CAN'T FIND WHAT YOU NEED? LET US HELP!

While we try to offer everything you might need for your aircraft, there are some products that you may not find listed in this catalog. Let us help! Just give our Sales Department a call on our Toll Free number and provide our Sales representative with as much information as possible on the parts you need. They will source the product for you and provide a quotation and lead time for the product as quickly as possible.

NOTICE! Many parts in this catalog are NOT FAA approved.
Unless our catalog specifically indicates a part has a PMA (Parts Manufacturers Approval), that part may not be certified or approved for aviation use. The selling of a part should not be construed as a representation that the part is certified or approved for aviation use, nor can Aircraft Spruce & Specialty Co. include instructions for use or warnings unless provided by the manufacturer or distributor. Any concerns the purchaser may have about the suitability of a part for aviation use, instructions for use or warnings, should be promptly directed to the manufacturer.

WAIVER OF LIABILITY AND INDEMNIFICATION AGREEMENT

In as much as Aircraft Spruce & Specialty Co. has no opportunity to supervise the manufacture, installation or maintenance of the parts supplied by it, nor any opportunity to participate in the design or manufacture of the various certificated and homebuilt aircraft in which its parts are utilized, the purchaser by placing this order and accepting said merchandise from Aircraft Spruce & Specialty Co. agrees that all materials purchased will be used solely at purchaser's risk and that purchaser will indemnify and hold Aircraft Spruce & Specialty Co., its owners and employees, free and harmless from all loss, liability or damage resulting from claims brought by reasons of any alleged failure or defect of any part or parts supplied by Aircraft Spruce & Specialty Co.

COMPOSITE MATERIALS (CM) – Pg. 19-42
Glass Cloth, Resins, Foams, Tools, Safety Equipment, Kevlar, Graphite

AIRCRAFT SPRUCE & SPECIALTY CO.

A COMPANY HISTORY

Bob and Flo Irwin

201 West Truslow Ave, Fullerton CA.
Home of Aircraft Spruce from 1973 to 1997

Present Home of Aircraft Spruce West
(225 Airport Circle, Corona, CA.)

Present Home of Aircraft Spruce East
(452 Dividend Drive, Peachtree City, GA)

The foundation for what is now Aircraft Spruce & Specialty Co. dates to the summer of 1956 when Flo and Bob Irwin founded Fullerton Air Parts at Fullerton Municipal Airport in Southern California. Bob, born and raised in Kansas City, MO., a pilot since the 1940's and active in the CAP and other aviation groups, knew airplanes and the parts that were needed to keep them flying. Flo, a native of Rochester, New York, had no aviation background but learned the business quickly and knew what it would take to keep customers coming back... fair prices and good service. Fullerton Air Parts grew into one of the largest retail aircraft parts suppliers in the western states during the next nine years.

In 1965, Bob and Flo Irwin sold the business and founded another one which sold only one product, aircraft grade spruce lumber for aircraft construction and restoration. Aircraft Spruce Co. quickly added more products to its small catalog and adopted the name Aircraft Spruce & Specialty Co., with a goal to offer everything pilots and aircraft builders need. As Aircraft Spruce served more customers and more and more products were added, staff grew from 2 in 1965 to over 150 today.

Jim Irwin, Bob and Flo's older son, grew up in the business, working in jobs such as cutting metal and spruce, pulling and shipping orders, and managing kit programs such as the Vari-Eze back in 1975 while still in college. Graduating from California State University at Fullerton in 1978 with a degree in business administration (marketing), Jim acquired the company and became president in 1980. Jim's wife Nanci, who graduated with an accounting degree from the University of Southern California in 1977, is vice-president and works full time managing the company's accounting and data processing departments. Jim Irwin has logged over 4000 hours as a multi-engine, instrument rated pilot since 1976 and Nanci Irwin is a licensed private pilot as well. They fly the company Cessna 425 extensively on business throughout the Southwest. Jim and Nanci Irwin have four children (3 boys, 1 girl) who are in their 20's and 30's. The three boys, Mike, Jeff, and Rob, are all members of the Aircraft Spruce management team. Mike and Jeff are pilots and fly the company's Navion Rangemaster.

Flo and Bob Irwin, along with Jim's younger brother John, moved to Lake Havasu City, Arizona in the fall of 1983 and founded ACS Products Co., which manufactures a line of products which is distributed by Aircraft Spruce. Flo Irwin passed away on June 10, 1989, but the legacy of this warm, outgoing, and talented businesswoman lives on in the businesses she founded and built to serve the aviation community. John Irwin, his wife, Frances, and Bob Irwin now manage the ACS Products Co. operation. Bob Irwin is an instrument rated pilot with more than 2000 hours logged and based his 1968 Navion Rangemaster at Lake Havasu City until May 2000 when Bob retired as a pilot, after fifty years of flying, and moved the Navion to Chino Airport for his grandchildren to fly. Prior to acquiring the Rangemaster in 1976, Bob owned a Vultee BT-13B and a 1949 Ryan Navion.

Aircraft Spruce was housed in downtown Fullerton, CA. from its founding in 1965 until late 1997. The last 24 years in Fullerton the company was operated in a historic Fullerton former citrus packing house, which we eventually outgrew. In the fall of 1997, Aircraft Spruce moved to a new, 62,000 square foot facility in Corona, California. In the Spring of 2004, Aircraft Spruce East moved to a new 56,000 Sq. Ft. facility in Peachtree City, GA from its old home in Griffin, GA. Aircraft Spruce Canada was opened in Toronto in December 2006, and moved to a new facility at Brantford Airport in Ontario in late 2008. We are proud of the tradition of our company that now dates back some 50 years, and are pleased to have had the opportunity to help aviators around the world build the plane of their dreams. Our growth, from a single room in 1965 to 120,000 square feet in three facilities that we have today, has been a direct result of the loyalty and patronage of our customers. Our goal is to continue to provide the very best in products, prices, and customer service to our friends in the years to come.

CELEBRATING 47 YEARS OF SERVICE TO AVIATION!
1965 – 2012

AIRCRAFT SPRUCE WEST **AIRCRAFT SPRUCE EAST**
CORONA, CA • (877) 4-SPRUCE **PEACHTREE CITY, GA • (877) 477-7823** *Prices Subject to Change Without Notice*

AIRCRAFT SPRUCE WEST
CORONA, CALIFORNIA

Aircraft Spruce West was located in a 27,000 split level packing house in downtown Fullerton, CA. from 1973 until 1997. Built in 1924 by the Union Pacific Railroad, the Building was known as the Elephant Packing House named after the original lease holder operating a citrus packing operation there. In 1996, Aircraft Spruce acquired a 5 acre parcel near the airport in Corona, CA. Construction for the new home of Aircraft Spruce West began in March 1997. In September of 1997, the new 62,000 sq. ft. facility was completed and operations were moved from Fullerton to Corona. The Corona facility features 10,000 sq.ft. of office space, a large, automated warehouse, separate workshops for preparation of metal and wood orders, and a huge retail store for fly-in and drive-in customers. Visitors are always welcome at Aircraft Spruce West.

Phone: (951) 372-9555

email: info@aircraftspruce.com

AIRCRAFT SPRUCE EAST
PEACHTREE CITY, GEORGIA

Aircraft Spruce East is located on Falcon Field (FCC) in Peachtree City, GA. 20 miles southwest of Atlanta. Aircraft Spruce East was formally located in a 27,000 sq.foot building in Griffin, GA which was the former home of Alexander Aeroplane Co., prior to the acquisition by Aircraft Spruce in January 1996. The new facility in Peachtree City is 56,000 sq. ft. and became the new home of Aircraft Spruce East in March of 2004. Aircraft Spruce East ships hundreds of orders each day to customers worldwide and features a fully stocked aircraft parts and pilot supply store. Be sure to visit Aircraft Spruce East any time you are in the Atlanta area.

Phone: (770) 487-2310

email: info@aircraftspruce.com

AIRCRAFT SPRUCE CANADA
BRANTFORD, ONTARIO

Aircraft Spruce Canada is located at the Brantford Municipal Airport in Brantford, Ontario, about an hour drive south from Toronto. A retail store is available to customers who fly or drive to the Brantford Airport to purchase aircraft parts, avionics, and pilot supplies. Aircraft Spruce Canada also provides same day shipping to customers throughout Canada from our 12,000 square foot facility. Aircraft builders and owners in Canada have full access to products sold by Aircraft Spruce in the United States at competitive prices and shipping rates. Shipping options include Canada Post, UPS, FedEx, DHL, Dicom, and Purolator. Make plans to visit Aircraft Spruce Canada anytime you are in the Greater Toronto Area.

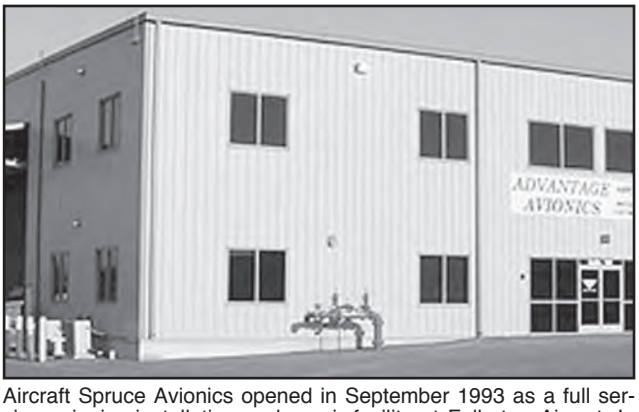
email: info@aircraftspruce.ca

ADVANTAGE AVIONICS
CHINO AIRPORT, CHINO, CA



Aircraft Spruce Avionics opened in September 1993 as a full service avionics installation and repair facility at Fullerton Airport. In 1995 Aircraft Spruce Avionics moved to Chino Airport and operated there through December 2003, at which time it merged with Advantage Avionics, also located at Chino Airport. Advantage Avionics is now the avionics installation and repair facility of Aircraft Spruce, and is an authorized factory dealer for Honeywell, Garmin, Magellan, Icom, S-Tec, Century, Chelton, and many other leading avionics manufacturers.

For information on your avionics requirements and for installation of avionics in your aircraft, call the avionics specialists at Aircraft Spruce at (800) 826-3160.

FRIENDLY, FAST, & EFFICIENT ORDER PROCESSING..... THAT'S THE AIRCRAFT SPRUCE WAY!

At Aircraft Spruce & Specialty Company, we handle every order with the same care and diligence that we did our first order back in 1965. Here is a glimpse of some of the many departments that process thousands of orders each week and ship them to our customers around the world.

Orders may be placed by mail, FAX, email, and online at www.aircraftspruce.com, or as most customers prefer, by phone with one of our friendly, helpful sales persons. Your order is quickly input into our computer system and printed immediately in the warehouse.

Our large staff of order pickers receive the orders in the warehouse, fill the order and pass it along to the shipping department for careful packaging and shipment. We carry over 60,000 different inventory items!

Warehouse inventory is carefully arranged in computer part number sequence for fast and accurate order completion. As your single source supplier, Aircraft Spruce stocks lumber, plywood, metals, composites, hardware, instruments, tools, covering supplies, avionics....and everything in between! Walk-in customers are invited to visit our stores located at our warehouses in Corona, CA and Peachtree City, GA, and Brantford Canada.

Orders for specially cut steel and aluminum tubing, sheet, bar and plate are no problem here, and are processed on a daily basis. Aircraft Spruce furnishes raw materials to large end users in huge quantities at volume discounts, as well as cut pieces as small as one foot to homebuilders. Whatever you need, we've got it!

Hand selected aircraft grade spruce lumber was our very first product, and remains one of our specialty products today. All of our spruce is certified to MIL-S-6073 and is custom milled, inspected and packaged according to customer specifications.

An average of 2000 packages per day leave the Aircraft Spruce warehouses in Corona, CA, Peachtree City, GA, and Brantford ON, Canada via UPS, Parcel Post, Federal Express, air freight or sea freight on their way to our customers throughout the United States and worldwide. Our state-of-the-art in-house computer systems with complete order tracking capability make Aircraft Spruce & Specialty Company the smart choice as your complete supplier for aviation materials and components.

AOPA & EAA

EAA CREDIT CARD DISCOUNT PROGRAM

Aircraft Spruce is a Preferred Partner of EAA. As a Preferred Partner, Aircraft Spruce provides discounts on orders placed by EAA members using the new EAA credit card.

The discount varies on every product, and there are certain products on which discounts are not permitted by the manufacturer. The maximum discount is 10%, and the price with discount applied can be provided by the Aircraft Spruce sales agent or online. When you use the EAA Platinum Visa credit card at Aircraft Spruce, our computer system recognizes the card and automatically applies applicable discounts to each product.

AOPA CREDIT CARD POINTS PROGRAM

Aircraft Spruce & Specialty has been selected to participate in AOPA is new credit card program. AOPA, working closely with Bank of America, has developed a unique WorldPoints rewards program, which rewards one point for every net retail dollar spent with the card and doubles the points when used for purchases at one of the five participating aviation retailers, along with over 4,000 FBOs and select AOPA products and services.

Cardholders will receive two points for every net retail dollar spent at Aircraft Spruce, and they also further the cause of this country's most effective general aviation organization. We're pleased to have been asked to participate in this exciting new program and we look forward much interaction with the AOPA membership.

VISIT THE AIRCRAFT SPRUCE STORES

Stop by one of our stores to view and purchase the many items listed in the Aircraft Spruce catalog. The Aircraft Spruce West store is open Monday thru Friday 8:00am to 6:00pm, and Saturday 7:00am to 3:00pm. The Will Call store at Aircraft Spruce East is open Monday thru Friday 8:00am to 6:00pm, and Saturday 8:00am to 4:00pm. The Aircraft Spruce Canada store is open Monday thru Friday 9:00am to 5:00pm, Saturday 9:00am to 3:00pm. Call either office ahead of time to place your order and we will have it ready for pick-up upon your arrival. The staff at Aircraft Spruce West, East, and Canada welcome your visits.

SPRUCE ONLINE

Aircraft Spruce Online provides customers with up to the minute account and order status utilizing their own personal computers. The Aircraft Spruce Web Site provides information on many of the products contained in this catalog, real time access to account information, open order status and filled order history available daily. Confirm order on line in real time as they are processed, and view backorder status and product availability. In addition, our partnership with UPS provides you with up to the minute shipping information including package status, scheduling, and delivery exception.

www.aircraftspruce.com

CUSTOMER COMMENT CARDS

Your satisfaction is our number one priority. This is why we include a Customer Comment Card in every order we ship. Please take a moment to complete the few questions on the card and give us any comments or suggestions you might have. Simply drop the postage paid card in the mail to return to our California headquarters. Your response helps us monitor our level of service and ensure that we are performing well for you.

SHIPPING TIME

Orders placed by 4:00 pm EST and 4:00 pm PST Monday-Friday for "off-the-shelf", in-stock items are normally shipped same day from the respective location (Peachtree City, GA or Corona, CA).

Although we stock the vast majority of the items in our catalog, we cannot assure that they will all be on hand at all times. We ship every order as quickly as possible, and in the event of a delay, be assured that we are working hard to get your order shipped promptly. Due to order volume during holidays, we cannot guarantee that all orders placed can ship on the day after the holiday closure.

Orders for spruce, tubing and other special cut products may take a few days to ship depending on order volume. Special order products ship base on the lead times of each manufacturer.

Note: Special Instructions may delay shipment of your order.

OUR BIODEGRADABLE PACKING PEANUTS

The packing "peanuts" that we use to fill product boxes for protection during shipping are 100% biodegradable, clean and hygienic, non-static, odorless, recyclable and non-polluting. They are a starch mixture made from potato or wheat and are water soluble; just dispose of them in the sink with water, hose them away, put in a garbage disposal, or flushed down a drain or toilet. They do not pollute groundwater. This material is the best we have found as an economical way to insure maximum protection of the contents of our shipping boxes.

CLOSING THE TRANSACTION

For our customer's convenience we enclose a copy of the invoice covering the order with each order shipped except those shipped to a third party.

If the order is paid by check and the check did not cover the full amount of the invoice, the amount of underpayment will be sent C.O.D. for the balance due plus C.O.D. fee of $10.50 rather than delay the order.

If you have overpaid by check, the overpayment will be credited to your account or refunded. C.O.D. shipments are considered "paid" as soon as we receive payment from UPS, and credit card orders are paid automatically at time of shipment. We look forward to your next order!

WHEN YOU RECEIVE YOUR ORDER

Upon receipt, the package should be opened promptly and material checked against the packing slip enclosed. Items out-of-stock at time of shipment will be marked as "back-ordered – to follow." These items will not be charged on the invoice enclosed with the package and will be forwarded as soon as delivery is received from our suppliers. The back-ordered items will not be charged until shipped. About 90% of the items featured in our catalog are carried in stock. Special items of hardware, bearings, unusual fittings and slow moving items are special ordered as required. However, even with the large inventory we carry, it is not uncommon to "come up short" on some items. If an item is missing and not marked "backordered", please advise us immediately by mail or call our Customer Service Dept.

BACKORDERS

Backorder are shipped from the warehouse (WEST OR EAST) that receives stock first.

Although we make every effort to ship all orders "complete," it is often necessary to backorder one or more items if we are out of stock. When the partial order is shipped and invoiced, you are not charged for the backordered item(s) until these items are shipped. You are billed only for what is shipped. A backorder is created and shipped as soon as the items arrive. The backorder is then invoiced and any overpayment from the first invoice is applied to it. If you do not wish to have any items backordered, or wish to cancel an existing backorder, just let us know. We will do so immediately if the backorder has not been shipped. We are working continuously to keep all items in stock to preclude backorders. If a backorder is necessary, we do appreciate your patience. Aircraft Spruce pays the shipping costs within the 48 contiguous United States by surface shipping on backorders when the backordered items could have been shipped via UPS inside the first package at no additional freight cost. Except when the backordered items are oversize, hazardous, contain one gallon or larger, or COD shipments. We will continue to strive to maintain stock of all our products to keep the necessity for backordering parts to a minimum.

RETURNED MERCHANDISE

Merchandise may be returned for credit or refund within 30 days from date of purchase if received in resalable condition—packed in original manufacturer's box, complete with instructions and all components (if applicable). A copy of the original order showing purchase or information stating the invoice number and date of purchase, with reason for return must accompany the article. Do not mail purchase information in letter form under separate cover. Do not return any products C.O.D. as it cannot be accepted by our warehouse. All returns must be made to Aircraft Spruce West in Corona, CA. Certain items may not be eligible for return (e.g. books, videos, DVDs software, special order items, cut materials, etc). Call first for a return authorization number and instructions to retun the product.

Call Aircraft Spruce EAST or WEST customer service for a RMA Number Before Returning any Product

DAMAGE OR SHORTAGE

Open and examine all packages promptly. Notify the Aircraft Spruce Customer Service Department of any discrepancies in the order. If the merchandise is received in damaged condition or the carrier fails to deliver the entire shipment as shown on the Bill of Lading covering motor freight delivery, make note of the damage or shortage on the Bill of Lading and ask the driver to sign it. Then call the terminal office of the carrier and institute a claim for the loss or damage. If a package delivered by UPS arrives damaged, report this to the driver immediately. UPS will issue a report on the damage to Aircraft Spruce at which time a replacement shipment can be made.

AIRCRAFT SPRUCE WILL NOT BE UNDER SOLD!

Aircraft Spruce works hard to bring you the lowest prices on every product we carry. If you have found a better price for an item at another authorized dealer, we will do everything possible to **beat** that price. Our Lowest Price Guaranteed is only applicable to identical conditions of sale. The item must be in stock at the other authorized dealer (not a floor sample, "open box" item, refurbished or demo piece). This offer applies to new purchases only.

Prices Subject to Change Without Notice

ORDERING INFORMATION

OPEN ACCOUNTS

Aircraft Spruce has long served many companies, schools and government agencies on an open account basis. Established companies can apply for an open account by submitting a credit application including all company data and at least three business references and bank information. Credit application forms available on request. Open account terms are net 15 days after invoice date.

DEALER/OEM DISCOUNTS

We have offered discounts to our regular dealers and FBO's for many years for resale purposes, and we welcome the addition of new dealers to best serve aviation consumers worldwide. Due to the very competitive and low margin nature of most of the prices shown in this catalog, all discounts are based on volume purchasing. Discounts for many items are shown below the product in the catalog. Discounts for items with discounts not shown in the catalog or for larger quantities than those listed can be quoted by mail, phone, or FAX upon request. You can be assured, as an aviation dealer, that you will receive the best possible net prices from Aircraft Spruce on all product lines that we carry. If you ever find a lower current advertised price on any product, just let us know and we'll beat it. Call for an Aircraft Spruce dealer application if interested in becoming a dealer for our covering supplies, hardware, or Microflight products.

PRODUCT INFORMATION

For all products, call our main sales lines at 877-4-SPRUCE. Our sales representatives will consult with other staff members or call the manufacturer of the product to get you the answer you need as quickly as possible. We are here to help!

SPECIAL ORDERS

Over the years, one of the services that our company offers that seems to be most appreciated by our customers is our willingness to research and provide quotations for special items. Other supply firms tend to discourage special requests due to the time and effort it takes to find these items, and request that customers order "catalog items" only. We have always taken a different approach and welcome requests for non-catalog items. Call or write and provide as much information as possible including make, model, serial number of aircraft and exact part number or product you need, plus your credit card number. Within 24 hours if at all possible, we will advise you of the price and delivery time on the item, at which time you can place your order if acceptable. Once an order is placed for a special order item, it cannot be cancelled or returned and must be paid in advance. If we cannot drop ship your special order, then freight charges from the factory to our warehouse will be added to your invoice. Our goal is to provide you with everything you need - if you do not find it in this catalog, let us know and we'll find it for you!

PRODUCT WARRANTY

In cooperation with the manufacturers we represent, Aircraft Spruce & Specialty Co. warrants for a period of one year (on most products) from the date of original purchase its products to be free from defects in material and workmanship. Aircraft Spruce & Specialty Co.'s obligation under this warranty is limited to repair or replacement of the purchased product only, and under no circumstances shall Aircraft Spruce & Specialty Co. be liable for any loss, damage, injury, cost of repair or consequential damages of any kind in connection with the sale, use or repair of any product purchased from Aircraft Spruce & Specialty Co. Products sold are subject to manufacturer's warranty policy. Defective merchandise or out of box failure of product is repaired or replaced at manufacturer's option. Avionics, electrical, instruments, or similar products that are defective are subject to manufacturer's warranty only, and will not be replaced immediately from Aircraft Spruce inventory.

WAIVER OF LIABILITY AND INDEMNIFICATION AGREEMENT

Inasmuch as Aircraft Spruce & Specialty Co. has no opportunity to supervise the manufacture, installation or maintenance of the parts supplied by it, nor any opportunity to participate in the design or manufacture of the various certificated and homebuilt aircraft in which its parts are utilized, the purchaser by placing an order and accepting said merchandise from Aircraft Spruce & Specialty Co. agrees that all materials purchased will be used solely at purchaser's risk and that purchaser will indemnify and hold Aircraft Spruce & Specialty Co., its owners and employees, free and harmless from all loss, liability or damage resulting from claims brought by any reason of any alleged failure or defect of any part or parts supplied by Aircraft Spruce & Specialty Co.

INTERNATIONAL CUSTOMERS

Aircraft Spruce is recognized as the leading source of materials for aircraft builders, owners and pilots around the world. Over the past 45 years we have developed a family of customers in every part of the globe. Our International order dept. is more than happy to assist you in placing and processing your order for international shipment. Please note the following guidelines for placing an international order.

You may place your order with any of our international representatives or directly with our USA, Corona facility. Correspondence should be sent in English or Spanish to expedite service.

Requests for quotation are processed within 72 hours, unless additional research is required on a product. All prices quoted and invoiced by Aircraft Spruce West are FOB Corona, CA and by Aircraft Spruce East are FOB, Peachtree City, GA. A quotation is processed as a proforma invoice for all overseas customers. A proforma invoice is not considered an order until funds are received to process the order. Actual freight charges may differ from a freight quote or estimate provided by a freight carrier.

First time orders are preferably received by fax or e-mail to insure correct notation of name and billing and shipping information. Please note the information on 8130 forms in the following paragraphs. If 8130 forms are required, we must be notified at the time the order is placed so that we may special order the documentation.

To economize on the shipping costs, International orders are generally shipped complete unless otherwise advised by the customer. We utilize DHL, UPS, Fed-Ex and Air Parcel Post for most international shipments. Shipments by DHL, UPS and Fed-Ex are highly recommended because of the excellent traceability of the shipments. Parcel post traces are very time consuming and unreliable. We cannot be responsible for shipments made by Parcel Post. Our international dept. also utilizes the services of many other air and sea carriers. Should the services of a freight forwarder be necessary we can work with one who is familiar with our service or with one of your choice to meet all of your shipment requirements. All freight, duty and customs charges are the responsibility of the customer.

HAZMAT SHIPMENTS – A fee of $50 is charged on all international shipments containing hazardous materials. This fee covers special packaging, documentation, and certification requirements that apply to hazmat orders shipping to customers outside the United States.

Preferred methods of payment are credit cards (American Express, Visa, Mastercard, Discover) and by bank transfer. There is an additional $20 service charge for bank transfers. When making a bank transfer please fax a copy of your transfer along with your order request to ensure accurate allocation of funds. Please note that if payment is made by bank transfer there is an approximate 7 day delay before funds are confirmed and allocated.

A complete listing of Aircraft Spruce international representatives can be found on page 8. Always remember to furnish your complete communications information on your correspondence so that we may respond to your requests promptly. We welcome your orders and look forward to being part of your team during your entire project.

CERTIFICATE OF CONFORMANCE AND FORM 8130 (EXPORT)

Aircraft Spruce provides you with its own Certificate of Conformance for our products at no charge. This is noted on every invoice. Factory certification and test reports are available on some items and Form 8130 are available on FAA approved products. A cost of $100 per product is charged to secure these forms. Please inquire at time of order if test reports are available for the items you are ordering. If available, the forms must be requested at time of order and the product must be special-ordered from the factory with the forms. These forms cannot be furnished after you receive the product. Anticipate shipping delays if Form 8130 is requested. Do not order products using catalog part number if you require form 8130, as you will receive standard parts without the form. Simply describe the part and specifically request Form 8130. Due to delays and costs involved in furnishing these forms, we strongly suggest that you check to see if the Aircraft Spruce Certificate of Conformance will be acceptable in lieu of Form 8130.

AIRCRAFT SPRUCE GIFT CARDS

Do you want to give an aircraft builder or pilot a gift from Aircraft Spruce for a birthday, holiday, or another special occasion and don't know what to get? Let them decide. Give one of our sales representatives a call at (877) 4-SPRUCE and order an Aircraft Spruce Gift Card for any dollar amount you want. The cards are valid indefinitely and can be used toward the purchase of any products sold by Aircraft Spruce. These cards are very popular and are a gift that is sure to please any aviator. Available in any denomination. If selecting USPS First Class Mail, we'll ship any gift card only order prepaid within the United States. Gift Cards are valid at all Aircraft Spruce locations.

SHIPPING INFORMATION

UNITED PARCEL SERVICE (SURFACE)

Unless otherwise specified, all shipments will be made by UPS (size and weight permitting).

Weights & Limits - Maximum weight per package for shipment to any destination served by UPS is 150 lbs. with no other weight restrictions applicable. If a shipment exceeds 80 lbs. a motor freight shipment is usually more economical. A UPS C.O.D. fee of $10.50 is charged for each C.O.D. parcel. Ground shipments larger than 1728 cubic inches and all air shipments will rate at the greater of actual or dimensional weight.

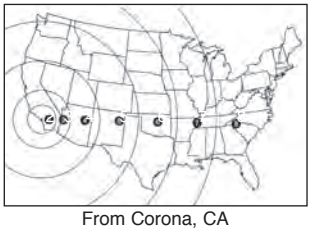
Maximum Size per Package - 130" in length and girth combined (once down and once around the parcel). Packages over 130" length & girth or over 108" long are rated at a minimum 90 lbs and assessed an additional charge of $50. Packages over 60" long are subject to an additional $8.00 handling fee. Charges subject to change by UPS and FedEx.

Territory Served - Regular UPS service (surface) available to all 48 states, parts of Hawaii and Alaska, and Canada. All points in Hawaii, Alaska, and Canada are served by UPS "Next Day Air" or "2nd Day Air". Flammable and corrosive material restricted. There is a $3.00 additional rate charge for residential shipments to rural zip codes. UPS Surface serves some points in Alaska, Hawaii, and Canadian Provinces of Alberta, British Columbia, Manitoba, Ontario, Quebec & Saskatchewan.

Insurance - Each parcel carries $100.00 insurance against loss or damage. Additional insurance coverage added as required per parcel. Maximum insurance allowable - $10,000 per package. A street address with zip code is required. C.O.D. shipments acceptable with money order or certified funds on first order. United Parcel Service will leave a parcel without signature if so authorized by the shipper. Orders of significant value will require a signature at time of delivery. If purchaser is willing to accept responsibility for delivery, ask that the instructions "OK to leave without signature" be added to the shipping label. However, these instructions will release Aircraft Spruce of liability for loss or damage.

Delivery Time - One to seven days depending on the zone and destination zipcode.

Shipment Of Hazardous Materials - Shipment of items such as dopes, primers, and many other liquid products require extensive, precise documentation and specially constructed cartons that comply with DOT regulations. Each flammable or hazardous product must be packed in a separate package and cannot be shipped with non-hazardous materials. In many cases, motor freight shipments may be more economical for multiple package orders of hazardous materials due to the fees charged by UPS. A hazardous shipping charge of $27.50 will be added to UPS Ground shipments, $37.50 will be added to Air Shipments. Some hazardous items in small volume can ship ORMD and the hazardous shipping charge will not apply. Hazardous items shipped overseas require special handling and must ship by freight service. Call for details and current pricing.



From Corona, CA

Method	Zone 2	Zone 4	Zone 6	Zone 8
UPS Red	$29.75	$69.15	$80.75	$87.60
UPS Next Day Air Saver	$26.45	$63.20	$76.65	$80.90
UPS Blue PM	$14.50	$21.35	$43.00	$48.15

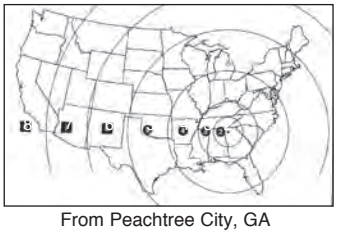
- Rates for comparison purposes only. Based on 10lb. package shipped to each listed zone.
- Rates do not include insurance, oversize, hazardous, COD etc. Subject to change without notice.



From Peachtree City, GA

UNITED PARCEL SERVICE (AIR)

Weight and Limits are the same as outlined for UPS Surface delivery to all areas served. See above for more details on shipment of flammables and other hazardous items.
Delivery Time - Three days (3rd Day Air) and two days from California (2nd Day Air) or next day (via Next Day Air).
Areas Served - Shaded states on map above, with limited service to some as noted.

FEDERAL EXPRESS

In addition to UPS, we also provide delivery via Federal Express Priority, Economy, and Ground service. Federal Express charges are competitive with UPS and the same weight, size, and hazardous limits will apply. Hazardous materials shipping by Fedex Express Air service are subject to a $100 dangerous goods charge. As an added advantage, Federal Express does offer Saturday delivery, and almost all deliveries are made before noon. Federal Express Home Delivery is a residential ground service with deliveries Tuesday through Saturday.

DHL COURIER SERVICE

Aircraft Spruce receives special shipping rates from DHL for international shipments, and these savings are passed along to our customers overseas. Specify DHL for the most economical and fastest shipment of your small package orders shipped overseas.

MOTOR FREIGHT

The charge for motor freight delivery is based on the commodity being transported, the weight of the shipment and the distance it will travel. The rate for a shipment of steel tubing, for instance, may be $5.00 Cwt. as compared to $15.00 Cwt. for foam. The steel tubing is a heavy commodity taking up a small space whereas the foam is very light but the volume is large and takes considerable space in the trailer. The rates reflect these factors in addition to the susceptibility to damage of the shipment. All truck shipments are insured for full value. It is good practice to include a phone number on the order which can be shown on the Bill of Lading. This enables the carrier personnel to advise of the arrival of the shipment and arrangements can be made for delivery. No C.O.D shipments for truck delivery. Consignee must inspect shipment on arrival and note any shortages or damage on freight bill to file claim for loss. Any claims for lost or damaged merchandise will be denied if the customer receives the shipment free and clear.

US POSTAL SERVICE

Priority Mail parcels may not exceed 70 lbs. or 108" in length and girth combined. We will utilize a Priority Mail Flat Rate Box if your items will fit in the box and the postage will cost less. Packages less than 13 ounces may ship First Class Mail. Maximum allowable insurance via Post is $400 per package. No shipments made without adequate insurance coverage. Packages destined for overseas will ship the cheaper of First Class or Priority Mail and must not exceed 44 lbs. (with exception to certain countries) or 72 inches in length and girth combined and must not be longer than 42". No hazardous materials or C.O.D. orders may be shipped by Post. Please provide adequate time for delivery. Claims for lost or damaged packages must be made within 60 days of shipment.

CANADA

What are my shipping options? **From Canada (Brantford warehouse):** Canada Post, UPS Canada, FedEx Canada, Purolator, or Can Par. Hazardous materials can only be shipped Purolator. **From the U.S. (California or Georgia warehouse):** Mail (USPS to border/delivery by Canada Post), *Customer will pay duties and taxes directly to Canada Post *For delivery duty paid via Canada Post, order must ship from Canada, UPS, FedEx. ***Customer will choose their own broker for customs clearance.**

AIRCRAFT SPRUCE KITS

COZY MARK IV

The Cozy MK IV is a high-performance, four-seat canard aircraft which is comfortable, efficient, and economical to build. It has a range of about 1,000 miles and a top speed of 200 mph. When constructed according to plans and operated within the approval C. G. range, the canard configuration makes it highly resistant to stalls or loss of position control. The MK IV features full dual control and two-axis trim. The composite construction is very strong, resistant to corrosion and fatigue, and offers better protection to the occupants than other types of construction. Aircraft Spruce acquired the Cozy design rights in January 2004 and is now the sole source for Cozy plans and info packs.

AIRCRAFT SPRUCE ADDS COZY BUILDER SUPPORT TEAM - Aircraft Spruce has recently contracted with Marc Zeitlin, and experienced builder, to provide technical builder support to Cozy builders who can contact Marc by email at marc_zeitlin@alum.mit.edu or by phone (978) 502-5251. In addition, Aircraft Spruce has contracted with Burrall Sanders of Free Flight Composites to have a Cozy aircraft on display and to answer builder questions at AirVenture, Sun N Fun, and other selected fly-ins. Burrall can be contacted by email at composite craftsman@freeflightcomposites.com or by phone at (719) 660-8650.

CHRISTAVIA MK-1/MK-2 & MK-4

Aircraft Spruce & Specialty Co. has acquired the design rights to the popular Christavia MK1, Christavia MK2, and Christavia MK4 homebuilt aircraft from the designer, Ron Mason of Elmwood Aviation in Canada. The Christavia was designed in 1982 as a mission field workhorse. Design requirements were short take-off and landing, small engine (low fuel consumption), low stall speed, good cruise speed and rate of climb, large cabin area, low maintenance and high safety factor. The Christavia is easy to fly, and the large cabin makes long flights very comfortable. Over 1000 sets of the plans have been sold for the MK1 (two place tandem), MK2 (two place side-by-side), and Christavia MK4 (four place). Aircraft Spruce has plans available for these aircraft at $225 per set as well as an information pack for $10. Complete materials packages for construction of the aircraft are available from Aircraft Spruce.

AIRCRAFT SPRUCE KITS

STARDUSTER TOO SA 300

The Starduster Too was built to fill a need for a reasonably sized, 2-place, open sport biplane. Stability is good and the light wing loading makes slow landing and short-field operation outstanding. The main structure of the aircraft is built of 4130 steel tubing and sheet stock and has no machined fitting or other complicated bends. The wings have spruce spars and the ribs are made of 1/4" plywood. Construction of the plane has been kept as simple as possible. The Lycoming 0-360 (180 hp or 200 hp) is the best size engine for the aircraft.

Plans .....P/N 01-00424 ..... **$250.00**
Info Pack .....P/N 01-00596 .....**FREE**

ACRODUSTER TOO SA 750

This two-place biplane is about 10% smaller than the Starduster Too. It is a very strong machine designed to +/-9 G. It is a high performance machine meant for minimum of 180 and up to 360 horsepower. The roll rate is spectacular with four ailerons and symmetrical wings.

Plans ..... P/N 01-00427 .....**$78.50**
Info Pack..... P/N 01-00443..... **FREE**

STARLET SA 500

A low-horsepower, single-place parasol, this is a fun machine. Easy to build and easy to fly, it is the best of both worlds. Engines in the 65 to 125 HP range work best. Excellent visibility and a pretty design keep your excitement high.

Plans .....P/N 01-00428 .....**$125.00**
Info Pack .....P/N 01-00463 ..... **FREE**

V-STAR SA 900

This is an exciting, single place biplane. Rated for +/-6 G, this machine will keep you smiling. With stall speed approaching 35 mph and horsepower in the 75 to 85 range, fun flying is not slowed at the gas pump.

Plans..... P/N 01-00429..... **$195.00**
Info Pack..... P/N 01-00471 .....**FREE**

STARDUSTER ONE SA 100

This is the single place biplane designed by Lou Stolp back in 1964 that started it all. It as a very easy aircraft to fly, powered by engines in the 125 horsepower range - A fun machine! Constructed with a 4130 steel fuselage, wood spars and ribs, and covered with fabric. The Starduster One can only classified as "classic".

Plans.....P/N 01-00425 .....**$115.00**

WITTMAN TAILWIND

Introduced at the first EAA fly-in 1953, Tailwind was designed and built by legendary designer and air racer Steve Wittman. This high performance homebuilt is constructed with a steel tubing fuselage, wood wings, and fabric covering. It offers exceptional cruising speeds and is economical to operate and maintain. Aircraft Spruce acquired the rights to the Tailwind in January 1996 and is currently the exclusive distributor for plans and materials kits. Complete information package and materials list is available.

ASK ABOUT THE MANY PRE-FABRICATED PARTS AVAILABLE FOR BABY GREAT LAKES AIRCRAFT.

The Baby Great Lakes (one place) and Buddy Great Lakes (two place) aircraft are well proven designs which are easy to construct and fly, provide classic good looks, and are aerobatic. Construction is of wood and steel tubing and plans are well presented for the first time builder. Aircraft Spruce & Specialty Company acquired all rights to these designs in May, 1996 and now offers info packs, plans, raw materials kits, and pre-fabricated kits for these fine aircraft. Contact Aircraft Spruce for information on info packs and plans.

ACROLITE

Aircraft Spruce & Specialty is the exclusive supplier of plans and materials packages for Ron Wilson's aerobatic aircraft design, the single seat Acrolite. Complete construction material packages, 16 in total, for the Acrolite can be purchased for under $10,000.

The Rotax 912 engine is used in the prototype. The Acrolite can also be built with the Rotax 532-618.

Acrolites are designed to be a quick, easy build for beginners. The biplane cruises at 110 mph, has a range of 250 miles, takes off and lands in 500 feet and has a service ceiling of 12,000 feet. Empty weight is 495 lbs. and gross is 750. The airplane stands six feet tall, is 17' long and has 133 square feet of wing area. It is designed for sportsman aerobatics.

The Acrolite was chosen as one of two finalists in the Scratchbuild Design Contest which was sponsored by Aircraft Spruce & Specialty.

AIRCRAFT KITS

WITTMAN BUTTERCUP

We all want to fly fast and land slow. Sylvester "Steve" Wittman solved the problem. Wittman built two types of airplanes: Racing machines and Travel machines. The ancestors of these two blood lines were Chief Oshkosh and Buttercup.The Buttercup was built as a utility hauler, and there was only one made - in 1937. He flew it all over the western hemisphere, from Alaska to Bermuda, Florida to Oregon. The Buttercup almost made it into production (cancelled due to WWII) coming to the interest of Fairchild as a four-place project, called the 'Big X'. One plane was built for them by "Witt" - a 4-place, 6 cylinder, 130 HP Franklin powered prototype. The real genius of the Buttercup design is Wittman's claim of 38 - 40 mph (indicated) slow-flight speed and a near 150 mph top speed, and all on 85 hp! The high speed is vintage Wittman, the low speed is due to an ingenious flap-coupled, retracting lead edge design (seen in today's airliners). Earl Luce of LuceAir, Inc. has 'revived' the Buttercup, featured in the April, 2003 issue of Sport Aviation. Kits and fabricated assemblies for the Buttercup are available from Aircraft Spruce. For info and plans contact:

PAZMANY PL-9 STORK

Pazmany PL-2

Pazmany PL-4a Part of the LSA class.

The original German Luftwaffe Fieseler F-156 Storch was an outstanding WWII airplane, designed to take off and land in extremely short distances. The Storch had a take off ground roll of 131 feet and a landing roll of 36 feet with 13 miles per hour head wind.
The Pazmany PL-9 Stork is a 3/4 replica. With the same flying and handling characteristics as the original German Aircraft. The PL-9 Stork is a professionally designed STOL aircraft. It has a well proven aircraft configuration designed for a number of functions such as fish spotting, forest fire detection, farm work, missionary work etc. It features a welded chrome alloy steel tube fuselage and aluminum sheet metal/fabric covered wings and empenage. The PL-9 Stork has a cruise speed of 104mph with a standard Lyc.O-320/150 hp engine. Aircraft Spruce is a major supplier of materials for the PL-9 Stork.

SONEX

Unique in design, the Sonex is a basic and economical all metal two-place monoplane. Both taildragger and tri-gear versions are available. The Sonex is 17.5 ft. in length and has a 22 ft. wing span. It features easily removable wings for transport and storage. Designed to meet the needs of both European and domestic aviators, it can incorporate various lightweight contemporary engines of 80-120hp (under 200 lbs. firewall forward). Suggested engines include the 2180 VW and 80-120hp Jabiru engines. Outstanding performance is achieved through its clean aerodynamic shape and simple, lightweight construction.

LONG-EZ

The Long-EZ designed by Burt Rutan, is a homebuilt aircraft derived from the VariEze. Changes from the VariEze include a larger main wing with modified Eppler 1230 airfoil and less sweep, larger strakes containing more fuel and baggage storage, slightly wider cabin, and the ability to use a Lycoming 108 hp engine with no nose ballast. The aircraft is designed for fuel-efficient long-range flight and can fly for over ten hours and up to 1,600 miles (2,500 kilometers) on 52 gallons (200 liters) of fuel. The pilot sits in a semi-reclined seat and controls the Long-EZ by means of a side-stick controller situated on the right-hand console. In addition to having an airbrake on the underside, the twin tail's wing-tip rudders can be deflected outwards to act as auxiliary airbrakes. The aircraft will not stall in the manner of a conventional aircraft since, if the Long-EZ reaches too low a speed, the front (canard) wing will stall and lower the aircraft nose until speed is regained.

Kit lists and kit components are available upon request.
Please call or visit our website for more information.

AIRCRAFT KITS

EVANS VP-1 VOLKSPLANE

Aircraft Spruce & Specialty is the exclusive distributor for VP-1 materials kits. The Volksplane was designed and prototyped by Bud Evans in 1968. The aircraft is inexpensive, easy to build, and fun to fly. The fuselage is all wood, with three bulkheads, four longerons, flat plywood and some vertical stiffners. Wings are wood frames covered with fabric. The only parts requiring welding are the control stick, strut ends and stabilizer horn. The only sheetmetal work is in the elevator trim tab. Over 1000 of these planes are flying. The aircraft is ideally suited for Volkswagen engines in the 1500 to 1834 cc range. Plans for the VP-1 are $59.00 and are available from Aircraft Spruce, P/N 13-11560. Aircraft Spruce can supply complete materials kits from stock. Free kit list on request.
Note: Landing gear is NCNR, may not be cancelled or returned. Lead times are always 6-8 weeks.
For further information on the Evans VP-1 contact:

Evans Aircraft
Box 744, La Jolla, CA 92037.

ONE DESIGN

Aircraft Spruce & Specialty Company offers a complete set of plans for the single seat aerobatic aircraft known as the One Design. Created by Dan Rihn as an economical answer for pilots wishing to fly Basic through Advanced aerobatics, the One Design features quick, easy construction and excellent performance. Wings for the One Design are all wood, the fuselage is steel truss, covered with aluminum sheet from the firewall to the rear of the cockpit. The turtle deck is also aluminum and the lower half of the aft fuselage is fabric covered. The tail is fabric covered. A one piece aluminum spring gear is used for the main wheels and a steerable tailwheel is used. Power for the One Design is obtained from a 0-360 and modified with an inverted oil system, high compression cylinders and fuel injection. Stressed for +/- 10 Gs, the One Design has a max. level speed of 184 mph, and cruises with a 75% power setting at 160 mph.

POBER (CORBEN) JUNIOR ACE TWO-PLACE

This is the famous aircraft that launched an industry as well as the Experimental Aircraft Association when plans for it were published in Popular Mechanics in the early 50's. It is lightweight, easy to build, fun to fly and requires minimal maintenance. It has been modified from the original Corben Baby Ace so that it can utilize aircraft engines. The fuselage has also been widened, the horizontal stabilizer was modified for easier construction and modern aircraft wheels and brakes are now called for. With nearly a 34' wingspan and Clark Y airfoil, the Pober Junior Ace, designed by EAA founding president Paul Poberezny, is docile in stall and landing patterns. Airframe is 4130 steel tubing, wings are all wood and the recommended powerplant is a Continental C-85. Empty weight of the Junior Ace is 750 pounds and gross capacity is 1,320 pounds. Free brochure available from **Acro Sport. Plans can be ordered from Acro Sport, Inc., Box 462, Hales Corners, WI 53130.** Order your Junior Ace materials kits form Aircraft Spruce, the approved materials supplier. Free kit list.

NESMITH COUGAR - TWO-PLACE

The Cougar, designed by Bob Nesmith dates back to the mid fifties. It shows an obvious influence by Steve Wittman's Tailwind, featuring wide short wings (20' 6") and a one-piece steel tube landing gear. The design was modified by Leonard Eaves for an EAA design contest in 1963, principally for the purpose of including folding wings. The aircraft can be towed to and from the airport on its own landing gear. With a redline speed of 195 mph, the Cougar maintains a brisk cruise of 120 to 165 mph, depending on choice of engine which can range form 65 hp to 125 hp. Landing approach is done at 80 mph and touchdown is around 70. The Cougar is an outstanding cross country machine that utilizes traditional steel tube fuselage, Sitka wings and fabric covering. Hundreds of copies of this versatile design have been completed. Cougar info packs are available for $10.50 and plans for $125.00 from **Acro Sport, Inc., 462, Hales Corners, WI 53130.**

VOLMER VJ-22 AMPHIBIAN

The Volmer VJ-22 "Sportsman" is a two-place, side by side, closed cabin, highwing monoplane, amphibious flying boat. The original Sportsman was completed December 1958. The rigid, corrosion proof hull is made of 1/16 inch and 3/32 inch aircraft mahogany plywood with 1/4 inch plywood at the step for maximum strength and covered with fiberglass for added protection. Numerous testing from calm water to five foot swells in the open sea have proven the design to be both extremely airworthy and seaworthy. Wings are wood spar and ribs, fabric covered. It takes off from water at sea level in about 20 seconds. The VJ-22 is poweed by a Continental C-85, starter and gen. It has a cruising speed 85 mph and stalls at 45 mph

AIRCRAFT KITS

ACRO SPORT

Designed by Paul Poberezny as a successor to the EAA Biplane, the Acro Sport offers performance and excellent aerobatic capability in the Sportsman and intermediate categories. Purposely uncomplicated and straight forward, the Acro Sport design has been chosen by hundreds of schools for project Schoolflight programs. It has a wide landing gear which provides superb ground handling and easy landing qualities. Builders can choose powerplants ranging from 85 hp to 200 hp. Features steel tube fuselage, spruce wing and overall fabric covering which makes the project an easy one for first time builders with average skills. Maximum speed for this diminutive biplane is 180 mph, it cruises at 130 and stalls at 50. It has a rate of climb of 3,500 ft/min and a range of 350 miles. Info packs are $10.50 and complete plans are $125.00.

Order from: Acro Sport Inc., Box 462, Hales Corners, WI 53130.
Free kit list on request.**Tech support for Acro Sport: Steve Nanweiler, 4819 Farmstead Ct., Wichita, KS 67220, (316) 744-0234**
Note: Landing gear is NCNR, may not be cancelled or returned. Lead times are always 6-8 weeks.

Landing Gear	**$1,480.00**		

Note: All additional items such as tie rods, instruments, plumbing, avionics, etc. can be found in this catalog.

POBER PIXIE - SINGLE SEAT

Few light airplanes offer builders the simplicity and payoff in fun flying that comes with the Pixie. Another superb design by founding president of the Experimental Aircraft Association, Paul Poberezny. Similar in many respects to the Heath Parasol, the Pixie is a modernization of the helmet and goggle days of the 1930's. The large wing and full span ailerons make for easy flying. With minimal taildragger experience, the Pixie is a breeze to handle on the ground. Landings are gentle affairs, visibility in cruise is outstanding and using it with skis adds another dimension of fun. The fuselage is 4130 steel tube, wings are Sitka spruce, covering is with Stits Poly-fiber. This is a beginner's project for construction, with performance that will satisfy any level of proficiency ...up to ATP! Plans are highly detailed and the cost level is low. Can be powered with a VW conversion or Continental A-65. It cruises at 83 mph, stalls at 30, and climbs at 500 fpm. The Pixie has a no-reserve range of 290 miles with and empty weight of 543 pounds, gross is 900.
An info pack is $10.50, plans are $1255.00 and both can be ordered from **Acro Sport, Inc., Box 462, Hales Corners, WI 53130. Order your Pober Pixie materials kits form the approved supplier, Aircraft Spruce. Free kit list on request.**

ACRO SPORT II

This versatile biplane offers the outstanding opportunity to experience open cockpit flying with a friend. Excellent aerobatic trainer with responsive controls and docile straight and level flight characteristics. Powerplants can range from 108 hp to 200 hp. Cruise at 123 mph (180 hp), stall at 53 and max out at 152. The wide gear, large wheels and outstanding roll rate make the Acro Sport a dream on the ground, nimble in the air and a cinch for smooth landings. Designed by EAA founding president Paul Poberezny, the Acro II will accommodate pilots up to 6' 6" and 240 pounds. As with all Acro Sport projects, the fuselage is welded steel tube, wings are spruce and Stits Poly-fiber is used for covering. Information packages are available for $10.50 and full sets of plans run $125.00 from Acro Sport, Inc., Box 462, Hales Corners, WI 53130. **Free kit list on request.Tech support for Acro Sport: Steve Nanweiler, 4819 Farmstead Ct., Wichita, KS 67220, (316) 744-0234**

Note: Landing gear is NCNR, may not be cancelled or returned. Lead times are always 6-8 weeks.

ACRO SPORT II KITS

Metal Kit	**$4,043.98**	Clevis & Cotter Pin Kit	**$4.40**
Complete Spruce Kit	**$1,227.75**	Wood & Foam Kit	**$2,105.77**
Spar Kit	**$711.00**	Rod End Kit	**$1,120.20**
Bolt Kit	**$68.61**	Misc. Hardware Kit	**$151.70**
Nut & Nutplate Kit	**$78.22**	Miscellaneous Kit	**$1,493.00**
Washer & Rivet Kit	**$20.01**	Landing Gear	**$1,687.00**

Note: Additional items such as tie rods,plumbing,instruments,avionics, etc. can be found throughout this catalog.

POBER SUPER ACE - SINGLE SEAT

One of the many designs to come from the drawing board of EAA's founding President, Paul H. Poberezny, the Super Ace, is an ideal project for first time builders. It offers the excitement of open cockpit flying and excellent performance. With options for 85 hp to 150 hp, the Super Ace can meet a wide range of desires. The fuselage is a traditional 4130 steel tube frame that's covered with Stits Poly-fiber. The two-piece wing is made of Sitka spruce spars, ribs formed with 1/2" x 1/2" spruce caps and covering is again Stits Poly-fiber. Wing span is 27'-3 1/2", length is 18'5" and empty weight is 685 pounds with a useful load factor of 385 pounds. Using a C-85 on the prototype, cruise speed is 90 mph. Info packs on the Pober Super Ace are $8.00, plans are $125.00 and can be ordered through **Acro Sport, Inc., Box 462, Hales Corners, WI 53130. Request a free brochure on the Super Ace from Acro Sport.** Order your Pober Super Ace materials kits form Aircraft Spruce, the approved materials supplier. Free kit list on request.

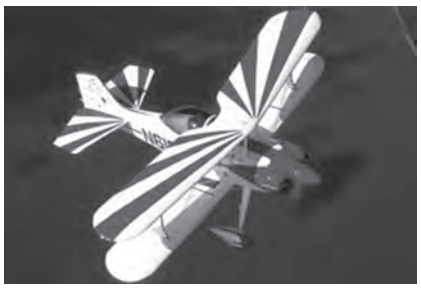
MEYER'S LITTLE TOOT



Designed by George Meyer, the Little Toot was first flown in 1957 and in the same year took the top award from mechanic Illustrated for "Outstanding Achievement in a Homebuilt Aircraft" at the 1957 EAA convention in Milwaukee. "Little Toot" also won the Paul H. Poberezny Award two years in a row. Year 1999 and 2000. Today the aircraft is still popular in appearance and functionality. Little Toot is a Single Seat, Sports Biplane. The fuselage is an all-metal structure with metal-covered steel tube construction from rear of cockpit forward, and metal monocoque rear of tubular fuselage cockpit forward section. Our Plans also provide you with an alternate Tube and Fabric fuselage construction. It features all wood wings, two 1" thick spar structure with fabric covering. Fabric covered all metal full-length ailerons on lower wings only. No Flaps. Little Tot has super strong structure stressed to 10- and 10+ G's. Power Plant options include 4-cylinder engines of up to 200 hp and six cylinders up to IO-540 250 horse power.

AIRCRAFT KITS

AQUAJET-X

The new AQUAJET X, designed by Don James, and inspired by forthcoming warbirds F22 Raptor and X35 Joint Strike Fighter, provides the next level of flying excitement and realism between the AquaJet and a real airplane.

To provide vectored thrust via rudder pedals while creating the jet engine sound you can add an electric leaf blower (electric leaf blower is not included with the kit). Also there is a more sophisticated suspension system. Thus, the Aquajet X can climb at 30 deg., dive at 15 deg., bank, turn and spin up to three revolutions under full control of the pilot. A throttle actuates the lift cylinder - controlling takeoff, climb and descent so the stick can control pitch and landing flare.*Note: The Aqua Jet kit list includes all of the parts we can provide. Other items are required to build the Aqua Jet and many of them can be sourced at hardware stores and building centers.

KR-1 AND KR-2

The KR-1 (single place) and KR-2 (two place) were designed in the early 1970's by the late Ken Rand. These popular aircraft combine composite and wood construction to produce fast, efficient aircraft that remain good sellers year after year.

SKYBOLT

The Skybolt is a 2 place fully aerobatic biplane which is also an excellent cross country aircraft. It is larger and easier to handle than smaller biplanes, and construction can be completed with hand tools by first time builders. Aircraft Spruce has provided materials for many Skybolt builders around the world for over 20 years.

DAISY MAE

Plans for Daisy Mae consist of 22 pages that are sized 18 by 24 with full size rib and former drawings and a hardware sheet that shows what parts you will need to fabricate while building the airplane. Each plan has a serial number and carries a copyright. Each page is dimensioned so that you will know the exact size of everything you need to build and has many 3 dimensional drawings and exploded views for ease of understanding. In addition, every plans purchase includes a CD loaded with over 280 photos taken during the construction process. You know what they say: A picture is worth a thousand words and these will make it perfectly clear how each part was fabricated. The CD is mailed directly from the plans owner following registration of the plans.

Specifications: Wing Span - 23', Empty Wt. - 780 lbs., Wing Area - 173', Normal Flying Wt. - 1100 lb., Fuselage Length - 18.5 ', Gross Wt. - 1300 lb., Fuselage Height - 7', Stall Speed - 40 Mph.

BREEZY

Designed by Carl Unger the Breezy was first introduced in 1965, and hailed as one of the most distinctive and unusual homebuilt designs to ever attend an EAA Fly-in. Though there have been a lot other designs, particularly homebuilts, that embody the open cockpit which trademarks a Breezy, nothing can surpass it for the view and fresh air feeling. The original Breezy was designed and built to accept a set of PA-12 wings. For that reason, there are no wing drawings with the plans. It is possible to substitute PA-14, PA-18, or J-3,4, or 5 wings. It's also possible to order wing kits that replicate a J-3 wing. Power for the prototype, which now hangs in the EAA Aviation Museum in Oshkosh, WI, is a Continental C-90. The Breezy will carry a pilot and two passengers. Contact Aircraft Spruce for FREE Kit List.

AIRCRAFT KITS

BARRACUDA

The Barracuda, made entirely of spruce and plywood, is a fast, high performance, side by side two-place with retractable, tricycle gear. Rated for limited acrobatics, it has a 200 MPH cruise speed and 2,100 FPM rate of climb with a Lycoming 0540 Engine. Designed by RAF pilot, Geoff Siers, to fly like a fighter, power may vary from 200 to 300 horsepower. A stall speed of 62 makes landing easy. The comfortable 40 inch wide cockpit, with the sound deadening properties of wood, makes it a wonderful cross-country tourer. The structure is elegant and simple, like a model airplane, with no complex jigging. The Barrcuda won the "most outstanding new design" at Oshkosh. Aircraft Spruce & Specialty Co. is the distributor for materials kits and component parts. For further information and plans, contact

PIETENPOL AIRCAMPER

Pietenpol Aircamper is low in cost, durable and most of all, FUN!! Probably the biggest reason they are inexpensive to build is that almost no aircraft rated-materials are required by the design. They are durable because the designer B.H. Pietenpol went out of his way to make every part of the ship stronger than necessary.

Specifications: Wing Span 28' 2"ft., Length 17 ft. 8 in., Height Overall 6 ft. 6 in., Empty Weight 625 lb., Engine Ford A, 65-85 Cont.,Subaru,Jabaru, other, Useful Load 456 lb.(Psngr,Gas,Water Baggage), Take-Off Speed 60-75 mph, High Speed 90 mph, Landing Speed 35 mph, Fuel Capacity 10-18 gal., Take-off Run 150 ft., Landing Run 250 ft., Total Weight of Airplane with Water 625 lbs, Gross Load 1080 lbs

BAKENG DEUCE

The Bakeng Deuce is a two place parasol that is great for plain every day or weekend flying. It is of a basic aircraft design utilizing a steel tube fuselage. The structure is faired with plywood and aluminum formers which support spruce stingers. Wings are of basic wooden construction with solid spruce spars. The Deuce is a very easy aircraft to build with an excellent set of plans. It has a max. speed of 140 mph, cruises at 110-120 mph with a stall speed of 35-40 mph.

Spruce Spar Kit ..... P/N 02-06800.....**$496.00**

FLY BABY

This plane is a structurally simple and easy-to-fly airplane designed to the requirements of the Experimental aircraft Association for home construction and storage in a space 7' x 8' x 20', which is equivalent to the standard home garage. Great emphasis has been placed upon safe flight characteristics and good low speed performance for takeoff and landing at some sacrifice of high speed. The structure has been designed for standard airplane engines from 65 to 85 horsepower and the aerodynamic features are of sizes and proportions suited to obtaining the best all-around performance in this power range. Because of this, there is not enough advantage to be gained from using engines of significantly higher power to offset the cost and weight penalties. Increasing the power to increase the aerobatic capability is not recommended. FLY BABY will do simple recreational aerobatics very well but is not intended for rough air show or competition maneuvers.

ZENITH STOL CH-750

The two-seat all-metal STOL CH 750 has been developed as an "off-airport" short take-off and landing kit aircraft to fulfill the demanding requirements of both sport pilots and first-time builders. Designer Chris Heintz has combined the capabilities and advantages of a bush-plane with the advantages of a modern design, such as tricycle gear configuration and all-metal aluminum alloy construction available in an advanced CNC-produced kit featuring match-hole technology. The light sport utility aircraft craft features fixed leading-edge slats for high lift, full-span flaperons (both ailerons and flaps), an all-flying rudder, and durable all-metal construction.

With form following function, the popular STOL CH 750 design can be built from complete kits, component "buy-as-you-build" (section) kits, or it can be built from plans-only (blueprints) with common aircraft materials and tools (available from Aircraft Spruce).

COMPOSITE MATERIALS

INTRODUCTION

The use of composite materials in home built aircraft construction got its start back in 1970 when Ken Rand introduced his KR-1 and KR-2 kits. At the same time, a young designer named Burt Rutan was completing the design of his VariViggen which was awarded the Stan Dzik trophy for design contribution at Oshkosh in 1972. Although this aircraft featured some composite construction materials, it was fairly labor intensive to build and interest was modest. Taking the canard design concept a step further and simplifying construction through the use of the moldless composite technique, Burt educated thousands of builders and future designers through his plans, construction manuals, and many seminars and convinced aircraft enthusiasts worldwide that composites were indeed the future for aviation construction. Rutan Aircraft Factory followed the tremendous success of the VariEze kit program with plans for new designs such as the Long-EZ, Defiant, and Solitaire. At the same time, SCALED, Burt's new company specializing in design and prototype construction, was busy building proof-of concept aircraft such as the AD-1, Grizzly, and Beech Starship. Burt continues to operate SCALED today and remains active in designing and building the aircraft of tomorrow. We hope he will someday return to the homebuilt aircraft market, and arena that allowed him endless freedom to pursue aircraft design innovation.

During the 1980's many new designers entered the homebuilt aircraft market including Nat Puffer who introduced the popular Cozy, a side-by-side version of the Long-EZ. Aircraft Spruce & Specialty Co. became the distributor of Cozy kits as it had been for the Rutan designs since 1976. Hundreds of kits were shipped worldwide, and Aircraft Spruce grew as quickly as the composite movement. At the same time, Aircraft Spruce began supplying kits and materials to designers marketing their own new designs using the new "fast-build" pre-fabricated kit concept. This type of kit program was pioneered by Tom Jewett and Gene Sheehan of Quickie Aircraft and Tom Hamilton of Glasair fame. Many new designs followed, including Lance Niebauer's Lancair, Ken Wheeler's Express, the Cirrus and White Lightning. Aircraft Spruce has been a supplier of materials for all of these kit programs, and looks forward to working with the designers of new composite aircraft on their kit programs in the years to come. The design sophistication and ease of construction that are offered in composite aircraft kits today have provided a way for many aviation enthusiasts to build and fly higher performance aircraft at affordable prices. What an exciting time to be involved in sport aviation!

ADVANCED COMPOSITE FABRICS

Advanced composite fabrics are those materials which have been used for a number of years in aerospace applications, replacing standard fiberglass fabrics. Today's materials - Kevlar, graphite, S glass and ceramics - are now making the transition from aerospace to homebuilt aircraft. Kevlar is an organic fiber which is yellow in color and soft to touch. It is extremely strong and tough and about the lightest structural fabric on the market today. Kevlar is highly resistant to impact but it is rather difficult to work with for hand layup applications and its compressive strength is considered poor. Graphite fibers are created by extreme stretching and heating of rayon fibers to change their molecular structure. Graphite has very low density (weight/unit volume), is very stiff (high modulus) and very strong (high tensile). S glass uses a different chemical formulation from standard E glass fabrics, and is stronger, tougher and stiffer than E glass. One ply of S glass can replace several plies of E glass, which can result in a stronger and considerably lighter aircraft component. Ceramic fabrics are the latest innovation in advanced composites. These fabrics produce laminates approaching the qualities of S glass plus they can withstand temperatures of almost 3000° F. Ceramic cloth can produce a very lightweight and effective firewall laminate, although at this time the cost is high. These advanced composite materials are currently being used in the production of such items as aerospace components, high-performance boats and race cars, and many revolutionary homebuilt aircraft such as the Long-EZ, Solitaire, Sea Hawk and Q200. The performance of future homebuilt aircraft will most certainly be incredible with the availability of these innovative new composite materials.

	Best ←				→ Worst
Cost	E Glass	S Glass	Kevlar	Graphite	Ceramic
Weight (Density)	Kevlar	Graphite	S Glass	E Glass	Ceramic
Stiffness	Graphite	Kevlar	S Glass	Ceramic	E Glass
Heat	Ceramic	S Glass	E Glass	Kevlar	Graphite
Toughness	Kevlar	S Glass	E Glass	Ceramic	Graphite
Impact Resistance	Kevlar	S Glass	E Glass	Ceramic	Graphite

WHICH ONE DO YOU CHOOSE?

Often the choice of the materials to use for a laminate is difficult because of the required properties. One must consider the advantages of one material over another and its anticipated performance. S glass is about 30% stronger and 15% stiffer than E glass. It has 20-25% of the stiffness of graphite and is as strong, but it is also 30% heavier. S glass though, has only half the strength and stiffness of Kevlar and twice the weight. Kevlar on the other hand, is 40% stronger and 25% lighter than graphite but has only half the stiffness of graphite. Sometimes, blending different advanced composite fabrics in a laminate can achieve the proper balance of stiffness, strength and weight. Use the following six parameters listed here, from a best to a worst case, to help you decide which advanced composite fabric(s) is best for your application.

HELPFUL HINTS AND PRECAUTIONS

It is important to have the entire work area including tables, foam, tools and working materials thoroughly warm before commencing. This may take 3-4 hours. An electric hair dryer may be used to warm local areas, being careful not to overheat the part or epoxy. When, due to cool temperatures, a part is slow to wet out, a few quick passes with a hair dryer will greatly speed the layup time. Do not use a hair dryer to heat a cup of epoxy. This can give local hot spots and ruin pot life.

The epoxy system components should be stored at room temperature. Never keep resin or hardeners in a cold place, even for long-term storage. If the resin appears to crystallize and settle out it should be returned to its normal state as soon as possible, even if prompt usage is not anticipated. Placing the container of resin in hot (160-190°F.) water for several hours will usually decrystallize it and return it to a clear state. Mild agitation will accelerate the process. Leaving the resin hot for 3-5 hours after it clears will reduce its susceptibility to recrystallize. Securely close containers after use.

Never attempt any layup below 70°F. since the higher viscosity of the resin will make it more difficult to wet out the cloth. Ideal working temperature is 85°F. Keep epoxy at 75° to 85°F. Never work outside in sunlight. It's acceptable to work in a shop with radiant heaters, as long as:

1.) The heat is diffused and the heat source does not become much hottr than the ambient.
2.) The heat is not provided by a source that generates particulates or aerosol hydrocarbons.

Never make a glass layup over a core that is not straight and smooth. The glass panel cannot take the loads if it has bumps or depressions in excess of the allowable values. A wrinkle, depression or bump in a layup which is greater than 1/16" high or low and which is more than 20% of the chord length or 20% of the spar chord is not acceptable and requires repair. A depression can usually be repaired by filling with flox to level and laying over the entire depression the amount of glass that is underneath, lapping outside the depression a distance equal to one inch per ply. Care should be taken not to lay up a depression or bump in the thick main spar caps. The transition of the spar caps into the wing fittings must be smooth and without joggles. These precautions apply only to the flying surfaces. The fuselage and fuel tanks can have relatively large depressions or bumps without affecting structural safety. Care should be taken in the finishing process not to sand through more than one ply on the structure.

Joining foam blocks - (1) Paint a coat of epoxy (no micro) on the joining surfaces. (2) Trowel a wedge of dry micro on the center of one surface. (3) Squeeze the joining surfaces together, wiggling them back and forth to obtain a thin micro joint less than 1/16" thick. It is desirable to have the micro about 3/8" low in the joint (not squeezed out). The low joint is filled with micro before glass is laid over the joint allowing a wet bond between the micro and the glass. If some does squeeze out, wipe the joint low with a mixing stick. Do not try to fill large voids with micro, as there is a possibility of exotherm damage. For a void larger than about 0.1", fill with a sliver of foam with micro on each side.

- A paper cutter is excellent for measuring and cutting the many little squares of glass cloth.
- Epoxy should be removed from metal tools or parts with acetone, MEK or soap and water before it cures.
- Micro slurry should not be applied to glass surfaces being bonded. This weakens the joint.
- Do not use Bondo on styrofoam, It has a polyester base which will dissolve the foam. Bondo will not attack urethane or PVC.

Precaution - Be sure layups are not dry, with air present (small flecks of white). Inspect thoroughly before leaving a wet layup. A cured layup that is too dry must be rejected.

Make sure that ample micro slurry is applied over the foam, particularly the urethane. Inadequate slurry allows air to remain under the first ply, decreasing laminate peel strength and surface durability.

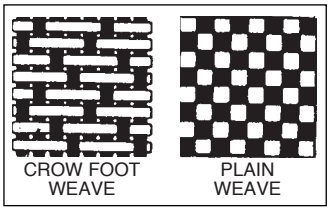
Hot wire cutting - A good method to use for judging wire temperatures is the appearance of the cut foam surface. A cratered or rutted surface indicates the wire is too hot. A very light "hair" of plastic strands on the surface is just right. Always adjust the temperature so that the wire will cut one inch in 4 to 6 seconds with light pressure.

Exotherm foam damage - Care must be taken to avoid heavy buildups of epoxy/micro down inside a joint that is insulated by foam, such as the assembly of the wing cores. The gap to be filled by micro when assembling any foam cores should not be thicker than 1/16". In filling a gap greater than 0.1", excessive weight is added and, more importantly, the large mass of epoxy/micro insulated by the foam can exotherm. Heat resulting from the exotherm can be as high as 450°F., which will melt away the foam locally and destroy the joint. White is the recommended color for composite aircraft since it absorbs very little of the sun's heat (10%) while a black surface will heat up tremendously (95% absorption). Trim colors in noncritical areas are acceptable. Any good quality automotive enamel, lacquer, acrylic or polyurethane is acceptable. A primer-surfacer with an ultra-violet radiation barrier is recommended as an undercoating.

Caution: Do not ever wipe paint thinners on any part of the structure. Minute pin holes in the epoxy/glass skin can allow the thinners to penetrate down to the styrofoam,which dissolves in thinners.

QUALITY CONTROL

One of the unique features of the glass-foam-glass composite construction technique is the ability to visually inspect the structure from the outside. The transparency of the glass/epoxy material makes it possible to see all the way through the skins and even through the spar caps. Defects in the layup take four basic forms: (1) resin lean areas, (2) delaminations, (3) wrinkles or bumps in the fibers and (4) damage due to sanding structure away in finishing. Resin lean areas are white in appearance due to incomplete wetting of the glass cloth with epoxy during layup. The presence of minor white (lean) areas up to about 2 inches in diameter is not cause for rejection of the piece. Delaminations in a new layup may be due to small air bubbles trapped between plies during the layup. Small delaminations or bubbles up to 2" diameter may be filled by drilling a small hole into the bubble and filling the void with epoxy. Major wrinkles or bumps along more than 2" of chord are cause for rejection in the wings, canard and winglet on the VE, particularity on the top. In most cases the rejected part can be repaired by following the basic rule: Remove the damaged area and fair back the area at a slope of at least one inch per ply with a sanding block in all directions. Count the number of plies removed while sanding and replace with same, plus one more ply of BID over the entire patch.



WEAVE PATTERNS

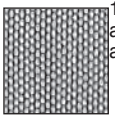
The weave pattern describes the manner in which the warp yarns and the filling yarns are interlaced in the fabric. Plain Weave consists of one warp end woven over and under one filling pick. Plain weave is generally characterized by fabric stability with minimum pliability except at low fabric counts.

Crowfoot Weaves are constructed with one warp end weaving over three and under one filling pick. It is characterized as being more pliable than either plain or basket weaves, having conformability to complex or compound curved surfaces and making possible the weaving of higher counts than plain or basket weaves.

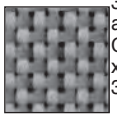
COMPOSITE MATERIALS

STANDARD E-GLASS FIBERGLASS CLOTH

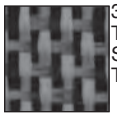
Fiberglass cloth is exactly what the name says - glass. Fine fibers are spun from molten glass marbles, gathered into yarn and woven into a strong, supple glass fabric. It can be folded, rolled or draped, like any other loosely woven fabric - but it can be chemically transformed into solid sheets of tremendous strength. All the fiberglass fabrics listed below are volan treated for maximum strength and resistance to moisture and abrasion. They feature a weave that is tight enough for high strength, yet open enough for thorough wetting by resins.



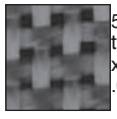
1.45 oz./sq. yd. Lightweight Industrial Cloth used in Osprey and other designs. Widely used by model builders, known as "Deck Cloth" , Thread Count 60 x 47.
#1080 (P/N 1080-50) 50" Width..... **$5.95 yd**



3.16 oz./sq. yd. Lightweight Industrial Cloth with aerospace applications. Excellent for model building. Only .004" thick. Crowfoot weave, which contours nicely. Thread Count 60 x 58. Breaking Strength 125 x 120 lb./in. Finished Weight 3.08 oz./sq. yd.
#120 (P/N 120-38) 38" Width..... **$6.50 yd**



3.74 oz./sq. yd. Light weight Boat or Tooling Cloth. Tight plain weave. Thread Count 24 x 22. Breaking Strength. 160 x 135 lb./in. Finished Weight 3.60 oz./sq. yd. Thickness .0055"
#1522 (P/N 1522-50) 50" Width..... **$5.75 yd**



5.79 oz./sq. yd. Lightweight Boat Cloth. Flat weave, not twisted. Thread Count 18 x 18. Breaking Strength 250 x 225 lb./in. Finished Weight 5.85 oz./sq. yd. Thickness .010".
#3733 (P/N 3733-60) 60" Width..... **$6.25 yd**

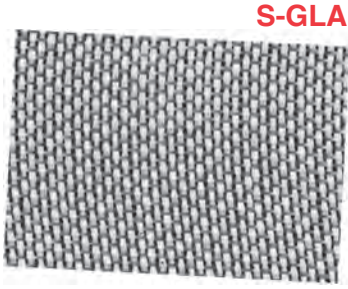
5.85 oz./sq. yd. Lightweight Boat or Tooling Cloth. Plain Weave. Thread Count 18 x 18. Breaking Strength 250 x 250 lb./in. Finished Weight 5.64 oz./sq. yd. Thickness .009" as used on KR Aircraft.
#7533 (P/N 7533-60) 60" /Width..... **$7.75 yd**

8.5 oz./sq. yd. Lightweight boat or tooling cloth. Threads per inch: 18L x 18W. Used in Osprey aircraft and other homebuilts.
#7520 (P/N 7520-50) 50" width ..... **$8.75 yd**

8.95 oz/yd² Medium Weight Standard Industrial Cloth. 8 Harness Satin. Thread Count 57 x 54. Breaking Strength 350 x 330 lb./in. Finished Weight 8.95 oz./yd² Thickness .009 mils. Sold by the yard.
#7781 50"" Width (P/N 7781-50) ..... **$8.35 yd**
#7781 60" Width (P/N 7781-60)..... **$9.75 yd**

9.66 oz./sq. yd. Heavy Weight Boat or Tooling Cloth. Plain Weave. Thread Count 16 x 14. Breaking Strength 450 x 410 lb./in. Finished Weight 9.40 oz./sq. yd. Thickness .014".
#7500 (P/N 7500-60) 60" Width..... **$9.25 yd**

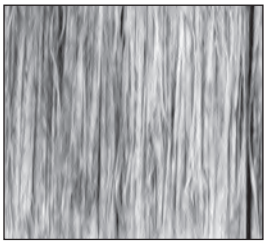
S-GLASS



The chemical formulation of S-glass differs from that of standard E-glass. Examples of E-glass are found in the Standard Fiberglass Cloth section of this catalog. S-glass is 30% stronger and 15% stiffer than E-glass and retains these properties up to 1500° F. S-glass is also considerably tougher than an equivalent E-glass. Other styles are available on request. Sold by the yard.

Style	Part No.	Weight oz./ Sq.Yd.	Width	Thick-ness	W x F	Weave	Price Per Lineal Yd.
4533	4533-60	5.8	60"	.009"	18 x 18	Plain	**$16.50**

S-2 UNIDIRECTIONAL FIBERGLASS TAPES

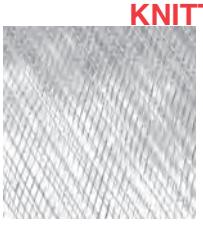


A unidirectional fabric constructed with Owens-Corning Fiberglass S-2 Glass offering outstanding strength-to-weight ratio, superb glass-resin ratio control to minimize probability of resin-rich and/or resin-dry areas, handleability without distortion and exceptionally high impact resistance. The integrity of the S-500 is maintained through very fine, adhesive coated fill yarns that are bonded to but not interwoven with the unidirectional fibers of the S-2 Glass. The fill yarns are spaced approximately 1.5 inches apart. The use of short-nap paint rollers is suggested, rolling under pressure, always parallel to the fibers. Use with epoxies, vinyl esters and polyesters. Weight of fabric - 0.56 Lbs. per Sq. Yd. Tensile Strength (hand layup in polyester, air cured) - 128,000 PSI. Thickness .016". Sold by the foot.
11" Wide..... P/N 01-00336..... **$3.25 Ft**

GLASS MAT

100% Fiberglass in a non-woven state. It is used for bulk "build-up" in molding and fabricating components. Also useful for filling holes and badly damaged parts. 1.5 Oz. Weight. 38" Width.
P/N 01-06500.....**$2.98/Yd**

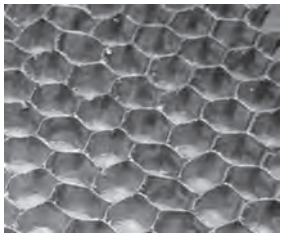
KNITTED E-GLASS FABRIC



Knitted fabrics are a relatively new format in composites. The performance of the glass is greatly enhanced by removing the interstices of the woven fabric and the crimped condition. E-glass in woven goods normally has 22,000 psi tensile strength. Layered nonwoven goods give 27,000 psi which is about a 20% improvement. Knitted glass offers greater ease of fabric orientation and saves time over multi-layered wet lay-ups.

Part No.	Weight/sq yd	Width	Ply Thickness	Price/yd
Biaxial - Double Bias +/-45°				
01-00640	17.6 oz	50"	17.0 mm	**$10.90**
Uni-Directional				
01-00650	13.4 oz.	50"	.021 mm	**$4.50**

NOMEX HONEYCOMB



AHN 7800 is an Commercial Grade Nomex honeycomb particularly suited for use where resistance to corrosive attack and moisture are important. This material exhibits good strength characteristics and is fire resistant. It is available in a variety of cell sizes and densities to suit most purposes. Typical applications include lightweight non-structural bulkheads for ships, joiner panels, shelters, antennas, and auto body panels. This material is not intended for aircraft or aerospace applications. This material also exhibits good thermal insulation properties and also has good dielectric properties. This honeycomb is easily machined, formed, and shaped and well suited to adhesive bonding.

Description	Part No.	Price
Honeycomb 1/8" Thick, 1/8" Cell 4' x 8'	01-00487	**$189.95**
Honeycomb 1/8" Thick, 1/8" Cell 4' x 4'	01-00489	**$94.50**
Honeycomb 1/4" Thick, 1/8" Cell	01-01052	**$289.50**
Honeycomb 7/16" Thick, 4' x 8'	01-01181	**$98.00**

COMPOSITE MATERIALS

RUTAN FIBERGLASS CLOTHS

The most basic structural material in building a composite aircraft is glass cloth. The use of glass in aircraft structures, particularly structural sandwich composites, is a recent development. Glass cloth is available commercially in hundreds of different weights, weaves, strengths and working properties. Very few of these, however, are compatible with aircraft requirements for high strength and light weight. Even fewer are suitable for the hand-layup techniques developed by Burt Rutan for the homebuilder. The glass cloth featured here has been specifically selected for the optimum combination of workability, strength and weight. Two types of glass cloth, a bi-directional cloth (RA7725BID) and a uni-directional cloth(RA7715 UND) are used. BID cloth has half of the fibers woven parallel to the selvage edge of the cloth and the other half at right angles to the selvage, giving the cloth the same strength in both directions. UND cloth has 95% of the glass fibers woven parallel to the selvage, giving exceptional strength in that direction and very little at right angles to it. BID is generally used for pieces which are cut at a 45° angle to the selvage, a bias cut, which enables the builder to lay BID into contours with very little effort and provides the needed shear and torsion stiffness for flying surfaces. UND is used in areas where the primary loads are in one direction, such as wing skins and spar caps. Multiple layers of glass cloth are laminated together to form the aircraft structure. Each layer of cloth is called a "ply".

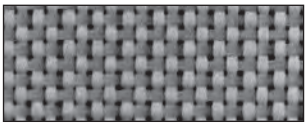
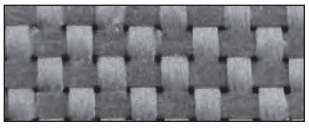
BIDIRECTIONAL WOVEN KEVLAR



STYLE 120



STYLE 281

STYLE 285

"Kevlar" 49 aramid fiber was introduced commercially in 1972 and is the Du Pont registered trademark for its new high strength, high modulus organic fiber. It combines high tensile strength (43,000 PSI) and high modulus (19 million PSI) with light weight and toughness superior to other reinforcing fibers for plastics. It is available in yarns and rovings which meet all FAA requirements for flammability. It shows no degradation in jet fuel, lubricating oils, water, salt water or high humidity. At cryogenic temperatures (-320°F.) performance is excellent with essentially no embrittlement or degradation of fiber properties. Kevlar 49 can offer both a significant weight saving and improved stiffness versus glass in addition to superior vibration damping and good impact resistance. A kayak made with Kevlar 49, for example, weighs about 18 pounds while the weight of a comparable boat made with glass would be over 30 pounds. The advantages over glass in small aircraft are similar - weight savings and improved impact resistance. Kevlar 49 is used in a number of parts on the Lockheed L-1011 because of weight savings of up to 30% compared to similar parts made of glass. One unusual benefit of Kevlar is its "quietness". A cowling made of Kevlar will be quieter and less sensitive to engine vibrations than its glass or graphite counterpart.
Although all of the processes used in combining resins with glass fiber are adaptable to Kevlar 49 with little or no modification. The vinyl estertype system is compatible, but the use of polyesters is not recommended because of poor bonding with Kevlar. The epoxy resin systems featured in this catalog are compatible with Kevlar 49 and have good wetting characteristics.
Kevlar 49 is stocked in three different fabric styles. Kevlar #120 is a very lightweight fabric, while #281 and #285 are identical except for the weaving pattern. Other weights and weaves of Kevlar are available on a special order basis. Be sure to specify the Kevlar style when ordering.

Style	Part No.	Oz./ Sq.Yd	Weight Width	Thickness	W x F	Weave	Breaking Strength Lbs/Inch Warp	Breaking Strength Lbs/Inch Fill	Price Per Lineal Yd
120	01-38100	1.8	38"	.0035"	34 x 34	Plain	260	250	**$25.75**

P/N 01-01159.....**$13.95**

UNIDIRECTIONAL KEVLAR

KS-400 is a unique unidirectional reinforcing material combining the benefits of Kevlar 49 with Owens-Corning Fiberglass S-2 Glass. Designed for use in laminates which must have high modulus or stiffness and tensile strength combined with low weight or density. Specifically constructed to enhance properties of wet-out behavior, bondability and impact strength in a hand laid-up composite. As compared with woven fabrics of pure Kevlar, KS-400 should produce laminates with better fiber-resin ratios and superior stiffness. The integrity of KS-400 is maintained through very fine, adhesive coated Dacron fill yarns that are bonded to, but not interwoven with, the unidirectional fibers. Only vinyl esters or epoxies should be used as impregnating resins. The presence of the S-2 Glass enables the fabricator to determine visually when the material is properly wet out. Resin bond is far superior to the glass than to the Kevlar. This means increased resistance to delamination. Also the presence of the S-2 Glass even in such a relatively small amount increases the impact strength of the laminate significantly. In application, it is important that the fabricator does not confuse the appearance of the cross-direction adhesive binder with air bubbles. The impregnating resin will soften this adhesive and it will flow slightly. The adhesive shows up as milky areas on both sides of the fabric within the finished laminate. A gel coat or paint covers these areas effectively. 12" Wide ..... P/N 01-00340.....**$4.55 Ft**

10% Discount on 50 ft. (4 lbs) • 20% Discount on full roll, 300 ft. (24 lbs)

PRECISION SCISSORS

Straight-edge blades easily slide through the fabric and are sharpened to the tip for smaller or appliqué cuts. Grabs the fabric and cuts cleanly, with no material folding over the blades - even when cutting left-handed. Blades fully extend into the handles for durability and better cutting stability and pressure distribution. Exceptional accuracy and retains smooth blade movement, even in heavy-use environments. Straight blades made of stainless steel (Blades are not serrated). Good for cutting stitchwork, thread, cloth, leather, fabrics, films, sign and graphics material, vehicle wraps, and more..... P/N 01-01186.....**$18.95**

INDUSTRIAL FABRIC SHEARS

Wiss No. 20W heavy-duty shears, ideal for cutting fiberglass cloth and all fabrics. Hot drop-forged steel.
Right Hand Shears.....P/N 01-00397 ..... **$32.95**
Left Hand Shears.....P/N 01-00398 ..... **$32.50**

OFFSET KEVLAR CUTTING SHEARS

Although Kevlar has many advantages over conventional fiberglass weaves, it is very difficult to cut. Special scissors have been developed to facilitate cutting. These scissors have a wear resistant coating which is metallurgically bonded to the steel substrate. The coating will not chip or peel off and can be sharpened. Model WR-10E-4 Shears. P/N 01-00341 .....**$72.50**

FEATHERWEIGHT SCISSORS - Lightweight, durable, and reliable GINGHER® Scissors are lightweight, extremely sharp and comfortable. These 2-1/2 oz. scissors are perfect for use during the lay-up for a variety of purposes and can be soaked in acetone for easy clean up. We recommend saving one pair for only cutting Kevlar® and keeping a second pair for general use. P/N 01-00342 .....**$44.65**

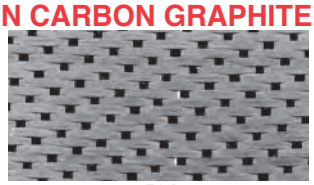
CARBON GRAPHITE

BIDIRECTIONAL WOVEN CARBON GRAPHITE

282



584

Woven graphite is a fabric introduced in recent years which has become an excellent alternative to fiberglass and Kevlar - only mils thick with great strength. In addition to its great strength, graphite fabric also has very low density and is very stiff. Although it is quite costly, the material saving is appreciable since only one course of graphite is required for 3 or 4 of fiberglass. It cuts considerably easier than Kevlar. Graphite The excellent qualities of the graphite fabric itself give it an immediate waiting market in the aircraft building field.

Graphite fabric is stocked in the three different styles shown below. Other weights and weaves of graphite are available on a special order basis. Be sure to specify the graphite style when ordering. These carbon graphite cloths are not pre-preg fabrics.

**** Warning folding for shipment can damage the filaments in the fabric. Folding will be done at customers risk and request only.***

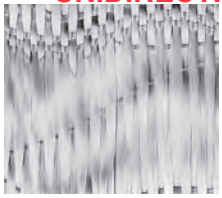
UNIDIRECTIONAL FIBERGLASS TAPE



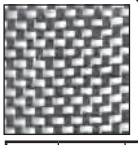
This is a fibrous glass reinforcement designed to furnish exceptionally high directional strength. Manufactured from parallel strands of glass roving which are held together by a fine woven cross thread. The placement of the cross thread is such that the parallel rovings do not wander or have a tendency to cross over each other. This 100% unidirectional tape can be used instead of unidirectional fabric for spar caps, wings and elevators. Contours well and cuts building time considerably. Wt. 22 oz./sq. yd., 0.025" thick. May be used with either polyester or epoxy systems. Used on Polliwagen. Long-EZ, Cozy. Adventure and applicable to all composites.

3" Wide ..... P/N 01-06800..... **$1.75 Yd.**

UNIDIRECTIONAL CARBON GRAPHITE

Construction is such that the fibers are oriented in a straight or linear manner with no twist and are able to be maintained in that condition while being impregnated by hand. The fabric is formed from rovings or "tows" of fibers similar to that used in making woven fabric. These fibers are locked into position by very fine fill (or cross machine direction) fibers which are encapsulated with an adhesive which is compatible with common impregnating resins. These fill fibers and the encapsulating adhesive will be visible in any clear resin. The resulting "pattern" is normal and should not be interpreted as poor wet-out of the reinforcing fibers. For hand lay-ups, resin may be applied by spray, brush or by pouring action. A short napped paint roller is recommended for spreading the resin. Excess resin should always be rolled out in a direction parallel to the graphite fibers. The final or external layer should be applied with the fill yarns facing down (unexposed). Satisfactory for use with epoxies, polyesters, vinyl esters and other resins. The fabric is rolled with a polyethylene interliner to maintain cleanliness. Care and cleanliness should be practiced when working with Graphite materials. Unattached graphite fibers are easily airborne. A filter mask should be worn when cutting and fabricating. Itching & irritation caused by broken filaments becoming imbedded in the skin can result from filament breakage during handling.

This graphite fabric is similar to the bidirectional woven graphite described above but is a unidirectional weave using standard 3000 tow graphite warp and 75-1/0 fiberglass fill .



UNIDIRECTIONAL GRAPHITE FULL WIDTH ROLLS

CARBON FIBER TUBING

Aircraft Spruce offers structural tubing and structural torsion tubing, engineered and built to meet your exact specifications and tolerances. Structural Tortion Tubing, in continuous lengths up to 40', is manufactured with the computer-controlled, fully-automated Helical Winding Process. We offer a broad array of Fiber Options and tubing wall thickness and diameter is determined on a case-by-case basis to suit your application. ***Special Order Sold in 10 ft. lengths only (can cut for UPS shipment).***

* The image shows two types of finish on this product. The standing tube is sanded and painted with a gloss finish. This is available for an additional cost of **$249.00**. The tube lying on its side is a rough surface, which will be received when product is purchased.

GRAPHITE – LAMINATING EPOXIES

CARBON GRAPHITE YARN TOW

High strength (470,000 PSI) carbon fibers are used as reinforcement in high performance structural composites for aircraft applications, recreational and industrial products. Carbon fiber filaments are finer than a human hair. These filaments are bundled together to make a fiber of 3,000, 6,000 or 12,000 filaments which is called a "tow". The tow is sized with an epoxy compatible material to improve the handling characteristics. It is then wound on a cardboard core holding from 4 to 6 pounds of fiber. 1 Lb. spool.

Actual Size	Part No.	Approx. Yield	Roll Size	Price/Spool
3K Tow	01-00343	2470 Yd./Lb.	4 Lb.	**$372.95**
6K Tow	01-00307	1229 Yd./Lb.	1 Lb.	**$79.65**
12K Tow	01-00004	621 Yd./Lb.	2 Lb.	**$99.50**
12K Tow	01-00345	621 Yd./Lb.	4 Lb.	**$199.00**

It appears that the 6K tow will prove most practical for homebuilding applications. This size will be available in the small units shown. The 3K and 12K sizes are offered in full spools only. The 3K tow is used primarily by weavers. The 12K is difficult to wet out but can be done by diligent brushing.

S-GLASS ROVING FILAMENTS

This is the S-Glass Strand (roving) used by Rutan Aircraft Factory on the Defiant homebuilt kits. Also applicable to other homebuilt aircraft applications. Defiant requires four 15lb. rolls of S-Glass Strand.

One 15 Lb. Roll P/N 01-06400 ..... **$286.00**

KEVLAR 49 ROVING

Unidirectional Aramid fiber roving. Type 968, 7100 denier, comprised of five strands of 1420 denier. Used in the popular geodesic dacron kayaks and boats by Platt Monfort, this roving has a wide variety of applications.

300 Ft . Roll ..... P/N 968 ..... **$33.50**

SYSTEM THREE QUIKFAIR EPOXY FAIRING PUTTY

Lightweight, micro ballooned filled, fast curing 2-part epoxy fairing putty with excellent moisture resistance. Use on both fiberglass and wood epoxy structures above or below the waterline. At 70° F it is sufficiently cured to be hand sanded in 3 hours or machine sanded in 4 hours. This allows you to apply 3 coats in a standard 8 hour shift or 6 in a round the clock basis. Complete a fairing or filleting job in a day rather than 3 or 4 days. NOTE: QuikFairs warm butter-like consistency makes it easy to measure by weight. Use care when measuring by volume as QuikFair does not self-level and may trap air pockets. As QuikFair is fast curing the working time is short. Mix no more than can be applied within 10 minutes.

24 oz. Kit .....P/N 01-00404 ..... **$27.80**
1-1/2 qt. Kit .....P/N 01-00405 ..... **$42.65**

EPOXY PREMIUM PIGMENTS

These Premium Pigments are a paste to tint polyester, vinyl ester, epoxy resin, and polyurethane. Add about 6% to 8% of pigment by weight or 1/2 pint of pigment per gal. of resin.

White - 1 oz.....P/N 01-45308 ..... **$4.45**
White - 8 oz.....P/N 01-45501 ..... **$20.50**
Black - 1 oz. .....P/N 01-45319 ..... **$4.50**
Black - 8 oz. .....P/N 01-45512 ..... **$20.25**

JEFFCO EPOXY LAMINATING SYSTEM

1307 Low Viscosity Resin / 3102 Fast Hardener - 100% solids 2-component epoxy laminating system with excellent wet out, low viscosity and high strength. Very low odor and toxicity. Easy to use, 4:1 weight or volumetric mixing, safe, fast curing products for a variety of use applications. Used for fast curing, penetrating wood coatings, adhesives and sealers, fiberglass laminating and microsphere filled fairing compounds. Excellent cold temperature cures down to 40°F. No solvents or VOC's. Non-hazardous, non-corrosive hardener.

3176 30-minute Medium R/T Epoxy Hardener - Fast setting, even in thin films. Good low temperature cure. Fast wetting of fiberglass reinforcements. Easy to use 4:1 mix ratio. High HDT at room temp, increasing with post cure. Low toxicity, very low odor. Non-hazmat.

Low Viscosity Laminating Resin

AEROPOXY LIGHT PATCHING/FILLER COMPOUND

Aeropoxy Light, a modification of the ES6279 adhesive system, is a 2-component paste epoxy patching and filler compound for foam, wood, fiberglass and other surfaces. The mixed consistency of this system is very smooth and creamy, so it spreads easily, and can be spliced to a feather edge without separation. It is a thixotropic, non-sag material that will remain in place in thick sections, even when applied upside down! The resin and hardener of this system are color coded for easy mixing. The resin is white and the hardener is brown, giving a good visual indication of complete mixing with a uniform tan color free of streaks. AEROPOXY LIGHT has special low density fillers incorporated into it that provide very distinct benefits. It is a very light material (4 pounds per gallon), and therefore contributes minimal added weight to the filled or repaired structure. Also, the cured material is very easy to sand, making the finished patch undetectable when covered or painted. There are no volatile ingredients in AEROPOXY LIGHT, so the cured material will not outgas, which could cause a loss of adhesion of paint or coverings. Sold in kits of part A & B.

1-1/2 lb. Kit.....P/N 02-30006 ..... **$34.50**
6 lb. Kit.....P/N 02-30007 ..... **$109.75**

IMPACT RESISTANT LAMINATING EPOXY

DLRH-3212 is an unfilled, clean epoxy resin system with a long pot life. DLRH-3212 is a tough, strong, impact resistant resin with chemical resistance. It has excellent wetting quality on kevlar, carbon graphite and fiberglass cloth. Used extensively in construction of aircraft, race cars, motorcycles, helmets and sports equipment. Mixing Ratio by Wt: 100:30; Pot Life (200 Gm MASS) 60 Min; Tensile Strength @ 25 C 12,500; Flexural Modulus @ 25 C 40,900; Heat Deflection 325 F; Thermal Shock 72°F–125°F; Shore "D": 80, Density: Resin: 9.7, Hardener: 7.9, Mixed: 9.1; Shelf Life: Resin/ Hardener 1 Year.

EPOXY LAMINATING SYSTEMS

POLY EPOXY
STRUCTURAL EPOXY SYSTEM

Poly Epoxy is a true high-performance epoxy resin with unmatched tensile, compressive, and flex strengths. It also has unbeatable peel, shear, and fatigue resistance, as well as impact strength and fracture behavior. It's great for wings, canards, fuselages, tail feathers, and landing gear. Use it in molds or moldless construction. It parts easily and works beautifully in vacuum bagging. (Avoid silicone-treated peel ply.) It has TWO cure phases, while all other resins—epoxy, polyester, or vinylester—have just one. The two phases occur all by themselves during the curing process. The resulting bond is tougher and stronger than any other.

Poly Epoxy Kit, quart ..... P/N 01-07905 ..... **$41.50**
Poly Epoxy Kit, gallon..... P/N 01-07906 ..... **$119.95**

ALPHA POXY
NON-STRUCTURAL EPOXY SYSTEM

AlphaPoxy is a low-cost flexible epoxy system that is ideal for laying up non-structural parts like wheel pants, or fairings. Because it is flexible, we don't recommend it for structural applications, such as fabricating load-bearing structural aircraft parts. Use PolyEpoxy for these applications. This is a low-viscosity system specifically formulated for filling with microballoons, cotton flox, or milled glass fibers to make slurries. It was designed for maximum sandibility; when cured, it is soft enough to be easily cut with sandpaper smoothing a breeze. AlphaPoxy is also excellent when used as a final filler resin over structural parts when an epoxy gel coat is called for. You can use it in place of polyester resins for a much more durable part at a very attractive price. AlphaPoxy uses a non-MDA hardener that allows us to ship it as non-hazardous material.

E-Z POXY
EPOXY LAMINATING SYSTEMS

In early 1996, Composite Design Co. developed E-Z Poxy to provide a replacement epoxy system for Epolite (Safe-T-Poxy) which is no longer produced by Hexcel. The E-Z Poxy series of laminating systems utilizes one resin and your choice of three hardeners for varying pot life and viscosity requirements. The E-Z Poxy systems offer the same handling and physical properties as the discontinued Epolite systems including ease of use, long pot life, rapid cure for demold or process continuation, and superior room temperature curing properties. Excellent for use in sport aviation, marine, and industrial applications.

E-Z 83 hardener is equivalent to Safe-T-Poxy standard hardener, E-Z 84 is equivalent to Safe-T-Poxy II hardener, and E-Z 87 is equivalent to Safe-T-Poxy slow hardener. E-Z Poxy products should not be mixed with materials produced by other epoxy manufacturers.

*Post Cure for 2 hrs. @ 150F

E-Z Poxy systems provide excellent room temperature curing systems for hand layup of composite parts and tooling. The systems are designed to provide ample working time with the varied pot life options while providing a rapid finish cure. Post curing these systems will increase their physical properties as designated in the above data, however, post cure is not required.

POLYESTER GEL COATS

These polyester gel coats can be used as the surface of new fiberglass parts layed up in molds or used in the repair of gel coat surfaces on fiberglass parts. On surface repairs, the gel coat must be sealed to fully cure. PVA can be used to seal the gel coat.

EPOXY LAMINATING SYSTEMS

POLYESTER RESINS

Polyester resins are hygroscopic (they draw moisture from the air). There are two types of resin, and one or both types may be required, depending on the application. Type "A" resin has a small amount of wax in it, which comes to the surface and forms a barrier against the moisture. This permits the resin to cure completely and the surface is hard and easily sanded. Bond Coat "B" resin does not have any wax content. As a result the surface stays a little tacky, as the surface cure is being inhibited by moisture. This tacky surface provides excellent adhesion between coats. Bond Coat resin is therefore recommended for the first coat of resin to fill the weave of the glass cloth, for bonding fiberglass cloth to plywood or other surfaces and for multi-layers of glass cloth.

TYPE "A" RESIN - #1520-5 is a general purpose ortho surfacing resin intended for the finishing coat applied over the Bond Coat #1063-5, or for single coat application. A second coat may be applied after full cure and thorough sanding but is not recommended.

Polyester Resin #692 Quart ..... P/N 01-00346 ..... **$22.90**
1 Gal. #1520-5 with 1 Oz. Catalyst ..... P/N 01-00347 ..... **$78.65**
5 Gal. #1520-5 with 4 Oz. Catalyst ..... P/N 01-00348 .... **$318.95**
Additional catalyst may be required. 1 Oz. .... P/N 01-06900 ..... **$3.55**

TYPE "B" RESIN - #L253T-20 is a general purpose bond coat ortho resin for use in making multi laminates. It will not cure to a high gloss finish. Use 1520-5 for finish coat to obtain smooth, hard gloss finish. Replaces #1063-5.

1 Gal. #L253T-20 with 1 Oz. Catalyst ..... P/N 01-00349 ..... **$45.50**
5 Gal. #L253T-20 with 4 Oz. Catalyst ..... P/N 01-00350 ... **$231.95**
Additional catalyst may be required.
Same catalyst used for #1520-5 and #L253T-20.
Note: Use #1520-5 finish coating over #L253T-20 but never use #L253T-20 over #1520-5.
Above resins are not for use in making fuel tanks. For fuel tanks (except those for gasohol) use #6060-5 Isophthalic Resin.*

1 Gal. #6060-5 with 1 Oz. Catalyst ..... P/N 01-00351 ..... **$56.50**
5 Gal. #6060-5 with 4 Oz. Catalyst ..... P/N 01-00352 ... **$191.95**
Additional catalyst may be required.
Catalyst same as for resins listed above.
* Iso Resin is highly flexible. Has excellent adhesion to metal, wood, concrete, fiberglass and other "hard-to-adhere" surfaces. Compatible with most fuels. Iso is a wax-free resin and must be over-coated with Type "A" Surfacing Resin to obtain a surface cure.
SURFACE CURING AGENT is used in polyester resin to improve sanding properties. Added to #1063-5 Bond Coat or #6060-5 Isophthalic, it will provide same sanding properties as in Type "A" Surfacing Resin. Use in proportions of 2 oz. per gallon of resin. Surface Curing Agent is used in addition to catalyst.

4 Oz. in Polyethylene Dispenser Bottle ..... P/N 01-07100 ..... **$2.35**
Pint (16 Oz.) in Polyethylene Dispenser Bottle P/N 01-07200 ..... **$4.50**
Gallon (128 Oz.) ..... P/N 01-07300 ..... **$58.25**

MEKP NORAC CATALYST

MEKP Norac Catalyst is the catalyst added to polyester resins and vinyl ester resins. As the catalyst mixes with the resin, a chemical reaction occurs, creating heat which cures the resin. Use approx. 1/2 oz per quart of resin. We recommend the use of our MEKP Catalyst Dispenser for accurate measuring and pouring of catalyst.2 oz. P/N 01-01119 ..... **$4.95**

MGS EPOXY RESINS

MGS epoxy resins are approved for the production of certificated aircraft parts. The 335 and 285 systems are especially suited for homebuilders because of their long shelf lives, excellent workability, physiological friendliness, adjustable cure rates and excellent static and dynamic strength characteristics. The 285 system is available with fast and slow hardeners which can be blended with each other in any proportion to provide the desired working life and cure cycle. Pot lives and working times can be adjusted from fifteen minutes, using the fast hardeners, to six hours, when the slow hardeners are employed. Once the hardeners have been blended, the specified resin to hardener mixing ratio must be maintained. The 335 System is available only with fast hardener. Components of the 335 system should not be mixed with those of the 285 system. With both systems, if only the slowest hardener is used, the cure times should be extended to a few days, otherwise some brittleness may be noted. While room temperature curing results in good properties when the faster hardener combinations are used, some curing at elevated temperatures or post curing will result in the highest achievable strength and Tg, with the slower blends. Even unfavorable low temperature and high humidity conditions in the work environment will not effect the quality of the product and high gloss, uncontaminated, tack free surfaces are achievable every time. The resins do not contain any unreactive dilutants which with many systems result in de-gassing and bubbling of the painted finish. The MGS resins do NOT contain aromatic amines. While proper processing practices should be maintained, the physiological friendliness of these systems have been demonstrated by many years of production experience. The 285 system has slightly higher physicals than the 335 and will also achieve a higher maximum Tg after post curing. While the 335 is more viscous than the 285, after mixing with the appropriate hardeners, their viscosities are comparable. MGS systems are used in the construction of the Cozy, Diamond, Cirrus and other aircraft.

System 285 (Max. Tg 105 C - 110 C; 195 F - 230 F)

VINYL ESTER RESIN

Dow Chemical's Derakane 411-350 PA Vinyl Ester Resin is an epoxy-based Vinyl ester designed to provide superior toughness and high corrosion resistance. Many leading kit aircraft manufacturers use vinyl ester resins extensively due to its quality and ease of fabrication. We furnish medium "promoted" vinyl ester 411-350 PA resin which includes CONAP, DMA the resin is cured by adding the MEKP which is furnished with the kit. Gel times vary according to the amount of MEKP added and the ambient temperature. Shelf life of promoted vinyl ester resin is short at only a few months.

MEDIUM PROMOTED: Includes CONAP, DMA and other additives. Add MEKP for complete cure:

EPOXY LAMINATING SYSTEMS

AEROPOXY FROM PTM&W INDUSTRIES

CORROSIVE

PR2032 is a medium viscosity, unfilled, light amber laminating resin that is designed for structural production applications. 3 hardeners are available for use with PR2032. PH3660, has a 1-hour pot life. When used with either of these hardeners, the system gives excellent wet-out of fiberglass, carbon and aramid fibers. Special additives have been incorporated into this system to promote chemical adhesion to fabrics made with these fibers. The AEROPOXY systems will cure completely at room temperature, or can be given an elevated temperature cure. AEROPOXY contains no MDA (a known liver toxin and carcinogen) and meets or exceeds current OSHA requirements for safe use. Hardener PH3665 has a longer pot life than PH3660, 2 hours, that is useful for vacuum bagging larger parts before the resin has gelled. Hardener PH3630 is intended for smaller laminates, fast repairs or additions to a primary structure. PH3630 pot life is 30 min.

Part No.	Description	Wt. (lbs.)	Price

01-00163	1 quart PH3665 Hardener (slow)	--	**$35.75**

Aeropoxy mixing ratio — 100:27 by weight, 3:1 by volume.

WEST SYSTEM EPOXY

CORROSIVE

WEST SYSTEM brand resins and hardeners, form a two-part epoxy system developed by Gougeon Brothers specifically for wood and composite boat construction. Rutan Aircraft Factory now recommends WEST SYSTEM epoxy for certain homebuilt aircraft applications, particularly where a moisture resistant epoxy is desired. 105 Resin is the base material on which all of the WEST SYSTEM epoxy systems are built. The resin is a clear, light amber, low-viscosity liquid. It is designed specifically to wet out wood fiber. With roller applications, it possesses excellent thin film characteristics in flowing out and is self-leveling without fish-eyeing. Its relatively high flash point makes it safer to work with than polyesters. It can be cured in a wide temperature range, then sanded and shaped. It cures quite clear so that the natural finish shines through. 205 Fast Hardener, when mixed with the 105 Resin in a ratio of 5 parts Resin to 1 part Hardener, yields a high-strength, rigid solid with excellent cohesive properties and provides an excellent moisture vapor barrier. The 105 Resin/205 Fast Hardener has a pot life of 10-15 minutes at 70°F. It is also recommended in coating applications where natural finishing is desired. Partial cure time at 70°F is 5-7 hours. 206 Slow Hardener is a low-viscosity mixture of polyamines. The 105 Resin/206 Slow Hardener has a pot life of 30-40 minutes at 70°F. It is normally used when extended time is needed for large coating and bonding applications. It is especially well suited to working in warmer climates. Partial cure time is 9 hours at 70°F.

ORDER 301/303 PUMP PACKS SEPERATELY.

207 SPECIAL COATING HARDENER

This hardener is used where a very clear, moisture resistant natural wood finish is needed. Can be used to laminate veneers where joints will be subjected to sunlight. Improves sun resistance. Pot life: 20 min., cure solid in 9-12 hours, and maximum strength within 7 days.

.66 pint.....P/N 207-SA **$38.15**
.33 gal.....P/N 207-SB **$81.52**
1.45 gal..... P/N 207-SC **$278.95**

209 TROPICAL HARDENER

This hardener is used for bonding applications in warm or humid weather or when extended working time is needed. Provides twice the working time as 206 hardener. Forms a clear, amber solid when cured. Pot life is 40 minutes, solid state in 24 hours, and maximum strength in 5-9 days.

.66 pint.....P/N 01-00362..... **$33.55**
.33 gallon.....P/N 01-00364..... **$75.17**
1.45 gal.....P/N 01-00363..... **$242.51**

PRO-SET 125 RESIN & 229 HARDENER

Mixing: 125 Resin: 229 Hardener - By weight, 100:30 & By volume, 100:35. Pot life: 65°–83 min, 72°–77 min, 85°–27 min.

For PROFESSIONAL use only.

WEST SYSTEM ACCESSORY PRODUCTS

- West System User Manual..... P/N 01-08750 ..... **FREE**

- West System 101 Handy Repair Pack - Contains 105 resin & 205 hardener plus accessories needed for small repairs
P/N 01-08760 ..... **$9.75**

- West System #101-6 Maxi Repair Kit - incl. materials to make 6 individual repairs using 105 resin and 205 hardener.
P/N 01-08770 ..... **$34.01**

- West System 501 White Pigment - use this epoxy based pigment to provide a neutral white base for the final coloring system. Mix at ratio of 1 teaspoon to 8 oz. of epoxy. 8 oz. can..... P/N 01-08775 ..... **$16.49**

- West System 410 Microlight an excellent filler which provides easy workability for a variety of applications. Easy to sand and cures to a neutral tan color.
1.7 oz., 01-08780 ..... **$15.69** 4.3 oz., 01-08785..... **$31.10**

423 GRAPHITE POWDER

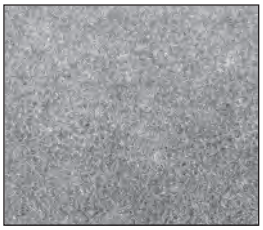
423 Graphite Powder can be mixed with WEST SYSTEM epoxy to produce a low friction coating with increased scuff resistance and durability. 423 is often used as a bearing surface, and as a coating on the bottoms of racing craft that are dry sailed. P/N 09-00315.....**$17.93**

301/303 PUMP PACK

Using Mini Pumps helps ensure accurate metering of resin/hardener mixture. Pumps mount directly on resin and hardener containers. One stroke from each pump delivers proper ratio of resin to hardener. Kit consists of 3 pumps for A, B, and C epoxy kits. P/N 01-00318.....**$14.52**

FOAM

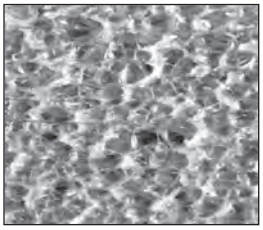
STYROFOAM – SMALL CELL



STYROFOAM FB – Low density (2 lb./ft3). Tight closed cell structure leaves no voids between the cells. The result is high compressive strength and unequaled resistance to water penetration. Has excellent resistance to bases, salts, alcohols and most acids but not to petroleum based solvents. Cuts smoothly with a hot wire for airfoil shapes.

Foam Type	Density	Thickness	Sheet Size	Part No.	Price/Sheet
Styrofoam (Blue) Small Cell	2 Lb/Ft^3	5/8”	24” x 48”	01-09400	**$8.25**
		5/8”	24” x 96”	01-09500	**$17.25**
		3/4”	24” x 96”	01-09600	**$21.25**
		1”	24” x 48”	01-09700	**$13.75**
		1”	24” x 96”	01-09800	**$27.50**
		1-1/2”	24” x 96”	01-09900	**$42.25**
		2”	24” x 48”	01-10000	**$28.25**
		2”	24” x 96”	01-10100	**$57.25**
		4”	24” x 48”	01-10200	**$57.50**

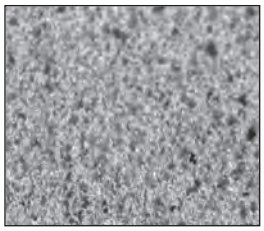
POLYSTYRENE – LARGE CELL



POLYSTYRENE – LARGE CELL This blue large cell expanded foam is 2 lb. density and cuts easily using a hot wire to airfoil shapes. Compatible with most adhesives, but should be used only with epoxies, not polyester resins. Will dissolve in fuels and solvents.

Foam Type	Density	Thickness	Sheet Size	Part No.	Price/Sheet
Styrofoam FB (Blue) Large Cell		8”	16” x 4”	01-37600	**$7.90**
		8”	16” x 25”	01-01166	**$44.50**
		8”	16” x 42”	01-10600	**$77.85**
		8”	16” x 67”	01-10800	**$119.95**
		8”	16” x 109”	01-10900	**$195.95**
Polystyrene (Round Corners)	2 Lb/Ft^3	10”	20” x 96”	01-11100	**$210.95**

POLYURETHANE FOAM



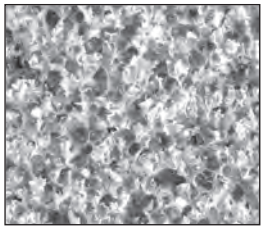
CAUTION

DO NOT USE HOT WIRE!

URETHANE – This foam is easily contoured using a large knife, and then sands well to final form. Excellent for producing the fuselage, wing tips, and other curved parts. It is fuel resistant and can be used for fuel cells. Compatible with most adhesives. Do not hot wire polyurethane foam. Color: tan or green.

Foam Type	Density	Thickness	Sheet Size	Part No.	Price/Sheet
Urethane (Tan or Green)	2 Lb/Ft^3	1/2”	24” x 48”	01-11300	**$10.50**
		1/2”	48” x 48”	01-11400	**$19.50**
		3/4”	24” x 48”	01-12150	**$13.95**
		3/4”	24” x 96”	01-12160	**$29.85**
		1”	24” x 48”	01-11500	**$18.65**
		1”	24” x 96”	01-11600	**$33.75**
		1”	48” x 96”	01-11700	**$59.90**
		2”	24” x 48”	01-11900	**$37.75**
		2”	24” x 96”	01-12000	**$69.75**
		2”	48” x 96”	01-12100	**$117.95**

DIVINYCELL FOAM



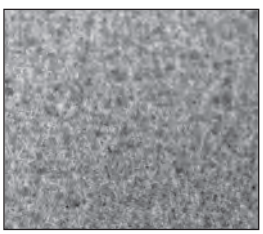
CAUTION

DO NOT USE HOT WIRE!

DIVINYCELL – A closed cell medium to high density foam which has high compression strength, durability, and excellent fire resistance. Can be vacuum formed to compound shapes and can be bent using heat. Compatible with polyester, vinylester, and epoxy resins.

Foam Type	Density	Thickness	Sheet Size	Part No.	Price/Sheet
Divinycell PVC (Blue) Type H45	3 Lb/Ft^3	1/8”	32” x 48”	01-00158	**$15.80**
		1/4”	32” x 48”	01-12300	**$21.75**
		3/8”	32” x 48”	01-12400	**$27.75**
		5/8”	24” x 47”	01-12500	**$43.50**
		3/4”	15” x 26”	01-12600	**$12.75**
		3/4”	32” x 48”	01-12700	**$55.50**
		1”	32” x 48”	01-12800	**$86.65**
		1-3/4”	32” x 48”	01-12900	**$96.25**
Eracer		2”	48” x 96”	01-12920	**$348.50**
	Eracer	2”	24” x 48”	01-12910	**$68.75**
	Eracer	3”	48” x 96”	01-12940	**$487.50**
	Eracer	3”	24” x 48”	01-12930	**$123.95**
Divinycell PVC (Tan) Type H100	6 Lb/Ft^3	1/4”	37” x 37.5”	01-13000	**$46.85**
		1”	6” x 10”	01-13100	**$9.65**
		1”	10” x 12”	01-13200	**$18.75**
Divinycell PVC	15.6 Lb./Ft^3	1/4”	24.8” x 27.75”	01-13300	**$155.95**

LAST-A-FOAM



CAUTION

DO NOT USE HOT WIRE!

LAST-A-FOAM – Rigid, Polyether Polyurethane foam with fine closed-cell structure, light cream-yellow color. LAST-A-FOAM® is wonderfully versatile for sandwich-core applications. It cuts and shapes easily with common woodworking tools, and bonds to itself and other materials with most epoxy, polyester, or urethane-type adhesives. LAST-A-FOAM® is unaffected by water, fuels and most solvents, and paint finishes are easily applied. It is frequently used in regular molds after the gel-coat and first two layers of glass are installed; the LAST-A-FOAM® is added and another layer of glass applied for a strong, light-weight sandwich.

Foam Type	Density	Thickness	Sheet Size	Part No.	Price/Sheet
Last-A-Foam Urethane/Polyester (Yellow) 275° F	4.5 Lb/Cu. Ft.	10mm	24” x 96”	01-13400	**$52.50**
		1/4”	24” x 48”	01-13550	**$16.75**
		1/4”	24” x 96”	01-13500	**$36.90**
		3/8”	24” x 96”	01-13600	**$44.75**
		1/2”	24” x 96”	01-13700	**$55.50**
		3/4”	24” x 96”	01-14000	**$76.25**
Last-A-Foam Urethane/Polyester (Yellow) 275° F	6Lb/Cu. Ft.	1/4”	24” x 48”	01-14100	**$20.85**
		3/8”	24” x 48”	01-14200	**$28.75**

Last-A-Foam Urethane/Polyester (Yellow) 275° F	18 Lb/Cu. Ft.	0.200”	12” x 48”	01-14400	**$32.85**
		1/4”	12” x 48”	01-14500	**$34.50**

LIQUID "X-30" FOAM
(TWO-COMPONENT POLYURETHANE FOAM)

This system consists of two components - "X-30" Resin and "X-30" Catalyst. When the resin and catalyst are mixed in equal volumes they expand into a rigid closed-cell foam of 2 pound density. Thorough mixing of the two components is essential. "X-30" Foam expands approximately 40 times its liquid volume. Small-batch mixes are recommended. Cured foams can be easily trimmed, cut and shaped with common woodworking tools. Use toluene or MEK for cleanup. "X-30" Foam contains a highly reactive agent and is classified as a toxic material. It is combustible, a strong skin sensitizer and eye irritant. Avoid contact with the skin. Use rubber gloves when handling. Used for: Flotation, thermal and acoustical insulation reinforcement and miscellaneous void filling. Most small pleasure boats can be made "sink-proof" with approximately two gallons of "X-30". Data sheet available. "X-30" Foam contains a volatile fluorocarbon and should be stored at 70°F. or lower. "X-30" is used on the Osprey II bottom hull, canopy, nose cone, etc., requiring about four gallons of material (2 gallons of each). Shelf life at least 6 months. Users have reported "more than 2 years shelf life".

