycles: Mechanical, no load

EL

CIRCUIT BREAKERS

KLIXON 7270 & 7271 CIRCUIT BREAKERS

The Klixon 7270/7271 series circuit breakers were designed to utilize less behind panel space while protecting wire and cable in aircraft and ground support equipment on either 120 VAC, 400 Hz or 30 VDC systems. The units are available with neck mounting (7270-1 and 7271-8) or standard cover plate (7270-7 and 7271-3). In each of these Klixon circuit breakers, the bi-metallic element assures uniform current distribution throughout its responsive area. This design reduces current density at the critical areas, resulting in an element having a much higher interrupting capability than conventional design. Inherently resistant to shock and vibration, the Klixon disc element is capable of precise calibration settings and will retain the initial calibration within close tolerances throughout the service life of the breaker. Both circuit breakers have conventional actuator action; i.e., the toggle actuator on the 7270 moves to the OFF position for trip indication and the button the 7271 pops out. A standard black button with a white collar is used.

FEATURES: • Trip-free • Snap-acting Thermal Element • Simplicity of Design • Lightweight • High Rupture Capacity - 3500 Amps, 120 VAC, 400 Hz 4000 Amps, 30 VDC • Small Size

KLIXON 7277 CIRCUIT BREAKERS

The 7277 series circuit breakers is physically and electrically identical to the 7274-2 style circuit breaker, with the exception that the 7277 series has wider calibration limits. Originally developed as an alternative to slow blow fuses, the trip free 7277 is used extensively as primary electrical circuit protection on general aviation aircraft. The wider calibration limits of the 7277 has also resulted in applications including protection for data processing and telecommunications equipment, computers, flight simulators, construction, material handling and other industrial electronic equipment.

FEATURES: The 7277 series is designed for applications that do not require the tighter performance characteristics and approvals of our military circuit breakers. • Small size • Light Weight • Inexpensive Auxiliary switch 7277-1 Only Longer Push Buttons 7277-5 Only

ELECTRICAL PLUG CONNECTORS

Make your panel a "plug and play" panel with these heavy-duty electrical connectors. The connectors are designed for either panel mount or free hanging. Connectors are available in 4, 6, 9, 12, 18, 24, and 36 pin configurations. Choose the pins and sockets based on wire size. The pins and sockets are top quality and are gold/nickel plated. The plugs are sold in pairs and include both the plug and the connector.

STATIC DISCHARGERS

ESD-1 STATIC WICK - Length: (including mounting base) 7.65 inches. (discharger element) 4.75 inches. Weight: Less than 4.5 grams. Airspeed: To 150 knots. Altitude: To 20,000 feet msl. Temperature: +85°C to -55°C, MIL-STD0202C, Method 102A, Condition D. Solvents: No physical changes after one hour immersion in aviation gasoline, jet fuel or hydraulic fluids. Equivalent to Cessna P/N C592001-0201. Note: This is Non-Certified Version. Fully Qualified to MIL-D-9129D P/N 11-10574..... **$12.95**

STATIC WICK

Comes with 2 holes to rivet to trainline edge and plain wire extension. Eligible For Installation: Beech Baron 58, Cessna 402, Eurocopter: BK117, BK117 C-2 P/N 11-04154 .... **$49.50**

NULL FIELD TRAILING DISCHARGER

For general aviation & business class aircraft. FAA/PMA, MIL-9129D. Mounting: (2) #8-32 flat head screws. Length: 10-9/32". Wt: .78 oz. P/N 11-16320..... **$69.99**

MICROPOINT TRAILING DISCHARGER

For general aviation aircraft (speeds below 300 mph). Mounting: (2) #4-40 screws, 100% countersunk. Length:8.75" Weight: 0.17 oz. P/N 11-16630..... **$54.60**

MICROPOINT TRAILING DISCHARGER (FLEXIBLE)

For general aviation & business class aircraft. FAA/PMA, MIL-9129D. Mounting: 15401, 15488, 15660-1, or 16195 screw retainer. Length: 7-5/8" Wt: 0.53 oz. P/N 11-16606.....**$54.75**

NULL FIELD TIP DISCHARGER

For general aviation & business class aircraft. FAA/PMA, MIL-9129D. Mounting: (2) #8-32 flat head screws. Length: 7-15/32". Wt: 0.53 oz. P/N 11-16325.....**$72.75**

CIRCUIT BREAKERS

TYCO CIRCUIT BREAKERS

These bi-metallic single pole breakers weigh less than 2oz. and especially suitable for homebuilt aircraft. Used as original equipment in Beech, Cessna and Piper aircraft. Max. operating voltages: 32 VDC & 250 VAC (to 400 Hz).

W23 SERIES

White band around body of reset button becomes visible if breaker trips. Has heater wire for fast tripping. 8-32 screw terminals.

W31 SERIES

These are combination single pole switches and circuit breakers. Has a plain steel toggle w/ rating inscribed on tip. 8-32 screw terminals.

W58 SERIES

Recessed reset button has red band around it for visible trip indication. 6-32 screw terminals.

FUSE HOLDERS

These fuseholders are non-indicating, plate mounted. The body is molded black phenolic. Knob grips fuse and pulls it from holder when knob is removed. Spring provides contact pressure on ends of fuse. For use with fuse size 1/4" x 1-1/4". Type HKP. P/N 11-13400 ..... **$1.87**

Nylon Twist-Lock in-line fuseholder. Supplied with 8" loop of 14-gauge wire and 1 spring to accommodate AGC fuses. Simple "twist-lock" allows easy fuse removal & replacement. P/N 11-04010 ..... **$3.35**

Bayonet knob in-line fuseholder. Supplied with 8" loop of 14-gauge wire and 1 spring to accommodate AGC fuses. Simple "twist-lock" allows easy fuse removal and replacement. P/N 11-01359 ..... **$2.75**

KLIXON 7274-11.75 CIRCUIT BREAKER

Klixon 7274 series are small, lightweight, low amperage devices that are specifically designed to protect aircraft/aerospace cable and components in airborne vehicles and equipment. The commercial grade version of this circuit breaker is the Klixon 7277 series. The 7274 features a trip–free, indicating reset button and is available in standard ratings from ½ to 20 amps. They are available in standard ratings from ½ to 20 amps.

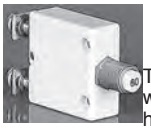
KLIXON CIRCUIT BREAKERS

Feature a bi-metallic snap-acting disc as the sensing element. Widely used in production and military aircraft. The most popular models are illustrated. Models PSM and PSM-N are available in the following ampere ratings: 2, 3, 5, 10, 15, 20, 25, 35. When ordering specify if neck-mounting style is wanted by placing "N" after ampere rating. Example: PSM-10N (P/N 11-04244) **$94.25 Ea.** For weatherproof circuit breakers in ratings from 50 to 150 amperes, order Model PDLM. Example: PDLM-50 (P/N 11-04241) .. **$136.95 ea.**



60 AMP CIRCUIT BREAKERS FOR ALTERNATORS

These heavy duty circuit breakers are ideal for use with aircraft alternators and other applications using high amperage. 10-32 screw terminals. Size: 1-3/8"d x 1-3/8"h x 1/2"w. 60 Amp P/N 11-02191 ..... **$16.00**

70 AMP CIRCUIT BREAKERS FOR ALTERNATORS

These heavy duty 70 AMP circuit breakers are ideal for use with aircraft alternators and other applications using high amperage. 10-32 screw terminals. 1 3/8" D x 1 3/8" H x 1/2" W. P/N 11-05652 ..... **$17.85**

ELECTRONIC CIRCUIT BREAKERS

These circuit breakers have no mechanical parts, except for the reset switch. The power switching and control components are completely solid state. They have added benefit of overvoltage and undervoltage protection. Will turn off if the input voltage goes too high, protecting valuable avionics or other equipment. The circuit breakers operate differently than conventional ones in the following ways: If the circuit breaker 'trips', the switch will remain in the up or on position, but a red LED will illuminate indicating the condition. To reset the circuit breaker, the switch is set to off, then back to on. Removing power from the circuit breaker via a master switch and then restoring power will perform the same function. If a short or overcurrent condition exists at the output, the circuit breaker will continue to trip off after a reset. The electronic circuit breaker is a 3-terminal device. In addition to the usual 2 terminals, a ground reference is required for the electronics to operate and as a reference for the overvoltage & undervoltage protection. The 14V circuit breakers will shutdown with an overvoltage of 16V & undervoltage of 10V. The 28V will shutdown with an overvoltage of 33V & undervoltage of 20V. Available in 14V & 28V versions, with the following current levels: 1A, 2A, 5A, 10A. Not FAA Approved. For experimental aircraft only.

EL

SWITCHES

ULTRA-MINIATURE TOGGLE SWITCHES

Ultra-miniature switches are rated at 6 amps at 125V AC and 4 amps at 28V DC. Solid silver contacts. Terminals are gold flashed to inhibit oxidation and to provide easier soldering. Case material is green diallyl phthalate resin. Bushing thread size: 1/4-40, usable in panel thickness up to 1/4". Micro Switch Co. have discontinued the manufacture of the 8A and 8H type switches, so switches by alternate manufacturers will be furnished. In most instances, Alco switches will be supplied. Switches furnished complete with locking ring and attaching hardware.

Alco Sw. Part No.	Micro Sw. Part No.	Contact	Toggle Circuit*	Price Each

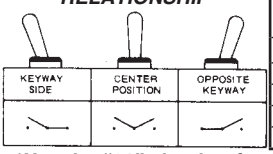
See Toggle Circuit Table

LEVER/CIRCUIT RELATIONSHIP



TOGGLE CIRCUIT TABLE

Toggle Circuit	Circuitry*		
	One Side	Center	Other Side
01	On	None	On
02	On	Off	On
04	(On)	Off	(On)
05	On	Off	(On)
06	On	None	(On)

****Use the "01" circuitry for On-Off switch. In hook-up, use center terminal & one side terminal. Leave other side terminal blank.***

The operating sequence above is repeated in multipole devices. Each pole has double-throw circuitry and consists of three terminals which exit at the bottom of the switch case. The keyway is a helpful reference when you are applying a switch with the momentary (ON) circuit at one of the extreme lever positions.

TWIN CESSNA SWITCH COVERS

Are your switch covers faded by the sun or just looking grimy? These replacement switch covers fit on nearly every typical switch in Cessna Twins. Switch cover sets are available for 300 series twins (4 red, 3 black, and 18 white switches) and 400 series twins (4 red, 3 black, & 23 white switches). Also available are sets of 30 mini-switch covers for audio panels, prop sync, fuel transfer pumps, DME, etc.

SUBMINIATURE PUSHBUTTON SWITCH

One-piece bushing and case construction, furnished with beveled nut for finished appearance. It has a relatively high current carrying capacity (3 amps at 125V AC) and a life expectancy of 10,000 operations at rated current. Momentary type SPDT switch, ideal for use as a mic switch on control wheel. Furnished with. 205" dia. black pushbutton. Body is .354" dia. x .650" long. Mounts in 1/4" dia. hole. P/N 11-03909 ..... **$13.90**

CIRCUIT BREAKER SAFETY LOCKS

Skylox™ is a unique product that will provide safety to your aircraft ground service crews. The circuit breaker safety lock is easy to use and is an innovative safety solution, all at a very low price. Simple to use. Just squeeze and place over an open circuit breaker to prevent accidental closing of breaker circuits being serviced.

Regular round Skylox™ for standard size breakers and Skylox™ L for larger sizes. Hexagonal shape easily differentiates between the two sizes. Add Skytags™ for added safety. Red with white letters and all white backs for adding notes or special instructions. NOTICE! Skylox™ are designed for use by ground maintenance crews during ground maintenance procedures only! Skylox™ are NOT to be used during flight operations.

MS25224 SWITCHGUARDS

Prevents inadvertent operation of the switch. Switch can be operated only when the spring-loaded guard is lifted up. Returning guard to the down position forces the switch lever to the off position. Single-hole type for neck-mount switches such as AN3021 and AN3027. 3-hole type for panel-mounted switches such as AN3023. Color: Red.

MS25224-1 (one hole) ..... **$11.50 Ea.**
MS25224-2 (3 holes)..... **$19.85 Ea.**

KLIXON SWITCH GUARDS

Spring Loaded Switch Guards. Klixon switch guards can be used with 2 or 3 position switches. Covers are molded out of Thermoset molding materials. Guard covers are spring loaded to either close or lock in an open position.

Description	Pos.	Color	Code	Part No.	Price
Phenolic	2	Red	2	11-06221	**$23.75**
Metal	2	Green	4	11-06222	**$36.60**

CESSNA SPLIT MASTER SWITCH

This versatile split red master switch has been used in virtually all single engine Cessna models since 1970 and can be used in most light aircraft with single alternator systems. Left rocker normally used for alternator and right half for battery. Order mount separately.

Red Switch..... P/N 11-15900 ..... **$29.70**
Beige Switch..... P/N 11-05733..... **$38.50**
Mount..... P/N 11-15910..... **$1.84**

BEACON/STROBE SPLIT SWITCH

This is a split switch used in many production aircraft featuring an On-Off switch on left for rotating beacon and On-Off switch on right for anti-collision strobe. Switch is grey. New manufacture. P/N 11-14910 ..... **$9.65**

TOGGLE SWITCHES

Toggle switches are available with 2 or 3 operating positions, one or three hole mounting and a variety of circuitry and electrical ratings. Contacts are made of solid silver. Wide usage is found in aircraft, mobile, marine, electronic and industrial applications. Available in full "AN" standard size and Ultra Miniature 1/2" size. The leading manufacturers of toggle switches are Micro Switch, Alcoswitch, Cutler Hammer, and JBT (now Cutler Hammer). Orders will be filled with switches of manufacturer whose product is available in local stock.

P5 ON-OFF ALTERNATE ACTION SWITCH

Push and the P5 series switch holds "on" push again and the P5 switch turns "off". Positive tactile feedback is featured so the operator is clearly aware the switch mode has been executed. The button returns to the original position after each actuation.

To guard against front panel splash and dirt, the P5 series is sealed at the button with OTTO's patented rolling sleeve principle.The terminals are sealed with epoxy, providing a seal against flux during wiring and behind panel dirt and moisture. The combination of sealing provides smooth operation over a wide temperature range. Watertight sealing to 1meter (IP68) pressure is also available.

OTTO PISTOL GRIPS

Otto Controls has been making the switches used in a majority of military and commercial flight grips manufactured for the last 40 years. Otto has evolved from a switch supplier into a major gri supplier with flight grips in numerous military and commercial aircraft. These rugged grips are the same as our military qualified grips but without the expensive threaded connector. Grips have a 1.15"ID which can be adapted to a 3/4" or 7/8" joystick with separate sleeves sold below.

WIRE — SLEEVING — VINYL TUBING

UNSHIELDED WIRE MIL-W-22759/16

This top quality aircraft unshielded wire is manufactured to Specification MIL-W-22759/16. It features standard tin-plated copper conductor and is insulated with extruded Tefzel (ethylene/tetrafluorbethylene) which has a maximum temperature rating of 150°C. This wire is rated for 600 volts.

SHIELDED WIRE MIL-C-27500

This shielded and jacketed aircraft wire conforms to MIL-C-27500 and replaces MIL-C-7078/3. It incorporates MIL-W-22759/18 basic wire and features a Tefzel insulation, a shield of tin-plated copper braid and a jacket of Tefzel. It is temperature rated to 150°C & voltage rated at 600V. Top quality wire to military specifications.

RG 58C/U - Standard cable for experimental avionics installations. Single shielded stranded conductor, jacket type – Non-PVC. For experimental aircraft only. PN 11-04258.....**$0.58**

THIN WALL HEAT-SHRINKABLE TUBING

This is a general purpose heat shrinkable tubing with a wide scope of applications including harnessing, wire bundling, strain reliefs or any application where components or cables must be insulated or packaged. Material is an irradiated, thermally stabilized, modified polyolefin which is vastly superior to thermoplastic type materials. Flexible & flame retardant. Shrinkable by any hot air source such as an electric hair dryer or any heating device delivering at least 250°F. One person can complete installation in seconds. No need for special skills. Meets spec. MIL-I-23053B. Standard length - 4 ft. Min. purchase 4 ft. per size. Sold only in full 4 ft. lengths.

Discount: 25% Discount on 12 or more 4' Lengths (Per Size)

Always order the largest size which will fit snugly over the component being covered. Wall thickness will be less if recovery is restricted during shrinking.

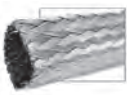
IGNITION SHIELDING BRAID

Tinned copper tubular braid. Very flexible multi-strand braid. Excellent way to shield spark plug wires to reduce radio frequency interference (RFI). Fits over standard spark plug wire. Use 1/2" heat shrink to secure the ends.

Shielding Braid per foot ..... P/N 11-02463 ..... **$0.77**

Heat Shrink Tubing, 1/2", 4 ft. length ... P/N 11-01300 ..... **$2.85**

TINNED COPPER BRAID



Used for static shielding on short lengths of wire or cable and for flexible bonding connections and ground straps. Made of extra flexible tinned copper wire. Rolled flat for spooling.

PREMIUM VINYL TUBING

This premium vinyl tubing is recommended for use in extremely cold temperatures where tubing can be prone to becoming stiff and brittle. Manufactured to Spec. MIL-I-7444B, this tubing can be coiled and bent easily and will retain some flexibility even in extreme temperatures. Sold in 50 ft. and 100 ft. coils in the sizes listed below.

AWG Size	Wire Size	I.D. (In.)	Wall (In.)	50 Ft. Coil		100 Ft. Coil

10 CONDUCTOR GRAY CODE TEFZEL WIRE

Excellent for carrying gray code information from the encoder to other devices that take gray code input such as transponder, Garmin 430 GPS, serializer etc. Instead of running individual 24AWG wirs and running them in a bundle, use this handy all in one, color coded, 10 conductor cable, saving time and effort. Sold in 1' increments. P/N 11-04479 ..... **$4.18**

BATTERY CABLE

6-gauge multi-strand copper core cable. Meets SAE Spec J1127-SGT. Price is per foot.

Black ..... P/N 11-03942 ..... **$1.50**
Red ..... P/N 11-03943 ..... **$1.41**
Lug (6 Gauge) ..... P/N 11-05110 ..... **$0.49**

4 CONDUCTOR UNSHIELDED WIRE 18 AWG

The cable can be cut to length, jacket removed and conductors stripped to custom specifications. Awg Size: 18 Thickness: .016" Nominal O.D: .032" Applications: Public address systems, Intercoms, Internal telephones, Remote control circuits, Suitable for EIA RS-232 applications

P/N 11-08280 ..... **$1.98 /ft.**

SOLDER SLEEVES

One-step, heat-shrinkable wire and cable interconnection devices are a labor saving alternative to conventional wire and cable termination methods. Create strong, soldered connections. Consist of a heat-shrinkable sleeve and a premeasured, fluxed solder band. When heated, the tubing shrinks and the solder melts, making reliable, insulated terminations.

.125"SM ..... P/N 11-04480 ..... **$1.80**
.200"MD ..... P/N 11-04481 ..... **$0.93**
.300"LG ..... P/N 11-04482 ..... **$1.64**

SUMITOMO SOLDER SLEEVES

Consist of a heat-shrinkable, transparent, polyvinylidene fluoride sleeve with an inner, pre-fluxed, solder preform and two thermoplastic sealing inserts. When heat is applied, the solder melts and flows to provide a superior connection between the ground lead and the shield. The two thermoplastic sealing inserts melt and the outer sleeve shrinks to provide an environmentally protected termination.

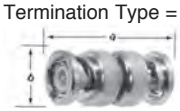
BNC RF MALE CONNECTOR - RIGHT ANGLE

• Connector - RF • Plug • Housing Gender = Plug • Terminate To Coaxial Cable • Coaxial Cable Termination Type = Crcrimp
P/N 11-08415 ..... **$48.85**



BNC STRAIGHT ADAPTERS - PLUG/PLUG 50 OHMS

RF/Coaxial Adapter. Dimensions: a 1.25"; b .562". Connector Type: Intra-Series Coaxial. Convert From: BNC Plug. Convert To: BNC Plug
P/N 11-08416..... **$5.50**

BNC STRAIGHT ADAPTERS - JACK/JACK 50 OHM

RF/Coaxial Adapter. Connector Type: Intra-Series Coaxial. Convert From: BNC Jack. Convert To: BNC Jack
P/N 11-08417..... **$6.85**

TNC CONNECTOR AMP MALE, DUAL CRIMP RG58

P/N 11-04446..... **$38.75**

TNC CONNECTOR AMP MALE, DUAL CRIMP RG142-400

P/N 11-04447 ..... **$23.60**

TNC CONNECTOR AMP RIGHT ANGLE, MALE, DUAL CRIMP RG58

P/N 11-04449 ..... **$46.25**

TNC CONNECTOR AMP RIGHT ANGLE, MALE, DUAL CRIMP RG142-400

P/N 11-04450..... **$45.75**

TNC CONNECTOR AMP RIGHT ANGLE, MALE, DUAL CRIMP RG214

P/N 11-04451 .....**$69.85**

TNC CONNECTOR RIGHT ANGLE SOLDER/ SCREW RG58

P/N 11-04452.....**$115.95**

TNC CONNECTOR FEMALE, DUAL CRIMP RG58

P/N 11-04453 ..... **$65.75**

TNC CONNECTOR
FEMALE, DUAL CRIMP RG58
P/N 11-04453 ..... $65.75

LITTLE BLUE CRIMPER

The Daniels AFM8 is designed for most of the miniature and sub-miniature connector types that are so widely used in all types of electronic systems. Originally developed for the Air Force, the AFM8 meets the need for a miniature tool accommodating wire sizes 20 thru 32 AWG. The cycle controlled precision ratchet assures consistently accurate crimps every time. The tool has a built-in eight step selector knob for ease in dialing the correct crimp depth setting for the wire being used.
P/N 11-04443 ..... **$299.75**

BIG BLUE CRIMPER

The Daniels AF8 has virtually limitless application within the specified wire range of 12 thru 26 AWG. Over 1,000 turret heads or positioners are available to adapt the tool frame to your specific military or proprietary contact/wire combination. The eight impression crimp, which is standard in the AF8, assures absolute maximum tensile strength with almost every closed barrel contact. The precision ratchet controls cycling on the tool in both directions of handle movement. This assures the same, accurate crimp every time. It's like having a quality control inspector at every work station.
P/N 11-04442.....**$283.95**

HAND INSERTION TOOL

This inexpensive, manual tool is lightweight and easy to use in the placement and/or removal of a terminal in a housing.

P/N 11-04439..... **$53.75**

MATE-N-LOK INSERTION PIN & SOCKET TOOL

Insertion tool for grounding blocks and locking connectors. The AMP insertion tool for MATE-N-LOK pins. Contact sizes 20-24 AWG.
P/N 11-04437 ..... **$27.50**

MATE-N-LOK EXTRACTION PIN & SOCKET TOOL

Insertion tool for grounding blocks and locking connectors. The AMP insertion tool for MATE-N-LOK pins. Contact sizes 20-24 AWG.
P/N 11-04438 ..... **$26.75**

PIN & SOCKET TOOL W/ INTERCHANGEABLE TIPS

This insertion & extraction tool consists of a handle, a cap, six insertion/extraction tips, a plug, and a .050-in. hex wrench. The handle of the tool provides storage for the tips, plug and hex wrench. The insertion/extraction tips convert the tool for the appropriate product and are used to insert or extract connector contacts. Each tip is color coded according to specific type and wire size. The hex wrench is used to tighten the set screw which secures the tip in the tool handle.
P/N 11-04436..... **$26.50**

PIN INSERTION & EXTRACTION TOOL

The insertion of contacts during assembly or replacement during repair is quick and easy with the appropriate tools. The tools have to fit the contacts and the connectors if assembly and repair are to be carried out correctly. Plastic Body, Metal Tip Insertion & Extraction Too l After you've installed the pins on the wiring to a connector, this tool will help you set the pins correctly into the connector housing. This tool is also absolutely necessary to use for extracting a proken pin for replacement or moving a misplaced pin for relocation. Insert and extract all your connector pins & sockets with this premium tool. It will work with both standard and high-density pins.

16 AWG Blue/White ..... P/N 11-04431.....**$16.50**
20 AWG Red/White ..... P/N 11-04432.....**$14.95**
24-20AWG Red/White..... P/N 11-04433.....**$12.75**
22 AWG Green/White..... P/N 11-04434.....**$14.95**
22-28AWG Green/White ..... P/N 11-04435.....**$6.50**

EL

ELECTRICAL TERMINALS

KOROSEAL LACING

Excellent lacing material. Permanently flexible. Resists oxidation, impervious to petroleum products. Holds tension on knots indefinitely. Perfect for holding wire bundles, tubing, etc. Rectangular cross-section 3/32"x 5/32".

P/N 11-12200 ..... **$0.59/Ft.**

BREYDEN POLYESTER LACING TAPES

Flat braided tape manufactured from 100% high tenacity, continuous filament polyester fiber. This product conforms to the requirements of MIL-T-43435B; Type II, Size 3, Finish C. The tape is uniformly impregnated with a synthetic elastomer coating to improve knot holding and tying characteristics. Ideal for spot tying. 500 yd. rolls.
Width: .085" (±10%); Thickness: .014" (±.003"); Tensile Strength: 50 Lb. (min.); Elongation: 40% (max.)

Natural ..... P/N 11-02012 ..... **$17.75**
Black ..... P/N 11-02013 ..... **$19.85**

BREYDEN NYLON LACING TAPES

Flat braided tape manufactured from 100% high tenacity, continuous filament nylon yarn. This tape is impregnated with a specially formulated microcrystalline, fungicidal wax. Conforms to the requirements of A-A-52080-B-3. Recommended for continuous lacing. 500 yd. rolls. Width: .077" (min.) / .094" (max.); Thickness: .011" (min.) / .017" (max.); Tensile Strength: 50 Lb. (min.); Wax Content: 15-32%; Elongation: 40% (max.)

Natural ..... P/N 11-12170 ..... **$19.50**

LIQUID ELECTRICAL TAPE

Protects connections with applicator brush protects electrical connections and terminals against corrosion. Ideal for battery switches, instrument panel terminations, bilge pumps and electrical connections. Dielectric, resists moisture by filling in wire nuts and butt connector ends. The water-based formula is environmentally friendly, non toxic, non-flammable, odor free, will not harden in container, and easy to clean up with water.

4oz. Bottle P/N 09-42565 ..... **$10.50**

AMP® SOLDERLESS TERMINALS & SPLICES

AMP's solderless electrical terminals and splices meet and exceed today's requirements for reliable terminals in applications ranging from control circuits to heavy duty power wiring. A limited number of sizes and types of terminals and tools are featured in this catalog. Information and pricing on unlisted items furnished on request.

RING TONGUE, NON-INSULATED TERMINALS

The barrel and tongue of these terminals are fabricated of the finest electrolytic copper and electro-tinned for optimum performance. The seam is brazed for uniform metal strength around the entire barrel area.

SEAL-ALL CONNECTORS – BUSS BARS

Seal-All Connectors are an environmentally sealed connection system developed to withstand exposure to extreme temperatures, moisture and harsh engine compartment fluids and chemicals with unfaltering performance. It consists of mating heat stabilized polyamide housings, male and female "pin and socket" terminals and self-lubricating silicone connector and cable seals. Seal-All connector configurations are available for one to six wires. -40 C to 125 C temperature range. Now you can have the same superior Plug/Connector that is used in vehicle OEM manufacturing.

Below are sold as the shell only. Terminal connector kits are not included. Order seperately.

SEAL-ALL CONNECTORS
(MALE AND FEMALE SHELLS ONLY)

SINGLE CONDUCTOR KIT

MANF P/N - WHT1C
P/N 11-06581.....**$3.25**

SEAL-ALL HEAVY DUTY CONNECTOR

Heavy Duty Connector-42 amps continuous maximum current rating. For 12-10 gauge wire.
Complete 2 conductor kit
P/N 11-06591 .....**$16.95**

SEAL-ALL CRIMP TOOL

Crimp tool works with all Seal-All terminals and seals. Its compact, low-cost parallel jaw design eliminates terminal rocking.
Seal-All Crimp Tool..... P/N 11-06592 .....**$37.95**

PROFESSIONAL SEAL-ALL CRIMPER

Crimps Seal-All terminals and seals in one cycle. Features two double Cavities, an orientation block and a ratchet mechanism to ensure that each crimp cycle is completed. Factory calibrated to be used only with Seal-All terminals and seals. Wire range 20-14.
Pro Seal-All Crimper
P/N 11-06593 .....**$134.95**

SEAL-ALL TERMINAL RELEASE TOOL

A must have tool for working with Seal-All shells and terminals. Designed to depress Seal-All rentention barbs to allow terminal removal from shells.
Seal-All Tool
P/N 11-06594 .....**$8.60**

BUSS BARS

CABLE TIES – SPIRAL WRAP

AMP® FLEXI-BLOCK MODULAR TERMINAL BLOCK SYSTEM

Assemble terminal blocks to custom requirements in seconds:
1. Pull out the number of block assemblies required from dispenser box. 2. Cut the track with hacksaw or cutting tool two spaces longer than unit. Slip the block assembly into the track 3. Insert end stops and assembly is complete.
USER'S KIT - Consists of 25 pcs Flexi-Block terminal block, 12 end stops and (2) 12" pcs. of track. Complete kit.
P/N 601883-1 ..... **$44.75**

PROFESSIONAL KIT - No. 6 kit consists of 100 ea. P/N 604101-1 block assemblies, 25 ea. of P/N 604111-1 end stops & 2 ea. P/N 601805-1 track 3 ft. long. Complete kit. P/N 601804-8 ..... **$149.50**

COPPER BUS BAR - 0.125" x .5" Wide
P/N 03-40890 ..... **$3.80/ft**

AMP® SPIRAP SPIRAL PLASTIC TUBING

Spiral plastic tubing is a fast and economical way to bundle wires and harnesses. It is designed to protect wire insulation for the life of the circuit even under severe vibration. Spirap tubing obtains its gripping ability from the memory of the plastic. When 1/4" diameter Spirap is wrapped around a 3/4" diameter wire bundle, the Spirap tubing tries to return to is original 1/4" diameter size, effectively gripping the wire bundle. Flame retardant polyethylene. Color—white. Bundle diameter range: 3/16" to 2". Discount: 20% less on orders of 100 feet
White .....P/N 500004-1 ..... **$1.30/ft.**
Black.....P/N 11-08320 ..... **$1.40/ft.**

SPIRAL WRAP WIRE PROTECTORS

Permits flexible routing of cable harness while forming a neat, protective bundle. It twists on easily and quickly and allows lead-outs at any point. When installed, it may be gapped for greater economy and flexibility or it may be butted tightly for maximum abrasion resistance, insulation protection and greater rigidity. Nylon type-for use in wider temperature ranges with high resistance to abrasion and good solvent resistance.

11-03991	18 to 120 lbs.	1.4" Screw	$31.25

NYLON BULKHEAD SEALS

Nylon Bulkhead seals are used when electrical harnesses or tubing is passed through bulkheads in pressurized and non-pressurized aircraft.
Bulkhead Seal, Square, 1-1/8" Hole.....P/N 11-04059 ..... **$9.50**
Bulkhead Seal, Elliptical, 3/4" Hole .....P/N 11-04061 ..... **$9.50**
Bulkhead Seal, Elliptical, 1/2" Hole .....P/N 11-04060 ..... **$8.50**
Bulkhead Seal, Square, 1-3/8" Hole.....P/N 11-04062 ..... **$21.50**

COBRA® CABLE TIES

With a contoured locking head, the Cobra configuration is safer, more flexible and stronger than existing cable ties. Safer because the (often barbed) stub is now deflected into a pocket at the rear of the head. More flexible because the flat lock section curves to the bundle contour and stronger because the Cobra uses an inline geometry, eliminating the stress points of traditional cable ties. Bundles down to 3/8" diameter and meets new AS 3361 specs. Features pick-proof underside lock & all rounded edges.

Color	Qty.	Tensil	Length/Width	Part No.	Price

BOGERT CABLES

BOGERT'S LOW LOSS COPPER CABLE KITS

Benefits:
- Starting performance improved, both hot & cold
- Eliminates nearly all voltage drop between battery & starter
- Starter current draw reduced
- Faster cranking, crank longer on the same battery
- Prolonged battery and starter life
- Less stress on battery & starter system
- Helps assure confidence in passengers
- Reduces the personal frustration and irritation factor
- Exceeds Piper Service Bulletins SB836 and SB836a

Contents:
- STC & AML Copy
- Sample log book entry
- Sample 337 sample entries
- Formula for figuring weight & balance, & C.G. Change
- Easy to follow instructions
- Schematic listing part numbers for all cables in the kit
- Flexible 1 gauge M22759, cut to length & assembled
- Cut to the correct length
- Assembled with 'slim-head' style terminals
- Insulated with shrink tubing

LABEL PRINTERS – FLAP ACTUATOR

K-SUN LABEL SHOP BEE3 PRINTER

The K-Sun LABELShop® BEE3 3-in-1 Printer for custom labeling, bar code printing and heat shrink tube identification is a portable, compact keyboard printer that creates custom adhesive-backed labels in over 60 different size and color combinations.
It also prints on polyolefin heat shrink tube materials for wire and cable identification. It has 6-Bar Code formats for making custom bar code labels for multiple uses in asset management, product identification, packaging and shelving.
The BEE3 is loaded with features to make labeling easier and better. It runs on 6 standard AA batteries, a bench or desktop AC Adapter or revolutionary new 12V-DC Auto & Truck Adapter for in-field operation, saving money on replacement batteries.
Includes:
- K-Sun LABELShop® BEE3™ Printer with Rubber Base Bumper Guard
- AC Adapter
- Black Plastic Case
- 1 Tape Cartridges (212BW)
- Nylon Wrist Strap
- 6 "AA" Batteries
- Tape Liner Cutter Tool
- Owner's Manual

Features and Functions
- Automatic Tape & Heat Shrink Tube Cutter
- Keyboard: 67 Key QWERTY-Compatible Keyboard
- Transparent Tape Cover: Instantly Reveals Tape Color, Size and
- Quantity remaining
- LCD Display: 12 Characters, 2-Lines Dot Matrix Standard LCD
- LCD Light Adjustment: 5 Dark to Light Settings
- Complies With California Energy Reduction Requirements
- Power Management: Automatic Power Off
- Portability: Hand-Held or Desktop Operation, Built-in Frame Han dle
- Print Resolution: 180 DPI
- Print Technology: High Durability Thermal Transfer
- Print Speed: All Tapes Print 6mm Per second or 2.36" Per Second
- Print Density: 3 Dark to Light Settings
- Power: Runs on Batteries- 6AA, AC Power Adapter-115-240V
- 3 Year FREE Printer Warranty

Specifications
- Printer Dimensions: 7.4" (wide) x 2.3" (high) x 8.8" (deep)
- Printer Weight: 1.23 lbs.
- Printer Construction: High Impact Plastic

K-SUN LABEL SHOP BEE3 PLUS PRINTER

The K-Sun LABELShop® BEE3+® is the professional's choice for heat-shrink tube identification and general custom labeling of wires, cables, panels, terminals, face plates, tools and equipment. The BEE3+ offers 10 different heat-shrink tube sizes and colors!

Includes:
- K-Sun LABELShop® BEE3+™ Printer with Rubber Base Bumper Guard
- AC or DC Adapter
- Black hard plastic case
- (1)1/2" black on white tape
- (1)1/2" black on white heat-shrink tube cartridge
- Nylon wrist strap
- 6 "AA" Batteries
- Tape liner cutter tool
- Owner's manual

Features and Functions
- 4 Heat-Shrink Tube Sizes, 3 Color Combinations
- 3-Year FREE Printer Warranty
- Automatic Tape and Heat-Shrink Tube Cutter
- Keyboard: 67 Key QWERTY-Compatible Keyboard
- LCD Display: 12 Characters, 2-Lines Dot Matrix Standard LCD
- Print Preview: Shows Label Design and Type Style
- Print Speed: All Tapes Print 6mm Per Second or 2.36" Per Second
- Power: Runs on Batteries: 6 AA, AC Power Adapter: 115-240V
- Complies with California Energy Reduction Requirements and
- Power Management: Automatic Power Off

Specifications
- Printer Dimensions: 7.4"(wide) x 2.3"(high) x 8.8"(deep).
- Printer Weight: 1.23 Lbs.
- Printer Construction: High Impact Plastic with Rubber Base Guard.

P/N 11-10505 ..... **$249.95**

FPS PLUS - FLAP POSITIONING SYSTEM

The FPS-Plus is a full service, automatic, flap positioning system. This system operates similar to the "Cessna type flap systems" that many pilots were trained in. The pilot can easily go from one flap position to another with one quick press of the flap button. All flap stop positions (from 0 to 10, your choice) are easily, user programmable. This system is also fairly simple to retrofit it to your "already flying" aircraft.
The Plus feature of this system, allows you to program an elevator trim position for each flap position. Your elevator trim will be automatically adjusted, for every different flap setting that you choose. NO more manual tweaking of the elevator trim is needed for every different flight configuration.
The pilot can now pay more attention to the actual "flying the aircraft", rather than tweaking the correct amount of elevator trim for every different flight configuration. Flying is made much more enjoyable. If you desire to retract the flaps fully, all you have to do, is press the "flap up" button for more than 1 second. The flaps will be automatically retracted to their full up position. The elevator trim is also automatically adjusted to your cruise trim position.
Features: • Full Automatic Flap Positioning with or without "Automatic Elevator Trim Compensation" • Step and Proportional Modes • Designed for +12v and +24v Systems • Compatible with Most Motors and Indicators • Setup is Fully User Programmable • No Limit Switches to Install
Specifications: • The system will operate on +12Vdc or +24Vdc systems. • Maximum amperage for each motor, 10A. • Dimensions (overall) 3" x 5.75" x 1.25" • Footprint 3 x 5.75" • Mounting 2 holes in bottom flanges, 0.156" dia, 5.375" apart • Weight < 4oz.
FPS-Plus Reflex Operation -All features of this system are exactly the same as our FPS-Plus. The exception is, when you press the Flap Up Button for more than a second, it returns the flaps to the zero degree position, not "full up". This is an advantage when initiating a "go-around" and "touch and goes". It is also an advantage when your flaps are in any down position, and you want to return the flaps to the "take-off" position.

FPS-PLUS with Elev. Trim .....P/N 11-02980 ..... **$269.00**
FPS-PLUS without Elev. Trim .....P/N 11-02981 ..... **$189.00**
FPS - PLUS REFLEX.....P/N 11-06440 ..... **$285.99**

FLAP LINEAR ACTUATOR AS USED ON LANCAIR ES, LANCAIR 300 & 360

The FL1 (FL1-24) ACTUATOR offers a unique standard of performance, durability and reliability. The compact design incorporates wellproven part, like the high efficiency ball screw, a sturdy gear box assembly and fitted with compact high quality DC motor. DC motors are available in both 12 & 24 volt. All to give the best performance with unsurpassed operational life. The actuator is self-locking within the dynamic load range. The actuator is manufactured with the capacity of 1500 N maximum dynamic load and 2200 N is static. The stroke is 150 mm and with speed of 10-15 mm per second.

12 volt actuator..... P/N 05-66223 ..... **$987.00**
24 volt actuator..... P/N 05-66224 ..... **$968.50**

The FL2 LIMIT SWITCH and CONTROLLING UNIT makes it possible to set the actuator for the desires stroke length. It also protects the actuator from running against the mechanical end stops, thereby avoiding damage. It is durable and can be used in most environments. It includes the aluminum profile tube, in which is mounted the protection tube of the actuator. Two limit switch units are attached to the profile tube and can be adjusted to any position. The magnet rod is attached to the end of the adjustment tube and runs in a groove in the profile tube. When the magnet, which is attached to the free end of the rod, approaches the switch unit, the latter is activated. The switches are connected to the control unit, from which the relays disconnect the power to the motor. Dimensions: Overall Length: 210 mm, Extended 360 mm. Width: 86 mm, Motor Diameter: 140mm. P/N 05-66225 ..... **$215.50**

FL1A CLEVIS ATTACHMENT – Galvanized clevis head and journal fitting with a quick coupling. It allows simple and rapid attachment of actuator P/N 05-66226 ..... **$29.85**

POSITION LIGHTS AND ANTI-COLLISION LIGHT DISTRIBUTION PATTERNS REQUIREMENTS

An approved anti-collision strobe light system must project light 360° around the aircraft's vertical axis. One or more strobe lights can be used.

An approved anti-collision strobe light system must project light + or - 30° above and below the horizontal plane of the aircraft. One or more strobe lights can be used. The + or - 75° projected light is required since July 18, 1977.

LOCATIONS ON THE AIRCRAFT FOR ANTI-COLLISION STROBE LIGHTS, TO COMPLY TO THE LIGHT PATTERN REQUIREMENTS

VERTICAL FIN
One anti-collision strobe light mounted on the vertical fin will meet the minimum requirements on most aircraft. A half red and half white lens is recommended.

WING TIP
Two wing tip strobe lights that protrude beyond the wing tip.

ENCLOSED WING TIP
Enclosed wing tip anti-collision strobe lights, require a third strobe light on the tail or vertical fin, to fill in the required light envelope. This is an approved anti-collision system.

FUSELAGE
In a fuselage mounted anti-collision strobe light system, a minimum of two strobe lights are necessary to get the required vertical coverage. This is an approved anti-collision system.

ANTI-COLLISION AND POSITION LIGHT REQUIREMENTS, LOCATIONS, & DISTRIBUTION PATTERNS

All aircraft must have an approved anti-collision light and position light system for nighttime operations. The position lights consist of an Aviation Red on the left side, an Aviation Green on the right and an Aviation White taillight (REF. FAR 23.1389).
The anti-collision lighting system is required under FAR PART 91.205(c).
There are different requirements affecting different aircraft. These aircraft are categorized by the date of application for type certificate. Home built aircraft are determined by the date of issuance of the Experimental Operating Limitations. The different categories are as follows:

Aircraft for which type certificate was applied for after April 1, 1957 to August 10, 1971:
These anti-collision systems must produce a minimum of 100 effective candela in Aviation Red or White (REF. FAR 23.1397), 360º around the aircraft's vertical axis, 30º above and below the horizontal plane (REF. FAR 23.1401).

Aircraft for which type certificate was applied for after August 11, 1971 to July 18, 1977:
These anti-collision systems must produce a minimum of 400 effective candela in Aviation Red or White (REF. FAR 23.1397), 360º around the aircraft's vertical axis, 30º above and below the horizontal plane (REF. FAR 23.1401).

Aircraft for which type certificate was applied for after July 18, 1977:
These anti-collision systems must produce a minimum of 400 effective candela in Aviation Red or White (REF. FAR 23.1397), 360º around the aircraft's vertical axis, 75º above and below the horizontal plane (REF. FAR 23.1401).

Note: The position lights must be wired independently of anti-collision lights.

INSTALLATION LOCATIONS

WING TIP:
The major difference in systems is the location of the strobe power supplies which can be mounted locally, one in each wing tip, or a single power supply can be mounted in the fuselage. Installation time can be greatly reduced if done in conjunction with an annual or one hundred-hour inspection. Properly installed power supplies and cabling are necessary for the safe operation of Whelen or any light systems.

FUSELAGE:
Fuselage mounted units can be either self-contained with the power supply and lighthead as one unit, or remote lightheads run off a separate power supply. To meet the field of coverage, one must be on the top of the fuselage and one on the bottom.

VERTICAL FIN:
Finally, if applicable, a single anti-collision light can be mounted on the vertical stabilizer. It can be either a self-contained or remote lighthead depending on the aircraft.

HOME BUILT & KIT AIRCRAFT

For Aircraft with Standard Wing Tips – The most widely used system on the market, this provides all of the components for anti-collision and position lights without the need for a taillight. The power supply is mounted in the fuselage and shielded cable is run to the strobe lights. The following is recommended:

Quantity	Model #	Part #	Description
1 each	HDACF	01-0770028-05	Power supply
1 each	A600PG14	01-0790006-00	Wing tip strobe/position/taillight, 14 VDC
1 each	A600PR14	01-0790006-02	Wing tip strobe/position/taillight, 14 VDC
Note: Model 9034001 and 9034002 can replace Model A600 for a LED solution			
1 each	HD60	01-0750206-00	Installation package

For Aircraft with Enclosed Wing Tip Fairings – If the position and strobe lights are mounted under a clear fairing, a third tail strobe is required. The following is recommended:

Quantity	Model #	Part #	Description
1 each	HDACF	01-0770028-05	Power supply
1 each	A650PG14	01-0770054-00	Wing tip strobe/position light, 14 VDC
1 each	A650PR14	01-0770054-02	Wing tip strobe/position light, 14 VDC
Note: Model 7111001 and 7111002 can replace Model A650 for a LED solution			
1 each	A500AV14	01-0770024-00	Tail position/strobe light assembly
1 each	HDT390	01-0750205-00	Installation package

For Aircraft with Enclosed Wing Tip Fairings & Wing Tip Mounted Power Supplies – If position and strobe lights are mounted under a clear fairing, the need for a third tail strobe is required. The following is recommended:

Quantity	Model #	Part #	Description
2 each	A490ATSC	01-0770062-03	Power supply
1 each	A650PG14	01-0770054-00	Wing tip strobe/position/taillight, 14 VDC
1 each	A650PR14	01-0770054-02	Wing tip strobe/position/taillight, 14 VDC
Note: Model 7111001 and 7111002 can replace Model A650 for a LED solution			
1 each	A500AV14	01-0770024-00	Tail position/strobe light assembly, 14 VDC
3 each	HS5	01-0750215-00	Installation package

EL

WHELEN POWER SUPPLIES - LIGHT HEADS

HOW TO CHOOSE A POWER SUPPLY AND ABOUT COMETFLASH®

The power supply needed depends on the application, and the mounting location. Model HDACF Series is a fuselage mounted power supply that will power two or three lights. Model A490ATSC Series is designed for installation adjacent to the strobe lighthead and will power one light assy. Model A490TCF Series is the most economical power supply when adding only one light. It mounts adjacent to the strobe lighthead assembly (not legal for light output with red strobe light). Most other Whelen power supplies are application specific, call for details. Unless otherwise noted, all power supplies are CometFlash®. A major advancement in the field of safety lighting. By pulsing the flash tube four times in rapid succession, the effective "on-time" of the strobe is increased from 2/1000 of a second to 4/10 of a second. This increases your airplane's visibility.

MODEL HDACF SERIES - HDACF series provides simultaneous flashing, alternate flashing or both. It will operate one, two or three strobe lightheads. Operating the wing tip strobes in the alternating mode will provide an accumulated 42 joules of power to each light. When in the simultaneous mode, the accumulated power to each light is 21 joules. In the three light mode, the wing tips will flash simultaneous at an accumulated 21 joules each, they alternate with a third light operating at an accumulated 42 joules. On the trigger selector outlet, a switch mounted in place of the jumper will allow wing tip outlets 2 & 3 to be turned off, while the tail outlet 1 will remain on. This power supply will operate from 10 to 30 VDC. **SPECIFICATIONS**: • Power Consumption: 7.0 amps @ 14 VDC; 3.5 amps @ 28 VDC • Weight: 2.1 lbs. (953gm) • Length: 5.50" (140mm) • Width: 5.0" (127mm) • Height: 2.37" (60mm)

Model #	Approvals	Part No.	Price
HDACF	FAA/PMA	11-16218	**$393.95**

MODEL A490ATSC SERIES - Operates one strobe lighthead. It produces an accumulated 34 joules of power and can be equipped to flash simultaneously with up to 5 other like units by connecting an 18 gauge wire between outlet 3 on the input power connector. This power supply will operate from 10 to 30 VDC. **SPECIFICATIONS**: • Power Consumption: 4.0 amps @ 14 VDC; 2.0 amps @ 28 VDC • Weight: 1.7 lbs. (771gm) • Length: 5.0" (127mm) • Width: 3.12" (79mm) • Height: 3.06" (78mm)

Model #	Approvals	Part No.	Price
A490ATSC	FAA/PMA	11-02666	**$324.95**

MODEL A490TCF SERIES - Operates one strobe lighthead. It produces an accumulated 19 joules of power. It will only meet 400 CP when used with the A470A-W. This unit cannot be synchronized. Operates from 10 to 30 VDC (not approved for use with red strobe light). **SPECIFICATIONS**: • Power Consumption: 1.7 amps @ 14 VDC; 0.85 amps @ 28 VDC • Weight: 1.2 lbs. (544gm) • Length: 5.0" (127mm) • Width: 3.12" (79mm) • Height: 2.38" (60mm)

Model #	Approvals	Description	Part No.	Price
A490TCF	FAA/PMA	20" leads, amp connectors	11-14714	**$248.95**
A490TCFM	—	20" leads, Molex connectors	11-06406	**$246.95**
7000615	—	20" leads, no connectors	11-07600	**$244.95**

MODEL A490TCCF SERIES - Same as the A490TCF but has a mounting plate with additional holes that directly replaces factory installed systems on single engine Cessna's, Aero Commanders, and Grumman Americans.

