PRICELESS CLAMP AND LIFT 737C TUG

Designed and built to save time and money for FBOs, Maintenance Shops, Corporate aviation or anyone needing to move aircraft. The 737 Clamp&Lift™ Tug makes it easy for one person to maneuver aircraft quickly and safely in tightly stacked hangars or staging on the ramp. 15500lb Capacity.
P/N 11-15539..... **$11,995.00**

PRICELESS CLAMP AND LIFT 737P TUG

Designed and built to save time and money for FBOs, Maintenance Shops, Corporate aviation or anyone needing to move aircraft. The 737 Clamp&Lift™ Tug makes it easy for one person to maneuver aircraft quickly and safely in tightly stacked hangars or staging on the ramp. 15500lb Capacity.
P/N 11-15540 ..... **$11,995.00**

PRICELESS PAN STYLE LIFT 747C TUG

Gas powered aircraft mover designed to move corporate jets, helicopters and transports for thousands of dollars less than the nearest competitor! The 757 Tug makes it easy for one person to maneuver aircraft quickly and safely in tightly stacked hangars or staging on the ramp. 15500lb Capacity.
P/N 11-15542 ..... **$17,995.00**

PRICELESS PAN STYLE LIFT 747C TUG

Designed and built to save time and money for FBOs, Maintenance Shops, Corporate aviation or anyone needing to move aircraft. The 747B Tug makes it easy for one person to maneuver aircraft quickly and safely in tightly stacked hangars or staging on the ramp. 15500lb Capacity.
P/N 11-15541 ..... **$24,995.00**

PRICELESS PAN STYLE LIFT 757BFBO-NJ TUG EXTENDED

Gas powered aircraft mover designed to move corporate jets, helicopters and transports for thousands of dollars less than the nearest competitor! The 757FBO-NJ Tug makes it easy for one person to maneuver aircraft quickly and safely in tightly stacked hangars or staging on the ramp. 35500lb Capacity.
P/N 11-15544 ..... **$27,395.00**

PRICELESS PAN STYLE LIFT 757BFBO TUG EXTENDED

Gas powered aircraft mover designed to move corporate jets, helicopters and transports for thousands of dollars less than the nearest competitor! The 757BFBO Tug makes it easy for one person to maneuver aircraft quickly and safely in tightly stacked hangars or staging on the ramp. All units have mechanical and electrical tug component warranties. 35500lb Capacity.
P/N 11-15543 ..... **$31,875.00**

AIRTUG® 6-S GAS POWERED

The AIRTUG Model 6-S model is extremely easy to use because of its' unique "Throttle Grip Control" system utilizing a hydrostatic transmission as the heart of the Airtug, a heavy duty variable speed , 6 horsepower gas engine. They guarantee your safety with their "Return to Brake" feature that absolutely prevents any unintentional movement of the plane when the throttle grip is released. There is no metal to metal contact, no gears to shift and no jerky clutching systems to quickly wear out. Finally, its' pinpoint handling makes this unit a great choice. All of these features simply make this aircraft tug the best in the industry! **Features**: • Loading System: Winch Strap/ Strut Strap with Accessory options • Parts Warranty: 1 Year • Tow Weight: Up to 8,100 lbs. • Turning Radius: 360° with handle-mounted Caster • Construction Details **Specifications:** • 11 Gauge Heavy Steel Frame • Hydrostatic Transaxle 16"x 6" - 6 ply on 8" Drive Wheels • Drive wheels capable of handling nosewheel weights up to 2000 lbs. • Welded load platform mounted between the drive wheels for added traction.

P/N 13-07284 .....**$3,595.00**

AIRTUG® 6-H GAS POWERED

The 6-H aircraft tug model is the tug of choice for those who need to lower the tail to enter a hangar, and might also need to handle nose-wheel fairing aircraft. The nose-wheel is loaded the same as the Model 6-H, and then it can be raised by a hydraulic jack up as much as needed to a maximum of roughly 9'', thus lowering the tail by approximately double this amount. Additionally, it is easy to use because of its' unique "Throttle Grip Control" system utilizing a hydrostatic transmission and a 6HP variable speed gasoline engine. They guarantee your safety with their "Return to Brake" feature that absolutely prevents any unintentional movement of the plane when the throttle grip is released. There is no metal to metal contact, no gears to shift and no jerky clutching systems to quickly wear out. Finally, its' pinpoint handling makes this unit a great choice. **Features**: • Loading System: Hydraulic Lift Shoe with Winch Strap/ Strut Strap • Parts Warranty: 1 Year • Type of Starter: Recoil • Engine: Four Stroke 6-HP • Tow Weight: Up to 8,100 lbs. • Turning Radius: 360 degree **Specifications**: • 2 Ton Hydraulic Jack for Lift Shoe • 11 Gauge Heavy Steel Frame • Hydrostatic Transaxle • 16"x 6" - 6 ply on 8" Drive Wheels • Drive Wheels Capable of Handling Nosewheel Weights up to 2000 lbs. • Low Profile unit for avoiding low aircraft hulls and flight controls with low axle and optional 13" Drive Wheels.

P/N 13-07285 .....**$3,795.00**

AIRTUG® 10-S GAS POWERED

Extremely easy to use because of its' unique "Throttle Grip Control" system utilizing a hydrostatic transmission as the heart of the Airtug, a heavy duty variable speed gas engine, with a built in electric starter. They garantee your safety with their "Return to Brake" feature that absolutely prevents any unintentional movement of the plane when the throttle grip is released. There is no metal to metal contact, no gears to shift and no jerky clutching systems to quickly wear out. Finally, its' pinpoint handling makes this unit a great choice. A light is built in for ease of seeing under the fuselage at night. **Features**: • Loading System: Winch Strap/ Strut Strap with Accessory options • Parts Warranty: 1 Year • Engine: Heavy Duty 10hp electric and recoil start • Tow Weight: Up to 16,000 lbs. • Turning Radius: 360° with handle-mounted Caster. Specifications: • 11 Gauge Heavy Steel Frame • Hydrostatic Transaxle • 16"x 6" - 6 ply on 8" Drive Wheels • Drive wheels capable of handling nosewheel weights up to 2000 lbs. • Welded load platform mounted between the drive wheels for added traction.

P/N 13-07288 .....**$4,595.00**

AIRTUG® 10-H GAS POWERED

The 10-H aircraft tug model is the tug of choice for those who need to lower the tail to enter a hangar, and might also need to handle nose-wheel fairing aircraft. The nose-wheel can be raised by a hydraulic jack up as much as needed to a maximum of roughly 9'', thus lowering the tail by approximately double this amount. Additionally, it is easy to use because of its' unique "Throttle Grip Control" system utilizing a hydrostatic transmission, electric starter and a heavy duty variable speed gasoline engine. They guarantee your safety with their "Return to Brake" feature that absolutely prevents any unintentional movement of the plane when the throttle grip is released. There is no metal to metal contact, no gears to shift and no jerky clutching systems to quickly wear out. A light is built in to ease seeing under the fuselage at night. **Features**: • Loading System: Hydraulic Lift Shoe with Winch Strap/ Strut Strap • Parts Warranty: 1 Year • Type of Starter: Electric • Engine: Four Stroke 10-HP or greater, electric or recoil start • Tow Weight: Up to 16,000 lbs. • Turning Radius: 360 Degree **Specifications**: • 2 Ton Hydraulic Jack for Lift Shoe• 11 Gauge Heavy Steel Frame • Hydrostatic Transaxle • 16"x 6" - 6 ply on 8" Drive Wheels • Drive Wheels Capable of Handling Nosewheel Weights up to 2000 lbs. • Low Profile unit for avoiding low aircraft hulls and flight controls with low axle and optional 13" Drive Wheels

P/N 13-07289.....**$4,795.00**

AIRTUG® EL3-S ELECTRIC POWERED

Same great power and moving capacity as the larger gas powered unit, but in a QUIET electric model! Extremely easy to use because of its' unique "Throttle Grip Control" system utilizing a Hydrostatic Transmission, Heavy Duty Electric Motor, powerful Batteries, and built-in Battery Charger. They guarantee your safety with their "Return to Brake" feature that absolutely prevents any unintentional movement of the plane when the throttle grip is released. There is no metal to metal contact, no gears to shift and no jerky clutching systems to quickly wear out. Finally, its' pinpoint handling combining twist grip control with a large, handle-mounted Caster makes this walk-behind Airtug a great choice. A light is also built in for ease of of seeing under the fuselage at night. **Features**: • Loading System: Winch Strap/Strut Strap with Accessories • Parts Warranty: 1 Year • Engine: Heavy Duty 3HP Permanent Magnet Motor • Tow Weight: Up to 16,000 lbs. • Turning Radius: 360 Degree **Specifications**: • 11 Gauge Heavy Steel Frame • Hydrostatic Transaxle • 16"x 6" - 6 ply on 8" Drive Wheels • Drive wheels capable of handling nosewheel weights up to 2000 lbs. • Low Profile unit for lower axle clearances and 13" Drive Tires optionP/N 13-07286.....**$5,395.00**

AIRTUG® EL3-H ELECTRIC POWERED

Same great power and moving capacity as the larger gas powered unit, but in an electric model! The choice for those who need to lower the tail to enter a hangar, and might also need to handle nose-wheel fairing aircraft. The nose-wheel can be raised by a hydraulic jack up to a max. of 9". It is easy to use because of its' unique "Throttle Grip Control" system. They guarantee your safety with their "Return to Brake" feature that absolutely prevents any unintentional movement of the plane when the throttle grip is released. There is no metal to metal contact, no gears to shift and no jerky clutching systems to quickly wear out. A light is also built in for ease of seeing under the fuselage at night. **Features**: • Loading System: Hydraulic Lift Shoe with Winch Strap/ Strut Strap • Parts Warranty: 1 Year • Engine: Heavy duty 3HP Permanant Magnet Motor • Tow Weight: Up to 16,000 lbs. • Turning Radius: 360 Degree. **Specifications**: 2 Ton Hydraulic Jack for Lift Shoe • 11 Gauge Heavy Steel Frame • Hydrostatic Transaxle • 16"x 6" - 6 ply on 8" Drive Wheels • Drive Wheels Capable of Handling Nosewheel Weights up to 2000 lbs.

P/N 13-07287.....**$5,495.00**

AIRTUG NFE-4 ELECTRIC FOR CIRRUS

Moves the CIRRUS Aircraft and other castering nose-wheel aircraft easily and makes moving the aircraft a simple task for a single person!

The BEST TUG for CIRRUS aircraft or any other castering or non-castering nose- fairing aircraft. Simply attach the small towbar by hand to the aircraft and then winch the tow-bar / nose-wheel onto the raised platform for total control by the tug. Much easier to hookup and control the aircraft than a single wheel tug that is not able to lift the nose wheel off the ground. Can move most nose-fairing aircraft including the Diamond and other aircraft weighing less than 4,000 lbs. Easy to Use and Economical with pin point handling allowing the operator to pivot as tight as desired as a result of the transmission Differential. 24 Volt Electric motor so no need to worry about gas going bad

Twist grip for infinite speed control forward and reverse with no gears to shift and no jerky clutching system. Reduces repair cost from accidents that result from moving aircraft while not having good control and good visibility and knowledgeable help. Assembles in minutes. Powder coated Frame & Handle. Dimensions: 85" long x 36" wide x 42" tall. 1 Year Warranty. 30 Day Money Back Guarantee!

BIG SCREW EZ TIE DOWN

Big-Screw EZ Tie-Down is an innovative tie down system combining a lightweight 18" cast aluminum ground screw, and a custom aviation designed attachment strap. The 18-inch long cast aluminum screw provides stronger ground holding in all soil types. The screw penetrates deeply into compacted soils resulting in superior holding strength. This exclusive design provides two to three times the holding strength of spike type angled-in tie-downs. Large 1¾" Wide screw provides 80 Square inches of Ground Contact Area, 40 times more than a spike. The screw can be positioned either directly below or set out from aircraft attachments. Quick easy installation and removal using a 1" ratchet, 1" socket, or a portable impact wrench (not included).....P/N 13-21308...**$159.95**

CHOCKS

ASA WHEEL CHOCKS

These tire stops are for keeping aircraft securely parked. A pair of black molded plastic wheel stops are connected with 22" bright yellow and black braided nylon rope that won't rot or retain water. The bottom cleats keep aircraft securely parked. Lightweight; 7-3/4" x 2-1/2" x 4-1/2"; concave design fits any aircraft tire. One pair is needed for each wheel.

P/N 13-05752 ..... **$33.50**

FOLD DOWN MINI CHOCKS

These mini chocks are so small and light you can take them with you. They work perfectly on both hard and dirt surfaces. Anodized aluminum, each wheel pair folds down to 3.75"x 2"x.5" & weighs just 4 oz. A 18" lanyard is attached.

P/N 5229 ..... **$17.95**

MOLDED WHEEL CHOCKS

The "Perfect" lightweight orange urethane aircraft wheel chocks. Oil and chemical resistant and connected by a 22-inch nylon rope. Concave design that fits into tire. Larger sizes available.

Orange ..... P/N 13-03550 ..... **$31.85**
Yellow ..... P/N 13-11857 ..... **$44.75**

PARK IT PLATES

Park It Plate™ "Standard Series" Plates are made from 100% HDPE and come in a thickness of 1/4". They are designed to be used on solid, flat surfaces found in hangars, garages, showrooms, and are resistant to most chemicals. They protect your investment in your finished floor coatings from stains and permanent tire marks and will greatly reduce the possibility of paint blistering and delamination. Most importantly, they do all this and make your aircraft, look good at the same time!

24x24..... P/N 13-18429 ..... **$53.95**

SAFE T CHOCKS

"Safe T Chock Line" pull rope is a new patented product invented to prevent injuries while chocking wheels on aircraft, GSE, trucks and trailers. The Safe T Chock Line is a high visibility poly braided rope with a vinyl tube sleeve for a handle that will not freeze or cause rope burns. It is also sleeved to slide thru the center hole in the chock blocks. It can easily be modified to fit almost any type of chock block. This type of chock block pull rope is designed to reduce wrist, hand and finger injuries as well as making it safer to chock and un-chock aircraft and vehicles.

Description	Part Number	Price
Safe T Chock Line 12" Set	05-12011	$29.95
Safe T Chock Line 24" Set	05-12012	$34.75
Safe T Chock Line 36" Set	05-12013	$39.95
Safe T Chock Line 48" Set	05-12014	$43.85

CHOCKERS PROTECTIVE WHEEL COVER/CHOCK

Chockers is a protective wheel cover with built in aluminum chocks. The chocks hold the wheel cover in place as well as chocking the aircraft. Chockers will also work with RVs, boat trailers, and any other type of vehicle.

500x5/600x6..... P/N 13-19776 ..... **$62.95**
700x6/800x6..... P/N 13-19777 ..... **$68.95**

CUSTOM WHEEL CHOCKS FOR LARGE JETS

These custom wheel chocks are lightweight aluminum for large corporate jets. These wheel chocks are carefully fabricated, engraved and then covered with durable powder coating available in grey, black, or orange. In addition to being stylish, these wheel chocks are very durable, long lasting and won't corrode. These are offered as a single pair for nosewheel or as two pair (one for each main wheel). Designed for single main wheel aircraft and are 12" long and made of .25" thick aircraft grade aluminum.

LIGHTWEIGHT CUSTOM ALUMINUM WHEEL CHOCKS

Extremely lightweight compared to chocks made out of steel. Very Durable Powdercoat finish that will withstand the elements. Extremely corrosion resistant. The chocks include a front and rear chock, connected with a lightweight cable. Small Wheel Chocks- 1.5" angle and 8" wide. Available in Black Powdercoat, Orange Powdercoat, and Grey Powdercoat....Weight is only 9oz per pair, or 18oz for complete set of two pair. These wheel chocks are designed for aircraft up to approximately 3,000 lbs. They are low profile and will fit under the wheel pants of aircraft such as RVs.

Large Wheel Chocks- 2.5" angle and 10" wide. Available in Black Powdercoat, Orange Powdercoat, and Grey Powdercoat- 24oz per paid, 48oz for two pair

Description	Part No.	Price
1.5 inch Bare Aluminum - 1 Set	13-13118	$57.75
1.5 inch Bare Aluminum - 2 Sets	13-13120	$105.75
1.5 inch Powdercoated - 1 Set	13-13119	$119.75

2.5 inch Powdercoated - 2 Sets	13-13124	$186.75

Specify color for Powdercoated Chocks.

WOOD WHEEL CHOCKS

These chocks feature heavy duty wood construction and are finished in bright safety yellow. Connected with 18" of braided nylon rope.

Attention: Total of charactors may not exceed 6.

Example: (N#) xxxxx - (Text) abcdef

Standard chocks..... P/N 13-01765 ..... **$33.95**
Chocks w/ your N# or company name..... P/N 13-01766 ..... **$51.75**

RUBBER WHEEL CHOCKS

These ribbed rubber wheel chocks measure 4"x4"x8" and have reflective tape on all three sides. Connected with nylon rope. Very popular with corporate operations & FBOs.

P/N 13-01767 ..... **$53.75**

AIRGIZMOS WHEEL CHOCKS

These chocks are unique because they are stackable. Cuts down on the amount of space required to carry them in the plane. Durable plastic sides are lightweight, but are made to take a lot of abuse. There is space on the sides to put your airplane's n-number (you supply the vinyl lettering). The edges of these chocks are made of non-skid material, so they stay where you put them.

P/N 13-04298 ..... **$17.95**

VECTOR CHOCKS

Hangar rash is the leading cause of ground handling insurance claims. Vector Chocks reduces the chance of hangar rash and will save you a considerable amount of money.

Vector Chocks cradle the wheel with their unique ramp design and the energy yellow colored industrial grade safety tape will help guide you from the hangar door to your safe parking place.

Installation is a snap with the peel-n-place feature, which sticks to asphalt as well as concrete.

Vector Chocks come as a complete kit, each kit containing two Vector Chocks and a roll of industrial grade energy yellow safety tape.

P/N 13-11694 ..... **$39.95**

WINDSOCKS

SCOTT'S WINDSOCKS

Scott's windsocks are manufactured of long-life polyester fabric that is treated to resist the effects of wind and weather. All seams are double stitched with polyester thread for strength. The windsock throat is reinforced and has solid brass grommets for easy attachment and corrosion resistance. Nylon ties are included with each windsock to attach it to the frame. Windsocks are available in high visibility orange, white or alternate orange and white stripes. Fully extended at 20 MPH or 15 Knots.

18"..... P/N 13-20230.....**$65.95**

SCOTT'S EXTENDED WINDSOCK FRAMES

The extended frame turns much easier and keeps the windsock headed into the wind like a weathervane. The frame holds the windsock open fully so it will "fly" in lighter winds. Constructed of all welded steel with 2 ball bearings. The frame is mounted to a 1-inch diameter support pipe threaded to fit a 3/4-inch size pipe or conduit. ***ORDER WINDSOCKS SEPARATELY***

18" ..... P/N 13-20244 ..... **$98.75** 24" ..... P/N 13-20245 ....**$129.75**

STANDARD WINDSOCK FRAMES

These windsock frames are perfect for both our "long life" and "extra long-life" series windsocks.

The "Long Life" windsock is made of 100% nylon and is very durable. Even in tough weather conditions, this windsock can hold its own. Order windsocks Separately.

The "Extra Long Life" windsock is a heavy-duty cross-woven Aviation blend Poly. Nylon material with special Rip-Stop characteristics, Medium-weight for more flexibility, chemically resistant treated, and Polyurethane coated for bonding strength and water repellency. Ultra-violet dyed for best retention. Nylon support webbing on intake opening with brass grommets. Colorfast International Bright Orange in color. "Extra Long Life" windsocks have an estimate 50% longer life and color retention.

MINIATURE 15" WIND SOCK

For home, office, hangar or workshop. The 15" long wind cone of Flame-Orange sailcloth material swivels on 23" high steel shaft. Wind directionals are cast aluminum with flat black finish. Furnished with mounting hardware and instructions.

Complete Kit ..... P/N 13-03747 .... **$59.75**
Replacement Sock..... P/N 13-03748 ..... **$14.50**

27" VINYL WINDSOCK

Features 27" long x 6-1/2" diameter fluorescent orange vinyl sock. Aluminum mast adjusts from 33" to 54" and up to 12 ft. with extension kit. Perfect for private strip, helicopters, or runway threshold.

Complete Windsock w/frame.....P/N 13-20015 ... **$59.95**
Replacement Sock.....P/N 13-20025 ... **$22.85**

8 FOOT VINYL WINDSOCK

18" diameter sock is double stitched, durable, fluorescent orange vinyl coated nylon. Ball bearings let sock turn easily even in light winds. Aluminum frame holds mouth open. Mount on appropriate pipe. Order frame and sock separately

8 Foot sock only....P/N 13-20035 ..... **$64.75**

NYLON WINDSOCKS

These socks are windtunnel tested and designed for conditions in which safety and wind direction are of greatest importance. They are constructed of nylon oxford cloth for strength and flyability and dyed a bright orange for higher visibility. The throat and tail bands are stitched with multiple rows of tough synthetic thread. The throat band is finished with #1 brass grommets and nylon ties are included. Unlike canvas or vinyl, these Socks fly in the slightest breeze.

Part No.	Throat Diameter	Length	Price Each

WINDSOCKS

AIRPORT WINDSOCKS

What makes these aviation windsocks different?

Two major things make a windsock, its material and its construction. Starting off with a premium nylon fabric that is made right here in the USA to exact standards. Nylon offers unparalleled windsock durability to the elements and will not become rigid in cold weather, keeping these windsocks extremely responsive in even the slightest of wind. From there it gets urethane coated and UV protected, giving the windsock superior fade resistance and color retention. The material is subjected to a variety of tests by an independent lab to verify its structural integrity and UV resistance. This superior material is then cut and sewn. Our reinforced double stitched hems and heavy duty brass grommets, assures these windsocks long life reliability.

The added expense of a superior material and manufacturing process meets the needs of even the most demanding windsock customers. Such as: US Military, US Coast Guard, US Embassies, State Airports, Offshore Oil Rigs, Nuclear Power Plants, Medical Heliports, Government Bio Hazard Units.

ORANGE WINDSOCKS

BALL BEARING FRAMES

The ball bearing windsock frames are a rugged design constructed of a welded steel construction and then a powder coated finish for corrosion protection. They incorporate a two bearing pivoting design for effortless pivoting. These frames are ready to be mounted on a ¾" female pipe thread for the 8", 13", 18" and 24" and a 1" pipe thread for the 36".

Description	Size	Part No.	Price
Ball Bearing Frames	8"	13-06481	**$42.75**
Ball Bearing Frames	13"	13-06482	**$63.75**
Ball Bearing Frames	18"	13-06483	**$67.75**
Ball Bearing Frames	24"	13-06484	**$76.85**
Ball Bearing Frames	36" Non Collapsible	13-06485	**$133.75**

EXTENDED BALL BEARING FRAMES

These windsock ball bearing extended frames are a rugged design constructed of a welded steel construction and then a powder coated finish for corrosion protection. They incorporate the same high quality construction as our standard ball bearing frames with the added performance of an extened frame. They incorporate a two bearing pivoting design for effortless pivoting. These frames are ready to be mounted on a ¾" female pipe thread for the 13"and 18" frames. Use 1" female pipe thread for mounting the 24" and 36" frames.

Description	Size	Part No.	Price
Extended Ball Bearing Frames	13"	13-06487	**$85.75**
Extended Ball Bearing Frames	18"	13-06488	**$99.75**
Extended Ball Bearing Frames	24"	13-06489	**$122.75**

VERTICAL SOCK KITS

These complete kits include our standard frame, windsock, windsock ties, pole, and brackets. They are a stand alone unit for mounting on a flat vertical surface or they can be installed right onto an existing 3/4" pipe thread pole.

Description	Size	Part No.	Price
Vertical Mount Windsock Kit	8" x 36"	13-06491	**$92.75**
Vertical Mount Windsock Kit	13 " x 54"	13-06494	**$98.85**
Vertical Mount Windsock Kit	18" x 60"	13-06495	**$112.75**
Vertical Mount Windsock Kit	18" x 96"	13-06496	**$122.75**

TRIPOD MOUNT WINDSOCK KIT

These complete kits include our standard frame, windsock, windsock ties, pole, and tripod. They are a stand alone unit for mounting on a flat horizontal or peaked roof surface or they can be installed right onto an existing 3/4" pipe thread pole.

Description	Size	Part No.	Price
Tripod Mount Windsock Kit	8" x 36"	13-06497	**$91.75**
Tripod Mount Windsock Kit	13" x 54"	13-06498	**$118.80**
Tripod Mount Windsock Kit	18 x 60"	13-06499	**$119.75**
Tripod Mount Windsock Kit	18" x 96"	13-06501	**$121.99**

PORTABLE WINDSOCK KIT

This rugged, stand alone unit comes complete with the pole, frame, windsock and windsock ties. This free standing system measures over 7' tall in its assembled configuration. * It features an extremely rugged design that incorporates a pole with a foot lug and handle for easy installation and removal. The two part pole disassembles for easy transportation. * The frame conveniently screws onto the top of the pole. Its aluminum hoop and bail pivot on a stainless steel shaft for years of reliable and responsive action. These high quality socks are constructed from U.S. made nylon fabric that is urethane coated and UV protected.

Description	Size	Part No.	Price
Portable Windsock Kit	6 " x 24"	13-06502	**$119.75**
Portable Windsock Kit	8 " x 36"	13-06503	**$122.95**
Portable Windsock Kit	13" x 54"	13-06504	**$140.75**

AVIATION UNLIGHTED WINDSOCK FRAMES

Non-lighted, heavy duty ball-bearing frame, with 1-75 to 300W lamp, extended to 30" double hoop frameworks. (3/8" round metal frameworks) FAA approved sizes per FAA Advisory Circular #AC150/5345-27C dated 07/19/85. Furnished complete with windsocks.

Description	Part No.	Price
13" w/ Windsock	13-04330	**$126.99**

WINDSOCKS

WINDCONES

Windcones come in 3 different materials, Vinyl, Nylon or Cotton Duck. The standard color for all windcones is International Orange. Windcone Material: Vinyl - This material is heavy duty and works well in coastal environments. We use vinyl coated polyester that does not delaminate as laminated vinyls can. This material is oxidation resistant. Windcones 12" and smaller are made of 7 oz. vinyl. All other windcones are made of 9 oz. vinyl. Nylon - This is a light weight (6 oz.), easily inflatable material that is UV coated. Cotton Duck - A heavy duty (9 oz.) cotton army duck which is water repellent and mildew resistant.

Throat Dia (TD)	End Dia (ED)	Length	Material	Part No.	Price

MONTAGUE PARATROOPER™

The Paratrooper is one of the many folding mountain bikes that Montague offers. Its patented folding design was developed to allow airborne soldiers to drop out of airplanes and helicopters and into combat. The Paratrooper offers advanced features with 24 speeds and front and rear mechanical disc brakes. Known for its durability and load bearing capabilities, this folding bike has also developed a following with everyday commuters and weekend warriors. The Folding Integrated Technology (F.I.T.) is based around frame construction concepts designed for serious full suspension downhill bikes.

MONTAGUE SWISSBIKE X90

The Montague SwissBike X90 is an aggressive 30-speed folding hardtail with a stiff frame providing both performance and portability. With 26" wheels, it's a full-size bike with full-size performance, but folds to fit in the trunk of a car or in a small closet. These rugged folding bikes are built to outlast, handle any terrain, and carry a ton of gear.

Clever integration of the patented CLIX System allows the SwissBike X90 to be folded in under 20 seconds without the use of tools. A flip of the CLIX quick release lever on the top tube and the bike folds to a compact size.

The SwissBike X90 features top-of-the-line components including: SRAM Elixir 7 front and rear hydraulic disc brakes, a RockShox Sektor RL suspension fork, and a Truvativ X-9 crankset.

18in Frame: 5'3" - 5'10" ..... P/N 13-12006..... **$2,449.00**

MONTAGUE ACCESSORIES

MONTAGUE FOLDING PEDALS - These pedals reduce the width of the folded bike by 4 inches. While not ideal for high performance riding, they do serve a purpose for those with tight space constraints.

P/N 13-03745..... **$34.95**

MONTAGUE CARRYING CASE ..... P/N 13-08406..... **$99.95**

MONTAGUE KICK STAND - We offer a traditional steel kickstand that attaches to the Montague bike like a standard kickstand without interfering with the unique folding feature. ***Fits ONLY models from 2015 or earlier. 2016 Models are equipped with a multi purpose fitted rack to function also as kickstand.*** ..... PARA-CUSHION PARACHUTES

PARA-CUSHION 311 - WEDGE

The Para-Cushion 311 Wedge measures 24" (61cm) tall by 16" (40.5cm) wide by 1" (2.5cm) at the shoulders and 3" (7.5cm) at the lower back, and weighs approximately 16 lbs. (7.3 kg). This unique configuration allows for maximum comfort for the pilot by using the shape of the parachute system to put you in a slightly reclined position. The parachute assembly is designed to be used in airplanes where headroom is at a minimum and the backrest is at a straight upright angle with the seat bottom, such as a Pitts S1, Pitts Model 12, Christen Eagle, RV-4, RV-6, Harmon Rocket, and many others.
System Comes Complete with: Harness/Container, Mid-Lite Parachute, Ripcord, Lil Grabber Pilot Chute, Carry Bag, and Manual. TSO - C23c cat. B P/N 13-14779..... **$2,475.00**

PARA-CUSHION 304 - SEAT

The Para-Cushion 304 Seat, measures 12" (30.5 cm) tall by 16" (40.5 cm) wide by 1/2" (1.3 cm) thick throughout the back, and 3" (7.5 cm) thick in the seat cushion, and weighs approximately 18.5 lb. (8.4 kg). The 304 is designed to be used in place of a seat cushion. By using an additional Confor© Foam cushion the seat thickness of the pack may be from 1" (2.5 cm) to 6" (15 cm) thick depending on the type of airplane and how high the user desires to be in the cockpit. The parachute assembly is designed to be used in airplanes where head room is not restricted or moving forward in the cockpit is not possible including: Skybolt, Yak 52, Yak 55, CJ-6, Stearman, Great Lakes, Pitts S 2B, Decathlon, RV-4 and many others. For RV-4 and RV-8 aircraft the seat container is modified slightly to fit the exact size of the seat pan. The options for the RV version remain the same as the standard version.
System Comes Complete with: Harness/Container, Mid-Lite Parachute, Ripcord, Lil Grabber Pilot Chute, Seat Cushion, Carry Bag, and Manual. TSO - C23c cat. B. P/N 13-03441..... **$2,495.00**

PARA-CUSHION 306 - SQUADRON SEAT

The Para-Cushion 306 Squadron Seat measures 16.5" (42 cm) tall by 13" (33 cm) wide by 6.5" (16.5 cm) thick and weighs approximately 19.5 lbs. (8.8 kg). Color Options: Stock Colors are Black, Red, Navy Blue, Royal Blue, and Olive Drab. This applies to Container, trim, and harness colors. Color Choices: Black, Red, Navy Blue, Royal Blue, and Olive Drab. The pack and cushion combination are shaped to fit fully into the seat to provide a large stable, and comfortable seating area for the pilot. The harness is fully adjustable in the main lift webs (vertical straps), as well as in the lumbar area to ensure proper fit, provide support, and remain comfortable. The parachute assembly is designed to be used with the bucket style seat pan found in most warbirds such as: SN-J, T-6, Harvard, T-34, T-28, P-51, Stearman, and many others. TSO - C23c cat. B.
Strong 306 Seat ..... P/N 13-14781 ..... **$2,495.00**
Strong 306 Harness Container Only ..... P/N 13-15946 ..... **$1,395.00**

ACROPRO PARACHUTE

The AcroPro is designed with Aerobatic pilots in mind. At just 16 lbs., this lightweight, thin, and comfortable pack supports the pilot during high G maneuvers while maintaining comfort and safety. The AcroPro, measures 24" (60 cm) tall by 16" (40 cm) wide by 3" (7 cm) thick and weighs approximately 16 lbs (6.5 kg). In many cases, by removing the back cushion of the seat pan, the pilot may place the AcroPro in its place. Choose our Standard Harness or the Aerobatic Harness at no additional charge. AcroPro comes with: Harness/Container, Mid-Lite Parachute if desired or C-9 (call for price), Ripcord, Lil Grabber Pilot Chute, Carry Bag, and DVD Manual. TSO - C23c cat. B & SAE AS-8015A.
Standard Harness - Harness/Container Only... P/N 13-21184... **$1,349.00**
Standard Harness - Complete Mid-Lite..... P/N 13-21186... **$2,449.00**
Aerobatic Harness - Harness/Container Only.. P/N 13-21185... **$1,349.00**
Aerobatic Harness - Complete Mid-Lite ..... P/N 13-21187... **$2,449.00**

PARA-CUSHION 305 - CHAIR

The Para-Cushion 305 Chair measures 42" long (105 cm) by 16" (40 cm) wide by 2.5" (6cm) to 1" (2.5cm) thick and weighs approximately 16.5 lb. (7.5 kg).
This back mounted container is built to extend from the shoulders of the user to just above the knees. This long design allows the parachute to be packed in a larger area keeping the system as thin as possible. Confor© Foam padding throughout the system allows the user to comfortably sustain flight for many long hours. The parachute assembly is designed to be used in airplanes where your seat is reclined such as a Grob, Giles 202, the rear seat of an Extra, and many others. System Comes Complete with: Harness/Container, Mid-Lite Parachute, Ripcord, Lil Grabber Pilot Chute, Carry Bag, and Manual. TSO - C23c cat. B P/N 13-03442..... **$2,296.00**

PARA-CUSHION 303 - BACK

The Para-Cushion 303 measures 24" (60 cm) tall by 16" (40 cm) wide by 3" (7 cm) thick and weighs approximately 15 lbs (6.5 kg). In many cases, by removing the back cushion of the seat pan, the pilot may place the 303 in it's place. The 303 Back is recommended for use in airplanes where head room is at a minimum and moving forward in the cockpit is not a problem. Recommended for use in airplanes such as: ASW-27, PW-5, Cap-10, Zlin 50, and Christen Eagle.
System Comes Complete with: Harness/Container, Mid-Lite Parachute, Ripcord, Lil Grabber Pilot Chute, Carry Bag, and Manual. TSO - C23c cat. B.
P/N 13-03440..... **$2,130.00**

PARA-CUSHION L-39

The Para-Cushion L-39, measures 27" (68.6 cm) tall by 17" (43.2 cm) wide by 3.5" (8.9 cm) thick and weighs approximately 25.9 lb. (11.7 kg). The L-39 is designed exclusively for the L-39 Albatross. The design incorporates existing Russian designed pilot restraint system found on the original assembly, including shoulder roller guide for inertial reel and seat belt buckles at the hips. This provides you with fit-and-fly technology that perfectly replaces the original equipment and gives you peace of mind knowing that you have a comfortable, top of the line system.
System Comes Complete with: Harness/Container, 28' C-9 Parachute, Ripcord, Travel Cushion, G-Pad, Static Line, Lil Grabber Pilot Chute, Carry Bag, and Manual. TSO - C23c cat. B.
P/N 13-15068..... **$3,398.95**

MID-LITE CANOPY

The 26' Mid-Lite is the finest reserve canopy available! It is a highly reliable 24 gore canopy. It is tested and approved to FAA TSO C23c Category B.
The canopy has been tested to withstand a 5000lb shock load, which means it is built to withstand the rigors of an emergency bail-out. In production since 1987 the Mid-Lite has proven time and time again that it is the most rugged and reliable reserve you can own!

Canopy Shape	Conical	**Canopy Cloth**	30-50 cfm (PIA-C-44378d)
Size	26'	**Turn Speed**	Approx. 7 sec
Number of Gores	24	**Forward Speed**	6 -8 mph (10-12 km/h)
Line Length	17' 6"	**Opening Time**	1.1 - 2.3 sec
Panels Per Gore	4	**Rate of Descent**	18.5 fps @ 225 lbs (5.7 mps)
Suspension Line Material	Type 1A	**Canopy Weight**	Approx. 7 lbs
Suspension Line Strength	400 lbs	**Maximum Weight**	254 lbs (115 kg)

P/N 13-14782..... **$1,037.00**

ACCESSORIES

CUSTOM MONOGRAMMING - Monogram your name, N number, or anything that space will allow on the front of your container.
P/N 13-04907 ..... **$42.90**

CAPEWELL RISER RELEASE - For landing in high wind conditions allows the pilot to release the parachute, to prevent dragging. Disadvantages -- Heavy and expensive hardware. P/N 13-04908 ..... **$355.00**

LUMBAR SUPPORT PAD - A rounded Tempor® foam pad that attaches in existing channel. Adjustable to just the right position in the small of your back. P/N 13-15065 ..... **$84.95**

PARA-CUSHION G-PAD CUSHION - An auxiliary pad that attaches to the back pad of any Para-Cushion. G-pad is formed to snugly fit around the pilot's sides providing extra support during high G maneuvers.
P/N 13-15066 ..... **$149.95**

ELT POCKET - This external pocket snaps onto the system and holds the pilots ELT system. P/N 13-15949 ..... **$115.95**

STATIC LINE - 15' Static Line including B-12 Snap and RW-3 Ring.
P/N 13-16009 ..... **$40.00**

SHEEPSKIN BACK PAD - Sheepskin pads keep you cool in the summer and warm in the winter.
Smoke.....P/N 13-11307 ..... **$179.00**
Natural .....P/N 13-11309 ..... **$179.00**
Black .....P/N 13-04911 ..... **$195.00**

QUICK EJECTOR SNAPS - This is the Military type hardware that can be used in place of the standard B-12 snaps. Works best for former military pilots who have become accustomed to this type of hardware.
Snaps.....P/N 13-04909 ..... **$155.00**
Aerobatic Snaps .P/N 13-04910 ..... **$115.00**

AEROBATIC HARNESS - ***This is an option that can be added at no additional cost.*** This harness option moves the snaps that normally sit on top of the pilots legs, to your chest, where there is no pressure from a seat belt. This works best where a Hooker Harness Ratchet type seat belt is used. .....P/N 13-04912

AERO PAD - A zip-on seat pad held in place by the pilot's weight to restrain the Para-Cushion and prevent shifting during high G maneuvers.
P/N 13-15067 ..... **$104.95**

SOFTIE EMERGENCY PARACHUTES

MINI-SOFTIE - Extremely small, lightweight and comfortable backpack parachute system designed for use in today's restricted cockpit enviroments, and by persons weighing up to 240 lbs. Choice of Conventional Harness or Aerobatic Harness. Container is 2.25" thick x 15" wide x 23" long. Canopy Type: Steerable Conical. Total weight: 15 lbs. P/N 13-03505-X..... **$2,475.00**

MICRO-SOFTIE - Designed to fit and stay secure over the shoulder of smaller individuals. Used by persons weighing up to 180 lbs. Choice of the Conventional or Aerobatic harness. Container is 2.25" thick x 13" wide x 22" long. Canopy Type: Steerable Conical*. Total weight: 14 lbs.
P/N 13-03510-X..... **$2,475.00**

LONG-SOFTIE - Designed to conform to and maximize the comfort of the seating found in todays high performance gliders and aerobatic aircraft. Available in either 180 lb.(13" wide) or 240 lb. (15" wide) versions. Choice of standard H harness or the unique crossover style Aerobatic Harness. Container specifications: 2.25" thick x 13" or 15" wide x 35" long. Canopy Type: Steerable Conical. Total weight: 16 lbs.
P/N 13-03515-X..... **$2,525.00**

SOFTIE-SEAT PACK - Designed for use in aircraft that have no room for a backpack style parachute. Used by persons weighing up to 240 lbs. Container is 15" wide 14" fore & aft 2 1/2" thick. Canopy Type: Steerable Conical. Total weight: 16 lbs. P/N 13-09052-X..... **$2,575.00**

WEDGE-SOFTIE - Designed specifically to add lumbar and sacral support during high, positive G maneuvers. Ideal for the upright seating found in Pitts style seating. Available in either 180 lb. or 240 lb. versions. Choice of standard H harness or our unique crossover style Aerobatic Harness. Container is 2 1/2" thick at bottom, 1/2" thick at top x 15" wide x 23" long. Canopy Type: Steerable Conical*. Total weight: 15
P/N 13-03524..... **$2,475.00**

WARBIRD SEAT PACK SOFTIE - Designed to fit into the older style "bucket" seats found in warbird aircraft, and for persons weighing up to 240 lbs. The container is 14" wide 11" fore & aft 6" thick. Canopy Type: Steerable Conical. Total weight: 17 lbs P/N 13-03520-1A.... **$2,575.00**

VISIT OUR WEBSITE FOR ADDITIONAL OPTIONS AND HARNESS CHOICES.

NOTE: Complete the Part Number with Color (-1) Red, (-2) Black (-3) Royal Blue, (-4) Navy Blue, (-5) Grey, (-6) Sage Green or (-7) Olive Drab. Also complete P/N with "C" for Conventional or "A" for Aerobatic. Example: P/N 13-00000-5A.

NATIONAL PARACHUTE 490 PREMIUM SEAT

CHECKMATE CHECKLISTS

CHECKMATE CHECKLISTS

Checkmate is the only checklist that contains virtually all data desired by pilots to fly the airplane while excluding the extraneous information which leads to inefficiency, confusion and even refusal to use. They eliminate the tedious and cluttered 15-page flip-book that pilots quickly become discouraged from using. Checkmate contains the most comprehensive V-speed section in the industry. V-speeds are listed in Knots and MPH. Checkmate not only makes a dramatic difference in everyday use, but also in critical situations. Emergency procedures are right there! Every time! With most of the emergencies there is no time to flip pages looking for the correct procedures.

Available for over 300 single and twin engine aircraft. All follow a standard format. Used by some of the best flight schools in the country. Checkmate Standard Checklists is 6.5" x9" size. Checkmate Compact Checklist 5"x7" size.

CHECKMATE IFR

In the IFR environment organization and management lead to smoother, stress-free and safer outcomes. CheckMate IFR will assist you through preflight planning to touch-down on the IFR flight. Whether you are cleared for the complete approach or radar vectored to the FAF, CheckMate IFRs format will help keep the flight business orderly and functional. It is precise & specific to the different phases of those sometimes precarious flights. You will be reminded when to prepare and look ahead to each phase. A quick review of CheckMate IFR before flight will help you determine pilot and aircraft preparedness and legalities, how to give those greatly appreciated pilot reports on icing and turbulence, and what ATC expects you to do after radio failure; Professional information in a concise and orderly manner.

Standard (6" x 9") ..... P/N 13-08805 ..... **$14.95**
Compact (5" x 7") ..... P/N 13-08810 ..... **$13.95**

SURVIVING THE FIRST 24 HOURS CHECKMATE®

Surviving the First 24 Hours CheckMate® clearly details the procedures and equipment that you will need to survive a forced landing and the subsequent 24 hours. The preparation before a flight can easily make the difference between surviving or not surviving. This is one of the most important pieces of equipment in a pilot's pre-flight planning.

Available in three sizes.
Standard (6.5"x 9") ..... P/N 13-00444 ..... **$14.95**
Compact (5"x 7") ..... P/N 13-00446 ..... **$14.50**
Pocket (3.75"x 3.25") ..... P/N 13-00447 ..... **$9.50**

CHECKBOOK CHECKLISTS

Aviation Checkbook is a high quality, multi-page laminated checklist utilizing factory type information for FAA Part 141 and 61 schools. Designed as a primary checklist giving all details and responses needed by new students or pilots wanting a multi-page checklist without the usual bulk. Shirt pocket size with mark and erase surface for notes. The various checklists for your aircraft are stacked and color tabs allow you to locate the checklist you need.

FLYWRITE COCKPIT WRITING PAD

FlyWrite™ is not another "flight planning" layout. It is designed to give you a dedicated place for all the information that flows while in the cockpit of the aircraft. Convenient top-bound writing pad. Each pad contains 50 5" x 8" sheets and can be used with or without standard junior legal vinyl binders. IFR clearances, ATIS, AWOS, frequencies, flight times, hobbs times, tach times, airport information , frequency changes, hand-off's, altitude changes, weather, etc, now have a home. There is also an area for random information or diagrams. FlyWrite™ also contains a handy vertical scale which measures mileage for WAC, SEC, TAC, NOS, JEPP, & ELA charts, eliminating the need for that ruler you can never find.

P/N 13-03307 ..... **$5.95**

MOUNTAIN FLYING CHECKMATE

CheckMate Aviation's new Mountain Flying CheckMate™ is a full color, plastic card that is a compilation of the special knowledge required for mountain flying. Competent flying in mountainous terrain requires knowledge far beyond what is taught in standard flight courses; and as most pilots discover, sooner or later, flying in mountainous terrain is inevitable.

CheckMate Aviation's Mountain Flying CheckMate™ covers both the rules and common sense of flying that are critical when in this aspect of flight. Available in 3 sizes.
Standard (6.5"x9") ..... P/N 13-02713 ..... **$14.95**

CHECKLISTS

PROPILOT CHECKLISTS

Step up to professional quality with ProPilot Checklist! These handsome booklets are fully laminated and wire-bound for durability and long life, and are perfect for VFR and IFR pilots of all skill levels. All Preflight, Normal, and Emergency procedures are included. IFR checklist items are integrated into phase of flight, and IFR Approach and Departure Briefing sections are also provided. Flight planning is simplified by the inclusion of aircraft-specific performance data (V-speeds, takeoff distance, climb performance, cruise power settings, true airspeed, fuel burn, and landing distance), as well as weight and balance graphs. 6" x 9".

THE PRECIFLIGHT CHECKLIST

More than just a checklist, PRECIFLIGHT® will actually help pilot along all phases of flight: from preparation to tie-down and through emergencies. It is a brightly colored 18 pages booklet at is logically divided to minimize page flipping. Once used to it, it is a natural as good landings.

It regroups important information such as light gun signals, VFR minimums, weather symbols and all that with easy to interpret drawings. Even better, it has features that pilots have to look for in other publications and equipment like a built-in 1/500 000 ruler, frequently used aviation phone numbers and Internet sites and more.

PRECIFLIGHT® was also designed for convenience: it will fit in your shirt pocket or clip on the aircraft yoke where it will be available to use with one hand. Made of a sturdy waterproof paper, it will last a lifetime. It is designed to conform to FAA and Transport Canada regulations by a team of flight instructors and airline pilots

Description	PN	Price

E.S.P. CHECKMATE™

E.S.P. CheckMate™ is a 1st for Aviation, and the only product of its kind available. Our new "Emergency Substitute Pilot "™ could save the lives of you and your passengers by providing the most basic and simplest of terms and procedures to the NON-PILOT, in the unfortunate event the real pilot becomes incapacitated. E.S.P. CheckMate™ assists the NON-PILOT in controlling the aircraft, reaching help on the radio, and if necessary, landing the aircraft. The graphical format makes it easy and comfortable to follow. E.S.P. CheckMate™ can easily be the difference in the outcome of this most serious type of emergency. For safety and readability, we are publishing only in 7.5" x 10" size. P/N 13-01834 .....**$14.95**

PLOTTERS

FLIGHT COMPUTERS

E6B METAL FLIGHT COMPUTER - The best slide-rule-style flight computer on the market, with solid aluminum construction and easy-to-read lettering. ASA's E6-B features a wind component grid and comprehensive cross-wind correction chart, and on the other side the slide computes time, speed, distance, altitude, true airspeed, and density altitude problems as well as conversions. Nautical and statute scales are included.
P/N 13-00813 ..... **$24.95**

E6B PAPER FLIGHT COMPUTER - Made from solid, heavyweight fiberboard, an economical version of the aluminum model described above including all its problem-solving features. P/N 13-02298 ..... **$10.95**

MICRO E6-B - This pocket-sized, brushed aluminum E6-B is a full function aviation computer. Popular among military pilots, it features a high-speed and low-speed wind correction slide, high-speed compressibility table, and instruction manual. Micro E6-B performs all the standard manual flight computer functions, and it conveniently fits in a shirt pocket or glove box.
P/N 13-02299 ..... **$23.95**

E6-B HIGH SPEED SLIDE - A companion product, this slide picks up where the traditional metal flight computer leaves off (ASA-E6B), providing calculations for the high-speed realm of flight (in the range of 220-700 knots or miles per hour). Pilots simply replace their current slide with this one, which then continues to use the circular computer from traditional E6-Bs. The slide also includes compressibility correction chart, ICAO Standard Atmosphere reference table, worldwide time conversion table, speed limits for the United States, and most frequently-used weight & balance formulas. All of the pertinent formulas & information required for high-altitude, high-speed operations. Meets both FAR & JAR (international) requirements. P/N 13-02301 ..... **$11.75**

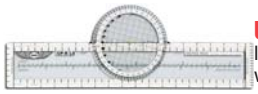
E6-B CIRCULAR FLIGHT COMPUTER

The E6B Circular Flight Computer combines high-quality construction with easy-to-read lettering to deliver the most efficient, accurate, and convenient manual flight computer availalble. Perform multiple calculations ranging from basic arithmetic and flight planning problems to complex in-flight computations. The E6B Circular Flight Computer is a great tool to use during flight planning, flight training or studying, and may be used during FAA written knowledge exams. Pilots flying faster aircraft at higher altitudes will find this computer useful in gaining insight to the external atmospheric conditions and the effects they have on in-flight performance. P/B 13-16352 ..... **$24.75**

PROFLIGHT FIXED AZIMUTH PLOTTER

The ProFlight Fixed Azimuth Plotter is: • Manufactured & Packaged in the U.S.A. • Made from Premium Clear 8010 Polycarbonate • More Flexible & Warp Resistant than Acrylic or PVC • Printed using Ultra Violet Resistant Ink • Laminated for Lifetime Scratch Protection • Clearly Distinguishable White, Sectional/ Terminal Side & on Reverse, a Blue WAC Scale

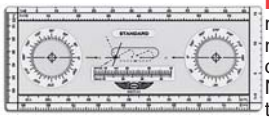
ProFlight PF-AP-1 Plotter - Your PF-AP-1 is a premium Fixed Azimuth Plotter designed for measuring distances and courses on VFR navigational Sectional, Terminal & World Aeronautical Charts. This plotter has been designed to exacting standards and slight variations with chart scales may exist as a result of the instability of paper charts in certain temperature and humidity conditions.
P/N 13-11676 ..... **$8.75**



SQUARE AVIATION PLOTTER

Constructed of durable Lexan®, this plotter won't melt, warp or break in extreme temperatures. Its convenient 5-1/8" square size and ease of use make this plotter a pilot favorite for simple, accurate flight planning. Uses a 1:500,000 scale and includes 5 NM and 10 NM radius rings for quick and easy measurement. The 2 NM grid makes alignment with parallels simple. Plus, it's guaranteed for life! P/N 13-08056 ..... **$5.75**

PLOTTERS



Durable Lexan® resin won't melt, warp or break in extreme temperatures - guaranteed! Each plotter features 8 scales to meet the needs of all VFR aeronautical charts - nautical on one side, statute on the flip. Nautical-Statute conversion scale also included. Made in USA.

ULTIMATE ROTATING PLOTTER - 13-1/4" long. Rotating azimuth eases flight planning with direct readout of course. Made in USA.
P/N 13-02302 ..... **$14.85**

ULTIMATE FIXED PLOTTER - 13-1/4" long. Quick scale reference is provided for both statute and nautical miles. Made in USA.
P/N 13-02424 ..... **$12.75**

ULTIMATE MICRO PLOTTER - 8" long. Convenient for flight bag, shirt pocket, or airplane storage. Made in USA.
P/N 13-02303 ..... **$7.95**

INSTRUMENT PLOTTER - ASA's instrument plotter features: 12 scales to accommodate both NOS & Jepp instrument charts, including a conversion scale for Nautical and Statute miles; holding patterns depicted for both Standard and Nonstandard entries; compass roses allowing quick course & bearing information; and professional layout enabling easy reading during en route spot checks.
P/N 13-02306 ..... **$10.95**

FIXED PLOTTER - Constructed of sturdy clear plastic with easy-to-read numbers and scales. It includes WAC, Sectional, and Terminal Area scales, and is checked and approved by the Weights and Measures Department. Quick scale reference is provided for both statute and nautical miles.
P/N 13-02304 ..... **$7.60**

ROTATING PLOTTER - Made from the same material and having the same features as the Fixed Plotter, but with the addition of a non-slip rotating azimuth to ease flight planning. P/N 13-02307 ..... **$10.95**

THE PILOT POCKET PEN HOLDER

The Pilot Pocket PEN holder is the easy solution to stowing pens, pencils and sunglasses in the cockpit. The compact design and suction cup mounting o er a variety of placement options in any type of cockpit. A convenient temperature conversion chart is printed on the front for quick reference. Secures firmly to any smooth plastic or glass window surface with its 3 suction cup design. Each suction cup has a pull-off tab, making it easy to detach and reattach. It's perfect for airplane renters. Built-in pen slots. Convenient holder for your sunglasses. Constructed of high quality, transparent acrylic that is strong, resistant to scratches and won't discolor in sunlight. A convenient temperature conversion chart is printed on the front for quick reference. 4" high, 1.25" wide and 1.25" front to back.
P/N 13-16371 ..... **$16.95**

PEN AND TOUCH PAD STYLUS

A dual-purpose, twist action (black ink) ballpoint pen featuring a soft stylus end for use with touch-screen mobile devices such as iPads, tablets, smartphones, etc. Black barrel with chrome accents.
P/N 13-12066 ..... **$3.95**

PS

ASA PILOT SUPPLIES

APPROACH PLATE BINDER

Made of durable black vinyl with a reinforced spine, it has easy-to-open, 1-1/2" steel rings that accommodate the drill pattern of the approach plates. ASA wings tastefully silver-foiled on the front cover. Choose from either 4-ring NACO or 7-Ring design.

NACO.....P/N 13-01066 ..... **$12.75**
7-Ring.....P/N 13-02316 ..... **$10.95**

FLIP BINDER

Perfect for Instrument Pilots who carry a smaller number of approach charts. One-inch rings are attached to a sturdy poly backing, with a loose poly cover. Scoring on front and back covers allows you to flip charts completely around the rings and display the one you want on top. Compact, convenient, and practical.

P/N 13-02321 ..... **$10.95**
Replacement Rings.....P/N 13-12055 ..... **$4.95**

7 RING BINDER KIT

Contains 1 binder, 10 sheet protectors, 5 color side dividers and a sheet of area stickers.

7-Ring .....P/N 13-02322 ..... **$19.95**

ASA DELUXE RING BINDER

The Deluxe 2" 7-Ring Binder is is made of richly-grained simulated leather with edge stitching. It's bound for maximum durability and equipped with a ring system that will keep your approach plates securely organized and easily accessible. Convenient 8.5" x 9" size makes it easy to fit in almost any flight bag.

ASA Deluxe 1" 7-Ring Binder.....P/N 13-05759 ..... **$25.75**
ASA Deluxe 2" 7-Ring Binder.....P/N 13-05760 ..... **$29.95**

ASA 1 INCH 7 RING TRIP BINDER

The 7-Ring Trip Binder is made of durable poly. It's bound for maximum durability and equipped with a ring system that will keep your approach plates securely organized and easily accessible. The three rings are spaced to match the 7-hole approach plate drill pattern. Convenient 7" x 9" size makes it easy to fit in almost any flight bag. P/N 13-05825.....**$12.50**

SHEET PROTECTORS

Made of durable, translucent plastic to protect the most frequently used approach plates. Sold in packs of 10.

NACO Vinyl Pocket pk of 10.... P/N 13-02317.. **$6.50**
NACO Poly Folders pk of 10.... P/N 13-05820.. **$3.95**
7-Ring Vinyl Pocket pk of 10.... P/N 13-02318.. **$5.95**
7-Ring Poly Folders pk of 10 ... P/N 13-05821.. **$4.35**

5 COLOR DIVIDERS

For quick reference of various sections of both types of approach plate charts, these five distinctly-colored dividers extend out beyond the side of the charts. Set of 5.

7-Ring ..... P/N 13-02323..... **$6.95**

ASA 4 RING NOTEPAD

Compact, convenient writing pad that fits in your approach plate binder. 100 sheets per pad. Weight .80lbs

7-Ring..... P/N 13-05823..... **$4.85**
4-Ring..... P/N 13-05822..... **$4.85**

FLIGHT PLANNER SHEETS

Cross-country planning sheets contain a flight plan section, weight & balance calculation chart, special equipment suffix chart, fuel management, space for radio frequencies, & more. Sold in pads of 48. P/N 13-18431 ..... **$3.95**

STUDENT FLIGHT RECORDS

ASA Flight Record Folders provide areas to record pertinent student information, stage checks passed, lesson content, lesson performance, flight hours, instructor notes & endorsements, solo endorsements or aircraft checkout records, and are current to both Part 61 & Part 141 program requirements. Sturdy & durable, these flight records are available separately, as part of ASA's pre-packaged training kits, or as part of an ASA PACK - Personalized Aviation Custom Kit.

SFR Private ..... P/N 13-01548 ..... **$2.35**
SFR Commercial ..... P/N 13-01549 ..... **$2.35**
SFR Instrument ..... P/N 13-01551 ..... **$2.35**
SFR Helicopter ..... P/N 13-01547 ..... **$2.35**

CERTIFICATES AVIATION ACHIEVEMENT AWARDS

Authentic, full-color certificates are perfect for framing yet sturdy enough to slip into the student's flight record as a pleasant surprise to be discovered on their next visit to the airport. Mark progress with style, while further motivating students. 9"x12". Sold in packs of 10.

Solo Flight Certificate ..... P/N 13-02326..... **$11.95**
Private Ground School Certif. ..... P/N 13-02327..... **$11.50**
Helicopter Solo Flight Certif. ..... P/N 13-02329..... **$9.50**

HOLDING PATTERN VISUALIZER

This useful tool shows a pilot which entry is appropriate given the assigned holding radial, making it a superb learning tool.

P/N 13-06940 ..... **$11.95**

LANDING PATTERN COMPUTER

Easily helps determine appropriate headings for each leg when landing or departing the airport - great teaching aid! P/N 13-06935 ..... **$13.95**

FLIGHT PLAN AND CLEARANCE NOTEPAD

Posting pad for obtaining IFR Clearances by pilots. Provides in-flight writing for Aircraft ID, Departure Point, Route Of Flight, Destination, and more. 6" H x 4" W.

P/N 17-00328 ..... **$1.95**

YOKE CLIP

ASA's new yoke clip holds all the necessary flight paperwork right where pilots need it, leaving their hands free to fly. Simple to install, the black plastic, I-Beam construction is strong enough to serve as a pilot's third hand. The clip is higher than other yoke clips, holding sectionals, approach plates, flight logs, checklists, flight computers, and pens in easy view. The unique, over-centering cam easily adjusts to fit all general aviation aircraft yokes without modification.

P/N 13-01043 ..... **$12.50**

ASA PILOT HAT

Pilot cap featuring comfort headband and classic wings logo. Stylish baseball cap. Black with neatly embroidered white ASA wings. Adjustable headband for maximum comfort. No button to interfere with headset band. Long bill for sun protection. Perfect for cross-country flying, lounging with friends or on the tarmac hangar flying. Wear it proudly!

P/N 13-12964.....**$10.95**

PS

AERO PRODUCTS RESEARCH CR COMPUTERS

CR computers are very popular with pleasure and professional pilots. They solve T/8/D and wind triangle problems for light aircraft as well as those which approach Mach 2 speeds. Corrections for errors of compressibility and temperature rise are computed with ease. The wind solution is displayed graphically using the small back-side discs. Each computer comes with fully illustrated manual.

CR-3 - 3-3/4" dia. shirt-pocket size (same as Jepp CR-5); vinyl
P/N 13-03499 .....**$22.75**

CR-4 - 4-1/4" dia. (same as Jepp CR-2); vinyl. Standard model used by the military. P/N 13-03501 .....**$23.75**

CR-6 - 6" dia. Used by navigators for maximum readability (Same as Jepp CR-3); vinyl. P/N 13-03502 .....**$24.75**

AERO PRODUCTS RESEARCH FLIGHT DESK

Folded size 8" x 9" Extends to 16" x 9" Anodized aluminum. Versatile space-saver lap desk locks in open position; folds in half for drop-in storage in your flight case. Heavy-duty clips hold charts and flight plans. Important VFR and IFR information always visible when open. Foam strips on back keep lap desk from slipping..... P/N13-03517 ..... **$23.95**

AERO PRODUCTS RESEARCH TIME/ SPEED/ DISTANCE COMPUTER

Time/Speed/Distance computers. "How-to-use" instructions printed right on the unit. Text printed in straight, easy-to-read lines; desired scales and windows located at a glance. Perfectly calibrated 2-color dials eliminate parallax errors. Fully illustrated instruction manual with each model. APR-303 3-3/4" dia. T/S/D computer with traffic pattern orientator; anodized alum. P/N 13-01133..... **$15.95**

ATIS WHEEL PRO

The Atis Wheel™ PRO is a mechanical device designed to help the airplane pilot in recording all ATIS information while presenting the data as a graphic depiction. The Atis Wheel™ PRO is presented on a 3.5"x 5.5" rectangular durable format with seven individual 1.5" wheels positioned about the perimeter of the device along with two, 3" concentric wheels positioned in the center. The Atis Wheel™ PRO information follows the sequential presentation of the ATIS information, providing the pilot the following data: • The ATIS information phonetic letter identifying this specific ATIS report, named sequentially after a phonetic letter of the alphabet. • Example: This is Providence ATIS information ALPHA. • The time the ATIS information was recorded - in ZULU (GMT) time. • In as much as all ATIS information should be current, there is no wheel on the Atis Wheel™ PRO to record the ZULU time. • The DIRECTION from which the wind is blowing. • The VELOCITY of the wind, and wind GUSTS, if any. • The VISIBILITY and SKY condition. • The CEILING of the sky (if any) and cloud height, if OVERCAST. • The TEMPERATURE and DEW POINT. • The RUNWAY in use for LANDING and TAKEOFF. • The instrument APPROACH in use for landing. • The BAROMETRIC pressure, in order to calibrate the altimeter Additional tower comments (i.e., notice of closed taxies, etc.) ..... P/N 13-05003..... **$3.49**

EZ ATIS REMINDER PILOT TOOL

The EZ ATIS Reminder makes it easy to communicate the ATIS identifier. No more fumbling through papers for the ATIS identifier - or worse yet, having to recall the prefix from memory! The 1-5/8" diameter knob with 1/2" pointer has a peel and stick adhesive tape on the back that can be easily mounted on your instrument panel, knee board, or anywhere you need a quick ATIS recall. P/N 13-04920 .....**$12.95**

ATIS-MINDER

Designed in 2000, the ATIS-MINDER™ solved several issues for many pilots and those involved in regular use of the phonetic alphabet. The ATIS-MINDER™ meets this demand with precision and adds efficiency to any cockpit. Excellent teaching tool for the student pilot preparing for their licensing criteria. Can be mounted on the yoke, panel, or kneeboard with the hook and loop fastener provided in the purchased package.

Left Hand..... P/N 13-16442..... **$34.95**
Right Hand ..... P/N 13-16441..... **$34.95**

AERO PRODUCTS RESEARCH T/S/D COMPUTER KEYCHAIN

1-1/2" diameter. Identical to the real thing, this traditional usable Time/Speed/Distance keychain has a beautiful compass star with flight plan on the back side.

The computer keychain is calibrated meaning the ability to relate the key chain to the functions of the E6-B type Time/Speed/Distance computers.
P/N 13-03505 .....**$7.95**

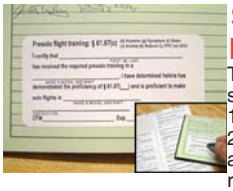
AERO PRODUCTS RESEARCH CR COMPUTERS

Simplify VFR or IFR navigation with these handy logs which provide for listing of intersections, radials, frequencies, clearances and complete flight plan.

EFL-100 Pad of 5-1/2" x 8-1/2" sheets; VFR Flight Logs P/N 13-03526 .....**$3.95**

EFL-200 Pad of 5-1/2" x 8-1/2" sheets;IFR Flight Logs P/N 13-03527 .....**$3.95**

AERO PRODUCTS RESEARCH PLACARDS



Now you can customize your cockpit with APR's easy-to-apply placards. Just cut out and press these stick-ons into place for that "factory-fresh" cockpit look. For all single and multi-engine aircraft systems, seaplanes, and gliders. Includes most-used legends (on, off, open, close, etc.), common amperage, voltage values, arrows, numbers and blanks. 8-1/2" x 10-1/2"; aircraft panel placard set; over 250 aluminum placards.

APR Instrument Panel Placard Set..... P/N 13-03522.....**$11.95**

EXPERIMENTAL AIRCRAFT CERTIFICATION KIT

A new amateur-built aircraft certification kit created by the Experimental Aircraft Association (EAA) gives builders a simplified way to complete the required FAA paperwork for their new projects. The Amateur-Built Aircraft Certification Kit includes everything you need to register and certify a new experimental amateur-built aircraft in the United States. The 15-page, step-by-step guide walks you through the entire process from getting an N-number to the aircraft inspection, and provides samples to help complete each required form. The kit includes all FAA forms, Experimental sticker (in black), data plate, and a convenient placard decal sheet. P/N 13-04244 .....**$19.95**

SPORT PILOT PRE-PRINTED LOGBOOK ENDORSEMENTS

The Instructors Endorsement Pack contains 14 sheets of labels. Each sheet of labels contains 10 copies of a specific endorsement. Each 2" x 4" endorsement label is identified by title and FAR number, has the exact wording as required by the regulations, and has data-prompted blanks for the students' name, your name, CFI cert.#, Biennial Flight Reivew Certification 61.56(a).