Kit Size	Part No.	Approx. Foamed Vol. (Cu.Ft.)	Weight Lbs.	Price/Kit
1 Quart Kit (1 Pt. ea component)	01-08800	1-1/4	3	**$38.50**
2 Quart Kit (1 Qt. ea component)	01-08900	2-1/2	6	**$58.50**
2 Gallon Kit (1 Gal. ea component)	01-09000	10	22	**$169.85**
10 Gallon Kit (5 Gal ea component)	01-09100	50	110	**$610.00**

X-30 is the original polyurethane foam. Do not accept substitutes!

POLYFIX COMPOSITE REPAIR KITS

Polyfix is a 3-part system that uses chemical reaction to heat the repair to 140°F, fusing it to the parent part. This system repairs ABS, PVC, CVPC, SMC, acrylic, vinyl, graphite, Kevlar, plexiglass, nylon, fiberglass, and many other materials, The system combines cyanoacrylate glue, a catalytic filler, and an accelerator. May be used on speed fairings, wing tips, cowlings, glareshields, and more. Kits include polyfix chemicals, Polydust, gloves, mixing tools, and an easy to follow instruction manual.

COMPOSITE MATERIALS PRACTICE KIT

All designers highly recommend that builders who are considering a composite project purchase this practice kit. It contains the excellent 26 page 11" x 17" manual by Burt Rutan entitled MOLDLESS COMPOSITE SANDWICH HOMEBUILT/ AIRCRAFT CONSTRUCTION ($14.50) plus the assorted foams, epoxy, fiberglass, filler materials and supplies with which to work. Everything needed to practice the technique of composite building before venturing into a complete aircraft project.

Practice Kit with Manual ..... P/N 01-15000 ..... **$99.00**
Practice Kit without Manual ..... P/N 01-15100 ..... **$89.00**
International Practice Kit with Manual ..... P/N 01-15050 ..... **$57.00**

Same as Practice kit with the manual, but excludes the epoxy for International shipping.

BACKSAVER FOAM

Backsaver foam is temperature sensitive, softening when it comes in contact with a warm surface; Thus, in a seat cushion, the foam softens and conforms to the person's body. This provides even pressure distribution and unconstricted blood circulation, significantly reducing discomfort, even over long periods. In addition, Backsaver foam has excellent energy absorption properties, which have made it excellent for use in the U. S. space shuttle program and in military aircraft and helicopters. Pilots find that Backsaver cushions reduce their discomfort and fatigue, even on missions of 8 hours or more. Aircraft Spruce now makes Backsaver foam available to the homebuilt and general aviation market.

17" x 18" sheet ..... P/N 01-09325 ..... **$92.50 ea.**
48" x 72" sheet ..... P/N 01-09330 ..... **$541.00 ea.**

CONFOR FOAM SEAT CUSHION

Confor Form (formerly called Temperfoam) is the conforming foam cushion that was developed for the "Astronaut's Couch" back in the Apollo space program. Confor Foam has the capability of absorbing a tremendous amount of impact shock compared to common polyfoam and it is flame resistant. It is an excellent product that will give your seats enduring comfort that you never thought possible. Adapts to you for pressure point-free comfort that is really incredible. The best universal cushion for aircraft use is a 3" CF42/CF45/CF47 laminate. Confor Foam meets FAR 25.853, FAR 25.855, and CAL 117 burn specifications making it excellent for certified aircraft or homebuilts. Some special sizes in 1", 2", or 3" thicknesses are available on special request.

1" x 16" x 18" ..... P/N 01-09310 ..... **$21.85 ea.**
2" x 16" x 18" ..... P/N 01-09320 ..... **$45.75 ea.**
3" x 16" x 18" ..... P/N 01-09300 ..... **$74.75 ea.**

INFLATABLE LUMBAR SUPPORT

The inflatable air pillow can be installed just under the seat material and will give you the customized support where you need it. A convenient palm-size pump and a release valve control the firmness of the lumbar support. The In-Flight Back Support is made of a heavy-duty self-extinguishing neoprene rubber, specially designed to pass FAR 23.853 flame-test requirements.

One inflatable lumbar support ..... P/N 13-01501 ..... **$49.75**
Two Inflatable lumbar supports ..... P/N 13-01821 ..... **$81.95**

GE SPACE INVADER FOR WINDOWS AND DOORS

Space Invader Window & Door formula produces a dense cell structure that exerts minimal pressure on surrounding lumber, and the frames of windows and doors. When cured, most of the foam's cell cavities are quite small and closely spaced (70 percent of the foam's cell structure is in this form, known as closed-cell, according to GE). This closed-cell structure permits 90 percent less water to enter it than comparable products, says GE. 12-ounce can

P/N 01-09200 ..... **$15.90**

VACUUM BAGGING SUPPLIES

CM

VACUUM BAGGING TECHNIQUES BOOK - P/N 01-14803 ..... **$5.05/ea.**

VACUUM BAGGING FILM - #7400 film is a high grade nylon 6 film. It is transparent green in color and heat stabilized for long term, 350°F cures. Film is soft & pliable and ideal for high temperature composites, metalbond, and any function requiring heat & pressure. Width: 54".
P/N 01-14805 ..... **$1.66/Yd.**

4.5 OZ. BREATHER/BLEEDER PLY - #3450 is a 4.5 oz./sq. yd. non-woven polyester breather system used for even volatile evacuation from vacuum bags. It can be used at pressures up to 85 psi (5.8 bars). Multi-directional conformability make it a very efficient breather. This breather does not contain any binders which could seal the air flow. Width: 60".
P/N 01-14810 ..... **$1.85/Lin.Yd.**

STRETCHLON VACUUM BAG FILM 60" - Modified urethane film with incredibly high elongation, which allows anyone to vacuum bag easily. This film has memory and can be reused. .0015 x 60" x 200 ft (38μ x 1.52m x 62m) approx shipping weight 18lbs per roll (8.1 kg). 500% elongation with memory. Maximum temperature use 250°F (122°C). Available in 120" wide (3.04m). Elastomeric thin film, perfect for compaction. Not affected by low humidity, always stays soft with no cracking. Can be heat seamed to custom shapes reducing labor costs. Fewer pleats necessary, conforming to autoclave pressures
P/N 01-01080..... **$4.60/Lin.Yd.**

10 OZ. BREATHER/BLEEDER PLY - #3100 is a 10 oz./sq. yd. nonwoven polyester breather system used for even volatile evacuation from vacuum bags. It can be used at pressures up to 200 PSI (13.8 bars). Multi-directional conformability makes it a very efficient breather. This breather does not contain any binders which could cause seal-off of air flow. Width: 60". P/N 01-14815..... **$4.50/Lin.Yd.**

2 OZ. NYLON RELEASE PLY - #5201 SRB is a smooth nylon fabric which has been scoured and heat set so that it is contaminate free and will not shrink during the laminate cure cycle. It is then coated with a special release blend. The peel ply may be used for composite manufacturing and metal bonding, but is not recommended for use with resin systems containing phenolic. Thickness: .005". Color: Blue. Width 60".
P/N 01-14820 ..... **$8.65/Lin.Yd.**

3 OZ. POLYESTER RELEASE PLY - #5252SRB is a medium coarse weave polyester peel ply that leaves a surface with a rougher texture. It has been scoured and heat set to eliminate shrinkage during use and then coated with a special release blend. It can be used on all composite and metal bonding systems and is not affected by resin systems containing phenolic. #5252 provides protection of the laminate surface between primary & secondary processing. Thickness: .006". Color: Blue. Width: 60". P/N 01-14825..... **$9.75/Lin.Yd.**

RELEASE FILM - #2410 material is the most economical release film available that can be used at temperatures over 350° F. The film has handling qualities similar to the lowest priced halohydrocarbon film. Thickness: .002". Color: Clear. Width: 54".
P/N 01-14830 ..... **$3.10/Lin.Yd.**

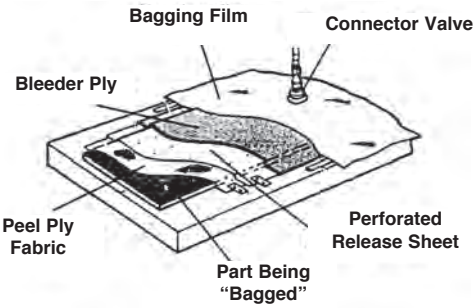
POROUS TEFLON COATED RELEASE FILM - #7025 is used where a medium weight porous release fabric is required on the surface of a part. During the cure of the assembly it will allow excess resin and all of the air and volatiles to pass into the bleed/breather ply (CFM Airflow 70). At completion of the cure the fabric will release cleanly from the assembly. Color: Brown. Width: 37.5". 10 yard min. order.
P/N 01-14835 ..... **$5.50/Lin.Yd.**

NON-POROUS TEFLON COATED RELEASE FABRIC - #7039 is a light weight extra smooth TFE coated glass fabric. It will leave little or no fabric imprint on most composite lay-ups. It is used as a release fabric where there is no requirement for bleeding or breathing resin or volatiles from the composite lay-up. It is mainly used for protecting caul sheets from resin contamination and as a release media on tool surfaces. Thickness: .003". Color: Brown. Width: 37.5".
P/N 01-14840 ..... **$13.50/Lin.Yd.**

FLASH TAPE - #6045-02 is a polyester backing film with a fully cured silicone adhesive. This tape is very tough and ideal for resin or adhesive flash removal. Color.: Blue. Thickness: .002". Roll size: 1" wide x 72 yds. P/N 01-14845..... **$16.90/roll**

400° F RESISTANT SEALANT TAPE - #4401 is a grey vacuum bag sealant tape that removes cleanly from the tool surface at the completion of the cure cycle. It can be used at any temperature up to 400° F. It can be used on any tool surface now in use and has been a standard of the industry for many years. It has high initial tack and is very easy to apply to prevent leaks between the bag and tool. It works well for composites, metalbond, or any function that requires temperature and/or pressure up to 400° F. Color: Grey. Size: 1/8" x 1/2" x 25 ft.
P/N 01-14850 ..... **$6.25/roll**

SEALANT TAPE ROLLER - #9050 is a plastic roller designed to assist in applying sealant tape between the bag and the tool. It assists the operator in applying maximum pressure to make a leak-proof, smooth seal. The unit is lightweight and easy to use, and the plastic roller helps prevent damage to the film. Roller width: 1-3/16". Roller Diameter: 1-3/8".
P/N 01-14875 ..... **$24.50/ea.**



VACUUM VALVE - TWO PIECE - #8112 is a two-piece vacuum valve which requires one quarter turn to lock in place. Service temperature to 500° F. This valve is an industry standard The base is anodized and is red in color. Inside Diameter: 1/4" standard. Threads: 1/4" NPT.
P/N 01-14855 ..... **$28.50/ea.**

OVEN VACUUM HOSE - #8020 is a thick walled, flexible silicone hose. It is normally used for debulking and oven cures using vacuum only. Furnished in standard 10 foot lengths. Other lengths available on special order. Hose size: 1/4" ID. P/N 01-14860 ..... **$109.95/ea.**

HIGH TEMPERATURE QUICK DISCONNECT SET - #8432 is a two-piece quick disconnect both male and female for use to 500° F at pressures up to 200 psi (13.8 bars). Sold as a set of male & female components.
P/N 01-14865 ..... **$23.75/set**

SHRINK TAPE - #9010 is an oriented polyester film designed to shrink as the laminate approaches cure temperature. The applied pressure is maintained during cure. It is used extensively where the shape of the assembly makes conventional bagging too labor-intensive. If excess resin needs to be released during cure, perforating the shrink tape after the assembly has been wrapped with a porcupine roller will reduce the resin content as well as permitting air and volatiles to escape. Thickness: .002". Width: 1-1/4", Roll length: 100 yds.
P/N 01-14870 ..... **$15.85/roll**

GREENFLOW 75 - Greenflow 75 is designed to efficiently distribute resin with little waste due to the low profile, tight construction. Greenflow 75 can be used with polyester vinlyester and epoxy resins. Color: Green. Thickness: .035± .003 (.89mm±75μm). Melt Point (Method:DSC): 230°F (161°C). Configuration of Net: Rhombic
P/N 01-01081 ..... **$3.00/Lin. Yd.**

PORCUPINE ROLLER - #9060 is a steel roller with a wood handle designed to perforate films to allow air, volatiles, and some resin to flow through the film. The amount of resin flow can be controlled by the depth of the pin penetration. Also useful on foam to give the bonding adhesive a better grip on the foam surface. P/N 01-14880 ..... **$85.25/ea.**

VACUUM GAUGE - a dial faced vacuum gauge capable of displaying vacuum from 0" to 30" Hg. It is 2" in diameter and can be used on the vacuum pump line, holding tank, or with a vacuum valve to determine vacuum in specific areas of a bagged assembly. Fitting size: 1/4" NPT.
P/N 01-14885 ..... **$15.50/ea.**

VACUUM PUMP - Standard vacuum pump ideal for small shop vacuum bagging operations. P/N 01-14891 ..... **$374.00/ea.**

VACUUM PUMP KIT - Includes vacuum pump, gauge, valve, fittings, and hose. P/N 01-00164 ..... **$437.95**

VACUUM RELIEF VALVE - P/N 52763..... **$14.75**

BAGGING SUPPLIES STARTER KIT - Includes 10 yards of Vacuum Bagging Film #7400, 10 yards of 4.5oz. Breather Bleeder #3, 1 roll 400° resistant Sealant Tape (25 yards/roll), 10 yards Dacron Fabric 1.8oz.x 60", & 10 yards 60" x .001 Perforated Release Sheet.
P/N 01-14894 ..... **$123.95**

PERFORATED RELEASE SHEETS - 60" width, .001 thickness. Sold by the yard. P/N 01-14895 ..... **$4.40/yd.**

ECONOMY VACUUM GENERATOR - a low cost and reliable method of generating a vacuum for those who already own an air compressor. The generator will create 27" of Hg vacuum/pressure when coupled in-line to an air compressor capable of producing 2.2 cfm. Larger air compressors are advisable for continuous use applications. Suitable for parts up to 80 ft2. P/N 12-11148 ..... **$174.85**

VACUUM FORMING MACHINE CONSTRUCTION PLANS - Now only available on CD. You can take the disc to Kinko's and print the full set, or view it on your computer and print only what you need? 100 page illustrated assembly manual. About 30% of plans purchasers build a machine (based on oven kit sales), and almost no questions! Complete specifications are given for all parts. Easy to read construction manual uses a ring type binding so it lays flat and includes illustrations to make every step easy to understand. Here's what you get on disc: 106 page illustrated assembly manual with wiring diagrams in a ring binder. Separate parts lists, wood and steel cut lists and pump and tank sources. 3 full size cut-away drawings of an assembled machine 27 fully dimensioned assembly and parts drawings. 4 photo pages with 36 color pictures. P/N 01-14896 ..... **$59.95**

AIRCRAFT PLASTIC REPAIR

A complete line of plastic repair an drefinishing products, as well as instructional materials, which make plastic repair easy and effective. Why spend alot of money on aftermarket aircraft parts, when quality repairs can easily be made on the originals? The materials listed below are specifically engineered to be used on plastics and can be used to repair and refinish the following: Cracked or broken instrument panels, wingtips, fairings, yokes, wheel pants, all types of plastic fairings, strut and landing gear fillets, headset housings, antenna housings, stripped threads and cracked mounting holes in plastic components and more! These materials can also be used to fabricate missing sections of your existing component or to create small parts.

1000-A SUPER CLEAN PLASTIC CLEANER (19 FL.OZ.)

Before doing any sort of plastic repair, use Super Clean plastic cleaner to maximize the durability of your repair. Super Clean removes mold release agents, wax, grease, silicone, tar, bugs, sealers and other contaminants from painted or unpainted plastic or metal surfaces. It's simple to use, just spray it on and wipe it off with a clean, lint-free cloth.

P/N 01-00533.....**$9.75**

2020-T SMC HARD-SET FILLER (2-5OZ. TUBES)

SMC Hard-set Filler is a 2-part epoxy system that is very rigid when fully cured. It works on ABS, SMC, fiberglass, polycarbonate and on any other repair application that requires a rigid, high impact resistant repair material. It has a working time of 3 to 4 minutes and is ready to sand in 15 minutes.

P/N 01-00534.....**$20.75**

2045W STAINLESS STEEL REINFORCING MESH (50 SQ.IN.-5"X10")

Reinforcing Wire Mesh is designed to be used to reinforce any repair made with an airless plastic welder. We recommend that the mesh be used to when a tear goes to the edge of the plastic. Since it is stainless steel, it is 5 times stronger than aluminum wire screen and is virtually impervious to oxidation under normal conditions. You can also use the mesh to fabricate tabs, fill holes and provide reinforcement in any meltable plastic.

P/N 01-00536..... **$5.25**

2100-1 SMALL INSTA-WELD KIT

Each Insta-Weld Kit comes with Insta-Weld 1, Insta-Weld 2, Activator, and Weld Compound. A complete set of instructions is included with each kit. This kit is designed to repair SMC, fiberglass, hard plastics, metals, rubber and other materials too numerous to mention. It does not work on polypropylene, polyethylene or TPO substrates. The small Insta-Weld Kit comes with a 1 oz. bottle of both the Insta-Weld 1, Insta-Weld 2 & 2 oz. bottle of Activator & weld compound.

P/N 01-00538 .....**$31.25**

2200-1 INSTA-WELD 1 (THIN)

Insta-Weld 1 is our "thin" adhesive and is to be used when you have a clean break with no gap to fill. It has the consistency of water. To use, spray the borken area with 2303 Activator, clamp the parts together then appy a small amount of Insta-Weld 1. The adhesive will wick into the crack and create an instant repair. It does not work on polypropylene, polyethylene or TPO substrates.

P/N 01-00539 .....**$13.50**

2250-1 INSTA-WELD 2 (THICK)

Insta-Weld 2 is our "thick" adhesive and is to be used when it is necessary to fill a gap. Insta-Weld 2 is about the consistency of 30 weight oil. To use, spray one side of the break with 2303 Activator, apply Insta-Weld 2 to the other side, then clamp together. It does not work on polypropylene, polyethylene, or TPO substrates.

P/N 01-00540 .....**$13.85**

2303-3 INSTA-WELD ACTIVATOR (2FL. OZ. W/SPRAYER)

Our quick spray Activator causes instant curing of all Insta-Weld adhesives. Actovator may be used before or after adhesive is applied. Come in plastic bottles and include sprayer.

P/N 01-00541 ..... **$12.50**

PLASTIFIX REPAIR KITS

Plastifix repairs virtually any rigid plastic and works exceptionally well on ABS. Repair cracks, fill gaps, reinforce repairs, rebuild broken tabs, fix stripped threads, and more. PlastiFix's most unique feature is the FlexMold molding bar which allows you to create a mold and cast missing pieces. No other plastic repair is more versatile. the 30 gram kits are enough to complete approximately 24"+ of cracked plastic repair. The large kits will do about 24 feet. **Kit Includes:** 253X Plastifix Powder 30G, 2520 Plastifix Liquid 50ML, 2542 Dropper Bottle Assembly, 2543 Power Application Cup, 2548 Transfer Pipette, 2550 Applicator Needle Qty: 2, 2560 Flexmold Molding Bar 10CC.

2501-PlastiFix Repair Kit (30g, white)..... P/N 01-00542 ..... **$30.75**
2503-PlastiFix Repair Kit (30g, black)..... P/N 01-00543 ..... **$29.85**
2504-PlastiFix Repair Kit (30g, clear) ..... P/N 01-00544 ..... **$29.85**
2502-**Large Kit includes:** 2531-L Plastifix Power 150G (WHITE), 2532-L Plastifix Power 150G (BLACK), 2520 Plastifix Liquid 250ML, 2542 Dropper Bottle Assembly QTY 2, 2543 Power Application Cup QTY 2 2548 Large Transfer Pipette, 2550 Applicator Needle QTY 4

P/N 01-00545 ..... **$89.75**

3800-4 FLEX-TEX FLEXIBLE TEXTURE MATERIAL (QUART)

Flex-Tex is a unique blend of materials designed to be used for re-texturing repaired areas on instrument panels, consoles, etc. A wide variety of pebble-grained textures can be achieved with this product by varying the air pressure, distance from work, and speed of pass. Apply with a regular spray gun or a PreVal sprayer. Dries flat black. Must be top-coated with color for durability and appearance. P/N 01-00546.....**$22.65**

MICRO-WELD 100

Micro Weld 100 is a versatile and economical tool for repairing many type of plastics. Airless welding provides the do-it-yourself-er and professional alike a way to economically repair many of the items that would normally be thrown away. Excellent for repair of plastic aircraft parts. **FEATURES:** • 100 Watt heating element with built in temperature control unit • 2045W Stainless Steel Reinforcing Mesh • 5027HT Welding Tip • Welder Stand • Carry Case • Instruction Booklet • 15ft of 6 different welding rods

P/N 01-00766 .....**No Match**

BUMPER & CLADDING COAT (PINT)

Permanently recolor faded, scuffed, marred, or discolored plastics. Sticks to plastic without adhesion promter or primer. Just clean the plastic with Super Clean Plastic Cleaner & spray the paint. No mixing required! Gives satiny, OEM look when dry.

Black (pint) ..... P/N 01-00548 ..... **$35.00**
3601-4 Light Gray (quart)..... P/N 01-00552 ..... **$59.75**
3602-4 Dark Gray (quart)..... P/N 01-00553 ..... **$55.25**

CS100 CLEAN SHEETS

Clean Sheets are great to have around the shop. They allow you to keep your epoxy mixes clean and smooth while saving time by always having a clean surface to mix on. No more cutting cardboard to mix epoxy. 100 sheets per board.

P/N 01-00550 .....**$32.50**

2043-U UNI-CLOTH FIBERGLASS CLOTH (9 SQ.FT.)

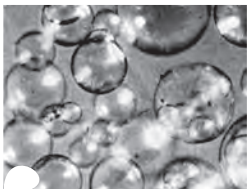
Uni-Cloth is a quality fiberglass cloth that is well suited for reinforcing plastic repairs as well as any other application requiring fiberglass reinforcement.

P/N 01-00535.....**$14.45**

Plastics Repair Instructional Book - P/N 01-00554.....**$28.25**
Plastics Repair Instructional DVD - P/N 01-00555 ..... **$14.95**

FILLERS

GLASS BUBBLES



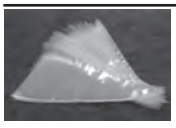
These bubbles are actually hollow glass spheres. Because the high-quality glass is very crush resistant, the foam is much stronger, stiffer and water-resistant than any foam made by chemical foaming. These foams displace 4-6 times their weight in most resins and improve the handling characteristics of the base resin. They have a low bulk density and are nontoxic. Mix resin and hardener as directed, then fold in the glass bubbles. Upon cure, a strong, low-density product results which is easy to sand and file. May be shaped to form compound angles and curves. The term "micro" was applied to the mixture of microspheres and epoxy early in the development of composite structures. Although microspheres have been replaced by glass bubbles the word "micro" is still commonly used to reference the mixture. "Micro' is used to fill voids and low areas, to glue foam blocks together and as a bond between foams and glass cloth. Micro is used in three consistencies - (1) a "slurry" which is a one-to-one by volume mix of epoxy and glass bubbles, (2) "wet micro" which is about two to four parts glass bubbles by volume to one part epoxy, and (3) "dry micro" which is a mix of epoxy with enough glass bubbles to obtain a paste which will not sag or run (about five parts to one by volume). In all instances glass bubbles are added to completely mixed epoxy resin and hardener. Wet micro is used to join foam blocks and is much thicker than slurry (it has the consistency of honey) but can be brushed. Dry micro is used to fill low spots and voids and is mixed so that it is a dry paste and will not sag. Apply with a putty knife. Never use micro between glass layers.

CAUTION - When mixing epoxy and glass bubbles, wear a dust mask and keep your face away from the balloons that may float up into the air. Although glass balloons are inert, they can lodge in your eyes or in your lungs and cause problems. Handle with care.

One Pound Bag (Approx. 1 Gal.)..... P/N 01-14600..... **$9.65**

Five Pound Bag (Approx. 5 Gal.)..... P/N 01-14700 ..... **$39.85**

DISPOSABLE ICING BAGS



These 12" disposable icing bags are ideal for applying beads of any size of micro epoxy or flox epoxy to all surfaces. Great for close-outs and are real time savers. Simply fill, cut end to desired bead size and squeeze. Never breaks down from epoxy. Sold in packs of 100 icing bags.Pack of 100 bags P/N 01-14710 ..... **$14.75**

CAB-O-SIL

Cab-O-Sil is a fumed lightweight silica thickener used to reduce the flow of epoxies on vertical surfaces, as well as filling pinholes with its smooth texture.

1 gallon bag..... P/N 01-04711..... **$10.95**

FLOCKED COTTON FIBER

A structural resin filler. The mixture of cotton fiber and epoxy is referred to as "flox". The mixture is used in structural joints and in areas where a very hard, durable buildup is required. Flox is mixed in much the same way as dry micro but only about two parts flock to one part epoxy is required. Mix in just enough flock to make the mixture stand up. If "wet flox" is called out, mix it so it will sag or run. Flox is often used to reinforce a sharp corner. Paint a light coat of pure epoxy inside the corner, trowel flox in to make a triangular support. The flox corner is done just before one glass surface is applied for a wet bond to one surface.

1 Lb. Bag ..... P/N 01-14800..... **$3.95**

5 Lb. Bag ..... P/N 01-14900..... **$19.75**

MILLED GLASS FIBERS

As the name implies, this material is made by milling fiberglass into a very thin consistency. This material is used in preparing a structural filler. This material is used in fillets that require structural integrity. Milled fiber fillers have higher strength than cotton flock but have fine particles of fiberglass that can penetrate the skin.1 Lb P/N 01-14780 ..... **$4.65**

PELOUZE DYMO DIGITAL SCALE

Ultra-compact design for super portability. Features an LCD screen with easy-to-read digital readout. Convenient "hold" feature locks weight display for ten seconds after item is removed. Digital postal rates. Rates update with Internet download. Operates on: 3 AAA Batteries (included)..... P/N 12-01580..... **$69.85**

3M™ #77 SPRAY ADHESIVE

This aerosol spray adhesive works well to laminate styrofoam sheets together. Laminations cut well with a hot wire. Net wt. 16.75 oz.

24 fl. oz. Aerosol Spray Can ..... P/N 09-28330..... **$18.50**

PUTTY FLEX FILLER

Urethane Supply Company's 1047 Putty Flex is a premium polyester finishing glaze that provides superior adhesion with excellent flexibility on plastics. Putty Flex produces excellent feather edge results on plastic, metal, SMC, fiberglass, cured primer and paint. Use to fill pinholes, dings, scrapes, sanding scratches and more! Putty Flex sands easily and resists clogging sandpaper.

P/N 01-00961 ..... **$23.75**

ECONOMY DIGITAL SCALE

LCD display that shows ounces, pounds or grams. "Tare" feature lets you "zero-out" container's weight. Sealed buttons prevent damage from spills. Maximum capacity of 176 ounces (11 lbs. or 5000 grams) Automatic 40 second shutoff saves batteries. Not for commercial use. Uses four AA batteries, not included. Overall dimensions: 9-1/2" L x 6-3/4" W x 1-1/2" H P/N 12-02585..... **$32.85**

BONDO

Automotive body filler, used extensively in composite construction to hold jig blocks in place, and for other temporary fastening jobs. Hardens quickly and can be chipped off without damaging the fiberglass. The color of the mixture is used to judge how fast it will set. As more hardener is added, the brighter in color the mixture becomes and the faster it hardens.

#261 Pint (1-1/2 Lb.) ..... P/N 01-00365..... **$5.75**

#262 Quart (3 Lb.)..... P/N 01-00366..... **$7.95**

#265 Gallon (12 Lb.) ..... P/N 01-00367..... **$23.75**

DYNALITE

A formulation of polyester resin, talcs and Microspheres used as a lightweight filler on metal and fiberglass. Works easily, sands faster. Only 7.5 lbs. per gallon as compared to 12 lbs. per gallon for conventional fillers.

494 Gallon .....P/N 01-00368 ..... **$20.75**

492 Quart.....P/N 01-01072 ..... **$10.50**

FIX-IT

A universal repair compound. It is excellent for rebuilding or fabricating parts and as an all purpose adhesive for wood, metals, ceramic, glass, and many plastics. Fix-it can be tapped or drilled, sanded, filed or painted. Patch holes and cracks and seals leaks. Sets rock hard overnight. Fix-It Metal is the same as standard Fix-It except it is loaded with aluminum metal to match the strength, weight, and use for each project. Fix-It is non-toxic, non-hazardous, and impervious to fuels and liquids.

Fit-It 1/4 Lb kit..... P/N 01-14770..... **$10.95**

Fit-It 1 Lb kit..... P/N 01-14775..... **$21.70**

Fit-It Metal 1/4 Lb kit... P/N 01-14790..... **$10.95**

Fit-It Metal 1 Lb kit..... P/N 01-14795..... **$21.70**

MEGUIAR'S MOLD RELEASE #8

Meguiar's® Mold Release Wax is a blend of imported waxes specially formulated to provide a maximum number of releases per application.

P/N 01-09415 ..... **$12.60**

FILLERS – PRIMERS

SUPERFIL BY POLY-FIBER

An ultra-light, corrosion-inhibiting filler for aircraft, marine and automotive use. Adheres to composites, bare aluminum, steel and bare or varnished wood. Easy to mix & apply: mix 2 parts A:1 part B by weight: apply with squeegee; let dry overnight. Excellent sanding qualities. More consistent than hand-mixed micros. Wt: less than 5 lbs/gal. Ships Non-Hazmat.

1 Quart Kit (20oz. Resin/12oz Hdnr).....P/N 09-28250 .....**$22.90**
3 Gal Kit (2 gal.Resin/1 gal. Hdnr).....P/N 09-28260 .....**$204.00**

UV SMOOTH PRIME FILLER/PRIMER

The pinhole killer! Waterborne polyurethane primer plus UV blocker applied with a foam roller or spray gun. Fills pinholes in layups or molded parts. White color. Once UV Smooth Prime has dried for 7 days, spray white two-part catalyzed Epoxy Primer to seal the surface and provide moisture and chemical resistance prior to spraying top coat paint. Dry sand for a smooth, pinhole-free surface. Dries in 20 minutes, sand in two hours. Clean up with water. Use Poly-Fiber Gun Cleaner to clean your spray gun after each day's spraying. NON-HAZMAT. Three gallons required for most composite aircraft. ***CROSSLINKING NO LONGER REQUIRED.***

1 qt. w/16 ccCrosslinker.....P/N 09-28280 .....**$58.20**
1 gal. w/64 ccCrosslinker.....P/N 09-28290 ....**$176.00**

FEATHER FILL

A sprayable polyester filler/primer used for filling of minor surface irregularities such as scratches, blemishes and exposed fiberglass threads before final sanding and painting. It adheres to bare metal, plastic filler and fiberglass with minimal surface preparation. Cures ready to sand and paint in 45 - 60 minutes. Any type of finish - lacquer, enamel, acrylics - can be applied over Feather Fill with excellent adhesion. Quart kit includes catalyst and instructions. Approximately six quarts are required for finishing a Vari-Eze. ***DO NOT WET SAND.***

#401 (1 Qt.).....P/N 01-00369 .....**$41.75**
#391 (1 Gal.).....P/N 01-00370 .....**$127.95**

RUST DEFENDER SANDABLE FILLER

A one step finishing material from bare metal, body filler plastic, wood, aluminum, or fiberglass to a surface ready to accept any type of paint without concern about penetration of solvents or moisture. Provides fast build-up and fill, is non-shrinking, easy sanding, wet sandable and waterproof, and self-etching. Can be sprayed or brushed on and can be built up like Bondo or Featherfill. Ready to sand in one hour, and it does not clog up your sandpaper. Pot life and cure time aare about one hour at 70 degrees Farenheit. Versatile polyester filler.

Quart.....P/N 01-00558 .....**$73.65**
Gallon.....P/N 01-00559 .....**$162.95**

FILL BOND PUTTY

Fill Bond aerospace putty from Sherwin-Williams Aerospace Coatings has been created specifically for aerospace use. Designed to fill rivets, seams and small spot-repair areas on the exterior of aircraft fuselage and wings, this high-build body filler is now available in a convenient epoxy version. Fill Bond putty is extremely flexible, offers direct-to-metal adhesion (with properly pretreated aluminum), provides excellent spread ability and offers a long, workable pot life to give users the amount of time to apply material on a variety of aircraft surfaces, including aluminum and composites. The epoxy putty dries quickly for a fast sand - in just two to six hours. A specially-designed Fill Bond dispensing gun enables users to apply putty exactly where it is needed without requiring additional tools. There's minimal waste following application. Users apply only as much product as they need and then can put the cap back on the convenient cartridge containers for later user, saving on material and disposal costs.

Fill Bond Cartridge 750ML.....P/N 01-01124.....**$97.85**
Fill Bond Cartridge 375ML.....P/N 01-01125.....**$75.50**

AEROPOXY LIGHT 6 LB KIT - P/N 02-30007 ..... **$109.75**

HYSOL EPOXY PATCH KITS

EPL0151 is a clear two part resin / hardener which is ideal for bonding fiberglass, PVC, and graphite. Cure time is 6-8 hours. EPK1C is a white 2-part resin / hardener epoxy system which is used to bond aluminum and ceramics.

EPK0151 Kit, 3.35 oz. (fiberglass)
P/N 01-15875..... **$13.50**
EPK1C Kit 4.0 oz kit (aluminum)
P/N 01-15880..... **$11.50**

LITE WEIGHT FILLER

Lite Weight autobody filler is a very versatile filler which is excellent for holding jig blocks in place during composite construction. Applies evenly and allows sanding within minutes. Cures well even in humid climates. Creme hardener is included.

Quart..... P/N 01-00243..... **$23.50**
Gallon..... P/N 01-00244..... **$33.75**

WEST SYSTEM 410 MICROLIGHT

An excellent filler which provides easy workability for a variety of applications. Easy to sand and cures to a neutral tan color.

1.7 Oz ..... P/N 01-08780..... **$15.69**
4.3 Oz. ..... P/N 01-08785..... **$31.10**

EPOXY SURFACE COAT

#1099 is a white, thickened epoxy material used to created the durable surface coat on room temperature epoxy molds. This surface coat can be brushed on as thick as 1/8" at a time without developing runs or sags. It is specially formulated to provide strong interlaminar bonds with the reinforcing materials, even if it is left unsupported overnight. #1099 readily accepts all our pigments, resists chipping and cracking, and retains its high gloss. Mix Ratio by Weight – 100:11.

3.33 lb. Quart kit ..... P/N 09-01099..... **$71.85**
Case..... P/N 09-01099-1 .... **$544.00**

PRIME COAT PRIMER / FILLER

Prime Coat ia s sandable, quick-drying aerosol primer which fills pin holes and scratches caused ny sanding on fiberglass, wood, metals and many plastics. Prime Coat will prepare the surface of materials for the finish coat and provides an effective corrosion barrier as well. Prime Coat is zinc chromate yellow and can be used under lacquer, enamel, acrylic or epoxy finish coats. 11 oz. can.

P/N 01-00305 ..... **$13.95**

PEEL PLY – PRIMERS – PAINTS

PEEL PLY

A layer of 2.7 oz. Dacron fabric strips or tape laminated into a layup as if it were an extra ply of glass. The peel coat wets out with epoxy like glass cloth and cures along with the rest of the layup. However, the Dacron does not adhere structurally to the glass and when peeled away it leaves a surface ready for glass-to-glass bonding without sanding.
Requirements for Small Aircraft:
• 3 Rolls of 1" x 50 Yds. Tape • 2 Rolls of 2" x 50 Yds. Tape • 1 Roll of 3" x 50 Yds. Tape • 1 Roll of 4" x 50 Yds. Tape

Width	Smooth Edge		Pinked	
50 Yd Roll	P/N 09-	Price/ Roll	P/N 09-	Price/ Roll
1"	15000	**$6.50**	15450	**$6.90**
2"	15100	**$14.25**	15500	**$13.75**
3"	15200	**$21.75**	15600	**$21.75**
4"	15300	**$28.75**	15700	**$29.00**
6"	15400	**$44.25**	15800	**$44.25**

Discount Schedule for Dacron Tapes: Less 10% for 12 Rolls (assorted) • Less 15% for 25 Rolls (assorted). Request quote on larger quantities.

FULL WIDTH PEEL PLY

Poly/Dacron blend is excellent as peel ply for composite lay-ups.
Full Width Peel Ply 2.7OZ, 64-66" #604
(Sold by the Yard).....P/N 09-00300 .....**$4.75**

Full Width Peel Ply 1.8 oz. X 64" #611
(Sold by the Yard).....P/N 09-00100 .....**$3.90**

Full Width Peel Ply 2.97 oz. X 62" #605
(Sold By the Yard).....P/N 09-00500 .....**$3.95**

MOLD RELEASE AGENTS

POL-EASE ® 2300 MOLD RELEASE

Provides superior release with minimum buildup on mold surfaces for casting urethane elastomers, epoxy, polyester, and rubber compounds. Molded parts are easily cleaned for finishing operations. It is effective on aluminum, steel, epoxy, polyester, and elastomeric molds; it does not distort intricate patterns. P/N 01-31749 ..... **$27.75**

MAXIMUM MOLD RELEASE WAX

Meguiar's® Mold Release Wax is a blend of imported waxes specially formulated to provide a maximum number of releases per application.
P/N 01-09415 .....**$12.60**

MOLD RELEASE WAX

High-temperature paste wax. 14 oz.
P/N 01-00177 .....**$13.50**

FIBERGLASS MOLD RELEASE

Plastilease 512B, a film-forming, water soluble parting agent, assures clean release of fiberglass parts from molds. For application by brush or spray.
P/N 01-30600..... **$31.75/Qt.**

LPS MRX SILICONE MOLD RELEASE

Excellent for releasing molded parts in high temperature and extreme pressure environments. MRX Silicone Spray Mold Release provides maximum releases and superior value for the end-user. This non-staining, non-corrosive mold release is heat stable up to 500°F. It is a nonflammable product and contains no class I or II ozone depleting chemicals. Like all LPS MR-series mold releases, MRX Silicone Spray Mold Release doesn't use Methylene Chloride.
16 oz. aerosol can .....P/N 09-00271 ..... **$12.50**

PVA RELEASE FILM

PVA (Polyvinyl Alcohol) should be used with #1016 Wax to aid in the release of parts form a mold. It should be applied in 3 thin mist coats over nonpourous, waxed mold surfaces.After the final wax coat has dried, begin by spraying a light tack coat of PVA. Typically, within 5 mins. the final heavier coats can be added. The PVA dries to form a smooth, glassy film. After part release, the residual film can be removed with water. We recommend using an inexpensive automotive siphon spray gun and 70-90 psi for application, although airbrushes will work on hobby size projects. PVA can also be sprayed over any polyester repair to provide an airless tack-free cure. For use with epoxies.
P/N 01-14813A **$24.75/qt**

ZOLATONE COCKPIT PAINT

Used to paint cockpit interiors, excellent on fiberglass. Gives a coarse, durable, professional finish. 1 gallon required for Long-EZ cockpit. Primer not required when used on fiberglass. Color chart available on request. Order Color Chart P/N 01-15815.

Color	Use Primer	Part No.	Price

HI GLOSS CLEAR POLYESTER TOP COAT

Features: * Super Clear - Glass like appearance * Scratch Resistant * Buffs to a Super Hi-Gloss Finish * Refinishes to Original Hi-Gloss * Practically a Walk-A-Way Gloss Finish **Product Applications:** * Exotic wood coating * Gel coat additive for air cure application * Musical instrument wood coating * Top coat over clear primers * Top coat over pigmented colors for clear depth * Automotive interior composite parts clear coating * Archetectural wood crafts
Quart .....P/N 09-02168 ..... **$36.50**
Gallon.....P/N 09-02169 ..... **$104.50**
Requires Catalyst P/N 01-01119.

COMPOSITE TOOLS

AIRCRAFT DESIGNER APPROVED TOOLS

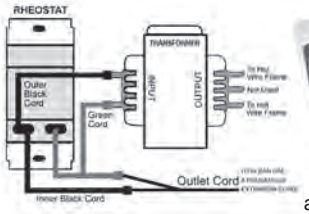
The tools offered in this section have been selected by professional aircraft designers and builders as being either necessary or highly desirable for working with composite structures.

KUT-MASTER FOAM CUTTING FRAME

These custom-built foam cutting frames can help produce professional results in foam cutting for the amateur builder. Constructed of 1-1/8" O.D. aluminum tubing, the heli-arc welded frame is lightweight yet extremely durable. The frames come completely pre-wired and ready to attach to the voltage controls shown below, and a tensioning system maintains uniform wire tension throughout the cutting process. The frames are stocked in 3 standard lengths, and custom frames are available on request (send sketch). Cutting depth is 11". Weight- 5 lbs.

2 Ft. Frame ..... P/N 01-15200 ..... **$162.95**
3 Ft Frame ..... P/N 01-15300 ..... **$178.95**
4 Ft Frame ..... P/N 01-15400 ..... **$211.95**

HOMEBUILDERS SPECIAL HOTWIRE KIT



An excellent new hot wire system consisting of a controller and transformer. Recommended by Rutan Aircraft Factory as a good system at a very economical price .

P/N 01-15600 ..... **$41.95**

SAFETY WIRE

Type 302 stainless steel safety wire, for hot wire cutter. This is superior to nichrome wire, which is brittle and breaks easily. Specify .032" or .041" diameter wire.

.032" Dia. Wire, 25 Ft. Coil..... P/N 01-15725..... **$1.25**
.041" Dia. Wire, 25 Ft. Coil..... P/N 01-15825..... **$1.25**
1 Lb. Spool ..... P/N 05-02687..... **$7.95**

INCONEL 600 HOT WIRE

Does not stretch. Excellent for hotwiring polystyrene foam.

.032" Dia. Wire ..... P/N 01-15805.....**$0.31 ft.**
.041" Dia. Wire ..... P/N 01-15810.....**$0.24 ft.**

MUSIC WIRE

Music wire is high carbon steel and although very high in tensile strength, must be capable of wrapping around itself without showing signs of cracking. 156 ft. of .049" dia. wire per lb., 46 ft. of .090" dia. wire, per lb. 22 Gal. **Price is per pound.**

.049" Dia. (1 lbs.)..... P/N 03-49500 ...**$3.97**
.090" Dia.(32Ga.,1lbs.) .... P/N 03-49600 ...**$3.15**
.062 Dia 302 Stainless..... P/N 03-49610 ...**$0.38**

TYPE 302 STAINLESS SPRING WIRE

062" Dia..... P/N 03-49610 ..... **$0.38 ft**

MICHAEL ENGINEERING EPOXY RATIO PUMPS

This highly recommended pump, aptly called "Sticky-Stuff Dispenser", will save about $50 in epoxy in building a VE type aircraft, plus time, mess, dermatitis, temper and risk of bad batches. Used by individual craftsmen and professionals alike, it is a practical engineering tool especially designed to eliminate the sticky, messy, costly hand proportioning of epoxy resins. It is well built and should last through the construction of dozens of aircraft. The Sticky-Stuff Dispenser assures accurate measurement of low-viscosity (under 3,500 centipoises) unfilled epoxy resin. The standard Model A dispenser pump delivers a ratio of 100 parts of resin to 44 parts of hardener.

Adjustable Ratio Pump ..... P/N 01-16010 ..**$298.00**
Rebuild Kit for 45:100 pump ..... P/N 01-00504 ...**$75.00**
Small round replacement container (qt) ..... P/N 01-15920 ....**$10.75**
Large square replacement container (gal).. P/N 01-15910 ....**$17.75**
Stainless Steel Check Valve (Use with Jeffco epoxies)
P/N 01-00258 ....**$56.50**

CALRAD VARIABLE VOLTAGE CONTROL

A fine quality control to supply the electrical current for hot-wire cutting of styrofoam and PVC foam. One unit can serve to build many aircraft. Input 115 volts AC Output variable from 0 to 130 volts AC at 5 amps Caution - fuse should be inserted in the secondary to protect the control in the event of a short circuit.

Input: 117V AC 60Hz 3-Prong AC cord. Output: 0-130V AC Adj 60Hz; volt meter, power jack. Fuse Protection AGC: 5 Amp. Max: 500VA P/N 01-15500..... **$144.75**

COMPOSITE TOOL KIT

This kit includes an assortment of many of the commonly required tools used in composite construction.

QTY.	PART NO.	DESCRIPTION
1	20W	Glass Shears
1 box	01-25800	500 Mixing Sticks
2 boxes	01-25700	12 oz. Mixing Cups
2 boxes	01-25710	16 oz. Mixing Cups
10	01-24899	3" Plastic Squegee
10	09-21200	1" Disposable Brushes
10	09-21300	2" Disposable Brushes
1	12-01580	Electronic Scale
2 boxes	01-36550	Latex Gloves
1	GLR123D	1/2" x 3" Laminating Roller
1	GLR12C	1/2" Corner Roller
1	GLR26	2" x 6" Plastic Grooved Roller

Kit - P/N 01-00166 ..... $232.95

COMPOSITE TOOLS

DISPOSABLE RESPIRATOR REPLACEMENT PARTS

Dusts, Mists, & Fumes Pre-Filter ..... P/N 01-00382..... **$1.85**
Fit/Check Filter Cover..... P/N 7500-27..... **$2.30**

GROOVED LAMINATING ROLLERS

These are the standard laminated rollers for wetting out woven roving and mat with polyester resin. Use with epoxy resin for applying tape into corners and for spreading thickened epoxy over large areas for gluing and fairing.

1"x 3" ..... P/N 01-01054..... **$8.85**
1"x 6" ..... P/N 01-00396..... **$11.95**
1"x 9" ..... P/N 01-00383..... **$17.50**
2"x 3" ..... P/N 01-00384..... **$10.50**
2"x 6" ..... P/N 01-00385..... **$16.65**
2"x 9" ..... P/N 01-00386..... **$27.00**
1/4" Corner Roller..... P/N 01-00387..... **$10.60**
1/2" Corner Roller..... P/N 01-00388..... **$9.85**
1/2"x 3" Detail Roller..... P/N 01-00389..... **$7.65**
3/4"x 3" Detail Roller..... P/N 01-00390..... **$7.95**
3/4"x 6" Detail Roller..... P/N 01-00391..... **$16.85**

EPOXY LAYUP ROLLERS

3" wide roller with stipple adhesive cover. Has excellent stippling action for working out air bubbles in layups and has no tendency to lift the cloth. Use on all major layups. Order frame and cover separately.

Roller Frame Only..... P/N 01-24902..... **$6.75**
Cover Only ..... P/N 01-24903..... **$3.95**

PRECISE ACCU-KNIFE SET

Heavy duty cutting edges, Complete knife set. Over 40 blades to choose from. Specifications: • Blades are made of the highest-grade steel and are ground to razor sharpness for precision cutting. • Features include positive-holding blade lock • Nonslip handles. Complete with 8 different handles • 44 sharp blades • An aluminum-oxide, wet/dry sharpening stone • Packed in a handy plastic carrying-storage case with magnets to keep the blades in place

Fine precision cutting tools for the lab-highest quality knife set. Ultra-micro to heavy-duty cutting edges are perfect for corks, paraffin, plant samples, and rubber tubing. Exceptionally sharp knives are ideal for delicate, close-tolerance, accurate cutting needs.

High-grade steel construction - Blades are made of the highest-grade steel and are ground to razor sharpness for precision cutting. Features include positive-holding blade lock, nonslip handles, and a perfect weight for balance.

Over 40 blades - Comes complete with 8 different handles, 44 sharp blades, and an aluminum-oxide, wet/dry sharpening stone. Set is packed in a handy plastic carrying-storage case with magnets to keep the blades in place. P/N 12-00381 ..... **$67.50**

DISPENSER FOR MEKP CATALYST

Perfect to measure and pour catalyst. The bottle will hold 16 oz. of catalyst and dispenses liquid safely and accurately from 2.5 to 35 cc. Measurements are instantly repeatable.

P/N 01-08503 ..... **$12.65**

STAINLESS STEEL INSTAREAD THERMOMETER

Stainless Steel Instant Read 1: • Dial Thermometer • 0 Degree to 220 Degree F • Shatter-Proof Plastic Lends • Durable Stainless Steel • Plastic Case/Calibrating Tool

P/N 01-00394 ..... **$10.25**

POST CURE KIT

This kit consists of one post cure thermometer (P/N 01-00394) and 1 regulating thermostat (P/N 2E251) that allows control of electrical devices for heating. P/N 01-00393..... **$34.00**

JIFFY MIXER

This is a very effective 2-1/2" diameter stainless steel mixer on a 15" shaft. Attach to an air drill for fast, efficient mixing of larger batches. It will not dig into or gouge the sides or bottom of your mixing container.

P/N 01-00395..... **$22.60**

X-ACTO TOOLS

NO. 5282 KNIFE SET -
Nos . 1, 2 and 5 knives plus 10 assorted extra blades Handy, fitted chest.

P/N 01-17300..... **$29.75**

NO. 5083 KNIFE SET -
Nos . 1, 2 and 6 knives plus 14 assorted extra blades in beautiful wooden chest.

P/N 01-17400..... **$43.25**

X-ACTO BLADE NO. 11 - Classic fine point blade. A general purpose blade. Package of 5. P/N 01-16500 ..... **$4.35**

X-ACTO BLADE NO. 18 - X-Acto Blade #18. For deep wood chiseling. 1/2" surface. Package of 5

P/N 01-16600 ..... **$5.25**

Other X-Acto items also available. Call for pricing.

COMPOSITE TOOLS

STANLEY TOOLS

STANLEY TAPE MEASURE

This 12 foot steel tape measure, with 1/2" blade, is graduated in tenths and hundredths of inches and also in fractions of inches (32nds). Very handy for all aircraft construction. A "must" for composite construction.
No. 33-272 ..... P/N 33-272 ..... **$17.90**

STANLEY UTILITY KNIFE

Aluminum, die-cast in two sections - provides blade storage. Has handy hang hole. Furnished with No. 11-921 blade and blade guard.
No. 10-099 ..... P/N 10-099 ..... **$7.80**

KNIFE BLADE

Heavy-duty pointed razor-type utility knife blade for No. 10-099 knife and most other makes of utility knives.
No. 11-921 (Pkg. of 5 Blades)
P/N 11-921 ..... **$2.45**

HOOK BLADE

For use with No. 10-099 knife and most other makes of utility knives to cut linoleum, roofing material, cartons, etc., without damage. The razor-sharp hooked ends cut to full thickness in one stroke.
No. 11-961Pkg. of 5 Blades .....P/N 11-961 ..... **$6.20**

SPRING CLAMPS

Heavy-gauge steel clamps with vinyl grips and tips to prevent marring work. Jaws specially formed to hold flat or round objects. Two sizes available:
No. 3201-HT – Jaw Opening 1", Length 4"
P/N 83-261.....**$2.50**
No. 3202-HT – Jaw Opening 2", Length 6"
P/N 83-262.....**$3.75**

SINGLE-EDGE RAZOR BLADES

Used for trimming rough edges of laminates.
P/N 01-24904 .....**$0.17/ea.**

Box of 100 30% Discount.

DOVETAIL SAW

Cuts a true, smooth and narrow kerf. Comfortable hardwood handle provides positive grip. Professional quality.
No. 15-022 ..... P/N 15-140 .....**$27.90**

STRAIGHT EDGE

A 6-ft. long kiln-dried spruce board, 7/8" to 1" thick and 3" to 4" wide, used for checking the straightness of flying surfaces during composite construction.
P/N 01-25900..... **$18.85**

6" STEEL RULER

Flexible stainless steel rule graduated in l0ths and l00ths on one side and in quick-reading 32nds and 64ths on the other side.
6 inch ..... P/N 616..... **$5.25**
12 inch ..... P/N 12-02062.. **$8.95**

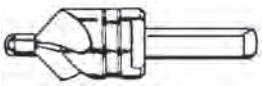
FELT TIP MARKERS

Used for marking locations on fiberglass throughout construction.
P/N 01-26000 ..... **$0.42**

12" LONG DRILL BITS

For use with standard electric drill for hard-to-reach jobs.
#10 (.1935" Dia.) ..... P/N 12-05500.....**$7.75**
1/4" Dia..... P/N 12-05600.....**$8.50**

COUNTERSINK



This assembly consists of a 1/2" dia. AT418E-4 100° cutter, a 1/4" dia. AT416- pilot and an AT409-1 adapter with 1/4" dia. shank for use with a hand drill. The adapter has a collet-like shaft to securely hold the replaceable pilot. Add pilot dash number to AT409. To complete part number see tool section for complete selection of pilots.
Complete Assemblies.....***See Page 680***

COUNTERBORE

A 5/8" diameter boring tool, with 1/4" diameter pilot. 10" threaded extension is used for boring holes in hard to reach places. Used in the installation of the landing gear on the LongEZ and Cozy aircraft. 3/4" bore does not have 1/4" pilot and must use the pilot received with the 5/8" boring tool.

5/8" diameter w/pilot..... P/N 12-00219 .....**$55.75**
3/4" diameter without pilot..... P/N 12-00220 .....**$39.50**

MINI GLUE TIP

Fits most Yorker top dispenser bottles. Just slip a Mini Glue Tip on spout and seal with a pin. Always ready for use-no fuss to fill, no mess to clean. Made of polypropylene - glues don't stick. For shallow tip bends, heat in water, shape with fingers until cool.
P/N 01-27000..... Pkg. of 4 Tips..... **$1.40**

RUBBER SEALANT

No. 732 RTV general-purpose, clear, one-part silicone rubber. Cures to a firm silicone rubber in 24 hours at room temperature.

4.7 Oz. Tube ..... P/N 09-27800..... **$7.95**

COMPOSITE TOOLS

ROTARY ("PIZZA") CUTTER

Makes clean cuts on fiberglass fabrics and other materials. The disc blade is made of high quality tungsten steel which is very sharp. Used by high-volume composite shops. Use with wooden backing board and handle knife with caution.

RTY-2 Cutter..... P/N 01-00299..... **$15.75**
Replacemnt Blade ..... P/N 01-00300..... **$6.95**
Blades (5 Pack) ..... P/N 01-00301..... **$27.75**

ALUMINUM ROTARY CUTTER FOR COMPOSITE WORK

This all aluminum cutter however, will not "melt" when exposed to acetone, methylene chloride and other chemicals used to clean the cutters after use on wet layups. After use the aluminum rotary cutter is cleaned by simply leaving it in a can filled with acetone.

Aluminum Rotary Cutter..... P/N 09-24906.....**$38.40**

90 DEGREE ALUMINUM ROTARY CUTTER FOR COMPOSITE WORK

This cutter handle is all aluminum with special stainless hardware for easy assembly when changing out rotary cutter blade. Will not melt when exposed to acetone, methylene chloride, and other chemicals. Good for wet layups. To clean, just drop in small container of acetone.... P/N 01-01047.....**$36.50**

PAINT BRUSHES

Natural, undyed bristle brushes with smooth, unpainted wooden handles. Unaffected by paints, dopes, resins, thinners or solvents.

1" Wide Brush..... P/N 09-21200 ..... **$0.43**
2" Wide Brush..... P/N 09-21300 ..... **$0.56**

RUBBER SQUEEGEE

Developed especially for working with epoxies, this 6", or 36" wide hard rubber squeegee is superior to the plastic types. Can be easily cleaned & reused many times.

6" Squeegee.....P/N 01-24901 .....**$3.95 ea**
36" Squeegee.....P/N 01-00012 ..... **$26.75ea**

NOTCHED SPREADER

This plastic spreader is excellent for spreading epoxy at a steady rate to provide an even surface. Measures 4" x 4" and is notched on three sides in increments of 1/8", 3/16", 1/4".

P/N 01-24909..... **$0.97 ea**

ORDER ONLINE!

www.aircraftspruce.com

• 60,000 Parts!
• 24 Hour Access!
• Fast, Easy Navigation!

GRADUATED TAPER-TIP APPLICATOR

This graduated 2 oz. syringe is ideal for measuring and dispensing precise amounts of resins and other liquids. **Note:** The ink used for the graduation lines are not solvent resistant. They will rub off if contacted with a solvent.

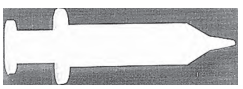
P/N 01-25635.....**$4.85**

DISPENSER BOTTLE

Polyethylene bottle with Yorker (applicator) cap.

4 Oz. Bottle ..... P/N 01-24905.....**$0.53**
16 Oz. (1 Pint) Bottle ..... P/N 01-24906.....**$1.20**

INDUSTRIAL SYRINGE



Made of hi-impact polyethylene with seamless body and special safety-grip plunger. Capacity 10 cc. Tapered dispensing nozzle can be clipped with scissors at proper diameter to govern output. Excellent epoxy dispenser.

P/N 01-25000..... **$2.75**

MIL GAUGES

These color-coded mil gauges are solid anodized aluminum for long life and come in four sizes for a variety of FRP applications. Machined to close tolerances (0.0001") for accuracy and available in mils (inches) and microns (metric).

3-18 mils ..... P/N 01-00411.....**$5.25**
10-35 mils ..... P/N 01-00412.....**$5.25**
40-65 mils ..... P/N 01-00413.....**$3.65**

MULTI-MEASURE PLASTIC CONTAINERS

Use again and again for liquid ingredient accuracy. A must-have item when mixing resins. Seal the liquid in the container with the matching sized plastic lid.

1 Qt. mix cup ..... P/N 01-00915..... **$0.99**
1 Qt. lid..... P/N 01-00926..... **$0.51**
2.5 Qt. mixing cup ..... P/N 01-00330..... **$1.84**
2.5 Qt. lid..... P/N 01-00331..... **$0.83**

EPOXY MIXING CUPS

Unwaxed, flat bottom paper cups in three convenient sizes for small mixes.

3 Oz..... (100 Cups)..... P/N 01-25600..... **$6.75**
8 Oz..... (50 Cups)..... P/N 01-00416..... **$9.50**
12 Oz... (60 Cups)..... P/N 01-25700.....**$13.75**

MIXING STICKS

These mixing sticks are medical tongue depressors which work well for mixing small batches of epoxy. Size: 3/4" x 6".

Box of 500.....P/N 01-25800.....**$10.75**

TAPERED OFFSET SPATULA

This tapered spatula is stainless steel with wood handle. Ideal for making 3/8" radii on bulkheads, ribs, or anywhere a uniform radius is required.

P/N 01-24915 .....**$3.40 ea.**

COMPOSITE TOOLS

DREMEL TOOLS

DREMEL MOTO-TOOL -
A versatile, precision power tool with many uses in the construction of composite aircraft. Ideal for wood, plastics and metals. Sturdy, shatter-proof nylon housing.

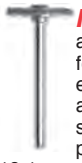
MODEL 100 MOTOTOOL - Constant Speed: 35,000 RPM. Lubricated bronze sleeve bearings. Amps: 0.8
P/N 01-18600 ..... **$46.95**

MODEL 395 MOTOTOOL - Variable Speed: 5,000-28,000 RPM with 100% ball bearing construction for long life, smooth operation. External caps allow for easy replacement of motor brushes. Amps: 0.75 (low speed), 0.9 (high speed) ..... P/N 01-18700 ..... **$79.25**

DREMEL TWO SPEED ROTARY TOOL KIT - The Dremel 200 Series rotary tool offers the precision and control required to complete a wide range of projects. Its two speed settings allow you to use the low speed setting for cleaning applications and using brush accessories and the high speed setting for routing, cutting and sanding applications. P/N 01-01145 ..... **$84.95**

DREMEL MOTO TOOL KIT #200-1/15
Low speed 15,000 RPM, high speed 28,000 RPM. 6ft. two-wire power cord does not require adapter plug. Keyless chuck for fast replacement of bits up to 1/8" shank size - also uses collets from 1/32" to 1/8" fine control (1/8" collets included) Kit contains Moto-Tool and 30 accessories, all in a deluxe Storage/Carrying Case. P/N 01-01129 ..... **$72.50**

NO. 402 MANDREL – The 402 mandrel is used primarily with cut-off wheels but is used with the following Dremel accessories: 409, 411, 412, 413, 420, 423, 425, 426, 456, 511, 512, 540 and 541. Shank Diameter 1/8″, 3,2 mm
P/N 01-22000 ..... **$2.45**



NO. 428 WIRE BRUSH – Ideal for cleaning and removing rust and corrosion from items made of brass, copper or other soft ferrous metals-such as tools, door knobs, automobile parts and electrical contacts. You can also use wire brushes to create an artistic effect on coarse-grained wood. Its shape makes it well suited for cleaning flat surfaces and getting into hard-to-reach places like slots. Bit Diameter Inch 3/4″. Bit Diameter mm 19,1 mm. Color Code Yellow. Description Carbon Steel Brush. Shank Diameter 1/8″, 3,2 mm. Model Number: 428 P/N 01-22100 ..... **$2.45**

REPLACEMENT MOTOR BRUSHES - (Specify Moto-Tool Model No.)
P/N 01-18701 ..... **per pair $3.25**

DREMEL 543 CUTTING / SHAPING WHEEL - For cutting and shaping on soft and hard woods, fiberglass, plastics and laminates (not metal.) This versatile wheel is coated with tungsten carbide grit for long life. It is coated on both sides, so it cuts and finishes in one operation.
P/N 01-01056 ..... **$15.75**

MULTIPRO CHUCK - The Dremel MultiPro chuck allows you to quickly and easily change accessories on your Dremel MultiPro rotary tools without changing collets. Will accept accessoroies with 1/32" - 1/8" shanks. Use only with corded MultiPro tool models 275, 285, 395, 595. P/N 01-00131 ..... **$9.50**

NO. 407 1/2" DRUM SANDER - Ideal for rough shaping of wood and smoothing of fiberglass. Sander bands are replaceable. Furnished w/ one band. 1/8" shank
P/N 01-19000 ..... **$3.30**

NO. 408 DRUM SANDER BANDS - 1/2" Diameter, Coarse grit. P/N 01-19100 ..... **$2.45**

CARBON MOTOR BRUSH - One pair of motor brushes for use with Dremel rotary tool model(s): 100, 200, 275, 285, 300, 395 and 595 (Type 4, 5 and 6) and Dremel contour sander 6000 (Type 1 and 2). P/N 01-01180 ..... **$3.55**

ALUMINUM OXIDE GRINDING STONES

Use on metals, castings, welded joints, rivets and rust. Ideal for sharpening, deburring and general purpose grinding of most materials.

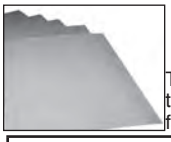
SANDING TOOLS

SANDING BLOCK

A hard rubber tool which comfortably fits the hand for scratch- to finish-sanding. Used by professionals for years in all sanding operations. Simply cut a piece of sandpaper 2-3/4" x 9" and insert each end into the sanding block. Paper is held securely by nail retainers. Makes the sanding operation much easier.

Model No. 100 ..... P/N 01-26400 ..... **$5.80**



SANDPAPER

The weights and grits listed have been found to be the most effective for sanding fiberglass/epoxy surfaces. Sheet Size: 9" x 11".

Sandpaper Type		Part No.	Price /Sheet Less than 50 Sheets
Aluminum Oxide 36 Grit	Open Coat "D" Weight	01-26200	**$1.30**

SANDPAPER 3M™

Wet or dry Tri-M-Ite (3M) is a silicon carbide abrasive paper made especially for producing satin-smooth finishes on metal and other doped, lacquered or enameled surfaces. Wet or dry performs best when used with water or oil, but can also be used dry. Sheet size 9" x 11". Available in 220-A, 280-A, 320-A or 400-A grit.

(Type A paper has an especially light, flexible backing).

Sandpaper Grit Size	Part No.	Price/ Sheet
120-A	09-20550	**$0.99**
220-A	09-20600	**$0.96**
280-A	09-20700	**$0.89**
320-A	09-20800	**$0.92**
400-A	09-20900	**$0.89**

CURVED TOOTH FILE

Milled files designed for smooth, fast work on annealed steels, hard plastics and composite materials. 14" length, 1-11/32x5/16 sections, 8 teeth per inch. P/N 01-00392 ..... **$39.50**

PREPPIN' WEAPON SANDING BLOCK

Preppin' Weapon is a handy sanding block made of Styrofoam core and high impact ABS that won't break when dropped. Easy to grip for wet or dry sanding. Contoured to fit the shape of a hand and is sized to fit a 1⁄4" sheet of plain backed 8 x 11 sandpaper or a 2 3⁄4" wide file paper. It's coil spring design holds single or multiple sheets equally tight and saves reloading time by stacking up to 4 sheets and tearing them away as the abrasive wears out. Save reloading time by using colors to indicate grits. Excellent for builders of aircraft, boats, cars, etc.

Yellow ..... P/N 12-00505 ..... **$16.75**
Red ..... P/N 12-00506 ..... **$16.75**
Green ..... P/N 12-00507 ..... **$16.75**

MINI-SANDER

A unique sanding tool which uses a 1-1/2" wide strip of sandpaper formed to make a belt. Locked taut by a patented mechanism that snaps into place with a finger pull. Its knife edge sides and padded body sand close to right angle fittings & fit into small concave recesses. Sander body is 7/8"h x 4"l and made of high impact plastic. Buy ready-made belts or make your own (6 belts from standard sheet).

Mini-Sander ..... P/N 01-26800 ..... **$5.75**
Wet or dry Mini-Strips, 3 - #500, 3 - #320, 3 - #220
Pkg. of 9 Strips ..... P/N 01-26900 ..... **$6.10**
New Continuous Belts (load free) Aluminum Oxide #120
Package of 3 ..... P/N 01-26910 ..... **$5.75**
New Continuous Belts (load free) Aluminum Oxide #220
Package of 3 ..... P/N 01-26915 ..... **$5.50**

PERMA-GRIT CONTOUR SANDING BLOCKS

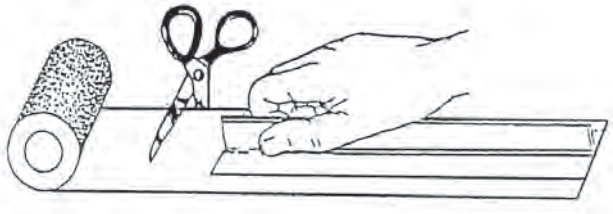
These user friendly sanding blocks are made from extruded, anodized aluminum. The 32mm (1.25") Radius Curve is covered on the external and internal radius with Tungsten Carbide abrasive sheets. The Contour Blocks come in either the Coarse (60US grit approx.) or Fine (120US grit approx.) Small block is 5.5" long and large block is 11" long.

Benefits:

- Shape and sand curves, grooves, etc. quickly and easily
- Great for fillets, leading edges, under cambers, etc.
- Extremely tough, will not wear out like normal sandpaper
- Will last for years without having to change the sheets
- Does not clog easily (brush or knock out)
- Easy to remove glues, resins, paint, epoxy etc. w/ paint remover

140MM Contour Block (COURSE) ..... P/N 01-00591 ..... **$23.25**
140MM Contour Block (FINE) ..... P/N 01-00592 ..... **$22.95**
280MM Contour Block (COURSE) ..... P/N 01-00593 ..... **$33.65**
280MM Contour Block (FINE) ..... P/N 01-00594 ..... **$34.95**

TEE BAR ALUMINUM SANDING BLOCKS



These Tee Bar sanding blocks provide a large, straight, and flat sanding surface which won't wear out. Easy to hold, can be used over and over and are permanently anodized. These blocks can help provide straighter and truer surfaces. The self-adhesive sanding strips can be cut to any length, are clean and neat, do not need glue and do not peel. Furnished in handy 3" wide x 5 yard rolls and available in various grits.

11" Aluminum Tee Bar ..... P/N 01-25008 ..... **$3.75**
Silicone Carbide Fine Sanding Strip ..... P/N 01-25002 ..... **$9.50**

PERMA-GRIT HAND TOOLS

HAND TOOLS

Perma-Grit Tools are made of Tungsten Carbide Grit, one of the hardest elements available, second only to diamonds. They are specifically designed and developed for aircraft builders, woodworkers, and modelers. These tools will cut, sand and shape tough composite materials, saving homebuilders hours of building time. Ideal for fuselage shaping and wing building, these tools are highly recommended by several kitplane manufacturers. Available in coarse (180) & fine (320) grit.

Model No.	Part No.	Description	Price
F-101	12-00040	230mm x 38mm Flat Fine File	$10.75

RF6C	12-00080	1/8 diameter Rod Coarse	$13.50
RF6F	12-02247	1/8 diameter Rod Fine	$13.50

SANDING BLOCKS & FLEXI-STRIPS

P/N 12-00060

These verstile sanding blocks are ideal for sanding large areas, creating straight edges, producing dihedral angles, profiling leading edges, feathering trailing edges, and more. The sanding blocks are coarse grit on one side and fine grit on the opposing side. The flexible grit strips can be cut and shaped to any form, external or internal.

Model #	Part No.	Description	Price
SB140	12-00064	140mm x 51mm Coarse one side, fine opp.	$20.90
SB280	12-00065	280mm x 51mm Coarse one side, fine opp.	$31.25
SB560	12-00066	560mm x 51mm Coarse one side, fine opp.	$47.50
FXT-103	12-00060	51mm x 280mm Fine Grit Strip	$10.75
FXT-104	12-00061	51mm x 280mm Coarse Grit Strip	$10.75
FXT-106	12-00062	51mm x 140mm Fine Grit Strip	$8.75
FXT-107	12-00063	51mm x 140mm Coarse Grit Strip	$8.75

ROTARY CUTTING DISCS

These durable cutting discs are abailable in two sizes (19mm and 32mm) and come complete with a 3mm steel arbor to fit hobby drills. Will cut all woods, piano wire, composites, ceramics, stone, etc.

Model No.	Part No.	Description	Price
RD1	12-00067	19mm diameter disc with arbor	$12.25
RD2	12-00068	32mm disc with arbor	$12.95
RD3	12-00069	19 & 32mm disc with arbor	$20.75

NEEDLE FILES

These extremely versatile tools are excellent for shaping and finishing. They will cut in any direction and do not clog easily. Our needle files cut quickly and leave an excellent finish. Very popular for detail work. Furnished in Medium 280 grit.

Model No.	Part No.	Description	Price
NF1H	12-00081	Set of 5 needle files w/ Handle	$47.50
NF1	12-00082	Set of 5 needle files w/o Handle	$42.50

LNF-F	12-00096	Flat Large needle file only	$12.95
LNF-H	12-00097	Half-Round Large needle file only	$12.40
LNF-R	12-00098	Round Large needle file only	$12.95
LNF-S	12-00099	Square Large needle file only	$12.40
LNF-T	12-00100	Triangle Large needle file only	$12.95
NFH	12-00101	Needle File handle only	$4.40

3/8" INCH NEEDLE FILE KIT WITH HANDLE

Set of 5 files: Hand, Round, Halfround, Square and 3-Square Extremely versatile tools, popular for detailed work.These file cuts in any direction and does not clog easily. Cuts quickly leaving an excellent finish.

P/N 12-01752.....**$51.95**

LARGE NEEDLE FILE HANDLE

Comfortable plastic handle with brass collet to accept all large (18cms) needle files.Overall length 115mm. Collect 5mm

PN 12-00166.....**$4.35**

COMPOSITE SAFETY EQUIPMENT

Adequate safety protection cannot be stressed too highly. Eyes, lungs, and skin are exposed to harmful chemicals and abrasive objects which can be discomforting or permanently disabling. Always wear glasses when working with the Dremel grinder to protect the eyes from flying particles. Sanding or grinding fiberglass and foams creates dust that can be harmful to the lungs. Use a dust respirator mask or a disposable type. Many individuals will develop an allergy when working with epoxy with bare hands. Skin protection measures should always be taken.

INVISIBLE GLOVES #1211

Invisible Gloves #1211 are a soft paste-like substance that when applied to hands provide protection against caustic and carcinogenic chemical products including hydraulic fluid, paints, ink, MEK, zinc chromate, jet fuel, graphite, engine exhaust by-products, adhesives and much more. Invisible Gloves meets military and industrial safety standards and can protect any area of the body (hands, arms, face, legs, etc...) exposed to hazardous products. Especially useful in working with materials used in composite aircraft construction. One pint yields 100 pair of gloves. Invisible Gloves #1211 are easily removed with water. Allows complete freedom of hand and finger movement. Hands will not heat up and tools will not slip.

P/N 12-15800 ..... **$7.80/pint**

GLOVES IN A BOTTLE

Protect your hands with a protective skin lotion called Gloves in a Bottle. Perfect for homebuilders, particularly those who work with composite aircraft, it binds with skin, forming an invisible pair of gloves to help protect against machinery and chemicals. It also protects against cracking and drying due to cold weather. Conventional lotions try to replace natural moisture with artificial moisture, but they come off when you wash or touch something. Gloves in a bottle keeps moisture-robbing irritants out while helping to retain your skin's natural moisture, resulting in better-hydrated skin. When applied, the invisible gloves are undetectable once they dry and last four hours or more. they come off naturally with exfoliated skin cells. FEATURES: • Fragrance and colorant free, hypoallergenic, non-greasy, non-sticky • Turns the outer layer of skin into what works like an invisible pair of gloves • Will not wash off. Literally becomes part of the outer layer of skin itself and comes off naturally with the outer layer of skin • Used and recommended by many hundreds of dermatologists and many thousands of other health care professionals • Keeps out irritants that rob the skin of natural oils and moisture and helps retain skin's own natural oil and moisture • Conventional lotions only attempt to replace natural moisture with artificial moisture but they don't really work because every time you wash or touch something they come off.

8 oz. ..... P/N 01-00656 ..... **$15.65**

SERIES 8 WASH-OFF HAND PROTECTION

SERIES 8 - A less expensive "clone" of the famous PR88 hand creme developed in Europe, Series 8 is highly recommended by Rutan Aircraft Factory for working with epoxies. It protects hands from most epoxies, grease, oil paint, paste, gasoline, tar, lacquer, acetone, styrene, fiberglass and many more substances. It helps prevent chapping, cracking and drying of hands, and is an excellent aid to persons with sensitive skin. No soap is needed for cleanup - hands wash clean with water alone.

4 Oz. Plastic Cup ..... P/N 13-38302 ..... **$4.85**
32 Oz. (Qt.) Plastic Jar ..... P/N 13-38306 ..... **$14.60**

PLY NO. 9 PROTECTIVE HAND GEL

Provides a thin, invisible, flexible film which is an excellent barrier to epoxy resins, rubber adhesives, vinyl plasticizers, polyester resins and glass fibers. Epoxy and gel wash off easily in soap and water.

One-Lb. Jar ..... P/N 01-36100 ..... **$6.85**

DENATURED ALCOHOL

Can be mixed with soap and water. Is harmless to rubber. Use as a solvent for thinning, removing and cleaning epoxy, brushes, and equipment.

Gallon ..... P/N 01-00399 ..... **$12.75**

REPLACETONE

Cleans polyester and epoxy resins from tools and hands without the hazards associated with chemical cleaning solvents. It is a non-volatile, non-flammable, and a biodegradable replacement for acetone and MEK solvents. Replacetone separates resins to the bottom of the cleaning container, but it does not dissolve them. Pour off non-emulsified Replacetone and use again.

Quart ..... P/N 01-08823 ..... **$13.50**
Gallon ..... P/N 01-08834 ..... **$23.75**

LATEX GLOVES

Disposable but reusable gloves which resist tearing. Large size. Fits right or left hand. Box of 100.

P/N 01-36550 ..... **$10.85**

COTTON GLOVES

Lightweight liners - wear under latex gloves. More comfort, improved sensitivity.

P/N 01-36600 ..... **$1.25/Pair**

BUTYL GLOVES

These gloves are resistant to the permeation of epoxy resins and curing agents and have been found to offer by far the best protection of any glove available.

P/N 01-36700 ..... **$22.85**

TYVEK SUITS

These are the tough, full-body suits with hoods that professional painters use. Available in extra large or extra extra large.

X-Large ..... P/N 01-36800 ..... **$7.75**
XX-Large ..... P/N 01-36805 ..... **$11.60**

MAXSHIELD DISPOSABLE PROTECTIVE CLOTHINGS

FULL BODY COVERAGE: RECYCLED TYVEK® - Jumpsuit with Hood Covers. It's the ultimate protection in a Tyvek® jumpsuit, covering you from head to toe with an integrated hood and elastic-topped shoe covers. If you work in an environment where it's important to keep a barrier between you and microscopic particles, this is the Tyvek® jumpsuit for you.

Size	PN	Price
Small	12-01827-S	**$6.50**
Medium	12-01827-M	**$6.50**
Large	12-01827-L	**$10.75**
XL	12-01827-XL	**$6.75**
XXL	12-01827-2XL	**$6.75**

THE TYVEK® SUIT - The Lowest-Priced Recycled Coverall. You work with messy stuff... dirt, paint, solvents, chemicals, oil, grease. Protect your skin and clothing with an affordable barrier garment – the Tyvek® suit. These multipurpose suits are so durable you can wear them over and over. But they're priced so low, you can afford to throw them away when it's time.

Size	PN	Price
Small	12-01826-S	**$5.85**
Medium	12-01826-M	**$5.85**
Large	12-01826-L	**$6.00**
XL	12-01826-XL	**$6.75**
XXL	12-01826-2XL	**$6.75**

RECYCLED TYVEK® APRONS - The Better-Than-Plastic Apron. A regular throw-away plastic apron might be good enough for small jobs. But for complete protection from food splashes, hot oil, dangerous chemicals, and other big messes, the serious professional chooses a Tyvek® apron. Features: • Bib style for full protection. • 28" x 36" in size. • Serged seams for strength. • Long ties to customize the fit,

PN 12-01824 ..... **$2.10**

TYVEK® DISPOSABLE SHOE COVERS - Boot Covers High top boot covers w/elastic top.

PN 12-01825 ..... **$1.65**

TYVEK® DISPOSABLE - Shoe Covers, Boot Covers With a Tyvek® disposable shoe covers you don't have to compromise. That's because Tyvek® disposable shoe covers deliver the best balance of protection, durability and comfort. Color: White.

PN 12-01995 ..... **$0.98**

SPRUCE SPARS – CAPSTRIP – STRINGERS

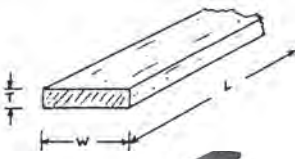
GENERAL ORDERING INFORMATION

Aircraft spruce spars are available either S2S (surfaced 2 sides, top & bottom, with rough edges in 4" & 6" nominal width) or S4S (surfaced all 4 sides to thickness & width). Prices in table below are for S4S spars. If S2S is desired so builder can trim to exact width, specify S2S and use 4" or 6" width prices from table. Request quote on spar widths wider than 6". Spars for certificated aircraft such as Aeronca, Stearman, Taylorcraft and Piper are available and may be priced from the table. Since many of these early aircraft were "handmade", the spars are often not uniform in size for a particular model. Therefore, the finished net dimensions should be specified when ordering replacement spars. Please price to nearest fraction.

Thousands of feet of S2S aircraft quality spruce are stocked in our Corona, CA. and Peachtree City, GA. warehouses. Orders for spars, spruce kits and capstrip can usually be shipped within three weeks after receipt of order. Spars wider than 6" must be milled from 8" specially selected stock which requires a long and indefinite lead time. Prices on request.

For additional technical information refer to a complete reprint of spruce specification MIL-S-6073 and plywood specification MIL-P-6070.
P/N 13-14900 ..... **$3.95**

When ordering either spars or capstrip, designate the thickness first, then the width and length.
Examples: 3/4"T x 4-1/4"W x 14'L spar; 1/4"T x 1/2"W x 5'L capstrip.



Faster delivery can be assured if guidelines regarding minimum acceptable lengths are provided. Orders are often delayed awaiting delivery of lumber to the even footage specified whereas shipment could be made if the minimum usable lengths were indicated. Example: 3/4" nominal 6" x 12' (131-1/2" min.).

Spruce and tubing kits may be combined with plywood and other building supplies for a single truck delivery charge.

BARGAIN BAG OF SPRUCE

Assortment of at least ten pieces, in random lengths from 1 ft. to 5 ft., of rough, S2S or S4S remnants and cutoffs. A usable selection is assured. Approx. wt. 20 lbs.

P/N 02-03600..... **Now Only $37.50**

BALSA WOOD

Balsa is the lightest commercial wood in the world, weighing less than 10 lbs./cu.ft. Pound for pound, it is one of the strongest - both its stiffness and bending strength exceed White Spruce, Western Yellow Pine, Douglas Fir, White Oak and many other commercially used woods. It is easily cut, turned, carved, shaped, glued, sanded and finished, all with ordinary wood working tools and techniques. It can be shaped with abrasive wheels either wet or dry. It can be cut into extremely thin veneers. Almost any kind of coating will adhere to it. Meets specifications MIL-B-2747 and MIL-S-7998.
Furnished as 2" thick boards, 3 ft. long from 3"-6" wide. Material which may be glued together by the builder to make the required size pieces.
2" x 4" x 3 ft Pc..... P/N 02-03500 ..... **$17.85/ea.**

DOMESTIC MIL-P-6070 AIRCRAFT PLYWOOD

American-made structural aircraft-grade plywood is made of imported African Mahogany or American Birch veneers laminated in a hot press to hardwood cores of Poplar or Bass wood with waterproof glue. Will meet all requirements of specification MIL-P-6070, which calls for shear testing after immersion in boiling water for 3 hours. Far superior to many plywoods in which all plies are 1/16" thick and laminated in a cold press to make up the total thickness. Tests should be made on cold-press plywoods before use in aerobatic aircraft.

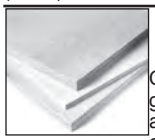
*Domestic plywood is sold only in 2'x4' (8 Sq.Ft.), 4'x4' (16 Sq.Ft.), 2'x8' (16 Sq.Ft.), and full 4' x 8' sheets. If ordering less than full sheet, compute cost based on price/sq.ft. shown in above table.
** The part numbers of full 4' x 8' sheets end with "80". For less than full sheets, the last two digits will change according to the size ordered. Change the last two digits in the part number to "10" for 4' x 4', "20" for 2' x 8' and "30 for 2' x 4'. Example: 1/16" mahogany 90° is 02-18980 (4' x 8'), 02-18910 (4' x4'), 02-18920 (2' x 8') and 02-18930 (2' x4').



FINNISH BIRCH AIRCRAFT PLYWOOD (METRIC)

Quality Birch Aircraft grade plywood produced to AB/B grade on all thicknesses. German Lloyd GL-2 is available upon request; please contact us for details on how order GL-2.

Thickness Nom. Inch.	mm	Plies	Half Sheet 2'x4' Part No.	Price	Full Sheet 4'x4' Part No.	Price
1/64	0.4	3	02-20250	$26.50	02-20200	$53.75

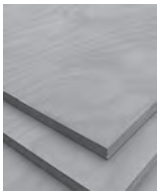
1/4 Birch/Poplar 5ply, 45°.....P/N 02-27180..... **$420.95**



OKOUME PLYWOOD

Okoume (o-KUE-me), also referred to as Gaboon, is an African hardwood widely used in Europe over the past century. Light pinkish brown in color, sometimes lustrous with variable interlocking grain, the rotary cut panel can be painted or finished bright. The natural durability of this species is extremely low and care must be taken to finish all surfaces, face and edges. Often recommended for use with epoxy saturation systems, the panel exhibits high strength to weight ratios. Face veneers are made from 1.3 mm thick A/B grade rotary cut veneer. Cores and crossbands are solid-joined and the panel glued with waterproof glue. Okoume panels are extensively used by race class boat builders, rowing shell builders and in various applications. Where its lighter weight, good bending properties and ease of finishing are a value, 5/32" thickness is used in the One Design Kit Aircraft and applicable to a wide variety of Homebuilt Aircraft, sold in 4'x8' sheets. Wt. of 5/32" sheet is 8.8 lb. Wt. of 1/4" sheet is 28 lbs. Thickness varies from 4mm to 6mm. Can be cut down for shipping. Certified bs1088

4mm thick x 4' x 8' sheet..... P/N 02-20100..... **$69.50**
6mm thick x 4' x 8' sheet..... P/N 02-00076..... **$99.85**

LITE PLY PLYWOOD

The beautiful, pliable answer to shaped and curved construction problems. Lite Ply ® is distinguished by its even grain, virtually snow white appearance and unusual resilience. It is a true "white wood, " poplar and finishes uniformly, whether stained or painted.

Supplied for over 50 years, Lite Ply ® has proven to be an excellent wood for industries where weight is a concern. Lite Ply ® has been proven to be a cost effective alternative to other light weight panels.

4' X 8' Sheet 1/8" 3MM..... P/N 02-00115..... **$36.50**
4' X 8' Sheet 1/4" 6MM..... P/N 02-00116..... **$56.50**

ROYAL MARINE A-A FIR PLYWOOD

First quality marine plywood that meets or exceeds requirements of specifications PSI-74. All are Douglas Fir. Insist on A-A grade for your aircraft!

Thickness	No. of Plies	Part No.*	Price 2'x2'	2'x4'	4'x4'	4'x8'
1/4"	3	02-210--	$8.00	$15.50	$31.50	$63.75
3/8"	4	02-211--	$10.85	$19.50	$39.50	$79.75
1/2"	5	02-212--	$11.25	$22.00	$44.75	$89.50
5/8"	7	02-213--	$11.00	$22.00	$44.00	$89.70
3/4"	7	02-214--	$12.50	$24.25	$48.75	$98.25
1"	7	02-215--	$16.75	$32.50	$65.50	$131.95

$4.00 packing charge for less than 3 sheets unless cut to 2'x4' pieces for UPS shipment.

Please order by part number, note thickness & size for verification. The part numbers for full 4'x8' sheets end with "80". For less than full sheets, the last 2 digits of the part number. will change according to size ordered. Change last 2 digits of the part no to "20" for 2'x2', "40" for 2'x4' & "60" for 4'x4'. Example: 1/4" 2'x4' is 02-21040.

BASSWOOD MIL-P-6070 AIRCRAFT PLYWOOD

Basswood meets MIL-P-6070 but is lighter and has more flexibility than Mahogany & Birch plywood, but has slightly less structural strength.

Thickness	No. of Plies	Part No.*	Price 2'x2'	2'x4'	4'x4'	4'x8'
1/16"	3	02-253--	$15.75	$30.50	$61.50	$123.95
3/32"	3	02-254--	$15.50	$31.50	$63.50	$127.95
1/8"	3	02-255--	$16.75	$32.25	$65.00	$130.95
3/16"	3	02-256--	$18.00	$35.00	$70.50	$141.95
1/4"	5	02-257--	$30.75	$48.50	$97.50	$195.95
3/8"	5	02-261--	$27.75	$53.50	$106.95	$215.95
7/16"	7	02-262--	$32.75	$126.95	$126.95	$274.95
1/2"	7	02-263--	$38.25	$74.00	$147.95	$297.95
5/8"	9	02-265--	$42.00	$81.00	$192.95	$384.95
3/4"	9	02-264--	$57.50	$110.95	$221.95	$444.95

NOTE: All sheets 4'x8'. All plies are basswood. Grain is 90°. Part nos for full 4'x8' sheets end with "80". For less than full sheets, the last 2 digits will change according to the size ordered. Change the last 2 digits in the part no to "60" for 4'x4', "20" for 2'x2' and "40" for 2'x4'. See example in domestic plywood table.

INSTANT GLUES – POLYFIX™ GLUES

WP

INSTANT GLUES

These American made Instant Glue products were used extensively in construction of the "Around the World Non-stop" Voyager aircraft and are highly recommended for many homebuilt aircraft applications by Voyager Aircraft, Inc. and Rutan Aircraft Factory. They create a fast, permanent bond on many similar and dissimilar materials such as woods, metals and composite materials.

HOT STUFF™ - Odorless THIN have a consistency resembling that of water, used mainly for bonding parts which fit very well. 2oz
P/N 01-35500 .....**$10.75**

UFO™- "UFO" Odorless 'THIN' will not attack foam,making foam bonding possible. Fiberglass skins, right on the foam, are practical and easy with "UFO" Odorless 'THIN'. 2oz. P/N 01-01038 .....**$21.75**

SUPER 'T'™ - A consistency similar to that of syrup and has the ability to fill small gaps between parts which don't fit perfectly. SUPER 'T'™ cures at a slower rate than HOT STUFF™, (10-25 seconds depending on the material). 2oz. P/N 01-35600 .....**$10.75**

SPECIAL 'T'™ - Special 'T'™ and new UFO™ Odorless THICK are very thick cyanoacrylates with a consistency resembling cold honey. SPECIAL 'T'™ and UFO™ Odorless THICK have greater gap-filling ability than SUPER 'T'™ and more positioning time after contact of parts. The rate of cure is slow enough, (usually 50-60 seconds depending on the material), to allow precise alignment of parts, after assembly. 2oz.
P/N 01-01039 .....**$11.50**

UFO™ THICK - Odorless. Those who are sensitive to cyanoacrylate curing fumes will enjoy using the new UFO™ in the place of Special 'T'™. Will not attack foam, making foam bonding possible. NCF HOT or MILD should be used to speed the cure. For foam, use Spray n' Cure™ accelerator. 2oz. P/N 01-01040 .....**$22.25**

NCF QUICK™ - Used with HOT STUFF, UFO Odorless THIN, SUPER T, and UFO Odorless THICK., and with it you can do almost magical things. NCF Quick works in three ways to make HOT STUFF , SUPER 'T' and SPECIAL 'T' Easier, Faster, Stronger and able to bond some of the most unusual materials you can think of. P/N 01-00689 .....**$13.00**

NCFM™ - Mild Formula accelerator for use with HOT STUFF™, UFO™ Odorless THIN, SUPER T™, and UFO™ Odorless THICK., and with it you can do almost magical things. NCFM™ MAY MELT SOME EXPANDED FOAM PRODUCTS. 2oz. P/N 01-35700 .....**$7.50**

NCF™ - An extremely fast acting accelerator for all instant glues. "NCF" does everything NCFM" will do, in a fraction of the time. "NCF" has an extraordinary on-part life. P/N 01-01041 .....**$8.50**
SPRAY'N CURE™ - FREE of all chlorinated and fluorinated solvents. 2 minute on-part life after the area is completely dry. Special Note: User must allow 50 to 60 seconds (at room temperature) for complete drying before bonding, white foam friendly P/N 01-01042 .....**$5.25**

NCF-5M - The NCF Mild is a mild formula accelerator, capable of dramatically increasing cure time, but not quite as quickly as the NCF Hot. NCF Mild decreases the curing time of the glue and forces the glue to cure when it wouldn't otherwise. This accelerator is active for several minutes, so you can spray several pieces at once if you are making multiple bonds. NCF Mild and Hot are generally not suitable for use with white foam. NCF-5M is a 4.9oz bottle with a plastic spray pump.
P/N 01-35750 .....**$11.50**

SUPER SOLVENT™ - Ultra Solvent™ is a remarkable debonder and cleaner for any instant glue. Use it for hand clean-up, removes instant glue from most clothing and surfaces. Some fabric, colorings or materials may be affected, so test-patch on an inconspicuous place.
P/N 01-35800 .....**$9.75**

GORILLA GLUE
TOUGHEST GLUE ON EARTH

Gorilla Glue is known as the toughest glue on planet Earth. A high strength adhesive that quickly bonds wood, metals, stones, ceramics, and more. Gorilla Glue is a versatile, interior/exterior adhesive ideal for building projects. 8 oz. bottle.
Benefits: • 100% Waterproof • Incredibly Strong and Versatile • Stainable and Paintable • Easily Sanded • More Coverage • A Long Open Working Time • Dries Light Tan • Non-toxic • Acid-Free P/N 02-00101.....**$12.85**

QUIK FIX EPOXY PUTTY STICKS

Quikfix BC 101 is a hand mixable, fast curing, general purpose epoxy putty stick that mixes in just one minute to provide fast repairs to many surfaces including metals, wood, glass, concrete, ceramics and numerous plastics. One hour after mixing, QuikFix BC 101 can be drilled, sawed, sanded, filed, tapped, machined, or painted. It comes in a handy concentric putty stick with he curing agent encapsulated in the contrasting color base material. The putty-like consistency eliminates drips and runs, producing "no mess" applications with no tools required for use. In order to achieve optimum adhesion, surfaces should be clean, dry and free of grease or dirt. Scuffing or sanding the surface prior to cleaning helps insure a good bond. Color: Gray (after cure).
3.5" stick.....P/N 01-00333 ..... **$11.95**
7" stick.....P/N 01-00332 ..... **$13.95**

BOND-AIDE WOOD EPOXY PUTTY

Bond-Aide P-1500W is a wood epoxy putty compound that cures in minutes to form permanent repairs on woods, plaster, ceramics and many plastics with no shrinkage. For woodworking and hobby model use, Bond-Aide P-1500W is unique as it can be shaped to conform to the surface. After 30 minutes, it becomes part of the wood but is many times stronger. Like wood it is light in weight, can be drilled, sawed, nailed, carved, machined, sanded, stained and painted, all within 30 minutes. It is non-toxic and is quickly and safely readied for application without any mess. It will not drip or sag, and unlike conventional wood putties, P-1500W will not dry out, even after opening. Excellent for bonding wood to wood, wood to metal, and wood to glass or ceramics. P-1500W has a multitude of uses in aircraft restoration, rebuilding, and repair.
1 tube 2-part Bond-Aide P-1500W.....P/N 02-18650 .....**$14.75/ea**

POLYFIX™ 11000 GAP FILLING CYANOACRYLATE

This is a higher viscosity ca for loose fitting joints in which the adhesive must bridge gaps. Normally, the thicker ca is applied to one surface and then the parts are held tightly together for about 5 to 15 seconds. For large surface areas including those with close fitting joints such as lamination Polyfix™ 11000 gap filling should be used. To prevent premature curing, don't spread the glue into a thin film, lay down a serpentine bead with about 1" separation on one surface, then assemble the parts, letting the pressure spread the ca out. MIL SPEC-A-46050-C. (CAS NO. 7085-85-0)

Description	Part No.	Price
Polyfix™ 11000 Gap Fill 1/2 oz	01-01016	$4.75
Polyfix™ 11000 Gap Fill 1 oz	01-01017	$8.75
Polyfix™ 11000 Gap Fill 2 oz	01-01018	$12.75
Polyfix™ 11000 Gap Fill 8 oz	01-01019	$36.75

POLYFIX™ 4000 INDUSTRIAL FLEXIBLE THIN

This low odor flexible thin ca is ideal for many applications. Low odor flexible does not turn brittle and remains clear, even if Accelerator. With Polyfix™ 10000 Accelerator it has superior shock resistance and still has good penetrating qualities and its application can be easier to control for ca and has a different, less irritating odor compared to regular ca's, but still can proven to be superior when bonding anodized aluminum. 1 fl. oz. MIL SPEC-A-46050-C. (CAS NO. 6606-65-1) P/N 01-01020 .....**$7.50**

POLYFIX™ 3000 CLEAR FLEXIBLE RUBBER GAP FILLING

Flex gap clear rubber toughened can be used in applications where you do not want the adhesive to be seen it is still superior to standard ca.'s when esthetics's are important and a flexible bond is required this product is your best choice. It forms to soft urethane and vinyl plastic, and shock resistant bonds. MIL SPEC-A-46050-C. (CAS NO. 7085-85-0)

Description	Part No.	Price
Polyfix™ 3000 Rubber Fill 1 OZ	01-01021	$6.75
Polyfix™ 3000 Rubber Fill 2 OZ	01-01022	$12.50

POLYFIX NON-CLOG CYANOACRYLATE APPLICATOR

Reach in a small area where you need to do a repair. Can reach 5-1/2" or if you need to control small drops. Sold in boxes of 24.

Description	Part No.	Price
Non-Clog Applicator Regular Tip	01-01006	$21.75
Non-Clog Applicator Fine Tip	01-01007	$21.75

POLYFIX™ GLUES AND ADHESIVES

POLYFIX™ 17000 INDUSTRIAL ODORLESS THIN

This has a water thin viscosity that wicks deep into joints by capillary action and curses in a matter of a few seconds. Surface to be bonded must be tight fitting and should be bonded must be tight fitting and should be held together while applying the ca around the edges of the seams, at the moment ca's cure eliminates the irritating fumes from the evaporating monomer that makes repeated of ca's unpleasant at times. MIL SPEC-A-46050-C (CAS NO. 27816-23-5)

Description	Part No.	Price
Polyfix™ 17000 Industrial Thin 1/2 oz	01-01023	$9.25
Polyfix™ 17000 Industrial Thin 1 oz	01-01024	$16.95
Polyfix™ 17000 Industrial Thin 2 oz	01-01025	$28.95

POLYFIX™ 17500 PLUS INDUSTRIAL ODORLESS GAP FILLING

Apply a light fog of Polyfix™ 10000 accelerator and apply Polyfix™ 17500+ gap filling. Cures to a more flexible consistence for better shock absorption, when ever a larger amount of ca is to be used in such applications as saturating fiberglass or kevlar. Polyfix™ 17500+ gap filling eliminates the irritating fumes from the evaporation monomer that makes repeated use of ca unpleasant at times. MIL SPEC-A-46050-C. (CAS NO. 27816-23-5)

Description	Part No.	Price
Polyfix™ 17500 Industrial Gap Fill 1/2 oz	01-01026	$9.95
Polyfix™ 17500 Industrial Gap Fill 1 oz	01-01027	$17.95
Polyfix™ 17500 Industrial Gap Fill 2 oz.	01-01028	$30.95

POLYFIX™ 64000 INDUSTRIAL CARBON GAP CYANOACRYLATE

Polyfix™ 64000 carbon extra strength ca is a carbon toughened cynaoacrylate that forms superior shock resistant bonds on non-porus surface the black colored ca has added flexibility for the bonding carbonfiber and other advanced materials as graphite, polycarbon with honeycomb, normax aramid, graphite with aluminum honeycomb. MIL SPEC-A-46050-C (CAS NO. 7085-85-0)

Description	Part No.	Price
Polyfix™ 64000 Carbon Gap Cyanoacrylate 1/2 oz	01-01029	$5.95
Polyfix™ 64000 Carbon Gap Cyanoacrylate 1 oz	01-01030	$11.50
Polyfix™ 64000 Carbon Gap Cyanoacrylate 16 oz	01-01031	$173.95

POLYFIX™ POLYDUST CATALYTIC

The patented Thermal Process Catciyticaily (I.C. chemically) generates heat to 142 degrees fahrenheit and actualy thermal sets or fuses the repair to the Patent material. POLYFIX™ 10000 Accelerator POLYFIX™ 14000 Thin Cyanoacrylate (PJ 33) POLYDUST Catalytic filler By using these three products that was certified by Cessna Aircraft, U.S. Army Aviation Systems, Boeing Aircraft. (CAS NO. 601-35-4)

Warning: If you use any other products with the POLYFIX™ polydust catalytic, AIRCRAFT SPRUCE AND SPECIALTY INC. AND REDAM/ RB INC. WILL NOT BE RESPONSIBLE FOR ANY ACCIDENTS

Description	Part No.	Price
Polyfix™ Polydust Catalytic 10M/MG	01-01032	$5.90
Polyfix™ Polydust Catalytic 1/2 PT	01-01033	$39.95
Polyfix™ Polydust Catalytic 1 PT	01-01034	$68.75

POLYFIX™ 10000 ACCELERATOR IN PLASTIC BOTTLES

Non-flammable and less then 10% degrade when applied on ca's comparing to methanol and acetone accelerator that has 13/15% degrade. This accelerator allows ca's to quickly cure by enhancing the alkaline conditions during polymerization. POLYFIX™ 10000 in a spray bottle is normally used to cure the ca that flows from joints or cracks when parts are pressed together. Apply an additional bead of thick ca along seam and then curing with POLYFIX™ significantly in hances a crack's strength. For difficult to bond material, POLYFIX™ 10000 can be applied to one surface and ca to the opposite surface. When brought together, they will bond instantly. MIL SPEC-A-4605-C-TYPE II A OR III A. (CAS NO. 99-97-8). (CAS NO. 64742-48-9)

Description	Part No.	Price
Polyfix™ 10000 Accelerator 2 oz.	01-01035	$11.75
Polyfix™ 10000 Accelerator Refill 8 oz	01-01036	$18.50

POLYFIX™ 6000 DEBONDER

Will soften cured ca. If parts are bonded incorrectly or your fingers are stuck together a few drops of POLYFIX™ 6000 debonder. Will dissolve the ca in about a minute. Apply on bonded skin and roll apart fingers. Once unstuck, use Acetone to clean off softned ca then wash off with soap and water POLYFIX™ 6000 debonder will easily remove the adhesive residue. 1 fl. oz. (CAS NO. 68-12-2) P/N 01-01037 ..... **$4.50**

POLYFIX 14000 THIN CYANOACRYLATE

Polyfix™ 14000 Thin Cyanoacrylate has a super thin viscosity that penetrate deep into cracks by capillary action and cures in a matter of a few seconds. Surfaces to be bonded must be tight fitting and should be held together while you apply the ca around the edges of the seams at the moment ca's cure they give off a vapor that can irritate the nose and eyes, so be prepared. Thin ca's work very well on any type of material, form more than just a surface bond. MIL SPEC-A-46050-C. (CAS NO. 7085-85-0)

Description	Part No.	Price
Polyfix™ 14000 Thin Cyanoacrylate 1/2 oz	01-01008	$3.95
Polyfix™ 14000 Thin Cyanoacrylate 1 oz	01-01009	$6.95
Polyfix™ 14000 Thin Cyanoacrylate 2 oz	01-01010	$12.75
Polyfix™ 14000 Thin Cyanoacrylate 8 oz	01-01011	$39.90

POLYFIX 9000 EXTRA THICK

It's all a round ca for ceramics, glass, metal, rubber laminating, soft wood, hard wood. Water resistant. This ca is the best for most clear plastic including GE's Lexan when used with Polyfix™ 10000 Accelerator it will fill most voids it can be carved with a knife or razor blade and sanded to foam a finish indistinguishable from plastic its extra thick. Thickness makes it easy to work with most applications. MIL SPEC-A-46050-C (CAS NO. 7085-85-0)

Description	Part No.	Price
Polyfix™ 9000 Extra Thick 1/2 oz	01-01012	$4.45
Polyfix™ 9000 Extra Thick 1 oz	01-01013	$7.45
Polyfix™ 9000 Extra Thick 2 oz	01-01014	$12.45
Polyfix™ 9000 Extra Thick 8 oz	01-01015	$34.95

POLYFIX™ PLASTIC REPAIR KITS

Polyfix™ Thermal Fusion is a 3-part system that uses chemical reaction to heat the repair to 142°F, fusing it to the parent part. This system repairs ABS, royalite, graphite, lexan, polycarbon, Kevlar, plexiglass, fiberglass and many other materials. The system combines Industrial cyanoacrylate glue, a catalytic filler, and an accelerator. May be used on speed fairings, wing tips, cowlings, glare shields, and more. Kits include Polyfix™ Industrial chemical, polydust, gloves, finger cots, fiberglass mat, protection hand cream, no mixing tools, and an easy to follow instruction manual. Zero Shrinkage.

PLASTIC REPAIR KIT (SMALL)- Size: 1/4" x 1/8" x 30". 1/2oz. 14000 CA. Thin. 1/2oz 10000 Accelerator. 2 M/Grams Catalytic. 1-3" x 8" Fiberglass. 1/2oz Hand Cream. 1-Pair Latex Gloves. 6 Finger Cots. 1 Manual (33 Page w/words/Pictures) MIL SPEC-A-46050-C. (CAS NO. 7085-85-0). (CAS NO. 601-35-4). MIL-A-46050-C TYPE II A OR III A. (CAS NO. 90-97-8). (CAS NO. 64742-48-9) P/N 01-01045 ..... **$22.45**

PLASTIC REPAIR KIT (MEDIUM) - Size: 1/4" x 1/8" x 60". 1 Manual (33 Page w/words/Pictures). 1oz 14000 CA. Thin. 4 M/Grams Catalytic. 1/2oz. Hand Cream. 1oz 10000 Accelerator. 1-3 x 12" Fiberglass. 1 Pair Latex Gloves. 10 Fingercots. G.S.A NATIONAL STOCK NO. POLYFIX. 1-LB 1800 NUMBER 8040-01-364-799. MIL SPEC-A-46050-C. (CAS NO. 7085-85-0). (CAS NO. 601-35-4). MIL-A-46050-C TYPE II A OR III A. (CAS NO. 90-97-8). (CAS NO. 64742-48-9)
P/N 01-00235 ..... **$34.75**

PLASTIC REPAIR KIT (LARGE) - Size: 1/4" x 1/8" x 120". 1 Manual (33 Page w/words/Pictures). 2oz. 14000 CA THIN. 2oz 10000 Accelerator. 8 M/Grams Catalytic. 10" x 10" Fiberglass (mat). 1/2oz Hand Cream. 2 Pairs Latext Gloves. 20 Fingercots. MIL SPEC-A-46050-C. (CAS NO. 7085-85-0). (CAS NO. 601-35-4). MIL-A-46050-C TYPE II A OR III A. (CAS NO. 99-97-8). (CAS NO. 64742-48-9)
P/N 01-00236 ..... **$49.85**

PLASTIC REPAIR KIT (X-LARGE) - Size: 1/4" x 1/8" x 600". 1 Manual (33 Page w/words/Pictures). 10 oz. 14000 CA Thin. 50 M/Grams Catalytic. 1oz. Debonder. 12 Pair Latex Gloves. 10 Piece Assortment of Sandpaper. 1 Pair Scissors. 10oz 10000 Accelerator. 18" x 18" Fiberglass. 1oz. Hand Cream. 50 Fingercots. 1 Sanding Block. MIL SPEC-A-46050-C. (CAS NO. 7085-85-0). (CAS NO. 601-35-4). MIL-A-46050-C TYPE II A OR III A. (CAS NO. 99-97-8). (CAS NO. 64742-48-9). (CAS NO. 68-12-2). P/N 01-00237 ..... **$292.95**

CASCOPHEN

A Resorcinol Formaldehyde Adhesive capable of curing at room temperature and providing strong, durable, waterproof bonds. Comes in two parts, a liquid resin (part A) and a powered catalyst (part B). The liquid resin is an alcohol-water solution of a partially condensed resorcinol-formaldehyde resin containing a suitable reinforcing cellulosic filler. The hardener is a tan powder formulated from paraformaldehyde and a suitable cellulosic filler. Produces a cured glue line which is resistant to fresh water or salt water, most acids and organic solvents, and lubricating oils and greases. Being thermoset, the bond is resistant to elevated temps. and conversely, no loss in bond strength occurs at temperatures as low as 40°F. These features make it advantageous for use as a general marine and aircraft use. It provides strong bonds between many wood and non-wood surfaces. These include treated woods, many plastics, natural and synthetic rubber, primed metal, leather, textiles, paper and fiber boards.

Pint Kit (Pint A, 1/4lb B) .....P/N 02-00036 ..... **$23.50**
Quart Kit (Qt A, 1/2lb B).....P/N 02-00037 ..... **$33.85**
Gallon Kit (Gal A, 2lbs B).....P/N 02-00038 ..... **$119.50**

FPL-16A HUGHES GLUE

This is an exceptionally fine two-part white epoxy glue for homebuilt and experimental aircraft. It is based on a formula developed by Forest Products Laboratories. It is excellent not only for wood but for many other applications such as a metal to wood adhesive, metal to metal, just about anything with the exception of some plastics. It has been used by builders for many years with universal acceptance. Its low viscosity makes it very easy to work. Shelf life: Resin - more than 1 yr. Hardener - Indefinite.

Qt Kit (1 qt. resin, 4oz hardener, Wt 4 lbs) ..... P/N 02-23400 .... **$52.50**
Gal Kit (1 gal resin, 16oz hardener, Wt.13 lbs).... P/N 02-23500 .. **$114.95**

HYSOL EA-9430 GLUE

This new and improved Hysol glue replaces the old EA-9410-2 glue. EA-9430 has the same characteristics as the EA-9410, but has a 50 minute pot life instead of the 30 minute pot life of the EA-9410 at 77°F. Used extensively in the Strojnik S2A sailplane and many other homebuilts.

P/N 02-18600 ..... **$69.75**

WEST SYSTEM SIX10 THICKENED EPOXY ADHESIVE

Six10 Adhesive gives you the strength and reliability of a two-part WEST SYSTEM epoxy with the convenience of a single part product. Six10 is dispensed with a standard caulking gun. Non-sagging Six10 bonds tenaciously to wood, metals, fiberglass and concrete. It cures in temperatures as low as 50°F. Working time is 42 minutes at 72°F. Cures to a solid in 5–6 hours and will take high loads in 24 hours. Cure time is faster at warm temperatures and slower in cool temperatures. Cartridge holds 190 ml of resin and hardener. To use, replace the retaining nut and plug on the West System Six10 dispensing cartridge with the 600 Static Mixer that comes attached to the cartridge. Dispense mixed 2 part epoxy adhesive using a standard caulking gun. The efficient internal geometry of the 600 Mixer thoroughly blends resin and hardener in a short mixing length for good application control and a minimum of waste. Additional 600 StaticMixers are available in packages of two or twelve.

Part No.	Description	Unit Size	Price
01-01069	Epoxy Adhesive Cartridge	190 ml	**$19.85**
01-01071	Static Mixers	2 ea	**$3.79**

FASTWELD 10 A/B HIGH SETTING EPOXY

Fastweld 10 A/B epoxy adhesive is a rapid-setting, two-component paste offering a convenient one-to-one mixing ratio by volume or weight. Fastweld 10 A/B epoxy adhesive produces strong bonds in a very short period. It is especially suited for bonding small parts and for repair work. Pot life: 3-4 minutes at 77° F, Cure Time: 4 hours. Shelf life: 3 years.

P/N 09-03454..... **$8.95**

3M™ EPX Pneumatic Mix Nozzle 9742
P/N 09-01372..... **$2.25**

FASTWELD 10 A/B HIGH SETTING EXPOXY GUN

Dual cartridge dispenser gun designed for use with 50ml style adhesive cartridges.

P/N 09-03455.... **$44.50**

T-88 STRUCTURAL ADHESIVE

T-88 is a non-brittle structural adhesive which gives superior finished results even when used under adverse working conditions. T-88 will cure in temperatures as low as 35°F which makes it an excellent choice for homebuilders living in colder climates. It is recommended by the builders of many types of homebuilt aircraft and is excellent for bonding aluminum, steel or wood. When fully cured, it is not affected by water, oil, gasoline and most other chemicals.

1/2 Pt Kit.. P/N 02-00046 ....**$18.95** Pt. Kit..... P/N 02-00047 ....**$24.50**
Qt. Kit ..... P/N 02-00048 ....**$37.75** Gal. Kit.... P/N 02-00049 ..**$103.85**

T-88 UNIVERSAL CARTRIDGES

With the Universal Cartridge any medium to high quality caulking gun will work just fine. When you evaluate the Universal Cartridge notice that without a mixture tip it is perfect for accurately measuring small batches of adhesive. This is something that is very hard to do in a mixing cup without generating a lot of waste. Of course when the cartridge is used with the mixing tip you get both accurate measuring and thorough mixing making large, continuous gluing jobs much easier with flawless products performance. Note: Mixer tube and cartridge cap sold separately (not included with T-88).

P/N 02-00103 ..... **$20.85**

REDI-MIX MIXER TUBE

The static mixer tube attaches to the cartridge with a retaining nut which screws on securely to the REDIMIX gun. The mixer tip tapers to 1/8" but may be cut back to about 1/4". Very small quantities of epoxy may be prepared in this manner without any waste or added cost.

P/N 02-90030..... **$1.94**

WELDWOOD GLUE

A powdered, urea formaldehyde wood glue activated by mixing with water. Forms a bond stronger than the wood itself. Mets Fed. Spec. A-A-3052. Low VOC.

1 Lb ..... P/N 0203 ..... **$17.75**
4.5 Lb ..... P/N 0204 ..... **$61.50**

SCOTCH WELD 3M™ STRUCTURAL ADHESIVE

Commonly known as "Scotch Weld", this two part epoxy structural adhesive will bond wood, metal, plastics and rubber. It has a pot life of nearly 2 hours after mixing, and a 24 month shelf life. Forms flexible yet very strong bonds. Color:Gray.

2 oz. kit .....P/N 02-00045 ..... **$43.80**

G/FLEX EPOXY ADHESIVE

A toughened, versatile, liquid epoxy for permanent waterproof bonding of fiberglass, ceramics, metals, plastics, damp and difficult-to-bond woods. Modulus of elasticity of 150,000 PSI. Much stiffer than adhesive sealants. Makes structural bonds that can absorb the stress of expansion, contraction, shock and vibration. It is ideal for bonding dissimilar materials. It can be modified with West System fillers and additives, and used to wet-out fiberglass tapes and fabrics. Mixed at a 1:1 ratio, G/flex gives you 45 minutes of working time at room temperature. It reaches an initial cure in 7 to 10 hrs and full cure in 24 hrs.

Epoxy Adhesive.....P/N 01-01162..... **$20.19**
650-K Epoxy Kit **-** This kit contains 4 fl. oz. G/flex 650 resin, 4 fl. oz. G/flex 650 hardener (8 fl. oz. mixed epoxy), 2 reusable mixing stick/applicators, 2 12-cc syringes, 4 grams Adhesive Filler, 4 mixing cups, 1 pair disposable neoprene gloves, 4 alcohol cleaning pads and complete handling and repair instructions. .....P/N 01-01161..... **$29.98**
655-K Epoxy Repair Kit **-** This kit contains 4.5 fl. oz. G/flex 655 resin, 4.5 fl. oz. G/flex 655 hardener (9 fl. oz. of mixed epoxy), 2 reusable mixing stick/applicators, 4 alcohol cleaning pads, 1 pair disposable neoprene gloves, 10 mixing palettes and complete handling and repair instructions. .....P/N 01-01163..... **$29.98**

PTM&W ES6279 AEROPOXY EPOXY ADHESIVE

Manufactured by PTM & W Industries, Inc. ES6279 is a light grayish-tan two part adhesive that was developed specifically for difficult bonding problems involving similar or dissimilar materials. ES6279 provides excellent adhesion to a wide variety of materials such as aluminum, steel, brass, glass, ceramics, and wood. The mix ratio of 1 to 1 by weight or volume allows easy measuring, and the creamy, smooth viscosity allows easy, uniform application. The cured material has excellent strength as well as good resistance to weak acids, moisture, and weather. ES6279 has been used successfully for many years in a variety of general bonding uses as well as numerous production applications.

Part Number	Description	Wt. (lbs.)	Price
02-30015	1/2 quart part A only	3.0	**$39.65**
02-30020	1/2 quart part B only	3.0	**$36.75**

PTM&W ES6209 AEROPOXY STRUCTURAL ADHESIVE

ES6209 is a translucent, straw colored two component epoxy adhesive with a thick, liquid consistency. ES6209 is an excellent structural adhesive for use when good flow and surface wetting are required. Though pourable it has a controlled flow viscosity to minimize run-out from the adhesive joint. The 1 to 1 combining ratio by weight or volume makes it easy to measure and mix. The working time of over an hour provides plenty of time to coat and assemble the materials to be bonded. ES6209 has excellent adhesion to composite and metal parts typically used in kitplane construction. It bonds rigid foam, wood, ceramics, fiberglass and most metals with ease. When cured ES6209 provides tough, durable structural joints. Mix Ratio: 1 to 1 by weight or volume; Color: Translucent Amber, Mixed Viscosity: 45,000-55,000cps; Pot Life 4fl. oz. Mass: 60-90 min @ 77°F; Cure Time @ 77°F 18-24 hrs, @ 140°F 2-3 hrs. Quart Kit.....P/N 01-00295 ..... **$48.50**

METAL SET A4 ALUMINUM FILLED EPOXY ADHESIVE

Metalset A4® is a powerful epoxy adhesive that has been used for years by all branches of the U.S. Military as well as every major airline and auto manufacturer in the world. A4 is used for hundreds of industrial bonding applications and offers excellent adhesion to porous or non-porous surfaces. It can be applied to vertical surfaces without sagging and cures overnight with negligible shrinking. Once cured, A4 offers good machining qualities (sanding, drilling, tapping), and resists alkalies, dilute acids and solvents. Applications include stopping leaks in pipes, valves and tanks (i.e. car gas tanks), bonding like and unlike surfaces, filling metal joints, dents, etc., anchoring bolts in wood, concrete, and repairing metal surfaces. 6 oz tube - 16 hour cure time

P/N 02-00220..... **$13.75**

PTM&W ES6228 METAL BONDING ADHESIVE

ES6228 is a thin paste viscosity epoxy adhesive designed to provide good bonds to metal surfaces. A unique feature of ES6228 is its ability to bond to slightly oily metal surfaces. This is useful in situations where the complete removal of residual mill oil on metal surfaces is not possible. The thin paste consistency of ES6228 wets the metal surface well, for good adhesion. This viscosity also provides some gap filling capabilities, so "close-fitting" joints are adequate, and matched-metal joints are not required. ES6228 has a 1:1 mix ratio, by weight or volume, for easy measuring. The white resin and black hardener combine to a smooth gray system that is easy to mix and apply, The cured material has very good properties, with high bond strength and elongation, for tough durable assemblies.

Product Specifications	ES6228-A Resin	ES6228-B Hardener	Test Method

Mix ratio	100:100 by weight or volume		PTM & W

Quart Kit (4.5 lbs) ..... P/N 01-00415..... **$64.50**
Gallon Kit (18 lbs)..... P/N 01-00414..... **$203.95**

SYSTEM THREE ROTFIX

Rotfix is an easy-to-use, low viscosity epoxy wood restoration system for consolidation of rotted, deteriorated, dried out, or spongy wood. It creates a strong water-resistant base for repair and restoration. Penetrates deep into wood for maximum strength. Use with Sculpwood for permanent structural repair or severely damaged wood. Kit includes 16 oz measuring/application bottle.

1.5 pint (24 oz) Kit ..... P/N 02-90050..... **$35.75/ea**

SYSTEM THREE SCULPWOOD

Sculpwood is a moldable, carvable, sandable epoxy putty for replacement of damaged wood. It forms a strong, permanent bond to most rigid surfaces and can be sawed, nailed, carved, machined, sanded, stained, painted, and screwed. Porous, rotted, or deteriorate wood should first be treated with RotFix.