Model #	Approvals	Description	Part No.	Price
A490TCCF	FAA/PMA	20" leads, amp connectors	11-02661	**$249.95**
7000612	—	9" output, 7" input, leads (Cessna 172)	11-04493	**$255.95**
7000616	—	20" lds, ms conn on output ld	11-07601	**$229.95**
7000617	—	3" output, 7" input & 4 pos. amp conn (Cessna) (182,206)	11-04494	**$255.95**

MODEL HDS SERIES - Produces 20 joules of energy, SingleFlash, alternating between two light assemblies. The SingleFlash allows for a low current draw. This power supply will operate from 10 to 30 VDC. **SPECIFICATIONS**: • Power Consumption: 4.0 amps @ 14 VDC; 2 amps @ 28 VDC • Weight: 2.0 lbs. (907gm) • Length: 5.50" (140mm) • Width: 5.0" (127mm) • Height: 2.37" (60mm)

Model #	Approvals	Part No.	Price
HDS1428	—	11-03279	**$384.95**

MODEL 01-0770062-05 (CIRRUS) - Operates one (1) strobe light head at 36 joules in CometFlash. It is equipped to flash simultaneously with up to 5 other like units by connecting an 18 gauge wire between outlet 3 on the input connector. **SPECIFICATIONS**: • Power Consumption: 1.6 amps avg. • Input Voltage: 28 VDC Nominal • Weight 1.3lbs • Length: 5.00" • Width: 3.12" • Height: 3.00"

P/N 11-08306 .....**$353.95**

MODEL 90340 SERIES STROBE ANTI-COLLISION/LED POSITION LIGHT ASSEMBLY (FOR COMPOSITE WINGTIP STRUCTURE) - Same as 90340 series with addition of 3 feet of braided bonded protection. **SPECIFICATIONS**: • LED Navigation Light Power Consumption: 0.5 amps @ 14 VDC, 0.25 amps @ 28 VDC • Weight: 0.60 lbs. (272gm) 14 VDC, 0.65 lbs. (295gm) 28 VDC • Exposed Height: 2.70" (69mm) • LED Colors: Aviation Red, Aviation Green & Aviation White 1.1 lbs. (499gm) • Lens: Clear RFI coated glass: strobe, Clear Polycarbonate: Navigation Lights

MODEL A600 PG/PR SERIES - A600 PG/PR series wing tip anti-collision, forward position and tail position lights, all in one compact unit. Tail position light eliminates the need for a tail mounted position light. Available in 14 or 28 VDC and in a radio-shielded version. The forward position lamp is 26 watts and the taillight lamp is 25 watts. **SPECIFICATIONS**: • Weight: 0.8 lbs. (363gm) • Position Lamps Power Consumption: 4 amps @ 14 VDC; 2 amps @ 28 VDC • Exposed Height: 2.4" (61mm) • Length: 5.63" (143mm) • Width: 1.7" (43mm)

MODEL 71110 SERIES STROBE ANTI-COLLISION/LED POSITION LIGHT ASSEMBLY - 71110 series is a wing tip mounted strobe anti-collision/position light assembly utilizing LED's for the forward position lights. The LED's provide a significant reduction in current draw over conventional position light bulbs. The strobe light lens assembly is radio shielded for maximum EMI/RFI protection. Direct replacement (exact footprint) for the Whelen Model A650PG/PR series without replacing the current strobe power supply. Navigation light portion is wired with flying leads. **SPECIFICATIONS**: • LED Colors: Aviation Red, Aviation Green • LED Navigation Light Power Consumption: 0.25 amps @ 14 VDC or 28 VDC • Weight: 0.45 lbs. (204gm) 14 VDC, 0.50 lbs. (227gm) 28 VDC • Exposed Height: 2.70" (69mm) • Lens: Clear RFI coated glass: strobe, Clear Polycarbonate: Navigation Lights

MICROBURST SERIES LIGHTING FROM WHELEN - LED Wingtip and Tail Lighting for Experimental and Light Sport Aircraft. **MB3(Red or Green)** .21 lbs., .45 amp (avg). Forward facing Wingtip Nav, with CometFlash 180° LED-Strobe and rear facing white Nav. **MB2(Red or Green)** .20 lbs., .40 amp (avg). Forward facing Wingtip Nav with MB2G Green CometFlash 180° LED-Strobe. **MB1WT** White, .15 lbs, .35 amp (avg). Nav taillight with CometFlash 180° LED-Strobe. Utilizes same mounting as all (A500/A555 Style).

Description	Part No.	$199.00
MicroBurst I MB1WT Single Taillight	11-08472	**$199.00**
MicroBurst III Kit MB3K 1 MB3R (R) and 1 MB3G (G)	11-08473	**$398.95**
MicroBurst II Kit MB2K 1 MB2R (R) and 1 MB2G (G)	11-08474	**$299.00**
MicroBurst II with Taillight Kit MB2KWT 1 MB2R (R) and 1 MB2G (G) plus 1 MB1WT Taillight	11-08475	**$499.00**

NOTE: All non-FAA approved Whelens parts are signified by a (—) in the approval column. Parts without FAA approval may still be purchased, however, installation of these parts on U. S. Type Certificated products may require additional FAA approvals.

WHELEN LIGHT HEADS

MODEL A650 PG/PR SERIES - Wing tip with anti-collision & forward position lights can be used to convert non-Whelen position lights into a position/anti-collision light system. The small size allows for mounting into a wing tip enclosure. Available in 14 or 28V and in a radio-shielded version. The forward position lamp is 26 watts. **SPECIFICATIONS**: • Weight: 0.6 lbs. (272gm) • Position Lamp Power Consumption: 2 amps @ 14V; 1 Amp @ 28V • Exposed Height: 2.4" (61mm) • Length: 4.0" (102mm) • Width: 1.7" (43mm)

Model #	Approvals	Description	Part No.	Price
A650PG14	FAA/PMA	Pos Grn, 14V	11-03217	**$231.95**

7005816	—	Radio-shld, 24" 3/c cbl, w/MS conn	11-07609	**$171.95**

MODEL 70946 SERIES - A combination LED forward position/strobe lights designed to replace the existing combination nav/strobe lights typically seen mounted on most general aviation and helicopter applications (ref Whelen A650PG/PR Series). (28VDC Only).

Green .....P/N 11-05009 ..... **$495.00**
Red .....P/N 11-05010 ..... **$495.00**

MODEL 70821 SERIES - A remote streamlined strobe light assembly. Easily mounted on the wing tip for anti-collision or on the vertical fin for ground recognition. It is recommended for the wing tips on Cessna single engine aircraft 1970-71. It can be added as a low profile ground recognition light when mounted on the vertical fin or fuselage. A mounting adapter plate facilitates mounting. **SPECIFICATIONS**: • Weight: 0.3 lbs. (136gm) • Exposed Height: 1.8" (46mm) • Length: 3.5 (89mm) • Width: 1.8" (46mm)

Model #	Approvals	Description	Part No.	Price
7082100	—	Standard unit, clear lens	11-03287	**$175.95**
7082101	—	Radio-shielded, clear lens	11-70821-01	**$228.95**
7082103	—	Radio-shielded, red lens	11-70821-03	**$319.95**

MODEL 50626 SERIES STROBE TUBE ASSEMBLY - 50626 series strobe tube assemblies are used with the following model numbers listed in chart below:

Model #	Description	Used on	Part No.	Price
5062600	6"	Model 9011102	11-07681	**$71.50**

A610

A612

MODELS A610 & A612 - A610 flash tube and A612 glass lens are used for installing wing tip strobes in single engine Cessna's 1972 and later. The existing position light retainer is modified to accommodate the lens, and the flash tube is mounted directly behind. The unique magnifying design of the A612 lens increases the light intensity by two to three times in the horizontal plane. These items may be used for custom installations or as spare parts for existing light assemblies. The A612 lens is available in Aviation Red and an RFI coated version. Lenses meet material requirements of MIL-C-7989B Class B. **SPECIFICATIONS**: • Drawing Number A612: 90005 • A610 Flash Tube Weight: 0.09 lbs. (41gm) • A612 Lens Weight: 0.08 lbs. (36gm)

Model #	Approvals	Description	Part No.	Price
A610	FAA/PMA	Standard unit, 6" leads	11-03213	**$72.85**
A610M	FAA/PMA	Molex connector, 6" leads	11-03734	**$75.25**
5027601	FAA/PMA	14" leads	11-07611	**$66.75**

A612DR	—	Radio-shielded, red lens	11-07614	**$257.95**

MODEL A500A SERIES - A500A series combination strobe/tail navigation light used when the wing tip anti-collision lights are mounted in an enclosure and can't provide 360° of strobe coverage. It is a direct replacement for the standard tail position light. Available in a radio-shielded version. Voltage (14 or 28) and mounting (horizontal or vertical) must be specified when ordering. **SPECIFICATIONS**: • Weight: 0.3 lbs. (136gm) • Exposed Height: 1.7" (43mm) • Diameter: 1.5" (38mm)

A500ABV2	—	Beech Special 24V, MS connector	11-03716	**$292.95**

MODEL A470A SERIES - A470A series remote strobe light assembly is compatible with all Whelen power supplies. It can be installed on the fuselage or the vertical fin. The unique polycarbonate optic lens and reflector design, re-directs stray light rays into the horizontal plane to provide the maximum 360° of uniform light coverage possible. Available in three different lens colors, aviation red, aviation white and split aviation red/white. Available in radio-shielded configurations. All assemblies require either the model H102 or H103 mounting adapter. **SPECIFICATIONS**: • Weight: 0.3 lbs. (136gm) • Exposed Height: 3.75" (95mm) • Diameter: 2.5" (64mm)

Model #	Approvals	Description	Part No.	Price
A470AR	FAA/PMA	Standard assembly, red lens	11-03273	**$88.50**

H102

H103

MODELS H102 & H103 - Designed for the model A470A or model A450 series remote strobe lighthead assemblies. The model H102 allows flush mounting of the lighthead to the skin of the fuselage or the vertical stabilizer on later model Cessna Single engines. The H103 is designed for strobe assemblies to be installed in the standard 3-3/4" (95mm) dia. rotating beacon mounting hole.

Model #	Approvals	Description	Part No.	Price
H102	FAA/PMA	Flush mount adapter	11-03243	**$11.75**
H103	—	Rotating beacon mount adapter	11-03284	**$45.75**

MODEL A450 SERIES - A450 series remote strobe light assembly is compatible with all Whelen power supplies. It can be installed on the fuselage or the vertical fin. The Pyrex® Glass lens (clear only) makes the assembly suitable for use in severe vibration, chemical and moisture conditions (i.e. agricultural aircraft). Requires either the model H102 or model H103 mounting adapter. **SPECIFICATIONS**: • Weight: 0.3 lbs. (136gm) • Exposed Height: 2.25" (57mm) • Diameter: 2.5" (64mm)

MODEL 90358 SERIES SELF-CONTAINED LED ANTI-COLLISION/ LED POSITION LIGHT ASSEMBLY - (For Fixed Wing, TSO-C96a Class II (400 ecp) 90358 series is a self-contained all LED wing tip mounted anti-collision/position light assembly utilizing LED's for both the anti-collision, forward & tail position lights, eliminating the need for a tail mounted position light. The LED's provide a significant reduction in current draw over conventional position light bulbs, and strobe power supplies. The all inclusive LED design virtually eliminates EMI/RFI interference. All current source and flasher circuitry is contained within the attached flasher box. **SPECIFICATIONS**: • LED Navigation Light Power Consumption: 0.25 amps @ 28 VDC EACH • LED Anti-Collision Light Power Consumption: 0.5 amps @ 28 VDC • LED Colors: Aviation Red, Aviation Green & Aviation White • Weight: 1.3 lbs. (590gm) • Exposed Height: 2.80" (71mm) • Exposed Width: 2.64" (67mm) • Exposed Length: 7.29" (185mm) •Depth: 3.00" (76mm) • Lens: Clear Hard Coated Polycarbonate

WHELEN SELF-CONTAINED LIGHT ASSEMBLIES

MODEL 70900 SERIES LED BEACONS - (for fixed wing aircraft) 70900 series are FAA TSO compliant self-contained anti-collision lights for fixed wing aircraft. An external power unit is not required. Conservative lab life results greater than 20,000 hours. No EMI or RFI produced. All units meet the minimum requirements stated in FAR Parts 23 & 25 for anti-collision light systems used on fixed wing aircraft, Ref; Class III (100 effective candela) of SAE AS8017a minimum performance standards. STC SA615EA approved.
Models 7090004 & 7090005 are designed to replace existing light assemblies with the 3-3/4" (95mm) dia. mounting pattern (Ref. Whelen HRCFA series, 90081 series, and "old style" rotating beacons). Same mounting hole pattern, no modification to the aircraft is required. **SPECIFICATIONS**: • Power Consumption: P/N 11-02523: 0.85 amps @ 14 VDC • Power Consumption: P/N 11-02524: 0.425 amps @ 28 VDC • LED Color: Aviation Red • Weight: 1.1 lbs. (499gm) • Exposed Height: 3.1" (78mm) • Exposed Diameter: 2.8" (71mm)

Model #	Approvals	Description	Part No.	Price
7090004	FAA TSO-C96a Class III	Red, 3-3/4 dia. mount, 14 VDC	11-02523	**$649.00**
7090005	FAA TSO-C96a Class III	Red, 3-3/4 dia. mount, 28 VDC	11-02524	**$649.00**

9052051

MODEL 90520 SERIES LED FLASHING BEACON (RED & WHITE LED'S) - 90520 series LED beacons are FAA TSO compliant self-contained LED anti-collision lights (Ref. Class I - 100 effective candlepower). They are designed to replace strobe lightheads as small as the A470A with available models to replace HR self-contained beacons (HRCFA) or our legacy 70900 LED beacon. Mounting plate included with assembly. Refer to models and descriptions below.
ELECTRICAL:
Models ending: 2001, 2004, 2005, 2014, 2015, 2051, 2055: 12" Flying Leads
Models ending: 2007, 2017, 2008, 2018: MS3102R10SL-3P Connector
MECHANICAL:
Models: 2004, 2014, 2008, 2018 are designed to replace existing beacons utilizing a 5 Hole mounting pattern on 4.656 diameter bolt circle (Whelen 70285 series / 7090501 series or 70900 with A440 adapter).
Models: 2005, 2015, 2007, 2017 are 3 ¾" opening designed to fit inside an A440 mounting adapter, mounting holes to fit in place of rotating beacons, Whelen model HRCFA, or 7090004, -05 series LED beacons
SPECIFICATIONS: • Current: 0.67 amps Average, 3.0 amps Peak • Weight: 0.65 lbs. (295gm) (-01 & -51) • Lens: Clear polycarbonate • Dimensions: 2.6" (66mm) Diameter, Exposed Height, 3.74" (95mm) (-01 & 51)

MODEL HRCFA SERIES - HRCFA series is a self-contained CometFlash® strobe anti-collision light. The unique polycarbonate optic lens and reflector design re-directs stray light rays into the horizontal plane to provide maximum 360° of uniform light coverage. Available in three different lens colors, aviation red, aviation white and split aviation red/white and in radio-shielded configurations. FAA approved as a direct replacement for any rotating beacon that uses a 3-3/4" (95mm) dia. mounting hole. Can be installed in the vertical fin or the fuselage. Fuselage installation requires the A440 mounting adapter. Operates between 10 to 30 VDC. **SPECIFICATIONS**: • Weight: 1.5 lbs. (680gm) • Height: 7.25" (184mm) • Diameter: 3.7" (94mm) • Power Consumption: 3.2 amps @ 14 VDC, 1.6 amps @ 28 VDC

MODEL 70285 SERIES - 70285 series self-contained CometFlash® strobe anti-collision light. It utilizes the same lens/reflector and strobe tube as the model HRCFA, however, its vibration resistant, heavy-duty construction is specially designed for helicopter applications. It has a fixed mounting adapter and an MS input connector. Available in three different lens colors, Aviation red, aviation white, and split aviation red/white and in radio-shielded configurations. FAA approved as a direct replacement for any rotating beacon that uses a 3-3/4" dia. mounting hole. Unit will operate between 10 to 30 VDC. **SPECIFICATIONS**: • Weight: 1.5 lbs. (680gm) • Height: 8.0" (203mm) • Diameter: 3.7" (94mm) • Power Consumption: 3.2 amps @ 14 VDC, 1.6 amps @ 28 VDC

WHELEN SELF-CONTAINED LIGHT ASSEMBLIES

MODEL SACF SERIES - SACF series self-contained Comet-Flash strobe anti-collision light which utilizes the same power supply & housing as the model HRCFA. It uses an aviation white glass lens only, ideal for agricultural applications where chemicals are used. Because the lens has no optics built-in, it produces 300 effective candlepower. It uses a 3-3/4" dia. mounting hole. Fuselage installation requires the A440 mounting adapter. Operates between 10 to 30 VDC.
SPECIFICATIONS: • Weight: 1.5 lbs. (680gm) • Height: 5.50" (140mm) • Diameter: 3.7" (94mm) • Power Consumption: 3.2 amps @ 14 VDC, 1.6 amps @ 28 VDC

A440	FAA/PMA	Mounting adapter	11-03699	**$20.75**

MODEL 70509 SERIES - 70509 series self-contained halogen flashing anti-collision light with the same mounting pattern as the factory installed beacon on single engine Cessna's 1967 & later. Available in three different lens colors, Aviation red, aviation white and split aviation red/white. When used in conjunction with the model 50519 mounting adapter, it can replace rotating beacons with the 3-3/4" (95mm) dia. mounting hole.
Note: Not recommended for installation on helicopters or twin engine aircraft.
SPECIFICATIONS: • Weight: 0.27 lbs. (122gm) • Height: 3.75" (95mm) • Diameter: 2.65" (67mm) • Power Consumption: 2.7 amps @ 14 VDC, 1.3 amps @ 28 VDC

MODEL 90350 SERIES SELF-CONTAINED LED GROUND RECOGNITION LIGHT ASSEMBLY - 90350 series is a self-contained all LED ground recognition light assembly. The design is intended to provide a solution to the needs for ground recognition lighting on a wide variety of aircraft. All current source and flasher circuitry is contained within the base plate. Unit is flush mounted to aircraft surface eliminating the need for large cutouts in the aircraft structure. Item ships with flying leads. **SPECIFICATIONS**: • Power Consumption: 0.28 amps Avg. @ 28 VDC • LED Colors: Aviation Red • Lens: Aviation Red, Polycarbonate • Weight: 0.2 lbs. (91gm) • Exposed Height: 1.48" (38mm) • Exposed Width: 1.64" (42mm) • Exposed Length: 4.61" (117mm)

MODEL 71055 SERIES LED BEACON - 71055 series beacons are FAA TSO compliant self-contained LED anti-collision lights. They are designed to replace existing quartz halogen flasher beacons installed as original equipment on single engine Cessna's from 1967 and later (contact factory for details). They can also replace remote mounted strobe lights (ref. Whelen A470 series) allowing for removal of the strobe power supply. Internal mounting plate provided with choice of mounting holes to retrofit most existing mounting patterns. STC SA615EA approved.
SPECIFICATIONS: • Power Consumption: 01-0771055-00 - 1.2 amps Avg. / 11-04542 - 0.6 amps Avg. • LED Color: Aviation RED • Lens: Clear Polycarbonate • Weight: 0.52 lbs. (236gm) • Exposed Height: 3.09" (78mm) • Exposed Diameter: 2.60" (66mm)

38-0250885-00	-	Replacemnt Lens Gasket	11-10407	**$7.65**

NOTE: All non-FAA approved whelwn parts are signified by a (—) in the approval column. Parts without FAA approval may still be purchased, however, installation of these parts on U. S. Type Certificated products may require additional FAA approvals.

MODEL 90088 SERIES LED ANTI-COLLISION LIGHT - 90088 series is a self-contained LED anti-collision beacon. It's solid-state circuitry and LED light source obsolete the "old style" mechanical oscillating beacons as well as the Whelen 90044 series quartz halogen flashing beacons. Benefits include no moving parts, no EMI/RFI, no inrush current spikes and crisp on/off cycles. There are several models available to provide compatibility with existing mounting patterns and profiles, thus eliminating the need to alter the aircraft.
SPECIFICATIONS: • Power Consumption: 0.45 amps @ 28 VDC • LED Color: Aviation RED • Weight: 1.8 lbs (816gm) (unless otherwise noted) • Exposed Height: 2.70" (69mm) • Lens Color: Clear glass • Replaces: Whelen: 90044 Series and Grimes: G9950-( ), 40-0100-( ), 30-2140-( ), 40-0117-( ), 40-0127-( ), 30-2647-( )
To determine the model required for replacement, the following information is needed: upper or lower mounting, number of mounting holes (5 or 8), weight & position installed. Beacons installed on the rudder. Top replacement on Gulfstream II & III require a 9008812 in conjunction with the optional 16 hole mounting plate, P/N 06-170618-00.

MODEL A555A SERIES - A555A series tail mounted position light which uses a 25 watt halogen lamp. The suffix "V" or "H" in the part number designates the aircraft mounting screw locations in respect to the light shield. "V" designates vertical mounting and "H" indicates horizontal mounting on the aircraft. Supplied with a 2 position "AMP" connector. Specify 14 VDC or 28 VDC. Replaces the brand "G" A2064 series.

SPECIFICATIONS: • Exposed Height: 1.4" (36mm) • Mounting Diameter: 1.06" (27mm) • Power Consumption: 2 amps @ 14 VDC, 1 amp @ 28 VDC • Weight: 0.1 lbs. (45gm)

A555AH28	FAA TSO-C30b Type III	Horz. , 28 VDC	11-03275	**$116.95**

MODEL 90377 SERIES LED POSITION LIGHT ASSEMBLY - 90377 series is a wing tip mounted position light assembly utilizing LED's for both the forward & tail position lights, eliminating the need for a tail mounted position light. The LED's provide a significant reduction in current draw over conventional position light bulbs. Direct replacement (exact footprint) for the Whelen Model A675PG/PR series. Single set of flying leads operates both forward & tail nav on 28 VDC version, and one set each of flying leads for the forward & tail nav on the 14 VDC version.

SPECIFICATIONS: • LED Navigation Lights Power Consumption: 0.5 amps @ 14 VDC, 0.25 amps @ 28 VDC • LED Colors: Aviation Red, Aviation Green and Aviation White • Weight: 0.35 lbs. (159gm) • Exposed Height: 1.08" (27mm) • Exposed Width: 1.87" (47mm) • Exposed Length: 5.69" (145mm) • Lens: Clear Polycarbonate

MODEL 70966 SERIES - 70966 series LED tail position light, is a high quality, long lasting, modern alternative to incandescent & halogen tail position lights. It offers significant technological upgrades over previous products. Utilizing LED technology, the following advantages are offered: Long Life (approx. 20,000 hours); Reduced Power Consumption (compared to alternative light sources); Shock & Vibration Resistant (no fragile filament to burn out); Light (produces bright white light) and No EMI or RFI Interference. 3 Year Warranty.

SPECIFICATIONS: • Exposed Height: 1.64" (42mm) • Length: 2.60" (66mm) • Width: 1.74" (44mm) • Power Consumption: 0.3 amps @ 28 VDC • Weight: 0.3 lbs. (136gm)

Model #	Approvals	Description	Part #	Price
7096600	FAA TSO-C30c Type III	28 VDC - no connectors	11-01228	**$448.95**
7096601	FAA TSO-C30c Type III	28 VDC - connectors, case ground used on Beechjet	11-07699	**$447.95**

NOTE: All non-FAA approved whelwn parts are signified by a (—) in the approval column. Parts without FAA approval may still be purchased, however, installation of these parts on U. S. Type Certificated products may require additional FAA approvals.

READING LIGHT - The Model A325 ML reading light will replace original equipment on 14 volt Piper aircraft. It is designed for passenger convenience and is equipped with an on/off slide switch. Specify voltage (14V or 28V).

14V.....P/N 11-03294 .....**$259.95**
28V.....P/N 11-03682 .....**$154.95**

OVERHEAD CABIN LIGHT - The Model A360 is designed for recessed overhead lighting. Aluminum housing & Pyrex lens. Weight: 0.25 Lb.

14V.....P/N 11-03685 .....**$122.95**
28V.....P/N 11-03686 .....**$110.95**

MODEL 71144 'GOOSENECK' LED LIGHT ASSEMBLY - 71144 assembly features a positive off position and rheostat controlled light intensity. Models including 'side' mounted intensity control are which is designed for the S76D. 28 VDC Only. **SPECIFICATIONS**: • Power Consumption: 0.06 amps @ 28 VDC • LED Colors: Aviation White • Weight: 0.46 lbs. (209gm) • Black Nylon Hood; fixed in position

A715-1 LANDING LIGHT

The Model A715-1 landing light is standard equipment on new Beechcraft, and will retrofit into older aircraft, as well. Accommodates PAR 36 sealed beam lamp. Order lamp separately (#4509 - 100W, 12V; #4594 or #4613 100W, 24V; Wt. 1/2 lb. Size: 4-3/4" dia. x 6-1/2" long x 2-1/8" deep.

P/N 11-03281 ..... **$149.50**

MODEL 71141 SERIES LED LANDING LIGHT (INTERNAL MOUNT) PAR-36 STYLE - 71141 series is a self-contained all LED landing light assembly. The design is intended to provide a solution to the needs for a taxi & landing light on a wide variety of aircraft. All current source and electronic circuitry is contained within the housing. Unit is available in several mounting configurations to retrofit existing typical PAR-36 lighting. Unit is designed to be mounted internally behind existing lens. Item ships with flying leads. Contact your OEM for installation eligibility on your aircraft. **SPECIFICATIONS**: • Power Consumption: 1.5 amps @ 28 VDC • Weight: 1.0 lbs. (454gm) • Exposed Diameter: 4.46" (113mm), Overall • Depth: 1.90" (48mm) • Lens: Clear Polycarbonate

MODEL 71125 SERIES LED RECOGNITION LIGHT - 71125 series LED recognition light is designed to provide supplemental lighting for a wide variety of aircraft applications. Provides all of the advantages of LED's as a light source, no EMI/RFI, low current draw, low heat, long life. Perfect for vibration prone areas. Item ships with flying leads. Several different beam spreads available. Designed to replace the Whelen A775 series. Version containing integrated MS connector also available. Can be used in conjunction with 71115 Flasher control assembly. Contact your OEM for installation eligibility on your aircraft. **SPECIFICATIONS**: • Power Consumption: 0.9 amps @ 14 Volts, 0.45 amps @ 28 Volts • Lens: Clear polycarbonate • LED Color: Aviation White • Weight: 0.3 lbs. (136gm) • Overall Width: 3.25" (83mm) □ Overall Depth: 1.25" (32mm) • Overall Height: 1.95" (50mm)

HOMEBUILDERS WHELEN STROBE KIT

This compact, lightweight strobe kit is very popular with builders of a variety of todays homebuilt aircraft. Kit includes: 2-A610 flash tube assys., 2-A612 magnifying lenses, 2-A490T,CF power supplies and 1-HT installation Kit.

P/N 11-00923 ..... **$724.00**

CUSTOM LOW ENERGY SYSTEM

Kit # 11-05600

Popular with Long-EZ, Q2, Q200 builders and others using a lightweight, low amperage generator or alternator. It consists of: (2) A600-PG/PR Wingtip Strobe Lights, (1) A413A, HDS-14/28 (Single Flash 20 Joules) remote mounted Power Supply, HD-60 Installation Kit (Draws less than 4A - 14V & produces 400 effective Candles.)

P/N 11-05600..... **$1,014.00**

WHELEN STROBE TESTER

Designed to determine whether power supply is operating normally. Kit contains troubleshooting procedures. Also contains adapter for testing some Grimes and Hoskins strobe light systems.

P/N 11-06800..... **$128.95**

WARNING SYSTEMS

VOLT AND VAC ALERT

*Provides an instantly recognizable voice warning directly in your headset if low vacuum (or pressure) or low voltage develops. * Includes a red warning light mounted close to the gyro instruments. Many aircraft are equipped with backup vacuum systems, however you must first know that your instrument power system has failed before any of these backup systems are engaged. You must "know you have a problem before you have a problem". Volt & Vac Alert consists of a small electronic unit that can be mounted anywhere in the aircraft. It connects to aircraft voltage, instrument power (vacuum or pressure), and the aircraft audio system. If the voltage falls below 12v or 24v the voice message "CHECK VOLTAGE CHECK VOLTAGE" will be heard. Should the gyro power fail, the pilot will hear the voice message "CHECK GYROS, CHECK GYROS" directly in his headset. The voice message will sound once, and then the red warning light will illuminate until the problem is fixed. The unit can be used in 12v or 24v aircraft with either vacuum or pressure gyro power systems. It can be installed in pressurized or un-pressurized aircraft. Sold as a complete assembly with everything necessary for the installation except a 1 amp fuse or circuit breaker. STC'd for most general aviation aircraft

P/N 10-00393 .....**$479.95**

VOICE ALERT

Whenever the existing stall horn sounds, the pilot will hear the instantly recognizable voice message "STALL, STALL" from the built in speaker, and directly in his headset. If the gear warning horn sounds, the pilot will hear the voice message "CHECK LANDING GEAR, CHECK LANDING GEAR" alerting of the problem. No more confusion over which horn is sounding. These voice messages are in addition to the original horn sounds. The Voice Alert consists of a small electronic unit about 2-1/2" by 3-1/2" in size that can be mounted almost anywhere in the cockpit. The installed weight of the unit is less than 1 lb. The unit is supplied as a complete kit consisting of the electronic unit, a pre-wired cable assembly, and all the connecters and mounting hardware. The only other item required is a 1 amp fuse or circuit breaker. Installation is easy, and can be performed by an A&P mechanic or an avionics shop. The system is approved for both fixed and retractable gear aircraft.

Description	Part No.	Price
VOICE ALERT 2040-1-1 produces voice messages for gear and stall warnings, and can be programmed with up to 8 additional warning voices such as altitude, vacuum, fuel, pressures, etc. Supplemental system only.	10-03713	**$623.00**
VOICE ALERT 2040-1-2 produces stall and gear voice messages in the pilot's headset. Supplemental system only.	10-00394	**$525.00**
VOICE ALERT 2040-1-1P similar to the 2040-1-1 except approved for installation as primary replacement for existing warning units like Cessna Electronic Dual Warning units	10-03714	**$785.00**
VOICE ALERT 2040-1-2P similar to the 2040-1-2 except approved for installation as primary replacement for existing warning units like Cessna Electronic Dual Warning units	10-03715	**$697.00**

GEAR WARNING SYSTEM (2048)

* Provides both voice and visual warning if the landing gear is not in the correct position for either a runway landing or a water landing. * Airspeed activated, activation speed is easily set from 45 to 90 mph. * Works with aircraft having 2, 4, or 8 gear indicating lights or simple switches that provide gear position. Consists of a small electronic module (2.5 inch by 3.25 inch weighing less than 1 lb), and a panel mounted switch with light. The system is airspeed activated. The activation speed can be easily set using a screwdriver. On takeoff once the speed has exceeded the activation speed, the system activates. A time delay is built in to prevent false triggering due to speed fluctuations. The light in the switch illuminates when the system is activated. The pilot can perform a self test of the system. Can place in a disengage mode which temporarily disengages the system for slow flight. If the aircraft has flaps, a flap switch can be added to cause the landing sequence to be initiated whenever the flaps are fully extended. The unit also includes an airspeed activated switch which closes whenever the airspeed is above 45 mph. This can be used to activate a transponder, Hobbs meter etc. The unit is sold as a complete system including the electronic unit, a pre-made cable assembly, a pre-wired switch, connecters, mounting hardware etc. Expermental aircraft. P/N 11-02258 .....**$584.00**

POWER GUARD BUS MANAGEMENT SYSTEM

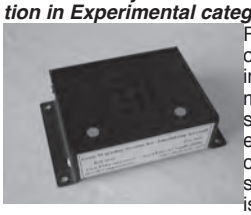
An essential bus management circuit designed to protect power sensitive and critical electronics. Starting currents are usually high enough to cause battery voltage to drop below tolerable limits for many electronics systems. The result could leave you without engine instrumentation until EFIS "reboots" (up to 30 seconds). Protection includes low voltage drop out and essential backup in the event of primary power loss. Filtration on the secondary supply and secondary battery charging are also an integral parts of the circuit. A secondary battery is required for the Power Guage we recommend a 5-12 Amp battery for emergency supply. Several control modes are possible with the system allowing for installation and operational flexibility. Load Ratings: 7A continuous, 10A 10% duty. Dims: 4.75"l x 2.75"w x 1.2"h P/N 11-02044 .....**$135.95**

AMPHIBIAN GEAR WARNING SYSTEM

Designed to provide an additional margin of safety for amphibian pilots by providing a backup electronic means of verifying landing gear position for both water and runway landings. Consists of a small electronic box (about 2.5 inch by 3.25 inch weighing less than 1 lb) that can be mounted anywhere in the aircraft, and 2 panel mounted switches with lights. The system is activated by airspeed. The activation speed can be set by a simple screwdriver adjustment. On takeoff, as the airspeed exceeds the activation speed, the system becomes active. There is a time delay built in to prevent false triggering. When the system becomes active, the lights in the panel switches will illuminate for 6 sec, to alert the pilot that the system is active. The pilot can perform a self test. Can be temporarily disengaged for slow flight. As the aircraft slows below the activation speed for a landing, the landing sequence is initiated. Panel switches are marked "L" for land, and "W" for water. If the gear is in the correct position, the voice message "GEAR O.K." will be heard. If the gear is not in the proper position, the voice message "CHECK LANDING GEAR, CHECK LANDING GEAR" will be heard. This message will continue until the speed is increased above the activation speed, or the gear is placed in the proper position. When installed in aircraft having multiple gear indicating lights, the system will respond with the "CHECK LANDING GEAR" voice warning if it determines that any of the wheels are in the wrong position. Also responds with the warning if the gear indicating lights loose power. Also incorporates an airspeed activated electronic switch which closes whenever the airspeed is above 45 mph. This can be used to activate a transponder, Hobbs meter etc. Supplied as a complete kit consisting of the electronic module, a pre-wired, color coded cable, switches, connecters, mounting hardware etc. The only other item required is a 1 amp fuse or breaker. STC'd for many amphibian aircraft and aircraft on amphibian floats P/N 11-07537.....**$795.00**

GEAR ALERT SYSTEM 2050

NOTE: This system is not FAA approved. It is intended for installation in Experimental category aircraft only.



For Experimental amphibian aircraft consists of a small electronic module (2.5 inch by 3.25 inch weighing less than 1 lb), and a panel mounted switch with light. The system is airspeed activated. The activation speed can be easily set using a screwdriver. On takeoff, once the speed has exceeded the activation speed, the system activates. A time delay is built in to prevent false triggering due to speed fluctuations. The light in the switch illuminates when the system is activated. The pilot can perform a self test of the system.Disengage mode which temporarily disengages the system for slow flight. During this period, the light in the switch flashes indicating the system is disengaged. Pushing the switch again re-engages the system. As the aircraft slows for landing, the system enters the landing mode. The light turns off, and the electronics then checks the gear position lights to determine the gear position. If the aircraft has flaps, a flap switch can be added to cause the landing sequence to be initiated whenever the flaps are fully extended. A switch can be added to the throttle so that closing the throttle with the gear up will cause the warning voice message to be heard. The unit also includes an airspeed activated switch which closes whenever the airspeed is above 45 mph. This can be used to activate a transponder, Hobbs meter etc. The unit is sold as a complete system including the electronic unit, a pre-made cable assembly, a pre-wired switch, connecters, mounting hardware etc. P/N 11-07538 .....**$558.00**

GEAR ALERT

The Gear Alert uses an electronic sensor to detect the presence of the ground during landing. If the wheels are up, it instantly sounds a voice warning directly into your headset. It is a full time positive warning system and does not depend on throttle position or airspeed for operation. Gear Alert is supplied as a complete kit with all mounting hardware, doubler plates, connectors, and a pre-wired and tested cable assembly for fast and easy installation. 1 yr warranty. FAA Approved. STC's for most single and twin engine aircraft including Cessna up through the 400 series, Beech uo through King Air series, Piper up through the Chieftain, Mooney and others.

P/N 11-21135.....**$1,438.00**

EL

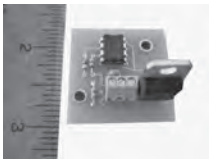
ELECTRONIC ACCESSORIES - STROBES

INTERCOM GEAR WARNING DEVICE

A small electronic device that can be connected to either the landing gear throttle warning switch or the Flap UP Light or Switch and the Landing Gear Down Light or Switch. The pilots headphones are connected to the audio circuit in the IGWD II and should an unsafe condition occur, a loud pulsing tone is heard in the pilots headphones. In the single input mode, Throttle gear safety switch, if the throttle is reduced and the gear is Up, the IGWD II will sound. The two input mode with the flap UP light and the landing gear down light connected to the sensing inputs, provide added safety by ensuring that the landing gear is down before the flaps are lowered. Should the flap UP light go out before the landing gear Down light is on, the warning tone will be enabled. In addition to the warning tone, a warning light output is available for a panel mounted light as well as a Test Switch input. Small size: 3.2"L x 2.3"W x 1.0"H •Adjustable Tone Level •Input triggering for Throttle switch or Landing Gear and Flap Lights or Switches •Remote Test Switch Option •Remote Warning Light •DC voltage range 12 to 28 VDC •Weight, 10 oz •Two Year Warranty •Not Approved for Certified Aircraft.

P/N 11-01943.....**$210.95**

GRETZ AERO AUDIO WARNING TONE GENERATOR



The Gretz Aero GA-TB2 is a very small audio tone generator used to make an audio tone annoucement through your headset advising of a user selected warning function. This warning tone can be used to get your attention for one of a variety of events.

P/N 11-06491 .....**$49.95**

GRETZ AERO AUDIO MIXER

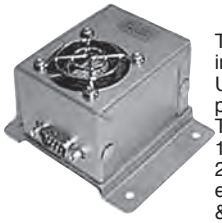
The Gretz Aero GA-AM Audio Mixer is a must have economical item if you have two or more audio sources in your aircraft. If you do not want to install a very costly and panel-space-hungry audio panel, the GA-AM is for you. The GA-AM is light, small and mighty for what it does. It can be mounted out of sight behind the panel in any convenient location with no clumsy modules to have to tie up into your wire harness. Up to nine audio sources can be fed into this device. All of the audio sources are wide range adustable for balance to your system. There is even a wide range output level adjust to make the GA-AM compatable with all intercoms without having to tinker with matching resistors. P/N 11-06490 .....**$149.50**

DIGITAL VOLTAGE MONITOR

Helps pilots monitor critical electrical system. STC approved. Features a Multi Color LED display, which is easily viewable from a wide angle. In the event of an alternator/generator failure, the LED display indicates the reserve battery capacity. The display automatically adjusts to the ambient light for IFR or night operation and also serves as a reminder to turn off the electrical system after flight. Comes in either 12V or 24V models and includes all necessary hardware and FAA Documents. The display must be set to Dot mode for FAA approved installations.

12 Volt Digital Voltmeter .....P/N 10-00752..... **$87.95**
24 Volt Digital Voltmeter .....P/N 10-00753..... **$87.95**

CABIN POWER SYSTEM



The Cabin Power System provides a 12V outlet in the cabin. It consists of a Voltage Regulator Unit (VRU) assembly that is connected to a power outlet mounted within the aircraft cabin. The VRU (pictured) converts aircraft power to 12V @ 1.5A at the outlet. Size: 2-7/8"l x 3.5"w x 2-1/8"h; Wt: 5 oz., the VRU can easily be mounted in a variety of locations. In Cessna 172, 182, & 206 models it is approved for mounting on top of the map compartment behind the instrument panel. STC-PMA'd for Cessna 172,182, & 206 models. System is shipped complete w/Flight Manual Supplement, Instructions for Continued Airworthiness, and Installation Manual. P/N 11-01894 ..... **$345.95**

SKYSPORTS BRIGHT STAR STROBE

Measuring only 4" high by 2 3/4" diameter, it weighs less than 5 ounces! Special dual xenon flashtube arrangement provides ultra-bright flash visible for over 3000' in daylight, much more at dusk and dawn. No separate power pack is required, all electronics are fully contained in the strobe itself. Lens is available in clear, red or green. Each strobe draws less than 300ma. Mounting bracket included. Buy two for wing-tip installation. Must be run from 12 volt battery. Dimensions: 4"x 2.75"(dia) Weight: 4.5 ounces. Features: • Operates on 12VDC (12' lead is hardwired to unit) • Completely self-contained • Water-resistant • Ultra-compact • Meets FAR 103 • Bright 8 joule flash
40 flashes/minute

MINIATURE AEROFLASH SINGLE LIGHT STROBE

A high-intensity anti-collision strobe system producing 10 joules. FAA-PMA approved. Mount on top or belly of fuselage or on vertical fin. The Xenon lamp is designed to produce symmetrical illumination pattern of light 360° around the aircraft and 70° above and below the horizon. Less than 3" dia., 2-1/2" high. Mounts in 7/8" dia. hole and is secured by two screws. Draws 2 amps nominal at 12V. Kit includes light, remote power supply and 15 ft. cable. Light has clear Fresnel lens and strobe tube. Wts: Light 6 oz., Power Supply 20 oz. Hardware NOT included.

STROBES – POSITION LIGHTS - LED LIGHTS

ILLUSION AIRCRAFT STROBE

Powered by the lighting coil of Rotax and other two-cycle engines, this is the most efficient strobe light on the market because it uses only the power normally wasted by the voltage regulator in a battery charging system. It has no effect on the charging system, so you can still connect other equipment to the lighting coil. The two strobe lights flash alternately an average of 55 times per second. Lesser strobe systems fire their lights simultaneously, resulting in a much longer firing cycle because the lighting coil can only develop so much power in a given time. The illusion Strobe use a specialized prismatic Fresnel lens. This lens increase the strobe's effective light intensity up to 8 times. The illusion Strobe works with the new Rotax 170W dual-ignition lighting coils and the standard 125W single-ignition type. It meets Part 103 requirements to add to an extra hour of legal flying time each day. The illusion Strobe comes with 2 lights rated at 25 joules; driver, wire, hardware, instructions, and a two-year manufacturer's warranty.

Dual Wingtip Strobe Sys. ..... P/N 10-00819 ..... **$291.95**
Single Strobe System ..... P/N 11-05911 ..... **$177.95**

FLIGHT STROBE FS 4400

This precision compact unit mounts easily on top or below fuselage, and directly replaces rotating beacons. It features a high-intensity Xenon arc lamp, a high-efficiency push pull inverter circuit for stable flash voltage and a flame-resistant military circuit board assembly. The lamp is readily replaceable without removing the unit from the aircraft, and the unit weighs only 1 lb. 4 oz. The Flight Strobe FS-4400 is visible for over 50 miles at night, in haze, smog or bright sunlight and is manufactured using the highest quality components for maximum reliability and service life. Amp draw 3 Amp. (14V) & 1.5 Amp (28V). STC'D for Cessna 180. FAA form 337 for field approval is required for installation of other certified aircraft. Order adapter separately.

AVEOFLASH LIGHTING

AVEOFLASHLP™ LSA - WING NAVIGATION/ POSITION/ STROBE LED LIGHTS

The Aurora series AveoFlash LSA™ is the incredibly popular light of the light sport, kit, experimental and ultralight industry. At only 83 grams, and with an extremely aerodynamic shape and minimal footprint, the AveoFlash-LP LSA light is now standard on most leading S-LSA and kit planes.
With synchronization as a standard feature, the LSA light is a complete solution for navigation, position and strobe to all international aviation requirements and standards. Available with a variety of mounting adapters and custom composite fairings, the LSA light is extremely easy to install. Encapsulated in the exclusive AveoDiamidium™ formulation, these are virtually unbreakable. Exclusive limited aircraft lifetime warranty there is no risk to ever need to buy another set of wing lights due to LED burnout. Aveo's policy is simple, IF IT FAILS THEY'LL REPLACE IT!
Integrating the most technologically-advanced and brightest LEDs available in the world to the amazing and all-new exclusive AveoOptimizer™ circuitry, the futuristic E-Series are marked as "LP", for "low profile". At a fully 25 mm (1 inch) lower overall height than the 2008 AveoFlash™ lights. Current consumption (for 12V): steady 0.24A flash 1.65A (@ 200ms)..... P/N 11-07360.....**$681.00**

AVEOMAXX 6-IN-1 LANDING LIGHT

AveoEngineering introduces the exclusive next-generation AveoMaxx™ Premiere 6-in-1 embedded wingtip light solution (Landing-Taxi-WigWag, Nav-Pos-Strobe wing lights not included and must be purchased separately).
Unlike all the "Brand X" LED landing light products out there, which are just a collection of commercial TIR lenses placed over some industry standard single LEDs, the AveoMaxx™ is the world's first ultra-high power LED landing light module, incorporating the amazing Aveo MaxiChip™ power and performance.
The AveoMaxx™ uses far less power than competitive products illuminated by mercury-arc, high intensity discharge, or halogen lamps, which means they help to reduce air pollution from carbon emissions. Mercury and Lead-free, this RoHS compliant environmentally - friendly technology helps reduce power consumption and the amount of hazardous waste entering the environment. Finally, a "green" aircraft light!
Please note that this light contains the landing/taxi/wigwag functions and has a mount on its housing for the addition of wing lights. AveoFlash LSA and Ultra wing lights are sold separately and either model is compatible with and able to be mounted on this light's housing.
P/N 11-09675.....**$595.00**

AVEO E-SERIESLP AURORA ANDROMEDA

Exhaustively engineered to the finest optical angles and to ranges that far exceed all certification standards, and also thoroughly and rigorously tested to the latest DO-160F environmental testing standards. Incorporating special highly reflective chrome reflectors that are designed by special software to optimize angular intensities to design requirements, the Andromeda lights are ideal for aircraft that want to be seen at the maximum distance possible, while still enjoying extremely low electrical draw and the absolute minimum drag profile. Encapsulated in the exclusive AveoDiamidium™ formulation, the Andromeda lights are virtually unbreakable and with the exclusive aircraft lifetime limited warranty, there are very few owners who would ever need to buy another set of wing lights again. The Aurora model of the Andromeda is currently available in the HSLP unibody construction..... P/N 11-08427.....**$1,097.00**

AVEO ULTRA EMBEDDED 2-IN-1 POSITION/STROBE LED LIGHT

The Ultra Aurora™ is the higher-output version of the incredibly popular e-series LSA wing lights. Packed with 30 ultra high brightness LEDs that are the industry state-of-the-art in performance, the Ultras still feature the tiny footprint the e-series wing lights have become so well-known for, at only 84 grams they are also unbreakable like all Aveo aircraft lights. Very popular choice for light sport and general aviation aircraft. With full optical testing for brightness and chromacity, the Ultra also completed the rigorous DO-160F testing regime exceeding all requirements. The Ultra has also become the leading winglight solution for numerous military and law enforcement/surveillance UAVs around the world. Encapsulated in the exclusive AveoDiamidium™ formulation, the Ultra wing lights are virtually unbreakable and with our exclusive aircraft lifetime warranty there is no risk to the owner that he will ever need to buy another set of wing lights again.
P/N 11-08135.....**$783.00**

AVEO POWERBURST LIGHT SET

14 Volt Navigation/Position/Strobe LED wing lights [from the AveoEngineering Aurora Series of AveoFlash lighting] At less than an inch in height (0.87 inch/22 millimeters), the new PowerBurst™ wing light will save you on drag. It is a value light that does not sacrifice anything in performance nor in standards as do other economy-priced lights offered by other light manufacturers. Aveo's exclusive and highly advanced optics and chromed reflector system, unmatched power and led management circuitry, and famous lowest-drag profile in the industry are all combined into this product. Plus there is a 3 year limited warranty from Aveo on led burnout. Meets ALL DO-160F Environmental Standards These lights are popular for ultralights, kits, sport, LSA and experimental aircraft. PLEASE NOTE: The PowerBurst™ is only for 14 volt applications. Sold as a pair of lights: one green/white, one red/white. P/N 05-04877.....**$396.00**

AVEO ULTRA AURORA™ 3-IN-1 NAV/POSITION/STROBE LED LIGHTS

An extra-performance model of the wildly successful AveoFlash™ E-SeriesLP, the new Ultra led wing lights feature even more LEDs packed into the same space and are optically optimized through Aveo's comprehensive optics software. The Ultra is for those customers who want phenomenal brightness and can afford the slightly higher cost. Every Aveo LED light comes with the Exclusive free-replacement lifetime warranty to your aircraft -- they are the last lights you will ever need to purchase. This pair of wing lights has a red/ white and a green/ white led lighting combination for navigation/ position/ strobe. The voltage input range is from 9 – 32 volts. NO external power supply or strobe box is needed. These aircraft lights meet both TSO C30c and C96a design specifications and EXCEED the requirements of TSO C30c, C96a, SAE AS 8037 and AS8017a, plus DO-160B. P/N 11-07933 .....**$783.00**

POSISTROBE MINIMAX™

• 2-in-1 Position & Strobe , popular miniature anticollision light for Trikes, PPC, UAVs, ultralights • Extremely lightweight at only 53 grams • 9-32 volt input range • No external power supply or strobe unti, an Aveo world first • Light synchronization feature • Unbreakable Diamidium encapsulation • Exclusive Lifetime Warranty
Red - 9-32V ..... P/N 11-08127.....**$339.00**
White - 9-32V..... P/N 11-08134.....**$339.00**

POSISTROBEXP™

PosiStrobeXP™, a higher performance mini-position / strobe, the all-new and super bright PosiStrobeXP™. Integrating the most technologically-advanced and brightest LEDs available in the world to the amazing and all-new exclusive AveoOptimizer™ circuitry. White / White 9-32V. Exclusive limited aircraft Lifetime Warranty.
P/N 11-07361.....**$305.00**

AVEO BARON MAXI

The RedBaron Maxi™ version incorporates 40 of the brightest LEDs available in the world today, with chromacity and intensity compliant to all international aviation and safety standards. The optical performance is incredible, and these are the ideal replacement unit for any anticollision light system in existence. Features: Popular miniature anticollision light for certified aircraft requirements, Extremely light weight, 9-32 volt DC input range No external powersupply or strobe unit, Lightsynchronizationfeature, Minimumdragprofile, Unbreakable Diamidium™ encapsulation Exclusive Life time Warranty, Unmatched circuit technology Advanced computer and goniophotometer engineered optics. White P/N 11-08425 .....**$739.00**

TRIKEPAK AVEO TRIKE MOUNT SYSTEM

The Aveo Trike Mount Systerm is an extremely lightweight adapter to mount your Aveo lights to your trike or ultralight frame. Mount system versions include adapters for holding the Aveo Wing, Posistrobe, and Powerburst lights.
Features: Aluminum construction with stainless bolts. Extremely lightweight. Hinged at two points to permit quick angular mount adjustment to meet lighting requirements. Aveo Lifetime Warranty. 9-32 volts Aveo lights operation.
For Wing Light .....P/N 11-09976 .....**$89.00**
For Posistrobe .....P/N 11-09977 .....**$89.00**

AVEOFLASH LIGHTING

AVEO RED BARON MINI LED LIGHT

The RedBaron Mini™ is a cousin to the RedBaronXP™, the world's smallest and brightest total coverage LED anticollision light. The new RedBaron Mini™ resulted from requests by high-performance racing aircraft, super lightweight UAVs in the defense industry, and aircraft/helicopter manufacturers who wanted an upper and lower anti-collision light due to mounting area constraints. The answer came in this incredible new light, only 27 mm high and only 110 grams in weight. Exceeding all TSO intensity requirements and all DO-160F environmental requirements, the RedBaron Mini™ is now the world's smallest anti-collision light.

White ..... P/N 11-10534 .... **$495.00**

AVEO REDBARON ADAPTER

If you are replacing a Whelen anticollision light, this adapter by Aveo is designed to match up perfectly with your existing mounting site.

Adapter works for following Whelen models:
• A450 • A470A • 7108001 • 7108006 • 7108051 • 7105500 • 7105501 • 9052001 • 9052051

Specifications: Universal holes (4x1.75" x 4x1.625", 4x1.25"). Color: Silver.