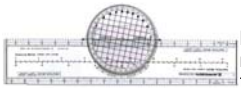
ASA CX-3 ELECTRONIC FLIGHT COMPUTER

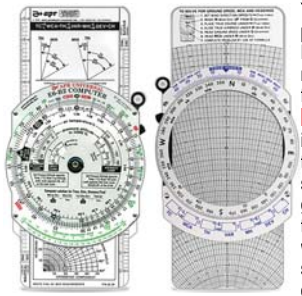


Note: To mount the CX-3 flight computer, use the MGF Sport Stratus mount combined with any MGF Sport yoke, suction, glare shield mount. (See Accessories)
The CX-3 Flight Computer provides a fast, accurate flight computing solution and takes confusion out of the equation for ground school study, preflight planning, and enroute navigation. Fast, versatile and easy to use, the CX-3 delivers accurate results quickly and efficiently through an intuitive menu structure designed to follow typical flight planning sequences with a minimum of keystrokes. It can be used on all FAA and Canadian pilot, mechanic, and dispatcher knowledge exams.
A multitude of aviation functions can be performed on the CX-3 flight computer including those related to time, speed, distance, heading, wind, fuel, altitude, cloud base, standard atmosphere, glide, climb & descent, weight & balance, as well as a holding pattern function to help determine entry method and holding details. A calculator, clock, timer and stopwatch are also built in along with multiple settings for lighting, backlighting, themes, scrolling speed, time zones and more. Weight: 0.70 lbs. Dimensions: 3-1/3" W x 6-1/2" H x 3/4" D
P/N 13-01040 ..... **$79.95**

PN-1 NAVIGATION PLOTTER

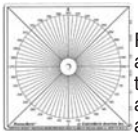
Allows easy identification of WAC and Sectional chart scales. Calibrated in statute & nautical miles.(Size: 12.25" x 4")
P/N 13-21724.....**$12.00**

PJ-1 ROTATING AZIMUTH



Measure the true course or to determine the magnetic course. Includes scales for sectional terminal area & WAC charts in statute & nautical miles. Size: 3.25 x 13"; 3-3/8 " Dia.
P/N 13-21726 .....**$12.50**

BLIND SPOT'S ALL-IN-ONE PILOT'S RULER



The Blind Spot's Original Pilot's Ruler has been designed to offer pilots maximum support, in the simplest way. The concept enables the pilot to solve VFR navigation problems and provide useful information, both at a glance, in only a few seconds and with only one instrument! The use of the ruler is extremely simple & fast. The pilot can concentrate more on flying, less on calculating, thus fly more relaxed and safer. Blind Spot's Original Pilot's Ruler (for USA airspace) is a two-sided pilot's ruler designed for flight preparation and use in flight. Size: 1.8" x 12". P/N 13-11733 .....**$19.95**

AERO PRODUCTS RESEARCH E6-B UNIVERSAL FLIGHT COMPUTERS

The very latest in air navigation computers include not only T/S/D and Dead Reckoning calculations, they now incorporate "Universal" features for world-wide use.
E6-B2U - Deluxe, top-of-the-line quality, 5" x 9-5/8", all aluminum construction. Includes: • "Universal conversions: feet to meters, pounds to kilograms, liters to US gallons, US gallons to IMP. gallons or fuel weight or oil weight. • Patented micro-set (aligns scales to perfect accuracy).• Flush dials to eliminate parallax; answers are read with absolute accuracy. • Scales with contrasting colors for easy computation. • "Universal" conversions color-coded for quick and easy use. • Heavy gage anodized aluminum for added rigidity and non-glare surface. • 2-color fully illustrated instruction manual plus supplement on Dead Reckoning, Wind Effect Theory and Calculations ..... P/N 13-03492.....**$27.85**
E6-B4 - Pocket-size deluxe, all anodized aluminum; high/low wind slide. P/N 13-03960.....**$31.90**
E6-B8 - Budget student computer, plastic body, plasticized wind slide..... P/N 13-03495.....**$13.95**
E6-B8P - Budget student computer, plastic body, plasticized wind slide; includes an 8"Navigation Plotter. ..... P/N 13-03496.....**$16.50**

RADIALMATE COMPASS ROSE

RadialMate™, a 3.5" clear 20 mil plastic compass rose allows you to instantly read a desired course by placing the product over any sectional, chart, or graphic. There are no reciprocals to calculate. RadialMate™ comes with a hole in the middle, allowing additional use as a string compass. It is conveniently sized to fit in your pocket. RadialMate™ also contains Safe Flight's vertical scale which measures mileage for WAC, SEC, TAC, NOS, JEPP and ELA charts eliminating the need for that ruler you can never find. P/N 13-08799 ..... **$4.50**

JEPPESEN STUDENT CSG COMPUTERS

This computer made of composite materials works just like an aluminum computer with all the same functions and features, but at a lower cost. Ideal for new students or as an extra to keep in your desk at home. Printed numbers are sharp, clear, and easy to read. Like all Jeppesen products, the quality is superior.
Plastic .....P/N 3866 ..... **$14.49**

ASA E6B METAL FLIGHT COMPUTER

The best slide-rule-style flight computer on the market, with solid aluminum construction and easy-to-read lettering. ASA's E6-B features a wind component grid and comprehensive crosswind correction chart, and on the other side the slide computes time, speed, distance, altitude, true airspeed, and density altitude problems as well as conversions. Nautical and statute scales are included.
Standard..... P/N 13-00813.....**$24.95**
Mini..... P/N 13-02299.....**$23.95**

ASA COLOR E6-B COMPUTER

ASA's color E6-B is enhanced with color for quick identification of key elements and easier readability. The new color E6-B is based on ASA's most popular model: slide-rule-style flight computer, the ASA-E6B. It's identical in size to the venerable favorite, made with the same solid aluminum construction and featuring all the functionality pilots have relied on for decades. On the circular side, black is used for the rate arrow and units to be calculated, red is used for weight and volume and blue is used for distance, time and temperature scales. On the wind side, colors are used to identify wind variation: blue identifies west (or right wind correction angle) and red identifies east (or left wind correction angle). Measures 9-3/4" x 5". In The Box: Vinyl case, and Instruction booklet. P/N 13-10288.....**$29.50**

VOR FLASH CARDS

Designed to show any pilot how to look at a VOR receiver and read it at a glance. There's no time in the cockpit to spend slowly analyzing the CDI needle and To/From indicator! VOR-At-A-Glance flash cards will teach you: • The difference between VOR courses and VOR radials • What the VOR does not show you • The best way to think about the course deviation indicator • Inbound vs. outbound course indications • How to instantly know your position relative to the VOR • Tricks for reading interception courses right off the VOR • Pilots need to be able to look at a VOR and read the information off immediately. It's just like when you first learned how to read. There is a big difference between the ability to sound the words out and the ability to look at a work and just read it. Pilots need to be able to "read" the VOR!
P/N 13-05773 .....**$39.95**

CAPTAIN BARRY SCHIFF X-COUNTRY PLANNING LOG

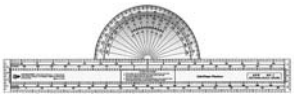
Covers all necessary flight planning "from the ground up" Capt. Barry Schiff comprehensive pre-flight & en route complete "cross-country planning program", assures safe, error free, cross-country flight planning before and during all flights. Guides you trough all stages in your pre-flight planning, organizes the required estimates to determine ground speed, time en rout em and arrival. Records distances to check points, arrival times, and the related radio frequencies needed.
P/N 13-12108 .....**$5.95**

PS

PLOTTERS - COMPUTERS

VOR TRAINING AID

Learn and practice the principals of VOR and NDB navigation, with ease, prior to flight. Instructors can effectively teach and discus navigation with clear, realistic, high quality visual aids.



P/N 13-16037.....**$18.95**

ADF TRAINING AID

The ADF Training Aid features realistic rotating ADF bearing indicator needle and a heading indicator dial. List, depict and erase NDB intercept instructions and holding clearances in the practice area.

P/N 13-16038.....**$15.95**

APR PLOTTERS

Scales on white background for easy readability set on see-through "clear vision" vinyl. Statute and nautical scales are parallel, making conversion easy. One side scaled for WAC charts, one for Sectional charts. "How-to-Use" instructions printed on plotter. Includes illustrated practice problems.

Description	Part No.	Price
13" Plotter NP-13 S tandard for WAC and Sectional Charts	13-19913	**$9.95**
13" Plotter WSNP-13 WAC and Sectional Charts (Lexan) Lifetime Guarantee	13-03509	**$12.50**

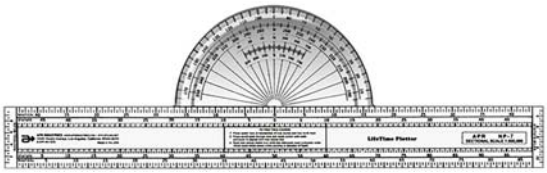
APR FCL-12 & 24 FLIGHT CHECKLIST HOLDER

Used by private, corporate, and military pilots. Adjustable lighting and viewing angle, color band isolates each item being checked. Mounts for right or left hand use. 84" pachment scroll lets you customize your specific checklists for review in flight. Designed to U.S. Military Pilots specification. 5" x 4" x 1-1/2" NSN 1680-00-489-1313

APR FCL-12 Flight Checklist Holder.....P/N 13-06714 .....**$115.75**

APR POCKET NAVIGATION PLOTTER - 8"



Now you can own the easiest and most accurate plotter available for use on all World Aeronautical & Sectional Charts.

WSNP-8 Pocket Navigation Plotter is the best in-flight plotter. It has four protractor scales and fourteen nautical, statute, and terminal area scales for Sectional, WAC, and Terminal Charts.

P/N 13-15121.....**$9.90**

PLOTTERS AND SLIDE COMPUTERS

These are specially-designed for easy use. The APR plotter has parallel statute and nautical scales, with one side scales for WAC charts and the other for sectional. Made of clean white heat-resistant hi-flex vinyl. Operating instructions are included. The slide computer is printed with speed ring lines representing values of one speed unit. Includes formula boxes added to the plate below the azimuth ring.

E6-B4 Aluminum.....P/N 13-03960 .....**$31.90**

E6-B HIGH SPEED SLIDE

Picks up where the ASA-E6B metal flight computer leaves off, providing calculations for the high-speed realm of flight (in the range of 220-700 knots or mph). Pilots simply replace their current slide with this one, which then continues to use the circular computer from traditional E6-Bs. The slide also includes a compressibility correction chart, ICAO Standard Atmosphere reference table, a worldwide time conversion table, speed limits for the U.S., and the most frequently used weight and balance formulas; all of the pertinent formulas and information required for high-altitude, high-speed operations. Comes with easy-to-follow instructions.

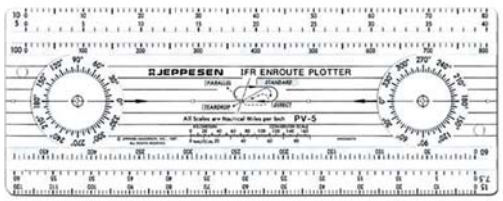
E6-B High Speed Slide .....P/N 13-02301 .....**$11.75**

RUNWAY SELECTOR

Runway Selector is a simple tool pilots use to select the best runway based on prevaling winds. Runway Selector is a quick easy visual reference for all pilots! As an added bonus, the tool can also be used to confirm your take-off runway as well!

Together, all the features of Runway Selector serve to provide multiple quick references for any pilot. The tool is also an excellent tool for instructors to use in teaching a new student pilot in a myriad of situations and teaching situations!

P/N 13-14811.....**$19.95**



TRAFFIC PATTERN ORIENTER & SPEED COMPUTER

Graphically displays the headings required for standard or non-standard traffic patterns. Time, speed , distance computations, fuel consumption, true airspeed, mach and true altitude conversions.

P/N 13-01133.....**$15.95**

JEPPESEN PV-5 IFR ENROUTE PLOTTER

Size 3-3/16" x 8-1/2" P/N 13-21718.....**$9.50**

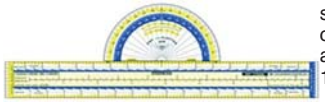
AERO PRODUCTS RESEARCH PLOTTERS

APR PLOTTERS

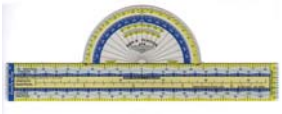
PROTRACTOR PLOTTER PCP-202 T/S/D - APR has designed the first combination T/S/D pocket computer combined with rotatable plotter cursors. Align the airplane cursor along any appropriate meridian. PVC plastic discs, 3-3/4" dia. Plastic cursor 4-3/4"
P/N 13-06681.....**$13.75**

TRAFFIC PATTERN ORIENTATOR TPP-203 - The TTP-203 Traffic Pattern Orientator graphically displays all headings for left (standard) and right (non-standard) traffic patterns when the runway heading is aligned with the compass rose. Light signal "acknowledging" instructions are also shown. PVC Plastic discs, 3-3/4" dia. Cursor 4-1/4 P/N 13-06682.....**$13.95**

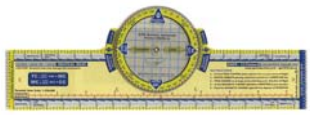
DENSITY ALTITUDE PERFORMANCE COMPUTER DAP-204 - Shows the aircraft's rate of climb and minimum - required takeoff distance. PVC plastic discs. 3-3/4" dia. Important: Always consult your pilot's operating handbook as their computer does not supplement or replace the manufacturer's performance data. Not applicable to turbocharged aircraft. P/N 13-06683.....**$13.75**



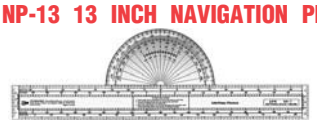
T/S/D PROTRACTOR PLOTTER PCA-302 - APR has designed the first combination T/S/D pocket computer combined with rotatable plotter cursor. Align the airplane cursor with the true or magnetic course. Align the arrow cursor along any appropriate meridian. Anodized aluminum discs, 3-3/4" dia. Plastic cursor 4-3/4"
P/N 13-06684.....**$15.95**



TRAFFIC PATTERN ORIENTATOR TPA-303 - The TPA-303 Traffic Pattern Orientator graphically displays all headings for left (standard) and right (non-standard) traffic patterns when the runway heading is aligned with the compass rose. Light signals and "acknowledging" instructions are also shown. Anodized aluminum discs, 3-3/4" dia. Cursor 4-1/4" P/N 13-06687.....**$16.75**

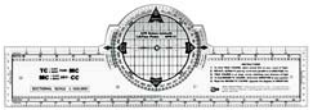


DENSITY ALTITUDE PERFORMANCE COMPUTER DAA-304 - The Density Altitude Performance computer shows the aircraft's rate of climb and minimum-required takeoff distance. Anodized aluminum discs. 3-3/4" dia. Important: Always consult your pilot's operating handbook as their computer does not supplement or replace the manufacturer's performance data. Not applicable to turbocharged aircraft. P/N 13-06688.....**$16.75**



DNP-13 - 13" Deluxe Navigation Plotter with nautical and statute scales, sawtooth graduated color-coded scales for Sectional, WAC, and Terminal Charts. PVC plastic 13-5/16" x 4"
P/N 13-06696.....**$10.75**

DNP-8 - 8 " Deluxe Pocket Navigation Plotter with sawtooth graduated color-coded, nautical, statute, and terminal area scales for Sectional, WAC, and Terminal Charts. PVC plastic 8-1/8" x 2-7/8"
P/N 11-07723.....**$8.95**



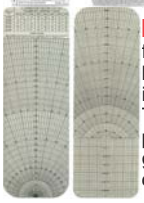
DNPR-13 - 13 " Deluxe Plotter with Rotatable Azimuth Compass Rose, nautical & statute sawtooth graduated color-coded scales for Sectional, WAC, and Terminal Charts. PVC plastic 12-5/16" x 4-1/2"
P/N 11-07724.....**$12.95**

NP-13 13 INCH NAVIGATION PLOTTER - Four precision protractor scales and fourteen nautical and statute scales for Sectional, WAC, and Terminal Charts. Plotting is easy and accurate when done with an APR plotter. Instructions are printed on the plotter. Constructed with durable plastic. Dimension: 13 5/6" x 4"
P/N 13-19913.....**$9.95**

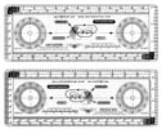
NPR-13 13 INCH AZIMOUTH COMPASS ROSE NAVIGATION PLOTTER

Four protractor scales and fourteen nautical and statute scales for Sectional, WAC, and Terminal Charts. Instructions are printed on the plotter. Durable plastic. Dimension: 13 5/16"x 4 ½"
P/N 13-03511.....**$10.90**

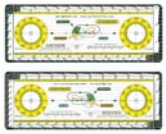
HPC-206 - Holding Pattern Computer. Pocket size. Visually displays entry headings from all directions for both standard and non-standard holding patterns. Shows holding speeds and inbound time to fix. Colorful segments for easy learning and use. 4" x 5" HOLDING PATTERN COMPUTER displays entry to standard and non-standard holding patterns, maximum indicated holding speeds, and time of inbound leg to fix. Complete instructions. "Best on the market" designed by Capt. Barry Schiff P/N 11-07722.....**$12.50**



E6-B2- H/S - E6-B2 D with High Speed Wind Slide of 100 to 800 ks or miles. Compressibility "F" factor scale shows the "F" correction factors for TAS. Gives calibrated airspeed from 200 to 550 knots at pressure altitudes of 10,000 to 50,000 feet. Crosswind grid shows method to calculate crosswind and headwind components. Anodized aluminum computer, 4-7/8" x 11-1/8" P/N 13-06673.....**$39.95**



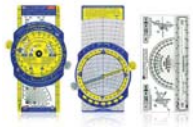
E6-B8D - Deluxe all plastic student Pilot Wind Triangle & T/S/D navigation computer. Features the new exclusive windspeed cursor which shows the speed and drift without pencil marks. Color-Coded sawtooth scales. Calculates all necessary flight planning & enroute navigation requirements. Easy to learn and use with the instructions printed on the computer. 4-1/2" x 8-3/4" P/N 13-06675.....**$17.75**



E6-B9 - Universal Standard Wind Triangle & T/S/D Large anodized aluminum computer. calculates all necessary flight planning & enroute navigation requirements. 4-7/8" x 9-5/8"
P/N 13-03497.....**$24.75**

LOW & HIGH SPEED SLIDES - Low & High Speed Slide for E6-B9 or E6-B2 models. Low wind speeds 10 to 270, high wind speeds 100 to 800 kts or miles, compressibility "F" factors scale shows the "F" correction factors for TAS. Gives calibrated airspeed from 200 to 550 knots at pressure altitudes of 10,000 to 50,000 feet. Crosswind grid shows method to calculate crosswind and headwind components. 3-7/8" x 11-1/8"
P/N 13-06680.....**$12.50**

JNP - Enroute IFR Radio Facility Chart Plotter for NACO and Jeppesen Radio Facility Charts, 12 high visibility scales, displays entry diagrams of standard and non-standard holding pattern, compass rose plotter, km to nm and nm to km conversion scales. 8-3/4" x 3-1/4" P/N 13-06704.....**$10.85**



DJNP - Deluxe Enroute IFR Radio Facility Chart Plotter for NACO and Jeppesen Radio Facility Charts, 12 high visibility scales, displays entry diagrams of standard and non-standard holding pattern, compass rose plotter, km to nm and nm to km conversion scales. Lifetime guarantee, LEXAN® 8-3/4" x 3-/1/4" P/N 13-06706.....**$11.95**

APR DRFC-1 POCKET IFR & RNAV FOR JEPPESEN & NACO CHARTS - Has 13 scales for Jeppesen Radio Facility and NACO Charts. Shows a compass rose and a color-coded illustration for parallel, teardrop, and direct entries to standard and non-standard holding patterns. 6" x 3 ½". Lifetime Guaranteed. P/N 13-06701.....**$10.95**

DELUXE INTERNATIONAL PROTRACTOR & PARALLEL RULE PLOTTER - Designed with high visibility color graphics, a tinted grid, and larger numbers and lines for easier positioning and reading. This plotter eliminates the need to use dividers and parallel rulers. A hole in the center of the instrument is used to conveniently mark and rotate the plotter. WAC/ONC 1:1,000,000 VIS/TERM 1:250,000 Scales, PVC plastic Dimension: 5" x 5" P/N 13-06707.....**$8.50**

E6-B8DP DELUXE STUDENT PILOT FLIGHT COMPUTER WITH NP-8 PLOTTER - Features the patent pending exclusive Wind Speed Cusor Arm that quickly tells you groundspeed, wind correction angle, and magnetic heading. Eliminates two set-ups and the need to mark dots on the plastic disc. The E6-B8DP calculates all necessary flight planning and en route navigation requirements. Color-coded sawtooth scales are user-friendly and allow for quick, accurate reading. P/N 13-06676.....**$19.75**

PS

ERASABLE HIGHLIGHTERS

These erasable highlighters allow you to highlight all necessary information. They also allow you to erase any marks you've made by mistake! With dual ends, these highlighters will make everything you do in the cockpit easier and more efficient.

CHINA MARKERS

The economical solution for marking on porous and non-porous surfaces such as paper, cardboard, plastic, wood, glass, ceramics, and some metal.

Blue .....P/N 14-01623 .....**$1.35**
White .....P/N 14-01625 .....**$0.88**
Yellow.....P/N 14-01626 .....**$1.50**

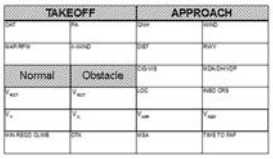
UNBREAKABLE SUPER PLOTTER

Here's a special flight planning tool we really like. A colorful little plotter with a rotating azimuth that makes it much easier to plot a courseline. Place the compass rose over your departure point and rotate the straight edge towards destination. Presto.. an instant readout of your course! Reads distance in statute miles or nautical miles for both sectional and WAC charts. Made of bullet proof Lexan. Won't crack, break, or warp in extreme heat or cold. P/N 13-03473 ..... **$18.95**

PILOTS FREQUENCY REMINDERS

This little prompter is designed to allow the pilot (especially students) to pre-plan which frequencies will be used during a flight and hang this handy item close at hand in the cockpit. this is ideal when operating in a high density airport area. Helps eliminate cockpit clutter and searching for often used frequencies. P/N 13-04391 ..... **$5.50**

ON COURSE AVIATION PRODUCTS CHART MARKS



Customize your charts with these highly visible, self sticking, removable accents, outlines, & notes. Add a compass rose to any airport or airway intersection, outline VOR information, accent airport or communication information. 20x20nm see through notes accept pencil or pen for your special information. All are easily removable after your flight.

.....Note (11/package).....P/N 13-30110 .**$3.50/ea.ea.**
Accents (16/package).....P/N 13-30113 .....**$3.50/ea.**

PILOT & COPILOT SEAT HEIGHT PLACEMENT TOOL

This tool is a must have for any pilot and/or Flight School. Here are a few questions to ask yourself that will help explain why a pilot should use this Seat Height Placement Tool before every flight. This cockpit tool gives the pilot the advantage of consistency in their seat height placement in any airplane they fly. Industry wide, landing accidents have been on the rise. A majority of these can be attributed to improper seat height adjustment and sight picture. The Eye Aligner takes the guesswork out of where to adjust your seat, as well as where the proper Eyeline should be. P/N 13-19015 .....**$89.95**

TOLD CARDS

Told Cards are a great cockpit accessory for pilots flying in VFR and IFR conditions.

Description	Part No.	Price

With this kind of versatility upgrading your tablet will not require a change of kneeboard. For all iPad versions, tablets and smart phones in a thick case.

P/N 13-16550 .....**$26.85**

EFB CADDY

In a word it is all about "SAFETY"! With the advent of Electronic Flight Bag(EFB) software, Tablet technology and ADS-B receivers, today's GA pilot has access to reasonably priced, portable technology that greatly improves the safety conditions, under which they can now operate. Enhanced situational awareness and reduced pilot workload, both preflight and in-flight, are but two of the several benefits. EFB CADDY was designed to further improve the pilot experience, by addressing the deficiencies found in many of the current Tablet holder products. Secure physical attachment and head-up, unobstructed panel and outside view are critical features.

HARPER KNEEBOARDS

FIXED RING ULTIMATE KNEEBOARD™

- The fixed-ring model is the most popular kneeboard. The convenience of the snap-open, ring binder design makes it ideal for quickly changing pages, charts and checklists. Pilots flying into multiple airports or flying a variety of planes will find the fixed-ring design perfectly suited for them.

P/N 13-07022 .....**$46.50**

LOOSE RING ULTIMATE KNEEBOARD™

- Our loose-ring model has seven independent rings which are not bound together. The result is a kneeboard that molds perfectly to the shape of the pilot's leg. It is ideal for pilots who primarily fly the same airplane in and out of the same airport.

P/N 13-07023 .....**$46.50**

NELSON KNEEBOARDS

APPSTRAP FOR THE IPAD MINI 4

The new AS-mini 4 maintains AppStrap's commitment to excellence and pilot-approved design. The form-fitting gel-case adds protection to the damageable device and mates to the elastic leg strap using a unique and secure Velcro mating system. This allows the iPad to be repositioned with ease, stowed during flight, or adjusted to portrait/landscape mode. The unique modular tilt pad allows the device to be positioned at the optimum viewing angle and helps reduce annoying glare.

As with all of AppStrap's product offerings, the AS-mini 4 employs most-needed features for routine cockpit use. These tablet kneeboard devices maintain a low-profile design without sacrificing on quality or durability.

P/N 13-18750 .....**$38.95**

GENESIS X IPAD ROTATING KNEEBOARD / CASE

Made to fit all generations of iPads and port locations. Main frame is made of tough ABS and the corners made of Polyurethane. The frame is contoured around the rear camera and the front camera is completely unobstructed to allow access for Facetime TM, photos or video. Size: 10" x 7.8" x 1".

P/N 13-12391 .....**$33.50**

GENESIS IPAD CLIPBOARD ADD-ON

A sturdy 3001 grade aluminum clipboard is riveted to a soft velvet backing to protect your iPad touch screen. Pen holder at the top. This is an add-on accessory for the genesis and genesis 2 iPad cases. Not a standalone kneeboard.

CLASSIC TORCHGRIP®

TORCHGRIP® is a patented, made-in-the-USA, universal computer tablet accessory that functions as both a versatile stand and handle providing secure and comfortable handling of your device. Compatible with all iPads and most other tablets. Its durable and stylish design is ergonomically crafted and lightweight. Every time you set down your tablet, TORCHGRIP® is a stand. The handle rotates 360 degrees allowing multiple viewing angles in both portrait and landscape positions. The base of TORCHGRIP® securely attaches directly to the back of your tablet or case (reference "Specifications" for incompatible surfaces) using pre-mounted 3M® VHB™ adhesive which can be removed later to transfer TORCHGRIP® to a new device. The handle detaches by pushing a release button to slide it out of its mounting slots for easy stow and go.

MGF IPAD MINI / AIR SPORT KNEEBOARD

The iPad Kneeboard Sport™ is the perfect aviation kneeboard, mount and everyday case for the iPad Air. It is designed for the pilot looking to secure their iPad on either leg, who needs the minimal case, but still wants a very secure fit, or for the pilot that wants to mount their iPad. In black, smooth polycarbonate, the Sport™ adds protection and great feel to the iPad. The iPad Kneeboard Sport™ was designed for pilots by pilots. It is designed to work in aircraft where space is tight or where there is a cyclic, or control stick being used between the legs. It is perfect for pilots of helicopters, sport aircraft, and when there is tight yoke clearance or when mounting is desired. NOTE: This is the iPad Kneeboard only. Mounts sold separately. **Compatible iPad Aviation Mounts:** The iPad Kneeboard Sport™ is designed to mate using a quick-connect Sport™ Adapter wmounting system and an iPad Sport™ Mount. Mounting options include a iPad yoke mounts, panel/glare shield, or suction cup mounting system offering flexibility in its use in different aircraft and are sold separately. For more information, go to the Mounts category.

IPAD 2/3 KNEEBOARD SPORT

The iPad Kneeboard Sport is designed for the pilot looking to secure their iPad on either leg, who needs the minimal case, but still wants a very secure fit. In black, soft to the touch polycarbonate, the Sport adds protection and great feel to the iPad. The iPad Kneeboard Sport was designed for pilots by pilots. It is designed to work in aircraft where space is tight or where there is a cyclic, or control stick being used between the legs. It is perfect for pilots of helicopters, sport aircraft, and when there is tight yoke clearance. Features: • The iPad Kneeboard Sport is made of black, soft-to-the-touch polycarbonate and is strong and lightweight. It is a form fitted case that holds the iPad securely in place. The cut-out design provides access to all of the iPad's ports, buttons and controls. The Sport is compatible with Apple's Smart Cover. • There are two aluminum rails on the underside of the case that frame your leg and, with the wide elasticized Velcro strap, allows the case to be held securely and comfortably to your leg. There are four rubber pads on the rails that allow the case to sit on a desk or table securely as well. • It is designed to be thin with a removable cover so as to be clear of the yoke, cyclic or control stick. It has a sleek look when used outside of the plane. • The removable knee strap can be left in the plane leaving you with a beautiful, sleek case for every day use. .....P/N 13-11310 .....**$99.00**

MGF PRODUCTS

MGF FLIGHT BAG PLC LITE

MGF Flight Bag PLC Lite - Created to be the perfect bag for pilots looking for a light iPad ready flight bag. The PLC Lite is a high quality flight bag built to the same high standards as all other MGF products. Designed by pilots to meet the exacting needs of the cockpit environment. The PLC Lite is built from the ground up to be the ultimate solution for storing and protecting the essentials you will need while flying, with a special focus on your most important tool, the iPad. It has a specially designed, protective pouch to hold an iPad, laptop computer or many other electronic flight bag devices.

P/N 13-19545.....**$99.00**

MGF IPAD FLIGHT BAG PLC PRO

The Flight Bag PLC™ Pro is for the pilot wanting to move from a conventional flight bag to one for the "Paperless" cockpit. It has a specially designed, airport check-point friendly protective pouch to hold an iPad, laptop computer or many other electronic flight bag devices. All of the compartments are easy to see into, making it simple to find what you are looking for. There is room for everything a pilot needs to take with them in-flight. The Flight Bag PLC™ Pro bag is designed by pilots for pilots to be the ultimate flight bag for all aviators. This bag gives you the style, storage, organization, compact size and functionality like never offered before.

P/N 13-11594.....**$199.00**

MGF IPAD FLIGHT BAG PLC SPORT

A smaller version of the Flight Bag PLC Pro is finally here. The Flight Bag PLC Sport. Enough room to carry one headset, an iPad/EFB, a hand held radio, and other gear. Same industry leading quality, in a compact size. Headset Storage: Storage for 1 headset or overnight gear. iPad Storage Pocket: Padded pocket designed to protect the iPad or other tablets. Protects Laptop: Padded pocket can also store and protect up to a 13" laptop. Radio Storage: Large side pocket is designed to hold a hand held radio securely. Mesh Pockets: Interior pockets are made out of mesh to easily locate and access your gear. Water Resistance: Exterior of the bag is made of sail cloth making it water resistant. ..... P/N 13-18712 ..... **$139.00**

MGF BACKPACK STRAP

MGF Backpack Strap is intended for use with the Flight Bag PLC Pro, PLC Sport, and PLC Lite. Maximum comfort with much less pain on the shoulders which helps minimize fatigue. Helps items feel much lighter than actual weight. Padding and grip prevent straps from sliding off of shoulders. Clips onto bag with three easy hooks. Rotating hook heads make sure you never get tangled straps ever again!. Fully adjustable for all sizes. .... P/N 13-19546 ..... **$30.00**

MGF LUGGAGE CART

The Luggage Cart is the perfect accessory for those that want to add wheels to any flight bag or other luggage that doesn't already have wheels. The Luggage Cart is easily detachable from the flight bag, and folds to a compact shape for quick storage. Two strong elastic cords with plastic hooks can hold multiple bags steady for easy travel.

Both the Flight Bag PLC™ Pro and the Flight Bag PLC™ Duffel, not included with the Luggage Cart, have a pass through compartment on the back of the bag which allows the Flight Bag to be secured to the cart without the need to use the included straps. ..... P/N 13-19548 ..... **$35.00**

MGF PEN HOLDER

Add this self-stick pen holder to your MGF clipboard or any other clipboard to provide a convenient and secure place to store your pen. **** Not designed to work the MGF Mini Clipboard.*** Securely hold a variety of pen and pencil sizes with this unique little holder. Black ..... P/N 13-05569 ..... **$39.95**
Green ..... P/N 13-05570 ..... **$39.95**

FLYBOYS CHECKLIST PAGES

Heavy-uty plastic FlightCrew checklist pages. Sturdy construction extends the life of these pages. Easy to use at made at a thickness that helps prevent the pages from becoming brittle or tearing in cold environments. Pages are top loading and are great for protecting your local approaches or condensed aircraft checklist. No covers included.

Sheet Size: 8" X 5"..... PN 13-05627.....**$0.70**
Bulk back (25 Pk.) w/ Covers... PN 13-05629....**$15.50**

OVERSIZED CHECKLIST PAGES

These are great if you are ready to start putting originals in the pages instead of shrunken copies! As you can see, a full size Jeppesen chart slides right in! Now your mission data cards fit, your target photos can get more detail in them, and your attack cards slide right in without making a trip to the copier to shrink or the paper cutter to trim! These are the same construction as the regular, just bigger. Great in extreme temperatures and long lasting. Spacing on the holes matches up with the FlyBoys KneeBoard with Eyelets and Jeppesen charts.Size is 5 1/2" X 8 1/2" - really makes a difference.

Sheet Size: 8-1/2" X 5-1/2"..... PN 13-05628 .....**$0.95**

EXTRA TALL PAGES FOR BIG CHECKLIST

Heavy duty plastic FlightCrew checklist pages. Sturdy construction leads to a long life. Easy to use but heavy enough to not get brittle or tear in extremely cold environments. Pages are top loading and are excellent for protecting your local approaches or condensed aircraft checklist. USABLE interior dimensions: 5"x11", overall width including checklist ring holes 5 7/8"

Sheet Size: 5" X 11" ..... PN 13-05630 .....**$0.73**

FLYBOYS HARD PLASTIC COVER SET FOR EXTRA PAGES

The new Cover Set for the FB2203 pages are great. They are perfect for protection of the pages as well as providing structure for these tall pages. Without these covers, they tend to sag due to their height. Buy as many pages as you need, as many cover sets as you need. Sheet Size: 5" X 11" ..... PN 13-05632 .....**$6.95**

OVER SIZED FLIP CHART PAGES

Over sized top loading pages with three ring holes in the top for those checklists and situations that flow better than the normal "book format." Dimensions: 9.25" x 6".

Sheet Size: 8" X 5"..... PN 13-05633 .....**$0.79**
Bulk Pack (25 Pk.) ..... PN 13-05634 .....**$13.50**

FLYBOYS CHECKLIST RINGS

Durable. Unbreakable. Multi-Purpose. Safe. Opaque nylon ring to hold your checklists and in-flight guides . Or use them for outdoor use where metal rings would rust or wear out. Patented ball-lock design to prevent FOD out on the flight line. The nylon ring is very low resistance as well. Once they are closed, they stay closed. When closed, they are a 1.5" diameter ring. Opened, they stretch to 5". For most applications 4 rings is plenty for keeping your checklists or inflight guides secure. 10 per pack.

Opaque.....P/N 13-05621 .....**$10.50/ Pack**
Black.....P/N 13-08644 .....**$10.50/ Pack**
Red.....P/N 13-08643 .....**$10.85/ Pack**

FLYBOYS PILOT LOGBOOK

If you are serious about keeping track of your flight time, and operate Army or USAF rotary aircraft - this is the book you need with no question. Record your own flying history of missions, upgrades, checkrides and awards right in this beautiful and durable logbook. This book will hold at least 10 years worth of flight history.Dimensions: 9" tall x 7 7/8" wide x 1" thick

Airforce Pilots Fly Logbook..... P/N 13-05625 ..... **$29.95**
Army Pilots fly Logbook..... P/N 13-06410 ..... **$29.95**

FLYBOYS REMOVE BEFORE FLIGHT KEY CHAIN

This nylon strap streamer with the REMOVE BEFORE FLIGHT rubber patch is an instant reminder of the real warning flags that hang off of airplanes on the flight line. They're supposed to be visible and easy to find during the walk-around inspection. Well, now you won't have to "walk around" your house or fish through your gym bag trying to find it! ..... P/N 13-05626 ..... **$4.99**

FLYBOYS MAPSTRAP THIGH STRAP

adjustable to fit just about anyone and features a see-through strap with a healthy portion of hook-and-loop to keep paperwork secure. The leading and trailing edges of the lower strap feature no-slip PVC material to help keep the strap secure on your leg.

P/N 13-05840.....**$33.75**

ASA VFR TRI-FOLD KNEEBOARD

This kneeboard uses the VFR Kneeboard in a three-panel jacket. The left panel has ample room for small books, papers and oddly-shaped items. The center panel holds the kneeboard under clear plastic with a pen/pencil holder and buttonholes on either side.. The right-hand panel contains a clear pocket for easy map viewing, and the elastic leg band's Velcro closures fit any leg size comfortably. Black nylon with embroidered silver wings logo. Kneeboard is 6-1/2" wide x 9-1/2" high.

P/N 13-02712.....**$33.75**

BLOCKALLS TRAINING GLASSES

Designed by pilots for pilots. Blockalls™ resolve problems with existing view limiting devices. Weighing in at just under 1oz, it's easy to forget you are wearing them. Engineered to easily penetrate the seal of your headset eliminating the hassle of having to remove it first and can be worn for extended periods of time without discomfort, thanks to the soft rubber nose piece and streamlined temple tips. Tailored off center viewing also keeps more of your time inside the flight deck rather than outside. Recommended by AOPA/ Flight Training.

THE HOODY

Provides a complete view of even the most sophisticated instrument panel. Weighs less than 2 oz. Stores easily in a flight bag with the flaps folded in. The Hoody® fits most caps. No hooks, no clips, just slips on and off. Easily molds to the bill of your favorite cap. P/N 13-12753 .....**$19.95**

JIFFYHOOD

A lightweight plastic hood that does the job inexpensively, Jiffyhood stows rolled up in a flight case, or even in your pocket. Has an adjustable elastic headband for comfortable fit. P/N 13-03457.**$10.95**

FRANCIS IFR HOOD

Francis hood restricts your vision totally to your instruments & because its small, will not block any part of an instructors vision. Made of lightweight, shock-resistant plastic, and has cushioned face pad for comfort. Adjustable elastic headband. P/N 3362 .....**$27.50**

JEPP SHADES

Replaces bulky, hard-to-use instrument training hoods. The improved design allows better student/instructor interaction. The Cockpit proven design works conveniently under headsets and the universal adjusting strap reduces pressure on the ears and temple. The Velcro™ strap fits comfortably and flip-up lens allows convenient IFR/VFR flight transition. The high quality polycarbonate lens is impact resistant. P/N 13-404311 .....**$24.50**

FOGGLES

A creative solution to the problems caused by wearing a large hood on your head. Foggles fit and feel like glasses, but the opaque frosting on the top and sides let you see only the instrument panel. Your out the window view is always foggy. Wear them with headsets and microphone with no interference or discomfort. They come with a protective carrying case and weigh only two ounces.

Clear .....P/N 13-06500 .....**$18.95**
Yellow .....P/N 17-00039 .....**$22.95**

SUPER HOOD

Ideal with eye glasses or headsets it slides in under the headset without relinquishing control of the aircraft and it can be instantly removed at any time for a safe approach or landing. Blocks outside reference but provides a full panel view to reduce vertigo. Light weight (3 oz.) and comfortable. P/N 13-30200 .....**$21.75**

IFR TRAINING GLASSES

Polycarbonate Lenses (UV Protected). Adjustable frames High brow area to prevent "peeking". Opaque frosting to simulate actual IFR conditions. Protective carrying bag included P/N 13-12050 .....**$17.95**

VIBAN IFR TRAINING HOOD

Weighs only 2 oz., making it easy to put on and take off during flight. Provides a perfect view of the instrument panel while providing complete occlusion forward and to the side. Even more, ViBAN folds compactly to fit in its own durable case and is easily stored in your flight bag.

Without Nosepiece.....P/N 13-02022 .....**$38.95**
With Nosepiece.....P/N 13-02023 .....**$38.95**

OVERCASTERS

Overcasters is a unique IFR training tool which clips to glasses (sunglasses or RX) in seconds. Flip-up in one easy motion for easy transition. Feather light with no straps, helmets, or hoods. Accepted by IFR examiners for check-riders. P/N 13-33799 .....**$16.85**

CLOUD-EEZE™ IFR TRAINING GLASSES

Developed in order to balance the training value of a view limiting device without further limiting the pilot from being able to read his/her charts. Old Foggies™blend of precision fogging and custom powered corrective lenses allows for the precise amount of the instrument panel viewing without any view of the horizon. Old Foggies™ are available in customizable powers with no need for a prescription. Available in Clear and Light Mirrored Tint (a reflective coating that eliminates glare without further limiting visibility). Available Powers: 1.5, 2.0, 2.5 Cloud-eeze Clear Lens ..... P/N 13-05015 .....**$17.50**
Cloud-eeze Tint Lens..... P/N 13-05016 .....**$18.95**

BEST HOOD: IFR TRAINING HOOD

The 'Best Hood' is a sturdy paper hood which is amazingly simple yet very effective. Its inexpensive, it folds flat for the flight bag and is an excellent vision limiting device for instrument pilot training.Easy to use, the hood has a comfortable elastic headband and it fits easily over glasses.

P/N 17-00020 .....**$7.95**

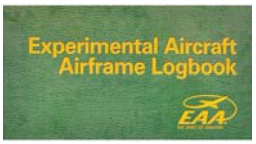
ASA AIRCRAFT FLIGHT LOG/ LOGBOOK (SP-FLT)

Spiral-bound and perfectly sized to fit in an aircraft glove box or chart pocket, this logbook is a quick reference to the recent history of the airplane so pilots have immediate access to the airplane's records. P/N 13-03163.....**$9.50**

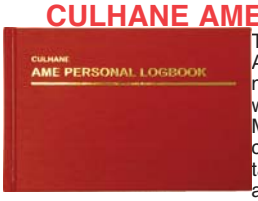
PLANEVIEW AIRCRAFT FLIGHT LOGS

Compact and can be easily stored in a glove box or side pocket. You only have to use the categories that are important to you. The owner of a Piper Cub would not use the logbook to the extent that a Piper Mirage owner/operator would, but it can easily accommodate the needs of both aircraft. Multiple pilots can use the book, so it can be used in an aircraft that is used in partnerships, fight schools, charter and many other operations where there are a number of different pilots flying the aircraft.



Single engine log .....P/N 13-01946 ..... **$7.95**
Multi-engine log.....P/N 13-01947 ..... **$7.95**

AIRCRAFT TECHNICAL LOG POST BINDER



Logbooks will stay in top condition when kept in a sturdy binder. This binder is specially designed to keep any number of our maintenance logs together. The binder is a "must have" for a multi-engine aircraft that could have up to 12 individual logs. Capacity: 1 Binder can easily hold a dozen component logbooks, more than enough for a 4-engine aircraft. P/N 13-12324 ..... **$28.50**

STUDENT PILOT LOGBOOK

This Logbook is designed for Student Pilots preparing for Private, Sport, and/or Recreational Pilot licenses. The student's learning progress is comprehensively tracked from his first flight to his last prior to his completion ride. This Logbook was designed for 14 CFR Section 61 (FAR Part 61) flight training requirements using 14 CFR Section 141 (FAR Part 141) documentation methods. There are upwards of fifty (50) critical areas of airmanship presented and tracked per flight. These areas range from take-offs, flight maneuvers, to landings. Discussion time is also tracked along with ground school briefing subjects. The Student Pilot and Flight Instructor can quickly identify problem areas or areas which do not need to be stressed to help the student in progressing towards the license. P/N 13-12957..... **$19.95**

Give them a try. You will be amazed at their performance. • Premium Microfiber Strands • Holds 300% of its weight in water • Waffle-textured towel is super absorbent • Non-abrasive and virtually lint free • Perfect for washing, drying and polishing all surfaces • Machine wash with mild detergent, no bleach. P/N 13-16584 .....**$16.99**

PS

BRIGHTLINE FLIGHT BAGS

BRIGHTLINE B2 COMPUTE BAG

The B2 Compute starts with the 2" Center Section, which is designed to hold 13" laptops. Add a Front and Rear End Cap and you have an extraordinary laptop bag. The Front End Cap allows you to store items such as power cords, backup drives, flash drives, digital cameras, smart phones, tools, keys, etc. Meanwhile, the Rear End Cap allows you to store your manilla folders and documents. This can be used daily or you can attach the 2" Center Section to any other FLEX module. For example, you can zip it in between the Front Bag and the Rear Bag when traveling. This bag also includes the Portfolio Handle which can be attached to the Front End Cap. This will only be used when you decide to remove the Center Section Two and zip the Front End Cap and the Rear End Cap together to make a "Portfolio Bag". P/N 13-11848 .....**$133.00**

BRIGHTLINE FLEX B4 SWIFT FLIGHT BAG

The B4 SWIFT makes a perfect VFR Flight Bag with room for one or two headsets, an iPad, a handheld radio, and organization for all the little tech accessories. Remove the 4-inch Center Section and end up with the B-zero SLIM. Two different bags for the price of one. The B4 SWIFT is often recommended as the ideal VFR flight bag. It's designed to hold one or two full-sized headsets plus a handful of charts, and/or an iPad, plus all the small stuff you'll want along for the ride. It also serves as an unbeatable carry-on personal bag when traveling on commercial flights, or just as a terrific daily bag for a wide variety of personal and professional uses. P/N 13-19653 .....**$174.00**

BRIGHTLINE B7 PILOT FLIGHT BAG

The B7 FLIGHT is the FLEX version of our award-winning original Pilot Flight Bag updated by now being configured with End Caps and Center Sections to allow even more flexibility. The B7 FLIGHT is perhaps the most useful flight bag ever designed. It's a fact that some days you need more gear than others. The B7 lets you carry a full set of flight gear for cross country and basic IFR flight. And then it lets you downsize to a smaller bag for those days when you're just going to take a quick VFR flight. P/N 13-16012 .....**$215.00**

BRIGHTLINE FLEX B18 HANGAR FLIGHT BAG

A Flight Bag or Travel Bag that can handle all your gear. Adaptable by adding or removing center sections as needed. Eight different bags can be built with the included modules. Eight bags for the price of one. Designed primarily for aviators who need a Pilot Flight Bag to pack multiple overnight items, such as clothes, shoes, coolers, etc., the B18 HANGAR fits the bill when maximum space is required. Also excellent for those in the Law Enforcement and Emergency Medical field. The B18 is 13.5" x 10.5" x 22" with interior storage capacity of 18 inches. (And remember, it is a soft bag so it can expand slightly in every direction.) P/N 13-19654 .....**$345.00**

BRIGHTLINE FLEX PACK CAP REAR

This specialized Rear End Cap turns any BrightLine Bag into a backpack (with limitations). This End Cap has backpack straps built in, but doesn't look like a backpack when the straps are not in use. It's easy to deploy the straps in less than 20 seconds. Use both shoulders to carry the load and be hands free when necessary.
P/N 13-18166 .....**$48.00**

BRIGHTLINE FLEX SIDE POCKET ECHO

This new SIDE POCKET ECHO is an infinitely-adjustable insulated water bottle pocket. It will securely hold anything from a small 0.5 liter size, up to a huge 1.5 liter size. The pocket can be adjusted to exactly the size of any container in that range. Secures with two clips on two straps. Allows one-hand removal and replacement of the bottle. P/N 13-18167 .....**$19.00**

Brightline Bag Shoulder Strap Extension Set	P/N 13-19489	**$16.00**
Brightline Flex Holster	P/N 13-19495	**$17.00**
Brightline Flex Array Base Plate	P/N 13-19493	**$8.75**
Brightline Flex Array Kit - Tall	P/N 13-19492	**$60.00**
Brightline Flex Array Kit - Short	P/N 13-19491	**$54.00**
Brightline Bag Luggage Works Adapter Set	P/N 13-19490	**$16.00**

BRIGHTLINE SIDE POCKET DELTA

The Side Pocket Delta is a double pocket designed to provide greater outside storage with a larger pocket. Installs onto any two side-by-side attachment bays. Even bridges the gap between two modules.
P/N 13-11989 .....**$19.00**

BRIGHTLINE SIDE POCKET CHARLIE

The Side Pocket Charlie is a pen pocket designed to hold pens and pencils in flight. In addition, it will hold eyeglasses and larger markers in the pocket behind the slots.
P/N 13-11988.....**$13.00**

BRIGHTLINE SIDE POCKET BRAVO

The Side Pocket Bravo is a small radio pocket designed for the small aviation radio. There is also room for extra batteries and smaller items. P/N 13-11987 .....**$13.00**

BRIGHTLINE SIDE POCKET ALPHA

The Side Pocket Alpha is a radio pocket that is designed to hold a large radio or water bottle. The zipper conceals an expansion flap. P/N 13-11986 .....**$13.00**

BRIGHTLINE REAR END CAP

The Rear End Cap is designed to mimic the outside of the Rear Bag. It is used to finish the exposed rear area of a bag, center section, or end cap by zipping on to the exposed area. By adding a Rear End Cap, not only do you add functionality, you protect the exposed zipper, preventing possible damage. The Rear End Cap is 13.5" x 10.5". The Rear End Cap does not come with a Main Handle or a Shoulder Strap. P/N 13-11985 .....**$27.00**

BRIGHTLINE FRONT END CAP

This is the Front End Cap that mimics the front of the Front Bag. It is 13.5" x 10.5" x 1.5". The Front End Cap is designed to hold your cell phone, wallet, Multi-Tool, cords, cables, etc. It is not designed to be used alone as the zippers are exposed and could be damaged. Works well with a Rear End Cap. P/N 13-11984 .....**$52.00**

BRIGHTLINE CENTER SECTION 11 INCH

The CS11 was designed primarily for pilots that frequently travel overnight. It will swallow several changes of clothes, a 13" laptop with room for binders and documents, or a small cooler. The CS11 is 13.5" x 10.5" x 11". (And remember, it is a soft bag so it can expand slightly in every direction.) The CS11 comes with a handle and a shoulder strap.
P/N 13-11983 .....**$98.00**

BRIGHTLINE CENTER SECTION 5 INCH

The CS5 was developed primarily for our IFR Flight Customers. With the B10, you get enough storage for VFR to light IFR flying. By adding a CS5, you can now add IFR Binders and documents, without changing the setup of the B10. Also, perfect for a couple days worth of clothes, two more sets of headsets, or a 13" laptop. The CS5 is 13.5" x 10.5" x 5". (And remember, it is a soft bag so it can expand slightly in every direction.) P/N 13-11982 .....**$56.00**

BRIGHTLINE CENTER SECTION 2 INCH

The CS2 is designed for carrying 13" laptops, iPads and assorted documents. This center section is 13.5" x 10.5" x 2". Not designed to be used by itself due to the possibility of damaging the exposed zippers. Can be added to any configuration to add storage for your 13" laptop. Simply zip the CS2 into a B10, B16, or B25 to get added storage for your 13" laptop, iPad, or folders and documents.
P/N 13-11981 .....**$36.00**

BRIGHTLINE BAGS O-RINGS

Slide the two pairs of o-rings onto the main handle of the BrightLine Bag and nestle the J-hook from your main suitcase in between the two pairs of o-rings to keep the J-hook from sliding side-to-side on the main handle of the BrightLine Bag as you pull your main suitcase around. Includes two pairs of o-rings (total of 4). P/N 13-11991 .....**$2.00**

The inside of the Flight Level has the signature Flight Outfitters orange, making it easy to find gear in a dark cockpit. There are two large padded side pockets for headsets. The large front zip pocket has 4 organization pockets, for chargers and other smaller items that tend to find their way to the bottom of other bags. The Bush Pilot Bag also features a pass through strap on the back to slide over rolling luggage handles and a leather shoulder strap pad. P/N 13-19105 .....**$139.95**

FLIGHT OUTFITTERS BUSH PILOT FOLIO BAG

Whether you're soaring above the clouds in your Cirrus or closing a big deal in your desk chair, this Folio Bag looks like it just left the flight deck of a DC-3. But while the Bush Pilot Folio has plenty of style, it's also a very practical bag, storing a surprising amount of gear without looking bulky or weighing you down. It has separate pockets for your tablet and laptop, plus a large center compartment and plenty of exterior pockets. You can keep everything separated but easy to find. For further utility, the Folio Bag has a rear strap to securely attach it to your roll-aboard.
P/N 13-20713 .....**$139.95**

FLIGHT OUTFITTERS FLIGHT CART

One of a kind patented design and function makes sure the Model 700 lives up to its moniker. An impressive 400lb capacity and generous loading tray (16"w x 13.5"d) allows you to move anything from presentation and display equipment to a washer/dryer. Easy single-motion squeeze handle telescopes the cart open and closed. Sleek design and limted lifetime warranty put the Super Cart in a league of its own. P/N 13-19651 .....**$179.95**

SEAT FOAM - FLIGHT SEATS

BACKSAVER FOAM

Backsaver foam is temperature sensitive, softening when it comes in contact with a warm surface; thus, in a seat cushion, the foam softens and conforms to the persons body. This provides even pressure distribution and unconstricted blood circulation, significantly reducing discomfort, even over long periods. In addition, Backsaver foam has excellent energy absorption properties, which have made it excellent for use in the U. S. space shuttle program and in military aircraft and helicopters. Pilots find that Backsaver cushions reduce their discomfort and fatigue, even on missions of 8 hours or more. Aircraft Spruce now makes Backsaver foam available to the homebuilt and general aviation market.

BACKSAVER FOAM 16" X 18"..... P/N 01-09325 .....**$92.50**
BACKSAVER 36" X 80" FOAM..... P/N 01-09330.....**$541.00**

CONFOR FOAM SEAT CUSHION

Temperfoam is the conforming foam cushion that was developed for the "Astronaut's Couch" back in the Apollo space program. Seat foam has the capability of absorbing a tremendous amount of impact shock compared to common polyfoam and it is flame resistant. It is an excellent product that will give your seats enduring comfort that you never thought possible. It is not a soft seat, but it adapts to you for pressure- point-free comfort that is really incredible. The best universal cushion for aircraft use is a 3" T/38/T41/T47 laminate. Temperfoam is not currently FAA approved for certificated aircraft but is excellent for homebuilts. Some special sizes in 1", 2" or 3" thicknesses are available on special request.

1" x 16" x 18" .....P/N 01-09310 .....**$27.50 ea.**

OREGON AERO® SEATING SYSTEMS

Oregon Aero® VK SmartCushion™ Systems for Experimental and Homebuilt aircraft offer maximum-comfort seating designed for your particular aircraft. The VK SmartCushion™ System shifts the hips, pelvis and back into a comfortable sitting position. At the same time, the seat cushions support occupants over as large an area of the seat surface as possible, preventing painful "hot spots." Pilot and passengers fly in comfort-no matter how long the flight. Simply put, Oregon Aero® offers the most comfortable seat in the industry **All Oregon Aero® Seating Systems are 100% Satisfaction Guaranteed.**

1 INCH PORTABLE UNIVERSAL SOFTSEAT® CUSHION SYSTEMS

Shifts your hips, pelvis and back into the proper, pain-free position. Helps minimize lower back pain from prolonged sitting. Eliminates pain from "hot spots." Can raise or move you forward. Zippered and interchangeable parts. 100% satisfaction guaranteed.
Two anchor options available: (1) Non-Skid Strips (most popular option) Two 1" wide x 10" long strips of black webbing with black non-skid rubber are hand sewn to the bottom of the cushion. (2) Straps - Best option if using Cushion Base for one purpose, such as in an aircraft. One-inch straps with adjustable buckle are hand sewn from side-to-side. Two hook and loop fasteners are hand sewn to the back.
1" Cushion is the most commonly used thickness. 1/2" Cushion is available for individuals with limited headroom. 2" Cushion available for individuals who need raised up. See www.aircraftspruce.com for additional sizes.

SEAT COVERS – SUN VISORS

SUPERLAMB SHEEPSKIN SEAT COVERS: NATURES OWN THERMOSTAT

The magic of 100% genuine sheepskin is quite simply that it will keep you cool in summer and warm in winter. No other natural or man-made fiber possesses the qualities of sheepskin. Whatever the temperature in your cockpit, sheepskin covers remain almost the identical temperature. Additionally, each hollow fiber absorbs up to 30% of its own weight in moisture. It keeps you dry, yet never feels wet itself. You avoid the heat and clamminess of vinyl, or even leather, because there's free flow of air between you and seat. Every cover is hand-made by master craftsmen from the finest chrome-tanned pelts, in colors to match or coordinate with any interior. Sold in pairs only, in 11 colors (request color samples when ordering). FAA Approved.
Available for the following planes: Beechcraft: Baron B-55, E-55, B-58, Bonanza V-35 (A or B), A-33, A-36, F-33A, A36TC. Cessna: 150, 152, 172, 177, 180, 182, 185, 210, 310, 340, 402, 414, 421. Aero Commander: 500, 600, 900, Piper: Archer, Cherokee, Warrior Tomahawk.
Specify year, make model and color choice when ordering. Car seat covers also available in same colors. Call for a price.
Superlamb Sheepskin Seat Covers (pair) .....P/N 7736 ..... **$513.00**
Sheepskin Samples - Order a sample then return it for a full credit after you have selected a color and ordered your seat cover. .....P/N 13-05553 ..... **$50.00**

SUN VISORS

ROSEN SUN VISOR SYSTEM

Attention: Products noted in "Application Guide" with an (*) are sold in pairs.

Don't fly blind! Give yourself and your passengers that extra margin of safety. These are transparent sun visors which rotate and extend to offer complete cockpit protection form the sun. The oversize, tinted lens filters out 95% of the ultraviolet rays, reduces glare by 94% and heat by 86%. Distortion free. Fully STC'd and PMA'd. The system, which includes pilot and co-pilot visors, installs in minutes (exceptions: Cessna non-pressurized 210 requires 1-1/2 hours, Cessna 152 requires rivnut installation by an A&P).

ROSEN THIRD AXIS UPDATE KIT: This update kit will fit any Rosen system that does not come standard with third axis option (Piper systems, for examples, come with third axis stanard).... P/N 13-04014 ..... **$77.75**

DIM-IT MOVEABLE VISOR

You can keep moving your head to stay in the shade of your visor, or you can get a DIM-IT visor and move it to where you want it. It's a 6"x12" sheet of tinted Lexan that can be positioned on any window in the cockpit by means of the attached vinyl suction cup. (An optional self-adhesive adapter plate lets you attach it to porous surfaces as well.) Completely transparent and distortion-free.

DIM-IT Moveable Visor .....P/N 7172 ..... **$7.95**
Adapter (for porous surfaces) .....P/N 7113 ..... **$4.65**

MINI DIM-IT

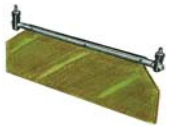
Diminishes the intensity of direct sunlight, glare, and reflections. This little visor is made of high strength tinted Lexan and is distortion-free. Place the suction cup on window/windshield and press. P/N 13-01758.....**$6.95**

ADJUSTAVISOR

The Adjustavisor, a clip-on unit that virtually doubles the effective range of stock visors, adds contrast, and reduces glare and fatigue. Available with smoke polycarbonate lens with UV protection. There's also a suction cup model for aircraft with canopies. The cups are strong enough and the visor assemblies light enough that they stay attached to any window through most any maneuver. Size:3.5"x 12".

Clip-on (smoke) ... P/N 13-03263 ... **$134.75**
Suction (smoke)... P/N 13-03261 ... **$119.75**

ROSEN VANS RV 6-7-9 ARC SUNVISOR



The Van's RV 6-7-9 Sliding Canopy ARC Sunvisor System design provides Van's RV 6-7-9 aircraft owners flexible, multi-axis sun attenuation, glare reduction and pilot comfort during standard cockpit flight operations.

Description	Part No.	Price
Rosen Vans Rv 6-7-9 ARC Sunvisor Assembly	13-16034	**$414.00**

Rosen Vans Rv 6-7-9 Co-pilot ARC Replacement Lens	13-16036	**$69.75**

RV-10 SUN VISOR

Blue Sky Sun Visors were specifically designed for the RV-10. The RV-10 visors retain all of the features of those that have been produced for certified aircraft since 2001. The visors provide improved visibility in hazy or cloudy conditions while still being out of the pilot's view when not in use. In addition to retaining the superior functionality, durability, and strength of the original Blue Sky Sun Visor, they provide sun and heat screening, whether coming from the front or side for both pilot and co-pilot. Installation is quick and requires only basic tools and mechanical ability. P/N 13-07444 .....**$198.00**

UNIVERSAL SUNVISOR FOR HOMEBUILT AIRCRAFT

Universal Swivel Mounts - simplify installation into most homebuilt aircraft! Lightweight hardware and optical quality bronze acrylic visor. Designed, and visor tint specified, by eye doctor/pilot Dr. Steven DeGroff, to reduce, high-altitude and ocular media small-particle scatter and enhance vision at dusk, after sunset, when scotopic vision is used. Hundreds of same class visors are field-approved and in use in the Comanche fleet. P/N 13-07443 .....**$285.95**

ROSEN CREW SUNSHADES

CrewShade is easily fixed to the side windows with (2) attached suction cups. Folds and stores in the included 6" diameter carrying pouch when not in use. Shade dimensions: 14 ½" x 17 ½"

P/N 13-06271..... **$18.95**

ROSEN MONORAIL IPAD / IPAD MINI UNIVERSAL MOUNTS

Designed to attach to any Rosen Monorail, the Rosen Universal iPad mount system provides a convenient and adjustable deployment. The large version will accommodate iPads in OtterBox or similar sized cases, while the standard model is delivered with two hook choices to fit all regular-sized cases as well as bare iPads. Note: it will accommodate all of size iPads except the new iPad Pro 12.9. Currently it wont open up far enough for the larger Pros. The Mini and Standard models, however, are no problem. Designed to attach to any Rosen monorail. Convenient and fully adjustable. Quick and easy stowage against the headliner.

Lage Cases ..... P/N 13-20666..... **$207.95**
Standard Cases/Bare ..... P/N 13-20667..... **$210.95**

PS

SUN SHIELDS – CANOPY COVERS

KENNON SUPER SUN SHIELDS

The most durable sun shield on the market has a clear polyester coating to protect the plexiglass windows. Heat can permanently damage the interior and avionics in your aircraft. The secret is a material with two surfaces of aluminum separated by trapped air. This combination reflects 97% of radiant heat, an insulation value of R-9 equivalent to two inches of fiberglass. Kennon Extra Firm shields fit snugly, and maintain their shape for a tight fit. They install in no time, and roll up for storage in compact, water-repellent bags. Weight is 1Lb. Available for most aircraft, specify year, make and model. For custom shields, specify exact size of windshield & windows. Also available for cars. Fabric edging insures snug fit & durability.

General Aviation ..... P/N 7672 ..... **$207.95**
Business Class ..... P/N 13-01071 .... **$248.95**

PIPER SUNVISOR CATCHES

Many Piper aircraft have the same problem. The sun visor catches lose to stability, because the UV effect allows the plastic to become porous. These Piper Sunvisor Catches are made from a blended poly-plastic with a UV additive that will prevent UV corrosion. A set contains two pieces with the required plastic rivets. They are available in white and black (used in Piper PA-38 Tomahawk). The set for the Piper Tomahawk contains two extra rivets.

White..... P/N 13-04187..... **$33.85**
Black..... P/N 13-04188..... **$33.85**

KENNON COWL PLUGS

Kennon cowl plugs are constructed from red Aqualon over 2" thick foam and feature a binding around the outer edge of each plug so there is a tight seal which fits snugly in the cowl. This lip prevents the plugs from slipping inside the opening. A safety strap goes around the prop so if by chance you forget to remove the plugs, the prop will remove them for you. These cowl plugs install easily and comes with their own storage bag. Specify aircraft make, model & year when ordering. Include aircraft registration number to be printed on plugs at no extra charge.

Single engine plugs..... P/N 13-14111.... **$150.00**
Twin engines plugs ..... P/N 13-06212.... **$249.95**

CUSTOM FIT COWL PLUGS

Cowl plugs are tailored to fit popular Cessna single engine aircraft. High visibility yellow closed cell foam will not retain moisture. Printed on one side is "Remove Before Starting Engine", and the other is blank for the N number. They are joined by a nylon strap with a fluorescent orange "Remove Before Flight" flag.

C-150 (2 Hole Only).... P/N 13-02620 ..... **$36.95**
C-172 (1965+) ..... P/N 13-02625 .... **$34.95**

KENNON WIND SPOILERS

Kennon Wind Spoilers are a strip of soft fiber filled tubes that attach to the wing to slow airflow over the top and to prevent lift. An airplane was built to fly, given a strong wind, the plane will fly without you and no tie down will restrain a flying airplane for long. During the stormy winter of 1998, over 200 airplanes were picked up and destroyed by strong winds. Kennon Wind Spoilers could have saved many of these aircraft. The wind spoilers cover the leading edge of the wings but not the tips, and most are about 14.5 ft long (per wing). Specify aircraft make, model, year when ordering. P/N 13-14180..... **$198.75/pr**

KENNON COWL CAP COVERS

This small cover goes over the inlets and back onto the cowl about 12 inches. It closes under the spinner with Velcro. There are bungees with hooks on the two rear corners that keep the cover pulled back in place. The material used is Red Sunbrella: UV resistant, water resistant and yet breathable. This is a great alternative to plugs that often slide out of the opening or do not wedge straight in the opening due to the inside shape. Covers are available with Tail Number identification through a sewn on embroidered patch. Please specify aircraft year, make and model.

Single Engine ..... P/N 13-09884..... **$250.00**
Single Engine with small embroidery ..... P/N 13-11958..... **$250.00**
Single Engine with large embroidery..... P/N 13-11959..... **$250.00**
Twin Engine..... P/N 13-09884-2 ..... **$500.00**

KENNON CABIN COVER - LOW WING

Kennon's Low Wing Cabin Cover covers the top of the cabin, the antennae and the entire window area. Made from Sunbrella which is designed to withstand the sun's ultra violet rays. Sunbrella is the award winning UV resistant outdoor fabric. It is very soft and breathable so it is safe to use as a year round cover on any aircraft. Each cover is custom built for the specific year, make and model of aircraft. You will be asked for aircraft year,make, model, and registration number when ordering this item. There is an additional cost for the microfiber lining, and the cost varies based on aircraft.

P/N 13-04047 ..... **$617.00**

KENNON SUN BLOCKER AIRCRAFT COVERS

Kennon's Canopy Cover is constructed from silver WeatherMax. Provide Kennon with antenna measurements and we will tailor the cover so it fits neatly around antenna, OAT boot and ADF wires at no additional charge. Kennon's deluxe canopy cover is constructed with polyester WeatherMax and lined with anti-grit to prevent sand and dirt from adhering to the fabric and later scratching your windows.

Weathermax is an engineered polymer material uniquely designed specifically for constant outdoor use. It is extremely UV resistant and extremely resistant to fading and color loss. This fabric is breathable, abrasion resistant and eliminates sagging. Static charged acrylic windows attract dust and dust scratches. Kennon's new Anti-Grit lining helps reduce static and further helps prevent scratching.

Choice of Trim Color.

See www.aircraftspruce.com for Kennon Color Chart.

HIGH WING WRAP-AROUND COVER – Cessna120-210, Cessna 337; L-19; PA10, PA22 including Pacer, Tripacer, Cub, Super Cub, Colt, Luscombe, Stinson 108, Aeronca, Citabria, Maule, Rockwell 685/690/980, Aviat, Christian Husky, Lake Renegade

BRUCE'S CUSTOM COVERS

BRUCES CUSTOM CANOPY COVERS

Canopy Covers help reduce damage to your airplane's upholstery and avionics caused by excessive heat, and they can eliminate problems caused by leaking door and window seals. They keep the windshield and window surfaces clean and help prevent vandalism and theft When requested, it is also sometimes possible to design Canopy covers that can attach to the aircraft fuselage using pop-riveted snap-heads at the rear and snap-head screws on the engine cowl. The Canopy Cover is custom sewn and the corners are trimmed to match the colors of the airplane. The airplane's registration number can be imprinted onto both sides of the cover for an additional charge. A duffle bag is included with all Canopy Covers. Made from Silver Acrylic Sunbrella or Silver Solution-Dyed Polyester and is lined 100% with a soft and smooth microfiber. The outer material is medium-weight and treated for water resistance, UV resistance and anti-static buildup. The inner lining is a very soft and smooth microfiber to prevent scratching. Does not contain hydrocarbon compounds that can harm Plexiglas windshields and acrylic finishes. Other colors are available. Please contact us for availability and price. Light weight material available.

BRUCES CUSTOM WING COVERS

The Wing Covers are a perfect solution to protect your paint from sun damage and prevent winter frost, snow, ice buildup, and corrosion. They are made from Solution-Dyed Polyester or Acrylic Sunbrella and form-fit to slip around each wing tip, cover the entire upper surface of the wing and wrap around the leading and trailing edges. The covers secure under the wing with adjustable straps from the trailing edge to the leading edge. The wing covers can also attach to each other with adjustable straps at the leading and trailing edges of the wing under the belly of the plane. We have the ability to also accommodate wing tip modifications, such as STOL kits, droop tips, and vortex generators. Labeled LEFT and RIGHT for your convenience. Hail Protection version can be made. Set of 2.

BRUCES CUSTOM HORIZONTAL STABILIZER COVERS

Horizontal Stabilizer Covers are a perfect solution to protect your paint from sun damage and prevent frost, snow, ice buildup, and corrosion. They are made from Solution-Dyed Polyester or Acrylic Sunbrella. They cover the entire upper surface of the stabilizers and overlap around the leading and trailing edges as well as the wing tip. The covers secure under each stabilizer with adjustable straps. In some instances, cut-outs are made in the trailing edge of the wing covers to accommodate for static wicks. Horizontal Stabilizer Covers for winter use or long-term all year use are usually available, and are normally made from Solution-Dyed Polyester or Acrylic Sunbrella. A Hail Protection version can be made. Although these covers are bulky, they do help protect your wing and control surfaces against small to medium-size hail. **Set of 2 - Winter Use**

BRUCES CUSTOM HEATSHIELDS

Heatshield Interior Reflectors are made of a special laminate of metallized polyester film and closed cell foam. Less than 1/8" thick, the Reflector can roll up and store in a sleeve, yet is stiff enough when flat to stand up against the windshield using the sun visors and window framing only. On some designs no Velcro or suction cups are necessary. Heatshields are an excellent short-term remedy for cockpit overheating, but use the Canopy Cover for more effective and practical long term protection. Heatshields should not be used on polarized windows.