2 pint (32 oz) Kit.....P/N 02-90055 ..... **$33.75/ea**

SYSTEM THREE QUICK CURE EPOXY

Quick Cure is a 5 min. epoxy from System Three which bonds wood, metals, fiberglass, ceramics, plastics and glass. Excellent for making quick repairs, as it hardens in 5 minutes at room temperature. Mixing ratio: 1 to 1. Not recommended for applications in excess of 200°F.

Pint Kit .....P/N 02-30060 ..... **$28.85**
Quart Kit.....P/N 02-30065 ..... **$49.75**

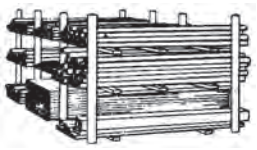
METLWELD EPOXY ADHESIVE

MetlWeld ia a 2-part, equal volume ratio, room temperature curing epoxy adhesive. MetlWeld develops strength earlier than other comparable 1:1 systems and may be used at temps. as low as 50˚F. Metal to be bonded should be freshly sanded and clean from grease, wax, oil and other contaminants. Allow 48 hours min. to cure and develop strength at 77˚F (longer at cooler temps.) before subjecting to stress. Bonds plain & anondized aluminum, glazed & unglazed ceramic; concrete; copper; glass; galvanized and stainless steel; neoprene rubber and most porous materials. Does not bond acrylic, polyethylene, polypropylene, polystyrene or vinyl plastics.

1/2 Pint Kit ..... P/N 01-00406..... **$21.00**
Pint Kit ..... P/N 01-00407..... **$31.50**
Quart Kit ..... P/N 01-00408..... **$44.85**

4130 STRUCTURAL TUBING

4130 ALLOY STEEL ROUND SEAMLESS TUBING MIL-T-6736 NORMALIZED /ANNEALED



4130 is a chromium-molybdenum general purpose alloy steel tubing that is weldable and is capable of developing good strength. It has been for years the standard of the aircraft industry. Tensile Strength: 90,000 PSI. The stock sizes listed below can be furnished in lengths from 1 foot to 12 feet. Large orders are filled in random lengths from 10 to 12 feet unless specific lengths are requested. No charge is made for cutting stock sizes of tubing to mailable length. Quotations furnished on unlisted sizes.

IF MFG TEST REPORTS ARE REQUIRED THERE IS A $15.00 CHARGE PER ORDER. PLEASE INDICATE AT TIME OF ORDER

Ordering tubing/bar by the foot.
Add a dash number after part number to indicate length of tubing required.
Ex: 3 ft required add -3, 03-00100-3.

4130 TUBING KITS

We furnish complete 4130 tubing kits for a variety of aircraft designs including the Skybolt, Pitts Special, Acro Sport, Starduster, Osprey, and many more. The kits contain sufficient round, square, & streamline tubing to produce the pieces shown on our materials list for each design. We urge the builder to verify his own materials list against ours. Request kit list you require & current quotation. Enjoy big savings by purchasing a complete tubing kit for your aircraft at one time.

TUBE SEAL (LINE OIL)

Prevents rust and corrosion inside aircraft tubing structures. Will climb tubing wall and spread over entire surface. Will penetrate and reveal small pin holes in a weld and in time, due to exposure, will congeal and seal the hole. Directions on label. One quart will treat two light aircraft fuselages. Quart.....P/N 03-14000.....**$26.00**

BARGAIN BAG 4130 TUBING

Starter Kit - An assortment of 4130 tubing, rod and bar in short lengths to practice welding. At least 15 ft. of tubing in assorted sizes and wall thicknesses. Furnished subject to availability of cutoffs.

P/N 03-15900 .....**$27.85**

STEEL TUBING & ROD

4130 STREAMLINE TUBING MIL-T6736 NORMALIZED

The prices for streamline tubing have increased sharply. The only manufacturer of streamline tubing, Columbia Summerill, have encountered problems with cracking on the trailing edge intermittently for many years and it has been a worrisome problem for builders. In an effort to control the situation, Columbia Summerill have installed sophisticated inspection equipment in their plant to assure that no cracked tubing gets into the field again. The cost of the equipment is reflected in the prices for the tubing which must be shared by all.

E-4340 ROUND STEEL ROD

SPEC. MIL-S-8503 COLD FINISHED ANNEALED

E4340 rod has high fatigue strength and maintains its hardness and strength qualities even at high temperatures. Excellent for use in highly stressed parts. Meets AMS2032 and is furnished normalized and tempered cold finished.

ME

4130 STEEL SHEETS & STRIPS MIL-S-6345A NORMALIZED

This chromium-molybdenum alloy is one of the most widely used aircraft steels because of its combination of weldability, ease of fabrication and mild hardenability. It will respond to heat treatment to high strength levels and yet, in the annealed condition, it has adequate strength for many applications. Used for the manufacture of parts and components. Tensile strength 75,000-85,000 PSI. Furnished cold-rolled and oiled in sheet thicknesses of .025-.125 inch. Sheets of .190-.250 inch and greater thickness are hot-rolled, pickled and oiled. Sheared to sheet and strip sizes listed below. Subject to availability of normalized sheet, annealed 4130 sheet may be substituted.

E4340 RECTANGULAR FLAT STEEL

SPEC. MIL-S-5000 ANNEALED

This chromium-nickel-molybdenum alloy, "king" of the hardening grades of alloy steels, possesses much deeper hardenability than the 4100 series. The fatigue-tensile ratio makes it ideal for highly stressed parts such as landing gear legs, and is often referred to as "spring steel". Tensile strength is about 110,000 PSI. It is difficult to weld but can be welded by any of the common welding processes providing the section is preheated and stress relieved after welding.

VACUUM MELTED LOW ALLOY 4130 STEEL WELDING WIRE

This high quality welding rod is produced from vacuum melted material. This material has ultra-low levels of oxygen, hydrogen, and nitrogen and is extremely low in trace elements. This rod is cleaner than standard rods and is the best available for 4130 welding. .062 dia. 36" long. Appro. 32 units per pound.

P/N 03-27600.....**$64.75/lb.**

BRASS BRAZING ROD

1/16" ..... P/N 03-27625 .....**$12.50/lb.**
3/32" ..... P/N 03-00118 .....**$9.90/lb.**

OXWELD WELDING ROD

For big-strength welds in steel plate, sheet, structural shapes, pipe and steel castings. Supplied in 36" lengths in sizes 1/16", 3/32" and 1/8".

NO. 32CMS – Recommended for 4130 steel structures for most satisfactory results. This rod is heat-treatable after welding.

1/16" Dia .....P/N 03-27000 ..... **$7.80/lb.**
3/32" Dia .....P/N 03-27100 ... **$11.85/lb.**
1/8" Dia. .....P/N 03-27200 ..... **$5.50/lb.**

NO. 7 – Used in general commercial welding and by many mechanics for non-heat-treated airframe repairs.

1/16" Dia.....P/N 03-27300.....**$9.45/lb.**
3/32" Dia.....P/N 03-27400.....**$8.25/lb.**
1/8" Dia.....P/N 03-27500....**$11.75/lb.**

WELD BRUSH

Stainless steel bristles set in curved wooden handle. Just right for cleaning welds. 1/2" Wide x 8" Long.

P/N 03-26500.....**$0.91**

For Alumium Welding Rod, see page 56.
For Welding Equipment, see pages 754-756.

IF MFG TEST REPORTS ARE REQUIRED THERE IS A $15.00 CHARGE PER ORDER.
PLEASE INDICATE AT TIME OF ORDER

ALUMINUM – STAINLESS-GALVANIZED SHEET

ALUMINUM SHEET

Aluminum alloy sheet is sold in the thicknesses and sheet sizes shown in the table. Order by part number. No guarantee against scratches is possible due to the handling required to cut sheets to sizes shown.

CUTTING CHARGES: We can cut standard sheet sizes shown in the table to special sizes, but special order cutting charges will apply. Cutting Charges range from $20 to $50 or more depending on sizes desired and number of cuts. Special shapes are not cut, only straight edges. Request quote on Cutting Charges prior to order, as special cut pieces are not returnable.

For 2'x2' piece of aluminum sheet, take 2'x4' price ÷ 2, and then add 15%. For 2'x2' piece, change last two digits of P/N to "60". Thicknesses of .016, .020, .025, .032, and .040 can be rolled and boxed for UPS shipment with insurance coverage, but we cannot guarantee rolled sheets will lay flat without creasing when unpacked. Full sheets of heavier gauges or cut sheets exceeding 108" length plus girth (once down and once around) must be shipped by truck. Maximum sheet size for UPS shipment is 2' x 4'. ***QUANTITY DISCOUNT SCHEDULE:*** 10% on 6-10 Full Sheets; 15% on 11-15 Full Sheets. May be assorted thicknesses and alloys. Write for quotation on larger orders. Heavy gauge 2024T4 aluminum plate available in .375, . 500 and .625 thickness. Indicate sheet size required.

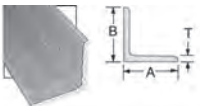
Unlisted sizes of aluminum rod and bar available in full 12 ft. lengths.
No charge for cutting to 8 ft. or less for UPS. Longer lengths shipped via truck.
If ordering only T3 or T4, please call 877-477-7823
Ordering tubing/bar by the foot. Add a dash number after part no. to indicate length of tubing req.
Example: 3 ft required add -3, 03-00100-3.

ALUMINUM STREAMLINE STRUT TUBING

Aluminum streamline strut tubing, 6061T6, anodized. Used for struts in American Eaglet sailplane. Major axis 2.697", minor axis 1.143", .049" wall. Available in 6 ft. lengths only.
P/N 03-40000..... **$99.95**



ALUMINUM ANGLE

Extruded aluminum angle is produced by forcing a heated aluminum billet through a die of the proper shape by means of a hydraulic press. Our 90° aluminum extrusions have fillet radius as illustrated.

ALUMINUM HINGE – STRINGERS

PIANO HINGE

MS20257P (supercedes AN257) hinge consists of two aluminum half hinges which mate and are held together by a hinge pin. Anodized finish. MS20257C is similar to MS20257P except made in stainless steel.

MS20001P aluminum hinge is extruded. The closed hinge loops cannot be pulled apart. Furnished with hinge pin. Anodized finish.

WELDING ROD FOR ALUMINUM

ALUMINUM

ER4043 – A versatile alloy well suited for welding 6061T-6, 5005, and 6063. Extremely ductile. 1/16" dia.....P/N 03-27520 .....**$13.90/lb.**
3/32" dia.....P/N 03-27525 .....**$11.85/lb.**

ER4145 – Welding alloy recommended for use with 2024T3. A high strength alloy. 1/16" dia.....P/N 03-27510 .....**$79.25lb.**

ER5356 – Combination of strength and ductility for welding 5083, 5086, and 7000 series. Deposit can be anodized after welding.
1/16" dia.....P/N 03-27530 .....**$12.50/lb.**
3/32" dia.....P/N 03-27535 .....**$8.95/lb.**

UTP4 – Pure aluminum for 1100 grade.
1/16" dia.....P/N 03-27540 .....**$19.99lb.**

ER347 – Popular aircraft type, stabilized austenitic stainless alloy for welding 302 and 304 base materials. Excellent for welding Ti stabilized grades such as 321 with high strength and elongation.
1/16" dia.....P/N 03-27545 .....**$17.50lb.**
3/32" dia.....P/N 03-27550 .....**$19.65/lb.**

UTP A-65 – A multi alloy wire for a wide range of base materials including stainless steel, low alloy high strength steel and especially outstanding for dissimilar metals with over 120,000 psi tensile strength and 25% elongation. Machinable. 1/16" dia.....P/N 03-27555 .....**$42.25/lb.**
3/32" dia.....P/N 03-27560 .....**$39.50/lb.**

BRAZING ALLOYS

UTP 306M – Cadmium free, low temperature silver brazing alloy for high strength joints on stainless or copper. Exceptional for thin gauge applications such as tubing. Flux coated for easy use.
1/16" dia.....P/N 03-27565 .....**$362.95/lb.**

UTP 1M – High strength, machinable torch rod for steel, brass, bronze and other copper alloys. Easy to apply, high strength, and versatile all purpose brazing rod. 1/8" dia.....P/N 03-27570 .....**$21.25/lb.**

MAINTENANCE

UTP 612 – An all position mild steel coated electrode for arc welding. Operates on AC or DC current and can be welded by even the most inexperienced welder. 72,000 psi tensile strength, moisture resistant and conveniently packaged in 10 lb containers.
3/32" dia.....P/N 03-27575 .....**$14.60/lb.**
1/16" dia.....P/N 03-27580 .....**$12.85/lb.**

UTP Unial – Self fluxing aluminum torch rod that can be applied with even a butane torch. Low temperature, color matching and ideal for repairs to tubing. P/N 03-27585 .....**$33.00/lb**.

For additional Welding Equipment see pages 754-756.

COPPER TUBING

Seamless copper tubing for primer, fuel and oil pressure lines.

O.D. (In.)	Wall Thickness	Part No.	Price/Ft.

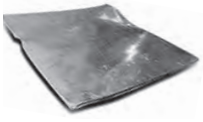
3/8	.032	03-41200	**$3.75**
1/2	.032	03-41250	**$3.65**

20% discount for full soft coils of 50 ft. of Copper Tubing.

COPPER BUS BAR

.125 X 1/2" wide P/N 03-40890 ..... **$3.80/ft.**



LEAD SHEET

Lead sheet per specification QQ-L-201, Grade B. 1/8" thick. Wt. 8 lbs./sq.ft.
P/N 03-31500..... **$59.65/ft.**
Half Sheet (24"x 36", 48 Lbs.)
P/N 03-31520..... **$298.00**
Full Sheet (36" x48", 96 Lbs.) ..... P/N 03-31540..... **$543.00**

ACRYLIC SHEET

American made acrylic sheet Grade C to Specification LP-391 is unshrunk. When heated to forming temperature of 220-250°F, it will shrink about 2.2% in length and width and will increase about 4% in thickness. When heated to a pliable state it can be drilled, sawed and machined. It has excellent resistance to weathering. It is less than half as heavy as glass and has good impact resistance. .060" or .080" thickness is generally used for side windows and .125" for windshields. Both sides are paper covered for protection. Sheet size: 48"x96". Sold in 2'x2' increments only. Order by part number (see table)

Thickness Inch	Weight Lb./Sq.Ft.	Part No.***	Price Per Sq. Ft.
.060 Clear	.37	03-498—	**$2.50**
.080 Clear	.49	03-499—	**$2.75**
.125 Clear	.62	03-500—	**$2.80**
.125 Tinted*	.77	03-501—	**$4.06**
.125 Tinted**	.77	03-502—	**$4.58**

* *Smoke tint* ** *#2111 Green tint*

*** ***Order by basic part number and add last two digits according to dimensions of piece, as follows: 2'x2' (4 Sq.Ft.) add "02"; 2'x4' (8 Sq.Ft.) add "04"; 4'x4'; (16 Sq.Ft.), add "08"; 4'x8' (32 Sq.Ft.), add "10". Example: 2'x4 .080 Clear is P/N 03-49904.***

LEXAN

American made Kirex polycarbonate sheet (an equivalent to G.E. Lexan) is a very strong plastic which is guaranteed by manufacturer against breakage when used as a window for a 3 year period. It will scratch like Plexiglas, but will not break. Clear, masked both sides. Sheet size: 48"x96". Sold in 2'x2' increments only. Order by part number (see table)

Thickness Inch	Weight Lb./Sq.Ft.	Part No.*	Price Per Sq. Ft.
.060	.38	03-503—	**$2.28**
.080	.50	03-504—	**$3.15**
.093	.59	03-505—	**$3.48**
.125	.78	03-506—	**$3.88**

* ***Order by basic part number and add last two digits according to dimensions of piece, as follows: 2'x2' (4 Sq.Ft.), add "02"; 2'x4' (8 Sq.Ft.) add "04"; 4'x4' (16 Sq.Ft.), add "08"; 4'x8' (32 Sq.Ft.), add "10". Example: 4'x4' of .093 is P/N 03-50508.***

CLEAR CELLULOSE ACETATE SHEET

May be used to make inspection rings, grommets and shapes which will adhere to fabric with dope or fabric cement. Sheet size: 20" x 50". Thickness: .030". P/N 03-50700 ..... **$39.90/Sheet**

GRAPHLITE CARBON FIBER ROD

Prepreg tape has an inherent waviness which can reduce the strength and stiffness of a laminate. Graphlite rod eliminates fiber waviness and unlike tape, it can be placed along any curved surface and retain fiber alignment. Graphlite can be used in layers to form building blocks for stiffeners, spar caps, longerons and other axially loaded parts. Components made with Graphlite offer tension strength on the lower wing surface and compression strength on the upper surface that are almost equal. In addition, a single layer of rods is as thick as 10 layers of tape, meaning fewer passes and less effort. Graphlite rods increase compression strength, reduce fabrication costs by 50%, can be laid on compound curves, and require no special storage. Available in two rod types: standard module (SM) which is 33-34 MSI and intermediate module which is 42 msi. Sold by the roll. Typical light aircraft requires minimum of 1000 ft. Graphlite rod.

Rod Type	Rod Diameter	Tensile Strength	P/N	Price per roll
IM	0.067	503	03-50706	**$93.50 /100 ft.**
SM	0.125	503	03-50707	**$16.93 /12 ft.**
SM	0.158	503	03-50708	**$153.95 /100 ft.**
SM	0.063	785	03-50710	**$84.60 /100 ft.**

3M™ WINDOW SEALANTS

3M STRIP CAULK - This black, nonhardening compound in 12" strips is the most satisfactory product for sealing windshields and windows. 61 strips per box, more than enough for an average, leakproof windshield installation.

P/N 08578 ..... **$16.75/Box**

SILASTIC RTV SEALANTS

Dow Corning "SILASTIC" - These 1-part RTV silicone rubber adhesive/sealants adhere to metals, glass, paint, ceramics, wood and most plastics. Form a tack-free skin in one hour & cure to a firm silicone rubber in 24 hrs.

#732 RTV (Clear), 4.7 Oz. Tube ..... P/N 09-27800...**$7.95**

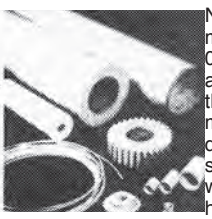
DOW CORNING RTV-3145 ADHESIVE / SEALANT

Sealing openings in modules and housings; adding mechanical stability to individual components; assembly of components on PWBs; sealing in and around wires and electrical leads; yoke assembly.

Clear..... P/N 09-02041 ..... **$35.75**
Gray..... P/N 09-02042 ..... **$35.50**

NYLON



Nylon, a polyimide resin, is a light yet tough thermoplastic material. Its density is approximately .041 lb./cu.in. It is a tough, resilient material with a low coefficient of frictionabrasion tests show that Nylon loses less material than do many metals, other plastics, and hard rubber. It can deform under load, then return to its original shape. Nylon retains its impact strength over a wide range of temperatures (-60° to 400°F). It has good resistance to most chemicals. It can be easily machined on most standard metal working machines, power hacksaws, band saws, or circular saws. It is desirable to use a saw with a coarse tooth blade.

HIGH PRESSURE LAMINATED PHENOLIC

Commonly called "Micarta", a trademark of Westinghouse. Laminated sheets, tube and rods are produced in many grades, sizes and colors. These laminates combine a base material - canvas, linen, paper, glass cloth or Nylon cloth, with a resin- phenolic, melamine, epoxy or silicone, under high heat and pressure to produce a new material with specific characteristics. These characteristics vary with the grade and its use.

GRADE L (LINEN BASE) PHENOLIC SHEET

Used for precision machining and high strength applications. Sheet Size: 36" x 48". Sold in 6" x 6", 6" x 12", 12" x 12", etc. pieces only.

Thickness (In.)	Wt. /Sq . Ft(Lbs.)	Part No.	Price. Per Sq. Ft.

DISCOAT 4220 PLEXIGLASS PROTECTOR

General Chemical's Disccoat 4220 is a CLEAR water resistant; water based peelable temporary protective coating for Aircraft windshields & windows which provides a long lasting durable protective layer tht protects form scratches and oxidation. Used for protecting canopies and windshields during construction. Discoat 4220 air dries quickly, leaving a tough, yet flexible coating that is easily removed and requires no other additional step. 4220 represents the ultimate in water-based removable coating technology. It is stabilized against brittleness and is not softened or penetrated by most water-based compounds.
4220 is impregnated with transparent blue dye for easy visual inspection as well as identification and is non-staining and stable to 100 degrees Celsius. Approximate coverage: 35 sq. ft. per quart. May be applied by spray or brush. Minimum of 4 coats recommended for best results.

Discoat 4220 Plexiglass Protector QT ..... P/N 03-00158..... **$23.75**
Discoat 4220 Plexiglass Protector GL..... P/N 03-00159..... **$96.50**

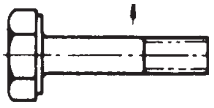
SPRAY LAT ACRYLIC SHEET PROTECTOR

Sprayable, clear compound specially formulated as a strippable, protective coating for acrylic sheet, flat and formed. Used for protecting canopies from scratches during construction. Coverage: Approx. 35 sq.ft. per quart. Caution: Spray Lat can be difficult to remove if left on for more than 1 year.
Spray Lat Plexiglas Protector - Quart ..... 03-54900..... **$23.95**
Spray Lat Plexiglas Protector - Gallon..... 03-55000..... **$79.95**

AN BOLTS

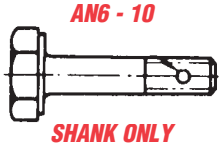
Hex head aircraft bolts are made of high-strength type 4037 or 8740 alloy steel (type 8740 is most commonly used). The bolts are threaded after heat treatment. Minimum tensile strength 125,000 PSI. Cadmium plated per specification QQ-P-416, Type II, Class 3. Available with shank drilled for cotter pin or undrilled for stop nut application, and with or without drilled head for safety wire. Specify bolts to have undrilled shank by adding letter "A" after dash number. For bolts with drilled head add letter "H" after AN number. See illustrated examples. The length of AN aircraft bolts is measured from under the head to the end of the shank. The "grip" is the unthreaded portion of the shank. See table for conversion of length and/or grip to proper AN callout.

FOR UNDRILLED ADD THE LETTER "A" EXAMPLE: AN6 - 10A



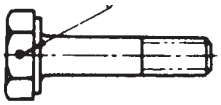
UNDRILLED

FOR DRILLED SHANK NO LETTER EXAMPLE! AN6 - 10



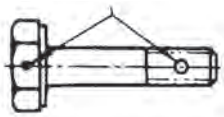
SHANK ONLY DRILLED

FOR DRILLED HEAD ADD "H" AND "A" EXAMPLE: AN6H-10A



HEAD ONLY DRILLED

FOR DRILLED HEAD AND SHANK ADD "H" ONLY EXAMPLE: AN6H-10



BOTH HEAD AND SHANK DRILLED

NOTICE - Aircraft Spruce & Specialty Company is committed to supplying only top quality aircraft grade hardware. In most cases we receive our hardware certified to applicable AN, MS, or NAS specifications from our suppliers, but on certain items, it is necessary for us to accept hardware without certifiable traceability in order to continue supplying that particular part number.

AN7 AND AN8BOLTS

Hex head aircraft bolts are made of high-strength type 4037 or 8740 alloy steel (type 8740 is most commonly used). The bolts are centerless ground and threaded after heat treatment. Minimum tensile strength 125,000 PSI. Cadmium plated per specification QQ-P-416A, Type II, Class 3.

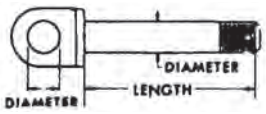
EYE BOLTS



AN42 - AN46 EYE BOLTS

Eye bolts are special purpose bolts to be used where external tension loads are to be applied. The eye is designed for attachment of such devices as a turnbuckle fork, a clevis or a cable shackle. Manufactured and plated in same manner as AN3 - AN8 bolts . Minimum tensile strength 125, 000 PSI . Eye bolts will be furnished with either drilled or undrilled shank subject to stock on hand. Add letter "A" after dash number for undrilled shank.

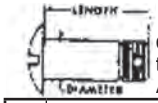
CLEVIS BOLTS



AN23 - AN27 CLEVIS BOLTS

Clevis bolts have a slotted brazier type head. They are special-purpose bolts for use where a large shearing stress occurs (never in tension). Manufactured and cadmium plated in same manner as AN3 - AN8 aircraft bolts. Minimum tensile strength 125,000 PSI. Available with drilled or undrilled shank. Add letter "A" after dash number for undrilled shank. Prices fluctuate on clevis bolts.

AN173, AN174, & AN175 CLOSE TOLERANCE BOLTS

Non-corrosion-resistant cadmium-plated steel machine bolts. The appearance of these bolts can be of two types: on the more common type, the head and threads are cad but the grip appears silver due to being ground and greased. The second type is all cad and is manufactured to Revision 20 (April, 1990) of the military specification. Both are acceptable. Both are drilled.

Cat. #	Dia. (inches)	Threads/ inch	Length (inches)	Grip (inches)	Price

NAS SHEAR BOLTS

These bolts supercede NAS1103–NAS1106 high strength bolts. Made from alloy steel with a CAD II finish.

Part numbers with "D" are for shank drilled. All others are undrilled bolts.

AN310 CASTLE, AN320 SHEAR NUTS

Fabricated from steel & cadmium plated per QQ-P-416, Type II, Class 2. AN310 castle nuts are used with drilled-shank bolts, clevis bolts, eye bolts and studs. The slots in the nut accommodate a cotter pin for safety purposes. The thinner AN320 castellated shear nut, with half tensile rating of the AN310 nut, used with clevis bolts & threaded taper pins which are subject to shearing stress only.

AN315 FULL HEX, AN316 THIN CHECK NUTS

Fabricated from steel and cadmium plated per QQ-P-416, Type II, Class 2. The AN315 plain hex nut is of rugged construction and can carry the same high tension load as the AN310 castle nut. It requires an auxiliary locking device such as a check nut or lock washer. AN316 hex check nuts can carry half the tension load of the AN315 nut. They are used as a locking device for plain nuts, set screws, rod ends, etc. Order by AN number. Add R or L after dash number for right-hand or left-hand thread. ***Example:*** AN316-5L is a thin check nut with 5/16-24 left-hand thread.

AN364
MS21083
NAS1022N

AN365
MS21044
NAS1021N

These precision-made nuts are reliable and economical fastening devices. The nylon insert gives a friction grip on the threads of the bolt and holds securely. The AN364 (thin) stop nut is for use in structural applications where the bolt is loaded primarily in shear or in any application where the tensile strength of the regular height AN365 is not required. Cad stop nuts are furnished to military specifications. Insert color designates manufacturer only.

TINNERMAN FASTENERS

TINNERMAN NUTS FOR SHEET METAL SCREWS

"B"-type Sheet Metal Screw

These speed nuts are self-locking steel fasteners. Locking action is derived from the force exerted by the two arched prongs against the root of the screw thread and by the spring tension of the prongs and base. The combined forces of the thread lock and spring tension provide a vibration proof fastening. Speed nuts retain their spring tension and may be used repeatedly without losing their self-locking effectiveness. Suitable for numerous non-structural applications.

Finish: Phosphate-coated with three coats of olive drab paint.

Important: Speed nuts for aircraft are designed to fit standard AN530-AN531 type B sheet metal screws only. Do not use pointed type A sheet metal screws with aircraft Speed nuts. There is a difference in root diameter and thread pitch. Screw lengths: B type sheet metal screws have a blunt taper at the end. To be certain the fastener prongs grip on the full root diameter, the screw should protrude two to three threads beyond the prongs. See the illustration.

FLAT TYPE (NAS 446)

Used to replace threaded nuts, lock washers, and spanner washers; weigh less than other types of self-locking aircraft fasteners. Can be applied faster, easier, and are vibration resistant. Provide maximum holding power at minimum cost per fastener. Turned-up ends prevent scoring of surfaces. Use with type B tapping screws.

P/N 04-02052 ..... **$0.58**

INSTRUMENT MOUNTING NUTS

Cage type. Permit mounting of aircraft instruments from the front of the panel. No charge in panel or instrument design required. Non-magnetic (speed nut is brass; cage is phosphor bronze). Conform to MIL-N-3336. Cage is easily compressed with finger-pressure to allow insertion of legs into clearance holes. When fully inserted and pressure is released, legs spring apart; retain SPEED NUT in screw-receiving position. Turned-down corners hold firm against force of inserting screw and screw-tightening torque. All instrument mounting nuts listed below take a 6-32 machine screw.

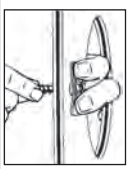
10-32	.350-.500	.020-.090	04-00153	$0.79

HOW TO APPLY SPEED NUT FASTENERS

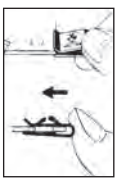
FLAT TYPE



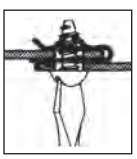
Fastener is positioned over screw clearance hole with screw-engaging prongs pointing up or outward. Screw is started into nut by hand from the underside.

Screw can be power-driven into locked position (when base arch of fastener is flat) or a hand screw driver can be used. No wrench is required, finger pressure will prevent it from turning

"U" TYPE



Push into position with thumb until extrusion on lower leg snaps into screw hole. The fastener "floats" in screw-receiving position to correct for normal misalignment in panel mounting holes.



Place second panel in position & drive screw. Access to opposite side is unnecessary. Flush mounting can be made by embossing either panel.

"U" TYPE (NAS 395)

Snaps over edge of panels or into center hole locations. Holds itself in place for blind assembly. "Floats" free for easy hole alignment.

FILLISTER HEAD SCREWS – MACHINE SCREWS

MS24694 MACHINE SCREWS (FORMERLY AN509)

These structural screws have a 100° countersunk head. Cadmium plated per QQ-P-416, Type II, Class 3. Minimum tensile strength for steel is 125,000 PSI.

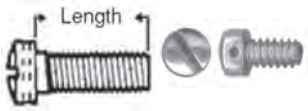
FILLISTER HEAD SCREWS - DRIVE SCREWS



AN500, AN501 DRILLED FILLISTER HEADSCREWS

AN500 (coarse thread) & AN501 (fine thread) slotted fillister head screws are fabricated from carbon steel. Tensile strength 60,000 PSI. Cadmium plated,Type II Class 3.
If there is an "A" after the dash, the part is cadmium plated, Type II, Class 3, with a drilled head. If there isn't an "A" after the dash, the part is Cadmium plated, Type I.

AN500 (Coarse Thread)

SNAP BUSHINGS

Fingertip Assembly

Ideal for abrasion and cutting protection of wiring, antenna leads, tubing, cables, etc. that are routed through bulkheads, ribs and other internal aircraft structures. Made of hard black nylon. Drill a hole about 1/8" larger than bushing I.D. and insert bushing. Spring-like fingers snap out to hold it in place. Special sizes on request with 100 piece minimum. *For .062" max. bulkhead thickness. All others for .125" max. bulkhead thickness.

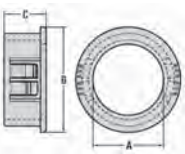
For .062" max. bulkhead thickness. All others for .125" max. bulkhead thickness. Less 15% Discount on 100 pieces per size.

SNAP BUSHINGS



Converts raw-edged holes to smooth, neat, insulated holes. Locking fingers "snap" into holes with fingertip pressure. Locking finger steps are designed at fractional increments to accommodate a range of panel thicknesses up to .250" (6,4 mm). Withstands a push back force of 35 pounds.

SET SCREWS

Set screws are used to provide immediate, binding location of various parts on shafts. Maximum holding pressure is made by the cup point edge gripping the contact suface. Allen head wrenches are used to operate set screws.

10-32 X1/4 INCH ALLEN SET SCREW

Set Screw - Socket Products Type: Socket Set Screws Point Type: Cup Thread Size: 10-32 Overall Length: 1/4 Material: Alloy Steel - Grade 8 Finish/Coating: Black Oxide. Key Size (Inch): 3/32. Metalworking Book: 2085. Big Book: 1830 P/N 04-01032.....**$0.37**

SHORTY BUSHING 2820

Material: 6/6 Nylon Certifications: File E15331 File LR8919 Flammability Rating: 94V-2 Material Temperature Index: 125°C (257°F)–Max. temperature on part not to exceed 105°C (221°F) Insulating feed-thru bushings for limited internal clearance applications.

P/ N 04-02026.....**$0.19**

NAS549 PHENOLIC WASHERS

NAS549-10 Phenolic insulating washers for #10 screws. Size: 13/64" I.D. x 7/16" O.D. x 1/16 thick..... **$0.15 Ea.**

G-8 TINNERMAN WASHERS

A No. 8 'Tinnerman' style washer with the same O.D. as a No. 10 (0.75). Great for those oversize holes in fairings. Unlike the No. 10 washer with a No. 8 screw, these washers will tighten down on the fairing (not bottom out on the cone) thus providing the proper "clamp up" between the fastener and the fairing. The G-8 washers are Made in the USA from 304 (1/2 hard) Stainless Steel and are machine tumbled for a shiny finish.

P/N 04-01989 ..... **$0.29**

TINNERMAN COUNTERSUNK WASHERS

For use with 100° flat-head screws such as MS24693 and MS24694 machine screws and NAS548 sheet metal screws to provide reinforced, low-profile attachments. Made of spring steel, cadmium electroplated.

Part No.	Screw Size	I.D. In.	O.D. In.	Price Each	Price per 100

AN975 TAPER PIN WASHERS

Taper pin washers are used with AN386 threaded taper pins. Manufactured of steel, cadmium plated per QQ-P-416, Type II, Class 2.

AN975 Dash #	Fits Taper Pin #	Price Ea.
-3	1, 2	$0.64
-4	3	$1.40
-5	4	$2.55
-6	5	$2.35

AN960 FLAT WASHERS

AN960 flat washers are used under hex nuts to provide a smooth bearing surface, as shims to obtain the correct grip length for a bolt and nut assembly, and to adjust the position of AN310 and AN320 castle nuts with respect to drilled cotter pin holes in bolts and clevis pins. Available in cadmium plated steel or anodized aluminum, and in regular and light thickness. Add the letter "L" to dash number to indicate light series. For anodized aluminum washers, add the letters "PD" after AN number.

Examples: AN960-416L is a light series cadmium plated steel washer for 1/4" dia. bolt. AN960PD-10 is an anodized alumsinum washer for a 3/16" dia. bolt. AN960PD-10L is a light series anodized aluminum washer for a 3/16" dia. bolt.

FINISHING WASHERS

Finishing washers are used in non-structural interior and upholstery applications. The parts covered by NAS390 & NAS391 are getting harder to procure and do not necessarily conform exactly to all of the dimensions stated on the specs. Commercial equivalents can be supplied and are suggested. These are non-critical washers that are readily available and cost effective.

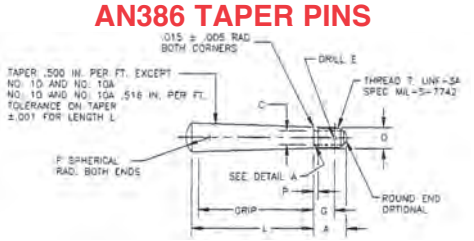
AN386 TAPER PINS



Manufactured from alloy steel, minimum tensile strength 125,000 PSI. Cadmium plated per spec. QQ-P-416, Type I, Class 3. Taper: 0.500"/ft. Use with AN975 taper pin washer, AN320 shear castle nut and cotter pin or with AN364 elastic stop nut. When installed, the small end of the tapered shank should protrude no more than 1/16" above the surface of the assembly. The first dash number is the Brown & Sharpe taper pin reamer number and the second dash number is the grip length in eighths of an inch. For undrilled threaded shank add the letter "A" after second dash number.

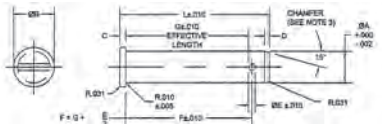
CLEVIS PINS



Made of alloy steel per specification MIL-P-5673 and cadmium plated per QQ-P-416, Type II, Class 3. Provided with drilled hole for cotter pin. Used with clevis forks and in secondary controls which are not subjected to continuous operation. Order by AN number and dash number. Example: AN395-41 is a 5/16"dia. pin with an effective length of 1-9/32". Equivalent MS number is MS20392-4C41. ***Less 20% in lots of 25 per size. Request quotation on unlisted sizes. NOTE: Clevis pin prices fluctuate with changes in cost/availability at suppliers.***

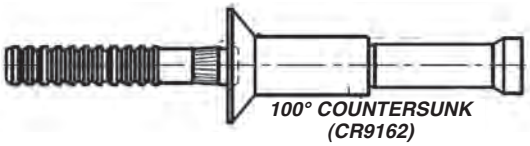
CHERRY COMMERCIAL RIVETS

CHERRY AEROSPACE RIVETS - SELF-PLUGGING CHERRY RIVETS



100° COUNTERSUNK (CR9162)

The self-plugging Cherry Blind Rivet is a 2-piece assembly - a hollow rivet and an inner member or stem, drawn into or through the hollow rivet. Cherry CR162 & CR163 series rivets are now replaced by CR9162 & CR9163 series rivets which are less expensive but do require the use of G-25B hand rivet gun with H-901-5-4C pulling head attached or G-29 which comes with the req. nosepiece.

P/N 04-01515 Pulling Head (required)..... **$549.00**
G-29.....P/N 12-00701 ..... **$114.95**

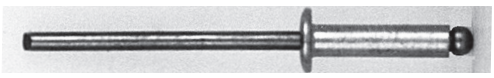
HA

CHERRY N RIVETS

Break mandrel rivets Conform to MIL-R-24243 & IFI-114 Standards

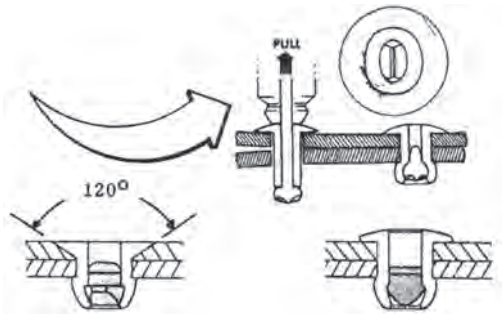


LOW COST
Substantial savings in installed costs can be realized when Cherry N Rivets are substituted for spotwelds, screws or bolts.

FAST INSTALLATION
Quick and easy to use with hand or power riveters, Cherry N Rivets have endless fastening applications in manufacturing, maintenance.

UNIQUE FEATURES
Unusual mandrel design of Cherry N Rivets holds rivet and mandrel firmly together prior to installation and insures positive mandrel retention in the installed rivet.

NO MANDREL POP OUTS—
As the mandrel is drawn into the rivet, the end of the rivet sleeve closes in an elliptical configuration... locking the mandrel firmly in place!



FLUSH HEAD **PROTRUDING HEAD**

CHERRY N RIVET IDENTIFICATION CODE

First letter is rivet material:
A = 5052 Aluminum B = 5056 Aluminum C = Stainless
M = Monel S= Steel U = Copper

Second letter is mandrel material:
A = 7178 Aluminum S = Steel C = Stainless

Third letter is head style:
P = Protruding L = Large C = Flush

First number is rivet diameter in 32nds of an inch:
For example,—4 is 4/32nds or 1/8" diameter

Second number is rivet maximum grip length in 16ths of an inch:
For example,—6 is 6/16ths or 3/8" grip length

MINIMUM RIVET SHEAR AND TENSILE STRENGTH (IBS.)

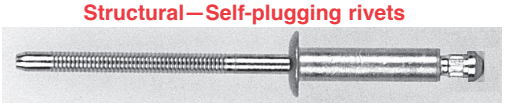
CHERRY Q RIVETS

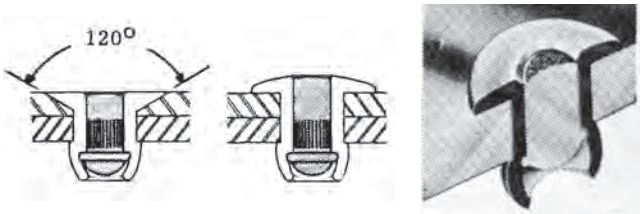
Structural—Self-plugging rivets



HIGH SHEAR STRENGTH
Cherry Q Rivet mandrel plugs the entire length of the rivet sleeve, providing full shear strength values for structural or load-bearing applications.

SEALING CAPABILITY
Specially designed mandrel of the Q Rivet is engineered to effect a seal, upon installation which offers resistance to leakage.

VIBRATION RESISTANT
Rivet sleeve curls over end of mandrel to insure its positive retention.



FLUSH HEAD **PROTRUDING HEAD**

CHERRY Q RIVET IDENTIFICATION CODE

First letter is rivet material:
A = 5052 Aluminum B = 5056 Aluminum C = Stainless
M = Monel S= Steel

All USM "Pop" rivets are 1/64" larger than nominal diameter. Presented here for cross reference purposes only. **Quotations on larger quantities.

AVEX NON-STRUCTURAL BLIND RIVETS

Avex non- structural blind rivets, with aluminum body and steel stem, are similar to the Cherry BSP and BSC commercial rivets. We stock the standard dome head, 120° countersunk head and the low-profile "Lo-Pro" dome head rivets in diameters up to 3/16".

Head Style	Part No.	Dia.	Grip Range	Price Each	Price 100	Price 1000

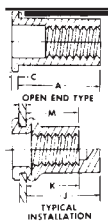
	1661-0621	3/16"	To .500	$0.06	$5.40	$48.00



RIVET NUTS (OPEN END)

The Rivet nut is a one-piece internally threaded and counter-bored tubular aluminum rivet that can be pulled up or head-ed while working entirely from one side, forming a bulge or head on the blind side. This upset is large enough to resist being pulled through metal or plastic even under conditions of eccentric load. It overcomes the difficulty of installing brackets, handles or other attachments to tubular pieces.

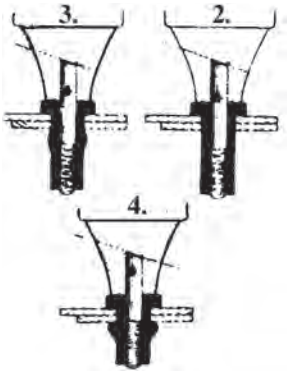
RIVET NUT INSTALLATION

Rivet Nut is threaded onto pull-up stud of a hand or power-heading tool.

SEE TOOLS SECTION (PAGE 686) FOR RIVET NUT TOOLS.



Rivet Nut on header tool mandrel, inserted in drilled hole ready for installation. Arrow indicates direction of mandrel movement as tool is operated Mandrel retracts pullingthreaded portion of Rivet Nut shank toward blind side of work, forming bulge around unthreaded shank area. Rivet Nut is clinched securely in place. Unthreading the tool mandrel leaves internal Rivet Nut threads intact, unharmed.

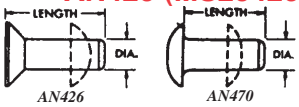
BLIND NUT PLATE - Installed Rivet Nut also serve as blind nut plates for simple screw attachments.

SPRING LOADED CENTER PUNCH

Spring loaded center punch works great with universal aluminum head rivets, oval head and round head rivets.

P/N 12-02464 .....**$34.95**

SOLID ALUMINUM RIVETS
AN426 (MS20426) AN470 (MS20470)



"A" rivets are "soft". They are fabricated from 1100-grade aluminum and have a tensile strength of 16,000 PSI. "AD" rivets are fabricated from 2117 aluminum and heat treated to the T4 condition. They have a shear strength of 26,000 PSI and a tensile strength of 38,000 PSI. All rivets sold in 1/4 lb. & 1/8 lb. packages.

CHERRYMAX RIVETS

100° Countersunk Head (CR3242 & CR3212)

Universal Head (CR3243 & CR3213)

Due to the large bulbed blind head, similar to that of a solid rivet, the Cherrylock and CherryMax rivets are especially suited for double dimpled or high vibration applications. They can be used as replacements for some solid rivets and are excellent for use in fiberglass or composites as the rivet spreads in a way that prevents crazing or cracking of the material. NOTE: CR3212 & CR3213 are nominal diameters. CR3242 & CR3243 are oversized diameters and measure 1/64" more than listed diameter.
Install with P/N 12-03105 G-27 Hand Gun.

Measures rivet diameter and length, P/N 12-00217 ..... **$8.75**

RIVET/RIVNUT BACK MARKERS

Used to locate pre-drilled holes in the wing ribs, fuel tank covers, panels, skin. Pre-drill the ribs, screw in the back markers, lay the skin sheet over the top, tap with a hammer, turn the sheet over, and drill the holes. This is especially useful for rivnut installation. Due to the large size of the hole required, small errors in location can lead to the "Oh darn, I missed the rib syndrome". Backmarkers can save you hours of frustration. Two sizes of threaded backmarkers are available. We recommend using the 04-00131 for wing ribs. Drilling the wing ribs with a 3/32" drill. Drop in the back markers. Mark the skin by taping with a soft hammer. Turn the skin over and drill the skin with a 3/32" drill. Cleco the skin into position enlarge the holes with #30 drill & cleco. Now you are ready to rivet.

HA

NUTSERTS

The A-T Series Insert is unique in that it can be installed into most any material above .030/,76 mm in thickness. As the A-T Series is installed, the threaded portion is completely swaged 360° into the sleeve portion and the hole. This permits the A-T Series to be used with Grade 8/metric 12.9 mating screws.
The A-T Series Insert is installed using light-weight, hand held pneumatic tools that can be located at any position in your product's assembly sequence. The A-T Series Insert can be installed either prior to or after finish.

360°SWAGING HOW IT WORKS FOR YOU

As the A-T Series Insert is installed, the threaded nut portion is drawn into the upper sleeve portion.

As this occurs, a 360° swaging action takes place anchoring the A-T Series in the parent material.

HA

NUTSERT HOLE SIZE / MATERIAL THICKNESS CHART

Installation hole size for the A-T Series Insert is determined by the parent material's thickness and density. The thicker the material the larger the hole required to allow full 360° installation swaging. The application should be tested before hole size is specified.

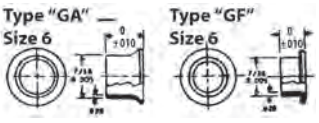
The dash number represents the height ("H" dimension) of the spring.

FULL GROMMETS



A full grommet is used when protection of the hole is a definite consideration. It protects panel finish and reduces stud play. A tool is required for installation. The "GA" type full grommet is used with a protruding head stud, and the "GF" type with a flush head stud.

HALF GROMMETS

A half grommet does not break easily, and it flattens but guarantees hold of the stud. It is used when protection of the hole is not a consideration, but protection of panel finish might be. The "GH" type half grommet is installed with a tool; the "GP" type is pushed on by hand.

Type "GP" Thermoplastic Model No.	Part No.	Price ea	Type "GH" Aluminum Model No.	Part No.	Price ea

DZUS FASTENER SPRING ADJUSTER

The MS-7301 tool easily adjusts Dzus fastener springs for a perfect fit every time. Great for Warbirds and vintage aircraft. Bend springs in or out with a few simple turns. P/N 04-00957..... **$43.00**

DZUS DRIVER

The MS-Driver is a great tool for locking and unlocking Dzus fasteners. The large handle gives you plenty of torque and is comfortable in the hand. The blade has a radius end to fit fastener slots better than a standard screwdriver and is heat treated steel with zinc plating for long life. P/N 04-00958.....**$18.95**

CAMLOC FASTENERS

The 2600 and 2700 series Camloc fasteners exceed requirements for MIL-F-5591, Style 3, Size 2. Shear and tensile strength: 300 lbs. (ultimate), 200 lbs. (rated). Studs and washers listed are made of steel. The receptacles are made of copper base alloy. All components listed are rated to 450° F. The 4002 series fasteners are considerably stronger than the 2600 and 2700 series. Shear and tensile strength: 1050 lbs. (ultimate), 700 lbs. (rated). All studs and grommets listed are made of steel. Rated to 450° F.

RECEPTACLES

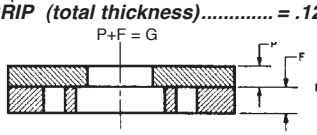
2600 Series - Small enough to fit in limited mounting space and light weight. All of these fasteners have a 600# ultimate tensile load capacity. 4200 Series - The Modern Standard in Quick Release Fastening Systems. They have an 800# working strength and 1050# Ultimate Tensile load capacity.

Rivet Holes	2600, 2700 Series Part No.	Price Each	4002 Series Part No.	Price Each
Plain	212-12N	$2.50	214-16N	$3.35
Cntersunk	212-12ND*	$3.10	214-16ND*	$4.35
Plain	Floating Bronze		244-16	$4.10

2600 / 2700 STUD LENGTH SELECTION

Total material thickness "G" consists of the thickness of all materials to be fastened. This must include the thickness of the material "P" to which the stud assembly is attached, the material "F" to which the receptacle is attached plus gaskets (if used) and allowance for paint or other protective finishes. If the total thickness is near the upper limit of the stud grip range, the next longer stud should be used. This will still maintain positive locking of the fastener under vibration.

P (panel thickness) ..... .062
F (frame thickness ..... + .062
GRIP (total thickness)..... = .124



STUD SELECTION TABLE Using 212-12 Receptacle Total Grip Thickness	Use 2600	Use 2700
.020 - .059	2600-1	2700-1
.060 - .089	2600-2	2700-2
.090 - .119	2600-3	2700-3
.120 - .149	2600-4	2700-4
.150 - .179	2600-5	2700-5
.180 - .209	2600-6	2700-6
.210 - .239	2600-7	2700-7
.240 - .269	2600-8	2700-8
.270 - .299	2600-9	2700-9
.300 - .329	2600-10	2700-10
.330 - .359	2600-11	2700-11
.360 - .389	2600-12	2700-12
.390 - .419	2600-13	2700-13
.420 - .449	2600-14	2700-14

4002 SERIES (LARGE HEAD) STUD SELECTION

To select the proper length stud, first select the grommet, for example 4002-G. Next, select the receptacle, such as 214-16. After determining the total grip thickness, use the grommet column under which the selected grommet and receptacle appear. Use the dash number which appears opposite the determined total grip thickness.

Example: If the total determined grip thickness "G" was. 144, the stud dash number for the above 4002-G grommet and 214-16 receptacle would be -4. The stud part number would be 4002-4.

Total Grip Thickness Range "G"	Stud Dash Number 4002-G Grommet & 214-16 Receptacle	4002-N, 4002-0 Grommet & 214-16 Receptacle
.021 - .050	--*	-1
.055 - .080	--*	-2
.081 - .110	-2*	-3
.111 - .140	-3	-4
.141 - .170	-4	-5
.171 - .200	-5	-6

.501 - .530	-16	-17
.531 - .560	-17	-

****4002-G grommet requires .090" minimum grip.***

2600, 2700 SERIES RETAINING WASHERS

Retaining washers are required for studs of -5 length or greater. Use split washer 2600-SW2 where it is desirable to have the stud fall away for minimum internal projection. Use internal tooth washer 2600-LW where it is desirable to retain the stud assembly rigidly.

P/N 2600-SW-2 ..... **$0.52** P/N 2600-LW..... **$0.23**

MS213 ADJUSTABLE DEPTH RECEPTACLE

- For 2600/2700/2800 Series C-Spec Fasteners.
- Any one stud length fits a wide range of panels.
- The MS213 is an exact replacement for 212-12 receptacles.
- Standard aluminum MS213A receptacles are lighter than 212 fixed depth receptacles with no sacrifice in strength ratings.
- Economical. Simply inventory one stud length for all applications.
- Fully compatible with existing C-Spec (Camloc®) designs.
- FAA approved for aircraft use under TSO-C-148.

.210 - .229	220
.230 - .249	240
.250 - .269	260
.270 - .289	280

Southco studs are commonly used to secure Cessna cowlings, particularly on models 150, 172, and 177. We stock the popular Southco No. 82 1/4 turn fastener studs, receptacles, and accessories.

TO DETERMINE PART NO.

Select Stud part number using chart above. Example:

82 - 14 - 220 - 16

Southco Fastener Number	Head Type (Slotted)	Stud Length	Material Type (Dacrotized)

SOUTHCO SEALING WASHER – This black synthetic washer is used under head of Southco Studs.....P/N 82-43-201-38.....**$0.20/ea**

SOUTHCO EJECTOR SPRING – This stainless steel spring enables the stud head to stand away from the panel when the unit is not fastened. When using the ejector spring, add two grip lengths to stud length to allow for spring and wear washer. .....P/N 43-13-1-24.....**$0.12/ea**

SOUTHCO WEAR WASHER – A plastic washer to reduce wear around the Southco stud.When using wear washer add one grip length to stud length selection. P/N 82-46-101-39 .....**$0.14/ea.**

SOUTHCO SPLIT RING RETAINER – Can be installed by hand or tool, and is fabricated from stainless steel. P/N 82-32-101-20.....**$0.09/ea**

SOUTHCO SPLIT RING RETAINER TOOL - Designed to install Southco split ring retainers. P/N 82-0-7596-11 .....**$27.65/ea**

SOUTHCO PUSH-ON RETAINER – designed for installation using the retainer tool below. Stainless.....P/N 82-32-201-20.....**$0.08/ea**
Plastic.....P/N 82-32-301-12.....**$0.09/ea**

SOUTHCO PUSH-ON RETAINER TOOL – An easy-to-use tool quickly installs Southco push-on retainers P/N 82-0-22542-11 .....**$18.75/ea**

SOUTHCO PUSH-ON RETAINER TOOL - An easy-to-use tool quickly installs Southco 85 Series push-on retainers. P/N 85-0-22543-11 .....**$39.25**

#85 RETAINERS

Split Ring Hand or tool installation. Stainless steel.
P/N 85-34-101-20 .....**$0.13/ea**
Push-On Tool installation only. 302 Stainless Steel, Passivated
P/N 85-34-201-20 .....**$0.13/ea**
Nylon Black .P/N 85-34-301-12.....**$0.10/ea**

#85 THERMOPLASTIC (CUPPED NYLON) WEAR WASHER

Natural color. Order stud one size longer than size you would use without washer. Adjustment Formula: Add 0.51/.020 to your total material thickness. P/N 85-46-101-39 .....**$0.15/ea**

CLICK BOND FASTENERS

CLICK BOND FASTENERS

Click Bond Fasteners mount to surfaces with adhesive. They are assembled in a disposable, self-fixturing device of plastic that aligns and holds the fastener in position and under controlled pressure while the bonding material cures. After the installation is completed, the holding fixture is removed and the conventional attachment is made to the fastener. Bonded fasteners eliminate welding or drilling surfaces and result in reinforced substrate strength, leakproof and corrosion resistant attachments. Aircraft Spruce & Specialty Co. offers Click Bond Fasteners in convenient, pre-packaged kits as shown.

CABLE TIE MOUNT KIT

Each cable tie mount in this kit is pre-assembled in a temporary, easy-to-remove fixture that holds the cable tie mount in place and under pressure while the adhesive cures. No additional installation tools are needed. The kit includes four CB3019AA3N cable tie mounts with nylon ties (5" 40 lbs.), one adhesive packet, surface preparation materials, and installations.

P/N 04-06000 .....**$14.85**

FLOATING NUTPLATE KIT

The Click Bond adhesive bonded floating nutplate has a metal base and is installed using a disposable, elastomeric fixture that temporarily holds the nutplate in place and under pressure while the adhesive cures. The fixture prevents fouling of the clearance hole. No additional tools are needed for making the nutplate attachment. This fastener meets or exceeds the standards set by MIL-N-25027 for push-out, torque-out, and cycle life. Bonded nutplates eliminate composite damaging rivets, reinforce the structure, and reduce installation time. The kit includes four CB2009A3S floating nutplates (10-32) with aluminum baseplate, one adhesive packet, surface preparation materials, and instructions.

P/N 04-06005 .....**$24.85/ea.**

REPAIR PATCH KIT

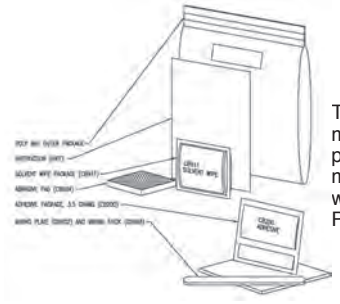
These self-fixturing surface mounted patches repair small holes and fastener leaks without access to the reverse side of the surface. The patches are adhesively bonded to flat or curved surfaces with the aid of an integral, disposable fixture. The high peel strength adhesive allows the patches to withstand supersonic flight, cleaning, de-icing, and paint stripping. Patches can be removed easily with heat application. The kit includes one CP125-000-005A1A1 aluminum repair patch (.005 thick and 1.25 inch diameter), one adhesive packet, surface preparation materials, and instructions.

P/N 04-06015 .....**$12.75**

CB 200 ACRYLIC ADHESIVE

A high strength, two part adhesive. 3.5 gram package. One package is usually sufficient to do five of any Click Bond fasteners.

P/N 04-06040 .....**$1.95**



CB92 ADHESIVE MIX KIT

The CB92 Acrylic adhesive & prep material kit includes adhesive package (3.5 grams) mixing plate, mixing stick, abrasive pad, solvent wipe package, and instructions.

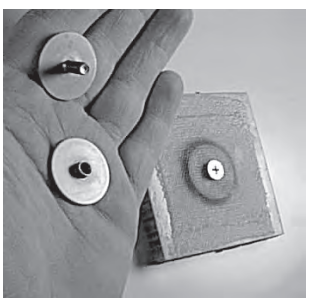
P/N 04-02059 ..... **$3.60**

STUD KITS

Click Bond studs are available in several sizes. The Metal Small Base Stud Kit includes six CS62-1032-12AX-CR aluminum small base stainless studs, six stainless nylocks/washers (10-32), one adhesive packet, surface preparation materials, and instructions. The Metal Large Base Stud Kit includes four CS125-1420-16AX-CR aluminum large base stainless studs, four stainless nylock/washers (1/4-20), one adhesive packet, surface preparation materials, and instructions. The Fiberglass Base Stud Kit includes two CS125-1032-12G-CR fiberglass large base stainless studs, two stainless nylocks/washers (10-32), one adhesive packet, surface preparation materials, and instructions.

Metal Small Base Stud Kit..... P/N 04-06020..... **$9.65**
Metal Large Base Stud Kit ..... P/N 04-06025..... **$11.85**
Fiberglass Base Stud Kit..... P/N 04-06030..... **$15.75**

EZ-POINT NUTS & STUDS FOR COMPOSITES



Creating a hard point in a composite laminated structure has never been easier. Simply drill a hole, prep the area, apply structural adhesive to the alodined, cleaned surface of the EZ-Point and snap into place. Simple and clean. For secondary structural applications, apply three plies of bid cloth to the area. Un-glassed samples were tested to failure in excess of 200 lbs. in shear. Glassed samples exceeded testing ability at over 500 lbs. Perfect for Adel clamps, trim and auto pilot servos, hydraulics, anything but primary structure. Available in 8-32, 10-32, 1/4 – 20, 1/4 – 28, your choice of locking, blind and studs. Used extensively in the installation of the Flesher 360 interior for the Lancair.

STUDS			BLIND NUTS			LOCKING NUTS		
THREAD	P/N	$ EA	THREAD	P/N	$ EA	THREAD	P/N	$ EA
8-32	04-06330	**$4.35**	8-32	04-06350	**$5.75**	8-32	04-06370	**$3.50**

1/4 - 20	04-06340	**$2.85**	1/4 - 20	04-06360	**$3.60**	1/4 - 28	04-06380	**$3.35**
						1/4 - 28	04-06385	**$3.35**

EZ-POINT STRIPS FOR COMPOSITES

Take the guesswork out of nut plate spacing with EZ-Point Strips. They maintain consistent spacing while remaining flexible enough to conform to curvature. Perfect for cowling attachments, Access doors, removable wingtips, anywhere you would use a standard 10/32 or 8/32 nut plate. Locking threads, available in one, two and three inch centers. Sold in one-foot sections.

8-32 thread, 1" centers ..... P/N 04-06450 ..... **$43.25 ea.**
8-32 thread, 2" centers ..... P/N 04-06455 ..... **$41.50 ea.**
8-32 thread, 3" centers ..... P/N 04-06460 ..... **$34.80 ea.**
10-32 thread, 1" centers ..... P/N 04-06465 ..... **$46.75ea.**
10-32 thread, 3" centers ..... P/N 04-06475 ..... **$38.00 ea.**

AIRLOC FASTENERS

A-LOCK (AIRLOC) FASTENERS

A-Lock fasteners are common to Beechcraft airplanes and latches on many cowlings. The design consists of a simple stud, with a pin pressed into the shank. The pin is installed after inserting the stud through the panel hole and removed prior to removing the stud. Some installations use a grommet in the fastener hole. Unlike other fasteners, the grommet does not usually require replacement when installing new studs. Base part numbers indicate stud diameter and head style. A-Lock studs are made in several blank lengths indicated by the first dash number in the charts. Each blank length can have up to 10 second dash numbers or grip sizes. The second dash number indicates the maximum grip range in .010" increments. Milspec primarily stocks sizes common to Beech aircraft in stainless steel for repacement purposes. To remove an A-Lock stud, simply clip or remove the pin enough to back the stud out of the hole. New pins are pressed in using special pliers, or by modifying standard vice grip pliers. Drill or cut one jaw of the vice grip to allow proper relief for the pin. If new grommets are required, a flaring tool is necessary (see below). For new installations, cross pins are required.

BEECH BONANZA COWLING FASTENER CONVERSION KITS

STC approved cowling fastener upgrade kit for B33 and B35 aircraft. Kit is stainless steel and uses MilSpec's exclusive adjustable depth receptacles for an easy , yet very precise fit. The finish on this fastener is bright and shiny. Complete, easy to follow instructions and STC copy included with kit.
Note: Two tools are required for the 40 series kits (Camloc Pliers and 4002 Series Snap Ring Tool). One tool is required for the 28 series kits (2600-LW Lockwasher Tool).

DEL 37° FITTING SEALS

DEL fitting seals are designed to eliminate leakage due to scratches on the sealing surface, improper torquing, or poor finishes on tube ends, in high or low pressure applications. For use with AN, MS, and JIC 37° flared fittings, DEL fitting seals also reduce tube flare cracking by reducing torque needed, eliminating nose damage to the fitting, and allow reuse of hardware. Approved by FAA, NASA, SAE, Air Force, Army, Navy, and major aerospace contractors.

ALUMINUM MANIFOLD FITTINGS

ORDERING INFORMATION

Basic part number on all fittings is 04-00XXX, complete the part number by filling in the last 3 digits after selecting the fitting you need according to the details below. Example: 04-00102.

First Code Number - Determines the style of the fitting.

- **-1:** One port in the end with two ports out, 90° cross drilled with one port per side. 3 ports total. Two Mounting Holes.
- **-2:** One port in the end with four ports out, 90° cross drilled with two ports per side. 5 ports total. Two Mounting Holes.
- **-3:** One port in the end with six ports out, 90° cross drilled with three ports per side. 7 ports total. Four Mounting Holes.
- **-4:** One port in the end with eight ports out, 90° cross drilled with four ports per side. 9 ports total. Four Mounting Holes.
- **-5:** One port in the end with four ports out, 90° drilling with four ports on one side only. 5 ports total. Two Mounting Holes.

Second Code Number - Determines the style of porting.

- **-0:** All the ports are the same.
- **-1:** Inlet port is one size larger than outlet ports.
- **-2:** Inlet port is two sizes larger than outlet ports.

Third Code Number - Determines the inlet port size.

- **-2:** 1/8-27 taper pipe thread (NPT)
- **-4:** 1/4-18 taper pipe thread (NPT)
- **-6:** 3/8-18 taper pipe thread (NPT)
- **-8:** 1/2-14 taper pipe thread (NPT)

In the example above - 04-00102, this would be a 1/8 NPT inlet with two outlets of the same size.

Ex.-04-00326, this would have a 3/8 NPT inlet w/six 1/8 NPT outlets.

Our aluminum manifold fittings are a bolt-on design with taper pipe threads. These fittings are designed to provide a convenient means of plumbing multiple hoses from and/or to one source with the fitting being bolted to a supporting structure. This design will eliminate Adel clamps at the juncture of the hoses and eliminate additional tee type fittings when more than two hoses are to be connected to one source. Applications include brake reservoir lines, static system, suction systems, fuel systems, air line pigs, smoke systems, and more. Not for use on oxygen systems or pressures over 150 psi.

PHENIX STRAIGHT AND 90 DEGREE PUSH-LOK SWIVEL RED/BLUE

Phenix Compression Swivel Hose Ends are constructed from lightweight 6061 aluminum and designed for smooth flow, easy assembly, and longer life. All elbow ends are built from one-piece billet tube construction, avoiding leakable braze joints. Viton O-Ring seal allows 360 degree rotation. 37 degree AN flare assures leak proof sealing surface eliminating the need for taping. Compatible with all AN adapter fittings. Made in the U.S.A. Compatible Hose Type: Push-On Hose.

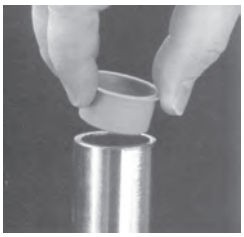
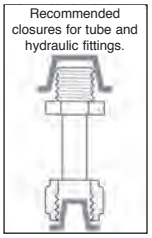
CAPLUGS

T SERIES CAPLUGS (NON-THREADED)





Tapered Caplugs can be used as either caps or plugs. Because they are tapered in design and made from highly pliable (or flexible) Polyethylene, they can be applied to fit snugly and are readily removable, whether used for capping or plugging. Especially recommended for use on MIL Std. and SAE-type tube and hydraulic fittings and for threaded external and internal NPT fittings.

NYLO-SEAL FITTINGS

Nylo-Seal tube fittings are exceptionally strong. The bodies, made of nylon, are stronger than machined fittings of similar composition. They are furnished complete with nut/sleeve assemblies, made of acetal copolymer. Since the sleeve snaps into and is retained by the nut there is no fumbling for a loose sleeve. Just insert tube into the fitting and tighten the nut 2 to 2-1/2 full turns.

Note: The most frequently used combination of tube and pipe sizes are 1/4" Tube x 1/8" Pipe and 3/8" Tube x1/4" Pipe.

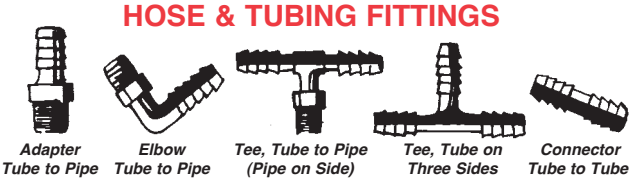
HOSE FITTINGS – PIPE FITTINGS

HOSE & TUBING FITTINGS



Adapter Tube to Pipe | *Elbow Tube to Pipe* | *Tee, Tube to Pipe (Pipe on Side)* | *Tee, Tube on Three Sides* | *Connector Tube to Tube*

Hose and tubing Insert Fittings are available in high density polyethylene or Nylon. Use polyethylene fittings with Tygon, nylon or soft rubber tubing to assemble low pressure instrument lines such as airspeed pitot and static lines. Use Nylon fittings in gravity-feed fuel lines and engine breather lines.

HERBIE CLIP HOSE CLAMPS

The Herbie Clip hose clamp is the original double toothed (double row of teeth) ratchet clamp. This makes the Herbie clip twice as strong (up to 200psi depending on hose work and spigot) as similar hose clamps with a single row of teeth.

The Herbie Clip hose clamp combines its high strength with other key features such as: non-corrosive and resistant to many chemicals, simple to install can be fitted before or after the hose is in place, minimum leak path, lightweight, easy to use (no sharp edges to cut the operators), fully compliant with ROHS, UL listed (nylon 6.6.)

CLIP SIZE	MIN. DIA. (in)	MAX DIA.(in)	PART NO.	PRICE

CLAMPS

MS21919 DG & WDG CLAMPS

Loop-type cushioned aluminum alloy clamp. Cushion (non-fuel resistant) is bonded to inner surface and edges of clamp. WDG clamps are cushion wedge type. Cushion assures tight fit and eliminates vibration, thus preventing line abrasion.

QS 100 HOSE CLAMPS

Tangential worm-screw type for use on fuel, oil, air and coolant lines. Worm drive provides uniform clamping pressure without distorting hose. The QS100 series has stainless steel band with cadmium-plated carbon steel thumb screw. To attach, just push housing to the desired position on the band, snugly around hose, & the threads of the worm screw will drop into the slots. Tighten thumb screw with finger pressure - no tools required.

OETIKER STEPLESS SCREW CLAMPS

Oetiker Stepless Screw Clamps feature a unique tongue-in-groove design to provide a perfect 360° seal. Their narrow band width of 9 mm is designed to fit grooved objects. They are ideal where specialty clamping needs have to be met and the application calls for a smooth inner surface such as on flexible duct sleeves. The tongue-in-groove design provides that "stepless" complete seal. Manufactured using 300 AISI series stainless steel.

AP

NYLO-SEAL TUBING - POLY-FLO TUBING

NYLO-SEAL NYLON TUBING

Nylo-Seal type "NNR" semi-rigid natural color tubing is made of Nylon-II and is far superior to other types of Nylon tubing. It does not depend on moisture for flexibility and does not become brittle. It has excellent resistance to flexural fatigue and can be used where there is vibration or tube movement. Self-extinguishing under A.S.T.M. Test D635-44. NNR Tubing is rated to 1500 lbs. and is excellent for instrument lines and other low pressure applications. Use NBR tubing (2500 lb. rating) for hydraulic brake lines after verifying it is appropriate tubing for your application.

NYLAFLOW NYLON TUBING

Nylon Polypenco. pressure tubing is a super tough, low friction, high flexibility tubing that can be used for cable protectors or in short pieces, as small bushings and washers. Suitable for use in oil, air, vacuum, fuel and low pressure hydraulic lines. It resists abrasion and wears better than aluminum or steel tubing. Has an extremely smooth inner surface with a very low coefficient of friction. Used for brake lines, and also as a conduit for the rudder cables in the Rutan VariEze and Long-EZ. Rated 1000 psi. Use Poly-Flo fittings. Sold by the foot.

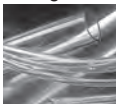
BING ALCOHOL RESISTANT FUEL LINE

This fuel line is blue in color and does not rot or deteriorate from the inside, clogging the carburetor or fuel system. It withstands 50 PSI and tensile strength is 8000 PSI. It is resistant to temperatures of -65° to 220°F without deterioration, features exceptional resistance to gasoline, oil, oxygen, and ozone, and has high elastic memory allowing use of Delrin or nylon barbed fittings in low pressure applications without the need for external clamps.

Description	ID	OD	Part No.	Price
Bing Alcohol Resistant Fuel Line	1/4	3/8	05-00500	**$1.48**
Bing Alcohol Resistant Fuel Line	1/8	1/4	05-00560	**$1.13**

NYLON TUBING



Nylon tubing is a popular choice for low pressure pneumatic applications because of its combination of flexibility and toughness. Nylon retains its performance integrity in elevated temperatures and generally, because of it's higher pressure and temperature characteristics, Nylon will have a greater flow passage than composite tubing made from other material with the same outside diameter.

Part No.	OD	ID	Price
0500-165	7/8	5/8	**$1.64**
0500-180	1	3/4	**$2.30**

POLY-FLO POLYETHYLENE TUBING

Poly-Flo tubing is a flexible, economical thermoplastic tubing fabricated from high molecular weight polyethylene for improved strength. The base resin has the greatest resistance to environmental stress cracking of all the regular polyethylenes. It meets A.S.T.M. D-1248-60T, Type 1, Class A, Grade 4 and Federal Specification LP-590, Type 2, Grade 7. Used for instrument or pneumatic lines. Use Nylo-Seal fittings (259-N inserts are required), nylon or polyethylene hose fittings such as 0710-153. Color - natural.

Part No.	Tube OD	Wall	Bend Radius	PSI at 75 F	PSI at 150 F	Price

SUPER HEAVY PULSE LINE

Super heavy wall clear polyurethane pulse line has an extra thick 3/32" wall that will not dampen crankcase pulse even on longer runs. Clear one piece urethane construction is not affected by fuel. Will not harden, crack, or become brittle with age. Can also be used as clear fuel line. Sold by the foot. Outside Diameter: 7/16". Inside Diameter: 1/4". Wall Thickness: 3/32" P/N 15-06094 ..... **$0.99**

CLEAR BLUE FUEL LINE

Polyether-based Polyurethane Tubing offers excellent resistance to chemicals, kinking, abrasion, hydrolysis, oxidation, and ozone exposure. Generally stronger than Ether-based tubing, Ester-based Polyurethane Tubing features above average chemical resistance, a high level of resilience, and adequate energy absorption. Although Polyester-based Tubing is not recommended for applications that expose the tubing to water or moisture, it does enjoy a slight cost advantage over Ether-based tubing.

O.D.	Description	Part Number	Price

3/8"	Clear Blue Polyurethane Fuel Line	15-04818	**$0.89**

POLYURETHANE TUBING

Flexible polyurethane tubing has greater abrasion and tear resistance than any other type of plastic tubing. Won't age or oxidize. Excellent low temperature flexibility - avoids brittleness. Tensile strength 5900 PSI. Use AN hose fittings such as AN840 with Breeze Mini Clamps, nylon or polyethylene hose fittings such as 0710-153. Sold by the foot.

PARKER SUPER-FLEX FL FUEL LINE HOSE

Parker's fuel line hose includes a new thermoplastic barrier that helps protect our atmosphere from harmful hydrocarbons that escape through the carcass of ordinary fuel hose. This new hose surpasses all of CARB's stringent permeation requirements and is similar to SAE30R7 specifications. The Super-Flex FL hose also features an abrasion and weather resistant cover to help protect from external application abuse. ***Approved for biodiesel fuels that meet ASTM D 6751 requirements per UL guidelines for Biodiesel compatibility.*** 4:1 Design factor

MIL-DTL 6000D OIL AND COOLANT HOSE

Inside and out, MIL-DTL 6000D is designed to handle the effects of oil, alcohol, coolant, and water. The tube is oil resistant with a black cover reinforced with high strength mildew resistant yarns. It withstands extreme temperature conditions from -40°F to +250°F. Meets or exceeds U.S. military specs. Lightweight, flexible and easy-to-handle, making it the perfect hose for hard-to-get-to spots in tight engine compartments. Not recommended for fuel lines.

HOSE AND FITTING ASSEMBLY MANDRELS

These hose and fitting assembly mandrels are designed for all straight fittings in Aeroquip 303 and Stratoflex 111 series. These hose types are common to most hydraulic, pneumatic, coolant, fuel and oil systems specified in MS33620 for aircraft applications. These quality tools are made from premium tool steel and bright nickel plated for long life. Available individually in sizes -3 thru -12 or in an assortment kit including all 7 sizes.

AEROQUIP 666 HOSE

Aeroquip 666 medium pressure Teflon hose is widely used in aircraft applications handling fuel, oils, and other fluids. It is unaffected by all fuels, oils, alcohols, coolants, or solvents commonly use in aircraft. Construction of Aeroquip 666 hose is of spiral extruded Teflon resin for the inner tube with a reinforcement and outer cover of Type 300 Series stainless steel wire braid. The result is a lightweight hose able to withstand prolonged flexing and vibration under all service conditions. Aeroquip 666 hose is also use in hydraulic and pneumatic applications at pressures up to 1500 psi.

HOSE - HOSE FITTINGS - ASSEMBLIES

AEROQUIP 816 & 8891 HOSE FITTINGS

USED WITH AEROQUIP 601 HOSE

816-4

Aeroquip 816 straight hose fittings and 8891 90° hose fittings consist of a pre-assembled nut/nipple assembly and an internally threaded hose socket. The size 4 fitting has a cadmium plated steel nut and nipple. Sizes 6, 8 and 10 nuts and nipples, and all sizes of sockets, are anodized aluminum. Note: Aeroquip 816 fittings are not the same as AN816 fittings. Include the word "Aeroquip" with Part number when ordering.

Aeroquip 816		Size*	Nut Thread Size**	Aeroquip 8891	
Part No.	Price Each			Part No.	Price Each

816-10D	**$36.85**	5/8	7/8-14	8891-10D	**$78.25**

****Corresponds to tube O.D. of AN-type flared tube fittings. Not an Aeroquip dimension. ** Same thread size as AN818 nut of same dash no.***
Less 10%, 6 - 11 Aeroquip fittings; Less 15%, 12 - 24 Aeroquip fittings; Less 20%, 25 or more Aeroquip Fittings May be assorted sizes and types.

AEROQUIP FIRE SLEEVE

Aeroquip Firesleeve was specially developed to meet the fire resistance requirements of FAATSO - C53a OR TSO - C75. May be used for all fuel, oil, hydraulic, fire extinguisher & propeller feathering lines.

"Fire-proof" hose lines as defined by FAA must withstand a direct flame for fifteen minutes under specified flow conditions without failure. "Fire-resistant" lines must withstand a 5-minute exposure under these conditions. "Fire-proof" hose lines are obtained when the proper size Aeroquip Firesleeve is selected from the chart below and properly assembled.

900591B Clamps - used to secure firesleeve material on each end over the basic hose assembly. See chart for correct size.

AEROQUIP AE466

Integral silicone firesleeves on Teflon 666 hose assemblies.

This hose/sleeve combination meets the test requirements of TSO-C53A Type D and TSO-C75 Type IIIA and IIIB. The Silicone sleeve is applied directly onto the metal braid an fittings to form a smooth, tight bond. Hose flexibility is not impaired. Non-age sensitive for extra-long service life. Eliminates the use of band clamps. Temperature range -65°F to +450°F. Specify hose size and length of assembly in inches and eighths of an inch from sealing surface to sealing surface. Available in blue, brown, orange, or purple. Purple is lightweight.

Call 877-4-SPRUCE (777823), or email info@aircraftspruce.com for pricing and availability.

AEROQUIP 601/AE701 HOSE

An inner tube of seamless, specially formulated synthetic rubber reinforced with a stainless steel partial inner braid and full-coverage stainless steel outer braid. Operating temperature -40° to 300°F. Aeroquip 601 hose is widely used for aircraft fuel and oil lines where flexibility and light weight are prime considerations. Because of its lighter weight and lower operating pressure than type 303 hose, it is not recommended for hydraulic lines. Use with Aeroquip 816 hose fittings. Aeroquip 601/AE701 is a direct replacement for old 601 hose. AE701 hose has no shelf life and is the upgraded version of 601 hose.

CUSTOM AEROQUIP 666 TEFLON HOSE ASSEMBLIES

Aeroquip Teflon hose is constructed with a conductive, seamless smooth bore inner tube covered with a stainless steel braid. Unattracted by fuel, oil, coolants and solvents used in aircraft systems. Service and shelf life of Aeroquip Teflon hose is unlimited for all practical purposes. They can be used in fuel, hydraulic and pneumatic applications at working pressures to 1500psi. Minimum burst pressures are 8000 psi sizes -3 to -8. Temperature range is -65° to +450° F. Hose assemblies prices are straight to straight. Call for 45° and 90° elbow pricing.Measurements are taken as follows:

Fittings	Measurement
Straight to Straight	End to end (overall length)
Straight to 45°	End of straight fitting to top of b-nut on 45° fitting
Straight to 90°	End of straight fitting to center of 90° fitting

SPEEDLOX LOCKING FITTINGS

Features: * No Wrenches Required * NHRA Approved * Retrofittable with existing hoses & hose ends * Eliminates the need for a wrench to seal the connection, Just hand tight * Eliminates cross-threading with the built in B-Nut guide * Prevents cavitation * Stays as a unit, no assembly required * Protects threads from F.O.D. (Foreign Object Damage) * Eliminates the need for safety wire * Reduces R & R time * Increased safety factor * Eliminates unscheduled maintenance * Eliminates hose twisting or binding * Greatly reduces contamination at the connection.

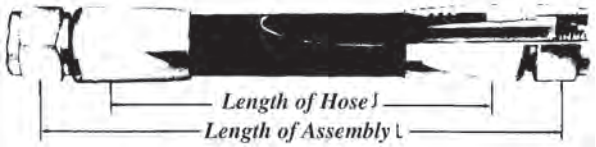
HOSE ASSEMBLY

ASSEMBLY INSTRUCTIONS

USING 303 HOSE AND 491 FITTINGS

To make hose assembly of length "L", cut hose to length "J". Obtain "J" length by subtracting proper fitting allowances.



Hose & Fitting Dash No.	-3	-4	-5	-6	-8	-10	-12
Fitting Allowance* (In.)	1.30	1.30	1.48	1.54	1.88	2.00	2.00

Allowance for 2 fittings.

step 1 Cut hose squarely to length. Use hose cut-off machine or fine tooth hacksaw. Do not remove cover.

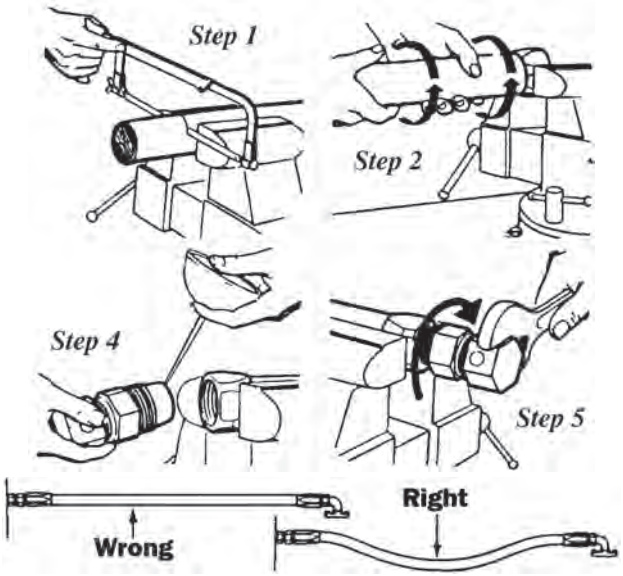
step 2 Place socket in vise. Do not overtighten vise on thin-walled sockets of lightweight fittings. Screw hose into socket until it bottoms. Back-off 1/4 turn.

step 3 Tighten nipple and nut on assembly mandrel.

step 4 Lubricate inside of hose and nipple threads liberally. Use lubricating oil, petrolatum or light grease.

step 5 Screw nipple into socket and hose using wrench on ass'y tool hex. Nut must swivel freely when assembly tool is removed. Maximum allowable gap is 1/16 inch. L.P.S.-1 is an excellent lubricant for use in hose assembly.

CLEAN, INSPECT, PROOF TEST



PLANNING HOSE LINE INSTALLATIONS

1. Provide slack or bend in the hose line to provide for changes in length that will occur when pressure is applied.

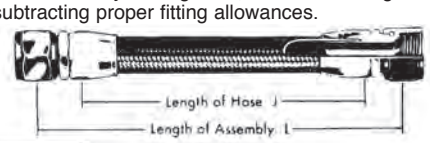
2. Observe linear stripe. Hose must not be twisted. High pressures applied to a twisted hose may cause failure or loosen the nut.

****10781-4 Clamp to be used to secure the Firesleeve material on each end over the basic hose assembly.***
Specify size. **$2.85 - $3.05**

End Dip for Firesleeve -
P/N 5027 ..... **$136.95**

USING 601 HOSE AND 816 FITTINGS

To make hose assembly of length "L", cut hose to length "J". Obtain "J" length by subtracting proper fitting allowances.



step 1 - Cut hose squarely to length. Use hose cut-off machine or fine tooth hacksaw. To minimize wire braid flare-out, wrap hose with masking tape and saw through tape. Remove tape before step 2.

step 2 - Insert hose in socket with a twisting, pushing motion until hose is in line with back of socket threads.

step 3 - Important-mark hose position around hose at rear of socket. Use a grease pencil, painted line or tape.

step 4 - Lubricate inside of hose & nipple threads liberally. Use SAE 30 lubricating oil. Avoid getting oil in the cutting spur of the nipple.

step 5 - Carefully insert nipple and engage nipple and socket threads while holding hose in position with other hand. Make sure that hose does not push out of socket by observing mark made in step 3.

step 6 - Complete assembly using wrench while continuing to hold in position. Maximum allowable gap is .041" in sizes 3, 4, & 5, and .031" in size 6 & up.

step 7 - IMPORTANT—check for hose push-out by observing hose position mark. None should be evident.

CLEAN, INSPECT, PROOF TEST

Note: Hose push out after proof test should not exceed 1/32" on sizes 12 and up. None is allowable on smaller sizes.

Call for quote on Stratoflex 111, 156, 193 and 124 PTFE flared hose assemblies. Our hose assemblies are competitively priced and available for immediate shipment.

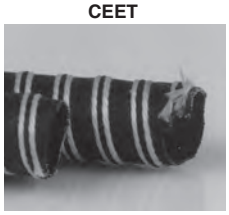
DUCTING

AIRCRAFT FLEXIBLE DUCTING

CAT

SCAT

CEET



SCEET

"CAT" - "CAT" type flexible hot or cold air ducting is extremely lightweight and highly flexible. Short lengths can be joined together to form a continuous length. Made of a single ply black neoprene-impregnated fiberglass with a spiral copper coated steel wire inside and wrapped with fiberglass cord on the outside. Suitable for conveying fumes and air a temperatures from -65° to over 350°F. Not reccomended for handling liquids or highly abrasive materials, or for negative pressure applications.

"SCAT" - "SCAT" type ducting has the same type construction as "CAT" except with red silicone rubber impregnation. For use in conducting extremely cold or hot air with temperatures from -65° to over 550°F. Not recommended for negative pressure applications.

"CEET" - "CEET" type ducting has two plies of neoprene-impregnated fiberglass, similar to CAT except wire between plies. For use in hot or cold air applications and for conveying fumes at temperatures ranging from -65° to over 350°F. Not reccomended for handling liquids or highly abrasive materials, or for negative pressure applications.

"SCEET" - "SCEET" type ducting has two plies of silicone rubber-impregnated fiberglass, similar to SCAT except wire between plies. Ideal for use in conducting extremely cold or hot air at temperatures from -80° to over 550°F, and for conveying fumes. Not reccomended for handling liquids or highly abrasive materials, or for negative pressure applications.

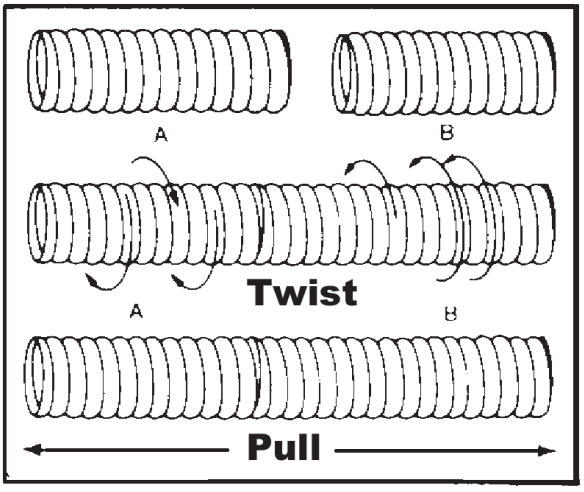
Diameters not listed are available as a special order in full lengths only. Order CAT 2-3/4" diameter for Whisperflow air vents. Full factory lengths are 10 ft to 13 ft pieces on CAT, CEET, SCAT, & SCEET, except 5/8" id (PN 05-30501 is only 9ft).

SCREWING DUCTING TOGETHER

Short lengths of ducting can be spliced to eliminate waste. For permanent splices, an adhesive should be applied to the ends before joining. To relieve wire tension when cut, bend end of wire in slightly.



ALUMINUM FLANGES FOR DUCTING

Simplify installation of cabin, carb. heat, cabin vent lines. Aluminum flange may be welded or riveted in place. Slip ducting over outlet and secure with clamp.

SOUNDPROOFING – INSULATION

AP

E-A-R-COMPOSITE DAMPING FOAM

ADC-224 is a mid-temperature skin damping composite of 0.25" thick damping foam fixed with 0.005" thick aluminum foil and backed with pressure sensitive adhesive. Used in aircraft for weight efficient damping and to reduce radiated noise. Meets FAR 25.853 (A) for fire resistance. Furnished in 27" x 48" sheets.

P/N 09-00181....**$148.95 / sheet**

Less 10% discount on 10 or more sheets

3M™ SOUND & VIBRATION DAMPING PANELS

Designed for damping resonant vibrations of thin sheet metal, these panels are pressure sensitive, specially compounded polyurethane damping foam with an aluminum foil backing. The adhesive on the foam is protected by a peel-off paper covering. It is an excellent insulator for conducted heat and is an excellent heat reflector. Fire-resistant and self-extinguishing per FAA test procedure. Excellent moisture resistance. Resistant to most solvents. Easily applied with only hand pressure for a permanent bond even on rough, irregular surfaces. Used extensively in commercial aircraft and highly recommended for metal home builts. Apply to firewall, fuselage — anywhere a vibration problem exists. Wt.4 oz./sq. ft., 1/4" thick. Meets FAR 25.853

ALUMINUM FOIL TAPE

A 2 Mil. (50 micron) high strength aluminum foil coated with an aggressive, high temperature acrylic adhesive system. The foil conforms well to both fibrous and sheet metal ducts, providing an excellent vapor seal. The malleable foil also conforms well around corners and to irregular surfaces. Coated with a special cold weather acrylic pressure sensitive adhesive system which combines superior quick stick at normal temperature with superior low temperature performance below freezing - this is the ultimate in cold weather tapes. Recommended for use at normal and elevated temperatures also. **Applications**: Primarily used for vapor sealing fiberglass ductboard and sheet metal ducts; can also be used on FSK systems.tape described above.2" x 25 Yd. Roll.

Description	Part No.	Price	Description	Part No.	Price

2"X 25 YD	09-01274	**$24.50**	6"X50 YDS	09-01276	**$59.50**

TEFLON ANTI-CHAFE TAPE

ISD Chafe Tape is a durable Teflon material with a pressure sensitive adhesive which resists solvents, and oils. Designed specifically to prevent aluminum chafing between airframes and engine cowls. It helps prevent black streaking on aircraft exterior due to cowl chafing. Not FAA/PMA approved. Operable temperature range: -100°F to +500°F. Width: 1". Roll length: 6 yds. Tkns: .012" P/N 09-31805 ..... **$36.75/roll**

TEFLON COATED FIBERGLASS ANTI-CHAFE TAPE

These 1' wide rolls of Teflon on fiberglass anti-chafe tape are excellent for use on engine cowlings to keep cowl components from chafing. The tape is available in 5 mil thick and 10 mil thick and comes with a silicone adhesive on the tape. Just peel back liner and install. Rolls are 1" wide x 36 yds long.

5 Mil Anti-Chafe tape ..... P/N 05-01024 ..... **$42.90/roll**
10 Mil Anti-Chafe tape ..... P/N 05-01025 ..... **$56.85/roll**

UNI-WRAP SILICONE TAPE

RUBBER SELF-BONDING TAPE

UniWrap silicone rubber sealing tape bonds to itself permanently to protect, repair, join, or insulate virtually any type of part on which ordinary tape can be used. But the big difference between UniWrap and ordinary tape is that it fuses to itself permanently to form a homogenous mass and provides unprecedented protection and insulating characteristics. UniWrap uses no adhesives so it is non-tacky. It has a 12 month shelf life and after fusing is unaffected by moisture, cold, heat, ozone shock, or vibration. Meets MIL-I-46852 Type II as well as strict aerospace industry performance requirements. Available in red, black, gray, or white. Furnished in 10 yard rolls, UniWrap is 1" wide and 0.020" thick UniWrap (red) P/N 09-30450.....**$12.85**

COWLING CHAFE CLOTH

Off-white, 100% non-asbestos woven tape. Unaffected by most chemicals and temperatures. 1" x 15 ft. Roll P/N 09-31800 ..... **$16.75 rl**

NOXUDOL SOUNDPROOFING LIQUID

A paint-on soundproofing material that is applied to metal surfaces to reduce vibration and reverberant noise. Use to fill cracks and spaces where noise can enter. Buff color and can be painted. Paint engine mounts to increase fire resistance! Odorless and non-toxic when dry. Waterbased product. Non-Flammable. Shelf life: 1-year. Not FAA approved.

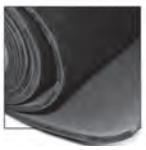
Quarts ..... P/N 09-42740 .....**$24.70**
Gallon..... P/N 09-00772 .....**$96.75**

SUPER SOUNDPROOFING TAPE

This is a 1/8" thick by 2" wide self adhesive tape that can be placed on metal panels and wrapped around ducts to reduce vibration and reverberant noise transfer. Not FAA approved. 30 ft. rolls.

2" wide P/N 09-42745.....**$23.75/ea.**
1" wide P/N 09-00381.....**$8.65/ea.**

SUPER SOUNDPROOFING FLOOR MAT



This heavy duty, wear resistant vinyl mat with foam backing can be placed on aircraft floors to reduce noise & vibration. 54" width.

P/N 09-42750..... **$16.75/lin.ft.**
Floormat 4" wide X 25' Roll.....P/N 09-00433..... **$41.75/roll**
Floormat without foam backing .....P/N 09-42751..... **$13.75/lin.ft.**

HOW TO SOUNDPROOF LIGHT AIRCRAFT

Sound measurement indicates that sometimes the noise levels are so high in some aircraft that damage to hearing over time can result. This "How-To" manual discusses the advanced techniques to sound proofing the light aircraft and drastically reducing such noise. Information presented is applicable to all types of planes from "puddle-jumpers" to jets.

P/N 09-42755 ..... **FREE**

SUPER SOUNDPROOFING SHEET WITHOUT ADHESIVE

This material is excellent for reducing noise levels in all types of certificated and home-built aircraft. It is a closed cell vinyl insulating material which will not absorb water or oil. Has fire retardant qualities and meets FAR 25.853a Appendix F, Pt1. It is smooth on one side for easy attachment to the inside cabin skins, sides, top and front firewall. Excellent for helicopters as well. Furnished in bulk 48" wide sheet, it is easily cut by scissors and attached with contact cement. Available in black only.

The Flammability Report (Burn Certs) are available on request.

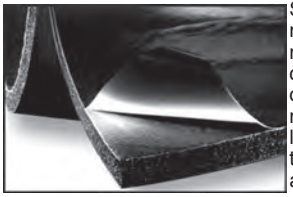
SUPER SOUND PROOF WITH ADHESIVE



Super Soundproofing Foam Mat for noise control: A closed cell vinyl-nitride noise control FOAM suitable for application to cars, boats, planes, home and office, anywhere a noise control mat is needed. Won't absorb moisture or odor, long lasting and durable. An excellent thermal insulator! (FAA Approved for aircraft, too!) Just apply with vinyl or contact cement to reduce and absorb sound. There may be small variances in the width of this product.

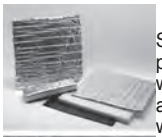
SOUNDEX SOUNDPROOF & INSULATION KITS



SOUNDEX PREMIUM AIRCRAFT SOUNDPROOF AND INSULATION KITS

SoundEx™ is a premium aircraft soundproofing / insulation that incorporates excellent vibration damping and noise absorption properties. SoundEx™ is a superior product compared to other products on the market because of it's thermal qualities, adds less weight to aircraft (4.5 oz. per sq. ft. for 1-1/8" thickness and 3 oz. per sq. ft. for 7/8" thickness), and affordability. Materials are available in bulk or soundproofing template kits. Stop the yelling and make flying fatigue a thing of the past. Improve your quality of flight with SoundEx™.

Decibel Reduction Data - Decibel reductions will vary depending upon how well your aircraft is currently insulated. Our latest data indicate that you should expect noise level reduction from 4-7 dB(a) and 10-15 dB(c). From singles and light twins to corporate jets, SoundEx™ is the noise reduction option of choice. Pilots and passengers can fly and communicate in comfort.

Flammability Requirements - All materials meet FAR 25:853 (a), Appendix F, Part 1 (a) (1) (ii) for flammability. Certificate provided with each kit or bulk order.

Soundproofing Template Kits - All pieces are clearly printed, numbered, and ready for cutting on the templates. Cutting time is estimated on an average of 1-1/2 to 2 hours. For example, the Basic kit for a V35 Bonanza should take an experienced cutter about 60 to 90 minutes to cut, adding another 20 to 30 minutes for a Deluxe kit. For a late model B58 Baron, cutting the templates should take about 2 hours for the Basic kit and 2-1/2 to 2-3/4 hours for the Deluxe kit. Kits are for originally configures cabins.

INSULATION MATERIALS

AP

THE INSULATOR
AIRCRAFT INSULATOR MATERIAL

The Insulator is one of the finest sound proofing and thermal insulation materials available, and will last the life of the aircraft. The dual sided Insulator panels are ideal for installation on interior skin, floor, engine covers, doors, headliners, and bulkheads. The Insulator uses multi - layered fiber plys bonded to reinforced high performance foil to provide optimum barrier to acoustics, radiant heat, thermal heat, and moisture. Insulator is available in 4'x 6' panels or by the lineal foot (4' wide). Install Insulator with Sticky Stuff spray adhesive (shown below) and Insul-Tape. Not FAA approved.

INSULATOR PANELS

Insulator – one ply 4' x 6' sheet. Single sided only.
3/8" thick.....P/N 09-27400 .. **$21.65 ea**

Discount: less 15% on orders for 20 sheets (assorted)

INSULATOR BY THE FOOT

Single side foil, single layer #6014; 4 ft. wide.
P/N 09-06014.....**$3.60 /ft.**
Double side foil, single layer #6016;
4 ft wide ..... P/N 09-06016.....**$3.95 /ft.**
Discount: less 15% for 100 ft. (per P/N)

STICKY STUFF ADHESIVE

Stick Stuff is one of the best performing spray adhesives available. It is ideal for installing the Insulator and has many other uses. One spray can will install two 4' x 6' panels.
P/N 09-27415.....**$11.75/ea.**

INSUL-TAPE
AIRCRAFT INSULATOR MATERIAL

This pressure sensitive aluminized foil tape conforms to irregular surfaces, seals seams and joints and provides a vapor barrier. Also mends damaged Insulator foil. Cuts easily with household scissors.
30' roll.....P/N 09-27420..... **$3.85/ea.**

BLANKET IN-A-BOX

Insulating your aircraft made easy! Blanket is ready to install as is or can be modified to fit special areas. Each box contains all the materials to insulate your aircraft including an Orcotek strip blanket, tape, cutting knife, instructions and built-in work surface with measuring grid.
Furnished as follows:
1" blanket-in-a-box contains 1 roll (1"x20"x100') Orcotek strip blanket, 2 rolls of Orcotape OT-16A (2"), utility knife, dispenser box-work platform P/N 09-45005..... **$2,079.00/box**
2" blanket-in-a-box contains 1 roll (2"x20"x50') Orcotek strip blanket 1 roll of Orcotape OT-16A (3"), utility knife, dispenser box/work platform P/N 09-45010..... **$1,065.00/box**

CONTEGO FIRE BARRIER LATEX PRIMER
-THE FIRE STOPS HERE-

Contego protects most building materials from the ravages of fire. Contego intumescent fire barrier products are all non-toxic, non-dermatic, and safe for pets. When exposed to fire, Contego fire retardant coatings expand to form a tough char barrier fire cannot penetrate. Deprived of fuel, the fire quickly dies. Contego not only helps prevent fires, it minimizes deadly smoke production, one of the leading causes of fatalities in residential and commercial fires. Intumescent fire barriers are nothing new, but Contego Passive Fire Barrier Latex represents a quantum leap forward in terms of quality, versatility, affordability and fire safety-all in one truly impressive fire proofing product. P/N 05-02615.....**$25.90**

3M™ CARPET TAPE 9377 2 INCH X 25 YARD

3M 9377 Tape has a differential adhesive system with a high-tack acrylic that bonds to the top-layer substrate and a rubber-based adhesive system that attaches to the flooring material. One side is black and attaches to the flooring material with an acrylic-based adhesive. The white side of the tape is a rubber-based adhesive that provides a bond to the floor surface. Firm application pressure helps develop better adhesive contact and improve bond strength. The bond strength will build over time reaching maximum strength at 72 hours. FAR-25-.853 P/N 09-02133..... **$35.85**

INSULATION REPAIR & FABRICATION TAPE

Orcotape OT-16A is a lightweight, pressure sensitive, reinforced, metallized polyvinyl fluoride tape which is designed to be used in the fabrication, repair & installation of thermal/acoustic blankets. It is the companion tape to be used with the Orcotek strip blanket to seal the edges. Furnished in 60yd rolls.
2" width..... P/N 09-45040.....**$131.95/ea.**
3" width..... P/N 09-45045.....**$209.95/ea.**
5" width..... P/N 09-02554.....**$119.00/ea.**

ORCOTEK STRIP BLANKET

Aircraft insulation by the foot. This durable, state-of-the-art, light weight blanket meets the thermal and acoustic requirements of the major aircraft manufacturers and is now available for your airplane. The blanket consists of fiberglass enclosed in moisture barrier. It can be used as is or cut in special shapes. Use Orcotape OT-16A 2" or 3" tape to seal the open edge(s) of the blanket. Strip blanket available in 1" thick x 20" wide or 2" thick x 20" wide.
1" thick x 20" wide.....P/N 09-45015.....**$22.85/linear ft.**
2" thick x 20" wide.....P/N 09-45020.....**$26.25/linear ft.**

3M™ INTERAM CERAMIC BLANKET 49 INCHES BY 25 FEET

3M Interam Mat I-10A, 49 inches by 25 feet (one roll): Ceramic fiber based material that expands into low-density insulation blankets when exposed to high temperatures or flames. Outer foil layer is aluminum.
P/N 03-00136.....**$682.00**

VALCO CINCINNATI MULTI-PURPOSE SEALANT

Valco Cincinnati multi-purpose sealant is a paste-like, one component material that cures to a tough, rubbery solid upon exposure to moisture in the air. Because it does not flow due to its own weight, this sealant can be applied overhead or on sidewall joints and surfaces without sagging, slumping or running off. It adheres to clean metal, glass, most types of wood, silicone resin, vulcanized silicone rubber, ceramic, natural and synthetic fiber, and painted and many plastic surfaces.
Valco mutli-purpose sealant has good resistance to weathering vibration, moisture, ozone and extreme temperatures. It may be applied in subzero weather without loss of extrusion or physical property characterisitics and is effective to -46°C (-50°F). Fully cured Valco multi-purpose sealant can be used for extended periods at temperatures up to 204°C (400°F), and for shorter periods as high as 218°C (425°F)
2 oz. tube..... P/N 09-00277.....**$6.95**
7 oz. tube..... P/N 09-00278.....**$14.85**

VHT FLAMEPROOF COATINGS

Originally designed for NASA's reentry spacecraft, VHT FlameProof is a scientifically formulated compound designed to withstand temps. up to 1500°F (816°C) VHT It survives where other paints can't, shields & protects, maintains the finish, prevents rust & corrosion, and resists oils & solvents. For aircraft applications the typical use is on high temperature steel components such as exhaust & turbocharging systems. Excellent for use as a heat resistant & anti-corrosion coating on exhaust manifolds and turbine casings. Both Flat Aluminum and Flat Black are non-facing colors.
Flat Aluminum 16 oz. aerosol spray.....P/N 08-00713 ..... **$11.95**
Flat Black 16 oz. aerosol spray.....P/N 08-00714 ..... **$11.95**

BAFFLING MATERIAL

FIBERFRAX

A new material made from washed ceramic fibers with binders added to form a lightweight, flexible asbestos-free insulation. Withstands temperatures to 2300° F. Excellent for aircraft firewalls. Available in 24" wide rolls in 1/16" and 1/8" thicknesses.

1/16" Thick..... P/N 05-02678 .....**$5.85 Lin ft.**
1/8" Thick..... P/N 05-02679 ....**$10.00 Lin ft.**
Discount Less 15% On 50Ft. Per Size

FIBERFRAX HI TEMP COATING

Used as a hi temp coating over Fiberfrax, or other pourus materials. Can also be used as an adhesive to bond Fiberfrax or other pourus material together. Coverage: 15 sq. ft. per pint & 120 sq. ft per gallon.

Fiberfrax Adhesive Pt..... P/N 05-00800..... **$21.50**
Fiberfrax Adhesive Gal..... P/N 05-00900.....**$173.95**

NEOPRENE BAR

Neoprene bar of proper Shore hardness for fabrication of shock absorber donuts. Used in Osprey II nose gear. Available in 2 sizes:

1/2" Th x 2" W..... P/N 05-02000..... **$10.50/ft.**
3/4" Th x 3" W..... P/N 05-02100..... **$16.50/ft.**

RUBBER SHEET PACKING

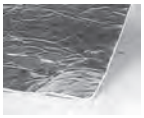
Will not deteriorate in petroleum products. Recommended for oil and solvent service. Wt. 6 oz. per sq. ft. 1 Size: 1/16" thick x 36" wide roll. Sold in 36" 1 width only. Price is per Lin. Ft. P/N 05-01000 .....**$3.30**

Discount: Less 15% On 20 Ft.

HEAT-PROOF TAPE

Heat-proof and fire resistant. Made of woven fiberglass. Non-metallic, commercial grade. Withstands up to 1000°F. 2" wide x 1/16" thick. Wt. 4-1/2 lbs. per 100 ft. roll. ..... P/N 09-31500..... **$0.87/ft.**

Less 15% On 100 ft.



FIREWALL 2000 CERAMIC BLANKET

This blanket is .250" thick, weighs only 9.5 oz/sq. ft. and is flexible enough to cover compound curves. The heat side of the blanket is covered with stainless steel, the other side is aluminum It is easy to rivet or can be glued into position. Sold by the running foot. Temp. range up to 1000°F.24" wide P/N 05-00948 .....**$24.75**

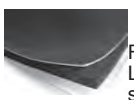
Less 15% on 25ft. roll

3M™ FIRE BARRIER 2000

A premium nonslump sealant bonds to most common construction material to form a flexible seal. Superior Adhesion. Remains elastomeric and is weather resistant. This product is great for through penetrations and may also be used for fire rated construction joints. P/N 05-00949 .....**$21.25**

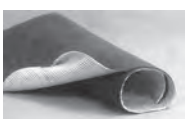
FIREWALL 2000 KIT

Contains 24"x48" sheet of Firewall 2000 and one tube of firewall caulk.. P/N 05-00950 .....**$119.95**



FIREWALL BLANKET

Firewall blanket is black in color and comes 48" wide. Looks best when in 3' sections, anything larger has seams and stitching lines do not match well. Note: This material is used for cosmetic purposes on the inside portion of a firewall to cover up an unsightly firewall. It is not fireproof and is not an actual firewall material. Sold by the foot. P/N 09-00276..**$42.25 /Linear ft.**



KOOLMAT HEAT BARRIER

A .070 thick fiberglass textile cured to a 1/8" silicone substrate. The latter providing a good wear resistant surface. Can be used on steel, aluminum, fiberglass, wood and plastic surfaces. It is good to temperatures up to 1000° F and reduces cockpit heat up to 75%. Contains no asbestos. Can be used to insulate cowl and firewall forward area. (Not used on exhaust) Color: gray on top side (silicone) and white woven cloth (fiberglass). Wt: .72 lbs. per sq. ft. Sold in 30" width by the lineal foot. Gray..... P/N 09-24730..... .....**$32.75/lin ft.**

ENGINE BAFFLE TEXTURED FINISH

FAA approved replacement Engine Baffle. This material is easily identifiable by its textured finish. 32oz fiberglass reinforcement mat. Boasts a -60 to 550°F range.

Color	Size	Part No.	Price	Size	Part No.	Price
Black	1/8" x 3" x 9'	05-04656	**$73.50**	1/8" x 36" x 40"	05-04657	**$188.95**
Red	1/8" x 3" x 9'	05-04658	**$114.95**	1/8" x 36" x 40"	05-04659	**$199.75**

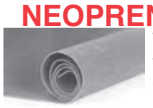
NEOPRENE COATED PYROGLASS CLOTH



This neoprene coated cloth is designed for applications where its superb heat and flame resistance provide an extra margin of protection for people and equipment. Self-extinguishing, it is used as aircraft firewall barriers, protective sleeves and tadpole tape covers, flat seals, gaskets, mounts and door seals. It is ozone and weather resistant, and can be used against caustics, gasoline, oil, water and steam. It does not support combustion and will operate in continuous temperatures from -40°F to +200°F. Thickness .070". Sold in 60" Width only.

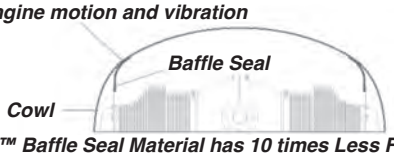
P/N 05-00600..... **$58.85 ft.**

PRE-CUT PYROGLASS CLOTH BAFFLE STRIP

Cut from Pyroglass cloth above. 3"x 84"..... P/N 05-00700..... **$29.95**

COWL SAVER BAFFLE SEAL MATERIAL

Friction between baffle seal and cowl transfers engine motion and vibration



Cowl Saver™ Baffle Seal Material has 10 times Less Friction! - One side is silicone and the other is the revolutionary friction free surface unique to the patent pending Cowl Saver™. Cowl Saver™ dramatically reduces the friction between your cowl and baffle seals.

Low Friction Saves You Money! - Reduces transfer of damaging engine vibration to the engine cowl Minimizes cowl chaffing and erosion from baffle seals. Extends baffle seal life. Reduces expensive cowl and cowl fastener repairs. Reduces fatigue and cracking in aluminum baffles and cowl skins.

The cowling even goes on easier! - Unbeatable Performance. Ideal balance of flexibility and stiffness to insure a proper seal. Fiberglass reinforced. Meets industry standard AMS3320G specification. McFarlane quality you can count on! Not FAA-PMA approved

Accessories

6036 BAFFLE SEAL RETAINER STRIP - A baffle seal retainer strip used as a retainer for riveting baffle seals to baffles. 7/16 inch x 12 inch strips - Cut to desired length during installation.

P/N 05-03399 .....**$2.20**

RIVET KIT 2 - A baffle seal rivet kit containing soft Mil-Spec rivets that will not deform the baffles. Several sizes are included for various baffle thickness and hole sizes. P/N 05-03401 .....**$13.95**

BAFFLE-KIT-1 - A convenient kit that includes (1) CS085X3X108G Cowl Saver™ Baffle Seal Material, (1) RIVET-KIT-2 Soft Rivets, (5) 6036 Retainer Strip P/N 05-03402 .....**$79.85**

BAFFLE-KIT- 2 - This new baffle kit with more material. This kit is best for larger aircraft or curved baffle seals that cannot be cut from three inch strips. The new kit includes (1) 18x36 inch piece of Cowl Saver™ material, (2) Baffle Seal Rivet Kits and (10) Baffle Seal Retaining Strips. P/N 05-04108 .....**$148.75**

BAFFLE-KIT- 3 - Part number Baffle-Kit-3 is a convenient kit that includes (1) 3" x 156" (13ft) Cowl Saver™ Material, (1) Baffle Seal Rivet Kit, and (7) Baffle Seal Retainer Strips P/N 05-04557 .....**$99.85**

INSPECTA-SHIELD

FIRE RETARDANT PENETRANT

Inspecta-Shield is a durable, non-toxic, fire retardant chemical penetrant which when cured and dried, is odorless and colorless. Will retard flame in materials such as fabrics, poly foam, paper, and wood. Will generally last for the life of the product to which it has been applied. Inspecta-Shield is environmentally compatible and will protect surfaces up to 2,200°. These surfaces will retain their color and resist sun rot up to 50% longer. A Class A rated flame retardant that meets F.A.R. 25.853 (a & b). 1qt. spray bottle will treat an area of 150 sq. ft. Can be applied with most garden and household sprayers.

Note: Inspecta-Shield is corrosive to aluminum and other metals. If it comes in contact with metals be sure to wipe off metal and clean thoroughly Qt. ..... P/N 09-05760 .....**$16.75**
Gal. ..... P/N 09-00274 .....**$63.75**

SILICONE SEAL WITH ADHESIVE

A general use silicone with an acrylic sticky backing. Can be used as any silicone seal where a sticky backing is used, such as Battery Box Covers (top), and Baffle anti-chafe (prevent wear between metal baffles and cylinder head fins) Low temp use only: 0 to +300 Thickness is .050"

Size	Part No.	Price

GAP SEAL – BAFFLE SEAL

AVTEK SQUEEZE-OUT DOOR SEAL KITS

Door Seal keeps water, cold, wind and noise out of your aircraft. The seal is designed for use on multiple aircraft make/model applications. The -02 is shipped with dual Air-Chambers.The installer can split the chambers using one near the hinges, where gaps are small, use two of three chambers in the rear where the gaps are larger. The -02 is very versatile, and works great on every aircraft, where as the -01 may not. Get the -01/-02 combination kit if you are unsure!
*While the -02 kit contains enough seal material to seal all General Aviation Doors, the purchase of the -02/-02 Kit will give you extra -02 in case something unexpected happens durring installation. Extra can also be used for the baggage door.

Description	Use	Features	Part No.	Price
AvTek Air Chamber Door Seal -02	Recommended for All Aircraft. Fwd-Aft Cabin Doors & Bag Door.	Flex, E/Z Conform Will Not Push Door-Out	05-02198	**$118.85**
AvTek Thin Seal (Window) -03	Recommended for Cessna & Beech. Use for Windows, Paper-Thin Door-Gaps	Seals When No Other Seal Will	05-02199	**$49.75**
AvTek Thin Seal (Door) -03	Recommended for All Aircraft. Use for Very Small Gaps in Doors	Seals When No Other Seal Will	05-02201	**$79.95**
AvTek Thicker Seal (Door)	Recommended for All Aircraft. Seal installed on the door.	Resist Mildew, Mold, & Tearing	05-02202	**$68.75**
Air Squeeze Kit (Combo Kit of the Two Best Seals) Squeeze-Out-01 & Air Seal-02	Recommended for All Aircraft Squeeze-Out: Top & Rear of the Door Air-Seal: Bottom and Forward Door Where the Hinges are Located.	Ear-Popping Tight, Flex, Ez Conform Will Not Push Door Out.	05-02217	**$152.95**
Door & Airframe Air-Seal Kit	The -02/-02 Air-Chambers on both the Door & on the Door-Way work together. Much like Car-Doors do. Compressing and expanding as your door does, for a "Water-Tight" fit.	N/A	05-04105	**$118.95**

AVTEK GAP SEAL

The “Spring-Steel” reinforcement channel has “Gripper” teeth to hold firmly in place. And when your door is closed the seal is pinched between the airframe. You can not pull the seal out when the door is closed...however applying adhesive into the channel is recommended. Length: 9ft.
P/N 05-02203 .....**$114.75**

GAP SEAL

Gap Seal for rudder and elevator of your aerobatic aircraft!Proven and continually tested since 1979.
Designed specially for Pitts S-1S, S-1T, S-2A, S-2S, S-2B , S-2C and Christen Eagle aerobatic aircraft. It can also be used on other aerobatic aircraft if the horizontal stabilizer, elevator, vertical fin and rudder spar is made from a 7/8 inch diameter tube with at least 1/8 inch gap and is equipped with strap hinges. Comes in 3 foot strips. It is cut and glued to the trailing edge of the horizontal stabilizer and vertical fin. Any good quality contact cement can be used to bond the Gap Seal.
NOTE: The Gap Seal is not designed for tail surfaces that are pin hinged however some homebuilt aircraft (Pitts S-1C) with pin hinges have been used successfully. Typically 3 strips for Pitts S-1, 4 strips for Pitts S-2 and Eagle, 5 strips for Pitts Model 12 P/N 05-04616.....**$36.75**

SILICONE BAFFLE SEAL

Silicone (reinforced) with fiberglass cloth. Mil spec: AMS3320 Rev. G; Material Thickness: .093 (3/32) O.E.M Spec; Temp Range: -65 to + 550
.093”X3” Scat Orange.....P/N 05-04717-1 ..... **$3.75**

HOMEBUILDERS GAP SEAL KIT FOR EXPERIMENTAL AIRCRAFT

Designed for experimental aircraft that have been identified as needing gap seals to improve control response and effectiveness. Features transparent, UV stable film with a long aging, acrylic adhesive. Remains flexible down to -40 deg. F. Easy to install with the use of simple hands tools. Kit includes 3M 8674 Film (PN 09-01643}, 86A Adhesion Promoter to ensure maximum adhesion, Scotchbrite pad (PN 09-01753) and 3M Application Solution (PN 06-00604) P/N 05-03480 .....**$89.75**

RUBBER CHANNEL - COWL SEAL

HIGH QUALITY RUBBER CHANNEL

Good-grade neoprene. Soft, flexible, oil-resisting.

Style B: 1/2" high - right, 3/8" high-left, 1/16" Groove 05-00596..**$0.99/ft**
Style C: 3/8" high, 1/8" groove, 1/4" across bottom . 05-00597..**$1.86/ft**
Style D: 1/2" high - left, 3/16" - right 1/32" Groove... 05-00598..**$0.48/ft**
Style E: 1-1/8" high, 1/4" lip right side, 1/16" Groove.. 05-00599..**$0.95/ft**

SILICONE BAFFLE SEALS

Excellent for replacement of baffle seals. It exceeds asbestos type seals in durability and flexibility over its entire operating heat range of -80 F to +425 F..
Available in red, blue & black.

IRON OXIDE RED - Meets Mil Spec ZZR765B. ISR3 meets Mil Spec AMS3320 (PN 05-00770, 05-00771-3, 05-00771) AMS3303 for all others.

OPEN CENTER CHANNEL

1/2" Legs 3/4" Curve 3/8" Radius
Made in 12' Lengths -
#4.....P/N 05-01500 .....**$1.43 Ft.**

Neoprene sponge rubber 1/4-round door seal. Hollow core makes a better seal. Manufactured in 25 Ft. lengths. Sold per foot #7 ..... P/N 05-01700.....**$1.47 Ft**

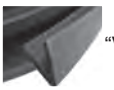
SILICONE P-SEAL 50 DURO

Silicone P-seal 50 duro for battery box application/lighter wall thickness 1-1/2 x 5/8 bulb. Sold by foot.
Use GBL4-4AB large flange (black) pop rivets to install (PN 05-00483). P/N 05-04704 ..... **$9.25**

ANTI-CHAFE MOLDING

Anti-Chafe Molding for fuel tank straps. Neoprene channel accommodates metal straps 1" wide.
#9..... P/N 05-01800 ..... **$1.33 ft**

"V" STRIP



"V" Strip Canopy Channel 20 Ft. required for Long-EZ.
#10 ..... P/N 05-01900 ..... **$0.68 ft**

QUARTER ROUND SOLID DOOR SEAL - Closed cell black neoprene with smooth outer surface. 1/2" Legs, 3/4" Curve, 1/2" Radius. 25 ft. Roll
P/N 05-00000 ..... **$28.75**

PIPER DOOR SEAL - Small cell sponge rubber. 25 foot rolls JM189139. P/N 05-00010 ..... **$62.50**

BAGGAGE DOOR SEAL - Flexible small cell sponge rubber seal used on many aircraft baggage doors. Packaged in 25 foot rolls. 25 ft. Roll
P/N 05-00020 ..... **$59.85**

PIPER WING ROOT SEAL - Black packaged in 12-foot lengths, adequate for one wing root. 12 ft. Roll
P/N 05-00030 ..... **$47.50**

BEECH WING ROOT SEAL - Black, packaged in 12-foot lengths, adequate for one wing root. 12 ft. Roll
P/N 05-00040 ..... **$59.75**

J-3, PA-18 DOOR GAP SEAL - 24" length Standard color, black. P/N 05-00953 ..... **$22.50**

Note: The above moldings are not FAA approved.

