Velocity Aircraft SE / XL	199-60	40-75B	30-52	RA164-01501	RA66-105

This chart reflects the most common application, it is recommended that you cross check the wheel and brake assembly numbers on your particular aircraft, to the numbers on this guide, before ordering.

Warning! As with all experimental aircraft, it is the sole responsibility of the user to determine, through testing and analysis, that proper safety and performance requirements for the individual aircraft have been met when selecting products from this chart.

Rivets - RA66-105 is the rivet recommended for use with the above linings.