BRUCES CUSTOM ENGINE INLET PLUGS

Engine Inlet Plugs are custom fit for your intakes, made with heavy-duty vinyl material, and stuffed with a single block of sculpted urethane foam. Each plug has a zipper that allows the foam to be removed and dried if necessary. Engine plugs have warning flags that are visible from the cockpit or 'remove before flight' streamers sewn onto the face of the plugs.

FUEL MATS – FUEL INDICATORS

POLYURETHANE WING FUEL MAT

This polyurethane wing fuel mat can be easily cleaned with soap and water. Avoid spraying product with silicone or wd-40 type products because this material will cause dust and dirt to attach to pad possibly scratching wing surface. Color fading will not affect the integrity of the polyurethane material. Color options available at point of purchase. Dimensions: 18" x 24" x 0.30 Length and width dimensions are subject to +/- 1/8 toleranceService range: -20F - 200F. Fuel port: 5" diameter. Durable impact absorbing polyurethane. Non-Marking and Non-Abrasive, UV stable. Exposure to direct sunlight will cause color fading. Fuel Resistant and chemical resistant with the exception of MEK.

Blue ..... P/N 01-01284 ..... **$66.75**
Orange..... P/N 01-01285 ..... **$66.75**

FUEL STIKS

Extremely light, high impact plastic tubing with aluminum rings resist damage. Available "Aircraft Specific Scales" Can be downloaded and printed from the website. Can easily be calibrated to any tank using the "Universal" scale. A worksheet, written instructions and even an instructional video are available at the website. We will generate an "Aircraft Specific Scale" from your calibration It's shipping tube doubles as a "Vented Storage Tube". This allows any remaining fuel to evaporate between uses, provides a protection for the life of the unit and reduces manufacturing waste. It's design gives consistent readings even when the fuel in the tank is sloshing around. It's upper and lower rings aide in handling. Large Easy-to-Read numbers observed outside the tank. Quantities given in both Gallons and Pounds! Color coded sections represent approx. 1/3 cruise consumption. It's not limited to your aircraft. Works in tractors, small motors, etc. Will not fall into fuel tank on most aircraft. 100% Made in the USA

CESSNA HIGH-WING FUEL VENT SCREEN

Fuel flow to your aircraft's engine can be compromised by insects or debris entering fuel tank vents. This remove-before-flight Fuel Vent Screen prevents contaminants from obstructing or contaminating the fuel system. The attached foot-long, florescent, and weather-resistant reflective streamer stands out equally well in daylight or darkness under all weather conditions, so it won't be forgotten during your pre-flight. Fits Cessna piston engine aircraft. Inside diameter of PVC sleeve is 0.365"

WING MAT

This navy blue carpet can be placed on the wing prior to boarding which will protect both the wing and the aircraft interior. This mat rolls up easily for storage in the aircraft and an attached elastic band keeps it rolled up. The rubber backing is perfect for use on low wing aircraft. Two sizes available.

Small Wing 10.5" x 36" ..... P/N 13-07195 ..... **$19.70**
Large Wing 21" x 48"..... P/N 13-07196 ..... **$48.65**

DIRECT FUEL LEVEL INDICATORS

These Direct Fuel Level Indicators are quality made of acrylic PVC tube with an aluminum scale. They are available calibrated to individual tanks or uncalibrated for custom calibration to home built tanks. These Indicators allow an accurate check of on board fuel level indicators and eliminate the guess work.

Description	Part No.	Price

FUEL HAWK FUEL GAUGES

The Fuelhawk is just 11" long, clear lightweight and unbreakable. It's easy to use and gives an instant readout in gallons usable. No more guessing. These handy devices offer the answers to these very important questions: 1.How many gallons of usable fuel are remaining in the tank? 2.How much fuel can be added without going over gross weight? 3. Are the aircraft fuel gauges working & accurate?

Part No.	Application	Price
13-00443	Cessna 152 (standard 12 gal. tanks)	$12.95
13-00442	Cessna 172 (standard 19 gal. tanks)	$12.95
13-01468	New Cessna 172 Skyhawk (26.5 gal.)	$12.95
13-01469	New Cessna 182 Skylane (43.5 gal.)	$12.95
13-00441	Cessna 182LR (42 gal. Long range tanks)	$12.95
13-00439	Universal for any aircraft, w/graph & calibration chart	$12.95
13-00949	Universal XL Fuel Gauge (16" long)	$17.95
13-11189	Universal Gauge 26"	$19.95

THE ORIGINAL FUEL STOP

The Fuel Stop is a simple tool that snaps onto a standard straw fuel gauge and prevents the gauge from ever slipping into the tank. Works with FuelHawk, or any other 1/2" diameter fuel gauge tube. . It also becomes extremely handy when it's necessary to set the gauge on the wing, as it will stay put and not roll off to disappear into the grass or onto the pavement. Shaped like a set of red pilot wings which makes finding the gauge a snap. P/N 13-17631 ..... **$7.95**

GOCHECK PREFLIGHT 6 IN 1 MULTI-TOOL

Fuel Tester with Strainer, Stall Horn Tester, Dipstick Wiper, Red/White Flashlight, Phillips/flathead Screwdriver, and Checklist Reminder Card.

P/N 05-15254 ..... **$71.75**

PS

COWL PLUGS - AIRCRAFT COVERS

COWL PLUGS

Cowl Plugs with attached "remove before flight" streamer for general aviation aircraft. Prevents bird and foreign objects from entering through the cowl. Comes complete with a linking lanyard and remove before flight streamer. Heavy duty cross linked construction and durable nylon hand sewn stitching complete the set. Please specify aircraft make, model, & serial number when ordering. Plugs are furnished with free embroidery and pitot tube cover.....

Single engine .....P/N 13-01742 .....**$75.95**
Twin engine .....P/N 13-01743 .....**$148.95**

PROPELLER SLINGS EXHAUST COVERS

Propeller Slings & Exhaust Covers keep your propeller secure and in place, eliminating any bearing damage caused by a free-spinning propeller with no lubrication. The integral exhaust covers protect the costly turbine wheel from debris & birds. Simple, quick one man operation. Please specify aircraft make, model, serial no. when ordering. P/N 13-01744 ..... **$106.90**

INLET PLUGS

These protect your engine form foreign object damage, blowing dust and sand, birds and debris. Complete with remove before flight flag and easy pull handle for insertion and removal. Please specify aircraft make, model, & serial no. when ordering. P/N 13-01745..... **$92.95/eng**

JET ENGINE COVERS

Made of extremely durable, water-proof and fire resistant Herculite, our covers are guaranteed for 10 yrs. Each set is hand crafted and sewn to order. Complete with storage bag and remove before flight flags. Please specify aircraft make, model, & serial no. when ordering.

P/N 05-04077 .....**CALL FOR QUOTE**

FOAM JET ENGINE COVERS

Custom fit for the intake and exhaust openings, made with heavy-duty vinyl material, and stuffed with a single block of sculpted urethane foam. Engine plugs have the "Remove Before Flight" streamers attached to the face of the plugs.

BeechJet .....P/N 13-18445 .....**$584.00**
Phenom 300.....P/N 13-18443 .....**$584.00**

ENGINE INTAKE COVER

Protect your engine from natural hazards which could cause serious in-flight problems. This economical design fits practically every single or twin, even homebuilts. The lightweight, fire-retardant mesh fabric will not blister or melt. After simple one-time installation of mounting hardware, cover snaps into place and secured with Velcro. Folds for easy storage. Complete with mounting hardware & "Remove Before Starting Engine" streamers. Also available: Bib that allows you to cover additional intakes.

Engine Intake Cover ..... P/N 7148.....**$64.85**

KUVR**IT WHEEL COVERS

A vinyl-coated polyester that is fade resistant and California State Fire Marshall approved (#F-2310). The weave breathes and yet provides 85% shade factor from the suns damaging ultra violet rays. It is easy to care for. Simply machine wash and just hang it to dry. The KUVR*IT II Wheel Cover is easy to use. Simply place the cover over your tires and adjust the strap to the desired tightness and lock into place. There are 2 sizes for your convenience:

Small fits tire size: 5.00 – 5/15 x 00-6.....P/N 13-03158 .....**$39.85**
Medium fits tire size: 6.00 - 6/7.00-6.....P/N 13-03159 .....**$43.50**

REDWING TRAILING EDGE PROTECTIVE FOAM

RedWing helps prevent aircraft damage and head injuries. Just slide the foam onto the trailling edges of ailerons, elevators, rudders or flaps to protect these surfaces while tied down or in the hangar.. RedWing is also ideal for proecting landing gear doors, aviionics antennas, and winglets. The bright red color reminds the pilot to remove RedWing before flight, and RedWing is reuseable and unaffected by UV, water, or oils. Furnished in 3ft. sections which can by easily cut to smaller sections. P/N 13-02566.....**$25.90**

WICKSHIELD

Warning type cover for aircraft, wire/rod & "whisker" type, Static Wicks. These are very simple to use, economical, and conveniently packaged in 8 packs. They offer practical protection for the wicks, charter/corporate passengers, crew, and maintenance staff! They have been well received by corporate fleets. Features: One size fits all static wicks. Lightweight- will not stress static wicks - will not scratch airplane finish. Quick "Attach - Release" Clasp - will not stick to wicks - will not freeze in place. P/N 13-11708 .....**$34.50**

STEARMAN COCKPIT DUST AND RAIN COVER

One of the problems with traveling in your Stearman is the lack of space to haul necessities. This Cockpit Cover weighs about 1 pound in it's storage bag, which is the size of a quart carton.

The cover is made from back-packing tent material which is rain proof and light weight. Installs with two Velcro straps and four elastic cords using plastic fasteners. There is no metal to scratch your finish. Available in Federal Yellow. .....P/N 13-11616 .....**$219.95**

KOGER SUNSHADES

The Koger Sunshade was developed to provide protection from the sun while flying an airplane that has a large bubble plastic canopy like the RV-6, RV-7, RV-8, RV-9 and many other types of aircraft.

Key Benefits:
- Retractable to front or rear.
- Lightweight (9oz. for side by side RV models)
- Install in 1/2 to 1-1/2 hours depending on the model.
- Makes instruments more visible, and the cockpit more comfortable.

TRISOFT WINGTIP BUMPER

Trisoft Bumpers provide protection for the trailing edge of the wing, delta fins and ventral fins. Each Trisoft Bumper is made of chemical resistant EVA foam and provides ultimate aircraft protection. The Trisoft Bumpers also work great as wing edge indentifiers. This helps protect your employees while they are working or walking under the wing.

P/N 13-08263.....**$29.50**

TRISOFT WINGTIP/PROP TIP COVERS

* Avoid Accidents * Protect Employees and Aircraft * Reduce Insurance Claims * Remain In Compliance Trisoft Aircraft Covers * Can Be Used As a Safety and Warning Device on Prop Tips. Trisoft is a simple foam triangular cover that slips onto the corners of the prop tips, gear doors, wing flaps (in the lowered position), wing tips, and dorsal antennas. Trisoft can be used on personal aircraft, corporate aircraft, commercial aircraft, military aircraft and helicopters. P/N 13-06003.....**$17.95**

PLANE SIGHTS REMOVE BEFORE FLIGHT

PLANE SIGHTS PITOT TUBE COVERS

Extremely obvious, very durable, and weather resistant pitot tube covers for every aircraft.

ANGLED PITOT TUBE COVER - Aircraft Type: Piston Powered Plane This durable, weather-resistant orange and yellow reflective cover fits virtually any size pitot tube. It stands out in daylight or darkness under all weather conditions, so it can't be missed. Large sewn-on Velcro tabs keep it securely in place under all conditions. Weight: 0.14 kg If length of the tube exceeds 6.75" and the diameter exceeds 7/8", then the Universal Pitot tube cover would be a better choice. As seen on the 2009 AOPA 'Let's Go Flying' Cirrus SR22 P/N 13-05611 .....**$16.95**

UNIVERSAL PITOT TUBE COVER - Aircraft Type: Piston Powered Plane. This durable, weather-resistant orange and yellow reflective cover fits virtually any size pitot tube. It stands out in daylight or darkness under all weather conditions, so it can't be missed. Universal covers fit any length of tube from the smallest home built ¼" tubes up to 7/8" jet probes. The versatile hook/loop Velcro strap with sewn-in rubberized trim allows the cover to be quickly and securely fastened to the pitot tube. Weight: 0.00 kg The inside diameter of the cover is 7/8". Works with a variety of aircraft including: Cessna, Beechcraft, Cirrus, Diamond, Grumman or Mooney aircraft, as well as most Pipers and many light sport aircraft.

P/N 13-05610.....**$16.95**

BLADE PITOT COVER - Aircraft Type: Piston Powered Plane Forgetting to remove a faded, dull and worn-out pitot tube cover can jeopardize the safety of you and your passengers. And when cold weather prevents you from installing your pinch-and-insert style blade pitot cover, ice and snow can contaminate your pitot system. Some blade pitot covers also cause damage to paint when the sleve is being forced on and off. The highly conspicuous and very durable Plane Sights Blade Pitot Cover is a perfect fit for any aircraft with a blade-type pitot tube or piper gear extension mast.. Properly installed, it's guaranteed not to blow off, fade in the sun or wear out for at least two years. Fits Piper, Katana, some Rockwell, late Grumman, Lake 250, and all other aircraft with a blade-type pitot tube. (As seen on the 2008 AOPA "Get Your Glass" sweepstakes aircraft) Weight: 0.15 kg Fits Piper, Katana, some Rockwell, late Grumman, Lake 250, and most other aircraft with a blade type of pitot tube. P/N 13-06016.....**$17.95**

PITOT TUBE PLUG (5/8") - Aircraft Type: Piston Powered Plane 5/8" inside diameter vented pitot plug with its unmistakably conspicuous Remove-before-Flight Streamer. ANSI-compliant and weather-resistant reflective streamer stands out equally well in daylight or darkness under all weather conditions. The plug is attached to the streamer's rugged black oxide coated zinc grommet with a galvanized steel ring, and is vented to prevent pressurization damage. This 5/8" Plug Fits Aero Commander, Twin Beach, Bonanza, Cessna 300/400/500, Conquest Series, Grumman, Lear, Mooney, Piper Cheyenne and Navajo aircraft. Weight: 0.04 kg 5/8"/ 0.625" (15.875mm) ID x 1.85" (38.10mm) P/N 13-06019.....**$14.95**

PITOT TUBE PLUG (3/4") - Aircraft Type: Piston Powered Plane. 3/4" inside diameter vented plug with its unmistakable Remove-before-Flight Streamer provides a perfect easy-on, easy-off solution. ANSI-compliant and weather-resistant reflective streamer stands out equally well in daylight or darkness under all weather conditions. The poly plug is attached to the streamer's rugged black oxide coated zinc eyelet with a stainless steel ring. This ¾"plug Fits Cessna 150, 152, 172, 177, 182, 200 series, and 337 models. Weight: 0.04 kg 3/4"/0.75" (19.05mm) ID x 2" (50.80mm) useable length P/N 13-06018.....**$14.95**

LIGHT SPORT PITOT PLUG KIT - Aircraft Type: Piston Powered Plane. Light Sport/Homebuilt Pitot Plug Kit provides a perfect fit for many homebuilt pitot tubes, light sport pitot tubes, and aircraft fuel vents. The kit includes several vented plugs so it even works with double-tube systems and is guaranteed not to pressurize your pitot static system. ANSI-compliant and weather-resistant reflective remove-before-flight streamer stands out equally well in daylight or darkness under all weather conditions. The kit comes complete with three different-sized pitot tube plugs, a unique streamer, and two rust-resistant coated triangle rings. WARNING: CHECK WITH YOUR AME AND CONSULT YOUR OWNER'S MANUAL BEFORE USING A FUEL VENT PLUG. P/N 13-06020.....**$14.95**

PLANE SIGHTS AIRCRAFT MARKERS & STATIC WICK COVERS

Prevent hangar rash and broken static wicks

STATIC WICK COVER SET (TUBE STYLE 7") - Aircraft Type: Jet. A lower priced alternative to Static Wick Markers. They protect static wicks from damage on the ground and make wing/elevator tips more obvious, preventing hangar rash. Slide these round style covers on for a tight weather resistant fit on Citations and other jets. Weight: 0.04 kg Round, tubular poly cover, 0.310" x 0.450" x 7.000"Long. *Shock cord lanyard not included P/N 13-06888.....**$39.75**

STATIC WICK COVERS (SMALL ID X7") - Aircraft Type: Jet. Installed and removed in seconds, Static Wick Covers help prevent delays and inconvenience due to hangar rash. Extremely obvious and very durable Static Wick Covers make these vulnerable parts highly visible by day or night. Slide these round style covers on for a tight weather resistant fit on your Bombardier (Challenger & Global Express) or Hawker/Beechcraft and many other jets. If necessary cut with scissors to desired length. Weight: 0.20 kg Fit's over static wick part #'s: Chelton 2-17SC-1,Chelton 2-11SC-1, MIL-9129D, DG17770. Fits Bombardier, Hawker/Beachcraft and others

P/N 13-06777.....**$59.95**

STATIC WICK COVER (SQUARE STYLE) - Aircraft Type: Jet These Square Style Static Wick Covers protect, usually yellow pronged static wicks from damage on the ground and make wing/elevator tips more obvious, thereby preventing hangar/ramp rash. Slide these rectangle covers on for a tight weather resistant fit on Falcon, Hawker, Beechjet, older Lear Jet and many other static wicks. Weight: 0.21 kg Includes three (3) Static Wick Covers per package Square Poly, 0.75"x0.25"ID x 3.50" Long, (in stock) (also available by special request, 5.25" length sleves) Standard two year warranty applies. *Shock cord lanyard not included

P/N 13-06776.....**$44.95**

UNIVERSAL AIRCRAFT MARKER - Aircraft Type: Piston Powered Plane. Highly reflective markers make vulnerable wing and elevator tips clearly visible under all conditions, and their projecting "proximity fuses" warn that something is too close before damage occurs. Fit all aircraft from Airliners to light sport aircraft, including models with static wicks and strobe lights. For aircraft with tip tanks, the wing marker opening fits over one end of the tank. A full set stows easily under most aircraft seats. Once initial fitting is done, the markers can be installed and removed in seconds during routine pre- and post-flight walk-arounds. Weight: 0.08 kg Package Contents: Two (2) corner marker pieces, two (2) harness pieces, two (2) marker fuses, four (4) 54" lengths of shock cord with cord hook ends, and four shock cord hook ends for assembly.

P/N 13-05603.....**$159.95**

REMOVE BEFORE FLIGHT STREAMER - Blazing yellow color stands out equally well in daylight or darkness under all weather conditions. A cord can be attached to the streamer to the rugged black oxide coated zinc eyelet. Ideal for any remove-before-flight application. Weight: 0.03 kg. Streamer - 12.25" long x 2" wide, two metal rings included.

P/N 13-05612.....**$13.95**

DIAMOND STALL WARNING PLUG - Aircraft Type: Piston Powered Plane Diamond recommends that operators of their DA40 and DA20 aircraft plug the stall warning air inlet holes on these aircraft while they're parked on the ground. Fits any Diamond DA40 or DA20, one way or the other. ANSI-compliant and weather-resistant reflective remove-before-flight streamer stands out equally well in daylight or darkness under all weather conditions.

P/N 13-06830.....**$39.95**

HI VISIBILITY BOOTIE PITOT COVER

Long Life Clip - Hook and loop closure. Bright Yellow Sock - More visible against aircraft finishes. Softer Vinyl Banner - Less abrasive to paint and aluminum. Bright White Letters - High visibility lettering, Fuel resistant (won't chip off), Non-abrasive. **Applications**: Specially designed for yse with pylon mounted Pitot Probes, fits Nose, Fuselage, or under wing locations, VL jets, and regional service airline aircraft (Boeing, Beechcraft, Bombadier, Cessna Jets, Cirrus, CRJ, Piper, Grob, Grumman, Gulfstream, Lear, Embraer, Hawker, Honda, Saberliner, Swearinger, and others)
Warbirds with "arrow head" type Pitot Tubes (North American, most AT-6, SNJ, Vultee BT-13, Grumman F4F Wildcat, F6F Hellcat, B-25 Mitchell, P-47 Thunderbolt, and many others) TAT Probes, Dynon Angel of Attack - Pitot Proves, Pylon mount, Rosemount Pitot Probes

P/N 13-12349.....**$10.95**

PS

BANNERS – PITOT TUBE COVERS

AIRCRAFT FOR SALE BANNERS

Designed specifically for aircraft use, these banners slip right over your prop blades, moving in the breeze to attract attention-but will not rub against painted surfaces. Each banner is 9" x 23", made of heavyweight rubberized Nylon that is weather-repellent and resists tearing. Sold as a set of 2. P/N 5412.....**$27.60**

PROPELLER MOUNTED BANNERS

Two 28" x 8", white printing on red reinforced vinyl. Yellow, blue and white pennants, slides over prop, fastens with velcro.

For Sale .....P/N 13-06402 .....**$34.75**
For Rent.....P/N 13-06635 .....**$32.75**

FOR SALE PROP BANNER

Consists of three pieces. Each prop banner is 11" high X 22" long when mounted. Made of RED vinylized polyester with BOLD WHITE lettering. Unlike prop banners that are a sleeve which must be slipped over the prop blade only, these banners are split at the bottom and are held together with velcro. This allows the banner to be opened up and then wrapped around virtually ANY structural member of the aircraft

P/N 13-06014.....**$38.50**

AIRCRAFT SPRUCE PROPELLER CARD

These prop cards are great when displaying your aircraft at a fly-in or event. There's room to fill in your personal information as well as large notes instructing onlookers to enjoy the views of your beautiful aircraft, but keep their hands off. They easily slide on and off the blades of your propeller. If you are organizing an event, these are affordable enough to pick up in bulk and pass them out to all who attend. 8-1/2"x 11". Semi-Gloss. P/N 13-12320.....**$1.35**

PITOT TUBE COVERS

Feature an authentic, soft, bright red vinyl - will not fade, mildew resistant, made to Mil-C-20696. "Remove before Flight" streamer. Attaches simply with a velcro strap to 5/8" or 11/16" diameter L-shaped pitot tubes..... P/N 15210..**$5.95**

SLIP ON PITOT COVER - Slip fit over 1/4"or 1/2" dia. pitot. Red Remove Before Flight streamer attached. Made of flameproof/weather-resist. National Aerospace material.

P/N 15220.....**$6.95**

ROUND CESSNA PITOT COVER - This red pitot cover fits round, high-wing Cessna pitot tubes. Grooved fitting releases air pressure as the barometer changes.

P/N 5139.....**$9.50**

PIPER PITOT COVER - This pitot cover is designed to fit the blade style pitot commonly found on piper aircraft. Small vent hole prevents pressurizing system. ..... P/N 5740.....**$15.85**

REMOVE BEFORE FLIGHT RIBBON

This 3"x24" bright orange streamer with black letters features a grommet for a C ring to attach to anywhere on the aircraft. High visibility, fire resistant material. P/N15200 .....**$11.95**

DO NOT TOW STREAMER

17" Streamer, attach with Velcro, Color international orange. P/N 13-02004.....**$12.85**

ASA REMOVE BEFORE FLIGHT BANNER

A bright red heavy nylon banner that can be fastened to anything that needs removing before flight. Comes with a grommet and wire ring that can be attached to everything from gear pins to gust locks and pitot covers. Heavy duty vinyl is tear resistant.

P/N 13-02380.....**$6.75**

ASA PITOT TUBE COVERS

Fit snugly over standard aircraft pitot tubes, and are vented to avoid pressurizing the pitot static system. Critical to safe operations, the cover keeps dirt, contamination, and insects from entering the pitot tube. A "remove before flight" streamer hangs off the cover as a prominent preflight reminder to pilots. Molded in the United States, the cover uses a heavy duty plastic material. Pitot Tube Cover 5/8" (small) ..... P/N 13-02378.....**$12.95**
(Fits: Cessna 300/400 series, Citation & Conquest, Beech singles & twins, Piper Navajo & Cheyenne, Mooneys, Mitsubishi, Lear Jets & Cirrus)
Pitot Tube Cover 3/4" (large)..... P/N 13-02377.....**$13.85**
(Fits: Cessna 150,152,172,177,182, 200 series, Skymaster & the Falcon Jet)

FUEL CAP COVER

The STAY SEALED cap is a patented fuel cap cover that locks onto the existing factory cap and seals to the surface of the wing. Designed and tested against heavy rains, strong winds, high temperatures, and extreme cold. It sealed out melring snow and ice, blowing rain and water from aircraft washing. *To be used anytime the aircraft is stored outside. The device MUST be REMOVED BEFORE FLIGHT.

Model SSCC fits the following: Cessna Series: 152, 172, 182, 206, 207, 210. Fitted with the raised metal fuel cap.....P/N 05-03662 ..... **$48.85**
Model SSCP fits the following: Cessna 120,140,150,172 with recessed fuel filler opening .....P/N 05-03668 ..... **$48.85**
Model SSPC fits the following: Piper Series: PA-28-140,PA-28-160,PA-28-180, PA-28-200, PA-32-260, PA-32-300 fitted with the raised metal fuel cap. .....P/N 05-03669 ..... **$48.85**

"REMOVE BEFORE FLIGHT" PITOT COVERS

Universal cover.....P/N 13-04396 .**$12.75**
Piper blade cover .....P/N 13-02946 .**$12.75**

PITOT TUBE COVERS – EZ FLAP

REMOVE BEFORE FLIGHT STREAMER

2-1/4" wide, 17" long red polyester fabric with white writing: "Remove Before Flight"
P/N 13-01458.....**$5.35**

UNIVERSAL STATIC PORT COVERS

SPC-101

SPC-102

An inexpensive, yet very effective alternative to other covers and plugs. The SPC-101 is designed to fit an aircraft with one static port on each side of the aircraft and the SPC-102 is designed to fit an aircraft with two static port on each side of the aircraft.
Features: • Universal design to fit most aircraft • Lightweight entire assembly weighs less than 1/2 pound • Attaches with heavy duty lever cups designed to lift up to 40 pounds each • No fuselage modification required • Prevents the possibility of any damage to static ports by being and externally mounted cover • Malleable lightgauge red anodized aluminum easily conforms to virtually any surface contour • Adjustable to allow for attaching lever cups on or around decals and pin striping • Installed at temperatures from -20°F to 110°F
SPC-101.....P/N 13-06723.....**$185.75**
SPC-102.....P/N 13-06724.....**$199.75**

PITOT COVERS

Avoid costly damage to your pitot-static system. Protects from dust, insects, wind and other foreign matter. Will not pressurize pitot-static system.

MODEL 4602 - Fits Piper, Katana, some Rockwell, and late Grumman aircraft..... P/N 13-06395.....**$9.75**

MODEL 4935 - Bootie Type, all Naugahyde, white boot, red with white printing, 2" x 16". ..... P/N 13-06397.....**$9.95**

STREAMERS

5811 "OUT OF SERVICE" - 3" x 24", yellow printing on red reinforced vinyl with grommet and ring. 2" securing strap with grommet and velcro.
P/N 13-06399.....**$9.95**

5813 "DO NOT TOW" - 3" x 16", yellow printing on red reinforced vinyl with grommet and ring. 2" securing strap with grommet and velcro.
P/N 13-06401.....**$9.50**

4604 "REMOVE BEFORE FLIGHT" - 2" x 16", white printing on red reinforced vinyl with grommet and ring.
P/N 13-06396.....**$5.35**

EZ FLAP HANDLE EXTENSION

Because EZ Flap puts the flap control at the correct location close to the yoke (instead of down on the floor under the panel), pilots can finally remain upright while using the flaps, and stay focused on takeoff/landing, obstacles, terrain, traffic, and instrument scan. No more bending over - no more loss of visibility. EZ Flap improves the performance of the pilot! EZ Flap mounts to the existing aircraft flap handle with no disassembly and no de-rigging in 20-40 minutes, with only two small screw holes. The original aircraft flap control remains fully functional. 100% made in the USA. Full FAA STC-PMA approval on 95% of all US manual flap aircraft.
CESSNA/PIPER FLAP HANDLE EXTENSION APPLICATIONS: Cessna: 170 / 172 / 175 / 180 / 182 / 185. Piper: PA-28 / PA-32 Cherokee Family. Piper: PA-34 / PA-44 Seneca / Seminole. Beech: 19/23/24 Musketeer Family P/N 13-06946.....**$499.00**
SUPERCUB HANDLE EXTENSION APPLICATIONS: Piper: PA-18 Super Cub. Piper: PA-20 / PA-22 Pacer / Tri-Pacer. Maule: M-5 thru M-9 Family. Stinson: 108 Family P/N 13-07438.....**$499.00**

BRUCES UNIVERSAL CUSTOM PITOT TUBE COVERS

The Original and World's Finest Aircraft Covers for Airplanes, Jets, Helicopters, Gliders and QEC Off-link Jet Engines.
Once the material for each order is cut into its appropriate parts, highly trained sewing machine operators meticulously assemble the products with durable thread, rivets, and canvas trim.
Pitot Tube Covers, made of Naughahyde vinyl, are designed to cover the entire pitot assembly. Slipping on over the tube, the cover tightens around the base with a special Velcro strap detail. A "remove before flight" streamer is attached to the cover. Non-burning Pitot Covers are designed to withstand more than 500° Fahrenheit, and will prevent the pitot cover from melting onto the tube if the pitot heat is accidentally turned on with the pitot cover attached
Pitot Tube Cover for the following applications: • Beech: Bonanza B35, Bonanza B36, Baron B58 • Cessna: Cardinal 177, Centurion 210, Corvallis 350 • Cirrus: SR20, SR22 • Grumman: American AA5 • Piper: Comanche PA24, Cherokee Six PA32 • Lancair: IV, Columbia 300, Columbia 350, Columbia 400, Lancair 320, Lancair 360 • Mooney: Ovation, M20, 201, 205, 231, 252 & MJ20 MSE
P/N 13-15994.....**$28.75**

Pitot Tube Cover for the following applications: • Cessna: 150, 152, 172, 175, 180/185 Skywagon, 182 Skylane, and 206 Stationair. • Grumman AA1. P/N 13-15995.....**$28.75**

CONTROL LOCKS

UNIVERSAL CONTROL LOCK

Stainless steel construction with silicone rubber to protect aircraft interior and folds into small package for easy storage. Installs in seconds from the pilot seat and fits most aircraft with a control column. Other control locks are not required like the one Cessna provides. Cannot get your feet on the Pedals to taxi aircraft and keep the elevator in the nose down position.

P/N 13-13075.....**$279.00**

AMC AIRPLANE CONTROL LOCK

Rather than tying your seat belt to your controls, try AMC's new Airplane Control Lock. This lightweight control lock will stop your control surfaces from moving with the winds and will also prevent damage to your controls such as bending. This new Control Lock is lightweight and easily stored.

Airplane control lock cessna or any aircraft with control spacing of 14"-19" ..... P/N 13-02851..... **$78.75**
Mooney..... P/N 13-03164..... **$77.95**
Cessna 210 ..... P/N 13-03165..... **$81.95**
Cessna 206 ..... P/N 13-03166..... **$81.95**
Skymaster..... P/N 13-03167..... **$77.95**

KENNON GUST LOCKS

Soft Gust Lock secures flaps, ailerons, the elevator or the rudder. It is made from special weather resistant, high density, closed cell foam with a nylon eyebolt. It is adjustable and will not scratch the plane's surface, and includes a "Remove Before Flight" streamer & storage bag.

Disgned for use with control surfaces up to 6-1/2" thick. Locks O.D: 3.9" P/N 07-01329.....**$27.75**

PAD-LOK CONTROL SURFACE LOCK

Like it says, a padded lock. Effectively locks control surfaces while the padding compresses to the proper configuration and protects the surface finish. Padding won't absorb water. Hard-to-miss Dayglo color, plus yarn streamers. Wt. 10 oz.

P/N 13-22700.....**$17.95**

THE CONTROL SAVER

The Control Saver control lock was designed for Piper and Mooney aircraft to protect aircraft controls in high wind gusts. It holds the ailerons in the neutral position and stabilizer in the down position. This control lock is light weight, easy to use and fits in an area as small as your shirt pocket. Sold to thousands of Piper and Mooney owners worldwide. P/N 13-15505.....**$39.95**

SAF-T-STOP

Saf-T-Stop is an auxiliary seat stop mechanism approved by the FAA for use with Cessna seat track A.D. #87-20-03. Installs easily, sliding over seat track. Approved for: Cessna 150, 152, 170, 170B, 172, R172, 175, 180, 182, 185, 190, 205, 206, 207, 210, 303, 337. Not a seat lock, Saf-T-Stop is designed to restrict rearward motion if the seat lock fails.

P/N 13-18510..**$44.85/pr**

AILERON & RUDDER SOFT LOCK

The Aileron & Rudder Soft Lock is made out of a durable foam that will not scratch your paint. Slides in gap between rudder and vertical stab. Keeps rudder from moving while plane is on the ground. Comes with "Remove Before Takeoff" flag. Patent Pending.

P/N 13-11615.....**$38.75**

LIGHT SPORT CONTROL LOCKS

These control lock is easy to install and positively locks the ailerons and elevator of the aircraft models listed below. Gust lock is manufactured using 6061T3 aluminum. The control stick clamping portion has a protective sleeve to prevent damage to special control handles. The latching mechanism is tow locking buttons that cannot come loose until released by the pilot which insures the owners that their ailerons and elevators are safe from wind damage. The control lock is red anodized with a "Remove Before Flight" decal, and each unit comes complete with instructions in a 4" x 4" x 12" box. Only weighs 3 1/2 ounces.

PIPERSPORT / SPORTCRUISER CONTROL LOCK CL200 LONG - Eligible Aircraft Models: Pipersport and SportCruiser only. P/N 13-11304.....**$85.75**

VANS RV12 CONTROL LOCK CL230 LONG - Eligible Aircraft Models: Vans RV12 only. P/N 13-11319.....**$83.50**

VANS RV LSA CONTROL LOCK CL100 SHORT - Eligible Aircraft Models: most Van's RV's and many other LSA aircraft, as well as the Stearman PT17. P/N 13-11269.....**$83.95**

CITABRIA / DECATHLON CONTROL LOCK CL210 LONG- Eligible Aircraft Models: Aerotrek A220 & A240,AirCam,Alto 100,Breezer ELSA, Bristel, Champion Scout, Citabria, Decathlon,Diamond DA20 & TC100,Evector Harmony & Sportstar, KitFox Super Sport 7, Lightning LS1, Luscombe,Peregrine FK-9, Phoenix, Ran's SL-19, Coyote 2, S-7LS, Remos LSA, SeaRay, Spirit, Sting S4, Tecnam P2002 P/N 13-11318.....**$85.75**

HUSKY CONTROL LOCK CL110 SHORT - Eligible Aircraft Models: Husky only. P/N 13-21226.....**$83.50**

ULTIMATE GUST LOCKS FOR RVS

This revolutionary product "The Ultimate Gust Lock" is a solution to this rather troublesome and sometimes challenging task. This product will definitely calm the fears of many RV owners and builders of these wonderful aircraft. After watching, reading, analyzing, researching and waiting for someone to offer up a solution we decided to go to work on this problem.

Aircraft	Part Number	Price
RV-6, 6A, 7, 7A, 9, 9A	05-12368	$189.00
RV-8, 8A	05-12483	$189.90
RV-10, 10A	05-12484	$209.95

REMOVE BEFORE FLIGHT AIRPLANE CONTROL LOCK

Piper and Mooney aircraft do not have control locks. That's why there is now a Control Saver control lock to meet the needs of pilots who fly these planes.

RANS CONTROL LOCK

RANS has developed a control lock that attaches to most models. The lock consists of a bungee cord, a couple of hooks and cap that slips over the top of the control stick. Allows for bungee tension to be set for a particular model. Not hard bolted so if an outside force against the control surfaces occur, the bungees will absorb the load.

P/N 13-10434.....**$31.90**

AIRCRAFT LOCKS

PROP LOCK CHAIN

The THEX50 is a "T-HEX" maximum security chain 5 ft in length with hardened 10mm hexagon shaped links. Hexagon shaped case hardened trip heat treated super chain. This heavy duty Prop Lock Chain is the perfect way to insure the security of your aircraft, particularly at remote or foreign airports. The hexagon shaped, heat treated heavy duty chain can endure over 10 tons of cutting force, insuring your aircraft against theft. A black nylon cover over the chain protects your aircraft from the chain when in place. The Prop Lock Chain is 5 feet long and weighs 12lbs. P/N 13-05182 ..... **$49.85**

WHEEL CHOCK LOCK

This innovative aircraft security device clamps to the wheel which prevents theft of the aircraft, while the built-in chock prevents the wheel from rolling forward when parked. The lock and chock are yellow, while the red rubber coated arms protect the finish of the wheel. Fits any type of wheel up to 12" wide. Lifetime warranty. P/N 13-06141 ..... **$80.75**

YORK GUST-LOK™

The York Gust Loks the ultimate protection for your plane from wind and theft. It locks the control surfaces in a neutral position and prevents damage to control surfaces and tail caused by wind gust loads. It is welded steel, fully adjustable, is lightweight, and features a powder coat finish. The York Gust Lok is compact for easy storage and is quick and easy to use. Wt: 2.2 lbs.

PROPLOCK

PropLock is a simple, yet effective anti-theft device that can be easily installed on any single or twin engine aircraft.
Made of high quality steel wire rope coated with bright red PVC, PropLock provides effective protection against unauthorized use of your aircraft.
Included: • 1 PropLock • 1 Remove Before Flight Carrying Pouch. Features: • Hardened Steel Components • Red PVC Coating • Rust proof • High Visibility • Easily Installed • Nickel Plated Lock Assembly • Effective. P/N 13-20147 ..... **$279.00**

THE ALPHA WHEEL LOCK 2000

The Alpha Lock 2000 adjusts to virtually any wheel size in seconds and completely immobilizes the aircraft or vehicle wheel from rotating or turning. The lock is pick and drill resistant and cannot be frozen with freon. Soft, coated arms will not mar or scratch wheels and rims. Furnished in bright red color to warn thieves, weather resistant, and carries a 2-year warranty. Excellent for locking aircraft, autos, trucks, trailers, boat trailers, motorcycles, RV's, etc. Locks anything on wheels! Wt: 8 lbs. P/N 13-00436 ..... **$151.75**

THE PLANE LOCK

For Cessna C-172-210s, except for the C-177. Prevents the wind from popping your doors open and provides an added measure of security against break-ins. No tools or STC required. From outside the aircraft, the pilots door is locked by reaching through the window (prior to closing it) and pushing down the door safety handle. Then, slip the Plane Lock over the window sill and lock the window shut. P/N 13-03386 ..... **$151.75**

NELSON AILER-LOCKS

• 13" RBF streamer
• Locks flaps, ailerons, elevators, or rudder. Ailer-Lock Large (10")
P/N 13-22705 ..... **$32.75**

SKYLOK

Skylock is an inexpensive throttle lock for aircraft with Cessna type push-pull throttles. The device will accept shafts up to .375" diameter, and is made of heavy-gauge cadmium plated steel. Skylock affords great peace of mind to aircraft owners at very little cost. Just put in place after every flight, secure with your own favorite padlock, and your throttle cannot be moved! Simple, but it works.
P/N 13-18500 ..... **$13.95**

ANTI-THEFT LOCK FOR BONANZAS

Built for those incomparable Beechcraft. All have FAA STC/PMA as applicable. The rugged, locksmith quality key lock combines forces with hardened steel pins embedded in the lock body that roll to defeat cutting. Bright red color, easy to use, installs in just seconds. Patent Pending.
P/N 05-03435 ..... **$309.00**

AIRGIZMO UNIVERSAL GUST LOCK

The AirGizmos Gust Locks are designed to quickly lock virtually any control surface securely. Its bright color and integrated flag reminds you to remove before flight. The rubber cushions ensure that your finish will be protected. They are lightweight and portable. Perfect for carrying in the plane wherever you go.
Single ..... P/N 13-06139 ..... **$31.75**

H3R AVIATION FIRE EXTINGUISHERS

The FAA recommends and/or requires Halon fire extinguishers on aircraft. H3Rs Halon fire extinguishers are the extinguishers of choice in the aviation industry. They cause no mess or damage, and do not require taking a plane out of service for clean-up; a costly process for both the aircraft owner and insurance carrier. The heat-seeking quality of the Halon gas makes it a superior fire fighting agent.

DISPOSABLE, LOW-MAINTENANCE HALON 1211-1301 BLEND - Contain a proprietary blend of the "liquid streaming agent," Halon 1211, and the gaseous "total flooding agent," Halon 1301. The blend's power lies in the Halon 1301, which is both a firefighting agent and a propellant. Low maintenance and non-rechargeable. Lightweight aluminum canister Disposable. Tested to ANSI/UL 711 and UL 1093. Meets DOT requirements Meets the requirements in Advisory Circular 20-42C , "Hand Held Extinguishers for Aircraft" and/or NFPA 408, "Standard for Aircraft Hand Portable Fire Extinguishers" 12-year shelf life. Fire extinguishers include a mounting bracket.

RECHARGEABLE, STURDY INDUSTRY-STANDARD HALON 1211 - Required on commercial transport aircraft. Although classified a "liquid streaming agent," Halon 1211 also performs remarkably well as a "total flooding agent," seeking out and extinguishing fires in inaccessible places. A 6-year maintenance and 12-year hydrostatic test are required.Rugged steel cylinder. Pressure gauge enables easy confirmation of charge. Tested to ANSI/UL 711 and UL 1093. Meets DOT requirements. Meets the requirements in Advisory Circular 20-42C , "Hand Held Extinguishers for Aircraft" and/or NFPA 408, "Standard for Aircraft Hand Portable Fire Extinguishers". Fire extinguishers include a mounting bracket or a wall hook.

SAFECRAFT FIRE EXTINGUISHERS

A feature not found on other extinguishers is the "swivel" head design. The discharge head can be rotated to align the pull cable, which provides more installation flexibility. The aluminum cylinder is U.S. DOT approved and is capable of being refilled by Safecraft Inc. The extinguisher will accept two separate discharge lines, which allows installation flexibility currently not found in competing fire extinguishers. White powder coated cylinder with red aluminum anodized head. Designed to be mounted in the "head down" attitude.

Kit .....P/N 13-20262 ..... **$620.00**

ACTIVE EXTINGUISHING LINE

Active Extinguishing Line is totally independent, 1kg, fire extinguishing system from any power source. Its main secret lies in the heat detector in a form of a line made out of special laser predriller polymer, shich will react instantly to any source of heat or fire. This line (heat detector) is connected to reservoir containing fire-extinguishing agent: hexafluoropropane FE-36. Inside of the protected device (equipment) a loop made out of the heat detector breaks, creating a mini sprinkler, directly over source of fire or heat, extinguishing it instantly. In a moment of activation the system closed circuit switch collapsses sending a signal informing of fire. For experimental aircraft only. Ask for status of pending STCs.....P/N 13-03266 ..... **$698.00**

H3R QUICK RELEASE FIRE EXTIGUISHER BRACKET

Fire extinguisher quickly releases from bracket. Fiberglass reinforced nylon construction and corrosion resistant hardware. Designed to meet MIL SPEC 810G (test in progress). Tested to withstand inertial loads in excess of 27G in all directions. Fire extinguisher cannot be accidently disengaged from bracket. Fits H3R Performance fire extinguishers with 4.25" diameter cylinders (B355T). "Pull to Release" flag enhances visibility. Does not obscure fire extinguisher nameplate. Designed for use with H3R Performance vehicle seat mount. Weighs a scant 15 oz!

3" Bracket .....P/N 13-18452.....**$68.90**
4-1/4" Bracket .....P/N 13-18453.....**$58.75**
5" Bracket .....P/N 13-18454.....**$59.85**

RECHARGEABLE, DURABLE EPA-APPROVED HALOTRON 1™

While it is less powerful pound for pound than Halon 1211, Halotron 1 offers all of Halon 1211's clean agent benefits, and Halotron 1 is less damaging to the ozone layer. H3R Aviation offers two Halotron 1 fire extinguishers: one FAA-approved unit for aircraft use and one wheeled unit for the flight line/ramp. These rechargeable extinguishers have pressure gauges and require a 6-year maintenance and a 12-year hydrostatic test P/N 13-02562 ..... **$6,923.00**

SMOKE HOODS - LIFE VESTS

PROVITA SMOKE HOOD

The Provita Smoke Hood provides 20 vital minutes of life-saving evacuation time. It is proven to protect from smoke and 98% of toxins created by fire, including: Chlorine, Ammonia, Acrolein, Hydrogen Chloride, and Hydrogen Sulfide. Lightweight and compact. One size fits all. Smoke hood easily comes out of its 8" x 6" x 1" vacuum sealed bag - ready for use in seconds. There is no front or back which allows the smoke hood to be put on quickly for panic situations. The rubber seal easily slips over your head and seals - not allowing any smoke through. The smoke hood provides 360 degree vision and 20 vital minutes to escape a smoke-filled room.

P/N 13-11343.....**$189.00**

POCKET SMOKE MASK

NASA graded high temperature resistance Polyamide Film resists heat up to 932 degrees The seven layer filter stops and blocks toxic gases made from non-woven and activated carbon fibers Filters more than 20 minutes of toxic smoke from fire. One size fits all: Adults, Children and Infants. Designed to protect user from smoke in the event of a fire. Simple to use, easy to store. Fits in brief case, purse, carry on luggage. Hood allows full 360 degree sight, talk and hearing capability. Heat Resistant – resists heat up to 932 degrees F. Provides 20 minutes of filtered breathable air. Five year shelf life. P/N 13-17891.....**$39.95**

IEVAC SMOKE MASK / FIRE HOOD

The iEvac Smoke Mask/Fire Escape Hood is the only smoke/fire hood certified to the American Standard ASTM E2952-14. It protects against fire-related gases including carbon monoxide, hydrogen cyanide, smoke, & hydrogen sulfide. The iEvac contains a HEPA filter that removes more than 99.97% of sub-micron particles such as ebola, anthrax, smallpox, and radioactive particles. One universal size can be put on in under 30 seconds. The hood features easy-to-breathe dual filters and is compact, lightweight, and vacuum sealed in a foil bag for a long shelf life. Its unobstructed field of view can be used with eyeglasses, beards, and long hair.

SURVIVAL PRODUCTS LIFE RAFTS

Perfect for general aviation. Small and compact it fits in a lightweight valise 4" x 12" x 14" and weighs only 12 lbs. But don't be fooled by its size, price or weight. This raft will do the job for you under the most adverse condition. It provides a fresh water buoyancy of 190 lbs. per person and a deck area of 3.6' per person which exceeds all Govt. standards. Inflated, the raft is 46' inside and 68' outside and every square inch has been meticulously made from raw materials and components tested for their durability and life expectancy. Every raft is pressure tested and all seams and adhesive bonds rigorously checked prior to release. Raft includes sea anchor, bailing bucket, hand inflation pump, and CO inflation system. Optional survival equipment shown below. 6-13 person raft is 5' x 12' x 14' and weighs 18 lbs. Available in non-TSO'd and TSO'd versions.

REVERE AERO ELITE LIFE RAFTS

The Aero Elite offers both crew and passengers easy usage when facing the stress of a life threatening situation as opposed to other liferafts that can be difficult to lift and transport at the time of need. Vertical bulkheads inside divide the tube into two independent air-holding compartments. If one compartment is punctured, the other keeps you afloat. Offers a spacious 4 square feet per person. Inflatable floor, stowage pockets, zippered windows, flashing strobe, extra large ballast pockets, an extensive equipment pack including USCG/SOLAS flares plus much more. If serviced according to manufacturer's specs, the Aero Elite offers a 12 year warranty.

SWITLIK INFLATABLE LIFE RAFTS

The Switlik ISPLR brings advanced military design and mission-proven durability to a single place life raft available for mariners and pilots who are serious about their personal lifesaving equipment. Fully reversible. The unique U-shaped design allows the raft to be fully reversible, allowing quick, easy entry from the water - whichever side is up when it automatically inflates. The ISPLR's low slung floor design allows seating at a slight recline lowering the center of gravity well below the water-line, increasing stability in rough waters. Zip to the elements. Twin zippers, located on either side, allow you to partially close the canopy, keeping the elements out while providing great ventilation.

SEE WWW.AIRCRAFTSPRUCE.COM FOR A COMPLETE SELECTION OF EAM SURVIVAL KITS

EAM SURVIVAL RAFTS

Each product is manufactured with the highest quality craftsmanship and are proudly FAA-TSO approved. In addition, EAM is proud to offer customizable raft packaging to meet any client's specifications. When deployed and in the water, the raft may be boarded on either side. Survival items are contained in a kit tied to the raft. Select raft models include a raft canopy, located inside the accessories case, which features two (2) roll-up doors and a rain water collector in the top of the roof panel. The VIP and SAM Series life rafts have auto self-erecting canopies, which have two (2) doors which can be sealed closed with Velcro. Also, the VIP and SAM series canopies are affixed to the life raft with Velcro so if needed the canopy can be removed and reinstalled.

MUSTANG INFLATABLE LIFE PRESERVERS

INFLATABLE BELT PACK PFD - The Inflatable Belt Pack PFD from Mustang Survival fits around the waist like a belt, staying out of the way until you pull the inflation cord. Redesigned to fit and feel better with a great new look.

The ergonomic design conforms to the body to provide a secure and comfortable fit and is backed with Mustang's neoprene Comfort Lining(TM) to reduce chafing when worn against the skin. The PFD operates by manual inflation, meaning it won't inflate unless you pull the activation cord. Easy to wear and maintain, it inflates to provide 35lb buoyancy, more than twice the flotation of a traditional foam PFD.

A great option for those looking for minimal bulk and wanting to control when their PFD inflates. Recommended for paddlers, paddleboarders, river fishermen and general recreational boaters.

P/N 13-17886.....**$122.75**

SURVIVAL GEAR

SWITLIK AVIATOR LIFE VEST

The Switlik Aviator Life Vest is supremely more comfortable to wear, and specifically designed for the seated position in your aircraft. It's the vest you'll forget you're wearing. The new interior cell folding technique combined with our open V-Neck design allows the Aviator to lay over your shoulders relieving the pressure on your neck during those long flights. We have located our new beaded handle in the center of the vest allowing for an easier approach for deployment. The breakaway safety feature eliminates the risk of snagging. The red handle also offers the best visibility in low light conditions. The Switlik Zipper closure keeps your inflatable vest secure at all times. The simple reliable dual breakaway design provides immediate inflation when activated. Backup oral inflation tubes are conveniently located on either side of the vest and easily reached through the side access flaps. .....

SWITLIK X BACK AIR CREW LIFE VEST

The aptly named X-Back is ergonomically fitted to your shoulder contour for a perfect fit. As accessories are added the weight is distributed over your shoulders and off your neck for vastly improved comfort. The adjustable X-Back straps provide enough range making it one size fits all. The MOLLE (Modular Lightweight Load-Carrying Equipment) system lets you customize your vest with the accessories you need. The contoured cut of the MOLLE side panels locates the accessories away from your midsection. The simple reliable dual breakaway design provides immediate inflation when activated. Backup oral inflation tubes are conveniently located on either side of the vest and easily reached through the side access flaps. High visibility red beaded handles are found on both sides of the vest making for simple activation. They incorporate a breakaway safety feature to prevent snagging.

ION FLASHLIGHT FIRESTARTER™

During outdoor adventures, flights over remote areas, or in any emergency survival situation, there are two pieces of equipment that you never want to be without, a flashlight and a firestarter. Solo Scientific combined the two into one lightweight, compact, powerhouse of a product called the ion Flashlight Firestarter™!

The ion Flashlight Firestarter™ is a flashlight, a firestarter, a magnetic tool, has a safety mechanism, is knurled for grip, water proof, shock resistant, and can even be used to cauterize wounds in the field (by qualified medical personnel only).

The energy efficient ion Flashlight Firestarter™ will work in any environment that will support life and uses a super bright (but energy efficient) white LED for illumination. P/N 13-11695 ..... **$118.75**

PROFORCE DRI-SAK

Store your sleeping bag, clothing, and any other items you want to keep dry in a Dri-Sak™. They are seam taped, nylon with a TPU Film Lamination to ensure protection if your gear takes an unexpected dive into the water. They are a great addition that can be used in conjunction with any of the Snugpak® backpacks or any other backpacks. Not intended to be submerged for extended periods of time. Roll-top closure must be closed correctly (recommended rolling 3 times and buckled to keep contents dry). Contact with abrasive or sharp objects can damage and/or compromise the integrity and waterproofness of our Dri-Sak bags. D-Rings for securing if necessary.

THE SNAPPER CANOPY ESCAPRE TOOL

The Snapper (Tool for canopy escape to break shards of plastic after flip-over for escape). This tool was developed specifically for the RVs. This little tool could really save the day in the event of a flip over in your RV. We learned that almost all flip overs result in the canopy being broken and cracked. At first glance one would say that is a good thing, and should help facilitate a speedy exit.

P/N 05-12378 ..... **$8.95**

BRITE STRIKE ULTIMATE PILOT LIGHTED SURVIVAL KNIFE

The hollow ground blade is hand finished to a razor sharp edge. Spring Assisted Opening is best in class. 45 lumen mini-aluminum LED white light. The light can be quickly removed from the body of the knife and operated independently. The rare earth magnetic base allows the light to be mounted on the blade for a 90 degree light. THE WALLACE GUIDEBOOK

For Emergency Care & Survival - When you're faced with a disaster, you can often face physical and psychological strain. It's often hard to remember what to do in an emergency situation, and this is exactly why we've written the Wallace Guidebook. This book is specifically designed to present the basics of survival in an extremely easy-to-understand manner. This book discusses the following topics, plus many more: Choking, Heart Attack, CPR, Shock, Burns, Emotional Trauma, Bleeding, Fainting, Wounds, Broken Bones, Fractured Bones, Back Injury, Childbirth, Auto Breakdown, Temperature Extremes, and the 1st and 2nd Rules of Survival. It's not fun to be in one of these situations, but having a book like this nearby gives you a better chance of a happy ending. P/N 13-03597.....**$5.95**

SURVIVAL KITS

Crashkit Personal and Professional Flight Line Series aviation survival kits are quickly becoming an industry leader in top quality aviation survival kits. Numerous kits are available to suit you piloting and survival needs.

CRASHKIT ALPHA SURVIVAL KIT

The "Alpha' personal aviation survival kit is designed for the pilot with general knowledge of survival techniques. This kit should only be purchased by experienced and skilled individuals. This kit includes 24 of the most essential items packed into the smallest kit practical. Weighing in at only 1.54lbs, the general kit is small enough to fit in any flight bag, purse, glove compartment, map pouch or cargo pocket.

Every item included in this kit has been thoroughly tested and approved to insure it performs flawlessly when needed (we've even sharpened the knife!) and meets or exceeds Transport Canada's Canadian Aviation Regulations to facilitate survival and rescue. Dimensions : 6.37" x 4.75" x 2.12"(16.9 x 12.06 x 5.4 cm) Weight : 1.54 lbs Contents : 24 items covering food, fire, water, shelter, and first aid Case : Pelican 1020 case - yellow - tough, watertight, polycarbonate case Optional Acc's : Parachute deployment system; Warranty : Lifetime

P/N 13-04684 .....**$169.95**

CRASHKIT BRAVO SURVIVAL KIT

The 'Bravo' Personal Aviation Kit is designed for you. The Bravo Crashkit is small and compact, and includes 76 of the most essential items needed to survive. Kit includes basic first aid, light, fire, signal, shelter and methods for providing clean water and food procurement.

The kit is slightly thicker than the Crashkit 'Alpha', but still small enough to be carried easily in small flight bags, jacket pocket, glove compartment, map pouch or cargo pants pocket. Crashkit 'Bravo' weighs in a 1.6 Kilos or 3.52lbs.

While water resistant, crushproof and relatively small, this kit still exceeds all Transport Canada requirements for aviation survival. And with every item tried and tested to ensure it will work flawlessly for you when you need it most, you can count on the tools you need, when you need them. P/N 13-04685 .....**$268.95**

CRASHKIT CHARLIE SURVIVAL KIT

Including 71 of the most essential items, this kit is extensive in its coverage of necessary tools and supplies. Packaged in a Pelican 1120 case, 'Charlie' is still compact and lightweight enough for easy transport and storage. Every item in this kit has been thoroughly tested and approved to ensure it performs flawlessly when needed, as well as to ensure the ease of use for each individual piece. This kit meets or exceeds Transport Canada's Canadian Aviation Regulations to facilitate survival and rescue. This kit now contains Aquatabs Water Purification and The Spark-Lite Flint and Tinder Kit. Each package of Mainstay Food Rations contains pre-measured 400 calorie individualized portions,non-thirst provoking lemon flavor daily meals, and suitable from -40F to 300F and ready to eat. The tasty bars contain no cholesterol or tropical oils. Meets all guidelines set by the Department of Defense(SOLAS 74/83). Exceeds the RDA requirements. In an emergency situation, ration to one portion per day or less. Dimensions : 20.6 x 16.7 x 9 cm (8.12" x 6.56" x 3.56") Weight : 1.85 kg (4.07 lbs) P/N 13-04686 .....**$344.95**

CRASHKIT 2-7 SURVIVAL KIT

As a pilot with a professional responsibility to others, we know you will want only the best survival options. The 'Crashkit 2:7' has been designed for use in a typical GA light aircraft and contains over 200 essential items needed to sustain two people for seven days. This Aviation kit contains multiple options for the provision of food, fire and water, including Aquatabs Water Purification Tablets and the Spark-Lite Flint and Tinder kit.The kit is packaged in a Pelican 1200 case and remains lightweight and compact for ease of storage. As with all Crashkits, all products have satisfied rigorous testing to ensure they surpass Transport Canada regulations for aviation. Crashkit 2:7 exceeds all Transport Canada and Federal Aviation Administration regulations for both survival and first aid, 1-6 person. Dimensions : 27 x 24.6 x 12.4 cm (10.62" x 9.68" x 4.87") Weight : 4.31 kg or 9.50 lbs

P/N 13-04690 .....**$529.95**

CRASHKIT 4-7 SURVIVAL KIT

The Crashkit 4-7, designed for use in typical GA light aircraft and commercial aircraft, contains the materials necessary to sustain four people for seven days in the event of a crash. The variation of items within the kit allows for multiple options for food, fire, water and shelter; for example, in addition to the Mainstay packaged food, a fishing kit and snare are also included. This kit contains 232 of the most essential items needed in a survival situation, packaged within an indestructible Pelican 1400 case.

Every item included in this kit has been thoroughly tested and approved to ensure it performs flawlessly when needed, and meets or exceeds Transport Canada's Canadian Aviation Regulations to facilitate survival and rescue. Dimensions :13.37" x 11.62" x 6.00 " (34 x 29.5 x 15.2 cm) Weight : 17.55lbs Contents : 232 items covering food, fire, water, shelter, and first aid Case : Pelican 1400 case - tough, watertight, polycarbonate case Kit Coverage : 4 people for 7 days (or longer dependent on situation) Optional Acc's : Parachute deployment system; Warranty : Lifetime.

P/N 13-04691 .....**$926.00**

CRASHKIT 6-7 SURVIVAL KIT

Intended for commercial aircrafts, our Crashkit 6-7 has enough materials to sustain six people for seven days in the event of a crash. Various means of food, fire, water and shelter allow for multiple options; for example, this kit includes not only Mainstay water, but the means for purification, as well as hot chocolate or tea. Within this indestructible, crushproof and waterproof Pelican 1450 case, 261 of the most essential items needed in a survival situation are packaged and ready for easy use. Every item included in this kit has been thoroughly tested and approved to ensure it performs flawlessly when needed, and meets or exceeds Transport Canada's Canadian Aviation Regulations to facilitate survival and rescue. Dimensions : 16" x 13" x 6.88 " (40.6 x 33 x 17.5 cm) Weight : 22.80lbs Contents : 261 items covering food, fire, water, shelter, and first aid Case : Pelican 1450 case - tough, watertight, polycarbonate case Kit Coverage : 6 people for 7 days (or longer dependent on situation) Optional Acc's : Parachute deployment system; Warranty : Lifetime.

TINDER HOT BOX SOLAR FIRE STARTER SURVIVAL KIT

The Tinder HOT Box Solar Fire Starter™ is a tinder storage box that can start a fire using solar energy, and the inside top cover is also a signal mirror! The Tinder HOT Box Solar Fire Starter™ is used to store fire starting tinder in the air/water tight tinder box portion of the unit that is sealed from the elements using an o-ring seal. This keeps the damp air/water out so your tinder always stays dry! The Tinder HOT Box Solar Fire Starter™ is also a solar powered fire starter. It is designed to function in any environment that will support life; the Tinder HOT Box Solar Fire Starter™ will literally function for as long as our Sun will shine and there is tinder to be found! As a matter of fact our Tinder Hot Box Solar Fire Starter will even function on other planets. 2.625 inches in diameter. .725 inches thick. weighs only 4 oz. can easily fit in your pocket. P/N 13-13091 ..... **$39.95**

RESCUEME EDF1 OCEAN SIGNAL FLARE

The rescueME EDF1 electronic distress flare offers users a safe and long-lasting solution to visual signalling in an emergency. The light output is a beam of over 30° throughout the full 360° azimuth, providing in excess of 6 times more light coverage than other electronic flares*. Light is also distributed throughout the hemisphere above the unit to ensure visibility from the air. Unlike single use pyrotechnic flares the rescueME EDF1 can be used repeatedly in any of its four modes, ensuring continued visibility is maintained over a longer period. The unit is both safe to store and operate while also eliminating any worries associated with disposal. The compact size and rugged design means the rescueME EDF1 is the perfect safety product for a grab bag, life raft or hiker's backpack.
P/N 13-20241 ..... **$146.26**

COCKPIT COOLERS

THE MINI ICEBOX PORTABLE AIR CONDITIONER

The Mini IceBox is a portable air conditioning system, for your airplane cabin, car, or boat.

For Pilots: No more flying in a scorching hot cabin! Turn ON the IceBox during preflight and cool your cabin down. Jump in and start your engine for a comfortable taxi and departure to a cooler altitude. Enjoy hours of IceBox cooling power and control your comfort with the Wireless Remote (Pump and Fan controls) TIP: During cruise flight, Turn OFF the water pump at altitude with the included 2x button Wireless Remote to sustain the longest A/C possible. In Cruise Flight Mode -- Keep the fan running to push cooler air through the cabin.

For General Use: Use the IceBox portable air conditioner in any environment, with electrical power. Cool down the car or boat with the IceBox, and keep your engines off in the process.

COOL MOVE TRAVEL COOLER

Soft sided electric travel cooler with cigarette lighter car plug in. Cools without ice which leaves you more room for food and drink. Quiet, long lasting motor powered by 12V vehicle outlet. 14 quart capacity that holds up to 20 cans plus snacks. Collapsible cooler takes up minimal space and allows for easy storage. Iceless cooling performance powered by thermoelectric technology that allows you to travel without the mess and inconvenience of ice. Digital Thermometer indicates ambient cooler temperature. Made with high quality materials for durability and toughness that's built to last. Plug in A/C adapter for use in the office, hotel room, camper, or dorm (not included)

P/N 08-14007 ..... **$59.75**

PS

B-KOOL PORTABLE COOLING SYSTEMS

Using a combination of ice and water, B-Kool™ provides up to an hour of 40º cool air using just 10 lbs of ice and a minimal amount of water. B-Kool™ is NOT an evaporative cooler and works well in high Humidity areas. Capacity is 20 lbs of ice giving you over 2 hours of cool air. Kool-Flex , a flexible and expandable air duct. Can be expanded to over 2 feet and positioned so air can be ducted where you want it. Because the B-Kool™ weighs less than 10 lbs empty, you can easily move it from your Camper, Airplane, Boat or any area where either 12 or 24v DC current is available.

KEWLFLOW PORTABLE COOLER

The ice cooler or backpack that holds the ice and water can be easily refilled for continuous cooling over extended periods. Includes 12V Adapter. 4 quarts. 6429C includes 6429 Vest and Cooler. 100% Nylon Carrying Case with spill proof inner cooler. Unit includes water reservoir, pump, and power source. Insulated tubing and manifolds enable maximal cooling. Easy to use quick connectors allow for convenient operation. Can operate with variable power sources (battery, 12V, 110AC). Cooling Duration: Up to 3 hours. Typical users include surgeons, motorcyclists, and others needing personal cooling relief.

P/N 13-15509 ..... **$307.00**

KEWLFLOW PORTABLE BACKPACK

KewlFlow™ products use a combination of ice water and pumps to push cold water through special tubes built into vests. This allows for a continuous flow of cool water around the upper body, keeping the user cool and comfortable in any condition. The backpack that holds the ice and water can be easily refilled for continuous cooling over extended periods. Includes battery pack. 4 liters. 100% Nylon Back Pack with integrated water reservoir, pump, and power source. Padded shoulder straps with variable sizing adjustments. Insulated tubing and manifolds enable maximal cooling. Easy to use quick connectors allow for convenient operation. Can operate with variable power sources (battery, 12V, 110AC). Cooling Duration: Up to 3 hours. Typical users include motorcyclists, welders, painters, and others requiring a portable cooling solution.

P/N 13-15510 ..... **$561.00**

CIRCULATORY COOLING VEST WITH STATIC COOLER

Includes 12V Adapter. Includes Vest and Cooler. 100% Nylon Carrying Case with spill proof inner cooler. Unit includes water reservoir, pump, and power source. Insulated tubing and manifolds enable maximal cooling. Easy to use quick connectors allow for convenient operation. Can operate with variable power sources (battery, 12V, 110AC). Cooling Duration: Up to 3 hours. Color: Black, Size: 9 Quart Cooler. Typical users include surgeons, motorcyclists, and others needing personal cooling relief.

COOLERS

YETI® HOPPER™ PORTABLE COOLERS

The Hopper was built for those adventures where you just want to grab your gear and go. It's the original 100% leakproof, ice-for-days portable cooler. And because we used materials found in things like survival suits, it's also tough as nails. The Hopper is made in sizes to fit any adventure, whether that's on a wild river in a kayak or a floatplane trip to a remote salmon stream. DRYHIDE™ SHELL - EThe Hopper's high-density fabric is waterproof and resistant to mildew, punctures, and UV rays. The liner is made from an FDA-approved food-grade material. COLDCELL™ INSULATION - Closed-cell rubber foam offers far superior cold-holding to ordinary soft coolers.

YETI® TANK®

The best times in life seem to involve good friends, family, and a healthy supply of ice-cold drinks nearby. So we designed the YETI TANK to be the perfect centrepiece of all the fun. This nearly indestructible party machine is packed with our patented cold-holding insulation to keep your next backyard barbecue, tailgate, or beach side bonfire wilder, longer.
ROTOMOLDED CONSTRUCTION - Makes it armored to the core and virtually indestructible.
NO SWEAT™ DESIGN - Keeps it dry on the outside.

YETI® RAMBLER™ DRINKWARES

The Rambler series of drinkware is the first line of YETIs you can fit in your hand. And, yeah, they over-engineered them to be virtually indestructible and keep your drink as cold (or hot) as science allows. With 18/8 stainless steel construction, double-wall vacuum insulation, and No Sweat™ Design, they're perfect for the deer lease, cleaning table, or just the times in between your outdoor adventures.
18/8 STAINLESS STEEL - Made with kitchen-grade stainless steel, so they're puncture- and rust-resistant.
DOUBLE-WALL VACUUM INSULATION - Keeps cold drinks cold and hot drinks hot until the last sip. NO SWEAT™ DESIGN - Keeps fingers dry and unfrostbitten.