BAGGAGE DOOR SEAL BEECH 19, 23, 24

Revolutionary new seal design! Custom made from a special hybrid rubber compound, the new seal is superior to any seal on the market. The seal comes with pressure-sensitive adhesive to make the installation easier. The kit includes door seal, seal lube, installation instructions, engineering drawing, and Instructions for Continued Airworthiness (ICA). Seals, create an airtight and water tight closure.

P/N 05-04639.....**$54.95**

AP

CHAFE SEAL - DOOR SEALS

AP

EPDM WEATHERSTRIP

Self-adhesive rubber strip, made in Sweden of 100% EPDM rubber. Resistant to aging, weather, ozone, ultraviolet sun rays and many chemicals and solvents. Retains resilience at low temperatures (to - 45°F). Excellent for all types of weatherstripping and canopy installations. Furnished in three sizes

P-STRIP - Furnished in full rolls as a double-width strip which splits in the middle to give two single-width P-strips as illustrated. 17 Ft. Roll 1/4" thick x 3/8" wide. ***COLOR: WHITE*** P/N 05-01200 ..... **$8.50 Ea.**

D-STRIP WEATHERSEAL - 17' Roll 5/16" thick x 23/64" wide. (2) 8-1/2' strips. P/N 05-00897 ..... **$8.50**

ALL STRIP WEATHERSEAL - 10' Roll 5/16" thick x 19/64" wide. P/N 05-00898 ..... **$11.25 Ea.**

BEECHCRAFT COWL DOOR CHAFE SEAL

A Complete set of black silicone chafe seal for the upper cowl doors for Beech models 33, 35, 36. 3/8" wide X .020 thick. Kit includes silicone cement.
P/N 05-00665 ..... **$44.75**

BEECHCRAFT NOSE GEAR CHAFE SEAL

A Complete set of black silicone nose gear door seals designed to keep the nose gear doors from chafing against the airframe. Fits models 33, 35, 36. Kit includes silicone cement..... P/N 05-00666 .... **$38.75**

BEECHCRAFT MAIN LANDING GEAR DOOR CHAFE SEAL

A Complete set of black silicone chafe seals cut to the original design. These seals are cemented to the underside of the wing to reduce the chafing of the main landing gear doors when closed.
P/N 05-00667 ..... **$49.85**

BEECHCRAFT TAIL ROOT SEAL

A set of two tail root seals for models 33–36.
P/N 05-00669 ..... **$69.50**

BEECHCRAFT RUDDERVATOR SEAL

A set of two ruddervator seals for model 35.
P/N 05-00670 ..... **$49.75**

BEECHCRAFT UPPER WING SEAL

A set of two upper wing seals for models 33, 35, 36, 55, 58. Includes lower wing seals (2)..... P/N 05-00668 ..... **$166.95**

SILICONE AIRBOX & HEATER SEAL

This fiberglass reinforced silicone seal (1/16" thick) makes an excellent replacement for various airbox and heater box seals used in a variety of aircraft. Furnished as a 6" x 6" piece; Black. P/N 05-00662 ..... **$13.70**

BLACK SILICONE P SEAL WITH 5/8" BULB

This seal makes an excellent replacement for felt type seals or other neoprene P-seals found in various aircraft. Overall size is 1-3/8" with a 5/8" bulb. Similar to Cessna #S2729-1.Note: Use GBL4-4AB large flange (black) pop rivets to install (PN 05-00483).
P/N 05-00663 ..... **$8.25/ft.**

BLACK SILICONE P SEAL WITH 7/8" BULB

This seal makes an excellent replacement for felt type seals or other neoprene P-seals sound in various aircraft. Overall size is 1-3/8" with a 7/8" bulb. Sold by the foot. Note: Use GBL4-4AB large flange (black) pop rivets to install (PN 05-00483). P/N 05-02144 ..... **$9.50/ft.**

BEECHCRAFT T34 CANOPY SEALS

AMS 3303 silicone seal -65 to +350 for Beechcraft T34 Canopy Seals. Package includes: • 1 ea Canopy Seal 50.0 Long • 2 ea. Canopy Bumper Seal 21.0 Long • 2 ea Canopy Bumper Seal 48.0 Long P/N 05-04247 ..... **$119.50**

BEECHCRAFT STORM WINDOW SEAL

19/23/24/33/35/36/50/55/58/76/77/95 Series Window Seal, Storm Window.(Frameless) P/N 05-03613 ..... **$19.85**

GB56 SILICONE ANTI-CHAFE COWL SEAL

The kit includes: 15 Foot Roll with Adhesive, Anti-Chafe Seal and Catalyst.Sold in 15ft. rolls.
P/N 05-00664 ..... **$33.50**

SILICONE CEMENT FOR SILICONE SEALS

This silicone cement is the same cement that is included with some of the chafe seals and is excellent for attachment of any silicone seal.
2 oz. ..... P/N 05-00996 ..... **$20.25**
4 oz. ..... P/N 05-04555 ..... **$28.75**

SOLID 1/4 ROUND DOOR SEAL

As a standard door seal the RB-5022 has worked well in many different applications such as on piper and some cessna applications. This is a solid 1/4 round seal it is 5/8"x5/8".
It is manufactured to meet the MIL-R-6130C-type 2 neoprene spec. and the FAR.25.853-B burn spec. They recommend that you use their T-990 precleaner and 1100-2 glue to install it.
P/N 05-04753 ..... **$5.25/ft.**

BEECHCRAFT TAIL ROOT SILICONE SEAL

AMS3303 silicone seal temperature range -65 to +350. Beechcraft tail root seal. 15 foot length.
P/N 05-00669 ..... **$69.50**

PIPER DOOR SEALS

Developed from a special rubber compound that meets military specifications and FAA requirements for aircraft seals. Has a memory, compresses and conforms to the sealing surface providing a perfect seal. Comes with pressure sensitive adhesive that makes it easy to apply and bonds well with any metal surface painted or bare. Installs in the channel on the fuselage opening. Provides for an air- and water-tight seal. Detailed instructions, an engineering drawing for installation of the new seal, including instructions for adjustment of the door as well as removal of the old seal from the door(s). **Please call or visit our website for additional photos and models.**

THE ULTIMATE DOOR SEAL

The Ultimate Door Seal compensates for ill-fitting doors and in-flight door movement, thus keeping a positive seal to reduce the high pitched sound which causes fatigue, anxiety, and progressive hearing loss in pilots and passengers. The Deluxe Electric model features a panel mounted air control valve which is fully automatic in flight with electric power supply module. The Deluxe model features a handheld manometer bulb mounted permanently coiled hose and mounting bracket and panel mounted air flow control valve. The Economy model is the same system as the Deluxe but features a self-contained thumb screw air flow valve mounted on a manometer bulb with storage bracket mounted on the door. Requires no hoses or wires to be run. All systems contain everything needed for installation. All components covered under F.A.A. STC's & PMA.

WINDLACE INTERIOR DOOR SEAL WELT

1/2" diameter vinyl covered material that provides additional sealing and ornamental edging for the door opening. The windlace is mounted between door post structure and upholstery panels or trim. Install with sheet metal screws. Black color only.

P/N 09-00281 ..... **$9.90 / ft.**

ANTIQUE PIPER WING ROOT FRAME COVERS

This cover is constructed of a lightweight stiffener panel, 1/2" foam padding and headliner fabric. A flap extends into the back side of the wing root frame and glues in place for a professional finish. P/N 09-17345..... **$85.50**

3M™ SUPER WEATHERSTRIP ADHESIVE

For adhering all types of rubber weatherstripping to metal. Light colored adhesive, very fast drying, exceptional bonding strength. Can be used for adhering vinyl trim head liners and side panels.

5 oz. tube, #8001.....P/N 09-27200 ..... **$6.25**

3M™ WEATHERSTRIP ADHESIVE

Adheres firmly to metal and has quick tack necessary for holding pads and linings in place securely. Can also be used for sealing windshields between rubber and glass. 5 oz. tube, #8011..... P/N 09-27300 ..... **$7.85**

3M™ FAST TACK TRIM ADHESIVE

This general purpose adhesive is used for bonding trim fabrics, floor mats, and rugs. Features quick tacking quality, does not bleed through fabric, and remains rubbery and flexible. Doesn't dry hard. Excellent for upholstery repairs.

5 oz. tube, #8031.....P/N 09-27210 ..... **$9.50**

3M™ GENERAL TRIM SPRAY ADHESIVE

This convenient sprayable adhesive is used for bonding a variety of trim fabrics. It is non-misting, very strong, light colored, and has a controllable spray pattern.

19.75 oz. Aerosol Can..... P/N 09-28330 ..... **$17.75**

3M™ SCOTCH GRIP RUBBER ADHESIVE

This fast drying adhesive develops strength very quickly. It has excellent heat resistance; temperature performance is from -5 to 300°F. Meets specification requirements of MIL-A-1154C. Bonds neoprene, reclaim, SB-R, and butyl rubber to metal, wood, most plastics, and many other products. #1300L Qt Can. P/N 09-27220 ..... **$39.75**

AERO-SEAL CEMENT

Designed for door seals and moldings. Adheres rubber to wood, other rubber, fiberglass or metal. 4 oz. brush-top container. P/N 05-00955 ..... **$12.50**

3M™ LEADING EDGE TAPES - PROTECTIVE BOOTS

3M™ 8672 POLYURETHANE PROTECTIVE TAPES

3M™ Polyurethane Protective Tape 8672 is made from a tough abrasion resistant polyurethane elastomer that resists punctures, tearing, abrasion and erosion. It is formulated for resistance to ultraviolet light. Polyurethane Protective Tape 8672 provides a simple, easy method of protecting a surface from corrosion, abrasion and minor impact damage. It can be installed in a minimum amount of time with simple tools. It can be painted or applied over painted surfaces. Polyurethane Protective Tapes 8672 and 8672 GB are constructed with a long-aging, solvent resistant, pressure sensitive acrylic adhesive that is protected with an easy release paper liner. Polyurethane Protective Tape 8672 is a transparent tape with a paper liner on the adhesive side.
Please visit our website for application instructions.

AP

3M™ POLYURETHANE PROTECTIVE BOOTS

3M™ Polyurethane Protective Boots SJ8665 are pre-formed and used extensively in private, commercial and military aircraft to fit the complex curvatures of a variety of applications. These boots are designed to help provide long lasting protection of randomes, wing and stabilizer tips, landing gear pods, composite parts, and other portions of aircraft from rain, moisture ingression, UV light, insects, sand, sleet, snow, and most other airborne particle erosion damage. The boots are part of a 3M family of high performance surface protection products available for various aerospace applications worldwide.

1” x 60 Yd. Roll ..... P/N 09-20100.....**$2.50 ea.**

CLOTH TAPE

Has many uses in aircraft maintenance work. Strip over sharp corners to protect fabric. Strips under doped fabric will prevent fabric from sticking to parts. Pressure-sensitive adhesive backing. Easily applied, easily removed.1” x 60 Yd. Roll ... P/N 09-17100.....**$9.75**

GLASS STRAPPING TAPE

A pressure-sensitive transparent acetate film tape reinforced with glass strands. Possesses high tensile strength (375 lbs./inch width) and good impact strength. Especially effective for carton sealing applications.
#RG-2A, 3/4” x 60 Yd. Roll..... P/N 09-31200.....**$2.95**

POLYPROPYLENE TAPE

A pressure-sensitive transparent polypropylene plastic tape for packaging & edging. Outstanding stretchiness/conformability. Waterproof, flame, abrasion and solvent resistant.
#371, 2” x 110 Yd. Roll..... P/N 09-31300.....**$1.93**

RESCUE TAPE

Rescue Tape is a self-fusing silicone repair product with infinite uses. Most versatile and easy to use emergency repair product available. You can repair leaks on plumbing and hoses in a flash, use for electrical wiring or as shrink wrap, wrap tool handles, and much, much more. Incredible 700 PSI Tensile Strength, Insulates 8,000 Volts per layer, Withstands 500° F Degrees of heat! (260° C) ~ Remains flexible to -85° F! (-60° C), Creates a Permanent Air-Tight, Water-Tight Seal in seconds, Resists Fuels, Oils, Acids, Solvents, Salt Water, Road Salt, UV Rays.

Discount Less 15% on 12 (Assorted)

CLEAR SLIP RESISTANT WING WALK

This patented slip-resistant material is an excellent alternative to black Wing Walk which has been used on aircraft for many years. This material is nearly clear (slightly opaque) and has an adhesive backing that requires heat or 1500 lbs. of pull to remove it from the surface on which it is applied. Imagine how much better a newly painted aircraft can look with a clear material which does not alter the paint design. The material is impervious to chemicals, compounds, and water and will expand and contract with the metal or fabric. Surface roughness of the material is about the same as standard black Wing Walk. Furnished in 16” x 30” sheets. ..... P/N 09-31810..... **$32.85 Ea.**

NON-SKID WING WALK TAPE

The non-skid adhesive tape is excellent for wing walk applications. The clear is perfect for pilots wishing their step areas to blend in, not stand out. This tape meets all applicable Mil Specs and has superior adhesion qualities. Sold by linear foot.
24” Wide Clear.....P/N 09-31685 .....**$4.90**
6” Wide Clear.....P/N 09-31645 .....**$1.35**
24” Wide White.....P/N 09-31680 .....**$10.00**

ULTRA WING WALK COATING

Developed exclusively for Aircraft Door Seals by a major chemical company, this phenomenal new wing walk coating reduces the chance of slipping when climbing up on the wing. Unlike the mundane wing walk coating found on most aircraft, ULTRA WING WALK is a fast-drying polyurethane-based semi-gloss black coating with fine particles of rubber that adds class to any plane. .....P/N 05-04366 .....**$38.85**

RANDOLPH WING WALK COMPOUND

Black Wing Walk Compound is a special grit mixed into a tough black enamel material. Used to form non-slip surfaces on airplane wing walks. Apply with a coarse brush directly over regular finish after thoroughly cleaning the surface, and breaking the glaze if the surface is old. Thin with toluene as required. Conforms to MIL-W-5044. Randolph X-1567. Qt. .....P/N X-1567-QT **$22.00**

3M™ SAFETY WALK SHEET

A durable, mineral coated, non-slip fabric for wing walks. Waterproof, weatherproof and unaffected by vibrations, heat, cold, gasoline or oil. Assures safe footing. Pressure-sensitive backing should have additional coating of Pliobond to assure adhesion for aircraft Pliobond adhesive applications. Sold by lineal foot.

12” Width (3M) ..... P/N 09-32250.....**$4.95 /Ft.**

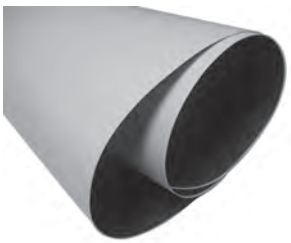
RAC WING WALK



RAC wing walks are not made from the usual, sandpaper-like material, which can decompose and scratch both the wing surface and your knees. Instead, they use a low profile, synthetic rubber, that combines a comfortable feel with good gripping power.The RAC wing walk comes pre-cut to 26 1/2” x 9 1/2”. Installation is easy with the aggressive, self-adhering backing. Each wing walk comes rolled in its own, 4”x4”x10” box and installation instructions are also provided with each box. Black

O-RINGS

O-rings give effective sealing over wide ranges of pressure, temperature, and movement, with the advantage of sealing pressure in both directions and reducing friction and wear on moving parts. The use of O-rings as gaskets or static seals permits metal-to-metal contact and allows almost unlimited pressures under extreme vibration. All 0-rings should be lubricated before installation and constant lubrication should be provided for running seals to avoid excessive wear. Avoid sharp edges, threads, and cross-drilled ports over or through which rings must be installed. AN6227B and AN6230B 0-rings are manufactured to Spec. MIL-P 25732 for use in hydraulic systems using MIL-0-5606 hydraulic oils. MS28778 O-rings meet Spec. MIL-P-5510A and are suitable for MIL-0-5606 hydraulic fluid at 160° F.

AN/MS O-RING KIT

This AN/MS O-Ring Kit includes over 382 O-rings made of Nitrile Buna N 70 duro material. These rings have a temperature range of -6 to 275°F and are for use with petroleum oils and fluids. Size range in kit is 0 through 30.(O-Ring Set An6227B-1, -30) P/N 05-02210... **$85.00**

AS568A O-RING KIT

- 70 Duro Nitrile
- 382 O rings
- Great kit for the homebuilder
- Sizes: -06 to -32 P/N 13-02804 .....**$24.95**

MS29513 FUEL RESISTANT O-RINGS

These MS29513 series O-rings are resistant to fuel and are ideal for applications such as fuel injection connections and primers. A small amount of fuel proof grease applied to these O-rings helps the installation and operation of primers. Not resistant to automotive fuels.

TIE RODS - GROMMET EDGING

BRUNTON TIE RODS

These high quality aircraft wires and terminals are manufactured in Scotland by Bruntons Aero Products who first originated streamline wires in 1909. They feature the stronger rolled threads and are available in high polish or satin finish. Material is 316 high tensile stainless steel. Wires are also available in BSF or metric threads. Special wires with combination streamline and round section commonly used for biplane roll wires or seaplane float installations are available. Wires are manufactured to AN specifications and are 100% proof loaded. Wires ordered with terminal assemblies are supplied assembled. Quality certifications are provided with all orders.
Aircraft tie rods carry tensile loads for bracing wings, tail assemblies as well as float installations. They may be ordered separately or with terminal assemblies (AN665 terminal, clevis pin, jam nut, cotter pin). AN specs define thread lengths as well as a fixed difference in length between rod length and pin center length (K). Order pin center lengths ONLY when AN665 terminals are used on both ends of the wire. All other installations must order rod length. Due to fluctuations in international exchange rates, the prices of Brunton tie rods are subject to change. We guarantee the lowest prices and fastest delivery on all Brunton tie rods. Request current pricing. Allow 8-10 weeks for delivery of Brunton tie rods.

SEALS-IT GROMMET SEALS

Grommet seals have many applications. In race cars they serve to keep unwanted smoke and fumes from entering the driver's area while protecting lines from chafing and abrading on rough surfaces. In hot rods and custom car applications, they provide the perfect "finishing touch" to all through panel installations. Wiring, fuel and oil lines, air and liquid hoses, and all other lines that make up your rod or custom, can make an otherwise detailed installation look unfinished. Seals-It grommet seals add the well-organized, professional appearance you want. Grommet seals also have many other applications including: marine, commercial equipment, motor homes, etc.

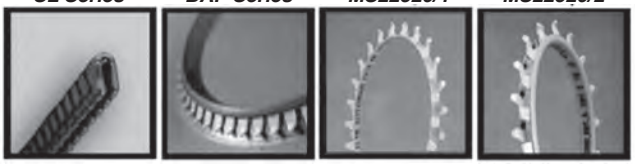
SPRING-FAST® GROMMET EDGING

SL Series *BAP Series* *MS22529/1* *MS22529/2*



Spring-Fast® Composite Grommet Edging covers sharp edges of panels that come in contact with witre and cables and mechanically lock on indefinitely with finger pressure in only seconds per foot. They provide a significant time reduction in assemblies. A long-term reliability solution that replaces nylon caterpillar plastic gromments and associated solvents, adhesives, and ancillary materials to protect critical equipment from failure due to wire chaffing.

Spring-Fast® Grommet Edging is approved by the FAA and U.S. Department of Defense per NASM 22529/a and NASM 22529/2 for all aircraft applications. Meets FAR 25.853 for flammability and MIL 1344 for shock and vibration. Spring-Fast® is available for 8 different sheet thickness ranges from 0.025 to 0.260 and can be purchased in either 10 piece packs of 12.75" long pieces, or 25 or 100-foot reels. Use Spring-Fast® BAP and SL series for flanged lightning hole and three-axis contours. The BAP Series Flexi-Grommet is perfect for roll formed edges and small lightening holes. Where wires are routed in the same plain as the sheet metal, the Spring-Fast® SL Series provides a trim characteristic for all edges with or without cabling nearby.

Spring-Fast is used in a wide variety of aviation and aerospace applications:

- Lightening Holes
- Seating
- Fuselage
- Tail Sections
- Ferrules
- Electrical Power Centers
- IFE (In-Flight Entertainment)
- Ground Control
- EAU (Electrical Avionic Units)
- APU (Auxiliary Power Units)
- Wing Sections
- Intercostals
- Avionics
- Tactical Satellite Emulators
- Navigation Systems
- Racks
- Bulkheads
- Air Traffic Control
- PSU (Personal Safety Units)

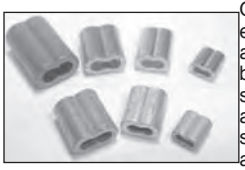
WIRE ROPE SLEEVES (MS51844)



Oval shaped copper sleeves used in making eye or lap splices in flexible cable. Sleeves are slipped over the two strands of cable to be fastened and are then compressed with special Nicopress hand squeezers. Provides a bond that is even stronger than a standard splice. "18" Series sleeves are plain copper and "28" Series sleeves are zinc plated.

AN665 THREADED CLEVIS TIE ROD TERMINALS

These Zinc plated steel terminals are manufactured to AN specifications, with either right-hand or left-hand threads. Example: P/N AN665-10L has a 6-40 lefthand thread. AN665-34R has a 1/4-28 right-hand thread. Order Terminal Assemblies if locknut, clevis pin, and cotter pin are required along with terminal. Otherwise, only terminals are supplied.

*Note - Cad Plated Terminals are no longer being manufactured due to enviromental reasons. Once the cad plated stock is depleted the zinc plated terminals will be shipped. Please note that we can not guarantee cad plated terminals will be received.

AP

CABLE TERMINALS

The finest and best means of attaching fittings to cable. Properly swaged to the cable, these terminals will maintain the minimum rated breaking strength of that cable. These terminals are made of stainless steel alloy having the best swaging and corrosion resistant properties and have a polished finish.

SA110 PLAIN BALL

Meet all requirements for Boeing's BACT14B Plain Ball End Fittings and NAS494 series Plain Ball End Fittings. All balls are manufactured from stainless steel as specified in MIL-DTL 781 and are certified to the appropriate standard(s).

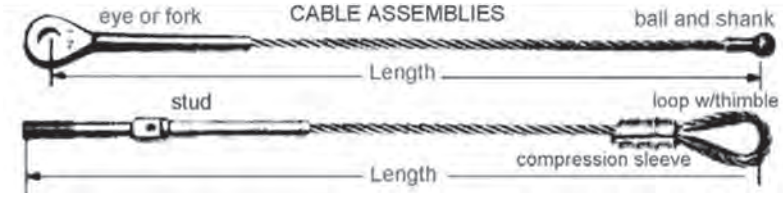
CUSTOM-MADE CABLE ASSEMBLIES



Measure eye and fork terminals from center of pin holes. Measure ball fittings from center of ball. Measure stud terminals from end of terminal. Measure loop with thimble from surface of thimble.

SEE "TOOLS" SECTION FOR KEARNEY PORTABLE SWAGER.
CUSTOM-MADE CABLE ASSEMBLIES ARE SPECIAL ORDER AND NON-RETURNABLE

The terminals featured on this page must be installed with a rotary swaging tool, which is too costly for purchase by a homebuilder or small shop. We offer swaging service and custom-made cable assemblies in cable sizes of 1/16" to 5/32" diameter.

Select the cable fittings of your choice, specify cable size, cable construction, stainless steel or galvanized cable and length. Measure length of cable assembly as shown in the illustration. We will furnish complete cable assembly ready for installation. A simple drawing of the assembly required is appreciated and will expedite shipment.

The cost of custom-made cable assembly is base charge (up to 10 ft - **$10.00**, 10 to 20 ft. - **$15.00**, over 20 ft. - **$20.00**), plus the cost of selected fittings and cable plus swages at **$6.95** each. For cable assemblies requiring a third swage, such as an assembly with two end fittings plus a ball swaged at some point on the cable, add **$6.95** plus cost of the ball.

Example: The cost of a 10 ft. long cable assembly using 1/8" 7 x 19 galvanized cable, an MS20667-4 fork end and an MS21259-4RH stud end is 10 x **$0.64/ft.** for cable plus **$11.00** and **$5.50** for the fittings plus **$6.95** per swage + **$10.00** setup = **$41.15** total cost. For added MS20663C-4 ball add **$6.95** for swage plus **$1.70** for ball.

Swaging Service - For cable assemblies requiring swaged fitting on one end only. **$6.95**/swage plus cost of cable, fittings, and the base charges as described above.

Nicopress Swages - Performed for **$4.95**/Swage plus cost of Nicopress sleeve and the base charges described above.

TOLERANCE - ±1/8"

Custom Cable Assemblies are fabricated in House by Aircraft Spruce for Prompt Shipment.

CONTROL CABLE SPECIFICATIONS

• ***7 X 7 FLEXIBLE CONTROL CABLE*** **-** Has seven strands of seven wires each. Used for control purposes where extreme flexibility is not required but where abrasion is a factor.

• **7 X 19 FLEXIBLE CONTROL CABLE -** Has seven strands of 19 wires each. Its greater metallic area makes it stronger than 7 x 7 cable. Because of its fine wires the best service is obtained where abrasion is not too severe. These same wires, however, make it flexible to meet severe bending.

• ***1 X 19 NON-FLEXIBLE CABLE*** **-** Is one strand of 19 wires. It has more metallic area than 7 x 7 or 7 x 19 constructions which makes it the strongest but also the least flexible. 1 x 19 is generally used for bracing purposes, drag and anti-drag wires. It is often used with swage type terminals.

• The major difference between aircraft and commercial cable is the lubrication applied to aircraft cable, which provides substantially better fatigue life than non-lubricated commercial cable. Aircraft cable requires extensive extra testing, documentation, certification to meet military specifications. Aircraft Spruce obtains its aircraft cable from domestic sources and the cable is certified to MIL Spec MIL, W-83420 and QPL Certified.

CABLE FAIRLEADS

Less 15% for 12 or more.

Nylon construction for external use. Two halves with retaining clip.
3/4"O.D. x 3/4"L
P/N 05-05500 **$2.75 Set**

Clips Only
P/N 05-05700 **$0.43 Ea.**

SEE TOOL SECTION FOR CABLE TENSIOMETERS

WING STRUT ADJUSTMENT FORK & BARREL SETS

Conforms to AD. 81-25-05. The heavy-duty, high tensile strength strut fork has rolled threads, an improved alloy with heartier design for added strength, and a permanent indentification mark to provide assurance of conformity for ease in field installation. Forks require a five year inspection per A.D. 93-10-06.

FAA/PMA. J-3 & PA-11. Replacement for 13770-00. Includes bolt, nut, cotter pin & jam nut. Measures 5/16" bolt hole. Measures 7/16" x 20 thread NF3. ..... P/N 05-06000 ..... **$82.75**

FAA/PMA. J-5 & PA-12, 14, 18, 20 & 22. Replacement for 4481-02. Includes bolt, nut, cotter pin & jam nut. 3/8" bolt hole. Measures 7/16" x 20 thread. ..... P/N 05-06100 ..... **$79.90**

Wing strut barrels. ..... P/N 05-05900 ..... **$15.90**

FLIGHT CONTROL CABLES

These FAA-PMA approved cable assemblies are available in stainless or galvanized cable and are constructed of highest quality U.S. made materials. All components are fully traceable and each assembly is load tested and length stabilized. Over 2000 cable assemblies in stock. Custom cable assemblies can be fabricated to your specification.

- ***AS0510105 Series for Cessna 170, 172, 180, 182, and 185***
- ***AS0400107 Series for Cessna 150, and 152***
- ***AS1660300 Series for Cessna 188***
- ***AS62701 Series for Piper PA28, PA32, and PA34***
- ***ACA Series for Schweizer G-164***

Call the Cessna/Piper parts specialist at 1-877-4SPRUCE with your Cessna or Piper cable assembly part number for pricing or for assistance in determining the part number you require for your aircraft.

MCFARLANE FLIGHT CONTROL CABLES

McFarlane Beechcraft flight control cables and chains are coated with a corrosion inhibiting compound that meets Military Specification MIL-PRF-16173. This is the same compound used on all factory original Beechcraft flight control cables.FAA/PMA

MCNAS30327-0590 Tab Actuating ..... P/N 05-04625 ..... **$188.95**
MCNAS30434-1520 ..... P/N 05-04624 ..... **$225.95**

PUSHROD THREADED END FITTING

Fits 5/8" diameter pushrods. 1/4 - 28 threaded hole. Secure to aluminum pushrod with two cross riveted or bolted fasteners. Made from 6061-T6 5/8" diameter x 1-5/8" long rod. Two sizes available.

Fits: 5/8" x .049" tube ..... P/N 05-01140 ..... **$9.90**
Fits: 5/8" x .058" tube ..... P/N 05-01150 ..... **$9.90**

PUSHROD BALL ROLLER GUIDES

Provides almost frictionless push – pull and rotary movement of aileron and elevator push rods. Design is similar to that used in German sailplanes. Unit contains four nylon roller balls and provides 3.5" pushrod travel. Aluminum case size, 1.25" x 3.0" long. Fits 5/8" diameter pushrods.

P/N 05-01110 ..... **$10.85 ea.**

PUSHROD FORKED END FITTING

Fits 5/8" diameter pushrods. 3/16" pivot hole with .090" wide slot for bellcrank. Secure to aluminum pushrod with two cross riveted or bolted fasteners. Made from 6061-T6 5/8" diameter x 2-3/8" long rod. Two sizes available.

Fits: 5/8" x .049" tube..... P/N 05-01120..... **$9.90 ea.**
Fits: 5/8" x .058" tube..... P/N 05-01130..... **$9.90 ea.**

RUDDER CABLE FAIRING SETS FOR RV'S

Pre-formed .025" thick aluminum fairings for rudder cable exit on RV fuselages. (None are supplied with the RV kits). Set contains (2) identical fairings - 1 for use on cables and 1 spare (could be used on elevator trim). Each will require some trimming to fit before riveting. P/N 12-00635..... **$15.50**

MCFARLANE CABLE & CHAIN KITS

Complete flight control and trim chain kits for each of the 150 different cable groups required to service all single engine aircraft from the model 120 through model 185 airplanes. It is a tedious and time consuming job to research the part manuals for all of the cables required for a complete aircraft. McFarlane has done the research and has all of the part numbers required for your aircraft. We carry stock on all of the cables in either Galvanized-Carbon Steel or Stainless Steel. All components are fully traceable, high quality, and proof tested.

CONTROL CABLE FAIRINGS

Injection molded ABS plastic fairings used to cover hole in airframe where control cables emerge such as the rudder cables at the rear of the fuselage. May be installed on any airframe surface but is most normally used on fabric covered aircraft where they are bonded on with fabric cement and covered with a fabric patch. P/N 05-05750 ..... **$4.35 pair**

TURNBUCKLE COMPONENTS

TURNBUCKLES COMPLETE ASSEMBLIES

Complete turnbuckle assemblies consist of a brass barrel and two steel ends, one with right-hand thread and the other with left-hand thread. Order by proper AN number and add dash number and a letter to indicate length and strength required.

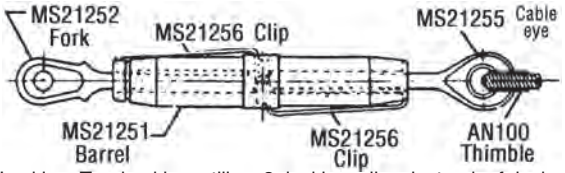
TURNBUCKLES – SAFETY WIRE

MS CLIP-LOCKING TURNBUCKLE ASSEMBLIES



Clip-Locking Turnbuckles utilize 2 locking clips instead of lock-wire for safety. The turnbuckle barrel and terminals are slotted lengthwise to accommodate the locking clips. After the proper cable tension is reached the barrel slots are aligned with the terminal slots and the clips are inserted. The curved ends of the locking clips expand and latch in the vertical slot in the center of the barrel. Build up MS turnbuckle assemblies, similar to the AN assemblies listed on the preceding page, by selecting a turnbuckle barrel, 2 end fittings and 2 clips from the components listed in the Table below. The price of the complete assembly is the sum of the prices shown for the components. Example: An MS turnbuckle assembly for 3/32" dia. cable, with fork end and pin eye consists of:

1 MS21251-B3S Barrel **$8.00**
1 MS21252-3LS Fork End **$12.65**
1 MS21254-3RS Pin Eye End **$9.75**
2 MS21256-1 Clips ..... **$0.28/ea.**

Less 10% for 6 or more complete assemblies.
Less 15% for 12 or more complete assemblies.

Turnbuckle Component	Part No.	Cable Dia.	Thread Size	Min. Breaking Strength(lbs)	Price Each

SAFETY WIRE

Available in Type 302/304 stainless steel (soft temper) per MS20995. Also, in soft annealed brass per specification QQ-W-321, Type A.Stainless steel safety wire furnished in convenient 1 lb. dispensing container. Annealed brass safety wire is furnished in a convenient 1 lb. dispensing container.

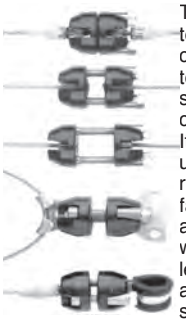
Wire Dia. In.	Wire Type	Part No.	Price Per lb.
.020	Stainless Steel	05-02684	**$9.95**
.025	Stainless Steel	05-06831	**$8.75**
.032	Stainless Steel	05-02685	**$7.95**
.032	Brass	05-02686	**$18.75**
.041	Stainless Steel	05-02687	**$7.95**
.041	Brass	05-06600	**$18.65**

Less 10% on orders for 10 spools, 15% on 25 spools, 20% on 50 spools or more. May be assorted.

25 FT. COIL OF STAINLESS STEEL SAFETY WIRE:

.032" Dia. .....P/N 01-15725 ..... **$1.25**
.041" Dia. .....P/N 01-15825 ..... **$1.25**

ADJUSTABLE CABLE CONNECTOR

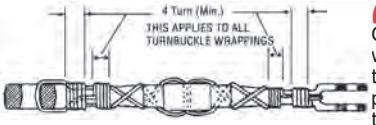


The ACC provides a strong positive connection with tensioning and maximum liner travel in a confined cable installation. Accommodates 3 standard cable terminals, (SA-110 plain ball, MS20664C ball & single shank, and AN111 cable bushing) including combinations of cable-to-cable & cable-to-bracket. It is light & compact without compromising safety. It utilizes an original design of overlapping walls and ridges to enhance the strength of each working surface. The ACC is precisioned CNC machined 7075 anodized aluminum. Stainless Steel Allen screws work in tandem to provide cable tensioning. 2 stainless tube-nuts provide additional structural security and prevent loosening with interlocking threads. 2 stainless steel pins are locked in place between the adjustment screws and provide an anchor for cable bushings or customized brackets. If necessary, longer adjustment screws can be used to accommodate insufficient cable lengths.

Avail. Sizes	Pin Dia.	Part No.	Price
ACC-3 – 1/6", 3/32"	.188	05-01341	**$38.00**
.032	.188	05-01342	**$39.30**
.032	1/4"	05-01343	**$45.80**

SAFETY METHODS FOR TURNBUCKLES

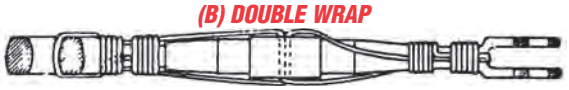
Safety all turnbuckles with .040 dia. annealed safety wire using either the double or single wrap as described and illustrated. Do not reuse safety wire. Adjust the turnbuckle to the correct cable tension so that no more than 3 threads are exposed on either side of the turnbuckle barrel. Do not lubricate turnbuckles.



(A) DOUBLE WRAP (SPIRAL)

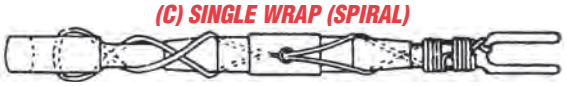
Of the methods using safety wire for safety turnbuckles, the method described here is preferred, although either of the other methods described are satisfactory. The method of double wrap safety is shown in figure (A). Use 2 separate lengths of the proper wire. Run one end of the wire through the hole in the barrel of the turnbuckle and bend the end of the wire towards opposite end of the turnbuckle. Then pass the second length of the wire into the hole in the barrel and bend the ends along the barrel on the opposite side first. Spiral the 2 wires in opposite directions around the barrel to cross each other twice between the center hole and the ends. Then pass the wires at the end of the turnbuckle in opposite directions through the holes in the turnbuckle eyes or between the jaws of the turnbuckle fork as applicable, laying one wire along the barrel and wrapping the other at least four times around shank of the turnbuckle and binding the laid wires in place before cutting the wrapped wire off. Wrap the remaining length of safety wire at least 4 turns around the shank and cut it off. Repeat the procedure at the opposite end of the turnbuckle.

(B) DOUBLE WRAP



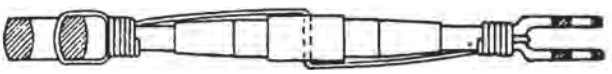
Another satisfactory double wrap method is similar to Method A. except that the spiraling of the wires is omitted as shown in figure (B).

(C) SINGLE WRAP (SPIRAL)



The single wrap methods described and illustrated are acceptable but are not the equal of the double wrap methods.
Pass a single length of wire through the cable eye or fork at either end of the turnbuckle assembly. Spiral each of the wire ends in opposite directions around the first half of the turnbuckle so as to cross each other twice. Thread both wire ends through the hole in the middle of the barrel so that the third crossing of the wire ends is in the hole. Again, spiral the two wire ends in opposite directions around the remaining half of the turnbuckle, crossing them twice. Then, pass one wire end through the cable eye or fork in the manner described above, wrap both wire ends around the shank for at least four turns each, cutting off excess wire.

(D) SINGLE WRAP



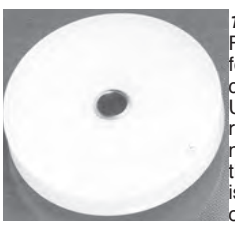
Pass one length of wire through the center hole of the turnbuckle and bend the wire ends toward opposite ends of the turnbuckle. Then pass each wire end through cable eye or fork and wrap each wire end around the shank for at least four times, cutting off excess wire. After safety, no more than 3 threads of the turnbuckle terminal should be exposed.

PULLEYS

PULLEYS

AN210A & AN210B (MS24566)
Anti-Friction Bearing Control Pulley with phenolic body and ball bearing with seal. The AN210A pulleys are dimensionally the same as the "B" pulleys but have metal-shielded bearings rather than removable composition-seal type bearings. The low allowable design load of the -3A and -3B pulleys-is based on cable fatigue. AN210-1A, AN210-3A, AN210-1B and AN210-3B shall not be installed on frequently used aircraft controls to bend the cable more than 15° from a straight line.
MS20220 (AN220) Flight Control Pulley with phenolic body and ball bearing with seal. Also available with aluminum body (MS20220A). The low allowable load limit of the -1 pulley is based on cable fatigue. When used on frequently used aircraft controls the cable wrap angle should not be more than 15° from a straight line.
MS20219 (AN219) Aircraft Secondary Control Pulley with phenolic body and ball bearing with seal. MS20219A (AN219A) Pulley with anodized aluminum body and ball bearing with seal. The aluminum body is recommended for -1 and -3 pulleys. The -1 pulley shall not be installed in flight control systems.
Examples of Part No.: Phenolic Body - MS20219-1
Aluminum Body - MS20219A1
NAS383 Series Pulley with phenolic body and graphite impregnated bronze sleeve. This is a low cost pulley widely used in aircraft, winches, cranes and remote mechanical actuation devices.
A-223 and A-224 Pulleys with plain phenolic bore are used as guide and secondary control pulleys in production aircraft.
BB-128-1 and BB-120-1 Pulleys have high pressure phenolic bodies and ball bearings with Teflon seals. Used in Christavia and many other aircraft.

SPECIAL PULLEYS



1-1/2 Inch Pulley
For smooth control operation. Manufactured for aircraft float rudder operation, the pulleys can be used in virtually any application. Solid UHMW plastic for use in tough, caustic environments. Bushing insert is stainless steel with minimum lubrication required. Used with 1/16" thru 1/8" - 7x7 or 7x19 control cable. Bushing is clamped in pulley bracket. Pulley rotates on bushing. Pulley: 1-1/2" dia. x .283" wide. Bushing: 1/4" O.D. x 3/16" I.D. x .328" long. Weight: .26 oz. (including stainless bushing). P/N 05-29725..... **$5.25 ea.**
2 Inch Pulley
Larger cables, bigger job? Wherever you need a tough, durable pulley, look no further.Replace your old worn out, sticky pulleys with NAP UHMW plastic for smooth control operation. Used with 3/32" thru 3/16" - 7x7 or 7x19 control cable. Bushing insert is stainless steel with minimum lubrication required. Bushing is clamped in pulley bracket. Pulley rotates on bushing. Fits DeHavilland Beaver floats Pulley: 2" dia. x .470" wide. Bushing: 5/16" O.D. x 1/4" I.D. x .487" long. Weight: .58 oz. (including stainless bushing). P/N 05-29730..... **$11.65 ea.**

MCS378 SERIES PULLEYS FOR CESSNAS

MCS378-1

MCS378-2

MCS378-3

MCS378-4

MCS378-5

Aircraft Spruce stocks all pulleys required for Cessna single engine aircraft. Our MCS378 series pulleys replace the AN, NAS and S378 series pulleys commonly used on the Cessna aircraft. Pulley kits are available that contain all of the pulleys and cotter pins required for one aircraft.
Approved Replacements for Cessna Pulleys -Cessna Model/Series

FEMALE THREAD - MS 21153																		
Precision series. Double row, ball, self-aligning. 10° permissible misalignment in either direction. These bearings are manufactured with an internal play of .0004 in. (.010mm) max. Inner and outer raceway surface finish = 8 micro in. AA max. Equipped with PTFE seals. Exposed surfaces except bore, cap, and seals arecadmium plated. Outer shank – 90,000 psi min. tensile strength. Prelubricated (refer to nomenclature page)

The maximum safe working load is that radial load to obtain 100,000 feet peripheral travel life.

ACS BEARING REGREASERS

The ACS bearing regreasers restore bearings, rod ends and pulleys to "like-new" condition. O-ring in base of regreaser provides positive seal when bearing is secured by the threaded center post. Grease, entering under pressure at the grease fitting, is forced to flow through the bearing, flushing out the old grease and dirt, and recharging the bearing with fresh grease. Anodized aluminum construction. Available in five sizes.

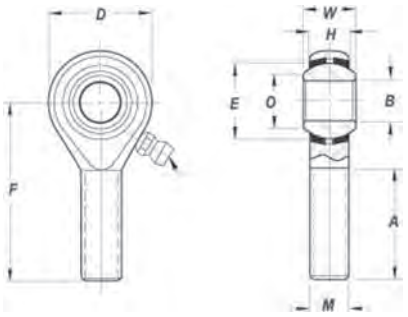
BEARINGS



HEIM ROD ENDS MALE THREADED
M AND HM SERIES

Rod Ends male threaded (HM M Series)
- Outer Member: Aircraft Quality Carbon Steel, Magnetic particle inspected, with protective coating for corrosion resistnce.
- Ball: 52100 Alloy Steel, heat treated, chrome plated.
- Inserts: Brass, 16 size has one piece carbon steel race.

Heim "M" and "MD" series bearings are now manufactured in magnafluxed version only. As old stock is depleted, magnafluxed equivalents will be furnished as substitutes at current (higher) prices unless otherwise requested on the order.

"L" in rod end number designates left hand thread. In this series, the "D" in rod end number (MD35 14) denotes drilled hole in the shank. Add suffix "G" to indicate lubricator is required. Example: HM-SG. Add suffix "FG" lo indicate flush type lubricator is required. Example: M34-14FG. Lubricator (G) (FG) available with minimum qty. required. Please Call for Pricing.

TRIANGLE MFG. BEARINGS

Manufactured by Triangle Mfg. Co., these bearings are spherical on the outside and are contained in a flanged, stamped metal cage, so they provide sliding, rotating, and pivoting motion. The bearings are available in nylon, bronze, or iron as shown in the table below. The FMN10 is used in the wing roots and on the torque tubes inside the fuselage of the Cozy Mark IV.

Part No.	I.D.	Bearing Material	Price Each	Part No.	I.D.	Bearing Material	Price Each
FMN4	1/4"	Nylon	**$1.26**	FM1508P	1/2"	Iron	**$1.10**
FMN5	5/16"	Nylon	**$1.60**	FM1408P	1/2"	Bronze	**$3.30**
FMN6	3/8"	Nylon	**$0.86**	FMN10	5/8"	Nylon	**$0.82**

ROD END MALE THREADED

HMX EXTRA CAPACITY SERIES

SPECIFICATIONS:

Outer Member: SAE 4130 steel heat treated to 175,000 PSI Cadium Plated.

Ball: SAE 52100 Steel, Heat Treated, Chrome Plated.

Inserts: Aluminum Bronze

"L" in rod end number designates left hand thread.
Add letter 'M' to dash number for magnafluxed rod ends.
This series is equipped with lubricators as shown.
Add suffix "FG" to indicate flush type lubricator is required.
Example: HMX-4FG. Additional costs will apply.
Note: See Pg 150 for Aurora Equivalents to Heim HM & HF Series.

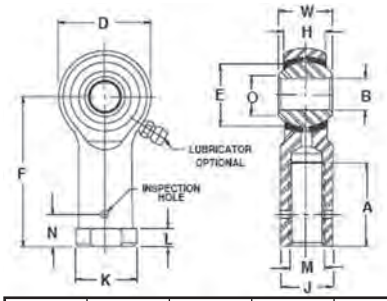
ROD ENDS FEMALE THREADED (F & HF SERIES)



SPECIFICATIONS:

Outer Member: Aircraft Quality Steel, Cadmium Plated.

Ball: SAE 52100 Steel.

Inserts: Naval Bronze

"L" in rod end number designates left hand thread. Add suffix "G" to indicate lubricator is required. Example: F35-14G. Add suffix "FG" lo indicate flush type lubricator is required. Example: HF-4FG. Add $3.00 to price for lubricator (G) (FG).

Note: Standard Bearings Furnished Without Inspection Hole. If Hole Needed, Add "M" to P/N & At Higher Cost.

SEALS-IT ROD END SEALS

Protect the spherical bearing of rod ends. This patented design features a neoprene rubber seal bonded directly to an aircraft quality washer. The seal encapsulates the bearing and flexes accordingly with any change in angularity. This provides unprecedented protection from dirt and other types of contamination which may severely shorten the life of these important components.

The rubber is engineered for wide range of temperature variation and is impervious to gasoline, oils, and most other common fluids. The steel washer is plated for protection from corrosion.

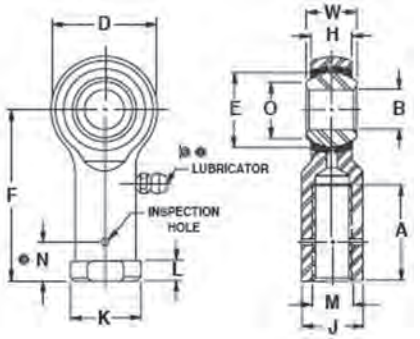
ROD ENDS FEMALE THREADED



HFX EXTRA CAPACITY SERIES

SPECIFICATIONS:
Outer Member: SAE 4130 steel heat treated to 175,000 PSI Cadium Plated.

Ball: SAE 52100 Steel, Heat Treated, Chrome Plated.
Inserts: Aluminum Bronze.
"L" in rod end number indicates left hand thread.
"G" in the rod end number indicates lubricator.
All rod ends in this series are magnafluxed, and are stamped with the letter "M".
This series is equipped with lubricators as shown.
Add suffix "FG" to indicate flush type lubricator is required. Example: HFX-4FG.

Lubricator (G) (FG) available with minimum qty. required. Please call for pricing.

AURORA BEARINGS

AURORA BEARINGS

In 1971 Aurora Bearing Company entered the rod end and spherical bearing market and soon became a major force in the rod end industry. Over the years, Aurora Bearing has retained its original business philosophy of furnishing a quality product at competitive prices and with service much faster than the competition. Aurora offers a complete line of standard and spherical bearings. In addition, special bearings can be designed and manufactured on request. Listed below are many of the most popular Heim bearing part numbers and the equivalent Aurora Bearing part number. On many of these items, the Aurora bearing offers substantial savings and faster delivery time. Unlisted Aurora bearings, quantity discounts and complete Aurora Bearing Company brochure available on request.

SPECIFICATIONS:

Body - Low carbon steel, cadmium or zinc plated at manufacturer's option, dichromate treated. No. 16 series standard body is 4130 steel, not heat treated.
Race - Low carbon steel, cadmium or zinc plated (manufacturer's option), chromate treated.
Ball - Allow steel, heat treated, hard chrome plated.

The above specifications apply to most but not all Aurora bearings.

Note: Bearings not furnished standard with grease fittings are available with grease fittings. Add suffix "Z" and $2.10 to price.
Note: There is a $25.00 certificate fee applied to any Aurora Bearing order under $250.00.

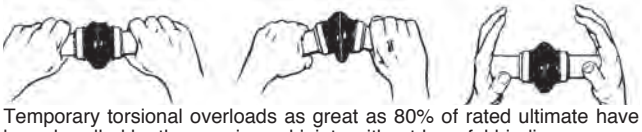
TORSIONAL OVERLOADS

AXIAL OVERLOADS



Temporary torsional overloads as great as 80% of rated ultimate have been handled by these universal joints without harmful binding.

Temporary axial overloads ranging up to 150% in excess of rated ultimates have been imposed without binding. These characteristics insure high safety factors under the most difficult operating conditions.

SINGLE-ROW TAPPERED ROLLER BEARINGS

The most basic and widely used tapered bearing, the single-row type consists of the cone assembly and the cup. It is usually fitted as one of an opposing pair. During equipment assembly, single-row bearings can be set to the required clearance (endplay) or preload condition to optimize performance. Single-row tapered roller bearings have positive roller alignment that ensures true rolling motion and generates a "seating force" that pushes the roller against the cone large rib. This seating force prevents the rollers from skewing off apex, thereby keeping them positively aligned and located against the cone large rib. P/N 05-29749.....$16.90

THROTTLES – CONTROLS

ACS CONTROLS

The ACS line of controls was manufactured by Aircraft Spruce and Specialty Company from 1980 to 1985. As of June, 1985 the controls have been manufactured by ACS Products Company in Lake Havasu City, Arizona. The manufacturing and inspection procedures have been approved by the FAA and original equipment manufacturers. The following engineering data will aid in properly identifying the control most suited to each individual requirement. Also shown are some available options for the controls such as plastic protective covering and steel sleeves for clamping the control to the aircraft structure. Made in the U.S.A.

The A-790-12 vernier mixture control and the A-800-12 friction-lock throttle control are approved for Cessna 172, 172A thru Q; Cessna 150, 150A thru M, A150K, A150L, A150M; Cessna 152, A152.

Other approvals pending. Order by Part Number and state Cessna model and serial number. A790-12 is 53" long. A800-12 length is based on serial number provided.

Length of exposed wire. **Recommended minimum bending radius for all controls is 5" (never less than 3")

AP

PLASTIC COVERING ON CONTROL CASING

All ACS controls can be supplied with a black Polyolefin (PO) protective cover. Price of the PO cover carries a base price of $3.00 plus the length of control in ft. multiplied by 1.50 for lengths to 10 ft. For lengths over 10 ft., use $3.00 base price plus $1.90/ft. for PO cover plus a 425 set-up fee. Example: Cost of PO cover on 5 ft. control is $3.00 plus 5 x 1.40 = $10.00. Cost of PO cover on 15 ft. control is $3.00 plus 15 x 1.90 - $31.50.

STEEL SLEEVES ON CONTROL CASING

Cadmium plated 2" long steel sleeves can be added to the casing to provide clamping points for securing the control to the aircraft structure. Specify sleeve location (measurement taken from under the panel nut to mid-point of sleeve). Sleeves are normally swaged to the casing but will be left unswaged when specified. Add $7.50 for installation of sleeves on A730 & A740 controls. **Price/Sleeve $4.00**

THREADED STEEL SLEEVES ON CONTROL CASING

Threaded steel sleeves ("bulkhead" fittings) can be added to the casing to provide secure clamping of the control where it passes through a bulkhead. The cadmium plated sleeves are 2" long, with 1-1/2" length of 7/16-20 threads. Specify sleeve location (measurement taken from under the panel nut to mid-point of sleeve). Sleeves are normally swaged to the casing but will be left unswaged when specified. Add $7.50 for installation of sleeves on A730 & A740 controls. **Price/Sleeve $6.00**

HOW TO ORDER CONTROLS

STOCK CONTROLS - All stock controls are identified by a part number as shown in the descriptions of the controls. To order a stock control, specify control type, knob color, length to nearest 1/8" (measured as described in text), and any added features such as PO cover on flexible casing or steel sleeves centered at specified distances from panel nut (lengths of stock controls are in whole-foot increments and only lengths listed are stocked). Include 7-digit part number as shown in text.

SPECIAL-LENGTH CONTROLS - If you require a special-length control, specify control type, knob color, length to nearest 1/8" and any added features such as PO cover, etc. Special-length controls carry a set-up charge in addition to the cost of the control (calculated as described in the texts).

CUSTOM CONTROLS - If you do not find the type of control you require in this catalog, send a detailed sketch with dimensions, or the old control as a sample, to Aircraft Spruce & Specialty Co., 225 Airport Circle, Corona, CA 92880-2527 (1-800-824-1930). Custom controls are priced like similar stock controls but with a $35 set-up and engineering charge added, plus costs for any special parts which must be fabricated for the control.

VERNIER CONTROLS

Vernier controls assure smooth operation - cannot creep. For coarse adjustment, depress center button and push or pull. For fine adjustment, turn knob. Smooth acting at all temperatures. Casing is made of tightly wound galvanized steel wire Inner shaft is stainless steel cable (Models A-750 and A-970) or stainless steel wire (Model A-790). Low-friction operation is provided by an internal extruded Teflon liner. Controls have 1-1/4" dia. plastic knob with 3/4" dia. aluminum release button. A protective black PVC cover is available as an option on controls. Choice of knob color - black, red or blue (FAA Color Code: Black - Throttle, Red - Mixture, Blue - Prop), and knob design (see below).

Throttle Control (Black) (FAA Color) Or White

Mixture Control (Red)

Prop Control (Blue)

The FAA has recently adopted a standard configuration for cockpit control knobs in production aircraft type-certificated after August 11, 1986. The red mixture knob is to have six raised ridges whereas the blue prop control is to have the opposite profile with six grooves. The black throttle control knob is to have a smooth profile. The different knob contours assure positive identification by touch.

Aircraft Spruce is proud to offer the ACS line of vernier controls with the new style FAA knobs at no extra charge. The throttles will be furnished with the smooth black knob, the mixture controls with the contoured red knob and the prop controls with the contoured blue knob. Look to Aircraft Spruce & Specialty Company for a complete selection of original installation or replacement controls at tremendous savings.

REPLACEMENT PARTS FOR ACS CONTROLS

ACS large Control Cable Grommet made of black synthetic rubber. P/N 05-02633.....**$2.95**

ACS Rubber Grommets N-549-A (Small)
P/N 05-02634.....**$2.95**

ACS Large Black Knob A-663-A for the A-800 controls.
05-03416.....**$4.85**

Replacement ball bearings for A790 Controls
P/N 05-07700 .....**$2.00**

Replacement ball bearings for A700/A-1840 Controls
P/N 05-02618 .....**$2.00**

NOTE: The Grommets (rubber boots) fit all ACS 10-32 threaded end controls, such as: A-750, A-800, A-770, A-1860, A-920, A-1550, A-1750, A-950, and A-1760.

THROTTLES – CONTROLS

A-750 VERNIER CONTROL
(10-32 THREADED END)

The A-750 vernier control has 10-32 threaded shaft for use with ball point or threaded terminal. Unique ball-socket construction permits the threaded end to swivel 8° in any direction. Casing has Teflon inner liner for low friction and heat resistance in high-temperature areas such as engine compartments. Features stainless steel end fittings, swivel, and end rod. Furnished with FAA-style knobs (Black, Red & Blue). Travel: 3-3/8". Wt. 1 lb. (4'). Stocked in the following lengths (measurement taken from under panel nut to end of threaded shaft with knob pushed in). Order by Part No.

Knob Color	Length 3 Ft.	4 Ft.	5 Ft.	6 Ft.	7 Ft.	8 Ft.
Black	05-07736	05-07748	05-07760	05-07772	05-07784	05-07796
Red	05-07836	05-07848	05-07860	05-07872	05-07884	05-07896
Blue	05-07936	05-07948	05-07960	05-07972	05-07984	05-07996
Price	**$73.75**	**$74.75**	**$76.00**	**$77.50**	**$79.25**	**$80.75**

SPECIAL LENGTH CONTROLS **-** Use price of next longest control in chart (by foot) plus $20.00 set-up charge for controls under 10 feet, $40.00 for controls 10 feet and over. For controls longer than shown in chart, also add $1.45 per foot for each foot over the longest length. Measure length from under panel nut to end of control with knob pushed in. Allow 2-3 weeks for special length controls.

Glasair Prop Control A-750 Blue 80" long ..... P/N 05-07980 ..... **$88.65**

3/4 - 16 UNF-2A THD.

A-790 VERNIER CONTROL
(SOLID-WIRE END)

The A-790 vernier control has a .078" dia. stainless steel wire core. Both the wire and Teflon lined flexible casing may be shortened as required. The Teflon liner provides low friction with heat resistance in high temperature areas such as engine compartments. Furnished with FAA-style knobs (Black, Red & Blue). Max. travel: 3-3/8". Stocked in the following lengths (measurement taken from under the panel nut to end of wire with knob pushed in). Order by Part Number.

Knob Color	Length 3 Ft.	4 Ft.	5 Ft.	6 Ft.	7 Ft.	8 Ft.
Black	05-08036	05-08048	05-08060	05-08072	05-08084	05-08096
Red	05-08136	05-08148	05-08160	05-08172	05-08184	05-08196
Blue	05-08236	05-08248	05-08260	05-08272	05-08284	05-08296
Price	**$64.50**	**$65.25**	**$66.75**	**$68.50**	**$69.75**	**$71.50**

SPECIAL LENGTH CONTROLS **-** Use price of next longest control in chart (by foot) plus $20.00 set-up charge for controls under 10 feet, $40.00 for controls 10 feet and over. For controls longer than shown in chart, also add $1.45 per foot for each foot over the longest length. Measure length from under panel nut to end of control with knob pushed in. Allow 2-3 weeks for special length controls.

Replacement Ball Bearing for A-790 Controls ..... P/N 05-07700 ..... **$2.00**

A-970 VERNIER CONTROL
(1/4-28 THREADED END)

The A-970 vernier control is similar to the Model A-750 described above but with 1/4-28 threaded end (non-swiveling). Casing has Teflon inner liner for low friction and heat resistance in high-temperature areas such as engine compartments. Features stainless steel end fittings, swivel, and end rod. Furnished with FAA-style knobs (Black, Red & Blue). Travel: 3-3/8". Stocked in following lengths (measurement taken from under panel nut to end of threaded shaft with knob pushed in). Order by Part Number.

Knob Color	Length 3 Ft.	4 Ft.	5 Ft.	6 Ft.	7 Ft.	8 Ft.
Black	05-08336	05-08348	05-08360	05-08372	05-08384	05-08396
Red	05-08436	05-08448	05-08460	05-08472	05-08484	05-08496
Blue	05-08536	05-08548	05-08560	05-08572	05-08584	05-08596
Price	**$74.25**	**$75.75**	**$77.50**	**$78.75**	**$79.80**	**$81.50**

SPECIAL LENGTH CONTROLS **-** Use price of next longest control in chart (by foot) plus $20.00 set-up charge for controls under 10 feet, $40.00 for controls 10 feet and over. For controls longer than shown in chart, also add $1.45 per foot for each foot over the longest length. Measure length from under panel nut to end of control with knob pushed in. Allow 2-3 weeks for special length controls.

1/2 - 20 UNF-2A THD.

A-800 FRICTION LOCK CONTROL
(10-32 THREADED END)

The A-800 friction lock control provides positive locking at any power setting by turning the chrome collet locking nut. Unique ball-socket construction permits 10-32 threaded end to swivel 8° in any direction. Casing has Teflon liner for low friction and heat resistance in high-temperature areas such as engine compartments. Travel: 3-3/8". The 1-1/4" dia. solid knob is available in black or blue (blue knob has smooth profile, not FAA style). Stocked in following lengths (measurement taken from under panel nut to end of threaded shaft with knob pushed in). Order by Part No.

Knob Color	Length 3 Ft.	4 Ft.	5 Ft.	6 Ft.	7 Ft.	8 Ft.
Black	05-08636	05-08648	05-08660	05-08672	05-08684	05-08696
Blue	05-08836	05-08848	05-08860	05-08872	05-08884	05-08896
Price	**$67.50**	**$68.90**	**$69.95**	**$72.25**	**$72.75**	**$74.75**

SPECIAL LENGTH CONTROLS **-** Use price of next longest control in chart (by foot) plus $20.00 set-up charge for controls under 10 feet, $40.00 for controls 10 feet and over. For controls longer than shown in chart, also add $1.45 per foot for each foot over the longest length. Measure length from under panel nut to end of control with knob pushed in. Allow 2-3 weeks for special length controls.

A-800 VANS CONTROL CABLE FOR RV AIRCRAFT

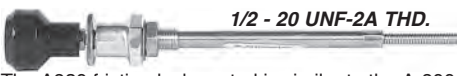
Specify knob color (black, blue, red), overall length of control (from under panel nut to end of control) and stroke (2-1/4", 2-1/2"). For controls over 72" long, add $1.50 per foot. For custom stroke (2-3/8", 2-3/4", 3-1/2") add $45 to cost of control. P/N 05-01436 ..... **$159.95**

A-810 FRICTION LOCK CONTROL
(1/4-28 THREADED END)

The A-810 friction lock control is similar to the A-800 control but with 1/4-28 threaded end (non-swiveling). With Teflon liner. Travel: 3-3/8". Knob styles and length measurement same as for A-800. Stocked in the following lengths. Order by Part Number.

Knob Color	Length 3 Ft.	4 Ft.	5 Ft.	6 Ft.	7 Ft.	8 Ft.
Black	05-09236	05-09248	05-09260	05-09272	05-09284	05-09296
Blue	05-09336	05-09348	05-09360	05-09372	05-09384	05-09396
Price	**$68.50**	**$69.85**	**$71.75**	**$63.00**	**$73.75**	**$75.50**

SPECIAL LENGTH CONTROLS **-** Use price of next longest control in chart (by foot) plus $20.00 set-up charge for controls under 10 feet, $40.00 for controls 10 feet and over. For controls longer than shown in chart, also add $1.45 per foot for each foot over the longest length. Measure length from under panel nut to end of control with knob pushed in. Allow 2-3 weeks for special length controls.



1/2 - 20 UNF-2A THD.

A-820 FRICTION LOCK CONTROL
(SOLID-WIRE END)

The A820 friction lock control is similar to the A-800 control but with a solid wire end like the A-790 control above. With Teflon liner. Travel: 3-3/8". Knob styles and measurements same as for A-800.

Knob Color	Length 3 Ft.	4 Ft.	5 Ft.	6 Ft.	7 Ft.	8 Ft.
Black	05-09436	05-09448	05-09460	05-09472	05-09484	05-09496
Blue	05-09536	05-09548	05-09560	05-09572	05-09584	05-09596
Price	**$67.75**	**$58.95**	**$61.75**	**$62.50**	**$64.25**	**$65.50**

SPECIAL LENGTH CONTROLS **-** Use price of next longest control in chart (by foot) plus $20.00 set-up charge for controls under 10 feet, $40.00 for controls 10 feet and over. For controls longer than shown in chart, also add $1.45 per foot for each foot over the longest length. Measure length from under panel nut to end of control with knob pushed in. Allow 2-3 weeks for special length controls.

FAA APPROVED A-790 & A-800 CONTROLS

The A-790-12 vernier mixture control amd the A-800-12 friction lock throttle control are approved for Cessna 172, 172A thru Q; Cessna 150, 150A thru M, A150K, A150L, A150M; Cessna 152, A152. Other approvals pending. Order by part number and state Cessna model and serial number. A790-12 is 53" long. A800-12 length is based on serial number provided. Note: For special length contros over 25ft. long, add extra $15.00 to the set-up fee.

P/N A-790-12 ..... **$142.95** P/N A-800-12 ..... **$141.95**

All ACS Products Controls are made in the U.S.A

A-700 BUTTON LOCK DASH CONTROL
(7/16-20 UNF-2A THREADS / SOLID WIRE END)

Provides a 10-lb. locking force for light and medium service applications. Black or Red anodized aluminum knob with aluminum release button. Has .062" dia. stainless steel wire core in flexible metal casing. May be shortened as req. Max. travel 3-1/2". Order by Part No.

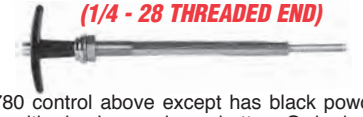
EXTENSIONS FOR THREADED CONTROLS

Use these stainless steel extensions for moderate length adjustments to stock length controls. Stocked with 1 male & 1 female threaded end. The extensions provide the required increase in control length when threaded approximately half way onto the control. Furnished in 2", 3", 4", 5" and 6" lengths. All extensions have 10-32 threads. To order, add -2, -3, -4, or -5 to Dash number for length. P/N 10376..... **$12.65/ea**

All ACS Products Controls are made in the U.S.A

A-1870 T-HANDLE BUTTON LOCK DASH CONTROL
(1/4 - 28 THREADED END)



Same as A-780 control above except has black powder-coated aluminum T-handle with aluminum release button. Order by part number.

Knob Color	Length			
	6 Ft.	7 Ft.	8 Ft.	10 Ft.

Price	**$78.50**	**$79.90**	**$70.65**	**$66.00**	**$84.50**	**$68.50**

SPECIAL LENGTH CONTROLS – Use price of 10 ft. control plus $1.45 per ft. or fraction of a foot, plus $20.00 set-up charge for controls up to 10 feet, $40.00 for controls over 10 feet. Allow 2 - 3 weeks.

CONTROLS WITH COILED WIRE END – Add $7.50 to cost. To order, add "C" to part number. Controls with coiled end have only 3" stroke rather than 3-1/2" on standard end controls.

All ACS Products Controls are made in the U.S.A

A-950 PUSH-PULL CONTROL
(10-32 THREADS / SOLID WIRE END)

Same as A-920 control except one end is .078" dia. stainless steel wire. Special-length controls not required as the wire end can be cut off to desired length. Order by Part No.

A1600 SERIES
POSITIVE LOCK CONTROLS – SINGLE END

These positive-locking controls are available with white, black, or blue knob or T-handle style in black or aluminum. Complete part number with -W for white, -B for black knob, -BU for blue knob, -TB for t-handle black or -TA for T-handle aluminum. Special length controls are available at price for next longer control + $1.45 per foot + $20 set-up charge for controls up to 10 feet, $40.00 for controls over 10 feet.

A-1760 VANS RV CUSTOM CONTROL CABLE

Specify knob color (black, blue, red), overall length of control (from under panel nut to end of control) and stroke (2-1/4", 2-1/2"). For controls over 72" long, add $1.50 per foot. For custom stroke (2-3/8", 2-3/4", 3-1/2") add $45 to cost of control. P/N 05-01435 .....**$159.95**

THROTTLES – CONTROL ATTACHMENTS

FRICTION THROTTLE

Adjustable friction throttles with same construction as the ACS A-800 friction throttle but with a large (2" dia.) black solid plastic knob. Has 3/16" dia. 10-32 threaded end with 8° swivel. Stocked in the following lengths (measurement taken from under panel nut to end of threaded shaft with knob pushed in). Order by Part No. Made in the U.S.A.

Length	Part No.	Price	Length	Part No.	Price
3 Ft.	05-13700	**$74.50**	5 Ft.	05-13900	**$76.50**

SPECIAL LENGTH CONTROLS - Use price of next longest stock length above plus $20 set-up charge. For lengths over 6 ft. also add $1.45 per foot. Allow 2-3 weeks. ***THROTTLE KNOB -*** Black solid plastic knob, 2" dia., with 1/4-28 internal threads. P/N05-29100 .....**$4.50**

BUTTON TYPE DASH CONTROL

Button Type Dash Control designed for use with many control system applications. Easily installed. Operates smoothly. All adjustable parts are metal. 7/8" Dural button on 3/16" diameter shaft. Maximum travel is 2". Furnished in 5 ft. and 8 ft. length. May be shortened. Order Inserts separately. 5 Ft. Dash Control .....P/N 05-14200 .....**$16.50**
8 Ft. Dash Control .....P/N 05-14300 .....**$20.40**

INSERTS ONLY - Round pressure-sensitive labels, 3/4" dia. White lettering on black background. Order by part number. Basic P/N is 05-144. Last two digits of P/N are as shown in above illustration. Example: 05-14460 is "Starter".....**$0.55 Ea**

MCFARLANE MC6160 UNIVERSAL PUSH TO UNLOCK CONTROL

Perfect for Alt Air and Carb Heat controls for the experimental/homebuilt market. Knobs can be engraved for $25.00 per knob. Custom laser marking of the knobs is available for $25.00 per knob. Receive a $15.00 discount for each additional knob with the same design.

ATTACHING HARDWARE FOR CONTROLS

WIRE GRIP - Is a unique fitting which securely attaches to solid wire end push-pull cables. Uses a "pin vice" gripping action to attach a cable. The 5/8" long 10-32 threaded end will attach a clevis, ball joint, or other hardware for use with mixture controls, carb heat box, cabin air, or other applications, resulting in a clean, professional installation.
For .050 - .060 dia cables .....P/N 05-16000 .....**$12.65**
For .078 dia cables .....P/N 05-16001 .....**$11.85**
(Use P/N 05-16001 on A790 ACS controls)

AN486 TERMINALS - With 1/4-28 female threads. Fork hole dia. 3/16". AN486-3P has 17/64" fork opening. AN486-4P has 9/64" fork opening. .....P/N AN486-3P **$16.90**
P/N AN486-4P.....**$16.90**

AN665-21R TERMINAL - Has 10-32 threads and 3/16" dia. fork hole. Furnished with clevis pin, cotter pin and locknut.
P/N 05-02500..... **$11.90**

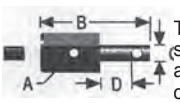
BOLT TYPE TERMINAL - Special 3/16" dia. bolt with drilled shank. With hex nuts and washers. Use instead of "bug" nut. .....P/N 05-16100 .....**$0.44**

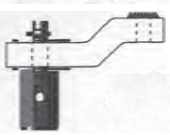
CONTROL HOUSING CLAMPS - AN742 plain loop type clamps to secure housing of throttles, dash controls, Bowden cable, etc. to airframe.
AN742-D3 for 3/16" O.D **$0.22**
AN742-D4 for 1/4" O.D **$0.20**

SLOTTED BRACKET CONTROL MOUNT- Notch of end fitting locks into slot of bracket to secure control. Steel Construction. P/N 10465 .....**$19.50**

CLAMP STYLE CONTROL MOUNT - Protruding "finger" in clamp holds control in position. Two-piece steel clamp and base.
P/N 10464..... **$11.65**

CABLE END "B" NUT





This universal NAP assembly will eliminate bent or smashed push-pull cable ends and get a strong hold at the same time. The cable end lays in a machined channel at the bottom of the screw hole. Tightening the compression screw snugs down on the cable end thus eliminating any potential crimping or smashing of the cable. Eliminates wear, possible cable breakage and enhances smooth push-pull operation. Complete with washers and cotter pin. All stainless steel, computer machined and easy to install.

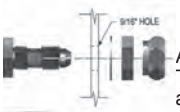
CABLE SAFE



A Safe "No-Slip-Grip" for your thru bulkhead cables. This unit prevents your throttle, mixture, choke or any push-pull cable from slipping at the firewall/ bulkhead location. Machined from lightweight aluminum, and final blue anodizing. Installation is simple with a drill and wrench. Once installed, the cable is threaded and the end nut is snugged down on the cable casing for positive encapsulation. Designed specifically for the aircraft industry, these fittings can be installed on virtually any application that requires a solid hold on any cable assembly with a rigid outer case. Thousands of applications: auto, boat, race car, motorhome. Used with 1/4" thru 7/32" diameter cable.

Cable Safe, Wt.: .84 oz..... P/N 05-16250...**$9.85/ea.**
DISCOUNT: LESS 20% ON 25 OR MORE.

CABLE SAFE II - This Fitting is designed for use on coaxial type control cables. It has a two piece design to allow it to be placed over the cable inserted thru the firewall & tightened down, providing a positive lock.
For 1/4" cable housing ..... P/N 05-16252 ..... **$17.95/ea.**
For 3/8" cable housings..... P/N 05-16253 ..... **$18.95/ea.**

ADAPTOR - For the cable safe to adapt down to 3/16" diameter cable housings. ..... P/N 05-16251 .....**$3.20/ea.**

BOWDEN CABLE (SOLID WIRE ENDS)

Spiral-wound galvanized wire casing. Use for push-pull controls of any length. Inside cable dia. .078. Outside casing diameter 7/32".
P/N 05-15500.....**$2.40/ Ft.**

BOWDEN CABLE CLAMP

Designed to provide a simple method of anchoring a typical wire wound cable. Used in anchor hole of 7/16" diameter.
For 3/16" Bowden Cable ..... P/N 05-15705.....**$12.95/ea.**
For 7/32" Bowden Cable ..... P/N 05-03287.....**$12.95/ea.**

AP

THROTTLE QUADRANTS

THROTTLE QUADRANTS FOR RV'S

These quadrants are made from aircraft quality anodized aluminum for long life and corrosion resistance brass friction plates are adjustable to fit individual preferences. Black anodized top plates are machined and engraved on a CNC mill to exacting tolerances for an excellent finish. side plates are laser cut insuring a perfect fit and feel. All hardware used meets AN standards. Note: All throttle qaudrants require a AN665-21R clevis with an AN393-11 clevis pin.
The side mount style quadrants are intended for use in tandem airplanes such as the RV4, RV8, Sterdusters, Baby Great Lakes, One Design, Acro Sport & Sonerai. Center mount style is intended for use in side-by-side aircraft such as RV's, Sonex, Thorp T18 & Pulsars.

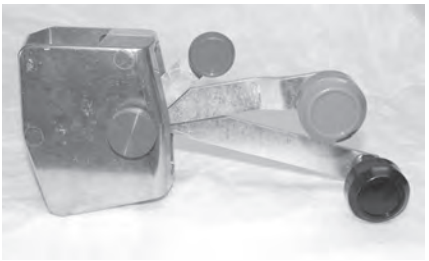
RV8 REAR QUADRANT
A single lever rear quadrant with an engraved top plate and a short handle for better clearance. 8" x 5-1/4" x 2"
P/N 05-04531 ..... **$108.75**

ACS THROTTLE QUADRANTS



Available in two lever designs. The 2-lever control has black plastic "Throttle" knob and red "Mixture" knob. The 3-lever control has blue "Prop" knob in addition to the throttle and mixture knobs. Built-in friction lock. Levers have 2-1/2" travel. Quadrants fit on left or right side of cockpit and can be used in tandem. Complete with aluminized Mylar knob inserts. Ends of throttle and prop levers have 3/16" dia. holes for attachment of push-pull controls with clevis terminals. End of mixture lever has .076" dia. hole to accept solid wire control such as Bowden cable. Made in the U.S.A.
Two-Lever Quadrant ..... P/N 05-00960..... **$39.85**
Three-Lever Quadrant (pictured)..... P/N 05-00961..... **$51.75**

CENTER CONSOLE TURBINE 4 LEVER QUADRANT

Three main levers are chromed with anodized black "Throttle" knob, blue "Prop" knob and red "Fuel" knob. Also, equipped with red "Emergency FCU" override knob with "Safety pin". Throttle and Fuel levers are designed with Beta stop. These 2 levers pull out and down for fuel idle and fuel cut off. Both of these levers are designed with Beta adjustable CAM Follower bearing movements. Stroke for Throttle, Prop and Fuel is 3-3/8" with 10-32 Rod Ends, Stroke for Emergency FCU override is 2-5/8", All 4 Levers are set up for A-950 push – pull control with 10-32 threads. Throttle, Prop, and Fuel have front facing independent friction locking knobs. Not FAA Approved and for Experimental Use Only.
P/N 05-03363 ..... **$2,654.00**

ANDAIR THROTTLE QUADRANTS

The Andair Throttle Quadrant has primarily been designed for the RV range of aircraft. Over several years of flying the RV6, Andair has designed some unique features that give this quadrant it's great looks and a solid feel. The handle of the throttle lever is angled to give the best ergonomic position and grip for the right hand, which will fall naturally to take up this position. On top of the handle is the optional flap control switch. This is a key safety feature which allows the pilot to deploy the flaps without taking his or her hand off of the throttle. This give much greater control on approaches and go arounds. The flap control switch consists of two color coded push to make buttons, one for flaps down and one for flaps up.
Each lever has a small ball race at the lower end and is guided by Teflon® pads at the top to give a feel that is both smooth and accurate. Along the base is a friction nut that can be used to lock all three levers, although this can be overridden with a gentle pressure.
The mixture lever has a detent arrangement to positively hold it in the 'cutoff' position.

Model	Quadrant Includes	Part No.	Price
TQX1	Flap Switches, Propeller Lever, Mixture Lever	05-04481	**$452.95**
TQX2	Propeller Lever, Mixture Lever	05-04482	**$415.95**

THROTTLE QUADRANTS – CONTROL WHEELS

HOMEBUILDERS THROTTLE QUADRANTS

These quality quadrants have been in use in a wide variety of experimental and ultralight aircraft for over 25 years. Designed and manufactured to provide years of dependable, precise performance.

Model #1 – This external reversing hook-up quadrant can be used in tandem for dual control. Available with 1, 2, or 3 lever. Weight: 10 oz. Body size: 3.5" x 4".

Single lever quadrant ..... P/N 05-15905 ..... **$52.50**
Two Lever Quadrant..... P/N 05-15910 ..... **$54.75**
Three Lever Quadrant ..... P/N 05-15915 ..... **$63.25**

Add -F to P/N and $10 to price for adjustable friction.

Model #2 – This internal non-reversing hook up quadrant is often used on RV-4 and similar homebuilt aircraft. Available in 1, 2, or 3 lever models. Weight: 12 oz. Body Size: 3.5" x 4".

Single lever Quadrant ..... P/N 05-15920 ..... **$51.00**
Two Lever Quadrant ..... P/N 05-15925 ..... **$59.75**
Three Lever Quadrant ..... P/N 05-15930 ..... **$68.75**

Add -F to P/N and $10 to price for adjustable friction.

Model #3 – This internal reversing hook up quadrant is ideal for a variety of different aircraft models. Available with 1, 2, or 3 lever. Weight: 10 oz. Body size: 3.5" x 4".

Single lever Quadrant ..... P/N 05-15935 ..... **$54.95**
Two Lever Quadrant ..... P/N 05-15940 ..... **$59.25**
Three Lever Quadrant ..... P/N 05-15945 ..... **$68.75**

Add -F to P/N and $10 to price for adjustable friction.

Model #4 – This popular quadrant was specifically designed for use on RV-3 and RV-4 aircraft and is also applicable to many other homebuilt aircraft. Furnished in two lever model only and furnished with adjustable friction. Weight: 12 oz. Body size: 3.5" x 4".

Two lever Quadrant ..... P/N 05-15950 ..... **$67.75**

Model #5 – Panel mount quadrant can be an internal reversing or internal non-reversing. Available in S-series only. One, two or three levers. Friction or non-friction. Panel Mount Reversing listed below

Single lever Quadrant ..... P/N 05-02436 ..... **$54.00**
Two Lever Quadrant ..... P/N 05-02437 ..... **$85.70**
Three Lever Quadrant ..... P/N 05-02438 ..... **$68.50**

Model #6 – Twin-engine model: Non-reversing internal or reversing internal unit with a four-arm configuration. L-series only. Friction or non-friction. Twin Engine Reversing Internal listed below.

Four lever Quadrant ..... P/N 05-02364 .. **$81.75**
Four lever Quadrant w/ Friction.. P/N 05-02365 .. **$92.50**

T-BAR HANDLE FOR QUADRANTS

This handle is 3-1/2" long and 1-1/4" round and fits all of the Homebuilders Quadrants above. The arm slot is offset to one side. It is molded urethane and is very durable. Add -1 or -1F (as applicable) to the Part No. and $25.00 to the price (example: 05-15925-1)

ACS CONTROL WHEEL A-1310

Designed to be more user friendly than standard control wheels. Mounting position can be raised or lowered one inch by rotating the mounting flange. All parts machined from 6061-T6 billet. The A-1310 Control has cavities for wiring, but does not come prewired or with a mic switch. They can be ordered with a hole drilled for the mic or can be drilled later. Wt: 26 oz. Mounting flange hole sizes: 3/4" or 7/8".

Special smaller hole sizes: Add 10.00

3/4" Black Anodized ..... P/N 05-02248 ..... **$97.75**
3/4" Bare Aluminum..... P/N 05-02279 ..... **$96.25**
7/8" Black Anodized ..... P/N 05-02282 ..... **$96.50**
7/8" Bare Aluminum..... P/N 05-02284 ..... **$97.00**

BEECH BONANZA/BARON CONTROL WHEELS

These control wheels are identical in design to the new Beechcraft large ram's horn style wheels. They are powder coated with a highly durable material in the same color as current Raytheon control wheels. Peeling or yellowing that occurs on older Beech wheels has been eliminated by the powder coating process. This control wheel is a direct replacement for the Beech/Raytheon 60-524080-13, 14 (for F33A, F33C, V35B, A36, and B36TC) and , -17 (for F33A, F33C, A36, B36TC, and 58) control wheels. Can be installed on many other aircraft using FAA form 337 for field approval. FAA Form 8130-3. Hand crafted black leather wrapping is available for these control wheels. Each wheel is individually hand laced and custom fitted to the wheel. We can also hand wrap your existing Beech control wheel in leather. Send your control wheel to Aircraft Spruce in Corona, CA and allow 3 weeks for delivery. An installation kit is required for each control wheel, which includes two thumb plates, a blank face plate, and mounting hardware. A Davtron MB800 digital chronometer installed in the faceplate of the control wheel is also available.

The Basic Control Wheel (P/N 05-00545) now includes a white installation kit. If the black powder-coating option for this installation kit is desired it is an additional $50.00

Description	Part No.	Price
Basic Control Wheel & White Install Kit	05-00545	**$638.00**
Chronometer with custom faceplate	05-00549	**$328.95**

HOMEBUILDERS CONTROL WHEELS

New lightweight, low cost wheel designed with the homebuilder in mind. Approximately same dimensions as above ACS control wheel but weighs only 15 oz. made of cast magnesium. Coated with light gray epoxy paint which can be used as finished or repainted if preferred. Drill blank mounting post as required..... P/N 246-9 ..... **$187.95ea**

CONTROL YOKE UPGRADES

Grips

Center Cushion

Now flaking & peeling finish on worn control yokes can be remedied cost effectively by these pilot-installable, semi-flexible, molded grips which are available with push-to-talk button built-into the top of the yoke (not the side). The Model SX-100 grips (pilot & copilot set) and optional, built-in, Model SX-101 plug-in push-to-talk button simply slip-over the thin, "ram's horn" control yokes of Cessna 150, 152, 172, 177, Grumman-American AA-1, AA-5 and early Mooney aircraft. Their thick, padded feel and built-in push-to-talk button add comfort, convenience & value to vintage airplanes. The top-mounted, low profile, miniature push-to-talk button supplied completely wired with plug, jack and coiled cord, is less likely to be pressed by accident, get in the way or slip out of position than bulky, side-strapped, units. Complete your updated yoke configuration with a pair of new model SX-110 center cushions, richly finished in black. Cushions fit neatly over centers of any control yokes.

Description	Application	Part No.	Price
SX-100 Grips without Push-to-Talk switch (4ea)	Small Cessna Ram Horn - C150, C172, C177, prior to 1973	05-16600	**$52.95**
SX-101 Grips (set of 4) with Push-to-Talk switch (left side)	Cessna 150, 152, 172, 177, Grumman-American AA-1, AA-5, Pre 1964 Mooney Aircraft	05-16630	**$88.50**
SX-101 Grips (set of 4) with 2 Push-to-Talk switch (left & right)	Cessna 150, 152, 172, 177, Grumman-American AA-1, AA-5, Pre 1964 Mooney Aircraft	05-16635	**$122.80**
SX-110 center cushion Set (Black)	Small Cessna Ram Horn - C150, C172, C177, prior to 1973	05-16610	**$58.50**

AP

BEECHCRAFT ACCESSORIES

Designed & built by real-world pilots, manufactured to the highest standards. These products are built for those incomparable Beechcraft. Years of experience and the highest quality materials and construction result in the best products available for Bonanzas & Barons. All have FAA STC/PMA as applicable.

BONANZA/BARON CONTROL YOKE LOCK

Protect your investment with this heat treated lock. It installs quickly and simply (no modification is needed) but cannot be removed without being unlocked. It is a permanent, direct replacement for the original equipment. Complete with the highest quality lock, instructions, and all hardware. P/N 05-00649 ..... **$346.95**

Optional clipboard for clearances or notes makes a stable flight center. Spring-loaded, it snaps out of the way in seconds.

Standard.....P/N 05-00650 ..... **$145.95**
Deluxe (with Quick Release).....P/N 05-01335 ..... **$202.95**

BEECH THROTTLE, MIXTURE, PROP KNOB SET

These high-strength knobs for Bonanzas are a big improvement over old, cracked original equipment and likely the best replacement knobs on the market. Bright color-coded space-age material will not crack or fade and will not get hot like aluminum knobs. P/N 05-00652 ..... **$207.95**

Push buttons only, with new screws P/N 05-00653 ..... **$92.50**

WINDOW VENT HINGE & LATCH KIT

For new windows only on Mooney, Piper, Socata, Commander.
P/N 05-01336 ..... **$150.95**

BEECH STORM WINDOW HINGE/LATCH KIT

Every Bonanza or Baron pilot will appreciate the quality workmanship in every one of these storm window hinge/latch kits. Professional construction means they work smoothly, and they fit standard factory window holes with no modifications.

Complete hinge/latch kit..... P/N 05-00654 ... **$219.95**
Latch & Stiker only ..... P/N 05-00655 ... **$119.75**
Hinges Only..... P/N 05-00656 ... **$110.95**

BONANZA NOSE GEAR BRACE

These PMA approved replacements for the Nose Gear Brace are used in early Bonanzas. Most of these aircraft have severely corroded nose gear braces as a result of lightening holes that allow moisture to enter and collect in the bottom of the housing. Even dry country aircraft are found to have corrosion. This is because many of these aircraft have been repainted and paint remover has entered the housing and is reactivated when water enters the housing during aircraft washing. Applicability: Model 35 D-1 thru D6561 Model 33 CD-1 thru CD-370 Old unit (core) must be returned. FEATURES: FAA/PMA Approved direct replacement part. • One piece aluminum stronter than OEM part. • Durable corrosion resistant white powder coated finish. • Weight increase of 4.56 lbs. beneficial for aft CG aircraft. • Completely improved design eliminates potential for any corrosion. • Upper and lower bronze bushings included. • Grease fittings included. ..... P/N 05-02463 ..... **$3,895.00**

BEECHCRAFT BONANZA INTAKE DUCT

Beechcraft (Raytheon) Bonanza Intake Duct fits all 1964 on up:
I0520 / TSI0520 & I0550 Beech
Models: S35-V35-V35A-V35B-V35TC
C33A, F33A, A36, A36TC, B36TC
3 ply with Nomex reinforcement. Includes Clamps. Available in Gloss Black, Gloss Red, Gloss Blue, and Matte Black.

Gloss Black.....P/N 05-06562 ..... **$74.50**
Gloss Red.....P/N 05-06564 ..... **$74.50**
Gloss Blue .....P/N 05-06565 ..... **$74.50**
Matte Black.....P/N 05-06563 ..... **$74.50**

TOW PIN FOR BEECHCRAFT FAA/PMA APPROVED

Installation Eligibility:
Debonair: 35-A33, 35-B33, 35-33, E33, F33
Bonanza: G33, 35-C33A, E33A, F33A, F33C, N35, P35, S35, V35, V35A, V35B, 36, A36, A36TC, B36TC
Baron: 20-21-3 95-55, 95-55, 95-B55, 59-C55, D55, E55, 58, 56TC, A56TC, 58TC, 58P
RAPCO Tow Pin..... P/N 05-01625..... **$22.90**

TRIKESLIDE DUAL THROTTLE/CHOKE CONTROL

The DCT-01 has adjustable holding friction, that will keep the pull rod at the last set position. The DCT-01 has dual cable adjusters to syncronize the choke/throttle levers. The DCT-01 can be held to the airframe with the supplied clamp, or it can be bolted to the instrument panel.
P/N 05-02492..... **$69.95**

TRIKSLIDE DUAL THROTTLE MIXER

Trikslide is a dual throttle input-mixer/slider designed especially for trikes and ultralight aircraft. Trikslide eliminates the interaction between two throttle cables. It will mount on any round or square structural member and provides smooth slide action with a full 2" stroke. Features aluminum and delrin construction with universal mounting clamps and a universal control cable connector which will fit all cable terminations.
P/N 05-00782 ..... **$59.95**

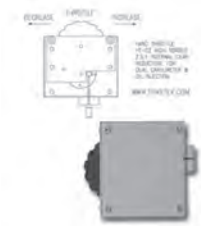
DUAL CARBURETOR SPLITTER

Splits a single throttle input into two outputs for dual carburetor installations. Clamp mounting.
P/N 05-01823 ..... **$29.95**

DUAL CARBURETOR SPLITTER WITH OIL INJECTION

Splits a single throttle input into three outputs for dual carburetor installations with oil injection. Clamp mounting.
P/N 05-01824 ..... **$31.95**

HAND THROTTLE



High torque, 2.5.1 internal gear reduction.For dual carburetors. 825 degree rotation for fine throttle adjustment. Adjustable friction drag. Clamp mounting - no holes required. Made from weatherproof materials.
P/N 05-01826..... **$69.95**

FOOTPEDAL CABLE CONNECTOR

Convenient foot pedal throttle control. Aluminum/delrin construction with mounting hardware. Universal cable connector--fits all cable terminations. Designed especially for trikes and ultralight aircraft.
P/N 05-01827 ..... **$12.95**

BEECHCRAFT MAIN GEAR BOLT

This is a replacement for discontinued Main Gear Bolt part number CA101-810089-1. The new part number is CA101-810089-1A. This part has been tested and is superior in tensile strength and fatigue and crack resistance. Eligible for Beechcraft 1900 series aircraft, this is a life limited part that meets all requirements for the full 5 year/10,000 cycle life. The part number and serial number are engraved on the bolt head.
P/N 05-04163 ..... **$255.95**

Prices Subject to Change Without Notice

FUEL TANKS

FUEL WARNING SYSTEM

Float-action sensor in tank activates panel warning light when fuel supply is low. All-PBT unit, impervious to aviation fuel. Use AN 867-4 flange for mounting.

Sensor.....P/N 6905-400 .....**$31.75**
Warning Light.....P/N 05-17660 .....**$18.75**
Bulb(GE-330).....P/N 11-04016 .....**$1.35**

DISCOUNTS: 10% ON 6, 15% ON 12, 20% ON 50

INVERTED PICKUP TUBES

"Flop" tubes for inverted flight are made from Aeroquip 701-6 flexible hose. End fitting swaged onto hose has a 1/4" male pipe thread attached to tank outlet. Available for any of the tanks listed, or others. Specify tank model and tube length. Minimum length available is 9"

9" ..... P/N 05-20509 .... **$64.85**
11" ..... P/N 05-20511 .... **$64.50**
13" ..... P/N 05-20513 .... **$64.50**
10".....P/N 05-20510.....**$64.50**
12".....P/N 05-20512.....**$64.50**

Add $1.80 to 13" price for each additional inch.

PICKUP TUBE ADAPTER

Specially machined AN912 fitting for connecting pickup tube to fuel tank.

For 12" tubes & longer .....P/N 10380 ..... **$5.80**
Specially machined AN912-12D for shorter than 12"
P/N 10380-1 ..... **$43.85**

FLOP TUBE ADAPTER WITH SIDE OUTLET

This fitting eliminates the need to put an angle fitting on standard adapter. 1/4" female pipe thread on side and bottom & 1" male pipe or 3/4" male pipe on bottom. Use with AN867-6 or 8.

1" Male Pipe .....P/N 05-20525 ..... **$47.65**
3/4" Male Pipe .....P/N 05-20526 ..... **$47.65**

ALUMINUM WELDING FLANGES

Part No.	Female Pipe Thread	Dia. "D" In	Height "H" In	Price Each
AN867-1	1/8"	1-1/2	7/16	**$6.75**
AN867-2	1/4"	1-3/4	5/8	**$7.25**
AN867-3	3/8"	1-7/8	5/8	**$7.25**
AN867-4	1/2"	2	3/4	**$8.75**
AN867-6	3/4"	2-1/4	13/16	**$11.50**
AN867-8	1"	2-11/16"	1"	**$15.75**

FINGER STRAINERS

Finger strainers are strainers for fuel tank outlets. Standard size features a brass fitting with 3/8" male pipe thread which fits AN867-3 welding flange, and 1/4" female pipe thread for valve or fuel line fitting. Screen is 16 mesh brass.

Large finger strainer has a 3/8"-NPT x 1/2"-M-NPT brass bushing with a T304 stainless steel screen.

Standard.... P/N 05-17700... **$6.75** Large .... P/N 05-04445 .....**$18.50**

RAVEN HEADER TANKS

Header tank used for any aerobatic aircraft such as Pitts Specials etc. Comes with mounts to attach to existing tank straps, clamps and weld-in fitting for main tank. 16" x 7" in diameter. Holds approximately 2-1/2 gallons. Weighs 3 lbs.

P/N 05-00913 ..... **$348.95**

RAVEN WING TANKS

Wing tank used to hold extra fuel or smoke oil in top wing of aerobatic biplanes.

S1-S Wing Tank .....P/N 05-00914 ..... **$361.95**
S1-C Wing Tank.....P/N 05-00915 ..... **$256.95**
Experimental S2, Eagle Wing Tank .....P/N 05-00916 ..... **$335.95**

FUEL TANK DRAIN FITTING

This specially designed fuel tank drain fitting minimizes drain flow vortexing that allows water and contaminants to remain in tank no matter how many times the drain cycle is repeated. Threads are 1/8" NPT - brass throughout P/N 05-28900 .....**$38.30**

MICROGRID LIGHTING STRIKE PROTECTION

MicroGrid precision expanded strike protection in composite aircraft structures. In fact, MicroGrid is used by Boeing, Embraer, and many other aircraft manufacturers. MicroGrid's single unit structure is superior because it can't unravel like woven wire. Nor is costly material removed as in etching or stamping.

The appropriate gauge and pattern of material is easily adhered to the composite for 200,000 amps of conductivity. Aircraft are easily repaired after a lightning strike by simply sanding away the surface to apply a patch of new MicroGrid. And fantastically flexible MicroGrid easily conforms to a variety of shapes and contours in both manufacture and repair. It can be bent, shaped and laminated with a variety of materials, including those which expand, contract and flex.

ALUMINUM OR COPPER MICROGRID

Aluminum MicroGrid is ideal for most composite aircraft structure applications and is nearly half the weight of the copper MicroGrid. Copper MicroGrid is recommended for use with carbon fiber structures. Two layers of MicroGrid are recommended over fuel tank applications.

Aluminum MicroGrid (37" wide).....P/N 05-02631 ..... **$17.25 ft.**
Copper MicroGrid (18" wide).....P/N 05-02632 ..... **$10.50 ft.**

	Aluminum	Copper
Weight - Lbs./SF	0.016	0.029
Base Metal Thickness	0.004 inch	0.003 inch
LWD	0.080 inch	0.125 inch
Overall Thickness	0.006 inch	0.005 inch
Open Area	68%	77%

SEE PRO-SEAL TANK SEALANT AND SLOSHING COMPONENTS IN COVERING SUPPLIES SECTION

OPTIONAL TANK INSTALLATIONS

Sight Gauge (Fittings and Tubing) for Pitts or Skybolt Tanks - no installation charge.
P/N 05-29000.....**$33.75**

Flop Tube, Low Fuel Level Warning, Flush Filler Cap (specify type) - Add $5.00 installation charge and cost of unit to price of tank.

ELECTRIC SENDER - Add $15.00 installation charge and cost of unit to price of tank.

FUEL TANK HOLD DOWN STRAPS

Fabricated from.035 stainless steel. Straps are 1"wide x 36" long. For VariViggen Starduster & others. P/N 05-20400.....**$2.25**

ANTI-CHAFE CHANNEL FOR FUEL TANK STRAPS

Neoprene rubber extrusions to hold 1" wide metal fuel tank straps.
#9 Channel P/N 05-01800 ..... **$1.33 Ft.**

CAUTION: Electric sender should not be installed in a tank with flop tube to prevent possible entanglement. Tank should be free of everything but flop tube. Use sight gauge with flop tube.

Prices are based on tanks manufactured to the original plans as issued by the designer. Minor modifications such as changes in tank fitting sizes or locations can be made at additional charge. Please submit all pertinent data with respect to desired changes at time of order.

ALLOW 2-3 WEEKS DELIVERY TIME ON ALL TANKS.

CUSTOM TANKS AVAILABLE: SEND BLUEPRINT OR SKETCH FOR QUOTATION
ADD $15.00 BOX CHARGE FOR CRATING TANKS FOR SHIPMENT

CURTIS SUPERIOR VALVES

CURTIS DRAIN VALVES

Curtis Superior Valve Co., Inc. Fuel and Oil Drain Valves have been the standard in the industry for over 60 years. Curtis valves are used in OEM applications and in the military aircraft. Most valves are made of high quality brass for resistance to corrosion and rusting ,giving them long service life and extended seal life. Most Curtis Valves have a spiral to open and twist to lock for easy fuel sampling and oil draining.

FUEL DRAIN VALVES

SAF-AIR DRAIN VALVES

SAF-AIR push type fuel drain valves are close tolerance valves of simple design. These valves provide the most trouble free operation of any other line of valves in the industry. SAF-AIR valves are manufactured with an o-ring placed on the stem to seal against a flat seat on the body. This design eliminates an area where dirt can gather, thus putting an end to the main cause of fuel drain valve drip. FAA & PMA APPROVED.

CAV-110H-4 CAV-160H-4 CAV-170H-4 CAV-180H-4
CAV-110 CAV-160 CAV-170 CAV-180

SAF-AIR SPECIALTY FUEL DRAIN VALVES

4350-6L F75 P3750 C500
SA-60S SA5817-4C

The F75 is used on wing tip tanks or any application where a 3/4"-16 flush mounted fuel drain valve is needed. This aluminum valve is simple and clean to operate, using any standard sampling tube. Just push up on the center of the valve to sample fuel. Our new design allows all the fuel to enter the tube without leakage. This valve is designed for use on Cessna 310 through 441 model airplanes. • The C500 is used on the bladder style wing tanks with a 1/2" diameter nozzle. • The P3750 has a 3/8" NPT thread and is designed for use on those applications. Both valves provide push-to-test or push-and twist features for locking the valve open. Material is 360 brass. • The SA5817-4C is used with a 3/4"-16 bulkhead fitting to mount the valve flush with the outside skin of the plane. A hose is attached to the valve with a 7/16"-20 fitting at the low point of the fuel system.Material is anodized aluminum. • The SA-60S valve is the same as the CAV-160 except it is constructed of 304 stainless steel. Valve can be used in highly corrosive applications such as salt water. • 4350-6L has a 7/16"-20 thread and a long stem that can be cut to length for your application. Material is anodized aluminum.

GASCOLATORS – FUEL TESTERS

ACS GASCOLATOR

All-metal gascolator with S.S. screen, 1-7/8" dia. cadmium plated steel bowl w/quick drain. Top is CNC machined from 6061-T6 aluminum. Top casting has 1/4" pipe ports for 3/8" fuel line and one 1/8" pipe port for primer fitting. Wt: 8 oz. May be used with aviation and/ or auto fuel. Made in the U.S.A.

P/N 10580.....**$69.50**

Replacement Gaskets - For auto fuel 3/32" thick x 2-1/8" O.D. 10536-1 P/N 06-00441 .....**$5.85**

Replacement Screens -

120 Microns Stainless Steel..... P/N 10543-1 .....**$2.15**

74 Microns Stainless Steel..... P/N 05-03436 .....**$2.70**

ACS GASCOLATOR INSTALLATION BRACKET

Versatile bracket of .016 stainless steel accommodates gascolators with either metal or glass bowl. When mounted as illustrated, inlet and outlet connections are on sides. When bracket is inverted, one port of gascolator faces firewall for direct routing of fuel line through firewall. Fits gascolators sold after May 1, 1989. Made in the U.S.A.

P/N 10371.....**$17.90**

ACS HIGH PRESSURE GASCOLATOR

New ACS high pressure gascolator. Lighter weight and simpler design than the ACS "classic" gascolator. Bailwire and attaching hardware have been eliminated. Threaded collar secures bowl to top. Tested to 50lbs. Bowl is cadmium plated and top and collar are anodized for corrosion protection. Made in the U.S.A.

High Pressure Gascolator ..... P/N 05-04248.....**$99.65**

Replacement Gasket 10536-1..... P/N 06-00441.....**$5.85**

Replacement 120 Micron Screen 10543-1 ... P/N 10543-1.....**$2.15**

Replacement 74 Micron Screen ..... P/N 05-03436.....**$2.70**

FAA-APPROVED GASCOLATORS

CNC-machined out of 6061 aluminum for longer use. Anodized "O" ring seals for improved sealing capabilities, a bayonet tab locked bowl system. Direct replacement for factory parts. FAA-approved for many Piper, American Champion, Husky, Maule, Taylorcraft, Dynac and Cessna aircraft. Fits in existing Piper mounting brackets. Mounting brackets available for Cessna. Great for homebuilders also. All fittings and drain plugs are for display purposes only and are not included with Gascolator purchase. Aircraft Make and Model, Serial Number and N number required to make sure correct gascolator is ordered. Check the Aircraft Spruce website for aircraft cross-reference list or contact us for gascolator approved for your aircraft.

GATS JAR FUEL SAMPLER

The incredible GATS Jar allows a pilot to pour the fuel used in the preflight check back into the fuel tank without fear of water contamination. The jar uses a special separator screen that, when coated with avgas, forms a barrier to water and debris, yet allows passage of avgas. The GATS Jar also detects jet fuel in the event of inadvertent fueling of your aircraft with jet fuel. By using the GATS Jar, pilots can help protect the environment by pouring sample fuel back into the tank instead of on the ground. 12 oz. ..... P/N 05-21250 ..... **$16.95**

SHORT FUEL TESTER

The unique snap-on probe fits all quick-drain valves, stores compactly, and reduces spillage, loss, and probe breakage. The 4" (10.16cm) transparent cylinder has the octane color-coding molded in the side for quick reference. Also includes a chrome-plated screwdriver blade with both a Phillips and a slotted head.

4"..... P/N 05-00448 ..... **$6.50**

6"..... P/N 05-03386 ..... **$7.50**

CURTIS FUEL SAMPLER CUP

This fuel sampler cup is designed for use with many popular fuel drain valves including the F391 drain valves used on many of today's productions aircraft. Wide bowl allows fuel sampling without fuel dripping onto the hands.

P/N 05-17300..... **$3.90**

ASA AIRCRAFT FUEL TESTING CUP

Protect yourself from fuel contamination by visually checking the fuel for water and debris. Clear cup with a reinforced steel pin that works with most aircraft. Measures 2-1/2" high x 1-3/4" diameter. Lifetime warranty. P/N 13-02353..... **$5.50**

JEPPESEN DELUXE AIRCRAFT FUEL CHECKER

This deluxe version of the popular screwdriver type fuel checker features some great improvements in the product. A removable bronze (3/32" brazing rod) replaces the flimsy plastic stick. Magnified viewing area allows close inspection of contaminates, and 100% of the sample can be seen. A removable splash guard prevents a fuel shower on the user, and the guard stows flat along side when not in use. This tester incorporates a stronger design to resist cracking and breakage.

P/N 05-17215..... **$17.23**

GASOHOL TESTER

This compact fuel tester / double tip screwdriver combo measures the presence and percentage of alcohol in gasoline, and tightens errant screws. P/N 05-03439..... **$5.75**

MULTISUMP AVIATION FUEL TESTER

Sump, Inspect, Collect, and Safely Pour Back fuel samples. The MultiSump+™ now includes a fuel strainer! A micro-mesh stainless steel screen keep impurities and water from entering the fuel tank during pour back. In addition the MultiSump+™ allows the pilot to sample and individually inspect fuel from each sump while a quick dump feature transfers fuel to the lower catch can thus eliminating emptying the tester after each sump. P/N 05-04653 .....**$24.95**

ACS FREE FLOW ONE-WAY CHECK VALVE

Prevents return fuel flow during normal operation but provides by-pass fuel feed in an emergency if the fuel pump fails. Wt. 1 oz., 2-7/8" long. Use with tube fittings for 3/8" dia. fuel line. Anodized for corrosion resistance.

P/N 10630 ..... **$27.50**

FUEL FILTER

In-line, high-capacity, translucent filter with screen. Has standard 1/4" barb inlet and outlet tubes.

P/N 05-01030.....**$3.85**

FUEL FILTER

In-tank type. Brass construction with fine-mesh screen. Has standard 1/4" barb inlet and outlet tubes. P/N 05-01031.....**$3.90**

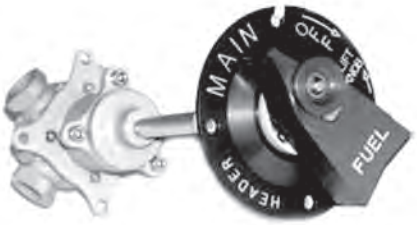
3/8 INCH PLASTIC FILTER

Plastic in-line fuel with 3/8" inlet & outlet - metal version is 33033 with hoses and camps. Style: Fuel Filter. Height: 3.543. Outer Diameter: 1.826. Nominal Micron Rating: 30

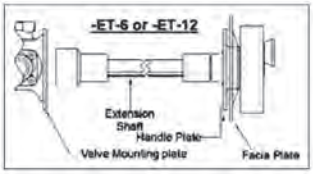
P/N 05-04701.....**$6.75**

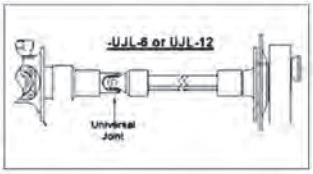
EXTENSION FUEL VALVES - GASCOLATORS

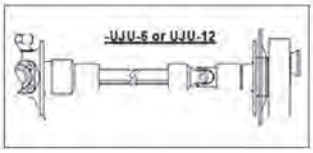
ANDAIR EXTENSION FUEL SELECTORS

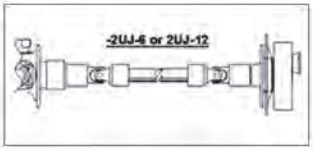


For use with any Andair valve. The kit includes everything needed to operate the valve remotely by way of a specially extruded tube. There is no riveting involved, just cut the tube down to length and fit together. To maintain the firm detent at each tank selection, there is a detent cap on the top of the valve. The special tube then fits into this. Then, so as to maintain the safety feature, where the valve cannot be inadvertently switched off, the button has been moved to the upper section. Like the standard valves, the button must be raised to switch the fuel of. The tube is available 6" or 12" long and 4 extension options are available. The extension must be ordered with the valve. (i.e. an extension cannot be retro fitted to a previously purchased valve).









Option	Size (In.)	Price
ET	6	Call or Email for price and availability
1JU	6	
2JU	6	

Option	Size (In.)	Price
ET	12	Call or Email for price and availability
1JU	12	
2JU	12	

E | Valve Part No. | ET / 1JU / 2UJ | 6 / 12

i.e. **FS25f5-M** or **FD20-20-D2-6M**

Length of extension tube:
6 = 6" long.
12 = 12" long.

ET: with one universal joint on lower part of valve
UJL: with one universal joint on the upper section of the valve
UJU: with 2 universal joints.

Example:
E-FS25f5-M-ET-6 = (6"long, 1/2"Left, Main, Right, Off, Straight Ext. Valve)
E-FS20-20-D2-6M-2UJ-12 = (12"long, 3/8"duplex fuel selector extension with 2 UJs and 12" tube).

SPECIAL ENGRAVING - Andair can offer special engraving for all of the available valves. Please contact the Aircraft Spruce technical department for more information. Here are some examples:

GASCOLATOR FIREWALL FITTING

Includes mounting flange and backing plate. Mount your gascolator solidly on the firewall with this special bulkhead fitting. Simply drill a 5/8" hole through the firewall and a backing plate on the cabin side and rivet the 1-1/2" x 1/8" flange to the firewall. Connect the incoming fuel line to the AN6 male tube fitting on the cabin side. Screw the gascolator onto the 1/4" male pipe (on the engine side). Machined from mild steel (303 stainless steel). P/N 05-00907 .....**$18.85**

ANDAIR GASCOLATORS

05-29551

Andair make Gascolators for both 3/8" and 1/2" lines. Both types have a screw locking ring that prevents the bowl from coming off, and a facility for this to be wirelocked. The bowl is internally sealed with an Viton (R) O-ring. A PTFE coated 70 micron Stainless Steel mesh is used as the filter screen. The PTFE coating helps prevent water from passing, by maintaining it as a droplet formation. A large filter area is present and wide passages have been incoropated so that the pressure loss through the Gascolators is kept to an absolute minimum. There is an 1/8 NPT hole on the bottom of the bowl so it can be drained and also one on the top of the body. This one can be used as a pressure tapping or a filtered supply to the primer pump. A selection of fittings can also be used with the GAS375 and the GAS500.

GAS375M with -6 Male Fittings ..... P/N 05-29551.....**$199.00**

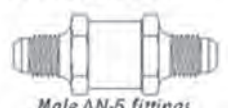
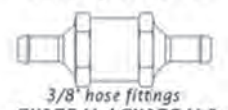
Stainless Steel Drain Valve..... P/N 05-00709.....**$38.65**

ANDAIR CHECK VALVE





Built from aircraft grade Aluminum and anodized for corrosion protection this lightweight and compact unit is excellent. The check valve is ideal for tank vents and high pressure fuel pump bypass lines. Its extremely light weight internal shuttle operates with the slightest pressure yet the internal O-ring seals allow the unit to be used up to 50 PSI. Other qualities include break out pressure less than 1 PSI, great flow characteristics around shuttle, and bleed allows shuttle to weep off pressure in the event of a blocked line. Features AN-6 (3/8") fitting on bottom. Valve measures 5/16" dia. x 2.75" long.

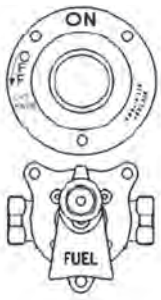
FUEL VALVES - DUPLEX VALVES

AP

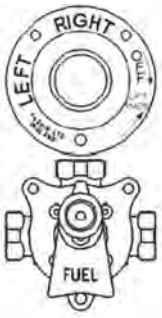
ANDAIR POSITIVE STOP FUEL VALVES

Andair Ltd. of England produce these superb Safety Fuel Selectors. Precision built from aircraft grade materials, with PTFE seals packed against a highly polished ball giving a very smooth action. Designed by an RV builder the Andair valve features a positive stop for the off position. A spring loaded button on the lever must be raised before the lever can be moved to the off position. This eliminates the possibility of turning the fuel off in flight, which is an inherent risk with some other designs. The lever has internal stops and detents on the left and right positions. The FS20 range has been designed for 3/8" fuel lines and the FS25 Range is for use with 1/2" lines. New to the range is the FS20-8 5-way selector valve.

FS20X1-F or FS25x1-F Model 1



FS20X2-F or FS25x2-F Model 2



FS20X3-F or FS25x3-F Model 3

FS20-20-D2 DUPLEX VALVES

Used to switch the fuel in an appliction where there is a fuel injected engine that needs flow return. It allows you to pipe surplus fuel to the same tank from which it was drawn. This avoids the worry of overfilling the return tank or having an overly complicated fuel system. Engines that can benefit from this valve are Surburu, Continental, Rotax, and Diesel engines. The FS20-20-D2 has two 3/8" sections where as the new FS25-20-D2 has one 1/2" feed section and on 3/8" return section. The valves can be supplied with either male or female fittings.

FS25-20-D2 DUPLEX VALVES - New to the range is the FS25-20-D2 which has a 1/2" feed ports and 3/8" return ports, for use in larger injected engines.

Model No.	Part No.	Description	Thread	Ports	Price
FS20-20-D2-6M	05-06926	3/8" Feed & Return	1/4" Pipe	Male	**$594.00**
FS20-20-D2-6F	05-06927	3/8" Feed & Return	9/16-18a	Female	**$594.00**
FS25-20-D2-6F	05-29562	1/2" Feed, 3/8"Return	1/4,3/8"pipe	Female	**$665.00**
FS25-20-D2-6M	05-29563	1/2" Feed, 3/8"Return	9/16-18, 3/4-16	Male	**$647.00**

FS22D2 DUPLEX VALVE

This new duplex valve from Andair has been designed for the use with low flow rate fuel and vapor return systems. An example being the Turbo charged Rotax 912S. Base on the popular FS20x2, the FS22 retains the key features of small size and light weight. The return line valve usesour a new style PTFE disc, operated via the main ball valve allowing the return fuel to flow back to the tank from whicn it ws drawn. The FS22 is availab le in two forms, the FS22-2PD with its 1/8" female pipe fittings pointing downward (see image) or the FS22-2PS (sideways pointing fittings). Both valves include all of the safety features that appear in he full range of Andair Fuel Selectors.

Model No.	Part No.	Description	Thread	Ports	Price
FS22-D2-6F-PS	05-29564	3/8"Feed,1/8"Return	1/4,1/8"Pipe	Female	**$376.95**
FS22-D2-6M-PS	05-29566	3/8"Feed,1/8"Return	9/16-18	Male	**$291.95**
FS22-D2-6F-PD	05-29567	3/8"Feed,1/8"Return	1/4,1/8"Pipe	Female	**$378.00**
FS22-D2-6M-PD	05-29568	3/8"Feed,1/8"Return	9/16-18	Male	**$247.95**

ANDAIR FUEL VALVES

The FS20x4 Fuel Selector is designed for high wing aircraft where it is possible to feed from both tanks simultaneously. Porting for the both position is done internally so there is no need to T the two tanks together. There is a 90 degree action between each tank selection, and the safety feature where the red button on the lever has to be raised to switch off the fuel. On the FS20x4 there are 3 ports. The lower port is the outlet to the engine and can be Male AN-6, Female 1/4NPT or a Banjo fitting which is a 360degree adjustable fitting with a male AN-6 end. Click here for more information on the fitting options. The inlet, side ports can be any of the 3/8" fittings that Andair supplies and are at the 9 O'clock and 12 O'clock positions when looking at the valve with the brass ball spindle pointing upwards (see image to left). At the 3 O'clock position there is a blanking plate that covers up a PTFE gland that opposises the forces of the other 2 PTFE glands. This cannot be removed. One of the great features of this unit is that when the selector is in the OFF position, there is no cross feed between each tank. So if you have your aeroplane parked on a slope, or if one tank is fuller than the other, no cross-feed will occur.

FS20X4 Male..... P/N 05-02635..... **$258.95**

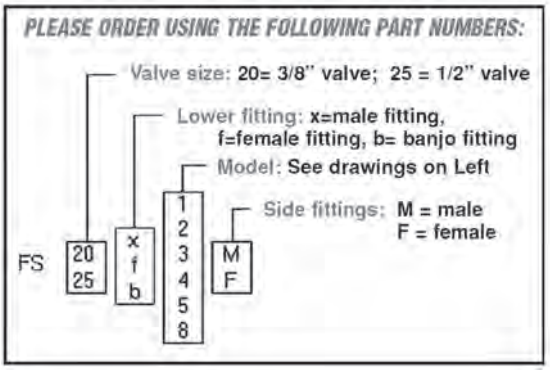
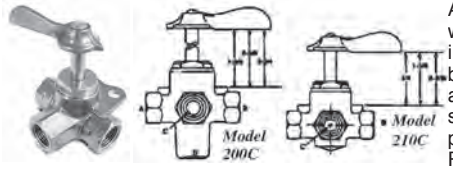
PLEASE ORDER USING THE FOLLOWING PART NUMBERS:



FS20 – 3/8" ***FS25 – 1/2"***

FUEL VALVES

HOMEBUILDERS SHUT-OFF VALVES



A full-flow plug valve with solid bottom and integral mounting bracket. Brass body and plug. Floating stem with O-ring prevents leakage. Packed with synthetic grease which resists gasoline and solvents. Indicating click on 3-port and 4-port valve (CN models) tells when handle is in full open or closed position. Tested to 30 PSI. Not FAA approved.

Part No.	Model No.	Imperial Equiv.	Valve Type	Pipe Thread	Price
6749	210-CL	108HD-04	3-Port*	1/4" Female x 1/4" Female	**$26.65**
05-01032	210-CN	108HD-06	3-Port*	3/8" Female x 3/8" Female	**$29.96**
05-01033	200-CL	114-HD-04	4-Port**	1/4" Female x 1/4" Female	**$29.90**
05-01034	200-CN	114HD-06	4-Port**	3/8" Female x 3/8" Female	**$33.50**

For 2 tanks. Flow is from either side to branch.
For 3 tanks. Flow is from any side to bottom outlet.
Note: Order valve with 1/4" pipe threads for 3/8" dia. fuel line. Order valve with 3/8" pipe threads for 1/2" dia. fuel line. These pipe thread sizes are the ones normally associated with the indicated tube sizes.