P/N 11-10631 ..... **$69.00**

AVEO REDBARON MAXIMINI RECOGNITION LED LIGHT

Introducing the Aveo MaxiMini™ - the ultimate recognition light. Spawned from the incredible technology of the incredible and unmatched RedBaron™ AntiCollision series, the new MaxiMini™ is the world's brightest and smallest recognition light, at only 27 mm high and weighing only 85 grams. The MaxiMini™ only comes in aviation white led color, since it is 43% brighter than red leds, which means you will BE SEEN, NOT SORRY for sure! And of course, the EXCLUSIVE AVEO LIFETIME WARRANTY means your investment is protected. The MaxiMini™, when only the best and the brightest will do. Features include: Exclusive Lifetime Warranty, Unbreakable Diamidium™ encapsulation, 9-32 Volt Input Range, Vibration Proof, Waterproof, Lowest Drag Profile recognition light, Anodized aluminum finish, Extremely light weight..... P/N 05-04934 .... **$599.00**

AVEO MAXX HERCULES LED LANDING / TAXI / WIGWAG LIGHT

The AveoMaxx™ uses far less power than competitive products illuminated by mercury-arc, high intensity discharge, or halogen lamps, which means they help to reduce air pollution from carbon emissions. Mercury and Lead-free, this RoHS compliant environmentally - friendly technology helps reduce power consumption and the amount of hazardous waste entering the environment. Finally, a green aircraft light!

All fit the standard PAR 36. The brightest model (intensity of 30) contains TCAS sensing for automatic trigger of recognition wig-wag mode.

10..... P/N 05-06496 ..... **$649.00**

AVEOMAXX LANDING LIGHT

AveoEngineering introduces the exclusive next-generation AveoMaxx™ landing/taxi/wig-wag light module.

Unlike all the "Brand X" LED landing light products out there, which are just a collection of commercial TIR lenses placed over some industry standard single LEDs, the AveoMaxx™ is the world's first ultra-high power LED landing light module, incorporating the amazing Aveo MaxiChip™ light-emitting surface power and performance assembly.

The AveoMaxx™ technology features a solid state light source that integrates the benefits of both LED and laser technologies. A unique lattice structure results in maximum surface emission from a one square centimeter massive LED source - resulting in uniform and unequalled brightness over the entire LED chip face, exceeding up to 2500 lumens per chip. This optical power and brightness for the first time allows an LED-configured light to replace arc or halogen lamps in applications like landing lights, where arrays of traditional LEDs cannot. With an amazing lumen retention level of over 70% after 60,000 hours, and 100,000 hour design life, these lights will far exceed the lifetime of the aircraft.

Features include:

- AveoMaxx configuration incorporates the internal custom optic RockyReflector™ system
- Taxi Light and WigWag function from the exclusive custom optics of a second proprietary RockyReflector™ module with 18 integral Hi-Power LEDs dedicated to these functions alone
- Integral custom PowerOptimizer™ supply and AveoSmartController™ circuitry eliminates bulky external strobe or power boxes as pioneered only by Aveo in all of its products for more than 3 years
- 5 Options of heat pipe and heat sink integral to the housing for maximum operating efficiency
- For inside-cowling or other location mounts, the AveoMaxx™ is an aero dynamically streamlined module that is versatile enough to be mounted in the optimum location for your particular aircraft.
- In the cockpit, simply add Aveo RockRack™ led-backlit custom icon rocker switches for the ultimate control of your entire aircraft lighting system, with specific icon switches to control all functions
- AveoMaxx™ features an adjustable tilt mounting system the Aveo Maxx™ lights can be set to the optimal angles for your aircraft operating requirements with the simple turn of a screwdriver

The AveoMaxx™ uses far less power than competitive products illuminated by mercury-arc, high intensity discharge, or halogen lamps, which means they help to reduce air pollution from carbon emissions. Mercury and Lead-free, this RoHS compliant environmentally - friendly technology helps reduce power consumption and the amount of hazardous waste entering the environment. Finally, a "green" aircraft light!

P/N 11-09676 ..... **$573.00**

AVEO EYEBEAM MINI

Aveo's incredible capacitive-sensing technology from its highly popular EyeBeam Touch™ products has now been engineered into an even smaller footprint, providing a one-color LED cabin/cockpit/area lighting product for those with limited installation space or only simple lighting needs.

With one light finger touch you can control the power and the brightness scale and the light easily swivels to put the beam where you want it. No mechanical switches to fail, no bulbs to burn out. The EyeBeam Mini™ comes with a variety of easily-applied color faceplates, with standard colors of silver and black. The EyeBeam Mini™ is made from anodized aircraft grade aluminum.

Cockpit and cabin lighting, especially on aircdraft, helicopters, boats, recreational vehicles and trucks are plagued by problems from vibration... the EyeBeam™ product line from AveoEngineering overcomes this with a vibration-proof product that has the exclusive Aveo lifetime warranty.

Featuring: • 9-32 volt input range • No external power supply • Swiveling light permits light beam control • Capacitive sensing touch controls • No mechanical switches to fail • Exclusive Lifetime Warranty • Unmatched circuit technology

Silver ..... P/N 11-09678 ..... **$168.95**
Black ..... P/N 11-09679 ..... **$168.95**

AVEO EYEBEAM DOME

EyeBeam Dome™ - Remote Touch Control Interior LED Light The EyeBeam Dome was developed to meet the requests of an interior dome light for all aircraft, that would complement the amazing Aveo EyeBeam products, and their unique touch-controls. Long gone are the days of mechanical switches which can corrode and spark, etc. Available with a remote control finger-slide panel for intensity and operation.

Black ..... P/N 11-10627 ..... **$211.95**

AVEOFLASH LIGHTING - ROCKRACK SWITCHES

AVEOFLASH WING FAIRING E SERIES

The wing fairings come in a molded fiber-glas pair that fits the LSA and Ultra lights footprint. Cessna 150-180 fairings for wing nav lights - pair of right and left.

P/N 11-08136.....**$99.00**

AVEO EYEBEAM TOUCH LIGHTS

Introducing the revolutionary EyeBeam Touch™ LED Cockpit/Map/Cabin light system. With both red and white led lights included as standard and led backlighting of its touch control panel, the Eye-Beam Touch™ light swivels to adjust your beam to where you want it. Integral Capacitive Sensing processor technology in the EyeBeam Touch™ means no more buttons to locate and push and no more mechanical failures. Just a simple swipe of your finger to adjust brightness on the dimming slide bar is all it takes. For those flimsy headliners in your cockpit there is finally a light that will not be pressed into your roof to select what you need!

The EyeBeam Touch™ light is available in white, black or silver finish. Extra face plates available and sold separately.

Capacitive sensing technology means a simple light touch of your finger, with or without gloves, to turn the light on/off, select red or white led lighting, and adjust the brightness -- all with the quick touch of your finger.

The advantages of capacitive sense technology now used in many smartphones and other electronic devices are clear:

- Eliminates ugly and worn-down mechanical buttons and sliders
- LEDs replacing bulbs means extremely low electrical load
- Resistant to environmental factors: water, temperature, humidity
- Power supply: 9-32 volts
- Current Cunsumption:110 mA @ 12Volts
- Capactive Sensing Interface with LED backlighting
- 9 incremental step capacitive sensing slide bar for brightness adjust
- 2 x Red LEDs
- 2 x White LEDs
- Swiveling Beam
- 2024 Anodized Aluminum Construction

AVEO EYE BEAM TOUCH NVG

The popular Aveo EyeBeam Touch™ capacitive sensing controlled cockpit and cabin lights are now available in NVG configuration, that is they include green LED lighting compatible with night vision equipment. Also included with the NVG model EyeBeam is the standard selection face-plate locations of white, red and blue LEDs too, so whatever your operational conditions there is a lighting option to match it available from this amazing product. With one light finger touch you can control power, white LED, red LED, green LED, blue LED or the brightness slider scale easily with no mechanical switches to fail and no bulbs to burn out.

The EyeBeam NVG™ also features as standard in its firmware automatic light dimming to OFF and automatic ON for the light when coupled to a door microswitch sensor. With a standard 2 minute delay programmed in. The EyeBeam overcomes this with a vibration-proof product that has the exclusive Aveo lifetime warranty. Features: 9-32 volt input range, No external power supply, Swiveling light permits light beam control, Capacitive sensing touch controls, No mechanical switches to fail, Exclusive Lifetime Warranty, Unmatched circuit technology. Specifications: Power supply: 9-32 Volts, Current consumption: 110 mA @ 12 Volts, Capacitive Sensing Interface with LED backlighting, 9 Incremental steps capacitive sensing slide bar for brightness adjust, Swiveling Beam, 2024 Anodized Aluminum Construction

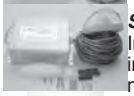
KUNTZLEMAN STROBE SYSTEMS

KUNTZLEMAN MAGNUM STROBES

The ***SINGLE MAGNUM SMART STROBE*** Driver is a state of the art single strobe light system. There is not another system on the market like this one. It will operate on 10 to 80 volts of AC or DC input power. It can be powered directly from the engine lighting coil (AC) or from a battery (DC) without any change in brightness or its double wink flash pattern at a 74 per min. rate There are NO options to change and NO special equipment needed. This model is a favorite for king post installations and with the PPC flyers. It is also available with either the standard STREAMLINE HEAD or the COMBO STREAMLINE WHITE HEAD. Both are popular for tail mounting. Average current draw is less than 2 Amps. The driver measures 4 ½" X 3 ½" X 1 ½" and weighs 10 ounces.

Smart Strobe Driver Box only - Single Magnum Smart Strobe driver only, without a strobe head. SS-DO
P/N 11-05116.....**$110.00**

Single Magnum Smart Strobe with round clear Fresnel Head - The globe style is a Fresnel lens. The head comes with 6' of wire and plug attached. SS-TM
P/N 10-01609.....**$149.00**



Streamline Model with Driver and Streamline Head - Includes 25' of 3 conductor wire, plug, pins and mounting hardware (includes adaptor plate for curved surface mounting if needed). SS-SLM P/N 10-01611 .....**$149.00**

SINGLE MAGNUM SMART STROBE DRIVER with a Round Taillight Strobe - Includes 25' of wire and mounting hardware. SS-TL-STR... P/N 11-07345.....**$198.95**

STREAMLINE COMBO Head, White Led & Strobe Combination - Includes 25' of 5 conductor shielded wire, plug, pins and mounting hardware (includes adaptor plate for curved surface mounting if needed). SS-SLCW
P/N 11-05114.....**$239.95**

ROUND TAILLIGHT COMBO Head - White Led & Strobe Combination Includes 25' of wire and mounting hardware. SS-TL-L/S ..... P/N 11-07346.....**$231.95**

The ***DOUBLE DUAL MAGNUM STROBE*** Driver is available in two models, the DDM 12 volt DC model and the SDDM smart model. The SMART Model simply means it can be powered by 10 to 80 volts of AC or DC. The 12 volt model is powered by the 12 volt electrical system of your aircraft. The strobe bulb fires a rapid double flash on one head and then the other in an alternating pattern. The first flash catches the eye and the second identifies your position. Total flash rate is 74 per min. Average current draw is less than 2 Amps. The driver measures 4 ½" X 3 ½" X 1 ½" and weighs 10 ounces.

Double Dual Magnum Driver Box Only - 12VDC Driver Box Only 12 volt Model DDM-DO ..... P/N 11-05118.....**$139.95**

Double Dual Magnum Smart Driver Box Only - Smart Model (10 to 80 volts of AC or DC)SDDM-DO ..... P/N 11-05117.....**$160.00**

Double Dual Magnum Driver Box with round clear Fresnel Heads - Two Round Fresnel Heads, driver, 6' of 3 conductor wire, plugs, pins, and installation hardware (Tang Mount used on PPC, TRIKES, or where bolting heads to frame is desired).

STANDARD - 12 VDC Model with /ROUND FRESNEL heads DDM-RH
P/N 10-01610.....**$228.00**

SMART - with /ROUND FRESNEL headsSDDM-RH
P/N 11-04956.....**$247.95**

Double Dual Magnum Driver Box with standard streamline Heads - Two Streamline Heads, driver, 50' of 3 conductor wire, plugs, pins, and installation hardware (includes adaptor plates for curved surface mounting if needed).

STANDARD 12 volt Model with Driver and Two STANDARD STREAMLINE Heads. ..... P/N 10-00824.....**$228.00**

SMART - model with with Driver and Two standard streamline Heads SDDM-SL ..... P/N 11-04995.....**$247.50**

Two ***STREAMLINE COMBO*** heads, driver, 50' of 5 conductor shielded wire, plugs, pins, adaptor plates (for curved or flat surface mounting) and installation hardware. SONEX Aircraft adapter plates available at no additional charge when mentioned at time of purchase.

COMBO - 12 VDC Model with Streamline Combo Heads DDM-SLC
P/N 11-04835.....**$379.00**

SMART - with Streamline Combo Heads SDDM-SLC
P/N 11-04957.....**$397.95**

KIT #1 IS A SET OF SPECIAL HEADS - For builders of RV 7, 9, & 10 aircraft or any other kit that has like mounted wing lights. Due to the wing light configuration on these aircraft, the white rear facing LED on the regular Combo head is of no use, because it can't be seen from the rear. A white position or tail light is then needed. These are strobe and red / green position light equipped heads No white LEDs, a 2 strobe driver box, that fires both wing strobes in an alternating double wink pattern, a white round LED equipped tail light to be mounted at the rear of the aircraft. 50 feet of 5 conductor shielded wire for the wings, plugs, pins and mounting hardware. Total power draw for this system is about 2 ½ Amps at 14 volts. ..... P/N 11-05833.....**$465.00**

The ***TRIPLE MAGNUM 3 LIGHT STROBE*** Driver is a 12 volt DC operated system. It fires 3 strobe heads in a double wink pattern. The two wing tip lights alternate between left and right while the tail, or third light is synchronized to flash every time one of the wing tips are flashing. Resulting in about 140 flashes per minute. Driver box measures 4 ½" X 7" X 1 ½", weighs 17.2 ounces. Current draw with 3 standard heads is about 3 amps. If using two COMBO heads and one standard head it is about 3 ¾ Amps .

Triple Magnum 3 Light DRIVER BOX ONLY - 12 volt Model TRI3-DO..... P/N 11-01355.....**$230.00**

TRI 3 DRIVER with 3 STANDARD HEADS, Streamline or Round. - with 3 standard SL or ROUND FRESNEL heads, please specify. Complete with 75' of wire, plugs, pins, adaptor plates (for flat or curved surface mounting) and all the installation hardware. TRI3-SLP/N 11-01829.....**$375.00**

TRI 3 DRIVER with 2 COMBO HEADS & 1 STREAMLINE, ROUND FRESNEL or TAILLIGHT HEAD - The TRIPLE MAGNUM 3 light system with 2 COMBO & a choice of either 1 Standard Streamline Head, 1 Round Fresnel head or 1 Round Tail Light without LEDs (Additional cost for the Round Tail Light) for the third head, please specify. Complete with 75' of shielded wire, plugs, pins, adaptor plates (for flat or curved surface mounting) and all the installation hardware. (Please specify choice at time of order) TRI3-SLC ..... P/N 11-05125.....**$579.95**

TRI 3 DRIVER with 3 COMBO HEADS - The TRIPLE MAGNUM 3 light system with 3 COMBO heads, please specify Streamline Combo or Round Tail light Combo for third head. Complete with 75' of shielded wire, plugs, pins, adaptor plates (for flat or curved surface mounting) and all the installation hardware. The tail COMBO heads both have a strobe and white LEDs to be used as a STROBE and WHITE tail light. TRI3-SLCW
P/N 11-05119.....**$599.95**

KIT #2 IS A SET OF SPECIAL HEADS - For builders of RV 7, 9, & 10 aircraft or any other kit that has like mounted wing lights. Due to the wing light configuration on these aircraft, the white rear facing LED on the regular Combo head is of no use. A white position or tail light is then needed. They are STROBE and RED / GREEN Position light equipped heads WITHOUT the white LEDs, a 3 strobe driver box, that fires both wing strobes in an alternating double wink pattern and a third STROBE and LED equipped round tail light for mounting at the rear of the aircraft. The tail strobe fires in sync with each wing. Also, included is 75 feet of 5 conductor shielded wire, plugs, pins and mounting hardware. Total power draw for this system is about 4 Amps at 14 volts. TRI3-RV ..... P/N 11-05834.....**$584.00**

KUNTZLEMAN REPLACEMENT PARTS AND ACCESSORIES

Standard Streamline Head Assembly - Silicon and lexan head measures 3-1/4" x 1" and weighs 1.8 ounces each. (bulb unit, clear lens, adapter plate, 25 feet wire, plug, pins, hardware and heat shrink) SL-HA
P/N 11-05127.....**$49.95**

Standard Streamline Bulb Unit - Less lensSL-BU
P/N 11-05128.....**$39.95**

Strandard Streamline Lens Only - SL-L. P/N 11-05130.....**$9.95**

Round head Assembly - Round clear Fresnel lens. Measures 2-1/2" dia. at the base and 3-1/2" tall. Weighs 6 ounces, and standard 6 ft. wire and plug installed. RND-HA -CLEAR ..... P/N 11-05135.....**$39.95**

Round Clear Fresnel Lens - RND-L..... P/N 11-05139.....**$9.95**

Round Wire Bulb Unit - Works on all Magnum drivers.
RND-3WBU - 3 Wire.... P/N 11-05137.....**$29.95**

Combo Streamline Head Assembly - Fitted with LED position lights. Measures 3-1/4" x 1" and weighs 2.8 ounces. 12 volt LEDs draw only (complete 2 head & wire) SL-HAC-S..... P/N 11-07465.....**$249.95**

SL-HAC-G - Green & White aft LEDs(1 head & wire)
SL-HAC-G..... P/N 11-07466.....**$89.99**

W/O Strobe Bulb SL-HAC-WG ..... P/N 11-07348.....**$89.99**

SL-HAC-R - Red/Wh aft LED SL-HAC-R.. P/N 11-07467.....**$129.95**

W/O Strobe Bulb SL-HAC-WR ..... P/N 11-07349.....**$89.99**

SL-HAC-W - White aft LEDsSL-HAC-W ... P/N 11-07469.....**$129.95**

W/O Strobe Bulb SL-HAC-W..... P/N 11-05132.....**$89.00**

Combo Streamline - REPLACEMENT Strobe Bulb Unit Only, fits SL and ROUND Combo tail light heads..... P/N 11-05133.....**$39.95**

Combo Streamline - LENS Only SL-LC... P/N 11-05134.....**$9.95**

Round Taillight with Strobe Only..... P/N 11-05805.....**$92.75**

Round COMBO Taillight..... P/N 11-05804.....**$129.95**

Round Taillight with LEDs TL-LED..... P/N 11-05806.....**$96.75**

Strobe Head Plug Set - SH-PS..... P/N 11-05140.....**$2.50**

Inline Plug Set - IL-PS..... P/N 11-05141.....**$4.95**

Trike Mount Adaptor Kit - TRK-MT..... P/N 11-05143.....**$27.95**

3 Wire Cable Extension - EXT-3W..... P/N 11-05142.....**$10.85**

Mounting Kit - RND-MK..... P/N 11-07347.....**$27.95**

WIG-WAG circuit and a DPDT center off switch to operate 1 or 2 LTRs in a wig-wag mode..... P/N 11-08419.....**$48.75**

EL

KUNTZLEMAN STROBE – AEROLEDS

KUNTZLEMAN SELF CONTAINED 12 VDC STROBE

The SC103 STROBE is a self contained 12 volt DC operated light designed specifically for Ultralight use where an external 12 vdc power source (battery) is available. Its physical size is the smallest of any self contained strobe light in its class. Measuring2 ½" dia. At the base and 4" tall. Using the same xenon flash tube and Fresnel lens that is currently being used on its big brother the Single Magnum Smart Strobe. The brightness has been actual flight tested before sunset and is visible at 3 statute miles (FAR 103 requirement). The flash is in a single wink pattern at about 42 per minute, power consumption is 500 ma (1/2 Amp) and it weighs only 7 ½ ounces. The SC103 is mounted with a 1/4 X 20 stud located in the center on the bottom of the unit. Also, a stainless steel tang is supplied. Its rugged construction makes it a great economical stand alone unit. P/N 11-04098..... **$99.85**

SHOCK MOUNT - Designed to be used when mounting the SC103 strobe in an area of high vibration. P/N 11-06251..... **$14.95**

KUNTZLEMAN LANDING/TAXI/ RECOGNITION (LTR) LIGHTS

LSA and EXPERIMENTAL aircraft line of lights. Made in the USA, called the LTR which stands for Landing-Taxi-Recognition. The LTR consists of 9 extremely bright LEDs, focused through special lenses. This results in a white beam of light that has been measured with a light meter to be 2 1/2 times the brightness of a 55 watt halogen lamp while drawing 1/3 the current and 1 1/2 that of an HID lamp at about the same current. Powered by 12 to14 volts DC it uses only 1.35 Amps of power. The LTR dimensions are 3" Dia. X 1" deep and weighs less than 6 ounces. Flashing it on & off can be accomplished with an led flasher from your local auto parts store. You must see the LTR in operation to believe the light output. Sold with a money back satisfaction guarantee. P/N 11-06854.....**$229.00**

KUNTZLEMAN HOT BOX

The HOT BOX is a complete electrical system intended for use with an electric starter equipped engine. The box contains a heavy duty regulator, starter solenoid, custom length cables, labeled terminal strips, a fuse panel and many more features.

Hot Box with Regulator HB..... P/N 11-05144.....**$240.00**
Hot Box no Regulator HB ..... P/N 11-05145.....**$208.95**

COURTESY LIGHTS FOR CESSNA AIRCRAFT

This unique LED lighting system operates from a standard 9 volt battery. The system is designed to replace one or more inspection panels on the bottom of each wing with a new inspection panel and a battery operated LED light. This LED will provide lighting around the aircraft for loading passengers or assisting in preflight inspections during night time operations.

The LED has been designed and tested specifically for aircraft applications where altitude and temperature fluctuations can destroy certain components of a standard LED. The unit is also equipped with an indicator to assist the pilot in finding the switch in the dark. A timing feature allows the operator to run the light for either 3 or 15 minutes after which time the unit will shut itself off. Available with your choice of 5 different sized inspection panels. STC' d for many models of Cessna Aircraft.

Visit or website for aircraft eligibility list.

Description	Part No.	Price
Courtesy Light with 5-1/16" Inspection Panel (Most Common)	11-05741	**$119.85**

Courtesy Light with 7-9/16" Inspection Panel.	11-05745	**$119.85**

AEROLEDS SUNRAY PLUS LANDING LIGHT

The SunRay Plus is a wing-mounted LED (Light Emitting Diode) landing light with a built-in wig wag feature in addition to its standard operation as a landing/taxi light. The SunRay Plus is a very intense light source that uses 4 high power LED's to produce up to 1,000+ lumens of light and 30,000 candela using 10 watts of power.

Each SunRay Plus light uses less than half the power of an equivalent 55 watt halogen light while producing more usable light in a more narrow beam. The LED light source last up to 50,000 hours of constant operation, so you will never have to replace this light once it has been installed. It will outlast both Halogen and HID lamps. The SunRay Plus is protected against overheating with a built in protection circuit, is protected from lightning transients and ESD, voltage spikes, reverse voltage, and undervoltage conditions.

Polycarbonate leading edge windows are commonly used with wing-mounted landing lights, and are typically available for most airplane types from a number of third-party suppliers. This light is small enough to fit in the wingtip cutout found in Van's RV kits.

Specifications: Power: 17 Watts, Voltage: 9-36 VDC, Lumens: 1,000+, Lens Material: Polycarbonate, Candela: 25,000+, Beam Angle: 10 Degrees, Rated Life: 50,000 Hours, Temperature Range: -55C to +70C, Weight: 5 oz, Dimensions: 2.7" x 2.7" x 1.7" P/N 11-09348 .....**$289.95**

AEROLEDS PULSAR NAV/ STORBE

An all LED navigation/position/ strobe designed for the wingtips of an aircraft and exceeds 400 effective candela for the anti-collision light. The Pulsar is the same size as the traditional forward and rear facing position light with anti-collision. The Pulsar does not require an external power supply and will retrofit the mounting footprint of traditional legacy lighting. Specifications: Voltage Range: 9-36 VDC, Length: 5.6", Current Draw at 12VDC: 1.7 Amp Avg / 4.5 Amps Peak Width: 1.8", Power Consumption: 20 Watts Avg, Depth: 1.5", Strobe Power Supply: Built In, Weight: 4 Oz, Strobe Synchronization: Built In, Heat Sink Material: Clear Anodized Aluminum, Thermal Protection: Built In, Lens Material: Polycarbonate, Nav/Position Light: Exceeds 100 candela, Screw Mount: 3x 6-32 Machine Screws, Strobe: Exceeds 400 effective candela, Rated , Temperature Range: -55C to +70C

P/N 11-09349 .....**$985.00**

EPL POSITION LIGHTS & STROBES

The new LED technology allows excellent navigation lights with only approximately 10% of the input power, compared with conventional navigation lights. The casting in a high-optical plastic makes the EPL (Electronic Position Light) absolutely insensitive against water, vibrations and other environmental influence.

The efficiency of the output is much higher than with conventional electric light bulbs. The self-warming of the EPL is low and can be determined as safe. To avoid overheating, the heat balance is controlled electronically. As a precaution you must pay attention to ventilation with a cover installed, so that no heat accumulation within the casing can appear. This may be assumed by suitable constructive measures. These lights are manufactured in Germany.

EPL Wing Tip Light Set(1 red, 1 green)..... P/N 11-05120.....**$349.95**

LED TASK LIGHT MODULE 24V WHITE

The LED task light features a rain and brake light, two separate functions in the same package. The LED task light module has a high flash rate which is important in attracting attention in low visiblity conditions. This is a three wire unit with wires for Brake, Rain and battery negative. It uses LOW power, so minimal that you can power it from a single 9 volt battery. Low drain on battery and alternator equals more horsepower, more valuable horsepower available to win races. No resistor to install or break like other LED lights.

Specifications: 18 Super Bright White LEDs, Solid State LED Less power than an incandescent bulb which uses 1.8 amps ore more, High vibration resistant, Waterproof, Made In USA, Operating voltage range 5vdc to 18vdc, Dimensions: 2.7"x2.5"x0.89"

P/N 11-02881.....**$74.95**

RECESSED MOUNT LED LIGHT FIXTURE

Recessed mount convenience light. 3 Bright LEDs behind a frosted panel. Recessed mount with hardware. Dimensions: 2.25" x 2.25" x .5" depth. #6 mounting holes with snap on cover. 12 Volt DC or 24 Volt DC, very low power drain (0.1mA). Applications: Mounts flush into foot wells, door panels, and side panels. Ideal as a convenience light, mp light, or chart light.

AEROLEDS SUN SPOT 36LX LED LIGHT

Designed as a LED drop in replacement for the existing GE4509 PAR 36 aircraft lights. Landing light projects 30,000 candela using 30 Watts/3 AMPs max of power. Taxi light projects 10,000 candela. Mounts with existing ring clamp. Power consumption: 30 Watts Max; Current Draw at 12VDC: 3 Amps Max Available in taxi or landing lights. Clamp Mount: Par 36 Ring Clamp. Over-temp Sense Protection; ensures our 50,000 hour lifetime guarantee. Low-voltage Sense (shuts down half the LED's in emergency, low voltage conditions) Specifications: Power: 30 Watts, Voltage: 9-36 VDC, Lumens: 2,400, Weight: 10 oz, Dimensions: 4.2" x 4.2" x 1.5".

AEROLEDS SUN SPOT 36HX LANDING LIGHT

LED drop-in replacement for your existing GE4509, PAR36 aircraft lights. It comes with an integrated "wig-wag" or "pulse" feature built into the light that is recommended to be used throughout your flight to increase recogniton from other pilots. Landing light projects 45,000 candela using 45 Watts/3.75 AMPS max of power. Taxi light projects 15,000 candela. Power consumption: 45 watts Max; Current Draw at 12VDC: 3.75 Amps Max Available in taxi or landing lights. Clamp Mount: Par 36 Ring Clamp. Built in Wig/Wag (stand-alone or synchronous with any of our other products). Over-temp Sense Protection; ensures our 50,000 hour lifetime guarantee. Low-voltage Sense (shuts down half the LED's in emergency, low voltage conditions) Specifications: Power: 45 watts, Voltage: 9-36 VDC, Lumens: 3,600 Weight: 10 oz, Dimensions: 4.2" x 4.2" x 1.5".PMA APPROVED

Landing Light ..... P/N 11-09353 ..... **$437.00**
36HX Taxi Light ..... P/N 11-09355 ..... **$489.95**
They strongly recomend adding the Pro-tech lens coating which comes with a lifetime warranty on the lens for damage caused from rocks and debris. ..... P/N 11-08143 ..... **$34.50**

AEROLEDS SUN SPOT 46 LED LIGHT

Power: 85 Watts . Voltage: 10-36 VDC. Lumens: 6,500+. Weight: 20 oz. Dimensions: 5.6" x 5.6" x 2.3".

46 Landing Light ..... P/N 11-09347 ..... **$895.00**
46 Taxi Light ..... P/N 11-09350 ..... **$895.00**

AEROLEDS SUN SPOT 64 LED LIGHT

Over 17,000 lumens, drawing 224 watts. Allows the aircraft to be visible from 10 miles away, day and night. Specifications: Voltage Range: 15-36VDC, Current Draw at 28VDC: 8 Amps Max, Power Consumption: 224 Watts Max, Thermal Protection: Built In, Landing Lens Candela: 290,000+, Taxi Lens Candela: 105,000+ Landing Beam Angle: 10 Degrees Taxi, Beam Angle: 10 Deg up, 40 Left/Right, Total LED Lumens: 17,000+, LED Count: 8, Height: 8" Round, Width: 8" Round, Depth: 2.7", Weight: 35 Oz, Heat Sink Material: Black Anodized Aluminum, Lens Material: Polycarbonate, Clamp Mount Option: PAR 64 Ring Clamp, Rated Life: 50,000 Hours, Temperature Range: -55C to +70C. ..... P/N 11-09458 ..... **$1,586.00**

SUNBEACON B LED / RED

The 01-1200-A Sunbeacon B is an all LED red 360 degree beacon that exceeds 150 effective candela. It is suitable for mounting on the top or bottom of a fuselage, or on the vertical stabilizer to provide a highly visible red beacon that can be seen from any direction around the aircraft.

Sunbeacon Red ..... P/N 11-10475 ..... **$868.00**
Sunbeacon White ..... P/N 11-10476 ..... **$985.00**

AEROLEDS MICROSUN LANDING LIGHT

The MicroSun is a wing-mounted LED (Light Emitting Diode) landing light with a built-in wig wag mode in addition to its standard operation as a landing/taxi light. The MicroSun is a very intense light source that uses 12 high power LED's to produce up to 1500+ lumens of light using 20 Watts of power. The MicroSun is equivalent to an AeroSUN 1600. P/N 11-07779 ..... **$334.50**

AEROLEDS SUNTAIL TAIL LIGHT

SunTail™ is designed to perform the tail position/strobe functionality on the rudder of the aircraft. The design addresses all the shortcomings of the existing line of competitive products and can synchronize its strobe with any of the AeroLEDs' wingtip family of nav/strobe and nav/position/strobe products. Suntail does not require an external power supply and will retrofit the mounting footprint of legacy lighting. SunTail™ was intended to meet or exceed all of the FAA requirements for certification.

White Experimental ..... P/N 11-07781 ..... **$369.00**
Red Experimental ..... P/N 11-10474 ..... **$369.00**
White Certified ..... P/N 11-10479 ..... **$464.95**

1600 LED LANDING LIGHT

The 1600 is a wing-mounted LED (Light Emitting Diode) landing light with a built-in wig wag mode in addition to its standard operation as a landing/taxi light. Made from extruded aluminum, is a very intense light source that uses 8 high power LEDs to produce up to 1600 lumens of light using just 24 Watts of power. The product is ideal for closed or open environments. Each uses one fourth the power of an equivalent 100 Watt halogen light while producing as much usable light. The LED light sources last up to 50,000 hours of constant operation. The unit is completely sealed and is very rugged. The 1600 is protected against overheating with a built in protection circuit, is protected from lightning transients and ESD, voltage spikes, reverse voltage, and undervoltage conditions. For installation on experimental category airplanes.

Sold each ..... P/N 11-05797 ..... **$324.95**
Mounting Kit (Single) ..... P/N 11-08144 ..... **$19.95**
Pro-Tech Lens Coat ..... P/N 11-08143 ..... **$34.50**

AEROLEDS NS90 WINGTIP STROBES

An all LED navigation/strobe designed for the wingtip cutouts of an aircraft and project a 90 degree light coverage for the experimental market. NS90 does not require an external power supply and will retrofit the mounting footprint of legacy lighting. It is recommended that the SunTail be sold with the NS90 for aft position/strobe to enhance recognition. Specifications: Power: 10 Watts, Voltage: 9-36 Vdc, Weight: 4oz. P/N 11-08170 ..... **$759.00**

AEROLEDS NS180 WINGTIP STROBES

An all LED navigation/strobe designed for the wingtips of an aircraft and projects 180 degree light coverage. NS180 does not require an external power supply and will retrofit the mounting footprint of legacy lighting. It is recommended that the Suntail be sold with the NS180 for aft position/strobe to enhance recognition. Power: 18 Watts. Voltage: 9-36 Vdc. Weight: 4oz

Experimental ..... P/N 11-08171 ..... **$868.00**
Certified ..... P/N 11-10477 ..... **$1,079.00**

AEROLEDS NSP WINGTIP STROBES

An all LED navigation/position/strobe designed for the wingtips of an aircraft and project a 180 degree light coverage that exceeds 400 effective candela for the anti-collision light. NSP does not require an external power supply and will retrofit the mounting footprint of traditional legacy lighting.

Experimental P/N 11-08172 ..... **$895.00**
Certified P/N 11-10478 ..... **$1,122.00**

AEROLEDS PULSAR EXP STROBES

All LED navigation/position/strobe designed for the wingtips of an aircraft and projects a 180 degree light coverage. ExP does not require an external power supply and will retrofit the mounting footprint of legacy lighting. Specifications: Voltage Range: 9-36VDC, Current Draw at 12VDC: 1 Amp Avg / 2.5 Amps Peak, Power Consumption: 13 Watts Avg, Strobe Power Supply: Built In, Strobe Synchronization: Built In, Thermal Protection: Built In, Position Light: FAR Compliant, Strobe: FAR Class 1 Equivalent, LED Count: 16, Length: 5.63", Width: 1.85", Depth: 1.3", Weight: 4 Oz, Heat Sink Material: Clear Anodized Aluminum, Lens Material: Polycarbonate, Screw Mount: 3x 6-32 Machine Screws, Rated Life: 50,000 Hours, Temperature Range: -55C to +70C ..... P/N 11-06577 ..... **$849.95**

AEROLEDS RV KITS

RV KIT OPTION 1:

Pulsar NS90 Pair (Nav/Strobe for wingtip cut out), SunTail (Position/Strobe). Requires NO POWER SUPPLY.

P/N 11-09921 ..... **$1,129.00**

RV KIT OPTION 2:

Pulsar NS90 pair (Nav/Strobe for wingtip cut out), SunTail (Position/Strobe), Two 1600s landing lights for the leading edge. Requires NO POWER SUPPLY. P/N 11-09922 ..... **$1,695.00**

RV KIT OPTION 3:

Pulsar NS90 pair (Nav/Strobe for wingtip cut out), SunTail (Position/Strobe), Two Sunray Plus landing lights for wingtips. Requires NO POWER SUPPLY P/N 11-09923 ..... **$1,595.00**

RV KIT OPTION 4:

Pulsar ExP pair (Nav/Position/Strobe), Two 1600 landing lights for the leading edge. Requires NO POWER SUPPLY

P/N 11-09924 ..... **$1,395.00**

EL

BEACONS – DIMMERS

DC-POWERED FLASHER

This anti-collision flasher meets Part 103 ultralight dawn to dusk flying requirements. The units draw 2.7 amps at 14V (nominal). It has a clear Lexan Polycarbonate lens and a 35W halogen lamp. Mounting bracket shown is also included.

P/N 10-01490 ..... **$87.75**

ULTRALIGHT BEACONS

These miniature self-contained units use solid state circuitry for reliability and a lexan lens that is UV protected and shatter resistant for durability. Now available with an internally regulated flashing LED Lamp. .14 amps & 50,000 hr expected life. 12V DC power source required for both units. Wt. less than 7 oz. Size: 3" H x 2-5/8" W. For Experimental Aircraft Only

Beacon, red lens..... P/N 11-03008.....**$72.25**

RED LED AIRCRAFT BEACON

This self contained 14 Volt beacon uses surface mounted LED (Light Emitting Diode) technology and meets FAA requirements for anti-collision light systems in both airplane and rotorcraft categories. Measures 1.7 inches in diameter, 3.5" tall and weighs 8.4 oz. Average current draw at 14V is 0.6 Amps with peak input current of 1.2 Amps. Flash rate of 60 per minute and will not produce EMI or RFI interference. Aviation Red LEDs through a clear Polycarbonate Fresnel lens. Projected life for the LEDs is up to 100K hours. Mount with a #10-32 stainless steel stud that is in the bottom center of the base. NOT TSO'D P/N 11-05111 .....**$233.95**

ULTRALIGHT RED/GREEN POSITION LIGHTS

Made for easy installation to fit the tube that makes up the wing tip of most Ultralights. Powered by 12VDC and drawing only 1/3 amp each, these lights are just the thing for the Ultralight flyer that wants to add that special touch of position lights to his bird for those twilight flights. These easy to mount lights measure 1-3/8" x 4-3/8". Please note that these lights are NOT TSO'd for VFR night flight...P/N 11-01356 .....**$36.75**

NFLITE'S LOW VOLTAGE ANNUNCIATOR

The EA-1050 is designed for experimental aircraft. The microcontroller-based design is reliable, light-weight, consumes minimal current, and uses very little panel real estate. The industrial grade surface mount components used are shock/vibration resistant and provide a wide operating temperature range. The large red LED flashes for 60 seconds when alternator output voltage drops to 13V (normal output is ~14V). It then goes to continuous illumination until the condition is rectified. The flashing draws immediate attention to the condition -- continuous illumination is not a pilot distraction thereafter. The voltage drop could be the result of an alternator malfunction or an overloaded system. Check by switching off a high load device, like landing light or strobes. If the ALT light goes off, the alternator is not malfunctioning but you are sourcing more voltage from your battery than the alternator is replacing. If the ALT light remains on, the alternator is malfunctioning and all non-essential electrical systems should be shut down immediately to conserve remaining battery voltage. The LED activates when the master switch is turned on and goes out after engine start, assuming the alternator side of the master is on and alternator output is normal. Observing this should be a checklist item, as it indicates that conditions are normal and the annunciator unit is functioning prior to flight. The flashing LED serves as a reminder to turn off the master switch after engine shutdown. It's also a helpful reminder to turn on the alternator switch after engine start (recommended starting procedure). The entire unit is less than 1 sq. in. x 0.5" deep. A drill template is provided for attaching the LED bezel unit to the panel. Complete installation and electrical connection instructions are also provided. P/N 11-02451.....**$89.95**

SINGLE / 2 CHANNEL PWM DIMMERS

The two dimmers include a single channel model. Both use pulse wave modulation, or PWM electronic design for precise control of LED lighting such as LED instrument panel lighting, baggage, utility, map or post lights. The self-contained products are designed for easy installation and feature integrated on/off switches on each rheostat.

Rated at 18 Watts per dimmer channel, the dimmers are capable of operating a large number of interior lighting products and are engineered to provide additional over-current, over-voltage and reverse polarity protection.

Single Channel Pilot's Light Dimmer

Single Channel Dimmer is ideal for LED Light Strips, General Panel Lighting or Series of Lights (such as map or baggage lights). The rotating control has its own on/off switch.

* 1.5A (18W) 12V dimmer using PWM (pulse wave modulation) for precise control * Integrated on/off switch and smooth action rotating control * Just 1.75" x 1.75" inches square. 1/4" shaft with high quality knob * Screw down terminals for input and output wiring. *Very easy to install. * Powerful enough to operate numerous panel lights and convenience lights * To install, drill 1/4" hole, wire input and output to screw terminals and install.

2-Channel Pilot's Light Dimmer

Dual Channel (2 channel) Dimmers can be used with any combination of lighting - Dual Color LED Light Strips or for controlling 2 different sets of lights. Each channel has its own ON/OFF switch and dimmer control.

* Each channel controls 1.5A (18W) using pulse-wave modulation for precise control * Controls LED or incandescent lighting, up to 18W each channel * Dual integrated on/off switches and smooth action rotating control * Permits complete independent operation of each channel (on/off & dimming) * Just 2.5" x 1.75" inches square. Dual 1/4" shafts with push-on knobs * Screw down terminals for input and output wiring. *Very easy to install. * Powerful enough to operate numerous panel lights and convenience lights

Specifications:

* Mode of Operation: Continuously variable, pulse width modulation (PWM)
* Supply Voltage: 8 to 20 VDC working voltage, up to 30VDC momentary. Dimmer must be fused at power source
* Output Voltage Range: From zero VDC to supply voltage
* Output Current Range: Up 1.5A
* Max Continuous Output Current: Full rated current up to 105F (40C), 75% of rated current up to 115F (46C)
* Ambient Temp Range: Minus 40F (-40C) to 115F (46C), with restriction as noted
* Size: About 1-3/4" inch square
* Weight: 30 to 40 gm, depending on wired connection type
* Heat Sink: Electrically isolated from voltage and acts as a circuit enclosure. Max. temperature rise under load is about 40 F (22C) above ambient.

Description	Part No.	Price

754 SERIES LED COCKPIT LIGHTS

Parts Sold Separately

These versatile cockpit lights can be used to illuminate the instrument panel. They can be repositioned to illuminate your charts with their 110 degrees of angle adjustment while being able to rotate a full 360 degrees. Dimensions: 3/4" diameter, 1-5/8" tall fully-extended, 7/8" tall at 90 degrees. The mounting stud is 1/4" in diameter and can be mounted onto a surface up to .200" thick. Switchable models facilitate wiring an SPDT switch (not included) to the light, allowing either red or white operation. We also offer a flush-mount flange to mount the light if the back side of the light is unreachable. Flush Mount - (Pictured above) This part is for mounting and LED light Model 754 from the front side. The adapter base is 1-1/2" in diameter, stands 1-2" tall, and has a 1" bolt hole circle.

LED MAPLIGHTS

The body of the maplight is constructed of aircraft grade 6061 T6 aluminum and black anodize treated for protection from corrosion. The LED bulbs and internal components are high quality components, and are engineered to withstand 150% of their rated voltage without damage. The wire is tefzel coated mil-spec wire used in certified aircraft and the component potting material is a two part epoxy making this maplight highly vibration and shock resistant. The average bulb life of the LED used in this product in excess of 20,000 hours of use and the maplight draws only 20 milliamps of power with virtually no heat produced.
The red LED used in this maplight gives the most light available in environments where night vision must be retained. This "LED Maplight" is built to be durable, simple to operate, lightweight and compatible with dimming systems. Each "LED maplight" is tested twice during production for maximum quality and customer satisfaction. The "LED maplight" is intended for use in Experimental, Amateur-Built aircraft only.

1512 SERIES LED EYE-BALL COCKPIT LIGHTS

These lights work great in overhead consoles and tight spaces. 30 degree adjustable angle, 360 degree adjustable rotation. LED technology draws less current (40 mA max.) and last much longer, (20,000+ hours.) and are fully dimmable. The light is availabe in three light color version, two housing colors, and two voltages. The light colors are four red LED's, four white LED's, and two red/two white LEDS that can be lit separately with a SPDT switch (not included.) The housing colors are black or clear anodize. There are two voltages: 14 and 28. The light has a 1.45" flange and mounts in a 1.25" hole. The light requires 1" behind the mounting surface and is only 5/8" in front. It will accept up to 0.2" thick mounting surface.

CABIN LIGHTS

Designed for use in experimental aircraft, these LED lights are excellent for cabin lighting, work station lighting, interior lighting, or cargo space illumination. They feature small size (2" x 3"), low power draw (less than 95ma, and weigh less than 3 ounces. the basic module consists of 3 rows of LED's potted with epoxy in a strong plastic housing. This makes it extremely resistant to vibration and moisture. The modules are very efficient, and are available in 12 or 24V and in super bright white or red colors. Furnished with a diffused light pattern and a 3 ft. cable length. No on-off switch.

Example Uses for These Convenient Lights Include:

Cabin Lighting — Work Station Lighting
Interior Illumination of Work Area (Without Loss of Night Vision)
Illumination of Operator Controls — Cargo Space Illumination

Benefits:

Small Size - Only 2" x 3" — Low Power Draw - Typically Less Than 95mA
Customizable to Meet your Unique Needs — Low Cost
Weight is Less Than 3 Ounces

24V Red LED..... P/N 11-02883 ..... **$85.50**

LED MAP LIGHT, DOME, AND BAGGAGE AREA LIGHTS

INTERIOR CONVENIENCE AND MAP LED LIGHTING - Three very bright LEDs in an ABS housing. Compact size, just 2" long. #4 holes for horizontal mountnig. 12 volts, low current draw (under 40 mA). Ideal for map lighting or utility installations

Red..... P/N 11-05527 ..... **$7.95**
Blue ..... P/N 11-09649 ..... **$7.95**
Green ..... P/N 11-09650 ..... **$7.95**

DOME AND BAGGAGE AREA LIGHTS

Four (4) very bright LEDs. Compact size, just 1.5" long. #4 mounting holes 12 or 24 volts. "Flood" type wide area lighting. Ideal for map lighting, dome or utility installations. Black or Chrome Base.. Chrome Base only comes in White and Red 12V. **For exprimental aircraft only**

Case	Light	Volt	Part No.	Price	Volts	Part No.	Price

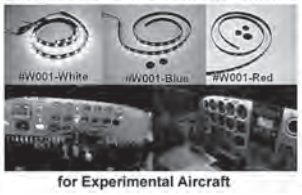
LED PANEL MOUNT INDICATOR

Specifications: Mounting Hole Dia: 6.35mm. Forward Current If: 20mA. Forward Voltage: 12V or 24V, your choice. Luminous Intensity:1 0mcd. Viewing Angle: 60°. Bulb Size: 5.08mm. Lens Width: 7. RoHS Compliant: Yes.

Color	Volts	Part No.	Price	Volts	Part No.	Price
Red	12V	LEDRED12	**$8.95**	24V	11-07839	**$7.75**
Green	12V	11-07841	**$7.95**	24V	11-07840	**$6.95**

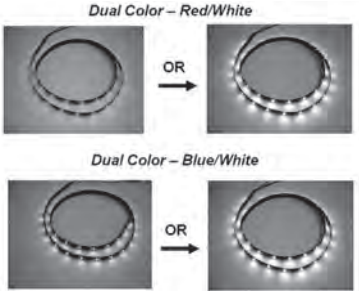
INSTRUMENT PANEL LIGHT STRIP



Flexible LED Instrument Lights
Dimmable LEDs encased in a flexible resin strip. Ideal for mounting under glare shields for instrument panel lighting. Available in White, Red and Blue LEDs. Can be trimmed every 2-1/2 inches (every 3 LEDs). Easy-to-install, waterproof, shockproof and requires no inverter to operate. Draws only 83 mA, 12 volts DC, and has a service life of over 10,000 hours. 35" length, 3/8" width and 1mm high. Installs in minutes with double-sided tape

Description	P/N	Price
12V LED Light Strip - Red	11-05224	**$37.90**
12V LED Light Strip - Blue	11-05225	**$37.90**
12V LED Light Strip - White	11-05226	**$37.90**
24V LED Light Strip - Red	11-06828	**$37.90**
24V LED Light Strip - Blue	11-06829	**$37.90**
24V LED Light Strip - White	11-08409	**$37.90**

FLEXIBLE LED INSTRUMENT LIGHTS - DUAL COLOR



- Dimmable LEDs encased in a flexible resin strip.
- Identical to standard Flexible LED strips but with twice the LEDs.
- Permits independent control of the RED and White or Blue and White colors.
- Ideal for using White lights for loading/unloading or in cloudy conditions and MIX or use of colored lighting during dusk or night conditions.
- 35" length, 3/8" width and 1mm high. Installs in minutes with double-sided tape
- Power consumption no greater than 160mA.

Description	P/N	Price
12V Dual Flexible LED W001-Dual Red	11-05511	**$49.90**
12V Dual Flexible LED W001-Dual Blue	11-05512	**$54.50**
24V Dual Flexible LED W001-Dual Red	11-08410	**$52.75**
24V Dual Flexible LED W001-Dual Blue	11-08411	**$49.90**

FLEXIBLE LED INSTRUMENT LIGHTS - WITH CIGARETTE LIGHTER AND DIMMER

For production aircraft OR experimental aircraft

- The same quality Dimmable LEDs as our standard Flexible LED instrument Lights but with a Cigarette Lighter plug and in-line dimmer control
- Ideal for non-permanent installation in aircraft and other vehicles
- Power is supplied by the Cigarette Lighter plug (12 Volt systems only)
- In-line dimmer controls lighting level
- Available in Red, White or Blue LEDs.
- Ideal for mounting under glare shields for instrument panel lighting
- Can be trimmed every 2-1/2 inches (every 3 LEDs)
- Easy-to-install, waterproof, shockproof and require no inverter to operate.
- Draws only 83 mA, 12 volts DC, and has a service life of over 10,000 hours
- LED is 35" length, 3/8" width and 1mm high.

Description	P/N	Price
Flexible LED With Cigarette Lighter W003- CLA Red	11-05513	**$43.50**
Flexible LED With Cigarette Lighter W003- CLA White	11-05514	**$43.50**
Flexible LED With Cigarette Lighter W003- CLA Blue	11-05515	**$43.75**
Flexible LED Cigarette Lighter Dimmer Kit only	11-05516	**$9.95**

BATTPACK BATTERY BACKUP

The BattPack Battery Backup System can be used as an emergency/secondary power source for aircraft lighting. The 14V or 28V system will provide up to one hour or more of lighting for the FiberLite instrument lighting system (that uses LEDs light sources) or the Glow Strip (electroluminescent lamp) glare shield lighting system or for other low current draw lighting such internally lighted instruments. The system includes the battery holders, a three position switch (normal, off, emergency), engraved placard and tefzel hook up wire.