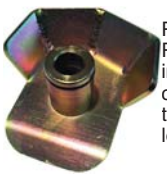
THE NOSE JOB 1 FOR RV NOSE GEAR

Anti-Splat-Aero is very proud to offer this revolutionary product (THE NOSE JOB 1) as a partial solution to the nose gear leg fears of many RV-A model builders, current owners and potential buyers of these wonderful aircraft. After watching, reading, analyzing, researching and waiting for someone to offer up a solution we decided to go to work on the problem. This product allows the Van's nose gear leg to function as designed without interfering with its dynamics or operation in any way.
The product only comes into play when the forces on the gear leg, if allowed to increase further, would become greater than the gear leg was designed to see or handle without permanent damage to itself or the aircraft. When operating your aircraft from an unimproved surface i.e. grass, dirt, poor runway surface or in an emergency off field landing this device could help prevent a costly repair, a propeller strike, engine disassembly for inspection or other damage may be avoided not to mention a dreaded possible flip over we have seen so many times.

P/N 05-12363.....**$379.00**

THE NOSE JOB 2 FOR RV NOSE GEAR



After many requests and making dozens of custom units, we are proud to offer this variation of our product " THE NOSE JOB TWO " as a partial solution to the nose gear leg fears of many RV-A model builders, current owners and potential buyers of these wonderful aircraft. Many of you requested a kit that would not require the fitting of a new fairing.

The preparation and fitting of the new fairing is a complex problem for a non-builder and most don't wish to deal with it. Also many finished airplanes have very expensive and elaborate paint jobs and this is a deterrent to many people as well. So in response to the demand here is a "NOSE JOB TWO" kit that will fit under the stock Vans fairing and provide the same protection as our original unit. We now feel our product is the most logical, simple and inexpensive device that can be manufactured and installed in an effort to address these gear leg concerns.

P/N 05-12364.....**$339.00**

THE LIP SKID

Prevents nose gear from digging into turf on dirt and grass runways. This device was created to help prevent flip-overs of the Vans RV-A Models on irregular surfaces. It installs in the bottom of the nose gear, providing surface area to keep the gear leg from digging in on contact. Installation only takes a few minutes and can possibly prevent a flip-over and serious damage to your aircraft. The center post is precision machined from 4130 grade aircraft steel as is the skid plate. Assembled and heat treated to a 45 rockwell, then zinc plated to provide a lifetime of protection for your aircraft. This comes with a vibration preventing O-ring for inside the gear leg and complete installation instructions to install inside the wheel pants out of sight. Total weight of this installed is 7 oz.

VHS..... P/N 13-03676.....**$42.95**

LITTLE JOHN

Positively the least expensive accessory you can buy to extend your range. One authenticated case reports a Piper Malibu's range extended by 500 miles. Durable plastic, won't crack under any normal handling and temperature conditions. A tight screw-on cap makes it spill proof. Standard issue in hospitals for years. P/N 9741 ..... **$10.95**

LADY J ADAPTER

The anatomically designed funnel snaps in and out of the little John. It can be used sitting or even standing. Clean white plastic. P/N 9745 ..... **$8.99**

G FUNNEL ADAPTER

The G-Funnel is a portable urinal adapter which simply screws on to any plastic pop or water bottle that will be used as a container for those situations where a washroom facility is not available. Can be attached and used together with any sized plastic pop or water bottle that most people have on hand. A very useful relief device for those emergency situations.
P/N 13-01974 ..... **$7.99**

RESTOP DISPOSABLE URINAL

The anatomically designed Restop is the disposable urine bag that combines a unique blend of polymers, enzymes, & deodorizer to turn urine into an odorless gel on contact. The funnel design prevents accidental spills. Restop is sanitary, non-toxic, spillproof & odorless, safe and convenient, trash container safe, and small enough to fit in pocket. Easy to use by men & women. 2 pack. P/N 13-00794 ..... **$3.45**

TRAVEL JOHN

Absorbent pouch turns urine into gel instantly while destroying bacteria and odor. Specially designed collar works for men women and children; spill guard prevents back guard during use. Convenient, sanitary and compact, TravelJohn is easy to use while sitting or standing. Will not leak or spill, even if punctured. Holds 28 fl. oz. Includes antiseptic hand wipe.
3-pack .....P/N 13-00894 ..... **$5.50**

CONVENIENCE BAG

Disposable urine & vomit bag.• Wide mouth.• No spill, cleanup, or odors• One-hand use
P/N13-02821..... **$2.09**

MOTION EAZE

Whether you want to prevent occasional motion sickness or relieve its symptoms, after the fact, Motion Eaze does the job. No matter, if it's sea sickness, car sickness, air sickness or any activity where motion sickness poses a problem, Motion Eaze really works. Contains no drugs, artificial additives, or stimulants of any kind. Only the freshest, highest quality, natural oils are used in its production. Motion Eaze is an oil that is applied to, and absorbed through, the skin, just behind the ear. P/N 13-02732 .....**$15.95**

SEABAND WRIST BAND

The Sea-Band has been clinically tested against nausea and vomiting in travel, pregnancy, anesthesia, chemotherapy and all conditions which induce nausea. The Sea-Band is a knitted elasticized wrist band, which operates by applying pressure on the Nei Kuan acupressure point on each wrist P/N 9411.....**$8.75/pr**

SIC-SAC™

Use these for air sickness emergencies. Moisture proof and tear resistant even under extreme temperature changes. 10 sacks, individually packaged, each with attached tie band. Pack of 10 ..... P/N 9296 .....**$5.95**

OZIUM AIR SANITIZER / FRESHENER

Eliminates smoke and offensive malodors caused by airborne bacteria. OZIUM is a product that sanitizes the air you breathe. It is clinically proven to eliminate odors, unlike current products that just mask odors. OZIUM combats airborne contaminants and eliminates odors with glycol-ized action…dispensing micron sized particles that linger in the air, attach to airborne bacteria and malodors to drastically reduce air pollution, purify and sanitize the air. P/N 14-00061.....**$9.50**

THE BIFFY BAG

Personal disposable toilet system is a complete toilet that fits in the palm of your hand. Allows for a natural position. It has everything you need for a sanitary, discrete and comfortable experience.
3pk ..... P/N 13-12354 ..... **$13.50**
10pk ..... P/N 13-12355 ..... **$36.75**

PS

CO DETECTORS

CO GUARDIAN CARBON MONOXIDE DETECTORS

AERO 353-101/201 - The AERO 353 has a built-in state-of-the art CO sensor that immediately reacts to the presence of CO. It was designed for pilots who want the unit to be small, so it takes up a minimum of panel space, and provides pilots a peace of mind. Detector will go into alarm mode within five minutes if CO level is greater than 50 PPM. The unit has dual light LED alarm; Amber less than 99 PPM and Red 100 PPM and above. Very simple installation (2-4 hours). For experimental aircraft only.

Aero Model 353 ..... P/N 13-16423 ..... **$289.00**
Aero Model 353 w/ Pressure Sensor ..... P/N 13-16424 ..... **$389.00**
Aero Model 353 Display Only..... P/N 13-16427 ..... **$289.00**
CO2 Detecor for MVP and CGR ..... P/N 10-03188 ..... **$289.00**
353P-201 Remote Mount ..... P/N 13-06917 ..... **$459.00**

MODEL AERO 553 - Replaces the 2.25" clock and provides the latest CO protection that displays 30 to 999 ppm in the cockpit, as well as aircraft high and low voltage alarms, pressure density altitude readout for takeoff. Cabin altitude alerts to remind you to go on oxygen. CO level, cabin pressure and temperature to be displayed on the UPS AT CNX80..... P/N 13-02569 ..... **$689.00**
Aero 553 OAT Probe..... P/N 13-06165 ..... **$125.00**

MODEL AERO 451 - The CO Guardian 451-101 panel mounted Carbon Monoxide (CO) detector is designed especially for FAA certified Part 23 aircraft and Part 27 and 29 rotorcraft. A compact and lightweight unit meant to use as little panel space as possible, the 451-101 combines highly accurate CO detection for the cockpit in a small package. This CO detection unit is perfect for builders and pilots looking for basic protection from the dangers of carbon monoxide in their certified aircraft or helicopter.

Model 451-101 Panel Mount ..... P/N 13-21110 ..... **$478.00**
Model 451-201 Remote Mount..... P/N 13-21111 ..... **$399.00**

MODEL AERO-452 - Input Power-14 / 28 V DC. Power Usage-Less than 1 Watt, 10 Watts with heater ON. Temp Range - -20 deg C to 55 deg C. Inspection - Each Unit 100 % tested. Humidity - 5 % to 95 % RH (non-condensating). Circuit Breaker-2 Amp. Design-Meets TSO-C48A. Weight-3.5 Oz. Sensor-Tested to 25,000 Ft. Calibration-100 and 500 PPM. Ouput-Dual Relay Output for, Panel Warning light / Annunciator. WARRANTY :The Aero 452 comes with a 1 year limited warranty. The warranty will be void if the unit has been opened or tampered with. ..... P/N 13-07102 ..... **$479.00**

MODEL AERO 452-201-011 - Aero 452-201-011 is the first TSO certified remote-mountable Carbon Monoxide detector for use in General Aviation. This unit is a derivative of Aero 452 (Panel Mount). This unit comes standard with remote re-set switch and a remote light and can be installed behind a panel. This unit is pre-wired for connecting to an external annunciator warning lamp on your panel. Different light models can be purchased separately.

P/N 13-06918 ..... **$479.00**

MODEL AERO 454 - The AERO 454 can wirelessly transmit your GPS location up to three iOS devices; iPad, iPod, iPhone enabled tablet. The Model 454 device is also designed to detect, measure, and provide alerts to the crew of reciprocating engine type aircraft before the cockpit level of carbon monoxide (CO) reaches a critical level. In addition it also gives Cabin altitude warning at 10K, 12.5K and 14K. Input Power: 14/28 V DC. Weight: 4 Oz

Standard ..... P/N 11-10663 ..... **$495.00**
Remote Unit ..... P/N 13-16426 ..... **$999.00**

MODEL AERO 455- CO Guardian proudly announces aviation's first built-in pulse oximeter for airplane panels. This Life Guardian Aero-455 has been designed for all aircraft with limited panel space. This small pulse Oximeter with CO Detector mounts easily in most panels and transmits data to the MFD'S via RS232. Current MFD manufacturers include Electronics International, Advanced Flight Technologies, Grand Rapids Instruments and on upcoming releases of Avidyne Entegra Release 9.

P/N 11-07993 ..... **$999.00**

AERO-551 - Is fast responding to CO threat detector that is designed to standard 2 1/4 hole. This unit is our most sophisticated CO detector that has an extremly fast response when CO is present. The 551 unit shows continous CO Level from 10PPM to 999 PPM.

P/N 13-06919 ..... **$589.00**

DRAGER PAC SINGLE GAS MONITORS

Dräger Pac® 3500 - Workplace safety devices need to be fast and accurate. That is why the Dräger Pac 3500 is ideal for the personal monitoring of industrial carbon monoxide, hydrogen sulphide, along with being maintenance-free for up to two years. P/N 13-07016..... **$226.95**

Dräger Pac® 5500 - Long-lasting quality is key when it comes to workplace safety. The Dräger Pac 5500 has no lifetime limitation and is ideal for fast and accurate personal monitoring and detection of carbon monoxide, hydrogen sulphide or oxygen. P/N 13-07017..... **$319.00**

GASALERT CLIP EXTREME CARBON MONOXIDE MONITOR TWO YEAR BATTERY LIFE

Simply press the start/test button and the GasAlertClip Extreme is ready to use, providing continuous, reliable protection. This carbon monoxide detector requires no calibration, sensor replacement, battery replacement or battery charging. The simplicity of the GasAlertClip Extreme combined with minimal training requirements and negligible maintenance costs make the GasAlertClip Extreme one of the most cost-effective gas detection solutions for facility workers and onsite contractors. Standard Package Contents: Detector complete with specified sensor, stainless steel alligator clip and concussion-proof housing, Test cap and hose, Manual, Multi-language CD manual.

Gas Alert Clip Extreme II CO (2 Years)..... P/N 13-09667 ..... **$159.95**
Gas Alert Clip Extreme III CO (3 Years)..... P/N 13-09668 ..... **$288.95**
Gas Alert Clip Extreme CO 0-1000PPM..... P/N 13-09669 ..... **$314.00**

LONG LIFE CARBON MONOXIDE DETECTOR

No longer do you have to replace that Carbon Monoxide Detector every 28 days, the new Quantum Eye Carbon monoxide detector offers a minimum 18 months of sensor life. P/N 09-35601..... **$10.90**

STANDARD CARBON MONOXIDE DETECTOR

Toxic, odorless, tasteless gas produced by incomplete combustion or gasoline, kerosene, natural gas, butane, fuel oil, wood, coal or anywhere fossil fuels are burned. Dangerous levels of CO come from internal combustion engines such as cars, airplanes, and lawn mowers or from any poorly vented or improperly adjusted fuel burning appliance. P/N 09-35600 ..... **$3.85**
Discount on 5 ..... **$17.33**

ASA CARBON MONOXIDE DETECTOR

Carbon Monoxide (CO) is a toxic, odorless, and tasteless gas produced by the incomplete combustion of gasoline, kerosene, natural gas, butane, propane, fuel oil, wood, coal, and other fossil fuels. Dangerous levels of CO can be produced by internal combustion engines or from any poorly vented or improperly adjusted fuel-burning appliance. Exposure to CO may cause sickness, headaches, or even death. P/N 13-05755 ..... **$3.99**

DIGITAL CO2 DETECTOR

The extremely affordable DCO 1001 has a measuring range of 0-1000 ppm and comes complete with a soft case, a wrist strap, 3 "AAA" batteries and an instruction manual. Features: • Adjustable co warning level • LCD dual digital display • Bright backlight • self test • Low battery indication • °F/°C selectable • Auto power off • Auto zero • Co range: 0~999ppm • Resolution: 1ppm • Battery life is 250 hours when the backlight is off and 35 hours with the backlight on. P/N 12-01895 ..... **$144.85**

MODEL 300 POCKET CO

Pocket CO Model 300 is the world's smallest and most affordable carbon monoxide detector, alarm and dosimeter. About the size of a key fob weighs less than 1 oz. Range: 0 – 500ppm; first alarm at 50ppm, second at 125ppm, third at 400ppm. Also has an 8-hour TWA warning alarm at 25ppm. Self-checks upon start and carries a 2 year warranty.

P/N 13-06639 ..... **$131.95**

ACCESSORIES

Replacement/Spare Battery ..... P/N 13-06640 ..... **$4.50**

FLIGHT DATA SYSTEMS GD-40 CARBON MONOXIDE DETECTOR

Integrates with most EFIS Systems - Connect via RS232 or a Switched Input. Audio Voice Alerts. LED and Discrete Warning/Status Outputs - Two color LED included. Monitors Cabin Altitude - Aural Alerts to remind you to don your Oxygen Mask. Calibrated Using Precision Gas - Each unit is individually calibrated and tested before shipping. Built in Self Test Monitors Sensor Quality - Continuous self testing for reliability. Altitude and Temperature Compensated - Has an internal Altimeter and Thermometer. Remote Mounting Takes No Panel Space Dimensions: 4.7 X 3.1 X 1.0 inches. Weight:4.1 oz..... P/N 11-09843 ..... **$295.00**

MUTT MUFFS

- Over-the-Head Hearing Protector for animals.
- Specially Designed Wide Foam Filled Ear Seals for Maximum Comfort.
- Engineered specifically to properly meet the contour of a dog's head
- Comfortable and Lightweight
- Adjustable Straps for Optimum Fit.
- Inner sound-deadening foam is the same density found in pilot's high-end headsets
- Made entirely in the United States of America
- Patent Pending

Muff Size	Typical Dog Weight	Head Circum-ference	Maximum Inner Shell	
			Width	Height
X-Small	5-10 lbs	7-9"	1.5"	1.625"
Small	9-25 lbs	9-13"	1.75"	1.75"
Medium	20-50 lbs	13-18"	2.5"	2.5"
Large	50-95 lbs	18-23"	3.25"	3.25"
X-Large	95+ lbs	23+	4"	4"

Size	Weight	Part No.	Price
X-Small	1.5 oz	13-05536	**$55.75**
Small	1.7 oz	13-05537	**$55.75**
Med	3.0 oz	13-05538	**$57.65**

Size	Weight	Part No.	Price
Large	4.0 oz	13-05539	**$55.85**
XL	5.8 oz.	13-05540	**$69.75**

SIZE CHART - The overall circumference measurement of your dog's noggin at the largest point is the best determination of size, because if you choose a size too large, the muffs won't seal well against his head, and you lose all the sound-reducing properties you were shooting for. Your dog's weight is also a good indicator of which size to choose.

CUSTOM COLORS - Ever-classic "Mutt Muff® Black". But now, Mutt Muffs® are available in three additional colors! Red! Blue! and Pink!

P/N 13-05541 ..... **$62.75**

CO-PILOT - TRIANGLE BANDANA FOR DOGS

The proper uniform for the distinguished canine aviator. Sewn on all three sides. Finished Sizes: Large:21.5" x 21.5" x 29", Small: 14" x 14" x 20"

Large ..... P/N 13-05547 ..... **$6.65**
Small ..... P/N 13-05548 ..... **$6.65**

HYDRO-BOWL FOR DOGS

Next time your pooch is pantin' for a drink, pull out the convenient, collapsible Hydro Bowl. Waterproof and made of a high-tech, durable plastic canvas, the Hydro Bowl folds up and snaps closed into a compact triangle for storage. Attach it to a leash, backpack, bicycle, or a variety of other places for easy storage. Hold 5 cups

P/N 13-05546 ..... **$9.50**

DOG IS MY CO-PILOT - BUMPERSTICKER

"Dog Is My Co-Pilot" is the trademarked motto of Bark magazine - accept no substitute. As seen on dog-friendly cars from coast to coast!

P/N 13-05545 ..... **$2.85**

BARK BAGS

If you take passengers, sooner or later, you're going to need one. 9-3/4" x 4-1/4" to hold alot of chunks. Sold in a package of 3... There could be sympathy heaves. P/N 13-05543 ..... **$4.60**

4 PAWS K-9 EAR MUFFS

4 Paws Aviation has come out with hearing protection for your pet. Average of 15 dBHL greater sound reduction than what's on the market today. These Ear Muffs hearing protection is made of nylon, aircraft approved sound deadening foam, non-toxic "gel" cups, webbing, and a safety "break a way" clip.
They can be used with the only oxygen hood delivery system for your pet also offered by 4 Paws Aviation.
Small- 5 to 25 pounds 7" and 13" head size..... P/N 13-08288..**$59.95**
Medium- 20 to 85 pounds 9" and 19" head size... P/N 13-08289..**$63.95**
Large - Over 85 Pounds & 19" head size ..... P/N 13-12807..**$69.75**

4 PAWS K-9 OXYGEN HOODS

Fight the effects of Hypoxia on your four legged family members by using the only oxygen delivery hood for animals when flying at high altitudes. Keep your pets safe and healthy when flying high.
Hood comes with 7-foot long oxygen supply tubing with a common push on female end. Attaches to a stand-alone bottle or in place oxygen system.
Oxygen hoods are available in five sizes, measurements' include the collar (around the neck) and the length from the nap of the neck to the end of the nose, then add two more inches for clearance.

Size	Collar Size	Hood Depth	Part No.	Price
Small	7.5" To 9.5"	8.5"	13-08290	**$126.75**
Medium	9.5" To 13.25"	10"	13-08291	**$127.75**
Large	13.25" To 15.75"	12"	13-08292	**$127.75**
X-Large	15.75" To 20"	14"	13-08293	**$127.75**
XX-Large	20" To Over	17"	13-08294	**$127.75**

AEROX PET MASK

Take your pet with you at altitude thanks to AEROX and their line of Canine 02 Mask supplemental oxygen system certified to 25,000 feet. The Aerox® Canine 02 supplemental oxygen system is currently available in 5 sizes:
Small - (Poodles, Shelties, Yorkies, Cavalier, Bichon Frise)
Medium - (Beagles, Keeshounds, Jack Russels, Standard Poodle)
Large - (Cockers Spaniels, Springers, Beagles, Boston Terriers)
X-Large - (Huskies, Labradors, Retrievers, Dobermans)
Giant - (Great Danes, Newfies, St Bernards, 90-160 LBS)
The muzzle incorporates a medium concentration continuous flow oxygen mask and frontal mesh area for best ventilation and oxygen delivery to your pets mouth and nose.

Size	Part No.	Price
Small	13-07460	**$104.75**
Medium	13-07461	**$105.75**
Large	13-07462	**$107.75**
X-Large	13-07463	**$108.95**

WINDMETERS

WINDSCRIBE HANDHELD WIND METER

A precise, handheld wind meter (anemometer). Also measures maximum headwind, maximum tailwind, a five-second average wind, and a running average wind. Speeds can be displayed in both U.S. and metric units, and the unit also records temperature and wind chill. The WindScribe weighs 3.5 ounces and comes with a lanyard. A velcro strap and mounting bracket are included. P/N 13-04019 .....**$179.99**

WIND WIZARD WIND SPEED INDICATOR

ECONOMY MODEL – ACCURATE & COMPACT

Conveniently calibrated in miles/hour, meters/ second and Beaufort. Expanded in the lower wind speed range of 0-20 MPH (0-8.9 meters/sec). Slips easily into a shirt or coat pocket. Safety wrist strap gives added security in stronger winds, and stores out of the way in the folding handle. Constructed of high impact plastic and corrosion resistant metals. It comes with leather-like carrying case. No Batteries needed. P/N 13-18520 .....**$49.99**

SKYWATCH GEOS 11 HANDHELD WEATHER STATION

Features: Electronic Compass: • analogical and digital Three Data Recording Modes: •manual recording by pressing two buttons •automatic recording at selected intervals, when unit is off or on •automatic recording at selected intervals, when unit is on only. Bright LED Light: • operates on separate battery. Replaceable Ball Impeller: • rotates to protect impeller blades. Exposed Sensors for instant reading

Kit includes: Geos Unit, USB Interface with software, Metallic Support, and Carrying Pouch..... P/N 13-04757.....**$759.95**
Unit Only ..... P/N 11-11297.....**$614.95**

SKYWATCH HANDHELD WIND METERS

Designed for consumer and professional use, the Xplorer does not include complicated and seldom-used features such as downloading and storing. Press one button, and instant readings are at your fingertips. Dimension: 3.5 x 1.5 x 0.75 in, 2 oz. (41 x 93 x 17 mm, 50 g) One button operation, EL Backlight Completely sealed; internal sensors, Weatherproof (can be submerged 6 feet), Replaceable Lithium battery (included and installed) , Stainless steel back, Auto-off after one minute (can be disabled to remain on), Included lanyard One year warranty.

SPEEDTECH INSTRUMENTS

SKYMASTER WEATHERMETER SM-28 - Pocket-size weather station features complete wind speed functions and includes a severe weather audio alarm. The relative humidity, barometer, and altimeter functions can be recalibrated, if required. Skymaster is water resistant, floats, threaded for tripod mounting and comes with a lanyard. One year warranty. Features:• Windspeed• Relative Humidity & Dew Point • Altitude •Current barometric Pressure • 16-HR Pressure Graph • Severe Weather Audio Alarm • Temperature/Windchill/Heat Index. P/N 13-02957 .....**$151.99**

SKYMATE WINDMETER - Convenient pocket-knife design, accuracy, features, and price make this the best value in handheld wind meters! It is water resistant, it floats, and it has a high visibility case. Average wind speed over 5, 10, or 13 seconds. Current temp & wind chill. Choose any measurement unit. Reads in tenths. Replaceable 400 hour lithium battery. Data lock feature. Replaceable plastic impeller won't corrode. Easy to read LCD. Threaded for tripod mounting. Unique pocket-knife design to protect unit when not in use. Water resistant to 3 ft. High visibility case. One year warranty. Features: • Windspeed • Temperature • Widchill • Water Resistant to 3 Feet. • Floats • Safety Yellow case

P/N 13-00086..... **$74.95**

WM-100 WINDMATE 100 - Current, Average (5,10,13 secs) Maximum wind speed all use a wind vane to ensure most accurate measurements. For long-range shooting, use the tripod fitting and add the optional wind tunnel accessory. All wind functions in user selected units * Reads in tenths * Backlight * Tripod fitting * Rugged water-resistant case * Comes with adjustable lanyard. Features: Current wind speed • Average wind speed(5, 10, 13 seconds) • Maximum wind speed Mph, Kt, Kp/h, BF, FPM, M/Sec. Wind vane assures you are on the wind's axis • Tripod fitting • Fits wind tunnel accessory • Rugged water-resistnat case meets U.S. military specifications • Auto shutoff • Comes with adjustable lanyard P/N 13-04292 ..... **$57.59**

WM-200 WINDMATE 200 - Offers the most popular features in a handheld device, wind speed and temperature, with wind chill calculation. Single button operation, easy measurements, and the display has a backlight; handy for lowlight conditions. Each unit is water resistant, and has a tripod fitting. ***Features***: * Digital wind direction in degree & compass points * Cross and head/tail wind readings * Temperature * Windchill * Backlight ***Specifications***: * Windspeed accuracy +/- 3% from .8-89Mph * Wind speed range to 135Mph * Digital compass/wind direction accuracy +/- 2° * Temp/Windchill accuracy +/- 1.8° F * Optional Units: Mph, km/h, kt, ft/min, m/s, BF (Beaufort) * F or C * Avg windspeed over 10 secs * Max windspeed 2 sec gust since power on * Auto shutdown * POWER: CR2032 replaceable Lithium battery (included) * Measures: 5.5" x 1.75" x .75" closed * Weighs 3.2oz with battery * 2-yr warranty

P/N 13-04293 .....**$103.99**

WM-300 WINDMATE 300 - Wind speed and digital wind direction, relative humidity, dewpoint, wet bulb & Delta T make this a comprehensive tool for forestry, agriculture and emergency management professionals. Humidity sensor does NOT require adjustment; it is self-calibrating. This unit is equipped with a backlight. Accuweather.com® patented Comfort Index™ gives the effect of temp, relative humidity, wind speed, & sun intensity on the human body. Unit can be tripod mounted. ***Features***: * Relative Humidity (self-calibrating sensor) * Dewpoint * Delta T * Accuweather.com patended * Jackknife case allows most accurate temp & RH readings * Wind speed range to 135Mph * Optional Units: Mph,km/h,ft/min,m/x,BF (Beaufort) * F or C * Avg wind speed over 10 secs * Max wind speed 2 sec gust since power on * Auto shutdown * POWER: CR2032 (400-Hr) replaceable Lithium battery (included) * Measures: 5.5" x 1.75" x .75" closed * Weighs 3.2 oz with battery * Comes with breakaway lanyard * 2-yr warranty. WIRELESS VANTAGE PRO2 WEATHER STATION

Uses frequency hopping spread spectrum radio technology to transmit data wirelessly up to 1000' (300 m). Console/receiver, integrated sensor suite, and mounting hardware. Integrated sensor suite includes rain collector, temperature and humidity sensors, anemometer, 40' (12 m) anemometer cable, and solar panel. Sensor suite is solar powered. AC-power adapter included for console, or use with three C batteries (not included). Wireless range is up to 1000' outdoors, line of sight. Typical range through walls 200' to 400' . Add wireless repeaters for distances up to 1.7 miles. Not available in EU (Europe).

Humidity: Units: %RH, Resolution: 0.1 unit, Accuracy: ± 4.5 %RH, Measuring range: from 0 to 100 %RH. Pressure: Units: hPa, mbar, inHg, Resolution: 0.1 unit, Accuracy: ± 0.2 hPa, Measuring range: from 300 to 1100 hPa.

P/N 13-16359 ..... **$114.95**

WEATHER FLOW WIND METER

The WeatherFlow Wind Meter is an anemometer that fits in your pocket. It's the first hardware product we have created for the general wind- & weather-addicted community. It's compatible with iPhone, iPad, iPod, and all major Android (coming soon) devices. And you are going to love it. It's operating range extends from the smallest puff (2 mph) to well over hurricane force winds (125 mph).

P/N 13-14788 ..... **$34.95**

VAAVUD MJOLNIR SMARTPHONE WINDMETER

The Vaavud wind meter turns your smartphone into a high-tech meteorological tool. Takes accurate wind readings, at wind speeds from 2 – 20 m/s (Up to 24 m/s on iPhone 5S and up to 48 m/s on some Android phones), with a precision of +/- 4%. It comes with a practical neoprene bag so you can take it with you anywhere. Works with the following devices: iPhone 5S, 5C, 5, 4S, 4 – iPad 2, 3rd and 4th generation mini and Air – Samsung Galaxy S4, S3, HTC One, Google Nexus 5 and many more. Wind Speed: 2 – 20 m/s, +/- 4% precision. Wind Direction: No. Omnidirectional: Yes. Technology: Magnets (electronicless). Construction Quality: Super Rugged. Dimensions: 20x112x59 mm.

P/N 13-17540 ..... **$29.75**

WEATHERHAWK MYMET WIND METER

myMET is a handheld device that reacts almost instantly to changes in wind and air temperature. This instrument is a new concept in handheld wind meters in that it can display data on an integral LCD, and on a Smartphone or tablet.

iOS and Android Apps are available for free with purchase of the device. They display the measurements for wind speed, air temperature and wind chill, with the added display device supplied data for location, direction and altitude. Data can be connected to a site image, from the smart device, and transmitted by email or text. Requires iPhone 4S/iPad2 or newer: OR Android device with 4.3 OS or newer.

Features:

- Displays data on Smartphone or tablet.
- Apps are free.
- Handheld device.
- Reacts almost instantly to changes in the wind and air temperature.
- Displays wind speed, air temperature and wind chill measurements.
- Displays location, direction, and altitude.
- Transmits data by email or text.

FLASHLIGHTS

MAGLITE LED FLASHLIGHTS

MAG-LED™ Technology known for their obsession with precision engineering, craftsmanship and commitment to perfection, was not satisfied with the performance of a "regular" LED as a usable light source. They set their sights on producing a light source that would not only incorporate longer battery life, but would also have the kind of durability, reliability, and performance Maglite® flashlights are known for. With an emphasis on uncompromising performance, MAG-LED™ Technology is the result of that quest.

SURE CHECK FUEL LIGHT

Will assist in ensuring your safety every time you strain test your fuel prior to flight. At night, it's safe & easy to use. The Sure Check Fuel Light, when used with your fuel test tube, will light up all the water and debris that might be present. The case is made of durable aluminum, weighs only 2.2 ounces, is 3" long, and uses a 12 volt battery to power a high intensity white LED light build. The casing is sealed with a strong neoprene rubber seal to keep any fuel from leaking into the case. Color: Red. Made in USA. P/N 13-04207..... $17.95

FLIGHT OUTFITTERS DUAL COLOR LED PILOT FLASHLIGHT

The Pilot Flashlight is designed for one-handed use with two easily accessible push buttons – one for white LED light and one for red LED light. For those inevitable times when a pilot holds their flashlight with their mouth for "hands-free" use, the Pilot Flashlight also has an innovative soft "bite ring" in Flight Outfitters' signature orange color. Rounding out the Pilot Flashlight is a wrist-strap to keep the light close at hand.

PILOT FLASHLIGHTS

SUREFIRE G2X™ PRO

A polymer-body version of the 6PX Pro, uses a high-efficiency LED—virtually immune to failure since there's no filament to burn out or break—that provides two light output levels: a brilliant, penetrating, perfectly pre-focused 200-lumen beam, and a 15-lumen low-output setting that lets you greatly extend the runtime per set of batteries, an invaluable option when you find yourself miles from civilization. Press the tailcap switch for momentary-on low, press further to click constant-on low, return to off and press or click on again within two seconds for high. A polycarbonate micro-textured reflector delivers a comparatively wider beam with generous peripheral light. .....P/N 13-10290 .....**$69.95**

SUREFIRE G2Z-MV COMBATLIGHT® FLASHLIGHT

SureFire's single-output G2Z™ Combatlight® with Max Vision™ flashlight—designed and built specifically for tactical use—features a proprietary reflector that shapes the high-output LED's 650 lumens of light into a wide, useful MaxVision Beam™ optimized for your field of vision. With its designed 14 mm bezel, the compact G2Z is even shorter and lighter in weight than its predecessor, generates nearly twice the output, and has all of the same features for outstanding tactical performance.....P/N 13-20653 .....**$109.00**

SUREFIRE LITHIUM BATTERIES

Optimized for use in SureFire flashlights, SureFire lithium batteries pack a lot of power into a small package. And unlike some other batteries SureFire high-performance lithium batteries boast a ten-year shelf life, which means they will be ready when you need them, every time. For all SureFire Lithium battery powered lights.

12 Pack .....P/N 13-18714 .....**$34.50**
2 Pack .....P/N 13-18715 .....**$4.80**

SEE WWW.AIRCRAFTSPRUCE.COM FOR A COMPLETE SELECTION OF SUREFIRE FLASHLIGHTS.

AVEO THE AVIATOR FLASHLIGHT

World-Class AveoTM circuitry. Ni-MH rechargeable batteries. Fixed 25º Lens. Single color light (White). Steady, strobe and SOS function. Dimming – Stepless slide-switch 0-100%. Charge level indicator on the flashlight. DO-160G Environmentally qualified. Anodized aluminum construction. Black anodizing color. IP68 Waterproofness. DC Battery charger included. Charging/Mounting cradle option (not included). Low EMI, low self-discharge, overheat protected. Private logo/label available.....P/N 11-15181 .....**$429.00**

FLIGHTLIGHT™ - PILOT FLASHLIGHT

A flashlight is a must have for every pilot's flight bag. In or out of the cockpit, this conveniently sized, long lasting, and durable flashlight serves as a great pilot companion. This 3-in-one LED flashlight toggles between red, green, or white depending on your cockpit needs. With an LED life of 100,000 hours, the included alkaline batteries can keep this flashlight illuminated for up to 17 hours in "red" mode, and 14 hours in "white".

Flashlight: .....P/N 13-01067 .... **$17.95**

PELICAN AVIATION LIGHTS

VERSABRITE

This is the world's brightest swivel head pocket flashlight. The adjustable head swivels 180 degrees, enabling the pilot to direct the beam where he needs it. It is water resistant and mounts directly on the adhesive pad of yoke chart holders. Provides 6000 candlepower Xenon laser beam spot beam, and comes standard with clear, red, and blue-green lenses. Clips easily on shirts, belts, and caps for hands free use. Comes with multi-use velcro fasteners and 2 AA batteries.

P/N 13-00561 ..... **$25.50**

Versabrite mounting clips (1 top, 1 side mount)

WORKBRIGHT INSPECTION LIGHT

This shop light is perfect for places that a flashlight can't quite illuminate properly. It was originally designed as an inspection light, but has many other uses as well. It is powered through a USB connector, and can be used with a battery pack, wall adapter, computer, etc.....P/N 12-04780 .....**$119.95**

SUREFIRE E1B-MV BACKUP™ FLASHLIGHT

The sleek, ultra-compact E1B-MV was originally developed as backup lights for law enforcement pros. This outstanding everyday-carry light sets itself apart from the rest of the Backup family with its broad, useful MaxVision Beam™, created by a special faceted reflector that shapes the LED's light into a smooth, seamless wall of light that's perfect for closer-range applications and maintaining situational awareness. .....P/N 13-20652 .....**$199.00**

SUREFIRE AVIATOR® DUAL-OUTPUT LED FLASHLIGHT

The ultra-compact, dual-output Aviator reinvents a classic SureFire design to provide a primary white LED and secondary colored LED in one sealed head, both focused into a useful beam with ample reach and surround light by a proprietary Total Internal Reflection (TIR) lens. Pull and twist Aviator's self-locking selector ring to set it to white or colored light, no filter required.

Blue Light .....P/N 13-20654 .....**$269.00**
Red Light .....P/N 13-20655 .....**$269.00**

SUREFIRE P3X FURY® DUAL-OUTPUT LED FLASHLIGHT

The P3X Fury has a virtually failure-proof ultra-high-output LED that delivers your choice of either 1,000 blinding lumens of perfectly focused light or 15 lumens of useful light. The 1,000-lumen output — with peak beam level of 22,000 candela — is enough for searching, signaling, or to overpower the dark-adapted vision of a threat. The 15-lumen output level is perfect for general work at close-to-medium distances and lets you greatly extend the flashlight's runtime on a set of three lithium 123A batteries.

P/N 13-20656 .....**$199.00**

SUREFIRE P3X FURY® WITH INTELLIBEAM™ FLASHLIGHT

This innovative, automatically adjusting version of the original P3X Fury takes full advantage of the variable-output capability of one of SureFire's brightest and most popular LED flashlights. It features SureFire's proprietary IntelliBeam™ Technology—an intelligent sensor and microprocessor-based system—that continuously evaluates your environment and seamlessly adjusts light output, from 15 to up to 1,000 lumens, based on the scope of your surroundings. Just press or click its tailcap switch to access this auto-adjusting mode, which delivers just the right amount of light output. P/N 13-20657 .....**$229.00**

SUREFIRE SIDEKICK RECHARGEABLE KEY CHAIN FLASHLIGHT

This ultra-compact, powerful LED illuminator was created so it could be carried and used by everyone. The rechargeable Sidekick was designed to attach to keys so it's always available and, most importantly, ready for everyday use and emergencies. This polymer-bodied light features three levels of output that will provide security and peace of mind, no matter what. On high and operated just like a key FOB, its wide, smooth 300-lumen MaxVision Beam™ illuminates all dark areas at night.....P/N 13-20658 .....**$69.99**

SUREFIRE MINIMUS™ HEADLAMP

The model that launched SureFire headlamps into best-in-class status. Minimus provides the right amount of light—13 preset outputs up to a max of 300 lumens—precisely where you need it, thanks to its adjustable output knob and rotatable LED housing.

P/N 13-20659 .....**$179.00**

SUREFIRE MAXIMUS™ HEADLAMP

The SureFire Maximus™ rechargeable variable-output LED headlamp delivers an amazing 1,000 lumens of light—enough to illuminate your entire campsite. If that's too much light, you can dial it down to 1 lumen—or any level in between—for closer work, preserving your dark-adapted vision, or extending the runtime. A large knurled dial permits output control with one hand—even if it's gloved or numbed by cold. One hand can also aim the light right where you want it since the light assembly rotates up and down 90 degrees.

P/N 13-20660 .....**$249.00**

FLASHLIGHTS

XEVISION PERSONAL LED FLASHLIGHTS

The compact LED flashlights are so small that they fit in the palm of a hand comfortably. They are so bright, even die-hard HID Xenon lighting technology purists can not resist.

Super-bright white light from one small but powerful LED Our LED flashlights feature the latest commercial Cree LED 7090 XR-E, which delivers unprecedented levels of bright white light. The legendary 7090 XR-E is tested to the highest standards in the LED industry. The white light generated is as cool as HID with around 4000ºK to 5000ºK. The current draw is quite small while the LED is very efficient with a luminous flux of up to 100 lm min. @ 350 mA, and a luminous efficacy up to 75 lumens/watt.

XeVision personal LED flashlight models - The compact LED flashlights are so small that they fit in the palm of a hand comfortably. They are so bright, even die-hard HID Xenon lighting technology purists can not resist.

XV-C1C - Is their most compact LED flashlight using one long-lasting 3 VDC Lithium CR123A battery. The XV-C1C features six settings, 4 of them being output levels. This flexibility not only allows the user to select the best compromise between brightness and runtime for any given task but also has the ability to aid in an emergency. The XV-C1C offers a remarkably compact size and is extremely solid and reliable with its digitally regulated brightness. One 3 VDC CR123A Lithium battery

FLIGHT OUTFITTERS DUAL COLOR HEADLAMP

Flying at night can be a daunting task. Having both hands free to handle the workload during these tense situations is extremely important. This dual color headlamp puts the right type of light right where you need it without tying up your hands. Dual switwches allow you to turn on just the white light, or just the red light. This means you don''t have to scroll htrough different lights and ruin your night vision. Each color of light has a high and low setting to maximize battery life. Uses 3AAA batteries (included)..... P/N 13-18183..... **$29.95**

MITYLITE FLASHLIGHT BLACK

MityLite® is made of unbreakable space age polycarbonate resin and is 4-3/4" (11.3 cm) in length. Its Laser Spot Xenon® lamp module can cut through water, smoke, fog, and rain making it a perfect light source for all applications. Rotary on/off switch. The MityLite® is ATEX, FM, CSA and AUS approved and water resistant (not for diving applications). Color: Black.

PETZL TACTIKKA CONSTANT HANDSFREE LIGHTING + RED / GREEN / BLUE

The Tactikka +RGB is a compact, 250-lumen headlamp designed for activities where stealth is key. This hybrid headlamp is powered by the included 3xAAA/LR03 batteries or by the optional CORE rechargeable battery. It features a long burn time, proximity or focused lighting for movement, and red/green/blue lighting which is easier on night vision and remains stealth. Red/green/blue lighting is easier on the user's night vision while remaining stealth. Powerful 250-lumen light has a long burn time. Provides three lighting modes: max autonomy, standard and max power. Single button operation is easy to use, even when wearing gloves while the headband is easy to slip on and off. Tactikka +RGB hybrid headlamps include three standard batteries, and are also compatible with the CORE rechargeable battery P/N 11-05096 ..... **$54.99**

DUO 5 HEADLAMP PETZL LIGHTS E69

The DUO lamps are ideal for use in wet environments, but are not designed for prolonged submersion (i.e. diving). Features: • Waterproof with dual light source: focusable halogen bulb and an LED module. • Switching on & off, brightness selection, zooming • The DUO lamps allow the light to be optimized (distance, duration) according to your needs. • Simultaneous use of both bulbs is not possible. • Unlocking/locking the bezel P/N 11-04996 ..... **$99.95**

These holders are great for aviation, marine, automative, racing, and emergency lifesaving applications. Available in Mercury models for smaller flashlights and Gemini models for largers flashlights.

P/N 13-04008.....**$29.95**

GUPPIE MULTI-TOOL

The adjustable wrench jaw opens to 1/2" so you can use it for all kinds of light repair and assembly jobs. Thanks to the carabiner gate, the Guppie is easy to carry on a belt loop, D-ring, pack or rope. (But it is not a weight-bearing carabiner.) The high-carbon stainless steel blade with a Razor-Sharp edge can be opened and closed with one hand using the blade slot. The removable bit carrier is also a high-intensity LED light. It has two strong magnets to hold it securely to the Guppie's left side. The stainless steel clip will hold the Guppie in your pocket or on gear, which gives a lot of versatility. One more trick: The Guppie carabiner detent will open bottle caps and metal jar lids. Specifications: Blade Length: 2.0" (5.1 cm) Blade Steel: 3Cr13, 52-55 HRC Handle Length: 3.5" (8.9 cm) Tool Weight: 4.1 oz. (116 g) Bit Carrier Weight: 1.2 oz. (34 g) Batteries: Two CR327 3V Lithium

P/N 13-07358.....**$38.95**

SIDESTICK CONTROL ARM RESTS

The side stick control arm rests will steady the hand, wich improves flying and reduces wrist and arm fatigue. The arm rests were designed by an orthopedic specialist to reduce wrist and hand carpel tunnel syndrome. They can also be used for throttle rests. Color: Black. ABS plastic. Furnished as right/left set. P/N 13-03265 ..... **$25.85**

CIGPEN

Old Ashtray CigPen

CIGPEN HOLDER - CigPen installation is as easy as 123. Pull the nasty ashtray out, peel the double stick tape, insert and press in CigPen. CigPen was designed to hold two standard pencils or pens along with a Mini Mag Lite AAA. For a very low cost, you can easily turn your existing ashtray into a useful device. Fits C-150, 172, 182 Cardinal. DOOR LOCK HANDLE - When you order the CigPen, you will also receive the Cessna 150 door lock. The door lock is made from ABS Plastic. It is engraved with lock, un-lock, and indicating arrows. Fits C-150 airplanes.

P/N 13-06913 .....**$18.75**

MAP, CHECKLIST & LOG BOOK HOLDERS

These holders come in three sizes to store your maps, checklists and log books. They are thermo-formed from ABS plastic, and come in either black or gray.

BIRD DETERRENT - BIRDXPELLER PRO

The BirdXPeller PRO is a sonic bird repeller that broadcasts a variety of naturally recorded bird distress signals and predator calls that frighten, confuse and disorient pest birds within the effective range. Pest birds cause damage, liability and health hazards. Sonic bird control is a safe, humane, eco-friendly way to get rid of birds from outdoor areas. Sonic repellers use high-definition digital recordings. Customizable settings allow for easy, DIY pest control. Real sounds – digital playback of naturally recorded threats. Covers up to 1 acre. Repels: pigeons, starlings, sparrows and gulls. P/N 13-00091 ..... **$222.95**

FLYING EYES GOLDEN EAGLE SPORT SUNGLASSES

Flying Eyes Golden Eagle sunglasses are designed to be amazingly comfortable under a helmet or aviation-style headset. These ComfortStyle sunglasses are made of Resilamide™ frames and temples, a material that is primarily used in aerospace. This very costly polymer material makes these glasses virtually unbreakable and yet super light and flexible. Their 1mm thin temples and their flexibility mean that you will not feel them while wearing a helmet or aviation-style headset. And no more noise leaks while wearing a headset either!

SUNGLASSES

VEDALOHD™ PERFORMANCE SUNGLASSES

High-Definition Lens Technology (HDL-3C™), built into new sunglasses offer improved sight definition for pilots, using color, clarity and comfort. These lenses filter the visible spectrum to improve color contrasts; decentered lenses increase visibility and eliminate distortion; visual health is improved and eye fatigue is reduced thanks to lightweight frames. Visibility is said to be increased through tri-stimulus color contrast enhancing techniques; other color tinting techniques improve color simulation but only improves one basic color type in the color spectrum.

These non-polarized (important for pilots!) lenses come in two lens types: rose (for low light conditions), and smoke (for bright light conditions). The sunglasses are very lightweight and comfortable. We offer a 30-day money back guarantee if you're not satisfied. Several choices for frames are available.

SERENGETI AVIATOR SUNGLASSES

Serengeti Aviators protect your vision while eliminating glare and sharpening details better than other sunglasses. Cloud boundaries are more easily delineated and oncoming traffic is more visible. Unique photochromic spectral controls improve your ability to see in marginal VFR and IFR conditions. In bright sunlight, you'll see the instruments better and ghost images will be eliminated from the cockpit. Wear them late in the day or at sunset to preserve your night vision.

LARGE AVIATOR SUNGLASSES- Base Curve: 6; Temple Length: 140mm. Lens Size: 61.75 x 55.5 x 68mm, Dbl 10.5mm Black

P/N 2121.....**$99.95**

DANTE SUNGLASSES - Uniquely fashioned temples distinguish Dante from the crowd. Wire-flex technology automatically adapts for an impeccable fit. All Serengeti lenses offer the latest in photochromic technology, which constantly lightens and darkens throughout the day to ensure you see every detail.

RA VISION HIGH PERFORMANCE SUNGLASSES

These high performance sunglasses are specifically designed for use with helmets and headsets. The Frame: The frames are made of lightweight and flexible titanium metal that easily slide thru the ear pad of the helmet or headset. The frames contour the head and allows for the seal of noise canceling earpieces to be maintained. The "wrap" or curvature of the frames and lens allows sun protection for the wearer's peripheral vision as well as forward facing. The Lens: The lens is made of a revolutionary Trivex® material that features optical qualities similar to glass and surpasses the light weight and scratch resistance of polycarbonate lenses while providing 100% protection against UVA and UVB rays.

Gray Lens ..... P/N 13-11671 ..... **$99.00**

BELT LOOP EYE GLASS CASE

Safe and secure way to make sure your glasses, cell phones and other items are always available. The case has a pen pocket and accessory strap to attach a pager, a small flashlight or clip item. 1000 dernier cordura exterior, soft padded durable lining. Black color.

A pilots best friend! Having trouble getting around, waiting for taxi service or the bus after you arrive at your destination? Wait around no more! This patent technology makes folding and unfolding the scooter fast and convenient. In less than one second, the X-Cape is ready to ride or to comfortably fit into your closet or trunk. The X-Cape was built to fit in a small airplane, car trunk, bus.
X-Cape scooters are made from high-quality aerospace aluminum alloy. This makes the scooter incredible strong, lightweight, and anti-corrosive. The X-Cape is the most economically and environmentally efficient means of transportation. Cut the time of your commute while having a blast doing it!

FLIGHT JACKETS

Classic. Authentic. Quality. Established in 1959 as a defense contractor for the US Government, Alpha Industries remains one of the largest manufacturers of cold weather outerwear. For over 35 years, Alpha Industries has continuously supplied the US Government and military forces throughout the world. Alpha is now recognized as the original and leading manufacturer of authentic military-inspired outerwear. Some jackets are made in the USA and some are imported.

TO ORDER FLIGHT JACKETS: Choose jacket style and color desired and order by basic part number shown. Complete the part number with size by adding -1 (Small), -2 (Medium), -3(Large), -4 (X Large), or -5 (XX Large).

MA-1 INTERMEDIATE FLIGHT JACKET

The most popular flying jacket in the world, supplied by Alpha Industries to the U.S. Military for over 40 years. 100% nylon flight satin outer shell with nylon flight lining and polyester batting interlining for warmth. Front closure storm flap. Knit collar, waistband and cuffs. Combination utility pocket on sleeve. Pilot's MA-1 reverses to high visibility Indian Orange for use in emergencies. Colors: Black, Navy, Sage Replica Gray, Titanium, Stratos.

MA-1 BLOOD CHIT FLIGHT JACKET

The MA-1 BLOOD CHIT jacket is one of a kind to be worn with pride. Alpha's MA-1 flight jacket with "Blood Chit" sewn on the inside lining was a type of flag that contained a message in several languages identifying an airman as a U.S. Aviator if they were shot down, to aid the airman in avoiding capture and in being returned safely to U.S. Forces. A reward was offered for this assistance.
This is a classic flight jacket made for the military for over 40 years and features nylon flight satin outer shell with reversible orange nylon lining with the Blood Chit sewn into it, front closure storm flap, knitted collar, cuffs, and waistband and Alpha signature zippered utility/pencil pocket. If you are looking for a quality jacket that isn't just like the one everyone else has, then this is certainly worthy of your consideration. Just think of all the conversations you can have with this jacket. Color: Sage.

NOMEX AVIATOR'S SUMMER FLYING GLOVES

GLOVE SIZING

Hold your hand out with your fingers together and thumb extended out. Start measuring palm from between the index finger and thumb, continue around the outside of the palm and back around on the inside of the palm making a complete circle with the measuring tape. Total inches around entire palm determines the size glove you will need.

- 6 inches or less, order Size 7
- 6 to 6 1/2 inches, order Size 8
- 6 1/2 to 7 inches, order Size 9
- 7 to 7 1/2 inches, order Size 10
- 7 1/2 to 8 inches, order Size 11

NOMEX TOUCH SCREEN COMPATIBLE FLYING GLOVES

These are the same as the regular Flying Gloves which have been worn by American military aviators since the 1960's, except these have a conductive fabric sewn into the tips (of both the left and right glove) of the middle finger, index finger, and thumb to allow for use with touch screen devices. The palms are made from soft capeskin (hair sheep) that gives you the fine sense of touch you need for flying. The back is made from soft knit of fire-resistant aramid fiber that stretches so the gloves fit snugly. They remain soft and pliable when they get wet. You can even wash them in warm water and hand soap. Measure in inches around the fullest part of your palm. Order the size closest to your hand measurement. Gloves stretch a little, so the fit should be snug.

MECHANICS DOLLIES – STEP STOOLS

BONE MECHANICS CREEPER

The Bone™ features a uniquely shaped body which cradles the user between the wheels only an inch or so above the ground. The big, easy rolling wheels are positioned outboard to provide a strong, stable working platform that can't tip or flip the user. The rib-reinforced body is molded of a state-of-the-art, engineering grade co-polymer that resists the effects of common solvents, so cleaning is quick and easy at the end of the job. The smooth, comfortable one-piece design has no cracks, corners or other pinch points, and the outboard wheel pods prevent tipping and flipping. The Bone™ body is a patented design which allows the use of large diameter wheels with specially formulated tires that roll easily over all sorts of obstacles, including rough floors, drop cords and air lines, loose parts and even tools and floor grates. The wheels are fastened to the creeper body with four 5/16" diameter through bolts so they can't pull tear out or break off in any common use situation. One of the most important features of the Bone™ is its wheels. Ordinary creeper wheels are a conventional creeper's weakest point. They're too small, so they get hung up or stopped by even the tiniest obstacles, and they have a real knack for tearing out or breaking off at the worst moment. To add insult to injury, the replacement wheels can cost almost as much as a new creeper. P/N 13-12331 .....**$167.00**

TAIL BONE ROUGH RIDER MECHANICS SEAT

The Tail Bone Rough Rider is a totally new approach to creeper seats, designed from scratch to be easier to use, more comfortable, more durable and a better value than any other mechanic's stool on the market! The base is a uniquely designed tripod, so it's a naturally stable working platform even on uneven floors and surfaces. And because it turns with the user, the legs always stay out of the way and let you tuck your feet under you for comfort or convenience. The tripod design also means fewer wheels to have to roll over obstacles! The Tail Bone Rough Rider uses the casters from the Bone Rough Rider Creeper, which are 5 3/8" diameter and 1 3/8" wide, perfect for using outdoors in less than perfect circumstances. It also has an extra inch of ground clearance over the standard Tail Bone! The bucket seat works just like the ones in high performance vehicles, it lets you use your natural body movements and trunk strength to position yourself and the stool exactly where you can do the job at hand comfortably and easily. Work without fear! The Tail Bone just rolls over obstacles that trip and tip ordinary little wheel stools. P/N 13-12330.....**$179.95**

RED VIPER AIRPLANE POSITIONER

Own a small airplane? Having trouble positioning it around in your hangar,garage,etc.? Try RED VIPER Positioners™ they really work! Will hold up to 6000 lbs on a 3 tire airplane. Extremely LOW to the ground (only 1/2 inches ground to dolly) so wheel assembly clearance & tire fenders are never an issue. The side panels are only 3 1/2 inches height. Supports tire thicknesses up to 9 inch & wheel diameter up to 26 inches. Just roll your airplane onto dollies & glide 360 degrees effortlessly.

P/N 13-17910 .....**$215.00**

AEROCREEPER - ADJUSTABLE CREEPER

Caster options include:

- •Standard 3" x 13/16" Hard Rubber
  - •recommended for most uses on smooth cement floors
  - •120 lb dynamic load per caster
  - •keeps the creeper low for low working positions
  - •smooth operation
- •Heavy Duty casters
- •Thermoplastic Urethane (TPU) more resistant to embedding chips and rivets
  - •250 lb dynamic load per caster
  - •1-3/16" wide tread helps rolling on rough surfaces
  - •Available in 3 diameters (3" - raises creeper 5/8", 4" raises creeper 1-5/8", 5" raises creeper 2-5/8") larger diameters help rolling on rough surfaces
- •Locking Casters
  - •prevents rolling
  - •installed on front two casters

SHURE-STEP® II

The Shure-Step II is a 10 inch high step stool that will not tip or slip during use for aircraft maintenance. This step stool is rated for 500 pounds yet only weighs 10 pounds. Rubber pads on bottom prevent the step from scratching the paint on an aircraft. Color: Yellow. Features: • 6 large rubber pads on bottom • Very rough top surface to keep mechanics safe • Ice cleats keep the step from sliding during icy winter conditions • The Shure-Step II is a stackable step stool • Weight: 10 pounds

P/N 13-11219.....**$98.50**

SHURE-STEP® 2-STEP STOOL

The 2-Step stool is 10 inches high, half is 6 inches high. Features: • Durable, lightweight, and stackable • Shure-Step® will float • All Shure-Step® products are rated at holding 500 lbs.

P/N 13-11585 .....**$119.50**

SHURE-STEP® SENIOR STEP

The Senior Step is 6 inches tall, weighs 9 lbs., rated at 500 lbs. and measures 24" x 14". Step has a large, 10" x 20" black non-slip sandpaper surface on top of it. Features: • Durable and lightweight • Senior Step can be stacked on top of the Shure-StepII® • Shure-Step® will float • All Shure-Step® products are rated at holding 500 lbs.

LOCK N CLIMB LADDERS

The next generation ladder for maintenance and repair. The LockNClimb MRO ladder meets the needs and requirements for any industry. The ergonomic design drastically reduces the risk of back injuries and allows a safer and more productive working environment. Extends and folds easily. Designed for one person use. Work secure in tight spaces. Available in 4', 5', 6', 8', 10' and 12' heights. Available in aluminum and fiberglass. Removable tool tray available. Meets or exceeds ANSI/OSHA safety standards. Meets or exceeds ANSI A14.5 and A14.2 standards. Made from durable grade 6061 aluminum. ANSI/OSHA 300lb rated 1A special duty.

Size	Part No.	Price
4 Foot Aluminum	13-15926	**$633.00**
5 Foot Aluminum	13-15927	**$656.00**
6 Foot Aluminum	13-15928	**$659.00**
8 Foot Aluminum	13-15929	**$697.00**
4 Foot Fiberglass	13-15932	**$734.00**

SEE WWW.AIRCRAFTSPRUCE.COM FOR MORE LOCK N CLIMB LADDERS

ALUMINUM AIRCRAFT FUELING LADDER

Heavy duty aluminum fueling ladder perfect for aircraft fueling applications. Just the right height to put you in perfect position for low-wing or high-wing aircraft. Made of high quality aluminum and will stand the test of time. Features: • Step Ladder • Ladder Height 5 ft. • Number of Steps 3 • Platform Width (In.) 13-1/2 • Height to Platform (Ft.) 3 • Bottom Width (In.) 20 • Base Spread (In.) 34 • Step Width (In.) 3 • Shipping Weight: 5.8 lbs • Anti-Slip Tread • Load Capacity (Lb.) 300 • Aluminum, ANSI Type 1A • Includes Heavy Duty Standing Platform.

FLIGHT SOUND X - AVIATION HEADSET/USB ADAPTER

Just plug and play ... and you're ready to go! Flight Sound X is designed to be as easy to use as possible - no additional software, no batteries, no external power sources - just one standard USB cable. Just 'plug and play'! When users have finished with the device, simply unplug it, and the computer will revert to its original audio settings. The Flight Sound X adapter is a great accessory for any pilot! Features: USB 1.1 and 2.0 compatible. Plug and Play with Windows 7/Vista/XP and Mac OS X. Uses standard General Aviation headset connectors (PJ-068 and PJ-055B). Supports headset impedances of 100 to 600 Ohms. Supports Mono and Stereo Headsets. Compatible with standard microphone types (electret, dynamic and powered dynamic) Specifications: Powers microphone bias (+9V) from USB port (no external power needed). Zero delay voice feedback/sidetone feature (PC/Mac only). Output frequency response (20Hz-20KHz). Weight: 100g. Size: 65mm(L), 55mm(W), 25mm(D). Compact, robust, anodised aluminium enclosure.

MICROSOFT FLIGHT SIMULATOR X STEAM EDITION

Takeoff from anywhere in the world, flying some of the most iconic aircraft to any one of 24,000 destinations. Plan your own flight in Free Flight mode or test your flying prowess in missions including Search and Rescue, Test Pilot, Carrier Operations, and more! Microsoft Flight Simulator X: Steam Edition delivers an authentically accurate aerial experience for simulation enthusiasts and those with a passion for all things flight. Whether you're flying solo offline or competing against online rivals in thrilling multiplayer air races, FSX: Steam Edition will immerse you in a dynamic, living world that brings a realistic flying experience into your home.

X-PLANE 11 FLIGHT SIMULATOR - DVD SET

Welcome to the world of props, jets, single- and multi-engine airplanes, as well as gliders, helicopters and VTOLs. X-Plane contains subsonic and supersonic flight dynamics, allowing users to predict the flight characteristics of the slowest aircraft or the fastest. X-Plane includes more than 15 aircraft in the default installation, spanning the aviation industry and its history. Aircraft included range from the Sikorsky S–76 and Cessna 172 to the Space Shuttle and the B–52 Bomber. Additionally, some 2,000 additional aircraft models can be downloaded from the Internet, many of which are completely free. If those aren't enough, users can design their own airplanes and test-fly them!
P/N 17-00348 ..... **$86.75**

THE NAVIGATION CD-ROM

The Navigation CD-ROM is an interactive CD-ROM that teaches how to navigate with VOR, NDB, GPS, HSI, RMI, and Airspace! You'll be prepared for action in the cockpit! Animation, sounds, quizzes and interactivity allow you to visualize navigation concepts while using simulations of actual aircraft equipment. To make learning easy, each tutorial features an easy-to-use point-and-click environment. During each tutorial, you're prompted where to click, when to proceed and what information to provide during quizzes. If you need more time learning a concept, it is easy to review the section at hand. This CD-ROM features a logical progression, clearly written lessons, quizzes, interactive equipment simulation, colorful graphics and animation. System Requirements: Windows Vista, Windows XP, Windows 98, or Windows 95. 4MB RAM (8MB recommended). CD-ROM drive. 2MB hard drive space. Video supporting 256-color mode (minimum). Sound card (not required, but recommended).

VOR/NDB SIMULATOR V2.0

On-screen instructions are fully-voice-narrated. There's only one Simulator Module—you can choose any array of instruments to use, from the Instrument Manager. Instruments are draggable, allowing you to arrange them as they exist on your aircraft's instrument panel. VOR and NDB navigation can be performed simultaneously on the same screen. "Random" buttons generate random aircraft heading, navaid positions, aircraft position, and wind speed and direction Hide and show the aircraft, course lines, path flown, and heading vectors. The instruments and map area can be printed by the default printer configured on your computer. Grid lines on the map area represent square miles. ADF instrument allows fixed-card and rotatable-card methods of use. Precision movement of the course needle on the Course Deviation Indicators and Horizontal Situation Indicator allows greater navigation accuracy. Compass rose symbol on VOR navaids now remains stationary when the course is changed P/N 13-01437 ..... **$69.00**

GETTING AROUND ON THE GROUND

The only interactive, multimedia tool available that teaches the types of airport markings, signage, and lighting. It also goes beyond simple technical knowledge by outlining hazards, safety tips, and procedures that will help keep you aware, knowledgeable, and safe on the ground. A real-time, 3-D, virtual airport taxi simulator. Get the ATIS, exchange communications with Air Traffic Control, and follow taxi instructions including hold short and runway crossing tasks. Two airports and forty challenging taxi scenarios are included. And, there's no need for special hardware such as rudder pedals, because you control your aircraft with just a few keys on your keyboard. It's easy! By completing all the content and taking the Final Exam, you can qualify to obtain credit for the FAA WINGS program. The WINGS program is a continuing education program for pilots, sponsored by the FAA. You'll not only learn to be a safer pilot on the airport surface—you'll also be able to prove your commitment to flight safety with your WINGS account.

AIRBORNE RADAR ONLINE TRAINING

Airborne-Radar.Com is an online course that teaches how to use airborne weather radar. But, it goes beyond the use of airborne radar, teaching thunderstorm theory, hazards of thunderstorms, airborne radar theory, and airborne radar techniques. A Final Exam concludes the course, enabling the user to test their knowledge. Airborne-Radar.Com is available to PC and Mac users. Most seasoned professional pilots will admit that there has always been a lack of adequate weather radar training. The mantra has always been, "fly the airplane, and figure it out as you go." But there's no reason to continue with that mindset. Now Airborne-Radar.Com provides the only source of thorough, interactive online training for airborne weather radar. .....P/N 13-10296 ..... **$199.00**

MULTIMEDIA SOFTWARE FLITESCHOOL

In terms of speed, graphics, clarity, and learning value, FliteSchool from Jeppesen Software is unequaled in its class. Much more than a series of "flash cards" that help you memorize the answers to FAA exams, FliteSchool provides programmed learning modules and Hypertext referencing that leads through a series of associated references to learn more, faster! Flite School's Dynamic Cybernetic Learning enhances your training by analyzing your responses and leading you to new subject areas. You'll find studying with FliteSchool to be more interesting and more effective than other software programs and many video tapes. Material is organized into 20 categories and monitored by topic. The software takes you step-by step through each subject area and returns to areas where you need more work. When you've mastered enough material to pass the FAA exam, you receive a graduation certificate for your instructor to sign off.

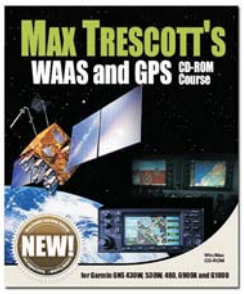
Features: • Complete Builder's log to satisfy FAA requirements Detailed Expense Log •Test Flight Log • Maintenance Log • Weight & Balance Calculator P/N 13-03705 .....**$49.95**



MAX TRESCOTTS G1000™ GLASS COCKPIT HANDBOOK

This edition includes dozens of tips and features for G1000 and Perspective glass cockpits, including Cirrus SR20 and SR22 Aircraft. Chapter 11 on Instrument Flying was completely rewritten to make it easier for pilots to understand the many nuances of using the G1000 and Perspective for instrument flight. There is a revolution sweeping through general aviation. In less than two years, the industry has converted to ship all new aircraft with glass cockpits, rather than traditional instrument panels. The most popular and comprehensive guide to operating these airplanes continues to be Max Trescott's G1000 and Perspective Glass Cockpit Handbook. This book makes it easy for you to quickly become an expert on operating and programming the G1000 and Perspective systems in any aircraft. Instructors agree that the cockpit is not an ideal learning environment. Reading this book, written by a Master Flight Instructor, is one of the most efficient and cost effective ways to learn the G1000 or Perspective before stepping into the cockpit for your first transition lesson.

PN 13-05533 .....**$36.95**

MAX TRESCOTT CD-ROM COURSE

Makes it easy to learn all of the details of flying with WAAS. Designed for the Garmin 430W, 530W, 480, G900X and G1000, the course leads you step-by-step through flying these approaches. Videos demonstrate the flying of actual approaches, and software simulators let you practice loading and flying these approaches.The course is taught by Master CFIs Max Trescott and Susan Parson, who say it covers the "gotchas" that can trick even experienced GPS pilots.

VOLAIR SIM COCKPIT CHASSIS

Note: This product is drop shipped direct from the manufacturer. If shipping international, inbound freight from manufacturer to our warehouse will apply in addition to outbound freight from our warehouse to destination.

This modern design is intended to take the flight simulator instruments off our desks and put them in a more realistic simulator environment. Although the pre-drilled installation holes are universal in nature they are also specific for the Saitek brand of instruments.

The Volair Sim flight chassis' name was derived as a play on the Spanish /Italian word volare, which means 'to fly'. This futuristic looking layout is the near perfect setup for most of our flight simulations. You can adapt any piece or combination of pieces of flight sim gear to the basic chassis and go even further with a little imagination, a drill and a screwdriver.

The Volair Sim is a quality product that enhances the flight simulation environment to near real-world expectations. The high quality powdered tubular steel chassis built around the adjustable real world car racing seat is a true joy to experience. The pre-drilled mounting holes and innovative design features along with the universal adjustable mounts adds to the flexibility of the unit. The ability to mount up to a single 42 IN VESA spec monitor or three 19 – 30 IN widescreen monitors makes it an instant hit with all flight simmers. P/N 13-14948 .....**$595.00**

ELITE SIMULATORS

PI 135 - Now use the PI-135 to perform the approaches, holding procedures, and intercepting / tracking required under section 61.57(c)(1) for recent instrument experience (instrument currency)! JEPPESEN FLITESTAR FLIGHT PLANNING

FliteStar VFR includes the functionality to satisfy even the most discriminating VFR flyer with features that include: • Graphical TFR Depiction • GPS upload capability • Point-and-click as well as automatic routing • Routing between VORs, NDBs, airports and user-defined waypoints • Direct and great circle paths • Routing around special use airspace • Color-coded elevation information in the planview and profile views • Terrain avoidance flight planning option • Connection to GTE or DTC DUATS via the Internet • Graphic weather overlays • Printed nav logs, flight plan forms, and more • Weight and balance, plus CG location calculations • Dozens of aircraft models and the ability to build your own • Fully compatible with Jeppesen digital RasterPlus VFR and nautical charts • Sunrise and sunset calendar • Color-coded elevation information that can be viewed in both the planview and profile views • Internet or modem connection to CSC or DTC DUATS for current weather and flight plan filing • Auto load function makes installation and NavData updates incredibly easy. • All FliteStar products can be easily upgraded. If you buy FliteStar VFR to get started, you can upgrade to the expanded features and capabilities of FliteStar IFR simply by paying the price difference between the two.