FUEL VALVE LEVER

This lever is a direct replacement for the lever that comes standard with the Home-built Shutoff Valve, part numbers 210-CN, 200-CL and 200 CN. It will also replace the lever that is shipped standard with nearly all of the Vans RV Series aircraft. The appearance is much nicer than the stock lever, it is red in color (the standard color relative to fuel) and needs no hardware other than what is sent with the valve. When mounted according to Van's plans the stock lever actually uses the handles as the pointer. P/N 05-03047 ..... **$39.50**

DOW CORNING 3452 VALVE LUBRICANT

Excellent for lubricating valves and slow moving components exposed to harsh chemicals and solvents. resists deterioration by chlorides, solvents, acids and condensate. Dow 3452 is a white, fluorocarbon thickened, fluorosilicone fluid based grease with a temp. range of -20 to 450°F. z2 oz. tube. P/N 09-00333 ..... **$49.75**

RV FUEL POSITION INDICATOR PLATE

This plate is designed to work with the Van's Series of Aircraft. The Vans kits do not provide the builder with a solution for determing what position the fuel selector is in, therefore leaving the builder to create his or her own solution for this situation. This plate used in combination with RV Fuel Lever clearly labels the valve as the fuel valve and gives the position of the valve. The aesthetics of the cockpit are improved and all labeling is chemically resistant. PN 05-03661 ..... **$42.95**

MINIATURE FUEL VALVES

The lightest (4 oz.) smallest (1.5" long), easiest to operate ball type (not plug) on-off fuel valve available. Light operating force makes it ideal for remote operation. Not FAA approved. Forged brass with 1/4", 3/8", or 1/2" female pipe ends.

1/4" NPT valve ..... P/N 05-23325..... **$13.65**
3/8" NPT valve ..... P/N 05-23330..... **$13.75**
1/2" NPT valve ..... P/N 05-01026..... **$25.50**

WEATHERHEAD FUEL SHUT-OFF VALVE

These 3-way Weatherhead valves, with 1/4' female pipe ports feature a Delrin-spool design for smooth operation. Handle mounted on 1-1/4" long shaft. Not FAA approved.

Model No. 6749 3-Port Valve - Flow is from either side to middle port. P/N 6749 ..... **$26.65**

Model No. 6747 4-Port Valve - Flow is from any horizontal port to bottom port. P/N 6747 ..... **$24.90**

TWIN COMANCHE STAINLESS STEEL FUEL SELECTORS

These stainless steel valves from Parker Hannifin are designed to resolve the corrosion problem, as well as age and wear issues. They are identical to the originals, and they use the same gaskets O-rings, and procedures. Installation is quick and easy. FAA Approved. The fuel selector valve is manufactured with new stainless-steel design for more durability and performance.

Right ..... P/N 05-04881 ..... **$3,865.00** Left ..... P/N 05-04883 .. **$3,865.00**

J-3 FUEL VALVE

This J-3 fuel valve includes a steel handle for use with the original pushpull shut off control. this valve is a significant improvement over the orig nal brass style fuel valve. The new valve has a stainless steel ball seated in an inert composite seat. This improved design eliminates the stiff operation and leaking around the shaft that the original design was prone to. PMA approved. P/N 05-00848..... **$141.95**

SPRL FUEL VALVES

After a long development process, here's a completely new family of Fuel Valves. Hi-Tech Seals give easy operation and are suitable for all current fuels. The simplicity promises a long reliable life. The SPRL-V1 is a three/four way fuel selector offering left-off-right and both if required. There are 90 degrees between selections and the absence of a lower fitting reduces the depth required.

These English fuel valves have some great features that make them better than the rest. Ceramic disks have no soft moving/rubbing seals to wear out, unlike other valves but also give an 'indefinite' life with a very smooth light action. The lift and turn selector is instinctive, secure, and easier to use than the complex 'lift button' type. The locking detents avoid accidental movements. The fixings match most installations, and the internal ports prevent cross feeds, unless 'selected to 'Both'. Male AN fittings enable you to plumb straight into the aeroplane system with no extra fittings to buy. The lightweight alloy construction is anodized for protection; the Viton 0 ring seals are suitable for all current fuels. For experimental aircraft only. Fittings must be purchased separately.

Please note that the accessories listed below are the the only compatible accessories; other standard accessories will not fit these valves.

SPRL V1 3 way valve ..... P/N 05-04450..... **$159.95**
SPRL V1 4 way valve ..... P/N 05-04451..... **$159.75**

ACCESSORIES

Must purchase these parts. Standard AN do not fit the valves.

AN6 Male Fittings (pk of 3) ..... P/N 05-04452..... **$11.65**
AN8 Male Fittings (pk of 3) ..... P/N 05-04453..... **$9.95**
NPT 1/4" Female Fittings(pk of 3) ..... P/N 05-04454..... **$10.95**
NPT 3/8" Female Fittings (pk of 3) ..... P/N 05-04455..... **$11.65**

SPRL On/Off V2 Male Valve ..... P/N 05-06468..... **$91.75**
SPRL V3-3P Duplex Valve ..... P/N 05-06469..... **$199.90**
SPRL V3-4P Duplex Valve ..... P/N 05-06470..... **$199.90**

REMOTE FUEL VALVE DRIVE

We offer a remote drive so as to have the selector conveniently to hand while the valve and pipes are on the bottom of the fuselage or even on the front of the firewall. We include a flexible universal drive joint to accept small errors in alignment. The standard drive is 12" long but drive shafts up to 6 feet are available. The universal joint is modestly priced as it is not new, but for this usage a 'mil spec' government surplus joint is ideal.

P/N 05-06501..... **$99.00**

RIGHT ANGLE FUEL VALVE DRIVE

We have sourced a high quality gear box to offer a right angle drive with obvious applications to rear engined aeroplanes like the Rutans and other installations where it is not convenient to drive the valve direct (eg. 'cubs' where the valve is easier installed away from the seats and pedals)..... P/N 05-06558..... **$114.65**

EXTENDED FUEL VALVE DRIVE

We include a flexible universal drive joint to accept small errors in alignment. The standard drive is 12" long but drive shafts up to 6 feet are available. The universal joint is modestly priced as it is not new, but for this usage, 'new, surplus' is ideal. The drive tubes can be cut to any required length and simply push together. We assume that the aeroplane structure will prevent the parts separating once they are installed. Price per foot. 6' shipping limit. Note: Special order lengths available upon request.

P/N 05-06557..... **$19.85**

NEWTON BANJO FITTING SETS

The fittings enabled you to plumb straight into the aeroplane system with no extra fittings to buy. The lightweight alloy construction is anodized for protection; the Viton 0 ring seals are suitable for all current fuels. For experimental aircraft only. Fittings must be purchased separately; if needed, 3 AN-6 fittings come with the valve.

Fittings:

AN8 Male NPT 1/4" OR 3/8" Female and banjo fittings are available, all seal to the valve with O ring system Standard AN fittings cannot mate directly to the valve.

1/4" Fitting Set ..... P/N 05-06471..... **$39.50**
5/16" Fitting Set ..... P/N 05-06472..... **$39.50**
3/8" Fitting Set ..... P/N 05-06473..... **$50.50**
1/4" Large Fitting Set ..... P/N 05-06474..... **$108.95**

AP

ALLEN PREMIUM FUEL SHUT-OFF VALVES

These premium fuel valves are recommended by Rutan Aircraft as the best fuel valves they have seen. They are a direct, bolt-in replacement for Weatherhead and other fuel valves. They turn smoothly and freely with a very positive spring loaded ball detent system which lets you feel the left right and off positions. Manufactured of anodized aluminum. Handle is not furnished with valve. Available in 3 models. Model GS122 valve originally recommended for Long-EZ. Not FAA approved. For experimental aircraft only.

	Model 6S122 P/N 05-29500	Model 6S1000 P/N 05-29515	Model 6S1001 P/N 05-29525

Price Each	**$157.95**	**$348.00**	**$527.00**

HANDLE FOR ALLEN FUEL VALVES

This aluminum handle is specially machined to fit the Allen fuel valves above. P/N 05-01915..... **$32.85**

EXTENDED HANDLE SHAFT FOR ALLEN FUEL VALVES

This set of fittings are used to make an extended handle shaft for the Allen fuel valves. One of the fittings fits on and clamps to the valve and the other one fits in the handle. The fittings are then welded in a piece of 3/8" x .035 4130 tube. The handle extension can be made as long as desired. P/N 05-01916 ..... **$94.50**

FUEL FLOW VALVE

Designed for tank installation, with built-in filter. 90° rotation for ON-OFF. Has standard 1/4" barb outlet tube.
P/N 05-01040 ..... **$14.80**

FUEL FLOW VALVE

Designed for tank installation. Similar to above but without built-in filter. 90° rotation for ON-OFF. Has standard 1/4" barb outlet tube. P/N 05-01041 ..... **$6.50**

FUEL FLOW VALVE

Twin-tank fuel selector valve. 3 positions: LEFT-OFF-RIGHT. LEFT and RIGHT positions are 90° either side of OFF. Panel mount.
P/N 05-01042 ..... **$7.50**

FUEL FLOW VALVE

Panel mounted fuel on-off.
P/N 05-01043 ..... **$8.75**

BANJO FITTING

This can be rotated through 360° then tightened and safety locked. Excellent for applications where space was limited. It can really be described as an adjustable 90° elbow fitting. P/N 05-29565 ..... **$58.50**

FUEL FLOW ELBOW

Bushed 90° tank fitting with standard 1/4" barb outlet. Requires Rubber Bushing FTB01.
P/N 05-01045 ..... **$1.71**

QUICK-DISCONNECT FUEL LINE FITTINGS

05-01035

05-01036

05-01037

05-01038

Complete sets are furnished with both male and female units. Available in both panel mount (left) and in-line (center) styles, with or without internal automatic fuel shut-off. (1/4" tubing). The O-rings may not be compatible with some alcohol based auto fuels.

In-line with shut-off
P/N 05-01035..... **$12.95**

In-line without shut-off
P/N 05-01036..... **$5.50**

Panel mount with shut-off
P/N 05-01037..... **$18.50**

Panel mount without shut-off
P/N 05-01038..... **$15.75**

PRIMER BULB

Install between fuel tank and engine. A few squeezes prime your engine for easy starting.
Primer Bulb 1/4" Tube Fit - Sm. (5" x 1-1/4") P/N 05-01046 ..... **$5.25**
Primer Bulb 1/4" Tube Fit - Lg. (7" x 2") ..... P/N 05-03690 ..... **$16.80**

PRIMER KIT

Everything you need to add a plunger-type primer system to your aircraft. The kit includes the plunger, a reducer "T" fitting, 1/8" barb "T" fitting, and 10 feet of 1/8" pink urethane fuel line.
P/N 05-01047 ..... **$22.75**

ACS PRIMER

Formerly manufactured by Gerdes Products, this primer has an anodized, all aluminum body and an engraved aluminum knob. The inlet and outlet ports are located on the back end of the pump and both are 1/8" pipe thread. Overall length is 4" and weight is 3.5 oz. New manufacture. .....P/N 05-19920 ..... **$122.95**

ESSEX PRIMER

This primer, originally produced by Kohler, is positively leak-proof. Its exceptional priming ability has made it popular with manufacturers of general aviation aircraft. Has 1/8" internal pipe thread inlet and outlet ports. Overall length 3-7/8". Wt. 2.3 oz. New manufacture. P/N 05-01048 ..... **$248.95**

ELECTRIC SOLENOID ENGINE PRIMER VALVE

These new electric solenoids are recommended by Co-Z Development Corp. as ideal electric engine primers for homebuilt aircraft. These normally closed 2-way valves are direct acting and have only two moving parts, a viton plunger and stainless steel spring. Can be installed in any position and are easy to inspect without removing from the line. Pipe size is 1/8" NPT. Orifice dia. 1/8". Wt. 5 oz. #1 port is out, #2 port is in. Will handle max. PSI of 60.

Mounting Bracket **-** A universal stainless steel mounting bracket for the 1/8" NPT valves may be ordered separately. The mounting bracket can be assembled to the valve body utilizing the body mounting holes

2V Solenoid VLV 20CC02PV4B2A ..... P/N 05-04368..... **$56.85**
24V Solenoid VLV 20CC02PV4B2B ..... P/N 05-04369..... **$59.50**
Solenoid Mounting Bracket 4K007..... P/N 05-04370..... **$12.25**

PRIMER OVERHAUL KIT

Restoring primer pump operation - The kit is replaces the worn O-rings (2) on the primer pump used on non-fuel injected engine installations. The primer seals frequently are not re-lubricated until someone complains the primer isn't working or the engine is hard starting. This is most evident by the pump being hard or stiff to operate. Generally speaking, by the time the pump stops performing, the seals are worn (to the point that lube is of little value) and must be replaced. The kit contains the two O-rings, a packet of Seal Lube, and detailed instructions.
P/N 05-03637..... **$7.95**

FUEL LINE

Polyurethane tubing, translucent blue in color. 1/4" ID. A superior, premium grade of urethane, the optimum material for ultralight fuel line. (Min. order, 4 ft.) P/N 05-01049 ..... **$1.25/ft.**

PRIMER LINE

Polyurethane tubing, translucent pink in color. 1/8" ID. For primer systems.
P/N 05-01050 ..... **$0.66/ft.**

PULSE LINE

Connects engine pulse outlet to fuel pump pulse inlet. Outside Diameter: 3/8". Inside Diameter: 1/4". Thickness of the Wall: 3/32"
P/N 05-01063 ..... **$0.99/ft.**

FUEL LINE SPLITTERS/JOINERS

Perfect for feeding from 2 tanks, or for feeding two carburetors from 1 tank. All have standard barbed ends. Made of Delrin.
"T" type, 1/4"..... P/N 05-01051..... **$1.15**
"Y" type, 1/4"..... P/N 05-01052..... **$1.10**
"T" type, 1/8"..... P/N 05-01053..... **$1.95**

RUBBER BUSHING

Required for installation of Fuel Flow Elbow described above. P/N 05-01039 ..... **$0.88**

FUEL TRANSFER PUMPS – FUNNELS

FUEL FILTER FUNNELS

P/N 05-00026 P/N 05-01054 P/N 05-01055 P/N 05-01371

Mr. Funnel® Fuel Filters are simply amazing. Dirty fuel in.... pure fuel out. It's that easy.
The specially designed filter removes water and dirt from gas, even 2-stroke mixtures. Ethanol attracts water more than regular gasoline. Never before has a fuel filter been more important.
Dirt and water are practically unavoidable in stored fuel, causing microbial growth, corrosive acids, electrolysis and rust. These contaminants can plug filters, corrode components, decrease efficient combustion and cause engine shutdown or system failure.
When fuel is poured through the Fuel Filter Funnel, water and debris will not pass through the filter's fluoropolymer-coated stainless steel filter. Only filtered fuel flows through to your engine, improving its efficiency, durability, and proper operation. The sump area collects the deflected water and debris for proper disposal. The Fuel Filter Funnel will filter gasoline, diesel, heating oil, kerosene and 2-cycle mixed gas.
The Fuel Filter Funnel is a heavy-duty, anti-static, and fast flow funnel with built-in filter technology.
Lawn mowers, tractors weed trimmer/blowers, dirt bikes/ATVs, boats, even airplanes... will have longer useful lives if owners filter their fuel!

Part No.	Height	Diameter	Flow Rate	Price

GOATTHROAT FUEL TRANSFER PUMP

P/N 05-02196

P/N 05-02197

GoatThroat Pumps have been in the industrial market for 15 years. Recently introduced to aviators, these pumps deliver fuel efficiently and directly to the filler downspout with a finger controlled discharge nozzle. Made of chemical grade polypropylene, GoatThroat Pumps can pressurize any container in seconds. Internal pressure relief valve opens at 7 psi, but 2 psi is all you need to deliver fuel safely to your plane. A drip-proof faucet dispenses small amount or gives steady flow. Containers remain upright, so there is no extra handing and little chance for accidental spills. Includes the fitting for a 55 gal. drum. 5 gal. can fitting sold separately.

Fuel Transfer Pump..... P/N 05-02196 .. **$173.65**
Adapter for Blitz 5 gal. can..... P/N 05-02197 .... **$39.90**
Adapter for Scepter 5 gal. can ..... P/N 05-03031 .... **$49.75**

FLO-N-GO SE PUMP

Scepter's Flo n' go Superflo fuel siphon pumps gas for easy, clean fill-ups in hard-to-reach fuel tanks. At-the-handle pump control allows for auto shut-off and restarts, as well as clean, hassle-free siphon control.
The Superflo model is ideal for smaller engines including lawnmowers, trimmers, chainsaws, generators, blowers, edgers, snow throwers, or any small engine that requires refueling.
The Superflo delivers a flow rate of 1 gallon (3.7 L) per minute when in siphon mode. Child safety lock included.

PN 05-04568 .....**$63.00**

CLEAN FUNNEL™

model 112

model 415

model 428

Clean Funnel™ is the funnel that keeps itself clean. Replacing the caps on each end after each use prevents left over fluid from dripping out, and keeps your work area or baggage compartment clean. No need to wipe your funnel out with a rag before reusing. Clean Funnel™ is ideal for use with fuel or oil as well as windshield washer fluid, detergents, antifreeze, hydraulic fluid, and more. Great for aircraft, automobiles, motorcycles, tractors, boats, ATV's snowmobiles, and more.

- Model 112 (turquoise) has a 1 pint fluid capacity and a 12" vinyl tube attached to its spout, making it very handy to reach into small or tight spaces.
- Model 415 (red) has a 1-1/2 quart capacity, 17" long with flexible spout, and spout I.D. is 9/16".
- Model 428 (black) has 1-1/2 quart & 13-1/4" long with a flexible spout and 1-1/8" O.D. spout.

Model #	Color	Part No.	Price
112	Turquoise	12-00374	**$6.75**
415	Red	12-00375	**$7.95**
428	Black	12-00376	**$7.95**

PORTABLE FUEL SYSTEM

Portable Fuel Systems are the easiest way to take the gas station where you need it! Portable Fuel Systems are designed to provide an easy method of dispensing all types of motor fuel through a "gas station" style hose and nozzle. Eliminating the need for conventional gas cans, the PFS takes the gas station to the machine. No more lifting heavy cans and spilling expensive gas on nicely painted surfaces!
The Portable Fuel Systems are designed for the transport, storage, and dispensing of a variety of fuels including aviation, automotive, and diesel. All appropriate safety features have been designed into the system making it suitable for all types of applications such as airports, marinas, landscapers and garages.
A major advantage the PFS systems have over typical airport fuel pumps, is the increased control during the fueling process. Airport fuel pumps are designed with thick, heavy hoses and large nozzles that pump fuel at a very high flow rate. For smaller aircraft, especially high wing aircraft where the fuel tank spout is hard to see, this frequently leads to fuel spills, and ruined paint. The PFS is designed to provide a high flow rate hose and nozzle that weighs less, is more flexible, and has much more flow control via the infinitely adjustable nozzle handle. The PFS does all of this while meeting all desired safety expectations!

Portable Fuel System with Air Tank.....P/N 05-04867 ..... **$886.85**
Portable Fuel System without Air Tank.....P/N 05-04868 ..... **$797.85**

AVMAT-JET2 (Center Hole) ..... 13-04926 ..... **$89.75**

THERMOS STYLE PRESSURE FUEL CAPS

Pressure fuel caps are recommended for aerobatic installations. These caps are made with Buna-Nitrile gaskets for fuel resistance. These caps are non-vented for gravity fuel systems. It is highly recommended that a #40 (3/32") drill is used to drill a vent hole through the lower base plate and stud assembly using a drill press.

Part No.	Diameter (I.D.)	Height	Price Each
05-18399	1-3/4"	--	$115.95
05-18400	2"	1-3/16"	$48.50
05-18402	2-1/2"	1-3/16"	$41.40

FUELTAPE

While most FBOs do a great job of keeping fuel orders straight, mistakes can and do happen. As for pilots, sometimes it's not feasible to stand around waiting for the fuel truck to ensure the right fuel is being poured into the aircraft tanks. FuelTape is a highly durable, weatherproof masking tape that clearly indicates to the fueler which grade of fuel must be used. Simply tear off a piece and stick it over the fuel caps and you have a low-cost, reliable system to keep your tanks safe.

FuelTape is available in both 100LL or Jet A versions. The colors and design conform to FAA standards. FuelTape is a simple product that both eliminates mistakes and gives the pilot piece of mind that they can go off and handle other business. Sold by the roll.

Av-Gas ..... P/N 05-06416 ..... **$7.25**
Jet-A ..... P/N 05-06417 ..... **$7.25**

ACS TWIST-TO LOCK FLUSH FUEL CAP

The ACS Twist-To-Lock Flush Fuel Cap Assy is machined from 6061 aluminum billet. The cap is available in vented and non-vented configurations. The sealing element for the cap is an easily replaceable viton "O" ring. The bottom of the cap is secured to the bottom of the ring by a safety chain to prevent loss of the cap during flight. The mounting ring may be welded, riveted, bolted or molded onto the tank.

.....Complete Set (non-vented) P/N 10600 ..... **$53.75**
Complete Set (vented) ..... P/N 10610 ..... **$57.75**
Replacement "O"Ring ..... P/N 10609 ..... **$3.95**

ACS FLUSH FUEL CAPS

This latest modification of the ACS Flush Fuel Cap (unvented) utilizes a Viton O-Ring as the sealing element between the cap and mounting ring. The Viton O-Ring is compatible with aviation fuels and auto gas. The cap with Viton seal is interchangeable with the old-style cap with rubber gasket. Machined from solid aluminum. Ring may be welded, riveted, bolted or molded to the tank. The bottom of the cap is secured to the bottom of the ring by a safety chain to prevent loss of the cap in flight. Mounting ring flange is 1/8" thick. Ring opening is 2-5/8" dia. Overall dia. 4-3/8".

Complete Set (New-Style Cap w/Mounting Ring)
P/N 05-01390 ..... **$46.25**
New Style Cap Only ..... P/N 05-01391 ..... **$39.95**
Replacement VitonO-Ring (for New-Style Cap Only)

2'' UNIVERSAL FUEL CAP

This is a 2 inch filler cap. Cap only.
P/N 428-2 ..... **$387.50**

PIPER PA23 FUEL CAP

Piper PA 23 fuel cap part number CA16097N is an improved version of part number CA16097. This new part uses an improved elastomer with superior fuel resistance. The fuel cap is eligible for PA23 aircraft.
P/N 05-04161 ..... **$89.95**

PIPER PA-23 FUEL CAP

The 2 inch Piper PA-23 fuel caps are back. PMA Products, Inc. announced the return of their CA17672N fuel caps that are manufactured with improved rubber specifically formulated to prevent swelling. This part number replaces Piper part numbers 454-084 and 17672-000. Specifications: FAA-PMA Approved. Eligible Aircraft: Piper PA-23 (Beginning S/N 23-1, Ending S/N 23-1182) Piper PA-23-160 (Beginning S/N 23-1177, Ending S/N 23-2046). ..... P/N 05-06466 ..... **$140.95**

FUEL CAP SEAL

Replacement fuel cap seal part number CA38241 has added eligibility for the Cessna Citation 525, 650, 680 and 750 aircraft. It is also approved for Beechcraft aircraft. This seal fits fuel caps with part number 9914106-13. Ideal and inexpensive! Don't pay $750.00 for a fuel cap when you only need to replace the seal!
P/N 05-04162 ..... **$49.75**

USHER FLUSH FUEL CAPS

The UD-3 flush fuel cap assembly is an unvented cap similar in design to the #5 style cap. The aluminum mounting ring has a 2" dia. opening and an overall dia. of 3-3/4". It may be riveted, bolted or molded to the tank. It is currently used on many popular homebuilts such as the RV's, Lancair, Velocity & White Lightning. Specify flat or contoured adapter.

UD-3 with Flat Adapter ..... P/N UD-3-F **$44.85**
UD-3 with Contoured Adapter ..... P/N UD-3-C **$43.50**

FUEL CAPS

AERO FUEL CAPS - ALUMINUM

A37

A36

A30-G/S

A512

These English fuel caps are used on most of the worlds 'super cars', bikes, and aeroplanes. They are beautifully made in forged and bright anodized aluminum. The high precision and easy to operate mechanism is very secure and non vented. They are designed to keep the fuel in and the water out. The lock is there to ensure that your tank is free from contaminants. Aero caps are used on Cirrus, Diamond, Cessna Corvallis, Lancair kits, Nemesis, Vans, Velocity and many more aircraft.

Cap assemblies come complete with cap, gasket, and flanges as ordered. Two keys come with the locking version. Fixing can be by rivet, bolt, weld or glass in as appropriate. These are flush caps of outstanding quality which are ideal for virtually any homebuilt aircraft. Order the attach ring separately as needed. The 300 Series is 3-3/4" OD opening 1-3/4", 6 hole 3" pcd. C37 fits 2" and 2.25" Hoses.

A512 & A508 CAPS – 3" entry/ 5.5" OD. Feature special surface seal to avoid water/ice ingress. For Avtur Jet and diesel fuels. Glass-in also avail.

RETROFIT FUEL CAPS

Tired of hard to open gas caps and caps which leak? These retrofit gas caps offer easy fingertip action and secure sealing.

GLASAIR FLUSH FITTING CAP replaces the rubber seal Glasair cap (2.5-entry and 2" hole). Lockable. Epoxy/Flox in place. Based on aero 300 series. P/N 05-01004 ..... **$153.95**

VANS RETROFIT SPRL CAP is a screw action SPRL cap fits existing flange and leaves full aperture opening. Non-locking. The seal relies on existing flange being free of dents and dings.
P/N 05-01005 .... **$54.75**

VANS RETROFIT AERO 20L CAP - Flush fitting key action cap assembly fits inside existing Vans flange. Easy action and secure seal. P/N 05-01006 ..... **$104.95**

LIGHTWEIGHT SPRL FUEL CAPS

SPRL-S-GS

SPRL-S

This cap has secure sealing and easy finger tip operation. These caps are made from the highest quality modern engineering plastics with Viton 'o' ring seals (which can be easily replaced if you should ever need to do so.) The mounting ring is anodized aluminum with the flange recessed to give a perfect flush fit whether it is riveted under a metal skin, as in the RV series, or built into a composite structure. This cap is non vented and recommended to keep the fuel in, the water out and in the locking version, other unwanted items out of your tank. Size: 65 mm O.D.; Wt: 80 grams. SPRL caps are used on Europa, Compair, Glasair, lancair, Murphy, OMF, Rocket, velocity, Zenith and many more experimental aircraft.

FUEL TANK SEALANTS – FUEL ADDITIVES

PRIST® HI-FLASH® HI-FLO™ ANTI-ICING FUEL ADDITIVE

Prist® Hi-Flash® Hi-Flo™ Anti-Icing Fuel Additive: The Original Just Got Better Prist® Hi-Flash® Hi-Flo™ aerosol cans are now available with a redesigned trigger dispensing system that makes them easier and safer to use. The safety trigger gives the user control of additive flow with instant on and off dispensing. Now the trigger dispensing system comes pre-mounted on the can which eliminates leaks at the valve connection. This means less waste, no drips and no spills.

Prist® anti-icing fuel additive comes in a wide range of packaging, making it easy to choose the amount of product and dispensing method for your application. The sizes include: 55-gallon drums, 5-gallon pails, 20-once and 8-ounce aerosol cans.

20 oz. can ..... P/N 09-39555..... **$12.50**
Case (24 Cans)..... P/N 09-39554..... **$325.95**

PRIST® HI-FLASH® LO-FLO™ ANTI-ICING FUEL ADDITIVE -

Hi-Flash Hi-Flo™ vs. Hi-Flash Lo-Flo™ What's the Difference?

The two products are identical in chemical formula. Hi-Flo additive simply means the can delivers the product at a rate compatible with a 40 to 55 gall per minute fuel nozzle rate. Lo-Flo additive can deliver the product at a rate which is typical of avgas, which is 15 to 20 gallons per minute. Lo-Flo is also used in helicopters, which typically have to be fueled slowly.

8 oz. can ..... P/N 09-02048..... **$6.95**
Case (24 Cans)..... P/N 09-02048-1..... **$174.95**

ALCOR TCP FUEL TREATMENT CONCENTRATE

ELIMINATE SPARK PLUG LEAD FOULING!

Lead deposits can foul spark plugs and shorten the life of exhaust valves in your aircraft. "Get the lead out" by using Alcor TCP Fuel Treatment, the only FAA-approved product of its kind for non-turbocharged engines. For use in low-compression piston aircraft engines, Alcor TCP Fuel Treatment scavenges the lead from all low-lead fuel to keep your engine running clean. A simple treatment with every fill-up prevents that unwanted lead build-up, significantly reducing the fouling of your engine and the cost of flying. Only 1 ounce of TCP is required for every 10 gallons of fuel! The handy syringe dispenser allows precise measurement of the amount of TCP to put in your tank. Stop lead build-up before it starts with TCP! Sold in quarts. ***TCP Syringe sold separately: p/n 05-21500 Note: TCP is not to be carried aboard aircraft.***

Quart..... P/N 05-21300 ..... **$39.95**

Accessories

Funnel Adapter - For use on the former plastic bottles
P/N 05-01832..... **$4.35**

Dispenser - Calibrated for proper dosage of the number of gallons treated for 100LL grade of avgas. (For use on the QT. and Gallon bottles)

DECALIN RUNUP FUEL ADDITIVE

Decalin Chemicals manufactures products for the experimental aircraft aviation community. Decalin Fuel RunUp Additive in a 16 ounce bottle, treats up to 320 gallons of fuel. Decalin is not approved for use in the engines of certified aircraft.

Note: There are no HAZMAT shipping charges on this product

Features: • Scavenges Lead in aviation fuel after combustion to prevent lead oxide buildup on valves but still allows the lead to perform the anti-knock function prior to combustion. • It is an excellent additive for auto conversions, where it reduces buildup on oxygen sensors and plugs. If you have to use 100LL, then this stuff is for you. • Prevents valve seat erosion from valve seat micro welding. It is equivalent to TCP (for experimental only). • Does not contain volatile solvents so it is safe to ship and safe in the cockpit. You can carry it with you for out-of-town airports. • Easy to use graduated measuring and dispensing resevoir built into the bottle. No messy syringes! • Tested and stable down to 0 degrees F.Decalin Runup Fuel Additive.

Decalin Runup Fuel Additive Quart..... P/N 05-03412..... **$28.85**

FUEL FRESH

Aircraft sit - Fuel Fresh prevents gasoline from going stale. This process called Autoxidation occurs when oxygen reacts with fuel, thereby forming gum and varnish. Auto gas is particularly susceptible, losing octane performance and flammability, resulting in greater possibility for detonation. Add fuel Fresh and preserve fuel up to 24 months, maintain octane, prevent gum varnish, clean fuel system, and inhibit corrosion. Quick starts and clean burn are assured. Safe for 2 or 4 cycle engines. Handy measuring bottle. 32 fl.oz. Concentrate (Treats 96 Gal.)
P/N 09-38050 ..... **$9.95**

HAMMONDS BIOBOR JF® FUEL MICROBICIDE

For diesel and jet fuel. Recommended in many operating manuals as the preferred, industry standard fuel additive for eliminating Hydrocarbon Utilizing Micro-Organisms (HUM Bugs) in fuel tanks. US Coast Guard Certified and is the only diesel additive that has been given a military MIL Spec number.

HAMMONDS TURBOLINE FUEL STABILIZER

Turboline FS100 is a high-temperature fuel stabilizer and detergent additive designed to minimize carbon or coke deposits in turbine fuel combustion systems.

Turboline FS100 is readily soluble in jet fuel. Batch blending into the fuel is acceptable, but the best procedure is proportional injection. Turboline FS100 is completely compatible with other fuel system additives such as FSII and Biobor JF®. Turboline FS100 is fully approved for all operators using GE, Pratt & Whitney, Honeywell and all variants of the Turbomeca Arriel 1 & 2 engines. Operators with other Turbomeca engine models and Rolls-Royce can obtain approval on request. Please contact your local FAA authority, international authority, or OEM if you have specific questions concerning your equipment. Recommended Treatment Level for Turboline FS100 – The optimum treatment level in the fuel is 625 ppm (vol). This treatment level equates to about 80 oz. of product for every1,000 gallons of fuel. Gallons of Jet Fuel x .000625 = Gallons of Addtive Gallons of Additive x 128 = Ounces of Additive.

PRO-SEAL FUEL TANK SEALANT

P/S 890 CLASS B - A filleting compound for sealing integral fuel tanks and pressurized cabins. It was especially developed for use over a temperature range of -65°F to +275°F and provides outstanding resistance to aircraft fuels (aviation gasoline or jet fuel) and petroleum base lubricating oils. Cures at room temperature and without shrinkage to form a resilient sealant possessing excellent adhesion to aluminum, magnesium, titanium, steel and numerous other materials.

Pint.....P/N 09-38560 .....**$85.50**
Quart .....P/N 09-38565 .....**$168.95**

PROSEAL PR-1776M CLASS B LOW WEIGHT FUEL TANK SEALANT

PR-1776M Class B is a low density, high temperature aircraft integral fuel tank sealant. Service temperature range from -65°F (-54°C) to 250°F (121°C), with very limited excursions up to 360°F (182°C). Designed for fillet sealing of fuel tanks and other aircraft fuselage sealing applications. Cured sealant maintains excellent elastomeric properties after prolonged exposure to aircraft fuels both jet fuel and aviation gas, and will resist limited contact to diphosphate ester based hydraulic fluids. Two-part, manganese dioxide cured Permapol® P-5 modified polysulfide. Suitable for application by extrusion gun or spatula. It cures at room temperature to form a resilient sealant. Shelf Life: 9 months .....P/N 09-02003 .....**$312.95**

PR-1005-L BUNA-N SLOSH COATING

A aircraft integral fuel tank slosh coating designed as a topcoat or barrier coating, cured to resist prolonged exposure to both jet fuel and aviation gas. It has a service temperature range from -100°F (-73°C) to 250°F (121°C), with intermittent excursions up to 275°F (135°C). PR-1005-L is a one part, synthetic rubber solution.Suitable for application by brush, fill-and-drain, dip, or spray. It cures at room temp. Test results are in accordance with MIL-S-4383 specification test methods. Color: Red; Dry time(77°F): 20 mins.; non-toxic.

Pint ..... P/N 09-00323 ... **$107.95**
Quart ..... P/N 09-00324 ... **$207.50**

3M™ AC-236 CLASS A INTEGRAL FUEL TANK AND FUSELAGE SEALANT

C-236 Class A is a brushable, two-component, liquid polysulfide polymer system providing excellent fuel tank and fuselage seals. It has outstanding resistance to aviation gasoline and jet fuel, as well as resistance to chemicals and petroleum products common to the aircraft industry. Maintains its flexibility and bond strength on most metal substrates like aluminum, stainless steel, steel, and many coatings under extremes of temperature, weathering and stress. Pourable liquid easily applied by brush. It has excellent tooling properties.

JEFFCO FUEL TANK SEALER

A 100% solids epoxy system. It contains no solvents and no corrosive or carcinogenic substances to assure low toxicity and ease of application. Provides superior low temp. curing, impact and abrasion resistance, and cures in the presence of moisture or humidity. Brushes on easily. One 3 gallon kit can coat tanks of average size homebuilt. Note: Jeffco Fuel Sealer 9700 FCR(Part Number:09-42226) is made up of 2 parts. Part A and Part B. They both can be sold seperately. Part A is Part number:01-01062 and Part B is part number: 01-01063.

3 Gal Kit.....P/N 09-42226 .....**$544.00**

AEROLIFE POLYPROTECH FUEL TANK SEALANT SINGLE COMPONENT

Fuel Tank Sealant "Single Phase" (one-part) A long lasting, permanently flexible "Single Phase" Polysulfide Sealant. Tack-free in 1 to 3 days, excellent resistance to oils, gasoline and diesel fuel Ideal for fuel tanks; cures to a firm flexible rubber seal with excellent adhesion qualities, can also be sanded and painted. ..... P/N 09-02544 ..... **$8.95**

AEROLIFE POLYPROTECH FUEL TANK SEALANT DUAL COMPONENT

A long lasting, permanently flexible "Dual Phase" Polysulfide Sealant. Fast curing two part system where time of completion is the criteria; cures to a firm flexible rubber seal with excellent adhesion qualities. Excellent resistance to oils, gasoline and diesel fuel; ideal for fuel tanks, cures to a firm flexible rubber seal, a product more for the professional than the home builder. Approximately 45 minute application time.

Sealant..... P/N 09-02543..... **$38.75**
Empty 5.5oz. Cartridge ... P/N 09-02545..... **$1.95**

AEROLIFE LIFE SEAL SEALANT ALUMINUM - 5.2 OZ

Formulated especially for fiberglass and composite Aircraft. LifeSeal® offers a fast-curing, low odor, high adhesion, non-sagging, non-corrosive, non-yellowing formula. Permanent watertight seal for joints subject to structural movement. Will adhere to metal, glass, wood, Lexan®, ABS and certain other products. Can be removed without damaging the aircraft finish is mildew resistant and "Acid Free". LifeSeal® packaged in half cartridges for convenience of working.

Aluminum..... P/N 09-02540..... **$8.35**

ALCOHOL RESISTANT GAS TANK SEALER

This is impervious to all fuel types. Over 2,000,000 sold to date. It is the best way to repair and restore your fuel tank. Simple application, includes extensive application information and product information sheet. Will seal pinhole leaks and prevent rusting. 1 Pint will seal a 10-12 gallon tank. Good for all fuel types. Works well with all metal and fiberglass tanks.

Note: For Experimental Aircraft Only!

Quart..... P/N 09-03477..... **$25.50**
Gallon ..... P/N 09-02566..... **$83.50**

The application life of each sealant is specified by the dash number in the part number.
Examples: AC-236 B-2 6oz. is 2 hour life. AC-250 B-1/6 2oz. is 1/6 hour life.

CORROSION TREATMENT

ACF-50 ANTI-CORROSION COMPOUND

ACF-50 is a state-of-the-art compound for controlling corrosion on aircraft electrical and avionics systems and airframes. ACF-50 is designed for owners of strut equipped Piper aircraft to comply with new Piper bulletin 5280C requiring lift strut inspection. ACF-50 kills the corrosion process with just one application and will last for 24 months. Microswitches, cannon plugs, and relays will remain corrosion free. Plus, ACF-50 will easily free seized nuts, screws and bolts. ACF-50 is qualified under Mil-PRF-8130F, and manufactured under ISO 9000 Certified Processes. Try ACF-50, you will be truly amazed at the results.

CORROSION X

Corrosion X is an excellent penetrant, lubricant, and corrosion filter which confirms to Mil-C-81309E and is perfect for extended corrosion protection of airframes. It is also highly effective in protection of all components in the electrical / avionics systems. On existing corrosion, it penetrates oxidation, displaces lectrolyte and stops electrolysis. On corrosion free surfaces provides an ultra-thin barrier to guard against moisture intrusion and corrosion attack. Treatment lasts 2 years or more, and Corrosion X is non-toxic. Corrosion X is a highly recommend treatment for extending the life of airframes.

Gallon Can ..... P/N 09-01622 ..... **$99.00**

TUBE SEAL (LINE OIL)

Prevents rust and corrosion inside aircraft tubing structures. Tubeseal is a blend containing a very fine preservative oil (MIL-L-21260) which has a characteristic of climbing the tube wall and spreading over the entire surface to provide lasting protection. Penetrates and reveals very small pin holes in a weld and in time, due to exposure, congeal and seal the hole. 1 quart will treat 2 light aircraft fuselages. Complete instructions on label.

Qt. ..... P/N 03-14000 ..... **$26.00**
Pt. ..... P/N 03-14005 ..... **$14.00**

DOW CORNING DC-4 COMPOUND

A grease-like silicone material which provides a moisture proof seal for ignition and electrical systems. More water repellent than waxes. Effective from -70° to 400° F. A low-loss dielectric. Meets spec. MIL-I-8860.

5.3 Oz. Tube ..... P/N 09-27700 ..... **$14.85**

ECK CORROSION COATING

ECK® is a coating used to prevent dissimilar metal corrosion of all metals including stainless steel, aluminum, copper, brass, cold rolled steel and black oxide. ECK® prevents corrosion by providing a barrier between dissimilar metals, sealing out moisture and absorbing energy created by a dissimilar metal reaction. Product can be applied by aerosol or liquid on an unpainted or painted surface. Once applied the coating does not need to be reapplied during routine maintenance. ECK® is dielectric and can be used on electrical connections. Size is 3.75 oz. P/N 09-02138 ..... **$8.95**

DOW 730 SOLVENT RESISTANT SEALANT

A one part RTV paste which cures at room temp. to a tough rubbery white solid. Used for bonding, sealing and caulking where resistance to fuels, oils and solvents is required. Excellent on fuel line pipe threads, repairing fuel lines and tanks, bonding components exposed to fuels, oils & solvents. temp. range -85° to 400°F. Stores refrigerated for years.

3 oz. tube ..... P/N 09-00383 ..... **$93.75**

DOW SILASTIC RTV

General-purpose single-component silicone rubber. Adheres to metals, glass, paint, ceramics, most plastics, and wood. Cures to a firm silicone rubber in 24 hours at room temperature. Seals windshield glass, windows, repair worn rubber parts.

#732 RTV (Clear), 4.7 Oz. Tube ..... P/N 09-27800 ..... **$7.95**

WHIRLWIND PROPELLERS — GOVERNORS

WHIRLWIND PROPS

Whirl Wind has made significant developments in the construction of the carbon composite propeller blades Insuring a strong, light and durable propeller system. The blade twist has been optimized for aerobatic performance, and the wide chord allows for more low-speed thrust and braking on those long down lines.

200C SERIES PROPELLERS

The 200C Series system consists of 2 carbon fiber blades with nickel leading edge erosion shields, aluminum hub and a composite spinner. This propeller is counter-weighted to prevent engine overspeed. This propeller can be flown in rain and off unapproved airstrips.

Performance & Quality. This 200C Series propeller has been designed to maximize the aerobatic performance of your airplane! The exceptional performance is derived from advanced engineering developments, including the use of our latest airfoils. The 200C Series is a two-blade hydraulic constant speed propeller system designed for aircraft using the Lycoming IO-360 engine (180 - 200 hp).

P/N 05-00568 ..... **$9,960.00**

SPECIFICATIONS

Prop Model#:	7755/C214	***System Wt:***	47 lbs (213 Kg)
Engine Type:	Lyc. O-360,IO-360	***Function:***	Aerobatic
Engine HP:	180 - 200 hp	***Control:***	Governor P-940
Max RPM:	2700 RPM	***Finish:***	Gray or White
# of Blades:	2	***Spinner:***	Composite 13",14"
Diameter:	77"		

200C SERIES BENEFITS

* Faster Acceleration
* Better climb
* More vertical performance
* Faster top speed
* More braking effect
* Lower polar moment of inertia

400C SERIES PROPELLERS

The new 400C Series system consists of three carbon fiber blades with nickel leading edge erosion shields, aluminum hub and a composite spinner. This propeller is also counter-weighted to prevent engine overspeed. This propeller can be flown in rain and off of unapproved airstrips.

Experience the exceptional performance of the 400C Series propeller system. Like the 200C Series, performance is derived from advanced engineering developments, including the use of our latest airfoils. The 400C Series is a three-blade hydraulic constant speed propeller designed for aircraft using the Lycoming IO-540 engine (260 - 300 hp).

P/N 05-00569 ..... **$13,040.00**

WHIRLWIND ROTAX 912/914 PROPELLERS

The WhirlWind GA propeller series are ground pitch adjustable aircraft propellers featuring advanced aerodynamic and composite design. The high gloss urethane surface shows off the quality craftsmanship and attention to detail. The blade design is optimized for maximum efficiency and minimum noise. The blade structure is manufactured from theromoset epoxy/graphite composite matrix. This advanced composite structure ensures high strength and blade accuracy in all flight environments. Only WhirlWind propellers come standard with electroformed Nickel leading edge shields for superior fit and abrasion protection. The hub is CNC machined from aerospace aluminum and is dimensionally certified; all hubs are surface treated with shot peen for increased strength and cycle life and then Anodized for corrosion protection.

Specifications: Engines: Rotax 912/914, Diameter: 2 blade - 68-70 in. 3 blade - 64-70 in., Weight: 2 blade - 8 lbs.3 blade - 11 lbs., HP/RPM: 115@5800

Description	Part No.	Price
2 Blade Prop	05-06851	**$1,550.00**
3 Blade prop	05-06850	**$1,525.00**
Accessories		
9" Spinner For Prop	05-06852	**$335.00**
9.75" Spinner For Prop	05-06853	**$335.00**
11.3" Spinner For Prop	05-06854	**$335.00**

PROP & SPINNER POLISHING KIT

This kit was developed specifically to maintain the propeller and spinner on prop & spinner in pristine condition. P/N 09-23525 ..... **$26.95**

PROP PROTRACTOR

Perfect for precision setting of all ground-adjustable props, as well as precision alignment of control surfaces.

P/N 05-31970 ..... **$37.80**

THERM-X HOT PROP PROPELLER DE-ICING KIT

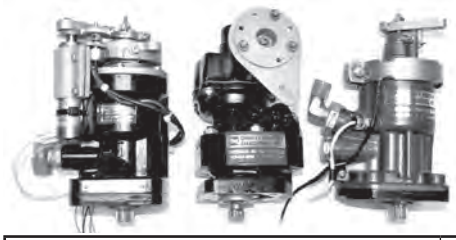
De-icing in under 90 seconds with the push of a button! No Fluids! No Mess! • Therm-X Hot Prop is a complete propeller deicing kit made up of Part 23 certified products (no more scrounging parts to build system) • Available for 2 blade and 3 blade props (currently Continental only, Lycoming to follow) 12V or 24V • 1 year Warranty • Installation documentation • Manufacturer provides support • Weight 4.9 lbs.

2 Blade ..... P/N 05-03383 ..... **$3,685.00**
3 Blade ..... P/N 05-03384 ..... **$3,895.00**

A1633-11 O-RING FOR HARTZELL COMPACT HUB PROPELLERS

The O-ring is A1633-11 or PRP909-6; commonly made by Parker Seal Company. Outside Diameter: .048 Length Under Flange: .096 Flange Diameter: .072 P/N 04-04566 ..... **$1.47**

PROPELLER GOVERNORS



A governor is defined as a mechanical device which is used to sense the speed of a motive device and maintain its speed using mechanical feedback. Quality Aircraft Accessories has been overhauling Prop Governors for over ten years. Whether your requirement is for a Woodward, McCauley or Hartzell, Quality Aircraft Accessories has most governor models available on an overhaul/exchange basis. Should you prefer to purchase the Prop Governor "outright", please add the core charge to the exchange price.

Overhaul work is preformed by Quality Aircraft Accessories at their facility in Tulsa, Oklahoma. All overhauled Prop Governors are warranted for material and workmanship for a period of 180 days.

WOODWARD - Call for price and availability.			

PCU 5000 PROPELLER GOVERNORS

The PCU5000 is lightweight, compact & pumps 30 - 35% more oil which maintains a perfect constant-speed.

Features:
- Compact / Weighs 2 lbs. less than most conventional governors
- New units at a lower cost
- Easy installation - hardware included
- TBO - same as your engine
- 3 year limited warranty
- 4 year extended warranty available

PCU5000 - FAA-PMA Approved for single engine Cessna, Beechcraft /Raytheon, Remis, Mooney and Piper aircraft.
Certified models fit all: Lycoming, Continental and *Rotax engines *(applicable if mounting pad conforms to AND20010)
PCU5000X - Experimental - The PCU5000X is specially engineered for single engine experimental aircraft and can be customized to a specific application.
Experimental models fit all: Lycoming, Continental, Superior Air Parts, Engine Components and *Rotax engines *(applicable if mounting pad conforms to AND20010)

Complete engine number required for order on each model.

PCU5000X Experminental Prop Governor ..... P/N 05-04750 ..... **$1,450.00**
PCU5000 Certified Prop Governor for McCauley / Woodward ..... P/N 05-04751 ..... **$1,872.00**
PCU5000 Certified Prop Governor for Hartzell ..... P/N 05-04752 ..... **$1,787.00**

PROPELLERS

POWERFIN COMPOSITE PROPELLERS

Powerfin is the only composite propeller manufacturer in the U.S. to offer a true Clark-Y airfoil which optimizes surface airfoil for thrust. Powerfin also allows for infinite pitch range with any increment. The pitch alignment tool supplied with every Powerfin takes the guesswork out of pitching your prop. Simply set the stop screw, clamp the tool to the hub, and turn the blade to the stop. The process takes less than 10 minutes for a 3 bladed prop. Powerfin features include superior aerodynamics, noise reducing tips, superior composite construction, very strong low profile hub, durable finish, 2 and 3 blade configurations, fits Rotax 75MM bolt pattern, adapters for every bolt pattern, 32" to 72" diameter, leading edge protection, speed set hub and a two year factory warranty against defects. Weight is 6.5 lbs. for 2 bladed Powerfin and 9.0 lbs. for 3 bladed Powerfin. Complete brochure available on request.

MODEL B

General use propeller although specifically designed to run significantly smaller diameters than most other props. The B-Model runs very well on a 582/2.58 as a three blade 60" for example, and can out produce our competition even when running much smaller diameters. Maximum possible diameter with this model is 65".

MODEL C

Designed specifically for powered parachutes as a three blade 64" on a Rotax 582/2.58, this design works well on Rotax 447's through Rotax 618 as well as the Hirth engines that fall between 40 and 80 horsepower. This is the propeller being sold as standard equipment on 6 of the top 7 ppc's. Maximum possible diameter with this model is 69".

MODEL E

This is our smallest propeller - designed for engines between 15 and 30 horsepower. These narrow blades allow for a maximum possible diameter of 53". Backpack ppc's are the target of this design although the blade has been proven very efficient on many older, fixed wing airplanes with diameter restrictions. This is the ONLY pitch adjustable prop available to backpack units.

MODEL F

This is our largest propeller - designed for larger two-stroke engines that use the higher gear reduction ratios and horsepower up to 115. This prop runs beautifully on a Rotax 503/3.47 as a three blade 66"-70". A two place Kolb can't squeeze any more efficiency out of a 503/3.47 than with our F-model 68" prop. This prop is also the finest prop available for the Rotax 912, 912S, and 914 engines. Maximum possible diameter with this model is 75".

To calculate the cost of a full propeller assembly, take the price for a single blade times the number of blades you need. Then add the cost of the hub you need.

For example: A three blade C-model propeller assembly will include three C-model blades ($420) and a standard three blade Apex hub ($195). The total is $620. All hub assemblies* include mounting hardware, optional locknuts for Rotax engines, and a 1/4" dowel pin used for setting the pitch.

The cost of each type of blade is the same regardless of the diameter.

BLADES

Blade Model	Part No.	Single Blade Price
B-Model	05-06962	**$189.00**
C-Model	05-06963	**$179.00**
E-Model	05-06964	**$169.00**
F-Model	05-06965	**$229.95**

All propeller and hub assemblies include mounting hardware for the Rotax A, B, C, or E box or the Hirth gearbox.

*HUB ASSEMBLIES**

Hub Type	For Blade Models	Part No.	Price
Special Three Blade Apex	E	05-06973	**$289.95**
Standard Two Blade Apex	B, C, & F	05-06966	**$279.00**
Standard Three Blade Apex	B, C, & F	05-06967	**$299.95**
Standard Four Blade Apex	B, C, & F	05-06968	**$325.00**
Standard Five Blade Apex	B, C, & F	05-06969	**$350.00**
Rotax 912 Three Blade Apex	B, C, & F	05-06970	**$335.00**
Rotax 912 Four Blade Apex	B, C, & F	05-06971	**$350.00**
Rotax 912 Five Blade Apex	B, C, & F	05-06972	**$378.00**

Shipping a two or three blade propeller assembly is $20.00. These prices are for all U.S. customers excluding Alaska and Hawaii. Most international orders will ship U.P.S. International - Expedited Service. If you wish a quote on an international order, please supply an address with a postal code so we can quote shipping prices.

PROPS INC. PROPELLERS FOR HOMEBUILTS

Ground Adjustable Propellers by Props Inc. For those who have changes in mind or like the looks of a three blade prop. It has wood blades similar to the Homebuilt line, but with an aluminum hub. Key Benefits: Wide Adjustable Range• Replaceable Blades • Custom Designed

Description	Diameters	Price
VW, Jabiru, Suburu	46" - 58" dia.	**$1200.00**
Three Blade	Up to 90" dia.	**$1500.00**
Four Blade	Up to 90" dia.	**$1750.00**

Homebuilt Props by Props Inc. Homebuilt props come with urethane leading edge protection and fiberglassed wrapped tips. Key Benefits: Durable, yet can save tear down cost in the event of a ground strike. •Specifically designed for the use. • Can be modified for fine tuning.

Description	Diameters	Price
VW, Jabiru, Suburu	46" - 58" dia.	**$435.00**
Gyrocopter, Airboats Mac, VW, Suburu	48" - 56" dia.	**$435.00**
C-90, O-200, O-235 O-320, O-290, O-360	58" - 60" dia. 60" - 72" dia.	**$1148.00**

Specify aircraft type, prop diameter, pitch, bolt pattern, pusher or tractor configuration, and mahogany or birch when ordering any homebuilt propeller. Allow 2-3 weeks for shipment of our custom propellers. Add $30.00 for 3-blade and $50.00 for 3 and 4 blade props-packing and shipping. Maple may be substituted for Birch according to availability.

ULTRALIGHT PROPELLERS BY PROPS INC.

These high quality ultralight propellers are available in both birch and mahogany. The birch props are as split-resistant as mahogany but mahogany props with glass coating are 1/3 lighter than the birch. Mahogany props come with a glass coating - it is optional on birch props. Add $35.00 for leading edge protection on birch or mahogany props. Propeller reconditioning available on all ultralight props. Specify prop dia., pitch, bolt pattern, aircraft and engine type, birch or mahogany, and pusher or tractor configuration.

Allow 2-3 weeks for delivery. Prop drilling included in price. Additional $18.00 for packing and shipping.

Diameter (Specify)	Pitch (Specify)	Price for Plain Prop
36 thru 40	Any (to 36")	**Call for Quote**
41 thru 48	Any (to 46")	**Call for Quote**

67 thru 72	Any (to 46")	**Call for Quote**

Request quotation on prop pitch over 46"

DYNAVIBE PROP BALANCER

DynaVibe is an economical, state-of-the-art dynamic propeller balancer designed specifically for the aircraft industry. DynaVibe displays the magnitude and phase of propeller vibration allowing precise weight adjustments for balanced and smooth engine operation. * Economical - including: • Dynamic Balancer • Accelerometer with 30 ft cable • Optical Pickup and Reflective Tape (Tach) • Carrying Case • No hidden costs or additional items to buy! * Accurate - Reports RPM, Vibration Magnitude * Results - Reduce vibration for a smoother flight, and decrease mechanical wear of engine and instruments

DynaVibe Aircraft Prop Balancer .....P/N 05-04532 ..... **$1,495.00**
DynaVibe Aircraft Prop Balancer with NIST P/N 05-04533 ..... **$1,644.00**
DynaVibe Rotocraft Prop Balancer .....P/N 05-04534 ..... **$1,995.00**
DynaVibe Rotocraft Prop Balancer with NIST .P/N 05-04535 ..... **$2,190.00**

BUZZ MASTER PROP BALANCER

This extremely simple and sensitive tool uses the plum-bob and bevel principle to balance props both vertically and horizontally. It can be carried in a small tool box for easy use in the field and balances props accurately for smooth operation. The precision machined hub works with any prop designed with standard 1" center hole. Illustrated instructions included. P/N 13-17400 ..... **$29.50**

PRINCE AIRCRAFT COMPANY P-TIP PROPS

WOOD P-TIP PROPELLER - Before the "Carbon Fiber P-TIP Propeller", this had been considered one of the most efficient and lowest noise propellers available; the only wood/carbon fiber anti-vortex droop tipped propeller in the world. This propeller is a wood, fixed pitch propeller that relies on the forward pull of the propeller to automatically provide pitch change proportional to the amount of force being applied to the propeller disk. When a propeller operates at a slower airspeed than its maximum capabilities, it has a proportional pull in relation to the velocity of forward motion, so at takeoff and climbing condition the propeller will have its largest forward pull. Due to the scimitar shape, the tip of the propeller cones forward, as the coning angle changes the propeller will lessen pitch that provides shorter takeoffs and higher rates of climb. As the propeller increases in forward speed the disk pressure is reduced, this forces the propeller to increase pitch and top speed. This change in pitch is approximately four inches from takeoff to cruise. The droop P-TIP is to control the air spillage over the propeller tip that delays the tip vorticies which cause drag and turbulence within the propeller arc. A propeller, like a wing, works best when it has unturbulated air over the airfoil sections. The P-TIP delays the vorticies, the propeller then has smooth air to provide best thrust and a pronounced reduction in propeller noise.

Additional benefit of the P-TIP design is the volume of air the propeller produces. When air flows through a standard tip propeller design, the airflow at the tip will flow over the propeller tip. As soon as it passes the tip it will tuck down behind the propeller blade giving a cone of air from the propeller smaller than the propeller diameter. For example, a 72" diameter propeller without a P-TIP will give a volume of air from the propeller of approximately 68" of diameter; a P-TIP propeller will provide 72" of air volume. This means that a 68" P-TIP will give the same volume of air as a standard tip 72" propeller. By reducing propeller diameter there is less frontal area or flat plate drag of the aircraft. Higher top speeds are the result without sacrificing takeoff or climb. Your benefit is a lightweight, pitch changing propeller that will give you the best of short takeoff, maximum cruise, and more flying enjoyment in a quieter cockpit.

COMPOSITE P-TIP PROPELLER - Composite P-Tip Props retain the same qualities of the wood P-TIP but are more efficient and durable. Prince uses the reliable time proven wood core of hard maple, then completely encloses the blades in multiple layers of high tensile strength composites. The hardwood core absorbs the dangerous harmonic vibrations and benefits your airframe by smoothing the engine power pulses, and the composite wrapping allows the airfoils sections to be thinner, reducing drag while increasing durability and locks each blade into operating at precise angles. The best working propeller is one that is rigid enough to allow all blades to move alike, thin at the cord section to eliminate as much drag as possible, and strong enough to satisfy the large amounts of stress required during flight. Urea Formaldehyde adhesive meets Military Specifications to insure reliable operation and trouble free flying for the life of the propeller. Propellers are finished in a metal prop gray color, this shade will match nearly every paint scheme, the Durability and Ultrahigh Gloss finish is a two-part Urethane, machine buffed to achieve a propeller that reflects the quality of manufacturing like no other propeller available.

Note:Request Prince Propeller order form at time of order we will fax or mail form to you to complete to insure correct propeller is furnished for you application.

MCCAULEY MET-L-PROPS

Original equipment on most Cessna aircraft and popular with owners of many other designs. McCauley has earned an enviable reputation for producing high-performance propellers. Most popular numbers are available from local stock. The Met-L-Prop number designates the model, diameter and pitch. Example: CM7150 is a model CM propeller with a 71 inch diameter and 50 inch pitch. When ordering a new prop which requires a doweled spacer, both spacer and bolt kit are included. Spacers and bolt kits may also be ordered separately. When ordering, specify whether engine has a tapered or flanged crankshaft. Tapered crankshaft requires Kit No.B-4622-6. Flanged crankshaft requires Kit No.B-4622-9. Elliptical tip models 1A90/CF and square tip models 1B90/CM having the same diameter and pitch are directly interchangeable except for CF7538 on Cessna 150G, H, J and K model seaplanes.

PRINCE AIRCRAFT PROPELLER ORDERING INFORMATION

HOW TO DETERMINE COST

1. Select style and price, P-TIP or Composite P-TIP propeller.
2. Multiply propeller diameter times price per inch, e.g.:
High Horsepower 68" dia. P-TIP propeller, 68 x 13.51 = **$918.68**,
Composite P-TIP 68 x 18.48 = **$1256.64**
3. Add Leading Edge Protectors, if required.

MULTI-BLADE PROPS

Three-Blade..... 2 Blade rate x 3 Four-Blade .....2 Blade rate x 4

LEADING EDGE PROTECTOR

Up to 48" diameter .....**$61.00** 49" - 110" **$83.00**

AIRCRAFT SPRUCE WEST

SENSENICH PROPELLERS

SENSENICH METAL PROPS

Most popular models of Sensenich metal propellers are available in local stock for immediate shipment. Installation bolt kit is furnished with each propeller. Attaching kit for flange shaft will be packed for all Continental installations unless taper shaft installation is specified. Propellers may be shipped via UPS. Partial List - Request Prices on Unlisted Models. Approximate Shipping Weight 40 Lbs.

SENSENICH FLIGHT PERFORMANCE ALUMINUM PROPS FOR VANS AIRCRAFT

For the Lycoming 0-235 (125 HP): 72 CK Series Propeller.....72 CK Series Propeller.....P/N 05-01468.....**$3,171.00**
For the Lycoming 0-320 (150 or 160 HP): 70 CM Series Propeller.....70 CM Series Propeller.....P/N 05-01469.....**$3,438.00**
For the Lycoming 0-360 (180 HP): 72 FM Series Propeller .....72 FM Series Propeller .....P/N 05-01470.....**$3,447.00**

Both Systems Include:
- High Performance Fixed-Pitch Aluminum Propeller
- Aluminum Propeller Extension Included
- 2 yr or 200hr warranty (whichever comes first)
- Personalized service
- Attaching Hardware Included
- A full 2" dia. reduction allowed for repairs
- Propeller system that can be serviced anywhere.

Specify aircraft model, engine, & pitch (standard, climb, or cruise) when ordering. Also available for Murphy Rebel, Elite, Glasair, Thorp T-18, Tri-R, Midget Mustang, & many other homebuilts.

SENSENICH ALUMINUM PROP BOLT KITS

These propeller bolt kits for Sensenich aluminum propellers include the bolts and washers for propeller attachment.

Propeller Application	Bolt Kit Part No.	Price	Propeller Application	Bolt Kit Part No.	Price

PROPELLER BUSHINGS

SENSENICH A-437 For installations with Continental taper shaft. 5/8" O.D. x 3/8" I.D. x 1/2" Long.
Set of 6.....P/N 05-01127..... **$33.75**

MCCAULEY A-1170 5/8" O.D. x 3/8" I.D. x 11/16" Long.
Set of 6.....P/N 05-01128..... **$128.50**

SENSENICH PROPELLER FOR CESSNA 172'S

This propeller is STC's for Cessna 172's I thru P using Lycoming 0-320 series engines. It is available in pitches of 56 to 60 and no spinner change is required. Features a full 2 inch diameter reduction. Model 74DM7S14-0-56-60 (Specify pitch)..... **$2,562.95**

PROPELLERS

SENSENICH WOOD PROPS

Original equipment on Piper, Aeronca, Taylorcraft, Cessna, Ercoupe, Fairchild, and others. Metal tipping and high lacquer finish. Bolts and mounting plates not included. 18 lbs. each. FAA approved for certificated aircraft. Also excellent for experimental aircraft. Aircraft Spruce is an authorized Sensenich factory distributor. *Props w/asterisk are most commonly used props & are normally in stock for immediate shipment.

AP

AIRBOAT AND LOW HORSEPOWER PROPELLERS

We carry the complete Arrowprop Propeller Co. line of props used on airboats, ice sleds, hovercraft, bowfishing, air drives, and wind machines. These props are for use with engines such as Briggs & Stratton, Rotax, Cuyuna, Tecumseh, Hirth, Yamaha, Kawasaki, Onan, wisconsin, Kohler, Honda, and others. The props are available in diameters from 26" to 48" and with 2, 3, 4, 5, 6, or 8 blades. All propellers have a 1-3/4" prop hub except for 48" prop which have 2" hubs.

CALL WITH YOUR REQUIREMENTS AND REQUEST QUOTATION.

TENNESSEE PROPELLERS

Each Tennessee propeller is solidly built by skilled craftsmen from the finest selection of hardwoods. The laminated propeller is carefully assembled, carved, balanced and finished. Standard Rotax hub bolt pattern (others available on request). When ordering, please tell us: 1. Engine type and displacement 2. Left hand or right hand drive 3. Pusher or tractor configuration 4. Gear or belt drive, and reduction ratio 5. Prop diameter and pitch Direction of prop rotation is determined by viewing rotation of prop from behind the aircraft. Left hand rotation is counter-clockwise, right hand rotation is clockwise. If you're not sure about prop size, give us a call.

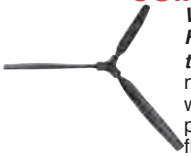
64"	**$255.95**	**$260.95**	**$277.95**

Order by P/N. Use basic P/N at top of column, and complete P/N with prop diameter.

When ordering please give the following:

1. Specify clockwise or counter-clockwise rotation
2. Specify pusher or tractor type.
3. Give center hole size.
4. Give bolt circle diameter
5. Give number of bolt holes and sizes.
6. Specify Aircraft model or prop pitch. For Vinyl Leading Edge Add **$20.00** Additional. For Polyester Leading Edge Add **$45.00** Additional.

WARP DRIVE ADVANCED COMPOSITE PROPELLERS



Warp Drive's Advanced Composite Carbon Fiber propeller has a structural strength near that of metal propellers. Because of the stiffness achieved by using carbon fibers, the prop will do very little coning (bending forward) under power. Proper fiber placement allows the prop to flex torsionally for maximum cruise efficiency. The strongly fixed position of the blades along with optimum torsional performance translates into more thrust than conventional propellers.

The interior structure of this new propeller is all carbon fiber - no fiberglass, no foam, no filler - an all carbon fiber matrix combined with top quality hybrid epoxies. Carbon fiber is one of the strongest building materials available. When properly engineered, carbon fiber can achieve the strength and stiffness of a metal part, as demonstrated by its wide range of industrial and aerospace uses.

WARP DRIVE PROPELLER BLADE TYPES

All propellers and blade types are available with Stainless Steel Leading Edge protection as an option at additional cost.

1. STANDARD ADVANCED COMPOSITE CARBON FIBER BLADES
   The Standard Carbon Fiber Blades can be used on Rotax, Arrow, VW and similar engines.
2. HIGH HORSE POWER ADVANCED COMPOSITE CARBON FIBER BLADES
   The Carbon Fiber HP Blades will be required for use on Lycoming, Continental and some auto conversion engines.

WARP DRIVE HUBS

Warp Drive offers two types of hubs of our propellers. First is our Standard Hub. This is an assembly of anodized aluminum plates and composite clamping blocks. It accommodates standard and custom hub bolt patterns of up to 3 1/8".

The second type of hub is the HP Hub. This hub consists of two halves machined from solid aluminum. It is the same weight as the standard hub assembly and can accommodate Rotax, Arrow, VW, SAE I Continental, SAE II Lycoming and custom bolt patterns.

STANDARD CARBON FIBER PROPELLER

ORDERING A PROPELLER

We request all applicable information below when you are ordering:

1. Name, Address, Phone Number(s)
2. Vehicle - type, make, model, cruise speed, tractor/pusher,
3. Engine - make, horse power,
4. Reduction Drive - type, ratio. If there is no reduction drive, (State Prop RPM)
5. Hub Requirements - A) Bolt circle dia, B) Number of bolts, C) Bolt dims, D) Center hole dims, E) Drive lug dimensions (if applicable),
6. Propeller Description-rotation, diameter, structural limitation of diameter manufacturer's suggested prop description, no. of blades, tractor or pusher.

QUICK ADJUST SYSTEM IVOPROPS

The Quick Adjust System Ivoprops allow you to adjust the pitch on the ground in a matter of seconds by turning the screw adjustor in the center of the prop. The supercams are welded on the end of the torsional rods. Each supercam fits into the groove in the screw adjustor. Turning the screw adjustor causes each cam to rotate and turn the torsional rod and thereby twist the blade therefore changing the pitch. Specify aircraft and engine make and model, and propeller diameter. * Ultralight Ivoprop (3.5" cord, 48" to 72" diameter) is for engines up to 100 hp. * Medium Ivoprop (4.5" cord, 52" to 74" diameter) is for engines around 100HP. * Magnum Ivoprop (5.5" cord, 58" to 76" diameter) is a high-horsepower version for engines up to 700 HP. * Magnum Paddle Ivoprop (5.5" constant cord, 58" to 84" diameter" is for high-horsepower air boats and bush planes.

Ultralight 2-Blade Ivoprop ..... P/N 05-33220 ..... **$425.95**
Ultralight 3-Blade Ivoprop ..... P/N 05-33225 ..... **$584.00**
Ultralight 6-Blade Ivoprop ..... P/N 05-33235 ..... **$1,167.00**
Medium 2-Blade Ivoprop ..... P/N 05-00692 ..... **$796.00**
Medium 3-Blade Ivoprop ..... P/N 05-00693 ..... **$1,045.00**
Magnum 2-Blade Ivoprop ..... P/N 05-33240 ..... **$1,025.00**
Magnum 3-Blade Ivoprop ..... P/N 05-33250 ..... **$1,342.00**
Magnum 6-Blade Ivoprop ..... P/N 05-33260 ..... **$2,420.00**

IN-FLIGHT ADJUSTABLE PITCH IVOPROPS

The In-Flight Adjustable Pitch Ivoprop allows the pilot to change the propeller pitch in flight through a toggle switch mounted in the cockpit. Pressing the toggle switch one way sends an electric current through the graphite brushes to the slip rings and finally to an electric motor. Torque from the electric motor is channeled to a planetary gear drive which turns the lead screw. Torsional rods transmit movement from the center of the prop to the outside section of the blades, causing the blade to twist therefore changing pitch. Total time for the full range of adjustment is about 5 seconds. Mounts directly to any Rotax gear box (B or C0 and can be adapted to VW, Subaru, Hirth, Arrow and smaller Lycoming and Continental engines. Older model Ivoprop ground adjustable props can be converted to the In Flight System with the Retrofit Kit. In Flight adjustable hub comes assembled with complete instructions. Weight of 3 blade 72" In Flight Adjustable Prop including all required parts (furnished) is 9 lbs. Specify aircraft and engine make and model, and propeller diameter (48" to 76"). Standard Ivoprop is for engines up to 100 hp. Medium Ivoprop is for engines around 100HP (52"-74" prop dia.). Magnum Ivoprops are a high-horsepower version with wider blades and a bigger hub for engines up to 700 HP (56"-76" prop. dia.).

Standard 2-Blade Ivoprop Kit ..... P/N 05-33205 ..... **$1,079.00**
Standard 3-Blade Ivoprop Kit ..... P/N 05-33210 ..... **$1,238.00**
Standard Retrofit Kit for Ground Adjustable Ivoprops
P/N 05-33215 ..... **$761.00**
Medium 2-Blade Ivoprop ..... P/N 05-00694 ..... **$2,174.00**
Medium 3-Blade Ivoprop ..... P/N 05-00695 ..... **$2,426.00**
Medium Retrofit Kit for Ground Adjustable Ivoprops
P/N 05-00696 ..... **$1,503.00**
Magnum 2-Blade Ivoprop Kit ..... P/N 05-33270 ..... **$2,451.00**
Magnum 3-Blade Ivoprop Kit ..... P/N 05-33280 ..... **$2,755.00**
Magnum 6-Blade Ivoprop Kit ..... P/N 05-33290 ..... **$3,849.00**
Magnum Retrofit Kit for Ground Adjustable Ivoprops
P/N 05-33295 ..... **$1,590.00**

CONSTANT SPEED ELECTRONIC GOVERNOR

• Converts In-Flight Adjustable Ivoprop into the constant speed propeller • Plugs into existing wiring harness • Size: 2" x 4" x 1" P/N 05-00601 ..... **$347.00**

ULTRA-PROP

Select 2, 3, or 4 blade props. Each blade is moulded from a high strength glass-reinforced composite. High efficiency airfoil design means high thrust from a 59" diameter prop. One set of pitch blocks included, additional blocks available in 1° increments. Universal hubs made from high strength composite. Accommodates most popular bolt-mounting patterns. Each prop comes complete with all assembly and mounting hardware, and complete instructions. Black blades and hub are beautifully complemented by high impact polyester spinner. Blades can be trimmed to length, allowing custom prop diameters as small as 48".

AP

BN-1 BULLET NOSE SPINNER KIT FAA-APPROVED

Designed specifically for fixed pitch wood or metal props installed on horizontal opposed engines with prop hub thickness not exceeding 3-5/8". Kit includes 8" diameter x 12" long spinner dome center hole is 2.68" diameter, two aluminum bulkheads, mounting hardware, templates for trimming dome to fit prop hub and complete installation instructions. Ideal spinner for homebuilts. Wt. 1-3/4 lbs. FAA approved for installation on many certificated aircraft such as Aeronca, Cessna, Luscombe, Piper, Stinson and Swift. FAA approval list on request.
Note: ACS Plates will only work with ACS Domes. Made in the U.S.A.

Complete Kit	P/N 10005	**$283.95**
Bulkheads Only: Front	P/N 05-02677	**$69.75**
Rear	P/N 10004-R	**$69.75**
Dome Only	P/N 10003	**$156.95**

SN-4 SPINNER KIT

Aluminum spinner, 9-7/8" diameter, 11-1/8" long. Center hole is 2-1/4" diameter Spinner dome fabricated from .080'' thick aluminum for durability. Wt. 2 lbs. Furnished with mounting hardware and trimming and installation instructions. Used on Q2, Q200 and other homebuilts. To order, see "How To Order Spinner Kits". Made in the U.S.A.
Note: ACS Plates will only work with ACS Domes.

Complete Kit	P/N 10303	**$176.95**
Rear Bulkhead Only	P/N 10302	**$53.00**
Dome Only	P/N 10301	**$113.95**
SN-4 Kit (undrilled bulkhead)	P/N 05-13200	**$198.50**
Optional Front Bulkhead (Not Incl.In Kit)	P/N 10304	**$59.75**

Front Plate available for hub thicknesses of 3-3/8", 3-1/2" and 2-3/4" only.

HOW TO ORDER SPINNER KITS

Please furnish the following information so that we may provide the proper spinner kit for your combination of prop hub thickness, prop bolt and prop bushing diameters, and bolt hole pattern.

- Spinner Model
- Prop Hub Thickness (T)
- Prop Bolt Dia. (d1)
- Prop Bolt Bushing Dia.(d2)
- Specify SAE #1 or SAE #2, SAE #3, or Rotax Pattern
  *Rotax & 4" Pattern are an additional **$25.00**
- Also Available in 6 hole, 4" Bolt circle Diameter.
- Forward Facing Flange Additional **$60.00** Fee
- ACS machine fee PN 05-04904 **$25.00**

**** Note: SAE #1 = 4-3/8" dia.; SAE #2 - 4-3/4" dia.; SAE #3 = 5-1/4" dia.***

SPINNER EXTRA HIGH POLISH "CHROME"

We now offer our complete line of aircraft spinners "high polished", which gives them a beautiful chrome-like appearance. If spinner is to be painted this is not necessary, but if it will be bare, add the High Polish option for a bright, shiny look. Add these prices to the price of the standard spinner and specify "high polish". Made in the U.S.A.
Note: ACS Plates will only work with ACS Domes.

BN-1	**$69.00**	SN-4	**$63.00**	AC-1	**$82.00**
BN-3	**$82.00**	SN-5	**$66.00**		

ALL SPINNERS MADE ON STEEL TOOLING

LIGHT SPORT AVIATION SPINNERS

These high quality 8" and 9" spinners and bulkheads are made in the USA from 6061 aluminum and heat treated to T6 condition using Nadcap approved heat treat process. Meets or exceeds all physical and mechanical properties required to meet AMS 2770H and AMS4027. These spinners are highly polished and include standard prop cut-outs for Warp Drive, IVO, GSC 3 blade propellers and can be modified to accept other propellers. The spinners come coated with a protective finish that is easily peeled off after installation. The bulkheads are furnished predrilled to fit a Rotax 912 or 914 and Viking HF110 and can be modified for other engine applications.

Spinner 8"	P/N 05-06846	**$279.00**
Bulkhead 8"	P/N 05-06847	**$189.00**

Bulkhead 9"	P/N 05-06849	**$188.00**

BN-3 SPINNER KIT FOR LYCOMINGS

Aluminum spinner, 12-1/16" diameter, 13-1/4" long. Center hole is 2-5/8" diameter. Designed for installation on homebuilts with Lycoming 0-290, 0-320 and 0-360 engines. Spinner dome and bulkheads fabricated from .080" thick aluminum for durability. BN-3 spinner kits available for props with hub thicknesses of 3-7/16", 3-9/16", 3-3/4", 4-1/4", 4-11/16", 5" and 5-3/8". Wt. 3 lbs. Furnished with predrilled front and rear bulkheads, mounting hardware and trimming and installation instructions. To order, see ***"How To Order Spinner Kits".*** Note: ACS Plates will only work with ACS Domes. Made in the U.S.A.

ADVANCED COMPOSITE AC-I SPINNER DOME

This new super-light spinner dome weighs about 8oz. which drastically reduces the spinner assembly weight and the need for lead ballast in the nose of pusher-type aircraft. This weight savings, combined with the revolutionary new tapered spinner dome which reduces drag can increase the cruise speed of almost any pusher-type homebuilt. These spinners have been used on a modified VariEze to win several air races.
This composite dome uses the AC-1 10102HD aluminum bulkheads and the 10104 fairing. The spinner's bulkhead is spun from 6061 aluminum sheet. The premium bulkhead is turned from 6061 billet for more fatigue resistance and is grey anodized.

AC-1 Advanced Composite Dome	P/N 01-28000	**$289.50**
AC-1 10102HD Bulkhead (Standard)	P/N 10102HD	**$83.50**

COMPOSITE SPINNERS FOR PIPERS & CESSNAS

P/N 05-00744

These new composite materials spinners and bulkheads are FAA/PMA approved and STCs to replace aluminum spinners and bulkheads on the Piper aircraft models listed below. Bulkheads are constructed for maximum strength and resistance to fatigue due to vibration. Pipers metal versions often crack in 200-300 hours, whereas the composite assemblies have been tested over 4000 hours on a PA-28 with no failure. Spinners for twins & all bulkheads are warranted against vibration fatigue for the life of the aircraft by the factory. ***Includes hardware & O-rings.***

UHS FIBERGLASS SPINNERS

UHS spinners are practical, attractive, and flight proven having enhanced the apperance of many different aircraft. The spinners are available in 8", 9", 10", 11", 12" & 14" diameters for various engine and propeller combinations. For GSC, Ivoprop, Warp Drive, and Power Fin propellers using Rotax, Lycoming, Cont. & Mosler engines, spinners are sent cut out and assembled.

For pre-drilled cut-outs we require the following information:

1. Make and size of engine.
2. Make of Propeller.
3. Number of Blades.
4. Size required.

Given adequate information, we can also fabricate spinners for many other propeller-engine combinations. Call with your requirements and we will assess your particular application.

PROP EXTENSIONS

Precision machined prop shaft extensions are available from Aircraft Spruce & Specialty Co. Don’t settle for lesser quality at advertised “savings”. Prop extensions are machined from solid 2024 T-351 aluminum bar, and are supplied with clear anodized finish and stainless steel drive lugs (installed). 7” diameter prop side is recommended for 0-320 engines running wood props, and is required for 0-360 engines (or larger) running wood props. For Cont. 0-200, you may choose 5.5” diam on engine side. If prop is metal, please measure depth of drilled counterbore at all 6 bolt hole positions.

DUC SWIRL PROPELLERS

The aerodynamic design of this propeller has been designed to have a "constant speed" effect.
The blades that are made from unidirectional layers of carbon fiber prepeg epoxy and their structure has been defined in order to obtain the maximum stresses in torsion and bending. Therefore the effect of "constant speed" is not related to the deformation of the blade but its geometry and its particular profile.
Because of the extra flat profile and low chord,excellent performance is obtained in both: Aerodynamic and acoustic performance, but also in fuel consumption.
Thanks to the "constant speed" effect, there is very small engine speed difference between the aircraft on ground and in flight.
This propeller allows for excellent performance throughout the flight envelope including:
• Improved efficiency at takeoff and climb rate due to higher engine speed
• Many cruise extension
• A high user comfort
Propeller is available in Two-Blade and Three-Blade.
For engines with high power, its structure can be reinforced (SWIRL-R).
The Inconel SWIRL blade is protected with Inconel metallic reinforcement. It increases the life of the propeller and also its performance due to a change in its inertial behavior.

DUC FC WINDSPOON PROPELLERS

The FC WINDSPOON propeller, with its revolutionary shape called WINDSPOON, offers unrivalled performance.
Its technical innovations have several consequences:
• Better performance.
• Lower fuel consumption
• Less Noise
The very special profile of the FC WINDSPOON blade has been calculated to optimize the airflow over the whole surface of the WINDSPOON.
The offset of the twisting results in better reduction of friction and a longer life.
The FC WINDSPOON propellers are produced in accordance with the strictest standards of the industry, with unique equipment specially made to ensure the highest quality.
Propeller is available in Two-Blade and Three-Blade.
For engines with high power, its structure can be reinforced (FC-R WINDSPOON).
The Inconel FC WINDSPOON blade is protected with Inconel metallic reinforcement. It increases the life of the propeller and also its performance due to a change in its inertial behavior.
Available Diameter: 068”

DUC SPINNERS

The DUC spinners are carried out in preimpregnated carbon fiber materials with on the surface woven carbon fabric.
The mounting plate, entirely out of carbon, thickness 0.12" (3mm), is produced with the Carbon Forge® process, also used for the manufacture of the DUC propeller hubs.
This patented process makes it possible to increase considerably the mechanical characterestics of the composite parts.

SEE WWW.AIRCRAFTSPRUCE.COM FOR COMPLETE DISCRIPTIONS & PRICING ON ALL DUC PROPELLERS, SPINNERS, AND ACCESSORIES.

SMOKE SYSTEMS

SMOKE SYSTEM KIT MODELS SA-100 SERIES

All of the SA-100 series smoke system oil tanks are the same size (demensions). Models Differ by oil suction tube design, oil pump mounting location and oil tank configuration. Note: ***All kits are available with 12 or 24 volt DC smoke oil pumps. Please specify 12 or 24 volt DC when ordering.***

SA-100 -

•For Level and Non-Continuous inverted, positive G flight.
•Top mounted oil pump.
•All hardware for complete installation.
•Step by step instructions.
•Height (To top of fill cap is) is 15”
•Width (End where oil pump is mounted) is 11”
•Depth (Pump to opposite end of tank) is 8.5”
•Oil tank capacity: 3.5 US Gallons
•Approx. oil used per minute: .8 Us Gallons
•Approx. total run time: 5+ minutes

P/N 05-01438 ..... **$830.00**

SA-101 -

•For continious inverted flight.
•Top mounted oil pump.
•All hardware for complete installation.
•Step by step instructions.
•Height (To top of fill cap is) is 15”
•Width (End where oil pump is mounted) is 11”
•Depth (Pump to opposite end of tank) is 8.5”
•Oil tank capacity: 3.5 US Gallons
•Approx. oil used per minute: .8 Us Gallons
•Approx. total run time: 5+ minutes

P/N 05-01439 ..... **$830.00**

NOTE: Add 1.5” to base on each side or end for bracket width.

SA-100H-

•For Level and Non-Continuous inverted, positive G flight.
•Side / End mounted oil pump.
•All hardware for complete installation.
•Step by step instructions.
•Height (To top of fill cap is) is 11”
•Width (End where oil pump is mounted) is 12”
•Depth (Pump to opposite end of tank) is 15”
•Oil tank capacity: 3.5 US Gallons
•Approx. oil used per minute: .8 Us Gallons
•Approx. total run time: 5+ minutes

P/N 05-02888 ..... **$830.00**

SA-101H-

•For continious inverted flight.
•Side / End mounted oil pump.
•All hardware for complete installation.
•Height (To top of fill cap is) is 11”
•Width (End where oil pump is mounted) is 12”
•Depth (Pump to opposite end of tank) is 15”
•Oil tank capacity: 3.5 US Gallons
•Approx. oil used per minute: .8 Us Gallons
•Approx. total run time: 5+ minutes

P/N 05-02889 ..... **$830.00**

NOTE: Add 1.5” to base on each side or end for bracket width.

SA-102-

•For Level and Non-Continuous inverted, positive G flight.
•Bracket mounted oil pump end or side.
•All hardware for complete installation.
•Step by step instructions.
•Height (To top of fill cap is) is 13”
•Width (End where oil pump is mounted) is 11”
•Depth (Pump to opposite end of tank) is 13”
•Oil tank capacity: 3.5 US Gallons
•Approx. oil used per minute: .8 Us Gallons
•Approx. total run time: 5+ minutes

P/N 05-01440 ..... **$830.00**

SA-103-

•For continious inverted flight.
•Bracket mounted oil pump end or side.
•All hardware for complete installation.
•Step by step instructions.
•Height (To top of fill cap is) is 13”
•Width (End where oil pump is mounted) is 11”
•Depth (Pump to opposite end of tank) is 13”
•Oil tank capacity: 3.5 US Gallons
•Approx. oil used per minute: .8 Us Gallons
•Approx. total run time: 5+ minutes

P/N 05-01441 ..... **$830.00**

NOTE: Add 1.5” to base on each side or end for bracket width.

SMOKE SYSTEMS

SMOKE SYSTEM KIT MODELS SA-200 SERIES

Both of the SA-200 series smoke system oil tanks are the same size (dimensions). Models Differ by oil suction tube design.

SA-200-

- For Level and Non-Continuous inverted, positive G flight.
- Any Dimension top.
- Pump can be mounted on top or any side surface.
- Fill cap and any other fittings installed where you want them.
- All hardware included for complete installation.
- Height (To top of fill cap is) is 14”
- Width (End where oil pump is mounted) is 10”
- Depth (Pump to opposite end of tank) is 17.25”
- Oil tank capacity: 5.5 US Gallons
- Approx. oil used per minute: .8 Us Gallons
- Approx. total run time: 7+ minutes

P/N 05-02887 ..... **$930.00**

SA-201-

- For continuous inverted flight.
- Any Dimension top.
- Pump can be mounted on top or any side surface.
- Fill cap and any other fittings installed where you want them.
- All hardware included for complete installation.
- Height (To top of fill cap is) is 14”
- Width (End where oil pump is mounted) is 10”
- Depth (Pump to opposite end of tank) is 17.25”
- Oil tank capacity: 5.5 US Gallons
- Approx. oil used per minute: .8 Us Gallons
- Approx. total run time: 7+ minutes

P/N 05-02891 ..... **$930.00**

NOTE: Add 1.5” to base on each side or end for bracket width.

SA-201T SMOKE KIT OIL PUMP

This 5.5 Gallon smoke system kit is for continuous inverted flight with oil pump mounted on the top of the oil tank. This particular kit has been installed in the baggage area of a CJ6A, T34A and RV7 to date. Use this kit when height is not an issue. Dimensions: Height (to top of oil pump) 16-1/4”, Width (left to right) 13”, Depth (end with label) 10”

P/N 05-03398 ..... **$930.00**

SA-200T Non-Continuous Inverted flight ..... P/N 05-04479 ..... **$930.00**

Note: Add 1.5” at base of tank on sides and ends for bracket width.

AP

ACCESSORIES FOR THE SA-100 & SA-200 SERIES

Accessories	Description	Part No.	Price
All components less the oil tank	Virtually every part you will need to complete your smoke system except the oil tank	05-03366	**$630.00**
Second injector kit with initial order	Not Necessary for good smoke, but will make the smoke trail more dense.	05-02890	**$108.00**
Second injector kit post order	Not Necessary for good smoke, but will make the smoke trail more dense.	05-02892	**$108.00**
External Fill Kit	This kit has everything right down to the vinyl letter transfer “Smoke Oil Only” and detailed installation instructions.	05-03595	**$124.95**

INJECTOR ONLY KIT

The kit includes:
1 Injector
2 Injector Mounting Clamps
1 AN-4 90 degree fitting
1 AN-4 Straight Fitting
1 Piece of Safety Wire
1 Installation Instructions
Customer must provide: Engine Make , Engine Model and/or Exhaust Diameter at Injector Location (injector should be installed just after the Y in the header pipes on typical Lycoming O-360 / O-540 or similar and 15” or more before the end of the tail pipe on radial engines).
NOTE: This injector is intended for PISTON ENGINES.

P/N 05-06884 ..... **$68.00**

SMOKE OIL PUMP ONLY

The kit includes:
1 Smoke Oil Pump
1 Molex Quick Disconnect Wire Harness
1 Instructions
1 90 Degree AN-6 Fitting
2 Straight AN-6 Fittings
2 14 Gauge Wire Butt Connectors
Screws, Nuts Washers – Mounting Hardware
Customer Must Specify 12 Volt DC or 24 Volt DC.

P/N 05-04477 ..... **$249.00**

SMOKE OIL TRANSFER PUMP KIT

No more spills! Fill your smoke oil tank quickly and cleanly with this 8 gallon per minute smoke oil transfer pump kit. Made with high quality components including Goodyear rubber hose, heavy duty pump, dispensing nozzle with built in swivel and aluminum hose connection fittings with filter screen and clamps! All you will need to complete the kit is any automotive (or aircraft) type 12 Volt DC battery, and your container of smoke oil!
The step by step instruction manual makes set up and use safe and easy. This kit will work with any smoke oil supply container.
Included: Dispensing nozzle with built in swivel and ¾” barb fitting, Oil pump with built in on/off switch and 6 foot cable with clamps for connection to battery, 18 foot x ¾” id delivery hose and 13 foot x ¾” id suction hose, Suction screen barb fitting and oil pump barb fittings with clamps.

P/N 05-04971 ..... **$214.00**

SMOKING AIRPLANES.COM HAT

Your headset will fit great with these low profile, unstructed, deluxe, normal dyed cotton and stone washed hats! Features: Embroidered company name and logo Contrasting grey under bill & sweatband Self-fabric sweatband & strap with brass buckle ....

Khaki P/N 05-04480 ..... **$12.99**
Forest Green ..... P/N 05-06951 ..... **$12.99**
Brown ..... P/N 05-06952 ..... **$12.99**

SMOKING AIRPLANES PREMIUM BLEND SMOKE OIL

Smoking Airplanes Premium Blend Smoke Oil is recommended for use with all Smoking Airplanes brand smoke system kits. Features: • Brilliant white smoke • Persistent hang time • Equal or better than leading smoke oil brands.

5 Gallon ..... P/N 05-06949 ..... **$84.75**
55 Gallon ..... P/N 05-06950 ..... **$684.75**

SUPERDRI AVIATION SMOKE OIL

Super*Dri Aviation Smoke Oil is specially formulated for use in all aircraft. Whether it is a Full Scale or Model airplane Super*Dri is the cleanest burning oil you can purchase. Its pure paraffinic base creates big billowing, persistent smoke. Super*Dri is less messy. There is virtually no mess to clean off your plane, unlike the others. Super*Dri is environmentally safe and biodegradable.

Super-Dri Aviation Smoke Oil - 1 Gallon.....P/N 05-04972 ..... **$29.85**
Super-Dri Aviation Smoke Oil - 5 Gallon.....P/N 05-04975 ..... **$178.50**

55 GALLON IS DROP SHIP ONLY.

SEAT BELTS & SHOULDER HARNESSES

FAA CERTIFIED PERSONAL RESTRAINTS

These are top quality, new manufactured assemblies. They are designed, manufactured, and proof tested to rigid FAA standards. All belts use proven lift to release style Davis metal to metal buckles. Push-to-release buckles are not used due to difficulties in releasing under emergency conditions. Aircraft quality alloys and 2-inch nylon webbing are used throughout. Belts are certified to FAA TSO-C22f.

STYLE NO. 1A SEAT BELT

Most popular metal-to-metal seat belt. This 56" adjustable seat belt offers a heavy-duty combination of an all-nylon 2" wide herringbone webbing and a metal-to-metal "quick release" buckle. Buckle mates with harness adapters (Shoulder Harness Items 3B or 3C) for safety belt/harness set or use belt alone. The end fittings for each side of the lap belt have a .325 in. dia. hole which allows for a fastener/bolt to slide through, depending on the design of the aircraft/aircraft seat is where it attaches.

P/N	Color	Price
13-00201	Black	**$47.50**

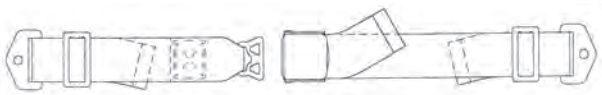
13-00307	Red	**$56.75**
13-00310	Green	**$56.75**

STYLE NO. 2A SEAT BELT



If belts are needed to replace worn ones in an aircraft in which the attachment fittings have been installed and approved, it is customary to install belts with a slide adjustment bar which permits weaving webbing through existing fitting and through bar for secure installation. Drawing shows correct method of lacing the webbing through bar. Belt is 56" long x 2" wide.The end fittings for each side of the lap belt have a .325 in. dia. hole which allows for a fastener/bolt to slide through, depending on the design of the aircraft/aircraft seat is where it attaches.

P/N	Color	Price

STYLE NO. 2C TWO PERSON SEAT BELT

Two Person Seat Belt - Although FAA requires that each person be provided an individual seat belt, some early aircraft were licensed using an extra-long belt in the rear seat to accommodate two people. If it is not possible to modify the aircraft to accept two belts, a two person belt is permissible. Same metal-to-metal belt as illustrated in Figure 1 but rated at 3000 lbs. test. Length 60". Advise if different length is required. Two-person belts with slide bars not acceptable by FAA. The 3" wide belt and 2" wide harness are of heavy-duty nylon webbing.

P/N	Color	Price

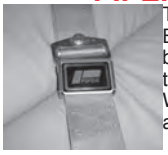
STYLE NO. 5 SEAT BELT/HARNESS SET FOR HOMEBUILTS

Specially designed for the VariEze, this popular combination is also used in the Long-EZ, Quickie, Q2, Cozy, Sea Hawk and several other homebuilts. The belts are made to fit snugly, and the aluminum end fittings save weight. Order two sets for all above aircraft except Quickie which uses one set. Not FAA approved for certificated aircraft.

P/N 13-01300 ..... **$106.85 Set**

PIPER SEAT BELT DECAL SETS



This is a beautiful decal set for all the Piper Seat Belt Buckles. The seat belt buckles on Piper's are always being dinged and pitted and nothing looks worse than to have a beautiful interior with ugly belt buckles. With our new decals, the ugly belt buckles become an attraction instead of an eyesore.

Four Place Piper Set ..... P/N 05-02448 ..... **$24.00 Set**
Six Place Piper Set ..... P/N 05-02449 ..... **$33.50 Set**

NOTE: SEE NEXT PAGE FOR SHOULDER HARNESSES COMPATIBLE WITH THESE SEAT BELTS.

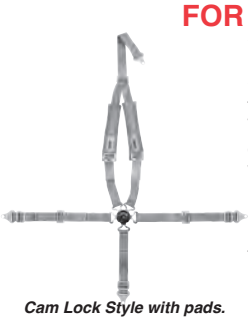
P/N 13-03957..... **$32.75 /set**

PLEASE VISIT OUR WEBSITE FOR A DETAILED DRAWING OF THESE SHOULDER HARNESSES.

NOTE: These shoulder harnesses mate with #1 and #2 seat belts on the previous page but the harnesses are not FAA approved for certificated aircraft. Only the seat bellts carry FAA approval.

CROW RESTRAINT SYSTEMS FOR RV AIRCRAFT



Cam Lock Style with pads.

Crow restraint systems feature 5 attach points and are available in Latch & Link or Cam Lock versions. For RV series aircraft, the Cam Lock version is most popular. These restraint systems are available with or without 2 inch sewn-on shoulder pads, which are the same color as the rest of the belts and harness. Available in black, grey, blue, or red.

Specify aircraft model (RV-7, 7A, etc.) and tandem or side-by-side seating when ordering. Not FAA approved.

For experimental aircraft only.

CHRISTEN 820 AEROBATIC SEAT BELT/HARNESS SYSTEM

The Christen 820 Seat Belt/Harness System was designed specifically for use in unlimited-class competition aerobatic flying. The System holds the pilot firmly in the aircraft seat during high negative-g maneuvers and supports the body laterally against side forces during tumbling, slipping or knife-edge flight. Although of extremely light-weight design, all components are of the highest aviation quality, and the system is manufactured in full compliance with the requirements of FAA TSO C22f. The basic Christen 820 System consists of a black shoulder harness, lap belt and crotch strap. Also available are a lap pad, a secondary seat belt for back-up safety, and accessory hardware to facilitate installation in a variety of aircraft. The lap belt, crotch strap, and shoulder harness are locked in a single buckle with flush latch which provides positive retention. All belts are released quickly and simultaneously by simply lifting the edge of the buckle latch. Standard end fittings attach to airframe brackets using 5/16 inch bolts (not included). All metal components bright chrome plated. All webbing 2 inches wide, black color. Includes detailed product manual. Meets FAA TSO C22f, 180 lb. Tensile. Maximum extended lengths of belt assemblies from end fitting to connector are: shoulder harness 50 inches, buckle lap belt 30 inches, connector lap belt 32 inches, crotch strap 26 inches. Weight 2.9 lb.

AP

CESSNA & PIPER SEAT BELTS & HARNESSES

BECAUSE WE KNOW SAFETY IS A PRIORITY IN YOUR AIRPLANE!

FAA Approved shoulder restraint systems in your aircraft provide the best possible safety for your crew and passengers. We developed these affordable systems for production aircraft in cooperation with the FAA, therefore each H-600 series comes with an FAA STC/PMA. Our high quality belts come in a full array of colors. The kits include one standard belt with a 3-bar slide (retain your present fitting), one "Y" style shoulder harness (with attaching hardware) and installation instructions.
Our line of seat belts and harnesses is constructed with the highest quality materials and with careful attention to workmanship. Each installation kit shown includes one belt, one harness, attaching hardware and installation instructions. The standard seat belt with 3-bar slide and the Y-style shoulder harness included is shown and described further on page 179.

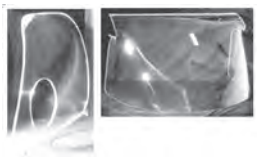
COLOR SWATCHES

Color swatches for your desired color group are available to be shipped to you via priority mail. When you have chosen your color, you can place your order by phone (1-877-4-SPRUCE) or order online. Then return the color swatches to Aircraft Spruce and we will credit you the $25.00 charge when you place your order for seatbelts/harnesses. For domestic orders only. International customers, please call for pricing. Custom color belts/ harnesses are special order and are non-returnable. Lead time is three weeks for a custom color order.

P/N 05-03146..... **$25.00**

L&P AERO WINDSHIELDS



L&P AERO WINDSHIELDS
COMPLETE WINDOW SETS - SKYLIGHTS -LANDING LIGHT LENSES

Replacement glass for over 350 different aircraft models from the oldest to the latest production - both domestic and foreign. Each can be confirmed with serial and model number, year of manufacture, thickness of material and cross-referenced with OEM part number. Manufactured of high optic quality acrylics. Available in clear, green and solar gray tints. For ease of installation, they are trimmed to OEM specifications with instructions furnished. Our manufacturer's quality control systems are approved by both the FAA and the Department of Defense. To assure quick delivery at minimum cost, orders are shipped directly from our manufacturer's warehouse in Pennsylvania or California. Extensive inventories on hand in both locations making shipment possible in 24 hours in most cases. Generally speaking, one-piece windshields require shipment by motor freight, two-piece windshields can be shipped by United Parcel Service. Windshields requiring motor freight shipment on the following list are marked with an asterisk. Attractive Air Freight rates All windshields/windows are special order, they are non-cancelable and non-returnable. Only a few models are listed - over 35 available. Advise complete aircraft model and serial number, Leave the rest to us!

VISIT WWW.AIRCRAFTSPRUCE.COM FOR MORE INFORMATION AND MODELS AVAILABLE.

FLY COOLER, HEALTHIER AND SMARTER

with UV-SG and UV-GT tint windshields and windows from LP Aero Plastics

Say so long to sun damage. Blocking the sun's damaging rays benefits you, your passengers and your aircraft. With far less UV and IR radiation entering the cabin, occupants are less likely to suffer sun-related skin and eye damage - and they'll enjoy cooler cabin temperatures to boot. **UV-SG Solar Gray and UV-GT Green tints can reduce interior temperatures by as much as 20 degrees.** While you and your passengers bask in greater comfort, you'll also reduce the workload on the air conditioning systems. UV and IR radiation can also wreak havoc on avionics and interior components, such as plastic panels and seat materials. That damage is significantly reduced with the UV-SG and UV-GT tints.

WINDSHIELDS – CANOPIES

HEAVY THICKNESS WINDSHIELDS

STC Conversions

We now carry these STC Conversion extra thick windshields which are FAA approved for the following aircraft and which install as easily as the standard .250 thick windshields. Available in 3 thicknesses.

Available In Three Thicknesses

Part No.	Thickness	Price
269.312	.312	$869.00
269.375	.375	948.00
269.500	.500	1,098.00

Note: Verify that your serial number is eligible before ordering.

CESSNA 150/152/172/177/182/210 WINDOWS

Aircraft Spruce stocks replacement windows for Cessna single and twin engine aircraft as well as all windshields and windows manufactured by LP Aero Plastics. Call or email Aircraft Spruce for quotation and specify year, serial number of aircraft and windows required.

Call: 1-877-4SPRUCE • Email: info@aircraftspruce.com

WINDSHIELD INSTALLATION ACCESSORIES

Foam Sealing Tape – 1/4"x1/16" x 100' roll.... P/N 05-99100 . **$25.75/rl**
Foam Sealing Tape – 1-1/4" x 1/16" x 25" roll P/N 05-04864 . **$18.50/rl**
Foam Sealing Tape 1-1/4" X 1/16"..... P/N 05-02132 ... **$0.82/ft**
Felt – Adhesive-backed 3/32"x1-1/2" ..... P/N 05-99110 ... **$1.34/ft**

FOAM TAPE

An adhesive backed, closed cell foam tapel. Can be wrapped around the edges of the windows to both cushion and seal. Do not stretch during application, it will pull back and leave gaps. Piper used this extensively in their window installations. The 1/4" tape IS used mainly for vent window gaskets.

1/4" x 1/8" x 10' Roll ..... P/N 05-04754..... **$7.25**
1-1/4" x 1/16" x 100" Roll .... P/N 05-04865..... **$39.75**

CANOPIES FOR HOMEBUILTS

These canopies for homebuilt aircraft are made from the finest quality materials and are available in clear, green or smoke tint. All canopies are shipped via truck or UPS freight collect. Canopies are special order and are non-cancelable and non-returnable.

Specify Clear, Green or Smoke Tint.

Aircraft	Thickness	Price
Acroduster I (29" or 34" long)	1/8"	**$395.00**

ASHBY AIRCRAFT GLARESHIELDS

ASHBY AIRCRAFT GLARESHIELDS

Produced from 100% fiberglass that is hand-laminated to form a one-piece structure. They are manufactured out of fire retardant resin that meets Federal Aviation Regulations (FAR) parts 23 and 25. Prevent sun from reflecting in your instruments, allowing you to read them clearly. It will also protect sensitive instruments from heat and is impervious to damage from the sun's rays. Molded with a rich leather texture, which is pleasing to the eye, and has a semi-gloss black finish. On most models it fits flush with the windshield, and extending 3" past the front of the panel. A reinforced lip for mounting optional lights to illuminate the instrument panel, which also serves as hand-holds when entering and exiting the cockpit, or when adjusting your seats. There is also space for switches and annunciator lights. STC is pending for use on US type certificated aircraft. This part can be manufactured under contract with the owner operator under FAR 21.303b2. It is the owner operator's responsibility ti determine airworthiness and applicability.

GLARE SHIELD KIT

This Glare Shield kit provides the materials to produce a professional custom padded glare shield. The composite lay-up of material has passed the FAR 25.853 burn requirements and a burn certificate is provided with each kit. Kit includes 1.5 linear yards x 54" wide black SPT Leather-Like Vinyl, 1.5 linear yards x 48" wide 1/8" SPT open cell foam cushioning, two 1/16" x 8" x 50" ABS base material aluminum stiffener, bull nose material, template foam and cardboard template material. Complete easy to follow instruction sheet is provided to help you produce a professional looking padded glare shield that has the look and feel of leather. The electroluminescent Glow Strip Glare Shield Lighting (P/N 11-00848) fits nicely under this Glare Shield.

P/N 11-06324 ..... **$239.95**

WINDSHIELDS – VORTEX GENERATOR KITS

CEE BAILEY AIRCRAFT WINDSHIELDS

Cee Bailey's Aircraft Plastics has been producing superior replacement windows and windshields for light aircraft since 1955. These windshields are custom built to fit your aircraft's serial number. This handcrafting insures a perfect, distortion-free windshield, trimmed and ground to fit your aircraft with little or no modification. Optical qualities, contour, shape and fit are exceptional. All windshields and windows are FAA/PMA approved. Cee Bailey warranties its products against defective materials and workmanship.
Most windows and windshields are available in clear, green, and solar grey. Prices are for clear. Add 15% to prices for green or grey tints. When ordering, specify model number, year, and serial number of the aircraft.

Make/Model	Price
Aero Commander 2pc w/s Left	$183.00
500, 520, 560, 680 Right	$183.00
Aero Commander 100 Darter-Lark Volaire 10 or Volaire 10A	$373.00
Aeronca Citabria	$260.00
Aeronca Chief	$299.00
Beechcraft Musketeer, Sundowner, Sierra, Sport (.125)	$338.00
Musketeer, Sundowner, Sierra, Sport (.187)	$391.00
Bonanza 33/35, 2pc w/s (per side)	$178.00
Bonanza 33/35/36/55/58/95 1pc w/s (must check s/n carefully)	$500.00

RV WINDSHIELD FAIRING

* A one-piece fiberglass fairing for Van's Aircraft RV6, RV7, RV9 series aircraft (Slider option)
* Designed with generous overlap areas to fit any installation
* Built from 4-layers of 8.8oz cloth and epoxy resin. Fully primed and ready for trimming/installation
* Save 25+ hours and lots of mess versus the traditional build-up method
* Large box is 30"x30"28", but just 8lbs.

P/N 05-03664 ..... **$513.00**

MICRO VORTEX GENERATOR KITS

Micro Vortex Generators from Micro Aerodynamics, Inc. are available for a wide range of aircraft and can reduce stall speed, improve aileron response, improve cross wind control, and reduce landing and takeoff roll. The kits consist of vortex generators mounted on the wings, the horizontal stabilizer, and the vertical stabilizer. The generators are manufactured under FAA/PMA from 6063T6 aluminum and are curved to fit the contour of the wing. Included in the kits are installation tools, detailed drawings and instructions, templates for positioning VG's, spares, Loctite Depend adhesive and all the materials needed for the easy one-day installation. When ordering, specify aircraft, serial number, N number, paint name and number (additional **$200.00** to match), make and model, and any modifications to aircraft. Generic VG kit used on LongEZ, RV-4/6/8, Rans, Murphy Rebel and others. Specify Aircraft make and model.

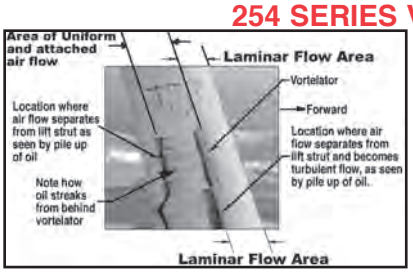
VORTELATOR KITS

254 SERIES VORTELATOR KITS FOR HOMEBUILT AIRCRAFT



Can increase your homebuilt aircraft speed by 4 to 7.5 mph. This is accomplished by placing vortelators at certain critical locations which will cause the boundary layer to stay attached to flying surfaces for a greater distance, and to keep the boundary layer thinner. The net result of these two actions is that it reduces both the profile drag and skin friction drag components of the parasite drag. Contains a 100 foot roll of vortelator, more than enough for most homebuilts, plus clear instructions with pictures on how to determine where to, and how to, place the vortelators to increase your aircraft's speed. Though it's not a requirement for homebuilt aircraft these vortelators are FAA STC'd and manufactured under a FAA PMA because they are also approved for certified aircraft. That means you get the benefit of FAA certified aircraft parts. The booklet 120-1 "Fly to use less fuel" (PN 08-00732) includes an adhesive backed aluminum placard to list the working airspeeds of your aircraft.

Kit Number	Description or Effect of Installing Vortelator Kit
254-AD	Delineates a procedure for determining where vortelators should be placed on an aircraft, for increased speed, by visualizing surface air flow through simple flight tests at straight and level flight at cruising speed. This kit is ideal for those aircraft models that do not have enough aircraft out in the field for Aircraft Development to economically warrant the time and expense of developing kits for.
254-RV3 254-RV4 254-RV6/6A 254-RV7/7A 254-RV8/8A	The vortelating of the airframes of these RV aircraft will give about a 4 to 5 MPH increase in speed and a decrease in the stalling of about 2 MPH. The vortelating of the propellers of these aircraft is more random in nature. From flight tests the increase in speed can be from 2 to 4 MPH depending on the propeller used. The vortelator kit for the RV6A takes about 8 hours to install on the aircraft. Between the decrease in stall speed and the increase in the aircraft's speed one gets about 7 MPH or more of additional MPH usage.
254-LANCAIR	The vortelating of the airframes of the Lancair 235, 320, 360 aircraft will give about a 4 to 5 MPH increase in speed. The vortelating of propellers of these aircraft is more random in nature. From flight tests the increase in speed can be from 2 to 4 MPH depending on the propeller used.
254-T18	The vortelating of the airframes of the T-18 aircraft will give about a 4 to 5 MPH increase in speed. The vortelating of propellers of the aircraft is more random in nature. From flight tests the increase in speed can be from 2 to 4 MPH depending on the propeller used.

Description	Part No.	Price
Vortelator Kit 254-AD	05-00851	**$250.00**
Vortelator RV3 Kit 254-RV3	05-00852	**$219.00**
Vortelator RV4 Kit 254-RV4	05-00853	**$219.00**
Vortelator RV6/6A Kit	05-00854	**$219.00**

Description	Part No.	Price
Vortelator RV7/7A kit	05-00855	**$219.00**
Vortelator RV8/8A kit	05-00856	**$219.00**
Vortelator Kit for Lancair	05-00857	**$219.00**
Vortelator kit for T18 254-T18	05-00858	**$219.00**

246-100 CESSNA VORTELATOR KIT - can increase Cessna speeds by up to 6 MPH. This is accomplished by placing vortelators at certain critical locations which cause the boundary layer to stay attached to flying surfaces for a greater distance, and to keep the boundary layer thinner. The basic procedure for installing the kit is to prepare the surface to which the vortelator is going to be applied by thoroughly cleaning the surface. Then simply peel the liner backing off the adhesive back vortelator and apply it to the cleaned surface. The vortelator is clear and therefore takes on the color of the surface to which it is applied. This vortelator kit is FAA STCd and manufactured under a FAA PMA approval. The kit comes with 200 feet of vortelator, more than enough for one airplane, and clear simple instructions on how to install the kit. The kit can easily be installed in one day and will add about 5 ounces of weight to the aircraft and not change the handling qualities of the aircraft. Please visit our website for a list of FAA approved Cessna models..... P/N 08-00731 ..... **$750.00**

FLY TO USE LESS FUEL - Explains the working speeds of the aircraft such as, steepest climb speed, best rate of climb speed from 0 to 5,000 ft., best rate of climb speed from 5,000 to 10,000 ft., speed of most flight time per gallon of fuel, speed of most miles per gallon of fuel, speed of slowest decent power off, speed of shallowest glide. It explains these working speeds of the aircraft in simple to understand graphics, no complicated mathematical formulas used. And what's even better there's no need to do a time consuming flight test program to determine the working speeds of your aircraft. Or for that matter any type certified aircraft. This booklet gives simple multiplication factors, based on cruising speed, to determine the working speeds for your homebuilt aircraft. Knowing the speed to fly at to go the greatest distance or stay up the greatest amount of time can be critical under certain conditions. Flying your aircraft using the techniques described in this booklet will save on the cost of gasoline an item that will only continue to escalate in cost as time goes by. This booklet comes with an adhesive backed aluminum placard to list the working airspeeds of your aircraft Fly To Use Less Fuel booklet.....P/N 08-00732 ..... **$19.95**

PROPELLER VORTELATOR KITS FOR ULTRALIGHT, HOMEBUILT AND CERTIFIED AIRCRAFT

Capable of increasing your aircraft speed and RPMs. This is accomplished by placing vortelators at certain critical locations on the propeller's most inefficient highest air drag areas. The vortelators will cause the boundary layer to stay attached to the propeller surface for a greater distance, and to keep the boundary layer thinner. Though it's not a requirement for ultralight or homebuilt aircraft these vortelators are FAA STC'd and manufactured under a FAA PMA because they are also approved for certified aircraft. Contains a three foot strip of vortelator, more than enough to vortelate up to a three bladed propeller. Plus clear instructions with pictures on where to place the vortelators on the propeller. The vortelator kit weighs less than .05 ounces and takes less than a half hour to install. The vortelators have a pressure sensitive adhesive backing so the installation process is simply to clean the area of the propeller where the vortelators will be placed and stick them on to the propeller. Can be used on virtually all propellers that are attached to engines of less than 500 HP be they metal, composite, or wood are approved for the installation of vortelator kits. This kit is not recommended for propellers that are equipped with anti-icing devices.

259-100 Propeller Vortelator Kit for Ultralight Aircraft - Capable of INCREASING Your ultralight aircraft speed by 2 to 5 mph and increasing your engine speed by up to 150 rpm. P/N 05-01465..... **$33.75**

259-200 Propeller Vortelator Kit for Homebuilt Aircraft - Capable of Increasing your homebuilt aircraft speed by 2 to 4 mph and your rpm by 20 to 50 rpm. That's if you have a fixed pitch propeller. If you have a constant speed propeller, for a given RPM and manifold pressure the propeller will be at a slightly larger pitch giving you more speed. P/N 05-01466..... **$33.75**

260-100 Propeller Vortelator Kit for Certified Aircraft - Of increasing your aircraft speed by 2 to 4 mph and your rpm by 20 to 50 rpm. That's if you have a fixed pitch propeller. If you have a constant speed propeller, for a given RPM and manifold pressure the propeller will be at a slightly larger pitch giving you more speed. Please visit our website for a list of FAA approved propeller models P/N 05-01467..... **$104.95**

VORTEX GENERATOR STOL KIT

The vortex generators are precision injected molded and made from UV stabilized clear polycarbonate material. This material is extremely strong and lightweight. 100 vortex generators will weigh approximately 1 ounce. The bottom of the vortex generator has a slight curve to match the wings airfoil. They have a full sweeping sail which wind tunnel testing has shown to be superior to those with a flat top. The vortex generator has a base of 1.0" X .40". There are many advantages to this kit: 1) increased lift, 2) slower stall speed by 4 to 6 MPH, 3) shorter landing distances, 4) shorter takeoff distances, 5) higher angle of climb, 6) tighter turns, 7) gentler stalls, 8) better aileron authority at slow speed, 9) aircraft is more controllable at slow speed, 10) in general increased total performance and safety. These kits come with clearly written installations instructions that allow you to determine where on the aircraft to install the vortex generators. also includes the number of vortex generators (VG's) listed in the table below for the kit selected. Plus a 3M very high bond adhesive tape.

Kit No.	Description of Vortex Generator Kit	No. of VG's	Part No.	Price
261-AD1	Deluxe generic vortex generator STOL kit for homebuilt aircraft	150	05-01776	**$375.00**
261-AD2	Generic Vortex Generator STOL Kit for Homebuilt Aircraft	65	05-01780	**$168.95**
261-RV1	Vortex Generator STOL Kit for the RV-3 Aircraft	65	05-01777	**$225.00**
261-RV1	Vortex Generator STOL Kit for the RV-4 Aircraft			
261-RV1	Vortex Generator STOL Kit for the RV-6/6A Aircraft			
261-RV1	Vortex Generator STOL Kit for the RV-7/7A Aircraft			
261-RV1	Vortex Generator STOL Kit for the RV-8/8A Aircraft			

VORTEX GENERATORS – AIR VENTS

HALL BROTHERS VORTEX GENERATORS FOR HOMEBUILTS

These Vortex Generators can be temporarily attached to the wing with tape for testing without harming the wing surface and then moved or attached permanently. This temporary attachment capability allows the pilot to prove out their effectiveness before permanent attachment. The design also gives a generous surface area for bonding.The Vortex Generators are made from .025" 6061-T6 aluminum for maximum durability. Hall Brothers Vortex Generators are not just used for lowering the stall speed. The stall characteristics are normally improved as well as aileron response. Some pilots have reported an increase in the rate of climb of their airplane. Many pilots say that the overall "feel" and handling of their airplane has improved throughout its speed range. The Hall Brothers Vortex Generator Kit includes enough Vortex Generators for a typical homebuilt wing (46 pairs) and stabilizer (16 pairs), tape for temporary attachment, adhesive for permanent attachment and instructions.

P/N 05-01480..... **$184.50**

VORTEX GENERATORS FOR CESSNA AIRCRAFT

Manufactured under our FAA PMA from aircraft grade aluminum and are alodined to a mil-spec, ready to accept paint before installation. Included in each kit are installation tools, computer cut templates, detailed illustrated drawings and instructions, and Loctite Depend ™Adhesive for installing the vortex generators on your airplane.

Description	Part No.	Price
Cessna 310I/310J	05-04258	**$1,950.00**

Cessna P210R	05-04266	**$1,450.00**

STOLSPEED VORTEX GENERATORS

Stolspeed VGs are streamlined for less drag and better appearance than other VGs. Stolspeed VGs have no sharp points and are flexible, so it's easier to wash or cover the wings. The special 3M adhesive is removable without damaging aircraft paint. Stolspeed VGs have a very slim rounded fin to give them good flexibility, and a rounded, tapered base that 'flows' into the wing surface. In clear material they're almost invisible.

80 (Enough for the tail)..... P/N 05-04458..... **$69.95**
120 (Enough for the main wing plus spares) .. P/N 05-04457..... **$99.95**

ALUMINUM EYEBALL AIR VENTS

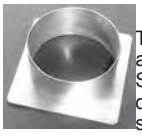
VIEW 1

VIEW 2

Aluminum airline style "eyeball" air vent swivels to direct air where needed.Knurled collar of outlet rotates to control air volume. Mounts in 1-7/8" dia. hole.