COCKPIT LIGHTS – RUNWAY/TAXI LIGHTS

MINI EYEBALL LED LIGHTS

Mini Eyeball LED spotlight. Powerful & Dimmable 1 Watt LED. Adjustable eyeball directs light beam at 30 degree angle. Designed for overhead consoles or side panels Mounts using spring loaded retainers Dimensions: 1.75" diameter - mounts in 1 1/8" diameter hole - depth is just 3/4". Satin black aluminum housing. 12 Volt DC, very low power drain (240mA) Applications: Overhead panel, sidewall panels or anywhere a compact powerful LED light is needed.

Light	Volt	Part No.	Price	Volts	Part No.	Price
White	12V	11-09271	**$41.90**	24V	11-09274	**$41.90**

Blue	12V	11-09273	**$41.90**	24V	11-09277	**$41.90**

MINI LED SPOT LIGHTS

Black/White

For experimental aircraft

- High intensity, dimmable multi-LED lamps
- Easy to install
- Flexible pivot mounts
- 1.75" length, 1" wide (at lens), 1.75" height (with base)
- 12 volts, less than 50mA
- Metal housing available in Black and Aluminum
- Red and White LED Colors

Case	Light	Volt	Part No.	Price	Volts	Part No.	Price
Black	Red	12V	11-05519	**$45.75**	24V	11-08771	**$45.75**

GOOSENECK LED CHART LIGHTS

Applications: anywhere high-intensity task lighting or map lighting is needed.
Features: Bright Gooseneck LED fixtures with 1 Watt LED, Powerful, dimmable and No RF Interference Heavy-duty construction, Beam dispersion – 60 degrees, Includes mounting hardware, Dimensions: Length: 11" (base to top); Flexible shaft length is 8.75". Head is 2"; Width: 0.75 inches (at head), 12 Volt DC, very low power drain (0.15 mA). On/Off switch optional.

12V White LED with switch..... P/N 11-09281..... **$37.50**
12V Red LED with switch..... P/N 11-09282..... **$44.75**
12V White LED with out switch..... P/N 11-09283..... **$33.95**
12V Red LED with out switch ..... P/N 11-09284..... **$42.75**

SURFACE MOUNT LED LIGHTS

Surface mount convenience light. 2 Bright LEDs behind a frosted panel. Surface mount with hardware. Dimensions: 2.5" x 1.25" x 5/8". #6 mounting holes. 12 Volt DC or 24 Volt DC, very low power drain (0.1mA). Applications: foot wells, door panels, side panels, map light, chart lights or anywhere a dimmable, bright LED light is needed.

Light	Volt	Part No.	Price	Volts	Part No.	Price
White	12V	11-09255	**$11.90**	24V	11-09258	**$11.90**

Blue	12V	11-09257	**$11.90**	24V	11-09261	**$11.90**

FLUSHMOUNT WATERPROOF LED UTILITY LIGHT

Applications: Side panels, overhead consoles, door panels, exterior application (waterproof)
Features: Bright LED fixtures with ¼ Watt LEDs Powerful & Dimmable, Installs in a 3/4" hole with self-locking nut, Designed for overhead consoles or side panels, Mounts in panels up to 3/4" thickness Dimensions: 1.25" length x 1 ¼" top flange; mounts in 3/4" diameter hole; depth is just 1 1/8"; installed flush height is 1/8" Fresnel lens and clear plastic housing Waterproof and vibration resistant 12 Volt DC, very low power drain (0.1 mA)

12V White ..... P/N 11-09278..... **$8.95**
12V Red..... P/N 11-09279..... **$9.50**
12V Blue ..... P/N 11-09280..... **$9.50**

SOLAR BLUE LED AIRPORT TAXIWAY MARKER

Emits blue LED light from both sides. Poly Carbonate, Poly Crystalline Silicon fixture. Maintenance Free. LED Visibility over 1/2 mile. Nickel Metal Hydride Batteries. Secures to asphalt or concrete w/2 part epoxy. Approximately: 4¾" x 4¾" x ¾". Designed to withstand 20 tons PSI. Built for extreme weather conditions. Three (3) to five (5) year life span, Maintenance FREE Batteries charge in approximately four (4) hours using the suns energy. Operate all night (8 or more hours on a full charge). LED brightness equates to 35 lumens.

Blue BSL05DTW..... P/N 11-09385..... **$39.95**

SOLAR GREEN LED CENTERLINE TAXIWAY MARKER

Emits green LED light from both sides. Poly Carbonate, Poly Crystalline Silicon. Maintenance Free. LED visibility over 1/2 mile Nickel Metal Hydride Batteries Secured to asphalt or concrete w/epoxy. Approximately: 4¾" x 4¾" x ¾". Designed to withstand 20 tons PSI. Built for extreme weather conditions. Three (3) to five (5) year life span, Maintenance FREE Batteries charge in approximately four (4) hours using the suns energy. Operate all night (8 or more hours on a full charge). LED brightness equates to 35 lumens.

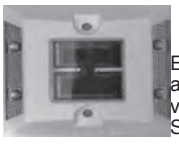
Green BSL-05DCL..... P/N 11-09394..... **$39.95**

SOLAR GREEN LED THRESHOLD MARKER

Emits Green/Red LED light. Poly Carbonate, Poly Crystalline Silicon. Maintenance Free LED visibility over 1/2 mile Nickel Metal Hydride Batteries Secures to asphalt or concrete w/epoxy. Approximately: 4¾" x 4¾" x ¾". Designed to withstand 20 tons PSI. Built for extreme weather conditions. Three (3) to five (5) year life span, Maintenance FREE Batteries charge in approximately four (4) hours using the suns energy. Operate all night (8 or more hours on a full charge). LED brightness equates to 35 lumens.

Green BSL-05DTH..... P/N 11-09387..... 2.95

SOLAR WHITE LED AIRPORT EDGE MARKER



Emits White LED light from both sides. Poly Carbonate, Poly Crystalline Silicon. Maintenance Free. LED visibility over 1/2 mil. Nickel Metal Hydride Batteries Secured with 2 part epoxy Approximately: 4¾" x 4¾" x ¾". Designed to withstand 20 tons PSI. Built for extreme weather conditions. Three (3) to five (5) year life span, Maintenance FREE Batteries charge in approximately four (4) hours using the suns energy. Operate all night (8 or more hours on a full charge). LED brightness equates to 35 lumens.

White BSL-05DEL..... P/N 11-09386..... **$39.95**

SOLAR RED LED AIRPORT OBSTRUCTION MARKER

Emits Red LED light from one single side. Poly Carbonate, Poly Crystalline Silicon. Maintenance Free Nickel Metal Hydride Batteries. Secures with 2 part epoxy. Approximately: 4" x 4" X ¾". Designed to withstand 20 tons PSI. Built for extreme weather conditions. Three (3) to five (5) year life span, Maintenance FREE Batteries charge in approximately four (4) hours using the suns energy. Operate all night (8 or more hours on a full charge). LED brightness equates to 35 lumens. Red BSL03AOM ..... P/N 11-09389..... **$35.95**

SOLAR LED BEACON MARKER RED

Emits light from all sides. Poly Crystalline Silicon, ABS Plastic. Super Bright Red LED light. Mounted to post or pipe. Approximately: 9" diameter x 6" height. Designed to withstand 20 tons PSI. Built for extreme weather conditions. Three (3) to five (5) year life span, Maintenance FREE Batteries charge in approximately four (4) hours using the suns energy. Operate all night (8 or more hours on a full charge). LED brightness equates to 35 lumens.

Red Beacon VRH-4704 .... P/N 11-09384..... **$47.95**

RUNWAY MARKER ADHESIVE PADS

The Adhesive Epoxy Pads are a non toxic, zero V.O.C., performance thermoplastic adhesive designed to adhere raised pavement markers to the concrete or asphalt surface. When heated with a propane heat torch, a Pad liquefies and fuses with the surface and the marker providing a bond that will last throughout the marker's lifetime. Size: 5" x 5".

P/N 13-10451..... **$4.00**

EL

DIMMING SYSTEMS - COCKPIT LIGHTS

AMERI-KING LIGHT DIMMERS

Linear Designed, Single, Triple, Quad outputs. FAA TSO-C71 approved. Input: +14 Vdc or + 28 Vdc. One year warranty. Optional extension of three years. 9.6 lbs.
Features: • Short Circuit Protection. Solid State Linear Design. D-Sub/Miniature AMP connector included

Description	Part No.	Price
AK-551-LD-S 1 POT 6AMP 0-28V	11-06228	**$100.00**

SOLID STATE LIGHT DIMMING KIT

Economical solution for the dimming of aircraft interior lighting. This heavy-duty solid state dimming kit by Superior Panel Technology includes a potentiometer with built-in off switch and 115W power transistor mounted to a heat sink. The supplied colored Mil Spec wire and very easy to follow wiring diagram allows the aircraft builder to customize the wiring harness to fit individual needs. When compared to rheostats, this unit provides more even dimming when a combination of LEDs, incandescent bulbs and electroluminescent lamps (such as SPT's Glow Strips) are used. Appropriate for both 14V and 28V systems. Knob sold separately ..... P/N 11-00846 ..... **$67.95**
Control Knob ..... P/N 11-07344 ..... **$4.50**

LC-40E/LC-40 LIGHTING CONTROLLERS

The LC-40e comes in an anodized brushed aluminum chassis. Features extra control knob sensitivity at dim end of the lighting range where it is needed most. It is microcontroller controlled and has continuous over voltage, current limit & fault protection. Each channel can handle 1.5 amps. LC-40E P/N 11-03366 ..... **$126.95**

VARIABLE INTENSITY LIGHTING CONTROLLER

The A200-DDC Intensity Controller will support up to ten instruments in a single installation. It provides infinitely variable, uniform intensity control for all instruments. These units are TSO qualified with all 200 Series instruments and is STC'd as a primary replacement instrument component under all flight conditions (day/night VFR and IFR). DC Power Source: Input voltage 6 to 36 VDC. Power consumption 250mA (maximum brightness).
P/N 10-04809 ..... **$110.95**

VAL AVIONICS CLA 500 COCKPIT LIGHTING ASSEMBLY

The CLA 500 is a Multiple Circuit, Solid State Cockpit Lighting Assembly that will accommodate (4) independent dimmer lighting circuits such as instruments, sub panels, avionics, eyebrow, overhead, flood, and post lamps etc. The CLA 500 unit itself measures 5"l x 4.7"w x 1.5"h; wt: 0.8 lbs. The unit is rated at 14/28VDC input at 2.5 amps max per circuit. The CLA 500 comes complete with 4 on/off dimmer control switches and connector assembly.The CLA 500 carries a full 1 yr factory warranty. **Not TSO'D**

P/N 11-05700(14v) **$259.00**
P/N 11-04592(28v) **$254.95**

COCKPIT LIGHTS

TYPE C4A - A multi-purpose light providing narrow spotlight or floodlight beam. Rotate dial for red or white lens. Push-button for instant full light. Adjustable rheostat. Coiled cord & snap-in mounting base makes light portable in cockpit area. New mfg. Most suitable for larger aircraft.

12V ..... P/N 11-03921 ..... **$129.75**
24V ..... P/N 11-03922 ..... **$129.50**

MINIATURE EYEBALL COCKPIT LIGHTS

MOD1 OVERHEAD CONSOLE - The Mod1 Overhead Console is mounted to top of cabin or top wing skin with four stainless steel screws into the four standoffs or posts on Console. All lights are ordered separately. Weight: 3.8 oz.

P/N 11-06003 ..... **$27.65**

MINIATURE EYEBALL COCKPIT LIGHTS - A compact, low current draw, (now all LED), lightweight light for instrument panel, chart reading, or baggage area illumination. The MOD1 Cockpit Light is available in three models: Soft White "W" - (viewing sect'l. charts) Red "R" - (for total area night vision protection) Green "G" - (well adapted for Night Vision Goggles).
A ¾" black acrylic ball with ¼" aperture rotates in a rugged 1.5" diameter ABS body for full swivel adjustment. Mounts with three black screws included.Originally used on Voyager's around the world flight.

White ..... P/N 11-07800 ..... **$18.75**
Red ..... P/N 11-03141 ..... **$18.75**
Green ..... P/N 11-08480 ..... **$18.75**

EYEBALL COCKPIT LIGHTS

These high quality cockpit lights are engineered to match the eyeball swivel vents on the page on Air Vents in this catalog. Simple twist on/off operation provides white beam for cockpit lighting. Made from 2024T351 aluminum. Diameter: 2.75". Has 4 mounting holes (1/8"dia.) which are spaced 2-3/8" apart on a mounting plate with a thickness of .71". Made in USA.

Black (no bulb) ..... P/N 05-01401 ..... **$68.85**
Gray (no bulb) ..... P/N 05-01402 ..... **$68.85**
Order 14V or 28V bulb separately
14V ..... P/N 11-04197 ..... **$1.29**
28V ..... P/N 11-04172 ..... **$3.25**

NIGHT FLIGHT LIGHT

Red, Blue and Green lights independently dimmable with emergency battery that automatically operates in case of total power failure at the same adjustment. Attached with Velco in any position and connected to the power with cigarette lighter cord (provided), or directly connected to the harness in the vehicle with a fuse of 2 Amp in line. The combination of the 3 colors creates the perception of white light. Measurements: 2.36"x1.58"x1.22". Input Power: 12 volts to 28 volts. Warranty: One year warranty parts and labor in the factory P/N 11-06482 ..... **$189.00**

EL

DIMMERS

LIGHT DIMMING KIT

Kit includes a Mil.Spec Potentiometer, Mil. Spec Power transistor mounted to a heatsink and a wiring harness. Breaker Size: 2A @ 14V, 1.5A @ 28V, Operating Range: 0-32 VDC, Current: 1.4A@ 14V, .7A@28V, Power: 20W ....
P/N 11-02082 ..... **$153.95**

PANEL LIGHT DIMMING RHEOSTATS

These high-quality rheostats are used in production aircraft to dim instrument panel lights. Size: 1-9/16" dia. x 2-1/4" long. Mounts in 3/8" dia. panel hole. Shaft is 1/4" dia. w/flat for knob set screw. New manufacture. Power Rating: 25 Watts.
0-8 OHM Panel light dimming retrostat
P/N 0144 ..... **$32.85**
0-15 OHM Panel light dimming retrostat
P/N 0146 ..... **$46.75**

FINGER GRIP KNOB

Finger grip knob or rheostats. 1-1/2" Diameter, 1/4" Hole.
P/N 11-07967 ..... **$9.65**

MULTIPLE CIRCUIT SOLID STATE LIGHT DIMMERS

Choose from 2, 3, or 4-circuit heavy-duty 115W light dimming systems by Superior Panel Technology. Circuit board design with pin connector allows for easy and neat wiring. Mil Spec Tefzel color-coded wire is included.. Unlike rheostats, this system will provide even dimming of incandescent lights, electroluminescent lamps (such as the SPT Glow Strips) and LEDS when used in combination on the same circuit. A separate control switch (with circuit breaking off position) is included for each circuit. Knobs sold separately.

2 Circuit.....P/N 11-02046 ..... **$119.00**
3 Circuit.....P/N 11-02047 ..... **$211.95**
4 Circuit.....P/N 11-02049 ..... **$249.95**
Control Knob.....P/N 11-07344 ..... **$4.50**

K11 AIRCRAFT PANEL DIMMER

Features: • 3 outputs with a tracking capability - One output is the "Master", and the other two can be set to track the master from 0 to any set voltage behind the master. This allows items on the dimmer bus to be grouped according to their relative brightness. Photocell light sensor automatic control capability • Low cost • Performance: • Voltage range: 0 to Input supply - .6V • Output current - Depends on ventilation - Each channel is capable of 5 amps, practical dissipation limitation is ~ 5 amps total for all channels. (For 28 volt systems, current limit is 1 A per channel) Unit connections are made through a DB15 connector, and are easy to integrate into the rest of the aircraft wiring. P/N 11-02244 ..... **$149.95**

MAX DIM DIMMER CONTROL UNIT

5-35 VDC 0-12.5A Control 350 Watts in a 1-1/4" Diameter package. Complete compact, light weight, powerful, solid state dimmer. Great for light wedges. FAA STC Approved. PMA'd . Features: • Aircraft Lighting Boat Cruiser Cabins. • Instrument Panels. •Hundreds of DC Lighting Control applications
P/N 11-05738..... **$214.50**

MAXPULSE LANDING LIGHT CONTROL/ PULSER - (STC'D)

Extreme long life, low temperature operation, high current capability, noise free operation and small size makes it a ideal landing light controller for all aircraft. This new STC version sports eight functional pulse, flash and steady state modes of operation. It is also an ideal replacement for old technology controllers requiring large heavy heat sinks and or noisy relays as part of the installation.
STC'd ..... P/N 11-06998..... **$239.00**
NON-STC'd ..... P/N 11-05737..... **$245.95**

MAXPULSE LANDING LIGHT CONTROLLER MODEL - B

12-35 volts @ 10 Amps per channel - 2 channels, Ring Connectors, Controlled Output: 0 to 12-35 VDC , 0 to 10 A per channel. No outboard heat sinks, rheostats, or other packages. STC, PMA, RTCA/DO-160E SEC 21: qualified. Configure for Wig Wag or Wing and taxi light pulsing, single light pulsing etc. Increased safety for your passengers and yourself. Hundreds of DC Lighting Applications. Emergency Vehicles. Assembled in the USA
P/N 11-08175..... **$239.00**

MAXDIM DIMMER CONTROLLER MODEL - B

Specifications: 5-35 volts @ 15 Amps. Ring Connectors. Controlled Output:. 0 to 5-35 VDC - 0 to 15 A **Capacity**: 75 Watts @5 VDC. 180 Watts @12 VDC. 360 Watts @24 VDC. 420 Watts @28 VDC. 700 Watts @35 VDC **Features**: Aircraft Lighting. Comply to Cessna AD 93-24-15 about cockpit fires. We have the AMOC allowing this installation for the MaxDim.. Excellent control of Nulite instrument lighting. Excellent LED control. Smaller DC motors. STC, PMA, RTCA/DO-160E SEC 21: RFE Qualified. Instrument Panels. Nulite dimmers. UMA pre-inverter dimmer. Avion Glare shield pre-inverter dimmer. Boat Cruiser Cabins. LED lit panels. Hundreds of DC Lighting Control applications. Assembled in the USA. Includes: MaxDim unit, installation instructions, color coded terminals, reference panel label, STC printout for your logs, installation template, and knob. ..... P/N 11-08176..... **$239.95**

MAXDIM DUO DUAL DIMMER CONTROLLER MODEL - D

12 to 35 VDC, 0-15 A per channel, Control 1050 Watts In a 1-1/4 Inch Diameter Package. Complete compact, light weight, powerful, solid state dimmer..... P/N 11-08177..... **$324.00**

For Complete info on Dimmers and MaxDim Mini Control Units please visit our website at www.aircraftspruce.com

MAXDIM MINI SINGLE DIM CONTROL UNIT

Single Channel, complete, compact, light weight, powerful, solid state dimmer. 5 to 35 VDC, 0-5 A per channel, control over 175 watts channel in a .85 inch square by 3" package. Applications and features: Aircraft instrument panel lighting. Excellent control of Nulite instrument lighting. Smaller DC motors. Instrument Panels. Nulite dimmers. UMA dimmer. Avion Glare shield dimmer. Boat Cruiser Cabins. LED lit panels, Excellent LED control. Hundreds of DC Lighting Control applications. Included: MaxDim Mini unit. Installation instructions. Color coded terminals. Reference panel label. STC pending printout for your logs. Installation template. Knobs.
Single Dimmer Control ..... P/N 11-09753..... **$197.50**
Dual Dimmer Control..... P/N 11-09752..... **$286.00**

EL

INSTRUMENT LIGHTING

UMA INSTRUMENT LIGHTING - PMA'D

The UMA EL Light Bezel System replaces instrument post-lights, provides a uniform light around the dial of each instrument using a solid-state electro-luminescent element rather than a incandescent bulb. The bezels have a design life of 5,000 operating hours. The system consists of a bezel or "wedge", DC to AC inverter, and a connector kit. The bezel fits over the instrument face, and is available in a variety of configurations to accommodate various adjusting knobs. The bezel mounts either between the instrument face and the panel, or between the panel and the overlay. The bezel is held in place by the instrument mounting screws. The DC to AC inverter provides power for as many as 12 bezels or about 25 sq. inches of lighting. To facilitate installation and maintenance a connector kit is supplied with each bezel. Colors are White, Aviation Green, and red, **with white being the only FAA approved color.** The PMA is based on a STC for Beechcraft King Air 90s. To assist you in filing a FAA form 337, the approved data package used for the King Air installation is available from UMA, or can be downloaded on or website. Copies of previously issued 337s are available upon request.
* Inverter is required. Must be ordered separately.

INVERTERS FOR UMA LIGHTING -

5V (JETS) ..... P/N 10-02086..... **$56.25**
14V..... P/N 10-02083..... **$56.85**
28V..... P/N 10-00986..... **$56.85**

Each inverter will run up to 12 lighting wedges.

Rheostat..... P/N 6002..... **$21.85**
Elec. Wire Kit*..... P/N 10-02085..... **$8.75**

Contains AMP connector and connecting pins

UMA ELECTRO-LUMINESCENT LIGHT STRIPS

UMA, Inc. now offers an ultra-thin (0.006") flexible self-adhesive long-life light strip based on the same technology that is used in our EL Light Bezel. Since there is no filament, these light strips are not bothered by vibration or rapid changes in temperature. Perfect for use under a glare shield, or for any other interior lighting need (both aircraft and automotive). Length may be cut as needed. Available colors are Aviation Green & White/Blue. Power Inverter required.

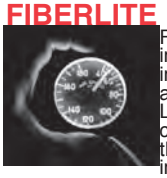
1.5"W x 18"L	Aviation Green	10-00324	**$76.25**

FIBERLITE INSTRUMENT LIGHTING SYSTEM



FiberLites, by Superior Panel Technology, offers an innovative FAA approved instrument and label lighting system that uses fiber optics to evenly illuminate aircraft instruments with easily accessible, long lasting, LED light sources. Fiber-optics are affixed to specially designed bezels that are sandwiched between the instrument and the panel for appearance of an internally lighted instrument. The advantages of using FiberLites over other lighting devices are a) easier wiring, three LED light sources will light up all the instruments on most panels b) the LEDs are very long lasting, however, if they ever do need to be replaced, they are easily replaced without having to remove any instruments c) FiberLites provide even 360 degree lighting around the instrument, d) the instrument is not altered in any way e) FiberLites can be used to backlight printed labels. The following items are included in the FiberLite package. a) Three LED light sources with appropriate resistor (must specify 14 or 28V system). b) Eight 3 1/8" instrument bezels c) You can substitute TWO 2 ¼" inch bezels for each 3 1/8" inch instrument light. For example a package could consist of SIX 3 1/8" and FOUR 2 ¼" instrument lights. Bezels come in 3 sizes (3 1/8" standard with four screw holes (FL318), 3 1/8" with cut-out in corner that can be rotated either for a right or left hand cut-out (FL318CO) and the 2 ¼" bezel with four screw holes (FL214). Please specify the bezel sizes, and quantity and the voltage of the aircraft.The Superior Panel Technology's Pulse-Width Modulation Dimmer is recommended for dimming the LEDs. Optional 14V or 28V battery back-up systems are available and recommended. See Accessories.

Aircraft spruce and spt have worked together to offer a discount on the fiberlites and pwm dimmer when ordered as a package.

3 LED Package..... P/N 11-04009..... **$254.95**

FIBERLITE ILLUMINATED LABELING

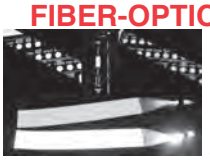
Backlite the wording on your panel with FiberLite fiberoptics and custom printed labels. A single fiber optic ribbon can illuminate a label strip up to 8.2″ in length. You can use two fiber optic ribbons for labels up to 14″ in length. Fiber optic tails are 30″ in length to allow for remote light source placement. Use either the FiberLite 8-port light source (see above) or an ultra-bright small LED light source. One port on the 8-port light source will illuminate two 8″ labels (or one longer label that utilizes two fiber optic ribbons). The LED light source can illuminate up to seven fiber optic ribbons. Mounting channel is 5/16″ in height and the label has a black background with white lettering. The FiberLite fiber optic ribbons can also be used to backlite reverse evgraved panels.

Labels	Part No.	Price
Single line label up to 8.2″ in length	11-00224	**$39.00**
Label 8.3″ - 14″ in length	11-00225	**$44.00**
Above labels include mounting channel, custom printed label, fiber optic ribbon and connectors		

Light Sources	Part No.	Price
14V LED Light Source	11-03999	**$19.75**
28V LED Light Source	11-07838	**$19.85**
8-port light source see above The LED light sources are wired using appropriate resistor.		

Fiber Optic ribbons - for Backlighting Reverse Engraved Panels					
Size	Part No.	Price	Size	Part No.	Price
1/4″ x 6″	11-04005	**$19.99**	1/4″ x 8.7″	11-04006	**$22.50**
Ribbons come with 30″ leads and connectors for light source chosen					

FIBER-OPTIC PANEL BACKLIGHTING KIT



Backlight the lettering on reverse engraved panels using FiberLites fiber-optic panels. The panels can be cut to width and normally one fiber-optic panel can illuminate all the text for switches and breakers on a panel. The fiber-optic panels are 3" x 8.5" and come with the needed connectors and three LEDS (either green or white). The panels can also be used as mini flood lights over breakers and switches.

Fiber-Optic Back Light Kit Green.....P/N 11-08561 ..... **$149.95**
Fiber-Optic Back Light Kit White.....P/N 11-08562 ..... **$149.95**

EL

PILOT LIGHTS - LANDING STRIP LIGHTS

NULITE INSTRUMENT LIGHTING SYSTEM

Replace your existing lighting system of post lights or indirect lighting using the latest technological developed in optical enhancements. The NULITE uses dual incandescent bulbs with a rated life of 10,000 hours in a translucent material designed to look like an internally lighted unit. Nulites are easily installed by anyone in just minutes and are pre-cut to fit all standard instruments operating on 14, or 28 Volts. NULITE light wedges can be installed over the instrument or between the panel and the instrument. One wire is connected to ground and the other to a dimmable buss. Installation takes about 30 minutes for each unit and does not require any special tooling. The instrument is not altered in any way therefore only a log book entry is required. FAA/PMA approved.

NULITE NV6 LIGHTING

Features: Daytime Readability: Because Nulites utilitze an open ring bezel, there are no daytime readability issues., Ease of Installation: A typical aircraft installation takes approximately 8 hours and can be done in the field by an A&P mechanic., Color Shifting: Nulites uses NVIS White Technology that does not shift any color and illuminates what is on the instrument., Upgrades the Panel Not The Instrument: Nulite nvg does not alter the instrument in any way and reduces the need for rotables, Lower Cost: A Nulite nvg conversion cost a third of what traditional filtered conversions cost. Reduce Training Time: With an open ring bezel, there is no need for additional training for Daytime Operations.

Specifications: NVIS White long lasting LED, Pulse type dimming circuit, 28 volt systems with lower power consumption (40ma average per unit) Nulites are FAA approved and STC's are available, .220" thick and tight tolerances of .005", Meets all FAR burn tests, NVIS radiance per MIL-STD-3009

LIGHTSAVER

The Lightsaver prevents this massive inrush allowing the filament to draw the rated current even at turn on with no change in typical light output performance. The filament life increases up to 10 times due to reducing the stress induced by inrush current. This is something the lamp manufacturers don't want you to know. After all they are in the business of manufacturing replacement lamps for your aircraft. Installation is simple.

Description	Part No.	Price
12 V 100W	11-07316	**$39.75**

GLOW STRIPS - GLARE SHIELD LIGHTING

Superior Panel Technology has developed a brighter, more uniform and longer lasting Glare Shield lighting system. The 18" x 1" Glow Strip electroluminescent lamps provide a beautiful fluorescent-like aviation green or a white light output. The ultra-thin lamps (.065 including the adhesive backing) are very flexible and conform to the curves of the underside of the glare shield. The Glow Strips meet the FAA 23.853 burn test. Inverters ARE included with the kit. A solid state dimmer and battery back-up system is available and recommended (see part numbers below).

THE ONLY MANUFACTURER THAT OFFERS A LIFETIME WARRANTY AGAINST LAMP FAILURE.

PILOT LIGHT PRO

Pilot Light Pro serves two main functions. It provides hands free panel lighting, as well as map lighting. using the latest in LED technologies it delivers 19 hours of continuous use. Pilot Light Pro is delivered with two AA Procell 1500 batteries installed, and may also optionally be installed using ships power. The internal circuit board will cut off the internal battery source once ships power is turned on. Loss of ships power will return the unit back to it's battery source, leaving you with light to work by in the advent of any problem i.e. loss of alternator.

Quick Installation: Installation is quick and easy if using battery only option, simply peel and stick using 3M power lock. The panel light is fully adjustable see our web site for installation instructions. Wiring to ship's power will require a Licensed A&P and a 337 Form, field approval may be required by local Fisdo.

Blue ..... P/N 11-07819.....**$124.95**
Red..... P/N 11-07836.....**$124.95**
Green..... P/N 11-07837.....**$124.95**

MAP LIGHT PRO

For those who lack mounting space for Pilot Light Pro, or simple just want Map Lights. Map Light Pro uses the same AA Procell 1500 batteries and yields 24 hours of continuous use.

P/N 11-07820.....**$74.95**

LANDING STRIP LIGHT KITS

P/N 11-07953

P/N 11-07954

P/N 11-07952

P/N 11-07955

An "airfield in a suitcase" solution. A fast-deployed, 40 light kit of our Landing Strip Light. Used for expeditionary, improvised or temporary airfields. Suitable for a 4,000' runway, if placed at typical 200' intervals (max.). Order multiple kits for longer runways. Operators Liability- The system has been designed to be operated under normal visual meteorological conditions for night flying by a pilot with normal vision. The system is utilized at the operator's discretion and risk. The suppliers accept no liability whatsoever whether implied or explicit for any incidents/accidents that may incur. The operator must ensure that trained personnel operate the system and are made fully aware of aviation safety and that the runway remains clear of animals, pedestrians and obstructions at all times during landings and takeoffs. Only competent and currently night rated pilots may use this system. Use by student pilots training for night rating is prohibited.

Landing Strip Light Kit - 40 light basic kit, packed in a Pelican 1660 wheeled equipment case for ease of storage, handling, and set up. 180 lb. (82 kg) per kit.

Description	Part No.	Price
Landing Strip Light Kit with 40 Lights	11-07953	**$4,248.00**
Landing Strip Light Kit Jr. with 10 Lights	11-07954	**$925.00**
Landing Strip/Runway Light - Not available for sale to European Union at this time, not RoHS compliant.	11-07952	**$112.00**
Helicopter Landing Zone Light Kit - includes a rugged case, five strobes with bases, pace-out line, instruction manual and safety guides.	11-07955	**$593.00**

EL

PULSE LIGHT SYSTEMS - LANDING/TAXI LIGHTS

PULSAR LANDING LIGHT PULSE LIGHT SYSTEM

Pulses your landing or taxi light with a steady solid state electronic controller I/C. Filtered for quiet operation. Bulb life is not shortened, in fact bulb life is extended 10Xs longer; because the filaments never completely go out so there is no thermal shock turn-on. Even longer life w/ GE Halogen lights. Your panel landing or taxi light switch is turned OFF, Pulsar's separate On/Off switch turned ON, your light will begin to pulse. If you are landing at night, and want your lights on steady, you simply reach to that landing light switch (which has been off during the pulse mode) and turn it ON. Your landing light or taxi light will come on steady because Pulsar has not changed or altered your aircraft wiring. Owner installed in 30 minutes. Pulsar is approved for all 100 Watt GE lights. Weight: 3.5 oz.; Size: 3.25" length x 2" width x 1" height. The Standard Pulsar system uses a relay switch. The MOSFET Pulsar system (Metal oxide semi-field effect transistors) uses advanced P-channel technology which does not fail (no transistors or relays) and each pulse is brighter, than other older AvTek's Green-LED allows pilot with a Nose-Landing-Light to know from the cockpit if the light is: Pulsing, on steady or out. When ordering Pulsar, please indicate how many landing lights you wish to pulse and where they are in your aircraft, as well as your aircraft make and model. Dual Alternating Pulsing lights should never be side by side. Instead dual lights need to be located one in each wing. Two lights side by side can be pulsed together, or pulse just one light and leave the other light off. Now fully FAA/PMA Approved.

Description	Bulb	Part No.	Price
Pulsar for planes with one light on each wing, Recommended for frequent flyers, Mosfet Never needs repair, no transitors/relays	Quartz Q-4509 or Q-4591	11-04408	$388.95
Pulsar for planes with two lights on each wing, Recommended for frequent flyers, Mosfet Never needs repair, no transitors/relays	Quartz Q-4509 or Q-4591	11-04625	$386.95
AvTek Power MOSFET Pulsar Pulsing Light for 1 Light with speed select and built-in LED	Standard halogen Bulbs	11-05124	$221.95

PRECISE FLIGHT PULSELITE SYSTEM

Pulselite For General Aviation Aircraft. Solid state unit unit pulses two 125-watt channels or one 250-watt channel. The Pulselite System is designed to increase your aircraft's conspicuity. It pulses up to two 125-watt landing, taxi or recognition lights in patterns that create an illusion of exaggerated motion. Your aircraft becomes more visible for miles, even in fog or smog. P/N 11-17514 ..... **$259.00**

LANDING LIGHT AND FLASHER KIT

This Superior Panel Technology kit includes two bright 14V halogen bulbs, the SPT landing light flasher unit with wiring, toggle switch with attractive reverse engraved cover plate and the needed material to install the two lights in the wings' leading edge outboard bays. These halogen lamps are significantly brighter than both 50 and 100W incandescent bulbs. The solid state flashing system alternately flashes your landing lights and greatly extends the life of the halogen bulbs . The landing lights are easily aimed with the spring-loaded adjusting screws. The flashing unit is easy to install by following the comprehensive installation instructions. One 4PDT switch is added to the panel, giving you the option to switch from the flashing mode to the steady landing light mode. 14V. ***FOR EXPERIMENTAL AIRCRAFT ONLY.*** P/N 11-02051 ..... **$239.95**

SPT LANDING LIGHT FLASHER

Increase the visibility of your aircraft and give yourself that extra margin of safety. This solid state flashing system alternately flashes your landing lights so pilots in other aircraft and controllers in the tower will be able to see our aircraft much easier. The flasher unit extends the life of your landing lights since they run much cooler and its easy to install by following the comprehensive installation instructions. One toggle switch is added to the panel, giving you the option to switch the lights from the flashing mode to the landing mode. Choose the flashing unit based on the wattage of bulb used in the aircraft. For 14V systems only

FOR EXPERIMENTAL AIRCRAFT ONLY.

50W bulbs..... P/N 11-02070 ..... **$139.95**
100W bulbs..... P/N 11-02071 ..... **$169.95**

XEVISION LANDING & TAXI LIGHTS

XeVision™ super bright Xenon metal halide arc discharge landing & taxi lights for experimental aircraft. Light so bright and white you'd swear it's daylight; 500,00 candle power (3200 lumens) for our 35 Watt and more than 750,000 candle power (5400 lumens) for our 50 Watt systems – up to more than 8 times brighter than a standard 100 watt incandescent sealed beam. High HID efficiency means less than half the current draw and about ½ of the radiated heat of standard or Halogen lamps.

XeVision™ offers reliable HID pulsing capability based on the proprietary XeStrike™ series ballasts and the patented XePulse and new XePulse II™ pulsing module. All XeVision HID lighting systems are tested up to 100,000 feet altitude. XeVision systems are warranted up to 35,000 feet for continuous fail-safe operation.

XeVision offers retrofit kits for direct replacement or complete lighting system kits for new aircraft installation, different lamp shapes/sizes available. Many installation locations are possible now with a variety of lamp shapes and sizes, extremely small form factor, and lower lamp housing temperatures. They are especially suited for tight spaces in composite aircraft. XeVision reflectors are made of metal, not plastic. High Intensity Discharge (HID) lighting is the most significant breakthrough in aviation lighting since the development of modern sealed beam lamps.

XeVision offers highest quality at a very competitive price with a 5 year warranty and up to 3,000 hour typical lamp life. XeVision HID aviation lighting systems are DO-160E certified (35,50, and 75 watt models)

The XeStrike™ proprietary ballasts XV1D or XV4D are an integral part of all XeVision aircraft lighting systems with the following features: 12 or 24 VDC voltage input., Designed for pulsing or dimming of HID Xenon bulbs with the XePulse™ HID control module., Designed for 35 watt or 50 watt output, 75 watt for special applications only., Extremely low EMI/RFI in combination with third generation D1S bulbs with integrated igniter and double shielded silicone cables., Digital power control for pre-programmable start-up algorithm.

XeVision conversion kit & components	Key features & other information	
XeVision XV-36-SL - Standard landing light conversion kit . With XV1D or XV4D ballast and D1S bulb.	Beam angle 9º horizontal & vertical. PAR 36 size. Preferred Application - PAR 36 conversion, lamp diameter 4-5/16"	
XV-36-SL 35 Watt	P/N 11-01760	**$468.95**
XV-36-SL 50 Watt	P/N 11-05038	**$521.00**
XeVision XV-36-ST - Standard taxi light conversion kit . XV1D or XV4D ballast and D1S bulb.	Beam angle 55º horizontal & 10º vertical. Preferred Application - PAR 36 conversion, lamp diameter 4-5/16"	
XV-36-ST 35 Watt	P/N 11-01761	**$468.95**
XV-36-ST 50 Watt	P/N 11-05037	**$516.00**
XeVision XV-46-SL - Landing light conversion kit . XV1D or XV4D ballast and D1S bulb.	Beam angle 10º horizontal & vertical. Preferred Application - PAR 46 conversion, lamp diameter 5-11/16"	
XV-46-SL 35 Watt	P/N 11-01762	**$468.95**
XV-46-SL 50 Watt	P/N 11-05204	**$516.00**
XV-46-ST - Taxi light conversion kit. XeVision XV-46-ST taxi light conversion kit XV1D or XV4D ballast and D1S bulb.	Beam angle 50º horizontal & 8º vertical. Preferred Application - PAR 46 conversion, lamp diameter 5-11/16"	
XV-46-ST 35 Watt	P/N 11-01763	**$468.95**
XV-46-ST 50 Watt	P/N 11-05208	**$516.00**
XV-22 - Landing or taxi light for external use like gear struts. XV1D or XV4D ballast and D1S bulb.	15º horizontal & 10º vertical. Landing/taxi light conversion designations Preferred Application - Lamp fixture, rectangular, only 2.25" high 4.7" wide, and 4.2" deep.	
XV-22 35 Watt	P/N 11-01765	**$467.95**
XV-22 50 Watt	P/N 11-05209	**$516.00**
XV-23 - Landing or taxi light in wing area or externally as on a gear structure. With XV1D or XV4D ballast and D1S bulb.	20º horizontal & 8º vertical. Preferred Application - Lamp fixture, rectangular, only 2.25" high 4.7" wide, and 4.2" deep.	
XV-23 35 Watt	P/N 11-01764	**$467.95**
XV-23 50 Watt	P/N 11-05210	**$516.00**

REPLACEMENT LAMPS

UNIVERSAL REPLACEMENT LAMPS

Our long life incandescent and halogen lamps offer greater light output with increased life and reduced costs. All lamps feature heavy filament construction. Improved design and manufacturing techniques produce a lamp far superior in service with lower cost to the user and packaging provides maximum protection in shipping, handling and storage.

WHELEN PARMETHEUS LED REPLACEMENT LANDING LIGHTS

Parmetheus PAR36/46 LED lights are a drop-in replacement for outdated Halogen lamps. PMA Approved, lightweight, low-current and moisture resistant, they provide stable light output for thousands of operating hours. LED lighting is the ideal technology for aviation applications. Whelen LED lights are time and field-tested for reliability and long-life performance under the tough conditions required by Fire, Emergency, DOT and Law Enforcement professionals around the world. PMA Approved

TELEDYNE ALPHABEAM LED LANDING & TAXI LIGHT

Drop-in replacement for traditional incandescent lights. The Teledyne LED Alphabeam Landing & Taxi light will replace the following incandescent replacement lamps: 4313, 4509, 4591, 4594, 4596.

Features:
· FAA PMA Approved
· Draws less power
· Longer life than incandescent bulbs
· Ruggedized for shock and vibration
· Meets applicable DO-160 environmental requirements
· Reduced maintenance costs

Specifications:
· Lamp type: PAR 36 – LED Technology
· 45W
· 12 – 30 VDC
· MBCP: 170,000
· 4.5" Bulb Diameter
· 2.75" Max Overall Length

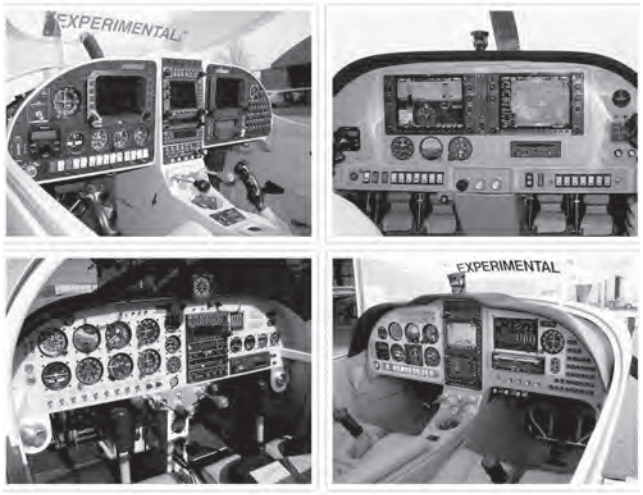
CUSTOM AVIONICS PANELS

ADVANTAGE AVIONICS

Advantage Avionics specializes in avionics installations and upgrades. Whether you want to upgrade an instrument, install a complete IFR radio stack, have a “plug and play” experimental panel built, or have an entertainment system installed, they can do it all. They can manufacture new panels for your older aircraft and make it look like it just rolled out of the factory. They know that every pilot and aircraft owner has different need and wants, and that’s why their recommendations and installations are tailored to each and every customer.

From conventional panel layouts to full “glass cockpits”, and simple radio installations to full IFR radio packages, just about any dream can become a reality at Advantage Avionics.

Come visit their facility at Chino airport (KCNO) and take a look around while enjoying a fresh cup of coffee. We invite you to see how they take care of you and your aircraft to provide the best service possible. They want to earn your business with true professionalism, honesty, and a comfortable experience.



The Aircraft Spruce and Specialty Panel Builder allows you to plan your panel without having to search all over the internet and keep track of all your findings. Using drop down menus, you can easily search our large inventory of avionics & instruments by category.This tool displays every piece of equipment you will need for your panel, enabling you to get quotes quickly and simplify the ordering process. Your data can be saved so you can build your panel at your own convenience.

If you need a complete custom panel built for your aircraft, Aircraft Spruce is your best choice for best quality and lowest cost.

Contact our Avionics Sales Manager for a quote on your new panel at; ryandeck@aircraftspruce.com.

IMPORTANT NOTICE

Aircraft Spruce & Specialty Co. cannot accept a return of any instrument or avionics equipment that has been installed and/or altered in any way. All returns must include all components and accessories and all original packaging. All returns must be in new, saleable condition. Credit or replacement will be issued at our discretion pending inspection and testing by the manufacturer. Warranty repairs can be sent directly to the manufacturer with a copy of our invoice.

GARMIN PORTABLE GPS

GARMIN AERA 500 SERIES GPS

The Garmin aera™ lineup of touchscreen GPS portables. Featuring crisp 4.3-inch QVGA wide-format displays with menu-driven tap-and-drag user interface. Transition seamlessly from runways to roadways with the best in Aviation and Automotive moving-map navigation. Leveraging Garmin's industry-leading expertise in integrated systems design, the aera series offers a full range of smart, easy-to-use guidance solutions for today's pilot/motorist. In your aircraft, the aera's detailed Sectional chart-style shaded mapping and extensive terrain and aviation databases (including private airports and heliports) help you visualize your flight path in relation to nearby navaids, terrain, SUAs, obstructions, and so on. For added safety, a database-driven terrain advisory feature offers TAWS-like color coding and pop-up alerts when possible obstructions or ground proximity conflicts loom ahead. Garmin's patented Panel Page affords a reassuring backup to your panel-mounted instruments with its exclusive display of GPS-derived HSI, altimeter, groundspeed, vertical speed and turn indication. Plus, on the aera 550 and 560 models, preloaded Garmin SafeTaxi® charts provide detailed taxiway diagrams and position information for over 950 U.S. airports – while an included AOPA Airport Directory database gives you detailed listings, phone numbers, facilities and fuel location information on over 7,400 U.S. landing sites, as well as airports of entry for Canada, Mexico and the Caribbean. Other premium aera 550/560 features include high-resolution 9 arc-second terrain/obstacle detail, database-derived IFR airways map mode, and more. Further, TIS traffic alerting is supported by all four aera models (through an interface with your aircraft's Garmin GTX 330 Mode S transponder or other compatible third-party traffic devices). **Weather-watchers take note:** For continuous inflight weather awareness, both the aera 510 and 560 models provide access – via Garmin's GXM 40 Smart Antenna/Receiver – to the latest in XM WX™ Satellite Weather capabilitiesYou can even access select XM weather products in auto mode as well. Plus, the simplicity of a single integrated cabling solution for power, music and datalink weather antenna options makes for easy, clutter-free aera connectivity in your choice of cockpits. **Flying or driving, you're covered:** When your aircraft lands, your aera journey continues with full automotive GPS navigation and preloaded City Navigator® NT street map coverage for North America or Europe. Operating much like Garmin's popular nüvi line of touchscreen auto navigators. Other premium features available on the aera 550 and 560 models include lane assist with junction view, speed limit notification, Navteq traffic alerts2, and more. Skyways or highways, from driveway to destination: When you travel with Garmin's aera series, you've got a world of navigation capability at your fingertips. And with four great models to choose from, it's easy to find the aera portable solution that perfectly matches your needs and budget.

Description	Part No.	Price
aera 500 The most affordable aera touchscreen unit, the 500 model features a crisp 4.3-inch QVGA wide-format screen and preloaded graphical mapping. Go from runways to roadways with preloaded City Navigator® NT street mapping.	11-08044 Americas	$699.00

GARMIN AERA 795/796 GPS

With its 3D Vision navigation technology, advanced electronic flight bag capabilities, XM Weather capabilities and much more, the touchscreen aera 796 ushers in the next era of aviation portables

Revolutionary new 3D Vision technology shows a virtual 3-D behind-the-aircraft perspective of surrounding terrain derived from GPS and the onboard terrain database – a feature previously only available in our panel-mount avionics. Simply slide your finger across the touchscreen to rotate the view and show land and water features, obstacles, runways and airport signposts in relative proximity to the aircraft. Internal GPS provides position updates at a rate of 5 times per second (5 Hz). aera 796's bright 7" diagonal high-definition sunlight-readable display makes detailed mapping easy to see in any lighting conditions and works in both portrait and landscape mode. The physical design has been optimized to fit on the yoke or for use as a knee-mounted device. There are only 4 touch keys on the bezel representing "Back", "Menu", "Direct-to" and "Nearest" for quick navigation to the most frequent used functions. All other functions are quickly accessed through Intuitive onscreen icons with labels. This unique touchscreen interface even allows you to quickly pan across the map screen and pinch to zoom. Fullfills the role of either a Class I or Class II electronic flight bag, greatly reducing the need to rely on paper charts in the cockpit. Initial georeferenced VFR sectional and IRF enroute charts come preloaded that show your aircraft's position overlaid directly on the relevant chart. When in IFR map mode, the 796 can display victor airways, jet routes, minimum enroute altitudes and leg distance, much like what's found on traditional enroute charts. A "scratch pad" feature also allows you to quickly jot down clearances and other pertinent notes while in route, while a checklist viewer allows you to create customized and interactive electronic checklists. Also allows for a top-down view of your entire route. To help you navigate around unfamiliar airports, SafeTaxi® provides detailed taxiway diagrams and position information for over 1,000 U.S. airports, while a private airport and heliport database greatly expands your emergency "nearest" options. FBO, ground transportation, lodging and other facility information for most U.S. airports are also available through preloaded AOPA Airport Directory Data; international pilots may choose to opt for global AC-U-KWIK airport directory data instead. A GXM 40 smart antenna is included with aera 796, giving you access to high-resolution weather and audio entertainment right in the cockpit (XM subscription required). XM WX™ Satellite Weather includes next generation radar (NEXRAD), aviation routine weather reports (METARs), terminal aerodrome forecasts (TAFs), temporary flight restrictions (TFRs), lightning, winds aloft and more for the U.S. and Canada. In addition, the 796 can receive PIREPs, turbulence forecasts, icing forecasts and more. The weather data can be laid directly over the unit's navigation and topographic map databases. Plus, with 170+ channels of digital music, news and programming through your aircraft headset or cabin audio system, you'll stay informed and entertained. Allows for simultaneous connectivity with other hardware. With an optional Garmin GTX 330 Mode S Transponder Interface, you can access Traffic Information Service (TIS) alerts, where available, right on the device while also sending frequencies to a Garmin SL30/40 radio or relaying position reports to other devices.

GARMIN PORTABLE GPS

GARMIN GPSMAP 696 & 695

GPSMAP 696 Meet our ultimate portable MFD: the GPSMAP 696, an all-in-one navigator designed exclusively for aviation. Featuring a large screen, detailed electronic charts and real-time weather, the 696 is your own personal avionics system.

See the Big Picture - The GPSMAP 696's bright 7-inch diagonal high-definition sunlight-readable display makes detailed mapping easy to see day or night — you can even view an entire approach plate on the large-format display. For easy operation, the bezel around the screen includes soft keys and a joystick control. And with a fast 5 Hz GPS update rate, the 696 renders graphics and presents flight data smoothly and continuously.

No Charts? No Problem. - With the addition of Garmin FliteCharts®[1] and IFR map mode, the GPSMAP 696 has Class 1/Class 2 electronic flight bag (EFB) capability, reducing the use of paper charts in the cockpit. With FliteCharts, you can quickly find and view all U.S. NACO departure procedures (DP), standard terminal arrival routes (STARs), approach charts and airport diagrams. If the current approach is known, GPSMAP 696 automatically selects the correct chart based on the flight plan. When in IFR map mode, the 696 can display victor airways, jet routes, minimum enroute altitude and leg distance, much like found on paper enroute charts.