FliteStar IFR v9.0 includes all of the features of FliteStar VFR and Jeppesen's exclusive VectorPlus mapping technology and vector chart themes. FliteStar's chart filtering features allow you to select which chart items are depicted. Intelligent chart de-clutter automatically minimizes label overwrite, making charts easier to read. FliteStar's GPS-direct router avoids airspace vertically as well as laterally, when asked to do so. Integrated terrain data makes your planning easier and more complete by displaying the color-coded elevation information in both the planview and profile views. Weather animation capabilities allow Jeppesen weather images, including satellite and radar images, to be shown in moving sequence, thus depicting weather trend information. And, with release v9.0, cloud bases are automatically shown in the profile view when your weather briefing is complete.

HARDWARE OPTIONS FOR ON TOP AND IP TRAINER

FLIGHT SIM YOKE USB - Put yourself behind a set of real controls with the CH Flight Sim Yoke, complete with an authentic 3 lever throttle quadrant and numerous cockpit functions at your fingertips. Now you can control your aircraft like a real pilot would with left hand on the yoke and right hand controlling your throttle, prop and mixture and managing the rest of your cockpit. P/N 13-00737 ..... **$126.75**

CH ECLIPSE YOKE - Fully programmable fingertip paddles, ideal for flight and racing sims. Programmable trim / scroll wheels with center push function. Two backlit push buttons and a third traditional push button. Two 8-way hat with rocker switch and trigger on both sides of handle. Configurable POV hat for either left or right hand use. Colored handles for throttle / prop / fuel mixture. Three color LED selector dial giving you a total of 240 programmable functions with CH Control Manager software. Six analog 10 bit axes for aileron, elevator, throttle, propeller pitch, fuel and rudder. New and improved industrial grade material / components; indestructible robust plastic, free floating shaft and clamp extenders for the thinnest of desks P/N 13-06127 ..... **$189.75**

CH PRO RUDDER PEDALS USB - Features forward/backward slide motion for real simulation flying. Also works well as gas and brake controls for racing simulators. These 3 axes pedals are ideal with the 5 axes USB Flight Sim yoke. P/N 13-00738 ..... **$125.90**

Kit #1 - Yoke and Rudder Pedals .....P/N 13-06766 ..... **$226.95**

CH THROTTLE QUADRANT USB - TWIN ENGINE. Fully programmable and featuring six physical dent axis' and up to 350 buttons. Throttle Quandrant USB takes you from the computer to the cockpit. Features: 6 Axis 12 Buttons (24 Button functions w/Control Manager Software (included), 6 Physical Detents, Fully Programmable with CH Control manager, Compatible with Windows 98, Windows ME, Windows 2000 & Windows XP. Compatible with all Windows based Games.

P/N 13-03377 ..... **$128.90**

VRTR400 CONSOLE SIMULATOR

The VR Aircraft VRTR400 Console Simulator offers the ultimate in realism, flexibility, mobility, reliability, and cost effective flight training! This high quality instrument panel simulation system represents what you would find in a real single engine aircraft. The VRTR700 is as real as it gets! With today's rapidly escalating operating costs, you can keep flying without burning a drop of fuel, or worrying about the weather. With a small 42" x 18" footprint, the VRTR400 Console simulator will fit in very compact areas, on a desk or small table. Built to rugged specifications, VR simulators will give years of trouble free service. VR simulators are built tough enough to let big kids and non-pilots fly it HARD! Not supplied: PC Computer system capable of operating Microsoft flight simulator 2004 or FSX. Suggest 2.2ghz or higher 2Mb ram Video card(s) capable of having three video outputs. Microsoft flight simulator program Rudder pedals (USB) VRTR400 Standard Radios ..... P/N 13-06760..... **$8,750.00**

VRTR400-G Dual Screen Glass(G1000)... P/N 13-06761..... **$9,150.00**

MICROSOFT FLIGHT SIMULATOR AS A TRAINING AID

2nd Edition Microsoft® Flight Simulator has inspired many thousands of young "gamers" to pursue flight training in real life and has provided certificated pilots with countless hours of entertainment. And even though there is an awareness that PC-based simulations—and Microsoft Flight Simulator in particular—are helpful as aids in flight training and pilot proficiency, for many it is still unclear how best to benefit from the experience of virtual flying.

P/N 13-04937..... **$19.95**

WEATHER STATEMENT GROUNDSCHOOL

A CD-ROM-based course on METAR's and TAF's. Nearly 2 hours of stunning, interactive training is provided. Promotes learning through human interaction—not just rote memorization. A remarkable feature is the interactive weather controls, which enable the user to "control the weather." Since weather codes are confusing to interpret, the user can click the "Speak-It" button to hear a verbal translation. This allows the user to correlate codes with a true, visual picture and understanding of the weather. This tutorial CD is perfect for all pilots, from students to rated pilots who wish to remain sharp and proficient. It's also ideal for airport personnel, dispatchers, and anyone else who needs to view aviation weather information.

PANEL PLANNER

INSTRUMENT PANEL DESIGN SOFTWARE

Panel Planner software gives you the power to design and build instrument panels in record time. Simply drag full-color, photo-realistic instruments, avionics, and cockpit controls into place on an aircraft panel template or photograph. Panel Planner tracks total cost, total weight, and peak current, generates and equipment list, and even prints actual-size hole-cutting templates and color mock-ups. Panel Planner is easy to install and use with its continuous context-sensitive help to guide you every step of the way. The updatable database includes equipment from King, Narco, Sigma-Tek, David Clark, P.S. Engineering, Insight, Garmin, IFR, II Morrow, UMA, Mitchell, Trimble, Arnav, S-Tek, Century, Vision Microsystems, Avidyne, Digifly, Skyforce, and many more; PLUS switches, lights, control cables, vents, circuit breakers, trim indicators, etc. Create labels, color-coded annunciators, or placards.

PANEL PLANNER PRO (2.9 VERSION)

The PPJ 3.4 update has 100's of new panels and instruments. Please download the Excel spreadsheets. Hundreds of hours were spent reworking older panels to bring out more detail. Instrument manufacturers added like Lonestar that represent new, important auxiliary avionics and more smaller aircraft manufacturers' panel added. View 1600 instruments on 600 aircraft panels. Outputs DXF files for CNC, laser/water jet. Updates over the internet. Full-size cutting template printouts Measurement and alignment tools. Edit existing or create new panel templates. Multiple zoom and magnification levels. Actual-size color prints from desktop printers.

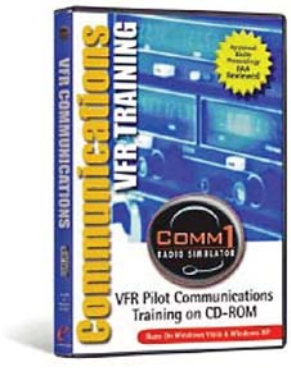
Panel Planner Pro for Macintosh.....P/N 13-06210... **$249.95**

LOGTEN PRO PILOT LOGBOOK APP



The leading international pilot logbook built for the Apple platform. LogTen Pro is the electronic logbook of choice for tens of thousands of Mac pilots in nearly 200 countries, and in every major airline. Designed to be completely customizable for your type of flying, country, region, company so you can track exactly what you need.

Features:

- Syncs seamlessly with iPad and iPhone versions (but not required - whether you purchase the Mac version or Universal iPad/iPhone version, your whole logbook travels with you!)
- Data entry is quick and intuitive
- Easily imports existing data and you can customize to your needs
- Automatically tracks currency and duty limits
- Harnesses all the power of Apple Smart Groups so you can slice and dice your data instantly to provide answers to any question about your flight time (great for insurance, flying clubs, interviews, etc.)
- Tracks certificates, ratings, endorsements, medicals, expenses and flight reviews
- Prints stunning reports and official logbooks, over 80 reports available out of the box or you can create your own!
- Automatically calculates night time
- Exports flights and trips right to your calendar
- Automatically processes airline schedules
- Visual limits lets you see at a glance if there's any issures with your schedule
- Customer service second to none...And a lot more

COMM 1 VFR/IFR RADIO SIMULATOR

Learning to fly? Not flown for a few years? Talking on the radio is one of the most important, but least emphasized, skills you need to fly safely in today's busy airspace. COMM1 VFR Radio Simulator is a proven tool for getting you up to speed on communicating professionally with ATC, Flight Services, Flight Watch, and other ground personnel. 6+ hours of training, comprehensive audio-visual tutorials, realistic flight scenarios, Interactive practice exercises w/ ATC, playback your exchange w/ATC, and compare yourself to an expert. Works with MAC and Windows 8. 486/66 MHz PC processor. 16 MB RAM. 6 MB hard drive space. Windows 95. 4x speed CD-ROM drive. Sound Blaster-compatible sound card. Microphone and speakers (or headset). 800 x 600 resolution display with 256 colors. Works with MAC and Windows 8.

P/N 13-34441..... **$111.95**

REDBIRD FLIGHT SIMULATORS

THE JAY BY REDBIRD

Start Up-procedure: 1.Put it on a table. 2.Turn it on. 3. Fly.

Practicing at home is a great idea for pilots. You can keep your skills sharp and your mind in the cockpit even when you can't make it to the airport. In reality, however, two obstacles deny a majority of pilots effective home flight simulation: purchasing and assembling the right hardware requires a PhD in computer know-how, and after flying around the virtual world for a bit, most pilots get bored. Redbird Flight Simulations, the world leader in FAA-approved flight simulators for general aviation, has addressed both these issues with the Jay. The Jay contains the monitor, speakers, computer and flight controls—all-in-one unit that is ready to fly right out of the box. It boots up directly to a launch screen where you can select your airplane, airport and weather conditions. Push the green button and you're on a runway and ready to go. **Scenario-based training? It's built in.** The Jay is more than a simulator—it's a flight experience device supporting training, proficiency, and just plain fun! In addition to the free flight mode where you select the aircraft and conditions, the Jay has a scenario mode where you can load a preset scenario and fly it. A scenario could range from a simple flight challenge to a complex flight with multiple potential outcomes. For example, a magazine article on an aircraft accident could be linked to a mission where the Jay owner flies that scenario. Redbird Media, a company specializing in curriculum for simulation, will create many of these scenarios in partnership with AOPA Pilot and other training outlets and magazines. The scenario exchange will be open to any company wishing to create scenarios for the Jay. A one-button update on the Jay will load the latest scenarios available for free or that the owner has purchased. The Jay home screen also has a built-in web browser to access scenario add-ons, such as video, or download simulator extensions such as additional aircraft or scenery. The Jay chassis is metal, not plastic. Control smoothness is paramount. The parts should last indefinitely. In addition, there are pilot-centric touches. For example, the yoke travel is equivalent to a typical Cessna or Piper single—about three times as far as most plastic flight sim yokes move. The software powering the Jay is Lockheed Prepar3D (pronounced "prepared"). Prepar3D is an evolution of Microsoft's FSX, enhanced and expanded for professional-level simulation, including Redbird's full-motion simulators. This means most of the many plug-ins, aircraft and communities designed for FSX will work flawlessly on the Jay. P/N 13-15906.....**$2,595.00**

Description	Part No.	Price
Redbird Wireless Adapter For The Jay	13-15874	**$58.95**
Redbird RD1 Rudder Pedals	13-15866	**$549.00**

THE JAY VELOCITY EDITION BY REDBIRD

The Jay Velocity Edition contains all of the standard Jay features, while adding upgraded computing power and robust components to allow it to be used in demanding environments like middle and high schools, museums, and public access kiosks. The clean-sheet design prioritizes one thing for the classroom: Get the student learning with a minimum of fuss. There are no peripherals to configure, no systems to install. Take it out of the box, plug it in, and turn it on. Now say, "preflight complete." The Jay contains the monitor, speakers, computer and flight controls—all-in-one unit that is ready to fly right out of the box. It boots up directly to a launch screen where you can select your airplane, airport and weather conditions. Push the green button and you're on a runway and ready to go.

P/N 13-20712.....**$4,041.00**

REDBIRD TD BY REDBIRD

Table not included
FAA Approved BATD Simulator

The Redbird TD and TD2 are table-mounted flight training devices that are designed with the ergonomics of flight in mind at a price that everyone can afford. Plus, they're fully packaged and easy to set up and operate, making it the most realistic and effective trainer on the market. Traditional "desktop" flight training devices sit on top of a table or desk, causing the pilot to reach up for the yoke and to look unrealistically high for the gauges. The TD and TD2's unique mounting system allows it to be hung under the table, placing the yoke, switches, gauges and visuals in the correct and most realistic position for the pilot. The Redbird TD and TD2 are perfect for flight schools looking to enhance training with simulation, and for individual pilots looking to hone their skills and stay current from the comfort of their home or office.
The newly redesigned Redbird TD & TD2 give you the freedom to fly with interchangeable glass and steam gauges on one device. They represent generic,single engine piston training aircraft. With the TD2, you can fly with or without retractable gear, constant speed prop and or a high performance engine.

Features:
- 90-day warranty with optional 1 or 2-year extended warranty
- Interchangeable instrument panel - traditional or glass configurations
- Complete terrain and airport database
- Equipped with computer, monitor, instrument panel, keyboard and speakers
- Ergonomically correct design which easily slides onto a sturdy, solid table
- FAA Approved BATD with optional rudder pedals
- Failure Hotkeys

Room Requirements:
You will need a sturdy, solid table with a maximum tabletop thickness of 2.25" including any rails and the underlying structure. There should be at least 29" between the legs of the table to allow the TD to slide on to the table smoothly. Please note that you must install the adjustable supporting leg for added stability, if you are not using a Redbird TD table or platform.

SAITEK FLIGHT SIMULATION

SAITEK X52 FLIGHT CONTROL SYSTEM

Enhanced game play through intuitive Multi-Function display (MFD). Illuminated buttons and MFD - ideal for low light environments. Rubber grips and ergonomic design for increased comfort and fatigue-free gaming. Includes Roger Wilco Chat software - the ideal accompaniment for on-line multiplayer gaming.

P/N 14-02845 .....**$149.99**

SAITEK X52 PRO FLIGHT SYSTEM

The MFD screen is now interactive. Now you can display important in-game information such as the Radio Stack and interact with your games directly. Shipping with support for Microsoft's Flight Simulator X, there's also a Software Development Kit (SDK) included which allows budding programmers to create interactions with their own favorite games.

P/N 14-00649 .....**$199.99**

SAITEK PRO FLIGHT YOKE SYSTEM

Meets the exacting needs of the true flight simulation enthusiast. Stainless steel shaft, ergonomic controls, integrated chronograph and separate throttle quadrant. Use the integrated USB Hub to easily connect other parts of the Saitek Pro Flight range of products, such as additional Pro Flight Throttle Quadrant or Pro Flight Instrument Panel (sold separately).

P/N 14-00598 .....**$169.99**

SAITEK PRO FLIGHT INSTRUMENT PANEL 6 PACK

Featuring a stunning 3.5" colour LCD screen, the Instrument Panel can display 6 of the main cockpit instrument panels from Microsoft's Flight Simulator X. Choose between 6 different flight instruments at the touch of a button: Altimeter, Attitude Indicator, Airspeed Indicator, Compass, Turn and Slip indicator, and Vertical Speed.

P/N 14-03010 .....**$859.00**

FLIGHT TRAINING COCKPIT ADVANCED PANEL

Advanced Panel offers a cockpit-realistic way to mount Saitek Pro Flight Simulation Instruments and Controls. The Advanced Panel twist-and-remove pre-cut tabs allow you to add Saitek hardware to your Advanced Panel over time and trade simulation devices between slots. Small tabs accommodate up to 10 Pro Flight Instruments. Each Saitek Flight Instrument Panel allows you to digitally switch between simulating eleven flight instruments. Alternatively, mount a Hannspree HL161ABB 16" Screen LED-Lit Monitor in one of several possible Panel face mounting configurations.

P/N 13-13088 .....**$319.00**

SAITEK PRO FLIGHT THROTTLE QUADRANT

Upgrade your flight simulation experience with the Saitek Pro Flight Throttle Quadrant. This makes an ideal addition to the Saitek Pro Flight Yoke System to expand the number of controls for your flight simulation setup.

Set the levers to control aircraft throttles, adjust elevator trim, fuel mixture or even to engage reverse thrust during landing. The Pro Flight Throttle Quadrant will work in any major flight simulation to give you all the control you need.

P/N 14-00601 .....**$59.99**

SAITEK PRO FLIGHT RUDDER PEDALS

Complete your virtual pilot's controller setup and take flight simulation reality to the next level with the Pro Flight Rudder Pedals. Control the rudder and toe brakes of your aircraft with your feet - just like real pilots. Adjustable, smooth action gives you optimum control and realism, and brings you even closer to the experience of flying a real aircraft.

P/N 14-00602 .....**$169.99**

SAITEK PRO FLIGHT SWITCH PANEL

Upgrade your flight simulation experience for Microsoft Flight Simulator X with the Saitek Pro Flight Switch Panel. Whether attached to the Saitek Pro Flight Yoke System, free standing on a desk or mounted into your own cockpit setup, the Pro Flight Switch Panel is an ideal way to expand the number of controls for your flight simulation setup.

P/N 14-00714 .....**$99.99**

SAITEK PRO FLIGHT RADIO PANEL

Upgrade your flight simulation experience for Microsoft Flight Simulator X with the Saitek Pro Flight Radio Panel. LED displays work fully in real time with Flight Simulator X and 2004, removing the need to bring the radio stack up on screen. A set of switches and LED displays for use in controlling various aspects of flight simulation. COM1 / COM2 / NAV1 / NAV2 function. DME / ADF / XPDR functions.

P/N 14-00969 .....**$149.99**

SAITEK PRO FLIGHT MULTI-PANEL

Upgrade your flight simulation experience for Microsoft Flight Simulator X with the Saitek Pro Flight Multi Panel. LED displays work fully in real time with Flight Simulator X and 2004, removing the need to bring the autopilot up on screen. A set of switches and LED display for use in controlling various aspects of flight simulation. Full Autopilot panel with associated setting controls: Auto Throttle, Flaps, Elevator Trim wheel.

P/N 14-00968 .....**$149.99**

SAITEK PRO FLIGHT INSTRUMENT PANEL

Featuring a stunning 3.5" colour LCD screen, the Instrument Panel can display 6 of the main cockpit instrument panels from Microsoft's Flight Simulator X. Reacting and updating in real time with events from the game, the Instrument Panel brings an extra level of realism to your flight simulation setup. Choose between 6 different flight instruments at the touch of a button: Altimeter, Attitude Indicator Airspeed Indicator Compass Turn and Slip indicator, Vertical Speed.

P/N 14-00870 .....**$169.99**

JEPPESEN BINDERS

Functional, durable, protects & lasts. Jeppesen's leather binders are made from top-grain cowhide and include steel hinges and safety locks to secure the rings. The sturdy Duraflo binder has the look and the feel of our leather binders. The flo-mold process laminates and binds sturdy, ethylene acetate with a clear tough suryln outer surface. Available in brown and black.

Standard leather 1" Binder. .....P/N 13-03251 .....**$48.95**
Standard leather 2' Binder. .....P/N 13-03250 .....**$58.90**
LB-2 Leather, 2" Rings, Stay-Open Bar. .....P/N 13-21738 .....**$97.00**

PLASTIC BINDERS

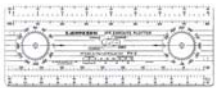
PB-2 Denlon wrapped, 2" Rings, No Stay-Open Bar.
P/N 13-21744 .....**$40.00**

PB-1.5 Denlon wrapped, 1.5" Rings, No Stay-Open Bar.
P/N 13-22792 .....**$24.95**

JEPP PRIVATE PILOT EXAM BOOKLET

The Private Pilot Exam Booklet is a product that contains all the written exams that are needed to complete the Jeppesen Private Pilot course under 14 CFR Part 141. This booklet combines the Private Pilot Pre-Solo Written Exam, Private Pilot Stage Exams, and Private Pilot End Of Course Exams into one single product. P/N 13-19627 ..... **$17.85**

PILOTS NOTES



Write it down! Handy for flight planning, enroute notes. Fits Jeppesen Binders. Pkg of 500 sheets.

Lined Pilots notes.....P/N 13-06806.....**$5.70**
Unlined Pilots notes .....P/N 13-06805.....**$4.95**

PV-5 IFR Enroute Plotter
Size 3-3/16" x 8-1/2"
P/N 13-21718..... **$9.50**

CHARTABS

Quick reference tabs labeled, "Departure, Destination and Alternate" help you find your place fast. Plastic color coded.
Set of 3.....P/N 13-21752..... **$7.70**

MULTI-TABS

Make your binder work like you do. Write you own labels to separate you contents. Erasable, reusable. Lines for notes. Set/13. P/N 8455 ..... **$7.20**

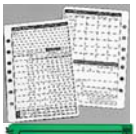
JEPPESEN STATE TABS SET

Easily identify your charts with these tabs.Organize your charts and text sections by state. One set.
P/N 13-07574 .....**$14.95**

INDEX TABS

Simplify Location of desired charts and index sections in your airway manual or trip kit.
Set of Alphabetical Tabs P/N 13-62541-5... **$19.00**
Set of Sectional Tabs .... P/N 13-62513-5... **$20.95**

AIRWAY MANUAL ACCESSORY PACK



Each pkg Contains: • Chartabs (set of 3) • Approach chart protectors (set of 10) •NavLog/Flight Plan Forms (set of 50) • Multi-tabs (set of 13) • Pilot Notes (set of 25 lined) P/N 13-62604-6 .....**$23.75**

VFR/NAVIGATION LOG PAD

Record all of your flight information in a single convenient log. 50 sheets. Size: 11"x 8.5"
P/N 8846 ..... **$10.95**

NAVIGATION LOG / VFR FLIGHT PLAN FORM

Perfect Flight Planning partner. Features a weather log. Two sided fits into Jeppesen binders for easy in flight reference. Package of 100. Size: 5.5" x 8.5"
P/N 13-21754 ..... **$5.95**

IFR FLIGHT FILE

This handy chart planner and organizer holds NOS or Jeppesen approach plates, SIDs and STARs, and airport diagrams. Easy to load static-hold chart protectors, and fits yoke clips & keenboards. Important reference information relating to IFR departure, enroute, approach, and alternates. P/N 13-55016..... **$19.95**

PS

MAPS – CHARTS

WEATHERCYCLER WEATHER SYSTEMS CHART

A durable 8-1/2" x 11" slide chart that uniquely displays map views and vertical cross sections through Highs, Lows, and fronts -- the broad-scale systems and features that dominate our weather. Sky views and changes in temperature and pressure complete the comprehensive chart depictions. By simply pulling the chart insert, the weather systems are put into their typical movements from west to east. Weather changes are shown for your location as the weather systems pass by. Accompanying four-page instruction booklet describes the basic causes of weather and explains step-by-step how to use The WeatherCycler.

P/N 13-29949 ..... **$9.99**

FULL-COLOR CLOUD CHART

"Clouds: A Guide to the Sky" shows full-color photos of 30 different cloud formations, (with descriptions) and the weather associated with each. 25" x 37" on heavy stock. P/N 13-14758 ..... **$5.95**

SCENIC FLIGHT MAPS

The Scenic Flight Maps give you many different routes for sightseeing to the major landmarks, famous places in Los Angeles and Orange County or San Diego area. The multiple color graphs and route pointers are really easy to read and follow. The map is laminated to keep from daily tears and protects from liquid spill. On the back side, it shows three columns: Route, Need to Know and Sightseeing sections, to better guide you in your travel without confusion or time lost.

Scenic Flight Maps L.A./O.C. ..... P/N 13-05667 ..... **$11.95**

AERONAUTICAL CHART USER'S GUIDE

A critical reference tool for any navigator, the ninth edition of the Aeronautical Chart User's Guide presents the most up-to-date information on charts adhering to Visual Flight Rule (VFR) and Instrument Flying Rule (IFR). Number of Pages: 80 Dimensions: 8.5 x 11 x 0.8 in.

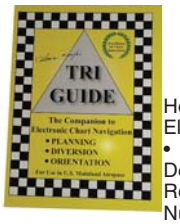
P/N 13-11595 ..... **$7.95**

VFR WALL PLANNING CHART

U.S. VFR Wall Planning Chart is designed for VFR preflight planning and provides aeronautical and topographic information of the conterminous U.S. The aeronautical information includes airports, radio aids to navigation, Class B airspace and special use airspace. The topographic information includes city tint, populated places, principal roads, drainage patterns and shaded relief. This chart, 59x36 inches flat, is updated annually. P/N 13-14786 ..... **$8.95**

CANADA FLIGHT SUPPLEMENT IFR CHART

The Canada Flight Supplement is a joint civil/military publication. It contains information on Canadian and North Atlantic aerodromes and is used as a reference for the planning and safe conduct of air operations. Features: •General: Tables, legends and associated information pertinent to interpretation of the supplement. •Aerodrome Directory •Planning •Radio Navigation and Communications •Military: Flight procedures and data, including sections on procedures for flight in the USA, North Atlantic and Alaska, air/ground communications and military training routes/areas. • Emergency procedures. •The Canada Flight Supplement, measuring 5 1⁄4 by 8 1⁄4 inches, is available in English or a bilingual format. Data for the province of Quebec and the National Capital Region are presented in French in the bilingual edition.



English Version ..... P/N 13-04424 ..... **$17.50**
Bilingual Version ..... P/N 13-04550 ..... **$22.95**

AIR TRAVELERS MAP

Intended for the airline or business jet passenger, this flight reference map is designed primarily for trip planning and referencing landmarks of the USA while in flight. Packed with useful information on cities, parks, highways, and other points of interest from California to Maine. The folded flight map is printed on durable tear-proof paper and fits perfectly in a seat pocket or briefcase, making it a great gift for the "Frequent Flyer"! Flight Map Measurements: 8 1/2" x 11".

P/N 14-02827 ..... **$13.50**

TRI GUIDE THE COMPANION TO ELECTRONIC CHART NAVIGATION

Howie Keefe's Tri Guide is the perfect companion to Electronic Chart Navigation. This guide addresses: • Planning• Diversion• Orientation• Airport & VOR Decode (ID to Name) Plus Contact Frequency• Reservation Numbers and even Hotel & Motel Numbers• For use in U.S. Mainland Airspace

P/N 13-12653 ..... **$27.95**

SKYNAV AVIATION ATLAS

Getting to air shows on time all around the country requires compact charts that are always up-to-date without a lot of updating hassle. That's why it was developed that thousands of pilots are enjoying every day.

West Atlas ..... P/N 13-08029 ..... **$73.95**
North Atlas ..... P/N 13-08027 ..... **$49.95**
South Atlas ..... P/N 13-08028 ..... **$78.95**
Northeast Atlas ..... P/N 13-12126 ..... **$49.95**
Northwest Atlas ..... P/N 13-12128 ..... **$49.95**
Southeast Atlas ..... P/N 13-12127 ..... **$49.95**
Southwest Atlas ..... P/N 13-12129 ..... **$49.95**
Bahamas Atlas ..... P/N 13-12130 ..... **$46.95**
WAC Digest Aviation Charts ..... P/N 13-15556 ..... **$49.95**

3-D AERONAUTICAL CHARTS

The precisely molded 3D shape allows pilots to see and feel the terrain shape and clearly understand how it relates to the airspace and flight. Pilots will value referencing this chart for flight planning, training, and as a general conversation piece, whether hung on a wall of an office, hangar, or home. This chart is made with a digital inkjet printing process on a rigid plastic film, which is then molded to a precise terrain model.

Los Angeles ..... P/N 13-09595 ..... **$59.75**
Southern Sierra Nevada ..... P/N 13-09597 ..... **$38.50**
San Fransisco / Tahoe ..... P/N 13-09596 ..... **$37.95**
Glacier Bay, Alaska ..... P/N 13-09598 ..... **$38.95**
Denver ..... P/N 13-10006 ..... **$38.95**
Portland ..... P/N 13-11714 ..... **$37.95**
Seattle ..... P/N 13-11713 ..... **$38.95**

QUICK REFRESHER CHARTS

These Quick Refresher Charts provide a wealth of useful information that every pilot seems to forget over time. Available to "refresh" the pilot on IFR procedures & regulations, Weather info, VFR procedures & regulations, mountain flying, passenger info (the right seat), flying to Canada, and flying to the Bahamas. These charts are laminated for long life & fit right in your flight bag.

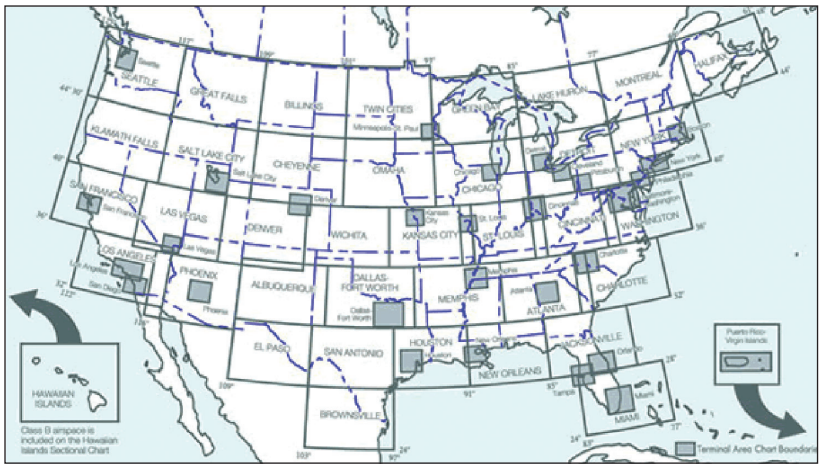
Quick Refresher VFR ..... P/N 13-40316 ..... **$6.95**
Quick Refresher Weather ..... P/N 13-40416 ..... **$6.95**
Quick Refresher IFR ..... P/N 13-40516 ..... **$6.95**
Quick Refresher Mtn. Flying ..... P/N 13-00422 ..... **$5.95**
Quick Refresher The Right Seat ..... P/N 13-00423 ..... **$7.85**

AVIATOR'S QUICK REFERENCE DESK MAP - US

The same map as the US Flight Case Map, without the folds and a 1 inch border added with lattitudes and longitudes. Heavy map paper and laminate. Full map size: 33 1/2" x 23"

PN 13-05690 ..... **$30.95**

FOLDED PILOT'S MAP



This map measures 3 feet by 2 feet and is encapsulated on both sides by a rugged 3 mil laminate for durability. The map is extremely detailed and includes hundreds of airports (civil and military), vor's, ndb's, terrain features, national parks, cities, time zones, etc. The back of the map has a very detailed AM radio frequency guide for all 50 states, the District of Columbia, Puerto Rico, and the U.S. Virgin Islands. Contains state information including capitals, square mileage, population, and nick names along with each state flag. Great for pilots and aviation enthusiasts. Flight plan information, ATC light gun signals, cruising altitudes, and a crosswind component chart included.

Folded Pilot's Map ..... P/N 13-11247 ..... **$18.75**
Pilot's Laminated Wall Map ..... P/N 13-11248 ..... **$18.75**

AERONAV VISUAL NAVIGATION CHARTS

Sectional & VFR Terminal Charts for conterminous United States, Hawaii, Puerto Rico and Virgin Islands

AERONAV SECTIONAL CHARTS

Sectional aeronautical charts are designed for visual navigation of slow to medium speed aircraft. The topographic information featured consists of the relief and a judicious selection of visual checkpoints used for flight under visual flight rules. The checkpoints include populated places, drainage patterns, roads, railroads, and other distinctive landmarks. The aeronautical info on Sectional Charts includes visual and radio aids to navigation, airports, controlled airspace, restricted areas, obstructions, & related data. (Scale 1"=6.86 nm/ 1:500,000. 60"x20" folded to 5"x10") Revised semi-annually, except most Alaskan charts are revised annually.

Sectional Charts ..... P/N 8403..... **$7.50**
Set of 37 charts (w/o AK & HI)..... P/N 8557.... **$276.95**

NOTE: When ordering charts, complete part no. with first 3 letters of chart title. Ex.: Seattle sectional is P/N 8403SEA.

For Subscription service: Add -SUB (example: 8403SEA-SUB) and a new chart will be shipped & billed to you automatically at every revision until you cancel the subscription. Subscription chart orders require credit card no. on file.

Seattle	Klamath Falls	Denver	Dallas/Fort Worth	Brownsville	Seward	McGrath

Chart Master On-Line Chart Selector

CHART MASTER

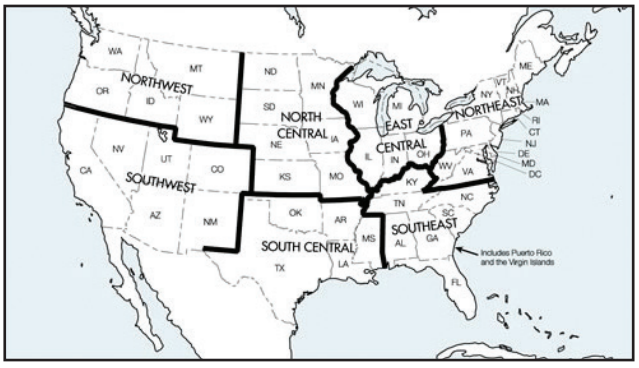
Chart Master is Aircraft Spruce's online chart selection program designed to tell you exactly which aviation charts you will need for the route you intend to fly. Just plug in the 3 letter airport identifiers for your departure and destination airports, and Chart Master will provide you with a list of all of the charts needed for your route. Select VFR (sectional, terminal, WAC, AFD, or IFR (Low altitude enroute) or both and order any or all of the charts listed by Chart Master. This program is available on line at www.aircraftspruce.com.

AERONAV VFR TERMINAL AREA CHARTS

Terminal Area Charts depict the airspace designated as Class B Airspace. The information found on these charts, while similar to that found on Sectional Charts, is shown in much more detail because of the larger scale. These charts should be used by pilots intending to operate from airfield within or near a Terminal Control Area or an Airport Radar Service Area. Locations of Terminal Area Charts are indicated by a • on the Sectional Chart indexes. (Scale 1 inch = 3.43nm/1:250,000. 25 x 20 inches folded to 5 x 10 inches.) Revised semi-annually, except Puerto Rico/Virgin Islands is revised annually.

Terminal Area Charts.....P/N 8064 ..... **$5.25**
Set of 28 Terminal Charts.....P/N 8524 ..... **$125.95**

NOTE: When ordering charts, complete part number with first 3 letters of chart title. Ex: Los Angeles terminal chart is P/N 8064LOS.



For SUBSCRIPTION service: Add -SUB (example: 8064LOS-SUB) and a new chart will be shipped and billed to you automatically at every revision until you cancel the subscription. Subscription chart orders require credit card number on file.

World Aeronautical Charts for the conterminous U.S., Mexico, & Caribbean Areas

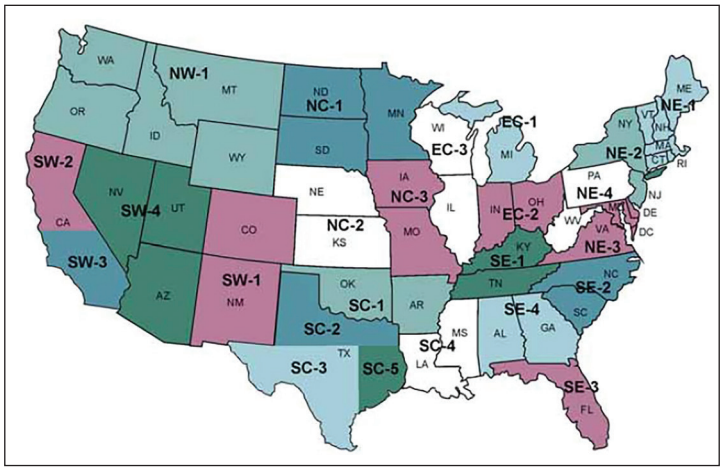
WORLD AERONAUTICAL CHARTS

World Aeronautical Charts by NOS are designed to provide standard for the land areas of the world in a size and scale convenient for navigation by moderate-speed aircraft. Topographic information includes cities and towns, principal roads, railroads, distinctive landmarks, drainage, and relief. Aeronautical information includes visual and radio aids to navigation, airports, airways,restricted areas, obstructions, and other data considered pertinent. Scale 1:1,000,000 or 1" to 13.7 nautical miles, less detailed than Sectional & Terminal Area Charts, but useful for longer distance planning. Revised annually. 12 charts cover the US

WAC Charts.....P/N 8567..... **$9.50 ea**

NOTE: When ordering charts, complete part no. with chart number.

Example: WAC chart CF-17 is P/N 8567CF-17.



For SUBSCRIPTION service: Add -SUB (example: 8567CF-17-SUB) and a new WAC chart will be shipped and billed to you automatically at every revision until you cancel the subscription. Subscription chart orders require a credit card number on file.

TERMINAL PROCEDURES COVERAGE OF THE CONTERMINOUS U.S.

Includes: • Instrument Approach Procedure (IAP) Charts •Departure Procedure (DP) Charts • Standard Terminal Arrival (STAR) Charts • Charted Visual Flight Procedures (CVFP) • Airport Diagrams

IAP Charts are designed to provide an IFR descent from the enroute environment to a point where a safe landing can be made. DP charts are Air Traffic Control (ATC)-coded departure procedures which have been established at certain airports to simplify clearance delivery procedures. STAR charts are ATC-coded IFR arrival routes established for certain airports to simplify clearance delivery procedures. CVFPs are an operational technique designed to move air traffic safely and expeditiously. In addition to conventional visual approach procedures, it has been necessary to specify routes/altitudes to enhance noise abatement at some locations. CVFPs have been developed to provide a pictorial display of these visual arrival routes. Airport Diagrams are specifically designed to assist in the movement of ground traffic at locations with complex runway/taxiway configurations and provide information for updating geodetic position navigational systems aboard aircraft.

INSTRUMENT NAVIGATION CHARTS

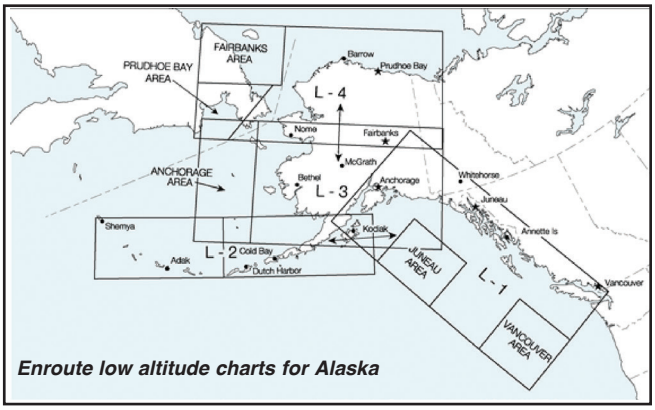
AERONAV ENROUTE LOW ALTITUDE CHARTS

New Layout Effective October 25, 2007.

Enroute low altitude charts for conterminous U.S. (includes area charts)

Enroute Low Altitude charts (Conterminous U.S. and Alaska) provide aeronautical information for navigation under instrument flight rules below 18,000 feet MSL. Information includes: airways; limits of controlled airspace; position, identification, and frequencies of radio aids to navigation (Alaska 4-color series includes geographic coordinates); airports with terminal air/ground communications; minimum enroute and obstruction clearance altitudes; airway distances; reporting points; special use airspace areas; military training routes. Scales vary from 1 inch = 5nm to 1 inch = 20nm. 50 x 20 inches folded to 5 x 10 inches. Revised every 8 weeks. Area charts, which show congested terminal areas at a large scale, are included with subscriptions to any conterminous U.S. Set Low (Full set, East or West sets). Chart L-28 covers the Washington-Boston corridor at a scale similar to an Area Chart. Charts are revised every 8 weeks.

Enroute Low Altitude Charts..... P/N 8070L..... **$4.45/ea.**



Full Set (L1/2-L27/28 & Area Chart)
P/N 13-30714 .... **$84.25**

Western U.S. Set (L1/2-L15/16 & Area Chart)
P/N 13-30716 .... **$48.50**

Eastern U.S. Set (L11/12, L13/14, L17/18-L27/28 & Area Chart)
P/N 13-30717 .... **$53.00**

Alaskan Set (Alaskan L1/2-Alaskan L3/4) ..... P/N 13-30718 ..... **$8.75**

For individual charts please call 877-4-SPRUCE or visit our website at:
www.aircraftspruce.com

Enroute low altitude charts for Alaska

IFR GULF OF MEXICO CHART - WEST P/N 13-08004 .....**$16.50**

IFR GULF OF MEXICO CHART - CENTRAL P/N 13-08003 .....**$17.50**

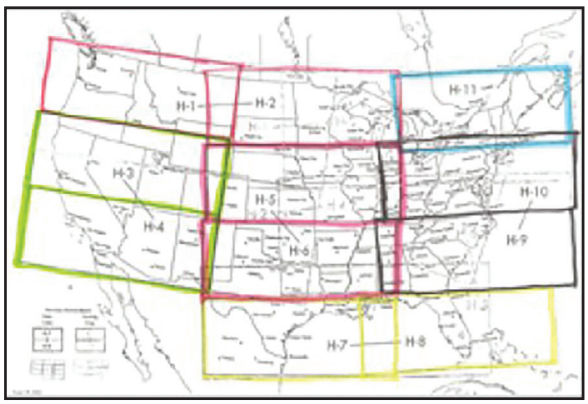
NOTE: When ordering individual charts, complete part number with the chart number. Example: Enroute Low Altitude Chart L-10 is P/N 8070L-10.

For SUBSCRIPTION service, add -SUB (example: 8070L-10-SUB) and a new chart will be shipped and billed to you automatically at every revision until you cancel the subscription. Subscription chart orders require a credit card number on file.

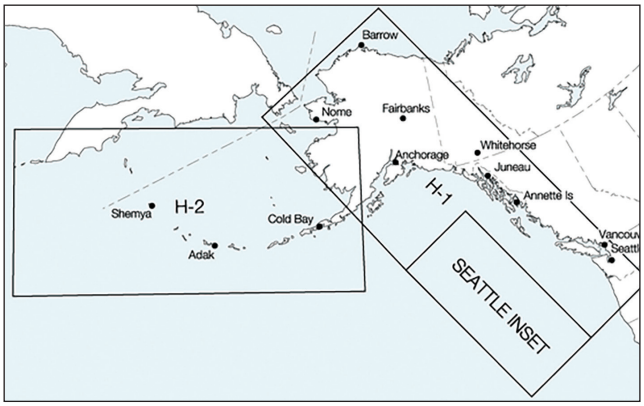
Chart Master On-Line Chart Selector

CHART MASTER

Chart Master is Aircraft Spruce's online chart selection program designed to tell you exactly which aviation charts you will need for the route you intend to fly. Just plug in the 3 letter airport identifiers for your departure and destination airports, and Chart Master will provide you with a list of all of the charts needed for your route. Select VFR (sectional, terminal, WAC, AFD, or IFR (Low altitude enroute) or both and order any or all of the charts listed by Chart Master. This program is available on line at www.aircraftspruce.com.



AERONAV IFR ENROUTE HIGH ALTITUDE CHARTS

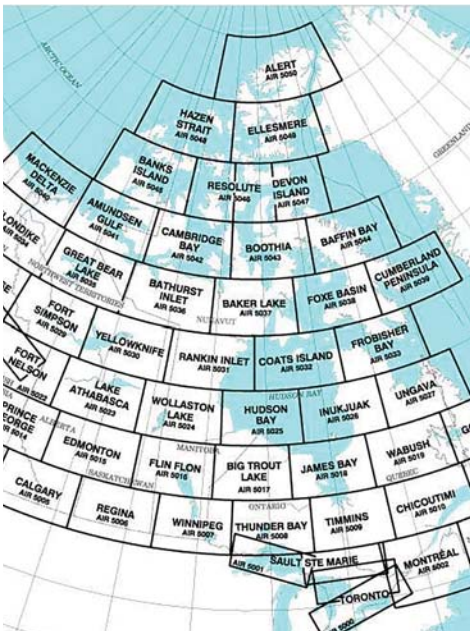


IFR Enroute High Altitude Charts (Conterminous U.S. and Alaska) are designed for navigation at or above 18,000 feel MSL. This four color chart series includes: Jet route structure; VHF radio aid to navigation (frequency, ID, channel, geographic coordinates); selected airports; reporting points. (Scales vary from 1" = 78nm to 1" = 30nm. 55 x 20" folded to 5 x 10".) Revised every 8 weeks.

NOTE: When ordering individual charts, complete part no. with the chart no. Ex: Enroute High Altitude Chart H1/2 is P/N

Full Set (H1/H2, H3/H4, H5/6, H9/H10, H11),(H3/H4, H5/H6, H7/H8-very small area,H9/H10), (H3/H4-very small area, H5/H6, H7/H8, H9/H10, H11) P/N 8075-1 .....**$26.25**

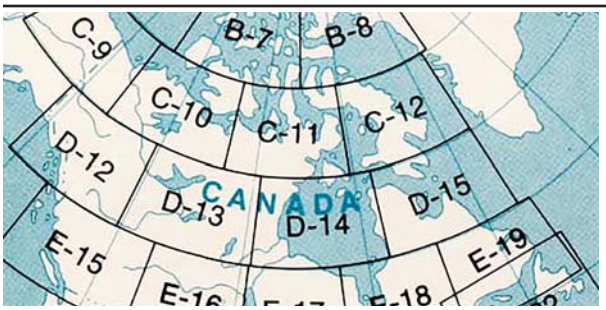
For SUBSCRIPTION service: Add -SUB (example: 8075-H1/2-SUB) and a new chart will be shipped and billed to you automatically at every revision until you cancel the subscription. Subscription chart orders require a credit card number on file.



PS

CANADIAN AIA CHARTS

CANADIAN VNC (VFR) CHARTS



The VNC is used by VFR pilots on short to extended cross-country flight at medium altitudes and at low to medium airspeeds. These charts show aerodrome data, airspace information, radio aids to navigation, air/ground communications, and elevation with contour lines, tints and shaded relief.

LOW ALTITUDE ENROUTE CHARTS

Enroute Low and High Altitude charts provide aeronautical information for instrument navigation in the low and high airway structure of the Canadian Domestic Airspace. The airspace over foreign territory and international waters in which Canada accepts responsibility for the provision of air traffic services, and other areas required for military use. The primary purpose of Enroute charts is to depict radio navigation data to provide rapid and precise location and identification of information requisite to radio instrument navigation.

Item	Title	Spruce PN	Price
LE12	LE12 Low Enroute Chart 1-2	13-04539	$4.95
LE34	LE34 Low Enroute Chart 3-4	13-04541	$4.95
LE56	LE56 Low Enroute Chart 5-6	13-04542	$4.95
LE78	LE78 Low Enroute Chart 7-8	13-04543	$4.95
LE910	LE910 Low Enroute Chart 9-10	13-04544	$4.95

CANADA WATER AERODROME SUPPLEMENT (WAS)

Provides tabulated, textual data and graphical information in support of Canadian VFR charts. Contains an Aerodrome/Facilities Directory of all water aerodromes shown on Canadian VFR charts. Updated once a year in March. ..... P/N 13-04552 ..... **$56.75**

CANADA VTA TERMINAL CHARTS

Terminal area charts provide detailed information in congested air traffic areas. The six charts of the series cover Toronto, Montreal, Vancouver, Winnipeg, Calgary and Edmonton. The latter two are printed back to back. All charts are at a scale of 1:250,000.

Emonton/Calgary ..... P/N 13-04426 ..... **$18.75**
Montreal ..... P/N 13-04427 ..... **$18.75**
Toronto ..... P/N 13-04428 ..... **$18.75**
Winnipeg ..... P/N 13-04430 ..... **$18.75**
Vancouver ..... P/N 13-04429 ..... **$18.75**

CANADA AIR PILOT

The Canada Air Pilot contains aeronautical information related to the conduct of the arrival or departure portion of flight instrument approach procedures, standard instrument departure procedures and noise abatement procedures. The publications are updated every 56 days.

CAP GEN contains general pages for all volumes except CAP 6*. CAP GEN is amended and reissued as required.

Note: The charts listed below are always shipped with the Canada Air Pilot General Chart.

Coverage Area	Description	Part No.	Price
Yukon & Northwest Territories	Canada Air Pilot - CAP 1	13-04553-1	$17.50
British Columbia	Canada Air Pilot - CAP 2	13-04554-1	$17.50
Alberta, Saskatchewan & Manitoba	Canada Air Pilot - CAP 3	13-04555-1	$17.50
Ontario	Canada Air Pilot - CAP 4	13-04556-1	$17.50
Quebec (English Version)	Canada Air Pilot - CAP 5	13-04557-1	$17.50
Quebec (French Version)	Canada Air Pilot - CAP 6	13-04558-1	$17.50
Atlantic Provinces	Canada Air Pilot - CAP 7	13-04559-1	$17.50

JEPPESEN FLIGHT TRAINING

GFD PRIVATE PILOT MANUAL

Jeppesen's Guided Flight Discovery Private Pilot Manual is an integral component within the GFD Pilot Training System. The organization and colorful presentation of the text helps students learn quickly from the start. Discovery insets expand on important ideas and concepts in the text. The information ties in references from the world of aviation, including NTSB investigations and aviation history. Human Element insets introduce pilots to the human factors aspect of flight.

Private Pilot Manual... P/N 13-17521 ..... **$86.95**

PRIVATE PILOT MANEUVERS MANUAL

Each maneuver is presented using colorful graphics, step-by-step procedure descriptions, helpful hints, PTS references and study exercises to help you visualize and understand each maneuver you will perform in the airplane..... P/N 13-21770 ..... **$20.49**

PRIVATE PILOT SYLLABUS

Now spiral bound! Features a step-by-step description of course contents. Ideal for Part 141 flight training programs and may be adapted for Part 61 training. Includes: • Lesson objectives • Flight & ground time allocations for all lessons • Coordination of academic support materials with flight training • Enrollment notice & Graduation Certificate.

P/N 13-04223 ..... **$21.95**

PRIVATE PILOT RECORD FOLDER

From your ground lessons and written exams, to flight maneuvers and flight checks, this record folder effectively tracks all the details during your pilot training - both FAR Part 141 and FAR Part 61. Set of ten.

Single ..... P/N 13-01206-1 ..... **$6.95**

JEPPESEN RECORD FOLDERS

Effectively track all the details during your multi-engine training.

I/C Record Folder..... P/N 13-06245 ..... **$7.95**
Multi-Engine Record Folder..... P/N 13-06252 ..... **$7.50**

JEPPESEN PRIVATE PILOT AIRMAN CERTIFICATION STANDARDS

Private Pilot Airman Certification Standards is a product that replaces the Private Pilot Practical Test Standards. The changes to this product from the old PTS include: Content reflecting the revised format and layout of the FAA Airman Certification Standards.

P/N 13-19102.....**$8.85**

FLIGHT MANEUVERS ILLUSTRATOR

Excellent visual aids for instructors & students. Designed for pilots as a quick reference aid. Features private & commercial maneuvers. Size: 6"x 3.25".

P/N 13-01208 ..... **$9.70**

GFD INSTRUMENT/COMMERCIAL MANUAL

Jeppesen's Guided Flight Discovery Instrument/ Commercial Manual provides the most complete explanations of aeronautical concepts for professional pilots through the use of colorful illustrations and full-color photos. This primary source for initial study and review includes Principles of Instrument Flight, The Flight Environment, Instrument Charts and Procedures, Aviation Weather and IFR Flight operations and Commercial Pilot Operations, as well as an introductory look at Building Professional Experience. The most comprehensive and visually appealing Instrument/ Commercial manual ever.

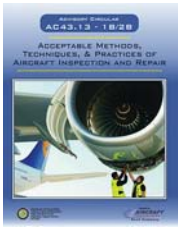
Instrument/Commercial Manual..... P/N 13-21760..... **$86.95**

GFD INSTRUMENT/ COMMERCIAL SYLLABUS PKG.

This training syllabus covers the learning objectives and time allocations for both Instrument Rating and Commercial Certificate. The syllabus also contains an option for a Multi-Engine Rating. In addition to the syllabus, this package also contains enrollment notices. P/N 13-21740..... **$21.95**

GFD PRIVATE/INSTRUMENT FLITESCHOOL SOFTWARE

FliteSchool Multimedia Software is a complete, interactive home study course for passing the FAA airman knowledge exams. FliteSchool Multimedia Software makes it easy, fast and fun to get a great score on your exam. You learn the material thoroughly and get the highest possible score on your exam while retaining what you learn. Only FliteSchool Multimedia software integrates the complete textual references to the GFD Private and Instrument/Commercial Manual, allowing you easy access to expanded information. Carefully selected graphics and computer animation are combined to help you understand difficult concepts. In addition, all FAA figures are contained on the CD-ROM for easy reference.



GFD Instrument FliteSchool .....P/N 13-100519 ..... **$79.95**

JEPPESEN PRACTICAL TEST STANDARDS

Knowing that the FAA computer exam is only art of the certification process, prepare yourself for the FAA checkride with Jeppesen Practical Test Standards. Jeppesen FAA Practical Test Standards reprints are valuable training aids for students, examiners & instructors. The following topics are available:

Private Pilot Airplane (single-engine land) P/N 13-01221.....**$7.95**
Private Pilot Airplane (multi-engine land)..... P/N 13-01222.....**$7.95**
Commercial Pilot Airplane (single-engine land).. P/N 13-01224.....**$7.95**
Commercial Pilot Airplane (multi-engine land).... P/N 13-01225.....**$7.95**
Instrument Rating (Airplane, Helicopter Airship). P/N 13-01223.....**$8.95**
Flight Instructor Package (single & multi-engine land, instrument) P/N 13-01226...**$19.95**

AC 4313 ACCEPTABLE METHODS

TECH BOOKS CO. - This is the newly revised 2009 edition of the AC43.13. Includes Parts 1B & 2B and the latest changes for each. The "bible" for AMTs, aircraft owners, and homebuilders, this FAA Advisory Circular outlines the standards for acceptable methods, techniques, and practices for the inspection, repair and alteration of non-pressurized areas of civil aircraft with a gross weight of 12,500 lbs or less. Includes both Part 1B and Part 2B.

P/N 13-06923 .....**$27.50**

FAA COMPUTER TESTING SUPPLEMENTS & AIRMEN KNOWLEDGE TEST QUESTIONS

Contains questions, answers, explanations, and references. Includes airplane and recreational pilot questions and is coordinated with Jeppesen Private Pilot Manual. Organized by topic, full-color charts, and unique sliding mask for self-testing. Instrument Rating and Flight Instructor

Commercial Pilot Airplane and Commercial Pilot Helicopter FAA Exam Package P/N 13-01227 .....**$18.50**
CFI and ground Instructor, CFII & MEI Pilot FAA Exam Package P/N 13-01229 .....**$53.75**

BV

JEPPESEN FLIGHT TRAINING

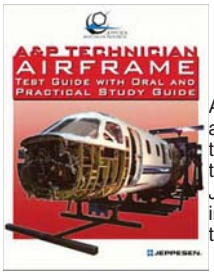
FLIGHT INSTRUCTOR PRACTICAL TEST STANDARDS

This reprint of the FAA Commercial Pilot PTS contains the standards for obtaining a commercial pilot certificate with an airplane single-engine land or airplane single-engine sea rating.

P/N 13-01226 .....**$19.95**

JEPPESEN A&P GENERAL TEST GUIDE WITH ORAL & PRATICAL STUDY GUIDE

All Jeppesen maintenance test guides include an extensive database of FAA subject test questions, answers, explanations and references that are cross referenced to the corresponding Jeppesen A&P textbooks. Each test guide also includes the latest oral and practical test questions and answers. 272 pages.



P/N 13-01188 .....**$15.75**

COMMERCIAL PILOT PRACTICAL TEST STANDARDS

This reprint of the FAA Commercial Pilot PTS contains the standard requirements for obtaining a commercial pilot certificate with an airplane single-engine land or airplane single-engine sea rating.

P/N 13-01224 .....**$9.50**

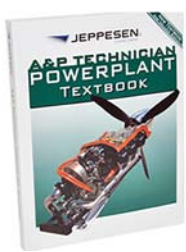
A&P AIRFRAME TEST GUIDE WITH ORAL & PRACTICAL STUDY GUIDE

All Jeppesen maintenance test guides include an extensive database of FAA subject test questions, answers, explanations and references that are cross referenced to the corresponding Jeppesen A&P textbooks. Each test guide also includes the latest oral and practical test questions and answers. 344 pages

P/N 13-03741 .....**$14.85**

JEPPESEN A&P TECHNICIAN AIRFRAME WORKBOOK

• Updated and revised content in all 17 chapters •Added a Glossary to the Textbook • Integrated the workbook into the textbook • A majority of the book is now in color • Added Summary Checklists to the end of each section or chapter • Added key terms to the end of each section or chapter



P/N 13-01192-1 .....**$59.90**

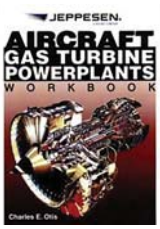
A&P POWERPLANT TEST GUIDE WITH ORAL & PRATICAL STUDY GUIDE

All Jeppesen maintenance test guides include an extensive database of FAA subject test questions, answers, explanations and references that are cross referenced to the corresponding Jeppesen A&P textbooks. Each test guide also includes the latest oral and practical test questions and answers. 344 pages.

P/N 13-01195 .....**$15.75**

JEPPESEN A&P TECH POWERPLANT TEXTBOOK

Enhance your knowledge with our comprehensive text that exceeds FAR part 147 standards. Color illustrations, charts and diagrams, end of section quizzes and summary checklists make tough concepts easier to grasp. 1130 pages.



P/N 13-07187 .....**$57.75**

FLIGHT INSTRUCTOR DELUXE 61/141 KIT

Jeppesen Flight Instructor Kits, developed for both FAR Part 61 and FAR Part 141 training programs, are the most complete flight instructor training package available. The Deluxe 61/141 Flight Instructor Kit is developed for FAR Part 141 training programs. It contains the following materials: Flight Instructor Manual, FAR/AIM Manual (paper), Private Pilot Maneuvers Manual, Flight Instructor Syllabus, Flight Instructor Record Folder, Flight Instructor PTS (single-, multi-engine land/sea, instrument), CFI, Ground Instructor, CFII and MEI FAA Exam Package, Aviation Instructor Handbook, and Pilot Kit Bag (black).

P/N 13-01176..... **$209.95**

JEPPESEN AIRCRAFT GAS TURBINE POWERPLANTS WORKBOOK

Aircraft Gas Turbine Powerplants Workbook is a companion to the Gas Turbine Powerplants Textbook containing questions, answers and explanations designed to increase your comprehension of the material covered in the textbook. The workbook is set up chapter by chapter to follow the sequence of material in the textbook with exercises and quizzes for personal or classroom use. 192 Pages.

E-Book Workbook P/N 13-05865 ..... **$19.95**

FAA EXAM STUDY GUIDES

These Exam Study Guides are designed to prepare for and achieve higher FAA written test scores. They follow the Jeppesen textbooks by chapter, allowing your students to learn faster with a greater understanding of each area of study. These guides include: full-color charts, unique sliding mask for self study, all FAA airplane test ques.; FAA computer test info, current info on airspace reclassification.

Private Pilot Airmen Knowledge.....P/N 13-17505 ..... **$18.49**
Instrument Rating Airmen Knowledge.....P/N 13-17510 ..... **$22.45**
Commercial Piloit Airmen Knowledge .....P/N 13-17515 ..... **$21.95**

JAA ATPL TEST PREPARATION SOFTWARE

Be well prepared for the exam with our new Test Preparation Software. The CD includes a user guide/installation guide and covers approximately 2,700 questions. Features: Variety of training modes, High-quality graphics, Topic search function, Statistics, Dynamic query generation, References to the JAR Codes and the Jeppesen/ AFT Manuals.

P/N 14-02826 .....**$133.95**

JEPPESEN A&P PRACTICAL TEST STANDARDS, GENERAL, AIRFRAME, AND POWERPLANT

The Jeppesen A&P Technician Practical Test Standards booklet includes all three of the latest FAA Aviation Mechanic PTS publications in one convenient booklet. General (FAA-S-8081-26) Airframe (FAA-S-8081-27) Powerplant (FAA-S-8081-28) changes 1,2, & 3.

JEPPESEN PILOT TRAINING KITS

PRIVATE PILOT KITS

Guided Flight Discovery from Jeppesen provides the most complete training package available. Whether you are a chief flight instructor at a flight school or a student pilot working towards your first pilot's license, you can choose from a variety of integrated training materials. GFD has been developed for the finest flight schools, colleges and universities in the U.S. With Guided Flight Discovery, students will build a solid foundation of knowledge to take with them wherever they go. The GFD Pilot Training System puts schools and students on the leading edge of learning and builds better pilots. Call for a detailed list of kit components.

Part 61 Kit (pictured) .....P/N 13-02425 ..... **$219.95**
Part 141 Kit.....P/N 13-02428 ..... **$253.95**

INSTRUMENT/COMMERCIAL KITS

New GFD Instrument/Commercial Kits are available for both Part 61 and Part 141 training. The core component of GFD Kit is the Instrument/Commercial Manual. Call for a detailed list of kit components.

Part No.	Kit Description	Price
13-02426	Instrument/Commercial Part 61 Basic Kit	$172.95
13-02431	Instrument/Commercial Part 141 Basic Kit	$290.95
13-01775	Ultimate Kit	$181.95

FLIGHT INSTRUCTOR KITS

GFD Flight Instructor Kits are available for both Part 61 and Part 141 training. The core component for each GFD Kit is the Flight Instructor Manual. Call for detailed list of kit components.

CFI Kit Part 61
P/N 13-01175 ..... **$181.95**
CFI Kit Part 141
P/N 13-01176 ..... **$209.95**

GFD FLIGHT INSTRUCTOR MANUAL - Prepares CFI applicants for Flight Instructor-Airplane certificate, Instrument-Airplane and multi-Engine-Airplane Instructor ratings. This 560-page, full-color text includes over 1,000 photos and illustrations. workbook exercises, instructor endorsements and a comprehensive glossary and index are included.
P/N 13-01178 ..... **$76.95**

HELICOPTER TRAINING KITS

Schweizer helicopter training program meets the requirements of FAR Part 141. Can be used in any helicopter training program. Covers principles of flight, the flight environment, helicopter systems and performance, meteorology, navigation, physiology and maneuvers.
The **deluxe kit** contains the Schweizer Helicopter textbook, Exercise Manual, Syllabus, Record Folder, Pre-solo written exam, FAR/AIM, Schweizer 300CB Information manual, graduation certificate, enrollment notice, a pilot's flight bag, a pilot's logbook, metal E6B flight computer, and a 13" plotter.
P/N 13-01880 ..... **$205.05**

MULTI-ENGINE PROGRAM - Covers multi-engine aerodynamics, systems & performance, engine-out operations and instrument flight through actual airborne and graphic sequences. Available with or without Jeppesen's Multi-Engine Manual. w/Manual
P/N 3195 ..... **$287.95**

GFD MULTI-ENGINE MANUAL - This text illustrates important aerodynamic concepts and complex systems using 375 full-color graphics. One of the strong points of the GFD series is that it maintains student interest through sometimes dry material by using sidebars to illuminate the text, presented as Discovery and Human Element insets. The Multi-Engine Manual builds on this practice with 2 new types of insets, one highlights flying careers and another that discusses in-flight situations that bring together critical points made in the text. Quotes also liven things up–the Multi-Engine Manual manages to take inspiration from sources as diverse as Anne Morrow Lindbergh & Monty Python.
P/N 13-01644 ..... **$62.95**

MULTI-ENGINE SYLLABUS- A 36-page guide to both ground & flight training for the Multi-Engine Rating. Describes schedules, lesson objectives, content and completion standards for 2 stages of flight training & 2 stages of ground training. Required for FAR Part 141 flight schools.
P/N 13-01173 ..... **$21.95**

AVIATION MAINTENANCE TRAINING KITS

Jeppesen's General Airframe & Powerplant training materials come in complete kit form. Comprehensive, developed by respected experts in the field, these kits give students the info they need to succeed in obtaining their Airframe and Powerplant license. Whether you're a veteran, building your own plane, or just learning, you can count on Jeppesen to help you get where you want to go. Jeppesen Maintenance products help you master the topic & realize success!

GENERAL A&P KIT INCLUDES - A&P Technician General textbook, workbook, and study guide • Acceptable methods, techniques and practices/aircraft alterations (AC43.13-1B/2A) •FAR handbook for aviation maintenance technicians • Student kit bag. P/N 13-01186 ..... **$158.00**

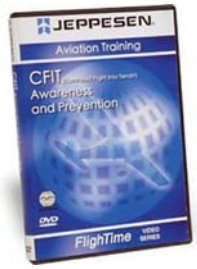
A&P TECHNICIAN GENERAL TEXTBOOK - The most current general aviation textbook available. Written to the new FAR part 147 standards. Expanded to include a complete section on electrical generators & motors, new hardware, and non-metalic components. Also includes current & comprehensive coverage on those items found in the previous version. Many new tables, charts and illustrations, including abrasives, corrosion removal & treatment, corrosion points, and helicopter weight & balance and others.
General Textbook.....P/N 13-01187 ..... **$56.95**
General Study Guide .....P/N 13-01188 ..... **$15.75**

AIRFRAME A&P KIT – Includes A&P Technician Airframe textbook, workbook & study guide and Student Kit bag. .....P/N 13-01190 ..... **$103.95**

POWERPLANT A&P KIT – Includes A&P Technician Powerplant textbook, workbook & study guide. Exam package & Student Kit bag.

P/N 13-01193.....**$99.00**

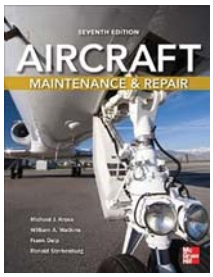
JEPPESEN A&P TECHNICIAN POWERPLANT STUDY GUIDE
This is a major revision of our previous version, and is the most comprehensive aviation powerplant textbook available. It is written to meet, and even exceed, FAR part 147 standards. Includes over 120 color illustrations of engine cross-sections, turbine and reciprocating, instruments and control systems. Subject matter is arranged in a logical, practical order, with more emphasis on 'hands on' learning. 550 pages.
Powerplant Study Guide .....P/N 13-01195 ..... **$15.75**



JEPPESEN FEDERAL AVIATION REGULATIONS EXPLAINED – AIRPORT EDITION

This book covers the regulations surrounding Airport operations, including disputes and resolution, complaints, certification of airports, Noise abatement, construction, passenger facility charges, and expenditure of federal funds. Page count: 568
P/N 13-06763 ..... **$35.80**

BV



JEPPESEN FLIGHT TRAINING

JEPPESEN CFIT - AWARENESS AND PREVENTION DVD

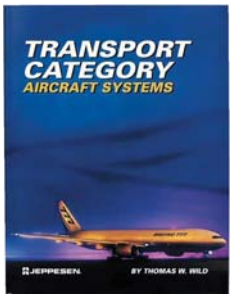
Become an expert on important aviation topics when you explore them in depth with CRM - Exploring the Human Element (DVD). This video analyzes three actual CFIT cases and explores the preventative measures and techniques that pilots of all levels of experience can use.

P/N 13-07841 .....**$14.85**

AIRCRAFT MAINTENANCE & REPAIR, 7TH EDITION

This in-depth guide provides all of the up-to-date information needed to perform return-to-service-quality aircraft maintenance and pass FAA Certification

Aircraft Maintenance and Repair, Seventh Edition is an essential resource for aviation maintenance students and professionals. It also serves as an exam guide for those preparing for the FAA Airframe and Powerplant certification.