P/N 05-04065..... **$194.95**

EYEBALL AIR VENT ADAPTER



The extension on the back of these aluminum eyeball air vents is very narrow and allows little room to attach SCAT ducting. This adapter enables the user to attach 2" diameter SCAT ducting to the back of the vent using a stainless steep clamp. P/N 05-04067..... **$17.65**

EYEBALL SWIVEL VENT

Front *Back*
P/N 05-00779

This high quality, economical swivel air vent is made from 2024T351 aluminum and is available anodized black or grey. Diameter of the flange is 2.75" and the vent is designed to attach with a standard 2" air duct flange. The vent hole of this eyeball swivel vent is 7/8". The knurled collar on the vent swivels 60° to adjust air volume anddirect air flow as desired. The vent features 4 mounting holes (1/8" dia.) which are spaced 2-3/8" apart or a mounting plate with a thickness of .71". Made in USA Eyeball Swivel Vent - Black.....P/N 05-00779 ..... **$59.75**
Eyeball Swivel Vent - Grey.....P/N 05-00787 ..... **$59.75**

PLASTIC EYEBALL AIR VENTS

These ball and socket air vents are injection molded T grade ABS. The vent orifice is 1" dia., and the ball swivels 45°. The mounting flange is 2-1/8" square, and the distance between mounting hold centers is 1-11/16". Mounts in 1.75" dia. hole & uses 1-3/4" ducting. Wt: 1.25 oz. ea.

Gray.....P/N 05-04082 ..... **$17.95** White.... P/N 13-01943 . **$17.95**

VENTUBE FOR CESSNAS

The Ventube is a plastic unit that consists of an exterior tube and a lockable interior tube with a cap. Air flow control is accomplished by extending or retracting the interior tube. Ventube enhances pilot and passenger comfort, allows reliable closure of the air vent, controls vent direction and flow, and reduces air vent noise and leakage. FAA approved for Cessna 120, 140, 150, 152, 170, 172, 175, 180, 182, 185, 190, 195, 205, 206, 207, 210-210F, and 305. Detailed instructions, STC, FAA Form 337, etc. are enclosed with each pair. P/N 05-04091..... **$94.65/pr.**

AIRFLOW ENHANCEMENT KIT

Improves the cabin airflow in General Aviation aircraft, specifically Cessnas. Combined with Ventubes they enhance the pilot and passengers comfort (cooling & heating), allow reliable closure of the inlet air vents, control cabin air direction, increase cabin air flow, and reduce inlet air noise and leakage. The kit consists of two cabin exit vents, CEV, to allow the cabin air to exit into the aft fuselage and the fuselage exit vent, FEV in the modified inspection plate, to allow the cabin air to exit the fuselage of the aircraft. P/N 05-04080 ..... **$76.75**

THE COMPLETE AIRFLOW KIT

Ventubes™ (pair) - controls air flow into the cabin. Cabin Exit Vents - allows air to exit to fuselage. Fuselage Exit Vent - allows air to exit the aircraft.

P/N 13-03577 ..... **$151.95**

VISTA-VENTS

Knob adjustment permits complete control of cabin air. Mounts at four points in 2-1/2" dia. hole.

P/N 13-03500 ..... **$19.75**

CABIN AIR VENTILATOR

Aluminum 90° elbow type. Knurled collar rotates to control air volume. Mounts to a 2 1/2 in. Dia flange. For 11/4 Id scat ducting. Also good for cabin heat vents.

P/N 05-04075 ..... **$79.50**

"WHISPERFLO" VENTILATORS

Large molded plastic vent with 40° swivel. Thumb operated closure controls degree of opening. Mounts in 2-1/2" dia. hole. Large orifice (1-3/4") provides maximum cooling. Mounting in floor of aircraft assures full cabin ventilation. Use with SCAT-11 ducting. Black.....P/N 05-04073 ..... **$18.50**
Ivory.....P/N 05-04071 ..... **$18.50**

ULTIMATE VENTILATOR

The Ultimate Ventilator is machined from aluminum block and comes with holes tapped for 4-40 screws. 1.75" disk articulates out into airstream and does not leak when closed. Very popular with T-18 & RV builders. P/N 05-04090 **$93.50**

SNAPVENT™ AIR VENTS

Adjustable plastic ventilators for use as fresh air intakes or air exhausts. Easily installed in plastic windshield or metal cowling. Two sizes:

MODEL A-2-100 Mounts in a 2" dia. opening. Can be turned to provide any degree of ventilation. The "Off" position is with the opening downward. P/N 05-01178 .....**$15.25/pr.**

MODEL CC3251 Mounts in 31/4" dia. opening. Rotates to provide any degree of ventilation. Retracts to a closed position nearly flush with the mounting surface. P/N 05-01179 .....**$17.75/pr.**

MODEL F325A Large tabs on lower flange and tapered profile make this vent ideal for higher airspeeds. Mounts in 3-1/4" opening in plastic windshield or metal cowling. P/N 05-04088 .....**$13.75/pr.**

MODEL F318 Tapered in profile in back provides a more direct flow of air. Mounted in 3-3/16" opening in plastic windshields or metal cowling. P/N 05-04089 .....**$13.75pr.**

CESSNA 210 FRESH AIR VENT SYSTEM

Replaces the forward cabin vent. Features durable Wemac air vents, full/partial closure, directional control, and postive shut-off. All metal construction. Completely replaces the old style, plastic overhead fresh air vents in most Cessna 210 aircraft. Full system includes the forward center, and aft systems. STC approved.

Full system.....P/N 05-04092 .....**$1,538.00**
Pilot & Co-Pilot.....P/N 05-04083 .....**$958.00**
Center Vents (total of 2 units).....P/N 05-04085 .....**$297.95**
Rear Vents (total of 2 units).....P/N 05-04087 .....**$490.95**

ACTIVENT ACV-100 COCKPIT VENTILATOR

Solar Powered Cockpit ventilator installs in place of the normal can type vent while the aircraft is parked. An 8ft cord allows use with the panel on the glare shield or outside the aircraft when an outsidecover is used. The system provides a minimum of 7CFM airflow through the cabin per vent. The fan is a ball bearing design with a 10,000 hr design life. Made from aircraft grade aluminum. The Solar Panel is injection molded acrylic with an integral lens system.

Standard.....P/N 05-04072 ..... **$129.95**
For Cessnas with ventubes.....P/N 05-04074 ..... **$113.95**

NACA INLETS - AIR VENTS

DEFROSTER/AIR VENT

This one piece hard plastic air vent is totally self contained. A standard 1-1/2" scat duct easily slides onto the angled attach point and a simple squeeze of your fingers and it is locked on securely! A special locking feature allows variable adjustment of air flow with a simple sliding of the bar. No need to design an attaching air box for this unit - attach to the panel - slide on the hose -squeeze the attach hose clamp - and you are done! Furnished as a left hand and right hand unit set. P/N 05-02450 ..... **$134.95**

LARGE ROUND FLAGE EYEBALL VENT

This The round flange version of our large square-flange eyeball vent. Fits in a 2-3/4" hole, and has a 3" outside flange diameter.

w/ 2" Scat Adptr., Black ..... P/N 05-04064 .... **$163.50**
w/ 2" Scat Adptr., Clear ..... P/N 05-04066 .... **$163.50**
w/ Plenum Nut, Clear..... P/N 05-04414 .... **$161.95**
w/ Plenum Nut, Black..... P/N 05-04415 .... **$161.95**

STEINAIR AV125B EYEBALL VENT

These high quality vents have a nylon/delrin bushing encapsulated between the eyeball and the flange to protect the aluminum! With these vents you simply cut a hole, install the vent and tighten the plenum or retaining nut behind it and hook up the tubing! The vents include everything needed for install. On the small vents you can just directly attach a 2" scat tube to the vent - and on the large vents they have 2" plenums. These will come with a "BAC" part number on them, but that's because they are normally for the cockpits

Description	PN	Price
1 1/4" Aluminum Eyeball Vent - (Air outlet size). Anodized BLACK. OD is 2" and allows for direct connection of a 2" scat tube. AV125B	05-04061	**$117.85**

LARGE NACA SCOOP

This large NACA scoop is the largest inlet available anywhere. 0° axes of air flow 17", 90° axes total width, 10 inches with a 9" x 2" outlet or 18 square inches. A separate two-part duct can be purchased separately. This allows the user to take the air directly into a 2" or 4" hose connection. These parts are made with a high impact polycarbonate, formed at 375° F. They will remain stable and not delaminate at a high temperature, like the gel-coated fiberglass inlets.

CARBON FIBER FARING

This light weight, infused aerospace carbon fiber fairing is perfect for finishing off those items that protrude from your airframe. Clean up the air flow and be pleasing to the eye. Perfect to clean up: cables; trim control rods; overflow hoses; general aerodynamic cover. This product is now supplied in a black carbon finish - NOT white gel coat as shown. Sizes: Width 1-1/2", 37mm plus flange. Length 7", 175mm plus flange. Depth 7/8" 22mm. P/N 05-04863 ..... **$18.75**

AVEOAIR™ - BALL VENTS

AveoAir™ Ball Vents are machined from 2024 aluminum alloy, and these lightweight vents are anodized in your choice of 5 color finishes. Installation is simple with the 2-piece design, no screws are required as they are simple thread together to hold securely. ONLY AVEO VENTS come with a choice of 3 rear standard SCAT tube coupler diameters so you can optimize your air flow. Choose from 1.5", 1.75" or 2.0" diameters (38 mm, 44 mm, 50 mm).

ROUND ALUMINUM EYEBALL AIR VENT (SMALL)

Small round-flange eyeball vent. Made from aircraft-grade 6061-T6 aluminum and hard anodized, it weighs just 3 oz. and mounts in a 2" round hole. Outside flange diameter is 2-1/4", and has 25 degrees of freedom from the vent centerline. The vent is secured with a mounting ring that will accept a 1-1/2" or 2" scat hose OR a plenum mounting nut. This vent has an opening of 1.2" which is larger then competitive vents that mount in the same size hole.

3275 LARGE SQUARE EYEBALL AIR VENTS

Large square-flange eyeball vent. Made from aircraft-grade 6061-T6 aluminum and hard anodized, it weighs just 5 oz. and mounts in a 2-3/4" hole. The mounting flange is 3" square with a 2-1/2" mounting hole pattern, and has 25 degrees of freedom from the vent centerline (50% more than in our first generation vents.) This is a direct replacement for the "whisperflo" black plastic vents. Flows 30% more air and eliminates 99% of the leakage associated with the plastic vents when closed.

Aluminum...P/N 05-04068 .. **$168.95** Black... P/N 05-04070 ... **$153.95**

22167 SMALL SQUARE FLANGED EYEBALL VENT

Small square-flange eyeball vent. Made from aircraft-grade 6061-T6 aluminum and hard anodized, it weighs just 3 oz. Mounting flange is 2.20" square, with a hole mounting pattern of 1.70". Vent adjustment is 25 degrees of freedom from the vent centerline, amd has an opening of 1.2" which is much larger than vents typical of this size.

Aluminum..... P/N 05-01905 ..... **$168.95**
Black..... P/N 05-01906 ..... **$168.95**

DEFROST VENT ASSEMBLY

Defrost vents designed to fit in AA series Grumman airplanes and can also be used in Experimentals. They will fit the original hole pattern on the Grummans, but the area where the scat tube is attached has been changed to a full round 1 1⁄2 dia. These parts have passed FAA burn tests. A sliding piece can be adjusted to vary the amount of air being used to defrost. The mounting area is 2 1⁄4 x 3 3⁄4, with six 6-32 attaching screws, not provided. Comes as a pair.

P/N 05-04062 ..... **$60.00**

KOOL SCOOP VENTS

Very popular with Piper owners who need quick, high volume ventilation during ground operations on hot days. Kool Scoop is very easy to mount; simply peel off the adhesive backing sealer and stick it in place on the side window. It will fit any side window vent that does not have a thick frame. Made of top quality plexiglass. Really "scoops" the air from the outside to keep the pilot and passengers comfortable. Window frame not included.

Left hand (Pilot Side)..... P/N 05-04076 ..... **$28.75**
Right hand (Co-Pilot Side) ..... P/N 05-04078 ..... **$28.75**

AP

DOOR LATCHES - BALLISTIC PARACHUTES

UNIVERSAL SPRING LOADED LATCHES

These universal spring loaded latches are designed for aircraft canopies, cockpit doors, and baggage doors. They are available in right hand and left hand models with different striker angle lock pins on the two models. These latches work great on a wide variety of experimental aircraft.

Left hand latch (Lock Pin)
P/N 05-04520.....**$33.95**

Right hand latch (Lock Pin)
P/N 05-04521.....**$33.95**
Also available in retracted bolt lock type latch with blunt striker (left hand and right hand).
Left hand latch (Retracted Bolt Lock)
P/N 05-00895.....**$35.65**
Right hand latch (Retracted Bolt Lock)
P/N 05-00896.....**$35.65**

SLIDING CANOPY RAILS

2 heavy-duty channels of 2014T6 anodized aluminum provide smooth sliding tracks for canopy installations. Length 23" fully retracted, 45" fully extended. 22" travel. Wt:3.5 lbs./pair. Used on Pazmany 1 & 2, Skybolts & others. Instructions for installing these rails in the Pazmany PL-2 are available for $50 from Pazmany Aircraft Corp., P.O. Box 80051, San Diego, CA 92138. These instructions are a useful reference for installing channels in any homebuilt aircraft. P/N 03-49300 ..... **$694.00/ea.**

BALLISTIC PARACHUTES FOR ULTRALIGHTS AND KIT PLANES

CANISTER - The BRS Canister is waterproof when the original factory seal remains intact, making it the perfect design for exterior installations. With a six year repack schedule and versatile mounting hardware, it is one of the most popular systems.

SOFTPACK - The BRS Softpack is best suited for aircraft manufacturers that require a ballistic parachute mounted inside their aircraft. When mounted internally, this system also has a six year repack schedule..

VLS - Built specifically for aircraft with limited interior space, the VLS (Vertical Launch System) installs on top of the wing or fuselage. Upward firing works well with pusher designed aircraft.

BRS-6 System	Maximum Weight (lbs./kg)	System Weight (lbs./kg)	Dimension L x W x D	Part No.	Price

EXPERIMENTAL AIRCRAFT DOOR LATCH

3D view Opening from Exterior Interior View Open Position This door latch was originally designed for a gull wing door with linkage rods extending both forward and aft, however it can be adapted to virtually any style door with appropriately designed linkage rods. The linkage rods are not included.
Features: • Identically keyed locks for set • Armrest flush mount interior handle • Spring loaded, flush mount exterior handle • Spring ball detent for positive open/ closed stop action
Specifications: • Made from 2024-T3 aluminum • Each latch weighs approx. 10 ounces • Dimensions for applicability pictured below • Driver travel approx. 1.25" forward and aft
For linkage rods the following aluminum is recommended: 1/4" x 1/2" 2024T3 ..... P/N 03-00104.....**$1.98**

RV SLIDING CANOPY LOCK

Lock your RV with confidence. Finally, a lock for your sliding canopy that installs in minutes. Tools required are one 1/4" drill bit and a drill. All you have to do is drill a hole, deburr and start using your lock. No more worries about having your avionics or your personables in someone elses aircraft. P/N 05-01414 ..... **$133.95**

THE GAS SPRING

The gas spring is a self-contained counterbalance unit consisting of a piston and piston rod in a hermetically closed cylinder. The cylinder is factory-loaded with an inert gas at a given pressure. The outward force generated is continuous and linear at 45 lbs. Ideal for a canopy closure on homebuilts, as designed for George Meads Adventure. Stroke 3.15".

P/N 05-01177 .....**$19.75**

DOOR STEWARD™

The Door Steward is an STC and FAA-PMA approved modification for aircraft doors. The modern gas spring greatly improves and replaces easily broken, malfunctioning mechanical type door stops and restraints that become ineffectual with repeated use and age. Pilots enjoy the fact that the Door Steward gently opens and firmly holds the door open. The Door Steward consists of a modern inert gas spring with all the necessary brackets and hardware. Detailed installation instructions are included and make it easy to install and requires virtually no maintenance. Model 200C10
Features: With the Door Steward the door will open and stay open when needed. No more door flopping around in wind gusts or prop wash from taxiing aircraft. The cost is usually much less than repairing or replacing existing OEM door stops. Great on float equipped aircraft when water taxiing.. FAA Approved on many single and light twins.

FIBERGLASS PARTS – COWLING KITS

RAVEN FIBERGLASS PARTS

Raven Fiberglass parts are made to very high standards with reinforcing where necessary.

CAMLOC ACCESS DOORS FOR WHEEL PANTS

These 1" diameter spring loaded access doors can be riveted into your wheel pants. They open inward, so that using an appropriate tool, you can check pressure or inflate your tires easily without removing the wheel pants. Made of stainless steel which can be polished if desired.

P/N 05-02124 .....**$22.75 ea.**

VANS RV COWLING MOUNT KITS

Vans RV 4,6,7,8,9, 10's, Lancairs, and other kit planes. The Skybolt design adds functionality and appearance to any cowling. The "Hinge" is the perfect design for a pop-rivet aircraft. A Skybolt Cloc™ Kit is the perfect design for a true investment in pride.

WOODEN LEADING EDGES

Can be used on Pitts, Eagle, Skybolt etc. Preformed leading edge to replace metal leading egde. Adds strength to stock or modified wings. Set comes with all 5 pcs. to glue directly to the wings.

For S-1 .....P/N 05-00918 .....**$487.95**

For Experimental S-2, Eagle, Skybolt
P/N 05-00919 .....**$634.00**

SPADES

Spades used on aerobatic aircraft like Pitts Special. Comes with arm and plate
P/N 05-00917 .....**$199.75**

AP

CARBON FIBER REPLACEMENT COWLINGS FOR CESSNAS

This line of carbon fiber cowlings are a part for part replacement for Cessna cowlings. These cowlings install just like the original Cessna parts, however no hardware is provided. North Central Aircraft Products are made of the finest quality carbon fiber and resin and are STC'd and PMA'd. Complete cowls are available on request.

FIBERGLASS COWLINGS

All parts are aircraft quality, hand layed for uniform thickness and light weight. Items are finished with grey primer gel coat which minimizes sanding and eliminates the need for primer paint.
Note: Light sanding is required to remove mold release wax residue from surface of all fiberglass items prior to painting.

MC-1A NOSE COWL

Styled after the Piper Comanche, this cowl can be used on just about any homebuilt powered by the Lycoming engine. It is made in two parts, allowing the easy removal of the cowl without having to remove the prop. Used on the following airplanes: Starduster I and II, Playboy, EAA Bipe, Jodel D-11, Tailwind, Tempete & the Skybolt. Measures 35" wide by 21" high. Will accommodate a spinner approx. 12" in dia. P/N 05-01180 ..... **$91.50**

MC-1B NOSE COWL

Similar in shape and dimensions as the MC-1A cowl except, it is manufactured as a one piece unit for those who prefer a cleaner front end. The MC-1B is a few inches larger than the MC-1A.
P/N 05-01181 ..... **$112.95**

MC-2 NOSE COWL

This design can be used with most any Continental or Lycoming engine. Used on the original Smith Miniplane but has been installed on the Pitts, EAA Bipe, Playboy, Flybaby & Baby Great Lakes. Measures 35"wide by 19.5" high.Face of center opening 8-1/2" O.D.
P/N 05-01182 ..... **$114.95**

MC-3A NOSE COWL

Suitable for just about any Lycoming powered aircraft, this cowl comes equipped with a bump that conceals the starter motor. It is the standard Pitts Special cowl but has been installed on these aircraft: Mong, Miniplane, Playboy, Emeraude, Playmate, Baby Ace, Junior Ace, EAA Bipe, Baby Great Lakes, Skyhopper and the Falconar F-11 & 12 series. Measures 35-1/2" wide and 22-1/2" high. Center opening 8-1/ 2" dia. P/N 05-01183 ..... **$113.95**

MC-3B NOSE COWL

Same shape and size as used on the Piper PA-14. Can be used on the same aircraft as listed for the MC-3A design. For builders not wishing to use an electrical system and is seen on most Pitts Specials built for competitive aerobatics. 35" wide x 21" high. Center opening 9-1/4" dia. P/N 05-01184 ..... **$114.95**

MC-10 NOSE COWL

For installation on Tailwind or Cougar. Used with 4" prop extension. Shape rounds out the boxy appearance of the standard design. Size: 35"w x 22.5"h. Has been installed on Starduster I and various Lycoming powered homebuilts. Face of center opening 11-3/4" O.D.
P/N 05-01185 ..... **$124.95**

QUICK RELEASE PINS

These pins of stainless steel, are made to exacting standards. Pushing the button on top, it contracts and releases two (or four) balls at the end of the shank. These balls lock onto and release from the part for fast removal. The following types and sizes are most commonly used for hang gliders and not for structural aircraft. Request quote on special sizes (25 piece minimum).
Less 10% for 12, Less 15% for 25, Less 20% for 50. May be assorted.

Part No.	Alternate Part No.	MS Part No.	Head Type	Shank Dia.	Leng.	Price
04-01486	LG4C-T-0.343	---	TEE	1/4"	0.343"	**$17.75**
04-01473	LG4C-T-1.40	MS17985-414	TEE	1/4"	1.400"	**$14.50**
04-01487	LG4C-T-2.10	MS17985-421	TEE	1/4"	2.080"	**$21.50**

MC-3C NOSE COWL

Identical to the MC-3B, but, has an opening for an oil cooler. Measures 35" wide by 21" high.
P/N 05-01186 ..... **$114.95**

MC-4 NOSE COWL

This nose cowl was designed for the T-18 pressure cowl system. A 4-inch prop extension is required and it is generally used with the MC-5 Bottom Cowl. Measures 36" wide by 20"high. Face of center opening 12-1/2" O.D.
P/N 05-00551 ..... **$114.95**

MC-7 NOSE COWL

Originally made for the Thorp T-18, this cowl has been used on several other types. The starter ring is enclosed when used with the Lycoming. Makes a nice front end on the CA-61 & CA-65. Measures 35"W by 19.5" high. Face of center opening 13-3/8" O.D.
P/N 05-01176 ..... **$114.95**

DZUS COWL LATCHES

These Dzus "over the center" type latches are used extensively on cowl doors and other applications on aircraft such as Cessna, Piper, Grumman, and many homebuilts. Available in 2 styles as shown.

MODEL #1

These Dzus over the center type latches are used extensively on cowl doors and other applications on aircraft such as Cessna, Piper, Grumman, and many homebuilts.
Model I latch: This latch provides 700 lbs. Ultimate strength and 100 lbs. Working strength. Pull up ability is 0.6 inch. Mounting holes will accept .156 in. diameter rivets or #6 round head screws. Order strikes separately.

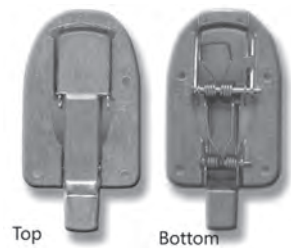
Part No.	Description Dimensions (closed)	Price Ea.
05-01187	Cowl Latch Model I	**$2.90**
05-01188	Latch Strike C8	**$0.63**
05-01189	Latch Strike C7	**$0.56**

MODEL #2

These Dzus over the center type latches are used extensively on cowl doors and other applications on aircraft such as Cessna, Piper, Grumman, and many homebuilts.
Model II latch: This latch provides 220 lbs. of ultimate strength and 45 lbs. of working strength. Pull up ability is .2 inch. Mounting holes will accept .156 in. diameter rivets or #6 round head screws. Order strikes separately.

Part No.	Description Dimensions (closed)	Price Ea.
05-01190	Cowl Latch Model II	**$2.95**
05-04183	Latch Strike C9	**$0.79**
05-04184	Latch Strike C2	**$0.54**

FLUSH LATCH



The Hartwell H-5000-2 is a unique spring-loaded, trigger action latch for cowling and access doors. Made of corrosion resistant steel. Rivet or spot weld to structure. Bolt Offset: .132. Trigger Offset: .102. Max. Depth: 1.23 P/N 05-01881 ..... **$158.95**

FIBERGLASS COMPONENTS

MC-6 NOSE CHEEKS

From the latest design of John Thorp, this is a 2 piece cowl used on the T-18. Can be adapted to most homebuilts where the builder wishes to use cheeks. They have been installed on the Midget Mustang as well as the Miniplane. Makes a fine nose section.

P/N 05-01213 ..... **$69.75**

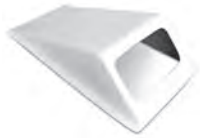
MT-1 WING TIPS

Manufactured from the original T-18 plans and come ready to slip over the ends of the wing. Nav. lights are normally installed by notching the leading edge corner of these fairings and installing Plexiglass.

P/N 05-01214 ..... **$175.95**

MC-5 BELLY PAN

Designed to work in conjunction with the MC4 Nose Cowl. This is the most popular combination being used today and it gives your T-18 all the compound curves and beauty it deserves. P/N 05-00025 ..... **$106.75**



CARBURETOR INTAKE SCOOP

Carburetor intake scoop with 4-1/4" x 8" rectangular opening. P/N 05-22500 ..... **$49.85**

HEAD REST

Originally designed for the Smith Miniplane but can be used on other bipes.

P/N 05-22100 ..... **$31.75**

BABY GREAT LAKES COWL

PN 05-02883

PN 05-02884

Fiberglass Cowl set fits Baby Great Lakes, Super Baby Great Lakes, and Buddy Great Lakes. Top and Bottom Cowl halves sold separately.

Dimensions:
33"x29"x9-1/2" (PN 05-02883)
33"x33"x19" (PN 05-02884)

Top Nose Cowl
P/N 05-02883..... **$223.95**

Bottom Nose Cowl
P/N 05-02884..... **$250.00**

BUDDY BABY GREAT LAKES SEAT

This fiberglass seat was designed to fit the Baby Great Lakes aircraft and is recommended by the designer. Dimension: 26"x30"x19"

P/N 05-02885 ..... **$250.00**

GEL-COATED FIBERGLASS WHEEL PANTS

Keep gravel, mud, dew and grass out of your prop, off your wings and off your face with these easy-to repair fiberglass reinforced polyester wheel pants. Supplied in gel-coated finish, they have a small seam along the top edge, easily removed by sanding, if desired. Sorry, no mounting hardware is included. Easy to cut and customize. White, red

BUCKET SEATS

For Starduster or Skybolt. Flat Gray finish, 18" wide. Can be upholstered or used plain. Contoured bottom for parachute. These are not chopped glass seats. Hand layed up for extreme lightness. Wt. 3 lbs. 10 oz.
Note: This oversized item ships in a 21 x 21 x 21 box with a dimensional weight of 48 lbs. (56 lbs internationally)
P/N 05-22600 ..... **$73.25**

TURTLE DECK

Fits the Acroduster or Skybolt. With flat mounting pad to accommodate a VHF antenna. Approx. Height 19" at front, 13" at back. Overall length, approximately 57".

P/N 05-22200..... **$124.95**

HOERNER DESIGN WING TIPS

These wing tips are constructed of hand laid-up fiberglass which is extremely strong, has great impact strength, and is resistant to chemicals. The Hoerner design of these wing tips reduce the vortex that emanates from the trailing edge of the wing tip thereby reducing drag on the aircraft, leaving more energy available for lift and speed. Stall speed is decreased and lateral stability is improved. You will see increased cruise speed, more positive aileron control, increased rate of climb, decreased take-off distance, and improved appearance with these tips. All STC and approval data is furnished.

Cherokee Straight Wing Tips
PA-28 140 thru 200R models.

WHEEL FAIRINGS

All wheel fairings furnished with reinforcing bulkheads for added stability and cleanliness.

MF-1A - 5:00 X 5 fairing that is small and compact. The same shape and size as the early model Cessna 150 & measures 26" long by 7" wide. Has been used on the CA-61, Tailwind, T-18, Baby Ace, Cougar, or any homebuilt that requires this size.
P/N 05-01215 ..... **$198.50 Pair**

MF-2 - 5:00 X 5 teardrop style as used on the later model Cessna 150. Measuring 36" by 7", it has been installed on Tailwinds, Smyth Sidewinder, Cougar or any wheel this size.
Overall size: 35"L x 7-1/2"W
Opening Size:7.5"W x 151/2"L
P/N 05-01216..... **$204.95 Pair**

MF-3 - 5:00 X 5 with the long, narrow profile. A standard on Pitts Specials, Acro Sport, T-I 8, Cassutt & Midget Mustang. Truly a universal shape.
Overall size: 39"l x 7.5"w Opening Size:4-3/4"W x 101/2"L
P/N 05-01217 ..... **$198.50 Pair**

MF-4 - 5:00 X 5 Thorp T-18 fairing. This style was one of our original developments specifically for the T-18 and has proven to be very popular. Like all other listed pants, it will fit any wheel this size.
Overall size: 31.5"L x 7-1/2"w
Opening Size:14.75"wx 7"L
P/N 05-01218 ..... **$198.50 Pair**

MF-5 - 6:00 X 6 wheel fairing in the same shape as the J-3 Cub but, scaled down to fit this size wheel. Popular on the bi-planes, Spezio and the parasols. Gives a very classic look to your airplane.
Overall size: 30"L x 9-1/2"W
Opening Size: 7-1/2"W x 18-1/2"L
P/N 05-01219 ..... **$198.50 Pair**

MF-6 - 6:00 X 6 fairing styled after the late model Cessna 172 and is used on just about any designed aircraft. Measure 42" by 8" and are very pretty.
Overall size: 44"L x 8-1/4"W.
Opening Size: 8-1/4"W x 23-1/4"L
P/N 05-01220..... **$198.95 Pair**

MF-7 - 6:00 X 6. Same size and shape as the Piper Cherokee fairings. A standard on the Stardusters, Skybolt and used on m any other designs.
Overall size: 37"L x 8"W
Opening Size: 13-1/2"W x 7"L
P/N 05-01221 ..... **$198.50 Pair**

MF-8 - 5:00 X 5 pant. Almost the same dimension as the MF-3 however, has more of a point on the tip. Also popular on the Pitts, Cassutt, T-18 and Midget Mustang.
Overall size: 37-1/2"L x 8"W
Opening Size: 14-3/4"W x 6"L
P/N 05-01222..... **$198.50 Pair**

MF-9 - J-3 Cub design for any biplane or parasol using the larger size wheels.
Overall size: 29"L x101/2"W
Opening Size:8-1/4"Wx10"L
P/N 05-01223 ..... **$198.50 Pair**

MF-10 - 7:00 X 6. For aircraft using the larger wheels and also for the Stinson or Funk. Much lighter than the factory originals.
Overall size: 31"L x 11"W
Opening Size: 19"L x 10"W
P/N 05-01224 ..... **$198.50 Pair**

MF-11 - 6:00 X 6 wheel fairings. Same size and shape as used on the Tripacer, Pacer or Colt. More streamlined design than the MF-9. A nice installation on the Super Cub w/ 8.00 x 4 wheels.
Overall size: 43"L x 9-1/2"w
Opening Size: 9.5"w x 18.5"L
P/N 05-01225 ..... **$198.50 Pair**

MF-12 - 5:00 X 5 RACING FAIRINGS. Fits the V-Witt, Cassutt, Owl or any Formula One, Formula V or Bi-plane using this size wheel. Race proven.
Overall size: 40"L x 7-1/2"W
Opening Size: 4.5"W x10-3/4"L
P/N 05-01226..... **$198.50 Pair**

WHEEL PANT COVERS

Stop tow-bar wheel pant scuffing. & Avoid costly wheel pant repainting. Available in standard black, navy or burgundy. Fits models: Cessna 172 I 182 I 206 Cherokee

- Made from heavy-duty vinyl
- Padded backing
- Attaches quickly using Velcro(tm)
- Stores easily
- Personalization available

Cover Navy..... P/N 05-03048..... **$69.95**
Cover Black..... P/N 05-03049..... **$69.95**
Cover Burgundy ..... P/N 05-03050..... **$69.95**

PA28/PA32 REFINED SPEED PANTS

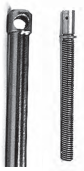
FAA approved Laminar Flow Speed Pants will add up to 10.5 mph over bare wheels and up to 8 mph over stock wheel pants for all Piper PA-28 and PA-32 aircraft models. A special pressure recovery design improves rate of climb with most installations.
At 10 pounds, these second generation Speed Pants are lighter and up to 5 times stronger than conventional Piper wheel pants. They are made of three layers of hand-laid, 10 ounce fiberglass which is oven cured with a high strength resin. Additional layers of cloth are applied to stress areas. A removable panel allows easy access to brakes. Wing to wheel fairing improve the aesthetics of the main gear.
P/N 05-03627..... **$2,995.00**

(FAA/PMA APPROVED)

CESSNA COWL FLAP RIGHT AND LEFT

These cowl flaps feature a replaceable stainless steel hinge that may be removed and replaced using screws. The specific model applicability for these cowl flaps are the C-180C, D, E, F, G, H, J and 180K; the 182B, C and D; 185, 185A, B,C,D, 185E, A185E and A185F. FAA Approved.

Left..... P/N 05-03393..... **$1,019.00**
Right ..... P/N 05-03394..... **$1,087.00**



HORIZONTAL STABILIZER ADJUSTING SCREW AND BARREL

HORIZONTAL STABILIZER ADJUSTING CAM

Cessna Adjusting Cam. - U0712502; Trim screw adjusting cam. FAA/PMA Approved.

P/N 05-07010..... **$33.50**

STABILIZER TRIM SCREW BOOT

FOR C-180, C-185, AND C-182 THRU C-182D

Boot..... P/N 05-07015..... **$52.65**

CESSNA 120/140 FUEL VALVE KIT

This valve has a very smooth action with positive detents. Like the original valve, it has positions for left-on, right-on and both-off. Unlike the original, it is not prone to sticking or binding. It does not require periodic seal replacement or lubrication. This PMA'd replacement valve will mount almost identically to the original OEM valve. It uses the same tank selector plate and the same mounting hardware as the original. This valve is sold in a kit that includes the handle and installation instructions. The handle has no "pointer." This is in compliance with AD47-43-02. ..... P/N 05-03407..... **$384.00**

C-120, C-140 LIFT STRUT ROD ENDS

Front Rod End.... P/N 05-07020..... **$88.75**
Rear Rod End..... P/N 05-07025..... **$68.50**

C-172 OIL DOOR

Applicable on the following models:
(172, 172A, B, C, D, E, F, G, H, I, J, K, L, M, N, P, Q)

P/N 05-07030..... **$229.00**

C-180, 182, & 185 SERIES COWL OIL DOOR

Applicable on the following models: For 180—180G, 182—182G & 185—185C

P/N 05-07035..... **$311.95**

CESSNA AILERON HINGE

For all C-150, 152, 170A, 170B, 172, 180, 182 & 185 .....P/N 05-07040 ..... **$59.25**

CESSNA STYLE TAIL SKID

This easy-to-install tail skid is designed to save the tail feathers on most single engine Cessna's. Made from 4130 aircraft steel, this tail skid fits Cessna 150, 152, 172, 177, and 182.

P/N 13-17010.....**$14.75**

EXHAUST CUFF FOR CESSNA 206, 210 AND 340

The problem * The exhaust pipe creates parasitic drag within the slip stream * Non-laminar flow conditions occur at the opening of the cowl * Aircraft esthetics are affected by the protrusion of the pipe. The exhaust cuff solution eliminates non-laminar airflow about the exhaust port * Reduces cylinder head temperatures * Cruise performance increased * Enhances the esthetics of the aircraft

Cessna Ehaust Cuff 206 & 210 .....P/N 05-04474 ..... **$195.00**
Cessna Ehaust Cuff 340.....P/N 05-04475 ..... **$395.00**

FLAP TRACK WEAR GAGE

McFarlane Aviation Products has developed a new tool to determine Flap track wear. McFarlane developed this tool to positively indicate when the flap track is worn beyond service limits. Flap Track Wear Gage Use to determine if a Cessna flap track is worn beyond service limits. Flap Track Wear Gage Instructions: Run the gage plug along each slot in each flap track while verifying that the gage will not enter the slot. Reposition the flaps as required to gage the entire length of each slot. If the gage enters a slot at any point the track is worn beyond service limits. The diameter of the gage is .6035 inches (diameter tolerance +.000/-.002)Periodically verify the gage diameter by measuring the age diameter with a calibrated micrometer.

P/N 05-02145.....**$41.50**

VENT TUBE ADAPTER BRACKET CESSNA

CW-172001 replacement for Cessna part #0700325-2 adapter assembly. Eligible for installation on Cessna 172, 172A, 172B, 172C, 172E, 172F, 172G, 172H, 172I, 172K, 172L, 172M, 172N, 172P, 172Q.

CESSNA COWLING MOUNTS - FIREWALL

The Skybolt SK2003 is the FAA TSO-C148 approved direct replacement for the common CESSNA /LORD J7444 firewall platemounts. SK2003 -14 Southco™ Fasteners • SK2003-24 Camloc™ or CLoc™ 2000 Series Fasteners • SK2003-36 Camloc™ or CLoc™ 4000 Series Fasteners The newly improved SK2003 offers greater flex for cowlings with cumbersome alignment issues. Combined with the SK2003-AW alignment washer, the SK2003 can be easily positioned to align with the existing cowling holes. This allows the cowling fasteners to lock properly and effortlessly, removing the stress that is a common problem in original part failures. Fateners not included.

Orig. Mfg. Part No.	New Part No.	Aircraft	Part No.	Price
J7444-14	SK2003-14	67-On C150, 67-86 C172, 71-78 C177	08-00663	**$21.75**

Partial Kit list – Call for early screw cowling conversion kit and non-listed aircraft. Special tooling required – #4P3/T26 tool set
Note: In addition to normal hand tools, Unibit 1 and Unibit 3 stepdrills required.

INTER-CYLINDER BAFFLE

Intercylinder Baffles for Teledyne Six Cylinder Engines. Replaces Cessna Part Number 0750135-1 and 0851833-1
P/N 05-02362 ..... **$69.25**

FLAP TRAILING EDGE BULB

PN 05-00046

Improved fit and appearance. Form fitting, Trailing Edge Bulb for Cessna Flaps. (Cut on bevel to avoid crimping Flap Trailing Edge.) STC/PMA Approved. For application please call or visit our website.
79.5" length..... P/N 05-00046..... **$56.75**

MC600 SERIES UNIVERSAL SOLID WIRE VERNIER MIXTURE CONTROL

FAA-PMA approved for use as a minor alteration part on the following aircraft:
• Cessna • Raytheon • Maule • Cessna/Reims • Mooney •Univair (Stinson) • Piper Call for Specific Models - Easily field approved for other applications
- Trim to exact length ..... P/N 05-01254..... **$149.95**

THROTTLE CONTROL

Fittings and components are made from anodized aluminum, stainless steel, and brass. All critical swage connections are metal to metal for continued dependability. Vernier locking devices are precision formed and heat treated in critical wear areas. ..... P/N 05-02209..... **$337.50**

6260 RETAINING NUT 7/16-20

The retaining nut threads onto the threaded section of the control on the back side of the instrument panel to secure the control. Replacement retaining nut p/n 6260 for all McFarlane MC6350 dual push-to-unlock controls. P/N 05-04581 ..... **$6.34**

CESSNA CONTROLS

FAA-PMA APPROVED CONTROLS FOR CESSNAS
THROTTLES – PROP – MIXTURE

Throttle, Propeller, Mixture, controls are available for most Cessna single engine aircraft from the Cessna 120 through the 210 series. These FAA-PMA controls are ultra-smooth, flexible with no stretch, arctic tested to -50°F, and tested to 250,000 cycles. They feature brass body assembly, teflon lined conduit, stainless steel ends, viton dust boots, aluminum friction lock, and a high quality phenolic knob (throttle, mixture, and prop).

CESSNA CONTROLS

CESSNA COWL FLAP CONTROLS

Cowl Flap controls are available for most Cessna single engine aircraft from the Cessna 120 through the 210 series. These FAA-PMA controls are ultra-smooth, flexible with no stretch, arctic tested to -50°F, and tested to 250,000 cycles. They feature brass body assembly, teflon lined conduit, stainless steel ends, viton dust boots, aluminum friction lock, and a high quality phenolic knob (throttle, mixture, and prop). Our P/Ns are interchangeable with Cessnas P/Ns; "AS" prefix denotes Aircraft Spruce!

WIRE CLAMP BOLTS FOR CESSNAS

Wire clamps for solid wire controls for Cessna Aircraft. Wire clamps are used on solid wire controls including cabin air, mixture control, strainer drain, cabin heat, defrost, flap and many others.

FAA-PMA approved for Cessna 120 through the 425 series aircraft. Unique design to reduce wire stress. Manufactured from heat treated stainless steel for better wear and corrosion resistance.

Please visit our website for part specifications and application information.

MC1660300-30 AILERON DIRECT CABLE

This Aileron Direct cables eligible for installation in Cessna 188A and A188A aircraft, serial range 18800573 thru 18800707. This cable has also been added to the cable kit CCKT188-04 188A, A188A 1970-1971 Serial Number 18800573-18800707 P/N 05-04614.....**$122.50**

FLAP SKINS – AILERON SKINS

UPPER RIGHT-HAND AND LEFT-HAND FLAP AILERON

* Better and costs less!
* No pre-drilled holes to misalign
* Precisely formed and trimmed
* Plastic coated on both sides for better protection during handling (remove before installation)
* Direct replacement - No STC required

CESSNA FUEL SCREEN STANDPIPE

This FAA-PMA approved stainless steel Cessna Fuel Screen Standpipe is the last one you will need to buy. Improved design eliminates corrosion pits and stripped threads. 1963 and on.

P/N AS0756011-1 .....**$114.95**

CESSNA FUEL QUANTITY TRANSMITTERS

A direct replacement for the fuel quantity transmitter installed by the manufacturer when the aircraft was new. Saves hundreds of dollars in labor and kits and eliminates replacement of fuel quantity gages and wiring when not required. Engineered to be compatible with the original fuel quantity gage and wiring which uses time proven technology and reliability. Made from dupont viton, offering flexibility and fuel resistance at all temperature extremes. Will not dry out or shrink like cork gaskets and do not harden with age like gaskets made from other elastomers. Hex drive head screws made from stainless steel eliminate the corrosion process. The hex drive promotes ease of installation and eliminates the necessity for destructive down pressure during transmitter screw removal and installation.

Part No.	Description	Price Ea.
AS0426517-1	Fuel Transmitter	$253.95

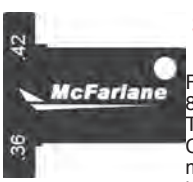
SEAT RAIL WEAR GAUGE FOR CESSNA AIRCRAFT



For checking seat rail wear limits as per FAA A.D. 87-20-03, Effective 09/24-/1990 Seat Rail Directive The gauge is to be used for inspection of the Cessna seat rail wear. This gauge is designed to measure the actual radius wear near the seat stop holes. Notice the different sized steps in each corner. P/N 05-04428 .....**$37.95**

REPLACEMENT CESSNA PARTS

AP

CESSNA SEAT RAILS, ROLLERS, WASHERS, & BUSHINGS

These FAA-PMA replacement seat parts were developed to assist in complying with the parts replacement requirements of A.D. 87-20-03. This A.D. requires the periodic inspection and replacement of seat components of the entire Cessna light aircraft fleet. Our Parts are direct replacements for the wear related seat components. These seat parts are superior to the O.E.M. parts in many ways. Our rollers are fabricated from molydisulfide filled nylons for improved strength and self lubrication. All rollers are fully machined from extruded stock for finer surface finishes and higher strength. Our wear washers are tougher with far better wear and aging resistance. Seat rails were carefully engineered with small improvements for added strength, longer life, and easier installation without any sacrifice of full interchangeability with the O.E.M. parts.

SEAT KIT COMPONENTS (1 SEAT)

Kit No.	Description	Qty.	Part No.	Price
05-00425	Full articulating seat (2 crank handles).	Washers 8 Rollers 4 Bushings 4	AS1714000-22 ASS1704-1 AS1414104-54	**$68.50**
05-00427	Standard seat (1 or no crank handles).	Washers 8 Rollers 4 Bushings 4	ASS1554-1 ASS1551-1 AS1414104-54	**$73.65**
05-00428	1946-1962 and all 150-152	Rollers 4 Bushings 4	AS0311310 AS0311586	**$74.75**

For Cessna Roller Kit 141410-212 use:
- (1) Roller (P/N ASS155-1)
- (1) Bushing (P/N AS1414104-54)
- (2) Washers (P/N ASS1554-1)

These parts are generally used on the standard seats

For Cessna Roller Kit 1714000K200 use:
- (1) Roller (P/N ASS1704-1)
- (1) Bushing (P/N AS1414104-54)
- (2) Washers (P/N AS1714000-22)

These parts are generally used on the infinitely adjustable seats.

CESSNA FLAP ROLLER KITS

FLP-KT-1

FLP-KT-2

Flap attachment kits are available for Cessna aircraft from Cessna 150 thru T210. Each kit contains FAA-PMA replacement rollers, bushings, and spacers for the flap attachment of one airplane. Our ASS1450-5N12-050 shims are stainless steel for better corrosion resistance. Individual FAA-PMA components are available on request.

SEAT ROLLER HOUSING GAUGE

Aircraft Spruce now offers a seat roller housing measuring tool for Cessna aircraft. This gauge is designed to facilitate inspection of seat roller housings for wear as required by mandatory FAA AD 2011-10-09. This gauge simplifies determining whether the housing is in or out of tolerance by allowing the areas of concern to be gauged as opposed to measuring individual attributes of each housing with calipers. Results are positive and quick with this gauge. P/N 05-06819 .....**$120.95**

SEAT STOP KITS FOR CESSNAS

These seat stops and related hardware are available in convenient kits for your aircraft. Call for the correct kit part no. for your Cessna aircraft.
Seat stop kit #1 (1 ea. AS0713074-1, 1 ea. MS24665-132-1, 1 ea. MS20392-1C21) P/N 05-00580 .....**$14.50**
Seat stop kit #2 (1 ea. AS0511242-1, 1 ea. MS35265-41) P/N 05-00581 .....**$12.95**
Seat stop kit #3 (1 ea. AS0713074-1, 1 ea. MS24665-132, 1 ea. MS20392-1C21, 2 ea. NAS43DD1-9) P/N 05-00582 .....**$19.85**

SAF-T-STOP

Saf-T-Stop is an auxiliary seat stop mechanism approved by the FAA for use with Cessna seat track A. D. #87-20-03. Installs easily, sliding over seat track. Approved for: Cessna 150, 152, 172, R172, 175, 180, 182, 185, 190, 205, 206, 207, 210, 303, 337. Not a seat lock, Saf-T-Stop is designed to restrict rearward motion if the seat lock fails. P/N 13-18510 ....**$37.85**

CESSNA SEAT RAIL TEMPLATES

These template blanks are used to transfer holes from the old seat rail to the new seat rail when replacing Cessna seat rails. These templates are economical and convenient to use. One per seat rail is required. For seat rail series AS511240, AS511243, and AS24114002 use SRTEM2. All other seat rail series can use SRTEM1. NOTE: Models 150-152 do not require templates as the screw holes are predrilled. Model 177 cardinal seat rails require (2) SRTEM1 templates per rail. * Dimensions: * SRTEM1-1.5" x 38" x .025" * SRTEM2-2.25" x 30" x .025"
SRTEM1..... P/N 05-00449 .....**$5.25**
SRTEM2..... P/N 05-00450 .....**$5.70**

SEAT RAILS FOR CESSNA AIRCRAFT

These seat rails have only pilot holes drilled in the rail base allowing the installer to exactly match the aircraft floor rivet pattern. The manufacturer discovered while installing and developing our replacement seat rails that the seat rail attachment hole pattern was not consistant from aircraft to aircraft. Even small inconsistancies in the hole locations in the aircraft floor make installation of new seat rails very difficult. For this reason, all these seat rails have only a few smaller pilot attachment holes drilled at the factory. This allows the installer to precisely locate the attachment holes to match the holes in the aircraft floor. All special sized or machined attchment holes are factory machined to finish dimensions. It is necessary to install all required fasteners when seat rails are installed.

After studying countless worn and failed seat rails these rails were designed with 15% more metal in critical areas. The result is more crack resistant, durability, strength and longer life.

Installation Tip: The aircraft floor is subject to corrosion from moisture under the seat rails, be sure to remove and treat any corrosion before installing the new seat rails.

RUDDER PEDALS FOR CESSNA AIRCRAFT

COMPLETELY NEW RUDDER PEDAL -

* Less money and longer life!
* Bronze bushings at the pivot points resist wear and vibration for longer pedal life.
* Precision cast heat treated aluminum alloy
* Power coat finish for durability and corrosion protection.
* FAA-PMA direct replacement for Cessna (Part #1460320-1)

Model AP2000-01 ..... PN 05-04165.....**$121.95**

RE-BUSHED RUDDER PEDAL -

Model Numbers: 0760678-1, 0760678-2 and 1460320-1

* FAA approved repair for magnesium rudder pedals.
* Worn and elongated pedal holes are reamed and fitted with bush ings for a longer life
* Bronze bushings resist vibration and corrosion wear longer than the magnesium casting.
* Fits most single engine Cessnas from 1963-1981, except for model 188

Model 0760678-1-R.....PN 05-04166 .....**$97.25** .....***$40.00 Core***
Model 0760678-2-R.....PN 05-04167 .....**$70.75** .....***$40.00 Core***
Model 1460320-1-R.....PN 05-04168 .....**$83.25** .....***$30.00 Core***

Core Credit Eligibility:
Large Hole Dia. Max <0.490
Small Hole Dia. Max <0.275

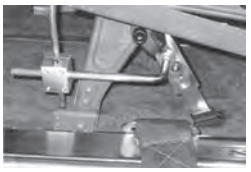
Pedals worn beyond these limits are not eligible for core credit. Re-bushed pedals may be returned for core credit but must follow the same criteria.

150/152 SEAT RAIL SCREW KIT SR150-SCREW-KIT

This is screw kit specifically for the Cessna 150/152 seat rails. This #10 Structural Screw Kit contains all screws and nuts required to install four seat rails.

Kit Contains:
40 MS27039-1-08 Screw 10-32 x .531
2 MS27039-1-09 Screw 10-32 x .594
2 MS27039-1-17 Screw 10-32 x 1.094
40 MS21044N3 Nut, Nylon Lock

P/N 05-04107..... **$21.65**



UNIVERSAL SAFETY-FOOT

The UNIVERSAL SAFETY FOOT is a secondary seat stop for both pilot and co-pilot seats for the 100 & 200 earlier Cessnas. Prevents the seat from sliding backwards when the pins are NOT engaged in the seat rails. Meets the requirements of the MANDATORY COMPLIANCE CESSNA ISSUED OWNER ADVISORY SEB07-5A dated 5-14-2007. This advisory requires all earlier 100 & 200 model Cessnas to have a secondary seat stop installed within 24 months from the date of the advisory. Issued as a NO HAZARD INSTALLATION APPROVAL by the FAA dated 4-27-2006, the Safety Foot can be installed by the owner/operator of the aircraft. Due to its simple design, the Safety Foot can be installed in about 45 minutes and in most cases, the seats do not have to be removed from the aircraft. Clamped to the seat frame and integral with the existing seat retention and operating mechanism of the aircraft. Three Allen wrenches and a Setting Gage are the only tools required for the installation. The Setting Gage is provided in the kit along with detailed instructions. The product is warranted for 12 months from the date of purchase.

P/N 05-04104.....**$175.00**

FUEL STRAINER KIT FOR CESSNA AIRCRAFT

FUEL STRAINER SEAL KIT. - Kit contains: Gasket and 3 O- Rings Approved for Cessna models: 180H*, J, K

FUEL STRAINER PLUNGER - MC0756010-11 .... * Special electro polished shaft for longer o-ring life.

* McFarlane's blue Viton rubber tip will outlast the original in any fuel!

P/N 05-04424.....**$89.50**

FUEL STRAINER ASSEMBLY - Kit contains: Gasket Kit, Fuel Bowl, 2Washers, Nut, Plunger, Standpipe, Spring, and Top Assembly. Approved for Cessna models: 182H*,J, K, L , M, N , P , Q, R

P/N 05-04111.....**$864.00**

FUEL STRAINER AND CABLE KIT - Kit contains: Gasket Kit, Fuel Bowl, 2 Washers, Nut, Plunger, Standpipe, Spring, Top Assembly, Filter, and Strainer Drain Cable Approved for Cessna models: F182P, Q

P/N 05-04112.....**$758.95**

FUEL STRAINER BOWL - Engineered to last! Manufactured using improved materials for added strength and gold anodized for corrosion resistance. Computer machined (not die cast).

P/N 05-01704..... **$110.95**

FUEL STRAINER STANDPIPE - The last one you will buy! Stainless steel, No more corrosion pits or stripped threads, Costs less! P/N 05-00281..... **$109.95**

CESSNA 177RG FUEL RESERVOIR DRAIN PLUNGER

For the Cessna Cardinal 177RG aircrarft. McFarlane's blue vulcanized Viton rubber tip will outlast the original in any fuel! All metal, one piece design eliminates the flimsy C-clip.

Model	Serial No.	Replaces
177RG	177RG0001 thru 177RG1366	2016021-4
F177RG	F177RG0001 thru F177RG0177	2016021-4

* 1 each required for aircraft serial numbers 177RG0001 thru 177RG0282 and F177RG0001 thru F177RG0062. * 2 each required for aircraft serial numbers 177RG0283 thru 177RG1366 and F177RG0063 thru F177RG0177.

P/N 05-04613..... **$249.85**

CESSNA MOTOR MOUNT BLOCK LOCK WASHER

One side is embossed with a surface texture for improved locking strength and to make sure the washer does not slip while tightening. Features: * Up to four times the locking power for less! * FAA approved using stronger material than the original, allowing the standard washer to be eliminated. * Designed with six tabs instead of two. * Easier to use! * Cessna 180, 182, 185, 188, 205, 206, 207, 210, 310, 320, 411, and 414 model aircraft P/N 05-01742..... **$6.50**

AP

RUDDER AND ELEVATOR BUSHING KITS FOR CESSNA

These kits include two bushing sizes for each hinge location. This allows a selective fit and solves the common Cessna fit and interference problems.• Hardened corrosion • resistant stainless steel. • Cessna models 120 thru 177 • Convenient kits include all bushings, sintered bronze bearings, and hardware for one aircraft. • All components are also available separately.

SLEEVE, PIN RETENTION FAA-PMA

MC6183 - A universal joint attaches to each control yoke shaft behind the instrument panel. Slack or roughness in control yoke motion commonly indicates excess universal joint wear or corrosion that may necessitate replacement.

The universal joints and the sleeve are available separately or together in the kit UJC-KT-1 for Cessna models 150 thru A185. Each convenient kit also includes installation hardware.P/N 05-04559 ..... **$4.40**

BLUE SKY LATCH FOR CESSNAS

Install it right on the plane. Simply drill out the two rivets holding your old latch system on your door. You will use these two same holes to install the Blue Sky Latch. The latch is made from TPE (thermal plastic rubber), it has excellent weather ability, and stands up to extreme temperatures. Next use a hack saw blade and cut off that point on your door stem. Then use a small hammer and tap the strike on the end. Align your door using the phillips head adjustment on your door stem. Your done. The Thermal plastic rubber acts a bumper as well as a latch. You get all the hardware including structural AN screws and elastic stop nuts in the kit. Step by Step installation guide with photos showing how easy it is to install. C150 & 152.....P/N 05-04563 .....**$39.95**
C172 .....P/N 05-04973 .....**$39.95**

FLAP ROLLER INSTALL TOOL 970

Makes installation of the aft flap roller, bushing and washers easy. Holds parts in alignment while inserting the bolt. Long handle allows access through the small inspection openings. Cessna 150 thru 210. .....P/N 05-04764 .....**$31.85**

CESSNA 182 GROSS WEIGHT INCREASE STC

A Supplemental Type Certificate (STC) that will increase the useful load of a Cessna 182P or 182Q by 150 to 160 pounds, and the ramp weight (in most cases) by 160 pounds. This STC requires no parts, no modifications, and no installation labor costs. .....P/N 05-04889 .....**$750.00**

CESSNA FIBERGLASS REPLACEMENT PARTS

CESSNA 150/152

What Makes These Composite Parts Such An Excellent Value?

* Stronger than factory originals with no weight increase.
* Easily repaired with locally available fiberglass kits if ever damaged.
* Exact replacements of original equipment means easy installation.
* Money back guarantee if not completely satisfied!

STRUT CUFFS

Here's an unbeatable item for renovating your Cessna; a set of replacement strut cuffs. Order just one cuff to replace a damaged original, or get a set of four for a complete replacement.

Photo	Description	Part No.	Price
	150/152 Strut Cuff Upper RH (SA-0522150-4)	05-03703	**$69.95**
	150/152 Strut Cuff Upper LH (SA-0522150-3)	05-03702	**$69.85**
	150/152 Strut Cuff Lower RH (SA-0421002-2)	05-03701	**$70.00**

	150/152 Aerobat Strut Cuff Upper RH (SA-0421002-3)	05-03706	**$82.50**
	150/152 Aerobat Strut Cuff Upper LH (SA-0421002-4)	05-03707	**$82.50**
	150/152 Aerobat Strut Cuff Lower RH (SA-0522150-6)	05-03704	**$82.50**
	150/152 Aerobat Strut Cuff Lower LH (SA-0522150-7)	05-03705	**$82.50**

ELEVATORS & STABILIZERS

Here are some of our most popular items. These tips take a good deal of stress in just normal flying circumstances. They're also frequent victims of ramp rash. The original plastic simply can't stand up to the task as well as fiberglass replacements from Stene Aviation. Plus, if these parts ever do withstand damage, they're easily repaired with readily available fiberglass repair kits from your local automotive parts store.

Photo	Description	Part No.	Price
	150 Horizontal Stabilizer Tip 1959-'63 (SA-0430004-6)	05-03710	**$98.50**
	150/152 Horizontal Stabilizer Tip 1964&on (SA-0430004-11)	05-03711	**$69.95**
	150/152 Elevator Tips (left/right) 1964&on (SA-0430004-10)	05-03709	**$98.50**
----	150/152 Elevator Tips (left/right) 1959-'63 (SA-0430004-5)	05-03708	**$98.50**

GEAR LEG AND BRAKE FAIRINGS

These are excellent items for replacing worn plastic originals. Your fiberglass replacements will be more durable with an improved finish over the original plastics.
Photo

Photo	Description	Part No.	Price
	150/152 Upper Gear Leg 1971&on RH (SA-0441217-14)	05-03731	**$105.95**
	150/152 Upper Gear Leg 1971&on LH (SA-0441217-15)	05-03732	**$105.95**
----	150/152 Right Brake Fairing 1974&on (SA-0441227-2)	05-03734	**$125.95**
----	150/152 Left Brake Fairing 1974&on (SA-0441227-1)	05-03733	**$125.95**

RUDDER & VERTICAL FIN CAPS

These parts are a snap to replace on most planes. Please note, indicate if you have a straight tail or a swept tail. It is also important to let us know if your fin cap needs to accommodate a strobe or beacon, and if so, if the light is front-mounted or center-mounted.

Photo	Description	Part No.	Price
	150 Vertical Fin Cap 1964-1965 (SA-0430004-9)	05-03713	**$72.50**
	150 Vertical Fin Cap (no beacon) 1966-'74 (SA-0431013-3)	05-03715	**$72.50**
----	150 Vertical Fin Cap (small beacon) 1966-'74 (SA-0431017-1)	05-03714	**$105.95**
	150/152 Vertical Fin Cap (small beacon) 1975&on (SA-0430011-1)	05-03716	**$105.95**
----	150 Rudder Top 1959-1963 (SA-0430004-2)	05-03717	**$98.75**
----	150 Rudder Top 1964-1965 (SA-0430004-8)	05-03718	**$98.50**
	150/152 Rudder Top 1966-1974 (SA-0431013-1)	05-03719	**$98.50**
	150 Rudder Top 1975&on (SA-0430011-2)	05-03720	**$99.50**
----	150 Rudder Bottom 1959-1965 (SA-0430004-1)	05-03721	**$99.75**
	150 Rudder Bottom 1966&on (SA-0431005-1)	05-03722	**$98.50**

WING & DORSAL TIPS

Wing tips are a common victim of hanger and ramp rash. Maybe you thought the plane was going to clear those doors as you wheeled it back into the hanger...the first indication that you were wrong was that grating sound as the wing-tip met metal. Here's the solution: replacement fiberglass wing-tips from Stene Aviation.

Photo	Description	Part No.	Price
	150/152 Wing-Tip (small droop) LH (SA-0523565-29)	05-03726	**$275.00**
	150/152 Wing-Tip (small droop) RH (SA-0523565-30)	05-03727	**$275.00**
----	150/152 Std. Small Wing Tip (SA-0430008-3)	05-03725	**$265.95**
	150 Dorsal Fin 1959-'65 (SA-0430004-4)	05-03723	**$265.95**
----	150/152 Dorsal Tip 1966&on (SA-0431024-1)	05-03724	**$32.50**

WHEEL PANTS

Replace your original plastic wheel pants with high quality and durable fiberglass replacements. All wheel pants come with a 2" access plug for checking tire pressure. Original hardware is required for mounting.

Photo	Description	Part No.	Price
	150/152 Wheel Pant 1971-'74 RH (SA-0541223-16)	05-03728	**$395.00**
	150/152 Wheel Pant 1971-'74 LH (SA-0541223-17)	05-03729	**$395.00**
	150/152 Nose Wheel Pant 1974&on (SA-0543079-3)	05-03730	**$395.00**

AP

CESSNA FIBERGLASS REPLACEMENT PARTS

CESSNA 170/172/175

ELEVATORS & STABILIZERS

Here are some of our most popular items. These tips take a good deal of stress in just normal flying circumstances. They're also frequent victims of ramp rash. The original high impact plastic simply can't stand up to the task as well as fiberglass replacements from Stene Aviation. Plus, if these parts ever do withstand damage, they're easily repaired with readily available fiberglass repair kits from you local automotive parts store.

WING TIPS

Wing tips are a common victim of hanger and ramp rash. Maybe you thought the plane was going to clear those doors as you wheeled it back into the hanger...the first indication that you were wrong was that grating sound as the wing tip met metal. Here's the solution: replacement fiberglass wing tips from Stene Aviation.

Image	Description	Part No.	Price

CESSNA LIFT STRUT FAIRINGS

CESSNA LIFT STRUT FAIRINGS

These fairing kits consist of four wing strut fairings that slip over the lift struts, made of fiberglass rather than a royalite type material. Fiberglass has the following advantages over a royalite type material, it is approximately six times stronger and 12 times stiffer, it resists ultra violet light and weathers better, and it keeps its chemical composition intact much longer. With all these advantages these will probably be the last lift strut fairings that will ever have to be installed on the aircraft. And even should these fairings be damaged through some unforeseen circumstances, being made of fiberglass, they will be easily repairable. These fairings are all split so they slip over the lift strut thus eliminating the need to disconnect the lift strut to install the fairing. It is recommended, as with all plastics, they are painted for better UV protection. These kits have a FAA identically approval and are manufactured under a FAA PMA authority.

Top Number is Aircraft Spruce Part Number. Second number is the Cessna part number.

LIFT STRUT HARDWARE KIT

This kit 118H has the additional hardware and instructions necessary for a first time installation for any of the lift strut fairings listed above. For those individuals that are not replacing their lift strut fairings, but wish to install the lift strut fairings as an initial installation P/N 05-04582.....**$38.75**

CESSNA LANDING GEAR STRUT FAIRINGS

Consist of two landing gear strut fairings that slip over the landing gear struts. These fairings are better than those manufactured by Cessna because they are made of fiberglass rather than a royalite type material, that bends and cracks after a short time on the aircraft. These fairings are all split so they slip over the landing gear strut. It is recommended, as with all plastics, they be painted for better UV protection. These kits are manufactured under a FAA PMA authority. Parts are listed with the Cessna number first, then Aircraft Spruce's part number and price.

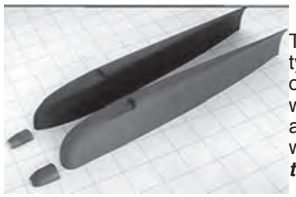
CESSNA WING TIPS - EMPENNAGE TIPS



CESSNA WING TIPS

These wing tip kits consist of a left and right hand drooped fiberglass wing tip. Made of fiberglass rather than a royalite type material, and the superior epoxy rather than polyester fiberglass. Epoxy fiberglass has the following advantages over a royalite type material, it is approximately six times stronger and 12 times stiffer, it resists ultra violet light and weathers better, and it keeps its chemical composition intact much longer. These kits have a FAA identicality approval and manufactured under a FAA PMA authority. The identically approval allows you to install these modern drooped wing tips, even if your aircraft was not originally manufactured with this newer style. ***Kits includes the left hand wing tip, right hand wing tip, hardware, and the plate lens***

Cessna Models	Kit No.**	Price Per Kit
All 150, A150, 152, A152, 170A & B, P172, 175, 205 & L19. Also 172, 180, 185 for model year up through 1972. 182, 206 for model year up through 1971. 207 from 1970 and up. Kit 219-100 covers all of the above model aircraft and includes the plate lens.	05-01526 (219-100)	**$795.00**
172, R172K (172XP), 172RG, 180,185 for model year 1973 and up, 182,206 for model year 1972 and up. Kit 219-200 covers all the above model aircraft and includes the plate lens.	05-01545 (219-200)	**$809.00**

EMPENNAGE TIPS

These empennage tips are made of fiberglass rather than the royalite type material that cracks after a short time on the aircraft. Fiberglass has the following advantages over royalite type material, it is approximately six times stronger and 12 times stiffer, it resists ultra violet light and weathers better, and it keeps it's chemical composition intact much longer. It is recommended, as with all plastics, they are painted for better UV protection. These kits are manufactured under a FAA PMA authorityTop line is Aircraft Spruce part number, middle line is Cessna part number. Bottom line is price.

CESSNA FLAP GAP-SPEED KIT

Cessna flap gap speed kit consists of a gap seal on the lower flap gap that is an extension of the lower wing skin from the rear spar to the leading edge of the flap. The seal eliminate a high drag area plus reduce the amount of air leaking from the high pressure underside of the wing to the low pressure top side of the wing. The reduction in air leakage allows the wing to fly at a lower angle of attack for the same amount of lift, thus reducing drag. Please note it is NOT recommended to install a flap gap kit on those aircraft with wet wings because of the difficulty of resealing the wings to a gas leak free condition. This flap gap-kit is FAA STC'd and manufactured under a FAA PMA authority. Also available is a hardware kit 114H containing enough hardware to install the flap gap kit.

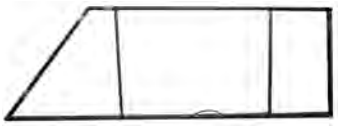
FAA-PMA Approved Throttle Controls for aircraft manufactured by Grumman American, Gulfstream Aerospace Corp. or Tiger Aircraft LLC. McFarlane Aviation has developed a longer conduit terminal that allows extra clearance between the swivel joint and the air filter box at the clamp location.

REPLACEMENT PIPER PARTS

J-3 LOWER DOOR

FAA/PMA'D. Uncovered, with pin. Includes handle and plunger. Does not include glass. Replaces Piper P/N 50173-00

P/N 05-05034 ..... **$487.95**



UPPER DOOR ASSEMBLY

FAA/PMA'D. Uncovered. Does not include glass. Replaces Piper P/N 51853-00. P/N 05-05035..... **$379.95**

J-3 BRAKE PEDAL

FAA/PMA'd

LH Replaces Piper 41602-02... P/N 05-04978... **$132.95 ea.**

RH Replaces Piper 41602-03 .. P/N 05-04979... **$132.95 ea.**

J-3 RUDDER PEDAL KIT

FAA/PMA'd. Consists of two rear and front pedal assemblies. Replaces Piper P/N 40842-04 & 40842-05 ..... P/N 05-04980... **$339.95 ea.**

J-3 STEP

FAA/PMA'd. Replaces Piper P/N 81903-02.

P/N 05-05003..... **$95.75**

J-3 EXHAUST COMPONENTS

FAA/PMA'd. J-3 Muffler only (no shroud). Replaces Piper P/N 71053-02.

P/N 05-04981..... **$452.95**

FAA/PMA'd. J-3 Tailpipe (This tailpipe will not fit J-4s) Replaces Piper P/N 74501-00.

P/N 05-04982..... **$195.95**

FAA/PMA'd. J-3 Tailpipe Shroud. Replaces Piper P/N 70912-00

P/N 05-04983..... **$129.95**

FAA/PMA'd. J-3 Muffler Shroud Replaces Piper P/N 70963-00

P/N 05-06460.....**$352.95**

J-3 MUFFLER CLAMP WITH PIN

FAA/PMA'd. J-3, 4, 5, & PA-15, 17, PA-22 Tri-Pacer & Colt Styles, PA-28-140 Cherokee Style. Also suitable for use on Lycoming powered homebuilts 108 hp thru 150 hp. 2 required for full system. Sold as each. Replaces Piper P/N 70591-02..... P/N 05-04985.....**$31.75**

J-3 TAILPIPE CLAMP

FAA/PMA'd. for full system-J-3, 4, 5, & PA-12, 14, 15, 16, 17, PA-18 Super Cub, PA-22 Tri-Pacer & Colt Styles, PA- 28-140 Cherokee Styles. Also suitable for use on Lycoming powered homebuilts 108 hp thru 150 hp. 1 required. Sold as each. Replaces Piper P/N 72691-00

P/N 05-05253.....**$23.95**

J-3 EXHAUST SUPPORT BRACKET

FAA/PMA'd Replaces Piper P/N 70581-00

P/N 05-04987.....**$32.85**

FULL EXHAUST SYSTEM J-3

FAAPMA'd. Includes all component parts listed below plus the PMA'd header stacks. Fits all J-3 and homebuilts using A-65, A75, C85-8 and C90-8 engines without accessories. Uses treated aluminized mild steel stacks, including clamps.

Complete System .....P/N 05-06461 ..... **$1,275.00**

Replacement system includes:

Muffler.....Replaces Piper P/N 71053-02
Tailpipe.....Replaces Piper P/N 74501-00
Tailpipe Shroud .....Replaces Piper P/N 70912-00
Muffler Shroud.....Replaces Piper P/N 70963-00
Muffler Clamps, two.....Replaces Piper P/N 70591-02
Tail Pipe Clamp .....Replaces Piper P/N 72691-00
Bracket .....Replaces Piper P/N 70581-00

Top Half Cowl Replaces Piper P/N 72543-00
P/N 05-06462.....**$373.15**

Bottom Half Cowl Replaces Piper P/N 72473-00
P/N 05-05001.....**$522.00**

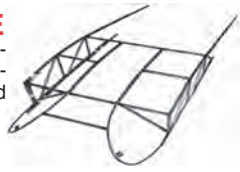
J-3 BOOT COWL

FAA/PMA'd. Includes fire wall and windshield frame. Replaces Piper P/N 23993-00
P/N 05-05013.....**$533.00**

J-3 WINDSHIELD FRAME

FAA/PMA'd. Replaces Piper P/N 23942-00 & 23952-00
P/N 05-05014 ..... **$105.95**

J-3 BIRDCAGE STRUCTURE



FAA/PMA'd. Used as replacement for damaged original. Fabricated of heavier material and completely heliarc welded for added strength. Replaces Piper P/N 00032-64
P/N 05-05063 ..... **$543.00**

J-3 FUSELAGE TAILPOST

FAA/PMA'd. Replaces Piper P/N 20012... P/N 05-05047.....**$89.85**

J-3 ELEVATOR BELL CRANK MOUNT

Bracket Assembly. FAA/PMA'd.
LH Replaces Piper P/N 21442-02 P/N 05-05045.....**$95.00**
RH Replaces Piper P/N 21442-03P/N 05-05046.....**$82.75**

J-3 WING SPAR-TO-FUSELAGE ATTACH FITTING KIT

FAA/PMA'd. For wood spar wing only. Front and rear. Replaces Piper P/N 12801-00 & 12791-00 ..... P/N 05-05076.....**$141.95**

J-3 WING STRUT ATTACH FITTING KIT

FAA/PMA'd. Consists of two each front and rear fittings, for one wing. Made of .063 MIL spec 4130 chromoly tubing. Usable on wood spar wings only. Kit is four pieces. Replaces Piper P/Ns 12512-02, 12512-03, 12502-02, 12502-03 ..... P/N 05-05077.....**$125.95**

J-3 PREFORMED AILERON GAPS

FAA/PMA'd. For use with metal ribs only. Replaces Piper P/N 15572-00 & 15572-01 ..
P/N 05-05079 ..... **$78.25**

J-3 METAL RIB WING REPAIR KIT

FAA/PMA'd. Kit consists of 6 pcs. of 3', 4 pcs. of 18" and 5pcs. of 20" long material to properly repair main and nose ribs and uprights for Piper style ribs. Replaces Many Piper P/Ns..... P/N 05-05043.....**$99.75**

J-3C-40, 50, 50S, 65, 65S WING TRAILING EDGES

FAA/PMA'd.
For metal spar
Replaces Piper P/N 15773-00..... P/N 05-05031.....**$65.25**
For wood spar
Replaces Piper P/N 15593-00..... P/N 05-05032.....**$67.50**
Aileron Trailing Edge Replaces Piper P/Ns 42922-00,42933-00, 40411-00..... P/N05-05033.....**$87.50**

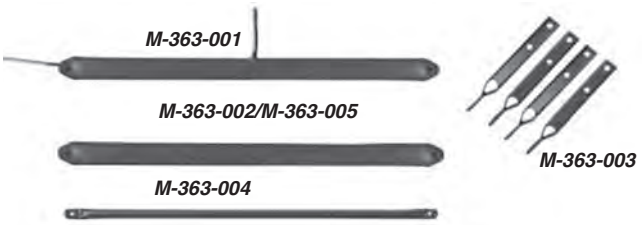
J-3 WING LEADING EDGE

FAA/PMA'd. Equipped with metal spar, LH or RH. Replaces Several Piper P/Ns
P/N 05-05041 ..... **$291.95**

SEALED J-3 LIFT STRUTS WITH CLAMPS

FAA/PMA'd. Includes jury strut clamps, original size 7/16" X 20 thread. J-3 Front and Rear Lift Struts are oiled and sealed and are manufactured to revision levels and installed per AD-93-10-06 are an FAA approved alternate means of compliance and is considered terminating actions for repetitive inspection requirement of AD-99-01-05. For lift struts, forks require a five year inspection per A.D. 93-10-06.
Front ..... P/N 05-05016.....**$679.00**
Rear..... P/N 05-05017.....**$556.00**

J-3 JURY STRUTS



FAA/PMA'd. Front with pitot tube
Replaces Piper P/N 12931-00..... P/N 05-05067.....**$141.95**
FAA/PMA'd. Front w/o pitot tube
Replaces Piper P/N 12571-02..... P/N 05-05068.....**$130.95**
FAA/PMA'd. Rear
Replaces Piper P/N 12571-03..... P/N 05-05071.....**$105.95**
FAA/PMA'd. Jury Strut Fittings (Set of 4)
Replaces Piper P/N 12581-00..... P/N 05-05069.....**$72.25**
FAA/PMA'd. Jury Strut Innerconnect
Replaces Piper P/N 12591-00..... P/N M-05-05070 .....**$59.75**

J-3 AND PA-11 LANDING GEAR

FAA/PMA'd. Completely fabricated. Ready to install landing gear with 1-1/4" axle.
LH - Replaces Piper P/N 10033-00
P/N 05-05005.....**$534.00**
RH - Replaces Piper P/N 10033-01
P/N 05-05006.....**$534.00**

J-3 BOOT COVERS

FAA/PMA'd. Sold as a pair. Replaces Piper P/N 31073-00 ..... P/N 05-05008.....**$34.75**

J-3 CABANE VEE ASSEMBLY

FAA/PMA'd. J-3 Series s/n 2315 to s/n 8277 except s/n 2316, 2332 & 2353. Uses 1/4" bolt. Replaces Piper P/N 21-09
P/N 05-05009.....**$215.95**
FAA/PMA'd. J-3 Series s/n 8278 & up, uses 5/16" bolt. Replaces Piper P/N 30602-00 ..... P/N 05-05010.....**$237.95**

J-3 SHORT SHOCK STRUT

FAA/PMA'd. Fits both J-3 s/n 8278 and up, and L4 series. 15" length. Replaces Piper P/N 31392-00..... P/N 05-05011.....**$210.95**

J-3 LONG SHOCK STRUT

FAA/PMA'd. Fits both J-3 s/n 8278 and up, and L4 series. 25" Length.
Replaces Piper P/N 31382-00..... P/N 05-05012.....**$193.95**

AP

PIPER PA28/32/34 GLARESHIELDS

These beautiful new Glareshields are designed for the Piper models PA28, PA32 and PA34. The new Glareshield is made of FAA approved temperature stable Lexan covered with sound proofing foam and a new non-glare vinyl that looks like leather. With a 3 inch eyebrow over the instrument panel, it not only adds beauty to your plane but also improves forward visibility. The new Glareshield is easy to install and comes with all hardware and detailed instructions.

(Piper PA28) ..... P/N 05-02221 ..... **$269.95**
(Piper PA32 & 34) ..... P/N 05-02222 ..... **$299.50**
(Piper C Model) ..... P/N 05-02223 ..... **$329.95**

PIPER HEATER TEMPERATURE CONTROL LOCK

For years Piper PA28 and PA32 owners have been plagued with a Heater Temperature Control that will not stay positioned. This Heater Temperature Control Lock that can be installed in minutes and provides a positive adjustable lock for the Heater Control Lever.

J-3 FUEL VALVE

This J-3 fuel valve includes a steel handle for use with the original pushpull shut off control. this valve is a significant improvement over the original brass style fuel valve. The new valve has a stainless steel ball seated in an inert composite seat. This improved design eliminates the stiff operation and leaking around the shaft that the original design was prone to. PMA approved. P/N 05-00848 ..... **$141.95**

J-3/PA-11 THROTTLE CONTROL

FAA approved replacement throttle control.
P/N 05-03397 ..... **$372.95**

FLEXIBLE RUBBER BRAKE LINE

From brake master cylinder to copper lines on gear vee.
P/N 05-07530 ..... **$120.95**

OIL PRESSURE HOSE

P/N 05-07360 ..... **$102.95**

WING TIP BOWS

Preformed wooden wing tip bows for use in all Piper Aircraft Models J-3 to PA-22. It is recommended to soak the wing tip bows in water before installation to avoid breakage. P/N 02-18500 ..... **$35.50/ea.**
Note: Wing tip bows can be shipped via UPS with an oversized package rate equal to the 30 Lb. rate.

PIPER DOOR HINGE CLEVIS PINS

Due to normal wear and lack of lube, the door hinge clevis pins should be replaced from time to time to maintain the proper operation of the doors. The set includes 2 clevis pins, 6 washers, and 2 cotter keys. All the hardware is FAA approved for all Piper aircraft.
P/N 05-03633 ..... **$9.90**

PIPER DOOR HINGE EYEBOLT SET

The eyebolts are probably the most neglected parts on the plane. They hardly ever get lubricated and due to their exposure to the elements, rust in the pivot point can prevent the door from closing properly and should be replaced from time to time as they wear. The set contains two of the proper eyebolts and detailed installation instructions. The hardware is FAA approved for all Piper aircraft.
Rear Door ..... P/N 05-03636 ..... **$26.95**
Front Door ..... P/N 05-03635 ..... **$35.70**

BUSHING WITH RETAINING RING FOR PIPER AIRCRAFT

COWL BUSHING R-RING MC69790-00 - Material that outlasts the original nylon or glass filled teflon materials. Used on most Piper Cherokee models. Includes the retaining ring (snap ring) . P/N 05-01764 ..... **$16.50**
COWL PLATE ASSEMBLY MC69791-000 - Stainless steel mounting plate with MC69790-00 teflon glass bushing and MC484-840 retaining ring. Upper cowl retaining part for most Piper Cherokee models.
P/N 05-04476 ..... **$32.75**

PIPER DOOR LATCH CLEVIS PIN

Restore solid latching of the doors to the fuselage Due to normal wear and lack of lube, the door latch clevis pin should be replaced from time to time to maintain the proper operation of the door. The set includes 1 clevis pin and 1 cotter key. All the hardware is FAA approved for all Piper aircraft. P/N 05-04644 ..... **$5.50**

PIPER ENGINE BAFFLES
See www.aircraftspruce.com for part numbers and prices.

PIPER CABIN DOOR AND OVERHEAD TRIM REPLACEMENT HANDLES

Door Replacement Handles

Overhead Trim Replacement Handles

Piper no longer produces the trim handle, and an estimated 10% of 31,000 Pipers on the registry which utilize their handles. The OEM handles are a very weak link in the entire door assembly. Everything downstream of the handle is pretty secure. Therefore, they have improved the handle and are STC'd and PMA'd for certified aircraft. Please call or visit our website for model eligibility. Each replacement handle is sold as a complete assembly and everything required to complete the installation.

$20 CRATE FEE

FUEL QUANTITY TRANSMITTER FOR PIPER AIRCRAFT

New Stewart Warner fuel quantity transmitters have not been available for over 20 years, but we now have new FAA-PMA approved direct replacements for originally installed Stewart Warner type transmitters. They eliminate the need for expensive transmitter conversion kits that require replacement of fuel gauges and wiring. These fuel quantity transmitters are engineered to be compatible with the original fuel quantity gauge and wiring which uses reliable time proven technology.
Convenient Kits
FAA-PMA approved kits include one transmitter, one no leak Viton gaskets and five screw/seal assemblies.

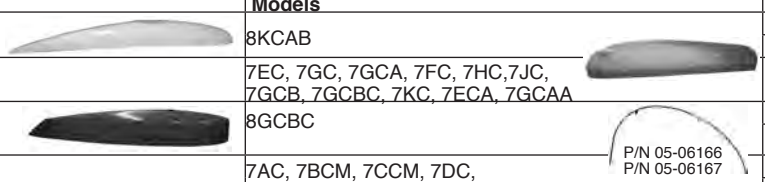
Wing Tips - Fiberglass	8GCBC	7-1480L (left)	05-06271	**$199.00**
		7-1480R (right)	05-06164	**$295.95**
Wing Tip Bow - Metal	7AC, 7BCM, 7CCM, 7DC, 7EC, 7FC, 11AC, 11B, 11C	7-440L (left)	05-06166	**$299.95**
		7-440R (right)	05-06167	**$299.95**



Note on Model Eligibility: We have made every effort possible to detail installation eligibility for Aeronca parts based upon the best information we have available. If you are uncertain as to whether a specific OEM part number may be installed on your aircraft, you must consult either your aircraft owner or service manuals, or check with your mechanic. We do not warrant that models listed in the catalog are accurate in all instances. Please call us if you have questions about specific part numbers and model eligibility and we can research your question prior to your order.

AERONCA/BELLANCA REPLACEMENT PARTS

WOOD WING SPARS, FITTINGS & COMPONENTS ALL FAA/PMA'D

For wood spar A.D. inspection use our 18" or 36" ProVision Fiber Optic Scopes.

Description	Models	OEM P/Ns	Part No.	Price
Front Spar L/R Rear Spar L/R	7AC, 7B, 7BCM, 7CCM, 7DC, 7EC, 7FC, 7ACA, 11AC, 11B, 11C (Spars are used with metal wingtip bow only)	5-146L (left front)	05-06071	$992.00
		5-146R (right front)	05-06072	$992.00
		5-147L (left rear)	05-06073	$964.00
		5-147R (right rear)	05-06074	$964.00
Front Spar L/R Rear Spar L/R	7EC, 7FC, 7GC, 7GCA, 7HC, 7KCAB 7ECA, 7KC, 7GCAA (Spars are used with fiberglass wingtip only)	5-262L (left front)	05-06105	$992.00
		5-262R (right front)	05-06106	$992.00
		5-263L (left rear)	05-06107	$964.00
		5-263R (right rear)	05-06108	$964.00
Rear Spar L/R Front Spar L/R	7HC, 7GCB, 7GCBC	5-270L (left rear)	05-06111	$964.00
		5-270R (right rear)	05-06112	$964.00
		5-271L (left front)	05-06113	$992.00
		5-271R (right front)	05-06114	$992.00
Front Spar Strut Attach Fitting	All Models Except 8KCAB	2-892	05-05741	$37.50
Front Spar Attach Fitting	8KCAB	2-1969	05-06272	$44.95
Front Spar Root Fitting	8KCAB	1-9878	05-06273	$17.70
Rear Spar Root Fitting	All Models	2-703	05-05695	$124.95
Wing Root Drag Wire Lug	Most 7, 8, & 11 Series	1-2299	05-05389	$26.75
Wood Spar Nails	All Models	114	05-06274	$22.85 /lb.

**** Pricing and availability of spars is highly dependent upon price and availability of Sitka Spruce. Please call for current prices and delivery lead time.***

Note on Model Eligibility: We have made every effort possible to detail installation eligibility for Aeronca parts based upon the best information we have available. If you are uncertain as to whether a specific OEM part number may be installed on your aircraft, you must consult either your aircraft owner or service manuals, or check with your mechanic. We do not warrant that models listed in the catalog are accurate in all instances. Please call us if you have questions about specific part numbers and model eligibility and we can research your question prior to your order.

WINDOWS, WINDOW SETS & SKYLIGHTS - ALL FAA/PMA'D

FAA/PMA'd. Factory fresh, free from distortion. Manufacturer guarantees their windows and skylights to be optically perfect and free from defects. Please specify year, model and serial number of your aircraft when ordering. Many out-of-date aircraft have been modified and measurements included with the order will help alleviate any problems if your aircraft is not standard. Check or charge card number must accompany order. Orders are noncancellable and nonreturnable. All windows and skylights available in green or grey tint at additional 20% charge. Windows and skylights requiring a Certificate of Authenticity for export have an additional $80.00 charge. Windows and skylights. Shipped FOB factory. Prepayment required.

Description	Models	LP Aero P/N	OEM P/Ns	Cat. No.	Price
Left Front Sliding Window Forward (clear)	Most 7 Series	231	3-572 (replaces 3-469, window only)	05-02783	$33.50
Left Front Sliding Window Rearward (clear)	Most 7 Series	232	3-573 (replaces 3-470, window only)	05-02784	$31.00
Rear Window (Left or Right) (clear)	Most 7 Series	233	7-463	05-02785	$46.50
Right Front Door Window (clear)	Most 7 Series	234	7-538	05-06406	$92.00
Right Door Window Bubbled	7ECA, 7GCAA, 7GCBC, 7KCAB, 8GCBC	291	4-1446	05-02821 (clear)	$94.50
				05-06409 (green)	$113.95
Left Rear Bubbled Window	7ECA, 7GCAA, 7GCBC, 7KCAB, 8GCBC	290	7-1256-L	05-06411 (clear)	$99.75
Right Rear Bubbled Window	7ECA, 7GCAA, 7GCBC, 7KCAB, 8GCBC	289	7-1256-R	05-02820 (clear)	$99.75
Left Front Swinging Bubbled Window	7ECA, 7GCAA, 7GCBC, 7KCAB, 8GCBC	297	4-1487	05-06438 (clear)	$93.25
				05-06439 (green)	$111.95
				05-06440 (gray)	$111.95
Left or Right Door - Front Sliding Window (clear)	11AC, 11BC, 11CC, S11AC, S11BA, S11CC	225	4-715	05-06441	$45.00
Left or Right Door - Rear Sliding Window (clear)	11AC, 11BC, 11CC, S11AC, S11BA, S11CC	226	4-714	05-06444	$30.25
Left or Right Rear Window (clear)	11AC, 11BC, 11CC, S11AC, S11BA, S11CC	227	4-594	05-06447	$34.75
Left Front Pilot Window (clear)	14-19-3A, 17-30, 17-30A, 17-31A, 17-31ATC (Viking)	816	196940-1	05-06450	$144.95

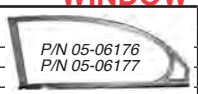
SKYLIGHT

Skylight	7ACA, 7GCBC, 7ECA, 7GCAA, 7KCAB, 8GCBC, 8KCAB	288	7-1286	05-02818 (clear)	$124.95
				05-02819 (green)	$124.95

WINDOW SETS

Window Set - Includes one each right and left rear bubble windows, right door bubble window, left front swinging bubble window	289, 290, 291 & 297	05-06464	$361.25
Window Set - Includes one each left front sliding window fwd., left front sliding window rwd. right and left rear bubble window and right door bubble	231, 232, 289, 290 & 291	05-06465	$344.95

WINDOW & WINDSHIELD FRAMES & COMPONENTS



Rear Window Frame	7AC, 7CCM, 7DC, 7EC, 7FC, 7GC, 7GCB, 7HC	7-461 (right)	05-06176	$247.95
		7-461 (left)	05-06177	$247.95
Rear Window Sill Strip (wood)	7AC, 7DC, 7EC, 7FC, 7GC, 7GCA, 7HC, 7GCB	2-786	05-05723	$19.50
Transom Window Frame	All 7 Series Models	2-822	05-05731	$19.50
Retainer - Left Side Windshield	7AC, 7BCM, 7CCM, 7DC, 7EC, 7ECA, 7FC, 7GCAA, 7GCBA, 7GCBC, 7KCAB	3-473	05-05831	$34.75
Retainer - Right Side Windshield	7AC, 7BCM, 7CCM, 7DC, 7EC, 7ECA, 7FC, 7GCAA, 7GCBA, 7GCBC, 7KCAB	3-474R (right)	05-05832	$22.50
Retainer - Right Side Windshield	7GCAA, 7GCBC	3-474-1R (right)	05-06301	$11.29
Retainer Windshield - Top	7AC, 7DC, 7EC, 7FC, 7GC, 7GCA, 7HC, 7GCB, 7GCBA	3-549	05-05854	$17.50
Retainer Windshield -Pair - Windshield to Wraparound	7AC, 7BCM, 7CCM, 7DC, 7EC, 7FC, 7GC, 7GCA, 7GCB, 7GCBA, 7HC	7-487	05-06194	$85.50/pr.
Rear Window Channel - Bottom	7ACA, 7ECA, 7GCAA, 7GCBA, 7GCBC, 7KCAB, 8GCBC, 8KCAB	2-1875R (right)	05-05635	$42.00
		2-1875L (left)	05-05634	$42.00
Rear Window Channel - Top	7ACA, 7ECA, 7GCAA, 7GCBA, 7GCBC, 7KCAB, 8GCBC, 8KCAB	2-1876R (right)	05-05637	$47.75
		2-1876L (left)	05-05636	$47.75
Rear Window Channel - Aft	7ACA, 7ECA, 7GCAA, 7GCBA, 7GCBC, 7KCAB, 8GCBC, 8KCAB	1-9919R (right)	05-06302	$14.07
		1-9919L (left)	05-06303	$14.07
Top Window Aft Edge Strip	7BCM, 7CCM, 7EC, 7FC, 7GC, 7GCA, 7GCB, 9GCBA, 7HC	4-656	05-06018	$21.00
Moulding - Rear Window Upper	7ACA, 7ECA, 7GCAA, 7GCBA, 7GCBC, 7KCAB, 8GCBC, 8KCAB	2-1877R (right)	05-06304	$19.48
		2-1877L (left)	05-06305	$19.48
		2-1877-1R (right)	05-06306	$19.48
		2-1877-1L (left)	05-06307	$19.48
Retainer Windshield -Side - Windshield to Wraparound	7ECA, 7GCAC, 7GCAA, 8KCAB	3-474-2R	05-06308	$23.25
		3-474-2L	05-06309	$14.06
Retainer - Right Side Windshield to Wraparound (bottom)	7ACA, 7GCBC, 7ECA, 7GCAA, 7KCAB, 8KCAB, 8GCBC	4-1369R (right)	05-05887	$67.75
		4-1369L (left)	05-05886	$67.75
Left Front Window Frame	7ECA, 7GCAA, 7GCBC, 7KCAB, 8KCAB, 8GCBC	7-1318	05-06310	$183.75
Retainer Windshield -Top - Windshield to Greenhouse	7ACA, 7ECA, 7GCAA, 7GCBA, 7GCBC, 7KCAB, 8GCBC, 8KCAB	2-1880	05-05638	$26.00
		2-1880-1	05-05639	$26.50
Top Window Support Assy.	7ECA, 7GCAA, 7KCAB, 7GCBC, 8GCBC	3-1396	05-05787	$131.95
Top Window Support Assy.	7BCM, 7CCM, 7EC, 7FC, 7GC, 7GCA, 7HC, 7GCB, 7GCBA	3-585	05-05859	$177.95
U Rubber Channel	Meets AN, MS, NAS, or MIL-Spec	CH-35	05-02200	$1.39
Hinge for Left Side Window	7ECA, 7GCAA, 7GCBC, 7KCAB, 8KCAB, 8GCBC	1-9872	05-05595	$22.00
Sliding Window Center Stiffener	Most 7 & 11 Series	1-2417-1	05-05436	$24.75
End Stiffener Left Rear Sliding Window	Most 7 Series	1-2418-1	05-05437	$29.50
End Stiffener Left Front Sliding Window	Most 7 Series	1-2418-2	05-05438	$29.50
Sliding Window Track Moulding Upper (31.37")	Most 7 Series	2-853-1	05-05736	$53.50
Sliding Window Track Moulding Lower (37.43")	Most 7 Series	2-853-2	05-05737	$45.75

Note on Model Eligibility: We have made every effort possible to detail installation eligibility for Aeronca parts based upon the best information we have available. If you are uncertain as to whether a specific OEM part number may be installed on your aircraft, you must consult either your aircraft owner or service manuals, or check with your mechanic. We do not warrant that models listed in the catalog are accurate in all instances. Please call us if you have questions about specific part numbers and model eligibility and we can research your question prior to your order.

AERONCA/BELLANCA REPLACEMENT PARTS

BRAKE COMPONENTS & TOE BRAKE KITS - ALL FAA/PMA'D

Description	Models	OEM P/Ns	Part No.	Price
Toe Brake Kit -Gerdes System. Wheels & brakes not included.	7AC, 7ACA, 7BCM, 7CCM, 7EC, 7ECA, 7FC, 7GCBC, 7GC, 7GCA, 7GCAA, 7GCB, 7GCBA, 7KCAB	4-1624K	05-06311	**$1,805.00**
Toe Brake Conversion Kit - Converts VanSickle or Goodyear brakes systems to Cleveland wheels and brakes for aircraft with oleo gear only! Includes parts list, three installation drawings and two brake line drawings and two STCs (SA34CH &5A507CH)	7AC, 7BCM, 7CCM, 7EC, 7ECA, 7FC, 7GCBC, 7GC, 7GCA, 7GCAA, 7GCB, 7GCBA, 7HC, 7KCAB	4-1624OG	05-06312	**$4,327.00**
Toe Brake Conversion Kit - Converts Gerdes brake system to Cleveland wheels and brakes for aircraft with spring steel gear only! Includes parts list three installation drawing and one STC (SA334CH)	7ACA, 7ECA, 7GCBC, 7GCAA, 7KCAB, 8KCAB, 8GCBC	4-1624SG	05-06313	**$4,231.00**
Brake Sys. Cleveland Conv. Kit. Converts mechanical brakes to hydraulic heel brakes with oleo gear only. Includes parts list and installation drawing.	7ACA, 7GCBC, 7ECA, 7GCAA, 7KCAB, 8GCBC, 8KCAB	4-1557K	05-06314	**$3,772.75**
Heel Brake Conversion Kit - Converts existsing hydraulic heel brakes to hydraulic toe brakes. Does not include new wheels, brake discs, calipers or spacers. Can be used on aircraft with spring steel gear	7ACA, 7ECA, 7GCBC, 7GCAA, 7KCAB 8KCAB, 8GCBC	4-1624K	05-06311	**$1,805.00**
Master Cylinder Extension	For the above Part No. 4-1557K brake kit.	2-1887	05-05641	**$66.75**
Rudder Pedals, Toe Brake *P/N 05-05809*	7ECA, 7GCAA, 7GCBC, 7KCAB, 7ACA, 8KCAB	3-1537-1 (front)	05-05809	**$86.50**
		3-1537-2L (left rear)	05-05810	**$90.00**
		3-1537-2R (right rear)	05-05811	**$90.00**
Brake Torque Plate	7AC, 7BCM, 7CCM, 7EC, 7FC, 7GC, 7HC, 11A, 11BC	1-2258	05-06315	**$20.00**
Brake Cable *P/N 05-05409*	7AC, 7BCM, 7DC, 7EC	1-2358-2	05-05409	**$35.90**
Eyebolt Brake Cable	11AC	1-2499	05-05457	**$34.00**
Brake Rod	7ECA, 7GCAA, 7GCBC, 7KCAB, 8KCAB	1-9850	05-06316	**$27.83**
Parking Brake Cable Assembly	7ECA, 7GCAA, 7GCBC, 7KCAB, 8KCAB	1-9945-1	05-05592	**$10.00**
Parking Brake Cable	7ECA, 7GCAA, 7GCBC, 7KCAB, 8KCAB	1-9945-2	05-05599	**$16.75**
Cable Brake Assembly, LH	11A, 11B, 11C	2-7762	05-06317	**$64.75**
Cable Brake Assembly, RH	11A, 11B, 11C	2-7763	05-06318	**$49.50**
Parking Brake Balance Beam	7AC, 7BCM, 7CCM, 7DC, 7EC, 7FC, 7GC, 7GCA, 7GCBA, 7HC, 7JC	2-796	05-05726	**$119.95**
Tube, Parking Brake Beam	7Ac, 7BCM, 7CCM, 7DC	2-796-1	05-05727	**$13.25**
Parking Brake Lever Release Plate	All 7 & 11 Series Models	1-2325	05-05396	**$25.50**
Parking Brake Lever Spring	All 7 & 11 Series Models	1-2519	05-05458	**$16.75**
Brake Pedal Connecting Rod	7ACA, 7ECA, 7GCAA, 7GCBC, 7KCAB, 8GCBC, 8KCAB	1-9911	05-05596	**$40.25**
Hydraulic Brake Line Assembly	7EC, 7FC, 7GC, 7GCA, 7HC, 7GCB, 7GCBA, 7ECA, 7GCBC, 7GCAA, 7KCAB, 7KC	1-8966	05-05579	**$38.00**
Brake Pedal	7A, 7ACA, 7BCM, 7CCM, 7DC, 7EC, 7FC, 7GC, 7GCA, 7GCB, 7GCBA, 7GCBC, 7HC, 7KCAB, 8GCBC, 8KCAB	1-2613L	05-06319 (left)	**$29.50**
		1-2613R	05-06320 (right)	**$29.50**
Brake Link	7A, 7BCM, 7CCM, 7DC, 7EC, 7FC, 7GC, 7GCA, 7JC	2-718	05-05703	**$74.50**
Toe Brake Rudder Pedal *P/N 05-05807* *P/N 05-05806*	7ACA, 7ECA, 7GCAA, 7GCBC, 7KCAB, 8GCBC, 8KCAB	3-1534	05-05803	**$117.95**
Bracket Toe Brake Master Cylinder	All 7 & 8 Series Models	3-1536 (right)	05-05807	**$87.00**
		3-1536 (left)	05-05806	**$87.00**

OLEO STRUT & COMPONENTS - FAA/PMA'D

Description	Models	OEM P/Ns	Part No.	Price
Repair, Oleo Strut Assembly (no bounce) One year Warranty. Allow four to six weeks turnaround.	7AC, 7BCM, 7CCM, 7DC, 7EC, 7FC, 7GC, 7GCA, 7HC, 7GCB, 7ECA	3-665	05-06321	**$710.00**
Repair, Oleo Strut Assembly (standard) One year Warranty. Allow four to six weeks turnaround.	7AC, 7BCM, 7CCM, 7DC, 7EC, 7FC, 7GC, 7GCA, 7HC, 7GCB, 7ECA	3-433	05-06322	**$460.88**
Oleo Strut Frame *P/N 05-06133*	Most 7 & 11 Series	7-1004	05-06133	**$495.95**
Landing Gear Oleo Frame Cover	7AC, 7BCM, 7CCM, 7DC	4-10000	05-05872	**$61.00**
Landing Gear Oleo Fairing *P/N 05-05872*	7DC, 7EC, 7FC, 7GC, 7GCA, 7HC, 7GCBC, 7GCBA,	4-701L	05-06027	**$38.75**
	7GCBC, 7ECA, 7GCAA, 7KCAB, 7KC, 11A, 11B & 11C	4-701R	05-06028	**$38.75**
Channel - Strut Frame	All 7 & 11 Series *P/N 05-06027 & 05-06028*	2-673	05-05680	**$21.50**
Landing Gear Frame Tube	Most 7 & 11 Series	7-1004-1	05-06134	**$53.50**
Oleo Bushing, Shock Strut	Most 7 & 11 Series	1-2565	05-06323	**$53.75**
Piston Rod Assembly	7AC, 7BCM, 7CCM, 7DC, 11A, 11B, 11C	1-2255	05-05375	**$129.95**
Piston Rod	7AC, 7BCM, 7CCM, 7DC, 11A, 11B, 11C	1-2255-1	05-05376	**$53.50**
Piston Rod Assembly *P/N 05-05376*	Most 7 & 11 Series	2-952	05-05758	**$221.95**
Piston Rod	Most 7 Series	2-952-1	05-05759	**$89.50**
Oleo Spring for no bounce oleo assembly	7AC,7BCM, 7CCM, 7DC, 7EC, 7FC, 7GC, 7GCA, 7HC, 7GCB, 7GCAA, 7GCBC, 7ECA, 7GCAA, 7GCAB, 7KC	3-666	05-06324	**$46.85**
Oleo Spring	7KC, TA, O-58A, O-58B	1-320	05-05522	**$73.50**
Landing Gear Oleo Strut, Lower Tube	7AC, 7BCM, 7CCM, 7DC, 11AC, 11B, 11C	1-2253	05-05374	**$117.95**
Oleo Spring	7AC, 7BCM, 7CCM, 7DC, 11AC, 11B, 11C	1-2256	05-05378	**$53.75**
Aeronca Tube - Cylinder Assembly *P/N 05-05378*	Most 7 & 11 Series	3-668	05-05870	**$352.95**
Taxi Spring	Most 7 & 11 Series	2-953	05-05760	**$68.25**
Oleo Packing 12"	Most 7 & 11 Series (need one per strut)	1-2119	05-05373	**$25.75**
Retainer Oleo Shock Strut Spring	7AC-7DC & 11 Series	1-316	05-06325	**$30.40**

Note on Model Eligibility: We have made every effort possible to detail installation eligibility for Aeronca parts based upon the best information we have available. NOTE: Some parts on this page are primed or varnished in accordance to FAA Approved Drawings.

Note on Model Eligibility: We have made every effort possible to detail installation eligibility for Aeronca parts based upon the best information we have available. If you are uncertain as to whether a specific OEM part number may be installed on your aircraft, you must consult either your aircraft owner or service manuals, or check with your mechanic. We do not warrant that models listed in the catalog are accurate in all instances. Please call us if you have questions about specific part numbers and model eligibility and we can research your question prior to your order.

Note on Model Eligibility: We have made every effort possible to detail installation eligibility for Aeronca parts based upon the best information we have available. If you are uncertain as to whether a specific OEM part number may be installed on your aircraft, you must consult either your aircraft owner or service manuals, or check with your mechanic. We do not warrant that models listed in the catalog are accurate in all instances. Please call us if you have questions about specific part numbers and model eligibility and we can research your question prior to your order.

AERONCA/BELLANCA REPLACEMENT PARTS

FIREWALLS ALL FAA/PMA'D

P/N 05-06043

P/N 05-06368

P/N 05-05950

Description	Models	OEM P/Ns	Part No.	Price
Firewall (no large holes)	7AC, 7BC, 7CC, 7EC, 7FC, 7GC, 7GCB, 7HC, 7JC, 7KC, 7GCA, 7GCBA, 7GCAA, 7GCBC, 7KCAB, 7ECA, 8KCAB, 11AC, 11BC, 11CC	4-860-2	05-06043	**$247.95**
Firewall (2 large holes)	Same as 4-860-2 (but two holes like 4-1640)	4-860-1	05-06368	**$59.00**
Firewall (2 large holes, w/bottom cut out, Scout)	7ECA, 7GCAA, 7GCBC, 7KCAB, 8GCBC, 8KCAB. w/cutout	4-1640	05-05950	**$98.75**
Service Kit - Frame Reinforcement Kit	7AC, 7BCM	(Required for 85 hp Conversion)	05-06375	**$99.95**
Fitting, Belly Skin	7GCAA, 7ECA, 7GCBC, 7KCAB, 8GCBC	1-10246	05-06369	**$5.62**

ELEVATORS & COMPONENTS ALL FAA/PMA'D

Bowden Cable Casing, 16" long	11AC, 11B	1-2578-5	05-06404	$10.00
Bowden Cable Casing, 21" long	11AC, 11B	1-2578-6	05-05474	$42.00
Bowden Cable Casing, 23" long	11AC, 11B	1-2578-7	05-05475	$42.00
Bowden Cable Casing, 52-3/4"" long	7GCBA	1-2578-8	05-06405	$23.99

**** Meets AN, MS, or Mil-Spec***

Note on Model Eligibility: We have made every effort possible to detail installation eligibility for Aeronca parts based upon the best information we have available. If you are uncertain as to whether a specific OEM part number may be installed on your aircraft, you must consult either your aircraft owner or service manuals, or check with your mechanic. We do not warrant that models listed in the catalog are accurate in all instances. Please call us if you have questions about specific part numbers and model eligibility and we can research your question prior to your order.

(FAA/PMA APPROVED)

WING LIFT STRUTS

NEW, IMPROVED STEEL STRUTS—SEALED AND OILED TO PREVENT INTERNAL CORROSION.

(Except Decathlon aluminum front struts)

7AC Front Strut	P/N 05-08515	**$536.00**
7AC Rear Strut	P/N 05-08520	**$423.95**
11AC Front Strut	P/N 05-08525	**$478.95**
11AC Rear Strut	P/N 05-08530	**$424.95**
Citabria Front Strut	P/N 05-08535	**$535.00**
Decathlon Front Strut, Left	P/N 05-08545	**$744.00**
Decathlon Front Strut, Right	P/N 05-08550	**$768.00**
Decathlon Rear Strut	P/N 05-08555	**$432.95**
Scout Front Strut	P/N 05-08565	**$449.50**
Scout Rear Strut	P/N 05-08570	**$289.95**

WING LIFT STRUT FORK

P/N 05-08575 ..... **$64.70**

7AC CONTROL CABLES

(GALVANIZED STEEL)

Short Aileron Cable (2 req'd)	P/N 05-08580	**$28.00**
Rudder Cable, Long (2 req'd)	P/N 05-08585	**$77.65**
Rudder Cable, Short (2 req'd)	P/N 05-08590	**$60.75**
Aileron Control Cable (4 req'd)	P/N 05-08595	**$45.50**
Brake Cable and Housing Assembly (2 req'd), (PMA App.)	P/N 05-08600	**$92.25**
Brake Cable Only (2 req'd)	P/N 05-08605	**$25.90**
Down Elevator Cable (1 req'd)	P/N 05-08610	**$106.95**
Aeronca Cown Elevator Cable	P/N 05-08615	**$97.50**
Trim Cable (2 req'd)	P/N 05-08620	**$69.75**
Up Elevator Cable (1 req'd)	P/N 05-08625	**$111.95**

CITABRIA AIR INDUCTION TUBE

P/N 05-08630 ..... **$17.50**

CITABRIA FUEL GAUGE COVER

P/N 05-08635 ..... **$69.85**

TAILBRACE WIRE LUG

P/N 05-08640 ..... **$7.75**

EXHAUST SYSTEM FOR 7AC / 11AC

LH Stack	P/N 05-08705	**$240.95**
RH Stack	P/N 05-08710	**$240.95**
Heat Muff	P/N 05-08715	**$209.95**

CITABRIA FUEL VENT DEFLECTOR

P/N 05-08655 ..... **$59.75**

STAINLESS STEEL TAILBRACE WIRE

7AC, 7EC, 7FC—UPPER & LOWER

Citabria, Decathlon, Scout—Lower

1. Wire Only	P/N 05-08665	**$32.75**
3. Assembly	P/N 05-08670	**$56.50**

Citabria, Decathlon, Scout—Upper

2. Wire Only	P/N 05-08675	**$32.75**
4. Assembly	P/N 05-08680	**$56.50**

ALL ALUMINUM COWLING

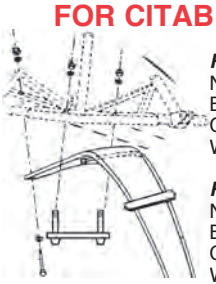
Nose Cowl	P/N 05-08685	**$990.89**
Fuselage Cowl (7AC only)	P/N 05-08690	**$654.00**
Top Cowl	P/N 05-08695	**$346.95**
Bottom Cowl	P/N 05-08700	**$263.95**

LANDING GEAR U-BOLTS

Citabria/Decathlon.	P/N 05-08645	**$126.50**
Scout (new style)	P/N 05-08650	**$119.95**

(Hardware required—see below)

LANDING GEAR ATTACH HARDWARE FOR CITABRIA, DECATHLON, SCOUT



For Citabria and Decathlon

Nut (6 required)	P/N 05-08720	**$17.65**
Bolt (2 required)	P/N 05-08725	**$28.75**
Cupped Washer (2 req.)	P/N 05-08730	**$0.71**
Washer (6 required)	P/N 05-08735	**$0.45**

For Scout

Nut (6 required)	P/N 05-08720	**$17.65**
Bolt (2 required)	P/N 05-08745	**$10.50**
Cupped Washer (2 req.)	P/N 05-08730	**$0.71**
Washer (6 required)	P/N 05-08735	**$0.45**

OLEO SHOCK STRUT

Fits 7ECA, 7GCAA and 7GCBC:

with High Energy Taxi Spring	P/N 05-08740	**$829.00**
with Standard Spring	P/N 05-08750	**$698.00**
Fits 7AC and 11AC	P/N 05-08755	**$782.50**
7AC and 11AC Spring Only	P/N 05-08760	**$51.50**

LANDING GEAR OLEO CASE FRAME

Oleo Case Frame (Uncovered)

7AC & 11AC Series	P/N 05-08765	**$579.24**
Early Citabria	P/N 05-08770	**$486.00**

TAILWHEEL LEAF SPRINGS – COMPLETE SETS

Citabria/Decathlon (short)	P/N 05-08780	**$115.95**
Scout (long)	P/N 05-08785	**$176.95**

LANDING GEAR AXLE ASS'Y. FOR AERONCA & CITABRIA

Early Citabria Axle Strut	P/N 05-08790	**$600.00**
Aeronca Axle Strut	P/N 05-08795	**$707.50**

ERCOUPE – FORNEY – ALON PARTS

(TYPE CERTIFICATE APPROVED)

ALL ALUMINUM COWLING

NOSE COWL ASSEMBLIES

With no cold air intake hole
P/N 05-08800 .....**$971.00**

With cold air intake hole
P/N 05-08805 .....**$990.00**

SIDE COWL ASSEMBLIES

DZUS Fasteners..... P/N 05-08810 .....**$492.95**
CAMLOC Fasteners ..... P/N 05-08815 .....**$510.00**

BOTTOM COWLS

P/N 05-08820 .....**$585.00**

SPARK PLUG FAIRINGS

Mooney Fairing (top in photo, approx. 17 inches long)
P/N 05-08825 .....**$83.75**
Ercoupe Fairing (bottom in photo, approx. 14-3/4 inches long).....
P/N 05-08830 .....**$76.75**

ERCOUPE ENGINE MOUNT

P/N 05-08835 .....**$2,028.00**

FILLER NECK GROMMET

P/N 05-08840 .....**$18.00**

NOSE GEAR STEERING BALL

This is the original type steering ball as used on Ercoupe, Forney and Alon.

P/N 05-08845 .....**$10.50**

IMPROVED STEERING JOINT BALL KIT

This kit consists of rod-end bearing and all necessary hardware. It is FAA approved for all Ercoupe, Forney, Alon and M-10. For use with the part number 52035 push-rod that has the male threaded stud. (Steering Collar not included)

.....P/N 05-08905 .....**$113.75**
Push Rod.....P/N 05-08910 .....**$156.84**

EXHAUST SYSTEM FOR ERCOUPE 415 SERIES & EARLY FORNEY

Left Hand Stack (stainless)
P/N 05-08920 .....**$591.00**
Right Hand Stack (Stainless)
P/N 05-08930 .....**$611.00**
Muffler.....P/N 05-08935...**$683.00**
Carburetor Heat Shroud
P/N 05-08940 .....**$147.95**
Cabin Heat Shroud
P/N 05-08945 .....**$225.95**

CABIN HEAT SHROUD ASSEMBLY FOR ALL ERCOUPE MODELS AFTER 1945

P/N 05-08945 ..... **$225.95**

ERCOUPE WINDOW WELTS

Ercoupe Window Welt 53169
(2 are required per plane, sold each)
P/N 05-08950 .....**$41.90**

LANDING GEAR SHOCK PADS

This material has superior weathering qualities. This unaffected by hydraulic fluid and has greater resistance to static load.
Pads (8 required per plane)
P/N 05-08850.....**$6.75**

Washer (SN 813 and up) (14 required per plane)
P/N 05-08855.....**$15.25**

AP

6 GALLON FUSELAGE TANKS

For Ercoupe, welded alum., SN 2623 &up
P/N 05-08865.....**$1,745.00**

For Forney, Alon
P/N 05-08870.....**$1,637.00**

For M-10
P/N 05-08875.....**$1,276.00**

WELDED 9-GALLON WING TANK

For Forney, Alon and M-10 Models with gauge in left hand tank.

Left Hand Tank (48147)
P/N 05-08885 .....**$1,562.00**

Right Hand Tank
P/N 05-08890 .....**$1,562.00**

CARBURETOR HEAT SHROUD FOR ALL ERCOUPE MODELS

P/N 05-08895.....**$138.95**

BLANK INSTRUMENT PANEL

Lay out your instrument and radio arrangement using this blank Ercoupe Panel which has locating holes only for the two control columns. FAA field approval required.....P/N 05-08900.....**$291.95**

NAVION – TAYLORCRAFT PARTS

(FAA/PMA APPROVED)

NAVION PARTS

Aircraft Spruce is a factory authorized distributor for these Navion parts manufactured under FAA/PMA approval. These parts are eligible for installation on all Navion models unless otherwise noted.

Description	Navion P/N	Part No.	Price
Fuel Selector Valve Main-off	147-30013-201	05-04271	**$934.00**

TAYLORCRAFT ENGINE MOUNT

For 65 hp. Continental ..... P/N 05-08955..... **$758.00**
For 85 hp. Continental ..... P/N 05-08960..... **$943.00**

TAYLORCRAFT EXHAUST SYSTEM

For all 65 hp. Continental engines in B series through BC 12 series.
P/N 05-08965.....**$946.00**

TAYLORCRAFT B, BC, & LIFT STRUTS
(OILED AND SEALED)

TaylorCraft Front Lift Strut..... P/N 05-08970..... **$575.78**
TaylorCraft Rear strut..... P/N 05-08975..... **$543.15**

Note: all post WWII will not work on a Taylor A/C F/L2M

TAYLORCRAFT LEADING EDGE SKINS

Outboard Leading Edge (54 1/4") ..... P/N 05-08980..... **$79.50**
Center Leading Edge (57 1/4")..... P/N 05-08985..... **$88.75**
Inboard Leading Edge (64") ..... P/N 05-08990..... **$97.25**

Note: all post WWII will not work on a Taylor A/C F/L2M

TAYLORCRAFT HEAT SHROUD

P/N 05-08995 .....**$870.00**

TAYLORCRAFT ALUMINUM NOSE COWL

Applicable to B series and BC12D Continental powered Taylorcraft (cowl grills not included)

P/N 05-09005.....**$840.00**

TAYLORCRAFT NOSE COWL GRILLS

Stamped aluminum grills with natural aluminum finish. For all standard Taylorcraft nose cowls.
Left Grill ..... P/N 05-09010.....**$52.25**
Right Grill..... P/N 05-09015.....**$52.25**

TAYLORCRAFT TAILWHEEL SPRING SET

P/N 05-09020.....**$119.95**

CLEVELAND WHEELS & BRAKES

CLEVELAND WHEELS & BRAKES FOR HOMEBUILTS

Wheels with matching hydraulic disc brakes are made from magnesium alloy castings to give a lightweight, durable unit. Wheels complete with bearings and wheel covers. Brake assembly has linings installed. Sold in pairs only.

500 x 5, Wt. 5.75 Lbs. Each (Wheel P/N 40-78B, Brake P/N 30-9)
Kit P/N 199-102 (Std. Disc)..... **$1,239.00 /Pr**
Kit P/N 199-102C (Chrome Disc)..... **$1,095.00 /Pr**
Use Lining P/N 66-106. Fits 1-1/4" dia. axles.

600 x 6, Wt. 7-3/4 Lbs. Each (Wheel P/N 40-59A, Brake P/N 30-59A)
Kit P/N 199-104 (Std. Disc)..... **$2,238.00 /Pr**
Kit P/N 199-104C (Chrome Disc)..... **$2,952.00 /Pr**
Use Lining P/N 66-112. Fits 1-1/2" dia. axles.

600 x 6, with Master Cylinders for Defiant
Special set consists of (2) P/N 40-75B wheels, (2) P/N 30-52 brake assemblies and (2) P/N 10-34 master cylinders.
P/N 199-133X **$1,729.00**

500 x 5 NOSE WHEEL - Magnesium, with bearings.
For 1-1/4" dia. axle..... P/N 40-77C **$495.00**

600 x 6 NOSE WHEEL - Anodized aluminum, with bearings.
For 1-1/2" dia. axle..... P/N 40-56..... **$1,244.00**

HEAVY-DUTY CLEVELAND WHEELS & BRAKES FOR HOMEBUILTS

The heavier-duty brake discs, linings and hardware in these kits will increase braking capacity for the heavier, faster-landing aircraft now being designed & built.