Add Weather and Radio - The GPSMAP 696 includes a GXM 40 smart antenna, which gives you access to high-resolution weather and audio entertainment right in the cockpit (XM subscription required). XM WX™ Satellite Weather includes next generation radar (NEXRAD), aviation routine weather reports (METARs), terminal aerodrome forecasts (TAFs), temporary flight restrictions (TFRs), lightning, winds aloft and more for the U.S. and Canada. In addition, the 696 can receive PIREPs, turbulence forecast and icing forecast information. The weather data can be laid directly over the unit's navigation and topographic map databases. With 170+ channels of digital music, news and programming through your aircraft headset or cabin audio system, you'll stay informed and entertained.

Enhance Situational Awareness - The GPSMAP 696 features a high-resolution terrain page showing hazards relative to your altitude and a vertical profile of terrain along your route of flight. It comes with a built-in Jeppesen database, and an Americas, Atlantic or Pacific terrain database. It also includes an obstacles database for the U.S. or Europe. Using this information, the 696 displays your flight route over contour terrain mapping. With information from the terrain and obstacles databases, the 696 monitors your current position in relation to surrounding terrain to provide alerts. You can even customize your own minimum clearance levels to receive terrain cautions. The 696 also comes with a realistic "view from space" satellite imagery basemap.

GPSMAP 695 With features that focus on aviation-only navigation and mapping, GPSMAP 695 is Garmin's ultimate portable MFD. Similar to the 696, the GPSMAP 695 comes with a large screen and detailed electronic charts — minus XM compatibility — at a price you'll love.

GARMIN PORTABLE GPS

GARMIN GPSMAP 196

The GPSMAP 196 offers unprecendented features and utility in an aviation portable. In addition to the built-in Garmin basemap, the GPSMAP 196 accepts all of our MapSource products, and provides turn-by-turn route guidance for street navigation. Other exciting features include a unique "panel page", which offers a graphical depiction of GPS-derived flight information, and an automatic logbook function that records departure airports, arrival airports, and flight time (automatically recording night flight based on sunrise/sunset information). This flight information is stored in the unit, and can be downloaded to Garmin logbook software. The GPSMAP 196's processor provides map redraws and scrolling at over twice the speed of previous aviation portables. With these features plus a large (3.8"diagonal), 12-level grayscale display in a slim package, the GPSMAP 196 is sure to be the next big hit. Features: •3 distinct modes: Aviation, Land, Water Extended runway centerlines displayed on moving map •Unique panel page graphically displays flight info •Turn-by-turn automotive routing •Split-screen moving map and HSI display •Built-in basemap showing lakes, rivers, cities, highways, state boundaries •Benefits
Logbook feature automatically records flight data •WAAS-enabled, 12 parallel channel GPS receiver •1000 user waypoints with name and graphic symbol; 50 reversible routes wit 50 waypoints / route. •Compatible with most Map source products including Garmin BlueChart marine cartography, MetroGuide, and City Select.•Weight: approx. 1.5 lbs. with batteries •Battery life using (4) AA batteries; 16 hours with no backlighting used. 4 hours with full backlighting.

DELORME EARTHMATE PORTABLE GPS

Navigate worry-free anywhere you go with the waterproof, impact-resistant PN-60w. Its high-end GPS features and unrivaled selection of included maps, aerial imagery, and boating charts are ideally suited for use on land or water. The PN-60w also enables 2-way satellite text messaging and interactive SOS when paired with a DeLorme inReach (see accessories). No other GPS offers such a broad array of navigation and communication solutions. **Features**: Enjoy blazing-fast-performance with high-sensitivity 32-channel chipset and dual-core processor. Daylight readable 65k color screen lets you read the PN-60w in any light conditions. Determine direction while stationary with tilt-compensated 3-axis electronic compass. Determine precise elevations with sensitive barometric altimeter. Save waypoints and tracks as .gpx files, to internal memory or to SD cards, with no maximum limits. Store all the maps and aerial imagery you need with 3.5 GB of internal memory and support for SD cards up to 32 GB. Extend battery life with power management features. **Box Includes:** Earthmate PN-60w GPS, Topo North America 9.0, Free MapPack Subscription, Quick Start Guide, 2 lithium AA batteries, USB data-transfer cable for PC-GPS data exchanges, 5 regional discs of pre-cut PN-Series maps, and Sturdy lanyard.

P/N 11-10450 ..... **$349.95**

INREACH FOR EARTHMATE GPS / ANDROID PHONES

Use the inReach satellite communicator by itself and stay connected with pre-loaded text messages, delivery confirmation, SOS, and remote tracking. Or, pair inReach with a PN-60w (see accessories) for exclusive two-way messaging and reliable GPS navigation. Features: Two-way satellite messaging. Interactive SOS. Message delivery confirmation. Pole-to-pole global coverage. inReach users can communicate directly with one other to share information and locations. You can also post messages to Facebook and Twitter and enable remote tracking so others can follow your travel online. Box Includes: inReach for PN-60w GPS, Quick Start Guide, Micro USB cable, 2 lithium AA batteries, and Lanyard.

GARMIN GPS TRADE-IN / TRADE-UP PROGRAM

Trade-in only applies towards a purchase of a new Garmin unit listed below (one unit per trade-in). Trade-in must be complete, having all accessories, and the unit must be in good cosmetic and working condition. Any unit not meeting this requirement can receive a lesser trade-in value or have the unit returned.

1. Purchase a new GPSMAP 695, 696, or Aera 500, 510, 550, 560.
2. At the time of order, our sales representatives will give you your customer number and order number to use when sending in your trade-in unit.
3. Once you receive your new Garmin unit, please call our customer service number at 800-861-3192 and reference your customer number and order number to receive an RMA to ship your trade-in to Aircraft Spruce and Specialty.
4. After we receive your trade-in, we will verify that the unit is complete and in good cosmetic and working condition. Once verified we will credit you the trade-in value. Units with missing accessories will add delay to the credit process.

GPSMAP 496.....**$900.00**
GPSMAP 495.....**$750.00**
GPSMAP 396.....**$650.00**
GPSMAP 296.....**$500.00**
GPSMAP 196.....**$200.00**

Verify current trade-in values at time of order by calling 877-477-7823 or email us at info@aircraftspruce.com. We will beat any other supplier's price on any unit. Aircraft Spruce no longer accepts the Pilot III, 90 Series, 195 or 295 for trade.

GARMIN PORTABLE GPS - ACCESSORIES

GARMIN PILOT™ AVIATION APP

Garmin is excited to announce Garmin Pilot, a new aviation app for the iPad, iPhone, and Android mobile devices. The app brings Garmin's industry-leading aviation technology to mobile devices; offering pilots complete trip planning, DUATS filing, weather, navigation and electronic flight bag capabilities. Garmin Pilot is the perfect complement to our extensive line of aviation navigation products and services. Garmin Pilot incorporates the intuitive icon user interface and many of the same great features from our other popular products. Pilots will find it very familiar and easy to use. The Garmin Pilot app will help with every facet of your trip - Planning, Filing, and Flying.

Note: Garmin Pilot app only serves USA for charts and navigation. Expanded coverage expected in future.

GARMIN SAFENAV

SafeNav is an innovative new GPS-based navigation and alert system designed to provide airport vehicle operators with real-time situational awareness. Garmin, in partnership with I.D. Systems, has created SafeNav to help airport support vehicles avoid accidental runway incursions. The system overlays your vehicle's exact position directly onto the airport operating area. SafeNav boasts a database of nearly 1,000 U.S. airports borrowed from our proven SafeTaxi® diagrams. . The system's 4.3-inch (11 cm) screen makes it easy to know where you are in relation to runways, taxiways and buildings. It's an ideal solution for improving new employee orientation, enhancing safety for transient vehicles, and even seasoned employees in low visibility conditions. It has built-in geofencing algorithms that define airport runways and provide audible alerts as you near an incursion. P/N 11-09666.....**$1,395.00**

GARMIN TRIP AND WAYPOINT MANAGER CD

Make trip planning simple for your next outdoor adventure with MapSource Trip and Waypoint Manager. This computer software allows you to transfer waypoints, routes and tracks between your Garmin device and your computer. For reference, Trip and Waypoint Manager provides general worldwide maps that include interstates, motorways, political boundaries, principal cities and towns, oceans and other general reference details to place your GPS data in context. Provides basic worldwide maps to help you understand your GPS data in context, including major interstates, boundaries, oceans, principal cities and towns, and other general reference details. Offers an easy and convenient way to archive your GPS data for future use. Does not contain detailed maps. You cannot use this product to load maps to your Garmin device. P/N 11-02703 .....**$22.95**

GARMIN OREGON™ 300

Features a rugged, touchscreen along with a built-in basemap with shaded relief, a high-sensitivity receiver, barometric altimeter, electronic compass, microSD™ card slot, picture viewer and more. Even exchange tracks, waypoints, routes and geocaches wirelessly between similar units. Touch and Go - A tough, 3-inch diagonal, sunlight-readable, color, touchscreen display. Durable and waterproof, it is built to withstand the elements. Share your waypoints, tracks, routes and geocaches wirelessly other Oregon and Colorado users. Supports Geocaching.com GPX files for downloading geocaches and details straight to your unit. Locates your position quickly and precisely and maintains its GPS location even in heavy cover and deep canyons.Built-in electronic compass that provides bearing information even while you're standing still, and its barometric altimeter tracks changes in pressure to pinpoint your precise altitude.

AV

GPS PROTECTORS

NAVIGATION SCREEN PROTECTORS

The Pre-cut navigation screen protectors provide excellent protection from scratches. The anti-glare layer reduces unwanted reflections, increasing contrast, clarity, and viewing comfort even with the use of polarized lenses. This film is thick enough to protect the screen, yet thin enough to have no effect on touch screen sensitivity. Light tack adhesion provides for residue-free removal. Does not require special cleaners. Available for: ADR, Anywhere Map, Avidyne, Apollo, Chelton, Eclipse Avio, Garmin, King, Vista Nav, and more.

PORTABLE GPS MOUNT

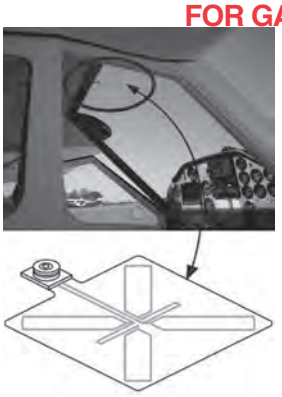
Designed, tested, and assembled entirely in the USA. Although it was developed and tested for many hours in Piper Aircraft and with a variety of Garmin GPS products including the brand new Garmin AERA line; it may be adapted to other applications and GPS units due to the utilization of a universal mounting plate and the ability of the windshield post clamp to fit any post size from 7/16 inch to 5/8 inch. This mount may also be permanently mounted in experimental aircraft. Note: It may be necessary to relocate the Magnetic compass in some aircraft if it is installed too close to the top of the glare shield. P/N 11-08297 .....**$62.50**

KNEEBOARD FOR HANDHELD GPS & PDAS

This angled kneeboard accommodates virtually every handheld GPS or PDA. The circular base is slightly cone-shaped for a leg-conforming fit and is wiggle-free secured around either upper leg with a velcro tape. The GPS or PDA attaches with velcro on a slant surface, which is angled about 30° and permits a perpendicular view on the screen.

P/N 11-01285 .....**$19.95**

CLEAR-NAV TRANSPARENT GPS ANTENNA FOR GARMIN UNITS



Clear-Nav is the aviation version of transparent GPS antennas using the design, development and manufacture of technologically advanced antenna systems for wireless applications. **Features**: Flick the GPS antenna from your dash-board, or the from the air-stream. Easy to install on plexi-glass, lexan or perspex windshields (Code X77P) .... also works well when installed on the inside of fiberglass upper fuselage - (for glass version please ask for Code X77G). UV resistant and virtually damage proof once it is installed. The supplied high quality RG174 thin (1/8") coaxial cable is easy to route around frame(s) and cabin linings. **Specifications**: Radiator: 2 x half-wave dipole 90 degrees phase shift(RHCP when Installed with adhesive side to sky), Antenna Gain: (Passive) 3dBi, LNA Gain: (Active) 27dB, System Gain: 30dB = Antenna + LNA, VSWR: < 1.2:1 @ Band center LNA Operating Voltage: +3 ~ +5v, Connector: MCX

EZCLEAR AND NAVISHIELD GPS PROTECTOR KITS

The pre-cut Navishield screen protectors provide excellent protection from scratches. The anti-glare layer reduces unwanted reflections, increasing contrast, clarity, and viewing comfort even with the use of polarized lenses. This film is thick enough to protect the screen, yet thin enough to have no effect on touch screen sensitivity. Light tack adhesion provides for residue-free removal.

These EZCLEAR products meet Garmin G1000 Pilot Guide specs for cleaning and is safe to use on glass panels. EZCLEAR Instrument Cleaning provides a safe, effective way to remove fingerprints and dust from glass panels, instruments and more. Click here to see EZCLEAR featured in the February 2011 edition of AOPA Pilot. The kit contains three EZCLEAR Cleaning Packs and one Polishing Cloth.

GPS Protection Kit for Garmin aeras	11-09429	**$26.45**
GPS Protection Kit for AV8OR	11-09431	**$26.45**

EZCLEAR INSTRUMENT CLEANING KIT

This product meets Garmin G1000 Pilot Guide specs for cleaning and is safe to use on glass panels. EZCLEAR Instrument Cleaning provides a safe, effective way to remove fingerprints and dust from glass panels, instruments and more. The kit contains three EZCLEAR Cleaning Packs and one Polishing Cloth; these items have been specifically paired together to ensure safe and effective screen cleaning. Per the instructions, the user wipes the surface with the Cleaning Pack and then dries the area with the Polishing Cloth. The Cleaning Packs are ammonia free, aviation-grade and will not remove or damage any anti-reflective coating. The Polishing Cloth is washable. This kit will last between 3-4 months depending upon frequency of use. P/N 09-02394..... **$14.85**

**** CAN SUBSTITUTE A GPSMAP 496 FOR A AERA 560 FOR THE SAME PRICE. MUST SPECIFY AT TIME OF ORDER.***

AIRGIZMOS PANEL DOCKS

AIRGIZMOS PANEL DOCK FOR THE GARMIN AERA SERIES

Fits the aera 500 GPS like a glove. Replaces the 496 Panel Dock without modifying the panel. Installs easily in a standard 6.25" opening. Allows quick and easy removal of your portable GPS. Includes an integrated actuator for the power button. Gives your instrument panel a professional, finished look. P/N 11-08321.....**$109.95**

AIRGIZMOS PANEL DOCK FOR GARMIN 695/696

Securely mounts the Garmin GPSMap 695/696. Designed to allow quick and easy removal of your portable GPS. Made from durable, high quality plastic similar in appearance to the GPS itself. Gives your instrument panel a professional, finished look.

Garmin 695/696 Panel Dock .....P/N 11-09439 ...**$168.95**
Horizontal Tilt.....P/N 11-07310 .....**$46.85**

AIRGIZMOS PANEL DOCK FOR GARMIN 196/296/396/495/496

Designed to securely hold your Garmin 196, 296, 396, or 496 portable GPS. It fits nicely in a standard 6.25" avionics stack. Allows you to quickly remove your portable GPS from your plane for upgrades, flight planning, or for use in your car or boat. The Panel Dock is shipped with a set of mounting hardware necessary for attaching it to an avionics stack. P/N 11-03509 ..... **$88.50**

AIRGIZMOS PANEL DOCK FOR GARMIN 295

The Garmin 295 is held safely and securely, but can be easily removed in a matter of seconds. The external power and antenna connections are made at the back of the unit, and the cables are secured from falling into the panel with special keyholes machined into the dock.....P/N 11-04315..... **$89.95**

AIRGIZMOS VERTICAL TILT ADAPTOR FOR GARMIN UNITS

The Vertical Tilt Adapter angles the viewing angle of the GPS so it is more readable when the GPS is mounted at the bottom of a tall instrument panel. This adapter fits the same opening as the Panel Dock itself, so adding the vertical tilt should be very easy for existing installations. ***REQUIRES P/N 11-03509.***

P/N 11-05029..... **$24.95**

AIRGIZMOS HORIZONTAL TILT ADAPTOR FOR GARMIN UNITS

AirGizmos Horizontal Tilt Bracket angles the GPS at a fixed angle of 15 degrees, providing a much more convenient viewing angle. This adapter fits in the same panel cutout as the Panel Dock, so if you already have a Panel Dock you can attach this adapter without having to modify your installation. ***REQUIRES P/N 11-03509.*** P/N 11-04671 ..... **$21.95**

AIRGIZMOS 396 XM ANTENNA DOCK

Now you can move the XM antenna from plane to plane, or from vehicle to vehicle. It is designed to mobilize your costly 496 XM antenna. It helps to maintain the clean look of a permanenet installation by organizing the antenna cable. Using a simple twist & lock mechanism (no tools required) the base will lock your antenna into the preinstalled cradle, and your 396 XM antenna is ready to go!P/N 11-04694..... **$74.95**

AIRGIZMOS PREMIUM BEANBAG XM 396 & 496 ANTENNA MOUNT

The AirGizmos Antenna Dock is designed to mobilize your costly 496 XM antenna. It helps to maintain the clean look of a permanenet installation by organizing the antenna cable. Package includes: base, cradle, beenbag assembly, and two cables.

P/N 11-07007.....**$117.50**

AIRGIZMOS 396 & 496 XM CRADLE & CABLE

This product wil allow you to use the AirGizmos XM Antenna Dock in a second vehicle or aircraft. Use of this product requires that you first purchase the AirGizmos XM Antenna Dock. P/N 11-04781 ..... **$38.95**

AIRGIZMOS PANEL DOCK COVER

FOR GARMIN 196/296/396/496

This panel is for Garmin panel dock for models 196/296/396/496. Protects unit from UV rays and hides unit in the aircraft so that theft is less likely to happen. Can be used even if Garmin unit has not been installed yet.

P/N 11-04775 ..... **$17.75**

AIRGIZMOS AV8OR PANEL DOCK

Securely mounts Bendix/King AV8OR GPS. Installs easily in a standard 6.25" opening. Designed to allow quick and easy removal of your portable GPS. Includes right angle extension cable for weather antenna. Gives your instrument panel a professional, finished look.

Width: 6.25" Height: 4.00" P/N 11-07782.....**$109.95**

AIRGIZMO AV8OR ACE PANEL DOCK

Designed to securely mount your AV8OR ACE in the panel, the AV8OR ACE Panel Dock is the perfect companion to this GPS from Bendix/King. Designed to match the styling of the rest of the avionics in your panel. It fits a standard 6.25" radio stack. The AV8OR ACE can be snapped into the Panel Dock with either the standard battery or the extended battery attached to the GPS.

P/N 11-08589.....**$139.95**

AIRGIZMOS PANEL DOCK FOR AVMAP EKP-IV

Now you can mount the beautiful, detailed display of the AvMap EKP-IV directly in your instrument panel using the AirGizmos EKP-IV Panel Dock. The AirGizmos EKP-IV Panel Dock is designed to hold the AvMap securely yet it allows you to easily remove your portable from your plane whenever the need arises. The AirGizmos EKP-IV Panel Dock offers easy installation, quick release, hassle-free management of cables, and elegance of design..... P/N 11-04371..... **$109.95**

AIRGIZMO GEOPILOT PANEL DOCK

This GPS has a nice large screen to go with it's small size. Our Panel Dock is designed to hold the GeoPilot securely in your panel while allowing it to be easily removed for portable use. Made from durable, high quality plastic similar in appearance to the GPS itself. Gives your instrument panel a professional, finished look.....P/N 11-05615 ..... **$96.95**

AIRGIZMO GEOPILOT II PLUS PANEL DOCK

Fits in a standard 6.25" radio stack. Power and antenna cables are organized and managed. The included WxWorx weather receiver bracket provides additional organization in the cockpit by providing a secure mount for the WxWorx receiver box.P/N 11-06855 ..... **$109.95**

AIRGIZMOS PANEL DOCK FOR AIRMAP 1000/2000C

The cables supplied by Lowrance fit through keyhole slots on the back of the unit. The release latch at the top of the Panel Dock permits quick removal of the device for use in another vehicle or simply for security purposes..... P/N 11-04372.....**$109.95**

AIRGIZMO LOWRANCE 600 PANEL DOCK

Lowrance makes a low cost handheld GPS that is just the perfect size for many panels. Our Panel Dock will allow the AirMap 600c to be nicely mounted in your panel while still allowing it to be easily removed and used as a handheld. Made from durable, high quality plastic similar in appearance to the GPS itself. Gives your instrument panel a professional, finished look. P/N 11-05616.....**$62.95**

AIRGIZMOS AERO COVER

Would you like to be able to permanently mount the GPS or XM Weather antenna from your favourite GPS? If so, the Aero Cover is for you. It fits all of the major brands of GPS and XM weather antennas. It will protect your antenna from the elements. It is streamlined and attractive. Best of all, it gets your antenna out of your way. P/N 11-04777.....**$64.95**

AIRGIZMOS XM ANTENNA CABLE

XM Antenna Cable
Straight, 2 meter extension for Garmin XM Weather Antenna P/N 11-04780..... **$13.95**

AIRGIZMOS AERO DOCK

Don't have room to install the Garmin XM Antenna inside your plane?
The Aero Dock gives you the option of mounting it on the outside.
The AirGizmos Antenna Dock is designed to mobilize your costly 396 XM antenna. It helps to maintain the clean look of a permanent installation by organizing the antenna cable. Using the AirGizmos Aero Dock you can freely move ONE XM antenna from location to location, avoiding high costs of additional equipment and service subscription.
Kit includes: 1 cradle, 1 base, 1 cable, mounting hardware.

P/N 11-04778..... **$74.75**

ANYWHERE MAP® – MOUNTS

ANYWHERE MAP QUADRA MAX

Add sectional charts to the Quadra and eliminate the hassle of fumbling, folding, and refolding paper charts in-flight. A simple online process automatically keeps the charts current. Works with your existing Anywhere Map subscription, no additional subscription are required. Please note that this unit only offers USA chart information at this time. Take a look at screen shots of Pocket Plates 3.0 on the Quadra. The Quadra™ is the best handheld GPS system for aviation, and features a 4.3" high-definition display. The HD display on the Quadra shows four times the detail compared to OTHER 4.3" aviation GPS units. Aviation navigation and street mapping are built right in, and features like geo-referenced taxiways, 180 meter terrain, and obstacle awareness are standard features. This easy-to-use system features an all new touch screen based user interface. Innovative safety features like our patented Cones of Safety®, Emergency Mode, Personal Digital Co-Pilot®, and obstacle and terrain warnings are even easier to use than ever. SUA's, TFR's and terminal areas will keep you out of trouble in today's complex airspace. The Nearest Anything™ function shows you everything from nearby airports to AWOS Frequencies, and even the FBO with the cheapest fuel. The virtual ILS, EFIS Arc, HSI and "flight following" features will help you to be a better pilot. The 100LL.com airport directory and fuel price guide and their pioneering Taxi Express Airport taxiway diagrams are also included giving you unmatched situational awareness in the air and on the ground. Once you reach your destination, you can take the compact, self-contained display unit with you and enjoy superb 3D street mapping in your car. The system comes with both a car mount AND a full yoke mount. The Anywhere Map Travel Companion is the best personal navigator available at any price. Includes: • GPS• Yoke Mount Suction Cup Mount• Cigarette Lighter Adapter• AC Adapter• 1GB SD Card P/N 11-08327 ..... **$595.00**

ANYWHERE MAP QUADRA DUO

7" WSVGA display. This 32GB solid state tablet offers excellent sunlight readability with no altitude restrictions. The lower profile of the new Duo is an even better fit on your aircraft yoke and features a built-in WAAS GPS. Comes standard with Anywhere Map® PRO for navigation, Pocket Plates and street navigation software. Fully portable, self-contained aviation GPS. It combines an advanced high-resolution terrain map, detailed aviation data including navaids, airspace, airways, SUAs and TFRs, with advanced flight tools like a VNAV, HSI, flight planning, weight & balance, calculator, and an Airport Guide. Anywhere Map's Personal Digital Co-Pilot® tracks your flight and issues Reminders like Switch Fuel Tanks and Begin Descent along with Obstacle and Terrain Warnings. System Includes: Anywhere SST Duo, PRO Mapping Software, Pocket Plates Software, Street Atlas USA 2010, Smart Card, Smart power adapter, Duo Yoke Mount. Like all handheld systems, Anywhere Map is not tested or approved by the FAA or any governmental agency and should not be used as a primary flight instrument.
Quadra Duo with XM ..... P/N 11-08491 ..... **$2,295.00**

AV

ANYWHERE MAP SEPTA

The SEPTA is a fully functional touch screen GPS with the real estate to show full size approach plates, with the aircraft position clearly shown on the plate. Complete sectional and enroute charts, along with a high resolution terrain elevation database insures that the flight environment is always clearly shown on the brilliant seven-inch, fully sunlight-readable display. The SEPTA is a complete standalone GPS, no programs to install, no operating system to learn, and no waiting for it to boot up. Nothing is brighter than the SEPTA. The display is the brightest in the industry, there isn't a GPS available with a brighter screen. Ordinary Tablet computers are not optimized for use in the bright light of an aircraft cockpit and are typically only a fraction as bright. Other portable GPS units are typically 30 to 50 percent as bright as the SEPTA. The SEPTA is a full featured GPS system, packed with the features that people love about Anywhere Map, like high resolution terrain, Geo-Referenced Charts, Cones of Safety, Emergency landing mode, Extensive VNAV, online updating, rich surface features, 100LL.com fuel prices, approach plates, sectional charts, low/high enroute charts and much more. Like all Anywhere Map products, it includes a suite of virtual instruments that can overlay the map, including an HSI, Turn rate, Rate of Climb, heading and speed, and virtual glideslope. The SEPTA is housed in a rubberized case with convenient grips, an elegant and rugged docking connector and a removable / replaceable battery. Screen brightness is controlled by two pushbuttons, up and down. All other controls are via the big bright and beautiful touch screen. ..... P/N 11-09907 ..... **$1,495.00**

ANYWHERE POCKET PLATES SOFTWARE

Pocket Plates Software with 6 months of Updates. Entire 12,000+ page library of current NACO (FAA) approach procedures for the lower 48 states for display on a Pocket PC (PDA) computer, or Windows® laptop or tablet PC. Included with the plates are all ephemera: performance, Arrivals and Departures. Exact reproductions of current procedures as published by the Charting Office. Updated online by subscription every 28 days. Satisfies requirements for Part 91 usage. ***Real-time GPS Position -*** Pocket Plates contain all underlying fixes, intersections, airports and navaids in map coordinate format. Plates are calibrated, a simple process that takes about ten seconds, consisting of identifying two objects on the plate such as a fix and the airport. ***Product components*** - Consists of a Plate Manager that installs on your laptop or desktop PC, and a Plate Viewer for displaying the procedures on a Pocket PC. The Plate Manager selects which plates you store on your Pocket PC or Tablet; performs automatic Auto-Pilot Updates of the plate library, and prints our hard copies of plates as backup for specific routes. Select approaches either by typing in an airport identifier or by tapping on geographic regions of the country. The procedure is intuitive and very fast and there are no fragile paper plates to remove from a binder. ***Storage Options*** - The entire 12,000-page U.S. plate library and the Plate Manager are stored on a Windows® PC in under 1 Gigabyte of disk space. Plates are stored for viewing on Pocket PC or Raven® computers using a memory card. A 1-gigabyte card will store the entire library with about 200 MB left over. C***ompatibility -*** Pocket Plates is supported for Pocket PCs with ARM processors such as iPAQs and Toshibas, and Windows® 2000/XP computers. It is not currently supported on Casio Pocket PCs. P/N 11-02239... **$214.95**

G-FORCE MOUNTS

The powerful G-Force vacuum base can withstand 23g of shear force, making a sturdy, lasting bond wherever you have a smooth, non-porous surface. That includes glass, plastic, even gelcoat. Creates a stable, reachable platform for your portable GPS that makes programming a breeze Take it from airplane to auto. It even works in the boat. All G-Force Mounts include appropriate mounting hardware and an easy-to-follow User Guide.

Mount for Early Garmins - The G-Force Mount docks directly to the OEM cradle supplied by Garmin International with its GPS/MAP models 195 through 496 and all Lowrance AIRMAP models. Other Garmin models and units from other manufacturers may require an interface cradle at additional cost. Cradles are not included with purchase.
P/N 11-08097 ..... **$42.75**

Mount for Garmin 695/696 - This G-Force GF2 Mount is all you need to turn your portable, large-format GPS into a heads-up display that will confirm your skill to think past the yoke. In the time it takes to unravel your headset, your portable, large-format GPS will look like a fixed addition to your panel instrument array. P/N 11-08099 ..... **$73.25**

GF1.2 Aera Mount - The G-Force GPS Mount Manages your cockpit Resources, Restores your priorities, Returns valuable seconds to your command P/N 11-08773 ..... **$42.75**

GF3 Antenna Farm - Collects Garmin's multiple antennas on the G-Force GF3 Mount, and locates them under the window canopy for superb clear satellite contact. A great way to manage that tangle of antenna wires. P/N 11-08101 ..... **$41.95**

GF7 Camera Mount - Now, High-Speed Photography is a One-handed No-Brainer. Attach your lightweight camera or video to this G-Force GF1 Mount, fitted with an industry standard 1/4-20 camera stud.
P/N 11-08103 ..... **$42.50**

GF27 Camera Mount -Twice the holding power means double security. Dock your heavier camera to the G-Force GF2 Mount, fitted with an industry standard 1/4-20 camera stud. P/N 11-08104 ..... **$79.50**

FAT GECKO CAMERA MOUNTS

Secure cameras to any smooth surface including: motorcycles, cars, airplanes, and more. Fat Gecko's suction cups are so strong they can safely secure hold a camera weighing up to six pounds. Allows for 360° tilt, 360° turn, and 360° rotation for all the best filming angles in any activity The 1/4 x 20 tripod mounting screws means you can use virtually any digital still or video camera on the market. Equipped with a removable extension tube so you can film around tire wells or over windshields.

Description	Part No.	Price
Fat Gecko Camera Mount	11-07877	**$79.99**
Fat Gecko Quick Release GPSMAP 696 - A quick and easy attachment of the Garmin™ 695 & 696 GPS units to be used in conjunction with the Fat Gecko.	11-07918	**$18.95**
Fat Gecko Mini Mount - Single suction cup, with a 3" extension bar. Tested to carry 4 lbs.	11-07917	**$38.95**
Fat Gecko Mini Tree Antenna - Gives users a quick and easy way to mount GPS antennas and others out of the way. To be used in conjunction with the Fat Gecko Mini Mount	11-07919	**$23.95**

AVMAP PORTABLE GPS

GEO PILOT II

GeoPilot II, the new portable navigator developed by AvMap based o the success of the GeoPilot, is high performance and truly affordable. More Hi Quality hardware and Software features have been added: GeoPilot II is faster than ever thanks to the new 300 MHz processor and is more compact and practical with the built-in GPS receiver and richer in information. ***Large display, Safe Navigation -*** AvMap GeoPilot II displays all the information you need on a wide 5" color LCD. The display is sunlight-readable and equipped with a sensor for automatic brightness control. The information is sharp and bright and the map page is fully customizable. The large control buttons and unique toggle cursor control make naviga ting through menus and editing flight plans easy. ***Most Accurate Information -*** The maps preloaded on the SD memory card includes the Jeppesen® navigation database with terrain and vertical obstructions. The Map also includes Victor Airways, marine objects, ULM Aerodromes and private airports. This enhanced database provides more navigation and emergency "nearest" options. ***Enhanced Situational Awareness -*** Situational awareness is greatly improved with TAWS (Terrain Awareness Warning System). With the new Crossed Airspace Predictor function, you can get a preview of the airspaces that you will cross along your flight, while the Crossed Airspace Advisor provides warnings during the flight on airspaces being crossed. ***Multifunctional: Navigate by Sky and Land! -*** AvMap GeoPilot II is engineered for aeronautical as well as terrestrial use as it can fit perfectly in your aircraft and in you car. With the optional 2GB SD Card preloaded with Tele Atlas Maps of all North America or Europe, GeoPilot II converts into an advanced car navigator with turn-by-turn vocal instructions! ***Hardware :*** Dimensions (mm): 140x100x35.4 Weight: 390g Display: LCD TFT 5" (12,7 cm) with audio - video input Display brightness: 400 nits Automatic brightness control: Yes + Night Palette for night flying Display Colors: 64 k Display resolution: 320x240 pixels GPS Receiver: Built-in Sirf Star III 20 channels Processor: Arm9 300Mhz RAM: 32 MB Memory Support: Secure Digital (SD) 256 / 512 MB Battery: Built-in Li-Ion rechargeable battery Power supply: Charger 10/35 V DC Built-in Speakers External GPS antenna serial Port

Operating System: AvMap Software update: Free 2D view: Land Elevation (color coded topographic map showing the altitude of the terrain) Turn-by-turn vocal instructions: With built-in speakers (only for terrestrial navigation). Full flight planning capability: Up to 15 flight plans of up to 100 legs each Editable aircraft checklist, Trip computer, Full nav data Page, Full simulator functions, TAWS - Terrain Awareness and Warning System: Yes + Crossed Airspace Predictor and advisor Integration with other on board navigation systems.

AVMAP EKP V HANDHELD GPS

AvMap presents EKP V the next step in the evolution of aeronautical GPS, redefining the role of the GPS inside the cockpit.

Fully Portable
A brilliant 7" display, with built-in battery and GPS, only 0.8" thick. EKP V is slim and light, yet very powerful: with built in u-blox 5 GPS receiver, built-in battery and speakers.

Offering full Connectivity
Thanks to the special Docking Station, you can connect EKP V to several on-board devices at the same time (autopilot, XM WX, CAS, EIS, EFIS etc.) so that the large 7" LCD becomes multifunctional and capable to display different flight info.

Fully Customizable
Easily change the layout choosing what to see and where to display it: maps, taws, weather, vertical profile on map, nav data, HSI, EFIS. Set different PROFILES for different aircrafts with different settings for taws, selective display and even different hard keys configurations.

User Friendly
The new practical keyboard includes a configurable key, a progressive jostick and a smart wheel selector. Ease of use is ensured by the new graphic interface and the full qwerty virtual keyboard.

The cartography for AvMap aeronautical products includes information from several sources: Background and land elevation, Terrestrial data, Marine objects, Jeppesen data, Low Airways (Victor Airways), Private airports, Vertical obstructions, VFR reporting points, And more!

HELM X650 GPS SYSTEM

The Helm X650 is the first open GPS system designed for aircraft use. Running Windows Xp allows the user to install and run the software of their choice in a panel mount, or yoke mount configuration. The X650 was designed, from the ground up, to be used in aircraft. It fits neatly in the avionics stack utilizing a snap in mount that maintains the units portable status. This allows the owner to install the X650 in the avionics stack of a certified aircraft. Remove that old Loran and ADF and install a state of the art gps. A log book entry by an A&P is all that is required. The X650 is also set up to use the RAM mount system of mounts. This allows the unit to be yoke mounted. It's perfect size means that it fits nicely between the rams horn yokes of any Cessna. The X650 is the perfect solution for any aircraft, and it never gets old. simply install the latest software, and it is like a new GPS all over again. Note: Software is sold separately.
Features: 6.5" Touch Screen, 1000 Nits Brightness, VGA Resolution, 640 x 480, Solid State Storage, Built-in Two Axis Gyro, Built-in GPS.

DUAL UNIVERSAL XGPS150 RECEIVER WITH BLUETOOTH

The XGPS150 is very simple to use. There is a quick set up process that includes pairing your device with the Receiver. Once this is done, the Receiver will automatically connect to the device it was last paired with, and you will be able to use it with hundreds of apps that require location information. The XGPS150 also comes with a useful GPS Status Tool App (available free on the iTunes store, not required for the device to work). The App is a simple utility application for use with the XGPS150. It shows detailed information from the XGPS150 including: Your location (or whether the device is still determining where you are) How many satellites the device sees and the signal strength of each satellite. The battery level of the XGPS150, and whether or not it is charging. Confirmation the XGPS150 is successfully connected to your iPad/iPod touch/iPhone P/N 11-09941 .....**$99.99**

IPAD / IPHONE / IPOD GPS WITH BLUETOOTH

This small GPS receiver provides position information to aviation apps such as Wing X and ForeFlight to provide a moving map display on Apple iPad, iPhone, and iPod Touch. It features a simple set up procedure, 32 channel GPS receiver, wireless Bluetooth and a rechargeable battery for over 10 hours of GPS use. This small (3.1" x 1.25" x 1/2") receiver uses Bluetooth to wirelessly connect GPS to your Apple device. Compatible with iPad 1 and 2, iPhone 3G, 3Gs, 4GS and iPod Touch 2G and 3G.
Features: STT SmartTouchTechnologie - to turn on or turn off, High-sensitive 32-channel GPS chip, NMEA und iPhone protocol, iPhone/iPod operating system from OS 3.0.1, iPad operating system, Over 10 hours of operation, Only 11,3 mm thin and 47 g in weight. **Compatibility**: iPod touch 4G, 3G, 2G, iPhone 4, 3GS, 3G, iPad 2, iPad. **In The Box:** GNS 5870 MFI Receiver, Charger cable, Cigarette-lighter socket adapter, Manual..... P/N 13-10270.....**$99.95**

FC-1 FLIGHT COMPANION

Multi functional electronic instrument that incorporates a sophisticated audio interface system with a high level input to accept external MP3, GPS and Cell phone products, a highly accurate digital Altitude Alert System, a digital Tank Timer for fuel Management, and a power management system designed to get the most out of its on board battery. By plugging the unit directly into the existing headphone jacks (phones and mic) the unit performs a seamless interface connection that allows the pilots headphones to continue to use the ships audio while at the same time provides the Aux I/O to be used with an MP3, Iphone, or Blackberry. Cell Phone audio is of course conditioned and routed through the system providing noise reduction and safety. Has a self contained VOX (Voice Operated Xchange). This feature mutes any audio coming from the Aux input any time there is audio activity on the intercom or radio. Internal Altitude Alert System is built around the highly accurate Bosch Digital I2C Pressure Sensor. The accuracy of this device allows the FC-The Tank Timer System that is supplied with the FC-1 is designed to keep the pilot aware of how much fuel is being burned. The FC-1 system uses a common 9 volt alkaline battery. Estimated life of the battery is approximately 25 active hours under typical operation. This can vary depending on usage. If for some reason the system is not shut down after a flight the unit will automatically go into sleep mode 2 minutes after either the left or right tank alarm is activated.

GARMIN PANEL MOUNT

GARMIN GTN 650 GPS/NAV/COMM SYSTEM

Garmin is changing the course of aviation yet again! Introducing the GTN 650 "next generation" touchscreen avionics. This panel-mount unit is certified and approved for installation in hundreds of makes and models of general aviation aircraft. The GTN 650 has GPS/NAV/COM capabilities and new features like intuitive touchscreen operation, graphical flight planning, victor airway and high-altitude jet route navigation, remote transponder, SafeTaxi® and more.
Thanks to built-in terrain, mapping and obstacle databases, the GTN provides a greatly enhanced, high resolution presentation of the surrounding area. A built-in terrain elevation database shows color-coded alerts when potential terrain conflicts are ahead. Full Class B TAWS alerting is also available as an option. The SBAS/WAAS equipped GTN 650 series lets pilots fly GPS-guided LPV glidepath approaches down to ILS-comparable minimums. In addition, precise course deviation and roll steering outputs can be coupled to select autopilots so that IFR flight procedures may be flown automatically. This includes all ARINC 424 leg types, excluding RF legs (for example, when coupled with a G500/G600 Flight Display, the aircraft can fly fully coupled missed approaches, including heading legs).
Included:
Garmin GTN 650 System (Black)
Garmin GTN Americas Database or Garmin International Database
Garmin GA 35 WAAS Antenna
Garmin GTN Harness
For certified aircraft please see our partner USA avionics shops.
Pricing below is for an experimental aircraft only with harness.

Garmin GTN 650 Americas w/ harness.....P/N 11-09702 .**$10,222.00**
Garmin GTN 650 International w/ harness.....P/N 11-09706 .**$10,694.00**

GARMIN GTN 625

Introducing the next generation of aircraft navigation. The GTN 625 is a 2.64-in.-tall standalone GPS navigator that puts a wealth of features – like high-resolution terrain mapping, graphical flight planning, traffic display and more – right at your fingertips. With the GTN 625's revolutionary new touchscreen interface, you're rarely more than two taps away from all of the system's primary functions. Traditional concentric knobs are also available for those who are used to that style of data input. The GTN family makes it easier than ever to get where you're going. Graphical flight planning capabilities allow you to edit your entire route using the map screen and easily enter new waypoints or modify existing ones. The system's robust 15-channel GPS receiver generates five position updates per second. Packed full of multifunction display capabilities, the GTN 625 brings enhanced situational awareness to your cockpit. With high-resolution terrain mapping – including topography features, cities, airports, terminal areas, SUAs and more – and optional Class B TAWS alerting, you'll find your way around the airspace safely and with ease. The system even allows you to load and follow Victor and jet airways. On the ground, built-in Garmin SafeTaxi® U.S. airport diagrams give you geo-referenced runways, taxiways, FBOs and hangars. Couple the system with a GDL™ 69 series datalink receiver and XM® subscriptions, you can overlay NEXRAD radar right onto your moving map display and receive satellite music. Or add a Garmin traffic system and pinpoint other aircraft in your vicinity. The GTN 625 can control the GTX™ 32/33 remote transponder, which could also save you valuable panel space. The GTN 625 features a front-loading SD™ card reader, so you can easily update your databases.
In The Box: GTN 625, Cleaning cloth, SD card with databases, Installation kit, Simulation software DVD, Familiarization video DVD, Pilot's guide, Cockpit reference guide, Complimentary database update certificate.....P/N 11-09973 ...**$7,923.00**

GARMIN GTN 750 GPS/NAV/COM SYSTEM

Note: Per Garmin, Aircraft Spruce can only offer this product to experimental aircraft with harness*
Packed full of powerful avionics, the GTN 750 is a fully integrated GPS/NAV/COMM solution. The 6-in.-tall system's intuitive touchscreen controls and large display give you unprecedented access to high-resolution terrain mapping, graphical flight planning, geo-referenced charting, traffic display, satellite weather and much more. Touch and Go - With the GTN 750's revolutionary new touchscreen interface, you're rarely more than two taps away from all of the system's primary functions. Navigate with Ease - The GTN family makes it easier than ever to get where you're going. Graphical flight planning capabilities allow you to preview your entire route on the map screen and easily enter new waypoints or modify existing ones. The system even lets you load Victor and jet airways. In IFR conditions, you now have more landing options, as well. The SBAS/WAAS-certified, 15-channel GPS receiver generates five position updates per second, enabling you to fly GPS-guided LPV glidepath instrument approaches down to as low as 200 ft. The system also includes a complete package of VHF navigation capabilities, with a 200-channel VOR/ILS with localizer and glidescope. Make Communication a Breeze
A fully certified, 2,280-channel VHF communications transceiver provides a standard 10 W (or optional 16 W) of power output. See More than Ever Before - With a wealth of multifunction display capabilities, the GTN 750 brings enhanced situational awareness to your cockpit. Couple the system with a GDL™ 69 series datalink receiver and XM® subscriptions, you can overlay NEXRAD radar right onto your moving map display and receive satellite music. Or add a Garmin traffic system and pinpoint other aircraft in your vicinity. The GTN 750 can even control the GMA 35 remote audio panel with clearance recorder, advanced auto squelch and more. Use the GMA 35 and a GTX™ 32/33 remote transponder to save up to 3 in. of panel space versus a typical GNS 430/530 install. The GTN 750 features a front-loading SD™ card reader, so you can easily update your databases. PilotPak™ database bundles are now available on a single aircraft basis, saving you money and simplifying the update process -- visit flyGarmin.com to learn more.

AV

GARMIN PANEL MOUNT

GARMIN G3X EFIS/EMS SYSTEM

Now available with complete wiring harness for end user installations!
Designed around the GDU 370/375 series of panel-mount displays, the G3X suite provides an easy-to-install, non-TSO'd option that lets you grow your system as your needs and budget dictate.
Simplicity meets sophistication in the G3X flight deck. Using sophisticated graphics modeling, the integrated SVX™ synthetic vision technology provides a 3-D "virtual reality" perspective of what lies ahead. The system pulls together information from the built-in aviation basemap and terrain elevation database, letting you clearly visualize terrain features, obstacles, waterways and airport locations on the 7-inch high-definition display. By adding a GTX 330 Mode S transponder, your G3X display Traffic Information Service (TIS) alerts to help identify aircraft in your proximity. The system can also be coupled with the TruTrak GX Pilot autopilot system to provide sophisticated flight control modes including altitude preselect and capture, heading hold and GPS as well as ILS navigation. The autopilot can even be used to fly WAAS approaches when used in conjunction with a GNS 400W/500W series unit.
In addition to its detailed terrain map, the G3X system comes preloaded with geo-referenced Garmin FliteCharts®, which displays a graphical representation of your aircraft overlaid directly onto NACO-format IFR approach plates. FliteCharts also allows you to easily find and view all U.S. AeroNav Services, standard terminal arrival routes (STARs) and more. For pilots who prefer Jeppesen charts and diagrams, Garmin also offers ChartView™, which utilizes Jeppesen's extensive library to provide global geo-referenced charting capabilities (unlock card $499 plus subscription is extra). The Garmin SafeTaxi® service is also built-in, providing geo-referenced diagrams for over 900 U.S. airports. Plus, AOPA Airport Directory data puts detailed information on more than 7,400 U.S. Airports right at your fingertips.
The G3X system uses the latest in GPS-aided digital ADAHRS (Air Data and Attitude Heading and Reference Systems). Leveraging solid-state sensors and sophisticated attitude determination and integrity monitoring algorithms used in Garmin's high-end G1000 system, the G3X's ADAHRS provides highly accurate and reliable referencing of your aircraft position, rate, vector and accelera tion data. Better still, the complete sensor package – ADAHRS and EIS engine monitoring, plus magnetometer and temperature probe – takes up just a fraction of the space and weight previously required by conventional gyro-based instrument systems.

Step 1 – Pick your Kit - (Kit includes LRU-Line Replaceable unit, plus screen(s) as mentioned) (International units can be swapped in upon request)

Description	Kit Contents	PN	Price
Garmin G3X with GDU 370 & 375	11-07210 Garmin GDU 375 Americas, 11-07211 Garmin GDU 370 Americas, 11-09491 Garmin G3X Install Kit, 11-09468 Garmin G3X LRU Kit	11-09632	**$8,970.00**
Garmin G3X with Dual GDU 370	2 ea. 11-07211 Garmin GDU 370 Americas 11-09491 Garmin G3X Install Kit 11-09468 Garmin G3X LRU Kit	11-09662	**$8,570.00**
Garmin G3X with single GDU 375	11-07210 Garmin GDU 375 Americas 11-09491 Garmin G3X Install Kit 11-09468 Garmin G3X LRU Kit	11-09663	**$6,395.00**
Garmin G3X with single GDU 370	11-07211 Garmin GDU 370 Americas, 11-09491 Garmin G3X Install Kit, 11-09468 Garmin G3X LRU Kit	11-09664	**$5,995.00**

Step 2 – Select Antenna(s) (required)

Garmin #	Description	PN	Price
010-11373-00	GA 26 XM (remote dash) Antenna	11-09466	**$99.00**
010-10052-04	GA 26C GPS (remote dash) Antenna Kit	11-00051	**$74.50**
010-11370-10	GA 57X GPS/XM (external mount) Antenna	11-09467	**$225.00**

Step 3 – Add an engine probe package and/or additional engine parts.

Garmin #	Description	PN	Price
K00-00512-00	4 Cylinder Lyc/Cont Probe Kit	11-09469	**$999.00**
K00-00513-00	6 Cylinder Lyc/Cont Probe Kit	11-09474	**$1,250.00**
K00-00514-00	Rotax 912 Probe Kit	11-09476	**$299.00**

*Includes: EGT, CHT, oil temp., oil pressure, fuel flow, MAP and ammeter/shunt
**Includes: 2 EGT's, fuel pressure, MAP and ammeter/shunt

Engine Options			
494-30004-02	Fuel Pressure (Injected), 50 PSIG, 1/8-27 NPT	11-09477	**$109.50**
494-30004-03	Fuel Pressure (Carbureted) / Coolant Pressure, 15 PSIG, 1/8-27 NPT	11-09478	**$106.25**
494-10001-00	Fuel Flow, 1/4" Female NPT	11-09479	**$272.50**
494-50005-00	RPM, Hall Effect, Slick magneto	11-09480	**$99.75**
494-50005-01	RPM, Hall Effect, Bendix magneto	11-09481	**$98.08**
909-D0000-00	Ammeter, Shunt, +/-50 mV, 100 amps	11-09482	**$33.65**
494-70002-00	TIT, Type K thermocouple, 7/16-20, bayonet	11-09483	**$85.45**
494-70005-00	Carb Temp, RTD, 1/4-28	11-09484	**$75.00**

Step 4 – Transponder for Remote Mode S for the G3X

Garmin #	Description	PN	Price
GTX 23	TRANSPONDER for Mode S traffic surveillance, for use with the G3X	11-10001	**$2,199.00**

Step 5 – Pick Type of Harness (one harness required for sale of G3X system)

Garmin #	Description	PN	Price
HA-G3X-4-VFR	G3X VFR Hareness EFIS/EMS 4CYL CON/LYC	11-09485	**$995.00**
HA-G3X-4-IFR	G3X IFR Hareness EFIS/EMS 4CYL CON/LYC	11-09486	**$995.00**
HA-G3X-6-VFR	G3X VFR Hareness EFIS/EMS 6CYL CON/LYC	11-09487	**$1,025.00**
HA-G3X-6-IFR	G3X IFR Hareness EFIS/EMS 6CYL CON/LYC	11-09488	**$1,025.00**
HA-G3X-RX-VFR	G3X VFR Hareness EFIS/EMS Rotax	11-09489	**$995.00**
HA-G3X-RX-IFR	G3X IFR Hareness EFIS/EMS Rotax	11-09490	**$995.00**
N/A	G3X Screen Add-On Harness	11-09709	**$110.00**

All harnesses include wiring for dual screen GDU 375 and/or GDU 370, GSU 73, GMU 44 and includes a full harness for engine probes/sensors. IFR harnesses are pre-equipped for the GNS 430W, SL 30, SL 40, GMA 240, GTX 327, GTX 330. VFR Harnesses are pre-equipped for the SL 40, GTX 327, GMA 240.