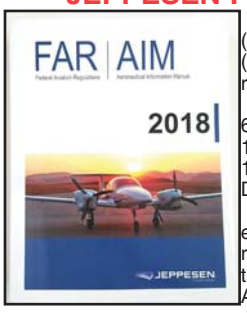


P/N 13-12722 .....**$89.95**

JEPPESEN AVIATION HISTORY INSTRUCTOR'S GUIDE CD

This CD guides professors and instructors through the process of conducting a course in Aviation History. Chapter outlines and helpful hints are provided on how to implement the class. Lessons on how historians work and how you can turn your students into "student historians" are included. The structure and relevance of the components of Aviation History are explained in detail. Answers to the study questions at the end of each chapter are also provided.

P/N 13-07644 .....**$34.00**



JEPPESEN TRANSPORT CATEGORY AIRCRAFT SYSTEMS

The only text available that covers FAR part 121 aircraft. A system-by-system approach to understanding jet transports. Necessary for A&P students and certified technicians looking for a comprehensive reference for large aircraft.

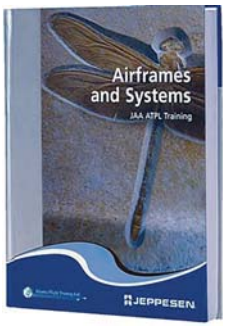
P/N 13-07658 .....**$60.95**

JEPPESEN FAR / AIM 2018 MANUAL

The 2017 Federal Aviation Regulations (FARs) and Aeronautical Information Manual (AIM) provides the most complete offering of regulations and information.

This book contains FAR Parts 1, 3, 43, 61, 67, 71, 73, 91, 97, 103, 105, 119, 135, 136, 137, 141, 142, NTSB 830, TSRs 1552 and 1562. Free TSR Part 1562 (Washington D.C. Operations) on Jeppesen.com

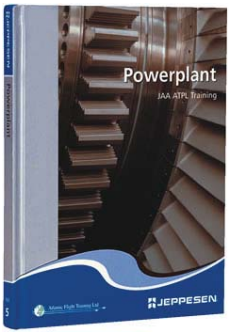
AIM and Pilot/Controller Glossary with enhanced full-color graphics. Easy-to-read text on high-quality paper. Reference tabs help you easily locate regulations and AIM chapters. Free update summaries on Jeppesen.com. Contains updates for FAR through July 2016 and AIM through December 2015



P/N 13-15450 .....**$12.95**

JEPPESEN GARMIN GNS 530/430 TRAINING BUNDLE - ADVANCED IFR & WAA

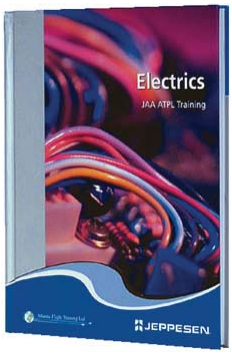
A bundle that includes both the Jeppesen Garmin GNS 530/430 Training - Advanced IFR Procedures CD and the Jeppesen Garmin GNS 530/430 Training - WAAS Procedures CD.



P/N 13-07779 .....**$224.95**

JEPPESEN AIRFRAMES AND SYSTEMS

Airframes and Systems provides a good grounding in the technical aspect of an aircraft's structure and systems, detailing, for examination purposes where required, the regulations that the student has to know and the methods by which these requirements are met. As with other subjects, there will always be areas that the student has studied that are not questioned in the exam. Learning this information is not effort wasted, as the information given within the volume provides the foundation knowledge on which the type rating course can be built.



P/N 13-07712 .....**$103.99**

JEPPESEN POWERPLANT

This volume gives the reader an insight into the construction, function, and operation of both piston and gas turbine engines. For examination purposes, the engines as described are to be considered 'generic', in reality each manufacturer will achieve the same objectives outlined in the text by different designs. Equip the reader with the knowledge to undertake with confidence an engine manufacturer's course or type rating course.

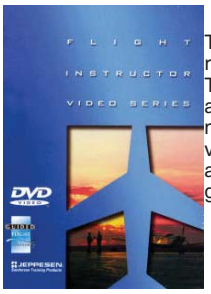
P/N 13-07713 .....**$75.80**

JEPPESEN ELECTRICS

These notes are written in an informative style which leads you from the most basic DC circuits to understanding and appreciating the concepts behind advanced aircraft electrical systems. On completion of study, you will have all the required information to pass this part of the Aircraft Systems and Powerplant examination.

P/N 13-07714 .....**$69.95**

JEPPESEN AIRFRAME HANDBOOKS



Airframe Volume 1 contains: Aircraft Structures, Aerodynamics, Aircraft Assembly and Rigging, Aircraft Fabric Covering, Aircraft Metal Structural Repair, Aircraft Welding, Aircraft Wood and Structural Repair, Advanced Composite Materials, Aircraft Painting and Finishing, Aircraft Electrical System Airframe Volume 2 contains: Aircraft Instrument Systems, Communication and Navigation, Hydraulic and Pneumatic Power Systems, Aircraft Landing Gear Systems, Aircraft Fuel System, Ice and Rain Protection, Cabin Environmental Control Systems, Fire Protection Systems Includes colored charts, tables, full-color illustrations and photographs throughout, and an extensive glossary and index

Volume #1 ..... P/N 13-11955 .....**$43.50**
Volume #2 ..... P/N 13-11956 .....**$39.85**

JEPPESEN INTRODUCTION TO NAVIGATION CHARTS

The chart training guide is published as a service for pilots training with Jeppesen charts. It is intended for reference only and includes some of the most commonly used symbolism. This guide is revised regularly; however some variance may exist between this guide and current chart services. These may be the result of one or more of the following; chart issuance dates, timely application of changes received from governing agencies, and/or the method of representing such information. The chart training guide has been designed as a supplementary training material and is not intended for navigation. P/N 13-06253 ..... **$5.00**

JEPPESEN MAINTENANCE TRAINING

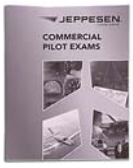
Standard Aviation Maintenance Handbook
E-Book ..... P/N 13-09944 ..... **$18.95**

ASA AVIATORS FIELD GUIDE TO MIDDLE ALTITUDE FLYING

In An Aviator's Field Guide to Middle-Altitude Flying, author Jason Blair shares his experience in a variety of piston, twin-engine aircraft commonly used to fly at altitudes between 10,000 and 25,000 feet MSL. This book covers the major phases of flight and the specific considerations for pilots who operate aircraft at these altitudes, including performance and fuel planning, emergencies, descent planning, navigation, weather, aircraft modifications, oxygen use, weight and balance, pilot qualifications, and insurance. With insight not found in other training manuals or part of typical flight training operations, and gained through his many years instructing and giving checkrides, Blair's book will help the pilot owner or operator evaluate the risks and challenges unique to middle-altitude flying, develop effective flight-planning practices, and take advantage of the increased efficiencies and opportunities offered through these higher operations.

P/N 13-21257 ..... **$9.50**

AIRCRAFT WEIGHT AND BALANCE HANDBOOK



This book explains in detail the process to determine the weight and balance of any aircraft. This edition, has been updated to include information on new Light Sport Aircraft (LSA) and Very Light Jet (VLJ) categories. Applicable to both airplanes and helicopters, this book is a primary reference for all FAA Knowledge Exams for both pilots and mechanics. Soft cover, glossary, indexed, full-color illustrations.

Book .....P/N 13-01059 ..... **$10.95**
Ebook .....P/N 13-05934 ..... **$7.95**

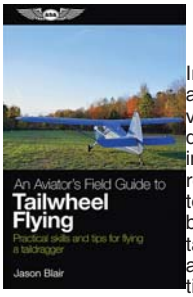
AIRPLANE MAINTENANCE & REPAIR

This unique resource covers aircraft maintenance program development and operations from a managerial as well as technical perspective. Readers will learn how to save money by minimizing aircraft downtime and slashing maintenance and repair costs. Plan and control maintenance . Coordinate activities of the various work centers. Establish an initial maintenance program. Develop a systems concept of maintenance. Identify and monitor maintenance problems and trends. .....P/N 13-07765 ..... **$109.95**

JEPPESEN COMMERCIAL PILOT EXAM BOOKLET

Prepare for the FAA Commercial Pilot written exam with the new Commercial Pilot Exam Package which includes the Commercial Pilot Stage Exams and the End of Course Exam with all figures and images embedded within the booklet. P/N 13-19592..... **$8.85**

JEPPESEN INSTRUMENT PILOT EXAM BOOKLET



The Instrument Rating Exam Package is a product that combines the Instrument Rating Question Bank, Instrument Rating Computer Test Supplement, and Instrument Rating Stage Exams into one single product.
P/N 13-19593 ..... **$17.85**

INSTRUMENT PILOT HANDBOOK

An IFR handbook with a new approach. 86 pages of essential information to conduct instrument flights while building a basic foundation of instrument skills necessary for safe IFR flights. Includes IFR maneuvers and procedures, ATC clearances, communications, checklists, attitude instrument flying techniques, IFR flight planning and instrument approach procedures. IFR training syllabus and checkride preparation are included. Useful charts and information aid in quick organization and understanding of essential IFR rules and regulations.

Book ..... P/N 13-12451 ..... **$16.95**
E-Book..... P/N 13-05863 ..... **$28.95**

ASA AVIATORS FIELD GUIDE TO TAILWHEEL FLYING

In An Aviator's Field Guide to Tailwheel Flying, author Jason Blair shares his experience in a variety of tailwheel-equipped aircraft. This book describes each of the major phases of flight and important considerations that will be useful for current or transitioning tailwheel pilots as they look to increase their proficiency. The discussion goes beyond physical flying skills into other aspects of tailwheels, such as operations in different makes and models or ages of aircraft, aircraft modifications, finding the right instructor, and challenges unique to tailwheels. Pilots of aircraft such as Cessna 180s, Cubs, Champs, Maules or other aircraft of similar type and size will find relevant and practical tips to improve their tailwheel flying. The result of many years taking notes previously passed on to his own students as an instructor, as well as serving as a designated pilot examiner for aircraft checkouts and checkrides, Blair's book compiles and shares this knowledge with the broader aviation community.

P/N 13-21258 ..... **$9.50**

BV

AVWX WORHSHOPS WHEN FORECASTS CLASH CD

This program is divided into three training modules. Each module will describe a separate case where the possibility of thunderstorms was questionable and resulted in a clash with other official and unofficial National Weather Service (NWS) guidance. For each case, we'll first identify the errant forecast(s) and then integrate other meaningful guidance into the analysis to show that the questionable forecast was truly unreasonable with respect to the development or lack of development of thunderstorms. Instrument rated or not, this program is designed to show the pilot how to recognize a bad convective forecast early in the process. P/N 13-08034 ..... **$29.95**

ESTIMATING CLOUD TOPS

This premium workshop includes the following eight (8) training modules: An overview - quantifying uncertainty, Pilot reports (PIREPs), Radiosonde observations (RAOBs), Forecast soundings and analyses, VAD Wind Profiles (VWPs), Color-enhanced infrared satellite images, Stratocumulus clouds.....P/N 13-09633 ..... **$49.00**

TERMINAL AERODROME FORECASTS CD

Learning to read a terminal aerodrome forecast, better known to pilots as TAFs, requires more than just deciphering an unfamiliar code. Pilots need to have an appreciation for its inherent limitations that are largely imposed by NWS directives and local forecast rules. Meteorologists consider terminal forecasts to be point forecasts. Consequently, the relatively small size of the terminal area strongly influences how a forecaster will construct or amend the TAF. Knowing how to properly incorporate these highly detailed forecasts into a preflight briefing requires the pilot learn how to look well beyond the coded text to read between the lines of a TAF. P/N 13-08035 ..... **$49.95**

SKYROAMERS PRIVATE PILOT FLIGHT TRAINING MANUAL

This manual is used by students training to be private or commercial pilots, and by commercial pilots training to be flight instructors. It does apply, however, to all airplane pilots, regardless of certification level. An addendum is included for technologically advanced airplanes (fiber composite construction). P/N 13-19765 ..... **2.95**

SKYROAMERS INSTRUMENT PILOT FLIGHT TRAINING MANUAL

This manual is used by students training to be instrument or ATP pilots, and by those training to be instrument flight instructors.An addendum is included for scanning a glass cockpit's primary flight display (PFD).
P/N 13-19766 ..... **$39.95**

NAVIGATION AND ADVANCED AVIONICS™

Learn traditional VOR navigation through advanced GPS and FMS advanced avionics.
This interactive course starts with essential VOR navigation. You'll learn all the traditional VOR methods, which are current and completely applicable to today's flying. From there, advance to use of an HSI and bearing pointers. P/N 13-19099 ..... **$127.75**

MASTERING STICK AND RUDDER FLYING

20 Focused Lessons To Improve Your Technique! Can YOU afford to have an accident? Statistically, as a GA pilot, you're headed in that direction. With that said, do you know WHY the GA accident rate is so high? Here's the answer: TOO MANY GA PILOTS LACK AIRMANSHIP AND STICK-AND-RUDDER SKILLS! Are YOUR stick and rudder skills good enough to keep YOU from having an accident?
P/N 13-19101 ..... **$127.75**

AVIATION WEATHER

Without a doubt, the best and clearest book on weather as it pertains to pilots that I have seen. Aviation Weather is designed to help the student of aviation understand ther atmosphere in which he or she operates. It also serves as a valuable reference source for pilots at all levels. Whether your connection to flying is as a new student, a certified pilot, controller, dispatcher, scientist, engineer, or an interested passenger, Aviation weather will help you understand the strong interdependence of aviation and meteorology through over 300 full color illustrations, a minimum of mathematics, and a maximum of practical information. P/N 13-19385 ..... **$70.95**

FAA A&P COMPLETE KIT

This FAA A&P Complete Kit is recommended for combining the most current, highest quality, and most economical material available from multiple publishers for a complete A&P curriculum. Items in this kit include the full 8083/ATB General, Airframe and Powerplant Handbook set, matching set of 3 Test Guides and Workbooks, along with the most current AC43.13 and FARs for AMTs. The kit is available with or without a pilot flight bag.
P/N 13-18761 ..... **$308.95**

FAA A&P GENERAL KIT

The 8083 series is the most up-to-date, A&P textbooks available anywhere. They are also the official FAA part 147 curiculla and the actual source of all FAA knowledge and practical exam questions. Besides that; FAA, working together with dozens of A&P instructors from Part 147 schools throughout the country just did a darn fine job in writing them. They are clearly written and full of exceptional charts, photos, and graphics to illustrate and explain every point. Then, each was extensively reviewed by instructors from over 50 schools. (ACtech books led that peer review for FAA)to insure completeness, accuracy, and understandability.
P/N 13-18762 ..... **$114.95**

FAA A&P AIRFRAME KIT

A typical Airframe kit as used in many Part 147 technical schools and colleges. Includes the 8083-ATB Airframe Textbooks volumes 1 and 2; plus the matching and referenced Airframe Test Guide and Workbook.
P/N 13-18763 ..... **$107.85**

FAA A&P POWERPLANT KIT

A typical Powerplant kit as used in many Part 147 technical schools and colleges. Includes the 8083-ATB Powerplant Textbook plus the matching and referenced Powerplant Test Guide and Workbook.
P/N 13-18764 ..... **$68.95**

ELECTRICAL / AVIONICS KIT FOR AIRCRAFT MAINTENANCE

Includes the best available titles on each of the specific subjects you will need to master. EASA B2 modules 3, 4, and 5 (Electrical Fundamentals, Electronic Fundamentals, Integrated Instrument Systems) written exactly to EASA B2 requirements and learning levels. Avionics Training; for a complete understanding of avionics systems from basic communication, to instrumentation, black boxes, installation and troubleshooting. Avionics Test Equipment; for a complete understanding of the bench and mobile equipment and metering devices you will be using every day. FCC Regulations; a study guide for your FCC GROL Element 1 exam. (Element 3 is well covered through Module 4 Electronic Fundamentals).
P/N 13-18765 ..... **$263.95**

FAA 8083 ATB AIRFRAME AND POWERPLANT MECHANICS SET

The 8083 series is the newest and most up-to-date, A&P textbooks available anywhere. They are also the official FAA part 147 curiculla and the actual source of all FAA knowledge and practical exam questions. Besides that; FAA, working together with dozens of A&P instructors from Part 147 schools throughout the country just did a darn fine job in writing them. They are clearly written and full of exceptional charts, photos, and graphics to illustrate and explain every point. Then, each was extensively reviewed by instructors from over 50 schools. (ACtech books led that peer review for FAA)to insure completeness, accuracy, and understandability.
P/N 13-18434 ..... **$149.95**

EASA B1.1 CURRICULUM KIT

This is the complete set of 13 modules required for B1.1 Airplane/Turbine certification at a discounted package price. For detailed descriptions of each module, click on the titles below, under the sample pages in "items included in this group". Modules Included: Module 01 - Math, Module 02 - Physics, Module 03 - Electrical Fundamentals, Module 04 - Electronic Fundamentals, Module 05 - Digital Instrument Systems, Module 06 - Materials and Hardware, Module 07 - Maintenance Practices, Module 08 - Aerodynamics for AMTs, Module 09 - Human Factors, Module 10 - Aviation Legislation, Module 11A - Turbine Aircraft Structures and Systems, Module 15 - Gas Turbine Engines, Module 17 - Propeller Systems.
P/N 13-18766 ..... **$500.00**

EASA PART 66 B-1.1 AIRPLANE TURBINE

This is the complete set of 13 modules required for B1.1 Airplane/Turbine certification at a discounted package price. For detailed descriptions of each module, click on the titles below, under the sample pages in "items included in this group"

CESSNA AIRCRAFT MANUALS

The handbook is designed: To help you operate your plane with safety and confidence. To more fully acquaint you with the basic performance and handling characteristics of the airplane. To more fully explain your plane's operation than is permissible to set forth in the airplane flight manual.

VISIT OUR WEBSITE AT WWW.AIRCRAFTSPRUCE.COM TO SEE THE MANUAL FOR YOUR CESSNA AIRCRAFT

PIPER AIRCRAFT MANUALS

The handbook is designed: To help you operate your plane with safety and confidence. To more fully acquaint you with the basic performance and handling characteristics of the airplane. To more fully explain your plane's operation than is permissible to set forth in the airplane flight manual.

VISIT OUR WEBSITE AT WWW.AIRCRAFTSPRUCE.COM TO SEE THE MANUAL FOR YOUR PIPER AIRCRAFT

MOONEY, GRUMMAN, DIAMOND STAR AIRCRAFT MANUALS ALSO AVAILABLE. SEE WWW.AIRCRAFTSPRUCE.COM

CESSNA TRAINING MANUAL

A detailed guide to the popular Cessna 206 aircraft. The book provides straight forward, easy to understand explanations of the aircraft, systems and flight operations including performance planning, with photographs, diagrams, schematics and checklists. The information has been compiled from engineering manuals, manufacturers handbooks, and the authors' personal in depth flight experience. The book is ideal for use when learning to fly on the C206 or during type transition training, and a experienced pilots will also find useful tips and information to improve their flight standards. The book is aimed at Cessna 206 pilots, however aviation enthusiasts, virtual pilots, and engineers will also enjoy the information provided.

ARCHIE TRAMMELLS RADAR TRAINING SYSTEMS COURSE MANUAL BOOK ON CD

A training manual on avoidance of convective storm hazards. A complete convective storms avoidance and airborne weather radar training course. The result of 35 years of intense research, including more than 4,000 hours of dedicated inflight research. For Convenience, it's in 21 easy Sections. Including: Archie's exclusive OBJECTIVE STORM HAZARDS INDEXING TEST & his copyrighted © Simple Three Step Method of TILT Management. This is the equivalent of a two semester college course. A self-teaching course designed for beginner through senior level pilots. All on one CD that will play on any computer. P/N 13-18592 .....**$69.00**

ARCHIE TRAMMELLS FLYING WITH THUNDERSTORMS BOOK ON CD

Accidents from NTSB reports are analyzed by Archie and he writes about what might have been done to prevent them. There are several sections of Q&A and a few short stories of what it was like as a young aviation mechanic years ago. There is some humor here and there to make this an educational, as well as an entertaining read. 3 - CD DISKS P/N 13-18591 .....**$39.00**

BV

MULTI-ENGINE FLYING

Multi-Engine Flying, by Paul Craig is a thorough and complete training manual on multi-engine flight covering multi-engine aerodynamics, normal and emergency procedures, multi-engine performance, and both simple and advanced aircraft systems. Advanced systems, including turboprop and operations common to high performance commercial aircraft are then discussed including high altitude operations, and modern glass cockpit systems.

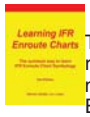
AERONAUTICAL CHART USER'S GUIDE



Have you ever wondered about the meaning of a certain chart feature or symbol? Go beyond the standard chart legends with this comprehensive guide! Using and understanding aeronautical charts is an essential skill for every pilot. This updated 10th Edition of the Aeronautical Chart User's Guide by the FAA AeroNav Products branch is the definitive learning aid, reference document, and introduction to the wealth of information provided on aeronautical charts and chart navigation publications. P/N 13-11595 .....**$7.95**

INSTRUMENT RATING CHECKRIDE REVIEWER

The combination of a book that has enough "tech" but is still usable was the motivation behind this manual. It's a book that not only gives you a detailed step-by-step plan for your instrument checkride, but also provides the tips and tricks of the IFR system that will keep you safe. ..... P/N 13-12019 .....**$19.95**

LEARNING IFR ENROUTE CHARTS

This 40 page guide is designed to be used as a teaching aid, reference document, and an introduction to the wealth of information provided on aeronautical charts. Included are IFR Chart Extracts to teach chart terms and symbols, and a comprehensive display of aeronautical charting symbols organized by chart type. It includes everything you need to know about charts for your checkride, even the most rarely used chart elements. Size: 8in x 10in - designed to be used on the ground. P/N 13-12020.....**$13.95**

SAFER APPROACHES - APPROACH RATE TABLE

Use the safest, airline-proven flying technique for non-precision approaches that minimizes aerodynamic surprises and virtually eliminates the possibility of Controlled Flight Into Terrain. Safer Approaches will teach you how to conduct Instrument Approach Procedures to a higher standard of safety and precision.

P/N 13-12021 .....**$9.95**

HOME STUDY FLIGHT INSTRUCTION

Useful at any level of experience, the Home Study Flight Instruction Program is excellent as a preflight instructional tool and as a refresher course. Compromising approximately two hours of professionally narrated, efficiently organized instruction, the course moves from an introduction, to the controls, to straight and level flight, through turns, climbs, takeoffs, emergency landings, approach producers & emergency procedures

CD.....P/N 13-02085 .....**$18.95**
Cassettes.....P/N 13-02086 .....**$18.95**

FAA HELICOPTER FLYING HANDBOOK

Compiled by the Federal Aviation Administration, this handbook is the ultimate technical manual for anyone who flies or wants to learn to fly a helicopter. If you're preparing for private, commercial, or flight instruction pilot certificates, it's more than essential reading—it's the best possible study guide available, and its information can be lifesaving. In authoritative and easy-to-understand language, here are explanations of general aerodynamics and the aerodynamics of flight, navigation, communication, flight controls, flight maneuvers, emergencies, and more. P/N 13-16420.....**$14.95**

COMPLETE REMOTE PILOT

This textbook is for anyone interested in pursuing and obtaining a Remote Pilot certificate, which is required in order to operate drones for commercial use. With a friendly and readable style, the authors cover all of the details involved in becoming a competent, responsible, and safe remote pilot, opening up tremendous opportunities for flying increasingly affordable and sophisticated small unmanned aircraft systems (sUAS).

Soft Cover....P/N 13-21131.....**$18.50**
e-Bundle .....P/N 13-21132.....**$25.55**

THE DRONERS MANUAL

The Droner's Manual compiles the most important and relevant knowledge into a guide for both beginner and experienced operators. With his expertise as a UAV operator for government, industry, and hobby uses, author Kevin Jenkins offers step-by-step guidance to build, program, test, and fly both multicopters and fixed-wing aircraft for a variety of purposes.

Soft Cover....P/N 13-21107.....**$14.55**
e-bundle.....P/N 13-21108.....**$21.80**

THE PRACTICAL AVIATOR PRIVATE PILOT

Section I relates to the first part of your oral exam. At that time, you will be asked to show the necessary certificates and documents required for flight, and show that the airplane is airworthy. Each part of this section has a detailed checklist, with a brief description of what is required. Section II is where you will compile all of the information you need to prepare for your cross-country checkride. You will be able to use this section to record the training lessons so that you will have examples to reference when preparing for your oral exam. Section III deals with aircraft systems and aeromedical information. This information will be compiled from the Pilot's Operating Handbook and the Pilot's Handbook of Aeronautical Knowledge and placed here for easy reference.

P/N 13-12706.....**$49.95**

THE PRACTICAL AVIATOR INSTRUMENT RATING

Section I relates to the first part of your oral exam, during which you will be asked to show the necessary certificates and qualifications for instrument flight. Section I is also where you will compile all of the information you need to prepare for your cross-country Instrument Flight Rules (IFR) checkride. Section II deals with systems related to IFR operations. Worksheets are provided to record notes related to each system and instrument. Section III is where you will compile all of the necessary documents required for flight to show that the airplane is airworthy.

P/N 13-12707.....**$49.95**

THE PRACTICAL AVIATOR COMMERCIAL PILOT

Section I relates to the first part of your oral exam. At that time, you will be asked to show the necessary certificates and documents required for flight, and show that the airplane is airworthy. Section II is where you will compile all of the information you need to prepare for your cross-country checkride. You will be able to use this section to record the training lessons so that you will have examples to reference when preparing for your oral exam. Section III deals with aircraft systems and aeromedical information. This information will be compiled from the Pilot's Operating Handbook and the Pilot's Handbook of Aeronautical Knowledge and placed here for easy reference. P/N 13-12708.....**$49.95**

THE HELICOPTER PILOT'S HANDBOOK

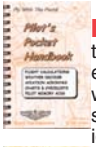
This book is an attempt to correct the above situations by gathering together as much information as possible for helicopter pilots, old and new, professional and otherwise, in an attempt to explain the why, so the how will become easier (you will be so much more useful if you know what the customer is trying to achieve). In short, this is all the stuff nobody taught me - every tip and trick I have learnt has been included.

P/N 13-16526.....**$39.95**

PROFLIGHT PRE SOLO WRITTEN EXAM

This exam contains a total of 50 questions: 20 general questions, 10 regarding your training aircraft, and 20 regarding your local flight environment. Use of reference materials during this exam such as your training aircraft's Operator's Manual and local aeronautical charts is permitted.

P/N 13-10441.....**$4.95**



BIENNIAL FLIGHT REVIEW - Complete BFR in one small package! This is by far the most consise and well organized flight review book on the market. It is full of checklists and handy procedures as well. Targeted for the aviator who wants to brush up on the rules and regs and get up in the air and have some fun! P/N 13-05739 ..... **$9.95**

INSTRUMENT FLIGHT REVIEW - A new shortcut to IFR Review! You can't beat this. This is the most incredible organization of IFR rules, regulations, tips and information avialable. Includes fully illustrated flight maneuvers and procedures, clearances, approaches, flight planning and more!

P/N 13-05740 ..... **$8.95**

PILOT'S POCKET HANDBOOK - The next best thing to having that brain chip implant! An extremely usefull collection of everyday aviation facts, figures and neat stuff! Includes a world time chart, aircraft country codes, math and conversions, standard and emergency checklist, abbreviations, ... get the idea? P/N 13-05741 ..... **$9.95**

PILOT'S RULES OF THUMB - Don't fly by the seat of your pants, use your Thumbs! Here is the only book of it's kind. This collection of helpful rules and tips is useful to barnstormer and jet fighter pilot alike. P/N 13-05742 ..... **$9.95**

PILOT TRAINING COURSES

PILOT'S RADIO COMMUNICATION GUIDE

This 70-page review guide is designed as a quick reference guide or radio communications training self study guide. This covers VFR & IFR radio communications. Build your confidence by knowing what to say and when. Designed to fit in your flight bag, size: 6in x 9in.

P/N 13-12022 ..... **$14.95**

GETTING THE MOST OUT OF YOUR FLIGHT TRAINING

This 170-page book is the essential guide to becoming a better pilot, paying the least, getting the most, and finishing as quickly as possible. Includes sections on Becoming a Better Pilot, Ground & Flight Instruction Tips, and Earning Certificates & Ratings. Size 6in x 9in. P/N 13-12023 ..... **$13.95**

AVIATION ACRONYMS, CONTRACTIONS, AND MNEMONICS

A complete pilot resource for aviation acronyms and contractions for every sector of aviation. Written by a pilot for pilots, this book provides instant answers to weather reports with confusing codes and aviation material with undefined acronyms. This book has been in constant publication since 2004 and is frequently updated. For free lifetime updates, register your book (instructions included). 90 pages. Size 5" x 8".

P/N 13-12024 ..... **$11.95**

VISI-HOLD™ - KNOW INSTANTLY

Holding patterns baffle most pilots. I see a lot of students holding up three fingers to the DG and mumbling nonsense to themselves. In order to end the confusion, use the Visi-Hold™, the easiest way to figure out your holding entry. Works with standard holds and non-standard holds (left turns). The Visi-Hold™ package comes complete with Visi-Hold template, directions, and two articles on holds: All About Holding and Holding Simplified. ..... P/N 13-12026 ..... **$9.95**

PILOT'S RULE OF THUMB - ULTIMATE VFR / IFR CHECKLIST

The ultimate checklist that every pilot needs. Ten years in development, this is a product that pilots of all levels of experience can immediately use. This tool covers 30 normal and non-normal situations and has 9 special tools that you'll use on every flight. This high-quality plastic ruler/checklist measures approximately 3.75" x 9". ..... P/N 13-12027 ..... **$3.95**

VISI-PLOTTER™ FLIGHT PLANNING PLOTTER

This is the only VFR plotter invented by a CFI for pilots. It includes innovative features that provides temperature conversion, flight planning scratch pad area, and a no-mistakes course protractor that even beginners won't be confused by. It provides scales for sectional & WAC charts, and it even has inches & MM measurements.

P/N 13-12028 ..... **$14.85**

GUARANTEED PASS - HELICOPTER FLASH CARDS

This package includes 240 easy to read, soft yellow cards -- not flimsy paper -- which will help you pass your FAA written and oral (checkride) helicopter exams. Card size approximately: 4.25" x 2.75" - a stack of cards approximately 2in high.

P/N 13-12029 ..... **$24.85**

PRACTICAL TEST STANDARDS: SPORT PILOT

FAA S 8081-29 & 8081-31 combined combined airplane, weight shift, powered parachute, and flight instructor.

Sport Pilot Practical Test Standards for Airplane, Weight-Shift Control, Powered Parachute and Flight Instructor. The FAA Practical Test Standards are used by instructors, students, and examiners to prepare for, review, take, or issue the checkride. Each PTS is written by the FAA and details the type and levels of skill and knowledge that must be demonstrated before an examiner can issue a certificate or rating to an applicant, and describes background study and reference materials.

This PTS includes both the FAA-S-8081-29 for Airplane and FAA-S-8081-31 for Weight-Shift Control and Powered Parachute (effective December 2004), applicable to both Sport Pilots and Sport Instructors. Includes Change 1 (effective June 2006) and Change 2 (effective February 2008).

PRIVATE PILOT FLIGHT MANEUVERS

The purpose of this manual is to help in the explanation, visualization and execution of the flight maneuvers required for the Private Pilot Practical Flight Test. Students preparing for their oral and flight test will find this manual helpful. Any pilot preparing for a Biennial Flight Review (BFR), can use this manual as a refresher on maneuvers that you may not have executed in quite some time. Flight Instructor applicants and Certified Flight Instructors will find this manual a beneficial teaching aid.

The manual breaks down each maneuver required on the Private Practical Test in six parts: FAA objective for the maneuver. FAA completion standards. General description of the maneuver. Detailed step by step textual description on how to execute the maneuver as recommended by the FAA. References to FAA publications where the information was compiled from. Detailed graphic profiles summarizing the procedure in a visual format. Also included are airspeeds, pitch attitudes, bank angles, power settings and configurations for a Cessna 172P plus room to add the same information for up to three additional aircraft.

Description	Part No.	Price

Accelerated Aviation Training, was founded in 1986 to help Canada's pilots at all levels of licences and ratings prepare for their written exams with our accelerated exam prep seminars held at our YVR airport pilot training centre. We have been continously publishing Culhane training manuals and supplying Canada's aviation training industry with our aviation texts and exam guides since 1988.

Culhane aviation training books are currently used nationwide by aviation students at most flying schools and clubs in Canada, and at Canadian aviation colleges and universities, for ground school and flight training courses and seminars for the Private Pilot Licence, Recreational Pilot Permit, Night Rating, Commercial Pilot Licence, Integrated Commercial Pilot Licence, Instrument Rating, Flight Instructor Rating, IATRA Type Rating, Airline Transport Licence - Aeroplane, Private Pilot Licence - Helicopter, Commerical Pilot Licence - Helicopter, Instrument Rating - Helicopter, and Airline Transport Licence - Helicopter. Our ownership of Culhane manuals has permitted us to become the leading Canadian publishers of aviation self study training courses and referenced simulated exams, for both fixed wing and rotary wing pilots. We also offer training products and courses for Canadian Aircraft Maintenance Engineers and Flight Dispatchers.

THE PILOTS HANDBOOK OF AERONAUTICAL KNOWLEDGE

Thoroughly revised, this new fifth edition has the most complete step-by-step, call-by-call, radio communications chapter available to today's aviation student covering a long-distance flight from start to finish. Updated FAA mandated standards of policies and procedures. Additional photos and drawings A more streamlined design Complete flight planning strategies for long-distance flights. Published by McGraw-Hill

P/N 13-12963.....**$59.95**

BURT RUTAN'S RACE TO SPACE

Showcases Rutan's herculean efforts to do just that. Smithsonian's Air and Space Museum displays his most celebrated achievements, including SpaceShipOne, which won the coveted $10 million Ansari X Prize for private spaceflight; Voyager, which hangs with SpaceShipOne in the Milestones of Flight gallery; the Virgin Atlantic GlobalFlyer; and the VariEze. . Rutan's X Prize triumph and subsequent spacecraft designs are not a beginning, nor an end, but are steps in Burt Rutan's continuing adventure to expand humanity's presence beyond the Earth and into space. P/N 13-11195.....**$29.95**

PROPELLERS AND PROPELLER SYSTEMS

From fixed pitch wood through state of the art full feathering, reversing, FADEC controlled metal and composite systems. All systems are covered including various types of pitch control, synchronization, ice control, vibration and resonance, maintenance and testing procedures and preservation and storage techniques.

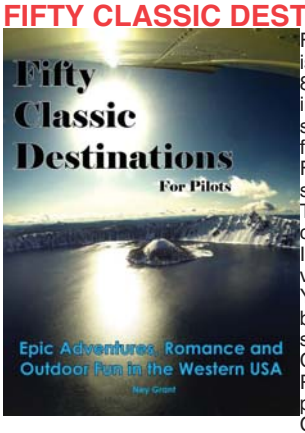
PILOT GUIDES & BOOKS

PILOT GUIDE NYLON CASES



Here's the perfect way to keep all your important flying aids together in one place: charts, plotter, pens, pencils, notes, and of course - Pilots Guide protected in a durable nylon binder with a zipper closure all the way around. A handy pull strap makes it easy to grasp the zipper. Colored pull-straps are available to help identiy which Pilots Guide is inside: blue for California, green for Northwest or orange for Southwest. Attractive and durable ballistic nylon cover. A rugged 7-ring metal holds pages tight and prevents hole tear-outs. Note: Pilot Guides not included. Case Only.

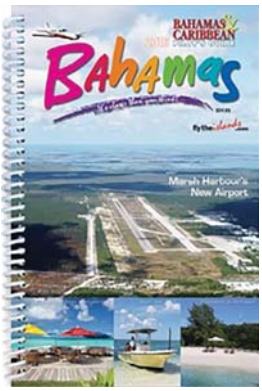
FIFTY CLASSIC DESTINATIONS FOR PILOTS



Fifty Classic Destinations for Pilots is 190 full-color pages in a large 8.5 x 11 inch format. It is full of inspiring adventures and stories with superb photography in an ideal size for your coffee table or bookshelf. Frequencies, charts and a compact size for the cockpit? Not so much. The adventures begin with forever-classics such as flying to Catalina Island, a romantic stay in Sedona or visiting Yosemite, Zion, Glacier and Yellowstone National Parks. The book then adds new-classics such as swimming down a slot canyon in Fry Canyon Utah, hiking to the Colorado River from Cliff Dweller's airstrip or a photography expedition to Mono Lake California.

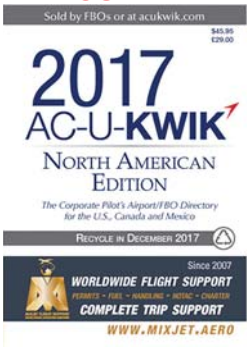
FLASHCARDS FOR R22 HELICOPTER

Flashcards with nearly 400 questions and answers to actively engage students and advanced pilots training in the Robinson R22 helicopter. ASA's new R22 Helicopter Flashcards Study Guide is a must have for any pilot in command of the R22 Robinson Helicopter. Designed to facilitate memorization and deepen understanding of safe and effective helicopter operations, these flashcards help both civilian and military pilots master the aircraft. They're not only useful to pilots preparing for their checkride, but also instructors looking for a thorough review to ensure currency and increase safety. P/N 13-18466 .....**$16.65**

BAHAMAS AND CARIBBEAN PILOT'S GUIDES - A Bahamas Pilot's Guide for the Islands of the Bahamas, and a Caribbean Pilot's Guide for the Islands of the Caribbean. As always, both books include the updated airport data and information pilots have been relying on for 35 years. The spiral binding allows the Guide to be folded back on itself, a nice feature in the cockpit. The tabs are printed on every page, making the Guide more compact. The change to printed tabs makes it easier than ever to find the island or country you're looking for.



The Bahamas Pilot's Guide covers all the Islands of the Bahamas and only the Bahamas. The Caribbean Pilot's Guide covers all the Islands of the Caribbean: the Turks & Caicos, Hispaniola (Dominican Republic, Haiti) and Cuba, the Western Caribbean (Cayman Islands, Jamaica, The Yucatan, Belize and Honduras), Puerto Rico and the Virgin Islands, the Eastern Caribbean from Anguilla through the ABC Islands (Aruba, Bonaire and Curaçao).

ASA

SPORT PILOT: CHOOSING THE LIGHT-SPORT AIRCRAFT THAT'S RIGHT FOR YOU - This DVD production and booklet compare the LSA types as well as their ultralight cousins to help pilots make a truly informed decision on which light-sport aircraft is right for them. It explains what ultralights and LSA are, provides parameters to evaluate the viewer's situation and factors to consider (including cost, athletic ability, previous aviation experience, time to learn, transportation, storage, and airfield options), and provides an overview and introduction to each of the light-sport aircraft types. Includes beautiful full-color booklet with aircraft photo and comparison tables. Total running time 00:41:00.....P/N 13-03467 ..... **$5.75**

PRACTICAL TEST STANDARDS: SPORT PILOT - This is ASA's Sport Pilot Practical Test Standards for Airplane, Weight-Shift Control, Powered Parachute and Flight Instructor. The FAA Practical Test Standards are used by instructors, students, and examiners to prepare for, review, take, or issue the checkride. Includes both the FAA-S-8081-29 for Airplane and FAA-S-8081-31 for Weight-Shift Control and Powered Parachute (effective December 2004), applicable to both Sport Pilots and Sport Instructors. 296 pages.

P/N 13-05855.....**$7.50**

SPORT PILOT DVDS FROM ASA - Two new DVDs by sport pilot expert Paul Hamilton are available that explore the flying of light sport aircraft. Preflight a Fixed-Wing Light-Sport Aircraft for Sport Pilots takes pilots through the preflight inspection of a light sport aircraft (LSA). Be a Sport Pilot: Learning to Fly a Fixed-Wing Light-Sport Aircraft takes the lessons a step further by introducing the pilot to what it takes to obtain a sport pilot certificate. Hamilton and instructor Jeff Reynolds discuss pilot training, from first flight to solo to sign-off. The two DVDs are available separately or in a kit that also includes Weather to Fly for Sport Pilots and the Sport Pilot Logbook Preflight Fixed Wing DVD..... P/N 13-04192 ..... **$34.50**

WEATHER TO FLY FOR SPORT PILOTS WITH PAUL HAMILTON - Sport pilots fly lower and slower than General Aviation pilots. As a result, weather plays a critical factor in flying. The straightforward and beautiful presentation features time-lapsed cinematography of cloud formations, in-air footage, and animations. This DVD simplifies complex weather concepts as well as illustrates consequences of pilot judgment, in a 5-step system specific to Sport Pilots and light-sport aircraft operations. Pilots will learn to forecast local conditions, interpret weather information accurately, make better dec sions about "whether to fly", and learn to recognize trends. Includes booklet with worksheets for an interactive learning experience. Companion product to ASA's Sport Pilot Logbook (ASA-F2F-LOG). Total running time 01:20:12.. P/N 13-03468 ..... **$42.95**

ASA ROTAX 912 ENGINE INTRODUCTION

This DVD by Paul Hamilton introduces the use and maintenance on Light-Sport Aircraft (LSA) of the ROTAX 912 engine. Many engine problems seen in the field are preventable with proper operation and maintenance and the 912 is no exception. This DVD is particularly useful to maintenance professionals, pilots and flight instructors operating ROTAX-powered Light Sport Aircraft. Answers frequently asked questions based on years of operational and maintenance experience and outlines typical procedures every owner, operator and mechanic should know. This DVD is the only one of its kind in the rapidly growing LSA market, and it caters to the do-it-yourself experience of flying this category of aircraft

P/N 13-04747..... **$23.50**

PRACTICAL IFR FLYING DVD

COMPUTER CD-ROM COURSE WITH AUDIO PRACTICAL IFR FLYING - Enhance your performance, reduce your workload, and increase your level of safety when flying single pilot IFR! This CD-ROM provides a full hour of information on methods and techniques to make Single Pilot IFR flying simpler, easier, less stressful, and safer! Find out helpful things your instructor never taught you! Learn how using current technology can reduce your risk in IFR flight! T The author, Chuck McGill, is the 2009 FAA CFI of the Year, Western Pacific Region, and has taught for the AOPA Air Safety Foundation, the Cessna Pilots Association, and the Mooney Aircraft Pilots Association Safety Foundation. Learn tips and techniques from a Master CFI who has over 11,000 flight hours in more than 85 different makes and models of general aviation aircraft!

SPORT PILOT FAA KNOWLEDGE TEST PREP SOFTWARE -

P/N 13-03448 ..... **$51.75**

GLEIM SPORT PILOT TRAINING RECORDS - The Pilot Training Record is a step-by-step lesson plan for your pilot training. Each lesson contains all of the required tasks for the lesson. Complies with both 14 CFR Part 61 and Part 141 training requirements.

P/N 13-07775 ..... **$9.50**

SPORT PILOT KIT - Gleim's Sport Pilot Kit is designed to help expedite training for the sport pilot certificate. Contains everything you need (except airplane and instructor) Offers an all-in-one package at an affordable price. Save money by purchasing all required materials together.

P/N 13-03449..... **$98.75**

SPORT PILOT AIRPLANE GUIDE

Sport Pilot Airplane: A Complete Guide provides an in-depth understanding of light-sport aviation complexities. Clarifies points commonly misunderstood, provides a wealth of information on subject such as Selecting an Aircraft, Pilot and Aircraft Certification, Weather, Flight Principles, and more. Includes 256 pages with illustrations, photos, or graphs on nearly every page. The material presents the experience of thousands of flight hours and contains valuable lessons for all pilots and would-be pilots..... P/N 13-03798 ...**$24.95**

SPORT PILOT ENCYCLOPEDIA

Can be used three ways: 1) SP Prep = full immersion rapid prep for the written, 2) SP Encyclopedia = thorough review of relevant FAA publications essential to both the written and the oral exams, and/or 3) both as entertaining and informative leisure reading. The narrative is laced with humor, personal anecdotes, and frank sometimes blunt language that keeps the reader alert and involved while feeling secure and comfortable as if in the company of an experienced friend and mentor. Actual NTSB accident reports are woven into the discussion.

P/N13-03706.....**$9.95**

GLEIM FLIGHT / GROUND INSTRUCTOR + FOI KIT

The Gleim Flight/Ground Instructor + FOI Kit is an all-in-one training program designed to expedite training for the Flight/Ground Instructor rating. This kit contains everything you need (except airplane and instructor!) to become a Certified Flight Instructor and/or Ground Instructor.

P/N 13-11670.....**$169.95**

BV

AIRFRAME TOPICS

Airframe Topic	Part No.	Price
Aircraft Corrosion Control Parts 1 & 2 Indentification, treatment, and prevention of 8 types of corrosion and a corrosion control program	13-03871	$27.95
Non-Destructive Inspection - An introduction to NDT, six processes discussed and demonstrated	13-03872	$27.95
Aircraft Wheels and Brakes - Introduction to large aircraft wheels and brake systems, plus FAA approval process	13-03873	$28.50
Advanced Composites - Characteristics and use of advanced materials such as kevlar, carbon fiber, graphites, boron, etc.	13-03874	$21.50
Fiberglass 101 - Basic layups and molded fairings demonstrated on an experimental RV-4 aircraft	13-03875	$32.50
Composite Structure Awareness - By Boeing - handling procedures of composite aircraft parts, damage scenarios, damage tolerance	13-03876	$21.50
Eyes of Flight - Plexiglass - 1950's training film, but still good info on the repair and maintenance of canopies and windscreens	13-03877	$24.75
Repairing Structural Tubing - 1950's training film, bending, splicing, and welding to repair fuselage damage	13-03878	$21.95
Aircraft Painting 101 - Painting techniques on metal and fiberglass - emphasis on prep work and paint booth construction. VHS ONLY	13-06567	$24.95
Aviation Grease - By Shell Oil - how grease works, different greases for different applications, handling of greases	13-03879	$17.95
Damage Tolerance - How aircraft structures are built to withstand aging, and how sloppy maintenance degrades that ability	13-03880	$21.50
Inspection of Ultralights - Demonstration on extensive pre-flight inspection of a Quicksilver ultralight	13-03881	$21.50

POWERPLANT TOPICS

Powerplant Topic	P/N	Price
The Annual Inspection - Powerplant Detailed demonstration of a annual/100 hour inspection of a Lycoming engine and accessories	13-03883	$24.95
Care and Lubrication of Engines - By Shell Oil - installation, break-in, maintenance, and operation of newly overhauled engines	13-03884	$18.95
Aviation Oil - By Shell Oil - what oil does, and steps to increase life and performance of aircraft engines	13-03885	$18.75
Propeller Repair - A look at the inspection and overhaul process for Hertzell propellers	13-03886	$19.95

ASSORTED TOPICS

Assorted Topic	P/N	Price
Critical Operations - By Boeing - impresses upon a student the importance of even the most routine tasks	13-03887	$21.50
747/777 Put Together - By Boeing - 2 fast motion films showing the assembly process of a Boeing 747 and 777. 13 min.	13-03888	$19.85
Saving on an Annual Inspection - Owner permitted inspection and maintenance procedures described on GA aircraft plus safety wire techniques	13-03889	$18.95
Preventative Maintenance - Maintenance and preventative maintenance tasks an owner may do on their own aircraft	13-03890	$17.95
FAA Certified Repair Stations Regulations, standards, and procedures for obtaining Certified repair station status	13-03891	$24.95
Flight Line Service - A job training presentation for newly hired flight line personnel	13-03892	$24.95
Icing for Pilots - By NASA Research Center, types of icing plus techniques for avoiding and or dealing with ice	13-03893	$24.95

GLEIM TEST BOOKS

These text books by Irvin Gleim have helped thousands of pilots pass their private, instrument, commercial, multi-engine and seaplane ratings. Excellent guides to help you pass that written exam.

GHOSTS 2018 CALENDARS

P/N 13-01318

Renowned aviation photographer Philip Makanna has captured the essence of this era in his GHOSTS of The Great War and A Time Remembered, a large-format calendar that features his stunning, air-to-air, color photographs. In this edition, his images depict the beginnings of military aviation. The calendar continues through to the advanced aircraft that appeared at the war's end. Stunning images and an evocative day-by-day history of the aviation (and related) events of the period combine to describe the beauty, the romance and the tragedy of military aviation's early days.

P/N 13-06012

Ghosts WWII- A time rememered.....P/N 13-01318 .....**$12.75**
Ghosts WWI - The Great War .....P/N 13-06012 .....**$12.75**

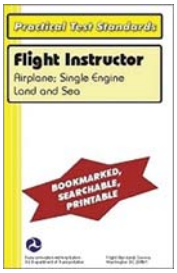
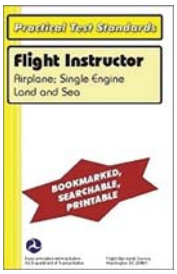
Instrument Pilot T-Ref 2..... P/N 13-12741.....**$13.95**
Weather T-Ref ..... P/N 13-12744.....**$13.95**
T-Ref Complete Package ..... P/N 13-12745.....**$49.85**

Practical Test Standards are a guide for students, instructors, and FAA-designated examiners to know what is expected of pilots in a checkride. Every PTS is written by the FAA and details the type and levels of skill and knowledge that must be demonstrated before an examiner can issue a certificate or rating to an applicant, and describes background study and reference materials.



PTS PRIVATE PILOT TEST PREP COURSE

We're proud to offer the FAA Private Pilot written exam in a DVD format for PC. The course contains the material, the question bank and the FAA testing supplement for the appropriate test – and we'll sign you off to take the exam once you have a good handle on all of the information at no additional cost. Just a few evenings is all it can take to get the education you need to pass the FAA knowledge test with Flying Colors.



P/N 17-00327 .....**$69.95**

PTS: FLIGHT INSTRUCTOR AIRPLANE SINGLE ENGINE

Newly revised FAA 8081 6C with Changes 1, 2, 3, 4 and 5 - Practical Test Standards for Flight Instructor - Airplane, single engine land and seaplane. Practical Test Standards are a guide for students, instructors, and FAA-designated examiners to know what is expected of pilots in a checkride. Every PTS is written by the FAA and details the type and levels of skill and knowledge that must be demonstrated before an examiner can issue a certificate or rating to an applicant, and describes background study and reference materials.....P/N 13-10243 .....**$5.75**
Ebook .....P/N 13-10242 .....**$4.95**

PTS: FLIGHT INSTRUCTOR AIRPLANE MULTI-ENGINE

FAA 8081 6CM - Practical Test Standards for Flight Instructor for airplane multi-engine land and sea. Practical Test Standards are a guide for students, instructors, and FAA-designated examiners to know what is expected of pilots in a checkride. Every PTS is written by the FAA and details the type and levels of skill and knowledge that must be demonstrated before an examiner can issue a certificate or rating to an applicant, and describes background study and reference materials.... ASA PROFICIENT PILOT GIFT SET

A compilation of Barry Schiff's popular monthly column in AOPA Pilot magazine, these books contain favorite articles from over the years, arranged by subject. These articles are pulled from his more than 26,000 flight hours in 260 types of aircraft, for a set of books filled with Schiff's vast knowledge and experience as an aviator and flight instructor.

The Proficient Pilot set delivers a wealth of information, a plethora of aviation stories, and tips of the trade from one of the industry's favorite pilot-writers, all together in a handsome gift box. Each book in the series is softcover, illustrated, and includes a comprehensive index.

Volume 1 ..... P/N 13-23100.....**$13.50**
Volume 2 ..... P/N 13-01443.....**$13.50**
Volume 3 ..... P/N 13-01444.....**$14.50**
Gift Set (3 volumes)..... P/N 11-08794.....**$37.90**

BV

AIRCRAFT CONSTRUCTION DVDS

AN INTRODUCTION TO ALUMINUM WORK

5 DVD Set Includes:
-Shaping Aluminum Wheel Pants
-Shrinking Magic
-Basic Damage Repair on the Aluminum Body
-Sheet Metal Repairs to the P38 Lightning
-Metal Aircraft Construction Methods
These 5 DVDs cover hand tools, measuring, cutting, forming, form blocks, riveting, patterns, bucks, shrinking, stretching, and some gas welding on the aluminum, too.

P/N 13-13055 ..... **$279.30**

METAL AIRCRAFT CONSTRUCTION METHODS

This fascinating look inside the airplane factories shows just how we produced over 330,000 aircraft in 4 1/2 years. Patterns, blanking, forming, and assembly are shown, of course, but so also are pressformers, drop hammers, metal spinning, and power hammers. And then watch the complicated assembly process of the P-39 Airacobra!

P/N 13-13049 ..... **$87.75**

AIRCRAFT STRUCTURAL TUBING

3 DVD Set Includes: -4130 Chromemoly Airframe Construction (2 DVD set) -Repairing Structural Tubing. The 4130 DVD: Three EAA Technical Counselors (over 60 years' total experience) show you the procedures necessary to construct a complete airframe from plans.

P/N 13-13051 ..... **$98.90**

REPAIRING STRUCTURAL TUBING

This class teaches measuring, geometry, straightening, cutting fishmouths, fitting, splicing, and welding to repair some fuselage damage. A fine companion to our full-length 2-DVD series, 4130 Chromemoly Airframe Construction.

P/N 13-13044 ..... **$55.95**

AUTOBODY STEEL PATCH PANELS

No machinery here--just common hand tools and a welder (torch or electric). The first part shows how to fit the 'one size fits all' patch panel into an early Ford door. The second part shows how to form complex patches on your own to repair a '34 Ford grille by hammering and butt welding.

P/N 13-14852 ..... **$34.99**

SHEET METAL REPAIRS TO THE P38 LIGHTNING

Learn to make a perfectly fit and contoured "coin" or flush patch on a compound surface using only basic, non-powered hand tools – the same standard aviation tools and methods that are still used today, but you get to learn them on a classic airplane!!!

P/N 13-13045 ..... **$44.70**

FLUID FORMING COMPOUND SHAPES IN ALUMINUM PARTS

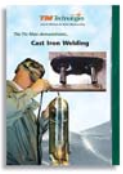
Use water pressure and a cavity to form sheetmetal parts, with either city water pressure or an inexpensive high-pressure pump. See detailed coverage of the pressures required for various sized parts, the inexpensive pumps available, and some engineering designs for the cavities. We make aluminum shapes that are smooth and free of marks, although other types of sheetmetal can certainly be "inflated" into some interesting shapes.

P/N 13-13046 ..... **$41.95**

ALUMINUM WELDING METHODS (ALCOA)

This film covers basic production oxy-fuel welding with both hydrogen and acetylene, with torch settings, joint setup, mixing the flux, and basic technique. Methods for both thin and thick sections are shown. Shows proper preheat and postheat methods for heavy sections, and proper edge beveling and gapping also. An excellent resource. Being as old as it is, it also details stick welding, carbon arc, atomic hydrogen, and spot welding methods and machines. You can learn a lot about these methods, which are probably not shown much anywhere else. Spot welding is used mainly for aviation construction and the details in this film are quite specific, going over all three machine types. Black and white with loads of "colorful" information.

P/N 13-13047 ..... **$33.55**



GAS WELDING ALUMINUM 2.1, "THE DIFFICULT"

(This 2-DVD set is designed to be a companion to our first film, Gas Welding Aluminum .) Setting up the oxy-acetylene welding rig, with leak-testing, safety, and proper adjustment of the torch is a standard-but-essential step-by-step procedure. Alloy selection, cleaning and preparation of the material and filler, and mixing and application of the aluminum welding flux are also requisite, so I chose to include them. Crack prevention, which is necessary with the higher-strength aluminum alloys, is shown in depth, and will help to solve a lot of your problems. The intricacies of Butt joints, Tee joints, and Lap joints are thoroughly described and demonstrated. Brazing and soldering are covered in two specific segments, with proper cleaning, flux and filler selection and strength and corrosion issues.

P/N 13-13054 ..... **$77.95**

CAST IRON WELDING WITH THE TORCH & ARC

Using traditional materials and proven simple methods, this dvd shows you a nearly perfect system to repair exhaust manifolds, pump housings, valve bodies, and some blocks.

P/N 13-13057 ..... **$48.95**

FENDER ARCHES

This is a fly-on-the-wall style effort for those who want to watch a complete metal working process. Be the fly-on-the-wall as two metal guys, Richard Ufheil and Kent White, "The Tin Man", go after a pair of 1935 Packard front fenders needing fender (or wheel) arch replacement.

P/N 13-14851 ..... **$42.85**

EYES OF FLIGHT

If you want to learn how to handle, cut, drill, form and care for Plexiglas, then this is the film! Many experienced craftsmen have told me how much they enjoyed this film. Special drills, saw speeds, solvents and polishing techniques are shown, along with the causes of "crazing". Includes footage from Bell showing how canopies are blown. Warbird footage! Great info!

P/N 13-13048 ..... **$90.95**

POLISHING ALUMINUM AIRCRAFT

Also known as the Swift Polishing Video. This "how-to" film was done by the skilled folks at the Swift Airplane Museum. Polishing any aluminum can be frustrating, and a lot of work. I have seen the results of these methods, and must say this is the way to get the finest results (Blankenberg's Spartan Exec. was done this way). The work is still there, but the trial and error is gone! The tools, the materials, and the methods are clearly defined.

P/N 13-13052 ..... **$46.90**

COMPLETE PIPER J3 TRAINING SERIES

Four separate films have been combined into one very educational 110-minute DVD. See how the Piper factory originally built the J-3 in 1937, and then watch how they do a preflight inspection, and annual inspections on airframe and engine! Can you imagine watching the actual construction of a J-3 in the Piper factory in Lock Haven, Pennsylvania? See the step-by-step construction of fuselage, wing, and gear. See fabric covering, control installation, rib forming, and engine installation and runup. Inspiring!!! Remember that many of the tube-and-fabric aircraft can benefit from this valuable information.

P/N 13-13053 ..... **$76.95**

BV

AVIATION VIDEOS & DVDS

EAA SPORTAIR WORKSHOP VIDEOS

All videos produced by the EAA SportAir Center

BASIC FABRIC COVERING DVD- Aircraft Fabric Covering is a must for anyone who wants to cover their own airplane. This 2-hour comprehensive video presents every aspect of the Poly-Fiber™ fabric covering process in detail, and in easy-to-understand language. From preparing the airplane for covering to spraying on the colors, you are guided step by step through the entire process by a professional EAA SportAir fabric instructor. When used in conjunction with the Poly-Fiber manual, Aircraft Fabric Covering removes the mystery surrounding this important process in the construction or restoration of your airplane. Information covered includes: • Preparing surfaces • Attaching the fabric •Tightening the fabric • Applying the first coat of Poly-Brush • Tying rib-lacing knots • Applying finishing tapes • Spraying UV-blocking chemical, Poly-Spray • Applying the color coats. P/N 13-40428 ..... **$39.95**

THE EDUCATED OWNER VIDEO SERIES

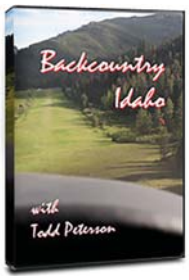
VOLUME I: PREVENTATIVE MAINTENANCE – initially details the FAAs rules concerning what maintenance tasks an owner can legally perform, It then proceeds to instruct viewers on the proper tools and supplies for common maintenance tasks and follows with detailed, step-by-step demonstrations of Engine Inspections, Landing Light Replacement, Oil Changes, Spark Plug Maintenance and Tire & Wheel servicing. The video is approx. 60 min. long.
DVD .....P/N 13-03572 ..... **$39.95**

VOLUME III: Teaches pilots and prospective aircraft owners all about aircraft ownership. Teaches how to analyze the costs of aircraft ownership and takes viewers, step-by-step, through the selection, pre-purchase and sales transactions. Includes detailed information on preventative maintenance, annual inspections and tips for living with your new aircraft. 90 min.
VHS .....P/N 13-01626 ..... **$34.95**
DVD .....P/N 13-03574 ..... **$39.50**

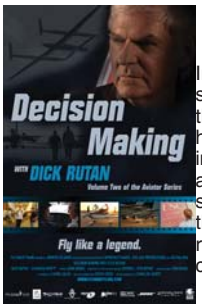
INTRODUCTION TO STEEL WORK

If you are just starting out and wish to have a good overview, Kent has chosen these DVDs specifically for you. It is difficult in the beginning of learning a skill, so you need some inspiration and careful instruction, both to keep your interest and to feed your curiosity. These 4 DVDs cover hand tools, measuring, cutting, forming, form blocks, patterns, shrinking, stretching, Pullmax, Air Hammer, gas welding, and spot welding.
P/N 13-13056.....**$125.95**

ALASKANS FLY ALASKA

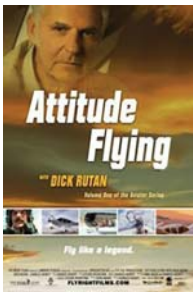


Join the fun as Alaska pilots sharpen their skills in vast and varied Southwest Alaska, an uninhabited, untamed, and undeveloped wilderness. Experience the excitement of the possibilities open to the small plane pilot, flying low and slow through western Canada and Alaska. Come along as they fly though Canada, following the popular routes preferred by experienced small plane pilots. Explore Alaska's back country, where there are no roads and no people for hundreds of miles. Touch down on remote beaches, sandbars, and fields, in places only the bush pilot can go. Marvel at the breathtaking views of spectacular glaciers, ancient canyons, sun-bathed seascapes, and unsurpassed mountain ranges. Enjoy an enthusiastic look at possibilities open to the small plane pilot flying in Canada and Alaska. P/N 13-07374.....**$24.95**



RED BULL

Take the top 12 pilots in the world to 8 of the most stunning cities around the globe. Add tight twisting race tracks, planes flying close to 400 km/h, chuck in 12G s for good measure and you've got the 2008 Red Bull Air Race World Championship another spectacular season of high drama and amazing skill. Watch the very best moments from the opening race in Abu Dhabi to the first ever double header taking place at San Diego and Detroit in the United States. The pilots battled against the elements in Rotterdam and London and came out on top before heading to Budapest. In Porto a new champion came of age before the finale in Perth where the winner of the 2008 Red Bull Air Race World Championship was crowned. Picture Format: NTSC P/N 13-06889 ..... **$19.95**

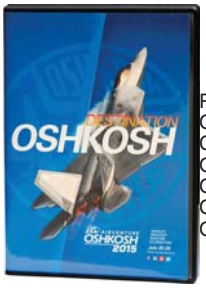


BACKCOUNTRY IDAHO

Pilots of all skill levels will truly enjoy the exhilaration and adventure of Idaho backcountry flying at its best with ... Backcountry Idaho. Visit some of the best backcountry airstrips in the Rocky Mountains. Explore scenic wilderness, vast pine forests, and steep canyons in search of pristine beauty and the next runway challenge. Fly right seat on the actual approaches and departures of these spectacular backcountry airstrips with Todd at the controls of his high-performance, custom designed, King Katmai.
P/N 13-06298.....**$24.95**

DECISION MAKING WITH DICK RUTAN

In Decision Making with Dick Rutan, you'll fly shoulder-to-shoulder with Dick Rutan, one of the most renowned aviators of all time. Discover how human factors affect your performance and influence your decision making. Explore the brain, and learn how the mind responds and processes stimulus during in-flight emergencies. And learn the importance of channeling reactive, emotional responses into pro-active, positive decisions that can literally save your life.
P/N 13-06868.....**$29.95**



ATTITUDE FLYING WITH DICK RUTAN "FLY LIKE A LEGEND"

For serious pilots only. Conceived and designed to take you above and beyond other aviation training programs, the Aviator Series captivates and educates like no other training video you've seen before. Puts you shoulder-to-shoulder with the world's foremost aviators as they share leading edge skills and techniques that made them legends.

FLIGHT OF VOYAGER CD (DICK RUTAN)

This is a recount of the horrific, horrendous, heroic and humorous moments of the Voyager project through the eyes of the pilot Dick Rutan. On December 14, 1986 Voyager took off from Edwards AFB in California and 9 days later landed at the Edwards, completing the first ever non-stop, unrefueled world flight. This 3-CD set (3.5 hrs) includes a mini journal map of the flight, historic photos, fun facts, and more.

ASA PROFICIENT FLYING - THE VERY BEST OF BARRY SCHIFF DVD

Barry Schiff brings critical subjects to life in this 3-DVD set. Barry Schiff needs no introduction. He's known throughout the industry as a consummate aviator, author and educator with a passion for General Aviation like few others. His seemingly boundless experience and knowledge are surpassed only by his warm, rich writing style and unforgettable presentation techniques. In Proficient Flying Barry Schiff uses these educational skills to help pilots visualize techniques and procedures that can make them safer pilots. He brings critical subjects to life in this DVD series with more than 4 hours of instruction. Schiff's knack for guiding pilots through intricate aspects of flying makes these lessons invaluable and memorable, giving viewers true insight and understanding of the subjects presented. P/N 13-19095 ..... **$29.50**

FORMATION FLYING, THE ART

The Art in DVD format. "Formation Flying, The Art " DVD was originally introduced to the Warbird community in 1993 as a integral part of the FAA Mandated Civilian Formation Training and Credential Program. Currently the video is now the "F.A.S.T." standard and endorsed by all major Warbird flying organizations such as the EAA / Warbirds of America, North American Trainer Association, T-34 Association and others world wide.

THE GREAT ARCTIC AIR ADVENTURE

Take to the world's northernmost skies and explore the planet's "last imaginary place"-the enigmatic Arctic. The Great Arctic Air Adventure is the story of Seattle's Mark Schoening and Doug DeVries, who piloted their de Havilland Beaver seaplanes around Canada via the famed Northwest Passage. Over six weeks battling miserable weather, frozen tundra and inaccessible terrain in one of the least populated places on earth, the pair builds a lasting bond and discovers that in the unyielding Arctic, adaptation is key. P/N 13-11552 ..... **$24.95**

BASIC AEROBATICS

Introduces the basic building blocks of aerobatics - spins, rolls and loops - with a wealth of in-cockpit and from-the-ground views of each maneuver. This video is and indispensable aid to those considering a departure from straight and level. (54 min.) 6618A

P/N 13-04302 ..... **$59.80**

TAILWHEEL 101

Tailwheel: 101 will help you get there. This video is the premiere study guide for all pilots wishing to get their tailwheel endorsement, or for any tailwheel pilot who'd like to learn a thing or two from the most widely recognized tailwheel expert in America, Damian DelGaizo. Ride along with Damian and his student Jill as she gets her tailwheel endorsement. Each ground segment is immediately followed by its real-world airplane demonstration to reinforce the material and make pre-flight study sessions easy and efficient. P/N 13-06023 ..... **$49.95**

TAILWHEEL: 201 BEYOND THE BASICS

Tailwheel: 201 goes beyond the tailwheel checkout, building on the tailwheel basics introduced in Damian's first DVD, Tailwheel 101. Teaches advanced techniques from short field operations, to advanced slips, to precautionary off airport landings. Like Tailwheel: 101, this DVD includes ground school and in-flight instruction both inside and outside the cockpit. Whether you are new to the world of tailwheel flying or a seasoned aviator, Tailwheel: 201 will help you become a more proficient pilot. P/N 13-09653 ..... **$39.95**

LIVING IN THE AGE OF AIRPLANES BLU-RAY

Living in the Age of Airplanes offers a fresh perspective on a modern-day miracle that many of us take for granted: flying. Produced and directed by Brian J. Terwilliger (One Six Right), narrated by Harrison Ford and featuring an original score from Academy Award® winning composer James Horner (Avatar, Titanic), the film takes viewers to 18 countries across all seven continents to illuminate how airplanes have empowered a century of global connectedness our ancestors could never have imagined.