#199-93 UPGRADE KIT - For #199-102 standard wheels and brakes. Upgrades current 40-78B/ 30-9 to new 40-230/30-181 specs. Consists of #66-106 linings, discs, shims, bolts, rivets and nameplates for 2 wheels & brakes. P/N 199-93 ..... **$469.95**

#199-156 KIT (AIRCRAFT TO 1500 LBS) - Kit consists of two 40-230 wheel assemblies and two 30-181 brake assemblies. Uses #66-106 linings. Fits 1-1/4" dia. axles. Used on Vari-eze.
P/N 199-156 ..... **$1,401.00**

#199-152 KIT FOR LONG-EZ & COZY (AIRCRAFT TO 2200 LBS) - Kit contains two 40-151 wheel assemblies and two 30-133 brake assemblies. Uses #66-55 linings. Fits 1-1/4" dia. axles.
P/N 199-152 ..... **$1,366.00**

CLEVELAND WHEELS & BRAKES FOR AMPHIBIANS

Although magnesium wheels and brakes are considerably lighter, magnesium is subject to corrosion and should not be used for amphibious operation. Only organic linings should be used on all brakes. All parts of the 500 x 5 size wheels and brakes for amphibians are constructed of anodized aluminum for water resistance. Although a special 40-74 series of 600 x 6 wheels and brakes are manufactured for amphibious use, with chrome plated bearings and brake disc and water drainage holes, they are too costly for use on homebuilt aircraft.

The use of standard Cleveland aluminum wheels with standard bearings on amphibian aircraft is suggested. If bearings are kept well greased, reasonable service can be expected, but earlier bearing replacement should be anticipated.

500 x 5 (Anodized Aluminum)
Kit P/N 199-103 (Std. Disc) ..... **$1,453.00 Pr**
Kit P/N 199-103C (Chrome Disc) ..... **$1,689.00 Pr**

600 x 6 (Anodized Aluminum)
Kit P/N 199-105 (Std. Disc) ..... **$1,564.00 Pr**
Kit P/N 199-105C (Chrome Disc) ..... **$1,738.00 Pr**

500 X 5 ALUMINUM NOSE WHEEL, P/N 40-87C..... **$818.00**

AEROSHELL GREASE FOR WHEEL BEARINGS

Aeroshell #22 grease is recommended for lubrication of Cleveland wheel bearings and is also applicable to other similar wheel bearings. Meets Mil-G-81322. 14 oz. tube .....P/N 08-05490 ..... **$14.65**

CLEVELAND HOMEBUILDERS SPECIAL WHEEL & BRAKE SET PACKAGES

PACKAGE NO. 1 -
Includes 2 Cleveland 5.00-5 magnesium wheels & brakes plus (2) 6 ply tires & tubes. (Wt. approx. 28 lbs.)

A w/McCreary Air Trac Tires & Tubes
P/N 06-00100 ..... **$1,483.00**
B w/Goodyear Flight Custom II Tires (Goodyear's latest design)
P/N 06-00200 ..... **$1,678.00**
C w/Lamb Tires & Tubes (11.400 x 5)
P/N 06-00300 ..... **$1,326.00**

PACKAGE NO. 2 -
Package No. 1 plus 2 Cleveland #10-35 master cylinders. (Wt. approx. 30 lbs.)
A w/McCreary Air Trac Tires & Tubes
P/N 06-00400 ..... **$2,552.00**
B w/G.Year Flight CustomII Tires & Tubes
P/N 06-00500 ..... **$2,730.00**
C w/Lamb Tires & Tubes (11.400x5)
P/N 06-00600 ..... **$2,378.00**

PACKAGE NO. 3 -
Includes 2 Cleveland 6.00-6 magnesium wheels and brakes plus two 4 ply tires and tubes. (Wt. approx. 32 lbs.)
A w/McCreary Air Trac Tires & Tubes
P/N 06-00700 ..... **$2,488.00**
B w/G.Year Flight CustomII Tires & Tubes
P/N 06-00800 ..... **$2,743.00**

PACKAGE NO. 4 -
Package No. 3 plus 2 Cleveland #10-35 master cylinders. (Wt. approx. 34 lbs.)
A w/McCreary Air Trac Tires & Tubes
P/N 06-00900 ..... **$3,540.00**
B w/G.Year Flight Custom II Tires & Tubes
P/N 06-01000 ..... **$3,795.00**

PACKAGE NO. 5 -
Includes 2 Cleveland 6.00-6 magnesium wheels & brakes plus two low-profile lightweight 6-ply 15x6.00-6 tires & tubes. (Wt. approx. 32 lbs.)
A w/McCreary Air Trac Tires & Tubes
P/N 06-01100 ..... **$2,557.00**
B w/G.Year Flight Custom II Tires & Tubes
P/N 06-01200 ..... **$2,676.00**

PACKAGE NO. 6 - Package No. 5 plus 2 Cleveland #10-35 master cylinders. (Wt. approx. 34 lbs.)
A w/McCreary Air Trac Tires & Tubes
P/N 06-01300 ..... **$3,609.00**
B w/G.Year Flight Custom II Tires & Tubes
P/N 06-01400 ..... **$3,728.00**

PACKAGE NO. 7 FOR DEFIANT -
Includes 2 Cleveland 6.00-6 magnesium wheels & brakes (P/N 199-133X) plus (2) 6.00-6 McCreary 6 ply tires & tubes plus 2 master cylinders. P/N 06-01500 ..... **$1,987.00**

MATCO WHEELS & BRAKES

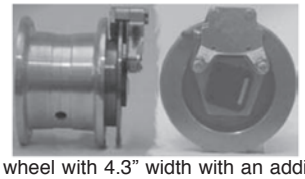
NOTE: Our prices include 2 wheels and 2 brakes (set), unless noted.

W51LT/LXT

The W51LT/LXT is a 5” wheel with a 4.775” width with an additional 1.23 inch caliper spacing. Bearing spacing is 3.084” and axle spacing is 1.00”. The total weight of this wheel and brake assembly is 9.2 Lbs. The bearing axle diameter is 1.25”. Torque rating is 4266 in-lb for the W51LT and is 6143 in-lb for the W51LXT. W51LT is recommended for Cozy Mark IV and the W51LXT is used on the Glasair.

W51LT ..... P/N 06-00079 ..... **$556.00**
W51LT w/axles ..... P/N 06-00568 ..... **$696.50**
W51LXT ..... P/N 06-00412 ..... **$664.00**
W51LXT w/axles ..... P/N 06-00569 ..... **$769.50**

WE51



The WE51 is a 5” wheel with 4.3” width with an additional 1.39” caliper spacing. Bearing spacing is 3.27” and axle spacing is 0.945”. The total weight of this wheel and brake assembly is 7.5 lbs. The bearing axle diameter is 1.25”. Torque Rating (@450 PSI): 2085 inlb. Any 500X5 tire and tube combination can be used with this tire.

WE51 ..... P/N 06-00445 ..... **$513.00**
WE51 w/axles ..... P/N 06-00570 ..... **$661.00**

W51L

MATCO mfg produces a superior 5” wheel and brake assembly for use with aircraft requiring less than 1420 lbs per wheel. This model uses 1.25“ TAPER/ROLL bearings. The W51L is a 5” wheel with 4.6” width with an additional 1.23” caliper spacing. Bearing spacing is 3.084” and axle spacing is 1.285”. The total weight of this wheel and brake assembly is 6.6 lbs. The bearing axle diameter is 1.25“.

W51L..... P/N 06-01710 ..... **$434.00**

W50CC

The W50CC is a 5“ wheel with a 3.7“ width with an additional 1.75“ caliper spacing. Bearing Spacing is 3.0“ and axle spacing is 2.5”. The total weight of this wheel and brake assembly is 4.5 lbs. excluding the axle assembly. This wheel uses a “Lamb” type tire which is 11x400x5 and requires a tube with a 90 degree valve stem. Torque Rating (@450 PSI): 1540 in-lb.

W50CC ..... P/N 06-00470 ..... **$469.95**

W60CC .625

Matco mfg produces a superior inch wheel and brake assembly for use with aircraft requiring less than lbs per wheel. This model uses inch bearings.
This is a W60CCD .625 is a 6” inch wheel. The bearing axle diameter is .625 inches.
P/N 06-00938..... **$219.95**

MMHE6B

MHE6B-SC MHE6B

The MHE6B E SERIES is a 6” wheel with 5.375” width with an additional 1.39 inch caliper spacing. Bearing spacing is 2.71” and axle spacing is 0.68”. The total weight of this wheel and brake assembly is 5.8 lbs. The bearing axle diameter is 1.25“. Use on various light support aircraft. Torque Rating (@450 PSI): 2085 in-lb. Order axles separately.

MHE6B..... P/N 06-00444 ..... **$543.00**
MHE6BSC..... P/N 06-00443 ..... **$543.00**

W600XT

The W600XT is a 6” wheel with 6.3125” width with an additional 1.37” caliper spacing. Bearing spacing is 3.42“ and axle spacing is 1.78“. The total weight of this wheel and brake assembly is 11.9 lbs. The bearing axle diameter is 1.50“. Torque Rating (@450 PSI): 6441 inlb. Static Capacity: 1860 lbs. Load Limit: 5580 lbs. Order axles separately.

W600XT ..... P/N 06-00413 ..... **$673.00**

MH6B

The MH6B is a 6” wheel with 5.375“ width with an additional 1.24“ caliper spacing. Bearing spacing is 2” and axle spacing is 2“. The total weight of this wheel and brake assembly is 4.4 lbs. The bearing axle diameter is 0.625“. The NEW MH6B is now produced as a CNC spun wheel with a Tenzalloy hub center and a NEW higher torque caliper. Torque Rating (@450 PSI):1540 in-lb. StaticCapacity:660 lbs.

MH6B..... P/N 06-16810 ..... **$459.00**
MH6B-S ..... P/N 06-00447 ..... **$438.95**

W60

MATCO mfg produces a superior 6” wheel and brake assembly for use with aircraft requiring less than 1420 lbs per wheel. This model uses 1.25“ TAPER/ROLL bearings. The W60 is a 6” wheel with 4.375“ width with an additional 1.23“ caliper spacing. Bearing spacing is 2.5“ and axle spacing is 1.25“. The total weight of this wheel and brake assembly is 7.1 lbs. The bearing axle diameter is 1.25“.

W60..... P/N 06-02160 ..... **$439.00**

W60CC .75

Matco mfg produces a superior 6” inch wheel and brake assembly for use with aircraft requiring less than 660 lbs per wheel. This model uses 0.75 inch BALL bearings. (Check the product comparison table for other bearing and caliper configurations). The W60CCD.75 is a 6” inch wheel with 4.38 inch width with an additional 1.75 inch caliper spacing. Bearing spacing is 3 inches and axle spacing is 1 inches. The total weight of this wheel and brake assembly is 5.55 pounds. The bearing axle diameter is 0.75 inches. This is a set of one wheel and one brake. P/N 06-00939 ..... **$219.95**

HEGAR WHEEL KITS

Spun aluminum wheel kit includes aluminum wheel halves, hubs,5/8 bearings, valve, tubeless kit and all necessary hardware, Compatible with Hegar brakes.

Note: Order tires separately.

4X6 Offset rim ..... P/N 06-00318 .. **$92.65**
4X6 Symmetrical(Quicksilver®) P/N 06-00319 .. **$96.50**
5X6 Offset rim P/N 06-00320 .. **$97.25**
5X6 Symmetrical (Quicksilver®) P/N 06-00321 .. **$97.25**
6X6 Offset rim ..... P/N 06-00322 .. **$97.25**
6X6 Symmetrical (Quicksilver®)..... P/N 06-00323 .. **$89.75**

The following Hegar wheels are designed to fit Quicksilver® nose gear allowing clearance for the steering fork.

3.5X5 MX(L) Nose Wheel ..... P/N 06-00324 **$111.95**
3.5X6 MX(L) Nose Wheel ..... P/N 06-00325 .. **$97.25**

HEGAR SPUN AND BILLET ALUMINUM WHEELS WITH BRAKES

6" SPUN ALUMINUM WHEEL - Includes. 2 - 6" spun aluminum wheels. 2 - 5" calipers and 4-1/2" rotors. all lines and fittings. axles included 5/8" or 3/4". 5/8" precision ball bearings are 800 GVW. 3/4" precision ball bearings are 1100 GVW. Note: To be run tubeless, but tubes may be used. 3-3/4 lbs. per side wheel and brake.

6S X 5 - 5" Wide Wheel X 6" Diameter..... P/N 06-01269 ..... **$588.00**
6S X 6 - 6" Wide Wheel X 6" Diameter..... P/N 06-01270 ..... **$588.00**

5" BILLET ALUMINUM WHEEL - 5B X 5 W/ 6-3/8" Brake Assembly. kit includes. 2 - 5" billet aluminum wheels. 2 - calipers and 6-3/8" rotors. all lines and fittings. 1-1/4" precision ball bearings 1800 GVW per set. 3/4" precision ball bearings 1500 GVW per set. Note: Retro fits Cleveland brakes. Uses a tube with 90` valve stem ..... P/N 06-01273 ..... **$675.00**

HEGAR EXTERNAL DISC BRAKES

Heavy duty hydraulic external disk brakes for use with all Hegar wheels. Black anodized billet aluminum, 1/8" thick steel disk. Set includes 15 feet of high pressure nylon brake line, fluid with bleeder kit, and fittings. Axles and master cylinders must be ordered separately. Specify 5/8" or 3/4" bearings. P/N 06-00326 ..... **$442.95**

HEGAR BRAKE ACCESSORIES

Order the type of master cylinder(s) & actuator best suited to your aircraft. Standard keyed axles for all aircraft, except Quicksilver®.

Heel-Operated Master Cylinder..... P/N 06-00328 ..... **$67.75**
Joystick-Mounted Master Cylinder ..... P/N 06-00329 ..... **$86.75**
Foot Linkage..... P/N 06-00330 ..... **$99.95**
Hand Linkage ..... P/N 06-00331 ..... **$90.25**
Axles, 5/8" Standard, Set Of 2 ..... P/N 06-00332 ..... **$36.85**
Axles, 5/8" Quicksilver® Set Of 2..... P/N 06-00333 ..... **$63.25**
Axles, 3/4" Standard, Set Of 2 ..... P/N 06-00334 ..... **$36.10**
Dual 7" T-Lever Master Cylinder Assy. 1/2".... P/N 06-01280 .... **$136.95**
Dual 7" T-Lever Master Cylinder Assy. 5/8".... P/N 06-01597 .... **$136.95**
Dual 7" T-Lever Master Cylinder Assy. 3/4".... P/N 06-01598 .... **$136.95**

JDM WHEELS, BRAKES AND AXLES

A quality built 6" wheel & brake designed for the homebuilt and ultralight flyer. Rated up to 2500 lbs. gross weight, these wheels easily accommodate 800 series tires for off-field landings and 600 series tires for low profile and an increase in speed. The brake disks made of cast iron provide for longevity and superior heat dissipation, while using Rapco brake pads to finish the system. The axles are 1-1/4" aluminum and use a 1-3/8" square bolt pattern. The kit does not include master cylinders, brake fluid line or axles and nuts. Each JDM brake and wheel including the axle weigh only 10.3 lbs. Kit includes 1 wheel and 1 brake.

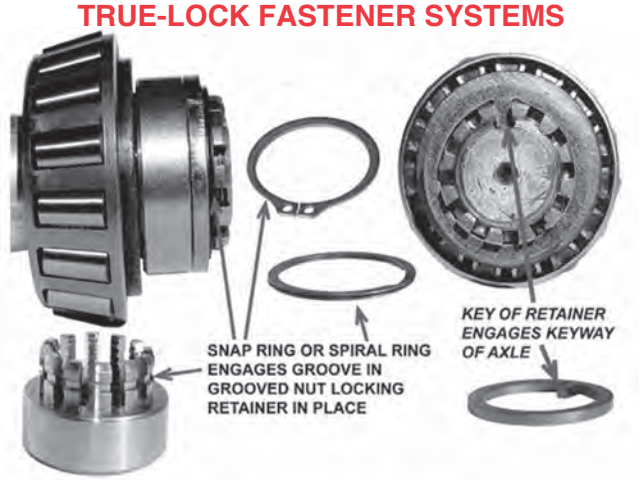
6" wheel & Brake Assembly* (1-1/4" Tapered Roller Bearing) P/N 06-03475 ..... **$505.95 ea**
1-1/4" Axle & Castle Nut..... P/N 06-03480 ..... **$96.00 ea**

BERINGER 5.00-5 INCH WHEEL & BRAKE SET PACKAGES

Upgrade your experimental aircraft and save 6 to 10 Lbs with high performances BERINGER wheels and brakes. This complete wheels and brake set is designed to mount directly, replacing original equipment. Wheels are aluminum red anodized, machined from billet on CNC, with O-rings for Tubeless mounting. Brake calipers use sintered metallic pads and stainless steel pistons for increased life time. The kit includes: 2 main wheels with brake and stainless steel discs, tires (mounted on rims and pressure tested), axles, master cylinders, fluid reservoirs, parking brake valve, anti-lock regulator, stainless steel brake lines and detailed mounting procedure.

Aircraft Model	Description	Part No.	Price
Van's RV6, 7, 9	Complete package as described above, with Michelin Aviator Tires 5,00-5", 10ply Tubeless and 4 master cylinders	06-01089	**$3,875.00**
Van's RV6A, 7A, 9A	Complete package as described above, with Michelin Aviator Tires 5,00-5", 10ply Tubeless and 4 master cylinders	06-01090	**$3,875.00**
Van's RV8	Complete package as described above, with Michelin Aviator Tires 5,00-5", 10ply Tubeless and 2 master cylinders	06-01091	**$3,249.00**
Visit our website for additional models.			

TRUE-LOCK FASTENER SYSTEMS



True-Lock aviation fastener systems reduce premature wear on your wheel-end assembly parts (brakes, bearings, axles, including tires and wheels). The True-Lock system eliminates the conventional axle nut system's inherent inferior torque setting characteristics imposed by the castle nut and cotter pin (end-play).

True-Lock is the only patented aviation wheel fastener system in the world that has been awarded an STC (Supplemental Type Certificate) by the FAA for axle nut technology. True-Lock LLC holds over 1,000 FAA certifications for aviation fastener design. All True-Lock fastener systems are guaranteed for the life of your aircraft and pay for themselves over time by reducing downtime and fewer replacement parts. So, If you want a wheel fastener system for your aircraft that sets the industry standard for vibration mitigation and cost reduction, then True-Lock is what you need.

The True-Lock fastener system is the next generation of fastener technology:

- FAA Certification on over 1,000 aircrafts.
- Significantly increases safety and reliability.
- Reuseable & cost effective.
- Maintenance Free - requires no cotter pins or safety wire!

SEE WWW.AIRCRAFTSPRUCE.COM FOR COMPLETE PRICE LIST OF TRUE-LOCK FASTENER SYSTEMS.

MATCO HUB CAP KIT
FOR MH SERIES WHEELS

Responding to customer inquiries for a kit to allow installation of the current WHLWC wheel cover on MH series wheels, MATCO mfg has introduced the MHWC hub cap kit. The kit includes wheel covers and mounting hardware for 2 wheels. The WHLWC wheel covers are made from durable ABS polymer. The wheel covers can be painted to match customer requirements. Installation can be accomplished without removing the wheel. Installation on MH wheels using the CNC spun wheel halves (introduced in early 2001) can be accomplished in about 10 minutes, On earlier MH series wheels using stamped wheel halves, some trimming of the wheel cover may be required and installation may require about 30 minutes. Furnished unpainted. 2 wheel kit. P/N 06-00446.....**$16.85**

AZUSA LITE NYLON WHEELS
4, 5 AND 6 INCH MODELS

Azusalite wheels are made from engineering grade Nylon which combines high tensile and compressive strengths and good impact resistance. Excellent for many homebuilt and ultralight aircraft applications since they weigh 60-70% less than aluminum wheels. Azusalite wheels are offered in 4", 5" and 6" models. Replacement parts and unlisted accessories available on request.

AZUSALITE 5" WHEEL – Used as the main wheels on the Mohawk ultralight, this 5 inch wheel features 5/8" I.D. sealed ball bearings and uses a 4.10 / 3.50 x 5 or 5.00 x 5 tire and tube.
P/N 06-02500 ..... **$21.85**

AZUSALITE 4" WHEEL – A 4 inch Azusalite wheel featuring 5/8" sealed ball bearings. Uses a 4.10 / 3.50 x 4 tire and tube.
P/N 06-02600 ..... **$16.75**

AZUSALITE 6" WHEEL – A 6 inch Azusalite wheel which comes complete with 5/8" sealed ball bearings. Uses a 4.10 / 3.50-6 or a 6.00-6 tire and tube. ..... P/N 06-02700 ..... **$27.50**

AZUSA TIRES & TUBES (SAWTOOTH TREAD)

AZUSA ALUMINUM WHEELS

5" AZUSA ALUMINUM WHEEL – Complete with 5/8" I.D. sealed bearing.
P/N 1144 ..... **$26.50**

5" AZUSA ALUMINUM WHEEL & BRAKE KIT – Kit consists of (2) #1144 wheels with 5/8" sealed bearings, (2) #2270 aluminum Azusa brakes, (2) #2211 brake drums (2) 11.400-5, 6-ply Lamb tires and Azusa #7131 (2) 340/300 x 5 tubes.
P/N 06-03100 ..... **$192.95**

5" AZUSA ALUMINUM WHEEL – Complete with 3/4" bearing.
P/N 06-00376 ..... **$32.50**

6" AZUSA ALUMINUM WHEEL – Complete with 5/8" I.D. sealed bearings. Wt. 3.9 lbs.
P/N 06-03200 ..... **$39.95**

6" AZUSA ALUMINUM WHEEL – Complete with 5/8" I.D. Timken bearings. Wt. 4.1 lbs.
P/N 06-03300 ..... **$54.75**

6" AZUSA ALUMINUM WHEEL – Complete with 3/4" I.D. Timken bearings. Wt. 4.2 lbs.
P/N 06-03400 ..... **$45.75**

8" AZUSA ALUMINUM WHEEL & BRAKE KIT – Kit consists of (2) #1175 wheels, (2)#2530 brakes, (2)#2542 drums, (2)4.80 x 4.00 tires and tubes, & hardware.
P/N 06-03410 ..... **$257.95**

AZUSA BRAKES FOR AZUSA 5" & 6" WHEELS

These 4.5" brakes have a long actuating arm, 5/8" mounting hole, and bonded lining. Available in anchor style w/ built-in anchor & 2 cable mounting ears, or round style which features a round aluminum backing plate. Platform required w/ 5" Azusalite.

P/N	Description	Price
06-03415	Anchor Style Brake #2208	**$36.90**
06-03420	Round Style Brake #2270A	**$29.85**
01-00169	Brake Assy. 2272A (Right)	**$34.75**
01-00306	Brake Assy. 2272A (Left)	**$37.75**
06-03425	Brake Arm #2263	**$1.29**
06-03430	Spring #2264	**$0.62**
06-03435	Cam #8235	**$4.80**
06-03440	Platform #2259A	**$6.25**
06-03445	Lined Shoes (1/side) #2260	**$18.50**

AZUSA BRAKES FOR AZUSA 8" WHEELS

These 5" brakes are used on Azusa #1175 wheels only. Features a round aluminum backing plate and actuating arm which allows for 8 positions.

P/N	Description	Price
06-03450	Round Style Brake #2530	**$35.75**
06-03455	Brake Arm #2537	**$4.75**
06-03460	Spring #2539	**$0.65**
06-03465	Cam #2533	**$8.85**
06-03470	Lined Shoes (1/side) #2538	**$18.25**

LG

GROVE MASTER BRAKE CYLINDERS

Clevis End—3/16" hole, 1/4" wide slot

These master cylinders are the perfect choice for all Grove brake systems as well as use with other major brands that require a high pressure master cylinder. Consider the following when selecting the proper master cylinder for your aircraft:

Eye Bolt End—3/16" hole, 1/2" head diameter

1.The style (with or without integral reservoir, etc.)

2.The pin-to-pin length—this is the length between the upper and lower attach holes.

Eye Bolt End - 3/16" hole, 3/8" head diameter

3.The attach type for the upper end (clevis, or eye bolt)

4.The attach type for the lower end (cross drilled, slotted, etc.)

REMOTE BRAKE FLUID RESERVOIRS

Quality machined from 6061 billet. Top is retained by snap ring with O-ring seal. Supplied with vented 1/8" NPT cap plug. Anodized for corrosion resistance.

2.75" high 1.75" diameter Holds 2.42 fluid ozs. Weighs 3.6 ounces.

Designed to attach to firewall or other remote location. Adequate capacity to serve both master cylinders. Outlet has 1/8" female NPT thread at bottom of reservoir.

067-054 ..... P/N 06-00819..... **$39.95**

Normal installation requires two (one for each master cylinder.) Supplied with 1/8" NPT fitting. Attaches directly to your master cylinder. 1.98" high; 1.38" diameter Holds 1.10 fluid ounces Weighs 1.5 ounces.

067-050 P/N 06-00818 ....**$26.75**

Cross Drilled - 3/16" holes inline with fitting and also 90° to fitting

Grove P/N	Our P/N	Pin-to-Pin Length	Upper Attachment	Lower Attachment	Weight	Price
670-1	06-00594	7.5"	Clevis	Inline	5.9 oz.	**$158.85**

GROVE WHEEL & BRAKES

4 INCH WHEELS & BRAKES

P/N 40-101 Shown

Manufactured from aerospace grade aluminum

These 4" wheels are manufactured to the same exacting standards as the Grove 5" & 6" wheels.

They feature genuine Timken tapered roller bearings with felt grease seals.

40-1 wheel has 2-3/4" tire bead width.

40-3 wheel has 2-1/4" tire bead width.

GROVE WHEELS & BRAKES FEATURE:

- Aerospace grade materials
- Precision CNC machined
- Timken tapered roller bearings
- Felt grease seals
- Tubeless Option

From the chart below, select the proper static load rating, kinetic energy rating and brake torque for your aircraft.

Choose from Aluminum or Magnesium — Magnesium wheels weigh less than aluminum, but aluminum is more corrosion resistant. Both metals have similar strengths.

5 INCH WHEELS & BRAKES

P/N 57-124 Shown

Available in Aluminum or Magnesium

50 SERIES — Grove's basic 5" wheel.

51 SERIES — Lighter weight version of the 50 series.

55, 56 & 57 SERIES — Same wheel as the 50 series, but with heavier discs for greater kinetic energy and larger calipers for greater braking torque

6 INCH WHEELS & BRAKES

P/N 66-152 Shown

Available in Aluminum or Magnesium

60 SERIES — Grove's basic 6" wheel for 1-1/2" axles.

61 SERIES — Lighter weight version of the 60 series.

65 SERIES — Same as the 61 series, but for use with 1-1/4" axles.

66 SERIES — Same as the 60 series but with heavier discs for greater kinetic energy and larger calipers for greater braking torque.

800X4 DISC BRAKE CONVERSION

STC Approved FAA-PMA

APPROVED MODELS INCLUDE:

J-3, J-4, J-5, PA-11, PA-12 PA-14, PA-15 PA-16, PA-17PA-18, PA-19 PA-20

Good news for owners of early Piper aircraft. Say good-bye to brake expander tube problems forever!

- No more soft brake pedal
- Easy Installation
- Improved braking and ground handling

Maintain the classic cub look by installing modern disc brakes on your existing 800x4 wheels and tires. Use your existing wheels, tires, tubes, master cylinders and brake lines.

STC Kit comes complete with all parts, special tools and STC documentation. Installation requires only standard hand and rivet tools. No modifications are required to be made on the gear leg, or any other part of the aircraft.

P/N 06-00837 ..... **$799.95**

AXLE SHIMS

Reduce Tire Wear
Improve Ground Handling

TOE-IN/OUT REALIGNMENT SHIMS

Install these axle shims between your landing gear and axles to insure that your tires track true. Correct any misalignment of toe-in or out in 1/4° increments. Precision machined from 6061-T6 aluminum.

Price $23.50 each.

Correction	500X5	600X6

CLEVELAND BRAKE DISCS

CLEVELAND BRAKE DISCS

If your aircraft is flown a lot (more than 200 hours a year) and is not exposed to exceptionally corrosive atmospheres, Cleveland Standard discs are the ideal replacement when normal brake wear requires it.

Cleveland Chrome brake discs are the answer for owners of aircraft that are exposed to the elements (moisture, salt, industrial chemicals) and are not flown frequently enough to rub off corrosion. If you fly less than 200 hours a year, your aircraft spends more than 8,500 idle hours exposed to the elements. Standard and Chrome Cleveland brake discs are fully FAA approved as replacements on virtually all popular single engine aircraft.

Aircraft Model	Main Wheel Ass'y	Standard Disc	Price Each	Chrome Disc	Price Each

95-10375 ..... Disc Clip, 5 required ..... **$19.50ea.**

PIPER SHIMMY DAMPER SERVICING KIT

Finally, a shimmy damper servicing kit. One of the most neglected components on Piper aircraft is the shimmy dampener. The shimmy damper aids nose wheel steering by reducing the shimmy of the nose wheel during takeoff and landing, and during high-speed taxiing. Even minor shimmying can lead to serious damage to the nose gear and engine mount and affect the airworthiness of the aircraft. The shimmy damper is a sealed unit that, until now, could not be serviced and required costly replacement. The STC and accompanying servicing kit allows the MAECO shimmy damper to be modified and serviced, restoring the shimmy damper to like-new condition and enabling it to perform as originally designed! The servicing kit installs in less than an hour by any A&P mechanic. Once modified, if the shimmy damper ever needs servicing again, the owner can service it with hydraulic fluid.

Important: Enter Piper Aircraft Model, Serial number, and "N" number at time of order. P/N 06-00846..... **$162.95**

FOR COMPLETE INSTALLATION ELIGIBILITY LIST SEE www.aircraftspruce.com

LORD SHIMMY DAMPER FOR BEECH AIRCRAFT

This nose gear shimmy damper from LORD Corporation is FAA approved for many models of Beech Aircraft. The patented technology provides consistent damping without maintenance. Instead of using fluids to resist motion, the shimmy damper features a unique rubber formulation with a high-tech lubricant to absorb nose wheel vibration. Length: 5-1/2". Long life - Demonstrated performance in excess of 5,000 ground-air-ground duty cycles, expecting a product life of more than 10 years of usage on typical, high-use, single-engine piston airplanes. Consistent damping - From -30 degrees to +150 degrees F. FAA Approved.

P/N 05-03421 ..... **$648.00**

LORD SHIMMY DAMPERS FOR CESSNAS

This high performance shimmy damper is designed to last at least 10 yrs without maintenance and contains no hydraulic fluid, so it cannot leak. Priced at about half the cost of equivalent Cessna factory dampers. 5-yr warranty. All dampers are STC'd and PMA approved.

Features

No Hydraulic Fluid: No periodic leaks or loss of damping. No servicing required. Reduced wear of nose gear linkages. Lower operating costs.

Consistent damping from -30° to 150°F: No loss of damping at temperature extremes. Reduced wear of nose gear linkages. Lower operating costs.

No performance degradation over time and use: Reduced wear of nose gear linkages. Lower operating costs.

Large diameter shaft: Increased durability. Lower operating costs.

Simple Design: High reliability. Lower operating costs.

Form, fit and function compatible: Simplicity of use (one-for-one replacement). Compatibility with existing installation.

BX-1000 BLACK MAX HYDRAULIC BRAKE SYSTEM

(Everything you need in one package)

This system has a full floating rotor which compensates for alignment giving you a smooth feeling brake action. The master cylinder has a built in reservoir which allows you to add oil and bleed from the top down. Maximum holding pressure to allow for a good run up. Uses standard brake fluid. Gross rating 1000 lbs.

Features:

- Master Cylinder w/reservoir and brake handle
- 2 6" polished aluminum wheels
- 2 Hubs w/bearings
- 2 Tires
- 2 Rotors
- 2 Calipers
- 5/8" axle with keyway
- Brake Pads
- 14' of Hydraulic Brake Line
- Fittings and Hardware.

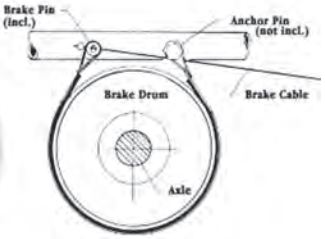
4-1/2 INCH BRAKE BANDS WITH PINS



Band Brakes are simple, effective and economical for a variety of small, light-duty small vehicles, or as parking brakes. They were designed to work with either 4" or 4-1/2" diameter drums, but may work well with drums ranging in size from 3-7/8" through 4-5/8" O.D.

- 2 Piece Bonded Lining
- Comes with 1 band and 1 pin.
- Riveted End/Mounting Brackets
- Steel Brake Pin with Cable Hole Included
- Band Brake for 4.5" drum - Packaged PN 2555

P/N 06-00662 ..... **$13.50**

DIAPHRAGM FOR BRAKE CYLINDER

Master cylinder diaphragm for Piper J-3/PA-11

AIRCRAFT TIRE APPLICATION CHART

Tires/Tubes Certified Aircraft Application Chart - Tires are low speed unless designated. Tires are tube-type unless otherwise indicated. Consult aircraft manual for individual tire pressure. ***– IMPORTANT: READ THIS LEGEND FIRST –***

Code: TL = Tubeless; SC = Smooth Contour; DT = Deflector Type; DDT = Dual Deflector Type

APPLICATION CHARTS - The application information presented within this manual is based on the most current information available and is intended for use as a ***GENERAL REFERENCE ONLY.*** Any inquiries regarding specific model aircraft should be directed to the applicable airframe manufacturer. Your requirements may vary depending on the actual configuration of your aircraft. All Goodyear aircraft tires are manufactured in accordance with TSO-C62, MIL-T-5041 or AIR8505A and/or applicable airframe manufacturer specifications. Additionally, all tire sizes included in this manual may not necessarily be available from Goodyear. Contact your Goodyear Representative for specific tire information and availability. ***Failure to make this verification and to install unapproved tires on an aircraft may result in tire failure causing property damage, serious injury, or loss of life.***

GOODYEAR TIRES & TUBES

GOODYEAR AVIATION

Flight Custom III™

Goodyear Flight Custom III™ Tires are the ONLY General Aviation tires with Kevlar®:

- Antioxidant formulation to help reduce cracking.
- Deeper Tread Depth.
- Wide Aquachannels®.
- Kevlar® belt package.
- Premium Wingstay® formulation.
- Dual polymer tread compound.
- Get up to 20% more landings.
- Superior wet traction, enhanced treadwear.
- The Goodyear® Flight Custom III® offers up to 20% more landings to removal than its predecessor. Dupont tm and Kevlar (circleR) are trademarks or registered trademarks or E.I. du Pont de Nemours and Company. Results may vary based on proper maintenance, runway and operating conditions.

Flight Special II™

A popular replacement tire for light aircraft, the Flight Special is an unsurpassed combination of value and performance. Designed for long treadlife, this tire is built to last. Every strand of nylon cord in the casing has been triple tempered with time, tension and temperature to provide the ultimate in tire construction, uniformity and strength.

FEATURES:

- Wide rib tread design and large footprint
- Enhanced tread compound for uniform wear and extended service life
- Triple-tempered nylon casing cord.

BENEFITS:

- Enhanced traction
- Uniform wear and extended

SERVICE LIFE:

- Excellent Treadwear.

TIRE TALC

Eases installation of tubes in tires. Size: 13oz. DISCOUNT: LESS 15% ON 12
P/N 17-250..... **$8.50**

A "B" at the end of a description means BENT valve stem. An "S" at the end of a description means STRAIGHT valve stem.
(1) For use in both 5.00-5 and G380x150-5 (15x6.00-5).
(2) For use in both 6.00-6 and 15x6.00-6 tires.
(3) For use in both 7.00-6 and 8.00-6 tires.
(4) For use in 6.50-8, 19.5x6.75-8 & 22x8.00-8 tires.
(5) Discontinued, call for Special Pricing.

-Natural rubber aircraft tubes comply with the requirements of Goodyear QAI 2525, which the U.S. Military has accepted in lieu of MIL-I-5014.
-Flight Mate (Butyl) tubes comply with the requirements of SAE document AS 50141.

GOODYEAR FLIGHT EAGLE TIRES

GOODYEAR FLIGHT EAGLE TIRES

With over 100 years of brighter ideas about lighter flight, it's only natural that Goodyear lights the way with LJs and VLJs.

Goodyear Flight Eagle LT is a new tire, but it's already been chosen for the Embraer Phenom 100 and Phenom 300 aircraft. The LT stands for Light Turbine... a new generation of aircraft tires for demanding high speed take-offs and landings.

Features:

- Computer-aided design
- Special inner-liners
- Enhanced bead compounds and construction
- Sidewalls with a reservoir of antioxidants
- Benefits:
- Maximum number of landings
- Enhanced air retention
- Great serviceability and resistance to wheel damage
- Special wear-resistant tread compounds Low cost-per-landing
- Excellent resistance to weather effect of sunlight and ozone

SPECIALTY TIRES & TUBES

Mfg. by Specialty Tires of America (Formerly McCreary)

These fine nylon cord tires with rib tread design are rigidly tested to meet FAA Standard TSO-C62. Air Trac tires are original equipment on many of today's aircraft and offer great performance in an economical tire. Air Hawk are premium grade tires, cost more but provide longer service life. Performance, construction, and safety you can count on from Specialty Tires tires and tubes. Compare prices and get the best savings and faster service from Aircraft Spruce.

7.00 X 6, 6 PLY / 6.00 X 6, 4 PLY KIT - Two Specialty Tires 7.00 x 6, 6 ply tires and tubes and one 6.00 x 6, 4 ply tire and tube. Fits PA-23, 160, 235, 250.
W/Air Trac tires..... P/N 06-21165 .... **$515.00**
W/Air Hawk tires..... P/N 06-21170 .... **$526.00**

8.50 X 6, 6 PLY KIT - Two Air Trac 8.50 x 6, 6 ply tires and tubes. Fits Bellanca Decathlon 8KCA-B and Scout 8GCBC.
W/Air Trac tires..... P/N 06-21175 .... **$674.00**

MICHELIN® TIRES

MICHELIN® AIR® & AVIATOR® GENERAL AVIATION TIRES

Michelin® AIR®: The tire for demanding pilots. The sidewall compound is optimized to provide maximum ozone and ultraviolet light protection, while the MX2000 tread compound is Michelin's toughest. In addition, the new Air Cushion Inner Liner provides a protective cushion over the casing plies which guards against inner tube chafing. And the "Posi-Fit" bead construction reduces movement between the tire and the wheel for improved lateral stability.
Michelin® Aviator®: A Michelin quality tire at a great price. Like the Michelin AIR, the Aviator offers exceptional balance, a new sidewall confi guration and an extra strong nylon casing. It also features the tough MX1000 tread compound for long life, and a specialized sidewall compound to protect against ultraviolet light.

LG

MICHELIN® TIRES & TUBES

MICHELIN® AIR X® GENERAL AVIATION RADIAL TIRES

Michelin® AIR X® radials typically weigh 20–30% less than comparable bias tires, and they operate at cooler temperatures. Helps provide measurable fuel savings, more landings per tread, longer wear characteristics and a more stable contact patch than bias tires, as well as shorter turnaround times and reduced carcass fatigue. Extra Strong Carcass Michelin's carcass design helps restrict tire growth and the stretching of rubber. Durable cut-resistant tread includes deep skid depth and specially-designed circumferential grooves. Sidewall is optimized for both ozone and ultraviolet light protection which helps reduce ozone cracking in key areas of the tire. The Michelin® AIR X® casing is more flexible than casings used in bias tires.

MICHELIN® TIRES – RETREAD TIRES

CONDOR AIRCRAFT TIRES

Strong sidewalls for exceptional durability, even after frequent hard landings. Tough treads compounded for high abrasion resistance, low heat generation and extra long life. Smooth liners to help prevent tube chafing. Full FAA qualification based on thorough static and dynamic testing. Each production tire is subject to final inspection and a check for weight and balance. Limited warranty guarantees that each Condor tire is free from any manufacturing defects. Condor tires are available in a variety of sizes for light to medium general aviation aircraft.

MICHELIN® AIRSTOP® AIRCRAFT INNER TUBES

MICHELIN® AIRSTOP® Aircraft Tubes provide long-lasting, dependable performance you can rely on in just about any operating condition. Because they're made with advanced materials, MICHELIN® AIRSTOP Aircraft Tubes offer extended air retention and can sustain temperatures as low as minus 50°C. So when you fly with MICHELIN® AIRSTOP Aircraft Tubes, you fly with confidence.

RETREAD TIRES

500-5 10 ply high performance retreaded tires *Subject To Limted Core Availability*
Their premium retreads are produced by: Aero Wheel & Brake Service Corp. Aero WBS holds FAA certification to retread high speed aircraft tires up to 225 MPH.
Their sizes range from small piston engine aircraft through Regional Jet aircraft. 95% of the worlds airlines depend on retreads not only for cost control, but for the extended life they provide over most new tires.

Size	Ply	Part No.	Price
500-5 Standard	6	06-01468	**$48.75**
500-5 Monster retread - 9/32nds tread depth	6	06-01469	**$69.95**
500-5 Elite - 2 wide hydro-grooves. With 9/32nds tread depth.	6	06-01470	**$68.90**
600-6 Standard	6	06-01472	**$59.95**
600-6 - Monster retread. Almost 12/32nds tread Depth	6	06-01473	**$69.95**
600-6 - Elite Premium 2 Groove Top of the line. 2 Wide Hydro-Grooves	6	06-01474	**$79.95**
15/600-6 Standard	6	06-01471	**$69.00**
700-6 Standard	6	06-01475	**$97.65**

2008 Shin tire superceded by Carlisle.

11.400 X 5 TIRES & TUBES

This tire fills the size gap between the 5.00-5 aircraft tire and the 3.40-5 industrial tire. Looks like a scaled-down 5.00-5. Fits VariEze, KR's and most experimentals using 5" wheels. These tires require tubes. (tube-type). Formerly known as Lamb tires, these are superceded by Cheng-Shin.

LG

BERINGER 5 INCH NOSE WHEEL KIT

Lightweight Nose Wheels are aluminum red anodized, machined from billet on CNC, with O-rings for Tubeless mounting. Static capacity: 1440 Lbs (with appropriate tire). Aluminum axle for 5/16 bolt diameter. Kit includes: 1 nose wheel with tire (mounted on rim, pressure tested) and 1 aluminum axle

A/C Model	Description	PN	Price
-	Nose wheel kit as described above, with Michelin Aviator Tire 5.00-5" 10ply Tubeless Weight: 8.9 Lbs	06-01097	**$720.00**
Lancair 320, 360 (retractable LG)	Nose wheel kit as described above, with Lamb Tire 11x4.00-5", 8ply Weight: 5.9 Lbs	06-01098	**$558.00**
Lancair legacy (retractable LG)	Nose wheel kit as described above, with Lamb Tire 11x4.00-5", 8ply Weight: 5.9 Lbs	06-01099	**$633.00**
Glasair III (retractable LG)	Nose wheel kit as described above, with Lamb Tire 11x4.00-5", 8ply Weight: 5.9 Lbs	06-01101	**$558.00**
Zenair CH601	Nose wheel kit as described above, with Michelin Aviator Tire 5.00-5" 10ply Tubeless Weight: 9 Lbs	06-01102	**$720.00**

GROVE 4" NOSE WHEEL

Direct replacement for Brock and Gerdes 4" nose wheel. Use with 2.80-4 8" diameter tire on VE, LE, Cozy, etc. or with 4.10-4 10" diameter tire on Cozy Mark IV • Genuine Timkin • Felt Seals • CNC precision Machined to exact tolerances • Weight 1.87 lbs. • Corrosion resistant finish • Static Load Rating 900 pounds. Model 49-3A P/N 06-00842.. **$176.50**

TIRE: Uses 2.80/2.50; 4 ply tire..... PN 06-08000..... **$46.50**

GROVE 400X4 NOSE WHEEL

The perfect nose wheel for light sport aircraft such as the KR and Soneri. • Static Load Rating 900lbs • Genuine Timkin Bearings • Uses 3/4" Axle • Felt Seals • Weight 1.98 lbs Model 49-1A .....P/N 06-00843 ..... **$184.95**

TIRE: Uses 400 x 8 ply tire .....PN 06-00844 ..... **$54.00**

Uses 4.10 x 3.50 x 4 ply tire ...PN 06-08102 ..... **$22.50**

GO-CART WHEELS

Cast aluminum wheels with 4" hub, for homebuilts and sailplanes. Used on Tri-Q conversion as nosewheel. 3-1/4" wide. Complete with 5/8" dia. ball bearings. Wt. 1-1/2 Lbs.

P/N 06-16540 ..... **$47.90 Ea.**

500 X 5 NOSE WHEEL with 1-1/4" dia. bearings. Model No. 40-77A, used on some models of Cessna 150, is typical of nose wheels used on general aviation aircraft. FAA-approved.

P/N 40-77A..... **$595.00**

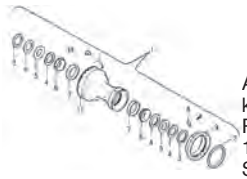
600 X 6 NOSE WHEEL with 1-1/2" dia. bearings. Model No. 40-76A (not illustrated) is used on some models of Cessna 172 and 182. FAA approved. P/N 40-76A **$564.00**

HEGAR NOSE WHEELS

6" SPUN ALUMINUM NOSE WHEEL - The 6" Spun Aluminum nose wheel with 5/8 bearings. Comes centered when using the MX o-ring standard wheel hub but can also be purchased with the MX offset hub (no o-ring with offset hub. Requires the use of a tube. .Comes complete with nuts, bolts, washers, valve stem, o-rings if required and the MX hub. May also be used as main wheels. P/N 06-01274 ..... **$89.75**

6" BILLET ALUMINUM NOSE WHEEL - 1-1/4" OR 3/4" Precision ball bearing. matches with the 6.375" Hegar Billet aluminum brake kit. P/N 06-01275 ..... **$89.75**

CLEVELAND WHEEL & BRAKE CONVERSION KITS



REPLACE 800 x 4 WHEELS ON PIPER AIRCRAFT

A bolt-on 600 x 6 wheel and brake conversion kit for Piper models: J3, J5C, PA11, PA12, PA14, PA15, PA16, PA17, PA18 & PA20 PA18-150 & PA18A-150 with Form 337. The 199-71-STC kit comes complete with STC paperwork so form 337 is not required. Accommodates tire sizes 600 x 6, 700 x 6, 800 x 6. No landing gear modifications required. Minor modification of hydraulic line required. Uses double puck brakes. Fits 1-1/4" diameter axle size only. Fits Piper J4/J5 but STC does not cover these aircraft.

Magnesium Model for general use

P/N 199-71 ..... **$2,068.00**
P/N 199-71-STC (w/full STC paperwork) **$1,999.00**

MASTER BRAKE CYLINDERS

BERINGER BRAKE PADS

Friction material: sintered metal. High coefficient of friction, very long life time, no fading till very high temperatures: 1100° F
Includes: 2 brake pads (for 1 brake caliper), bolts and procedure

ZEA01 OEM Brake pads for Beringer 2 pistons caliper P/N 06-01103 ...**$69.90**
ZEA02 OEM Brake pads for Beringer 2 pistons caliper P/N 06-01484....**$79.85**
Parking Brake ValveMineral-Based Fluid..... P/N 06-01108..**$298.00**

BERINGER BRAKE LINES FOR RV'S

Brake hose is stainless steel braided with PTFE inner tube and stainless steel fittings.It provides consistent brake pedal pressure without spongy feeling. The flexibility allows landing gear leg movements and avoids leakage that appears with hardline tube. These brake lines connect brake calipers to fuselage connectors. Each brake line is pressure tested and delivered with certificate. Includes: set of 2 brake lines, certificate

Set of 2 Brake lines for RV6, 7, 9 ..... P/N 06-01122 .....**$198.00**
Set of 2 Brake lines for RV6A, 7A, 9A..... P/N 06-01123 .....**$213.95**

BERINGER REPAIR / OVERHAUL KITS

Repair kits are available for the following BERINGER® parts: Hand master cylinder, Rudder pedal master cylinder, 2 and 3 piston brake caliper.

Includes all wear parts: pistons, seals, screws, grease, repair procedure.

Description	Part No.	Price
Repair kit for rudder pedal master cylinder HBA01: all piston seals, specific grease, ball bearings, copper seals, instructions	06-01114	**$137.95**
Repair kit for 2 piston caliper : piston seals, pistons, specific grease, copper washer	06-01115	**$92.50**
Repair kit for 3 piston caliper : piston seals, pistons, specific grease, copper washer	06-01116	**$108.00**

BERINGER HAND MASTER BRAKE CYLINDER FOR DOT4

Brings exceptional brake feeling, using the AERO-TEC® three ball bearing patented system, aluminum red anodized, fully CNC machined. Available ONLY for DOT4 brake fluid. Weight: 10oz. Works in all postion. To mount on 0.86" (22mm) axle or directly on flat surface with 2 screws. DO NOT USE MINERAL 5606 FLUID

Hand master brake cylinder for DOT4 built-in reservoir (red anodizing color) P/N 06-01485.....**$387.95**
Hand master brake cylinder for DOT4 built-in reservoir (red anodizing color) with parking brake pin P/N 06-01486.....**$416.95**

CLEVELAND MASTER BRAKE CYLINDERS

MODEL 10-35 - This model has a built-in reservoir and is used in production aircraft. Cast aluminum construction. 5/8" bore, 1.2" stroke, 0.36 cu. in. displacement. Outlet 1/8" NPT. Pin center length 8". Designed to mount on rudder pedal. Formerly Gerdes Model A-049. .....P/N 10-35 .....**$526.00**
Model 10-35 O-Ring Kit.....P/N 199-513 .....**$17.85**

MODEL 10-20 - Spring-loaded piston type assembly without reservoir. Simple design assures long troublefree service. Pin center length 7-1/2". Bore 9/16". Stroke 1.25". Weight: 10 oz. Used on Pitts Special, Acro-Sport and other homebuilts..... P/N 10-20 .....**$263.95**
Model 10-20 & 10-19 O-ring kit..... P/N 06-10600 ....**$12.75**

MODEL 10-19 - Used on Pitts and other homebuilts. Similar to Model 10-20 except with ports aligned differently.....P/N 10-19 .....**$549.00**
Model 10-20 & 10-19 O-ring kit.....P/N 06-10600 .....**$12.75**

MODEL 10-5 -
Same type construction as Model 10-20. Model 10-5 has parking brake feature, Model 10-5B does not. 1/8" NPT ports, on opposite sides of cylinder, have AN823-4D fittings for use with 1/4" brake line. Pin center length 8". Wt. 9.5 oz. Bore 0.562". Stroke 1.25". Used on Piper PA25 & homebuilts.

Master Cylinder Number 10-5 .....P/N 10-5 .....**$2,370.00**
Master Cylinder Number 10-5B.....P/N 10-5B.....**$937.00**
Model 10-5B O-Ring kit (199-503) .....P/N 06-00708 .....**$31.75**
Model 10-5 O-Ring kit (199-502).....P/N 06-10700 .....**$32.50**

MATCO MCMC-4 MASTER CYLINDER

MC-4 EXTERNAL RESERVOIR

MATCO mfg's MCMC-4 master cylinder uses a REMOTE reservoir. The MCMC-4 can be used in individual or dual brake applications. Buna-n orings are used in this assembly. Mil-H-5606 aircraft hydraulic fluid or compatible fluids are reccomended. DOT5 may be used but not DOT5.1 which contains glycol. DOT3 and DOT4 may not be used and will cause immediate damage to the seals. The MCMC-4 master cylinder measures 8.05 +-0.25 inches from end to end and 7.5 +-0.25 inches from mounting hole to mounting hole. A 0.625 inch diameter piston is used. Available stroke is approximately 1.388 inches and displacement is 0.43 cubic inches. The ports on all MATCO mfg master cylinders are 1/8 inch NPT (except the MC-4E). The MC-4 has an adjustable clevis.

UNIVERSAL - Vertical or horizontal mounting with exterior reservoir.
MC-4..... P/N 06-11150.....**$86.50**
MC-4A (0.50" shorter than the MC-4) ..... P/N 06-11100.....**$89.95**
Replacement O-Rings for Master cylinders ... P/N 06-11200...**$0.55/ ea**

MATCO MCMC-5 MASTER CYLINDER

MC-5 VERTICAL

MATCO mfg's MCMC-5 master cylinder uses a INTERNAL reservoir. The MCMC-5 can be used in individual or dual brake applications. Buna-n orings are used in this assembly. Mil-H-5606 aircraft hydraulic fluid or compatible fluids are reccomended. DOT5 may be used but not DOT5.1 which contains glycol. DOT3 and DOT4 may not be used and will cause immediate damage to the seals. The MCMC-5 master cylinder measures 8.25 inches from end to end and 7.7 inches from mounting hole to mounting hole. A 0.625 inch diameter piston is used. Available stroke is approximately 1.388 inches and displacement is 0.43 cubic inches. The ports on all MATCO mfg master cylinders are 1/8 inch NPT (except the MC-4E). The MC-5 has an adjustable clevis. The MC-5 can not be used in series with a second MC-5 or MC-5A

VERTICAL STYLE - Cylinder for vertical mounting, with steel housing and reservoir. MC-5..... P/N 06-11000.....**$91.50**
MC-5A (0.50" shorter than the MC-5) ..... P/N 06-00375.....**$99.85**

MC-7 MASTER CYLINDER - The black anodized MC-6 is designed to attach to a 1" diameter control stick and function similar to a motorcycle brake. Designed for ultralight aircraft, it is completely self-adjustable as the lining wears and draws additional fluid from the cylinder. The 6:1 mechanical leverage allows the average pilot to generate 1,500 psi in the system.

MC-7 .....P/N 06-00014.....**$159.85**

HEGAR MASTER CYLINDERS

5" SINGLE LEVER MASTER CYLINDER - 5" single lever, foot operated. Designed for single braking. Stock unit has 1/2" bore. 5/8" and 3/4" bore are available as a special order.
P/N 06-01277 ..... **$89.75**

5" DUAL LEVER MASTER CYLINDER - 5" dual lever, foot operated. Designed for differential braking. Comes in your choice of 1/2", 5/8" and 3/4" bore sizes.
1/2".....P/N 06-01278 ..... **$136.95**
5/8".....P/N 06-01611 ..... **$189.50**
3/4".....P/N 06-01612 ..... **$189.50**

7" SINGLE LEVER MASTER CYLINDER - 7" single lever, hand operated. Designed for single braking. Comes in your choice of 1/2", and 5/8" bore sizes.
P/N 06-01279 ..... **$89.75**

7" DUAL LEVER MASTER CYLINDER - 7" dual lever, hand operated. Designed for differential braking. Comes in your choice of 1/2", 5/8" and 3/4" bore sizes.
P/N 06-01280 ..... **$136.95**

BRAKE RESERVOIRS - BRAKE FLUID

CLEVELAND BRAKE LINE BLEEDER 87-5

A unique tool which simplifies the brake bleeding job. This brake line bleeder can be used to service all brake assemblies utilizing the bleeder screw assembly pictured above.

P/N 06-01202 ..... **$113.95**

ACS BRAKE BLEEDER ASSEMBLY

Universal brake bleeder fitting. Fits all standard brake systems. 1/8" male NPT Seat is brass. Bleeder screw is stainless steel. P/N 11225 ..... **$6.95 Ea.**

HYDRAULIC BRAKE BLEEDER TANK

Our Brake Bleeder Tank features a hand operated pressurizing pump for field use. It fills and bleeds in one operation. The high-impact plastic reservoir great for petroleum and water-based hydraulic fluid. NOT for use with Skydrol. You get everything needed including a universal adapter which will fit onto all brake receptacles. **Note**: On Cleveland brake assemblies using a 79-3 bleeder screw the additional adapter 06-11414 is required.

225DX Economy Bleeder Tank ..... P/N 06-11413-1 ..... **$84.50**
Option Adapter for Brake Bleeder ..... P/N 06-11414 ..... **$19.75**

HOMEBUILDERS BRAKE BLEEDER

This easy to use system allows you to quickly and easily bleed and flush your brakes without the aid of another person. By using a reverse flow system, combined with slow fluid flow, one person can fill an empty brake system in less tahn 15 minutes without having air in the brakes. Works on most high wing aircraft and does not require compressed air. This system is so easy that once you atrt the process you can walk away; come back in 15 minutes later and the job is done. Not FAA approved.

P/N 06-00120 ..... **$85.35**

ACS MODEL A-315 RESERVOIR

Machined from 6061-T6 billet and anodized for improved corrosion resistance. Available with choice of filler port location for firewall or floor mounting. Capacity 5 oz. Size: 2-1/4" dia. x 2-1/2" long. Wt: 7oz. Specify style.

P/N A-315 (firewall mounting) **$39.85**
P/N A-315-1 (floor mounting) **$43.50**

ACS MODEL A-600 RESERVOIR

Machined from 6061T6 billet. Cap is threaded into body and sealed with a Viton o-ring for easy filling and cleaning. Cap and body have 1/8" female threads. 1-3/8" dia. x 2-3/8" high. Capacity 1.8 oz. Can be threaded directly into master cylinder port. Two units required on most installations (one per master cylinder). Supplied with vented plug in cap and 1/8" NPT male fitting in body.

P/N 06-00391 ..... **$22.85 ea.**

ACS MODEL A-650 RESERVOIR

Machined from 6061T6 billet and anodized for improved corrosion resistance. Attaching bracket is included for firewall or other installation. Extra capacity of 70 ml. Supplied with vented plug in cap and outlet has a female 1/8 NPT thread."

P/N 06-01480 ..... **$39.65**

ADVANCED AERO BRAKE RESERVOIR

This quality brake reservoir is manufactured from 6061 T6 aluminium and tig welded, finished in an anodized red. P/N 06-01494 ..... **$175.00**

MATCO BRAKE FLUID RESERVOIR

This brake fluid reservoir from Matco features a clear plastic bowl for easy inspection of reservoir fluid. Furnished with pre-drilled aluminum flange for easy mounting.Small and compact, this reservoir mounts almost anywhere. Temperature limit is 250°F Reservoir only

P/N 06-11225 ..... **$27.80**

Reservoir Kit (includes reservoir, tubing, & fittings for installation) ..... P/N 06-11230 ..... **$44.50**

MATCO REMOTE BRAKE FLUID RESERVOIRS

MODEL 067-050 - Attaches directly to your master cylinder. Normal installation requires two (one for each master cylinder.) Supplied with 1/8" NPT fitting 1.98" high; 1.38" diameter Holds 1.10 fluid ounces. Weighs 1.5 ounces.

P/N 06-00818 ..... **$26.75**

MODEL 067-054 - Designed to attach to firewall or other remote location. Adequate capacity to serve both master cylinders. Outlet has 1/8" female NPT thread at bottom of reservoir. 2.75" high; 1.75" diameter. Holds 2.42 fluid ounces. Weighs 3.6 ounces.

P/N 06-00819 ..... **$39.95**

BERINGER FLUID RESERVOIR

Lightweight translucent plastic reservoir with aluminum anodized cover and brake fluid level indication. No leakage of fluid with flexible gasket. Use only DOT4 brake fluid in this reservoir. Working capacity: 0.3 cu in, total capacity: 0.67 cu in. Includes: 1 reservoir, EPDM hose 1.5 ft, stainless steel clamp. ..... P/N 06-01105 ... **$69.75**

MIL-PRF-5606H BRAKE FLUID

Petroleum-base hydraulic fluid for use with brake and hydraulic systems with synthetic rubber seals. Meets specification MIL-PRF-5606H. Colored red.

P/N 09-27110 ..... Pint **$5.75**
P/N 09-27000 ..... Qt. **$9.85**

PHILLIPS 66 X/C MIL-PRF-5606H HYDRAULIC FLUID

A mineral-based hydraulic oil with low temperature characteristics capable of operating over a wide range of temperatures. Oxidation inhibited, and contains a special antiwear additive. Dyed red for identification and leak detection purposes. Can be used in both aviation and non-aviation systems with synthetic rubber components, but should not be used in systems that incorporate natural rubber.Quart .... P/N 09-00774 ..... **$7.95**
Case ..... P/N 09-00773 ..... **$173.00**

DOT4 BRAKE FLUID

Maxima Brake Fluid is now available in SYN DOT 4 Hi-Temp, DOT 4 and DOT 5 Silicone. The racing grade has a minimum boiling point of 600°F which assures fade-free operation under the most severe use. All three Maxima Brake Fluids are advanced glycol blends with the latest additives to maintain your hydraulic brake and clutch system in top condition and prevent vapor lock. SYN DOT 4 Hi-Temp and DOT 4 are compatible with other DOT 3 and DOT 4 brake fluids.

Features

- Exceeds current SAE J1703, J1S K2233 and U.S. and FMVSS116 DOT 3 & 4 specifications.
- Recommended for all U.S., U.K., Japanese and European motor cycles.
- Anti-vapor lock formula
- Mixes with other DOT 3 and DOT 4 brake fluids

P/N 06-01497 ..... **$7.95**

LG

SHIMS - BRAKE VALVES

TAPER SHIMS

For wheel alignment. Ideal setting is zero toe-in and zero camber at normal operating weight. Shims may be rotated to any one of four positions to obtain desired result.

0441157-1

Axle Size	Shim Part No.	Approx. correction value		Price Each
		Camber	Toe-In	
500x5	0441157-1	1/2°	0.06"	**$110.95**
	0441157-3	1°	0.12"	**$105.95**
	0441157-2	2°	0.006"	**$658.00**

	0541111-2	2-1/2°	0.10-0.25"	**$156.95**

DIAL-A-DEGREE SHIM

For builders using a 600x6/500x5/GAC/Azusa bolt-on axle, The solution to most minor alignment issues (0 to 3° adjustment). This simple solution uses a pair of specially tapered discs that are mated and rotated in any combination needed to orient each axle to its correct alignment. Each 3" dia. disc is machined and laser-cut from aircraft grade 6061 T6 aluminum. A pair of discs is used on each side. FAA-PMA approved (BDS-101) Sold as a set of 4 discs.

P/N 06-00415 .....**$118.50**

CLEVELAND PARKING BRAKE VALVE

Aluminum valve as used in production aircraft with Model A-110 master cylinders for dual brake installations. Complete w/AN flare fittings. P/N 60-5 **$439.00**

MATCO PARKING BRAKE VALVE

This versatile parking brake valve is ideal for installation in a wide variety of homebuilt aircraft applications. The arm actuates the valve in approximately a 45 degree arc allowing for ease of installation. In-line installation can be used in conjunction with either a single or dual parking brake system setup. Its uniquely simple design allows for easy maintenance and replacement of parts. The parking brake valve body is made from 6061 anodized aluminum for lasting durability. P/N 06-17200 .....**$113.95**

MATCO SINGLE SIDED PARKING BRAKE VALVE

Light weight, and easy in-line installation The overall dimensions of this product are a slim 2.3" X 0.75" X 0.75".

P/N 06-01267 .....**$96.95**

SCOTT PARKING 4500-A1 BRAKE VALVES

A fine quality valve for applications in parking brake systems, helicopter rotor braking systems, pneumatic pressure controls and other hydraulic uses. Molded rubber valve seat designed for use with MIL-H-5606BB petroleum base hydraulic fluid. Maximum working pressure. Mounting holes extend through entire body. 1/8" NPT ports. Valve assembly for Piper and Stinson. Visit our website for a complete application guide.

Model No.	Port A / Port B	Part No.	Price
4500-A1	1/8 ANPT	06-00393	**$273.95**
4500S-A1	7/16-20 NF	06-00949	**$253.95**

MANUAL PARKING BRAKE VALVE

Miniature inline hydraulic manually operated ball valve. Fits in the bottom of the Master cylinder. Just pull the brake handle and hold the pressure and turn the lever on the ball valve. Let go of the handle and the ball valve holds the pressure until you release the lever back. 1/8"NPT Female x 1/8/"NPT Male Chrome Plated Brass Valve 1.7" overall length.

P/N 06-00971 .....**$18.75**

GROVE INLINE PARKING BRAKE VALVE

06-01261

Innovative design allows control lever to be attached in any of four positions as well as on either side of valve body. Internal poppet valves insure easy, secure operation. Body is drilled for mounting with two 3/16" bolts. Valve body dimensions: 1.5"x2.0"x0.75". Control arm has 45° of travel. Max operating pressure: 1,200 psi. For use with MIL-H-5606 Hydraulic Fliud. Weight: 0.32 lbs. Side or top inlet ports: 1/8"NPT * Outlet ports: 1/8" Female NPT or -4 Flare.

Part No.	Inlet	Outlet	Price
06-01260	Top	1/8" NPT	**$169.95**
06-01261	Side	1/8" NPT	**$169.95**
06-01262	Top	-4 Flare	**$168.75**
06-01263	Side	-4 Flare	**$169.95**

BERINGER PARKING BRAKE VALVE

Lightweight parking brake valve, aluminum anodized, fully CNC machined, for dual brake installations. Available for mineral-based fluid type MIL-H-5606 or DOT4 brake fluid.
Complete with fittings, Wt. 6oz
Max. operating pressure: 1450 PSI
Features: • Lightweight parking brake valve, Aluminum anodized. • Available for mineral-based fluid like MIL-5606 or synthetic DOT4 fluid. • Machined from billet on CNC. • Max. input pressure: 1450 PSI

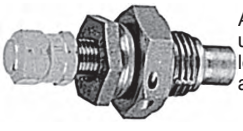
Description	Part No.	Price
Beringer parking brake valve for DOT4 brake fluid, dash-3 fittings (3/8X24), red anodizing color.	06-01107	**$298.00**
Beringer parking brake valve for mineral-based fluid MIL-H-5606, dash-4 fittings (7/16x20), blue anodizing color.	06-01108	**$298.00**

GOOSENECK HOSE COUPLING

Used on high pressure strut pump hose. High pressure connection with a swivel nut and female 1/8" NPT port on other end.

P/N 06-11700 .....**$15.95**
Replacement Seal ...P/N SK2043-5 ..... **$0.32**

STRUT VALVE



AN6287-1 strut valve for operating pressures up to 3000 PSI. Consists of a 3-piece stainless steel body, high-pressure valve core and MS20813-1B cap.

P/N 06-00395 ..... **$24.85**

HIGH PRESSURE VALVE CORES

#2300HV (Long Type, Length 1-3/16") Operating pressure range 70-2000 PSI from -10° to 165°F. Conforms to AN809-1. P/N 06-00397.....**$3.95**

#9914A (Short Type, Length 7/8") Same operating range as #2300HV, but doesn't conform to AN809-1.

P/N 06-00396.....**$1.80**

2525 VALVE CAP (MS20813-1B)

A heat-resisting cap designed to withstand high pressure conditions. Has special rubber sealing washer. P/N 2525..... **$2.95 Ea.**

LG

AXLES

HOMEBUILDERS MAIN GEAR AXLES

ACS AXLES - BOLT-ON TYPE

500X5 AXLE - Machined from 2024T3 aluminum. Gold anodized per specification MIL-A-8625C, Type II for improved corrosion resistance. Length 5-3/4". Mounting bolt pattern is four equally spaced 1/4" dia. holes on 1-15/16" dia. bolt circle. Thread size: 1-1/4 x 16.
P/N 11701 ..... **$42.50 Ea.**

500X5 AXLE - For 199-152 heavy duty discs (as used in Cozy). Same as #11701 axles above except 6" long and without undercut between bearings. P/N 11701-2..... **$44.75**

SPACERS FOR 500 X 5 AXLE - 2 required per axle when used with Cleveland wheels. Not required on 600x6 size.
P/N 11716 ..... **$4.95 Ea.**

EXTRA WIDE SPACER FOR 500X5 AXLE - 7/16" wide as used on 199-152 heavy duty discs. 1 required per axle with P/N 11716 (Use Axle # 11701-2) P/N 11716-2..... **$6.25 Ea.**

600X6 AXLE - Similar to 500 x 5 size but 1-1/2" dia. x 6-1/4" long. Two 5/16" dia. and two 3/8" dia. mounting holes on 2-1/4" dia. bolt circle. Thread size: 1-1/2 x 16. P/N 11702 ..... **$65.25 Ea.**

ACS AXLES - WELD-ON TYPE

500 X 5 AXLE - For use on welded type gear. Fabricated from 1-1/4" O.D. x .120 wall 4130N steel tubing. Precision ground for proper bearing fit. One end threaded 1-1/4 x 12 for round axle nut. 12" long.
P/N 11703-1 ..... **$31.75 Ea.**

600 X 6 AXLE - For use on welded type gear. Fabricated from 1-1/2" O.D. x .120 wall 4130N steel tubing. Precision ground for proper bearing fit. One end threaded 1-1/2 x 16 for round axle nut. 12" long.
P/N 11704-1 ..... **$34.75 Ea.**

AXLE NUTS

Castle type nuts manufactured to MIL Specification MS21025 using 4140 steel. Mild steel nuts are not acceptable for use on certificated aircraft. 1-1/4" dia. nuts for 500 x 5 axles, 1-1/2" dia. nuts for 600 x 6 axles.

Nut Type		Thread	Axle Type	Part No.	Price
Matco	Castle	5/8-18	Matco	06-11815	**$2.35**
---	Castle	1-1/4-16	Cessna	06-11800	**$11.75**
---	Castle	1-1/2-16	Cessna	06-11900	**$12.90**
ACS	Round	1-1/4-12	Piper	11725	**$8.90**
ACS	Round	1-1/2-16	Piper	11726	**$8.95**
Grove	Round	1-1/4-12	Piper	06-00937	**$15.50**

HOMEBUILDERS AXLE NUTS

These 1-1/4" - 16 Castle axle nuts are similar in size & design to pn 06-11800 and are for homebuilts only. Used on Cozy and many other designs
PN 01-00814..... **$9.50**

PIPER COMANCHE LANDING GEAR BUNGEE CORD INSTALLATION / REMOVAL TOOL

This tools allows for safe, simple, & quick bungee replacements on all Piper Comanches. Requires no dangerous levers, jacks, or vices, & does not subject the bungee cord to damage. Detailed instructions included.
Open End Ratchet for use w/Bungee Tool .....P/N 12-00913..... **$31.50**

AIRCRAFT TIRE VALVE CORE

#6035 (38-830)(Short Type) Operating pressure range 0-400 PSI from -65° to 350°F. P/N 6035..... **$0.55**

GROVE AXLES

For 500X5 Wheels w/Wheel Pant Stub - • Diameter: 1.25" • Material: Solid 2024-T3 aluminum w/anodized finish • Hole Pattern: 1-15/16" bolt circle; 1/4"dia. holes. Requires (2) P/N5710 spacers per axle.
P/N 06-00601.....**$59.50**

For 600X6 Wheels w/Wheel Pant Stub - • Diameter: 1.5" • Material: Solid 2024-T3 aluminum w/anodized finish • Hole Pattern: 2.25" bolt circle; (2) 2-15/16" dia. bolt holes & (2) 2-3/8" dia. bolt holes. P/N 06-00602..... **$82.75**

GROVE AXLE SPACER 5712

I.D.: 1.25", O.D.: 1.438", Thickness: 0.360", Used with 5015 axle, 1 (one) required per axle.
P/N 06-01504..... **$5.95**

GROVE AXLE SPACER 5710

I.D: 1-1/4" • O.D. 1-3/4", Thickness: 1/4", Used with 500x5 axle, 2 required per axle. P/N 06-00852..... **$5.90**

STEEL CESSNA AXLES

For use on flat spring landing gear, Cessna models 170, 172, 180, 182, 185 and 206. It is highly recommended to replace aluminum axles with these much stronger steel axles when operating on rough conditions, with larger wheels or on skis. FAA-PMA approved.
P/N 05-00481..... **$369.85**

COZY LANDING GEAR STUD

A custom fabricated 4140 steel heat treated shaft with rolled 1/2-20 threads on both ends Used a gear attachment on Cozy Mark IV. 10.75"L. 2 required. P/N 01-00254 ..... **$38.50**

LG

SHOCK CORDS - RINGS

MILL FRESH SHOCK RINGS

An endless elastic ring composed of multiple strands of natural rubber, wound into a circular skein. Braided cover is high grade yarn. Manufactured to meet specification MIL-C-5651B, Type II. Shock cord is used in landing gear to reduce shock transmitted to fuselage while landing and taxiing and on other shock mounting applications. Color coded to insure fresh stock.

SHOCK ABSORBER COIL RINGS

High pressure springs fabricated from alloy steel for top performance and long spring life. The Claude Gray shock absorber design has been service-proven on the EAA Biplane, Miniplane, Pitts and others. Over 1,000 pair in use. Length 6", 2" O.D., 1" I.D.. Wt. 4-1/2 lbs. per pair. Spring deflection 0.7" per 1,000 lb. force. Set of two springs. ..... P/N 06-13200 ..... **$95.75**

Discount 10% on 6, 15% on 12

GRANVILLE'S STRUT SEAL

Landing gear strut packing seals shrink due to fluctuating weather conditions and age. This specially engineered hydraulic chemical additive leaves a protective coating on the strut shaft and allows the seal to expand to its normal size. It will stop strut leaks and is an excellent lubricant and corrosion preventative. Application is fast and easy - any owner or pilot can do the job in minutes. FAA approved.

STARFLIGHT RUDDER PEDAL

These rudder pedals have been designed and optimized for the Lancair Legacy -- though they are easily integrated into other aircraft. They are overhead mounted, pilot adjustable and provide very precise, smooth rudder and brake control. Overhead mounting. Easily adjust for leg length by turning a small crank just behind the instrument panel. Brake master cylinders not included.* Weight: 8 lbs * Width: 14.4 in * Height: 10 in * Depth: 18 in * Rudder cables not included.

Lancair..... P/N 05-04406.....**$1,259.00**

DELUXE HOMEBUILDERS \ RUDDER PEDAL KITS

Designed for single or two place tandem seating experimental aircraft. The pedals are aluminum castings and the hinge bracket and pedal pivot pin are constructed from 4130 steel tubing. The pedals have an attachment point (1/4" hole) at the top to link the toe brake from the rear cockpit to the front cockpit only 2 master cylinders required). To mount the pedals the builder will need 2 steel bushings 3/4" long to weld through the fuselage and a tube to put through the bushings and the bottom tube of the hinge bracket. Will work well in almost any homebuilt aircraft.

Single Place Kit..... P/N 06-17015..... **$229.95**
Two Place Tandem Kit..... P/N 06-17025..... **$357.95**

CESSNA RUDDER PEDAL EXTENSIONS

P/N 06-00838 ***P/N 06-00839*** ***P/N 06-00641***

The Saircorp/Flight Boss Ltd S-RPE Series Rudder Pedal Extensions fit most high wing Cessna aircraft from 1953 to 2008. Refer to Application Chart or AML for proper selection by visiting our website.

These are constructed from high quality cast aluminum, have a durable Powder Coat finish and use Stainless Steel fasteners. They are strong, durable and built to last.

Installation and removal is quick and easy, the extensions lock in place over your existing rudder pedals giving you that extra needed reach. Your existing rudder pedals do not need to be removed or altered for installation or removal of the extensions.

No more struggling or submarining to get that extra needed rudder deflection. Even "robust" and taller pilots can benefit from the S-RPE Series Rudder Pedal Extensions, they allow you to set back and get the yoke out of your chest. They can be installed and used right seat, left seat or both.

EXT S-RPE-C - fits most 1960's to 1980's ..... P/N 06-00838 ... **$437.00**
EXT S-RPE-CN - fits most 1980's to 2000 and up P/N 06-00839 ... **$459.00**
EXT S-RPE-CO - fits most 1950's to 1960's .. P/N 06-00841 ... **$437.00**

LG

UNIVERSAL AIRCRAFT HEEL PLATES

These Universal Heel Plates can be installed in any aircraft without fasteners or hardware. Velcro secures them to the floor or carpeting. The Heel Plates are available in 22 gauge stainless steel and are furnished with a clear finish. The stainless plates are available in brush finish only. Plates are 8" wide x 12" long with Velcro strips supplied, but not mounted, Sold in sets of two plates. Not FAA Approved.

Stainless steel brush finish heel plates .....05-00839 .... **$69.95**

SPECIAL ORDER COLORS AVAILABLE

RUDDER PEDALS FOR EXPERIMENTAL AIRCRAFT

Designed for the Loehle 5151 Mustang/P-40 these rudder pedals can easily be adapted to many light sport planes and ultralights. Made from spaceage polycarbonate, a material that is used when strength, light weight and durability are a necessity. Sample rudder pedals were shot with a .22 long rifle at a range of 10 yds, bullets failed to penetrate the 1/8" inch thick polycarbonate. Builder will have to fabricate simple back plates from either 1/8" thick birch plywood or 1/8" thick aluminum. An easy to understand detailed drawing is furnished with each set of rudder pedals. Specifications: Wt: 5.2 oz., Width: 4-1/8", Height: 9".

THE LANG TAILWHEEL – FAA APPROVED STEERABLE – FULL SWIVEL

THE ONLY TAILWHEEL TO MEET THE EXACTING REQUIREMENTS OF THE CHRISTEN EAGLES - The Lang Model D-501-A Tailwheel is full swivel, fully automatic and steerable. It is impossible to throw the Lang tailwheel into full swivel unintentionally regardless of rough field conditions or cross winds. This tailwheel will not lock in any position except steerable, but releases easily when plane is pushed sideways or backwards by hand or when maneuvering plane on ground using brakes. The Lang tailwheel fits both 1-1/4" and 1-1/2" leaf springs. Drop forged, heat-treated 4130 chromoly steel fork of single arm type. The cast aluminum wheel is grease packed for 100 hours service. The 6 x 2.00 solid rubber tire has interior wire reinforcement for added strength. Manufactured by ACS Products Co. under FAA-PMA. All replacement parts available. The Lang tailwheel is FAA-approved for installation on many light aircraft including Aeronca 7AC, Piper J-3 and PA-12, Cessna 140, Luscombe and Taylorcraft. Comparable to Scott Model 2000. Wt. 6 Lbs. ***OEM & DISTRIBUTOR PRICING AVAILABLE*** P/N 06-00398 ..... **$965.00**

HOMEBUILDERS SPECIAL TAILWHEELS

FULL SWIVEL AND STEERABLE 4 INCH DIAMETER FULL SWIVEL/STEERABLE

P/N 06-00399 Standard 45° spring angle, for 1-1/4" or 1-1/2" flat spring.
P/N 06-00401 Optional 20° spring angle, for 1-1/4" or 1-1/2" flat spring.
P/N 06-00402 10° Angle, for 5/8" round spring.
Any Model (Wt. 3 Lbs.) **$289.00**
Note: Requires spacer P/N 06-13609 for use w/ 1.25" spring

HEAVY DUTY DOUBLE FORK 6 INCH DIA. FULL SWIVEL / STEERABLE

Locks in steerable mode when aircraft is moved forward. Releases to full swivel when pushed sideways or backwards, or when maneuvering on the ground using brakes. Tire is solid soft rubber, with sealed ball bearings.
P/N 06-06131 - Std. - 45° Angle for 1-1/4 or 1-1/2 flat spring.
P/N 06-06133 - Optional-20° Angle for 1-1/4 or 1-1/2 flat spring.
P/N 06-06135 - 10° Angle for 5/8 round spring.
Any Model (wt. 6lbs.).....**$318.95**
Note: Requires spacer P/N 06-13609 for use with 1-1/4" spring.

MATCO SINGLE ARM TAILWHEELS

Matco tailwheels use a fiberglass reinforced nylon wheel with an operating load of 450 lbs. It takes over 5000 lbs to fail the wheel and it will hold up in the most rigorous conditions. Can be used with 1-1/4" or 1-1/2" leaf spring. These tailwheels are steerable, and are available with a 6 inch hard rubber solid tire or with 8" Shin pneumatic tire and tube for heavier aircraft. Tailwheel construction is anodized aluminum. Weight: 5 lbs.

Item	Part No.	Price
Matco solid rubber tire tailwheel assy	06-01615	**$149.95**

MATCO DUAL ARM TAILWHEELS

MATCO TAILWHEEL DUAL ARM 7 INCH PNEUMATIC

MATCO mfg produces a superior light weight dual fork seven inch tail wheel for use with tail dragger aircraft which require a lighter weight tail wheel-the T-7D. The T-7D tail wheel utilizes a dual fork configuration and incorporates a geometric release mechanism that allows the wheel to caster after reaching a steered angle of 40 degrees (earlier release available with optional steering arms WHLT-03A). The WHLTW37 wheel used on the WHLT-7D has a .625 precision sealed ball bearing which is rigorously tested and designed to resist bearing fatigue providing a long bearing life. The arms and wings of the tail wheel fork assembly are composed of 4130 which is heat treated to a Rockwell 38-43 to ensure strength and are irridited to prevent corrosion. The tail wheel base and forks are cast and then black anodized to prevent corrosion as well. The wheel halves are die cast aluminum for light weight and superior strength. The T-7D features split rims for ease of mounting and dismounting its 7x1.75 tire and tube assembly. The T-7D tail wheel has a seven inch pneumatic tire and an overall length of 10.3 inches. Maximum width of this tail wheel with fully splayed arms is 7 inches and overall height is 10.3 inches. This machined aluminum tail wheel weighs 5.2 pounds.

P/N 06-01527 .....**$380.17**

DUAL ARM TAIL WHEEL ASSEMBLIES 8 INCH PNEUMATIC TIRE

The T-8LD tail wheel utilizes a dual fork configuration and incorporates a geometric release mechanism that allows the wheel to caster after reaching a steered angle of 40 degrees. The WHLTW37 wheel used on the WHLT-8LD has a .625 precision sealed ball bearing which is rigorously tested and designed to resist bearing fatigue providing a long bearing life. The arms and wings of the tail wheel fork assembly are composed of 4130 which is heat treated to a Rockwell 38-43 to ensure strength and are irridited to prevent corrosion. The tail wheel base and forks are cast and then black anodized to prevent corrosion as well. The wheel halves are die cast aluminum for light weight and superior strength. The T-8LD features split rims for ease of mounting and dismounting its 200x50 (8"x2") tire and tube assembly. Specifications: 8 inch pneumatic tire, Overall length of 10.8 inches, Maximum width of this tail wheel with fully splayed arms: 7 inches, Overall height: 10.8 inches, This cast aluminum tail wheel weighs 5.4 pounds P/N 06-01528 .....**$389.00**

LIGHTWEIGHT DUAL ARM TAIL WHEEL ASSEMBLIES 8.5 INCH PNEUMATIC TIRE

The T-8D tail wheel utilizes a dual fork configuration and incorporates a geometric release mechanism that allows the wheel to caster after reaching a steered angle of 40 degrees. The WHLTW40EE wheel used on the WHLT-8D has a .625 precision sealed ball bearing which is rigorously tested and designed to resist bearing fatigue providing a long bearing life. The arms and wings of the tail wheel fork assembly are composed of 4130 which is heat treated to a Rockwell 38-43 to ensure strength and are irridited to prevent corrosion. The tail wheel base and forks are cast and then black anodized to prevent corrosion as well. The wheel halves are die cast aluminum for light weight and superior strength. The T-8D features split rims for ease of mounting and dismounting its 2.80/2.50-4 tire and tube assembly. Specifications: 8.5 inch pneumatic tire, Overall length of 11.6 inches, Maximum width of this tail wheel with fully splayed arms: 7 inches, Overall height is 11.8 inches, This cast aluminum tail wheel weighs 6.7 pounds. P/N 06-01529 .....**$399.51**

DUAL ARM TAIL WHEEL ASSEMBLIES 8.5 INCH PNEUMATIC TIRE

The T-8WD tail wheel utilizes a dual fork configuration and incorporates a geometric release mechanism that allows the wheel to caster after reaching a steered angle of 40 degrees. The WHLNW40EE wheel used on the WHLT-8WD has a .625 precision sealed ball bearing which is rigorously tested and designed to resist bearing fatigue providing a long bearing life. The arms and wings of the tail wheel fork assembly are composed of 4130 which is heat treated to a Rockwell 38-43 to ensure strength and are irridited to prevent corrosion. The tail wheel base and forks are cast and then black anodized to prevent corrosion as well. The wheel halves are die cast aluminum for light weight and superior strength. The T-8WD features split rims for ease of mounting and dismounting its 9x3.50-4 tire and tube assembly. Specifications: 8.5 inch pneumatic tire, Overall length of 11.7 inches, Maximum width of this tail wheel with fully splayed arms: 7 inches, Overall height is 11.9 inches, This cast aluminum tail wheel weighs 8.3 pounds. P/N 06-01531 .....**$435.62**

DUAL ARM TAIL WHEEL ASSEMBLIES 10 INCH PNEUMATIC TIRE

The T-10D tail wheel utilizes a dual fork configuration and incorporates a geometric release mechanism that allows the wheel to caster after reaching a steered angle of 40 degrees. The WHLNW50CC wheel used on the WHLT-10D has a .625 precision sealed ball bearing which is rigorously tested and designed to resist bearing fatigue providing a long bearing life. The arms and wings of the tail wheel fork assembly are composed of 4130 which is heat treated to a Rockwell 38-43 to ensure strength and are irridited to prevent corrosion. The tail wheel base and forks are cast and then black anodized to prevent corrosion as well. The wheel halves are die cast aluminum for light weight and superior strength. The T-10D features split rims for ease of mounting and dismounting its 10x3.60-5 tire and tube assembly. Specifications: 10 inch pneumatic tire, Overall length of 13 inches, Maximum width of this tail wheel with fully splayed arms: 7 inches, Overall height: 13.3 inches, This cast aluminum tail wheel weighs 9.5 pounds

P/N 06-01532 .....**$499.27**

DUAL ARM TAIL WHEEL ASSEMBLIES 11 INCH PNEUMATIC TIRE

The T-11D tail wheel utilizes a dual fork configuration and incorporates a geometric release mechanism that allows the wheel to caster after reaching a steered angle of 40 degrees. The MH5N-S wheel used on the WHLT-11D has a .625 precision sealed ball bearing which is rigorously tested and designed to resist bearing fatigue providing a long bearing life. The arms and wings of the tail wheel fork assembly are composed of 4130 which is heat treated to a Rockwell 38-43 to ensure strength and are irridited to prevent corrosion. The tail wheel base and forks are cast and then black anodized to prevent corrosion as well. The wheel halves are die cast aluminum for light weight and superior strength. The T-11D features split rims for ease of mounting and dismounting its 11x6-5 tubeless tire assembly. Specifications: 11 inch pneumatic tire, Overall length of 13.5 inches, Maximum width of this tail wheel with fully splayed arms: 7 inches Overall height: 14 inches, This cast aluminum tail wheel weighs 9.6 pounds. P/N 06-01537 .....**$678.00**

LG

MAULE ANTI-SHIMMY CONNECTOR SPRING KITS

A high and low frequency spring is used to upset the natural frequency of the tailwheel. The lighter spring is used on the left side.
Compression Type Kit
P/N 06-15150 ..... **$43.85**

TENSION TYPE CONNECTOR SPRING KITS

Kit consists of two tension type springs, two chains and two connector links.
Lightweight Spring Kit Scott .....P/N 2151 ..... **Ea $54.00**
Connector Links.....P/N 06-15400 ..... **Ea $2.35**
Chain .....P/N 06-15500 ..... **Ft $1.14**

COMPRESSION TYPE CONNECTOR SPRING KIT

Replace conventional springs with new compression type. Original tension type springs keep rudder post under continuous tension which wears the hinges. Compression type springs keep rudder neutral - no tension on post. Assures more effective steering action.
Set of 2 stainless steel springs, (2) 1' chains, 4 connector clips: ..... P/N 06-15600 ..... **$24.85**
Springs Only ..... P/N 06-15700 ..... **Ea $7.35**
Connector Clips ..... P/N 06-15400 ..... **Ea $2.35**
Chain ..... P/N 06-15500 ..... **$1.14/Ft**

HUSKY TAILSPRING

The Husky Tailspring is now available. The 3-leaf tailspring, mounting bracket & hardware is all included. This is a direct replacement for all of Sky International (Aviat Husky) tailsprings and eligible on all Husky aircraft, the A1, A1-A, A1-B and the new A1-C.
Why do you need a new tailspring for your Husky? When a tailspring is 'sprung' or weak and/or of poor design that it puts the camber angle of the tailwheel into a negative position, therefore causing the tailwheel to shimmy, be hard to steer and increases the wear on everything.
P/N 06-01364 ..... **$219.00**

RUDDER ARMS

SCOTT TYPE - Cast aluminum brackets with reinforced chain mounting holes. Originally used on Piper J-3, J-4, J-5, PA-11, PA-18, L-21B. 3/4"dia. post between mounting holes.
P/N 1140..... **$147.95**

HOMEBUILDERS MODEL - Same style as Scott model. 3/4" dia. post and 3/4" arm (width)
P/N 06-15900..... **$39.50**

RUDDER ARM 1" SHANK - Originally designed for J-3 through PA-18 series, but adapts nicely to most homebuilts. Code 1
PN 06-01045..... **$39.90**

TAILWHEEL TIRES

6X2 AERO CLASSIC SOLID TIRE - Used on Scott 2000, Lang D-501A Tailwheels. Replaces Goodyear 6x2 tire. P/N 06-01044..... **$59.85**

6X2 GENERAL SOLID TIRE - A flexible rubber tire with four knobs on center hole. This is Scott P/N 1879 used on Scott Model 2000 tailwheels and some Scott 3-24B tailwheels. Also used on Lang D-501A tailwheel. Replaces Goodyear 6x2 (11 knobs) solid tailwheel tire.
P/N 06-15800 ..... **$78.95**

6.50 X 2.50 SOLID TIRE - Maule P/N 23 for Model SFSA tailwheels.
Tire Only..... P/N 06-00409 ..... **$119.95**
Tire w/ Bearings ..... P/N 06-00410 ..... **$143.00**

2.80/2.50 X4 MCCREARY PNEUMATIC TIRE - Used on Scott Model 2600 8" wheel assembly.

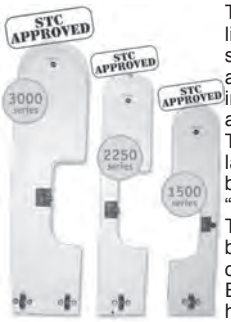
TRICKAIR AIRCRAFT SKIS



Trick Air has developed simple and reliable light aircraft skis of fiberglass composite construction which are aerodynamic and easy to attach and detach from your plane. So easy, in fact, they attach or detach in less than half an hour!

These skis are made in the USA using the latest environmentally friendly technique in fiberglass called closed molding. This is a new "green" process of manufacturing the product.

The 3000, 2250 and 1500 series skis have been static tested to exceed the requirements of TSO-C28 and have been TSO approved.

EASY TO INSTALL - First time installation of hardware on the plane takes approximately 8 hours. After this initial Installation, it only takes 15 MINUTES PER SKI to install or remove the skis from the airplane. Skis are available in a white, sandable gray, Cub yellow, and Torch red finish.

SKIS

Series	Suspension	Part No.	Price
3000 series	Strut Suspension	05-04373	**$7,755.00**
3000-A series	Spring Gear Suspension	05-04374	**$8,465.00**

FULL LOTUS FLOATS

Full Lotus Manufacturing develops and manufactures inflatable floats for fixed wing aircraft and helicopters. They have extensive knowledge in fabric structural engineering and manufacturing, lightweight air retention membrane technology, and rotational molding.

PLEASE VISIT WWW.AIRCRAFTSPRUCE.COM FOR A COMPLETE LISTING OF LOTUS FLOATS AND PRICING

HOMEBUILDERS TAIL SKID

The skid is 1" wide and 6" long. It is made out of 3/16" thick 347 Stainless Steel. It will accept up to a 1-3/4" O.D. 3/8" thread tie down ring. This skid will eliminate bending of the tie down ring and damage to the tail. This a must have for training aircraft. The skid is currently mounted on several experimental and certified aircraft. P/N 05-04383 ..... **$68.75**

REAR RUDDER PEDAL KIT

These were designed especially for RV4's and Rockets but can be used on any aircraft with rudder cables that are installed down the side skins. The pedals are 6" tall and 3-1/2" wide, 1/2" diameter 6061 anodized aluminum bar. The kit includes; pedals, floor mounting brackets, cable clamps and chains. Pedals will fold out of hte way when not in use.

P/N 05-04372 ..... **$141.95**

BERINGER LIGHTWEIGHT TAILWHEEL

Beringer Wheels & Brakes produced a new, extremely lightweight tailwheel assembly for the Pipistrel Sinus, with applications for other aircraft. The two-piece anodized aluminum wheel with sealed ball bearings and its 6-ply 200x50 tire and tube, assembled, weighs just 830 grams (29 ounces). It rides on the 8mm diameter Sinus axle; no aircraft modifications are required. The wheel and tire have a design load of 150kg (330 lb), which makes this assembly ideal for the Sinus. The tire is delivered already mounted and pressure-tested. It is ready for immediate delivery for use as a retrofit improvement, or for new installations. P/N 06-01583..... **$278.50**

BERINGER WHEEL COVER

Wheel cover made of aluminum red anodized, fully CNC machined and laser engraved. Protect external bearing and axle nut. Fixed on rim with O-ring.

For Beringer 5" wheel.....P/N 06-00956 ..... **$69.90**
For Beringer 6" wheel.....P/N 06-01121 ..... **$78.00**

BERINGER SPARE CLIPS

Stainless steel clips between wheel rim and disc. Includes: 10 left and 10 right (set for 1 wheel), procedure. Set of 20.

P/N 06-01111 ..... **$39.00**

BERINGER WHEEL O-RINGS

These O-rings need to be replaced at each tire changing. Includes: 2 large O-rings and 1 small O-ring.

For Beringer 5" wheel ..... P/N 06-01112 ..... **$15.75**
For Beringer 6" wheel ..... P/N 06-01113 ..... **$15.75**

BERINGER TIRE CHANGING TOOL

Specific tire change tool for Beringer wheels with conical aluminum spacer to insert tire on wheel half. Plywood flanges maintain tire while positioning second wheel half with the O-ring. Includes: Plywood flanges, bolts with butterfly nut and conical aluminum spacer

Tire change tool for BERINGER 5" wheels ..... P/N 06-01109 ...**$158.00**
Tire change tool for BERINGER 6" wheels ..... P/N 06-01110 ...**$189.00**

NITROGEN TIRE INFLATION SYSTEM 20CU, 40CU NITROGEN ACCESSORY KIT

NOT FOR STRUT USE

GENTEC® Nitrogen aircraft tire inflation systems allow for easy, cost effective filling of General Aviation aircraft tires with pure Nitrogen.Due to the complex nature of construction and the severe operating conditions of aircraft tires, Michelin and other leading tire manufacturers recommend the use of Nitrogen as does the FAA. Nitrogen is a totally inert gas that will not support corrosion, oxidation or moisture within aircraft wheels and tires. Nitrogen has a larger gas molecule than air, so low tire pressure due to allowable leakage is minimized. Nitrogen also maintains a lower thermal coefficient, thus minimizing thermal damage and extending tire life versus compressed air. Gentec Nitrogen aircraft tire inflation systems are available in two versions. The GKNAT20-TC is a 20 cubic foot high pressure nitrogen tank (empty) with stand, six foot hose; pressure reducing single stage regulator and tire inflator with resettable dial pressure gauge. The GKNAT40-TC is a 40 cubic foot high pressure nitrogen tank (empty) with stand, six foot hose; pressure reducing single stage regulator and tire inflator with resettable dial pressure gauge. Note: The kit is for someone who may already have a nitrogen cylinder and only needs the accessories.

Vist our website to locate a filling station near you.

Nitrogen Tire Inflation System 20CU..... P/N 12-01586 ..... **$312.95**
Nitrogen Tire Inflation System CU40..... P/N 12-01587 ..... **$403.95**
Nitrogen Accessory Kit- (This kit is for someone who may already have a nitrogen cylinder and only needs the accessories)

CARBURETORS

REPLACEMENT CARBURETORS FROM KELLY AEROSPACE POWER SYSTEMS

Overhauling Lycoming and Continental carburetors & Providing FAA approved replacement parts for 20 years! Look to Kelly Aerospace Power Systems for Quality Fuel System Overhauled Units

Aircraft Spruce & Specialty, as a factory distributor, offers a carburetor exchange program covering all popular Marvel Schebler/Facet general aviation carburetors. These carburetors are overhauled to the strictest industry standards and carry a full 6 month warranty (from date of installation). Most carburetors are available from stock or within a week and are furnished complete with gaskets. Due to the various configurations of carburetor installations, we suggest you retain your carburetor core until receiving the exchange unit. This will enable you to transfer all external fittings and installation hardware to the new exchange unit. All cores being returned for credit shall be, as removed from the engine, complete and not disassembled. A reduction in core credit is charged for missing or damaged parts.

Customer will need to provide core for overhaul in the event that our supplier does not have cores available to overhaul

- Precision Carburetors
- TCM Fuel Systems
- Flow Dividers
- Fast Turn Time on Overhauls
- Unmatched Quality
- 100% calibration of fuel pumps and servos.
- Precision Fuel Servos
- Romec Fuel Pumps
- FAA/PMA Approved Replacement Parts
- Carburetor Overhaul Quick Kits
- Highly skilled/trained technicians

MARVEL-SCHEBLER FLOAT KIT

A new float has been developed for the small MA series carburetors. The new floats are a solid blue epoxy material with a smooth skin.

P/N 08-06508.....**$113.95**

THROTTLE SHAFT MINOR REPAIR KIT 778-1007-F

Tempest MSA throttle minor repair kit (778-1007--F). All parts contained in this kit are covered under FAA/PMA PQ0111NM and/or PQ1296CE.

P/N 08-06539.....**$132.95**

CARBURETOR PARTS

MARVEL-SCHEBLER FACET REPLACEMENT CARBURETOR PARTS

These Marvel-Schebler replacement parts are manufactured by Kelly Aerospace.

SEE WWW.AIRCRAFTSPRUCE.COM FOR COMPLETE PARTS LIST.

EP

REPLACEMENT CARBURETOR VENTURI'S (ONE PIECE)

These one piece Venturis replace old type primary and main Venturis in Marvel-Schebler carburators. Order by new Venturi part number.

Old Main Venturi	New 1-Piece Venturi	Our Price
46-462	46-F7	$107.95
46-486	46-F8	$76.95
46-A2	46-F10	$77.75
46-A70	46-F12	$84.75

FLOAT NEEDLE SEAT DRIVER

This Float Needle Seat Driver is applicable to Marvel-Schebler MA3 and MA4 carburetors and is quality made of alloy steel. It facilitates the easy removal of needle valve seats, prevents damage to the main casting and the new seat during installation, and insures proper torque application. Features 7/16" hex drive fitting. P/N 12-30190..... **$72.50**

BENDIX/PRECISION RSA FUEL SERVOS & FLOW DIVIDERS

- Bendix/Precision (RSA-5, RSA-7da1, RSA-10 Overhaul/Exchange).
- Bendix/Precision (Flow Dividers Overhaul/Exchange.
- TMC Complete Fuel Injection Systems (IO-360, IO-550, L/TSIO-360,TSIO-520, GTSIO-520, TSI Overhaul Exchange).
- TCM Individual Fuel Injection Components Throttle Assemblies, Control Assemblies (without throttle Pumps, Manifold Valves, Pressure Regulators, No Assemblies (cleaning, rejetting, calibrating).
- FAA/PMA Replacement Parts.

Call or visit our website at: www.aircraftspruce.com for more info.

REPLACEMENT FLOAT KITS BY KELLY AEROSPACE

1984 FAA Service Bulletin A1-84 recommends replacing old Marvel-Schebler floats with the following float kits which feature metal floats to replace old plastic floats:

Kit CF666-915 - For MA3, MA3-SPA, MA4-SPAP/N 07-00677...**$107.95**
Kit CF666-916 - For MA4-5, MA5, MA6 .....P/N 07-00678...**$118.85**
Kit CF666-917 - For HA-6.....P/N 07-00679...**$118.95**
Needle and Seats for MA3-4 #233-615 .....P/N 07-06617.....**$73.65**
Needle and Seats for MA4-5 #233-614 .....P/N 07-06616.....**$87.75**

REPAIR KITS & PARTS FOR COMMON MARVEL-SCHEBLER CARBURETORS

Lycoming No.	Marvel-Schebler Kit P/N	Marvel-Schebler Carb P/N	Major Repair Kit Price
62289	286-1628	10-3346-1	$561.00
69250	286-1624	10-3678-12	$413.95
62830	286-1630	10-3565-1	$413.95

NOTE: Many Marvel-Schebler replacement parts are no longer available from Facet. These are manufactured by Kelly Aerospace.

CARBURETOR HEAT BOX PARTS

Unique Elastomer Bearing Replaces Needle Bearing - McFarlane's elastomer bearing is assembled with tension between the mating surfaces. This tension prevents micro-movement and its related metal erosion. The bearing contact area that transfers vibration motion from the heat box to the butterfly shaft is hundreds of times greater than that of the original needle bearing. This large surface effectively prevents localized metal erosion. • Absorbs shaft and butterfly vibration • Eliminates needle bearing failures • Increases service life of all components • Direct replacement for original parts. ***Proven Design:*** • Tested to over 700,000 cycles while exposed to avgas, heat and vibration without any change in performance • Extremely rugged and wear resistant in high temperature and fuel environments. ***Convenient:*** • Discontinued part numbers through the factory are now manufactured by McFarlane • Also available in kits containing the shaft, arm, bearing housings, monel rivets, and roll pin

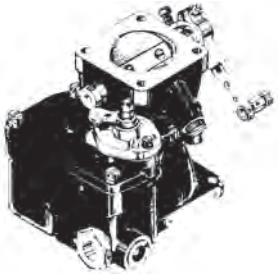
ELLISON CARBURETORS

Ellison variable venturi throttle body injectors provide reliable fuel metering for a variety of homebuilt engine applications. Features include uniform fuel distribution, inverted flight operation, few moving parts, instantaneous response, easy starting, light weight, and low maintenance. When ordering, specify: Engine make, engine model/HP and displacement and RPM.

MODEL	EFS-3A
Part Number	07-00959
Airflow Capacity*	
Fuel Regulation	SV Diaphragm Controlled
Application	>80 HP
Fuel Pressure Requirements**	1/2 - 3 PSI
Controllable Mixture	Yes
Fuel Fitting	3/8 Flared Tube
	$1,025.00

BENDIX STROMBERG NA-S3A1 CARBURETOR OVERHAUL PARTS FOR NA-S3A1 CARBURETOR



The NA-S3A1 carburetor is no longer in production. Only the parts listed are carried in stock. Others may be special ordered. Originally used on Cont. A-65, A-75, A-80, C-75, C-85 and C-90 engines.
Gasket & Ring Set (Incl. gaskets for under seat)
P/N 07-02200 .....**$71.75**
P-14222 Steel Needle and P-17247 seat .....P/N 07-14222 .....**$157.95**
Needle (Delrin) .....P/N 2523047 .....**$125.95**
Metering Jet (C-85) .....P/N 07-00684 .....**$13.50**
Metering Jet (A-65).....P/N 07-00685 .....**$12.50**
Throttle Shaft (Ref. #34 in Manual) not available.

STROMBERG NA-S3A1 CARBURETOR OVERHAUL MANUAL

P/N 07-02400 .....**$15.75**

MARVEL-SCHEBLER CARB GASKETS

MC16-A36 GASKET FUEL INLET FAA-PMA - Marvel-Schebler Fuel Inlet Screen Gaskets for many Carbureted Aircraft The copper gaskets should be changed when finger screens are inspected at each annual inspection.
P/N 07-01387.....**$3.75**

ROTAX FLOAT & BOWL KIT

This float and bowl kit replaces a single float system. Includes clip float needle, float pin, float bracket, float chamber, and the float.

P/N 261-010..... **$86.75**

BING CARBURETOR ACCESSORIES

Bing Remote Choke Kit (w/8' cable) .... P/N 07-00308 ....**$72.50**
Bing Remote Choke Kit (w/o cable)..... P/N 07-00309 ....**$54.75**
Bing Aircraft Parts manual ..... P/N 07-00310 ....**$13.25**
Bing Plastic Crossover Vent Tube - 280mm long. Used on Bing type 84 carbs..... P/N 07-01360 ....**$10.50**

CARBURETOR SYNCHRONIZATION

CARBMATE - Quick & easy synchronizing by direct comparison of a set of carbs / Fuel Injector throttle bodies. Range adjstable from 2 to 0,05cmHg per LED. Hook up 2 or 5 cylinder with the optional adapter kit. PN 07-01265 .....**$109.95**

SYNCHROMATE - Precise synchronizing by direct comparison of a set of carbs / Fuel Injection throttle bodies.Fixed resolution of 0, 5cmHg. Includes absolute vacuum & 'wireless' RPM measurement. Hook up 3 or 4 cylinders with the optional adapter kit.

Synchromate .....PN 07-01266.....**$221.95**
W/ Rotax Accessory Kit.....P/N 07-01892.....**$254.95**

4-CHANNEL ADAPTER KIT

Converts the SynchroMate or CarbMate into a 4 carb/throttle valve synchroniser. This easy-to-mount & easy-to-use kit allows connection of SynchroMate's or CarbMate 2 channels (tubes) to 4 carbs / throttle valves at once.

PN 07-01267 ..... **$57.50**

First needle number denotes mixture above half-throttle.
Needle letter denotes mixture below half-throttle.

KWIK TUNE FOR ROTAX ENGINES

An EAA member called his brother-in-law to ask if he knew of a way to hold the spring and plastic cup while changing the jet needle clip setting on a Rotax engine. Finding no solution, he decided to invent one; the handy Kwik Tune, a timesaving tool he launched at Sun 'n Fun. Kwik Tune helps remove and reinstall the aircraft throttle cable, cover, spring, and slide in a Bing carburetor. P/N 08-05206 ..... **$9.95**

SILVERHAWK EX FUEL INJECTION SYSTEMS

The Silver Hawk EX, non-certified Fuel Injection System is proven technology drawn from decades of fuel metering engineering by Precision Airmotive. Manufactured as experimental, the new Silver Hawk kit provides experimental pilots with precise, dependable, and reliable fuel metering. Just what you'd excpect from Precision Airmotive.
At a price that will make you soar. Manufactured using the highest quality materials and components, the Silver Hawk EX features a machined finish with clear coat anodize. Designed for these major engine manufacturer applications: Lycoming 320, 360, & 540 series; Continental 470 series; Superior and others.

- Specifically engineered and built to meet the demands of aviations growing experimental segment.
- Precision Airmotive appointed worldwide network of factory authorized product support centers
- Backed by a Precision warranty program.

Model No.	Description	Part No.	Price
EX320-1	Application: Lycoming O-320 and IO-320 engines with 150/160 HP	07-00773	**$2,527.00**

EX360-2	Application: Lycoming O-360 and IO-360 angle valve engines with 200 HP	07-00775	**$2,828.00**
EX540-1	Application: Lycoming O-540 and IO-540 parallel valve engines with 235-260 HP Continental O-470 engines	07-00776	**$2,583.00**

EP

FUEL PUMPS

BUZZ PUMP AC2001

The Buzz Pump AC2001 is lightweight positive displacement, high volume, manual dual stroke auxiliary fuel pump for experimental aircraft. The Buzz Pump has capacity to operate aircraft engines as large as 300 HP models at full power. Eliminates the connection to a complicated electrical system and expensive high-pressure electrical fuel pump. The Buzz Pump is constructed with high quality engineered materials and components. It will bolt directly into standard Christen and D2 pump bolt patterns.

Specifications: • Weight: 2.4 lbs. •Aluminum billet housing construction • Double O-ring shaft seals • Triple precision bearing shaft support • Metal valves for long life • Pressure setting relief valve: 5-25psi • 90° stroke angle for comfortable operation • Housing dia.: 3.4" x 4.5" total length • Pump handle length: 4.5" • One input port and one output port @ 180° • 1/4-18 NPT tapped holes for fittings • Standard finish is clear anodize (light gray color) • Buzz Filter Sump AC2002, can bolt directly to the pump with an AN911-6D threaded nipple (not included)

P/N 07-00654 ..... **$625.00**

BUZZ FILTER SUMP

The Buzz Filter Sump, AC2002 is a fuel filter/moisture sump for high-pressure applications, 50psi ideally suited for precision fuel injection systems. The Buzz filter/sump can mount directly to the Buzz Pump AC2001 or to the fuselage or firewall. Easy to replace fuel filter. The Buzz Filter/Sump is engineered and constructed with high quality engineered materials and components and will mount directly to the Buzz Pump AC2001, with an AN911-6D threaded nipple.

Specifications: • High-pressure application to 50psi • Weight: 13 oz. •Aluminum billet housing construction • Large O-ring sump seal • 1/4-18 NPT tapped holes for fittings • CG-12 Fram filter with easy to replace insertion chamfer • Standard finish is clear anodize (light gray color) • Curtis drain fitting •*AN fittings not included. P/N 07-00655 ..... **$398.00**

Fuel Pump

MIKUNI FUEL PUMP

Genuine Mikuni fuel pumps. Replace original parts on Rotax®, Hirth, & many other engines.

Single Pump .....P/N 07-00777 ..... **$21.75**
Dual Pump.....P/N 07-00778 ..... **$28.90**

Rebuild Kits

MIKUNI REBUILT KIT FOR SINGLE/DUAL FUEL PUMPS.

Single Pump .....P/N 07-01011 ..... **$7.95**
Dual Pump.....P/N 07-01010 ..... **$14.75**

BING FUEL PUMP

Bing High-capacity pump. Use when tank is more than 5' away or significantly lower than engine.

P/N 07-00779...**$173.95**
Diaphragm Repair kit.....P/N 07-01007.....**$34.85**
Bing Low Vol. fuel pump.....P/N 07-01008...**$106.95**
Repair Kit for Low Vol pump.....P/N 07-01009.....**$27.95**

WELDON HIGH PRESSURE ELECTRIC FUEL PUMP

The 8150 series high pressure electric fuel pump is a positive displacement cammed vane type used primarily in airborne applications. It features a low pressure relief valve and integral bypass valve. Applications include in-line fuel transfer priming of fuel-injected engines & emergency fuel pump. A permanent-magnet, explosion resistant motor is rated for continuous duty. These self-priming, lightweight (2.6 lbs. max.) pumps have been used for over 15 years by major aircraft manufacturers.

MOUNTING BRACKET FOR WELDON FUEL PUMPS

This T-bolt quick release band clamp with mounting bracket fits all Weldon fuel pumps with 2-1/2" diameter motors. Made from certified aerospace quality stainless steel, this bracket offers secure holding power under extreme vibration. The band clamp rotates within the mounting foot to offer easy access to the quick release latch for a variety of mounting positions. P/N 05-00021..... **$37.50 ea.**

TEMPEST LYCOMING & TCM FUEL PUMPS

The Early Model Lycoming Fuel Pump

The New Continental Pump

OVERHAULED LYCOMING FUEL PUMPS

All internal parts are replaced with new certified parts. The actuating arms are magnetic particle test inspected; cast parts are inspected for wear, corrosion and cracks. Bboth the older laminated and newer channel style fuel pumps are overhauled for normally aspirated, pressure carburetor, and fuel injected systems.

Note: Customer will need to provide core for overhaul in the event our supplier does not have cores available to overhaul.

Tee fitting w/1/8" pipe thread tapping for fuel pressure..P/N 07-00783..... **$16.50**

ACS FUEL PUMP COOLING SHROUD

Designed to keep the fuel pump cooler in the hot engine compartments, and reduce the risk of fuel vapor lock. The cooling shroud will fit carbureted or fuel injector Lycoming engines using a diaphragm style pump. Made in the U.S.A. P/N 08-06097 ..... **$63.85**

FACET POSI-FLO SOLID STATE FUEL PUMPS

• **Fuel Compatibility:** All models of the Facet Posi-Flo Pumps are compatible with gasoline, diesel, biodiesel, blended alcohol fuels and fuel additives.

• **Reliability:** Proven on thousands of original equipment applications. No bearings, electrical contacts, or diaphragms to wear out or fatigue. Lasts four to five times longer than many other electric pumps.

• **Easy to Install-Easy to Service:** Two bolt installation plus the small size makes installation easy. For best results, mount the pump close to the fluid or fuel tank and below the liquid level.

• **Eliminates Vapor Lock:** When properly installed on most vehicles a constant, smooth, dependable supply of fuel under pressure is assured in the hottest weather or in high altitudes.
Not FAA Approved.

FACET ELECTRIC FUEL PUMPS

SOLID-STATE TYPE PUMPS - Measure less than 3" in any direction and weigh only 18 oz. Fuel is supplied as soon as the ignition is turned on so the engine will start faster at colder temperatures. Built-in pressure relief prevents flooding and assures fast re-starts on hottest days. The all-steel plated case is water tight. Mounts with two bolts. For best results, mount the pump close to the fuel tank and below the liquid level. The tank is self-priming to 18" fuel lift. Standard 12 V models require only 1 amp at max. delivery. All of the pumps shown feature a all nylon valve and plunger.

FACET NO. 40104 - 12V Neg. Ground, 4. - 1.5 PSI Max.,25GPH. 1/8 x 27 internal pipe ports..... P/N 40104..... **$33.85**

FACET NO. 40108/40154 - Aircraft Spruce now carries 12V and 24V electric fuel pumps which have AN-style 37° male "dash 6" fittings built into the fuel pump to provide a simpler fuel line hookup than with the internal pipe threads on the older Facet fuel pumps.

4-6 Psi..... P/N 40108 (12V)..... **$44.75**
15 GPH. ..... P/N 40154 (24V)..... **$44.50**

Facet filter for solid-state pumps..... P/N 479735..... **$4.45 ea.**
Facet Gasket & Filter FEP 42370 ..... P/N 05-01019..... **$6.75**
The pumps above do not feature an anti-siphoning valve and fuel will flow through them in event of pump failure.

AEROQUIP FITTING FOR FACET PUMPS

On the recommendation of Rutan Aircraft Factory, we now stock Aeroquip #2071-6-6S fitting which is a steel elbow with a swivel nut which fits the 37 flares on the Facet 40108 and 40154 fuel pumps. This Aeroquip fitting makes installation of the pumps easy & economical. P/N 04-05800 ..... **$4.95**

INTERRUPTER TYPE PUMPS

Fuel Compatibility: All models of the Facet High Performance Gold-Flo Solid State Fuel Pumps are compatible with gasoline, diesel, biodiesel, blended alcohol fuels and fuel additives. **Reliability:** An enhanced version of the Interrupter model. It has Solid State circuitry and will meet or exceed all performance specifications and is totally interchangeable. (These pumps have demonstrated an endurance life almost double that of the nearest competitor, according to our test data). **Easy to Install-Easy to Service:** Two bolt mounting makes installations easy. Nothing to adjust. The pump is self-priming to 24 inches vertical fuel lift. Vertical mounting is preferred to assure maintenance of rated pressures. An installation kit is available for replacement applications. The only service normally required is a simple cleaning of the filter and fuel inlet cavity. **Eliminates Vapor Lock:** When properly installed on most vehicles a constant, smooth, dependable supply of fuel under pressure is assured in the hottest weather or in high altitudes. Available Features: • 12 - 24 inches dry lift • 20 - 45 GPH • 1 - 8 PSI • Transient Protection - 24 volt only • State of the art Electronics • Sealed Electronics • Built in Anti-Siphon Valve (Positive shut-off) • UL Certified • VCA Certified • Complies to Mil-std-461D • Replaceable 74 micron filter • Built in magnet to collect metal particles for additional filtration • 1.6 amp average • Self Priming and Self Regulating • 32 ounces and 5 inches • Corrosion Resistant over 100 hours of salt spray • Operating Temperature Range: -40F to 180F.

AVIATION REFUELING PUMPS

These aviation pumps are only intended to be groundbased or vehicle mounted. Do not use or mount in or on the aircraft. For use with aviation gasoline (AVGAS 100LL) and kerosene grade (JET A). User should consult NFPA 407 Standard for aircraft fuel servicing for safety requirements during ground fuel servicing of aircraft using liquid petroleum fuels. This product has no actual or implied compliance with this standard. Warranty is 2 years.

FUEL PUMPS – GASKETS

ANDAIR FUEL BOOST PUMPS

The high pressure fuel boost pump from Andair features a brushless motor which is light weight, powerful, and reliable. The pump components are D2 tool steel providing unequalled wear characteristics. The model PX375-40A-5-25 boost pump is furnished with a BLX-150 controller that is needed to drive the pump. This pump was designed to meet the requirements of an engine such as the Lycoming IO-360 at full power. The model XP375-40A-5 has none of the pressure relief or bypass features of the boost pump and is designed for a smoke system or transfer fuel from tank to tank. This pump is furnished with a BLX-165 controller. **Features**: * Integral bypass and pressure relief valve. * 11-14V DC, 6 amps max * Flow: 16 GPH @ 25 PSI * Open Flow: 56 GPH @ 8 PSI * Pressure drop in bypass mode @ 36 GPH: <0.5 PSI * No flow max pressure: 26 PSI * Weight: 460g (16.23 oz) * Soft Start - Continuous Duty * Self Priming to 10ft (3M) Head through 3/8" tube. * Aerospace Grade Aluminium Body. * AN-6 male fittings. * Mounting bracket included.

BENDIX-SCINTILLA MAGNETOS

BENDIX
BREAKER ASSEMBLIES

Early S4, S6 Mags

P/N 07-06305 (10-357173) with spring (current production) ..... **$34.75 Ea.**
P/N 07-06306 (10-357174) without spring (current production) ..... **$35.65 Ea.**

All above breaker assemblies used on either Right or Left Magnetos.
Late S4/S6 Mags, S200 Mags*

P/N 10-382584 (LH) ..... **$39.75 Ea.**
P/N 10-382585 (RH) ..... **$37.50 Ea.**

Used on many late Lyc. engines.
Note: Specify Bendix mag P/N e.g., 10-51369-29

REPLACEMENT COIL FOR BENDIX S4, S6 MAGS

Airborne FAA-PMA approved coil replaces both Bendix 10-357164 & 10-357165. Retrofits virtually the complete range of Bendix S20 & S200 series mags. Furnished with long & short "coil to points" leads.
P/N ES-652 ..... **$108.95**

NOTE: Part Nos. 10-357164-1, 10-357165-1, 07-06303, 07-06304 are all equivalents for ES-652

REPLACEMENT COIL FOR BENDIX 1200 SERIES MAGS

Aero Accessories, Inc. FAA-PMA approved coil is a direct replacement for Bendix 10-391088 coil as used on Bendix 1200 series mags at tremendous savings. P/N 07-05600 ..... **$154.95**

REPLACEMENT COILS FOR CONTINENTAL ENGINES PER SERVICE BULLETIN NO. 637

TCM Ignition Systems has issued Service Bulletin No. 637 to retire from service certain older coils and rotating magnets. The Bulletin applies to many S-20, S-200, S-600, and S-1200 series magnetos as identified in this chart. Compliance with this Bulletin is required at the next 100 inspection, annual inspection, or progressive maintenance inspection, whichever comes first. Order by new coil part number.