MID-CONTINENT INSTRUMENTS GPS ANNUNCIATORS

MD41-1510

MD41-1468A

MD41-1408A

Vertical View

TWith fingertip annunciation and flight information in the pilot's primary view, Annunciation Control Units (ACU) offer important features in an efficient design. As an interface with popular NAV and GPS systems, the ACU provides vital safety information including waypoint, approach status and integrity alerting. Approved to strict TSO standards, Mid-Continent ACUs are engineered as a compact, affordable solution to the challenge of installing several switches. Most versions are configured 14V or 28V with vertical or horizontal mounting and feature long-life lamps with automatic photocell dimming.

GARMIN WAAS ACU - GNC 420W, GNS 430W/530W

GARMIN PANEL MOUNT

GARMIN GNS 430W

All-in-one GPS/Nav/Comm solution. It features a WAAS-certified GPS, 2280-channel capacity comm and 200-channel ILS/VOR with localizer and glideslope. High-speed 5 Hz processing makes navigation calculations and map redraw rates five times faster than earlier GNS series navigators.
Built-in WAAS navigation capabilities. It is approved to fly LPV "glideslope" approaches without reference to ground-based navaids of any kind. Featuring an advanced 15-channel receiver capable of five position updates per second, GNS 430W meets the FAA's stringent TSO C146a standards for WAAS "sole means" navigation — providing vertical and lateral approach guidance into thousands of U.S. airports previously inaccessible in IFR conditions.
4-inch high-contrast display with brilliant colors makes it easy to read and interpret pilot-critical information. Conveniently scan information from wide viewing angles, even in direct sunlight.
Integrates built-in terrain and navigation databases, providing a clear, concise picture of where you are and where you're heading. The 430W's huge Jeppesen® database, updated with front-loading data cards, contains location reference for all airports, VORs, NDBs, Intersections, Flight Service Stations, published approaches, SIDs/STARs, Special Use Airspace and geopolitical boundaries.

GNS 430W with harness (Exper. A/C)....P/N 11-06750.....**$8,522.00**
GNS 430W/530W Wiring Harness.....P/N 11-06749.....**$695.00**
Navishield 430 Screen Protector.....P/N 05-04224.....**$12.95**
Flight Plan Migrator Kit.....P/N 11-07592.....**$418.50**
Flight Plan Data Card.....P/N 11-07593.....**$324.00**

The Garmin GNS 530W/430W can only be sold over the counter to experimental aircraft (must verify) with harness. For certified aircraft, it must be installed by a Garmin Dealer.
Please call 1-800-826-3160 for partner shop location for certified installs.
(price of installation not included)

JEPPESEN INTERACTIVE 530/430 TRAINERS

Computer based training program for the pilot who wants an audio-visual, hands-on way to quickly master the Garmin 530/430 GPS. Windows and Mac compatible.

GARMIN GI 102A & GI 106A CDI'S

The GI 102A and GI 106A course deviation indicators (CDI) from Garmin feature rectilinear meter movements, resolver output for GPS interface, and internal GPS mode annunciation & VLOC. Works with the Garmin 430W, 530W, & SL 30. The 102A is VOR/LOC CDI and the 106A is VOR/LOC/GS CDI. Size: 3.25"w x 3.25"h x 4.625"d. The GI 102 is designed for VFR use. The GI 106A is designed for IFR installations.

GI 102A CDI P/N 11-18980 .....**$1,938.00**
GI 106A CDI P/N 11-05768 .....**$2,070.00**

GARMIN GTX 330 MODE S TRANSPONDER

A Level 2 Mode-S transponder with exciting datalink traffic capabilities. Sharing the same keypad & digital display with the popular GTX 327, the GTX 330 adds to the features with an outside air temperature display (temp. input required), altitude monitor with voice audio alert, and density altitude computations (temperature input required). But the real excitement lies in the GTX 330's datalink traffic capabilities through the FAA's Traffic Information Services. GTX 330 promises to deliver effective traffic information to the GA cockpit in busy terminal environments at a fraction of the cost of current traffic systems. The TIS system is available through 124 Mode-S Traffic Control radar sites throughout the U.S. Aircraft within a 60nm (expected to increase to 90+nm) radius of a Mode-S radar site will receive traffic advisories and warnings from ATC via Mode-S datalink, and this info will be displayed on Garmin 400/500 series products. This system will display 8 nearest targets within a 7nm radius and ±3,500 feet of the aircraft. Pilots will receive both visual traffic information (via 400/500 series products) and radio alerts of traffic in the area. The GTX 330 meets all requirements of the Mode-S mandate in Europe, which requires Mode-S for IFR traffic by 2003 and all VFR traffic by 2005. GTX 330 will be offered in diversity & non-diversity models to meet the requirements of a variety of aircraft and operations. The GTX 330D (diversity model) is the first panel-mount diversity-model transponder available. 2 year warranty.

The GTX 330 can only be sold over the counter to experimental aircraft owner's with a pre-wired harness.
Please call 1-800-826-3160 for partner shop location for certified installs.
(price of installation not included)

GTX-330 Mode S Transponder w/ Harness	11-05893	**$3,485.00**

GARMIN GTX 327 MODE C TRANSPONDER

With the intro of the GTX 327, Garmin revolutionizes a part of the panel that has been long overlooked. This full-featured, TSO certified transponder brings a unique level of functionality and utility to your airplane.
Its solid state transmitter provides 200 watts nominal power output and eliminates the need for a cavity tube which will eventually fail and require expensive replacement. And since the GTX 327 design is 100% solid state there is no warm up time, lower power consumption and lower heat emission. All of which translates to a longer service life. Some of the GTX 327 biggest features are the easiest to see. Among them, the easy-riding DSTN Liquid Crystal Display which reverses yellow numbers out of black for optimal viewing. An innovative keypad makes entering a squawk code a snap. And a dedicated VFR button allows for quick and easy 1200/VFR squawking. The GTX 327 also offers two important timing functions.
The first screen shows the current time and count up timer. The second indicates flight time and a count down timer. Together they represent a whole new standard in transponder utility.

GTX 327 with Harness .....P/N 11-00329..... **$1,839.00**

The GTX 327 can be sold over the counter to certified & experimental aircraft owner's with a pre-wired harness.

NOTE: The GTX 330 & GTX 327 DO NOT include an antenna.
Experminental Aircraft can order TED
Transponder antenna P/N 11-17995 for $17.95

AV

GARMIN PANEL MOUNT

GARMIN SL 30 NAV/COM RADIO

Powerful 760 channel comm radio with a 200 channel VOR, glidescope and localizer receiver. Built-in course deviation indicator may be displayed and the SL 30 interfaces with most common mechanical CDIs and HSIs. The SL 30 can be shipped for installation in any aircraft and does not require dealer installation.

SL 30 ..... P/N 11-03581 ..... **$3,950.00**
SL 30 With Harness ..... P/N 11-05109 ..... **$3,895.00**

GARMIN SL 40 COM RADIO

Monitor ATIS while never leaving your assigned ATC channel. The SL 40 always gives priority to the active channel, meaning you'll never miss a transmission. With 10-watt transmit power and only 35-watt DC input, the SL 40 is power efficient and cool running. ***Features:*** 760 channels; frequency range 118 to 136.975 mHz; tunes to National Weather frequencies; 16-character, high-intensity, alphanumeric LED display; transmit status indicator; capacity to store and recall 8 user-defined and previous frequencies.

SL 40 ..... P/N 11-02203 ..... **$1,849.00**
SL 40 With Harness ..... P/N 11-08032 ..... **$1,777.00**

GARMIN GMA 240 AUDIO PANEL

Non-TSO'd so it's priced really low. Yet, it includes an intercom and will support dual COMM, dual NAV, dual AUX receivers, and dual music audio inputs – plus up to three unswitched inputs for telephone ringers, altitude alerts, or other warning tones.

Pilots can connect up to two dedicated music sources to the rear connector (e.g. XM music and CD player) and over-ride one of those sources at any time by plugging-in a device (e.g. MP3 player) into the 2.5 mm front jack. The music source's volume can be increased or decreased with the GMA 240 by pulling out the copilot volume knob.

The 2.5 mm front jack also makes it easy for pilots to make and receive cell phone calls. It has a full-duplex telephone interface with intercom isolation capability.

Specifications: * Weight: 15.5 oz (440 g) * Dimensions: 1.3" x 6.29" x 7.12" * Power: Input voltage range: 11-33 Vdc, 4.3 W normal * Temperature range: -20C to +55C * Altitude: 55,000 MSL unpressurized * Transceiver inputs: 3 (including TEL) * Receiver inputs: 4 * Alert inputs: 3 * Input impedance: 500 Ohms * Input isolation: 60 dB min * Bandwidth: 100 Hz to 6.5 kHz * Music inputs (stereo): 2 * Music gain: -20 dB @ min. volume, +26 dB @ max. volume ..... P/N 11-06619 ..... **$845.00**

GARMIN GMA 340 AUDIO PANEL

The Garmin GMA 340 audio panel is compact and lightweight, making it an excellent choice for panels with limited space. Audio panel features include 3 transceiver inputs, 5 receiver inputs, and 2 unswitched inputs. The intercom provides 6 positions, 3 volume controls, 2 VOX level controls, 6 VOX circuits, and 2 stereo music imputs. This unit features 3 stereo headphone outputs and 2 speaker outputs, and the marker beacon receiver features input impedance of 50 ohms. Size: 6.8"d x 6.29"w x 1.3"h. Power req.: 11-33 VDC

GMA 340 Audio Panel ..... P/N 11-18960 ..... **$1,295.00**
GMA 340 with basic harness ..... P/N 11-08061 ..... **$1,345.00**
GMA 340 with Harness (2 place) ..... P/N 11-07172 ..... **$1,850.00**
GMA 340 with Harness (4 place) ..... P/N 11-07170 ..... **$1,850.00**

GARMIN GMA 350 AUDIO PANEL

Note: Per Garmin we cannot sell the GMA 350 to certified aircraft. For experimental aircraft please contact us for the wire harness form that is required and allow 2-3 weeks to ship.

The first truly all-digital audio panel, Garmin's GMA 350 introduces a number of new technologies to the cockpit, including voice recognition, 3-D audio processing, advanced auto squelch and more.

Features: Intuitive front panel layout with cursor control and volume indicator. Six/Seven position intercom: pilot, copilot, four or five passengers. Three stereo headset amplifiers: pilot, copilot, and passengers. Two stereo music source inputs Five selectable intercom operational modes. Independent pilot, copilot, and passenger volume controls. Individual VOX processing for each mic input. Automatic selection of radio audio source when corresponding mic is selected. Split COM transceiver function. Copilot may transmit and receive on one COM while pilot transmits and receives on another. Voice recognition. Automatic audio adjustment for ambient noise. 3-D Audio. Marker beacon receiver with lamp driver outputs.

GMA 350 Audio Panel ..... P/N 11-09667 ..... **$1,996.00**
GMA 350H Audio Panel ..... P/N 11-09668 ..... **$2,246.00**

The Garmin GMA 350 can only be sold over the counter to expermental aircraft (must verify) with harness. For certified aircraft, it must be installed by a Garmin Dealer. Please call 1-800-826-3160 for partner shop location for certified installs. (price of installation not included)

GARMIN GA30 ANTENNA

A replacement for our GA™ 29 GPS antenna, this robust and passive antenna is packaged in a low-profile waterproof housing and provides three easy mounting solutions: pole, surface or under-deck (for the underside of fiberglass decks). Includes surface, pole and under-deck mounting brackets, mounting hardware, antenna cable (32 ft/10 m) and installation instructions. P/N 11-08669 ..... **$53.50**

TED 4-70 GPS NOTCH FILTER

Your global positioning system receives its positional information at 1575.42 MHz. The communications radios on-board your aircraft typically broadcast in the 121.5 MHz range. That is a wide separation in frequency bandwidth but it's not the complete picture. Your comm's are also producing harmonics which can produce significant noise at the GPS frequency. Now you can filter that signal and avoid potentially hazardous situations.

A simple low cost way to clean up the receivers frequency environment. The TED 4-70 notch filter installs quickly and easily via standard BNC bayonet couplings, in-line between radios and antenna. The 4-70 rejects in excess of 50dB of 1575.42 signal at the source. Each filter is individually tuned and checked to assure maximum performance. Of course, the 4-70 also passes strenuous environmental criteria so important in aircraft applications. Major GPS manufacturers recognize this problem & recommend using the 4-70 on new and retrofit installation.

P/N 11-02204 ..... **$96.50**

AV

SILVER CROWN KX 165 NAV/COM

Solid state, 760 frequency COMM transceiver, 200-channel NAV receiver, 40 channel glidescope receiver and built-in VOR converter, 10W, 14V. Simultaneous, digital, gas-discharge display of active and standby NAV & COMM frequencies or select digital display of radial from the VOR or VORTAC in lieu of standy NAV frequency. Push button frequency flip-flop. Meets DO-156 frequency selectivity requirements.

14V.....P/N 11-03399 .....**$5,264.00**
28V.....P/N 11-00199 .....**$5,229.00**

SILVER CROWN KX-165A NAV/COM SYSTEM

Large, self-dimming, microprocessor-controlled gas discharge readouts and solid-state electronic tuning provide fast, accurate selection of all 200 Nav & 760 Comm frequencies. On the COMM side, the KX165 system gives you 10W minimum transmitter power for maximum range and clarity. And on the NAV side, the KX165's useful 'Radial' feature offers you an instant readout of the radial you're on (from the 'active' VORTAC station), digitally displayed in the 'standby' NAV frequency window. The KX-165A is TSO'd and offers 32 channels of com frequency memory, an additional CDI mode. The GPS "Quick Tune" feature allows the pilot to select and remotely tune the standby com & nav freq. from the KLN94 GPS 28V .. P/N 11-00644....**$3,395.00**

SILVER CROWN KX-155 / 155A NAV/COM

These high-quality, time-tested systems make "stay ahead" frequency pre-planning effortless.

Both the NAV and COMM frequency displays incorporate the popular "flip-flop" preselect feature. This function allows pilots to set up en route or approach frequency changeovers well in advance of the actual transition point of ATC handoff sequence, for true "stay ahead" flight management.

By selecting the NAV and COMM frequency in the "Standby" (STBY) display, pilots can "flip-flop" it into "active" status at the press of a button.

Large, self-dimming, microprocessor controlled readouts and solid-state electronic tuning provide fast, accurate selection of all 200 NAV and 760 COMM frequencies. Both the KX 155 and KX 165 feature a built-in 40-channel glideslope receiver. Both model are also available without the glideslope.

CROWN KX 125 DIGITAL NAV/COM

The KX-125 is ideal as a replacement radio, a primary system for homebuilts or a very affordable back-up. pDespite its low price, it comes with a complete list of features. For example, its COMM section provides 760 frequencies, 'flip-flop' frequency selection, a built-in audio amplifier with sidetone and audio leveling, direct tuning, stuck-microphone alert, and even remote transfer of both COMM and NAV frequencies. Its separate NAV section offers 200 frequencies, including localizer.

14V.....P/N 11-03402 .....**$3,937.00**
With Harness....P/N 11-05026 .....**$4,308.00**

CROWN KI SERIES INDICATORS

The KI203, KI208, KI204, & KI209 indicators feature an internal VOR/ LOC converter and are compatible with the KX155 transceiver. The KI203 & KI204 have rectilinear meter movement, while the KI208 & KI209 feature pivot needle action. The KI206 has rectilinear meter movement and works with the KX165 & KNS80. The KI209 includes GPS interface capability. Size: 3.125" x 8"D; Weight: 1.5lbs.

KI 203 NAV Indicator..... P/N 11-03407 ..... **$2,923.00**

CROWN KY 96A & KY 97A COM

With the anticipation of additional frequency allocations, Bendix/ King has designed the KY 96A and KY 97A to operate on 760 frequencies from 118.00 MHz to 136.975 MHz. You can switch between active and standby frequencies. Simply tune the desired frequency into the standby window ("STBY") while monitoring the "USE" channel-when the time is right, simply push the frequency transfer button to transfer the standby frequency into the active window. A remote switch may be installed as an additional means of providing the "flip-flop" function. Up to nine channels can be easily programmed by the pilot into the memory of the KY 96A or KY 97A. The KY 96A & KY 97A remember displayed frequencies and stored frequencies without batteries or external hookup during power shutdown or in the event of a power interruption and have an easy-to-read, illuminated LCD display.

CROWN SERIES KT-76A MODE C TRANSPONDER

The KT76A is a panelmount, class 1-A transponder and provides maximum performance at any altitude up to 35,000 ft. A compact unit with Large Scale Integrated (LSI) circuitry, reducing both weight and power requirements. All Mode A & Mode C transponders perform the same functions: replying to radar interrogations, providing Air Traffic Control (ATC) with positive identification, and showing your ground speed on the Controller's radar monitor. If you have an encoding altimeter or blind encoder, the transponder will transmit your altitude as well.

KT76A 06 14V (Transponder) ..... P/N 11-02438 ..... **$1,849.00**
KT76A 06 14V With Harness ..... P/N 11-02436 ..... **$2,099.00**
28V Dropping Resistor ..... P/N 11-00913 ..... **$142.95**
Replacement Bulb Container ..... P/N 11-00522 ..... **$19.95**

KING SILVER CROWN KT 76C MODE C TRANSPONDER

The KT-76C is the finest panel-mounted Mode A/C transponder to allow for sequential push-button squawk code entry. To ease pilot workload, the push of a single button switches to a user-preset VFR code, such as 1200. Best of all, its bright microprocessor-driven gas plasma display is easily read in all light levels. The new unit features a bright, gas plasma display that shows the selected transponder code and, in a new feature, the encoder altitude output.The KT 76C will fit directly into the existing location of a KT 76A. However, in 28V installations the existing dropping resistor must be bypassed. Unit operates from 11-33VDC. Available with or without antenna.

Without KA 61 Antenna.....P/N 11-03413 ..... **$2,804.00**

With KA 61 Antenna With Harness.....P/N 11-05033 ..... **$3,048.00**

SILVER CROWN KY 196A & KY 197A COM

This unit measures a trim 1.3" x 6.3" and weighs just 2.8 lbs. The 28V KY196A delivers 16W minimum transmit output power and the 14V KY197A delivers 10W minimum transmit output power. Both units incorporate solid-state construction, with a digital frequency synthesizer generating all COMM frequencies. Despite their wide range of capabilities, the KY 196A and KY 197A were designed to be easy to read and logical to operate. For example, the active frequency is clearly distinguishable from the standby, with both displayed in separate, dedicated windows. Total frequency storage capacity is eleven, including those in "USE" and "STBY". The 118.00MHz to 136.975MHz range of the KY-196A & KY-197A provide 760 COMM frequencies. An audio leveling feature automatically amplifies weak audio signals and mutes strong signals.

KY 197A (14V) .....P/N 11-03848 ... **$4,695.00**
KY 196A (28V) .....P/N 11-03415 ... **$4,305.00**

Honeywell Crown Series can only be sold over the counter. Silver Crown series can only be sold to expermental aircraft (must verify) with harness. For certified aircraft, it must be installed by a Honeywell Dealer. Please call 1-800-826-3160 for partner shop location for certified installs. (price of installation not included)

AV

HONEYWELL PANEL MOUNT

CROWN KLX 135 GPS/COM

With unmatched GPS accuracy, 'Direct-To' operation, built-in CDI output and a host of other pilot-friendly features, the King KLX-135 provides the navigation capability you'd expect from the leader in panel-mounted avionics. Key features include storage capacity for up to 250 user-defined waypoints and as many as ten flight plans of up to 20 waypoints each; an OBS mode for flying specific radials/bearings; and supplemental calculations for estimated distance, bearing, time & fuel. KLX-135A includes a moving map display of flight plan waypoints, navaids, and special use airspace, in addition to an enhanced high contrast LCD display for easy readability.

SILVER CROWN KMD 250

The KMD 250 is intended for piston singles. The MFD offers most of the advantages of the KMD550 and 850 displays but without the radar and terrain awareness and warning system (TAWS) interfaces, systems the vast majority of singles don't need. KMD 250 is slightly smaller than the 550 or the 850. With a 3.8" diagonal display, compared with the 5" screen of the KMD 550, the size difference is slight. The 250 measures 3" high, compared to 4" for the 550. The software and remaining capabilities on the KMD 250 are nearly identical to those on the KMD 550, so pilots familiar with one of Honeywell's other MFDs will have an easy time transitioning to the new hardware. TSO Certified.

America with GPS & Harness.... P/N 11-05165..... **$4,995.00**

CROWN KLN 35A GPS

The KLN 35A is a standalone GPS identical to the KLX 135A except without the COMM transceiver. The KLN 35A provides accurate satellite navigation capability with moving map displays for increased situational awareness. It features Jeppesen NavData for data base updates via 3.5" diskette. The moving map display shows flight plan waypoints, navaids, and special use airspace, and the KLN35A has enhanced, high contrast LCD display for optimum readability. The KLN 35A is an outstanding GPS value with the Bendix/King reputation for quality avionics products.

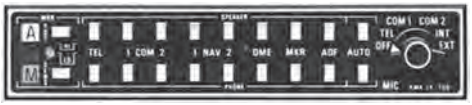
SILVER CROWN KMA 24 AUDIO PANEL



Bendix/King's easy-to-use KMA 24 & KMA 24H systems are self-contained, all solid-state and stand only 1.3" high in your Silver Crown stack. The "slant top" package tailors it for the top slot in your instrument panel. KMA 24 controls as many as 3 transceivers and 6 receivers, including the internal marker beacon receiver and its automatically dimmed 3-light presentation. KMA 24H controls up to 5 transceivers and 5 receivers, or 4 transceivers and 6 receivers. KMA 24H includes the internal marker beacon receiver & VOX intercom, which provides unprecedented flexibility.

ICOM PANEL MOUNT – TRANSCEIVERS

ICOM A210 25 COMM TRANSCEIVER

Note: Unit is not TSO'd (non-certified)
A210 25 Comm Transceiver (replaced version A210 21). New version is now capable of 25kHz and 8.33kHz channel pitch. The new A210 25 will use the CS A210 version 1.3. Older software will not work for programming the new versions. The software is backwards compatible. Innovative airband that's easier to install and see in more places! Large, bright OLED display offers many advantages in brightness, vividness, high contrast, wide viewing angle and response time compared to a conventional display. Easy channel selection allows you to monitor two channels simultaneously. GPS memory function. 12V/24V DC power source. Intercom functions. The IC-A210 has a built-in voice activated intercom function allowing the pilot to talk with the copilot via the headset. The IC-A210 has adjustable audio level and squelch control functions. Easy installation. The IC-A210 neatly fits inside the common mounting brackets used on most airplanes including Icom's IC-A200. Two types of rear-panel adapters are included, allowing for streamlined plug-in connectivity.

Description	Part No.	Price
ICOM A210 Panel Mount	11-05618	**$1,499.99**
ICOM A210M Mobile Mount	11-05836	**$1,699.99**

ICOM A210 ADAPTER MB113

MB-113 Rear Panel Adapter - For installation into a D-sub 15-pin connection system equipment.
P/N 11-08413.....**$66.50**

ICOM PS-80 BASE STATION POWER SUPPLY

The PS-80 offers quick, easy installation of the IC-A210 in one compact desk-top unit that combines a power supply, speaker, microphone, headphone and antenna connectors. Power Supply is user selectable for 110 or 220/240 V AC operation and supports a full 7 Watt transmitter output. Large internal speaker booms out 5 watts of audio. Microphone, headphone and antenna connectors are standard in the PS-80 so no wiring is necessary. Just plug in your selected hand or desktop microphone or headphone and outside antenna and youre on the air. Optional SM-6 Desktop Microphone, HM-7 or MIC Hand Microphone and B-ANT Base Station Antenna to complete the package are available and sold separately. Radio not included (use 11-05839 for complete system) Specifications: * Input voltage: * 117 V AC +/- 10%, * 220 V AC +/- 10%, or * 240 V AC +/- 10% (selectable) * Output voltage: 13.8 V DC +/- 5% (negative ground) * Output current: 6 A * Duty rate: 1 hour for maximum current * Ripple voltage: Less than 20 mV rms * Useable Temperature Range: -10°C to +40°C; +14°F to +104°F * Dimensions (projections not included): 200(W) x 200(H) x 300(D) mm; 7.9(W) x 7.9(H) x 11.8(D) in * Weight: 6.0 kg; 13.2 lb

ICOM IC-A110-25 VHF AIR BAND TRANSCEIVER BASE STATION

The Icom IC-A110-25 is rugged and reliable for serious ground crew communications. The IC-A110-25 can be installed in any vehicle and is adaptable to vehicles working on 12V or 24V power sources. The unit features a front mounted speaker, free from any obstacle blocking and puts out 10W of power for the external speaker.*
In The Box: IC-A110-25, Hand Mic HM-161, Mounting Bracket with hardware, DC power cable, and Mic mounting bracket
Features: Additional to the predominantly used 25 kHz channel spacing, an extra version complying to new regulations is available for 8.33 kHz channel spacing. Equipped EEPROM system provides maintenance free memory backup capability, without the use of a separate backup battery. Various scan functions, such as VFO and priority scans are available. Limited number of keys for simple manipulation, but providing advanced multi-functions. A total of 20 memory channels are available Ideal compact size of 150(W) x 50(H) x 180(D) mm* to mount in various types of vehicles. * 5-29/32(W) x 1-31/32(H) x 7-3/32(D) in. 36 W (pep) of powerful output. Excellent durability to cope with even the toughest workplace. Memory channel only operation possible via PC programming. Hand microphone supplied

MX 170C NAV/COM

An ideal Nav/Com unit to replace King KX 170 & 175 series Nav/Coms. 14VDC. Features active & standby display w/flip-flop capability, plus storage capability in Nav and Com. P/N 11-18830 .....**$1,495.00**

MX 300 NAV/COM

The MX 300 Nav/Comm is designed to replace the RT 328T, RT 308C, RT 328T, RT 328A, RT 528A, RT 328C, RT 528E, RT 328D, and RT 508A. The MX 300 is available in the black face plate shown above or in a beige face plate to match many Cessna panels. The MX 300 operates on 13.75 vdc with 7 Adc maximum current in transmit.

With Black Face Cover..... P/N 11-18835 .....**$1,635.00**
With Tan Face Cover ..... P/N 11-04825 .....**$1,595.00**

MX 385 NAV/COM

MX 385 is a direct replacement for RT385 & RT485 series Nav/Com units. Features active & standby displays w/flip-flop capability plus storage in Nav & Com.; 28VDC.

Black Face..... P/N 11-18845 .....**$1,595.00**
Tan Face ..... P/N 11-09203 .....**$1,595.00**

Note: All Michel radios are furnished standard with black face. Tan face for Cessna panels are available at same prices on special order.

TKM MG 200 GLIDESLOPE RECEIVER

At last, it is back! The MG-200 Glide Slope Receiver, a marvel of avionics engineering from TKM. Measuring only 3 inches wide by 6 inches long by 1 inch high, this 40 channel, totally solid state receiver is capable of handling your Nav/Com needs. Using standard 25 DB connectors, it is easy to wire and install. Just wire the connector, plug it in, mount the receiver with four fasteners and run the wires to the receiver. That is it except the paperwork! P/N 11-06868.....**$933.00**

FLIGHTLINE RADIOS – TRANSPONDERS

FLIGHTLINE FL-760 TRANSCEIVER

One of the smallest and lightest in the industry! 2-1/4" Panel Mount Transceiver; compact size but loaded with what you need in your aircraft, with a one year warranty.

Features: Flip Flop Frequency Selection, Built-In 2-Place VOX Intercom, Backlit Display, 32 Programmable Memory Channel Call-Up, 5 w Carrier, 16 w PEP, 25 KHz Channel Spacing, One Year Limited Warranty, Non-TSO

Specifications;

- Frequency range : 118.00 to 136.975MHz (Receive:108.00 to 136.975MHz)
- Channel spacing : 25kHz
- Mode : AM (6K00A3E)
- Number of memory channels : 32
- Acceptable power supply : 11.7 V or 33 VDC (Negative ground only)
- Usable temp. range : -20 to +60
- Frequency stability :+/- 5ppm
- Current drain : TX: 3A(max) RX 0.8A(max) Standby: 300mA
- Dimensions : W61 X D159 X H61 (mm)
- Weight : 430g/14.11oz
- Exposed dial face : 56.4mm 2 1/4.5 inches
- Certification: Not TSO
- Output power : 5 W (carrier), 16W (pep)
- Modulation : small stage modulation
- Modulation limiting : 70 to 100%
- Audio harmonics distortion : Less than 15% (at 85% modulation)
- Hum and noise ratio : More than 40dB
- Spurious emissions : -16dBm or less
- Antenna impedance : 50
- Receive system : Double conversion superheterodyne
- Intermediate frequency : 1st : 38.85MHz (Upper) 2nd : 450kHz (Lower)
- Sensitivity (at 6dB S/N) : Less than 1uV
- Squelch sensitivity : 0.5uV (Threshold)
- Selectivity : More than 8kHz (at 6dB), Less than 25kHz (at 60dB)
- Spurious response rejection : More than 60dB
- Audio output power : More than 4W (at 4)
- Side tone : More than 100mW (at 600)
- Hum and noise : More than 30dB
- Audio output impedance : Ext. SP 4 (4 to 8), Side tone 600
- 2-1/4" panel mount

P/N 11-06307 ..... **$699.00**

FLIGHTLINE FL-M1000AB BASE STATION

FL-M1000A Air Band Land Radio installed in an Astron Base Station.

The FL-M1000A is an Air Band Land Mobile Radio designed for land vehicles, or base station use, not for Aircraft. The radio can be operated with Hand Microphone or Headset. You can choose audio output from External Speaker and/or Headphone. The radio has various built-in Scan functions.

Features: Convenient Base Station Enclosure, Easy to read alpha/numeric display, Scanning, Usable in the 760 Channel VFO mode Simple to program, Compatible with a standard Push-to-Talk Switch and Air Band Headset, Priority scanning, Multiple speakers, antennas, cables and programming options, Front panel control of external speaker.

P/N 11-09190 ..... **$884.00**

FLIGHTLINE FL-M1000A AIR BAND RADIO

FL-M1000A Air Band Land Radio installed in an Astron Base Station.

The FL-M1000A is an Air Band Land Mobile Radio designed for land vehicles, or base station use, not for Aircraft. The radio can be operated with Hand Microphone or Headset. You can choose audio output from External Speaker and/or Headphone. The radio has various built-in Scan functions.

Features: Installs in any vehicle, Easy to read alpha/numeric display, Scanning, Usable in the 760 Channel VFO mode, Simple to program, Compatible with a standard Push-to-Talk Switch and Air Band Headset Priority scanning, Multiple speakers, antennas, cables and programming options, Front panel control of external speaker.

P/N 11-09189 ..... **$746.00**

STX 165 MODE AIRCRAFT XPDR

The STX 165 Sports a professional 1/2 3ATI Bezel that compliments any aircraft panel. Its bright OLED display is readable in virtually all lighting conditions and automatically dims for night time operations. Check out just a few of the STX 165 features.

- Built-in Encoder: Simplifies installations and lowers cost.
- Three Timer Functions: Elapsed Flight Time, Up Timer, Down Timer
- Pressure Altitude Display: See what altitude your transponder is reporting to Center
- Optional OAT Probe Input: Displays Outside Air Temp.,Density Altitude, Icing Alert
- Small and Light Weight: 7.4" behind the panel depth, 1.3 lbs.

Specifications:

- Electrical Input Voltage: 11-33 Vdc
- Current Requirements: 500mA@28Vdc
- Power Output: 200 Watts Nominal
- Transmitter Freq: 1090 MHz
- Receiver Freq: 1030 MHz
- Receiver Sensitivity: -74dBm Nominal at 90% reply rate
- Dimensions: 1.78"H x 3.5"W x 7.34"L
- Weight: 1.30Lbs
- Alt. Encoder: Built-in 35K' Encoder; External RS-232
- OAT Probe: Sandia STP 78 (Optional)
- Temperature: -20 degrees to +55 degrees C
- Altitude: -1000 to 35,000 Ft.
- Certification: DO160F; DO178B Level C; TSO C74d; TSO C88a

Sandia STX 165 Panel Mount ..... P/N 11-09251 ..... **$1,588.00**

GARRECHT TRANSPONDER CLASS 1 AND CLASS 2

VT01 UltraCompact

The Garrecht Transponder VT-01 is a flexible and modular system concept, in a compact size (57mm) with a very low current and integral alticoder. Available as Class-1 (125 Watt) or Class-2 (71 Watt) System. Specifications: Cetification i.a.w: ETSO-2C112a, ED-73B •Min. RF Output power @ Antenne: Class 1: 125 Watt Class 2:71 Watt. • Integral alticoder: Yes • Weight control unit: 0,21 kg. •Weight main unit: 0,61 kg •Supply voltage: 9-32 V DC • Power consumption (operation) @ 13,8 V (1200 Mode A/C or 50 Mode-S replies): Class 1: 0,24 A Class 2:0,22 A • Power consumption (on Ground) @ 13,8V (Squitter active): Class 1: 0,17 A Class 2: 0,16 A • Power consumption (Standby) @ 13,8 V: 0,005 A •Interfaces: RS232 + CAN •OPERATIONAL LIMITS • Max. Altitude: Class 1: 40.000ft Class 2: 15.000 ft (4.572 m) • Max. TAS: Class 1: 250 kts (463 km/h) Class 2: 175 kts (324 km/h • MTOW: Class 1: 5.700 kg Class 2: 5.700 kg

Transponder Class 1 ..... P/N 11-04529 ..... **$3,617.00**
Transponder Class 2 ..... P/N 11-04530 ..... **$2,396.00**
Transponder UltaCompact Class 1 ..... P/N 11-05869 ..... **$2,247.00**
Transponder UltaCompact Class 1 ..... P/N 11-05870 ..... **$2,986.00**

DITTEL KRT2 VHF TRANSCEIVER

The KRT2 VHF-AM transceiver has a full graphic LC-display that allows for easy reading under all light conditions, including full sun. Push button and display illumination can be dimmed. The KRT2 is, of course, prepared for 8.33 kHz spacing that will become the new international standard for airborne communication. Switching between the 8.33 and the 25 kHz mode is therefore made effortlessly simple. Standard or dynamic microphones can be used. A built-in-test facility increases flight safety. The dual watch mode that allows scanning of two different channels is included. The KRT2, with its integrated VOX/Intercom circuit, allows communication between pilot and co-pilot. **Specifications**: • Frequency Range: 118.000 MHz to 136.990 MHz • Channel Selection: 8.33 or 25 kHz (select automatically) • RF-Output Power: >6 W (carrier power) • Receiver Sensitivity: >12 dB sinad @ 2 uV • Input Voltage Range: 9 V DC to 36 V DC • Operating Temperature Range: -20°C to +55°C, for short time up to +70°C • Current Consumption: 1,6 A@12 V DC (transmit), 110mA@12 V DC (receive standby) • Certification: ETSO-2C169a, ED-23B Class 4, C, TSO-C169a, Class 6, H1 & H2 • Function: dual watch mode, integrated VOX/Intercom • Weight/dimensions: 360g /65 x 65 x 144 (+plugs) mm.

Transceiver ..... P/N 11-10691 ..... **$1,465.00**

AV

USED AVIONICS FROM AIRCRAFT SPRUCE

Virtually all these avionics are in "Serviceable" condition. This is an FAA term that means that the radios have been repaired as needed, tested according to the manufacturer's procedure, and meet the manufacturer's performance specifications. These radios are legally approved for installation and use. These radios come with either a Yellow Tag or a 8130-3 Serviceable tag. Both tags certify that the radio is in "Serviceable" condition. The difference is the geographical area where the tag is accepted. The Yellow Tag is accepted in North America, while the 8130-3 tag is accepted worldwide. Generally 8130-3 tags are issued for our radios, because we rarely know exactly where it will be sent when it is in the shop. With an 8130-3 tag, we know that it can be used by any of our customers. Serviceable units carry a 90 day warranty. All used avionics are subject to availability, and will be shipped with the tray and connector included. Prices can vary. Please specify 14V or 28V when ordering.

Please call for price and availability.
Used avionics data bases are for North America Only.

CDIS - RELAY ASSEMBLIES

MID-CONTINENT INSTRUMENTS 2 INCH CDI

This indicator will fit the need of aircraft owners of LSA all the way up to business aircraft. The CDI allows for precise and accurate readings. Nav, GPS and VLOC annunciation are built-in and backlit by LED lighting, providing enhanced nighttime and sunlight readability. The CDI has TSO approval from the FAA and will interface with most nav and GPS receivers.

Features:

- Compact 2-1/4 inch size saves panel space
- Innovative Safety Feature – pointers move out of view with invalid signal
- Precision replacement for older navigation indicators
- Rectilinear meter movements allow for more accurate readings.
- LED backlighting looks great and provides increased reliability.
- Built-in annunciations for NAV, GPS, and VLOC or BC.
- FAA TSO approved for use with most GPS and VOR systems
- Rugged construction includes ball bearings in critical areas.
- True course resolver output (1 volt, 30 Hz)
- Quality Mil-Spec connectors included
- One year limited warranty

Specifications:

- Power Input: Accepts 11 to 32 Volts DC.
- Lighting: Internal white LED. Lighting control voltage is selectable for 5, 14, or 28
- Weight: 0.6 lbs.
- Length: 3.5 inches

Mid-Continent - CDI MD222-406 (This unit has the NAV/GPS & VLOC annunciations for the Garmin units) .... P/N 11-05106 ..... **$2,157.00**
Mid-Continent - CDI MD222-506 (This unit has the NAV/GPS & BC for all other applications) ..... P/N 11-05107 ..... **$2,157.00**

MID-CONTINENT HORIZONTAL ANNUNCIATORS

Incudes CDI and suspend mode switching, independent of OBS per new GTN requirements.
Features: Compatible with Garmin GTN 6XX/7XX WAAS Navigators. Compact, self-contained GPS annunciation control unit. Automatic-dimming and daylight readable LED lighting. Single cutout and locking D-subminiature connector reduces installation costs. Quality Mil-Spec connector included. TSO-C129 certified. Qualified to RTCA DO-160 environmental specs. Designed and built in Wichita, Kansas, USA. One-year limited warranty.
14V Horizontal..... P/N 10-04769 ..... **$1,124.00**
28V Horizontal..... P/N 10-04768 ..... **$1,124.00**

AV

MID-CONTINENT COURSE DEVIATION INDICATORS

Features:

- 3 in. model fits standard panel cutout. Lighted.
- All-metal construction with ball bearings in critical areas
- FAA TSO and ETSO approved for use with all GPS and VOR systems
- High-quality rectilinear meter movements
- Annunciations for NAV, GPS and Back Course
- True course resolver output
- Pin-for-pin replacement for Collins Micro Line IND 350 Series CDI
- Can be used to replace old-style navigation indicators
- Compatible with WAAS GPS receivers
- Quality Mil-Spec connectors included

Specifications

- Voltage input: 14 VDC or 28 VDC
- Current input: 0.3 amps max
- Standard cutout (3 1/8-inch round)
- Weight: 1.4 lbs.
- Altitude: 0 to 55,000 ft.
- Rear mount panel mounting

MD200-302 CDI ..... P/N 11-10022 ..... **$1,420.00**

REMOTE SWITCHING RELAY UNIT

Remote mounted 24-pole unit features eight Nitrogen-filled relays (3 poles per relay) with Gold-plated contacts Ideal for GPS/VOR transfer and audio switching applications. Relays are activated individually by voltage or ... ground keying or as a group by ground keying. FAA PMA Approved (certified to 55,000 ft.) Versatile Mounting - Horizontal, Vertical or flat mount configurations. Fail-safe fault monitoring through interlocking of all internal relays. Adjustable dimmer output for external annunciations. Quality MIL-SPEC connector kit included. Specifications: Width: 2.86", Height: 1.52" , Depth: 2.6", Weight: .75lbs
Remote Relay Unit 14VP/N 10-02125 ..... **$848.00**
Remote Relay Unit 28V.....P/N 10-02127 ..... **$848.00**

AVMASTER RELAY 14VOLT & 28VOLT

The AvMaster Relay is the first and only self contained, fail-safe, avionics master relay package to protect expensive radio tear at an affordable price. The AvMaster Relay is installed between the power bus and the protected radios. The Avionics Master Switch then controls the AvMaster Relay only and not the radios directly. Not only does the AvMaster Relay protect the system from transient electrical spikes during normal operations, its four parallel relay controlled, surge protected circuits allow for individual fusing that separate all radios from each other. The avionics master switch is a great idea. It protects against the large power surge potential during start up and shut down. It's also useful to prevent premature wear of each radio's switches and allow the benefit of maintaining the volume settings. But, it has a major weakness. An Avionics Master Switch becomes a potential single point of failure. If it fails, ALL radios shut down! A second Avionics Master Switch has been used as the solution to this problem. However, this offers no spike protection while on and it still connects all radios together. An overload in one radio can potentially spill over to the whole avionics circuit and take them all out. The fail-safe design of the AvMaster Relay eliminates the need for a backup Avionics Master Switch. If the Avionics Master Switch ever fails, the pilot won't even realize it until after the flight is over and the Avionics Master Switch doesn't shut down the radio stack. The radios will just be controlled individually until the problem is resolved. The AvMaster Relay will pay for itself with fewer repairs over the increased lifetime of the avionics stack.

AMERI-KING REMOTE RELAY ASSEMBLIES

FAA TSO'd approved remote Relay Assembly. It is designed to provide Switching Function, for HSI / CKE Data Inputs, between NAV (VOR) Receiver and the approached certified GPS receiver. The Assembly consists of a 24 pole buit-in relay to simplify installation of the Switching Function. All Relays have gold-plated contacts and are Nitrogen filled for high reliability. Consists of 2 sub-groups, A & B. Subgroup A includes 20 poles switching; A failure detection pole built in; and an ILS auto override (to reverse to NC (NAV) position upon ILS frequency is turned in). Subgroup B includes 2 poles switching. Each subgroup is controlled independently. Protection includes input power reverse polarity, power transient. All relay coils are protected against EMI and transient switching. Installation is extremely simple. All necessary hardware is provided.

AN-21 ANNUNCIATOR CONTROL UNIT

The AN-21 is a light and warning tone generator for use in experimental aircraft. A total of twenty-one circuits can be monitored, sixteen channels are activated by ground and five by positive input. Each channel activates a light and emits a warning tone when triggered. The AN-21 also includes a Windows Programming Utility to enable the user to configure it for each specific installation. Each channel, when activated, has an associated user programmable output which can be programmed to do the following: Steady light, Flashing light, Alert Tone with steady or flashing light. Features: "Master Caution" - User selected channels can trigger a Master Caution Annunciator •Test Function - Causes all lamps to illuminate to check the bulbs •Dim - Causes all Lamps to illuminate a selected lower brightness for night operation. AVIONICS COOLING FANS

TROLL AVIONICS COOLING FANS

THE ICE BOX - Avionics cooling fan is designed to mount remotely and cool up to 3 radios. It is shielded and filtered and uses standard 5/8" CAT type hose to direct air from 3 outlet ports. Thickness of the unit is only 1.4", and it operates on 14 or 28 volts. Ice Box offers a thin profile, flexible mounting, and very quiet operation. 2 yr warranty.

AMERI-KING AVIONICS COOLING FANS

The Ameri-king AK-950F is part of a FAA TSO'd approved.kit. GPS/Avionics fan is compact and delivers up to 26.6 CFM cubic feet per minute of forced air cooling to a variety of avionics equipment. It features ball bearing for highest reliability and long lasting. The AK-950F fan may be behind or beneath aircraft instrument panel or avionics equipment rack or cabin pressure bulkhead. The small, one port direct mounting fans (Fld) are for internal cooling and there is a second port for external cooling. No remote hose is required.

Features Include: power reverse polarity protection; compact size; choices of 1, 2, 3, or 5 hose outputs; universal mounting; hoses; connector kit and hardware (included). 4-year extended warranty. Size for 1-3 ports: L- 5.75" W- 5.130" H- 2.080". 5 ports: L- 6.75 " W- 5.130" H- 2.080". Small F1d port: L- 2.60" W- 2.5" H- 2.5". Power 14 or 28 VDC.

SANDIA ACF 314 (3 PORT FAN)

The ACF 314 and ACF 328 simultaneously cool up to three avionics units. Operating on 14Vdc and 28 Vdc respectively the ACF 314 and ACF 328 supply up to 20 cubic feet of cooling air per minute, helping maintain your avionics at a proper operating temperature. SANDIA Aerospace cooling fans use high quality, brushless blower motors and or RunQuiettm technology. These units are FAA PMA's and have passed stringent envrionmental testing to ensure years of reliable service. ***Specifications***: • Operating Voltage: 14Vdc • Current Draw: 960mA (1.7A at startup} • Size: 5.18" x 5.18" x 2.1" • Weight: 1.18 lbs. P/N 11-06345..... **$179.85**

CYCLONE 600 - 6 PORT AVIONICS COOLING FAN

The Cyclone-600 is a light weignt, highly reliable brushless DC avionics blower that delivers 45-50 CFM of forced air to onboard aircraft electronics. The universal mounting system mounts vertical, horizontally or at 45 degrees for straight forward installations for all aircraft make and models.

Features: * New DC Brushless Motor with FAA/PMA Approval. * High Performance 626ZZ Bearing for Extended Life. * High Impact Phenolic Housing. * Laser Balanced Impeller wheel. * Universal Front Plate (4,5,6, Ports). * Cable Harness (36"), included.

Benefits: * Over Current Protection * Locked Rotor Protected * Reverse Polarity Protected * FAA/PMA Approved * DO160 D Tested * Low Noise

Specifications: * Voltages: 12-14 VDC 600mA; 24-48 VDC 500mA * CFM: 45/50 CFM at 6000 RPM * Dimensions: 4.5in (H) x 3.0in (W) x 6.25in (L)

SANDIA ACF 528 5 PORT FAN PMA'D

The ACF528 is a FAA-PMA'd five port cooling fan that produces cooling air for one to five avionics units. Supplying up to 20 cubic feet of air per minute at 28 Vdc, the ACF528 can easily cool an entire stack of avionics. The ACF528 uses a brushless blower motor to provide years of reliable RunQuiet ™ operation.

Specifications: * Operating Voltage: 28Vdc * Current Draw: 480mA (850mA startup) * Size: 5.13" x 6.77" x 2.1" * Weight: 1.18 lbs * Certification FAA-PMA: DO160C

P/N 11-08020.....**$265.00**

SANDIA SAFE 128 AXIAL FAN PMA'D

The SAFE 128 is an axial fan that is designed to attach directly to an avionics unit's cooling port. Providing a nominal 20 CFM (no load) of cooling air. The SAFE 128 provides an alert output whenever the fan RPM drops below a preset level.

Specifications: * Voltage: 28 Vdc * Current Draw: 100mA nominal <.250mA Startup * Size: 2.36" x 2.87" x 1.44" * Weight: .25 lb. * Certification: PMA,DO160D * With Fault Detention

P/N 11-08019.....**$185.95**

SANDIA SAFE 528 (5 PORT) COOLING FAN

The SAFE 528 is a five port cooling fan that provides a fault output anytime the fan RPM drops below a predetermined value. The SAFE 528 is ideal for use with flight display systems that require cooling as part of the certification. The SAFE 528 uses a brushless DC motor to provided 20 cubic feet of air with reliable RunQuiettm operation.

Specifications: * Operating Voltage: 28Vdc * Current Draw: 400 MA Nominal (550MA stratup) * Size: 5.13" x 6.77" x 2.1" * Weight: 1.23 lbs. * Certification: FAA-PMA Pending

AV

XCOM TRANSCEIVERS

XCOM VHF TRANSCEIVER

Designed from the ground up the XCOM offers superior performance under the demanding and noisy conditions experienced in many amateur built aircraft. With low power consumption this radio is ideally suited to use in gliders, homebuilts, and ultra-lights. A full 6-Watt carrier and 20 Watt PEP output ensure that you will be heard above the general chatter in a busy airspace and the VOX intercom system with music input will enhance your enjoyment of the flight. With expanded receive range from 108 MHz, the XCOM760 provides NOAA Weather reception ensuring that you are always aware of impending weather conditions. The XCOM 760 will also operate down to a 108 MHz so you can receive the VOR channels. Additional safely enhancements such as duel watch allows the pilot to listen to the standby frequency while still monitoring the primary frequency. The XCOM 760 also has 99 memory channels, large volume and channel selector knobs and well spaced buttons. This radio is extremely easy to operate even when wearing flight gloves and you can even check the condition of your battery with the built in voltage monitor. Software update capability and Internet downloads mean that you are always provided with the latest features. The XCOM 760 offers superior quality, enhanced features and improved performance over many of the more expensive airband radios, without the high cost found in other brands. FEATURES: • New easier to read LCD screen • Several software updates • Memory scanning of up to 99 memory channels • Streamlined software increasing reliability and performance • Music/Second comm input is now user selectable for another VHF, UHF or Music input • Added sidetone volume adjustment • Improved AGC controls for close and powerful stations • Improved speaker output for glider operations

Side by Side Standard Harness.....P/N 11-07387 ..... **$349.95**

XCOM INSTRUCTIONAL DVD WIN XP

Instructional DVD explaining the complete operation and set-up of the XCOM VHF Transceiver. 30 minutes duration. P/N 11-05674 ..... **$4.20**

XCOM UNIVERSAL STAINLESS STEEL MOUNTING BRACKETS

Designed for the XCOM VHF aircraft transceiver but equally suitable for any other radio or instrument with the same 2 1/4 inch mounting hole. Can also be used in the Marine or automotive environment.

Manufactured from 2 mm thick 304-2B grade stainless steel for strength and corrosive resistance. Two 6.5 mm holes are provided for conveniently mounting switches such as the intercom ON/OFF/Isolate and the backlight switch. Blanking plugs are factory fitted to maintain the appearance if the holes are not used.

Can be installed in any orientation e.g. left, right, top or bottom; switches can be mounted horizontally or vertically. P/N 11-05678 ..... **$73.00**

XCOM DUAL ALUMINUM BRACKET

This water jet cut bracket is ideal for mounting two XCOM's side-by-side in a normal aircraft rackmount system. Cut to the exact size required it will save you time and trouble in fitting a dual XCOM system to your aircraft. Comes mill finish in 2 mm aluminium ready for painting.