P/N 13-20150 ..... **$29.95**

MOUNTAIN FLIGHT

Mountain Flight, filmed in part in the Idaho Primitive Area, includes in-flight footage of some of the most beautiful, rugged and demanding mountain terrain in the U.S. It covers flight planning, accident causes, weather, density altitude, approaches, landings, departures, and survival. The weather section includes time lapse sequences of thunderstorms, mountain waves, lenticular and rotor clouds. Graphics are used to clarify, explain and demonstrate the ground and flight procedures for safe operation in the mountains. Color, approximately 80 minutes. P/N 13-04052 ..... **$27.85**

ALASKA'S BUSH PILOTS THE REAL DEAL

The story is interlaced with in-depth and exciting interviews of these courageous pilots as they recall many different stories of their experiences in the remote wilderness. They tell stories about rescues of stranded fellow pilots, taking their families 40 miles from their already remote bush homes to go fishing at "a better spot" to encounters with vast herds of caribou and the huge bears. You will "fly" in the seat right next to these men in the cockpit and witness wingtip-to-wingtip aerial HD photography that Jim Oltersdorf shot during filming as he is known nationally for. Its about where they fly, how they fly and why they fly. If you've even known what excitement is, step aside, this one is going to blast you off your seat!

P/N 13-06937 ..... **$18.95**

ALASKA'S BUSH PILOTS (THE REAL DEAL) COMMERCIAL OPERATION

In-depth knowledge of commercial bush pilots who fly the bush in Alaska. Provides an insight into the world of advanced technologies of aviation equipment for the viewers. After analyzing the first documentary it became apparent that a presentation of commercial pilot activities was warranted. There is no duplication for any footage or any information from "Alaska Bush Pilots....The Real Deal: it is all brand new! The pilots who use this equipment on a daily basis explain in detail the components of G-1000 glass cockpits and relative avionics devices.

HOW TO LICENSE YOUR HOMEBUILT AIRCRAFT

This DVD will walk you through each step to successfully license your experimental amateur homebuilt aircraft. The actual FAA forms required are displayed on screen, and where to obtain them and how to fill them out.

P/N 13-03609.....**$29.95**

HOMEBUILT HELP ELECTRICAL WIRING TUTORIAL

Explains and demonstrates the common procedures, tools and components required for the basic wiring of a homebuilt aircraft. Demonstrations of crimping, soldering, wire selection and wiring design with simple schematics that are applicable to a homebuilt electrical system. Video length is 1 hour and 20 minutes.

P/N13-03578.....**$29.95**

AIRFRAME CONSTRUCTION TECHNIQUES

Potter, who is an A&P I/A, commercial pilot, and parachute rigger, has worked in the aircraft maintenance field for 25 years. The DVD focuses on modern techniques and tools that are available to a new generation of builders. Some topics covered include: setting-up shop, shop safety, purchasing tools and steel, building and leveling your jig table, lay-out and jigging, cutting and fitting, welding with an emphasis on TIG, completing the fuselage box, bending-in the sides, fitting the tail post, vertical jigging, bending and flattening tubing, building fittings, builders groups and support. This 1 hour and 18 minute DVD takes you step-by-step through the entire building process.

P/N 13-06833.....**$44.85**

AIRCRAFT PAINTING 101

An excellent 2 hour video in which Sam James takes you, in detail, through the finishing, priming, and painting of his RV-4 with the Dupont Veriprime and Chromabase systems. This video is not as finely produced as some others, but the vast quantity of practical information it contains more than makes up for it. Takes you through the complete process of working an metal wing, a fiberglass wheel pant, and detailed custom design on a horizontal stabilizer. Run Time: 120 min by Sam James P/N 13-06567 .....**$24.95**

METALWORKING 101

Targeted to the beginning student of pop-riveted metal kit plane construction. Ideal for the person who is contemplating the undertaking of a metal kit plane project. Takes you thru the actual construction of a Zenith rudder, from start to finish. While it can be used to supplement the construction guide supplied by the manufacturer with this rudder (a CH701 or CH601), it is actually intended to demonstrate to the beginning builder just what tasks and skills are required. General metal building procedures are explained and demonstrated. P/N 13-03369 .....**$28.95**

WEIGHT & BALANCE 101 FOR HOMEBUILT

Completing a homebuilt requires you to calculate and document the weight & balance figures for your plane and present them to the inspector...and for many homebuilders this task is confusing and complicated -- however, this video makes this task simple and easy to understand. The video makes it easy for you to understand the concepts required to perform your own weight and balance analysis on your aircraft and then document the findings for the inspection process. P/N 13-04184 .....**$32.95**

CANARD AIRCRAFT

The DVD has 3 hours of video on canard aircraft only, truly a one of a kind DVD. It covers the Cozy MkIV, LongEZ, Berkut, ERacer, StaggerEZ, Bateleur, Defiant, LongEZ Jet and a custom LongEZ. Want to know what it's like to build a Cozy aircraft? Or see what it looks like to do a high speed fly-by from the cockpit? Then you'll want to see this DVD. You'll get lot's of encouragement from every builder for you to continue on your journey to complete your canard aircraft. 60 minutes of air to air shots, high speed fly-bys, take offs and landings. With all the natural sounds as they fly right over head at more than 200 miles per hour!

P/N 13-04260.....**$42.50**

SKYWARD TECH AIRCRAFT ENGINE REBUILDING

De-mystify the overhaul procedures on selected Continental & Lycoming engines. Videos begin with a dismantled engine, show the crankshaft being mounted on a stand and then proceed through complete assembly. These videos effectively present the step-by-step procedures of re-assembly.

Description	DVD P/N	Price
Cont. 0-200 Rebuild	13-03208	**$29.95**
Lyc. 0-320 Rebuild	13-04465	**$29.95**
Lyc. 0-360 Rebuild	13-03210	**$29.95**

SCRATCH BUILDING BASICS FOR METAL AIRCRAFT

An excellent way to determine if building a homebuilt aircraft from scratch is right for you... you will obtain a full understanding of the trials, tribulations, joys and successes that this type of building process entails. You can't watch these guys at work and not learn something that might change the way you think about the process and people that build their own planes from scratch! Approximately 3.5 hours in length and is divided into 10 video chapters to make navigation and review of desired sections fast and easy. The DVD set includes web links to plans for building your own sheet metal brake and other tools used in this video (you can print the plans on your own printer). P/N 13-04185.....**$38.95**

RV-12 EMPENNAGE TAILCONE

This double disk DVD is the first in a series of videos being developed to cover the entire build process for the Van's RV-12 aircraft kit. It covers the complete empennage/tailcone kit as supplied by Van's Aircraft. It is a great starting place to begin your project – there are no prerequisite assemblies that need to be completed before starting. All in the exact sequence of building as specified by the construction manual. Approximately 2.5 hours in length and is divided into various video chapters to make navigation and review of desired sections fast and easy. They are completing production on the subsequent volumes of the RV-12 build (that are also sequenced to the sub-kits as provided by Van's Aircraft).

P/N 13-09590.....**$48.85**

COMPLETE COMPOSITE & FIBERGLASS LIBRARY

All five of our How-To videos on a convenient 2 DVD set. A total of 190 minutes of the most complete guide for using composite materials available anywhere! The Complete Fiberglass and Composite Library contains The Basics of Fiberglass, A Step-By-Step Guide to Molding Fiberglass, Advanced Moldmaking and Plug Construction, Vacuum Bagging and Sandwich Core Construction and The Art of Moldless Composites. P/N 13-06551.....**$161.95**

DEEP INSIDE YOUR ROTAX

You can now see and understand what procedures are involved with the 150 and 300 hour inspection/rebuild services. Alan points out the places carbon accumulates, where the common areas of wear occur, and other signs indicating the possibility of potential failures. The specialized Rotax engine tools are demonstrated as to their function in removing various internal components. Installation and maintenance tricks are also demonstrated and explained for the purpose of heading off future engine failures that can lead to disaster. And More.

P/N 13-03370 .....**$34.95**

ROTAX 912 INSTALLATION TIPS & TECHNIQUES

This presentation explains the most important details of preparing and installing th epopular Rotax 912 family of four stroke engines in your experimental homebuilt aircraft. This reliable, high performance engine will only perform safely if installed properly as specified by the Rotax installation guide. The important details in this guide are often misunderstood or even ignored completely resulting in catastrophic engine failures and dangerous flying situations. DVD Running time: 1.5 hours

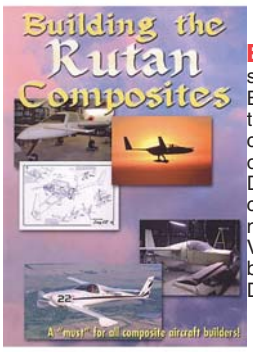
P/N 13-04183 .....**$35.95**

BUILDING A GLASS PANEL FOR HOMEBUILT AIRCRAFT

Mark Townsend of CanZac Aviation takes you step-by-step from the planning stages through the actual fabrication procedures and wiring for a combination glass/conventional instrument panel for an experimental aircraft. 80-minute DVD.

P/N 13-04969 .....**$23.95**

RV RUDDER WORKSHOP



This instructional video has 2 major sections: The first section contains an overview and demonstration of the tools and techniques that are required for building an RV aircraft. These specialized building techniques center around riveting with solid rivets - essential for the RV aircraft. Many specialized tools are required for this type of construction and are discussed and demonstrated. Techniques that are shown include: dimpling, countersinking, deburring, drilling, back riveting and pop riveting. A full discussion of the types of rivets that are used along with their important characteristics is included in this first section of the video. The tools for measuring proper rivet setting (rivet gauges) are shown and demonstrated. Some of the tools that are featured include: hand squeezer, pneumatic rivet gun, flush and universal rivet sets, dimple dies, back rivet sets, scotch-brite polishing wheel and deburring tools. P/N 13-04791 .....**$31.50**

STEWART SYSTEMS 6 DVD SET

FABRIC COVERING, METAL AND OTHER SUBSTRATE PREP, MIXING PAINT AND PAINTING - 6 Disc Stewart Systems Combination Package Covering & Painting Videos. Most everything you need to know about our covering system, including complete information using the Stewart Systems Covering Process. It includes product application, painting instructions, STC and more. Well over 2 hours of video.
P/N 13-09411..... **$21.65**

"TIN MAN" METAL WORKING VIDEOS

These videos provide excellent instruction for the aircraft builder. Ken White, The Tin Man, is a master craftsman and instructor for the Experimental Aircraft Associations metal working workshops at Oshkosh.

BASIC DAMAGE REPAIR ON ALUMINUM – Take an axe and drive it through the nose of an RSK Porsche. now we're ready to begin by bumping, smoothing, gas welding, planishing, and metal finishing. All work completed on camera. Complete and very detailed. Color, 63 min.
DVD..... P/N 13-04377 ..... **$41.50**

EDGE THOSE PANELS – Learn to make flanges, hems wired edges, and flares. With just a hammer, dolly, and some simple tools you can make, you'll be able to easily edge lots of panels. Wing rib construction is also shown. Then a rotary machine (bead roller) is used to do really fancy artwork! Color, 126 min.
DVD .....P/N 13-04378.....**$55.95**

AN AMERICAN'S VIEW OF THE ENGLISH WHEEL – Shrink on the wheel? You bet! Analyze frame design, tracking patterns, layering, pressure measurement, rapid high crown development, nearly flat panels, and much more. Last segment shows air hammer shaping and shrinking on the Pullmax. Color, 126 minutes. DVD..... P/N 13-40302 ..... **$39.95**

SHRINKING MAGIC – The art of shrinking (crimping or compression) is demonstrated using both the Lancaster machine and the torch and hammer method. Hot work demonstrations include steel, aluminum, copper, stainless, titanium, and magnesium. An excellent segment on form block work is shown as well. Color, 84 minutes. DVD..... P/N 13-04381 ..... **$55.95**

SHAPING ALUMINUM WHEEL PANTS-WITH 7 SIMPLE HAND TOOLS – Using a torch, mallet, stump, forming bag, slapper, dolly, and clamp you can make a really nice pair of pants (fenders or tank). This video includes buck development, pattern work, and hot shrinking. Air hammer shaping and Pullmax shrinking segment at the end. Color, 125 minutes.
DVD..... P/N 13-04380 ..... **$55.95**

HOW TO GAS WELD ALUMINUM – Learn the professional methods of setting the torch, regulator pressures, and secrets of the flux. Filmed with two cameras through the finest eyewear available to show tacking, distortion control, flat and vertical welds. Many 30-year veteran welders have benefited from this video. Color, 105 minutes.
DVD..... P/N 13-04379 ..... **$48.95**

4130 CHROMOLY AIRFRAME CONSTRUCTION – This video is highly recommended for anyone considering a steel tube fuselage aircraft. It covers the whole process: Workflow, welding rod selection, jigging, fitting, and welding. (Note: The discussions and advice are almost exclusively about oxyacetylene welding. TIG, GTAW, is mentioned only in passing.)

BIG ROCKS AND LONG PROPS VOLUME I

50 thrilling minutes of water assisted landings, big rocks, big tires, and great flying in a Super Cub and Experimental Maule (A.K.A. Bushwacker) Alaska and Northwest bush pilot Loni Habersetzer and Northwest bush pilot Greg Miller take you into their incredible playground of rock bars and water landings - on tires! P/N 13-04018 ..... **$33.95**

BIG ROCKS & LONG PROPS - VOLUME II

You will go from Greg's training ground to the desert and on to the mountains. The main movie is 40+ minutes long and includes a commentary track. There is a section on field repair and a section on the STOL competition for the bush class in Valdez Alaska for 2006. In all, almost 90 minutes of playing time. It has Greg Miller flying "Bushwacker" and also the 5 place Sherpa, which is basically a Super Cub on steroids. It also features Doug Keller and his amazing. Husky Cub P/N 13-04384 ..... **$33.95**

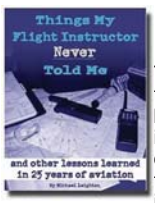
BIG ROCKS AND LONG PROPS VOLUME III

See the culmination of 30 years of bush flying experience as Paul flies his Turbine Otter and Super Cub in the rugged wilderness of the Wrangell-St. Elias National Park. Watch Greg as he learns the ins and outs of ski-flying in one of the most challenging places in Alaska, where the margin between life and death can be extremely thin.
P/N 13-05728 ..... **$33.95**

BIG ROCKS & LONG PROPS VOL. 4

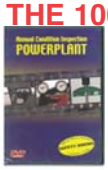
Join Greg Miller on his Alaskan Adventure. Greg flies his experimental Maule a.k.a. Bushwacker to Alaska in the winter of 2008. The setting for this adventure is the Wrangell-St. Elias National Park. You'll see Greg landing his ski-equipped airplane on snow, ice, rock, and water. Come along as he climbs an ice fall, skins up mountain peaks, and skis down virgin snow-covered mountains. Running Time: 121 minutes
P/N 13-06275 ..... **$33.95**

BIG ROCKS & LONG PROPS - HIGH COUNTRY VOLUME 5



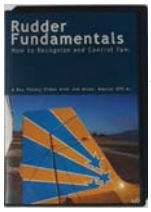
Big Rocks & Long Props Volume 5 - High Country DVD. Greg Miller, tired of the rain in the Pacific Northwest, heads for some dryer high-country with the founder of Nflightcam, Patrick Carter. Greg is interested in exploring and Patrick will provide the shots using a Canon 1080p HD camera and multiple Contour Plus cameras mounted to various parts of Bushwacker. Join them for this adventure as they explore the breathtaking scenery of the desert high-county.
P/N 13-11977 ..... **$33.95**

HOODRIVER BASIN COZY



In this DVD they'll fly you around the luscious green Hood River Basin in Oregon. During this scenic flight, you'll fly so close to Mt Hood, Mt Rainier, Mt St Helens and Mt Jefferson, it'll seem like you can reach out and just touch the snow covered peaks. Along the way, they will pass through the majestic Columbia River Gorge. The DVD length is 25 minutes. ..... P/N 13-08044 ..... **$19.95**

THINGS MY FLIGHT INSTRUCTOR NEVER TOLD ME



Topics like fuel management, flight planning, reluctant passengers, dealing with weather, the FAA, buying and owning an aircraft, as well as moving up to bigger and faster aircraft, are all discussed with humor and whit. He also discusses the people in aviation he has met that have had an influence on his flying career.

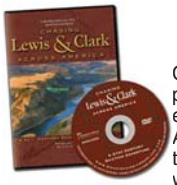
THE 100 HOUR INSPECTION POWERPLANT



Step by step demonstration of a 100 hour inspection of the powerplant section of a Lycoming 0-360 powered Piper Arrow. Explains every segment of the inspection process from an initial AD search to the final log entries. It details each procedure along with the techniques, tool and material usage, and plenty of professional hints and tips. Covers safety wiring techniques..... P/N 13-03883 ..... **$24.95**

RUDDER FUNDAMENTALS

Most pilots admire the skills of a good stick: an aerobatic pilot rolling on top of a loop; the pilot who lands a float plane on a tiny mountain lake or the local tailwheel pilot making a perfect touchdown in a strong cross wind? Have you wondered what you can you do to become a confident and skillful flyer? Actually there are only two fundamentals to master: Don't cause the airplane to stall Recognize and control yaw. My Key Points video Stall, Upset and Spin Recovery explores the first fundamental. Using ground school and film clips from the air, Rudder Fundamentals offers a unique and valuable presentation of the second fundamental; the recognition and control of yaw. You will: Learn to control adverse, P-factor and gyroscopic yaw. Master the Dutch roll, the definitive stick and rudder skill. Learn to use the technique of cross controlled rudder and aileron to perform a plethora, of aerial maneuvers.

CRAZED PILOT COSTA RICA BY AIR DVD & BLU-RAY

Take flight over the remote jungles of Costa Rica, view the lush valleys and streams, and marvel at the active volcanoes as you pass by. Soar serenely out over the azure ocean waters and enjoy the sparkling white sands of the vast Costa Rican beaches as never before! Two hours of calm, relaxing music and beautiful, exhilarating tropical scenery – much of which has never before been caught on film!
DVD ..... P/N 11-14683 ..... **$21.90**
Blu-Ray ..... P/N 11-14684 ..... **$33.90**

BUILDING YOUR OWN ZENAIR FLOAT

Zenair now offers their popular experimental aircraft floats as a kit which can be built with relatively simple construction techniques. This provides a substantial reduction in the cost of ownership making floats now affordable for many aircraft owners. (See www.ZenairFloats.com for product information and prices) While this video demonstrates the construction of a Zenair float, it does not show: the rigging of floats to an aircraft, spreader bars, mounting tires, nor other repetitive tasks such as painting, priming, riveting, etc. The effort was to keep the content of the video restricted to the unique tasks of float construction. AVIATION VIDEOS & DVDS

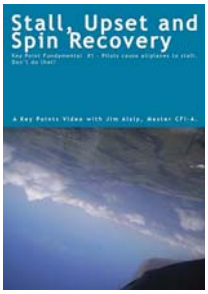
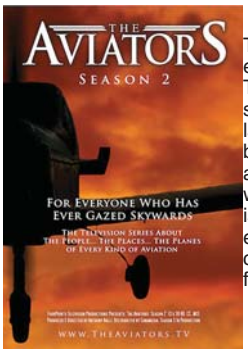
FLYING SINGLE PILOT IFR

If you fly single pilot IFR, this video is for you. Explains risks involved and how to minimize them. Explores equipment requirement, organization, getting real time weather, staying ahead of the airplane, copilot selection and situational awareness. (60 min)



P/N 13-23850 .....**$32.95**

HOW TO GET A FLIGHT REVIEW



Recommended for anyone preparing for a flight review. Covers the relevant areas of FAR 61.56. and what you need to know for the flight review. Includes the new airspace & weather reporting changes. (50 min)

P/N 13-23860 .....**$32.95**

STALL, UPSET, AND SPIN RECOVERY

Are you anxious during slow flight and stalls because you are apprehensive about spins? Do not fear the spin; understand it. Spins are just another thing airplanes do, and you should train for spin recovery. Proper spin training begins with an introduction to stall and unusual attitude recovery. You need to understand that a heavy hand or misuse of the controls, during an unusual attitude, can stall the wing and begin a spin event. P/N 13-11864 .....**$19.95**

THE AVIATORS SERIES

This wildly popular DVD set of all episodes of each season of the hit PBS television series The Aviators. New and exciting magazine-style series featuring interesting people, the latest aircraft, the coolest technology and the best fly-in destinations of North American aviation. The Aviators is truly for everyone who has ever gazed skywards. Each episode is comprised of 3 or 4 segments. This format ensures that the show remains fast-paced, capturing and holding the viewer's interest from beginning to end.

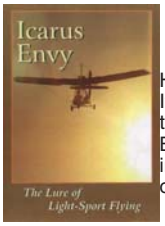
CREW RESOURCE MANAGEMENT: EXPLORING THE HUMAN ELEMENT

Become an expert on important aviation topics when you explore them in depth with CRM - Exploring the Human Element (DVD) by Jeppesen. This video explores United Airline's human factors training program. Whether you are operating in a Part 121, 135, or 91 environment, you can benefit.



P/N 13-07840 .....**$14.85**

ONE SIX RIGHT

Experience an exhilarating documentary film that celebrates the unsung hero of aviation – the local airport – by tracing the life, history, and struggles of an airport icon: Southern California's Van Nuys Airport. Featuring thrilling aerial photography and a sweeping original score, the film dispels common misconceptions and opposes criticism of General Aviation airports. Through the love story of one airport, past to present, the film shares the timeless romance of flying with all ages. 73 minutes. Plays world wide on any NTSC DVD player.

DVD.....P/N 13-04571 .....**$19.95**
Blu-Ray.....P/N 13-19618 .....**$31.50**

ICARUS ENVY THE LURE OF LIGHT SPORT FLYING

Hour-long documentary film about light sport aviation. It is shot almost entirely in Wisconsin, and provides a thrilling introduction to the world of low and slow flying. Breathtaking flying scenes from both the ground and in the air, even on skis and floats, are all beautifully orchestrated to an evocative music soundtrack.

P/N 13-12898 ..... **$19.95**

FLYABOUT

Flyabout tells the autobiographical story of Monika Petrillo's journey piloting a small single-engine airplane around the continent of Australia. Her father, a pilot with limited experience himself, is riding shot As the only women pilot in a group of eleven people, Monika sets out to experience the true freedom of flight above one of the most untouched places on earth. But what impacts her most is the unexpected conflict that arises between her father and herself. P/N 13-06638 .....**$19.95**

THE COMPLETE AIRLINE PILOT INTERVIEW COURSE

This DVD from Flightdeck Consulting has been produced and developed by airline pilots for airline pilots. This DVD includes: Eight Virtual Interviews to help you perfect your interview technique. Access to the "Airline Pilot Interview Work Booklet", an essential tool covering all aspects of your interview including psychometric testing, simulator check ride and panel interview. Simulator Assessment Guide. Psychometric Testing Information. Complimentary Email Support from professional airline interview consultants. Make an investment in your future and be "The Standout Candidate" at your interview. P/N 13-08754.....**$69.00**

GETTING STARTED IN AEROBATICS

Produced in co - operation with the International Aerobatic Club, Getting Started in Aerobatics is a valuable introduction to the dynamic world of aerobatics. During the course of this program, you'll hear six legendary aerobatics pilots relate their years of experience and address topics that include the benefits of aerobatics, its history and background, training options, selecting the right instructor and equipment, and more. You'll also experience the thrill of an aerobatics flight lesson at the renowned Pompano Air Center. Getting Started in Aerobatics contains information to consider before you begin - or continue - your aerobatics training. (55 minutes) P/N 13-40505.....**$14.95**

ROD MACHADO'S PRIVATE PILOT HANDBOOK 2ND EDITION - A serious text written in a fun and witty style. More than 1,200 original illustrations & photos with 50 pgs in full color, ensures this to be a one-of-a-kind manual. You can learn or review by just looking at the pictures. However, the text is laced with Machado's humor, so you will want to read every last word of the 572 pages. Written in the first person, it's as if Rod is sitting next to you, personally explaining all the necessary aspects of flying to make you an informed, confident and competent pilot. Flight instructors will love using the great illustrations with their students. It will also be a favorite for its readability. A book only has value if it's read and understood. For years pilots at Oshkosh, Sun n' Fun and seminars across the country have asked Rod to write a fun and easy to understand book for pilots. Well, here it is folks, perfect to refresh for a flight review, catch up on new rules or for student pilots to pass their FAA knowledge and oral exams.

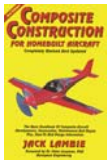
BOOKS

ASA AIRCRAFT INSPECTION, REPAIR & ALTERATIONS - The "bible" for AMTs, aircraft owners, and homebuilders, this FAA Advisory Circular outlines the standards for acceptable methods, techniques, and practices for the inspection, repair and alteration of non-pressurized areas of civil aircraft with a gross weight of 12,500 lbs or less. Includes both Part 1B and Part 2B.
P/N 13-06050 .....**$17.95**



STANDARD AIRCRAFT HANDBOOK – This handy book contains a wealth of information with illustrated chapters on riveting, bolts and fasteners, tools and their proper use, assembly and installation methods, materials and fabrication, blueprint reading, lofting and templates. 292 pgs, paperback. 6th edition.
Book.....P/N 13-11400 .....**$24.50**
E-Book.....P/N 13-05920 .....**$30.70**

DESIGN & CONSTRUCTION MANUALS MOLDLESS COMPOSITE SANDWICH HOMEBUILT AIRCRAFT CONSTRUCTION (BY BURT RUTAN) – A step-by-step construction manual for the beginner in working on composite aircraft designs. If the steps are studied and followed carefully, a first time builder can work confidently with these materials. Profusely illustrated. P/N 13-11600 .....**$16.85**

COMPOSITE AIRCRAFT DESIGN (MARTIN HOLLMAN) – A very popular new book from the designer of several innovative composite aircraft. Describes the history of composite aircraft development and provides technical information & sources for the many composite materials in use today. Filled with photos, sketches and graphs. 88 pages.
P/N 13-11700 .....**$63.75**

COMPOSITE CONSTRUCTION FOR HOMEBUILT AIRCRAFT (JACK LAMBIE) – This comprehensive manual shows you the techniques of working with plastics in homebuilt kit airplanes. Lambie's humor and sound judgment are ideal for any avian dreamer. Over 300 graphs, drawings, diagrams, and photos that show you how. 240 pgs.
P/N 13-12300 .....**$19.95**

A PRACTICAL GUIDE TO AIRPLANE PERFORMANCE AND DESIGN (DONALD R. CRAWFORD) – This book will prepare you with the mathematical tools you'll need to turn fantasy into at lease drafting table reality. Find design trade-offs in minutes with easy-to-use graphical and numerical techniques. P/N 13-16820 .....**$19.95**

AIRPLANE DESIGN (DONALD R. CRAWFORD) – Collected reprints of a series of technical articles on airplane design printed first in Kit Planes magazine are bound in one 114 pg vol. Easy-to-use basic computer programs (w/ fully annotated source listings incl.) are applied to sample problems. Detailed derivations of governing equations provide necessary technical background for the solution method.
Book.....P/N 13-16825 .....**$23.95**
E-Book .....P/N 13-09828 .....**$23.95**

PRACTICAL STRESS ANALYSIS FOR DESIGN ENGINEERS – Deluxe hardbound edition, 464 illustrations and drawings, 685 pages. Solutions based on "real" aircraft structure. A simplified, easy-to-understand reference book – contains no complex mathematics. Aircraft designers and experimenters can master the principles and fundamentals of stress analysis. Learn new techniques and simplified approaches to the analysis of new and innovative designs. P/N 13-00035 .....**$98.00**

HOW TO COOL YOUR WANKEL BOOK - This 100 page book can be used as a guide when designing a liquid cooled Wankel rotary engine installation in an experimental aircraft. Information from the Aircraft Rotary Engine Internet Newsletter and a compilation of the published information from the established international experts in the field over the last seventy years. Includes a bibliography. The information applies to any liquid cooled aircraft engine. Printed on heavy weight gloss paper with many color illustrations and pictures. (Sizes 8-3/8 x 10-1/2 x 1/2). P/N 13-04888 .....**$54.00**

HOW TO BUILD COMPOSITE AIRCRAFT (MARTIN HOLLMAN) – A book on how to use composite materials in building the new generation of kit aircraft and how to build your own composite design using low cost tooling. Tells you the secrets of how to build composite aircraft such as the Lancair IV, the Stallion, the Glasair, the Nova and others. Learn how to assemble kit aircraft made out of graphite/epoxy such as the Lancair IV or Stallion, how to build plugs and molds for these type of aircraft, and where to buy the materials at low cost. **Note: Some images and pages may be grainy. Not published by a publishing house but rather by the authors themselves. Quality of information not affected.** P/N 13-12205 .....**$39.95**

BUILDING THE GOLD DUSTER - This book was published in the mid-1970's by an Acro Duster Too SA750 builder about his experiences in building and flying a classic homebuilt aircraft. This manual was written to assist homebuilders in the methods and problems inherent with the construction of steel tube frame and wood wing aircraft of all designs. It is an excellent book full of good information and photos, and credits for their support and guidance all those years ago, at Flabob Airport. Stolp Starduster Corp.
P/N 01-00470 .....**$12.95**

AIRCRAFT DETAIL DESIGN MANUAL (S.J. DZIK) – Revised 3rd Edition. Detailed 2 & 3 view design drawings from existing aircraft plans plus wing design, engineering tables & hardware specs.
P/N 13-12000 .....**$18.75**

THE SPORTPLANE BUILDER (TONY BINGELIS) – An introduction to homebuilts along with information on construction practices, fiberglass techniques, canopies, windshields, instrumentation, fuel systems, control systems, landing gear components, electrical systems, covering and painting and more. 320 pgs, completely illustrated. P/N 13-13200 .....**$27.99**

SPORTPLANE CONSTRUCTION TECHNIQUES (TONY BINGELIS) – 3rd in a series of outstanding books from the dean of homebuilders. Includes sections on getting ready to build, construction practices, fiberglass components, control systems, aircraft interiors, canopies and windshields, landing gears, instrumentation, electrical systems and finishing. 368 pages, fully illustrated.
P/N 13-13300 .....**$27.99**

FIREWALL FORWARD (TONY BINGELIS) – The complete guide to engine selection, firewall preparation, engine mounts, exhaust systems, hoses and lines, cowlings, fuel systems, ignition and electrical systems, instrumentation, propellers spinners and much more. Highly recommended by Rutan Aircraft Factory. 303 pages, completely illustrated. P/N 13-13400 .....**$27.99**

BINGELIS ON ENGINES (TONY BINGELIS) – A treasury of practical engine information for aircraft builders, owners, restorers and mechanics. Things you need to know about engine selection, engine installation, firewall preparation, baffles, cooling, fuel systems, ignition and electrical, exhaust systems, props and spinners all are thoroughly covered. Presented in clear, easy to understand language and illustrated with photos and drawings, this is another of Tony's incomparable collection of articles from EAA's Sport Aviation magazine that addresses powerplant issues facing today's sport plane builder and pilot/ All the right answers at your finger tips.
P/N 13-13450 .....**$27.99**

SPECIAL!
ALL FOUR TONY BINGELIS BOOKS FOR $94.75
P/N 13-13500

EVANS LIGHTPLANE HANDBOOK (W.S. EVANS) – This exceptional book provides a ready source of data commonly used in the field of light aircraft design. The book includes detailed information on aerodynamics, engines, propeller, wood, aluminum, steel, composites, landing loads, flight loads, stress analysis, tubing, weight and balance, weights, data tables, and an AN parts guide.

VP-1 Volksplane Plans and Pilot's Handbook (W.S. Evans) – The complete set of plans to build the popular VP-1 as well as a complete pilot's operating handbook. Fully illustrated.2 Book Set
P/N 13-11560 .....**$59.00**

PAZMANY BOOKS

CUSTOM-BUILT AIRCRAFT OWNERS AND OPERATORS MANUAL - Contains spaces for listing of aircraft description, specifications, construction data, weight and balance calculations, operating limitations, operating instructions and servicing information. (L. Pazmany). P/N 13-20100 ..... **$25.00**

LANDING GEAR DESIGN FOR LIGHT AIRCRAFT - (L. Pazmany) - Discusses in great detail all aspects of the landing gear including tires, wheels, brakes, loads & deflections, main gears, nose gears & tail gears. Includes 32 tables & 3 large fold-out drawings. Recommended highly by many leading aircraft designers. 245 pages, 463 illustrations.
P/N 13-14000 **$133.95**

LIGHT AIRPLANE CONSTRUCTION FOR AMATEUR BUILDERS- (Pazmany) – Published in 1970. Covers in detail the fabrication and assembly of sheet metal, fiberglass and Plexiglas components. 92 pages. Many, many photos. This book is a "must" for a builder of any sheet metal aircraft
P/N 13-13800 ..... **$60.00**

LIGHT AIRPLANE DESIGN - (L. Pazmany) – A step-by-step description of PL-1 & PL-2 preliminary design and the reasoning begin each feature of these airplanes. No high math; very easy to read. Used as a text in several universities. 80 pp
P/N 13-14100 ..... **$65.00**

FASTENER BLACK BOOK - • This pocket book is a great resource for anyone using standard fasteners on a routine basis • It's designed for technicians, apprentices, trainees etc. • Coated with in a Glare-Free laminate that resists tearing • Free thread pitch identification gage with each book
P/N 13-06587 .....**$26.95**

ENGINEERS BLACK BOOK - • This pocket book is a great resource for anyone working in a shop • It's designed for metal workers and machinists • Coated with in a Glare-Free • Free drill sharpening gauge with each book
P/N 13-06586 .....**$23.95**

AIRFOIL SELECTION – The articles are reproduced here as they appeared in the magazine with the exception of minor corrections and reformatting. The purpose of the book is to provide the reader with a basic understanding of airfoil geometry and how that geometry affects the aerodynamics of an airfoil and the characteristics of an airplane using that airfoil.
P/N 13-18700 .....**$19.95**

GA AIRFOILS - (Harry Riblett) – This book is a critical study of the NACA airfoil design work addressing errors and omissions of the NACA work and correcting NACA airfoils where needed. This is a comprehensive catalog of airfoils designed for general aviation use. Also included are sections on general wing design, including planform, wing tips, root stakes, aircraft performance and stability, and more. 136 pages.
P/N 13-18725 .....**$18.75**

ALTERNATIVE ENGINES – This is a compilation of the "Contact" magazine articles written by Mick Myal on conversion of auto engines. Well written with many helpful ideas. Filled with specifications, pictures and diagrams. An essential book to anyone converting an auto engine.
P/N 13-00398 .....**$10.55**

DESIGNING WITH CORE - (Hal Loken and Martin Hollman) – Explains how to design core structures. Finite element analysis and hand calculations are included. Discusses materials such as honeycomb and foam cores and gives detailed instruction on how core structures are fabricated.
P/N 13-13020 .....**$45.70**

LOW POWER LAMINAR AIRCRAFT DESIGN - (Alex Strojnik) – Aerodynamics of light aircraft of 40 HP or less.
P/N 13-14200 ..... **$37.95**

LOW POWER AIRCRAFT STRUCTURES - (Alex Strojnik) – Stress analysis of aircraft structures in the air and landing, and info. on load conversions. P/N 13-14300 ..... **$37.95**

LOW POWER LAMINAR AIRCRAFT TECHNOLOGIES - (Alex Strojnik) - Instructions on how to build low power aircraft.
P/N 13-14400 ..... **$37.95**

SPECIAL!
ALL 3 ALEX STROJNIK BOOKS
FOR $108.00 P/N 13-14500

HOW TO PAINT YOUR OWN AIRPLANE - (Ron Alexander) - This book discusses all aspects of spray painting including choosing the right equipment, how to set up a paint booth, preparation of surfaces, painting techniques, safety issues, etc. This is an EAA "How To" book written by Ron Alexander. Over 80 pages. P/N 13-03274.....**$18.50**

COMPOSITE BASICS (ANDY MARSHALL)– An excellent review of composite structure design and technology from one of the foremost authorities on advanced composites. Illustrated. 7th edition. P/N 13-18000 ..... **$29.85**

AIRCRAFT TECHNICAL MAINTENANCE HANDBOOK - The Aviation Maintenance Technician Handbook is the most up-to-date, highest quality, AND most economical General Textbook available. It is also the actual textbook from which all FAA knowledge test questions are based.
The FAA did a terrific job with this new generation Aviation Maintenance Technician Handbook replacing the older AC65.9. It is now fully up to date, easily readable, well illustrated, and in full color. It is also the actual textbook from which all FAA knowledge test questions are derived. P/N 13-09044 ..... **$37.95**

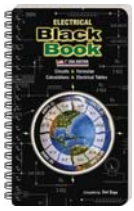
AVIATION MAINTENANCE TECHNICAL WORKBOOK - This Workbook was developed by Tom Wild and Mike Leasure from Purdue University as a further study tool and an A&P instructor's classroom aid for a General curiculla, especially when combined with the FAA 8083-30 revision ATB textbook. Each chapter in the workbook matches those in the textbook with each including 3 sections: Chapter Review Questions, Knowledge Application (practical) Questions, Final Chapter Exam
Book ..... P/N 13-09048 ..... **$13.95**
E-Book..... P/N 13-09047 ..... **$13.95**

HELICOPTER DESIGN AND DATA MANUAL E-BOOK - Helicopter Design and Data Manual discusses the basics of helicopter design including aerodynamic theory and fundamentals for rotorcraft, airframe structure, mechanics and design of rotor heads, tail rotors, control linkage, and blade construction, and selection of proper materials.
E-Book..... P/N 13-09896 ..... **$11.50**

SKYRANCH ENGINE MANUAL - Covers the operation, inspection, and maintenance of the Lycoming and Continental piston aircraft engine, including a very comprehensive troubleshooting guide. Why things go bad, how to repair them, and most important; how to keep them from failing in the first place. Formerly titled "Engineering" manual but changed to express that while this book is technically complete, it is a clear and understandable, written for the pilot and powerplant mechanic but not in any sense requiring an engineering background. P/N 13-09912 ..... **$23.50**

LIGHT SPORT AIRCRAFT INSPECTION PROCEDURES - Light Sport Aircraft Inspection Procedures is the first book we've seen on the maintenance and inspection of Light Sport and Ultralight type aircraft. Airframes, engines, and control systems are covered in depth along with many illustrations and photos showing typical damage and wear points which are common on these non-certificated aircraft. Owners and operators of this class of aircraft should consider this book required reading before your next flight or pre-flight inspection. A&P mechanics will also find this material extremely useful as Light Sport Aircraft become more common and this type of aircraft begin to make their way into your shops.125 pages. Book ..... P/N 13-09905 ..... **$33.50**
E-Book..... P/N 13-09861 ..... **$24.95**

ELECTRONIC CIRCUIT DEVICES E-BOOK - An avionics technician training course in basic electronic circuitry, AC power controls, transistors, sine wave oscillators, and more. Explains in understandable terms the working and functions of electronic devices as applicable to avionics devices and many facets of the FCC Radiotelephone exams. 261 pages. E-Book..... P/N 13-09881 ..... **$19.95**



GAS TURBINE POWERPLANT TEXTBOOK - With over 500 illustrations, charts, and tables, this book provides an extensive cross-reference between today's aircraft and engines. It includes the most up-to-date information on aircraft gas turbine powerplants and updated coverage of jet engine technology. P/N 13-19842 ..... **$49.95**

GAS TURBINE POWERPLANT WORKBOOK - Aircraft Gas Turbine Powerplants Workbook is a companion to the Gas Turbine Powerplants Textbook containing questions, answers and explanations designed to increase your comprehension of the material covered in the textbook.
P/N 13-19843 ..... **$21.75**

BV

THE ELECTRICAL BLACK BOOK - The ENGINEERS BLACK BOOK is a Technical Engineering Resource Book consolidating the most commonly used Engineering information into a easy-to-read and convenient user friendly format. Whether you are a Designer, Engineer, the Engineers Black Book is an invaluable tool for Apprentices, Trainees, Tradesmen, Machinists, Machine Shops, Tool Rooms, Technical Colleges, Fabricators, Sheet Metal Workers, even simply as a gift to a colleague. ..... P/N 13-15982 ..... **$27.50**

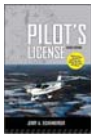
SKYHORSE INSTRUMENT PROCEDURES HANDBOOK - Designed as a technical reference for instrument-rated pilots who want to maximize their skills in an "Instrument Flight Rules" environment, this revised and up-to-date edition of the Federal Aviation Administration's Instrument Procedures Handbook contains the most current information on FAA regulations, the latest changes to procedures, and guidance on how to operate safely within the National Airspace System in all conditions. Featuring an index, an appendix, a glossary, full-color photos, and illustrations, Instrument Procedures Handbook is the most authoritative book on instrument use anywhere. Revised Edition P/N 13-12576 ..... **$14.95**

TIP TANKS: DESIGN AND FABRICATION - This publication contains unique tip tank plans for homebuilders and designers. Full size templates and step by step photos in color make this an all inclusive package of design and fabrication information . Airplane designers can adapt this alternative to upgrade their particular concepts or plans. The plans include a flexible automated EXCEL spreadsheet that produces instant tank volume based on builder inputs of length and a master ellipse cross section. Using custom arc airfoils as control lines, resulting compound curve tank surfaces avoid tank flat spots and are easy to shape. P/N 11-10421 ..... **$24.95**

PLANE SENSE - For anyone who would like to review the nuts and bolts of aircraft ownership. Anyone considering aircraft ownership, should be familiar with Title 14 of the Code of Federal Regulations (14 CFR), which details regulations for aircraft owners, operators, pilots, aircraft mechanics, and maintenance providers. Since the requirements can be updated and the regulations can change, the Federal Aviation Administration (FAA) recommends that you contact your nearest FAA Flight Standards District Office (FSDO), where the personnel can assist you with the various requirements for aircraft ownership, operation, and maintenance.
Book ..... P/N 13-10223 ..... **$15.95**
E-Book..... P/N 13-10224 ..... **$12.95**

FLIGHT TESTING EXPERIMENTAL AMATEUR-BUILT AIRPLANES - tThis flight test guide presents the essentials of safe and technically sound flight testing to the amateur-builder pilot community in a practical, easy to understand way.
Book ..... P/N 13-20142 ..... **$34.95**
E-Book..... P/N 13-20143 ..... **$24.95**

AIRCRAFT WEIGHT AND BALANCE HANDBOOK - An overweight aircraft, or one whose center of gravity is outside the allowable limits, is inefficient and dangerous to fly. The responsibility for proper weight and balance control begins with the engineers and designers and extends to the pilot who operates and the Aviation Maintenance Technician who maintains the aircraft.This book explains in detail the process to determine the weight and balance of any aircraft.
Book ..... P/N 13-01059 ..... **$10.95**
E-Book..... P/N 13-05934 ..... **$7.95**



ASA AIRPLANE FLYING HANDBOOK - The FAA's Airplane Flying Handbook (previously called Flight Training Handbook) has been required reading for all pilots for more than 30 years! This book introduces the basic pilot skills and knowledge essential for piloting airplanes. It benefits student pilots just beginning their aviation endeavors, as well as those pilots wishing to improve their flying proficiency and aeronautical knowledge, pilots preparing for additional certificates or ratings, and flight instructors engaged in the instruction of both students and licensed pilots. This new edition features full-color illustrations, and expands all technical subject areas from the previous edition.
Book ..... P/N 13-10219 ..... **$15.95**
E-Book..... P/N 13-05886 ..... **$14.95**

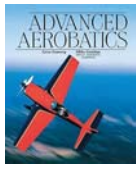
ROTORCRAFT FLYING HANDBOOK - Rotorcraft Flying Handbook - FAA Manual # H-8083-21 is the FAA's official helicopter and Gyroplane manual containing all the information required for applicants for their helicopter private, commercial, and flight instructor written exams and certificates. Systems, aerodynamics, and operations are covered for both helicopters and gyroplanes, as well as human factors, common errors, instrument and night operations, and basic and advanced maneuvers.
Book ..... P/N 13-00735 ..... **$12.95**
E-Book..... P/N 13-05892 ..... **$11.95**

AVIATION WEATHER SERVICES - This text thoroughly explains the many U.S. aviation weather products and services available to pilots. Weather product examples and explanations are taken primarily from the Aviation Weather Center's Aviation Digital Data Service. The AC provides hundreds of weather website addresses for weather resources and definitions. It is an unprecedented level of convenience and study access for pilots planning flights and researching weather.
Book ..... P/N 13-10229 ..... **$17.85**
E-Book..... P/N 13-05914 ..... **$18.95**

YOUR PILOT'S LICENSE - An updated version of the classic book that has helped aviators take off for more than a quarter century. Written in an easy-to-understand style by a certified flight instructor with practical advice on what it takes to learn how to fly an airplane. 8th Edition.
P/N 13-11268 ..... **$18.75**

THE ILLUSTRATED BUYER'S GUIDE TO USED AIRPLANES - The best way for private pilots with limited means to obtain the plane of their dreams is to purchase a used one -- and there's no better way to buy one without getting burned than this heavily illustrated guide. Focusing on airplanes priced at $100,000 or less, the author walks readers through the entire process of purchasing a used plane: prospecting the market, determining a plane's true value, closing the deal, partnership, and much more. Author: BIll Clarke ..... P/N 13-07716 ..... **$54.95**

POWERED PARACHUTE HANDBOOK EBOOK - Here the pilot is shown the realm of powered parachute flight and given information and guidance in the performance of procedures and maneuvers required for pilot certification. This book is the official FAA source for learning to fly powered parachutes and many test questions for the powered parachute FAA Knowledge Exam come from this reference. Illustrated throughout with full-color graphics and photography.
E-Book..... P/N 13-05900 ..... **$21.95**



ADVANCED AVIONICS HANDBOOK - The Federal Aviation Administration's Advanced Avionics Handbook is a critical tool for anyone seriously interested in flying modern airplanes. This easy to read handbook introduces pilots and other readers to flight operations in aircrafts with the latest integrated "glass cockpit" advanced avionics systems. Critical topics covered include: which advanced avionics system to use and when, automated flight control, advanced weather data systems, area navigation, primary flight display failures, and more. With the unprecedented amount of information now available at a pilot's fingertips, the Advanced Avionics Handbook is the perfect guide for translating raw scientific data into critical flight intelligence.
P/N 13-11596 ..... **$12.95**

CLOSE CALLS: LESSONS TO LIVE BY - Aviation masters, Bob Hoover and Wayne Handley share the wisdom gained from more than 50,000 hours of combined flying experience, often in extreme conditions. Each of them share how they survived near-impossible-to-escape inflight emergencies by applying simple safety principles.
P/N 14-02173 ..... **$19.95**

FLYING THE TAILWHEEL AIRPLANE
Alsip aims to identify common habits that cause poor pilot performance, and suggests "key points", memory aids, that help develop better pilot habits. The principles laid out in the book are applicable to all pilots flying all types of small airplanes, and are prerequisite to learning to fly advanced maneuvers safely. The book offers an abundance of photographs from the cockpit demonstrating key points and principles from the pilot's perspective. Emphasis on where to look, what to see and what to do about it makes this teaching style and book unique and effective. .....P/N 13-11863 ..... **$24.95**

ADVANCED AEROBATICS
In this lesson-by-lesson guide, accessible text from aerobatics champions, sequential cockpit-view photographs, and sophisticated computer graphics provide an effective primer on 20 advanced aerobatics maneuvers. P/N 13-07602 ..... **$34.80**

BV

COMPOSITE MATERIALS FABRICATION HANDBOOKS - From explanations of what a composite is, to demonstrations on how to actually utilize them in various projects all to empower even the most apprehensive beginner. Composites Fabrication Handbook #2 is written for those who want to enhance the quality and performance of their composite projects. Learn what it takes to truly optimize a composite lamination for high-performance use. Basic mold making is covered in this book to help fabricators produce effective mold systems from a variety of molding materials. Several advanced molding techniques are demonstrated in-depth. Presents each subject in a hands-on, practical way. Handbook #3 expands further on mold-making techniques showing some special methods for creating molds and composite copies of existing parts, fabricating molds from clay models, and making advanced mold systems using computer modeling software and CNC equipment.

Handbook #1 ..... P/N 13-11266 ..... **$27.95**
Handbook #2 ..... P/N 13-11267 ..... **$27.50**

AIRCRAFT DESIGN: A CONCEPTUAL APPROACH - This highly regarded textbook presents the entire process of aircraft conceptual design in the same manner seen in industry aircraft design groups. The book is the required design text at numerous universities around the world and is a favorite of practicing design engineers. The new fourth edition is enhanced in many areas, with improvements and reworking of the text, expanded sizing and analysis methods, and up-to-date treatments of emerging technologies and concepts. A new section provides an introduction to spaceflight and rockets including thrust analysis and vehicle sizing for launch and planetary missions. Appendices are revised and additional exam questions are provided.

Book ..... P/N 13-04237 ..... **$103.95**
Software ..... P/N 13-04238 ..... **$108.95**
Book/Software .... P/N 13-04561 ..... **$156.80**

ASA UNDERSTANDING FLYING - A common sense, practical approach to the basics of flying. Everything you need to know to operate an airplane safely. A real understanding of the principles of flight and the operations associated with flying the way it's done today. Will help you avoid guesswork and put you in touch with true professional skills and attitudes. Beginning pilots can absorb new pieces of knowledge and experienced aviators can gain insight to improve their proficiency.

P/N 13-02385 ..... **$17.75**

ASA AVIATION INSTRUCTOR'S HANDBOOK - Designed for ground instructors, flight instructors, and aviation maintenance instructors, this Aviation Instructor's Handbook was developed by the Federal Aviation Administration (FAA) in cooperation with aviation educators and industry to help beginning instructors understand and apply the fundamentals of instruction. This handbook provides up-to-date information on learning and teaching, and how to relate this information to the task of teaching aeronautical knowledge and skills to students. Experienced aviation instructors will also find the information useful for improving their effectiveness in training activities.

P/N 13-19380 ..... **$15.25**

SAFER SKIES - The past and future of airline safety—a memoir of successes, crashes, and near misses—by a former FAA accident inspector. Find out the truth about airplane safety and discover what the future holds for air travel in Safer Skies. ..... P/N 13-18192 ..... **$16.95**

HELICOPTER AERODYNAMICS BY RAY PROUTY - For many years, Ray W Prouty brought the black art of helicopter aerodynamics into a refreshing new light for the readers of Rotor & Wing International magazine. The original three books were published before the computer age revolutionized the book publishing industry, and none of the original text, drawings or photos were available electronically. In some cases, the original photos were no longer available, even from Ray's private collection, so other comparable photos were obtained from Ray. Well known helicopter test pilot and author Shawn Coyle (Art & Science of Flying Helicopters and Cyclic & Collective: More Art and Science of Flying Helicopters) was the initial driving force behind the effort to resurrect Prouty's works, and contributed his knowledge and keen eye in proof- reading. The result is a very readable, hefty 500 + page work, jam packed with extraordinary insights into helicopter aerodynamics, design, and handling. Soft Cover 550 Pages. P/N 17-00004 ..... **$34.50**

ZEN PILOT - FLIGHT OF PASSION AND THE JOURNEY WITHIN - Robert DeLaurentis had an impossibly big dream: to circumnavigate the globe in a single-engine piston plane. Meant to be the ultimate test of his flying skills as a pilot,the journey would take him to the ends of the earth and over some of the most inhospitable terrain on the planet. DeLaurentis shares the insights he gained for overcoming paralyzing fear, defeating obstacles, and confronting any situation with grace and ease. P/N 13-19678 ..... **$18.95**

THE FAR/AIM IN PLAIN ENGLISH - The FAR/AIM is a daunting book. Learn what you really need to know for your sport/private pilot certificate. Every regulation that applies to you and your certificate is plainly laid out and broken into simple, conversational english. It's everything you need from the FAR/AIM and nothing you don't.

P/N 13-11679 ..... **$29.95**

UNDERSTANDING TFR'S BY JERRY MILLER - Temporary Flight Restrictions (TFRs) are a fact of life for every pilot today. Unfortunately, TFRs are complex and, quite often, difficult to decipher. If you are a responsible pilot who wants some good, solid information about TFRs and how to avoid intrusions, then Understanding TFRs is the book for you. by Jerry Miller. ..... P/N 17-00037 ..... **$10.75**

AIRCRAFT WIRING GUIDE - This book is for experimental aircraft builders who want to know how to plan and wire their aircraft. First-time builders will learn how to start thinking about and planning for the electrical system. Advanced builders can keep abreast of the latest technologies and products. This book is designed to focus on the practical information you need to make important decisions about the architecture of your electrical system, what parts to buy, and how to wire it all together. P/N 13-18050 ..... **$549.00**

EAA SHEET METAL BUILDING BASICS - EAA's continuing "how-to" series of educational materials for building your own aircraft now includes, Sheet Metal Building Basics, written by longtime builder and SportAir instructor Jack Dueck. Jack is a sheet metal construction expert and serves on the EAA Homebuilt Council, the EAA Canadian Council, and is an EAA Technical Counselor for his home Chapter 1410 in High River, Alberta, Canada.

P/N 13-11625 ..... **$28.50**

COMPOSITE AND FIBERGLASS MOLDING TECHNIQUES - The colorfully illustrated and bound 26-page booklet contains a list of required materials for creating composite tooling and parts as well as a glossary of associated terms used in the composite molding process. The booklet explains the basics of positive plug construction, including materials usage, the determination of mold break lines and the set up of the positive plug for mold casting. Materials usage for positive plug construction, as well as mold (tooling) construction and final part lay-up materials and some basic finishing techniques provides the basics for completing a set of tooling for composite parts.

P/N 13-11800 ..... **$28.50**

AIRCRAFT MAINTENANCE AND REPAIR - Provides coverage of practical skills while building a foundation for more advanced learning. It offers a thorough presentation of all aspects of aircraft maintenance and repair, including information on new materials, structures, systems, and processes. All the theoretical and practical information that students need for certification as FAA airframe technicians in accordance with Federal Aviation Regulations (FAR).

P/N 13-11675 ..... **$96.00**

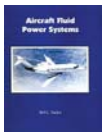
AIRCRAFT WIRING AND ELECTRICAL BONDING - This is a highly detailed manual published by by Aircraft Technical Book Company under license by the Australian Civil Aviation Safety Authority (CASA) presenting indepth instructions for aircraft electrical work covering topics from aged wiring inspection to modern fiber optic installation, inspection and repair.

Book ..... P/N 13-11205 ..... **$24.95**
E-Book..... P/N 13-11236 ..... **$18.95**

AIRCRAFT PARTNERSHIP - Covers all the bases, with: Real life case-study partnership profiles. Step-by-step walk-through of the preparation of your partnership agreement. Figuring the costs. Legal issues. Operations. Gives the reader a virtual partnership kit - with all the tools and information you need to construct a good, working aircraft partnership.

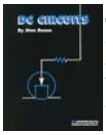
Book ..... P/N 13-07605 ..... **$19.95**
E-Book..... P/N 13-09836 ..... **$27.00**

BV



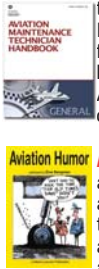
AIRCRAFT RIGGING - Airplane rigging has a large influence on aircraft performance and is often the most easily changed. This manual on airplane rigging continues on where most manuals and instructions leave off, and provides some answers to the many questions that arise when building or rigging an airplane. The factors driving the various rigging geometries are discussed, and methods and tools of measurement are illustrated for many different situations and airplane configurations.
Book ..... P/N 13-09032 ..... **$24.95**
E-Book..... P/N 13-05955 ..... **$21.95**

COMPREHENSIVE GUIDE TO AIRFOIL SELECTIONS - Depicts over 500 actual airfoil designs for light aircraft individually described pictorially, graphically, and by specifications, and with each giving: dimensions in span, chord, camber; percent of chord, lift to drag, center of pressure, drag & lift coefficients curves by angle of attack; and some historical information. Book ..... P/N 13-09036 ..... **$22.95**
E-Book..... P/N 13-09039 ..... **$21.95**



AIRCRAFT FUEL SYSTEMS - Aircraft Fuel Systems begins with basic fuel system requirements, then goes on to explain types of aviation fuel, fuel systems and fuel system components, fuel tank repair and testing, and fuel system servicing. It wraps up with a comprehensive look at the Boeing 767 fuel system and its various fuel related components. 62 Pages.
Book ..... P/N 13-09848 ..... **$14.95**
E-Book..... P/N 13-05933 ..... **$13.45**

AIRCRAFT FLUID POWER SYSTEMS - Aircraft Fluid Power Systems takes a comprehensive look at hydraulic and pneumatic systems on today's aircraft. Its seventeen chapters cover the basics, fluid lines and fittings, hydraulic system components, valves, tires, tubes, and wheels, aircraft brakes and anti-skid brake control systems, structures that support aircraft on the ground, aircraft retraction systems, nose wheel steering systems, and skis and floats. There is also information on specific aircraft hydraulics such as Boeing 727 and 757, the Cessna Citation, Gates Learjet 25, and the Canadair 601. 468 Pages.
Book ..... P/N 13-09845 ..... **$49.95**
E-Book..... P/N 13-05928 ..... **$44.95**



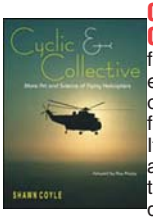
AIRCRAFT ENVIRONMENTAL SYSTEMS - Aircraft Environmental Systems covers a variety of topics including air conditioning and pressurization systems, aircraft atmospheric control systems, aircraft oxygen systems, ice and rain control systems, and fire protection systems. The five chapters also span a wide spectrum of aircraft in use today from small single-engine planes up through the jumbo jet liners such as the Boeing 727 and 767. 182 Pages.
Book ..... P/N 13-09847 ..... **$34.95**
E-Book..... P/N 13-05931 ..... **$31.45**

JEPPESEN DC CIRCUITS EBOOK - DC Circuits explained step by step. This book is designed to provide basic theory and practical information to the avionics technology student with at least a high school level background in mathematics and physics. Explains wiring diagrams, color coding, the use of various electronic components including resistors, conductors, and power sources.
E-Book..... P/N 13-09830 ..... **$18.49**

AVIATION MAINTENANCE TECHNICIAN HANDBOOK - FAA did a terrific job with this new generation A&P General Textbook. It is fully up to date, easily readable, well illustrated, and in full color. It is also the "official" book from which all FAA knowledge test questions are derived. In reviewing this book, Aircraft Technical Book Company, together with five part 147 colleges, have identified numerous errors and omissions.
P/N 13-06257.....**$27.85**

AVIATION HUMOR - A very large collection of aviation jokes, anecdotes, one-liners and wisdom. In 34 chapters: civil aviation, training, ATC, military, accidents, FAA, woman pilots, the Captain, parachutes, gliders, technical matters, sex and aviation, weather, landings, flying rules, airlines, passengers and many more. Collected by Ziva Bergman during many years. P/N 13-13068.....**$11.95**

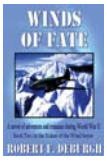
ESSENTIALS OF ADVANCED COMPOSITE FABRICATION & REPAIR - This textbook teaches the concepts and methods in a simple and straightforward manner for a wide array of composites fundamentalsSome of the subjects covered in Essentials of Advanced Composite Fabrication and Repair include: History and development of composite and advanced composite materials. Matrix technology. Fiber reinforcements. Molding methods and practices. Core materials. Tooling, and much more.
Book ..... P/N 13-07295.....**$48.95**
E-bundle ..... P/N 13-15503.....**$52.95**



PROPELLER CARVING THE ALL POWER TOOL CD - Propeller Carving - The All Power Tool Method, contains detailed, step-by-step, easy-to-follow instructions and commentary, with forty-two high quality pictures and diagrams (sixty-three printed pages in all). This is not a video. This essay is geared toward homebuilders who know virtually nothing about propeller carving. The essay outlines the author's successes, mistakes, and specifies exactly what to do and what not to do. It is available now, on CD in PDF format. P/N 13-07333.....**$29.95**

COCKPIT PROCEDURES - EFFECTIVE ROUTINE FOR PILOTS AND VIRTUAL AVIATORS - Written by an experienced instructor and pilot examiner, Cockpit Procedures provides a solid understanding of the underlying principles and detailed descriptions of the checklists and routines used in many flight schools. This book is a description of what you should be doing during each phase of flight, including emergencies and training maneuvers. Readers will find it contains a practical definition of airmanship, good habits to develop, workload management, and even what you should have in your flight bag. This book covers actual cockpit actions and thinking, providing the rationale behind common procedures that are standard practice in the training environment and in the airlines.
P/N 13-06254.....**$14.95**

101 CROSSWORDS FOR PILOTS - Pilots are inherently drawn to puzzles; problem-solving and playing the "what-if" game are in their nature. They share a fascination for anything and everything about airplanes and flying.
The over 6,000 clues used in 101 Crosswords for Pilots will provide hours of enjoyment for pilots and aviation history enthusiasts, stimulating recall of stored knowledge as well as satisfying that innate yearning to learn more.
P/N 13-06255.....**$12.75**



CYCLIC & COLLECTIVE 2ND EDITION, ART & SCIENCE OF FLYING HELICOPTERS - This unique book , written from the perspective of the pilot provides a detailed, yet easy to understand overview of the theory and practice of helicopters. It covers nearly all aspects of learning to fly a helicopter, from basic theory through autopilots. It offers detailed explanations for both the beginner and advanced pilots on performance, handling and the mechanics of helicopters. Paperback, 458 pages, definitions
E-Book..... P/N 13-10432 .....**$40.95**

ULTRALIGHT FLIGHT - (Mike Markowski) Ultralight aerodynamics, stability and control, design and performance, plus a fascinating history of the sport. A down-to-earth explanation of the theory of flight. P/N 13-16000 .....**$19.95**

THE ART OF PARAGLIDING - Step-by-step training, Ground handling, Learning judgment. History of paragliding, Equipment concerns, How paragliders work. Perfecting turns, Avoiding dangers, Special chapters on takeoff and landing. Parachute insights, Thermal lore, Flight rules, Performance factors. USHGA rating guide, Basic weather for paragliding and much more!
P/N 13-15981.....**$32.95**

WINDS OF FATE - Winds of Fate takes place during World War II, but you cannot call it a war story. It is the story of Charlie Cross and his wife Doretta, both civilians but ultimately tied to the military, Charlie as a Service Pilot with Air Transport Command and Doretta as an instructor with the Women Airforce Service Pilots. Winds of Fate is a fast paced well-written novel that everyone will enjoy reading. You do not need to be a fan of aviation or World War II stories to appreciate this book. The reader will be entranced by the action, brought to tears when someone is lost and filled with happiness when true love is found. Anyone who loves a great story will find it difficult to put this book down once you get started. ..... P/N 13-18541 ..... **$16.95**

12 Month Subscription.....P/N 13-11643 .....**$45.00**

27 YEARS OF THE RV-ATOR (ANDREW GOLD) – An outstanding collection of newsletter reprints of Van's Aircraft's line of RV homebuilts. A must for any builder of RV homebuilt aircraft. Book.....P/N 13-25450 .....**$22.50**
CD.....P/N 13-04959 .....**$20.80**

AIRCRAFT SPRUCE AND PLYWOOD - Reprint of Government Specifications MIL-S-6073 and MIL-P-6070.
P/N 13-14900 .....**$5.95**

AN ILLUSTRATED DICTIONARY OF AVIATION - An A-Z compilation of terms, definitions, and illustrations from the general aviation, commercial airline, and military sectors. It can be used as a dictionary, reference, or learning tool.
P/N 13-07746 .....**$144.75**

THE AVIATRIX - The Aviatrix is a candid, sometimes funny, definitely scary but straight forward, behind the scenes, first-hand look into the process of becoming a pilot. Kim tells you what most pilots, especially men won't dare whisper. She explain terms, concepts and procedures in a way that even a blond could grasp. And when you're finished reading The Aviatrix you'll feel as though you can do something you never thought you could; just like Kim.
P/N 13-19044 .....**$15.95**

ADVANCED AIRMANSHIP BOOK 1 PRECISION FLYING - This is the first of the three part Advanced Airmanship Series. In this series, Professional Kumpula summarizes his 30 years of experience researching the aerodynamics of flight technique into clear explanations and procedures. Computer based flight simulation demonstrations and specialized tools substitute for conventional mathematical explanations and are included on a CD.
P/N 13-07355 .....**$29.95**

WORKING HEALTHY & WORKING HEALTHY SOLVENTS BUNDLE- This is a "no excuses" book that belongs with every A&P student, mechanic, technician, aircraft builder, repair station library, and training and repair station manager. A manual on health and safety techniques written by an aviation medical examiner specifically for the aviation technician. Learn how to protect yourself from the many risks and long term health issues common in an aviation facility. Learn to advise and protect your most valuable assets (your employees and students)
P/N 13-06886 .....**$35.00**

AIRFRAME & POWERPLANT MECHANICS POWERPLANT HANDBOOK – Contains information on engine construction features, lubrication systems, exhaust systems, cooling systems, cylinder removal and replacement, compression checks and valve adjustments.
Book .....P/N 13-19220 ..... **$39.95**

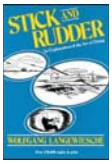
PRIVATE WINGS- Paul Wallem relives four decades of life in the air. Aided by his meticulously kept logbooks, Paul shares 94 stories, from his first flight in 1973 through his last one in 2012. Each of his eight airplanes carried him through the magical world of aviation. His home away from home over these years has been Poplar Grove Airport (C77) in Illinois, one of the best of many great general aviation airfields.
P/N 13-19066 .....**$16.95**

LESSONS FROM THE LOGBOOK - The skills of flight either improve or slowly erode, but they rarely remain unchanged. Lessons from the logbook strives to make sure of the former and is organized to reflect all the phases of flight, concluding with a section on recurrent training. Chapters provide piloting technique on such diverse topics as night flying, what to do when you get stuck above or below a cloud deck, evaluating real-life takeoff performance, and much more. Fowler is an ideal flight instructor-experienced, patient, entertaining, and with excellent communication skills. P/N 13-05019 .....**$14.95**

FLIGHT INSTRUCTORS SURVIVAL GUIDE- Through artful storytelling, McMahon shows how a successful instructor is sometimes a psychologist, other times a detective, and always a gatekeeper enforcing rules and cultivating the behaviors required to be a responsible aviation citizen.
P/N 13-20136 .....**$14.55**

TRANSITION TO TWINS – YOUR MULTI-ENGINE RATING (by DAVID ROBSON) -This is one of the most concise and well-illustrated books on flying twin-engine airplanes, covering all facets of multi-engine flight, including: • Orientation to multi-engine terms, definitions, and systems • Pre-flight, ground operations, takeoffs, high speed flight, slow flight, stalling and landings • Single-engine operations, with a comprehensive discussion and practical suggestions on factors affecting controlability, VMC, & performance • Abnormal operations, including fires, engine and system failures, spins, landing gear lock-ups, icing, & bird strikes • Flight planning, including weight & balance, and performance calculations • Night & IFR operations • Commercial operations, introducing the factors involved with passengers, crew, cargo, schedules, duty times, and the airmanship required. 220 pgs.
P/N 13-00793 ..... **$14.95**

THE COMPLETE ADVANCE PILOT: A COMBINED COMMERCIAL & INSTRUMENT COURSE (BY BOB GARDNER) – Chapter cover such topics as flight instruments, aerodynamics, airplane performance, navigation, weather, charts and publications, the IFR system and departures, en route operations, arrivals, instrument approaches, cockpit organization and procedures, regulations, advanced operations and preparing for the checkride. Each chapter includes questions taken from the FAA tests. Helpful web addresses, found throughout the book, are new to the Third Edition.
P/N 13-01714 ..... **$22.95**



AIRCRAFT GAS TURBINE POWERPLANTS - Newly revised to include the most up-to-date information on aircraft gas turbine powerplants and updated coverage of jet engine technology. Extensive cross-reference between today aircraft and engines. Now includes over 500 illustrations, charts and tables. Written by Otis & Vosbury. 514 pages.
P/N 13-02421 ..... **$22.95**

MASTERING THE E-6B FLIGHT COMPUTER - Mastering the E-6B Flight Computer; a new book by Mike Arman, launches with this history of the humble yet elegant flight computer before delving into a thorough tutorial on its use. Although some student pilots actually fear these devices (and more than a few seasoned pilots have forgotten how to use them), the E6B is a no-fail way to make numerous critical calculations both before and during cross-country flights You can use the book to learn how to figure everything from time/speed/distance problems to fuel burn, from density altitude calculations to wind triangles and drift. Arman, an advanced ground instructor and pilot, uses many examples in each lesson to illustrate E6B concepts.
P/N 13-04709 ..... **$23.95**

POWERING YOUR PLANE - "Powering Your Plane" by Dave Prizio is a book that will help readers correctly install a Lycoming-type engine. It covers each step of the engine installation process, including selecting an engine for your project, firewall construction, plumbing, electrical, preparing for your first engine start, and more. By focusing just on Lycoming and similar engines, such as those by Superior and Continental ECi, the author is able to go into great detail about the types of engine installations that most builders use.
P/N 13-20977 ..... **$26.95**

STICK AND RUDDER - Because the basics are largely unchanging, the book therefore is applicable to large airplanes and small, old airplanes and new, and is of interest not only to the learner but also to the accomplished pilot and to the instructor himself. When Stick and Rudder first came out, some of its contents were considered highly controversial. In recent years its formulations have become widely accepted. Pilots and flight instructors have found that the book works. Today several excellent manuals offer the pilot accurate and valuable technical information. But Stick and Rudder remains the leading think-book on the art of flying. One thorough reading of it is the equivalent of many hours of practice.
P/N 13-26400 ..... **$28.95**

SHOT DOWN - The true story of pilot Howard Snyder and the crew of the B-17 Susan Ruth is about the dramatic experiences of each member of a B-17 crew after their plane was knocked out of the sky by two German Focke-Wulf 190 fighters over the French Belgian border. The print edition of the book has more than 200 time period photographs of the people who were involved and the places where their stories took place.
P/N 13-18400 ..... **$25.95**

BV

BOOKS

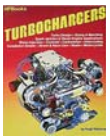
ASA AIRPLANE FLYING HANDBOOK - Introduces the basic pilot skills and knowledge essential for piloting airplanes. It benefits student pilots just beginning their aviation endeavors, as well as those pilots wishing to improve their flying proficiency and aeronautical knowledge, pilots preparing for additional certificates or ratings, and flight instructors engaged in the instruction of both students and licensed pilots. Features full-color illustrations, and expands all technical subject areas. Also incorporates new areas of safety concerns and technical information. Introduces the future pilot to the realm of flight and provides information and guidance in the performance of procedures and maneuvers required for pilot certification. The official FAA source for instructional flying. 8-3/8" x 10-7/8" format, 280 pages. P/N 13-00975 ..... **$14.95**

THE MAGNETO IGNITION SYSTEM - An absolute treasure trove of information about the Bendix and Slick magnetos used on virtually all piston aircraft engines. The book covers everything you could possibly want to know about how your aircraft ignition system works. P/N 13-13086 ..... **$12.85**

BURT RUTAN AERONAUTICAL AND SPACE LEGEND - Burt Rutan is universally acknowledged to be a true aviation and space pioneer. Award-winning author Daniel Alef tells the remarkable story of an American legend and treasure. In addition to creating more than 50 unique aircraft, Burt Rutan was the driving intellectual and organizational force behind the first non-stop, around-the-world flight with the Voyager aircraft and the first privately-accomplished suborbital space flight with Space Ship One. No other pioneer spans such a range. Includes 57 unique full-color images. P/N 13-20642 ..... **$29.95**

FLYING & GLIDER MANUALS

Edited reprints of the original "Building and Flying Manuals" published from 1929 to 1933 by Modern Mechanix and Inventions. 70 pages each.