Magneto Series	Old Coil P/N	Color	New Coil P/N	Color	Our Price
S-20	10-51303 10-76384 10-160886	Opaque amber to Dark Purple	10-357164	Bright Red to Dark Red	**$156.95**
S-20 S-200	10-163172 10-163209 10-160887	Opaque Amber to Dark Purple	10-357165-1	Bright Red to Dark Red	**$156.95**
S-1200	10-349271	Opaque Amber	10-391088-1	Blue to Olive Green to Black	**$198.00**

ALTERNATOR FILTER

Replacement part for existing alternator filters. Wire won't break at the case and its clamp is made from heavy gauge steel. Double the capacitance compared to OEM alternator filters. For stubborn alternator noise, this Alternator filter combined with the Eliminator (P/N 11-08055) can trap a wide frequency range of electronic noise. Both of these filters have been thoroughly tested under a DO 160D and are FAA/PMA approved. P/N 11-08060..... **$59.95**

MAGNETO FILTER

Eliminates ignition noise. Install in primary lead of magneto. Not FAA approved. P/N 07-03200 ..... **$59.90 ea**

MAGNETO FILTER FAA APPROVED

Attenuates both low and high frequencies of noise generated from bendix magneto ignition systems. This filter has been used by avionics shops, OEM aircraft manufacturers, and FBO's, to attenuate and suppress pulsating noise generated by their aircraft's magneto systems. The magneto filter is FAA-PMA approved and is compatible with the bendix series S20, S21, S200, D3000, D4000 magneto. 1000 VDC working voltage, 5000VDC break down voltage. Capacitance: .05 uf-self healing technology. Heavy duty mounting clamp. Temp. range: -35°C to +80°C. Max. current: 20 amps P/N 07-00713 ..... **$68.80**

BENDIX MAGNETO GREASE

#10-27165 - Factory recommended lubricant for bearings in Bendix magnetos. 1 Lb. Can ..... P/N 10-27165 .... **$62.75**
#10-391200 - For use on distributor block bushing. Provides proper shaft lubrication.
8 oz. can ..... P/N 10-391200 .. **$64.50**
1 oz. tube ..... P/N 07-02500 ..... **$3.95**

GROMMET STRETCHER

Stop Cutting Grommets!
- Stretch grommets over large plugs and fittings.
- Great for spark plug wires or molex plugs.

P/N 11-06946 ..... **$24.75**

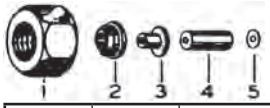
CONTINENTAL MAGNETO DRIVE GEARS

#36066 Gear (Now 655845) **$657.00**

GROUND TERMINAL KITS

For S-20 series mags. Kit No. 10-52306 (AN3105) **$38.85**

Reg. No.	Part No.	No. Req.	Description
1	10-30299	1	NUT - Coupling (Ground Terminal)
2	10-56507	1	CROMMET Assy.(Ground Terminal)
3	10-3383	1	FERRULE - Inner (Ground Wire)
4	10-25725	1	SLEEVE - Insulating (Ground Wire)



For 20 series mags. Kit No. P/N 10-52305 . **$74.65**

Reg. No.	Part No.	No. Req.	Description
1	10-37669	1	NUT - Coupling (Ground Terminal)
2	10-7030	1	FERRULE - Outer (Ground Wire)
3	10-7029	1	FERRULE - Inner (Ground Wire)
4	10-37668	1	SLEEVE - Insulating (Ground Wire)
5	2-155	1	WASHER - Ground Wire Contact

TCM/BENDIX IMPULSE COUPLINGS

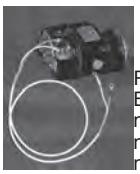
10-40167-10	**$259.50**

$40.00 core charge applies



BOGERT AVIATION P-LEADS

P-leads for all aircraft using a Slick or Bendix Style Magnetos. This includes nearly all piston aircraft such as: Cessna, Piper, Grumman, Mooney, as well as many homebuilt and experimental aircraft. As a general rule cables should be replaced when ever wear is apparent. Broken ground leads should not be permitted. A drop in rpm is expected when one magneto of the two mags is shut off. Should the propeller be moved by hand and a functional "hot" magneto exists, the engine may fire causing injury. If there is no drop in rpm the owner should call a mechanic immediately. Bogert is using 14gauge MS27500 wire with aviation approved terminals. The shrink tube has an adhesive inside the sleeve to improve durability and reduce the possibility of corrosion. Cables are ready to install.

BENDIX MAGNETO REPAIR KITS FROM TEMPEST

REPAIR KIT
1 - Contact Assy. Kit (3)
1 - Capacitor
2 - Bearings
1 - Oil Seal
1 - Oil Slinger
3 - Woodruff Keys
1 - Cotter Pin
1 - Cam Screw
1 - Felt Washer
1 - Felt Strip
1 - Snap Ring
1 - Carbon Brush

These magneto repair kits are designed to simplify the Bendix magneto overhaul process by providing all of the commonly needed overhaul parts in one convenient kit. The Repair Kits contain the parts needed for minor repair such as a 500 hour inspection, and the Deluxe Repair Kits contain the parts needed for major repair such as a magneto overhaul. These parts are highest quality direct replacement parts and are approved for installation and use on certificated aircraft. The Repair Kit and Deluxe Repair Kit for the Bendix -200, -201, and -202 series magnetos contain two sets of contact assembly kits. Some parts that may be need replacing during magneto overhaul are not included in these kits.

DELUXE REPAIR KIT
1 - Contact Assy. Kit (3)
1 - Coil Kit
1 - dist. Block Kit
1 - Gear Kit
1 - Capacitor
2 - Bearings
1 - Oil Seal
1 - Oil Slinger
3 - Woodruff Keys
1 - Cotter Pin
1 - Cam Screw

HARTZELL ENGINE TECH. IGNITION HARNESSES

PLATED STEEL NUT: Steel nuts offer superior strength compared to aluminum nuts and reduce the potential for galling during installation FAA/PMA APPROVED FOR: - Franklin - Teledyne Continental Motors - Textron Lycoming .ABRASION AND HEAT RESISTANT: The abrasion resistant red polymer cover has been engineered specifically for the high-temperature environment of reciprocating engines. UNIQUE SPRING DESIGN: Hartzell ignition harnesses incorporate a negative-pitch spring design (the tip of the coil spring extends inward) allowing the coil spring tip to lie flat against the spark plug electrode, providing 360 contact. Ignition energy is maximized and flashover is reduced to a minimum. REPLACEABLE CONTACT SPRINGS: Replacement springs are available separately saving you time and money when a field repair is necessary. STRAIGHT AND CLOCKABLE 90 DEGREE STEEL ELBOW LEADS AVAILABLE: You have the option of using straight or clockable 90 elbow leads to make the installation neat and easy. PERFORMANCE - Plus: Using a tinned-copper, nickel plated braid shielding substantially reduces EMI and combined with a very flexible 19 strand conductor of stainless steel wire provides the ultimate in wire conductivity and ease of installation.

NOTE: PART NUMBERING SYSTEM and CROSS REFERENCE: The Hartzell part numbering system is "user Friendly" for quickly cross-referencing to both Champion and Unison Harnesses. The "KA1"prefix is equivalent to the Champion "CH1" or the Unison"M" with the balance of the part number remaining the same. Add the suffix "E"to the part number to designate the 90 degree steel elbow terminations whenever ordering an "Elbow" harness. (EXAMPLE: KA12121E).

SLICK MAGNETOS

4300 AND 6300 SERIES SLICK MAGNETOS

These new lightweight aircraft magnetos are being used by many new equipment manufacturers. Weigh only 3-3/4 lbs. compared to 6-1/4 lbs. for typical old style magnetos. All units carry a six-month warranty after delivery to the user. These new model magnetos are completely rebuildable. The old 4000/4100 magnetos may not be returned as an exchange unit for a new magneto of the same model. Most other Magnetos may be returned for core credit. Drive gears are not included. *When purchasing slick magnetos separately gaskets are not included.

IF NO CORE IS RETURNED, ADD $150 TO THE PRICE OF A NEW MAGNETO.

ALL SLICK MAGNETO AND HARNESS PRICES SHOWN ARE WELL BELOW SLICK FACTORY LIST PRICE. WE WILL BEAT ANY COMPETITOR'S ADVERTISED PRICE!

Slick Harnesses are available in Black and Red.

Please Specify color choice at the time of order.

4300 SERIES (4-CYLINDER) MAGNETOS

SLICK REBATE PROGRAM

Program details:

1. Return competitive magneto cores and harnesses to the distributor where
2. Slick units were purchased.
3. Magnetos must be complete and in "as removed" condition.
4. Champion reserves the right to reject incomplete magneto cores, including
5. Slick 4000/4100 series magnetos.
6. Champion piston products distributors will return cores to Champion for rebate processing, and all core credits will be issued by your authorized Slick distributor.
7. Rebate checks are issued to the party named on the rebate core tag.

Products	Champion Cash Rebate
Two (2) TCM/Bendix magnetos and any complete ignition harness	$250
One (1) TCM/Bendix magneto	$100
Two (2) Competitive magnetos (not TCM/Bendix) and any complete ignition harness	$150
One (1) Competitive magneto (not TCM/Bendix)	$30
One (1) Competitive ignition harness	$35

Rebate does not apply to Slick Magneto cores. Factory rebates subject to change by factory. Slick requires a minimum of 90-120 days to process rebates. Rebates are sent direct from Slick to the purchaser, not through Aircraft Spruce.

Slick Magneto upgrade kits available for most Continental & Lycoming Engines. Provide engine make & model and spark plug size and request quotation on applicable upgrade kit. 6300 Series Replaces 6210 & 6262 magnetos. Includes new improved case and bearings.

SLICK IGNITION KITS

We offer complete Slick factory upgrade/conversion kits for virtually all general aviation aircraft. These kits include two factory new Slick magnetos, a complete Slick ignition harness, and conversion information. A $150.00 factory rebate is available for these kits. Rebate does not apply to Slick Magneto Cores. Add $300.00 core charge to the kit prices which is refundable upon return of the two old magnetos to Aircraft Spruce. Specify aircraft and engine make and model when ordering. Aircraft Spruce will issue rebate credit upon receipt of acceptable cores. Pn listed are red. Other colors available are: Blue, Yellow, and Gray.

Add $300.00 core charge to all kit prices (refundable with return of old Magnetos) Request quotation for kits for unlisted engines.
* Plugs included.

The following information will aid you in selecting the correct magneto, upgrade kit, or ignition harness:

1. Engine Manufacturer: _____

2. Engine Model Number: _____

3. Engine Type (4 or 6 Cylinder): _____

4. Current Ignition System Manufacturer: _____

a) Number of impulse coupled magnetos (1 or 2): _____

Magneto Shaft Rotation (Right or Left) - See dataplate on current magneto _____
Lag Angle _____

b) Number of Direct Drive (Non-Impulse) Magnetos _____

c) Number of Retard Breaker Magnetos ___
d) Are the magnetos pressurized ? _____

e) Spark plug size (5/8" or 3/4") _____

5. Do you want to upgrade from a single impulse to a dual impulse system? _____

If yes, an additional drive gear and/or adapter purchase may be required.

6. Are you upgrading from a 600 Series to a 6200 Series magneto? _____

If yes, you will need to purchase an M3154 Adapter or a magneto equipped with an M3154 Adapter to be able to reuse the existing harness. Alternately, purchase a new harness configured for 6200 Series magnetos.

7. Are you upgrading a complete engine form a TCM/ Bendix to a Slick system ? _____

If yes, purchase a complete Engine Upgrade Kit.

SLICK IGNITION HARNESSES BY CHAMPION

SLICK START – LASAR – BENDIX KITS

SLICK START

The FAA-PMA approved SlickStart™ magneto booster system integrates solid state electronics with conventional ignition hardware to deliver optimum spark energy for improved engine starting under all operating conditions. SlickStart™ delivers over 400% more spark energy during start than conventional impulse coupled or retard breaker systems. This added energy enables the magnetos to fire partially fouled spark plugs, ignite less than optimum fuel mixtures, improve hot engine restarts and improve starting performance during extreme cold weather operations.
SlickStart™ is designed to replace all TCM/Bendix starting vibrators used in conjunction with Slick Aircraft Products magnetos. SlickStart™ is also approved for use with Slick impulse coupled magnetos to enhance engine starting performance. SlickStart™ is not approved for installation on any airframe equipped with TCM/Bendix 20, 200, 1200, D-2000, or D-3000 series impulse coupled or retard breaker magnetos.
SlickStart™ can be installed with either impulse coupled or retard breaker magnetos and can be used with either 12V or 24V electrical systems. Fits all Slick impulse coupled and retard breaker 4200/6200 Series and 4300/6300 Series magnetos. ..... Slick Start for Slick Magnetos ..... P/N 08-01000 ..... **$654.00**

LASAR ELECTRONIC IGNITION SYSTEM BY CHAMPION

LASAR®, which stands for Limited Authority Spark Advance Regulator, is the first microprocessor based engine control system approved by the FAA for general aviation piston aircraft. With the system operating in its automatic mode, cylinder head temperature, manifold pressure, and engine speed (RPM) are monitored by the LASAR controller to establish and command the optimum ignition timing and spark energy to produce maximum torque from the engine.
LASAR has an inherent mechanical magneto backup system that automatically assumes control if electrical power is interrupted or if the microprocessor detects a system fault. STC approval has been granted for most 320, 360 and 540 engines. Installation requires repalacement of standard magnetos with Lasar magnetos, a LASAR Control Box, which is mounted to the firewall, a low-voltage control harness that carries the electronic signals between the system components. Specify exact aircraft and Engine Models for quotation or Lasar systems. *When purchasing slick magnetos separately gaskets are not included.

Benefits from LASAR include:

* Better engine starting with 3 times more spark energy and higher output voltage.
* Smoother transition in ignition timing from engine start to idle
* Increased spark plug life
* Up to 12% Reduced Fuel Consumption
* Faster Rate of Climb
* EGT reduced by 150°F on average
* Up to 8% Increased Horsepower.

SLICK MAGNETO ASSEMBLY & TIMING KIT

T-100 Assembly and Timing Kit for field-repairable Slick 4300/6300 Series Magnetos.

P/N 07-00788 ..... **$463.95**

T-200 SLICK® IGNITION HARNESS TOOL KIT

The Slick® Assembly Tool Kit is required to install all Slick Ignition Harness Leads on all magneto harness caps and spark plug termination ends. The complete kit includes: Pressing Tool, #72 Drill Bit, Pin Vise, Stripping Tool, Spring Assembly Tool, and Shield Stripper. Complete instructions for the use of this kit can be found in the Unison Industries L-1178 Service Manual.

P/N 12-00720 ..... **$189.50**

BENDIX SERIES MAGNETO REPAIR KITS FROM TEMPEST

These magneto repair kits and deluxe repair kits are designed to simplify the Bendix magneto overhaul process by providing all of the commonly needed overhaul parts in one convenient kit. The Repair Kits contain the parts needed for minor repair such as a 500 hour inspection, and the Deluxe Repair Kits contain the parts needed for major repair such as a magneto overhaul. These parts are highest quality direct replacement parts and are approved for installation and use on certificated aircraft. AB-200445SC-D and AB-200445SC-R kits contain two sets of contact assembly kits. Some parts that may be need replacing during magneto overhaul are not included in these kits.

SHIELDED IGNITION HARNESSES

AERO-LITE FAA APPROVED SHIELDED IGNITION HARNESSES

Skytronics Aero-Lite harnesses are manufactured to rigid FAA-PMA and MIL-3702 specifications and are warranted to T.B.O. They are available for Lycoming, Continental and Franklin engines and come complete with all tiedowns and clamps. Original Aero-Lite harnesses feature the unique, screw-in magneto plate for easy replacement of worn-out leads. Aero-Lite II harnesses are built with new swaged (PMA) magneto plates, similar to those on original factory harnesses. Aero-Lite Custom harnesses use the customers original swaged magneto plates and are rebuilt to rigid Aero-Lite harness standards. Aero-Lite harnesses are available with or without 90° brass spark plug elbow fittings (see price table). Specify wire color choice of sky blue (standard), black, or red.
Wire Baffle Seals are not included, but are available upon request at no additional charge.

LIGHTWEIGHT HIGH TEMPERATURE SHIELDED IGNITION HARNESSES

MFG. BY ACS PRODUCTS CO.

New production ignition harnesses at remarkably low prices. Late type 5MM wire constructed of 16 strands of tightly braided copper wire impregnated with scuff resistant white silicone. All strands must fracture before a complete open circuit type failure occurs thus extending lead life. Lead flexibility is retained from -65° to 400° F. Moisture and cleaning solvent penetration is eliminated by the impregnated silicone coating. This extremely flexible wire lends itself to sharp bends thereby eliminating the need for old style harness elbows. No soldered joints in the grounding circuit. Custom made for most 4 cylinder and 6 cylinder engines using Bendix or Eisemann magnetos and 4 cylinder engines using Slick magnetos. Cable outlet plates are not furnished for Bendix and Eisemann mags as these are already installed on the magnetos in service. They must be purchased separately for new magneto installations. Harnesses for Slick magnetos are furnished with the backplates installed. Standard harnesses for the Bendix S4/S6 mags are fitted with a male nut which screws into the threaded outlet plate on the back of the mag. Harnesses for old style Bendix SF4 and SF6 magnetos are fitted with female nuts.

HARNESSES FOR BENDIX AND EISEMANN MAGNETOS

All 4-Cylinder Harnesses (8 wires).....**$179.50**
All 6-Cylinder Harnesses (12 wires).....**$242.95**
(Not Available for Bendix S1200 Magnetos)
Replacement Leads to 48" (Specify Length)..... **Call For Quote**
(Bendix & Eisemann only)

HARNESSES FOR SLICK MAGNETOS

For 4000, 4200 & 4300 Series Mags (4 Cyl.) Only.....**$187.95**

All Harnesses Furnished with Cable Ties and Clamps
For plugs with 5/8-24 barrel size only.

ACS Products ignition harnesses can be used on experimental aircraft or on certified aircraft with field approval (FAA Form 337). If FAA/PMA harness is mandatory or if for use with 3/4" spark plugs, use Slick Bendix, Aero-Lite or Champion harnesses.

EP

IGNITION SYSTEMS

E-MAG ELECTRONIC IGNITION

Of all the E-MAG innovations, the self-powering capability of the "P" Model is the most significant. It solves the largest single issue faced by all electronic ignitions - their need for an uninterruptible power supply.
Power back-up strategies that a) compromise ignition effectiveness, b) solve only half the problem, or c) require additional maintenance are less than ideal. Next-Generation ignitions need a better solution. So what does a next-generation electrical back-up need to do?
Above all, it has to be reliable. When it's needed, it has to work - period. It should operate for as long as needed. Whether it's the last 10 minutes of a Sunday pleasure flight, or you're crossing the Atlantic. It should be maintenance-free. Benign neglect should not prevent it from working. On the rare occasion it's needed, it should automatically engage without operator intervention. A simple and convenient pre-flight check should confirm it's working properly. This P model ignition has an internal three phase brushless alternator that produce enough power to sustain the ignition when the engine is turning 800 rpm, or more. If the aircraft buss voltage goes off-line, the ignition has an internal alternator. With this arrangement, dual electronic ignitions can be run "clean". No back-up batteries and no back-up magnetos.
The P Model Built-In Alternator adds no (zero) mechanical contact/wear parts to the system. Adds only a few ounces of weight. Requires no additional hardware to install. Will operate as long as the engine is turning

E-MAG Aircraft Harness

Description	Part No.	Price
"P" Model (P-MAG) Ignition - Same as the E model above, but has a built-in backup alternator.	07-01292	**$1,195.00**
E-Mag P Model Ignition with Alternator 4C Continental - Ignition compatible with most 4 cylinder Lycoming and Continental O-200 engines. Specify Ignition type as follows: Lycoming (and like) engine P114-L4, Continental O-200 engines P114-C4	07-01311	**$1,172.00**
E-MAG Aircraft Harness - Trim-to-fit harness kit. Aircraft Harness kits include with the coil end fittings, tool, and appear on forms as "Air Packs".	07-01293 (one ignition)	**$127.50**

E-Mag Gear Adapter Kit C 200	07-01805	**$114.00**

E-MAG IGNITION KITS

Auto style custom fit kits. Include low-resistance spiral wound lead wire, end fittings, and tool.

Description	Part No.	Price
E-MAG 4 Wire Kit (One Ignition) with Auto Pack	07-01396	**$123.95**

Auto harness pre-terminated with auto plug adapters. Auto style harness with terminals and boots installed on both ends. Same wire used in their custom trim-to-fit kit.

E-MAG Auto Harness - 4 Wire Kit (One Ignition) with Auto Pack	07-01403	**$129.50**
E-MAG Auto Harness - 8 Wire Kit (Two Ignition) with Auto Pack	07-01404	**$231.95**
E-MAG Spark plug adapters - 4 pk.	08-06753	**$57.50**

ELECTROAIR IGNITION SYSTEMS

EIS-1 KIT

EIS-2 KIT

EIS-3 KIT

EIS-4 KIT

Electroair Ignition Systems come complete with everything needed to install the EIS. Comprehensive installation procedure leaves little room for error when installing your system. STC'd for most Lycoming 4 cylinder engines. For more information on these kits and STC model list, please visit: www.aircraftspruce.com

EIS-1 KIT	Part No.	Price
4-cylinder Electronic Ignition System comes with: Coil Pack, Controller, Mag Timing Housing, MAP Sensor, spark plug wires, instruction manual. Specify engine make and model.	08-05953	**$1,561.00**
EIS-2 KIT	**Part No.**	**Price**
6-cylinder Electronic Ignition System comes with: Coil Pack, Controller, Crankshaft Timing Wheel, MAP Sensor, spark plug wires, instruction manual. Specify engine make and model.	08-05954	**$1,592.00**

EIS-3 KIT	Part No.	Price
Subaru EJ-22 4-cylinder Electronic Ignition System comes with: Coil Pack, Controller, Subaru Timing Wheel Kit (replaces COG pulley & factory pick-up), and instruction manual.	08-05955	**$1,235.00**
EIS-4 KIT	**Part No.**	**Price**
Rotorway RW 152 4-cylinder Electronic Ignition System comes with: Coil Pack, Controller, Trigger Wheel Kit (mounts on V-Belt Pulley), spark plug wires, and instruction manual.	08-05956	**$1,270.00**

ELECTROAIR FOUR CYLINDER ELECTRONIC IGNITION

The EIS-41000 Electronic Ignition Kit is a fully STC'd kit for most Lycoming 4cyl engines. Replacing one magneto with the EIS-41000 will typically improve fuel economy on average by 10-15% (many operators have reported consistent fuel savings of 1gph or greater). Additionally, there will be an improvement in horsepower, smoother engine operation, and improved high altitude performance. The EIS-41000 adjusts spark timing automatically by way of our MAP Sensor - timing is adjusted with altitude. Most parts on the EIS-41000 are not life limited (the MTH is recommended to be changed at overhaul of the engine; spark plug wires on a regular interval) - this combined with reduced spark plug fouling means lower maintenance costs. This kit can be used on either 12V or 24V systems.
Kit includes: all the required parts to replace the direct drive magneto (typically, the right hand mag) in most 4cyl Lycoming engines. (Please refer to the eligibility schedule to verify the system can be installed on your engine - Note: engines are being added regularly).
Features: 4cyl Electronic Ignition for most Lycoming Engines. 10-15% gain in fuel efficiency. Improved Horsepower. Smoother, low RPM operation. Timing adjusts with altitude (MAP)

P/N 08-07272 ..... **$2,890.00**

ELECTRONIC IGNITION SYSTEMS

ELECTRONIC ENGINE MANAGEMENT SYSTEM

The EFII system is a complete electronic engine management system for light aircraft engines. The EFII system can be used in any Experimental category aircraft using one of these engines.
The EFII system is very similar to what you would find on any modern automobile engine. It is a computer controlled electronic fuel injection and electronic ignition system. The system is controlled by an ECU (the computer) and incorporates a fully mapped fuel curve and ignition timing curve. The electronic fuel injection portion of the system utilizes an electronic fuel injector valve that is installed into each intake tube, just under the engine cylinder and a throttle body that replaces the typical carburetor or mechanical injector butterfly assembly. The electronic ignition portion of the system utilizes high energy inductive ignition coils instead of magnetos to produce a very strong and efficient spark to each plug.
The EPA has recently started the rules making process to decide the timeframe to mandate Unleaded Avgas. If you have an EFII system on your engine, you will already be compatible with the new fuel.

In The Box:
- Spark plug wire set, 8 plug
- Iridium spark plugs, 8 ea.
- High energy inductive ignition coil pack w/integral magneto block off plate, 2 ea.
- Spark plug adapters, 18mm to 14mm, 8 ea.
- EFII ultra compact electronic fuel injector assemblies with weld-in bases, 4ea. (note - customer provides intake tubes for weld-in base installation)
- EFII modified flywheel w/trigger magnets added. (note - customer provides flywheel for modification)
- Billet Hall effect crank trigger (no case drilling required)
- Dual fuel pump module
- Fuel pressure regulator
- High pressure EFII fuel filter
- EFII wire harness - All Tefzel harness with sealed waterproof connectors
- Engine computer - ECU
- Mechanical fuel pump block off plate w/integral engine temp sensor
- MAP sensor
- EFII throttle body w/throttle position sensor, intake air temp sensor, and Lycoming sump adapter
- Aviation programmer for ECU
- Mixture adjust knob - for easy system tuning.

Features:
- The advantages of an electronically controlled engine are numerous and include:
- Fully compatible with 100LL, auto gas and future Unleaded Avgas
- Approx. 10% increase in available horsepower
- Automatic mixture control (no mixture knob to fool with)
- A proper ignition timing curve to bring out the true power potential of your engine
- Fuel savings from always having the correct fuel mixture
- Decreased lead fouling
- Improved engine starting - No "hot start" or "cold start" problems
- Decreased weight - no magnetos or mechanical fuel pump
- Tunability - your fuel map can be fine tuned for your particular installation
- Lower maintenance costs - less lead build up means less wear and less oil contamination, uses automotive Iridium spark plugs.

SINGLE MAGNETO REPLACEMENT IGNITION

Electronic ignition systems for Lycoming engines have been around for awhile but this may be a better idea - you be the judge.
The manufacturer has taken the core control system of the EFII fuel injection system and pared it down to the ignition components. This allows them to offer a sinlge mag replacement high energy ignition system for your aircraft. And what is unique about that you ask? Well, the EFII system uses a very high energy inductive coil pack to deliver several times the spark energy of the most popular competitor system for more complete combustion. Secondly, once you have installed one of their ignition systems, you have opened the door for an easy upgrade in the future to the full electronic fuel injection and ignition EFII system. You can start now with a single or dual mag replacement ignition that utilizes their billet Hall effect crank trigger and proven engine computer and simply add the rest of the EFII fuel injection kit in the future if you choose to do so. This easy migration path between systems can not be matched by any other ignition or fuel injection company.
In The Box: Ignition computer, high energy coil pack with integral magneto block off plate, Billet Hall effect crank trigger (no case drilling required), high quality silicon spark plug wires, 4 ea., automotive Iridium spark plugs, 4 ea., spark plug adapters, 4 ea., MAP sensor, Tefzel plug and play wiring harness with environmentally sealed connectors.

P/N 07-01850 ..... **$1,200.00**

DUAL MAGNETO REPLACEMENT IGNITION

Electronic ignition systems for Lycoming engines have been around for awhile but this may be a better idea - you be the judge.
The manufacturer has taken the core control system of the EFII fuel injection system and pared it down to the ignition components. This allows them to offer a dual mag replacement high energy ignition system for your aircraft. And what is unique about that you ask? Well, the EFII system uses a very high energy inductive coil pack to deliver several times the spark energy of the most popular competitor system for more complete combustion. Secondly, once you have installed one of these ignition systems, you have opened the door for an easy upgrade in the future to the full electronic fuel injection and ignition EFII system. You can start now with a single or dual mag replacement ignition that utilizes their billet Hall effect crank trigger and proven engine computer and simply add the rest of the EFII fuel injection kit in the future if you choose to do so. This easy migration path between systems can not be matched by any other ignition or fuel injection company.

P/N 07-01851 ..... **$1,850.00**

BUS MANAGER

This Bus Manager is an important safety device for aircraft that have critical electronics that require a protected essential bus. This would include aircraft that are running electronic fuel injection, electronic ignition, electric fuel pumps, or critical instrumentation. Provides a triple redundant essential bus for all critical electronic equipment. This redundency is crucial for engines that rely on uninterupted +12V power to critical items. The end user no longer has to attempt to come up with a home brew bus system for their plane. The Bus Manager has been professionally designed and over-built to faithfully provide extreme reliability.

P/N 07-01852 ..... **$540.00**

BUS MANAGER ACCESSORY KIT

The Accessory Kit for the Bus Manager consists of all the parts necessary to setup a Bus Manager based electrical distribution system for experimental aircraft.

P/N 07-01853 ..... **$145.00**

ELECTRIC BOOST PUMP MODULE

The EFII Boost Pump Module (BPM) brings a new level of installation simplicity and functionality to the fuel system of your aircraft equipped with Bendix, AFP or Precision Airmotive type mechanical fuel injection. The BPM reduces a time consuming and frustrating plumbing job to a simple and clean, easy to set up installation. It is used to supply a steady source of 30PSI fuel to your engine during take-off, landing, priming, or emergency situations. The BPM has integral back flow prevention and pressure regulation valving.

P/N 07-01854 ..... **$649.00**

LIGHT SPEED ENGINEERING PLASMA IGNITION SYSTEM

Light Speed Engineering, LLC (LSE) is a pioneer in the design and production of ignition systems for experimental aircraft. 22 years of research and development have been invested in producing the PLASMA CDI (Capacitive Discharge Ignition) system product line. LSE's PLASMA CD systems are the ideal replacement for yesterday's magneto technology. You can replace one mag with a PLASMA CDI or, for maximum performance, replace both magnetos with these state of the art systems. The Plasma CDI is a solid-state, high performance ignition system intended for today's home built aircraft. Light Speed Engineering currently offers two Capacitive Discharge Ignition Systems: the PLASMA II PLUS and the PLASMA III. Standard Plasma CDI kits include: direct crank sensor assembly, high tension leads, harness, spark plugs, spark plug adapters, and ignition coils with mounting bracket. One or two systems can be used.

PLASMA II PLUS CDI

The Plasma II is Light Speed Engineering's basic electronic ignition system for aircraft. It is a lightweight, high-energy capacitor discharge system containing all of the essential Plasma CDI features. Its smaller size and lighter weight sets it apart from any other ignition source. Like all LSE ignition systems it features automatic ignition advance based on engine load and RPM, auto retard for starting and a standard pulse tachometer output. The Plasma II was designed to provide a high tech ignition source at the cost of magnetos.

PLASMA III CDI

Light Speed Engineering has introduced a new ignition system to its line of products. The new Plasma III Capacitor Discharge System is the latest high performance ignition for all 4-cyl and 6-cyl aircraft engines. Its long duration spark and optimized timing curve makes more horsepower and improves fuel efficiency- at all altitudes. Other benefits include quick starts, reduced maintenance, light weight, lower EGT's and up to 20% more range. As with all LSE ignitions, RPM and manifold pressure inputs are used for our proprietary timing curves. The Plasma III is also capable of displaying the current timing advance, manifold pressure and rpm on an optional lightweight LCD display. The Plasma III can easily replace one or both magnetos, making your engine run better under all conditions.

PLASMA CAPACITIVE DISCHARGE IGNITION SYSTEMS

All Plasma CDI systems include: high tension leads, harness, spark plugs, spark plug adapters, ignition coils with mounting bracket, and Hall Effect Sensor module OR Direct Crank Sensor assembly.

Description	Part No.	Price
Plasma II Plus: 4 Cylinder Direct Crank Sensor	08-06294	**$1,075.00**
Plasma II Plus: 4 Cylinder Hall Effect Module	08-06295	**$1,275.00**
Plasma III: 4 Cylinder Direct Crank Sensor	08-00675	**$1,363.00**
Plasma III: 4 Cylinder Hall Effect Module	08-00676	**$1,556.00**
Plasma III: 6 Cylinder Direct Crank Sensor	08-00677	**$1,450.00**
Dual Plasma CDI Systems		
Dual Plasma II Plus: 4 Cylinder Direct Crank Sensor	08-06296	**$2,115.00**
Dual Plasma II Plus: 4 Cylinder Hall Effect Module	08-06297	**$2,495.00**
Dual Plasma III: 4 Cylinder Direct Crank Sensor	08-06298	**$2,649.00**
Dual Plasma III: 4 Cylinder Hall Effect Module	08-06299	**$2,995.00**
Dual Plasma III: 6 Cylinder Direct Crank Sensor	08-06300	**$2,895.00**
Options		
On all Turbo and Super-Charged ignition systems add $124.95	08-06301	**$124.95**
On all Franklin and Continental engine ignition systems add $194.99	08-06302	**$194.99**

S.5 SPARK PLUG ADAPTER FOR 14MM SPARK PLUGS

RECOMMENDED BY KLAUS SAVIER OF LSE

The high performance, electronic ignition, has demonstrated it's reliability, easy starts, greater power at altitude, and leaner, more efficient combustion. Yet your expensive aircraft Spark Plugs, can prevent the pilot from taking full advantage or this electronic powerhouse. The S.5 is a precision CNC adapter, that installs easily in aircraft engines, that use 18mm "short reach" spark plugs, transforming the 18mm threaded hole down to 14mm.

The Spark Plug Adapter allows you to use:

- High performance 14mm automotive/ motorcycle spark plugs, that offer an almost unlimited variety of heat ranges, & electrode styles, designed specifically to take advantage of electronic ignitions.
- Shorter plugs with 90° silicon boots, give greater clearance for sleeker cowls and less drag, meaning higher speed, using less power.
- Precious and semi precious metal racing spark plugs (the ultimate in reliability and long life) for less than you'd pay for ordinary aircraf plugs. More speed, power, efficiency, as well as a cost savings each time you change spark plugs.
- New & improved corrosion resistant design substantially extends the operational life of the S.5 Spark Plug Adapter.

Set of 4 adapters without gaskets .....P/N 08-06753 ..... **$57.50**
Set of 4 adapters with gaskets.....P/N 08-06753-1 ..... **$58.50**

WIRE TERMINAL CLIP

For 7 MM unshielded harnesses.
P/N 07-03500 ..... **$0.36**

HIGH TENSION CABLE

Unshielded 7MM ignition cable consists of tinned conductor, rubber insulation, reinforced glass braid and Hypalon jacket that resists sun, weather, heat, chemicals and oxidation by ozone. Temperature range -65° to 250°F.
P/N 07-03700 ..... **$1.27 Ft.**

ENGINE BAFFLE IGNITION WIRE SEALS

Seal Type	Part No.	Each
5mm Wire Seal One-Wire	526	**$4.85**
5mm Wire Seal Two-Wire	375	**$6.50**
5mm Wire Seal Three-Wire	376	**$6.00**
5mm Wire Seal Slick 3-Wire	M2376	**$19.95**
5mm Wire Seal Slick 2-Wire	M2375	**$19.00**
5mm Wire clamp Slick 2-Wire	M2755	**$3.75**

BUZZ AERO ROCKER COVERS

The Buzz Aero Model AC2003 cover is made to fit Lycoming straight valve cylinders. Available in red, white, blue or black anodizing. Specs: Wt: 9oz; Machined from billet aluminum; Nickel chrome plated stainless steel socket head cap screws supplied with kit;
Set of gaskets supplied with each kit. AC2003 Applications: Lyc. 0-235, 0-290, 0, I0, LI0-320, 0-340, 0- 360-A, B, C, D; I0-360-B; H0-360-A, B; HI0-360-B, V0, IV0-360; 0- 540-A, B, E, F, G, I0-540-C, D, J, N, R.
Also Available by Special Order: AC2004 for Engines: I0-360-A, C, D; AI0-360-A, B; H0-360-A, C, D, TI0-360-A; LI0-360-C1E6; V0, G0-435; G0-480; I0, V0, TVI0-540; I0- 720, TV0-435.

AVIATION SPARK PLUGS

TEMPEST AVIATION SPARK PLUGS

Made in USA. Copper, co-extruded inside a nickel alloy sleeve ensures outstanding heat and electrical conductivity while the nickel sleeve offers high resistance to corrosive combustion gases. High Alumina Ceramic Insulator. "V" tip focuses heat to reduce fouling and enhance heat range control. Proprietary Glass Center Seal, and resistor design, eliminating resistor degradation causing misfire. Environmentally preferable electrolytic nickel provides outstanding durable finish, superior corrosion protection, and extreme wear resistance. Aviation grade nickel electrode design focuses on minimizing sparking voltage requirements. Harness Wire Contact is a smooth, uninterrupted, oxide treated spring contact surface.

14mm	IK24	15-05204	**$12.95**

CHAMPION SPARK PLUG ANTI-SEIZE

Apply sparingly to second and third threads. Do not contact electrodes as it could short out the plug. Do not apply to shielding barrel threads. Unbreakable 4oz. bottle with applicator brush top.....P/N 2612 ..... **$8.50**

TEMPEST SPARK PLUG ANTI-SEIZE COMPOUND

T-556 Spark Plug Thread Lubricant and Anti-Seize Compound helps to prevent galling and lubricates threads during installation. .....P/N 12-00709..... **$7.90**

COPPER SPARK PLUG GASKETS

Made of solid copper to current aircraft standards. Available in 14 MM and 18 MM sizes.

AN4027-2, 14MM..... P/N 07-01261.....**$0.59 ea**
AN4027-1, 18MM..... P/N 07-00877.....**$0.36 ea**

FOLDED STEEL SPARK PLUG GASKETS

The new type folded steel sparkplug gaskets provide better sparkplug retention with no adverse effect on heat transfer. Endorsed by FAA. These gaskets are not to be reused.

18mm Gaskets..... P/N M677.....**$1.87 ea**

SPARK PLUG TYPE DESIGNATION SYSTEM

All Champion Aviation Spark Plugs are identified by type designations selected by virtue of the plug design as applied to the following Spark Plug Number and Symbol Chart. The symbol is composed of a rating position number together with prefix & suffix numbers to indicate major plug design characteristics.

A TYPICAL SPARK PLUG NUMBER WITH SYMBOL EXPLANATION

R H B 37 E
① ② ③ ④ ⑤

R — Push-wire—90° to Center

1. RESISTOR
None — No Resistor R — Mil-Spec. Resistor - Erosion protection

2. BARREL STYLE
None — Unshielded E — Shielded 5/8"-24 Thread
H — Shielded 3/4"-20 Thread (All Weather Plug)

3. MOUNTING THREAD—REACH—HEX SIZE
B - 18mm 13/16"/2.06cm 7/8"/2.22cm M— 18mm 1/2"/1.27cm 7/8"/2.22cm
J - 14mm 3/8"/0.95cm 13/16/2.06cm L — 14mm 1/2"/1.27cm 13/16/2.06cm
U - 18mm 1-1/8"/2.85cm 13/16/2.06cm

4. HEAT RATING POSITION
Low number—cold High number—hot

5. ELECTRODE DESIGN
None—Conventional single E — Two prong massive N — Four prong massive
P—Fine wire (Platinum) W — Fine wire (Iridium) B —2 prong massive, Tangent to Center

CHAMPION SPARK PLUGS

SHIELDED – MASSIVE ELECTRODES			
5/8-24*	**Price**	**3/4-20***	**Price**
REJ38 (14MM)	**$44.75**	RHM38E	**$26.50**
REL37B (14MM)	**$44.75**	RHM40E	**$26.50**

UNSHIELDED			
5/8-24*	**Price**	**3/4-20***	**Price**
M41E (18MM)	**$31.50**		

* Shielded barrel thread size. Check barrel size - 5/8x24 or 3/4x20 threads before ordering and select proper plug number, See page 236 for Sparkplug Application Table.

**The "Iridium S" sparkplugs replace the Platinum and "W" Iridium types. Increased bore diameter improves scavenging action. Greater clearance volume can accept more combustion deposits. Single Iridium electrode offers greater resistance to lead attack. Easy to clean Easy to gap

CHAMPION RVL38S SPARK PLUGS

Used on M14 YAK P/N 08-06280 ..... **$112.95**

NOTE: Spark plugs are shipped in factory sealed plastic cases. Opened spark plug cases make the spark plugs non-returnable. Please do not open any spark plug until you are sure you have received the correct spark plugs for your application.

SURPLUS SPARK PLUG BARGAINS

New surplus 18MM longreach, shielded, 3/4-20 barrel. FAA approved for Continental IO-470, GIO-470, TSIO-470, IO-520 & GTSIO-520. Not for 0-470, which uses short reach plugs.

P/N 08-03699 ..... **$9.35 ea**

SEE TOOL SECTION FOR FULL LINE OF CHAMPION SPARK PLUG TOOLS

AN4062-1 DEHYDRATOR PLUGS 18MM

These plugs are used to prevent rust and corrosion in engines while in storage. Contain silica gel which turns from blue to pink when moisture is absorbed. Reusable & refillable. The pink silica gel may be reactivated (after removing from reservoir) by heating for 16 hours at 250°F.

AN4062-1 (18MM) ..... **$6.90 ea**

SILICA GEL. Indicating type, for refilling plugs.

1/4 Lb. Bag..... P/N 07-00731..... **$4.90**
1 Lb. Can ..... P/N 07-03400..... **$16.75**

Minimum Core Charge on Delco Alt. and Starters $200.00
*Drive not included (DEL 1971890). For price see listing for drives.
**Drive not included (DEL 1940969). For price see listing for drives.

LAMAR 14V VOLTAGE REGULATOR

Lamar Voltage Regulator DGR6-1 fits Cessna 150 thru Cessna 210 series aircraft. DGR6-1 is the PMA replacement for DGR6, C611001-0101, C611001-0102, C611001-0201, and VR600. Manufactured in the USA.

P/N 07-01897.....**$148.95**

LAMAR 28V ALTERNATOR CONTROL

Lamar Alternator Control DGR3-1 fits Cessna 150 thru Cessna 210 series aircraft. DGR3-1 is the PMA replacement for DGR3, C611005-0103, C611501-0102, and VR15F. Manufactured in the USA.

P/N 07-01896.....**$199.95**

EP

HARTZELL ENGINE TECH. ALTERNATORS

HARTZELL ENGINE TECHNOLOGIES ALTERNATORS

The most popular alternators in use on Cessna and Beech aircraft are of Ford manufacture. Chrysler alternators are usually found on Piper aircraft. These units are manufactured to aircraft specifications and are not available through automotive parts stores. Note: Core charge is billed on all exchange units & credited upon receipt of acceptable core.

ALTERNATOR PRODUCT INFORMATION

If Unit Begins With:	Then Unit Is:
ALE-	12V / 40A
ALH-	12V / 55A
ALM-	12V / 30A
ALT-	24V / 50A
ALU-	24V / 70A
ALV-	24V / 100A
ALX-	12V / 70A
ALY-	12V / 60A
ALZ-	12V / 50A
ANG-	24V / 60A

If First Digit After (-) Is:	Then Unit Is:
6	Belt Driven / No Blast Tube
8	Belt Driven / Blast Tube
9	Gear Driven

If Unit Ends With:	Then Unit Is:
LS	New Unit - No Pulley
RS	Factory Rebuilt/Over-hauled- No Pulley
G	Ground Strap Attached
R	Factory Rebuilt/Over-hauled
None	Factory New-Various Applications

CHRYSLER ALTERNATORS - FACTORY OVERHAULED

E3FF10300AAR	28V/95A BD	07-06417	**$439.00**
E3FF10300BAR	28V/60A BD	07-06419	**$349.95**
EOFF10300AAR	12V/95A BD	08-07036	**$427.95**
EOFF10300BAR	28V/60A BD	07-06419	**$349.95**

Alternator regulators for these alternators are new solid state units which replace the original blue colored Ford regulators. These are no longer available. Proper regulator for use with these alternators is Cessna Part No. C611001-0201, manufactured by Electro Delta. P/N VR600 ..... **Net Price $136.00

EP

HARTZELL ENGINE TECH. OVERHAULED COMPONENTS

Aircraft Spruce carries the full line of alternators, and starters which are remanufactured by Hartzell for installation in general aviation aircraft. Fully FAA approved. All prices shown are exchange prices. Core charges are billed when unit is shipped. Core credit is issued upon return of acceptable like model core to Aircraft Spruce West in Corona, CA. NOTE: If core is not in stock at factory, customer must send core to Aircraft Spruce at time of order to have the core overhauled.

HARTZELL ENGINE TECH. ALTERNATORS

HARTZELL ENGINE TECH. NEW ALTERNATORS

AL Series

ES4000 Series

ES4020 Series

As the OEM, Hartzell offers factory new alternators engineered specifically to meet the challenges and increased demands of today's aircraft electrical systems. Each unit is aviation designed & developed, no automotive parts used. For decades our alternators have been powering Lycoming/Continental engines with unmatched performance and reliability. No Core charges.

AL SERIES ALTERNATOR - Prestolite Style - FAA/PMA Approved.

HARTZELL ALV-9610 ALTERNATOR

Lighter, Tougher, and Proven! Introducing the brand new ALV-9610. The ALV-9610 alternator is a direct replacement for gear driven heavyweight alternators on the Continental 520 & 550 engines.

Weighing under 13 lbs., the ALV-9610 is up to 9 lbs. lighter than current heavyweight options. The ALV-9610 is a field proven design that has been in use for over 5 years with thousands of alternators operating on the world's top selling aircraft.
FAA/PMA Approved.
Features:
- Up to 9.6 lbs. weight savings (per engine)
- OEM Direct Replacement
- More power at engine cruise
- Built in noise cancellation
- Rugged design for extreme conditions
- More economical than overhauled units
- Two year warranty

Specifications:
- 28 Volt / 100 Amp Prestolite Style
- Replaces TCM part numbers: 642056, .. 646491, 646842, 649304, as well as ALV-. 9510.

P/N 08-07442..... **$688.00**

HARTZELL ES7024-14 ALTERNATOR

Hartzell Lightweight Alternator ES7024-14, for experimental use. 28 Volt, 70 Amps. Weight: 7 lbs.

Replaces TCM part number 657199.

Features:
- All aircraft quality parts, no automotive parts
- High altitude brushes
- High speed bearings
- High temperature varnish on rotor and stator
- No modifications necessary for Retro-fit into any existing Ford style applications
- Two year warranty

P/N 08-07444..... **$525.00**

HARTZELL ES10024 ALTERNATOR

Introducing the brand new ES-10024 28volt / 100amp aircraft alternator. The ES-10024 alternator is a direct replacement for TCM part number 656802.

The ES-10024 is a field proven design that has been in use for over 5 years with thousands of alternators operating on the world's top selling aircraft.

Prestolite Style - FAA/PMA Approved.

Lightweight, cost effective, 2 yr. warranty.

Features:
- Up to 9.6 lbs. weight savings (per engine)
- OEM Direct Replacement
- More power at engine cruise
- Built in noise cancellation
- Rugged design for extreme conditions
- More economical than overhauled units
- Two year warranty

Specifications
- 28 Volt / 100 Amp Prestolite Style
- Replaces TCM part number 656802

P/N 08-07443..... **$844.00**

PLANE POWER LIGHTWEIGHT ALTERNATORS

Plane-Power Lightweight Alternators are designed exclusively for aviation applications and constructed using only new, aviation-grade components. By maintaining higher quality standards and tighter tolerances, Plane-Power ensures improved performance, increased reliability and longer service than traditional OEM alternator solutions without the undesirable performance, weight and expense of conventional (heavyweight) OEM aircraft alternators. Plane-Power alternators are manufactured in Granbury, Texas by fellow aircraft owners and pilots who understand the importance of quality, value and simplicity desired by today's aircraft owners. Plane-Power alternators are available through dealers and FBO's worldwide. All Plane-Power alternators are warranted against failure in components and workmanship for a period of 2 years from the date of purchase. Finally Choice, Finally Plane-Power.

PMA APPROVED ALTERNATOR REPLACEMENTS

Plane-Power Certified Alternators are PMA certified to replace any existing alternator in the aircraft and engine applications listed below. No STC paperwork required. All Plane-Power PMA alterantors produce up to 70 amps. Your airframe/application may use only a portion of the available output as limited by the aircraft electrical system components and design. Every Plane-Power alternator is tested to exceed all quality and performance specifications. Plane-Power PowerFlex Voltage Regulators are also avialable seperately.

For Lycoming engines 235, 320, 360, 540, 720 and Superior engines O-360, IO-360, Plane-Power alternators AL12-P70, AL12-70*, and AL24-70* replace Lycoming and Superior certified 70amp alternators: LW14300, LW14302, LW14308, LW14310, LW14316, LW14319, LW14322, LW14324. *Comes with all new Plane-Power mounting brackets and hardware.

PMA CONTINENTAL ALTERNATOR REPLACEMENT

The C28-150 is PMA FAA eligible on most Continental 520 and 550 Series engines with front mounted gear driven alternators. This Spectacular alternator in addition to providing a continuous 150A at X RPM will deliver 60A at 1000 RPM and weighing only 12.6 lbs! Also available without debris shield sold as model C28-150S.

LIGHTWEIGHT EXPERMENTAL ALTERNATORS

Unlike automotive alternators, all Plane-Power Experimental Alternators are specifically engineered for Airplane Engines and have Dual Internal Fans designed for Airplane Engine Rotation the same as our Certified Alternators. 2 year warranty,

The ***AL12-EI60*** kit comes with an internally regulated ultra compact lightweight AIRCRAFT alternator (6.9 lbs.) with an exclusive internal crowbar over-voltage protection circuit. The alternator is fully pilot controllable through unique internal wiring. The dual internal fans are designed for aircraft engine rotation for maximum cooling. The AL12-EI60 kit includes the tension arm, mounting brackets, required AN hardware, and V-Belt for Superior and most Lycoming* engines. 10 lb. 70amp also available. Also available 70 amp version only 2 additional lbs.

The ***AL12-EI60-L*** , Plane Power's 60A LSA alternator which must be installed in combination with Sky-Tec LSA starter, provides the industry's lightest charging/starting package at 13.2 lbs. for Lycoming's O-233, O-235, O-290, O-320 engines. Sky-tec starter to be purchased separately. Fits engines with 122 tooth ring gear and case mount engines.

The ***EX14-50*** kit is an internally regulated alternator kit for Small Block Continental Engines. The alternator (6.9 lbs.) includes an exclusive internal crowbar over-voltage protection circuit and is fully pilot controllable through unique internal wiring. The alternator includes dual internal fans designed for aircraft engine rotation. The kit also includes a pre-wired enable/field plug. The EX14-50 kit fits C75, C85, C90, C125, C145, E165, E185, E225, IO-240, O-200 and O-300.

FlySAFE The ***FS1-14 Fly Safe*** back up alternator, internally regulated (13.6 volt +-0.3) with built-in overvoltage protection. Designed for use in experimental aircraft. FS1-14. Features a 30A continuous output, precision internal voltage regulator, fail-safe Over Voltage Protection, Shear Coupling Assembly, 6lbs installed weight, higher level of safety. 2-Year Limited Warranty. Weight: 6 Pounds. 12 volt/30 amp. Also availbale as a primary unit sold as model FS1-14B.

PLANE-POWER LIGHTWEIGHT STC GENERATOR TO ALTERNATOR CONVERSIONS

BELT DRIVEN - Plane-Power Belt Driven Generator to Alterantor Conversion Kits include hardware and brackets to replace your existing generator and regulator. Plane-Power STC Belt Driven Generator Conversions allow for increasing the size of the output wire and circuit breaker to allow for a maximum of 70 amps of output. All Plane-Power alternators feature dual internal fans specially designed for aircraft engine rotation to maximize cooling. Models available for both 12 and 24 volt as well as for both Lycoming and Continental installations.

Model	Output	Voltage	Part No.	Price
SAL12-70	70 (max)	12	07-01301	**$718.00**
SAL12-70C	70 (max)	12	07-01299	**$783.00**
TAL12-70	70 (max)	12	07-01302	**$1,464.00**

Model	Output	Voltage	Part No.	Price
TAL24-70	70 (max)	24	07-01304	**$1,556.00**
TAL24-70C	70 (max)	24	07-01303	**$1,894.00**

GEAR DRIVEN - Plane-Power Gear Driven Generator to Alterantor Conversion Kits replace your existing generator with an alternator which will provide higher output at lower rpm and allow for increasing the size of the output wire and circuit breaker to allow for a maximum of 50 amps of output. The ER14-50 uses your existing gear assembly. The entire gear assembly (ER14-GR) may be purchased separately. Some older generators have larger diameter (5/8") shafts and require the gear support kit (G-Pack). Please call for details. The ER14-50 weighs 6.9 lbs and comes with a pre-wired enable plug, 50 amp gear driven alternator, alternator inoperative lamp, Seals and R1224B Power-Flex voltage regulator.

Model	Output	Voltage	Part No.	Price
ER14-50	50 (max)	12	07-01321	**$714.00**
Accessories				
Gear Drive designed for use with the ER14-50			07-01348	**$90.00**

PLANE-POWER ALTERNATOR VOLTAGE REGULATORS

R1224

Plane-Power Power-Flex Voltage Regulators are FAA-PMA Approved. Available for most certified aircraft. Solid-state voltage regulators with over-voltage protection, field short (over current) protection, and reverse battery protection. Plane-Power Power-Flex voltage regulators also support precision load sharing for twin applications and an alternator inoperative lamp. Power-Flex voltage regulators are designed to be setup in the field for 12 or 24 volt operation by a simple placement of the two internal jumpers. For smaller mounting placement on the R1224, installation aid 12-1021 may be used.

R1224B

Model	Description	Voltage	Part No.	Price
R1224	Replaces many Ford, Electrodelta, Prestolite, Interav, Wico, and FVR voltage regulators.	12 or 24	07-01305	**$185.95**
R1224B	Replaces voltage regulators on twin Cessnas, Beechcraft, and Vulcanair .	12 or 24	07-01306	**$185.95**

GEAR ADAPTER KIT G-PACK

Required for use with the existing drive gear when the generator shaft is over 0.5" in diameter. Uses existing gear from replaced generator.

Description	Part No.	Price
Gear Adapter Kit # G-Pack	07-01348	**$90.00**

EP

B & C ALTERNATORS

B & C LIGHTWEIGHT ALTERNATORS

MODEL L40 ALTERNATOR

The model L40 is a belt driven 40 amp 14 volt alternator system for Lycoming engines including alternator assembly, mounting hardware, and belt, ready to install. The alternator weighs 6.1 lbs. and measures 3.9" in diameter and 5.6" long. The model L40 alternator was specifically designed to meet the rigorous demands of today's weight sensitive homebuilt designs and has undergone extensive in-flight service testing. This system incorporates the latest state-of-the-art advances in solid state electronic power management as well as incorporating a factory new, modern lightweight alternator. Applicable to Lycoming 118 H.P. through the 300 H.P. engines. L40 Boss Mount P/N 07-06815 ..... **$424.00**

Note – On Models L40 & L60 Alternators, order as follows:

L40 Case Mount (Narrow Deck Bracket) P/N 07-06810 ..... **$518.00**

L40 requires voltage regulator – see below

Model L40 and L60 alternators require external regulators – use: P/N 07-06742 (LR3C) for 14V, P/N 07-06786 (LS1A) for 28V LS1A converts alternator to 28V

MODEL L60 ALTERNATOR

Model L60 is a belt-driven, 14 or 28 volt alternator system for wide deck (boss mount) 118HP through 300HP Lycoming engines. The kit includes a NEW alternator, steel mounting bracket, belt tensioning arm, belt and mounting hardware, ready to install. Alternator with pulley installed weighs 8.5 Lbs. With 60 amps of output, the L6. Will provide sufficient power to operate electric heaters in the Eze type airplanes. Warning! It is unwise to use this (or any other high output alternator) unless true over voltage protection is also installed. The LR-3C linear regulator and alternator control system is recommended.

L60 Case Mount ..... P/N 07-06820 ..... **$695.00**
L60 Boss Mount..... P/N 07-06785 ..... **$617.00**

L60 requires voltage regulator – see ABOVE

30 AMP GEAR DRIVEN ALTERNATOR WITH PMR3

A 30amp gear-drive alternator for the Continental Engines (C-75 through O-300). After many customer requests for a gear-drive alternator with higher output, B&C Specialty Products introduces the latest product, model BC433-H. Wt: 4lbs.; size: 4"dia. X 3.7" installed length. Features a billet aluminum mounting flange and creates 30 amps at cruise RPM. Ships with matching regulator. Sold without the Continental drive gear assembly (customer supplied), and requires the latest revision of the Hub (P/N 07-01327) and Retainer (P/N 07-01328) B&C has a limited supply of used drive gear assemblies, available at additional cost. NOTE: BC433-H requires purchase of PM/OV Kit 505-1which provides crucial over voltage protection.

P/N 07-00771 ..... **$557.00**

ACCESSORIES

505-1 B&C 14V Over Voltage Protection .. P/N 07-00772 ..... **$68.75**
Generator Hub Coupling 653983 ..... P/N 07-01327 ..... **$275.95**
Generator Attaching Retainer 653982 .... P/N 07-01328 ..... **$24.75**

MODEL LR3C LINEAR REGULATOR

P/N 07-06748

More than just another regulator. The LR3C Controller combines three essential devices in one physical container, making it a lightweight, space-saving, and cost-effective alternative for any aircraft electrical system, while also mproving safety of flight. First, the LR3C operates as a "quiet," linear regulator, generating no audio or radio noise (in contrast to switching-type regulators).

Second, it provides a vital safeguard for your aircraft electrical system with a solid-state, "crowbar" overvoltageprotection circuit. And third, the LR3C Controller functions as an important low-voltage monitoring and warning system.

- Used on all externally regulated alternators using circuit type "B" (one field lead grounded directly) except B&C alternators used in 28v sys tems. This 28v regulator will not work with a B&C alternator.
- The LR3C weighs approximately 9 ounces
- Select a location for mounting that will protect unit from heat, vibration, and water; the pilot side of the firewall, or inside the cabin near the instrument panel, is recommended.
- For experimental aircraft only

LR3C (14V) ..... P/N 07-06742 ..... **$228.00**
LR3C (28V) ..... P/N 07-06748 ..... **$229.50**
LR3C Battery Temp Sensor.. P/N 07-06744 ..... **$105.95**

MODEL SD-8 ALTERNATOR & REGULATOR

The model SD-8 is a spline-driven, 14V alternator system for aircraft with an open vacuum pump drive pad. Features an ultra-reliable, brushless construction. A permanent magnet assembly supported on sealed ball bearings is spun around a fixed coil. With 8 amps of output, the model SD-8 is adequate for many VFR-day applications. The model SD-8 will power a solid state nav/com and transponder in addition to charging a battery for engine starting. In production for over 10 years, hundreds of model SD-8 systems are flying. The model SD-8 is used by top aerobatic pilots around the world. Also used as backup power source on more sophisticated homebuilts. Wt.:3.7lbs. Pricing includes adjustable, solid state voltage regulator.

P/N 07-06770 ..... **$493.95**
Over Voltage Kit 14V (required) ..... P/N 08-00658 ..... **$68.95**
Over Voltage Kit 28V (required) ..... P/N 07-00708 ..... **$64.95**

MODEL SD-20 ALTERNATOR

The SD-20 is a high-performance spline-driven alternator that mounts on a standard vacuum pump accessory pad. May be used either as a primary or a stand-by alternator for a rated output 20 amps @ 2500 alternator RPM. Constructed of all NEW materials (with absolutely NO "re-manufactured" content), the SD-20 is designed for durable service, with heavy-duty sealed ball-bearings, 2 cooling fans, a dynamically balanced rotor, and a special "shear section" designed into the drive coupling. The SD-20 is available for both 14 and 28 volt applications. and is externally-regulated. It may be appropriately matched with our LR3C, LS-1A, or SB1B Controllers (depending) on your application and electrical system configurations). Measuring 4.6" wide and 6" deep, and weighing only 5.75lbs., SD-20 will clear the tachometer cable and oil filter on stock Lycoming engines. P/N 07-06771 ..... **$695.00**

MODEL 200G ALTERNATOR

Gear-driven, 14V alternator system for aircraft powered with Continental C85-12 engines. Features ultra-reliable, brushless construction. Permanent magnet assembly supported on sealed ball bearings is spun around a fixed coil. Use in the prototype Vari-Eze. Has also seen service on many Cassuts, Vari-Ezes, Q-200s. etc. In production for over 10 years, hundreds of 200G systems are in service. With 12 amps of output the 200G will support a modest VFR-night system load. Wt 4.25 Lbs. Pricing includes an adjustable solid state voltage regulator. You supply a Continental generator drive gear assembly. Gear must be shipped by the factory to Aircraft Spruce for installation.

P/N 07-06575 ..... **$409.00**
New Drive gear..... P/N 07-06500 ..... **$861.00**
Over Voltage Kit 14V (required) ..... P/N 08-00658 ..... **$68.95**
Over Voltage Kit 28V (required) ..... P/N 07-00708 ..... **$64.95**

TURBO STAND-BY ALTERNATOR

The Basic BAE-14/28 Auxiliary Power Supply is a manually deployed, air driven, emergency electric supply for small aircraft. The unit is capable of supplying electric power to drive a basic complement of flight critical instruments. If a primary electrical system failure should occur, the pilot deploys the miniature turboalternator. The flight can then be continued to the intended destination, or terminated at a convenient airport under more casual conditions. The TurboAlternator is a true stand-by power supply. In the event the aircraft loses its total electrical system the alternator will still function. The unit is self-exciting, thus it will work in the absence of the battery. The alternator was designed to be retrofit or original equipment on most small aircraft. Particular efforts was made to optimize the power output in the minimum package size and weight. The latest technology materials and techniques are used to achieve the high performance at a reasonable cost. The appropriate installation kit is included to reduce installation time and cost. The BAE-14/28 is currently STC'd for seven aircraft models: Cessna 210, 206, 182, Piper PA-32, PA-28, Bonanaza, and Mooney. One Cardinal installation is flying on a 337.

BPE-14 Turbo Alternator ..... P/N 10-00747 ..... **$799.00**
BAE-14/28 Auxillary Power Supply ..... P/N 10-00748 ..... **$2,199.00**

PERMANENT MAGNET ALTERNATOR OVER VOLTAGE MODULE WITH NOISE FILTER

A must for the PM alternators. The PM/OV was designed to give over voltage protection to the permanent magnet alternator. The yellow light will annunciate if the alternator switch is left off, or if the crowbar over voltage protection has been tripped. The capacitor will filter some noise, and help enhance the regulation.

14 Volt ..... P/N 08-00658 ..... **$68.95**
28 Volt ..... P/N 07-00708 ..... **$64.95**

EP

B & C LIGHTWEIGHT STARTERS FOR LYCOMINGS

This extraordinarily light weight starter was specifically designed to meet rigorous demands of today's weight sensitive aircraft designs. Weighing only 10.2 pounds, B & C starters develop more torque than standard starters. The first lightweight starter to be developed, the B & C starter has been in production for over 16 years. It is manufactured from 100% new components and features total ball-bearing construction. The pinion gear is mechanically engaged with the ring gear before power is applied to the motor. Cantilevered pinion gear mounting requires no forward shaft support bearing thus eliminating cowl interference. If battery failure precedes engine starting, a positive spring retraction system insures pinion gear disengagement. STC'd and PMA'd versions for installation on certificated aircraft are available. STC'd for aircraft powered by any of the following series of Lycoming engines:

- O-235
- O-290
- O-320
- IO-320
- AIO-320
- AEIO-320
- O-360
- IO-360
- AIO-360
- AEIO-360
- HO-360
- HIO-360
- O-540
- IO-540
- AEIO-540
- HIO-540
- TIO-540

B & C LIGHTWEIGHT STARTERS FOR CONTINENTALS

This new starter for the Continental 0-200 or 0-240 engine solves all the problems that other starters have had — worn out clutches, cracked pinion gears, hard to find parts. In addition, the BC320 is 4.3 to 5.2 lbs. lighter depending on whether you are replacing a key-type starter or a pull-cable type starter. The BC320 starter is STC'd for use in certificated aircraft and is available with, or without, the STC. Also available are two installation kits — one for replacing a key-type starter, the other for replacing a pull-cable type starter.

If you are replacing a key-type starter, you will need installation kit 501-1. Before installing the BC320, a needle bearing will need to be removed from your engine. To aid in removing this needle bearing, you may purchase Bearing removal kit, 501-2, for $119.00. If you do not care to keep this tool, you may return it and be refunded $80.00. If you are replacing a pull-cable starter, you will need installation kit 501-3. Before installing the BC320, you will need to cut off a steel shaft that is installed in your engine case. The new BC320 starter is a complete starter, ready to install, that will replace the existing motor, clutch, and pinion-gear. Tested by Continental with over 5000 start cycles without a problem. Recommended by Rutan Aircraft Factory. Except for paperwork, there are no differences between STC'd starters and starters for homebuilts. A starter must be ordered to match your battery voltage.

GENNIPOD WIND GENERATOR

The GenniPod wind generator has been designed and built for use on EXPERIMENTAL and Ultralight Aircraft. Utilizing a new solid state voltage regulation system, the GenniPod has been designed to target 13.5 volts at a 4 amp output. Final Phase testing demonstrated sufficient power for, Instrument panel gauges, GPS, Handheld NavCom, VW Ignition (point), and a fuel transfer Pump for those long cross country flights, (OSHKOSH!) Targeted airspeed for this unit was a cruise of 75 mph, and an aircraft Vne of 110 mph. Your GenniPod is delivered ready to mount on your airplane. Two wires, (Positive and Negative), will be linked to your electrical system. You will supply generator switch, 5 amp Breaker, and wiring to link the GenniPod to your system. A small motorcycle lead acid battery is also required These items are not supplied to allow you to build to your needs, and to keep our prices low. The GenniPod measures approximately 9" long, with a diameter of 7" at the prop. Weight will be approximately 3.5 pounds installed.

P/N 11-07182 ..... **$249.50**

INTERAV BELT DRIVEN ALTERNATOR KITS

FAA APPROVED ALTERNATOR CONVERSION KITS

This high quality alternator kit is STC'D for most 14 volt aircraft and enables you to replace your belt driven generator with a current day alternator system. The superior features of this system include quick installation, voltage spike guard, built-in radio noise suppression, transistorized voltage regulator, and overvoltage relay protection. Kit includes alternator, mount, regulator, and overvoltage control.requires 60 Amp. Circuit Breaker(P/N 295-29694).

SKYTRONICS JASCO GEAR DRIVEN ALTERNATOR KITS

This Jasco alternator kit is STC'd for many aircraft including the early Cessna 150, 172, and 175 series as well as Beech Model 35's with early E series Continental engines. Applicable to Continental C-90, 0-200 and 0-300 engines. This kit includes 50 amp alternator, voltage regulator, over-voltage control, and STC documents. Available for 14V systems only. Well-proven over many years of use in a variety of aircraft. In stock for immediate shipment. STC'd for Cessna 150-170, 172, 175, Beech 35 Series, Navion A. Skytronics Kit #6560-1. TEMPEST STARTERS

The Tempest PowerFlite series of aviation engine starters represents a new state-of-the-art energy efficient design providing reduced current draw and long life. The PowerFlite starter mounts directly to existing TCM engines and is available in both 12 and 24 volt configurations.

Tempest starter part numbers PL13459 (12v) and PL13484 (24v) are eligible on TCM engine models O-300-D, GO-300-D, IO-346, IO-360, L/TSIO-360, O-470, IO-470, TSIO-470, IO-520, TSIO-520, GTSIO-520, IO-550, TSIO-550 and TSIOL-550.

Powerflite Starter 12V ..... P/N 08-07284 ..... **$699.00**
Powerflite Starter 27V ..... P/N 08-07283 ..... **$699.00**

See www.aircraftspruce.com for parts and accessories.

HARTZELL ENGINE TECH. STARTERS

HARTZELL ENGINE TECHNOLOGIES X-DRIVE STARTERS

Only 7.6 lbs.
Lightest Starter Available

- Lightest Starter Available » Weight 7.6 lbs.
- Perfect spin » Sweet spot engine starts, doesn't drain your power like other starters
- Start efficiency » Lowest inrush & operating current draw in the industry
- No mechanical Bendix
- Electromechanical solid-state solenoid
- Powerful permanent magnet » Performance
- Easy installation » Left or right mount
- FAA/PMA approved
- 2 Year Unlimited Hours Warranty *

The X-Drive aircraft starter is one of our most popular models because of its awesome power and compact size. Targeted toward Lycoming users that want one of the industries lightest but most powerful starter on the market, the X-Drive delivers the same high torque, low current draw, and superior duty cycle that had previously been available only to E-Drive customers. The introduction of the X-Drive starter allows Hartzell Engine Technologies to service virtually all OEM and aftermarket Lycoming applications.* Kick-backs not covered

HARTZELL ENGINE TECHNOLOGIES E-DRIVE STARTERS

- IImmune to Kick-back damage!
- Perfect spin » Sweet spot engine starts, doesn't drain your power like other starters
- Lightweight » Only 9.5 lbs.
- No mechanical Bendix
- Electromechanical solid-state solenoid
- Powerful permanent magnet » Performance
- Easy installation » Lycoming engines
- Tough » Tested under the most extreme cond.
- FAA/PMA approved
- 2 Year Unlimited Hours Warranty

Hartzell Engine Technologies E-Drive starters, for Lycoming engines, have the Toughest Duty Cycle in the industry exceeding other aircraft starters by 40%. Ready to Fly, for weekend flyers or hard starting flight schools. There is no longer a need to replace overloaded devices (shear pins) after a Kick-back event. The E-Drive starter is unaffected by Kick-backs saving hours of service time & replacement cost$. Using absolutely no automotive aftermarket parts, the engine & starter are both protected by a proprietary torque limiting clutch drive design. ***- NO CORE CHARGE***

- High Performance Armature
- Increased commutator bar length
- Thin laminations
- High quality magnetic alloy
- 12 & 24 volt winding configuration
- Redesigned Brush Holder
- Metal construction for heat sinking
- Offset brush position for increased brush contact area
- Robust spring design
- High performance field housing
- Rare earth neodymium magnets
- Small package
- Stronger flux field
- Improved temperature stability
- 9.5 lbs.

- Starter system designed for maximum performance.
- Drive assembly integrates proprietary pinion gear, clutch, torque limiter, and actuator in one complete module.
- Available for coarse and fine pitch ring gears, clock-wise and counter-clock-wise rotation.
- No periodic service or recurring maintenance required.
- 9.5 lbs.

HARTZELL ENGINE TECH. STARTERS

HARTZELL ENGINE TECHNOLOGIES M-DRIVE STARTERS

- Upgrade your Continental Engine with a M-Drive Starter.
- Safely Disengages from the starter adapter
- Protects All Continental Adapters
- No Back-Torque » Drive shaft spins free
- Lightweight » Only 7.5 lbs.
- Internal Solenoid
- Performance » Powerful permanent magnet
- Easy installation » Continental engines
- Tough » Tested under the most extreme cond.
- FAA/PMA approved
- Designed for Aviation » Not modified for aviation
- 2 Year Unlimited Hours Warranty

The new M-Drive starter has more cranking power than any current lightweight competitor & the perfect replacement for your old heavyweight or Iskra starter. Designed specifically for Large-bore Continental (formerly TCM) engines the M-Drive starter's electromechanical solenoid completely disengages from your aircraft's starter adapter, immediately releasing the wrap spring, so the starter adapter is protected from wear damage.
Recommended protection for ALL starter adapters (classic, Permold, Sand cast, etc.), the new M-Drive isthe lightest aircraft starter that truly protects your Continental (formerly TCM) starter adapter with a unique internal solenoid. To protect your starter adapter you need a starter that fully disengages after the engine has started. Not fully disengaging will lead to premature failure of the starter adapter from excessive wear of the shaft & wrap spring.
The M-Drive completely disengages the starter from the starter adapter, safely allowing the drive shaft to spin free. No other gear-reduction starter has this in-line engagement advantage resulting in more engine starts for your aircraft! Weighing only 7.5 lbs, FAA/PMA approved, & boasting a powerful 2.8kw high torque motor, the new M-Drive can start even the hardest cranking large bore TCM engines while reliably protecting the starter adapter.

KELLY AEROSPACE DUAL ALTERNATOR KIT

The kit includes a duplicate 95 amp alternator to the original equipment, along with all the pulleys, belts, brackets and hardware for installation on the Lycoming IO-540 series engines. All system controls are panel mounted and the backup system is activated with a flip of a switch. STC Approved for Cessna 182, 182T, 182S. Installation during your next major maintenance event or annual should only add a few hours, company officials note, adding the system operates independently of the aircraft MCU, providing total electrical system redundancy.

SKY-TEC STARTERS

SKY-TEC ST2 & KCST2 MODEL STARTERS FOR SMALL CONTINENTAL ENGINES

SKY-TEC C12ST2 - FOR FACTORY KEYSTART STARTER FOR A65-12 THROUGH O-300C ENGINES - 9.2 lbs., Bolt-off / Bolt-on, High Torque, Low-Current, Gasket Included, Replaces TCM starter & continuous running sprag clutch in TCM factory keystart engines. Now featuring internal, self-resetting Kickback Protection System - zero maintenance - no pin to shear.

SKY-TEC KCST2 - STC-CERTIFIED CONVERSION KIT FOR FACTORY PULL-START ENGINES - STC Modification of Engine Required (removal of OEM starter pinion shaft in rear of engine). STC Modification of Airframe Required (replacement of pull-start T-handle with Sky-Tec-supplied push button & wiring) High Torque, Low-Current, 9.2 lbs. Now featuring internal, self-resetting Kickback Protection System - zero maintenance - no pin to shear.

Complete Conversion Kit includes: C12ST2/S Starter, Push Button Switch, Wiring Harness, Gasket, Instructions, STC for Airframe Modification, STC for Engine Modification

SKY-TEC KEY-START C12ST2/SR - REVERSE TURNING for Continental GO-300 Engines ONLY - Internal, self-resetting Kickback Protection System - zero maintenance - no pin to shear. 6-8 lbs. lighter and significantly more reliable than the original, heavyweight factory starter.

Also sold in a Kit (KCST2/SR) that includes the C12ST2/SR reverse-turning starter, STC to modify the engine to install the starter, STC to modify eligible aircraft to replace the pull-type starter handle with the included push-to-start button, new gasket, push button wiring harness, instructions and "PUSH TO START" placard. EP

SKY-TEC ST3 MODEL STARTERS FOR LARGE CONTINENTAL ENGINES

Safe for all types of TCM starter adapters! Feature Sky-Tec's exclusive proprietary clutch design virtually eliminating starterinduced TCM starter adapter wear. FAAPMA certified replacement part approved for all TCM starter adapters including "classic Style", "improved style", "permold", and "sand cast" engines. Simple bolt-off / bolt-on installation. Designed to crank no slower than TCM heavyweight OEM starters. Generous 2-Year factory warranty.

Model C12ST3 12 Volt..... P/N 07-00766.....**$498.00**
Model C24ST3 24 Volt..... P/N 07-00767.....**$527.00**

SKY-TEC ST5 SERIES STARTERS

The ST5 starter couples a high power 2.2 kW motor with an innovative solenoid-engaged (and disengaged) drive system completely disengages the powerful permanent magnet motor while the starter is unpowered eliminating possible TCM starter adapter wear while providing authoritative, high-torque starting. Positive solenoid enabled engagement and disengagement allows the TCM starter adapter to fully unwrap under all normal operating conditions thus greatly prolonging starter adapter life.

C12ST5 .....P/N 07-01341 .....**$512.00**
C24ST5 .....P/N 07-01342 .....**$556.00**

SKY-TEC BCE-6 EXTENSION CABLE KIT

6" Battery Cable Extension kit aids the installatin of starters in aircraft that have limited slack available in the aircraft's starter power cable. Generally not required for TCM starter installations. May be needed in some PM, and NL model Lycoming installations. P/N 07-00923 ..... **$12.50**

SKY-TEC STARTER 122-LSA

The lightest Lycoming starter ever at just 6.3 lbs. The 122-LSA is Lycoming's factory OEM starter on the new O-233 LSA engine. An excellent 12V starter for O-235, O-290 and O-320 engines with 122-tooth ring gears. Plenty of torque, high cranking speed, low current draw. Features a precision machined housing specifically designed to mount the lightweight Plane-Power AL12-EI60 alternator - enabling the industry's lightest weight starter/alternator pairing at just 13.2 lbs. for both! Perfect for lightweight, Lycoming-powered LSA aircraft. Experimental.

Starter 122-LSA.....P/N 07-01806 .....**$454.00**
122-LSA Starter & AL12-E160-L Alternator Kit
P/N 07-01806-1 .....**$898.00**

SKY-TEC STARTERS HIGH-TORQUE INLINE STARTERS FOR LYCOMING ENGINES

Featuring Sky-Tec's Exclusive KPS® Kickback Protection System, Sky-Tec's NL-series of starters fit all Lycoming powered aircraft. Also available in Extended Cranking 24V SuperDuty versions /ec models (see table below). Unmatched duty cycle capabilities and durability on even the hardest starting 12V or 24V aircraft. Now available as factory original equipment on nearly all new Lycoming-powered airplanes. No other starter is manufactured to more exacting standards for quality, reliability and workmanship than Sky-Tec Lycoming starters. All NL-series starters are FAA-PMA certified as replacement parts for all non-geared, flat Lycoming engines. Sky-Tec NL-series starters fit without modification or 337 paperwork. At only 9.4 lbs., the NL-series is the lightest Bendix-free inline available. Generous two-year warranty.

LAMAR STARTERS

LAMAR STARTERS (NEW)

Lamar Permanent Magnet Starters represent the next generation in starter technology, setting new standards in performance and reliability. These new lightweight starters deliver exceptional torque to start virtually any general aviation piston engine in nearly any environment, yet weigh about 40 percent less than conventional starters. The key is Presicion's patented permanent magnet motor design. It replaces the bulky windings of a conventional starter motor with lightweight permanent magnets. This revolutionary design not only eliminates considerable weight, but results in more efficient starter operation and improved performance under all conditions. During extensive performance testing, Lamar starters consistently provided quicker engine starts than conventional starters under a variety of operating conditions. These TBO starters are built to go the distance between engine overhauls. Conventional starters generally don't last. They usually have to be pulled off for repair or replacement at least once during the life of the engine.

PM2403-OHK - Fits all PM2403 starters	07-01273-1	**$196.95**
PM2404-OHK - Fits all PM2404 starters	08-06009-1	**$196.95**

FOR A COMPLETE LISTING OF LAMAR STARTER OVERHAUL KITS & REPLACEMENT PARTS, SEE WWW.AIRCRAFTSPRUCE.COM

LAMAR OVERHAULED STARTERS

In addition to the factory new Lamar starters listed above, Aircraft Spruce also stocks overhauled Lamar starters. The PM1201 starter is ideal for the Lycoming O-320 & O-360 series engines and the PM2401 is applicable to the Lycoming O- 540 series engines.

Like the new Lamar starters, these overhauled starters are FAA/PMA approved, fully bench tested, provide superior cold weather performance, utilize a patented permanent magnet design, use a planetary gear reduction for optimum speed and torque (110 RPM), and draw less amperage than lightweights to help lengthen battery life.

Overhauled PM1201 starter ..... P/N 08-01201 ..... **$334.95**

LAMAR SUPERSWITCH™ SOLID STATE CONTACTOR

The SuperSwitch™ is designed to replace all contactors on the aircraft with a wide variety of applications from master contactor through starter, external power, and alternator contactors. The SuperSwitch reduces weight and increase reliability through solid state technology. Both Bi-directional and Uni-directional functions allow multiple applications. Current limiting is available for special applications requiring "Smart" technology. Experimental only.

Features: • Up to 66% lighter weight • 99% more reliable • 5 to 44 volt operating range • Replaces all mechanical contactors • Solid state technology • No moving parts • Up to 600 amps momentary operation • Up to 100 amps continuous • Negative or positive turn on

Specifications: • Input: Input control current 5 to 44 volts • Output: Operating DC voltage range 0 to 44 volts • Maximum continuous current 100 amps • Maximum surge current (IDM) - .1mS: 1200 • Ambient operating temperature range: -40 C to 85 C • Weight: Uni-directional .3 lbs • Bi-directional .5 lbs • Encapsulation: Potting or conformal coating

LAMAR ELECTRICAL COMPONENTS

LAMAR MC10 MASTER ELECTRICAL CONTROL UNIT

MC10

The Lamar MC10 is a master electrical control unit developed for 14V and 24V single engine experimental aircraft. It is designed to mount on the firewall or fuselage. It houses all the major electrical components except for the battery, starter, and alternator. the MC10 provides a greater degree of protection against moisture, dust and accidental electrical shorts along with the convenience of all the primary electrical components in one location. Features low installation cost, ease of installation and simplified troubleshooting and repair with several new performance & safety features.

PM Starter

XT60

The MC10 embodies the following functions: • Master (battery) (solenoid) control closing the master switch on pilot's panel connects the battery to the primary bus. • 3 aircraft bus outputs, protected via resetable circuit breakers. • Alternator Control; voltage regulation, overvoltage protection, field output overload protection, alternator feeder fault protection • Starter control (solenoid) • Low voltage warning.(L model also includes overvoltage, over-current and reverse-current annunciation) • Battery charge/ discharge ammeter drive (current shunt) • Clock output (always-on) protected with easily accesible external mounted fuse. • Ground power receptacle & control (solenoid) with reverse polarity protection.

LAMAR SOLENOIDS

Aviation grade solenoid for applications in continuous duty, fitting current GA production aircraft as well as legacy aircraft. Replaces both single terminal switched units, as well as the current double terminal switched units in production today. All units have multiple quality and functional tests prior to certification and delivery.
Features: Replaces most contactors in general aviation. Available in 12 or 24 Volt. Available in Continuous or Intermittent. All units inspected and tested to performance standards

Description	Part Number	Price
X61-0028 12V Continuous	07-01875	**$49.95**
X61-0029 24V Continuous	07-01876	**$49.50**
X61-0030 12V Intermittent	07-01877	**$81.85**
X61-0031 24V Intermittent	07-01878	**$81.85**

INTAKE HOSES

Lycoming 1-3/4" Intake Hose 69603 ..... **$7.50**
Cont. #22800 OUTER & Cont. #21185 INNER Hose (8 sets required for A-65 thru 0-300) P/N 08-03700 .. **$6.60**
Cont. #22800 OUTER Intake Hose 22800 ..... **$4.95**
Cont. #21185 INNER Intake Hose 21185 ..... **$1.62**

INTAKE GASKETS

Cont. #21327 (4) for A-65 only. **$1.27 ea**
Cont. #22250 (4) for C-85 — 0-300 .... **$1.56 ea**

EXHAUST GASKETS

Cont.. #21493 (08-05237) for A-65 thru 0-300 **$1.25 ea**
Cont. #632837 Stainless Steel ..... **$2.40 ea**
#77611 for 0-320 - not for H series..... **$7.70 ea**

EXHAUST NUTS

Cont. #22022 (5/16-24) for A-65 thru 0-300 (8) ..... **$1.23 ea**
Cont. #MS20500-428 (1/4-28) for 0-470 (12) ..... **$2.45 ea**
Lyc. #STD1410 (5/16-18) .. **$2.30 ea**

ROCKER BOX GASKETS

Cont. #530162 for A-65 thru 0-300 (4 required)..... **$5.90 ea**
Lyc. #75906 for 0-235 thru 0-320 (4 req) .... **$2.65 ea**

ROCKER BOX COVER SCREWS

Cont. #535091 (24) **$0.66 Ea**
Lyc. #STD1925 (24)**$1.28 Ea**

CYLINDER BASE SEALS

Cont. #21477 for A-65 thru 0-200 (4)..... **$0.79 Ea**

MAGNETO FLANGE GASKET

Cont. ..... **$7.30 Ea**
Lycoming #62224 ..... **$2.15 Ea**

TACH OIL SEAL

Cont. #642714 (was #640087) for A-65 thru 0-300..... **$8.85**
Lyc. #LW14260 for 0-235, 0-290.. **$6.25**

OIL PRESSURE HOUSING GASKETS

Lyc. #61173 for 0-235, 0-290 (1) (2 with oil cooler) ..... **$1.88 Ea**

CARBURETOR GASKETS

For A-65 thru 0-200 Cont. #21051 (Top)..... **$2.55 Ea**
Cont. #21323 (Bottom)**$1.88 Ea**

GENERATOR DRIVE BELT

Lyc. #60886 for 0-235, 0-290 ..... **$66.85**

"O" SERIES LYCOMING VALVE COVER GASKETS

These homebuilder's Lycoming valve cover gaskets replace the original cork gaskets which come standard on Lycoming 0-235, 0-320 and 0-360 engines. NOT FAA approved. For experimental aircraft only.
P/N 08-01187..... **$3.95**

ANGLED VALVE "IO" SERIES LYCOMING VALVE COVER GASKETS

These gaskets are for the fuel injected "IO" series, sometimes referred to as the Angle Valve cylinder Lycoming They are not FAA approved and are not manufactured under a PMA. These are used on Angled valve Lycoming engines IO-360, IO-540, IO-720. P/N 08-05882.. **$5.85**

MAGNETO DRIVE GEAR

Used on Bendix S4LN-21 and S4RN-21 magnetos. Not to be used on a C-90-8 engine. FAA PMA'd #36066 ..... **$657.00**

PUSH ROD SEALS

Continental #539840 for A-65 thru 0-200 (8)..... **$1.57 Ea.**

OIL SUMP GASKET & PLUG

Cont. #3577 Gasket **$1.28**
Cont. #532432 Plug..... **$14.60**

CRANKSHAFT OIL SEALS

Cont. #530019 for A-65 thru 0-200, Flanged Shaft..... **$39.75**

Cont. #24321 for A-65 and C-85, Taper Shaft **$59.70**
Lyc. #76940 for 0-235, 0-290..... **$27.60**

AN900 COPPER GASKETS

Cont. Engine Applications, A-65 thru 0-200 (1) each:
-10: Oil sump drain plug thermometer hole in oil screen, suction tube ass'y ..... **$0.44 Ea**
-14: Oil relief valve..... **$0.58 Ea**
-22: Tach drive housing ..... **$1.98 Ea**
-28: Oil pressure screen..... **$0.56 Ea**

AERO-SEAL HOSE CLAMPS

Aero-Seal Clamps for Cont. Intake Hoses.
P/N QS100-M32W..... **$1.95 Ea**

PROP GOVERNOR GASKET

P/N 07-00878..... **$15.85**

RING HOSE CLAMPS

Cont. #536388 (16) Required **$2.25 Ea**

ENGINE MOUNT BUSHINGS

Cont. #22387 for A-65, C-85, C-90 except C-90-14F (8) Req'd **$2.30 Ea**

Lyc. #60883 for 0-235 and 0-290, 7/8" hole (8)Req'd..... **$18.50 Ea**
Lyc. #71032 for 0-320 with 1" hole (8) Req'd **$9.75 Ea.**

ENGINE MOUNT WASHERS

Cont. #21530 for A-65, C-85, C-90 except C-90-14F (8) Req'd ..... **$11.75 Ea**

Lyc #STD619 for 0-235 thru 0-320 (8) Req'd..... **$8.90 Ea.**

LYCOMING PARTS TO CONVERT 0-235 WITH SPIN ON OIL FILTER TO OIL SCREEN

Oil Pressure Screen Housing P/N 68974 ..... **$536.00**
Oil ScreenP/N 62817..... **$99.65**
Oil Screen Housing Gasket P/N 61173 ..... **$1.88**
FOR OIL COOLER INSTALLATION ADD:
SpringP/N 69436 ..... **$49.85**
PlungerP/N 62415 ..... **$34.75**
GasketP/N AN900-10 ..... **$0.44**

Cont. Oil Screen .....P/N 08-01544 ..... **$222.95**

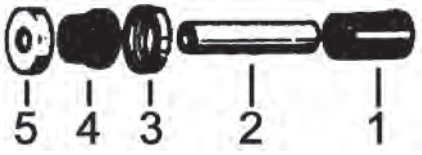
OIL COOLER PARTS SHOWN ABOVE NOT USED WITH THERMAL VALVE ASS'Y

GENERATOR ATTACHING PARTS FOR CONT. C85, C90 & 0-200

Ref.	P/N	Item	Price
#2	352068	Oil Seal	$8.75
#3	530406	653983 Hub Coupling	$275.95
#4	07-01328	Attaching 653982 Retainer	$24.75
#5	626543	Bushing*	$13.50 ea
#6	530407	Sleeve	$95.75
#7	531325	Gear	$432.95
#8	530412	Slotted Nut	$33.00
#9	352179	Starter Gaslet	$6.95
#10	35019	Generator Gasket	$7.65

*Note: 626543 is sold as a pair. If only one bushing is needed, order PN 08-06218 ..... **$6.75**

ENGINE MOUNTING PARTS FOR CONT. C-90-14F & O-200 ONLY



Ref.	P/N	Item	Qty.	Price Each
#1	628555-16	Hose	(4)	$8.85
#2	530627	Spacer	(4)	$27.50
#3	530626	Seat	(8)	$18.75
#4	530740	Bushing	(8)	$15.50
#5	530741	Washer	(8)	$7.50
	AN6-55	Bolt	(4)	$10.75
	AN310-6	Nut	(4)	$0.97
	MS24665-283	Pin	(4)	$0.03

ALTERNATOR & GENERATOR BELTS

Lycoming ..... 37A19773-376 (Alt.)..... **$66.50**

CHALLENGER AIR FILTERS

CHALLENGER AVIATION HIGH-FLOW AIR FILTER W/ K&N FILTER MEDIA

Features & Benefits of Prime air filters: • 40% - 50% better airflow • Can be washed and serviced up to 25 times • Increase horse power 2%-4% •Save money and improve engine efficiency • FAA-PMA approved • Properly serviced, can be used to TBO of an engine • Ecologically sound • Better takeoff and climb-out performance • Fire retardant • Faster airspeed and/or better fuel consumption • Have been used on high performance vehicles for 40yrs • Accordion fold design provides up to 5 times the filtering surface of non-pleated designs. **PART NUMBERS WITH A -1 INCLUDE GREASE.**

CHALLENGER RE-CHARGING KIT

Challenger's recharger kit includes non-aerosol bottles of air filter cleaner and air filter oil for recharging air filters. Restores airflow efficiency. P/N 08-05884 ..... **$14.95**

If you do not see your application here, or for more CHALLENGER AIR FILTER ACCESSORIES, please call or VISIT OUR WEBSITE AT WWW.AIRCRAFTSPRUCE.COM

BRACKETT AIR FILTERS

The specially treated polyurethane element in the Brackett filter assures near total protection from any foreign material entering the system. Repels water, fire retardant and has good air flow for proper fuel/air ratio. Has no pleats to collect dirt. Low-cost maintenance with increased engine life. FAA approved. Replace original air filter unit with a Brackett assembly. Thereafter, throw away element and replace with new one at minimal cost.

DONALDSON AIR FILTERS

Donaldson has been the OEM source for Cessna, Piper, Beechcraft, and Maule & Mooney since the 1960's. They currently supply Cessna all of their SE Piston aircraft filters, Beech Bonanza & Baron filters, Mooney & Maul with their filters. For Piper they currently supply all of their Turbo charge aircraft with filters. Aircraft Spruce is a factory authorized distributor for Donaldson filters.

FEATURES: • High Performance Engine Intake Filters • Synthetic media: offers improved air flow and better dust capturing efficiency • Engineered to last 500 Flight Hours • Washable filter element, use compressed air/warm soapy water • Clean installation: dry media, no sticky/messy oil to trap dirt • OEM choice for GA aircraft for over 30 years • Meets All Flammability requirements per FAR 23.853 • Solid Construction with no removable parts-no loose screens, elements or screws • Exceptional wet weather performance, no oil to wash away in wet weather • Moisture passes thru the filter, doesn't build up an oiled surfaces (no oil present) • All filters starting with "P" feature our Premium Synthetic filter media • No Airworthiness Directives against Synthetic media filters • Cost efficient over the life of the filter, 3 years, 500 FH 5 cleanings

Only filters with * after part number have cellulous media

PLEATED PAPER AIR FILTERS

These pleated paper aircraft induction air filters are manufactured in South Africa and are fully approved by the South African Dept. of Transport, Division of Civil Aviation. Strict quality control standards are enforced at all stages of manufacture. The filters feature aluminum frames and cured EA131 pleated elements with 96% micron rating. Rubber gaskets are waterproof, oil solvent, and chemical resistant. Mesh overlays are of stainless steel for enhanced strength, durability, and appearance. Not FAA approved at this time.

MOONEY AIR FILTERS

Item	Our P/N	Mooney Equivalent P/N	Aircraft Type	Price

FOR NEW INSTALLATION - P/N 24306 & P/N 24308 ARE REQUIRED

K&N AIR FILTERS

Our K&N Filters are the industry standard in excellence. All filters are constructed with ultra-strong molded pliable rubber flanges which absorb vibration and provide secure attachment. These flanges can be stretched up to 1/8" (3mm) to fit in-between sizes. K&N Universal air filters are available in round, tapered, and oval designs, to fit just about any application. Use the dimensioned sketch and the selection chart to find the filter best suited to your application.

K&N AIR FILTERS

Rubber end cap instead of chrome makes this filter less likely to create damage in the event of a prop strike. Also includes rubber boss for safety wire attachment.
K&N Air Filter # SP2704 ..... P/N 08-06098 .. **$24.85**
K&N Air Filter # SP2706 ..... P/N 08-06099 .. **$54.75**
K&N Air Filter # RC-2314 ..... P/N 08-07291 **$142.95**

See website for engine applications.

K&N AIR FILTER CLEANER & DEGREASER

This is the only cleaner formulated to clean K&N Filtercharger elements. The use of any other cleaning solution will void the filter's warranty, and quite possibly could damage the cotton material. K&N Cleaner works to dissolve the dirt build-up and old filter oil, and can be washed away with water. It is biodegradable and safe on paint, chrome, cast aluminum, plastic, rubber, and vinyl when used as directed. Complete instructions on the bottle.

NOTE: Do not use on polished or anodized aluminum.
12-fluid oz. squirt bottle ..... P/N F99-0606 ..... **$8.50**

VARI-EZE / LONG EZ AIR INTAKE FILTER

NAPA #2904 air intake filter (equivalent to Purolator #AFP-177 & AC #44-8C)
P/N 2904..... **$13.85**

K&N FILTER CHARGER OIL

K&N Air Filter Oil is the only oil specially formulated to work in combination with the cotton fabric in K&N Filtercharger elements, providing a superior air filtration system. When used as directed, it quickly penetrates the filter pleats, where it remains suspended in the cotton fabric. Saturation is maintained until the element is cleaned with K&N Air Filter Cleaner.

6.5 oz. aerosol can - red ..... P/N F99-0504 ..... **$5.95**
8 oz. squeeze bottle - red..... P/N F99-0533 ..... **$5.85**

K&N POWER KLEEN

K&N Air Filter Cleaner is the only cleaner recommended to clean K&N Air Filter elements. K&N Air Filter Cleaner works to dissolve dirt build up and old filter oil and can be washed away with water. It is environmentally friendly and safe on paint, chrome, cast aluminum, plastic, rubber and vinyl when used as directed (do not use on polished or anodized aluminum). Complete instructions on bottle.
12 oz. Spray ..... P/N 05-01944 ..... **$8.50**
1 Gallon Refill..... P/N 15-05451 ..... **$26.50**
5 Gallon Pail..... P/N 08-07461 ..... **$81.40**

K&N AIR FILTER SEALING GREASE

K&N Sealing Grease provides an airtight fit around sealing surfaces on all types of air filter elements. It resists heat and will not melt or run off. K&N sealing grease is not to be used on clamp-on filter elements. 6 oz. Squeeze Tube. 8 oz. squeeze tube - black .....P/N 08-01093 .. **$8.65**

K&N RECHARGER KIT

K&N Recharger® kits contain K&N air filter cleaner and air filter oil for recharging any K&N Filtercharger® Air Filter. Restores air flow efficiency so your K&N air filter performs like new!
P/N 08-00722 ..... **$11.75**

RAJAY AND GARRETT TURBOCHARGERS, PRESSURE RELIEF VALVES, WASTEGATES, AND CONTROLLERS BY HARTZELL

Constantly expanding product lines to meet the ever changing needs of the aviation industry, Hartzell is the OEM of RAJAY and Garrett turbochargers, pressure relief valves, wastegates, and controllers. We're your best source for both factory new and rebuilt turbocharging systems for all the general aviation aircraft flying today.

- Turbochargers, Valves & Controls
- Factory New, OEM Approved.
- Rebuilt to Factory New Tolerances.
- Performance Alloys That Resist Cracking.
- One Year Unlimited Hours Warranty.

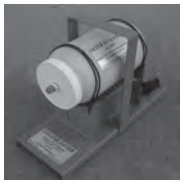
TOPCAP ENGINE PROTECTOR

Install TopCap in place of a removed cylinder to protect th engine from dirt, debris, and stray parts. Made from fuel and solvent resistant polymer, TopCap allows for full crankshaft rotation. One size fits Lycoming wide deck 320, 360, 540, 720 and Continental 470, 520, and 550.

P/N 08-00373..... **$23.75 /pr.**

ENGINE SAVER



Every aircraft owner knows that his engine is subject to moisture build up and internal rust formation when not flown regularly. Oil companies spend millions developing special additives to minimize rust. Now there is a better way to fight this rust! The Engine saver produces a continuous supply of very low humidity air that is introduced into the engine throught the breather. Low humidity air prevents water formation in the engine. The slight pressure built up keeps the moist outside air from entering, allowing the dry air to flow past the piston rings into the upper cylinder area protecting it as well. The Engine Saver is 110vac powered, requires no installation or FAA approval, and works with all piston engines. Pilots are flying less and the Engine Saver will save them money by reducing maintenance costs.

P/N 08-00724 ..... **$342.95**

AIM-A-SQUIRT

Aim-A-Squirt was developed out of the need to apply lubricants, corrosion inhibitors and solvents in those hard to reach areas with out getting the products all over everything. Aim-A-Squirt has been tested with hundreds of different products which have had no affect on the special plastics the straw is made of. The straw is flexible enough that it will not kink when it is twisted in a small circle.

P/N 09-02325..... **$4.70**

TANIS ENGINE PRESERVATION KITS

Engine Preservation Kit: recommended by engine manufacturers for storage of an engine longer than 90 days. Everything you need for long-term protection of your Lycoming & Continental engine.

JANITROL HEATERS BY HARTZELL

Our Janitrol heaters, rebuilt right at the factory by Janitrol Heater Products, a division of Hartzell feature new CermaKote combustion tubes and a more efficient, lightweight permanent magnet blower motor. These heaters are rebuilt to factory new tolerances and upgraded to the latest model configuration with a new serial number. These heaters are not affected by FAA AD Note 96-20-07. Three year, 1000 hour limited warranty, 1500 hour TBO.

JANITROL HEATER CERMAKOTE COMBUSTION TUBES BY HARTZELL

Janitrol Heater Products, division of Hartzell produces extended life "CermaKote" combustion tubes for individual sale. The "CermaKote" combustion tubes incorporate a special process to coat the areas susceptible to flame erosion. The FAA/TSO approved OEM combustion tube is engineered to provide years of safe operation through improved materials designed to better withstand the high temperatures and corrosive environment inside your heater. This product improvement will greatly decrease your routine heater maintenance cost and give you the added assurance that your heater is being maintained with the highest quality parts on the market today!

TEMPEST AA1000 ENGINE PRESERVATION SYSTEM

Protect Your Engine With the Tempest EPS.

All engines accumulate moisture when they are not run everyday. Moisture will oxidize and create rust in the engine causing potential damage as well as faulty oil analysis. AA1000 EPS pumps dry air into the engine oil filler cap and removes the moisture already in the engine. Continuous operation will prevent any additional moisture from accumulating. Removal of the moisture preserves and protects your engine.

LINKITE AVBLEND LUBRICANT

An oil supplement for all piston engine-powered aircraft owners and operators worldwide. AvBlend produces a wetting action that allows lubrication to penetrate the pores of an engine's metal surfaces. Providing critical lubrication at start-up, AvBlend helps prevent accumulation of combustion chamber areas. Wear is reduced, engines stay cleaner and combustion chambers stay properly sealed. Proper cylinder sealing is essential for achieving optimum peak pressure and design-level output. FAA approved. 4-cylinder engines require 1 can at each oil change, and 6 cylinder engines require 2 cans.

REAL GASKET PUSHROD TUBE CONVERSION KITS FOR CONTINENTALS

These kits from Real Gasket Tennessee replace problematic pushrod tubes of continental engine models: A-65, A-75, C-75/85/90/125/145, 0-200, 0-300 and GO-300. The installation does not require loosing or removal of the cylinder and converts it to an "independently serviceable" spring loaded pushrod tube system, similar to IO-470, IO-520, and IO-550 continental engines. It also allows access and service to the lifters. The kit is designed for easy installation and uses real gasket's FAA-PMA pushrod tube seals as used in the continental IO-470, IO-520 and IO-550 engines. For certified aircraft engines, form 337 is required.

1-cylinder kit ..... P/N 08-00802 ..... **$78.75**

LOCTITE® HIGH TEMPERATURE GASKET SEALANT

LOCTITE® High Temperature Gasket Sealant is a slow drying viscous paste. It remains pliable and flexible and is designed to seal flanges, threaded connections and fasteners at temperatures from -45° C to +315 °C. It can be effectively applied to cork, paper, plastic and metal surfaces. Typical applications include sealing gaskets, flanges and threaded connections, aircraft heating systems, manifolds, pipe fittings, steam lines, gear boxes and cover plates. ..... P/N 09-28425 ..... **$18.75**

PERMATEX FORM-A-GASKET NO. 1

Seals and repairs a wide range of gaskets. Fills in uneven flanges surfaces. Seals pipe fittings, air ducts, boilers, plumbing connections and threaded assemblies. Dries fast, sets hard for sealing permanent or rigid assemblies. Easy to apply. Improves gasket sealing power, adds reliability to rigid or permanent assemblies. Eliminates delays.

3 oz., Tube, #1B ..... P/N 09-28415 ..... **$5.50**
11 oz, Tube, #1C .... P/N 09-28430 ..... **$11.75**

PERMATEX FORM-A-GASKET NO. 2

A non-hardening, heavy-bodied, pliable sealant for semi-permanent assemblies. Use on threaded assemblies, over plates and hose connections, metal-to-metal applications. Temperature range -65° to 400° F., pressures up to 5000 PSI. Apply with putty knife or stiff bristle brush. Conforms to MIL-S-45180B Type II.

3 Oz. Tube #2B ..... P/N 09-28420 ..... **$4.90**
11Oz. Tube #2C ..... P/N 09-28400 ..... **$12.25**

AVIATION FORM-A-GASKET NO. 3

A non-hardening sealant. Recommended for heating hose connections, close fitting metal parts and threaded connections. Resists water, gasoline, acids and alkalies. Temperature range -65° to 400°F., pressures to 5000 PSI. Conforms to MIL-S-45180B, Type III.

4 Oz. Can #3H ..... P/N 09-28500 ..... **$8.75**
1 Pint Can #3D ..... P/N 09-28600 ..... **$13.50**

GUNK SUPER CONCENTRATE DEGREASER

A concentrated self-emulsifying degreasing solvent for engine and parts. Dilute one part concentrate with nine parts of kerosine or light Diesel fuel oil for very effective cleaning. Spray or brush on. Does not harm electrical system, strip paint or cause rust. Water rinse.

SC-2A, Qt. (2 Lbs.) ..... P/N 09-29400 ..... **$7.95**
SC-3, Gal. (8 Lbs.) ..... P/N 09-29500 ..... **$28.75**
SC-5, 5 Gal. Pail (41Lbs.) ..... P/N 09-29600 ... **$141.95**

GUNK "ENGINE BRITE" ENGINE CLEANER

Ready-to-use engine cleaner in convenient aerosol or squirt can. EB-1, 16 Oz. Aerosol ..... P/N 09-29700 ..... **$4.70**

GUNK HYDRO-SEAL

Two-layer room temperature carbon digester and paint stripper. No flash point. Safe on all metals. Simply soak and pressure rinse or solvent rinse. 5 gal. pail contains parts soaking basket.

HS-3, 1 Gal. Can (11 Lbs.) ..... P/N 09-29900 ..... **$31.75**

HS-5K, 5 Gal. Pail w/ parts basket (Wt. 56 lbs., truck shipment req'd) ..... P/N 09-30000 ... **$169.95**

Factory-direct shipment on 50 gal. drums of Gunk and Hydro-seal. F.O.B. Charlotte, N.C.

TITESEAL

Prevents corrosion and seizing of metal parts. Assures leakproof, pressure tight connections. Unaffected by water, oil, gasoline.

Light Wt., #T20-66, 1 Lb. Can ..... P/N T20-66 ... **$17.75**
Medium Wt., #T25-66, 1 Lb. Can ..... P/N T25-66 ... **$11.50**

POB #4 PERFECT SEAL SEALANT

• Used worldwide in the automotive, aircraft and marine industries • Liquid sealant designed to meet rigid requirements of OEM specifications. • Non-hardening and resists extreme temperatures. • Seals all gaskets and threaded connections. • Prevents corrosion of bolts, studs and fitting threads. • Resistant to gasoline, oils, steam, salt-water, antifreeze and propane. • Withstands temperatures from -50 F to 400 F.

4oz. ..... P/N 08-07218 ..... **$7.75**
16oz. ..... P/N 08-07217 ..... **$12.65**

MARVEL MYSTERY OIL

Standard for break-in on new or overhauled engines and for carbon removal from cylinder heads, piston rings, valves, etc. Mix with regular oil for perfect engine operation to -20°F. Lubricates tight nuts, control hinges and landing gear. Dust repellent.

4 oz. ..... P/N 09-27515 ..... **$3.95**

ENGINE PREHEATERS

RED DRAGON ENGINE PREHEATERS

Model	Description	Part No.	Price
MH300	For quick engine starts in cold weather. Propane heated air is blown directly into engine compartment by a 12V fan (can be used to heat cabin, thaw ice or warm hanger).12V comes from either plane or car battery with no appreciable electrical drain. Easy-to-operate electric igniter allows you to ignite heater with a push of a button. Entire unit weighs only 14 lbs. 100% safety control stops fuel flow should flame go out. Complete with 5ft. of pressure propane hose, excess flow valve, regulator, safety control and 10ft. power cord with alligator clips to attach to battery. All UL approved. Now includes high limit safety control package - provides total protection from over-heat situations and will effectively shut down fuel upon an over-heat situation. Use standard propane bottles.	08-04300	**$317.00**
MH310	This model is the same as MH-300 except it uses 115 VAC to power the fan. Wt: 17lbs.	08-04305	**$348.00**
H175	This Red Dragon preheater is a cart style self contained preheater. Includes preheater, cart, battery box, fuel cylinder, and elbow. Excellent for FBO's. Wt: 58lbs.	08-04315	**$456.00**
	RED DRAGON ACCESSORIES		
--	***Heat Ducting -*** 12' long x 4" diameter; Heavy-Duty Flexible Ducting.	08-04310	**$86.50**
--	6'Lx4" Dia. Heavy-Duty Flexible Ducting.	08-04325	**$49.75**
--	Carrying Case - Strong Plastic Case with lock, for model MH300. (20.25"x 9.5"x 9.5")	08-04320	**$46.90**
--	12V Cigarette Lighter Adapter Plug	08-04330	**$16.95**
--	Propane Quick Disconnect set - For Rapid Connect & Disconnect of Fuel Line from Propane Bottle w/o Tools (even under pressure)	08-04340	**$22.00**
--	Propane Bottle - Std. Refillable Bottle (5 Gal. Cap. or 20 Lbs.) Supplies Min. 2 Hours of Heating. (Empty)	08-04351	**$55.00**
--	Soft Carring Case - This soft carring case is for 115V preheaters only.	08-01218	**$21.95**
--	Red Dragon Disposable Cylinder Adapter - Has a shut off valve and is disposable usually for 1 preheat.	08-01295	**$26.85**

E-Z HEAT AIRCRAFT ENGINE PREHEATERS

Preheating engines for winter operations is at best a miserable chore and at worst can be a disaster for the plane, the pilot & flight operations - until the development of the E-Z Heat Aircraft Engine Heater. The E-Z Heat was designed to provide very efficient engine heating for virtually all propeller driven aircraft. The heaters consist of a flexible synthetic pad that easily conforms to the contours of the oil pan. This pad will heat 12 qts of oil from -40° to +60°F in an hour while using approximately 300 watts of electricity. The heater is 1/32" thick. which enables the immediate heat transfer from heater to engine.
The heaters are thermostatically controlled, so leaving them plugged in overnight means the plane will be ready to go in the morning. Normally, complete pre-heating takes only 3-5 hours for the entire engine to be nice and warm. With this new lighted plug, the owner simply needs to look out the window or peek in the hangar to see if they remembered to plug in their E-Z Heat engine pre-heater. Molded into the male plug end is a newly designed light emitting diode (LED). This LED allows the operator to visually recognize if there is electrical power to the preheat system even from a distance. FAA approved for certificated aircraft.
End your cold weather starting problems and reduce premature engine wear with the installation of our proven
Specifications:
Power Consumption: 300 watts or less / Thermostatically Controlled
Power Requirement: 110/120 volts (models 441 and 540 are available in 220 volts).
Installation: The adhesive is already on the pad. All you need to do is peel and stick it on! (excluding model 470)
Preheat Time: 3 to 5 hours on cold soaked engine, although, since unit is thermostatically controlled, it may be left on overnight, or all the time. Cowl covers and prop covers are recommended for extreme cold weather, they also reduce preheat time.
Lite Brite Plug: With this new lighted plug, the owner simply has to look out the window or peek in the hangar to see if they remembered to plug in their E-Z Heat engine pre-heater! (excluding model 470)
Weight: Only 9 ounces!
Heat Transfer: Convection/conduction, the safest way of heat transfer available. No flames or glowing elements are potential fire hazards.

E-Z HEAT 912 ENGINE PREHEATER

The E-Z Heat Engine Preheater system fits the Rotax motors and many other light sport aircraft on the market today. The system consists of two heater pads connected with a common "Light Bright" power cord. Installation is easy by peeling and sticking a pad on both the sump and on the oil tank to assure the engine gets the proper amount of heat. P/N 07-01860 .....**$149.95**

EP

ENGINE PREHEATERS

DESIGN LOGIC ENGINE PREHEATERS

08-04425

Constructed of solid aluminum, known for their dependability, performance, and overall value. An improved design saves time and money by allowing easy transfer to other engines or reinstallation after overhaul. Ea. 08-04425 kit includes 2 adapter plates, 1 flat and 1 curved (curve fits Continental sumps).The applicable adapter plate is simply screwed to the heater plate. This assembly is then adhered to the engine sump with thermally conductive adhesive (included). When necessary to remove the preheater, simply remove 4 screws! Specifications: 330W (08-00425) or 220W (08-00372). Thermostatically controlled 170°–200°F. Thermal fuse to prevent overheating should thermostat fail and heater become dislodged. FAA/PMA approved for over 600 engines. 2-yr, no hassle warranty. Application: Continental (except kidney shaped)5"x4-3/8"x7/8". P/N 08-04430 ..... **$199.95**
Application: Lycoming (except as below), Continental (except kidney shaped), Franklin, Garrett, & Marathon. 2-yr. warranty. Size: 5"x 4-3/8"x 5/8" (7/8" w/curved plate) P/N 08-04425 ..... **$189.95**
Application: Lycoming IOs w/air intake on bottom (IO 360A1A, for example); for engines where a smaller footprint required; typically mounts on side of sump. 2-yr warranty. Size: 5"x 2-7/8"x 5/8"
P/N 08-00372 ..... **$189.95**

Replacement Parts

Replacement Adhesive ..... 08-01054 ..... **$12.50**
Replacement Adhesive Kit (includes Applicator, Tie wraps, and Safety Wire) 08-01055 ..... **$15.90**

KENNON INSULATED ENGINE BLANKETS

Kennon's insulated engine covers are custom made fro the specific year, make and model of aircraft for a a snug fit. Kennon makes it own engine blanket material using a bonded fiberfill that doesn't need to be quilted to stay in place, which can destroy the loft and put thousands of needle holes in the cover where heat can escape. The outer shell is made of red, blue, or black polyester rather than nylon, increasing the useful life of the cover and the inner layer is fluorescent orange which can be used as a signaling device in the event of an emergency. Flaps for oil doors to check or fill the oil and cowling inlet flaps for preheating purposes can be added for $25.00 each. Insulated prop and spinner covers are also available.
2-Seat A/C (sml) . 07-00983..**$395.95** 4-6 seat A/C (reg.).. 07-00984 . **$409.95**
Twin Eng. A/C ... 07-00985..**$769.99** Spinner Cover . 07-00987 ... **$98.95**
Prop Cover ..... 07-00988....**$49.95**

SAFE-HEET ENGINE HEATERS

SAFE-HEET is a thin flexible pad that is bonded to the engine oil sump. The kit is complete with materials and step-by-step instructions. A log book entry is all that is required for permanent installation; No S.T.C. or 337 form required. There are no airframe modifications required. SAFE-HEET can be used with a timer or the 707 temperature controller, and uses standard 110 A.C. voltage. We recommend using the SAFE-HEET 707 Temperature Controller to cure the adhesive for faster installation.
MODEL 700 Dimension: 4" x 4"..... P/N 05-04420 ..... **$158.50**
MODEL 720 Dimension: 4" x 7"..... P/N 05-04421 ..... **$158.50**

VARIABLE TEMPERATURE CONTROLLER - The SAFE-HEET Variable Temperature Controller can be used with any 700 Series SAFE-HEET Engine Pre-heater as an installation aid, or for providing temperature control for continuous pre-heat without promoting internal engine corrosion.

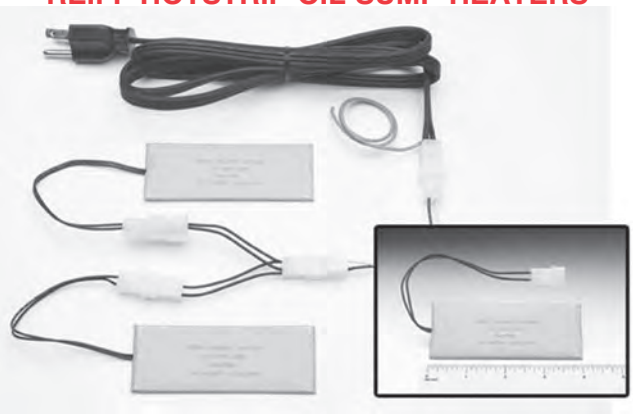
P/N 05-04423 ..... **$67.85**

For application information please call or visit our website at www.aircraftspruce.com

NORTHERN COMPANION PRE-HEATER

Compact: NC5A = 6" x 17.25", NC5B = 6" x 15". Lightweight: 6lbs, 6oz average weight. Multi Fuel: *100LL aviation gas - Leaded or unleaded auto gas - White Gas - Kerosene . Diesel - JP4 and JP8 jet fuel. Approximately 20,000 BTU: Type of fuel and pressure in bottle affect output. Shock-corded legs: Slide the legs away from the clips and they seat themselves in the base. Stainless Steel Burner Chamber. No Battery or Other Electrical Power Required. Fast Setup and Takedown - Even with mittens on!. No Tools Required
6" X 17.25"..... P/N 05-04767 ..... **$594.00**
6" X 15"..... P/N 05-04768 ..... **$594.00**

REIFF HOTSTRIP OIL SUMP HEATERS



HotStrip is thin and lightweight like a silicone pad, but made of steel for maximum durability. Works either as a stand-alone sump heater or integrated with the Hot Band Cylinder Heating Systems. Bonds to the bottom or side of oil sump and electrically heats the oil. Features dual heating elements for redundancy. System includes two 100W elements thermostat, and power cord.

FAA Approved for:
Lycoming 0-235; All 290, 320, 360 series; All 435, 480, 540, 541 series; Continental IO-346; All 300, 600 series; E-165, E-185, E-225, All 470, 520, 550 series. P/N 08-00688 ..... **$189.00**

REIFF PREHEATER FOR ROTAX 912/914

The Reiff preheat system for Rotax 912 and Rotax 914 aircraft engines is an engine-mounted electric preheat system designed for easier cold-weather starts. The preheat system consists of a 100-watt metal "hot strip" element, which is epoxied to the bottom of the crankcase, and a 50-watt band heater that is clamped to the oil tank. The Reiff is FAA-approved, and includes a thermostat to keep the oil from exceeding 150° F.

220..... P/N 08-06219-1 ..... **$268.75**

EP

ENGINE PREHEATERS – CABIN HEATERS

BRUSHLESS CABIN HEATERS

DC Thermals heaters are hand built in the USA with only the very best parts, motors, and wire. The heaters are not constructed of snap together plastic, and cheap internal parts. They are constructed with DC Thermals own heater housings out of vinyl clad aircraft aluminum which is riveted together. DC Thermals heaters are designed to last you a lifetime, not a season. DC Thermal heaters will work in any vehicle with a DC electrical system from 12- 72 volts including cars, trucks, vans, busses, heavy equipment. DC Thermals heaters aren't your average heater. They offer the ultimate in durability and reliability and excel in the harshest possible environments.

The new Brushless SA series line of heaters are based on DC Thermals proven Stealth series, but with a newly designed brushless fan. The brushless cabin heater design has proven to work well with sensitive electronics found in some of todays equipment. The brushless design has proven to have very little EMI noise when tested on a scope.

RuCar vacuum sealed elements are featured in the brushless design as well as DC Thermal's own RuCar vibration dampeners. The Stealth Brushless series has a newly designed fan and motor assembly as well as a complete new mounting system. The Stealth SA is the perfect choice for the person who wants to add reliable INSTANT heat in just a few minutes. No water lines to run, fittings to install or worry about a corroded core down the road, and most importantly INSTANT HEAT, INSTANT DEFROST. No warm up time! These heaters are available from 12-72 volts, and different wattages as well. The Stealth heater is simple to install and can be operational in minutes. Measuring only 6" long and 5" tall, our Stealth heater will fit in virtually any small space. RuCar elements allow the heaters to be mounted vertically OR horizontally which allows even a tighter mounting space.

The Stealth heaters feature RuCar elements which have been tested to have a life expectancy of 10,000 hours, are vacuum sealed, and are exclusive to DC Thermal. RuCar elements operate at temperatures in excess of 650 degrees, are up to 300% more efficient than standard alloy heater elements.