P/N 11-05679 ..... **$42.75**

XCOM GLIDER BOOM MICROPHONE

XCOM REMOTE HEAD

he newest addition to the XCOM range is the XCOM VHF Remote Head option. Interfacing with the XCOM VHF, this tiny unit provides remote access to all of the capabilities of the XCOM VHF Radio in one quarter of the space. Ideal for training situations, tandem seat aircraft, limited space installations or simply to provide easy access for both pilot and co-pilot, this unit duplicates the entire XCOM VHF display and provides full access to all functions (except power on) from the front panel of the radio. The connection between the remote head and the XCOM VHF radio is via a simple cable allowing all of the controls on either panel to be duplicated on the remote. When the master unit is changed, the remote head follows and vice versa. For example, if the pilot in the front seat of the aircraft adjusts the radio to 123.450 then the remote display also adjusts to show 123.450. If the toggle button is pressed on the remote, then the frequencies are toggled on both units. All of the XCOM features apart from powering on can be duplicated with a remote head option. The remote head is extremely small, being less than 1 1/2" deep (40mm), allowing it to be installed in places where the XCOM will not fit such as in the very tight confines of the panel in the Pitts Special

P/N 11-04399 ..... **$504.00**

XCOM DELUXE KIT

The XCOM Deluxe package comes complete with XCOM VHF Transceiver , 2 place wiring harness for easy installation, electrolytic capacitor, Comant 121 TSO'd aerial and 2.5 meters double shielded coaxial cable and plugs.....P/N 11-04491 ..... **$2,113.00**
Side by Side Standard Harness.....P/N 11-07387 ..... **$349.95**

XCOM POWERMATE REGULATOR

The Power Mate regulator is designed to provide a clean DC power source to charge a 12Volt battery when connected to a single phase alternator found on Rotax and Jabiru engines. The output voltage is electronically stabilised and preset to a maximum output voltage of 14.5 V. @ 8 Amps. The Power Mate has inbuilt overload protection and is supplied with a 15 amp fuse and mounting instructions. Used on hundreds of aircraft worldwide with fantastic results removing engine electrical noise. Short circuit proof, overheating and over voltage protected, water and vibration proof, extends battery life.

P/N 11-05673..... **$354.95**

XCOM VOLTAGE CONVERTER 15-38V

Switch mode voltage converter with soft shutdown and intelligent control. Input Voltages 15 to 38 Volts, Output 13.2 Volts 7 amps. Compact, efficient, short circuit protected, reverse polarity protected, overload protected. Perfect for warbirds. Made in the UK. Lightweight 195 grams (6.8 oz), Mounting bracket supplied.

P/N 11-05680..... **$210.95**

XCOM STEREO VIDEO PATCH CABLE

Seamlessly connect a Stereo or Mono Video Camera, Tape Recorder or Digital Voice Recorder into your aircraft headsets and record all communications between the Pilot and Co-Pilot, ATC and other Aircraft. Perfect for making your own aviation videos with crystal clear narration, flight training or many other uses.

P/N 11-05658..... **$54.25**

ELECTROLYTIC CAPACITOR

Electrolytic Capacitor - 22, 000 uF 25V and absolute requirement to prevent regulator spikes on Rotax, Jabiru and other engines, the manufacturer recommend installing the electrolytic capacitor in nearly every installation to help protect your radio and other avionics from overvoltage. P/N 11-07992 ..... **$69.50**

AV

FREE FLIGHT TRA 3000 RADAR ALTIMETER / INDICATOR

The TRA 3000 Radar Altimeter, combined with the TRI40 Radar Indicator, provides precise AGL information from 2,500 feet down to 40 feet. This real-time system offers an extra measure of operational safety during landing, navigation, and hovering. It is especially useful in flying search and rescue missions, forestry operations, pipeline maintenance, offshore helicopter operations, aeromedical emergency medical services, border patrol, and electronic news gathering operations. The transmitter / receiver and antenna fit in a single lightweight & aerodynamic unit that is easy to install.

TRA 3000 with TRI 40 ..... P/N 10-02519 ..... **$5,978.00**

FREE FLIGHT RA-4000 RADAR ALTIMETER

For critical flight regimes, the new TSO-certified RA-4000 Radar Altimeter provides today's pilots with highly accurate and reliable above-ground-level (AGL) information. This real-time system enhances operational safety during approaches, nighttime operations, and hazardous flight above rough terrain. One of our newest radar altimeters, the RA-4000 is especially valuable when flying search and rescue missions, forestry operations, pipeline maintenance, off shore helicopter ops, aero-medical emergency services, border patrol, and electronic news gathering operations. The RA-4000 Radar Altimeter is designed to be easily integrated with electronic flight information systems (EFIS), flight director systems, and terrain awareness and warning systems (TAWS), possessing serial inputs.

Proven and precise, the RA-4000 offers improved situational awareness for a broad range of fixed and rotary wing aircraft. Designed for applications where accuracy is needed down to zero feet, such as helicopter and seaplane operations, the RA-4000 provides precise AGL information from 2000 feet down to ground level.

RA-4000 ..... P/N 10-03976 ..... **$11,376.00**

FREE FLIGHT RA-45000 RADAR ALTIMETER

For critical flight regimes, the new FreeFlight Systems RA-4500 Radar Altimeter (TSO-C87) provides today's flight crews with dependable, highly accurate and economical above-ground-level (AGL) information. This real-time system enhances operational safety during approaches, nighttime operations, and hazardous flight above rough terrain. The newest radar altimeter model, the RA-4500 is especially valuable when flying search and rescue missions, forestry operations, pipeline maintenance, off shore helicopter ops, helicopter emergency medical services (HEMS), other aero-medical emergency services, border patrol, and electronic news gathering operations. The RA-4500 Radar Altimeter with its ARINC 429 output can be easily coupled with modern electronic flight information systems (EFIS), flight director systems, and Terrain Awareness and Warning Systems (TAWS). Proven and precise, the RA-4500 offers improved situational awareness for a broad range of fixed and rotary wing aircraft. Designed for applications such as helicopter and seaplane operations where accuracy is needed down to zero feet, the RA-4500 provide precise AGL information from 2000 feet down to ground level.

RA-4500 ..... P/N 10-03977 ..... **$12,466.00**

TRIG TT21 MODE S TRANSPONDER

The TT21 system is the smallest, lightest, Mode S general aviation transponder. This two part system, which includes an integrated altitude encoder, can fit into the smallest of aircraft – and yet it is fully certified and compliant with all the transponder requirements. The front panel controller can be installed in a standard 2¼ inch instrument cut-out, or where space is really tight it can fit a compact cut-out just 45mm high. The TT21 transponder itself is also only 45mm high, and can be installed anywhere convenient in the airframe. Mode S for Light Aviation - The TT21 transponder is an ED-73B Class 2 compliant Mode S level 2 datalink transponder, with support for extended squitter. It meets all the requirements for Mode S elementary surveillance transponders in Europe for aircraft flying below 15,000 feet and with airspeeds below 175 knots. It can be used for both IFR and VFR flight. The TT21 also supports 1090 MHz Automatic Dependent Surveillance Broadcast (ADS-B) extended squitter, known as "ADS-B out". This provides improved airborne surveillance, vital information for airport ground surveillance, and is a key feature of future airspace plans. An appropriate GPS receiver is required to enable the ADS-B capability.

TT21 Mode S Transponder Unit Only..... P/N 11-09757..... **$1,642.00**
TT21 Mode S Transponder Complete Kit.... P/N 11-07999..... **$2,265.00**

RAM Cradle UNI Thick Tablets ..... P/N 11-09768..... **$28.52**
TC20 Control ..... P/N 11-09762..... **$548.00**

TRIG TT31 MODE S TRANSPONDER

The TT31 is a power efficient, inexpensive, Mode S general aviation transponder. The TT31 meets the European elementary surveillance requirements, and fits the same mounting tray as the popular KT76A transponder, making it ideal for both new and retrofit installations.

The TT31 front panel has a backlit graphic display that provides easy access to the transponder functions, including setting of the Flight ID. Squawk code and Flight ID input uses a conventional rotary knob, and all functions are easily operated.

Meet Current and Future Mandates - The TT31 transponder is an ED-73B Class 1 compliant Mode S level 2 datalink transponder, with support for extended squitter. It meets all the current requirements for non-diversity Mode S elementary surveillance transponders in Europe for both IFR and VFR flight.

The TT31 also supports 1090 MHz Automatic Dependent Surveillance Broadcast (ADS-B) extended squitter, known as "ADS-B out". By linking the TT31 to your existing GPS receiver, the TT31 can transmit position information to appropriately equipped ground stations and other aircraft. This provides improved airborne surveillance, provides vital information for airport ground surveillance, and is a key feature of future airspace plans.

TT31 Mode S Transponder ..... P/N 11-07997..... **$2,395.00**
TT31 Mode S Transponder Replacement KT-76X
..... P/N 11-07998..... **$2,315.00**

TRIG TT22 MODE S TRANSPONDER

The TT22, is a high-power version of its miniature transponder based on the design and technology of the TT21 Mode S transponder. The TT21 is very popular, especially in the microlight and glider communities, "What was missing was a higher output version. With the TT22, Trig was adding just that."

The T22 qualifies as a Class 1 transponder, which are used on high-performance aircraft - those cruising faster than 175 knots and operating above 15,000 feet. The TT22 is fully certified with EASA ETSO and FAA TSO approval for IFR and VFR flight. It is part of the Trig automatic dependent surveillance-broadcasting product line, and includes extended squitter ADS-B Out, a key feature of future airspace plans.

Features:

- Low Weight - less than 500 grams!
- Minimal Panel Space
- Low Power Consumption
- 250 Watts Nominal Output
- Integrated Altitude Encoder
- Simple Installation
- Support for 1090ES ADS-B Out

ENCODERS - CABIN SPEAKERS

ACK A-30 ALTITUDE ENCODER

Add Mode C capability to your aircraft the most cost-effective way. The ACK encoder is the smallest, lightest, highest quality encoder available today and features the latest solid-state electronics for high reliability. Installation is quick and easy and usually is completed in less than 1 hour. It is compatible with most transponders in use today and reports altitude to 30,750 ft. Includes quick-release mounting tray, 4-ft. color-coded wiring harness with prewired jack, static line and fittings for installation in any aircraft, and installation manual with popular transponder pin-outs. 1yr. warranty. P/N 11-01561 ..... **$188.00**

ACK A30.9 (MOD 9) ENCODER

The ACK A30.9 (Mod 9) encoder is ideal for use with most GPS and TAWS systems, and works well with most of today's mode S transponders. Feature Gray code in 100ft. increments and RS-232 in 10 or 100 feet increments. Furnished with a 4 ft. harness, pre-wired jack, quick release mounting tray, fittings, static line, and installation manual. Reports altitude to 42,000 ft. One Year Warranty. P/N 11-02375 **$239.50**

AMERI-KING ALTITUDE ENCODERS

The Ameri-King AK-350 is the most advanced blind altitude reporter on the market, extremely accurate and reliable, the AK-350 is compatible with all transponders, is TSO-C88 approved, and reports altitude to 30,000 ft. Only 3.5"x 2"x 4.75" and weighs 0.4 lbs. Perfect for pressurized or non-pressurized installations and uses 14V or 28V power. Installation is very simple; all accessories and installation instructions are included. 3 year extended warranty. The AK-35, AK-40 and AK-50 encoders are designed for aircraft flying at altitudes higher than 30,000 ft.

Model #	Max. Altitude	Part No.	Price
AK-350	30,000 ft.	11-12010	**$168.95**
AK-35	35,000 ft.	11-12011	**$520.00**
AK-40	40,000 ft.	11-12012	**$748.00**
AK-50	50,000 ft.	11-12013	**$748.00**
AK-60	62,000 ft.	11-01250	**$1,255.00**

TRANS-CAL ALTITUDE ENCODER MODEL SSD120-30N

Reliable service for over 10 years. * Pin for pin replacement for most other manufacturers encoders. * Comes with Mating Connectors with Cable Clamps, and Mounting Bracket. * Optional: Available with two independent RS232 serial data ports selectable message protocols for most popular avionics interfaces. Programmable for 100' and 10' resolutions. See Part No. 11-06983 * Optional: Available with adapter plates that will allow the installer to mount the unit in another manufacturers mounting tray. Specifications: * Size: 2.5"W x 3.42"H x 1.38"L.* Weight: 5.9 oz. * Will operate on either 14 or 28 VCD at 0.270 Amps.

There are two versions of this model:

• Standard Version SSD120-30N

• Version SSD120-30N-MOD1 for NARCO AT-5A, 6A, 50, 50A Transponders. The Narco AT-5A, AT-6A, AT-50* or AT-50A transponder will not accept data from the SSD120-(XX)N() Altitude Digitizer. A recent modification to remove the output decoupling capacitors is required and this version includes that modification.

30,000 ft. Range ..... P/N 11-06489 ..... **$267.00**
35,000 ft. Range ..... P/N 11-09608 ..... **$335.95**
SSD120-30N-MOD1 ..... P/N 11-09916 ..... **$386.95**

TRANS-CAL ALTITUDE ENCODER MODEL SSD120-30N-RS232

Reliable service for over 10 years. Pin for pin replacement for most other manufacturers encoders. Optional: Available with adapter plates that will allow the installer to mount the unit in another manufacturers mounting tray. * Will operate on either 14 or 28 VCD at 0.270 Amps.

There are two versions of this model:

•Standard Version SSD120-30N-RS232

•Version SSD120-30N-RS232-MOD1 for NARCO AT-5A, 6A, 50, 50A Transponders. The Narco AT-5A, AT-6A, AT-50* or AT-50A transponder will not accept data from the SSD120-(XX)N-RS232 Altitude Digitizer. A recent modification to remove the output decoupling capacitors is required and this version includes that modification.

30,000 ft. Range ..... P/N 11-06983 ..... **$329.00**
35,000 ft. Range ..... P/N 11-09609 ..... **$464.95**
SSD120-3N-RS232-MOD1 ..... P/N 11-09917 ..... **$341.95**

SANDIA SAE5-35 ALTITUDE ENCODER

The SAE5-35 altitude encoder from Sandia is small (1" high), lightweight (12 oz.) and utilizes Gillham Grey code in 100' resolution for optimum performance and accuracy. Features two RS232 outputs in 10 foot resolution, simplifying installations. All connectors are on the same side for easy mounting, and digital calibration eliminates analog drift. Altitude In-Flight Monitoring (AIM) mode alerts the pilot when he strays off altitude. Requires virtually no warm up time and uses very little power. Fully TSO'd and backed by factory 3 year warranty. Power: 11-33VDC. P/N 11-00665 ..... **$359.00**

SANDIA SAC 7-35 AIRDATA COMPUTER

The SAC 7-35 is FAA TSO Approved as an altitude encoder. It provides standard Gillham Grey code for legacy transponders and RS-232 data for the new generations of transponders. Altitude Alerting. The SAC 7-35 has SANDIA Aerospace's exclusive AIM (Altitude Inflight Monitoring) that alerts the pilot anytime he deviates more than 100 feet from his selected altitude. Fuel Flow. The addition of a fuel flow transducer (two for a twin) and your SAC 7-35 provides all the fuel flow data your navigation systems needs to monitor your fuel situation. Airdata Computer. The SAC 7-35 is a full up TSO'd Airdata Computer offering all of the functions and capabilities of systems costing thousands of dollars more. The SAC 7-35 has multiple interface formats that allow it to provide data to a wide variety of avionics systems. Designed and manufactured to most exacting standards, you can depend on SANDIA Aerospace products to provide years of reliable service. And every product is backed by a three year warranty and personal service support.

P/N 11-07938..... **$2,176.00**

SANDIA SAC 7-35-01 AIRDATA COMPUTER

The SANDIA aerospace SAC 7-35-01 is an airdata computer and data translator that interfaces the Garmin 400W/500W navigators Downlinked Aircraft Parameters in ARINC 429/743 format to the Collins TDR 94D for ADS-B out capabilities. **Functions**: • Altitude Encoder. The SAC 7-35 is FAA TSO Approved as an altitude encoder. It provides standard Gillham Grey code for legacy transponders and RS-232 data for the new generations of transponders. • Altitude Alerting. The SAC 7-35 has SANDIA Aerospace's exclusive AIM (Altitude Inflight Monitoring) that alerts the pilot anytime he deviates more than 100 feet from his selected altitude. • Fuel Flow. The addition of a fuel flow transducer (two for a twin) and your SAC 7-35 provides all the fuel flow data your navigation systems needs to monitor your fuel situation. • Airdata Computer. The SAC 7-35 is a full up TSO'd Airdata Computer offering all of the functions and capabilities of systems costing thousands of dollars more. The SAC 7-35 has multiple interface formats that allow it to provide data to a wide variety of avionics systems. P/N 11-09321..... **$3,612.85**

ICARUS MODEL 3000U ALTITUDE SERIALIZER

The Icarus Model 3000U Altitude serializer connects to the existing Mode C encoder in the aircraft. It converts the gray-code into a decimal format and sends it to the GPS receiver using a serial connection. It will function with Trimble,Garmin 150, Northstar, and Apollo GPS receivers.

Features: • Northstar has tested and approved the 3000U for use with its GPS receivers. • Garmin has tested and approved the 3000U for use with its approach approved GPS receivers. • Trimble Navigation has tested and approved the Model 3000U for use with its GPS aviation receivers. • IIMorrow has tested and approved the Model 3000U for use with all of its GPS aviation receivers.• Note: Please advise if transponder is a Narco AT-50 or 50A. or a Wilcox 1014.

Specifications: • Weight: 5oz. • Power requirements: 10 to 30 vdc at 20 ma. (must be fused) • Size: 4.2" x 3" x 1"

P/N 11-04692 ..... **$256.95**

MICROAIR EC2002 ALTITUDE ENCODER

EC2002 will accurately report the aircraft's altitude from -1000 to +35,000ft. The altitude output will be via the 10 line Gillham "Gray" code. Accuracy has been measured as a 40 foot drift over 35,000 feet. Lowest power requirements of any altitude encoder today. Typical current consumption of 10 – 90mA, this makes it the logical choice for all battery only operators. Small size and light weight make installation very simple. The chassis is flanged, and is predrilled with mounting holes for easy attachment. The connections consist of the well know DB-15 electrical connector with pin assignments identical to many existing encoders, and a 1/8" NPT fitting which is an industry standard for aircraft equipment. These connections make it compatible with all ATC transponders currently available. P/N 11-05105 ..... **$332.95**

AV

BECKER MODE S BXP-6403-2

The BXP6403-2-(01) is a compact and lightweight single block Mode-S transponder. It is certified according to ETSO-2C112b and is suited for VFR and IFR operations up to 15000 feet. The transponder is equipped with extended squitter and SI code function and it provides an interface to the central aircraft data system. It allows ELS, supports EHS, as well as ADS-B via extended squitter. The Mode S ICAO address and additional fixed data are stored in a separate address module, AM6400-1-(01), which is plugged on to the transponder and remains in the aircraft when the transponder is exchanged. The BXP6403-2-(01) is designed for slide-in mounting (tray available) and fits into a 160.3 x 41.28 mm cut out. The use of an adapter (available as accessory) allows for retrofit in a KT 76 A tray.

Description	Part No.	Price
Bxp6403-2-(01) - Mode S Transponder with installation kit for retrofit of kt76a - for vfr installation type 175 watt power output, extended squitter	11-06608	**$2,995.00**
Bxp6403-1-(01) - Mode S Transponder with installation kit for retrofit of kt76a - for ifr installation type 250 watt power output, extended squitter	11-06609	**$3,395.00**
Mode S Tansponder with installation kit for new installation. Class 2 for vfr installation type 175 watt power output, extended squitter	11-06694	**$3,085.00**
Mode S Transponder with installation kit for new installation. Class 1 for ifr installation type 250 watt power output, extended squitter	11-06695	**$3,215.00**

BECKER ATC 4401 175W MODE C TRANSPONDER

The ATC 4401 has been designed as a part of the Becker Compact Line for all aircraft and helicopters where small dimensions and light weight are essential. It has the same look and similar size as the successful transceiver AR 4201. The mounting behind the panel is as simple as for the AR 4201. The sunlight readable display is illuminated for night operations. Despite the small size, the operation is simple and straight forward. It even allows the one button recall of two preselected codes. **In The Box**: • ATC 4401 175W Mode C • Connector Kit (Solder type) **Specifications**: • Weight: 1.59lbs • Width: 2.41in • Length: 2.41 in • Depth (w/0 connector): 7.55in • Warranty: 2 years • Power Requirement: 14-28 VDC• TSO/JTSO C74c, C88a

ATC 4401 175W ..... P/N 11-01094 ..... **$1,995.00**
ATC 4401 250W..... P/N 11-01095 ..... **$2,245.00**
ATC 4401 Harness..... P/N 11-07874 ..... **$160.00**

BECKER AR 4201 TRANSCEIVER

Even smaller and lighter than its forerunner - the legendary AR 3201 - it is ideal for installation in gliders, motor gliders and small aircraft due to its low power requirement and 2 1/4 inch round panel cutout. Features: 118 - 136.975MHz, 25 kHz, 760 Channels, 7W Power Output, 5W Min., Sunlight Readable LCD, Active / Preset Frequencies, Channel Mode, Memory Up to 99 Channels, TSO/JTSO C74c, C88a Specifications: Width: 2.41", Length: 2.41", Depth (w/o connector): 7.55", Weight: 1.47lbs, Warranty: 2 years Power Requirement: 14 VDC..... P/N 11-01566 ..... **$1,395.00**
AR 4201 COM Harness ..... P/N 11-07086 ..... **$178.95**
Outside Air Temp Sender..... P/N 11-02190 ..... **$117.95**

BECKER AR 6201 TRANSCEIVER

Smaller and lighter than its legendary forerunner AR 4201 due to implementation of state-of-art DSP (Digital Signal Processing) technology. It is mountable in the 2 1/4 inch standard instrument panel recess, equipped with a highly efficient AM-transmitter, offering easy switching between the 8,33 and the 25 kHz mode. A built-in-test facility increases flight safety. The dual monitor mode allows scanning of two different channels. **Specifications**: • Frequency from 118.000 MHz to 136.990 MHz • 8,33 or 25 kHz channel spacing • RF-Output Power: > 6 W • Supply voltage 9 to 36 V DC

BECKER CU 5401 CONTROL UNIT

The CU 5401 - ( ) control unit is designed for installation in the instrument panel of aircraft. The dimensions of the unit correspond to the ARINC standard for instruments. All controls are located on the front panel of the unit. The 15-pole unit connector is mounted on the back of the control unit.

CU 5401 Control Unit..... P/N 11-07858..... **$775.00**
ATC 4401 Remote Harness..... P/N 11-07320..... **$160.00**

BECKER CU 5209 TRANSCEIVER CONTROL UNIT

The CU 5209 control unit is used to operate and control the RT 3209 or CM 4201 VHF-Transceiver. Both enable voice communications on 760 channels in the 118.000 MHz to 136.975 MHz frquency range with a channel spacing of 25 kHz. The mechanical construction of the control unit is such that it can be installed without limitation in aircraft. There is no restriction with regard to installation in the instrument panel or installation by rigid attachment to the fuselage in any aircraft, including rotary wing aircraft, in the verified environmental categories. Specifications: Fits into a standard 2-1/4" (57mm) round instrument cut out, Depth: 2-1/2", Weight: .57 lbs, 14 to 28 VDC, Power Required ***Note: The CU 5209 can only work with the CM 4201 or RT 32309 remote com.***

CU 5209 Control Unit..... P/N 11-07857..... **$725.00**

BECKER – MICROAIR – APPROACH HUB

BECKER CM 4201 REMOTE TRANSCEIVER UNIT

Enables pilots and installation engineers to customize the VHF communication radios in any aircraft. Ideally suited for installations where minimum panel space is to be used. It utilizes a small, lightweight CU 5209 control unit, which fits into a standard 2 1/4" (57 mm) round instrument panel cut-out, and is only 2 1/2" deep. The CM 4201 offers 760 channels in the 118.000 MHzto 136.975 MHZ frequency range with channel spacing of 25 kHz, and has an output power of 5 - 7 Watts carrier (16 W PEP) with 99 channel memories. Note: Will only work with the CU 5209 Control Unit.

CM 4201 Remote COM Unit..... P/N 11-07843.....**$1,438.00**

BECKER RT 3209 REMOTE TRANSCEIVER UNIT

Enables pilots and installation engineers to customize the VHF communication radios in any aircraft. Ideally suited for installations where minimum panel space is to be used. It utilizes a small, lightweight CU 5209 control unit, which fits into a standard 2 1/4'' (57 mm) round instrument panel cutout, and is only 2 1/2'' deep. The lightweight remote transceiver unit, AR 3209 - (11) is mated with this control head, to complete the system. It can be installed at any convenient place in the aircraft. Both, active and preset frequencies are displayed. Up to 20 preset frequencies can be easily entered in channel mode from the front panel, and stored in non volatile memory. Note: Will only work with the CU5209 Control Unit

BECKER AR3209-11 TRANSCIEVER

This transceiver is ideal for aviation professionals, who need the ultimate in performance and reliability. Because of efficient design and rugged construction, the AR 3209 transceiver is particularly well suited to demanding military operational environments. 760 channels may be tuned in the frequency range of 118.0 to 136.975 MHz, and 20 preset channels can be stored for immediate recall. It has an output of 10 W, with a power supply of 28 VDC. The complete system is housed in a single compact unit, which mounts in standard 5 3/4 '' DZUS rails. It does not require the remote boxes, interconnecting cables, or forced air cooling of older generation equipment.

AR 3209-11 Tranceiver ..... P/N 11-08131.....**$4,495.00**

BECKER GK 415 VHF MOBILE TRANSCEIVER

With its new set of features the Becker GK 415 provides excellent durability and reliability in demanding operating environments, capable of being hand-carried in its durable bag, installed in any vehicle or fixed as a low base station. Specifications: • Supply Voltage: External 10.0 – 32.0 VDC via charging device for 115/230 V, AC internal 12 V, 2.2 Ah Dry-lead-acid battery • Power Consumption: Receive Current: 70 mA Transmit Current: 2.5 A • Frequency Range: 118.000 – 136.975 MHz • Frequency Channels: 760 Channel Spacing: 25 kHz • Memories: 99 Storage • Height: 3.15" • Width: 6.29" • Depth: 10.63" • Weight: 6.61lbs • Warranty: 2 years • Com is TSO/JTSO C74c, C88a

APPROACH SPORT HUB AVIONICS WIRING SYSTEMS

Simply install the appropriate Approach hub for your instrument panel (basic, VFR or IFR), select the appropriate Approach cables for your avionics, and plug it in and your done. Upgrading and replacing avionics only requires a new Approach cable and future maintainability is greatly enhanced eliminating most hand writing and troubleshooting. All cabling is Milspec Tefzel and complies with FAA AC43-13B.

STEP 1: Select the appropriate Approach Hub for your instrument panel configuration.

Basic instrument panel configuration ..... P/N 11-01457 .. **$199.95**
VFR instrument panel configurations ..... P/N 11-01458 .. **$372.95**
IFR instrument panel configurations..... P/N 11-01459 .. **$575.00**
Pro G Hub for Garmin Stacks..... P/N 11-01893 .. **$489.95**

STEP 2: choose the Approach cables for your specific avionics.

SEE A COMPLETE LISTING OF APPROACH CABLES AT www.aircraftspruce.com

MICROAIR 760 COM REVISION P

Designed and manufactured in Australia, the Micro Air 760 VHF transceiver is ideal for aircraft requiring compact size and low power consumption. It has many of the features not found in radios costing much more and includes features not available in any other units. It's compatible with a variety of speaker & microphone combinations including all general aviation microphones. Standard model mounts in a standard 2-1/4" panel hole and weighs only 19.4 oz. It has been proven in high noise environments such as Rotax 2-stroke engines and is excellent for gliders, Ultralights, a general aviation aircraft. A unique LED multifunction annunciator located at the top right of the unit provides several alerts, and an external memory toggle switch allows remote control of the memory frequencies. Transmit output: 4W, Size: 2.56" x 2.44" x 7.779"d, 14V. Standard 2-1/4" model..... P/N 11-18700..... **$1,044.00**

MICROAIR T2000 TRANSPONDER

The Microair Avionics T2000SFL Transponder is a mode 3A/C aircraft transponder designed to operate in an ATCRBS environment. The T2000SFL has been designed to meet RTCA/DO-144 requirements, and has been tested to DO-160D for environmental and EMC requirements.

The T2000SFL software has been developed and approved under RTCA/DO 178B requirements. The T2000SFL is a small lightweight transponder with low power requirements. The T2000SFL is compatible with any C88a compliant altitude encoder, and offers the following features: * Mode 3 A response (4096 codes) * Mode C altitude response * SPI indent response * Encoder Altitude displayed * Altitude Alert (HI / LO) * Voltage alter (OV / UV) * Security coding of serial number * Option to power encoder only in mode C operation.

MICROAIR T2000UAV-L TRANSPONDERS

A special version of the T2000 Transponder, designed for operation in unmanned aircraft. This product is NOT TSO'd due to the OEM nature of the management software. It can help you to open ATC controlled airspace for your product, by making the UAV visible to ATC controllers. The UAV operator will be able to enter an ID code given by ATC, into the T2000UAV-L, to make the UAV uniquely identifiable. Transponder capability will make your UAV visible to TCAS operators, which affords great safety for commercial aircraft operators. The transponder will reply to all mode A and mode C interrogations, and will accept barometric altitude Gray scale (Gillham Code) data. It was designed for very low power consumption, which permits prolonged operation on battery. Can however still pulse out a 200W signal. Light at only 454g (16oz), and easy to istall. Available with either a standard BNC connector or standard TNC connector loaded on the rear face of the chassis.

T2000UAV-L TNC Connector..... P/N 11-07934.....**$3,395.00**
T2000UAV-L BNC Connector..... P/N 11-07935.....**$3,105.00**

MICROAIR MIC-45 MICROPHONE BM470D

A flexible gooseneck microphone. Mounting consists of a steel plate, with right angle flange for attachment of the flexible boom. Boom is fabricated from flexible aluminium conduit, with a conical aluminium housing at the tip to accommodate the microphone capsule. Offers superior noise cancellation and is terminated with a single core shielded 24awg wire. Approx 3m of free wire is provided for connection to the radio. Length: 470cm (18.5"). Cable Length: 3m (9' 8"). Weight: 480g (17oz). Microphone type: Omni directional with effective range 25-100mm (1-4"). Current Drain: 5-10mA Impedance: (600 ohm). Sensitivity: -80dB. Frequency Response: 60Hz to 12Hz

PS ENGINEERING – AUDIO PANELS

PAV 80 IFE SYSTEM

Incorporates AM/FM radio, CD/MP3/MP3Pro for music, plus the added dimension of DVD video. A panel mounted player unit. A 5.5" Liquid Crystal Display (LCD) video terminal provides full color pictures(sold separatley). Up to 4 displays can be driven, using an optional video distribution amplifier. Multi-tasking capability. When coupled to an audio control system, such as PMA 7000B, the pilot & copilot can listen to the radio, while the DVD movie audio is provided to the passengers or visa versa. Designed specifically as a general aviation entertainment system by pilots for pilots, and incorporates the most asked-for features in an IFE system.

PAV 80 AM/FM/CD/MP3/DVD player .....P/N 11-02221 .....**$2,995.00**
Video Distrib. Amp for PAV80-0100.....P/N 11-02550 .....**$795.00**
5.6" color LCD display for PAV80-0100.....P/N 11-02551 .....**$395.00**
Remote IR Sensor For PAV80.....P/N 11-05157 .....**$79.95**

PS ENGINEERING PCD 7100 STEREO INTERCOM/CD PLAYERS

An integrated Intercom and CD player designed specifically for aircraft installations. Incorporates PS Engineering's exclusive IntelliVox™, automating the digitally controlled intercom squelch. Has music and intercom volume controls. 5 back-lit CD push button controls with LED mode annunciation In ISO mode, the pilot hears only aircraft radio traffic, without music or intercom interruptions. In crew mode, the pilot and copilot hear the internal CD player and radio traffic. Automatic fail-safe feature (EMG) connects the pilot directly to the aircraft radios if power is removed from the unit. Both the pilot and copilot have transmit capability over the aircraft radios. In ALL mode, all intercom positions hear the aircraft radios and the CD Player, with PS Engineering's proprietary SoftMute™ circuit. Can now be ordered with the MP3 player option. Installation is the same, and the units look identical, the units that can play MP3 discs.

PCD 7100 - 6-Pl Stereo IntelliVox w/MP3...P/N 11-01851 ..... **$1,099.99**

PS ENGINEERING PXE 7300 IFE SYSTEM

An inflight entertainment system specifically designed for general aviation airplanes. Can play CDs & MP3 recordings, and contains an AM/FM receiver. Not an adaptation of automotive technology. Meets all of the FAA TSO standards to ensure no interference with other avionics, fits in the normal radio stack and plays through any standard aircraft audio control. Approved for installation under an STC. Has soft mute feature that lowers volume from the entertainment system for the pilots when a comm signal is received. Passengers hear uninterrupted entertainment. The AM/FM receiver is designed & certified to not interfere with the VOR/LOC frequencies, not an easy task for FM, and has special logic that helps it discriminate between broadcast signals on the same frequency. At altitude, AM/FM radio receives competing broadcast signals because frequencies are assigned based on the receiver being on the ground. Identifies the strongest signal and rejects any others on the same frequency, so you hear only one radio station at a time. No external antenna required. A thin "strip" antenna can be mounted inside any cabin window, where it is out of the way while still providing excellent AM/FM reception. P/N 11-01767 .....**$1,695.00**

PS ENGINEERING AUDIO PANEL PMA5000EX

Designed specifically for the experimental and LSA owners. Without the traditional functions such as Marker Beacon Receiver, Speaker Amplifier, as well as avoiding the costs of certification, the PMA5000EX provides an unprecedented level of price/performance for the homebuilt.Capabilities: • IntelliVox® automatic VOX system with selectable "Extreme • Noise Capability" • Cellular telephone input with "DuTel" distribution • Monitor Mode allows automatic muting of non-primary radio • Front panel utility jack for phone • Split mode for dual audio panel capability • 2 - Differential, hi-fidelity stereo music source inputs • 3 - Isolation modes • 4 - music mute modes • 5 - unswitched inputs • Dedicated front panel music volume control • Selectable music distribution for passengers • 2 - Front panel switched inputs • 60 second auto-mute mode • RAM (Radio Master Mute) • 1-year Pro-Support Warranty. P/N 11-08289.....**$895.00**

MB 10 MARKER BEACON RECEIVER

MB 10-is a 3-light 75 MHz Marker Beacon receiver and indicator. This provides the necessary Marker Beacon lights and audio indications necessary for an Instrument Landing System (ILS) approach. A switch labeled Hi/Lo/TST allows the pilot select high or low sensitivity as well as test and mute modes. * Height: .95 inches * Width: 2.80 inches * Depth: 4.85 inches * Warranty: 1 year * Unit is TSO'D

Standard ..... P/N 11-05621 ..... **$595.00**
Remote Mount ..... P/N 11-10014 ..... **$595.00**

On all PS Engineering audio panels, a wiring harness must be done by PS Engineering or a PS Engineering dealer or the warranty is void.

PS ENGINEERING PMA 6000B SERIES AUDIO PANEL / INTERCOMS

4-place mono intercom and now sports the same style tray and chassis the PMA8000B uses. The new sleek bezel is populated with tactile Elastomeric pushbuttons We have also changed from the two 44-pin Molex connectors to a single 44-pin sub-D connector, making the harness a lot easier to build.

\PMA6000BAudio Panel..... P/N 11-08074 .... **$995.00**

PMA 7000B/7000H AUDIO PANEL

Lends itself nicely for upgrading an existing Bendix/King KMA 24 audio panel. KMA 24 pin compatible. None of the existing wires going to the KMA 24 have to be disturb, thus reducing the amount of installation. Renown 6-place IntelliVox® automatic Voice Operated Relay (VOX) intercom system, adjusting a squelch circuit is a thing of the past. Provides 3-com capability with the option to easily convert Com 3 to a full duplex cellular telephone interface. Also has the pioneered "Split Mode". Allows the pilot to be on Com 1 while the copilot is on Com 2. Also expandable to accommodate up to 12 places (10 passengers) with the addition of the 11606 IntelliPax. Has four un-switched and un-muted inputs. * Height: 1.3 inches * Width: 6.25 inches * Depth: 6.8 inches * Weight: 1.5 inches * Power Requirements: 12 to 24 VDC * Warranty: 2 Years * Unit is TSO'D. **PMA 7000H** was designed specifically for helicopter and other applications where large seat count and high end-low cost capabilities are required. Adds 3 more passenger positions (total of 7 with Pilot and Copilot seats), Cockpit Voice Recorder (CVR) output, and Push-To-Talk Intercom (PTT-ICS) function. (better known as Hot-Mic) * Height: 1.3 inches * Width: 6.25 inches * Depth: 6.8 inches * Weight: 1.5 pounds * Power: 12 to 24 VDC * Warranty: 3 years * Unit is TSO'D

PAC 24 AUDIO PANEL/INTERCOM

Designed from the outset as an upgrade/replacement for the popular KMA24 –71. Many of the enhancements include; a powerful headset audio amplifier, and high-performance IntelliVox® intercom, dual audio capability in a single box, full duplex mode for wireless operations, and expansion capability with stereo IFE input. Can accommodate 5 transceivers. A monaural system, the PAC24 can include a music input. SoftMute™ silences music during radio traffic, but allows music other times. Incorporates a split mode that will allow a single audio panel to separate two pilots on different transceivers. When combined with IntelliPax® expansion system, the dual PAC24 can be a 14-place system. The audio amplifier is capable of providing 120 milliwatts (mW) into general aviation headphones. Horizontal Mounting.

PS ENGINEERING AUDIO PANELS — VAL COM

PS ENGINEERING PAR100EX AUDIO PANEL

With the PAR100EX, it was all about savings! The PAR100EX completely eliminates the need for a stand alone radio. The small 4 X 4 X 2 inch remote mounted radio can be mounted anywhere. The audio panel includes their highly acclaimed audiophile stereo intercom (4 places) and has their IntelliVox®, an automatic VOX. Enhanced IntelliVox® so it will accommodate even the noisiest of cockpits, including some open cockpits. The left knob controls the intercom and music volume, the right knob controls frequency selection and volume and squelch for their remote mounted radio. You can pair any phone or Bluetooth® enable audio device. Fully independent power supplies so you can power up the radio or audio panel individually, or together. And if you have a Navigator/Com, you can use it as Com 1 and use their remote radio as Com 2. Uses the same tray and connector as the GMA240, GMA340, PMA8000 series. However, there is additional wiring that is required to interface the Com Radio to the audio panel. Dimensions: Height: 1.3" Width: 6.25", Depth: 7.15" Weight: 1.34lb.. Note: Experimental Aircraft Only!

P/N 11-09708 ..... **$2,295.00**

PMA 9000EX AUDIO PANEL

Built with the "Wish List from the Homebuilder" the PMA 9000EX brings to the cockpit more capability than any other audio panel. The backlit Liquid Crystal Gra phics Display. At a glance see what radios are selected, titles of songs, and message alerts. A host of audio panel configurations can be changed with a twist of the Rotary Data Knob. Front panel utility jack acts as an iPod input, telephone input, or USB port for the onboard MP3 player. This USB port allows the crew and passengers to download music from a memory stick, providing hours of continuous music listening. Bluetooth® interface eliminates the wire clutter that used to be necessary to connect telephones. 5 different ways that any two of the three music inputs can be distributed. None of the capabilities of the PMA 8000B have been lost It too is plug and play with the GARMIN GMA 340. Specifications: Height: 1.3 inches, Width: 6.25 inches, Depth: 6.4 inches, Weight: 2.0 pounds, Power required: 12 to 24 volt VDC, Warranty: 2 years., Not TSO'd. On all PS Engineering audio panels, a wiring harness must be done by PS Engineering or a PS Engineering dealer or the warranty is void. For a quote on a PMA 9000EX Wiring Harness please call.

9000EX Audio Panel..... P/N 11-05587..... **$1,774.00**

PMA 8000B AUDIO PANEL

Front-mounted, 2.5mm multipurpose jack give pilots unprecedented access to their audio panel, allowing connections to cell phones, portable music devices, or audio announcements directly into the audio panel. 6 user configurations that are front panel selectable. When used as an entertainment input, the music is directed to the crew, and PS Engineering's patented SoftMute™ functions normally. Our original Karaoke Mode™ can be activated by pressing the front panel "Mute" button, allowing the music to be placed in the background while interruptions to the music will be eliminated. However, if the aircraft has a panel mounted music device and it is active, it changes the front jack for advisory messages. These alert messages are not muted, and presented to the crew headphones only. Also is a convenient way to connect your cellular telephone. Pilot can receive and transmit on the selected VHF COM with ATC as well, for seamless integration in the cockpit. (Cellular telephone use in flight is not permitted, but remains a convenient and safe way to contact air-traffic control or a weather briefer while on the ground.) Virtual Tech Support (VTS) voice prompts each special function selection assuring that the pilot knows exactly what the new audio panel configuration is, in plain English. Six different configurations can be selected from the front panel. Internal Recording System (IRS) is now standard equipment. Backward compatible with the PMA 8000. Note: Use of the front panel jack is restricted to advisory information only, from portable systems. Signals required for certified equipment must be interface in accordance with their specific installation manuals.Specifications: Height: 1.3 inches, Weight: 6.25 inches, Depth: 7.15 inches, Weight: 1.34 pounds, Power Required: 12 to 24 VDC, Warranty: 3 Years, Unit is TSO'D. On all PS Engineering audio panels, a wiring harness must be done by PS Engineering or a PS Engineering dealer or the warranty is void. For a quote on a PMA 8000b Wiring Harness please call.

VAL AVIONICS NAV 2000 VHF RECEIVER

Turning back to a more traditional design ,the COM 2000 features dual concentric knob controls, displayed active and standby frequency with push button flipflop, 15 memory locations with user defined alphanumeric channel identifiers and a manual squelch control. It's 3/8" character display is easy to read from any angle and in any lighting condition. This mighty little radio's all metal construction is designed to serve all your communication needs well into the future. • Large 3/8" display character • 8 watt transmitter • 1 inch high and 9 inches long • Dual concentric knob controls • 15 memory locations with user-defined alphanumeric channel identifiers • Non-volatile memory • Manual squelch control • All machined aluminum construction • RS232 interface • Photocell dimming. P/N 11-10569 ..... **$995.00**

VAL AVIONICS COM 2000 VHF TRANSCEIVER

COM 2000 continues the tradition of hard working, affordable avionics by Val Avionics. The smallest panel mounted COM radio available today. Features dual concentric knob controls, displayed active and standby frequency with push button flip-flop and a manual squelch control. It's 3/8" character display is easy to read from any angle and in any lighting condition. All metal construction. 0 P/N 11-06411 ..... **$996.00**

VAL AVIONICS VOLTAGE STEP DOWN CONVERTOR TSO'D

This unit is a step down voltage converter that drops 28 volts DC down to 13.8 volts DC. This unit would be required to operate either our COM 760 TSO or INS 422 TSO units in an aircraft or vehicle that are 28 volts DC.

Specifications: • Physical Dimensions: L 4.0 " (10.16 cm) x W 4.625" (11.75cm) x H 1.250 (3.18cm)• Weight: 0.75 lbs• Power Requirements: Current 2.0A Continuous with 5.0A Intermittent P/N 11-02963 .... **$152.95**

VAL AVIONICS NAV INS 429 WITH VOR/LOC/GS/MB

The INS 429 is a high quality, multi-function, fully integrated navigational instrument displaying VOR, LOC, Glide Scope, Marker Beacon, and GPS/NAV inputs. Not only does it sport its own internal receivers, it will also display course deviation information from an external NAV or GPS source. A perfect solution for a crowded panel. **Not TSO'D (for experimental aircraft only).**

AVIONICS INNOVATIONS DMP-100

This Digital Media Player is a self-contained unit which stores and replays pre-recorded audio tracks. The audio tracks are encoded in "Motion Picture Expert Group (MPEG) Level 3 format", commonly referred to as MP3. Audio files are stored in a removable Compact Flash™ memory card which is prepared and installed by the user. **Features:** * Self-contained unit which stores and replays MP3 music and speech files. * MP3 files are stored on a standard Compact Flash card. * MP3 play lists (iPod) can be imported. * One MB = one minute of speech or, music. Currently, Compact Flash cards are available up to 4gb. * Up to sixteen languages can be programmed with the ability to play two different languages simultaneously. * The DMP-100 can be implemented as a cabin briefer. * Audio files can be selected via a single rotary push-button on the front panel. * Optionally, the DMP-100 can be connected to a maximum of seven external discrete trigger inputs to select a particular audio/speech file. * In addition, the RS232 data from a GPS can be connected to the DMP-100 allowing triggering of audio / speech files based on geographical position. * The DMP-100 provides a single pair of ground-referenced stereo line-level output signals. * User programmable with Avionics Innovations' exclusive Card-Prep software supplied with the DMP-100. **Benefits:** * Hours of continuous music and or speech files can be stored on a convenient Compact Flash card. * No more changing and maintaining of CD's. * Can be used for entertainment and or cabin briefing. * Single rotary knob with a push-button action for all front panel functions. * MP3 play lists (iPod) can be imported. * User programmable. * GPS can be connected to the DMP-100 to trigger either speech or music automatically when the aircraft is within a specific distance of a certain waypoint. * FAA/PMA approved. DO-160D tested. **Specifications**: * Power source: 11-33 Volts DC * Ground System: Negative * Current Draw: < 250 mA * Audio Output: Stereo line-level * Dimensions: 5.75" W x 1.875" H x 3.5" D * Mounting Type:Dzus-Rail Mount (adapter available for 6.25" racks) * Weight: 15 oz

AV

RADIORAX - TRAFFIC ALERT SYSTEMS

RADIORAX THE REVOLUTIONARY AVIONICS RACK SYSTEM

Radiorax provides flexibility and ease of installation for panel mount avionics. The radiorax system consists of anodized slotted rails, stainless nuts, structural strength tray screws that are four times stronger than conventional screws used in aviation, and a stainless capture system that holds each nut where it is needed during assembly. The installer is able to position the nuts in the slot exactly where they are required to install each tray. Once installed, the trays can be easily moved until the screws are fully tightened. Additional nuts can be stored in the slots for future avionics additions. RadioRax provides great strength, ease-of-alignment, easy change and modification, ehanced quality, owner satisfaction, and is very cost effective.

PROXALERT R5 - COLLISION AVOIDANCE SYSTEM

The R5 is a passive collision avoidance system. It detects transponder replies of aircraft flying in your vicinity and displays simultaneously both squawk code, altitude, vertical trend and estimated distance of the 3 closest threats. The R5 will increase your ability to visually locate threat aircraft and better apply the FAA 'See and Avoid' concept. The R5 has been designed to be very robust against interference coming from DME equipment and other sources of disturbance. Offers significant operational improvements over previous generation products at a very attractive price. The R5 comes with a 3 year manufacturer warranty. P/N 11-02782.....**$779.00**

ZAON BOSE HEADSET AUDIO ADAPTER

This custom audio cable is 100% compatible with all Bose 6-pin connector headsets, including noise reduction circuitry, and is stereo compatible. One simple cable is all you need! Replaces standard headset audio cable. 6-foot straight cable into Y.

P/N 11-04525 .....**$95.00**

MONROY ATD-300 AIR TRAFFIC ALERT

The Monroy ATD-300 provides that continuous traffic awareness in a compact size. Detects all transponder type replies from nearby traffic and displays their proximity and their altitude on a bright 8-character dot matrix display. Simultaneously, a clear female voice provides voice alerts in relation to traffic proximity. It even has a test mode to verify onboard transponder opeation. All of this and more in the size of an alumminum box (2.75"w x 0.75"h x 5"d) no bigger than your intercom. With the Plug N' Fly feature you jut plug the ATD-300 into the cigarette lighter (for power) and the aircraft headphone jack (for voice feedback) and you are ready to fly. No panel space or installation is required. Velcro and mounting brackets are provided for location on top or bottom of the instrument panel and in the panel. The unit comes with a detachable antenna, cigarette lighter power cord, and headphone cable for Plug N' Fly setup. The ATD-300 Traffic-Watch provides multiple capabilities that enhance the safety of flight, such as: • Traffic Range up to 5nm • High/Low Voltage alarm • Traffic MSL Altitude • Auto Mode Display • Voltage Indication • ATD-200 Interchangeable • Traffic relative altitude readout • Host transponder altitude/code readout • Bright LED 8 character dot matrix display Specifications: Weight: 10 oz.; Frequency: 1090 MHz; Max Range: 5nm. ..... ZAON XRX ONYX COLLISION AVOIDANCE SYSTEM

PCAS XRX-ONYX is the first ever portable, passive, stand-alone collision avoidance system for general aviation to offer direction from within the cockpit. PCAS™, or Portable Collision Avoidance System, is Zaon's solution for providing high-quality, low cost traffic information to the general aviation pilot. XRX-ONYX is our flagship model, providing a complete picture in a simple, easy-to-use device. PCAS represents our third generation of proven traffic detection technology. XRX-ONYX is truly a "Plug and Go" device with its built-in antenna system and built-in display. ***XRX-ONYX ONYX UPGRADED SYSTEM*** - The new XRX-ONYX, is an upgraded version of the current XRX--A system. The differences include: * The code for the new product is ***XRX-O-A*** * Improved housing in a new black color (Tough-as-nails polycarbonate housing is semi-transparent and attractive) * Software Version 2.1 contains: Minor user interface enhancements, Forward compatibility with integrated systems. An industry first, XRX-ONYX detects threat aircraft direction from within your cockpit using a cutting-edge, proprietary, self-contained antenna design. With direction, locating and identifying traffic is simple and easy, and traffic information is "three-dimensional", which means it can be displayed on third-party systems, such as moving map GPS devices. Read more about this below. P/N 11-06504 ..... **$1,395.00**

XRX BARE WIRE POWER/DATA CABLE - Get XRX Traffic hard wired into your third-party moving map system. Provides hook-up for both the data port (DB9) and the power jack on the XRX. The other end of the 68" cable has tined leads ready for hook-up directly to your third party system. Uses a single lightweight cable for both power and data transmission. P/N 11-06243 ..... **$29.75**

ZAON MRX COLLISION AVOIDANCE SYSTEM

The world's smallest collision avoidance device. MRX displays range and relative altitude of the closest threat, with continuous monitoring of the top 10 threats within the 5 NM scalable detection window. Altitude detection is scalable up to +/- 5000 ft. At 2.5" (65mm) W x 4.2" (107mm) D x 0.6" (17mm) H, MRX is smaller than adeck of cards. MRX uses an easy menu-driven interface and audio annunciations for traffic advisories and alerts. The unit boasts a built in solid-state altimeter for "always relative" altitude information, and built-in temperature compensators and overtemp protection. Information is displayed on the high-brightness LED display (dimmable). MRX also monitors aircraft bus voltage and host transponder output. The unit is powered by aircraft power (12-40 VDC adapter included) or 2 "AA" Batteries (with 8+ hours of use). MRX is half the size, 1/3 less price, portable and offers better accuracy and many more features than the ATD-300.