1929 FLYING & GLIDING MANUAL – Contains information on flight lessons plus building the Heath Super Parasol, Russell-Henderson Light Monoplane and an easy to build glider. P/N 13-40600 ..... **$6.95**

1930 FLYING & GLIDING MANUAL – Plans for building a Heath Baby Bullet, set of light plane metal floats, building the Northrop Glider, Lincoln Biplane, Alco Sportplane, plus other tips on building and welding. P/N 13-40605 ..... **$6.95**

1931 FLYING & GLIDING MANUAL – Building the "Longster," Georgias Special, a glider and secondary glider, Driggs Dart, the Church Midwing, the Heath Seaplane Parasol and its pontoons, the Northrop Glider and other gliders. P/N 13-40610 ..... **$6.95**

1932 FLYING AND GLIDER MANUAL - Building the Pietenpol Aircamper with Ford motor conversion, Powell "P-H" Racer, the Heath Super Soar Glider, Penguin practice plane, Ramsey "flying bathtub" and other kits. Also, build your own hangar. P/N 13-40615 ..... **$7.50**

1933 FLYING & GLIDING MANUAL – Building the Gere Sport Biplane, Pietenpol Floats, Pietenpol Sky Scout, and Henderson Longster, Also Long Harlequin motor plans, a hydroglider and information on building propellers. P/N 13-40620 ..... **$7.75**

TURBOCHARGERS (AUTHOR: HUGH MACINNES CO-AUTHOR: TOM MONROE) - The ONLY book in the world that fully explains the benefits of turbocharging piston engines. Used by most aircraft and auto factory engineering departments as THE sourcebook for designing turbo systems. Also used by race car and aircraft owners to design better-than-stock turbo installations. Many examples of high horsepower turbo engines. 3rd revision, latest info. 160 pages, 154 photos, 131 drawings, 70 charts. P/N 13-20615 ..... **$22.50**

WOOD AIRCRAFT BUILDING TECHNIQUES (120 PAGES) – Excellent resource book on "How To" build or repair wood aircraft. P/N 13-40635 ..... **$16.80**

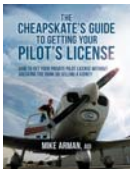
ROTAX 462 - 532 - 582 REPAIR MANUAL - The Rotax Repair Manual for engines 462 - 532 - 582 UL. Contains complete details on maintenance and repair of Rotax liquid cooled motors. Hundreds of illustrations take you step by step through a complete rebuild. Also includes, full specifications on all critical measurements, adjustments, troubleshooting, torque specs, RV shaft service, schematics, specialty tools, and much more. Never before available procedures for measuring crankshafts, pistons, and cylinders for determining wear limits. Full 170 pages. P/N 15-05899 ..... **$14.95**

FLYING THE CESSNA 210 THE SECRETS UNLOCKED - This all-new primer on owning and flying the Cessna 210 Centurion is dedicated to helping all who own or want to fly a Cessna 210 master the art of piloting this complex airplane. Author Chuck McGill covers the wide gamut of 210 models, accessories, and modifications, offering his wisdom on optimum performance and safe operations based on his thousands of hours of flying and teaching in the airplane. 196 pages. Book ..... P/N 13-12431 ..... **$44.95**

ASA AVIATION INSTRUCTOR'S HANDBOOK - Written by the FAA. Includes principles of teaching and learning, with extensive details on how to pass along aeronautical knowledge and skills. 152 pages, glossary, index. P/N 13-19380 ..... **$15.25**

AIRPLANE FLYING HANDBOOK - FAA-H-8083-3 reprint. Completely rewritten and revised in 1999. Introduces basic pilot skills and aeronautical knowledge to student pilots. It is also beneficial to pilots who wish to improve their flying proficiency and aeronautical knowledge, those pilots preparing for additional certificates or ratings, and flight instructors engaged in the instruction of both students and certified pilots. Supercedes AC61-21A Flight Training Handbook. P/N 13-00975 ..... **$14.95**

AIRCRAFT WELDING (94 PAGES) - Fundamental welding techniques for the building and repair of aircraft, from the pages of Sport Aviation and other sources. 94 pages filled with aircraft welding tips and information. P/N 13-40630 ..... **$16.70**



THE MAKING OF THE DAISY MAE - Over 200 pages of solid, easy to understand information on Design and Construction of the author's own personal biplane. Plenty of illustrations. The plans give detailed instructions for constructing The Daisy Mae Aircraft. Materials kit list is available from Aircraft Spruce. See the kits section for plans. P/N 13-04086 ..... **$34.95**

AIRCRAFT SYSTEMS FOR PILOTS - Single-source manual of what pilots should know about basic aircraft systems. Previously published by Jeppesen. Previously published by Jeppesen, Aircraft Systems for Pilots is a single-source manual of what pilots should know about basic aircraft systems. It includes a study of the fundamentals of physical matter (from which airplanes are made) and mechanics (how airplane parts act and react). Study of each type of system allows the professional pilot to stay abreast of the critical learning that must occur upon advancement into management of more complex aircraft. P/N 13-20979 ..... **$29.50**

CHEAPSKATES GUIDE TO GETTING YOUR PILOTS LICENSE - Here's how you can earn a 100% valid FAA pilot's license - the real thing - for less than half of the retail rate. No compromises, no gimmicks, no excuses, no gotchas. If you have ever wanted a pilot's license but have cringed at the cost, this is the cure. This book can save you 100 times what you paid for it! P/N 13-15909 ..... **$23.95**

IFR COMMUNICATIONS KIT - This aviation communication resource is the companion to the VFR Communications Kit. It was designed to help you improve your IFR communications with less stress by making a 'script' for every IFR flight. Script assembly instructions, template descriptions, an ample supply of each of the 32 communication templates. After a few flights you will sound like a seasoned pilot! P/N 13-06865 ..... **$26.50**

FAA GLIDER FLYING HANDBOOK - This comprehensive handbook, created by the Federal Aviation Administration, supplies glider pilots with all the information they need for certification in the glider category. An all-in-one technical manual, the Glider Flying Handbook focuses solely on the precise science of glider flight. Complete and authoritative, the FAA's Glider Flying Handbook makes available to the reader everything from the history of glider flight to the skills needed to fly cross-country. This ultimate resource is the essential tool all student glider pilots need to get certified and all experienced flyers need to stay safe and informed. P/N 13-18408 ..... **$24.95**

TWIN CESSNA THE CESSNA 300 & 400 SERIES- The Cessna 310 broke new ground in general aviation when it appeared in 1953. It remained in production for nearly thirty years and nearly 6,000 were built. This book reviews the type's origins, competitors and development, including the many variants produced. Detail includes comments on ownership and operation, visual differences between individual models and after-market upgrades. P/N 13-20134 ..... **$34.95**

BV

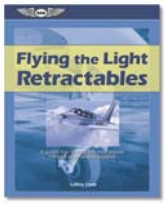
FLIGHT MANUALS BY WILLIAM KERSHNER

STUDENT PILOT FLIGHT MANUAL 10TH EDITION – Proves step-by-step ground and flight information for student pilots working on the private certificate. Full of useful information for safe flying and cites common errors by new pilots. Includes more than 280 illustration, photographs, and charts. 368 pages, paperback. .....P/N 13-32230 .....**$19.85**
eBundle.....P/N 13-18879 .....**$27.99**

THE ADVANCED PILOT'S FLIGHT MANUAL 7TH EDITION – Provides information needed by veteran pilots preparing for the commercial written and flight tests. Explains effects of light, drag, thrust, altitude, and temperature on aircraft performance. Includes over440 tables, charts and illustrations plus a sample commercial written test and answers. 342 pages. P/N 13-32225..... **$17.50**

FLIGHT MANUALS BY WILLIAM KERSHNER - Teaches everything pilots need to know to acquire and maintain an instrument rating. Covers airspace, clearances, and altitudes relating to high performance, retractable gear, four place aircraft. Includes ATC procedures, partial panel flying, and weather flying. 296 pages, paperback.
Book..... P/N 13-32215..... **$17.95**
eBundle..... P/N 13-18880..... **$27.99**

FLIGHT INSTRUCTOR'S MANUAL – The Flight Instructor's Manual is an invaluable reference for flight instructor applicants and serves as an indispensable guide for both new and experienced instructors (CFIs). Organized so each chapter can be used as a stand-alone reference for a particular phase of instruction, allowing it to serve as a "how to teach" guide on topics including: fundamentals of flight instruction (FOI), presolo instruction, first solo to the private certifi cate, advanced VFR instruction, introduction to aerobatic instruction, and instrument instruction. The book also features a comprehensive spin syllabus, material on multi-engine airplanes, instructing international students, teaching ground school, and setting up tests.
P/N 13-32220..... **$21.80**
e-Bundle ..... P/N 13-21124..... **$32.70**



BASIC AEROBATIC MANUAL - In this manual covering basic aerobatics, Bill Kershner introduces maneuvers in order of difficulty, covering a variety of them in his clear, understandable, and humorous style. The Basic Aerobatic Manual is fully illustrated with the author's own drawings and contains a practical syllabus, a detailed bibliography and an index. Though the manual emphasizes airspeeds and techniques recommended for the Cessna Aerobat, the maneuvers described in the book may be performed in other airplanes certified for aerobatics.
P/N 13-32210 ..... **$15.85**

DICTIONARY OF AERONAUTICAL TERMS (DALE CRANE) – A 1-volume library, explains more than 5,000 aeronautical terms and hundreds of abbreviations you should know. Almost 600 pages. Emphasis on aeronautical mechanics, engineering, electronics, and production.
P/N 13-28700.....**$14.95**

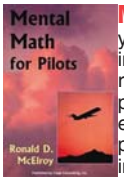
ASA PRACTICAL GUIDE TO CFI CHECKRIDE - Earning a flight instructor certificate (CFI) is extremely challenging and involves an immense amount of training, studying, preparation, and dedication. With the national pass rate for first-time flight instructor applicants hovering around 20%, the Practical Guide to the CFI Checkride provides thorough preparation to flight instructor applicants, and significantly increases their chances of success on the CFI checkride.
P/N 13--18768.....**$14.55**

ASA FLYING LIGHT RETRACTABLES - LeRoy Cook's guided tour through the most popular high-performance single-engine airplanes.
Follow author LeRoy Cook on a tour of the retractable-gear airplanes you've always wanted to learn more about. Flying the Light Retractables is an informative journey through the development history of each plane with plentiful insight into design considerations, evolutionary changes, advantages and disadvantages of the different models, and background on maintenance issues. Pilots or potential owners will really get a sense of the subtle or not-so-subtle differences; this is like going flying with the author and having the advantage of his eye for detail and sense of observation. P/N 13-17899 .....**$13.95**

INSTRUMENT PILOT FAA WRITTEN EXAM (IRVIN N. GLEIM) – The easiest, fastest, and least expensive method to pass the FAA written examination. All 832 FAA questions, answers next to each question, and outlines of what you need to know for each chapter. Only airplane questions are included.
P/N 13-32320 ..... **$20.95**

ATC & WEATHER: MASTERING THE SYSTEMS (2ND EDITION, BY RICHARD COLLINS) – In this exciting new edition, Richard Collins explains how to work air traffic control an dweather to maximm advantage on every flight. The emphasis is on judgment and the interface between pilot and environment. Addresses both VFR and IFR situations, from flight planning on through to arrival and landing. Soft cover, 172 pgs., indexed.
P/N 13-02356 ..... **$14.95**

NOTES OF A SEAPLANE INSTRUCTOR: AN INSTRUCTIONAL GUIDE TO SEAPLANE FLYING (BY BURKE MEES) – Gives pilot all the information they need to add a seaplane to their certificate. All the seaplane maneuvers are covered, starting with preflight, through taxiing, takeoff, landing, and postflight procedures; also operating in various water conditions, stability of the aircraft on the water, step-taxi and -turn, and much more. Many illustrations, inspired by the author's original seaplane notebook sketches, are included to further explain the concepts. Soft cover, 160 pages, illustrated. P/N 13-02367 .....**$14.95**



PILOT'S HANDBOOK OF AERONAUTICAL KNOWLEDGE – Written for the applicant preparing for the Private, Commercial, or Flight Instructor Certificates, it is also valuable to flight instructors as a teaching aid. Providing basic knowledge essential for all pilots—from beginning student pilots to those pursuing more advanced pilot certificates—this introduces pilots to the broad spectrum of knowledge needed as they progress through pilot training. This book has all the information necessary for operating an aircraft. P/N 13-00983 .....**$21.75**

SAY AGAIN, PLEASE: GUIDE TO RADIO COMMUNICATIONS - (2nd edition, by Bob Gardner) – This new edition adds material on GPS, Land and Hold Short Operations (LAHSO), and has been expanded and updated to reflect current rules and operating procedures. Chapters cover communication etiquette and rules, understanding radio equipment, emergency situations, and IFR communications & clearances. Also included: a concise summary of the FAA's communication facilities and their functions, airspace classifications and definitions, and FAA's recommended shorthand for copying clearances. Soft cover, 208 pages, illustrated & indexed. P/N 13-01064 ..... **$15.75**

INSTRUMENT FLYING HANDBOOK - This primary FAA source handbook for the Knowledge Exams covers the IFR system as well as aerodynamics, flight instrumentation, attitude flying and navigation as they apply to the instrument pilot. P/N 13-00986..... **$18.95**

MENTAL MATH FOR PILOTS (BY RONALD MCELROY) – If you are simply looking for a way to improve your math skills in the cockpit, then this book is a must read. Mental Math revs up the brainpower to quickly process not only those pesky math questions asked during airline interviews, but expands the mental hard drive to handle a wide range of practical number problems in flight. Soft cover, illustrated, includes index & glossary, approximately 117 pages.
P/N 13-03201 ..... **$14.95**

BUSH & MOUNTAIN FLYING HANDBOOK - 2ND EDITION - An extensive comprehensive and elaborate look on all techniques and procedures. Including twin engine aircraft and turbine engine operations. 270 pages. Paperback Author CC Pocock.
P/N 13-17897 .....**$34.50**

FLYING THE AERONCA - Written in 1981 by the famous Robert Livingston, this book is a must for all Aeronca owners. With over 2000 hours of Aeronca flying time, Robert has learned that all Aeronca models have common traits. He takes you through every phase of flight of the Aeronca and makes the reader feel comfortable in knowing the Aeronca is the right tail-dragger for them. 54 pages, spiral-bound.
Book .....P/N 13-09853 .....**$19.95**
EBook.....P/N 13-10245 .....**$17.95**

BV

BOOKS

FLYING IFR, 5TH EDITION (BY RICHARD COLLINS) – A guide to the real world of instrument flight, detailing the IFR system, equipment, and exploring the risks and rewards of instrument flying. The invaluable discussions on instrument airmanship, weather analysis, flight planning and decision making, handling equipment glitches, and that critical survival skill — partial panel flying — are all presented for the sole objective of better preparing you to fly on IFR flight plans. P/N 13-02363 ..... **$14.95**

FLYING THE WEATHER MAP (BY RICHARD COLLINS) – Following an in-depth discussion of the logic of aviation weather and basic theory, Collins takes you along on 46 actual cross-country flights. The anecdotes provide a valuable education in weather interpretation, forecasting and decision making. Soft cover, 234 pages, illustrated, indexed. P/N 13-02386 ..... **$14.95**

ASA AVIATION MECHANIC HANDBOOK – A core reference manual for mechanics, aircraft owners, and pilots, this book compiles specs from stacks of reference books and government publications into a handy, toolbox-size guide. All the information critical to maintaining an aircraft. P/N 13-02366 ..... **$12.95**

AERODYNAMICS FOR NAVAL AVIATORS – This textbook presents the elements of applied aerodynamics and aeronautical engineering which relate directly to flight training and general flight operations. Originally published by the U.S. Navy. 432 pages. P/N 13-01060 ..... **$16.95**

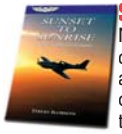
ASA AVIATION WEATHER – All pilots must learn to deal with weather: to appreciate good weather, to recognize and respect marginal or hazardous weather, and to avoid violent weather. Recognition of this and sound weather decisions are critical to the successful outcome of all flights. This book discusses each aspect of weather as it relates to aircraft operation and flight safety.

Softcover Book ..... P/N 13-01062 ..... **$8.95**
eBundle ..... P/N 13-21252 ..... **$13.95**

ASA AVIATION WEATHER SERVICES - Last revised in 1999, this new Advisory Circular 00-45F edition supersedes AC 00-45E, features full-color illustrations throughout, and full coverage of weather-related tools to assist every pilot's flight planning and in-flight decisions.
P/N 13-10229 ..... **$17.85**

AVIATION WEATHER COMBO PACK – Aviation Weather and Aviation Weather Services are packaged together for greater savings. Also includes laminated weather code key cards, detailing the TAF/METAR abbreviations. P/N 13-02341 ..... **$27.75**

TAMING THE TAILDRAGGER (JOHN F. BALL) – A flight manual for tailwheel aircraft, basic enough for the student pilot, thorough enough for the advanced. Includes performance figures and limitations for the classic planes, plus techniques and procedures for short- or soft-field operations, maintenance, transitioning from tricycle gear, more. 96 pages. Paperback. P/N 13-27100..... **$13.50**

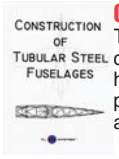


MAKING PERFECT LANDINGS IN LIGHT AIRPLANES (RON FOWLER) – No matter how long you have been a pilot and no matter what degree of skill you have attained, if you are to land perfectly you must exert 100% effort toward that task. Many pilots resign themselves to imperfect landings merely because they are unaware of the simple fact that even the pros must work at each landing.
P/N 13-23500..... **$14.95**

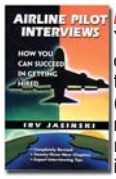
THE LOST ART - An action adventure/instructional novel that leads deep into the tailwheel underworld to reveal long-hidden ancient secrets of tailwheel flying.
P/N 13-18381.....**$19.95**

MAX TRESCOTT'S GPS & WAAS INSTRUMENT FLYING HANDBOOK - Recognizes that GPS is at the center of modern cockpits and not just add-on equipment. If you fly VFR or IFR with a panel-mounted GPS, you're bound to learn something you didn't know from my latest book about GPS, WAAS or operating your GPS receiver. It's a totally new book—NOT a new version of my G1000 book—that tells you what you need to know to safely operate modern GPS systems including detailed, step-by-step instructions for the Bendix/King KLN 94, Garmin GNS 430, 430W, 480, 530, 530W and G900X, G1000 and Perspective glass cockpits. P/N 13-06934.....**$42.95**

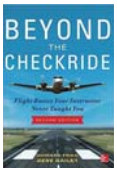
SUNSET TO SUNRISE- Sunset to Sunrise by David Robson Night flight is one of the most pleasant forms of flight. Every city looks good at night. The sparkling lights, stars, moon and reflections combine to produce a spectacle many only dream about. However, night flight requires different technique, perspective, and considerations than day operations. The aircraft must be flown with reference to the flight instruments, and the outside visual references take on new importance while at the same time providing different illusions. Night flight can be a test for even the most experienced pilot. P/N 13-03285.....**$14.95**



INSTRUMENT PILOT FLIGHT MANEUVERS – Provides a thorough explanation of each maneuver and task called for in the FAA's Instrument Practical Test Standards (PTS). The latest update improves upon its sound platform with even mor information for the pilot seeking an instrument rating. Both the 1998 and oral PTS are included so that the manual reflects the current standards you will encounter during the checkride. In the intervening years, the FAA has changed some terminology in the PTS, and this fine-tuning is also present in this, the third, edition of the manual. With GPS and RNAV navigation much more commonplace, these inclusions have also been made by the FAA. In addition to the technical changes, the publisher has also improved the graphics to better illustrate each maneuver, while retaining those maneuvers that the FAA had deleted from its Instrument Flying Handbook for greater depth. A cross reference of applicable FAA publications to each maneuver and task helps with further research. The spiral-bound manual is easy to use, clipping onto a standard, approach plate-size kneeboard for flight.
P/N 13-02733 .....**$25.70**

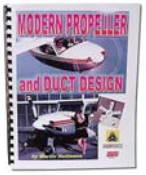


IFR: A STRUCTURED APPROACH EBOOK– For the insstrument pilot seeking to upgrade his or her skills, John C. Eckalbar's IFR: A Structured Approach provides compelling insights. Eckalbar, a well-regarded instructor for the American Bonanza Society, offers tips for "flying by the numbers" and specific numbers (power settings, airspeeds, and descent rates) for flying GPS approaches in particular. If you've been stumped by circling approaches or DME arcs, he also has much to say on those topics, as well as a two-part look at mastering the ILS. If one book could help make the leap from a bit player to a skilled conductor of instrument flight, this is it. Ebook, 250 pages. P/N 13-09955 ..... **$31.45**



AVIATION MAINTENANCE MANAGEMENT - The complete, up to date guide to managing aircraft maintenance programs.
Thoroughly revised for the latest aviation industry changes and FAA regulations, this comprehensive reference explains how to establish and run an efficient, reliable, and cost-effective aircraft maintenance program. Co-written by Embry-Riddle Aeronautical University instructors, Aviation Maintenance Management, Second Edition offers broad, integrated coverage of airline management, aircraft maintenance fundamentals, aviation safety, and the systematic planning and development of successful maintenance programs.
P/N 13-14752 ..... **$69.95**

CONSTRUCTION OF TUBULAR STEEL FUSELAGES BOOK– This book provides step by step instructions on how to construct a perfect tubular steel fuselage. It is the result of hundreds of hours of development in the shop doing rapid protoyping of perfectly symmectrical and dimensionally accurate fuselages and assemblies, without special jigs.
P/N 13-03707 .....**$24.95**



AIRLINE PILOT INTERVIEWS - Airline Pilot Interviews, How You Can Succeed In Getting Hired by Irv Jasinski. This completely revised, updated, and greatly expanded edition has over 300 pages, 20 illustrations, sample resumes (military and civilian), and letters (cover, update, and recommendation). With 46 chapters and an extensive index, the reader will receive hundreds of valuable tips and insights into presenting themselves in interviews with major, national, and regional airlines as well as corporations.
P/N 14-00709 .....**$13.95**

BEYOND THE CHECKRIDE - Covering the latest FAA regulations, Beyond the Checkride, Second Edition, is packed with invaluable lessons learned by trial and error based on the real-life experiences of hundreds of pilots. Originally written by legendary flight instructor Howard Fried and thoroughly revised by veteran pilot Gene Gailey, this practical resource takes you, step by step, through a flight from the perspective of a flight examiner. Learn from other pilots' mistakes--it's easier and safer, and it could even save your life.
P/N 13-07597 .....**$45.00**

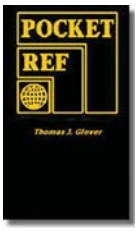
Prices Subject to Change Without Notice

MODERN PROPELLER AND DUCT DESIGN – This book tells you the theory of propeller aerodynamics and how to size a propeller. The program allows you to optimize a propeller for a given horsepower and airspeed. Variables such as number of blades, pitch, airfoil, thickness, air density, thrust coefficient, prop efficiency, and airspeed are all explained. Discussion of various prop materials and duct theory is also included. (Martin Hollman) P/N 13-15175... **$61.75**

STRESS WITHOUT TEARS (TOM RHODES) – This is a primary discussion, not an advanced text by an experienced aircraft stress analyst. Math and other theory is introduced, but only as necessary to master the subject matter. Stress analysis is presented in as simple terms as possible without complex scientific jargon and is done so in a readable and enjoyable manner.
P/N 13-15180 ..... **$24.95**

ANATOMY OF A SPIN – A comprehensive study of stall-spin phenomena. Written by John Lowery, highly experienced in both pilot training and aircraft flight testing, this book emphasizes NASA data on stalls and spins in general-aviation aircraft. Broadening the scope are interviews with factory test pilots together with data from aircraft manufacturers. Added to these are the author's own extensive experience in both high-performance and general-aviation aircraft. Anatomy of a Spin has many high-quality diagrams and photographs, and also offers a comprehensive explanation of why there is no "standard recovery" from a spin. P/N 13-02080 ..... **$8.95**



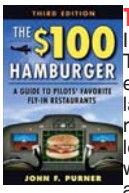
MOUNTAIN FLYING – Organized to follow the sequence of typical flight, the book preflight, takeoff, enroute, arrival procedures, and landing. The author discusses fuel management, the magnetic compass, the effects of high-altitude on weight and balance, and the airspeed indicator.
P/N 13-02082 ..... **$8.95**

THE ORIGINAL GRAND CANYON AIRPORT - Every chapter is illustrated with images of Ford Trimotors, Travelairs, and more Golden Age aircraft. Koontz's original research at the airport during 2005 resulted in a listing on the National Register of Historic Places. Naval Aviator, Rear Admiral Ernest Eugene "Gene" Tissot, Jr. (USN Ret.), shared personal memoires and family photographs from his childhood years living at the airport and near Boulder Dam (now Hoover Dam). These stories and most of the photographs have never before been published. P/N 13-12352 ..... **$27.95**

INTERNATIONAL AIRCRAFT DIRECTORY AP – Whether you're a pilot or an aviation enthusiast, the International Aircraft Directory from the editors of Plane & Pilot magazine is sure to have all you're looking for in an easy-to-use reference tool for checking facts about a particular model, identifying unusual aircraft, and recognizing trends in airplane design. Now in its third edition, the book features detailed descriptions and photographs of more than 500 airplanes from around the world, including single-engine, multi-engine, jet, classic antique, homebuilts, kit-builts, sailplanes, motorgliders, warbirds, and military aircraft flown by civilian pilots. The directory lists airframe and powerpalnt information and historical facts as well as standard data and performance specifications such as a horsepower thrust, weight, speed, and range. The 304-page softcover book. P/N 13-04144 ..... **$14.95**

POCKET REF (THOMAS GLOVER) – This great little book is a concise all-purpose reference featuring hundreds of tables, maps, formulas, constants & conversions AND it still fits in your shirt pocket! Goes where you go! • Pocket Ref • 3rd Edition by Thomas J. Glover • Over 200 new pages and virtually thousands of updates! • Index for information access.
P/N 13-19342 ..... **$11.95**

FUNDAMENTALS OF SAILPLANE DESIGN – This book, the definitive text on sailplane design, grew out the authors work with the Akaflieg Braunschweig as well as his popular introductory course in sailplane design. To make the material accessible to pilots without an engineering background, an emphasis is placed on physical understanding and visualization. Mathematics is held to a minimum. Because it draws on decades of experience developed at the German Akafiegs, the material will help the experienced engineer to quickly develop a practical understanding of the considerations that go into the design of a high-performance sailplane. The design data tables and three-view drawings have been expanded to include entries for over 150 aircraft. P/N 13-00361 ..... **$41.75**



AVIATION MAINTENANCE TECHNICIANS BOOK (DALE CRANE) – The Aviation Maintenance Technician: General is the first book of Dale Crane's AMT Series, textbooks created to set the pace for maintenance technician training and serve as an essential resource to pass the FAA Knowledge Exam. General covers the first section of the FAA's required curriculum, incorporating an introduction to aviation along with basic lessons on mathematics, physics, and electricity. As the student progresses, specific aviation concerns are addressed, including regulations, mechanic privileges, forms, aircraft hardware and tools.
A study guide is included within each textbook in the form of study question sections, with answer keys printed at the end of each chapter. These can be used for evaluation by an instructor or for self-testing. ASA's mechanic textbooks are all-inclusive—no separate, inconvenient workbook is needed by the student or instructor.

General textbook.....P/N 13-00574 ..... **$49.95**
Airframe vol. 1.....P/N 13-00581 ..... **$42.85**
Airframe vol. 2.....P/N 13-00582 ..... **$42.85**
Powerplant.....P/N 13-00583 ..... **$49.95**

EVERYTHING EXPLAINED FOR THE PROFESSIONAL PILOT BOOK – 430 pages (8 1/2 x 11) crammed with virtually every scrap of information essential and necessary for every pilot. All that knowledge you wish you could have at your fingertips all the time, and many things you never even thought about. Fun to read and yet excruciatingly detailed. The ultimate reference book that explains all aspects of aviation from props to heavy jets P/N 13-03231 ..... **$52.95**

THE $100 HAMBURGER – A Guide To Pilots' Favorite Fly-In Restaurants - The burger is back and juicier than ever! This new edition of the little book private pilots live, and eat by, features over 1,000 pilot-recommended places to land for that meal at the end of the flight. The author rates restaurants in all 50 states and even includes 6 foreign locations including France, England and Germany. Just what every pilot needs to plan a fun outing in the plane and get some good food too. ?All reviews are from fellow pilots who've actually been there, chowed down, and awarded each place from one to five "burgers". Tells everything, location, service, price, transportation, dress codes & hours of operation.

Book.....P/N 13-03454 ..... **$36.50**
E-Book.....P/M 13-09835..... **$33.00**

TURBINE PILOT'S FLIGHT MANUAL (BY GREGORY BROWN AND MARK HOLT) – Truly a text designed to help move the aspiring professional pilot up into the turbines. The book basic yet thorough approach makes no assumptions about the readers prior knowledge on the subject. P/N 13-00637 ..... **$29.95**

ASA HELICOPTER FLYING HANDBOOK - This is the FAA's primary resource for helicopter operations knowledge; it is essential reading for applicants preparing for knowledge exams with a helicopter class rating. This is the FAA's primary resource for helicopter operations knowledge; it is essential reading for applicants preparing for the exams for private, commercial, or flight instructor pilot certificates with a helicopter class rating. In addition to a basic introduction to the helicopter, readers will find chapters on aerodynamics, flight controls, systems, performance, ground procedures, basic and advanced flight maneuvers, emergencies and hazards, attitude instrument flying, night operations, and aeronautical decision-making. Previously titled Rotorcraft Flying Handbook, this new edition is designed for use by flight instructors, pilots preparing for a helicopter rating FAA Knowledge and Practical exam, and helicopter-rated pilots wishing to improve their knowledge. P/N 13-00735 ..... **$12.95**

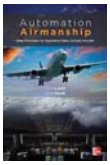
THE AEROELECTRIC CONNECTION - A Guide to Theory, Operation, Design and Fabrication of Aircraft Electrical Systems, Revision 12. Written by Bob Nuckolls with over 50 years of hands-on experience in electronics and aircraft electrical systems. 304 pages of 18 chapters plus Appendix are topped off with a discussion of the poor man's approach to system reliability. Appendix Z offers dozens of variations for tailoring an electrical system to the builder's project and mission requirements. P/N AEC001 ..... **$22.50**

THEY CALLED ME MR. BONANZA – How it all started in 1944; the original Bonanza design team and their early efforts to find the ideal airplane for the postware market; how and why the V-tail was chosen; Experimental power plants, first flight wind tunnel testing; Staggerwing influence; birth of the Debonair; why the "straight" tail, airplane geneology chart. Specs on all models from 1946-1972.
P/N13-04102..... **$41.25**

BV

AVIATION RADIO COMMUNICATIONS MADE EASY – Hugh Ward has designed a VFR communications "script" that a pilot can fill out during preflight and use in flight. Provided is a variety of templates that the pilot assembles and completes for each type of communications that might be needed. The 272-page spiral-bound workbook includes 32 different templates ranging from operations at nontowered fields to initial call-up of an approach control facility to requesting VFR traffic advisories, also known as flight following.
VFR.....P/N13-04089 .....**$18.50**

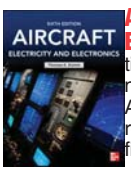
UNDERSTANDING THE SKY - Clearly explains the intricacies of the atmosphere on both large scale and small scale situations. An easy-to-read non-technical approach everyone can understand. Includes both Northern and Southern Hemisphere comparisons as well as Australian and European perspectives. P/N 15-06219 ..... **$24.95**



FROM TRAVEL AIR TO BARON...HOW BEECH CREATED A CLASSIC! – The complete story of Beech Aircraft's recognition of the need for a true light twin to fill the market gap between the Bonanza and the larger Model 50 Twin Bonanza. This book covers the design concept, marketing strategy, and development of this Beechcraft model line from the first Travel Air in 1958 until the last in 1968. All the Baron models are included, from the Model 55 in 1961 and continuing through the 1994 Model 58 Baron.
P/N13-04103 ..... **$32.95**

THE IMMORTAL TWIN BEECH – Welcome to the history of one of Walter Beech's finest creations- the Model 18 Twin Beech! This venerable aircraft had a production run of 32 years and an amazing, useful life. A behind-the-scenes look at the ongoing history of a unique airplane, one that not only "built" a company but served equally well in peace, war and then peace again. P/N13-24586 ..... **$32.95**

AIRPORT OPERATIONS 3RD EDITION - Fully revised for the latest FAA, ICAO, and IATA standards and regulations, Airport Operations, Third Edition, provides proven strategies and best practices for efficiently managing airport functions. This in-depth resource offers a broad perspective on the privatization of air transport worldwide.
P/N 13-12717 ..... **$65.95**



AUTOMATION AIRMANSHIP: NINE PRINCIPLES FOR OPERATING GLASS COCKPIT AIRCRAFT - This cohesive work on glass cockpit equipment focuses on limiting in-flight issues and advancing the safe operation of highly automated aircraft. P/N 13-12718 ..... **$69.95**

CONVENTIONAL GEAR: FLYING A TAILDRAGGER (DAVID ROBSON) – A taildragger is more difficult to operate on the ground because it diverts from a straight line when moving. It is more difficult to control upon takeoff; it is also harder to land because it tends to bounce and weather vane on touchdown unless th pilot is skilled. So because it takes more piloting skill, flying a taildragger well is the sign of a good pilot. The three part of the book include: the theory and dynamics of a tailwheel airplane; the piloting techniques needed to safely operate a tailwheel airplane; and a series of descriptions of what it is like to fly a selection of traditional and current tailwheel airplanes. The last section is edited by the author from contributions of pilots and airline captains with experience in the particular tailwheel airplanes covered. P/N 13-01552 ..... **$14.95**

SEVERE WEATHER FLYING (DENNIS NEWTON) - This book is not about flying in severe weather, but about how to detect and therefore avoid it, with advice on how to escape it if your become caught in it accidentally. Meteorologist, weather research pilot, engineering test pilot, flight instructor and author Dennis Newton speaks pilot to pilot in this valuable guide on how not to fly in severe weather. Newton says that given the knowledge, pilots can truly lessen their chances in being caught in thunderstorms and other extreme weather conditions. Soft Cover, 208 pgs, illustrated, 3rd edition.
P/N 13-02014 ..... **$14.95**

AIRCRAFT ELECTRICITY AND ELECTRONICS, 6TH EDITION - This updated text provides the latest information needed to perform return-to-service-quality maintenance and repair of aircraft electrical systems.
Aircraft Electricity & Electronics, Sixth Edition covers the requirements for the Federal Aviation Administration certification of Airframe and Powerplants Technicians.
P/N 13-12719 ..... **$79.95**

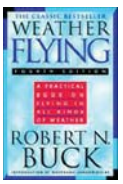
ASA HELICOPTER MANUEVERS MANUAL - This maneuvers manual helps pilots visualize concepts learned in flight training and incorporate the Practical Test Standards into every maneuver. The full-color illustrations and textual explanations work in conjunction with an instructor's lessons, and facilitate effective preflight and postflight briefings. Applicable to all helicopter models, the book also features tips for the popular Robinson R22. This book is an essential tool for any flight bag! P/N 13-18467 ..... **$14.95**

ASA HELICOPTER CFI HANDBOOK - A companion to the Helicopter Flying Handbook (FAA-H-8083-21), this FAA handbook is designed as a technical manual for use by applicants who are preparing for their flight instructor pilot certificate (CFI) with a helicopter class rating, as well as for experienced helicopter instructors preparing pilots for a helicopter rating. This manual is illustrated throughout with detailed, full-color drawings and photographs.
P/N 13-18465 ..... **$16.65**

SHEET METAL HANDBOOK - Detailed information on how to form and shape sheet metal for competition, custom or restoration use. Chapters include hammer forming tools, terms and equipment, riveting techniques, layout, design and pattern-making. A great companion to the Metal Fabricator's Handbook. Author: Ron and Sue Fournier Pages: 144 P/N 13-06720 ..... **$22.50**

METAL FABRICATOR'S HANDBOOK - How to build structurally sound, good looking metal parts for custom street rods, race cars or restorations. Over 350 step-by-step photos and instructions illustrate proper welding, metal shaping and design techniques. Pages: 176
P/N 13-06719 ..... **$18.75**

FIBERGLASS & OTHER COMPOSITE MATERIALS - A revised and updated guide to fiber reinforced plastic materials, including fiberglass, Kevlar, and carbon fiber. It also includes sections on mold making, plugs, materials, structures, gel coats, advanced building techniques, tools, and equipment. Author: Forbes D. Aird Pages: 192
P/N 13-06721 ..... **$22.50**



AIRCRAFT BASIC SCIENCE, 8TH EDITION - A thorough update of the gold standard for the basic principles of aircraft theory and operation. Aircraft Basic Science, Eighth Edition incorporates modern technology, such as the use of composite aircraft materials, throughout the text. In addition, the examples and figures have been revised to more accurately reflect the state of the industry.
P/N 13-12724 ..... **$89.95**

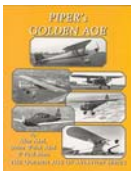
AVIATION HISTORY TEXTBOOK - Aviation History is an exciting full-color book that gives aviation enthusiasts a unique perspective on international aviation history. Each of the ten chapters is packed with information containing over 950 photographs and color graphics. Aviation History explores the question "what was aviation" from its birth in Annonay, France, in 1783 until present. Through personal profiles you are able to meet the people who made significant contributions to aviation. You will explore historical evidence and see how historians use artifacts of aviation.
P/N 13-01235 ..... **$54.75**

OWNER ASSISTED AIRCRAFT MAINTENANCE -]Have you ever wanted to participate in your aircraft's maintenance, but were afraid to try? Are the rising costs of flying keeping you on the ground? This illustrated manual, by Dan MacDonald, is written for the mechanically inclined Part 91 pilot owner/operators that are ready to learn more about their airplanes. It describes common maintenance activities that are approved for pilots to perform by the FAA, along with a number of other projects that you might wish to complete under the supervision of a certified mechanic. The book focuses on common "legacy" single engine aluminum aircraft built from the 1940s through today. Whether changing your oil, installing new tires, or checking engine compression this 160 pages of text and photos provides procedures and tips gathered over the past 27 years. Soft cover; includes over 200 color photographs.
P/N 13-10244 ..... **$29.95**

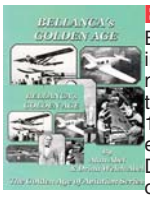
WEATHER FLYING - Weather Flying is regarded in the industry as the bible of weather flying. Robert Buck, a general aviation and commercial pilot with tens of thousands of hours of flight time, explains weather in a nontechnical way, giving pilots useful understanding of weather and practical knowledge of how to judge it and fly it. Covers weather flying psychology, en route weather changes, radar and how to use it, taking off in bad weather, and much more. Winner of the Flight Safety Foundation's Publication Award; recommended by the FAA.
P/N 13-27800 ..... **$24.95**

BV

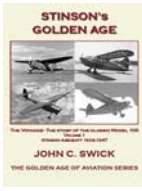
THE GOLDEN AGE OF AVIATION SERIES



CESSNA'S GOLDEN AGE (ALAN ABEL, DRINA WELCH ABEL & PAUL MATT) –

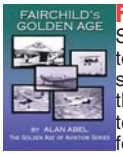


Takes a look at Clyde Cessna and nephew Dwane Wallace, longtime Cessna President, & the Cessna Aircraft Company from early 1900s, through the struggling years of the Great Depression, through World War II and the post-war years. Emphasis is given to Cessna Primary Gliders, Cessna Airmasters, Cessna T-50 Bobcats, Waco CG-4A Gliders (Cessna built), and Cessna 120/140 airplanes. Other Cessna models are also included. 96 pgs, softbound, 180 photos, 8 pgs of 3-view scale drawings. P/N 13-01534 ..... **$22.95**



AERONCA'S GOLDEN AGE – Progressively details the events leading to the Aeronautical Corporation of America, from the early 1900s, through the Great Depression, the disastrous flood of 1937, World War II and beyond. The book includes biographical information on the founders of Aeronca, and details the people, facilities and manufacturing operations of Aeronca during the Golden Years. It also includes the reasons for the company's name change to Aeronca. Emphasis is given to Aeronca's C-2, C-3, Model K, Model L, 7AC Champ and 11AC Chief. All Aeronca's models are discussed. Several factory photos are included. 152 pgs, softbound, 240+ photos, 18 pages of internationally acclaimed 3-view scale drawings. P/N 13-01535 ..... **$26.95**

PIPER'S GOLDEN AGE – Details the formations, struggles & successes of the Piper Aircraft Corporation during aviation's Golden Age. Includes particulars of the original Taylor Brothers Aircraft Corporation and of C.G. Taylor (the father of the light plane) & his brother, Gordon. It explains the move to Lock Haven, Pennsylvania, the bankruptcy of the company during the Depression, and the ultimate split of Taylor & Piper, and the beginning of the Piper Aircraft name. Included are the Taylor Chummy, Taylor E-2 Cub, Taylor/Piper J-2 Cub, Piper J-3 Cub, J-4 Cub Coupe, J-5 Cruiser, the Grasshoppers (military observations & liaison airplanes), Piper TG-8 Training Glider, Piper Experimentals, PA-12 Super Cruiser, PA-11 Cub Specials, PA-14 Family Cruiser, PA-15 Vagabond, PA-16 Clipper and PA-18 Super Cub. 90 pgs, softbound, 11 pgs of 3-view drawings, 130 photos. P/N 13-01536 ..... **$22.95**



BELLANCA'S GOLDEN AGE BOOK – Traces G.M. Bellanca coming from Sicily to America as a teenager in 1911 through his 42 years of continuous airplane manufacturing operations. He did more for aviation than any other single individual during aviation's first 100 years, bar none! This is the ONLY BOOK that has ever captured Bellanca's complete and lengthy story. Details the beginnings of the air transportation system over great distances. Details the first ten flights over the Atlantic and the first flight over the Pacific. Tells never-before-told stories of Charles Lindbergh, Clarence Chamberlin and many other Golden Age personalities. Tells the complete story of the greatest airplane of the 1920s — Bellanca's Columbia (the plane Lindbergh wanted but didn't get). In the 1930s the government tested 209 different airplanes and found that Bellanca's was the best regarding "efficiency." 148 pages and 175 plus photos. P/N 13-03337 ..... **$24.95**

STINSON'S GOLDEN AGE - By: John C. Swick. This is the history of the Stinson 108 series airplane (the Voyager), although the 105, 10 and 10A, as well as the L-5, are also covered in great detail. It begins in Volume 1 with the three-place 105 in 1938 and concludes in Volume 2 with the sale of the last Stinson 108-3 from Willow Run in 1950. Production figures, the disposal of surplus military aircraft, the all-Piper Apache and the chronicle of two Stinson dealers are included to give the reader a better sense of the era. 173 pgs, SB, 8.5 x 11, over 200 B&W photos, tables, illustrations & technical drawings.

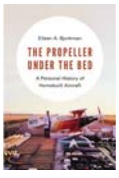
Volume 1.....P/N 13-09286 ..... **$28.95**
Volume 2.....P/N 13-09288 ..... **$24.95**

FAIRCHILD'S GOLDEN AGE - BY ALAN ABEL A young Sherman Fairchild quit college in 1917 to start a company to build aerial cameras. After 3 years, Fairchild built the first successful large, high-speed between-the-shutter camera that was a major breakthrough in aerial photographic technology. Fairchild found airplanes of the day not suitable for the photographic mission. Sherman decided to build one himself. During the design of the plane, Fairchild decided to build a multi-purpose plane suitable for other piloting needs and to market these airplanes to the public. P/N 13-06177 ..... **$24.95**

HOWARD'S GOLDEN AGE ART HALL - After building four of the most successful and famous air racers in the world, in the 1930s, Pete, Mike, Ike and Mr. Mulligan, Benny Howard's fame increased with each passing year. With such notoriety, Benny was able to realize his dream -- that of manufacturing and selling commercial aircraft to the flying public throughout the world. Howard was also a highly acclaimed test pilot, having test flown many aircraft for several aircraft manufacturers during his career. This Benny Howard story is a story of struggle, fame, fortune, love, depression, failure and success. P/N 13-06178 ..... **$24.95**

LUSCOMBE'S GOLDEN AGE - BY JOHN SWICK. Luscombe's Golden Age is the fifth book in The Golden Age of Aviation Series. John Swick, the author, has completely revised and updated the original The Luscombe Story published in 1987, including approximately 100 new pages of text, dozens of never-before published photographs and Luscombe magazine ads from that era. Included in this book are detailed accounts and descriptive 3-view scale drawings of each Luscombe model manufactured, including the early models: Phantom, Ghost, Spectre, Harpie, Small Transport and Sprite. P/N 13-06180 ..... **$29.95**

THE BOMBER AIRCREW EXPERIENCE - Flying bombers during World War II was a harrowing ordeal. Unlike the fighter jocks, who pit their skill and wits against each other in agile aerial combat, the bomber boys had to endure the fear and savagery of the air war with grim acceptance—their only option to sit and take it. Manning lumbering machines that could not maneuver or defend themselves effectively, the aircrews had to rely on tight aircraft formations and their own bravery to survive the onslaught of enemy fighters and anti-aircraft artillery. P/N 13-18894 ..... **$24.99**



A PILOTS ACCIDENT REVIEW (SOFTCOVER) - A Pilot's Accident Review provides pilots with a study of safety procedures in intense circumstances, and a survey of high-profile incidents designed to build awareness of the most preventable factors in pilot error. Covered are the primary causes of CFIT, as well as the human factors that can precipitate accidents—particularly complacency, overconfidence, and compulsion. Lowery discusses at length the JFK, Jr. and Concorde accidents, and those involving Frank Sinatra's mother, Reba McIntire's band, John Denver and Wiley Post.
P/N 13-18598 ..... **$13.95**

THE COMPLETE GUIDE TO CESSNA AIRCRAFT BY TOM MURPHY - Ready to buy a new or pre-owned Cessna? This updated second edition includes (1) original in-depth info about older Cessna models (2) updated info on Cessnas being offered today and (3) buying advice on AD's, inspection of aircraft and its logbooks and how to choose the right model for your needs. P/N 13-06179 ..... **$19.95**

THE COMPLETE GUIDE TO PIPER AIRCRAFT - Are you ready to buy a new or pre-owned Piper? This updated second edition includes the original in-depth info about Piper models along with purchasing advice on ADs, inspections, the importance of logbooks, and how to choose the right Piper aircraft for your wants and needs. This informative narrative includes information on models from the Piper Cub, to the various Piper Indians such as the Cherokee, the Cheyenne, the Comanche, and the agricultural Pawnee. P/N 13-06181 ..... **$19.95**

THE PROPELLER UNDER THE BED - A PERSONAL HISTORY OF HOMEBUILT AIRCRAFT - On July 25, 2010, Arnold Ebneter flew across the country in a plane he designed and built himself, setting an aviation world record for aircraft of its class. He was eighty-two at the time and the flight represented the culmination of a dream he'd cultivated since his childhood in the 1930s.
From early airplane designs serialized in magazines to the annual Oshkosh Fly-in where you can see experimental aircraft on display, Bjorkman offers a personal take on the history of building something in your garage that you can actually (and legally) fly as well as how the homebuilt aircraft movement has contributed to aviation and innovation in America. P/N 13-20154 ..... **$29.95**

BV

FUNDAMENTALS OF AVIATION LAW - This is an undergraduate textbook designed for college and university courses on aviation law. Each chapter covers a fundamental legal subject and discusses application of that area in the aviation environment. Each chapter comes completed with case-studies, and problems, along with instructor's materials. P/N 13-18068 ..... **$99.00**

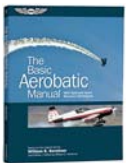
JOHN MONNETT FROM SONERAI TO SONEX - This is the intriguing story of John Monnett and his airplanes. He is a kit plane designer, innovator, air racer, world record holder and member of the EAA Hall of Fame. While pursuing his own aviation interests, Monnett inspired and enabled thousands of others to build and fly affordable aircraft. From the Sonerai, sketched at his kitchen table in 1964, to pioneering engine conversions, to the Sonex's simple construction methods, John Monnett is a flag-bearer for grassroots aviation. The book covers his early aviation designs and all of the airplanes he designed. P/N 13-05052 ..... **$29.95**

SEAPLANE, SKIPLANE, & FLOAT/SKI EQUIPPED HELICOPTER OPERATIONS HANDBOOK - This operational handbook introduces the basic skills necessary for piloting seaplanes, skiplanes, and helicopters equipped with float or skis. It is primarily intended to assist pilots who already hold private or commercial certificates and who are learning to fly these aircraft types. Also beneficial to rated seaplane pilots who wish to improve their proficiency, pilots preparing for flights using ski-equipped aircraft, and flight instructors engaged in the instruction of both st dents and transitioning pilots. The book introduces the future seaplane or skiplane to the realm of water operations and cold weather operations, and provides information on the performance of procedures required for the addition of a sea class rating in airplanes. P/N 13-03470.....**$11.95**

BOUND FOR BACKCOUNTRY - For the first time a comprehensive history of nearly one hundred of the state's isolated airstrips has been compiled, detailing the construction and historical events of each. The most southerly airstrips included are those at the headwaters of the Middle Fork of the Salmon River and northward through the Selway-Bitterroot Wilderness. Combined with the history of each individual location are fascinating stories related to homesteaders, runway owners, boaters, hikers, outfitters, hunters, firefighters, pilots, and airplanes.
Softcover..... P/N 13-14755..... **$39.95**

GOODYEAR & FORMULA ONE AIR RACING, VOL. 1, 1947-1967 —

202 pgs, 569 photos, 88 scale drawings, softbound. Learn how this exciting sport caught on, meet the early players and the governing organizations. This volume tracks technological developments which allowed faster speeds and greater safety. This volume covers early racers – Art Chester, Steve Wittman, Bill Falck, Tom Cassutt, Bob Downey, Bill Brennard and many other.
P/N 13-00033 **$24.95**

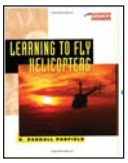


GOODYEAR & FORMULA ONE AIR RACING, VOL. 2, 1967-1995 —

170 pgs, 450 photos, 74 scale drawings, softbound. Air racing had its ups and downs but by 1967 it was firmly established as a sport here to stay. During this time, women pilots entered pylon racing, speeds continue to increase and concerns about safety led to additional equipment requirements. Bill, Ray Cote, Jim Miller, Jon Sharp and others contributed much to air racing's popularity. P/N 13-00034 ..... **$24.95**

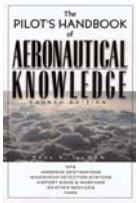
AIRCRAFT OWNERSHIP: UNDERSTANDING OWNER PREVENTIVE MAINTENANCE DVD - You can save money and have a better understanding of your type-certificated aircraft by doing some of your own maintenance. EAA presents the definitive how-to video on legally maintaining your type-certificated aircraft in accordance with FAA owner preventive maintenance regulations. This DVD features extensive discussion and hands-on demonstrations explaining both the legal and technical aspects for maintaining an aircraft that will save you both time and money.
P/N 13-20641 ..... **$34.50**

THE BASIC AEROBATIC MANUAL BY KERSHNER - A complete reference for the beginning aerobatic student, with invaluable unusual attitude and spin recovery information for the more straight-and-level flyer. This book emphasizes techniques for the Cessna Aerobat models, but the described maneuvers easily translate to other aerobatics-certified airplanes. The chapter on spins and spin recovery benefits from the knowledge gained in over 7,000 spins, each having from 3 to 25 turns, in the Cessna Aerobat. Softcover, 8-1/4" x 10-3/4", 128 pages; illustrated throughout with black and white diagrams, figures, and the author's own illustrations.
P/N 13-32210 ..... **$15.85**

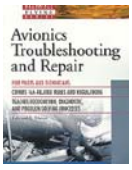


BASIC AEROBATICS (GEZA SZUROVY & MIKE GOULIAN) — Enjoy the aerobatics experience with this complete guide from national champions who tell you not only how to perform the maneuvers, but why the airplane behaves as it does. A variety of maneuvers-loops, slow rolls, Cuban eights, inverted flight, and many more are discussed and illustrated with diagrams and in-flight photos. 288 pages, 90 illust., paperback. P/N 13-00677 ..... **$28.95**

SKYDANCING: AEROBATIC FLIGHT TECHNIQUES (DAVID ROBSON) – The book includes the terminology unique to aerobatics, and dedicates a chapter each to the physics and physiology of aerobatic flight. Mr. Robson explains how to prepare for an aerobatic sortie – including the aircraft involved, personal checklist, preflight requirements, and the regulations governing aerobatics. The aerobatic sequence is explained, along with the Aresti Notation, which is used by aerobatic professionals and competitors in display and contests.
P/N 13-00734 ..... **$14.95**



TRADE-A-PLANE MAGAZINE - Each issue includes aircraft for sale, aviation parts, aviation services, avionics, aviation supplies, aviation products, engines, and more.
P/N 13-31140 ..... **$3.25**



LEARNING TO FLY HELICOPTERS (R. RANDALL PADFIELD) - "Written in a conversational style that's both fun and easy to read... Even if you're a confirmed fixed-wing pilot and show no rotor-wing tendencies, you'll enjoy this book and gain an insight into your brother pilots' obsessions." AG-Pilot International. 354 pgs, 100 illust., paperback. P/N 13-29931 .....**$27.75**

THE PILOT'S RADIO COMMUNICATIONS HANDBOOK, 5TH EDITION (PAUL E. ILLMAN) - "It should have a spot on your bookshelf right next to the airplane's service manual," said Private Pilot of this hands-on guide to equipment, techniques, regulations, and overcoming "mike fright." 232 pages, paperback.
P/N 13-12112 .....**$43.50**

THE PILOT'S HANDBOOK OF AERONAUTICAL KNOWLEDGE, 4TH EDITION (PAUL E. ILLMAN) - Studying for the private pilot tests or upgrading to a commercial license will be easier with this valuable, thoroughly illustrated guide to principles, instruments, aircraft and engines, the airspace system, flight planning, navigation, and much more. 416 pages, 230 illust., paperback. P/N 13-29918 .....**$66.75**

AVIONICS TROUBLESHOOTING AND REPAIR - MAHER
If you have not seen this book, it is an absolute must read for every technician. Forty years of hands on experience by the author Ed Maher. 400 pages of trouble-shooting! Cover FAA rules and regulations
P/N 13-01643 .....**$52.75**

AVIATION eBOOKS FROM AIRCRAFT SPRUCE

eBooks are full size, full color, page-by-page reproductions of your book in Adobe Reader .pdf format which you can view on your desktop, laptop, or tablet computer. eBooks are also fully searchable.

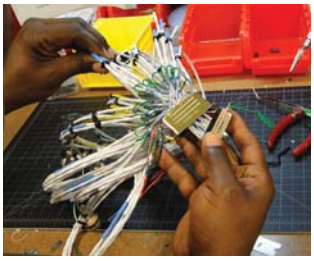
AVIONICS WIRE HARNESS SHOP



AIRCRAFT SPRUCE IS PROUDLY OFFERING CUSTOM AND STOCK AVIONICS WIRE HARNESSES

We have added an in-house harness assembly shop providing avionics wire harnesses for the experimental market ranging from single avionics units to custom coax cable assemblies to complete panel wiring systems. Our harnesses are all professionally assembled and neatly labeled allowing for easy installation by the customer. Although many of the harnesses are standard and stocked on the shelves for same day shipping, we also offer our customers custom-made harnesses to specific lengths for each wire you will need during installation. When you start working on your avionics panel, rely on our shop's expertise and support for all your harness needs.

LASER WIRE MARKING

We provide a complete laser wire marking service for all of your harness needs. With a marking system meeting MIL-W-5088L, AS-5088-L, and SAE ARP5607, you are ensured a high-quality result. Simply select your white shielded or unshielded cable and provide the necessary text and spacing.

Custom options are available for additional unlisted wire types, as well as for up to three different texts on the wire. Please contact Avionics Sales for a quote by calling 800-826-3160.

CUSTOM AIRCRAFT HOSE ASSEMBLY

TRY OUR ONLINE ORDERING

CUSTOM HOSE ASSEMBLIES

Use our simple online hose order form to select your hose options and easily order online!

Aircraft Spruce SINCE 1965 & Specialty Co.

EATON AEROQUIP 303

This standard hose is used in medium pressure A/C hydraulic, fuel, oil and coolant systems. An inner tube of seamless synthetic rubber is reinforced with a synthetic-impregnated single-wire braid over a single cotton braid and an outer cover of synthetic-impregnated oil-resistant cotton braid. Operating temperature -65 to 250F. Conforms to MILH-8794 (supersedes MIL-H-5511A). Used with Aeroquip 491 hose fittings.

EATON AEROQUIP 666

Aeroquip 666 medium pressure Teflon™ hose is widely used in aircraft applications handling fuel, oils, and other fluids. It is unaffected by all fuels, oils, alcohols, coolants, or solvents commonly use in aircraft. Construction of Aeroquip 666 hose is of spiral extruded Teflon™ resin for the inner tube with a reinforcement and outer cover of Type 300 Series stainless steel wire braid. The result is a lightweight hose able to withstand prolonged flexing and vibration under all service conditions. Aeroquip 666 hose is also used in hydraulic and pneumatic applications at pressures up to 1500 psi. Operating temperature is -65° to 450°F.

EATON AEROQUIP AE466

Aeroquip integral silicone firesleeves on Aroquip Teflon™ hose assemblies. This hose/sleeve combination meets the test requirements of TSO-C53A Type D and TSO-C75 Type IIIA and IIIB.

The Silicone sleeve is applied directly onto the metal braid an fittings to form a smooth, tight bond. Hose flexibility is not impaired. Non-age sensitive for extra-long service life. Eliminates the use of band clamps. Temperature range -65°F to +450°F. Available in blue or brown.

EATON AEROQUIP AE701

An inner tube of seamless, specially formulated synthetic rubber reinforced with a stainless steel partial inner braid and full-coverage stainless steel outer braid. Operating temperature -65 to 300F. Aeroquip 701 hose is widely used for aircraft fuel and oil lines where flexibility and light weight are prime considerations. Because of its lighter weight and lower operating pressure than type 303 hose, it is not recommended for hydraulic lines. Use with Aeroquip 816 hose fittings. Aeroquip 601/ AE701 is a direct replacement for old 601 hose. AE701 hose has no shelf life and is the upgraded version of 601 hose

EATON AEROQUIP FIRESLEEVE

Aeroquip Firesleeve was specially developed to meet the fire resistance requirements of FAATSO - C53a OR TSO - C75. May be used for all fuel, oil, hydraulic, fire extinguisher & propeller feathering lines. “Fire-proof” hose lines as defined by FAA must withstand a direct flame for fifteen minutes under specified flow conditions without failure. Fire-resistant lines must withstand a 5-minute exposure under these conditions. Fire-proof hose lines are obtained when the proper size Aeroquip Firesleeve is selected from the chart below and properly assembled. 900591B Clamps - used to secure firesleeve material on each end over the basic hose assembly.

AE102 firesleeve is used to meet the fire resistance requirements of FAA TSO-C53a and TSO-C75. This firesleeve can be indentified by its orange colored outer surface. It functions effectively within a continuous operating temperature range of -65 degree to +450 degree.

TOLL FREE CUSTOMER SERVICE

Phone Customer Service **1-800-861-3192**

Email Customer Service **custsvc@aircraftspruce.com**

When placing an order every customer is assigned a specific customer identification number. When following up on an order or placing a new order, it is very helpful if you can provide your assigned customer number for our reference. If the status of an order is required contact our Customer Service Dept. either by phone, fax or email giving the name under which the order was placed and the approximate date of the order. The more information you can provide our Customer Service agents the faster we will be able to locate your order and resolve any concern you may have. We pride ourselves on providing 100% Customer Satisfaction. You also have the convenience of checking order status online at www.aircraftspruce.com.

OUR PRICING POLICY—THE LOWEST OVERALL PRICES IN THE BUSINESS

We take great pride in offering customers the lowest overall prices in the industry. We print our catalog only once a year (July), and in the interim we receive many cost increases from the manufacturers we represent. Due to our competitive pricing policy we must pass many of these increases along in the form of price changes. We will ship at current prices unless customer requests notification of price changes prior to shipment. We will continue to do our best to minimize increases and offer all of our products at the best possible prices. All prices are subject to change without notice.

NOTE: Freight costs can vary greatly depending on actual package size,weight and the destination. Our Order Department has no way to accurately estimate freight at the time order is placed and Aircraft Spruce will not be responsible for any additional freight costs on any shipment. All prices are FOB Corona, CA, Peachtree City, GA, Brantford, ON Canada, and customer is responsible for actual freight costs as billed on invoice or shipped freight collect. **All catalog and website prices are in U.S. dollars.**

5 EASY WAYS TO PAY

1) Credit Card - We accept payment on VISA, MasterCard, Discover and American Express. Credit card number, expiration date and billing address of the cardholder are required. In order to prevent credit card fraud, we reserve the right not to accept payment by credit card on orders for certain types of products as well as from those who are not established customers. We also reserve the right to approve shipment of credit card orders only to the address on the credit card account.

2) C.O.D. - Orders may be shipped COD via United Parcel Service within the United States. Please note some restriction may apply to COD shipments. A handling fee is added to all COD orders to cover special documentation required.

3) Check - Customers may choose to pay by check by mailing in their order and enclosing a check. Customers may call ahead of time for current pricing and freight estimates.

4) Bank Transfer - International customers may wish to pay by bank transfer. Contact us for bank information to arrange transfer of funds.

5) Paypal - We accept PayPal payments (via our website only) provided that the shipping address is a PayPal confirmed address. PayPal is accepted for U.S., Canada & UK customers only. For more information on Paypal payments please visit our website.

HOW TO ORDER TOLL-FREE "877" ORDER LINE & FAX

Call the Aircraft Spruce toll-free order line (877) 4-SPRUCE, servicing the continental United States and portions of Canada. We have an experienced order desk staff who are pleased to assist you with your order. You may also fax your order in toll-free at (800) 329-3020.

CONVENIENT ORDER DESK HOURS

Monday – Friday: 6:00AM to 6:00PM (Pacific Time)
Saturday: 7:00AM to 3:30PM (Pacific Time)

EASY ORDERING 24-HOURS A DAY

Communicating with us has never been easier. Place your orders, request quotations and submit your inquiries 24 hours a day by fax, e-mail or via the Aircraft Spruce Website.

Fax: Aircraft Spruce West: (951) 372-0555
E-mail: info@aircraftspruce.com
Internet: www.aircraftspruce.com

SAME DAY SHIPMENT

We strive to ship all orders placed by 4:00 p.m. warehouse local time, the same day the order is placed. Our experienced staff can offer various shipping options that will insure delivery of the order within your time requirements. Freight charges are invoiced based upon the warehouse from which the order is shipped. Same day shipment can be guaranteed on in stock, off-the-shelf products and not on orders for wood, metals, foams, fabrics and other products requiring cutting, as well as special order items. Count on Aircraft Spruce to provide immediate shipment of the aircraft parts or pilot supplies you need.

FREE SHIPPING ON ORDERS OVER $500.00

Most orders over $500.00, shipping within the 48 contiguous United States, will be shipped prepaid, with Aircraft Spruce paying the shipping costs! This only applies to orders shipped UPS ground and which are more economical shipping by UPS than by motor freight. Aircraft Spruce pays the freight, but any additional fees assessed by UPS (such as COD fees, hazardous materials, additional handling, etc) will be billed at time of shipment. Please refer to the UPS Service Guide for further details of additional charges that may apply. Orders that contain 5 gallon containers, cases of oil, specially cut materials (ie wood, metal, foam, rolled fabrics, etc), packages measuring more than 84 inches length and girth or 48 inches long or exceed 25 pounds total weight are excluded. Core charges, hazardous materials fees, box charges, and insurance are not considered part of the $500.00 value of an order. Please inquire at time of order for clarification on whether an order will qualify for the new prepaid policy. Our exclusive prepaid policy is one more advantage you have in placing your order with Aircraft Spruce & Specialty Co.

FREE TRUCK FREIGHT ON ORDERS OVER $5,000 - Effective immediately Aircraft Spruce will offer free UPS freight on truck orders over $5,000. See our website for details.

ALASKAN PILOTS - Aircraft Spruce pays freight to Seattle. Aircraft Spruce has expanded its popular UPS Prepaid policy to cover a portion of the freight costs from Aircraft Spruce West to Alaska. See our website for details.