R-A-M MOUNTING SYSTEMS

RAM MOUNTING SYSTEMS
PATENTED & PATENT PENDING

RAM Mounts are the revolutionary patented ball and socket mounting system that allow you to mount just about anything anywhere in your cockpit. Providing special attachments for yokes, glare shields and more, now you can mount your accessories where you want them. RAM Mounts is up to speed with the latest aviation technology products. Whether you use an iPad, PND, or PC, RAM has you covered. Ordering RAM Mounts is easy, read on to find out more.

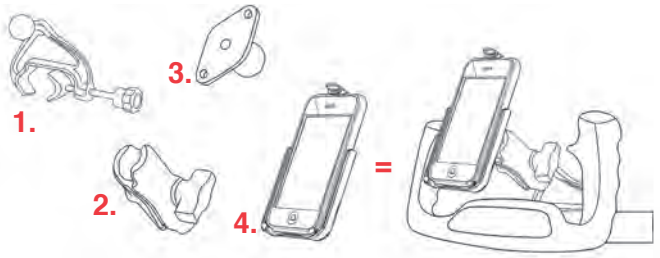
Note: The "U" at the end of each model number means that the unit comes unpackaged.

BUILDING YOUR RAM MOUNT

Building and ordering your RAM Mount is easy. All you need to know is what you need to mount and choose where you would like to mount it, we take care of the rest. Building a RAM Mount solution usually consists of 4 parts, base, arm, adaptor and cradle/holder. Use the example image to the right for reference.



STEP 1: BASES

LOBSTER MOUNTS - GPS MOUNTS

LOBSTER MOUNTS

The “Shrimp” Series of mounts provide an economical solution for mounting mobile electronics. This basic system provides a minimal extension, and utilizes a tri-wing finger knob for locking and positioning. Our off-centered 1-1/4 inch ball-base (patent pending) provides adaptability that cannot be matched. The Shrimp mount extends as little as 2-1/2 inches from the mounting surface and can extend to about 5 inches. The “Shrimp” was designed to support devices up to 3 lbs, and is available with bolt-on, MC/ATV, and Suction bases.

UNIVERSAL MC-ATV CLAMP - Base only! For an additional anchor point we offer this universal rail-clamping base, designed to fit square or round tubing from 3/4 inch to 1-1/2 inch diameter (by adding a 1/4-20 x 3” bolt, this base will fit up to 1-3/4 tube). This rugged base is made from extruded aluminum, an aluminum ball, and includes stainless steel hardware. Weight - Unit 0.5 lbs.

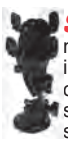
P/N 11-04709 ..... **$24.85**

UNIVERSAL CRADLE - The Cradle comes with four grip fingers and one stop finger, which are capable of being positioned in any of the eight slots on the body. Rubber pads for the grip fingers and stainless steel hardware are provided. In the short direction, the grip fingers are adjustable from 1-1/2” to 3-1/4”, and in the long direction, the grip fingers adjust from 4-1/2” to 5-1/2”. For longer devices, the fingers on top could be left off, allowing the device to overhang the cradle base. This product, like our other products is produced for use in aviation and marine environments where being compass compatible and corrosion resistant are important. P/N 11-04710 ..... **$16.75**

SHRIMP SERIES BOLT-ON WITH CAMERA TOP - A removable 1/4-20 camera stud, universal mounting ball-base and mounting flange, lanyard loop; accommodates the AMPS bolt up pattern (AMPS is a 1-1/2” by 1-3/16” screw hole pattern used in many portable electronic products). Aluminum alloy and reinforced composite parts with stainless steel hardware. P/N 11-04711 ..... **$16.75**

SHRIMP SERIES MC/ATV CLAMP WITH CAMERA TOP - Same as our Bolt-On model, while adding a universal rail-clamping base, designed to fit square or round tubing from 3/4 inch to 1-1/4 inch diameter (by adding a 1/4-20 x 3” bolt, this base will fit up to 1-3/4” tube). This rugged base is made from extruded aluminum, an aluminum ball, and includes stainless steel hardware. P/N 11-04713 ..... **$31.50**

SHRIMP SERIES BOLT-ON + CRADLE - Universal mounting ball-base and mounting flange, lanyard loop, along with our cradle for hand-held devices. The Cradle (UN-198) comes with four grip fingers and one stop finger, which are capable of being positioned in any of the eight slots on the body. Rubber pads for the grip fingers and stainless steel hardware are provided. In the short direction, the grip fingers are adjustable from 1-1/2” to 3-1/4”, and in the long direction, the grip fingers adjust from 4-1/2” to 5-1/2”. For larger devices, the finger may be left out at the top allowing the device to overhang the cradle base. Like our other products, the SH-259 is produced for use in aviation and marine environments where being compass compatible and corrosion resistant are important. P/N 11-04715 ..... **$27.50**



SHRIMP SERIES SUCTION + CRADLE - Our Suction Base attachment ball is capable of being tilted for extra versatility in positioning your device. Cradle (UN-198) comes with four grip fingers and one stop finger, capable of being positioned in any of the eight slots on the body. Rubber pads for the grip fingers and stainless steel hardware are provided. In the short direction, the grip fingers are adjustable from 1-1/2” to 3-1/4”, and in the long direction, the grip fingers adjust from 4-1/2” to 5-1/2”. For larger devices, the finger may be left out at the top allowing the device to overhang the cradle base. This mount, like our other products is produced for use in aviation and marine environments where being compass compatible and corrosion resistant are important. P/N 11-04716 ..... **$38.90**

SHRIMP SERIES MC/ATV + CRADLE - A universal rail-clamping base, designed to fit square or round tubing from 3/4 inch to 1-1/4 inch diameter. Made from extruded aluminum, an aluminum ball, and includes stainless steel hardware. Cradle comes with four grip fingers and one stop finger, capable of being positioned in any of the eight slots on the body. Rubber pads for the grip fingers and stainless steel hardware are provided. In the short direction, the grip fingers are adjustable from 1-1/2” to 3-1/4”, and in the long direction, the grip fingers adjust from 4-1/2” to 5-1/2”. For larger devices, the finger may be left out at the top allowing the device to overhang the cradle base..P/N 11-04717 ..... **$38.90**

UN-327 SUCTION BASE - Suction Base Only, If you are already using a Bolt-On or MC/ATV base, this allows you to easily transfer your device to your car or any place with a smooth surface. The Suction Base attachment ball is capable of being titled for extra versatility in positioning your device. This base, like the other products is produced for use in aviation and marine environments where being compass compatible and corrosion resistant are import.

P/N 11-06616 ..... **$24.95**

SH-334 SHRIMP SUCTION MOUNT WITH CAMERA TOP - Our Suction Base attachment ball is capable of being tilted for extra versatility in positioning your device. The Camera Top (UN-310) has a removable 1/4-20 camera stud. It also features a mounting surface with holes and slots, which accommodate the AMPS standard (1.496” x 1.181”) pattern for direct attachment to numerous electronic devices. This base, like our other products, is produced for use in aviation and marine environments where being compass compatible and corrosion resistant are important. P/N 11-06617 ..... **$31.50**

UN-303 ROLL BAR CLAMP - Base only! For your ATV, golf cart steering column or other applicable with 1-1/2” to 2-1/2” tubing. This rugged base is made from aluminum extrusion, an aluminum ball, and zinc plated steel hardware. Note that this is not compass friendly.

P/N 11-06618 ..... **$27.85**

UN-310 CAMERA TOP - Camera Mounting surface that can also be used for mounting other devices. If you are already using a Universal Cradle (UN-198), this allows you to easily use your mounting system for other purposes. The holes and slots in the flange accommodate the AMPS standard pattern as well as several size u-bolts. This base, like our other products is produced for use in aviation and marine environments where being compass-compatible and corrosion resistant are important. P/N 11-06615 ..... **$9.90**

ROTATING MOUNT FOR GARMIN GPS

The rotating mount attaches to the Garmin yoke mount supplied with the GPS units. The GPS then mounts on the product and allows the GPS unit to be rotated so the passenger can view the unit if mounted on the pilots side. If used on the co-pilots side, then the pilot can rotate the GPS so he/she can view it as well. Note: The rotating mount is used for the Garmin GPS units (295,196,296,396)

Rotating Mount-Pilot rotates right..... P/N 11-04661 ..... **$64.85**
Rotating Mount-Copilot rotates left..... P/N 11-04662 ..... **$64.85**

ANGEROLE INSTRUMENT PANEL MOUNT

The photo illustrates the Model 241 040 fitted to a blank instrument panel. An adaptor plate (included with the mount) fits any standard 2-1/4”" instrument panel hole so, generally, it can be fitted without any modifications to your airplane. If your application needs it, we can supply this mount with a 3-1/8”" panel adaptor plate. If you don't have an unused panel hole, a viable alternative is to drill two holes and simply bolt the mount directly to your panel. The "footprint" area is only 2" x 0.5" so there's probably going to be somewhere you can make it fit. Naturally, you need to be certain this is appropriate, sensible and legal for your installation before drilling holes in your airplane.

ICOM HANDHELD TRANSCEIVERS

ICOM IC-A24 NAV/COM

Easy To Use While Flying - Simple one-handed operation is the most essential feature of the IC-A24. The well labeled, large keypad provides user friendly operation. The large display shows both letters and numbers and is easy to see, making for fast frequency recognition. The display is backlit, and so is the keypad. The light stays on until you turn it off - a very handy feature for flying at night! “Flip-Flop” Channel Recall - The IC-A24 stores the last 10 channels used. You can easily recall those channels by pushing the “flip-flop” recall buttons on the front panel. It is convenient for switching between several channels, such as Nav and Com channels. VOR Navigation - The IC-A24 has VOR navigation functions. The DVOR mode shows the radial to or from a VOR station and the CDI mode shows the course deviation to/from a VOR station. You can also input your intended radial to/from the VOR station and show the course deviation on the display. The duplex operations allows you to call a COM channel while you are using VOR navigation. External DC Power Jack - An external DC power jack allows for operation with the wall charger or the cigarette lighter cable. When the battery pack is installed, simultaneous charging during operation is also possible. Water Resistant Construction- The water resistant construction provides reliable operation in wet conditions.

IC-A24 Nav/Com (110V) - Includes Nicad battery, wall charger, belt clip, carrying case, headset adapter & handstrap. ...P/N 11-02942 .. **$379.99**

ICOM IC-A6 COM

Simple one-handed operation is the most essential feature of the IC-A6. The well labeled, large keypad provides user friendly operation. The large display shows both letters and numbers and is easy to see, making for fast frequency recognition. The display is backlit, and so is the keypad. The light stays on until you turn it off. The IC-A6 stores the last 10 channels used. You can easily recall those channels by pushing the “flipflop” recall buttons on the front panel. External DC Power Jack - An external DC power jack allows for operation with the wall charger or the cigarette lighter cable. When the battery pack is installed, simultaneous charging during operation is also possible. Water Resistant Construction - The water resistant construction provides reliable operation in wet conditions. Features: • 200 memory channels (10 banks of 20 channels) allows you to load in up to 10 separate flight plans. 6 character alphanumeric for channel names. • Dedicated 121.5 “emergency” key. • All NOAA weather channels preprogrammed. • Automatic Noise Limiter (ANL) built in for noise reduction. • Icom’s exclusive front panel programmable side tone allows you to set the correct side tone level for almost any headset • Icom’s exclusive “TAG” scanning and memory bank scanning make it the most user friendly radio on the market. Specifications: • Frequency range: Tx/Rx 118.000-136.975MHz • Weather 161.650-163.275MHz • Wt: 15.02oz. • Dims: 2-1/8” x 5-3/32” x 1-13/32”

ICOM A14 HANDHELD COM

700mW* loud audio - Because air band radios are usually operated in high-noise environmetns, it is essential for the radio to provide loud clear audio. The IC-A14/S series employs a BTL amplifier that doubles the audio output, offering loud and clear audio that’ll cut through cabin or tarmac noise. (*internal speaker only) **Full keypad type or Simple keypad type -** The IC-A14 full keypad type allows you to input the channel or frequency directly and has an exclusive button for the 121.5MHz emergency channel. The IC-A14 receives NAV and WX channels. The IC-A14S simple keypad type provides simpler operation with a minimum of buttons that is suitable for ground crews. **Compact, light weight and rugged body -** The IC-A14/S series is compact (only 120.mm tall) and light weight (approx. 350g including antenna and BP-232N). The water resistant construction, equivalent to IPX4, provides reliable operation in wet conditions. **Large capacity Lithium-Ion battery pack -** With the 2000mAh large capacity Lithium-Ion battery pack, BP-232N, the IC-A14/S series provides stable output power and 18 hours long (approx.) operating time*. The BP-261, battery case takes 6 AA (LR6) alkaline cells for convenient battery backup. * Typical operation, Tx:Rx: Stand-by=5:5:90. **200 channels with memory banks -** A total of 200* memory channels can be named with an 8-character channel name for easy recognition. For fast and simple operation, these channels can be grouped into 10 memory banks*. ***IC-A14 only. The IC-A14S has 100 memory channels and memory banks are not available.***

ICOM IC-4088A UHF FM TRANSCEIVER

The Icom IC-4088A is a compact, inexpensive transceiver, water resistant and very easy to use. Channel changing is as simple as pushing the up/down keys. The radio can be controlled with only 5 button and a volume control knob. The easy to read LCD shows information at a glance.Other outstanding features includes: Economical AA alkaline batteries (3 not supplied) provide 30+ hrs of use, low battery indicator provides warning of battery condition when using alkaline batteries, rotary type antenna folds down behind radio, optional Ni-Cd battery pack and rapid charger, compact body fits neatly in your hand, and auto power-off timer (two hours). This radio is excellent for use in communicating with friends at airshows.

HANDHELD TRANSCEIVERS

ICOM IC-R6 HANDHELD RECEIVER

Retaining the basic features of the very popular IC-R5, the IC-R6 has a new design and new features. 100 kHz – 1309.995 MHz* wideband coverage. While the IC-R6 receives an ultra wideband frequency range, the radio provides superior sensitivity and receiver characteristics that is insusceptible to interference. Amateur stations, AM, FM, short wave broadcasts, TV audio* and a variety of utility communications can be caught and listened to. Frequency range depends on version. Analog TV audio only. Cannot decode digital TV audio. The IC-R6 has 100 channels per second high speed scan capability*. With the supplied rechargeable Ni-MH cells (1400mAh × 2), the IC-R6 provides up to 15 hours of continuous receive capability*. At 50 mW output using external speaker. 1300 memory channels with 22 memory banks. The VSC opens the squelch only when a modulated signal is detected and ignores un modulated beat noise. The IC-R6 can be powered by rechargeable Ni-MH cells, or with alkaline batteries. Run the IC-R6 using the AC adapter, BC-196S, or opt for a cigarette lighter cable, CP-18. When used the optional drop-in charger stand BC-194 with the AC adapter or cigarette lighter cable, you can easily start charging the Ni-MH cells, while eliminating the need to connect the power source to the DC power jack of the receiver. Usable temperature range: +14 F to +140 F. Antenna impedance: 50 ohm (SMA). Dimensions:58(W) x86(H)x29.8(D) mm. Weight: 7.1 oz

YAESU VXA-220 PRO VI

The VXA-220 features 5 watts TX power output, loud audio (700 mw), long life nickel metal hydride battery, larger LCD display, 250 memory channels with programmable 8 character alpha numeric display, submersible design (3 feet for 30 minutes), NOAA weather receive (10 channels). All of this is backed by the manufacturers 3 year parts and labor warranty. The VXA-220 uses the same accessories as the popular VXA-300. **Includes**: VXA-220 COM , FNB-83: 1400 mAh Ni-MH battery, CD-32: Charging Cradle, CN-3: SMA TO BNC Adapter, FBA-25A: Alkaline Battery Tray, ATV-10: Helical Antenna (Q3000194), E-DC-5B: DC cable with 12v cigarette lighter plug, PA-48B: 110VAC Overnight charger, CT-96: Headset Adapter Cable. Note: The 220v model comes with the PA-48C: 220VAC Overnight charger.

HANDHELD TRANSCEIVERS –BATTERIES

UNIDEN BEARCAT SCANNER BC355C 800MHZ

• 300 Channels • Close Call RF Capture Technology - Instantly tunes to signals from nearby transmitters • Preprogrammed Service Search • Temporary Lockout • Search Lockouts • Backlit Display • 100 ch/sec Scan Speed (max) • Frequency Coverage - Includes the most interesting "action" bands where you can hear police, ambulance, fire, amateur radio, public utilities, weather, and more. •AC Adapters, DC Power Cable and Automotive Power Outlet Plug - More options for supplying power to your scanner at home or in your car. • Public Safety Scanner.

P/N 11-08329 ..... **$136.95**

UNIDEN BC370CDS RADIO SCANNER

The BC370CRS scanner is a multi-featured conventional channel scanner with All Hazards alert. You can easily enter and store frequencies for police, fire/emergency, marine, air, amateur, and other radio services into 300 channels distributed over ten banks. The scanner also alerts you when NOAA (National Oceanic and Atmospheric Administration) or any broadcast station the scanner is tuned to issues an EAS (Emergency Alert System) signal. These alerts are issued for severe weather, homeland security, and law enforcement events (such as Amber alerts).

P/N 11-04736 ..... **$234.95**

WINDSHIELD ANTENNA KIT FOR HANDHELD RADIOS

This antenna kit attaches to the inside of the windshield & dramatically improves portable nav/com's transmit, receive, and VOR performance based on extensive field testing. It is portable and ideal for those who can't use an ANT-SB. Simply attaches one's own flexible antenna to inside of windshield with BNC, coax, suction cup adapter. Works with any handheld radio using BNC connections. P/N 11-18603 ..... **$28.95**

GLEIM KA11AIR PORTABLE AVIATION RECEIVER

Aviation radio communications are now available to you with Gleim's Aviation Radio Receiver. Monitor the entire aviation frequency band! This radio is very portable, easy to operate, and extremely cost effective. Enjoy Listening to aircraft and air traffic control communications and build your proficiency in "pilot speak". This radio receiver is an integral part of GLEIM's Watching Airplanes Course- a tool to assist those interested in aviation to learn more about it. The KA11Air receiver comes with two AA batteries, the earphones, and external antenna..... P/N 13-06717 ..... **$63.50**

PASSIVE AIR BAND AIRCRAFT MONITOR

Monitors the entire aircraft band without tuning! Passive design, can be used onboard aircraft, no local oscillator, generates and creates no interference whatsoever!! Great for air shows! Patented circuit and design! For decades we have been known for our novel and creative product designs. Well, check this one out! An aircraft receiver that receives all nearby traffic without any tuning. It gets better... there is no local oscillator so it doesn't produce, and can't produce, any interference associated with all other receivers with an LO. That means you can use it onboard aircraft as a passive device! And what will you hear? The closest and strongest traffic, mainly, the one you're sitting in! How unique is this? We have a patent on it, and that says it all!

AV

TRUTRAK AUTO PILOTS – ADI / EFIS

SORCERER AS AUTOPILOT

Same features as the TruTrak DFC-250 ATI, plus GPSV and VNAV. GPS-Slaved solid-state DG • Digital Ground Track Selector • VOR / LOC / ILS • VOR / LOC Reverse • Selected-angle Intercept • GPS Nav Mode • GPS Steering • Solid-state gyroscopically-controlled pitch axis • Selected Vertical Speed climbs and descents • Altitude Hold • Built-in • Digital Altimeter • V-NAV • Vertical GPS Steering • Altitude Selector with 50-ft resoultion for approaches • Selectable airspeed for altitude transitions (in addition to VS) • True Control Wheel Steering* • Simplified User Interface P/N 11-02968.....**$7,750.00**

TruTrak Yaw Damper.....P/N 11-02972.....**$1,425.00**

DIGITRAK AUTOPILOT

• GPS-Slaved solid-state DG • Digital Ground Track Selector • GPS Nav Mode • Magnetic Backup Mode • True Control Wheel Steering* • 12V only • 2-1/4" - Dims 2.5"H x 2.5"W x 3.5"D • Standard weight including servo: 3.5 lb

• P/N 11-01595..... **$1,550.00**

TruTrak Yaw Damper

P/N 11-02972.....**$1,425.00**

TRUTRAK YAW DAMPER

The Yaw Damper employs a solid state rate gyro to damp out short term yaw oscillation, and a transverse accelerometer to control rudder position long term, so as to keep the ball centered. The Yaw Damper can be added to the DFC-200 or Sorcerer autopilots.

• 2.05" H x 4.12" W x 1.69" D • 12-28 volts • Standard Weight including servo 3.25lb (Servo Must be Purchased Separately)

P/N 11-02972 .....**$1,425.00**

AUTOMATIC TRIM

Failsafe Automatic Pitch Trim can be added to any system with vertical speed select. TruTrak is the only company serving the experimental market to offer Failsafe Automatic Pitch Trim; this ensures that a single failure will not cause runaway trim. Automatic Trim can be added to the Yaw Damper. • 2.05" H x 4.12" W x 1.69" D • 12-28 volts • Weight 4lb P/N 11-02970 .....**$350.00**

DIGIFLIGHT IIVS - • Fits Standard 2.25" Round Instrument Hole • Built-in Digital Slaved Directional Gyro • Digital Track Selector • GPS Nav Mode • Altitude Hold • 12-28 Volts • All Solid-State Sensors • Simple Intuitive User Interface • Climb and Descend on Vertical Speed • Trim Sensing Pitch Servo that Annunciates for Trim • Lighter and Smaller then Comparable Systems • True Control Wheel Steering* • Dims - 2.5"H x 2.5"W x 5.5"D • Flat Dims - 1.6"H x 4.3"W x 5.5"D • Standard weight including servos – 6lb

TruTrak Digiflight IIVS .....P/N 11-02633 .....**$3,350.00**

TruTrak Digiflight II VS FLAT .....P/N 11-03147 .....**$3,350.00**

DIGIFLIGHT IIVSGV - • Fits Standard 2.25" Round Instrument Hole • Optional Flat Rack Mounting • Built-in Digital Slaved Directional Gyro • Digital Track Selector • GPS Nav Mode • GPS Steering • Altitude Hold • All Solid-State Sensors • 12-28 Volts • Simple Intuitive User Interface • Climb and Descend on Vertical Speed • Trim Sensing Pitch Servo that Annunciates for Trim. • Vertical GPS Steering (GPSV) • Dims: 2.5"H x 2.5"W x 5.5"D • Flat Dims - 1.6"H x 4.3"W x 5.5"D • Lighter and Smaller then Comparable Systems • True Control Wheel Steering* • Standard weight including servos – 6lb

TruTrak Digiflight IIVSGV RND.....P/N 11-05549 .....**$4,700.00**

TruTrak Digiflight IIVSGV FLAT .....P/N 11-03151 .....**$4,700.00**

TRUTRAK GX PILOT

Designed to interface with Garmin G3X™ • Fits Standard 2.25" Round Hole • Built-in Ground Track DG • Track Select Mode • Altitude Hold • VS Select Mode • EFIS Mode (Lateral and Vertical Steering) • Control Wheel Steering • Pitch Trim Annunciation • 12-28 Volts • 2.5" H x 2.5" W x 5.5" D

P/N 11-08553.....**$2,990.00**

ALTRAK ALTITUDE HOLD

• (Easy Installation) • Can be used alone or with any roll servo Autopilot • Only panel space required is for engage/disengage button • Solid-state gyroscopically-controlled pitch axis • Flight dynamics equal to higher priced systems • Control Wheel Steering • Available with vertical speed select (Altrak VS) • 12 Volts only • Programmer Dimensions 3"H x 0.9"W x 2.8"D • Standard weight including servo - 3 lb..... P/N 11-02032..... **$1,550.00**

TruTrak Altrak VS..... P/N 11-02631..... **$1,850.00**

PICTORIAL TURN AND BANK

This display is like an artificial horizon in roll and actually moves in unison with it. This makes the transition from viewing the horizon much easier than the reverse display of the turn coordinator. Uses a solid state gyro instead of a spinning rotor. The Pictorial Turn & Bank is superior to a turn coordinator in all ways. It looks and flies like the roll display of an artificial horizon. It agrees with the real horizon, so one does not have to reverse his or her sensing when entering or exiting IMC. The roll response is without lag just as it is in an artificial horizon. Of most importance, it is easier and safer for the non-instrument pilot to fly. 12-28 Volts - Weight-6oz

2-1/4"..... P/N 11-02834..... **$480.00**

3-1/8"..... P/N 11-02628..... **$530.00**

TRUTRAK GEMINI ADI

The Gemini ADI is a glass replacement for the ADI. Touch Screen. Sunlight –readable. Fits Standard 3.125" Cut-out. Velocity Vector Display. Pitch Atitude Display. Full access to all ports. Bank Angle Display. Vertical Speed Display. Track DG. Slip / Skid Indicator. Standard Rate Turn Indicator. Low Airspeed Warning

P/N 11-10451..... **$995.00**

TRUTRAK ADI PILOT II

Features: • GPS-Slaved solid-state DG • Digital Ground Track Selector • GPS Nav Mode • True Control Wheel Steering • Altitude Hold • Altitude adjust for baro change • Built-in ADI: Bank angle is instantaneous gyro data. Pitch is gyro enhanced vertical speed. Direction is an electronic DG showing track. Extreme bank angle is enunciated by flashing red arrows which indicate required stick motion to correct unusual attitude. Low airspeed warning is enunciated by flashing A-S on the display. • 12-28 Volts only • Programmer Dimensions 3.4"H x 3.4"W x 4.7"D • Standard weight including servo 6lb

P/N 11-04675..... **$3,850.00**

TRUTRAK ADI FLIGHT INSTRUMENTS

Bank angle is instantaneous gyro data. Pitch is gyro enhanced vertical speed. Direction is an electronic DG showing track. Extreme bank angle is enunciated by flashing red arrows which incidcate required stick motion to correct unusual attitude. Low airspeed warning is enunciated by flashing A-S on the display. Solid state rate gyros for pitch and roll. • Built in GPS (optional) • Backup battery (optional)• Power: 12-28 Volts ADI 2 is 2.5"H x 2.5"W x 6.75"D. ADI 3 is 3.4"H x 3.4"W x 4.6"D.

Description	Part No.	Price
TruTrak ADI 2 With GPS Option	11-05735	**$1,400.00**

TruTrak ADI 3 Without GPS 120KNT +	11-05655	**$1,050.00**

TRUTRAK ADI II 120 KNOT

Gyro / VS pitch display. Bank Angle Display. Built-in Ground Track DG. High Bank Angle Warning. Low Airspeed Warning. Specifications: 2.5" H x 2.5" W x 6.625" D

Without GPS..... P/N 11-08539..... **$1,250.00**

With GPS..... P/N 11-08540..... **$1,400.00**

TRUTRAK EFIS SG

FLIGHT DIRECTOR transitions to an airspeed mode in which airspeed is held at or above a minimum value preset to the specific aircraft. **The main thing that sets this new EFIS apart from other units is flyability** ***Beyond flyability is ease of operation*** - The use of labeled soft keys makes the unit so simple to operate that a manual is not even necessary. ***Picture quality second to none*** - This system is bold and readable (more like the painted lines in good old steam gauges). ***Sunlight readability and viewing angle beyond all others.*** - Readable in ALL lighting conditions and can be seen at the widest viewing angle of any system in comparable price range..... P/N 11-05969 .. **$2,800.00**

EFIS AP III EFIS built-in dual axis AP - AS ....P/N 11-05988 .. **$8,000.00**

EFIS AP IV EFIS built-in dual axis AP - HB....P/N 11-05991 .. **$7,250.00**

EFIS AP IV EFIS built-in dual axis AP - AS....P/N 11-05994 .. **$7,250.00**

TRUTRAK EFIS GP

12-28 Volts. EFIS GP is available in three bezel types: FM - Front Mount, DC - Diagonal Corner, AS - Avionics Stack. FM: 6" H x 7.25" W x 3.3" D. DC: 5.85" H x 6.45" W x 3.3" D. AS: 5.85" H x 7.05" W x 3.3" D. Features: Airspeed, Altimeter, Artificial Horizon: Attitude, Velocity Vector, Vertical Speed Indicator, Track DG, Current Selected Waypoint, Distance to Waypoint, HSI: GPS CDI, Slip / Skid Ball, Standard Rate Turn Indicator, Bank Angle Indicator, Adjustable Heading Bug, Altitude Bug, Round or Rectangular Airspeed and Altimeter, High Bright / Sunlight Readable LCD.....P/N 11-08463 ..**CALL FOR QUOTE**

2 Axis Autopilot Option .....P/N 11-08563 ..**CALL FOR QUOTE**

AV

TRIO AVIONICS – LONESTAR

TRUTRAK IMONITOR EMS

Offers you an easy-to-use back-up instrument, displaying essential engine data and informations about other components on your airplane directly on your iPhone, iPod Touch or iPad. You will quickly realize that every action is very intuitive and easy to perform, even when flying in rough air. This product is wireless to communicate between the EDM module and your device, so that you do not depend on a cord that may not always be in your airplane. Therefore, in addition of the EDM module to be powered up, Wi-Fi needs to be enabled and connected to the EDM wireless network before launching iMonitor. Otherwise, the software will warn you that no connection with the module is available, and will give you the possibility to enter the DEMO mode. In this case, all features remain available, but the data being displayed are fake. Please note that this is the only way to buy in-app purchases (audio and visual alerts or engine configuration) This product should be used in conjunction with a TruTrak EDM Module and a TS-83 Wi-Fi module (part number 11-09682), all made by TruTrak Flight Systems, Inc. These devices should be installed, up and running prior to launching the App required for this product (purchased from Apple iTunes for $0.99).

iMonitor EMS ..... P/N 11-09681 ..... **$970.00**
TS-88 Wi-Fi Module ..... P/N 11-09682 ..... **$150.00**

TRIO AVIONICS

EZ PILOT AUTOPILOT - A single axis, gyro stabilized roll control autopilot. It is a modern navigation system designed to accurately track a GPS flight plan or "Go To" course that is entered into a handheld or panel mount GPS receiver. Track, Course (similar to a heading bug), and Intercept modes are available to the pilot. Pilot Command Steering simplifies course changes. Full data display of all GPS input data. Fits standard 3-18" instrument cutout. Length: 3". Weight – Control Head: 6 ounces/ 169 grams Gold Standard Servo: 27 ounces/ 765 grams P/N 11-06547 **$1,795.00**

PRO PILOT AUTOPILOT - A GPS enabled autopilot that provides high-quality 2 axis navigation solutions for Experimental and LSA aircraft. It uses solid-state MEMS gyros for pitch and roll stability. Horizontal and Vertical functions may be individually enabled. Horizontal navigation provides three modes of control – Track, Course and Intercept. Vertical navigation functions offer Altitude Hold, Climb/Descent with Airspeed Limiting, and Altitude Pre-Select. Multi-color LEDs and a bright PLED display screen provide a clear picture of functions and displayed data (LCD screen available upon request). A slip-skid indicator and a turn rate display duplicate the functions of a standard turn rate coordinator. Advanced Safety Features – "G" force limiting, automatic servo disconnect on takeoff, "intelligent" servos with independent emergency disconnect authority, horizontal Track Offset Positioning, and Trio's "automatic 180 degree turn" feature (for VFR pilots encountering poor weather). Fits a standard 3-1/8" instrument cutout. Length: 6". Weight – Control Head: 12 ounces/ 340 grams Each Servo: 27 ounces/ 765 grams
P/N 11-06548 **$2,995.00**

Auto-Trim option for existing aircraft electric pitch trim system - P/N 11-06549 ..... **$225.00**
GPS Option for the Pro Pilot ..... P/N 11-08554 ..... **$500.00**
GPSV Option for the Pro Pilot AutoPilot ... P/N 11-08555 ..... **$500.00**
Pro Pilot Rack Mount ..... P/N 11-08556 .. **$3,095.00**
Fuel Management Option Software - Option for the Pro Pilot allows the pilot to view multiple fuel parameters. ..... P/N 11-08557 ..... **$199.00**

EZ-1 ALTITUDE HOLD - Single axis altitude control system. Provides pitch stabilization and accurate altitude hold using MEMS gyro and sensitive altimeter. LCD switch/display provides a graphical message display for system messages, alerts and warning advisories. Rotary encoder allows fine altitude adjustments. "G" force limiting to prevent high wing stress – alarms and disconnects when sensing high sustained G loads. Remote servo disconnect. Senses and displays pitch trim requirements. Weight – Electronic Components: 8 ounces/ 226 grams Servo: 27 ounces/ 765 grams. P/N 11-06550 **$1,795.00**

EZ-2 ALTITUDE CONTROL - Same physical configuration and features as EZ-1 but adds climb/descent capability and airspeed capture. Pitot port on the electronics module enables airspeed sensing to prevent stalling or over-speeding the aircraft. Pilot Command Steering allows climbs and descents on vertical speed or airspeed. P/N 11-06551 **$2,070.00**

EZ-3 ALTITUDE CONTROL - Same as EZ-2, but adds Altitude Pre-Select. Pilots may enter climb/descent rates and target altitude. Upon reaching the target altitude the EZ-3 will level the aircraft and automatically enter Altitude Hold mode. P/N 11-06552 **$1,795.00**

Auto-Trim option for existing aircraft electric pitch trim system - P/N 11-06549 ..... **$225.00**

All altitude control systems employ the Trio Gold Standard servo.

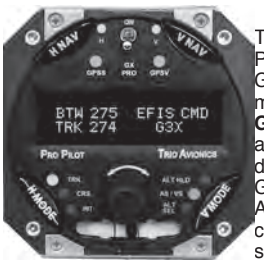
GX PRO AUTOPILOT



This pro Pilot autopilot product, the GX PRO, is designed for use with the Garmin G3X EFIS System. It is available in two models:

GX PRO Instrument Mount - It mounts in a standard 3-18" instrument cutout. When driven by a G3X EFIS, it has full GPSS and GPSV capability without the need for an ARNIC 429 data interface, thus lowering the cost substantially. Includes 2 servos and servo installation kit.
P/N 11-09714 ..... **$2,995.00**

GX PRO Stack Mount - This includes a metal sleeve that may be mounted into a radio stack, allowing the unit to be removed from the front. It has the same characteristics as the instrument mount system. Includes 2 servos and servo installation kit. P/N 11-09715 ..... **$3,095.00**

COMMANDER 2900 KLN-900 DOCKING STATION

The Commander 2900K is Lone Star Aviation's Docking Station for BENDIX/ KING/HONEYWELL KLN 900 DZUS-Mounted GPS. The portable docking station is designed to let you explore the KLN 900 features in a non-flying environment...in the comfort of your home or office. Operation is simple and fast, just slide your KLN 900 into the Commander's Tray and you are ready to go.
P/N 11-04911 ..... **$379.00**

COMMANDER GARMIN GNS-430/530

Lone Star Aviation's Docking Station for Garmin's GNS 430/530 Flight Management System. The Commander is a portable Docking Station designed to let you explore the Garmin GNS 430/530 features in a non.

Features:•Simulate your route of flight and published approaches. •Access sids and stars. •Program and store flight plans. •Simulate approaches. •Enter and store waypoints. •Reduce your learning curve. •Operating your GNS430/530 in flight will become automatic.

GNS-430 ..... P/N 11-04864 ..... **$249.00**
GNS -430 INT ..... P/N 11-04865 ..... **$259.00**

GNS-530 INT ..... P/N 11-04867 ..... **$279.00**

GARMIN COMMANDER GNS 480

The Commander 2000 GNS480 is a Docking Station designed to allow you to explore the Garmin GNS-480(CNX-80) features in a non-flying environment.

Features: * Simulate your route of flight and published approaches * Access sids and stars * Program and store flight plans * Simulate approaches * Enter and store way points * Reduce your learning curve * Operating your GNS-480(CNX-80) in flight will become automatic
P/N 11-04916 ..... **$259.00**

COMMANDER 2900 KMD 150 & 250

Lone Star Aviation's 2900 Station has been designed for the KMD 150, KMD 250 equipment so that the user can practice their GPS, Display and all of it's functions in a non flying environment. The 1 port cooling fan (LS03-02013) plugs into the rear accessory panel and provides 6-8 CFM of cooling to the KMD 150/250 receiver. The KMD connectors plug into the rear panel of the Commander Station for an easy set-up so you can get right into the training mode. P/N 11-04922 ..... **$279.00**

COMMANDER STATION FOR C-5000

Lone Star Aviation's Commander Station has been designed for the Wulfsberg C-5000 Control Head equipment so that the pilot can practice GPS, control head functionality at his or her own pace in a non flying environment. The 1 port cooling fan (LS03-02013) plugs into the rear accessory panel and provides 6-8 CFM of cooling to the C-5000 receiver.
P/N 11-04928 ..... **$379.00**

LONESTAR – TEST EQUIPMENT

COMMANDER GMA-350 DOCKING STATION

Brand New from Lone Star, Commander GMA-350 Docking station designed for one of Garmins new exciting products. Designed to show off Garmin's new 3D audio capabilities. Comes with everything you will need to run your GMA-350.

P/N 11-10595 ..... **$398.75**

COMMANDER GTN-650 DOCKING STATION

Brand New from Lone Star, Commander GTN-650 Docking station designed for one of Garmin's new exciting products. Comes with everything you will need to run your GTN-650, including a chassis mounted avionics cooling fan.P/N 11-10593..... **$348.75**

COMMANDER GTN-750 DOCKING STATION

Brand New from Lone Star, Commander GTN-750 Docking station designed for one of Garmin's new exciting products. Comes with everything you will need to run your GTN-750, including a chassis mounted avionics cooling fan.P/N 11-10594..... **$348.75**

COMMANDER 2000K

Pre-wired in the "take home" mode. Simply slide your KLN90A/B, KLN89/B, KLN35 Series, and KLX-135 Series GPS or GPS-COM, into the tray and explore your GPS receiver as if you were flying. Practice actual flight or approach at home, store flight plans, and learn all of your units functions. Update your units database via the internet using a desktop or laptop computer & save up to $300/year. Appropriate connector is shipped free via UPS Blue Label from the factory. Additional connectors, cooling fan, Argus and moving map interface available.

2000K Station..... P/N 11-18478 ..... **$240.95**
2000K 220VAC..... P/N 11-04876 ..... **$269.00**

COMMANDER 2900 TRIMBLE 2101 24VOLT

Lone Star Aviation's Docking Station for the Commander 2900 2101/CUGR GPS System is designed to allow you to explore the FreeFlight Systems 2101/CUGR features in a non-flying environment. Ideal for Guard Units, EMS, Law Enforcement, DEA, Boarder Patrol, etc. staff training. Unit does not include cable.

TRANS-CAL ATS-400 ALTITUDE DIGITIZER

The Trans-Cal Model ATS-400 is designed to test, display and simulate the output of Altitude Reporting Equipment, which conform to the ICAO Standard for SSR Pressure Altitude Transmission. In accordance with the U.S. National Standards for I.F.F. Mark X (SIF)/Air Traffic Control Radar Beacon System SIF/ ATCRBS. The ATS-400 will also display the output of altitude reporting equipment which transmit serial data in either RS232, RS422, RS485 or ARINC 429 Label 203. The ATS-400 may be used in the aircraft or on the bench making this an extremely versatile piece of test equipment.

P/N 11-09607 ..... **$1,595.00**

TRANS-CAL EET-200 ENCODER EMULATOR TESTER

The EET-200 provides the avionics technician a clean, quick and reasonably priced method of emulating an altitude encoder output by providing a known good altitude code source to aide in isolating each data bit D2 through C4. Simply unplug the altitude encoder and substitute the EET-200; rotating the knob will move the transponder through a variety of preprogrammed altitudes testing each data bit in sequence.

P/N 11-09606 ..... **$347.95**

NC 2210A NAV/COM RAMP TESTER

The NC 2210 Tester is optimized for ramp testing of navigation and communication equipment. The unit provides test signals for marker beacon, communication, localizer, glide slope, and VOR. Also included, is a wide band comm receiver to permit evaluation of comm transmitter AM fidelity. The TKM NC 2210 is a NAV-COMM Ramp Tester. The unit has improvements over the 2200, which it replaces. The improvements include the following: Higher •RF power • Precise localizer and glide slope deflection • Calibrated VOR bearings at 10 degree increments • Crystal controlled modulation frequencies • Longer battery life • Internal antenna with adjustable length • Smaller size. Specifications: •Size: 3.8 x 7.4 x 2.3" •Weight: 1.3 lbs. •Power: Internal battery with over 2 hours running time (110VAC charger included) •Warranty: 2-year from date of purchase. P/N 11-01813 ..... **$1,435.00**

MICHEL 3300 TRANSPONDER TEST SET

The 3300 is designed to test ATC transponders on the bench as well as when they are installed in aircraft. As such the 3300 contains an interrogation transmitter. The intended range of the interrogation is less than 100 ft. When used for Ramp testing the interrogation signal is comprised of pulse groups (PG) transmitted at a PRF of 2353 PG/S

P/N 11-08560 ..... **$2,095.00**

MC 60 NAV CONVERTER

The TKM MC 60 is designed to provide a display for a variety of Nav signals including ILS, LOC, Back course, LOC, GS, GPS, and MB. The VOR display includes a Left and Right bar graph with an OBS and a tracking mode with reciprocal selection. When a GPS is selected by grounding the enableline, GPS is displayed in the OBS window and VOR and LOC functions are disabled. When the GPS is not enabled the VOR/LOC selsction is made by the ILS enable line from the associated Nav receiver. Back Course selection is made by grounding the back course enable line. The digital display includes OBS, bearing, LOC, BAC, and GPS. The bar graph display contains 10 dots forLeft, Right, Up, and Down. The center dot is used to indicate valid signals for LOC, VOR, or GPS. A Glide Slope light indicates a valid Glide Slope signal. P/N 11-04594..... **$497.00**

QUICK SHOT AVIONICS REFERENCE MANUAL

Quick Shot is a compact, rugged binder type manual which shows detailed wire pin-outs for a wide variety of general aviation avionics equipment. Each page is removable and very durable. The wiring diagrams in Quick Shot Volume 1 include Apollo/UPS, Bendix, Garmin, Icom, Sandel Mid-Continent, Sigtronics, United, Telex, David Clark, PS Engineering, Narco, Val, and many more.

P/N 11-01623 ..... **$56.50**

PRO HUB

A revolutionary product that allows you to easily install and connect avionics into an existing aircraft or one you are building. Designed to accept and connect most NAV/GPS/COM, modern audio panels, intercoms, VOR indicators, moving map displays, HSI's, RMI's, ADF's, annunciators, mode control and almost any "send and receive" RS-232 formatted device. Approach's custom cables are made to connect with the Fast Stack Pro Hub and associated avionics and come with connectors installed. Virtually No Hand wiring •Lower Upgrade Costs •Single Point Grounding P/N 11-04731..... **$582.00**

ELTS

EBC ELTS

Emergency Beacon Corporations ELTs are among the most popular on the market today due to their size, weight and convenience. EBC-102A is the smallest cabin mounted ELT available. Operating the toggle switch on top of the unit allows manual activation or pre-flight testing of the EBC-102A. The EBC-502 is fully approved by the FAA and FCC under TSO-C91a . It uses a 9V battery pack and comes complete with a handhold lanyard, mounting bracket, and batteries. It is easily installed and requires no external antenna or cabling.

EBC-102A Signal only ELT ..... P/N 11-02575 ..... **$529.00**
EBC-502 Portable Cabin Mount ELT ..... P/N 11-02576 ..... **$489.00**

POINTER 3000 SERIES ELTS

The Model 3000 (AF/AP) and 3000 (AF) which have been in production for twenty years are now revised to incorporate the upgrades of RTCA DO-183 for emergency locator transmitters.The new models, designated 3000-10 (AF/AP) and 3000-11 (AF) are interchangeable with existing units in form, fit and function. The 3000-10 and 3000-11 transmitters incorporate an alkaline battery pack specifically designed to endure the short term extreme thermal variations and mechanical shock requirements of RTCA DO-183. Installed weight is 2.0 lbs. Emergency voice transmission is provided on the 3000-10 transmitter if desired. Size: 3 Size: 3 1/2"W x 7 5/8"H x 2-3/4"D.

ACK 406/121.5 MHZ E-04 ELT

The all new E-04 ELT is a direct replacement for the more than 62,000 model E-01 ELT's (by ACK) on the market today. The new E-04 fits directly into the current E-01 mounting trays and uses the same remote control panel indicator. The E-04 external antenna will utilize your current antenna mounting and wiring installations.
Undergoing certification testing, ACK is not accepting orders for the E-04 until ELT certification process is complete.
Features: * Accepts GPS position imput data from Bendix/King. Garmin, Nema 0183 GPS * New antenna is swept back 20 degrees, and features a molded plastic base. * 5 watts @ 406MHz for 24 hours, and 100 Mw @ 121.5 MHz for 48 hours. * New simple plug in audible alert indicator. * New lithium battery pack offers a 5 year battery life, and makes it substantially lighter. * Can use Ameri-king remote panel indicator

POINTER ELT 8000 SERIES

The COSPAS/SARSAT search and rescue network will discontinue monitoring the current 121.5/243.0 MHz frequencies as of Feb. 1, 2009. The 121.5/243.0 MHz frequencies will continue to be monitored on a voluntary basis by overflying aircraft and utilized by the current search and rescue organizations. After this date, the COSPAS/SARSAT will monitor only 406 MHz. The 406 MHz aircraft ELT, defined by COSPAS/SARSAT operational specifications, incorporates many new features and improvements for search and rescue.
To comply with the new requirements, Pointer, Inc is pleased to announce the Model 8000 series ELT. The transmitter design incorporates the functional and programming requirements of COSPAS/SARSAT specification CST.001, FAA RTCA DO-204 and TSO-C126. The Pointer ELT Model 8000 series transmits phase modulated aircraft identification data on the 406 MHz frequency to quickly identify an emergency . The unit also transmits 121.5 MHz frequency for airborne and ground search operations. Optional features include factory or field programming of the microprocessor as a separate module and internal GPS. The approval program is in process and have completed COSPAS/SARSAT testing. FAA testing has begun.

EBC 406-SERIES ELT'S

Encapsulated electronics and battery packs to provide for added protection against shock, moisture, and other environmental hazards. Built-in monitor that emits a loud beeping tone if the ELT is activated. Can be activated either automatically or manually. Should be installed in the cabin of the aircraft. Allows for easy removal of the ELT in case of an actual emergency - just disconnect the external antenna coax cable and attach the survival antenna. The EBC 406 AF-Series should be installed in the tail section of the aircraft for those who prefer that ELT location. In that case, a remote unit is provided for the aircraft panel so the the ELT can be controlled by the pilot. Survival antenna is used when the transmitter is removed from the aircraft. All EBC 406 ELT's have a built-in self test feature that allows the pilot to check 406 power and the antenna-coax connection. Both cabin and tail mount ELT's use an external antenna. ***Features:*** • Operating Freqs: 406.028 MHz and 121.5 MHz • Output Power on 406 MHz: 5W for 24 Hours at -20C • Output Power on 121.5 MHz: 50mW min for 50 Hours at -20C • Operating Temperature: -20C to +55C • Useful Battery Life: 5 Years or 1 Hour of Cumulative Use • Modulation 406 MHz: Biphase L (16KOG1D) • Modulation 121.5 MHz: Swept Tone 1600Hz to 300 Hz, 2-4 • Times/Second • Automatic Activation: Velocity Change of 4.5 feet per Second • Altitude: 50,000 feet • Decompression: 8000 feet to 40,000 feet • High Pressure: -15,000 feet • Humidity: 95% for 50 Hours • Shock Performance: Withstands 500G's on 6 axes • Vibration: Withstands 10 G's • Immersion: Withstands 24 hours in Salt Water • Warranty: 2 Years, Made in the USA.

Model	Description	Part No.	Price
EBC 406AP	For fixed wing aircraft. Includes transmitter, survival antenna, mounting bracket, external whip antenna with cable & battery pack. For cabin/cockpit installation.	11-05917	**$998.00**
EBC 406AF	For fixed wing aircraft. Includes transmitter, survival antenna, mounting bracket, external whip antenna with cable, remote control monitor with connector kit & battery pack. For aircraft tail installation.	11-05918	**$1,235.00**
EBC 406APH	Same as AP system but with omni-directional helicopter activation system. For helicopter use only.	11-05919	**$1,394.00**
EBC 406AFH	Same as AF system but with omni-directional helicopter activation system. For helicopter use only.	11-05920	**$1,562.00**

AMERI-KING AK-451 PERSONAL LOCATOR BEACON

ACOSPAS-SARSAT & FCC approved, 406 MHz Satellite P-ELT Personal Emergency Locator Transmitter, triple (406 Satellite /243 Military /121.5 Civilian) MHz frequencies. Having triple frequencies insures your distress message reaches both NOAA Satellite Operation and US Air Force AFSR Ground Operation, Search and Rescue Team, with 100% confidence, due to transmitting on both 243.0 Military and 121.5 Civilian bands, for immediate ground search dispatch, narrowing the searching time to the minimum. The Position accuracy of the 406 MHz satellite signal is about 110 meters at 9.5 degree Cross Track Angle (found in Satellite Qualitative Test at a COSPAS-SARSAT approved Laboratory). Features:• Applicable to all Aviation Uses such as Flying, Gliding, etc. • Harsh/ Robust/ Heavy Duty P-ELT in an enduring composite Emergency Carrying Case. • Ultra long lasting Battery Package, up to 78 hours @ -20 deg C, end of life, 10 years useful life time Lithium type, LiMnO2, 4 D-Size. P/N 11-06305..... **$465.00**

AMERI-KING AK-450 ELT

The AK-450 ELT from Ameri-King is FAA TSO-C91a approved & meets FCC rule for improved satellite detection. It features voice transmitting capability, visual "on" lights for both ELT main unit and remote panel, and uses standard Duracell batteries (included). Includes low drag aircraft antenna, portable antenna, remote control panel, wiring and coaxial cable assembly, handheld lanyard web, mounting tray and clamp. Size: 4.27"w x 2.95"h x 5.64"l. Wt: 2 lbs.,10 oz. 2 yr factory warranty **ATTENTION**: 2009, the international COSPAS-SARSAT satellite system will no longer provide satellite-based monitoring of the 121.5/243 MHz frequency. After the date of the satellite termination, in 2009, 121.5 MHz signals transmitted from ELTs operating on the lower frequency will only be detected by ground-based receivers such as local airport facilities or air traffic control facilities or by overflying
